NO. 38

LITTLEFIELD AND LAMB COUNTY LOOK BACK ON A GOOD YEAR AND EXPECTING GREATER THINGS IN THE YEAR TO COME

Littlefield and Lamb county are entering the New Year with great hopes for the future, many of the citizens during the prospects for 1927 to be the brightest in the history of the country since the new settlement began a few years ago.

Every new country has its experiences good and bad, and the South country has been no exception. However, long ago passed the experimental stage. Citizens here know what may be accomplished under certain conditions. They have learned the country's assets and its liabilities, and they know that when they act in accordance with the success is invariably the result. The virtues of the country have already been amply proven. As one citizen in this week expressed it, "The country is alright; the only doubtful element is the people who occupy it."

This past year Lamb county has produced a record cotton crop—a wonderful tribute to the adaptability of the soil and climate for growing the staple. Unfortunately price conditions have not been favorable, yet withstanding the low price, the yield has somewhat offset it, the result that numerous farmers have met their land notes, coming out of two years indebtedness. Others who were not in debt for their land have been able to make additional improvements on their farms, buy additional stock and agriculture equipment or put some money in the bank.

STOCK GROWERS SAY THE RANGE IS FINE FOR STOCK

Stock growers of this section of the South Plains are all in optimistic mood and pasture are both excellent in condition, cattle are sleek and fat, and the price is normal.

During the past year there has been about 28 inches of rain in the Littlefield territory, which is about eight inches above normal, and most of it has fallen in such a manner as to be well absorbed by the soil. Stock growers declare there is little doubt but that the range is now in such condition that it will carry stock through the remaining winter months, bringing them into the spring in good condition.

The farmers who are running dairies, either for local milk and buttermilk or who are shipping their milk to distant points, are reporting their milk cows holding up remarkably well with the milk flow. Cream is selling at a good price, and those who own such herds are realizing well financially from their returns. It is a notable fact around Littlefield that most of the farmers here are becoming interested in dairying, and where public sales have been held, dairy cows, if good ones, have invariably commanded a good price under the auctioneer's hammer.

There is no doubt but the stock raisers and farmers of this section are in better financial condition at the close of 1927 than they were when the year changed dates.

While the acreage in wheat grown around Littlefield the past year was small the yield was excellent. In the northern part of the county, around Otton and Spring Lake sections, the acreage was much larger and the yield likewise abundant, cases being on record where the wheat yielded as high as 60 bushels per acre, the same testing as much as 63 pounds per bushel. Furthermore, the price was good. In consequence of this excellent yield and return the wheat acreage planted this fall for the coming year's crop has been increased many hundreds of acres. Probably six times as much wheat is being sown around Littlefield this year as there was last year.

The turkey crop in Littlefield vicinity this year was a big one for a new country, it being conservatively estimated that the local produce houses bought more than \$40,000 worth of this delectable bird during the period between Thanksgiving and Christmas time. Individuals are on record who have sold as high as \$750 each of turkeys this fall. There is no doubt but turkeys do well here, and, in all probabilities, even more will be raised the coming year.

The feed crop here this year has been excellent, in fact, far above expectations. Corn was grown here that would rival the products of Illinois and Iowa, renowned corn-producing states. Every farmer has all the feed he needs for his live stock this winter, some have sold feed, while others have bought more live stock to consume the surplus feed raised, considering that a better business proposition.

Of course, as in every country, new or old, there have been some few who have been disappointed. But so far as the Leader has been able to check up, none of these disappointments may be rightly attributed to the country. The seasons were here, the soil and climate were here—failure and disappointment have invariably come because of unfamiliarity with local conditions, mismanagement, lack of initiative, energy or skill, or some other existing condition over which the unfortunate one had no control. A few have left the country, just as there are people who are always "blowing up" and leaving any country, never to be satisfied anywhere, but with the few that are leaving, there are many times their number who are coming in, and, during the past year multiplied thousands of acres of new land has been sold and is this winter being put under the plow for crops the coming year.

At the present time the crop prospects for 1927 could scarcely be better. With but few exceptions, both farmers and business men are going into the new year in better condition than was the case last year. Winter crops are looking fine, there is plenty of moisture, and the recent heavy snows have added much more, giving a fine underground season for both the present growing crops and the sod and soil breaking for spring crops which is now going on.

MARRIED AT AMHERST

Center of County Farmer Robt Post Office of Chief Clerk.

Miss Inez Wade, of Cass, Arkansas, who has been employed in the Littlefield post office for the past two years, was married last Friday evening at seven o'clock, to Mr. Russell Crain, a prosperous young farmer residing in the Amherst vicinity. The wedding took place at Amherst, Rev. Dixon, of the Baptist church, officiating.

The happy couple left Monday morning for the home of the bride, going via Wichita Falls, where they will remain for a few days visiting relatives before going on to Arkansas.

HUMPHRIES HOME BURNED

The home of N. H. Humphries, at Camp Chapel, burned to the ground Monday evening, the fire having reached such headway before being discovered that it was impossible to save any of the contents.

Texas farm products are annually worth about one-sixth the value of farm products in 17 southern states.

LED TIGHT, MISTER, LOOK OUT FOR THE BUMPS

By A. B. CHAPIN

WEST TEXAS CHAMBER OF COMMERCE TO START THE NEW YEAR BY MOVING INTO NEW STAMFORD HEADQUARTERS BLD'G

Establishing the organization headquarters in a new two-story fire proof building erected as a permanent home for the West Texas Chamber of Commerce by citizens of Stamford will be the first move of the regional body in 1927, according to a statement of Arthur P. Duggan, president, made this week. In connection with movement of the West Texas Chamber of Commerce into new quarters, a staff meeting of the organization will be held to formulate tentative plans for activities of the new year.

The structure which forms the new home of the West Texas Chamber of Commerce was erected through the efforts of the Stamford Chamber of Commerce, provision for its erection being made with former Manager Porter A. Whaley. The site of the building is strategic, being directly opposite the new municipal auditorium on Weatherbee street, and on the Stamford Inn block, and near the Stamford municipal building. The lot for the new Chamber of Commerce offices was donated by E. P. and S. A. Swenson, the abstract being furnished by C. J. Duggan, of Anson, brother of President Arthur P. Duggan. Valuable concessions for the home of the organization were made by the City of Stamford. In addition to these donations, citizens of Stamford contributed largely to financing the building, now a permanent acquisition of the West Texas Chamber of Commerce.

The new headquarters have full appointments for conduct of the regional organization's business. Besides regular office space for the staff of the West Texas Chamber of Commerce, provision is made in the new building for a permanent exhibit of West Texas products. The gold medal exhibit shown at the Sesqui-Centennial by the organization will form the basis of the permanent display in the agriculture division. Agricultural, industrial and horticultural and other materials are solicited by the regional body for building up the permanent exhibit to be under the direction of Exhibit Manager B. M. Whitaker.

Provision is also made in the new building for temporary space for traveling representatives of the West Texas Chamber of Commerce, and ample office room is set aside for them. The entire structure is equipped to accommodate increasing needs of the regional organization.

The formal opening of the new West Texas Chamber of Commerce building will be fittingly solemnized at the next meeting of the executive board of the organization. President

Duggan has announced that the next meeting will be held in Stamford to occasion the formal ceremony.

"LITTLE GIRL INJURED"

Daughter of Mr. and Mrs. Jones Gets Caught in a Machine.

Dorothy Grace Jones, daughter of Mr. and Mrs. C. H. Jones, Des Moines, Iowa, is the victim of a badly crushed hand and fore arm, according to a letter received this week by the Leader from the child's mother.

It will be remembered by older citizens of Littlefield that Mr. Jones is the daughter of Mr. and Mrs. John Kling, residing a few miles south of town.

The child became interested in the mechanism of an electric washing machine belonging to the mother, and while examining it the fingers of one hand became enmeshed among the cogs, also, mangling the little arm before her screams brought the mother to her rescue, quickly turning off the power.

SHOP LIFTERS HERE

Two women, one described as being tall and peculiarly dressed, the other short, and carrying a babe in her arms are reported as having visited several local business concerns here Tuesday, making personal appropriation of various articles.

At the Jeffries mercantile a pair of kid gloves and a box of face powder were taken, and other stores report missing articles unnamed. It is said they were carefully trailed by a local business man who can identify them and that arrests will probably be forth coming.

HAS LARGE ENROLLMENT

Austin, Texas, Jan. 5, The Inter-scholastic League now has approximately 28,000 member schools, according to an announcement from the League Bureau at the University of Texas. Registration for participation in the League basketball contest continues heavy, it is stated. Schools have until Feb. 15th to enroll for that contest on payment of a \$1 per capita.

MARRIED DEC. 28th

F. A. Aultman and Miss Alma Toews were united in marriage at the home of Theodore Parize, December 28th, Rev. W. B. Feltgen, performing the ceremony.

J. C. WHICKER HAS SOLD OUT LAND & READY TO RETIRE

J. C. Whicker, Littlefield's oldest real estate dealer, has cleaned up on the sale of the J. C. Landon lands, near Bledsoe, and is retiring from active business.

In commenting upon his retirement, Mr. Whicker made it plain that he hadn't suddenly become rich from the sale of these lands; but rather that his general fortune in past business has been of such a nature that he now feels he is entitled to some years of recreation and personal enjoyment, pending the unknown date when he shall again take up his chosen profession in the "Promised Land" across the Celestial River Jordan.

When a real estate dealer buys a big chunk of land he has for sale to other people it is pretty good indication of his faith in that particular section and that one body of dirt. This Mr. Whicker did last week, when he bought of J. C. Landon 7,400 acres of that well known ranch. J. E. Whicker, his son, also bought 1,491 acres, while W. L. Wade, an associate in the business, secured 5,634 acres from the tract. This, together with the several farms which have been sold to other investors and settlers, comprises the total of 17,712 acres in the ranch, all of which has been disposed of during the past 15 months.

It is understood that the Whicker Land Co., is to be dissolved, and that the other members of the firm, R. S. Thomas and J. E. Whicker will enter other lines of business. Mr. Whicker, when asked as to his future residence stated he had not yet positively decided just where he would locate, but it is needless to say that his many friends in Littlefield hope he will make this his future permanent home.

JONES BROS., BUY PORTER GROCERY FOR AN 'M' SYSTEM

Jones Bros., proprietors of the local "M" System grocery store, have purchased outright the business of the Porter grocery, which was duly inventoried and taken over by the new management this week.

During the past year Jones Bros. have built up an enviable grocery business in Littlefield with their "M" system of doing business, and the new store just purchased will be converted into "M" System No. 2, and managed by one of the brothers.

A complete new outfit of "M" system fixtures have been ordered, and will be installed as soon as they arrive.

In commenting upon the success of their business, Mr. Otto Jones stated that the present "M" store now ranked 10th in volume of business done by the more than 500 stores of the System located throughout Texas. He declared that with the addition of another "M" store in Littlefield they would be in position to buy in still larger quantities and at much reduction of price, thus maintaining their margin of profit and furnishing goods to their customers at a much lower price.

New Guard

Coolidge Appointee

Cyrus E. Woods who has been appointed to the Interstate Commerce Commission by Pres. Coolidge in place of F. I. Cox of New York, whose term expired in this office is expected to leave.

FARM BUREAU HAS 500 MEMBERS IN COUNTY OF LAMB

That more than 4,000 bales of this year's cotton crop has been shipped out of Lamb county through the Texas Farm Bureau Cotton Association, is the statement of J. W. Hammock, county representative from Sudan.

Mr. Hammock says this is the best year in the history of the Farm Bureau in Lamb county, there being more than 500 members who have affiliated with the association in co-operative selling of this year's crop. There have been approximately 22,000 bales of cotton ginned in Lamb county this year, about 25 per cent of which has been marketed through the Bureau.

It is estimated that there are between five and six thousand bales yet to be ginned in the county, at least 30 per cent of which will be sold thru the Farm Bureau.

COUNTY OFFICERS SWORN

County's New Business Men Assume Official Duties.

Lamb county officers for the coming two years were duly sworn in at Olton, Monday afternoon by Judge E. N. Burrus.

The following took the oath of office: E. N. Burrus, County Judge; T. Wade Potter, county attorney; A. H. McGavock, county and district clerk; Jimmie Brittain, county treasurer; Len Irvin, sheriff and tax collector; Roy L. Gattis, tax assessor; H. M. Walker, commissioner, precinct one; C. B. Daniels, commissioner precinct two; C. E. Strawn, commissioner precinct three; Simon D. Hay, commissioner, precinct four; A. L. Porter, public cotton weigher.

MAIL ROUTE REFUSED

Motor Mail Service From Lubbock to Clovis Not Granted

That the sum of \$700 per annum asked by the bus line officials operating between Lubbock and Clovis is considered excessive by the Post Office Department, at Washington, D. C. is the statement made in a letter received by E. C. Gattis, secretary, Littlefield Chamber of Commerce.

The letter further states that the amount of mail thus handled by the bus line would not warrant such expenditure, and it would be impractical to arrange a star route over this line.

The city of Houston and neighboring industrial districts used more than 100,000,000 cubic feet of natural gas a day to fuel.

BUSINESS IS NOW CASH

On account of present financial conditions we have found it necessary to put our Grocery and Market business on a strictly cash basis. This will apply to one and all, and will be effective on and after

SATURDAY, JANUARY 8th, 1927

Putting our business on a strictly cash basis, and, with no delivery of goods, will mean a considerable saving to purchasers. Our general overhead expense will be lowered, and, because of no losses in accounts, we will be able to supply our customers with high quality Groceries and Meats at the lowest possible prices. We will be able to sell at a much closer margin of profit, thus passing to the buyers the savings incurred by the cash system.

Thanking you for your past patronage and assuring you of our highest appreciation for your future business, we are,

Very truly yours,

HOUK'S CASH GROCERY & MARKET
Littlefield, Texas

NOTICE TO THE PUBLIC

The Buying Public generally is hereby notified that on and after this date this business will be conducted on a strictly cash basis.

In making this ruling we believe it will be to the benefit of all parties concerned--both the buyer and the seller. Following our inventory last week, we went over our entire stock cutting the price of every article to the lowest minimum possible. Everything in our store is now down to the very bed-rock of selling. It will mean added savings to the purchasers, and the system of cash buying will also be of further protection to our business.

Thanking you for your past patronage, and assuring you of the very highest future values at lowest possible prices I am,

Very truly yours,

C. E. ELLIS

are hereby notified that an meeting of the stockholders

field, Texas, will be held at its bank of the First National Bank, of Littlefield in room in Littlefield on Tuesday, January 11th, at four o'clock p. m., to \$40,000.00, and to transact such to vote upon the question of increas

ing its capital stock from \$25,000.00 other business as may properly come before the meeting.

—RALPH DUNBAR, Cashier.

Noted Music Bowl Self Sustaining

Symphony music is now within reach of the hundreds of thousands and even at the modest fees of twenty-five and fifty cents, the very finest of symphony music in America can pay for itself.

This is revealed by the annual report just made by Raymond Britz, manager of the Hollywood Bowl, America's greatest outdoor music audience chamber. The Bowl seats twenty thousand persons. During the summer just past concerts were given three times weekly. They were listened to by 393,082 persons who paid \$110,188.75. This gives a surplus of nearly \$1,000 over expense.

The series of concerts will be given again next summer with world famous conductors drawn from all over the world.

Shoes of Old Romans

Shoes were commonly worn by the Romans. Senators wore a special style reaching to the middle of the leg, colored red and bearing a silver crescent just above the foot. Men of Rome usually wore black shoes, except in the case of one holding public office. In this case the shoes usually were red.

About Your Health

Things You Should Know

by John Joseph Gaines, M. D.

DISEASES OF CIVILIZATION

The civilized world possesses advantages over the uncivilized; all except in the matter of health. Look at our formidable array of life-destroyers, that were unknown to the cave-man: Cancer—unknown to the Aborigine. Consumption—parent of a hundred serious conditions—the American Indian never heard of it. Colitis, appendicitis, hemorrhoids—all civilized ailments!

Neuritis in all its forms—none for the Hottentot. Ulcers of the digestive tract—no Zulu or Sikh ever had one. Pyorrhoea—the cannibals had the finest teeth explorers ever saw. Did you ever hear of the Siwash Indian having dyspepsia? A Hopi having gout? A Senegambian with "blood-pressure"? Any apoplexy among the Semnoles? Heart disease has never caused the death of a noble Red Man! Queer, isn't it?

When we stop to think, the facts are astounding; perhaps the healthiest bread ever made, was from corn kernels pulverized between heavy stones, the meal mixed with water to the proper consistency, and baked upon brick-like earth, under the embers of an outdoor fire. At least it produced the healthiest human beings, even if it did its "tickling" below the palate.

A kernel of wheat possesses sixteen nutritive ingredients. Our enterprising mill men remove fifteen of these, in order to sell us a flour that will make something pretty! He puts in a lot of study on the medicinal properties of food containing vitamins, in order that they may be highly commercialized; if he doesn't, he might do so to his distinct profit. To go back is impossible—but the Savage was a healthy man!

Had No Use for Silver

A young Washingtonian recently sent an order for a small-order house for a cornet. The money accompanied the order, and a silver-plated cornet was duly forwarded. In a few days the instrument was returned. The letter stating that the instrument was not used.

Mother's Cook Book

No matter how beautiful the home or how exquisite the furnishings, if pure air does not circulate in every room, the family suffers.

WHOLESOME DISHES

THE summer squash provides another vegetable to add variety. Cook it, peeling and all, as long as it is tender enough to pierce with the thumb nail. Cook in a little water as possible after slicing; do not remove seeds. Season well with plenty of butter and salt and pepper. Serve hot and the whole family will enjoy it. Do not serve summer squash if you cannot afford plenty of butter on it, as otherwise it is flat and tasteless.

Rice With Pineapple.

Cook rice slightly salted until tender and flaky, adding a little milk at a time after it has been cooking until nearly dry in water, season with butter, and sugar, a bit of grated nutmeg and the yolks of two eggs. Heat in a mound and serve garnished with rings of pineapple. If the crushed pineapple is used stir it into the rice and serve a spoonful or two on top.

Shred a firm hard head of cabbage and crisp it by covering with cold water. After an hour or two drain well and cover with thick cream, a tablespoonful or two of vinegar and three or four of sugar, with a dash of salt.

French Method of Cooking Peas.

Put two large lettuce leaves in the bottom of a kettle or saucepan; on these place the peas to be cooked, with one small onion. The flavors of these vegetables do not predominate, but only enhance the flavor of the peas. Pea pods are saved and cooked and the water used to cook the peas in, which makes a much more pronounced flavor.

Cherry Fritters.

Make a batter of a cupful and a half of flour, two teaspoonfuls of baking powder and a half teaspoonful of salt, one-half cupful of milk and an egg; beat until smooth, adding more milk if needed; lastly add a cupful of pitted cherries which have been covered with sugar for an hour, then drained from the syrup. Drop by spoonfuls into hot fat and fry a golden brown. Serve with the sauce made from the juice of the cherries.

Cook rice slightly salted until tender and flaky, adding a little milk at a time after it has been cooking until nearly dry in water, season with butter, and sugar, a bit of grated nutmeg and the yolks of two eggs. Heat in a mound and serve garnished with rings of pineapple. If the crushed pineapple is used stir it into the rice and serve a spoonful or two on top.

Shred a firm, hard head of cabbage and crisp it by covering with cold water. After an hour or two drain well and cover with thick cream, a tablespoonful or two of vinegar and three or four of sugar, with a dash of salt.

French Method of Cooking Peas

Put two large lettuce leaves in the bottom of a kettle or saucepan; on these place the peas to be cooked, with one small onion. The flavors of these vegetables do not predominate, but only enhance the flavor of the peas. Pea pods are saved and cooked and the water used to cook the peas in, which makes a much more pronounced flavor.

Cherry Fritters

Make a batter of a cupful and a half of flour, two teaspoonfuls of baking powder and a half teaspoonful of salt, one-half cupful of milk and an egg; beat until smooth, adding more milk if needed; lastly add a cupful of pitted cherries which have been covered with sugar for an hour, then drained from the syrup. Drop by spoonfuls into hot fat and fry a golden brown. Serve with the sauce made from the juice of the cherries.

THE NEW YEAR

The New Year is here, and with it opportunities for new resolutions and new endeavors for greater success.

The Texas Utilities Co., expresses its appreciation for the patronage accorded it in Littlefield and neighboring towns during the past twelve months. It is our desire to be of REAL SERVICE to the people of this little city, and at any time this service may be bettered and made more acceptable, your sincere and wholesome suggestions will be appreciated.

Why not resolve now that you will run your household the easy way—the right way—the electrical way. If you want lights or power our expert will be glad to call and figure with you on the cost of installation. If you desire accessories, our store is well supplied with a good assortment for your selection.

JESS. MITCHELL,

MEMBER

Editor and Publisher

National Editorial Association. Texas Press Association

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

NO DIFFERENCE NOW

We see where a Dayton, Ohio paper recently made a quaint comparison of the farmer and the city man, a stunt we feel sure everybody around Littlefield will be interested in reading about.

There was a convention of the Ohio State Grange in Dayton, and at the same time the State Real Estate Boards were holding their convention. Each set of delegates were accompanied by members of their families, wives and daughters. The paper sent a good photographer to make a picture of the two groups. When he got back to the office and finished the two pictures the newspaper man saw a chance for a clever stunt. The two pictures were run in the paper side by side, with the announcement that one was a group of farmers and their wives and daughters, the other one a group of city real estate dealers with their wives and daughters. The readers were left to pick out which was which, and the paper says that most of those who did so actually had the groups reversed.

We're certainly one people now so far as dress and looks are concerned. You can't tell the farmer from the banker and the banker from the day laborer when he dons his Sunday suit.

SHE'S PASSING ON

There's no two ways about it, the "flapper" is disappearing. We read in a daily paper a few days ago a dispatch from Paris to the effect that the newest fashions are ignoring the "flapper" for the more girlish type of womanhood. Long hair and curls are again becoming all the rage, and the "flapper" has cause for tears. She had to bob to secure the "flapper" effect, and now fashion decrees that the bob is out of date. Not only that, but at the last Atlantic City beauty show, "Miss America," an honor conferred on an Oklahoma girl, from among all the rest, had long hair. She never had it bobbed. Yes sir, the days of the "flapper" are numbered. The new type may not wear her new skirts sweeping the ground, but she will return to long hair, she will discard the lipstick, and she won't try to dress like her little brother. And something tells us the young men around Littlefield will welcome her with open arms—if they have the opportunity.

PROTECTING THE MAILS

It is interesting to note that not a single mail robbery has occurred since the postmaster general put marines on the mail cars and mail trucks a few months ago. This shows that the mail bandit is a coward, because he won't take a chance when the odds are even that he'll get the worst of it.

But it is an expensive proposition and one that should not be necessary. Why should it be necessary to call out a part of our army to protect the mails right here in our own country? The postmaster general doesn't believe it is, so he has issued an order to every postal clerk and every driver of a mail wagon to "shoot to kill" any one who tries to rob the mails. They have all been furnished with guns that will do the work, too.

So it may be that ere long the marines will be recalled and we will hear of no more banditry of this kind.

The value of all farm property in Texas is three and a half billion dollars as compared with a total of all farm property in 17 southern states of about fifteen and a half billion dollars.

LITTLE LEADERS

Nothing interests the average Littlefield husband less than having to visit some people his wife once knew.

The modern Littlefield girl worries more over a broken date than the old-fashioned girl worried over a broken heart.

The present styles have their faults but Littlefield women don't have to spend as much time ironing as they used to.

You've also doubtless noticed that it's hard for some Littlefield people to keep within hailing distance of their good intentions.

Since the auto came more than one Littlefield man recalls the years wasted in learning to hitch a horse artistically in front of a lady's house.

A lot of Littlefield men would be leading happier lives if their wives didn't pay any more attention to their faults than they do to their opinions.

This ought to be a good year around Littlefield if the political wise acres don't start in to tell who is going to be elected president next year.

There's a lot of cold cream sold in Littlefield to the younger set, but we often wonder how much of it is used on hands chapped from being in the dishwasher.

MUCH MEAT NOW

Noteworthy recent developments in the meat situation have been an increase in the beef supply and a decrease in pork production. Since 1921 beef supplies have risen steadily each year. In 1925 the total production of 7,146,000,000 pounds was almost exactly 1,000,000,000 pounds larger than the total for 1921. The enormous pork production in 1923 and in 1924 fell off more than one billion pounds in 1925, which means that upward of 10,000,000 fewer hogs were slaughtered in that year than in either 1923 or 1924.

In the regions of igneous uplifts in Texas, precious metals and rare gems are found.

Bon Voyage!

Five U. S. planes are now winging their way on a 20,000 mile air jaunt around South America. Major H. A. Dargue, (top) commander of the flight, bears personal letters from Pres. Coolidge to be presented to the head of each visited country. Lower photo, is of Capt. I. C. Eaker. Also in command.

SOMETHING TO THINK ABOUT

By F. A. WALKER

DEFENSE AND OFFENSE

THEY took an old battleship out to sea and bombed her to the bottom from flying ships.

When it was all over a naval officer engaged on the test was asked what had been proved.

Being a cautious man he said that it had been shown that the ship could be sunk, for she had been sent to the bottom.

Perhaps the old problem of how nations are to defend themselves is no nearer solution than it ever was.

There is a general feeling all over the world just now that less should be spent on armaments than formerly.

That makes it all the more important to find out whether an attack is to be expected in the future on the sea, under the sea, or in the air.

Every now and then some one impressed by the marvelous development of aviation has a bright idea.

Why spend millions upon a super-dreadnaught when that boastfully-manned craft can be sent to Davy Jones' locker by means of a little package dropped from the sky?

So there you are! All that is necessary to do is collect fleets of the winged air boats that cost comparatively little, and so be prepared for any emergency. That is the way to save money!

Unfortunately it is not so simple as all that.

The inventive ingenuity of man is always warring on itself. In fact, one discovery, in the way of defense, or destruction, is good only until another is made.

Armor plate was evolved that no shell could pierce. Then a big gun was built that could drive a projectile through anything.

And so the indefinite competition went on between the two. But as soon as one became superior to the other the inequality was offset by a discovery in the other direction.

A scientific man displayed a device recently which seemed to open up amazing possibilities.

It was claimed for it that, on a large scale, it would throw shells weighing many tons for fabulous distances. In a small shape it could be used for driving rivets into the hardest steel.

And all this without noise or recoil. It looked as surprising as the discovery of the philosophers' stone would be.

It was disquieting because it indicated once more that you never can tell what may turn up at any moment.

The thing—the right thing for the nation as well as for the individual is to be prepared for any emergency. Keep ahead of the other fellow. The man in front of the nation in front is the one who has the least to worry about.

(© by McClure Newspaper Syndicate.)

English Alphabet Puzzles

It wasn't the big things—the realization of the nearness of death and suffering and the like—that bothered the first American aviators to go across; it was the little things. The young flyer whose war diary is published in Liberty, complained of the cut of his uniform or the cut of a commanding officer's job. The English worried him with their traffic keeping to the left. And their alphabet drove him to despair. About the latter, he wrote:

"What confuses us is this English alphabet. Instead of saying: A, Bee, Cee, Dee, they have a different way of designating the letters. They say: A, Beer, Cee, Don, E, F, G, Haiches, I, J, K, Ella, Emma, N, O, Pip, Q, R, Esses, Toc, U, Vlc, W, X, Y, Zed. And as they call everything by initials, it's very confusing."

THE YOUNG LADY ACROSS THE WAY

The young lady across the way says she supposes Shakespeare would have lived in history if he hadn't written a thing but Faust.

(© by McClure Newspaper Syndicate.)

Don't let the mail order house deceive you.

Why Not Get all you pay for in Radio?

NO MATTER what make you buy or what price you pay you want good reception when you invest in a radio.

Any radio set will go wrong at times, due to many local and atmospheric conditions. To compensate for them requires thorough knowledge of the instrument and how to overcome such troubles. Can the man from whom you buy render you such radio service?

As an OZARKA factory representative, I have taken a thorough course of instructions under OZARKA engineers. I am fully prepared to render you that degree of intelligent radio service to which you are entitled and for which you pay whether you get it or not.

Make me prove it. Let me set up a genuine OZARKA in your home for a practical test. Operate it yourself. See how easily you can bring in distant stations with unsurpassed clearness, beauty of tone and volume. The OZARKA can speak for itself. You can be your own judge. I'll not have to tell it. You'll want to buy it.

When shall it be? Phone or write me for appointment. No cost or obligation.

HONOR CACTUS CLUB

Mr. and Mrs. T. S. Sales last Thurs-
day entertained, at the evening hour,
with 42, honoring the Yucca club.

After enjoying 42 until a late hour,
refreshments, consisting of apple pie
topped with whipped cream, and hot
chocolate, were served the following:

Mr. and Mrs. T. A. Henson, Mr. and
Mrs. H. J. Gibbs, Mr. and Mrs. Jno.
W. Blalock, Mr. and Mrs. Star Haile,
Mr. and Mrs. Jno. H. Lucas, Mr. and
Mrs. J. P. Spinks, Mrs. Cora Leach
and Arthur Mueller.

The club will meet with Mr. and
Mrs. J. P. Spinks Thursday evening,
at eight o'clock.

BAPTIST WATCH PARTY

About 500 members of the Bap-
tist church met Friday night in their
new building to greet the New Year.
At 8:30 the men met in the auditor-
ium to perfect a laymens organiza-
tion, the senior B. Y. P. U., meeting
at the same time in their appointed
room to perfect their union. The in-
termediates were entertained by Mrs.
Lambert, while Mrs. Phipps had con-
trol of the juniors.

After an hour's meeting in the var-
ious departments, they all came to-
gether in a general meeting. Rev. W.
B. Phipps made a brief talk about the
aims of the church for the coming new
year. Little Miss Dorothy Dixon, the
guest of Mr. and Mrs. L. I. Austin,
gave a charming little reading. Bob-
bie McCaskill also gave a reading.
These numbers were followed by
talks from Messrs. Anderson and Mc-
Spadden, of Amherst, and Rev. Scut-
telle, pastor of the Baptist church at
Idalou. After this the crowd retired
to the basement, where an old time
feast was spread. Then, after doing
justice to all the good things spread
before them, they ushered in the new
year, with a prayer for guidance thru-
out the coming months.—Contributed.

METHODIST MISSIONARY

The Methodist missionary society
met Monday afternoon with a large
membership represented.

It was decided to hold an entertain-
ment at the home of Mrs. B. L. Cog-
dill, Thursday evening, January 6th,
for the purpose of raising funds for
the society.

The following committees were elec-
ted to take charge: Program commit-
tee—Mrs. H. P. Madry, chairman, Miss
Vada Walden, Miss Vivian Courtney,
Miss Hazel Morris. Refreshment Com-
mittee—Mrs. A. G. Hemphill, chair-
man, Mrs. Glenn, Mrs. W. H. Gardner
and Mrs. Barton. Serving Committee
—Mrs. J. B. Cook, chairman, Mrs. S.
R. Haile, Mrs. Van Clark, Miss Dah-
lia Hemphill. Invitation Committee—
Mrs. Carl Arnold, chairman, Mrs. E.
G. Courtney, Mrs. Williams.

The society will meet again in reg-
ular session next Monday at the
church.

Shorter and Fewer

Next season women's skirts will
be shorter—also less will be worn
underneath! We have this start-
ling fashion statement from no
less an authority than Mme. Ger-
maine De Cassagnac, noted stylist
just arrived in America from Paris.

AUXILIARY MEETING

The Presbyterian auxiliary met
Tuesday with Mrs. W. G. Street. A
very interesting program, with Mrs. T.
T. Garrett as leader, was enjoyed, the
subject being "Mormonism in Amer-
ica."

The auxiliary adopted the capsule
system. Each member's name and
birthdate was written and placed in
capsules. Those drawing the names
are expected to remember their cap-
sule friend in numbers of ways dur-
ing the coming year.

The society reports having done
splendid work during the past year,
and a number of new members have
been added to the list.

BUYS CITY LAUNDRY

laundry, A. E. White, proprietor, pur-
chased the equipment, business and
good will of the City Laundry, H. P.
Thomason, proprietor.

The equipment has been moved to
the Littlefield laundry and is being
consolidated with it.

HIGH SCHOOL PLAY

The high school will present a com-
edy drama, Friday night, January 14,
entitled, "The Superior Sex." It will
be directed by Mrs. Allan, and given
for the benefit of the high school li-
brary fund. Adv.

New York landlords now have an-
other space-saving in vention. They
are painting the beds on the walls.

**What you can do with
this different wallboard**

What it is: Sheetrock is
gypsum cast in thick, rigid
sheets. It is fireproof, non-
warping and permanent. Can
be sawed and nailed like lum-
ber. Takes any decoration.

What it does: Sheetrock
makes solid, highly insu-
lating walls and ceilings
that keep rooms warm in
winter and cool in summer.
That means more comfort
and lower fuel bills.

Where it is used: Sheetrock
is the economical wall and
ceiling material for new
construction and for all re-
modeling and repairs. Just
the thing for attic rooms,
furnace rooms, fruit cellars,
garages, offices and stores.

Where to get it: Get your
Sheetrock from us. We car-
ry it in standard ceiling
heights and widths. We
make prompt deliveries.

**Look! what
this New De Laval got
out of our skimmilk.**

THESE people were surprised to see a new De Laval
Separator skim a quart of rich cream from a can of
their skim-milk. They thought their old separator was
doing good work, but the new De Laval proved it wasn't.
They immediately traded their old machine in as part pay-
ment on a new De Laval, and are glad they did.

Satisfy yourself that you are not losing cream in this
way. Let us bring out a new De Laval to your place and
try this simple test:

After separating with your old separator, wash its bowl
and tinware in the skim-milk. Hold the skim-milk at
normal room temperature and run it through a new
De Laval. Have the cream thus recovered weighed and
tested. Then you can tell exactly if your old machine
is wasting cream, and what a new De Laval will save.

The new De Laval is the best cream separator ever
made. It is the crowning achievement of 48 years of cream
separator manufacture and has the wonderful "floating"
bowl, the greatest separator improvement in 25 years.
It is guaranteed to skim cleaner. You will find with milk
running through the bowl it runs easier, and it will last far
longer than any other.

Liberal trade allowances made on old separators.

Boy Healer

Scores of people claim to have been healed when Abram George, eleven year old Indian boy lay his hands upon them. So great was the press about him at Rochester, N. Y., that the lad collapsed from exhaustion.

Really Not Worth While

To harbor hatred and animosity in the soul makes one irritable, gloomy and prematurely old.—Auerbach.

Taste Most Worth While

If I were to pray for a taste which stand me instead under every variety of circumstances, and be a source of happiness and cheerfulness to me through life, and a shield against its ills, however things might go amiss and the world frown upon me, it would be a taste for reading.—Sir John Herschel.

Help Her Keep Her Feet!

The Armenian earthquake has left 80,000 people homeless. Near East Relief needs \$1,000,000 to meet this emergency.

Spiritual Symbols Will Grace Floral Tourney

A new fame and a new glory is to be shed on Pasadena's famous Tournament of Roses on this coming New Year's day. This year the cities will send floats as before, but they will be expressive of a more spiritual side of life. Some will represent songs. Others will represent graces and attractions such as beauty, idealism, courage, patriotism, faith, hope, charity and kindness. The new note was given to the great day of flowers by Carrie Jacobs Bond, shown in the inset, and others of the famous creative artists of Southern California. They believed that in the twenty years of showing that the tourney had outgrown its primary inter-city competition. All of the cities fell in with the idea and this year will bring to their aid the ablest creative minds in the Southland in the fabrication of their entries. As in the past all of the flowers used in the parade must be such as can be grown in Southern California at the New Year Season. These include roses of every description, carnations, sweet peas, calendula, narcissus, bachelor buttons, larkspur, violets, marigolds, baby breath, heather, sunflowers, bougainvillea, geraniums, calla lilies, orange blossoms, shasta daisies, chrysanthemums, poinsettias, straw flowers, camellias, tulips, daffodils, poppies, California poppies, pansies, sweet alyssum, anemones, dahlias, simias, English ivy, asparagus, pinus, evergreens (all varieties), hawthorne, holly, sage, dogberry and huckleberry.

Futurity

An Oxford lecturer prophesies that chemistry will create synthetic men. There should still be room, however, for the self-made variety.

Happiness Recipe

Be free from hate, free from worry. Live simply; give much; sing often; be sunny. Fill your life with love; forget self. Think of others. Do as you would be done by—these are the tried links in contentment's golden chain.—M. L. MoLeod.

He Does a Flip

One of the best examples of Oriental coolie who subsists on handfuls of rice per day. Central (Y. M. C. A.).

Mirrors for Macaroni

By using mirrors to supplement sun in drying macaroni, the colors of the product have been found to be more satisfactory served, since the deep yellow color is not bleached so easily, and the color is said to be improved. The process is quicker than sun bleaching.

Nation's Champion Horses To Compete in February

Nancy Highland, horse shown in the above picture which last year gained the title of the best three gaited saddle horse in the United States is to be shown again this year with the severest competition imaginable at the Los Angeles Horse show, February 8 to 12. Nancy Highland won the national championship of the New York Show last year dethroning Bohemian Actress which had held the title for six years. The horse is owned by Maud Fawn Banks of Covina, California, and is trained and ridden by Roy Davis, shown riding. The Los Angeles show is to have 110 classes with a total of \$25,000 in prize money. This is more than ever awarded before in any show. It is to bring out the liveliest contest all when Edna May's King and Star owned by Marco Bellini in the five gaited championship. Master Star won last year and judges were obliged to let horses in the ring for two minutes to determine who the better. Since that time May's King has won the title at the Kentucky state fair. One horse will gain the distinction of being the best five gaited horse in the United States. The 110 classes, which include \$2,000 stakes, will show a total of 400 horses. More than these are from East of the Rockies.

Merchandise
of quality

In our many years of experience in selling Goods, we find that it pays to sell only Guaranteed Standard Makes and Advertised Lines of Merchandise at a close turn-over profit.

We are thankful for the expression of many satisfied customers we have had the pleasure of serving during 1926, and assure you that during 1927 we will strive more than ever to please and give better service.

Here are some of the standard and well known makes of merchandise you will find at our store:

- | | |
|---|--------------------|
| FOR MEN | FOR LADIES |
| Shaffner & Mark's Suits | Printzess Garments |
| Lee & Correct Suits | Corticella Silks |
| Howard & Foster Shoes | Phoenix Hose |
| Handly Five Shoes | Drew Shoes |
| Johnson Hats | Betty Bond Shoes |
| Black's Work Clothing | |
| Goose Solid Leather Shoes for School Wear | |

We mention above just a few of our standard makes that you may know and feel assured when you purchase here you can depend on getting your money's worth—and then some, because selling for cash, as we do, we can sell at a closer margin.

Quenod's Dry Goods Company
The House of Values
Phone 166 Hopping Bldg. Littlefield, Texas

OUR APPRECIATION

We wish to take this opportunity of expressing our most sincere appreciation for the generous business patronage which has been accorded during the past year, and which has contributed in large measure to our ability to this week buy and take over the Porter grocery store.

This store will be established as a second "M" system store in Littlefield, and will be conducted the same plan as our first "M" store.

With the larger volume of business that will naturally accrue, we will be in still better position to furnish our customers with the very best market affords and at the lowest possible price. With the already big combined buying power of the "M" System at our command, we will now be in a position to make more of our purchases in large quantities and car load lot shipments, thus giving us the same margin of profit, but furnishing our patrons with groceries at still lower prices.

To the patrons of Porter's grocery store we extend a most cordial invitation to continue their business relations with the new firm; to the new neighbors of Littlefield and vicinity we invite you to our stores, thus joining the already big crowd of satisfied customers of the "M" System.

CHEVROLET PRICES ARE REDUCED AND MANY REFINEMENTS

Co-incident with the introduction of a new line of cars, there has also been made a substantial reduction in prices of Chevrolet automobiles, according to W. W. Gillette, member of the firm, Bell-Gillette Chevrolet Co., local dealers.

On the closed car line, the reductions range from \$20 to \$50. The new open car price is now \$525, with balloon tires and disc wheels as standard equipment, where as the former open car price was \$510 without balloon tires and disc wheels.

New prices on Chevrolet cars are as follows: Coach, \$595; Coup., \$625; Sedan, \$695; Landau, \$745; Touring or Roadster, \$525 with balloons and disc wheels.

A seventh model, the sport cabriolet, equipped with rumble seat and added to the line this year, is listed at \$715. The half ton truck price is now \$395. Last year, without balloon tires and other advances made

this year, the one-half-ton model price was \$375. The one-ton truck price remains unchanged at \$495. All prices f. o. b. Flint, Michigan. The new truck line incorporates the same improvements that have been embodied in the passenger car line, including the addition of air cleaner and an oil filter.

Mr. Gillette stated that he was expecting a car load of these new model cars to arrive in Littlefield by the 10th of this month. Invitations are now being sent out to old customers and new prospective buyers to call and see these new creations as soon as they arrive.

ENTERTAINED AT 42

Carl Williams entertained a number of young people at his home last Thursday evening with a 42 party.

After the series of games, refreshments of jello and cake were served to the following: Mr. and Mrs. Roy Benett, Misses Maxine Courtney, Mady Anderson, Mary Bell Blackwell, Gladys Whales, Messrs. Homer Snowden, James Courtney, Chester Pate and Rex Matthews.

PERSONAL ITEMS

Arbie Joplin made a business trip to Lubbock Monday.

W. G. Street made a business trip to Morton last Saturday.

Mrs. John Blair made a business trip to Lubbock Monday.

H. W. Wiseman made a business trip to Plainview Monday.

G. M. Shaw returned Monday nite from a business trip to Wichita Kans.

Mrs. Hugh Taylor, of Lubbock, visited her daughter, Mrs. F. G. Sadler, last week.

W. O. Stevens and Franz Baker, of Lubbock, were in Littlefield on business last Friday.

Harry P. Burke, accompanied by his sister, Mrs. W. H. Garder, and his daughter, Miss Mamie Burke, went to Lubbock Sunday where Mr. Burke's son, Billie, had an operation for tonsillectomy. The boy is reported recovering nicely from the amputation.

Marshal Mason, mayor of Post Cy., is here this week looking after business interests.

Mr. and Mrs. Alex Reeves made a trip to Lubbock Sunday and returned with a new Nash sedan.

Mrs. Charley Touchon, residing to the north of town, had as her guests for Sunday dinner, Mr. and Mrs. T. S. Sales, Mrs. Cora Leach and Miss Maude Council.

Fred Graham, federal land appraiser of the Federal Land Bank, Houston in company with the local committee, spent Friday and Saturday in Cochran, Hockley and Lamb counties passing on applications for loans.

Mr. and Mrs. J. I. Carrell returned Wednesday from Logansport, La., where they have been visiting the former's relatives for the past six weeks. They visited relatives of Mrs. Carrell at Baird and Sweetwater on their return home.

Announcing—
THE MOST BEAUTIFUL CHEVROLET
in Chevrolet History

TRULY the most beautiful Chevrolet in Chevrolet history! Truly an achievement which must immediately change all existing ideas as to what the buyer of a low priced car has a right to expect for his money!

Here is the irresistible appeal of unbroken, flowing body lines—of modish new Duco colors, fashionably striped—of notable smartness—of that flawless silhouette regularly associated with the costliest of custom-built creations.

Here are score after score of advancements in design, literally too numerous to list completely—but typified by one-piece full-crown fenders, bullet-type lamps, coincidental steering and ignition lock and large 17-inch steering wheel.

Here is definite assurance of longer life, more satisfactory operation and even greater economy—for all models are equipped with a new AC oil filter and an improved AC air cleaner!

Such features as these are usually found only on cars costing up into the thousands. They are marks of distinction on the world's finest automobiles. Yet these are now offered on The Most Beautiful Chevrolet because the spectacular growth

of Chevrolet popularity has sent Chevrolet production to tremendous volume—and only the economies of tremendous volume plus inspired engineering make possible the manufacture of so fine a car to sell at Chevrolet prices.

We urge you to come in for a personal inspection. And we ask you to come, not in the customary casual mood—but actually anticipating the revelation you would expect when the world's largest builder of gearshift automobiles announces a completely new line of cars whose truly great value is based on irresistible beauty

and a host of improvements including:

- | | |
|--|--|
| New AC Air Cleaner | New Tire Carrier |
| New AC Oil Filter | New Bullet-Type Head Lamps |
| New Coincidental Lock | New Windshield On Open Models |
| Combination Ignition and Steering Lock | |

Mr. and Mrs. H. D. Burrus have taken charge of the Barnes mercantile, which some months ago was purchased by the Monig Dry Goods Co., Dallas. T. W. Barnes, former owner, left last week for South Texas, looking for another business location. His family will remain here until such a time as a new home has been decided upon.

SCOUTS ARE REORGANIZED

New Officers Are Elected at the Meeting Monday Night.

At the regular meeting of the Boy Scouts last Monday night a step toward making this the most successful year of the Scout organization was started.

The present membership was organized into two troops, and each one divided into patrols, as follows:

Troop 1, patrol 1, Harvey Pool, patrol leader; Lawrence Thornton, assistant; Harry Teeter, Grady Baker, Pierce Teeters, Darrell Hemphill and Harvy Gibbs.

Patrol 2, troop 1, Leo White, patrol leader; Jack Braannon, assistant; Weldon Baker, Earl Glover, Sidney Lucas, Kenneth Garrett and Sparky Bursleson.

Patrol 1, troop 2: Harry White, patrol leader; Troy Foster, assistant; Aubry Wilf; Willburn Phillips, Narl Allen, Bloyce Yeager, and Billy Tolbert as mascot.

The boys are going to build up these patrols to full strength. They announced that it was open season on all boys eligible for scouts.

FARM BUREAU SPEAKING

Prof. J. D. Coghlan and Miss Susan Land, of the Department of Education, Texas Farm Bureau Association will be in Lamb county January 27, 28 and 29, for the purpose of holding educational meetings at various points according to J. W. Hammock, county representative from Sudan.

While the dates have not yet been definitely set, it is expected these speakers will be in Littlefield, Thursday, January 27th, and will hold a meeting at the school house both afternoon and night. Friday night is the date set for the meeting at Olton. Other dates will be announced in this newspaper next week.

Texas has thirty million acres of land devoted to farm crops.

Oil wells in the Texas Panhandle produced 4,999,778 barrels of oil in November last year.

Chamber of Commerce Activities

"It ain't the guns or armament, nor funds that they can pay. But the close cooperation that makes them win the day.

It ain't the individual, nor the army as a whole. But the everlasting team work of every bloomin' soul."

Rudyard Kipling in these few words gives the secret why the sun never sets on the British Union Jack. Cooperation of England's people since the time of William the Conqueror, has made England one of the most powerful nations on earth. England, because of her size, realized that to compete with larger nations there must be perfect harmony and co-operation among her colonies. After the United States won her freedom, England started to build up her strength by co-operating.

Cities over the United States have taken up the English idea of co-operation and the organization of commercial clubs has been the outgrowth. The results are our modern cities. Perhaps Littlefield falls a long way short of being a modern city, but by co-operation we can make it modern.

The Womans study club, with the These trees are the best developed merce, is going to advocate the planting of shade and ornamental trees around the homes of Littlefield. Plans are now under way to canvass the town to determine the number of trees the owners are anticipating planting this coming spring.

Arrangements have been made to have 200 Chinese Elms reserved at the Experiment Farm at Lubbock. These trees are th best developed shade trees adapted to the soil and climate of West Texas. By co-operating with the Woman's study club and the Chamber of Commerce the

people will hav ea chance to get the trees cheaper than if they were to send in individual orders.

It will be impossible to make a thorough canvass of the country, but if any farmer desires to place an order he can leave it at the Chamber of Commerce office.
