## 'Shining Stars Of YWA' Is Theme Of Presentation At First Baptist

"Shining Stars of YWA" was the theme of a special formal presentation of members of the Young Woman's Auxiliary of the First Baptist Church at the Sunday evening service. This was the opening feature of YWA Focus Week, which is being observed throughout the Southern Baptist Convention, February 11-17.

Hanging high above the altar in the main sanctuary was a huge sunburst star, reflecting the lights from numerous spots shining upon it.

Proceeding the ceremony, the Rev. Robert D. Longshore, pastor, introduced Mrs. Ralph Nelson, YWA Director of both the local church and the Llanos Altos Association; Mrs. Jesse Pedroza, Counselor; Mrs. T. L. Matthews, President of the Woman's Missionary Union, of which the YWA is an auxiliary; Mrs. Ella Lindsey, Chairman of the Mary Frances Nichols Circle of the WMU, which sponsors the YWA; members of the YWA Committee, Mrs. Connie Dale, Mrs. Melvin Ross, Mrs. Albert Perkins, and Mrs. Buster Hodge; Mrs. Bobbie Cunningham, past - president of the local YWA, the YWA Council of Llanos Altos Association, and past - pianist of the YWA Council of District Nine; and Mrs. O. L. Futrell, past - president of the YWA Council of Llanos Altos Association. Also he told of numerous honors that have been won by the group: For six years the YWA has attained the goal of an HONOR YWA, achieved through meeting special requirements; Miss Paula Sue Jensen, past - President, Mrs. Sandra Anderson, nee Sandra Carmickle, Miss Jo Harmon, Miss Judy Dale, and Mrs. Nelson have all appeared on the program at the State YWA Houseparty at Hardin-Simmons University in Abilene; Miss Dale was Chairman of the Texas Goals' Committee at Ridgecrest Baptist Assembly, North Carolina, in 1960; Miss Dale has served as Vice - president of both the Llanos Altos and the District Nine YWA Councils; the YWA was chosen as one of the nine most outstanding in the state during the year 1960-61; the YWA had the largest average attendance of any YWA in the state during that year; Mrs. Nelson wrote the program material for the State Mission Program in 1961; and the YWA presented a play at the State WMU Houseparty at Baylor Un-

iversity in Waco in 1961. Mrs. Cunningham played appropriate background music during the ceremony. Mrs. Nelson presented each young woman individually as she approached the altar from the church foyer. The presentations included particular qualities and attainments of the young women, offices held by them, and the ways in which they lead their fellow members toward attaining the YWA ideals: Bible Study, Mission Study, Prayer, Stewardship, and Community Missions.

As Mrs. Nelson spoke, Mrs. Pedroza read appropriate verses of poetry applying to the different duties of the young women. Presented were Miss Janey Blackmon, President; Janice Burks, Enrollment Vice - President; Joyce Thompson, Secretary; Patricia Locker, Program Chairman and Vice - President of Llanos Altos Council; Jane Dunagin, Mission Study Chairman and President - Elect of Llanos Altos Council; Marsha Kesey, Prayer Chairman; Ennis Pressley, Stewardship Chairman; Marcia Sullins, Community Missions Chairman; Linda Dale, Publications Chairman, President of District Nine Council, and Chorister - elect of Llanos Altos Council; Gennie Baker, Social Chairman; Linda Walthall, Publicity Chairman and Vice - President - elect of Llanos Altos Council; Melva Lynn Ross, Pianist, Past - President, and Past Pianist of Llanos Altos Council; Janell Jensen, Chorister; Brenda Perkins, Pianist - elect of Llanos Altos Council; Linda Hodge, Daria Neuschwander, Jana Sharp, Doneice Reast, Paula Fields, Hilda Jones, Linda Williams, Carolyn Fleming, Dianne Phillips, and Kathy Steed.

After the young women were all in place at the altar, beneath the star, they presented a beautiful and impressive choral reading based upon the YWA watchword, "They that be wise shall shine as the brightness of the firmament; and they that turn many to righteousness as the stars forever and ever." (Dan. 12:3) During the course of the reading, Misses Perkins and Jensen sang the YWA hymn "O, Zion, Hasten."

Following the choral reading, Mrs. Nelson told of some special activities that have been carried on by the group, the most outstanding being the Va-

cation Bible Schools which have been held in the Sangre De Cristo Mountains of New Mexico during the summers of 1960 and 1961. Those taking part in these schools are Misses Ross, Locker, Thompson, Blackmon, Dunagin, Walthall, Dale, Sullins, and Burks. Also Mrs. Nelson introduced the three young men, who have worked in these schools: Jim Nelson, Gary Fulton and Charles Heathman.

Climaxing this beautiful and impressive service, was the presentation of Miss YWA of 1962. Candidates for this honor were Misses Blackmon, Locker, Ross and Thompson. As the names of these young women were called, the three young men escorted them to the front of the group. Little Miss Cathy Nelson brought forward a beautiful arm bouquet of white mums tied with green satin. On a long streamer were the words "Miss YWA . . . 1962" in gold glitter. Mr. Fulton took the flowers and presented them to Miss Ross, revealing her as Miss YWA. Mrs. Nelson presented her with a small white ceramic Bible bearing the date

and occasion and the YWA Watchword.

Mrs. Nelson then charged her with these words: "May you, Melva Lynn, let your light shine wherever you are, and may all of us do all we can to send the light of Jesus, that we might walk down a starlit trail with Him, shining as the stars forever and ever."

Concluding the ceremony, Miss Dale sang "Starlit Trails" a song written especially for YWA by Mrs. Woodson Armes of Fort Worth.

Other Focus Week activities include a breakfast which was held at the home of Mrs. Nelson Monday morning; three sessions in the presentation of the current Mission Study book, "Steeple against the Sky"; and a tea honoring members of the Mary Frances Nichols Circle. The first two mission study sessions were held on Tuesday and Wednesday afternoons; the third will be Friday afternoon; and the tea will be at the home of Mrs. Nelson on Thursday evening. Miss Dunagin is in charge of the Mission Study presentations.

### From Your Chamber Office

By Gene Garrison

The Community Development Action Program has been adopted. This means that this year's Program of Work will be a big load but it also means that it can well be the most productive year this town has known, community development wise.

Such a program of necessity must secure widespread cooperation from other organizations as well as individuals in the community. Groups like the Ministerial Alliance who have voiced their support of the program, give us assurance that we are on the right track. After all, this is a job only we can do. You cannot get someone else to do this job for you. The Ministers readily realize the long range effects of such a program.

The meeting last Friday night was confusing in this sense. The Board of Directors of the Chamber were interested in securing the knowledge that the membership would actually support the program economically and in the man hours of work. When this support was indicated, they in turn would appoint a committee who would assume the responsibility of determining the areas in which we would work, and to what extent we would work in those areas.

On the other hand, many of the members in attendance were interested in obtaining specific information in regard to the committee - to-be - appointed activities.

Actually much of the information they desired was not available in its specific form. If it had been, the appointment of the committee would have been unnecessary.

The procedure from here is as follows: A relatively large committee will be appointed by the president. Each of these appointees who agrees to serve will participate in a number of discussion meetings until they are thoroughly familiar with the principals and procedures of community development. Then they will apply these principals and procedures to the data that has been obtained about Littlefield and the Littlefield Area. They will make basic, realistic assumptions about the future of the community. Actually, two lines of future predictions must be followed. One, if we do a realistic development job and another, based on the assumption we do nothing or relatively nothing. You can readily see that in the end, results of these two projections will be quite different.

The above point of action is as far as the committee is bound by the present program. They are however obligated to develop a positive program of community development action. They can have all the committees they need to work in as many areas as they deem necessary.

There is one vital source of inspiration for a positive program of Community Development and that is that there is a tremendous economic and civic potential here in Littlefield. You can be assured that there is tremendous room for economic and civic improvement within the realm of our current potential based on area income. Keep in mind, we are not talking about going out and getting more industry and businesses right now; we are simply attempting to do a better job with what we already have.

Chamber president, Kenneth Ware is using the following procedure to select the membership of the community development action committee. He requested that each member of the board, write a list of 8 to 10 names. From this list he will select the committee members. Before any committee member is listed, he or she will be specifically asked if they are willing to serve. It is assumed that some of these committee members will be members of

### Sudan Downs Springlake

Sudan and Hale Center boys took first round wins Tuesday in the District 3-A Tournament at Springlake.

Hale Center set back Farwell, which had won the district round robin, 47-44, behind the 16 point effort of Perry Ritchey. Buddy Trimmer scored 12 in the win.

Maurice Smith and Leon Lovelace paced the Steers with 13 points apiece, with Max Field canning 12.

The loss leaves Farwell idle until the final game of the tournament when the Steers will play the tournament winner.

Sudan powered to a 64 - 51 win over Springlake. Springlake's Hal Hudson made the biggest impression on Sudan with 24 points, but the winners boasted a trio of players in double figures for the win.

Joe Bellar scored 22 points, Dale Master had 12 and Scrap the Chamber while some will not. But each member of the committee will be committed to the purpose that they are interested in building a better community and a better business climate.

# Cotton Growers Plan Textile Mill Tour Soon

Plains Cotton Growers, Inc., this week announced plans for a textile mill tour to the Winston-Salem, North Carolina area for South Plains farmers, ginners, and others.

The tour is planned for March 5-7 and is being sponsored by the PCG in cooperation with the American Cotton Manufacturers Institute. Plans are to make the trip in a Lockheed Constellation airplane leaving Lubbock around mid-morning on Monday March 5.

Upon arrival at Winston-Salem the group will be shown to their hotel accommodations after which they will attend a reception arranged by the ACMI.

Tuesday, March 6, the group will visit Fieldcrest Mills, where Stiles Fifield, Vice President in charge of purchasing, will conduct guided tours. Fifield was guest speaker at the last joint annual meeting of the PCG and the Plains Ginners' Association in Lubbock. He is quite familiar with High Plains cotton and has many friends in the Lubbock area.

The area group will have a look Wednesday morning, March 7, at the Haynes Knitwear facilities and will start the return trip that afternoon, arriving in Lubbock by nightfall.

W. O. Fortenberry, President of the PCG, in discussing plans for the tour noted that it would provide an excellent opportunity for High Plains cotton producers and other members of the gigantic High Plains cotton industry to witness firsthand the processing of the miracle fiber produced here on the plains.

# Valentine Party Set For Thursday

The local Women of Woodcraft Court 4254 will host their husbands at a Valentine Party at the I. O. O. F. Hall Thursday at 7:30 p.m.

A salad supper will be served and 42 will be played.

All members and their husbands are cordially invited.

# Farm Facts

"Twenty years hence, the most severe shortage may be that of men and women trained to produce food and fiber on our country's farms," observes Dr. Roger E. Corbett, president of New Mexico State University. He says this could hurt the country more than a shortage of trained engineers.

A nationwide study reveals a need for 15,000 trained men and women in agriculture. Output of our agricultural colleges, however, is about \$300 annually. This is just a little more than half the number needed.

The percentage of people on farms and ranches has been declining steadily for about a hundred years. Some observers believe that eventually 2% can feed the remainder.

Dr. Corbett is concerned about whether or not we are training enough people, however, to keep even 2% sharp and efficient on farms and ranches and in the businesses serving agriculture.

**Agriculture needs 15,000 trained people annually.**

New Mexico is turning out about 60 agriculturally trained men and 30 women each year to fill an estimated need of 378 and 134, respectively. The situation is fully as critical in many other states.

# Penn Point

By D.H.P.

The weather gets any prettier just about everyone will bring fever and find some excuse to get out of the house and into the great outdoors. The temperature the past days has been up in the 80's for February is quite

It's been warm but not that warm.

The members of the journalism class at the high school wrote editorials on subjects of their own choosing. They were required to do research on the subject chosen, write a draft editorial and then produce a finished editorial stating their own views as to a problem and solution.

Below is one of the editorials handed in as part of the assignment. The student who wrote it is outstanding and shows some of the thinking of the younger generation.

### Timely Terms

"Within the last few years certain terms have come into the public eye as terms of contempt. Three terms, over-used and over-rated, are 'Anti-communist,' 'Christian,' and 'Conservative.' These terms are used interchangeably by many misinformed people. A Christian need not be conservative or an anti-communist a Christian. These terms then are not necessarily synonymous

even in a political sense.

"The reasons these terms have come under fire is because of their frequent use in the names of extreme right-wing organizations or in describing these organizations. The 'Anti-communist League,' and the 'Christian Movement,' are common names among rightist groups today. In descriptions of such extreme groups as the John Birch Society the word 'conservative' is always found. Implications from these uses are that a conservative is a Birch-er and that all anti-communists are conservatives.

"We're definitely faced with a problem. Few people want to live in a communistic society and even fewer people wish to live under a true dictatorship. We want to fight communism but we also feel hesitant to align ourselves with such extreme right movements which are formed as dictatorships. Some wish to be truly conservative and not lean to either extreme.

"No solution could be perfect, but we must realize that just because certain people hold these three terms in disgust is no reason for any of us to not be anti-communist, conservative or really Christian."

It is refreshing to know that today's teenagers have other thoughts than how much fun they can have. It makes us all stop

and wonder if we had such deep thoughts when we were teenagers.

Well, snuff dipper or not, the American Snuff Company stock still appears to be a good investment! "Nuf said about snuff!

THE ANNUAL Lamb County Jr. Livestock Show is the big feature in Littlefield this Friday and Saturday, County Agent Bill Kimbrough says that one of the biggest showings of swine, lambs, cattle and ponies will be on hand for the big event. Make your plans now to boost these young showmen by your attendance. I'll see you there.

I KNOW we have two patriotic families in Littlefield. I notice Tom Hilburn and Slow Grissom had their American flags flying from the front of their houses on Monday, Lincoln's birthday.

WE HAD a representative of the Social Security office to speak at the Lions club Wednesday and he asked that anyone with a question submit it and he would do his best to answer it.

One of the best questions asked, I thought was, "well, why do we keep having to pay higher social security tax when the social security headquarters is always investing billions of excess money into government bonds . . . why not use some of that excess money instead of increasing our payments?"

At this point the time was up and I never did get the answer . . . maybe some of those who stayed after the meeting will be able to tell me what the man answered.

## TOWN

(Continued from Page One)

were looking through his stocks and bonds booklet the other day and Ed mentioned that the American Snuff Company stock had held a good 6% showing for several years.

I didn't realize that the same amount or even a greater number of people were still consuming (dipping) snuff.

Now that I stop to think, can't remember seeing a snuff dipper in a long time.

I mentioned to old Dub Gilder that the lack of trees up here on the Plains sorta made it unhandy for a snuff dipper to get "tooth brushes". Dub allowed that hackberry was a good tree for snuff toothbrushes.

B. T. Kisner was in the office later and he said he always heard that black gum and sweet gum trees were good. I called Norman Renfro about his snuff sales and he said that ash trees were best for snuff dipping brushes.

Well, I moved to the plains from Clay County and seems to me like the favorite there was mesquite.

SOME 500 Democrats were in attendance at a party meeting in Levelland last Saturday night. The guest speaker was Congressman JIM Wright.

I believe that a similar rally of Democrats here in Littlefield would certainly be in order with Wright or George Mahon as keynote speaker.

I'd like to get candidate for governor Marshall Formby over this way for a speech . . . and Waggoner Carr of Lubbock, candidate for Attorney General.

Pat Boone tells me that he's getting some committees organized so we'll look forward to the announcement of such a rally.

WITH A grinding of brakes, the officer pulled up his squad car and shouted to a little boy playing in the field "Say, sonny, have you seen an airplane coming down anywhere around here?"

"No, sir," replied the boy, trying to hide his slingshot. "I've only been shooting at that bottle on the fence." (Lions Internat'l.)

**Farm Facts**

J. A. Hyslop of the U. S. Department of Agriculture in 1958 compiled an estimate of losses caused by some 80 different kinds of insects in the United States. Total damage, including control costs, amounted to more than \$1.8 billion annually.

**Insects cost us \$1 per month per person.**

Hyslop's estimate, however, was based on prices much lower than those of today and did not include all the injurious insects. Even so, these losses would amount to about \$12 for each man, woman, and child in the country—or \$1 per month per person.

The boll weevil alone has nicked farmers to the tune of \$500 million in some seasons, and losses average about \$200 million a year. Destruction of crops by grasshoppers amounted to more than \$100 million in 1958.

Livestock pests take an annual toll estimated at \$300 million, mainly attributed to crusted feet, lower meat and milk production, and damaged hides. Insects are ranked along

with fire as destroyers of forests. They destroy an estimated 5% of the stored grain, \$150 million worth of packaged and processed goods, and clothing and household furnishings valued at from \$200 million to \$300 million.

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

**H**OW I used to hate to practice the piano when I was a child! Yet, today, how I wish I could play well—and that I had the time to practice!

So often, we turn our back on opportunity, only to find, when we want it, that it's too late.

Not so with the Church. The Church gives you no reason for regrets. If, long ago, you gave up going to church, there is no reason why you can't start again now. Even if you've never gone to church, you'll find a warm welcome awaiting you this and every Sunday. For God's love is constant and everlasting.

In the Church it is, literally, never too late.

THIS SERIES IS SPONSORED BY THE BUSINESS FIRMS AND INDIVIDUALS LISTED ON THIS PAGE. THESE FIRMS, ALONG WITH THE MINISTERS OF LITTLEFIELD HOPE THAT EACH WEEKLY MESSAGE WILL BE AN INSPIRATION TO EVERYONE.

**Farm Facts**

A few years ago many fruits and vegetables were available only in season. A U. S. Department of Agriculture bulletin reminds us, however, that we can now enjoy crisp lettuce, garden-fresh sweet corn, tree-ripened peaches, and many other fruits and vegetables the year around.

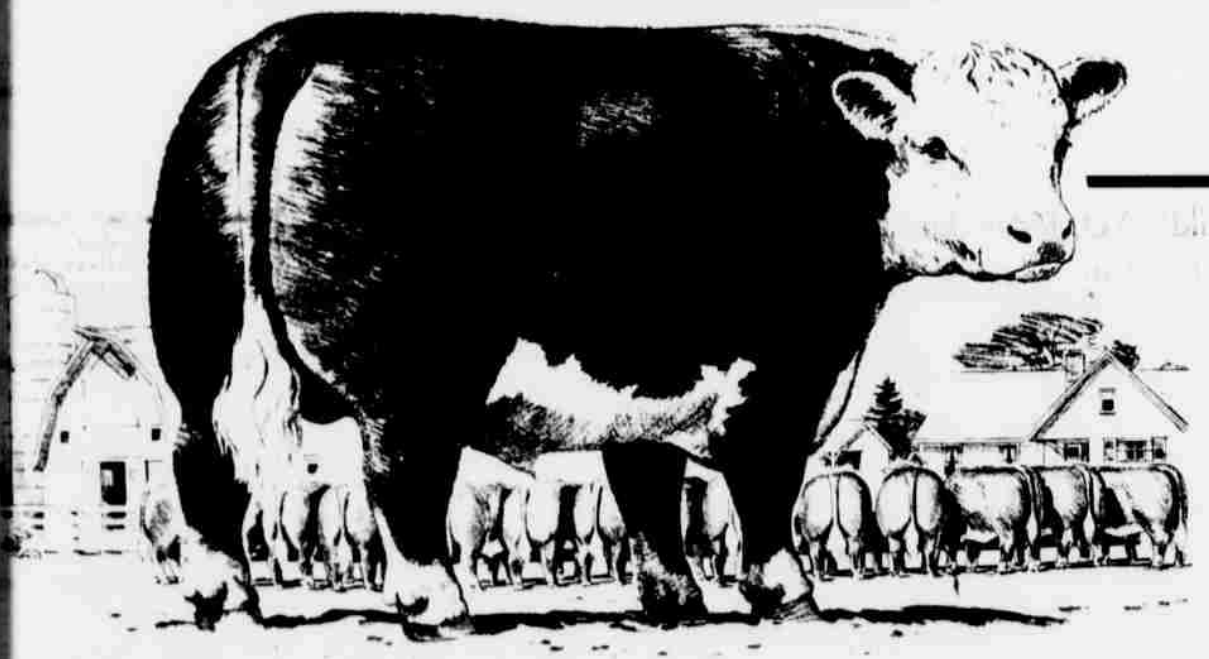

This farm freshness comes to us as a result of modern marketing, handling, and transportation methods.

A carload of lettuce shipped from California to eastern markets used to consist of 20,000 pounds of lettuce and 40,000 pounds of ice. Vacuum-cooled lettuce now is shipped in refrigerated trucks and rail cars. Savings in packing and shipping more than offset cost of the new cooling method.

Improved handling and marketing not only give us better food but save us money on our food bill. New cooling and packaging methods cut shipping costs of Texas carrots by \$1 million a year.

Research on refrigerating California grapes brought savings of \$780,000 a year. Better refrigeration and containers cut tomato costs several million dollars annually.

FOR A SPRING SAILOR with headline chic, the stiff straw halo-brim of this new hat is excitingly contrasted with a softly draped chiffon crown. It's in a soft citrus shade, the top color family for spring, to complement almost any ensemble.

By MISS MARY

### Gay New Millinery Is High, Wide, Handsome

The feminine look for spring is essentially a young and animated one. The soft look of fit, flare and lots of ruffles sets the pace for the new silhouettes and fabrics that shape up the millinery story, too.

Soft felts that are easily manipulated and silks with a lot of surface interest are at the top of the long list of fascinating fabrics that go into the fanciful hats for the season.

High turban shaping is one of several draped silhouettes

for spring. Slouch hats, high-crowned and mobile looking, take on a new look in soft-as-a-handkerchief felts.

Many of the newer hats are like puffs of clouds in gay maine and flower combinations.

Additional height and soft movement are interpreted in manipulated caps, slouches and toques.

SLEEP WHILE YOUR WANT ADS. WORK

"DAISIES WON'T TELL" is the theme of this smart two-color braided straw cloche that's brimming over with gay spring chic. The band and flower are created of soft leather.
