

## Olton Man To Head County's Pioneers

### Scores Attend Reunion

With more than 300 persons present, old-timers of Lamb County had their day at the community center here Tuesday. They heard speeches, music and eulogies to past pioneers and wound up the day with a barbecue supper.

They elected I. B. Holt, Olton, as their next year's president to succeed Mrs. G. M. Shaw, Littlefield, and Sam Cearly, Earth as vice-president.

Blanche Dodgen, Littlefield, was made secretary; Mrs. Lester LaGrance, Amherst, was elected treasurer, and Mrs. W. T. Clayton Springlake, is to be custodian of the organization's prized scrapbook.

New directors are Mrs. Guy Shaw, George Bohner, Olton; Mrs. A. C. Barton, Earth; Harry Woody, Spade, and Mrs. Lyle Brandon, Littlefield.

Oldest pioneer present was Frank Norfleet, whose son says he is 95 years old. He came to the county in 1886 and settled near Bull Lake. His wife, who is 89, took the prize as the oldest woman present.

To Mrs. Ralph Lund (the former Tina Smith) went the honors of "pioneer from the greatest distance." Mrs. Lund, who is the

### Output Big Even If Tree Is A Midget

Folks in the Dave Eaton neighborhood, 124 E. 15th, have been watching the amazing progress of a tiny pear tree, consisting of only four or five short limbs, as it put on a crop of pears.

There are 16 Texas-sized pears on the tree which probably weigh considerably more than the thin sprouts that are holding them.

Mrs. Eaton says the tree is a dwarf known as "LaCante" but apparently the tree takes the "draw" business a bit too seriously.

In fact there are folks in the neighborhood who seem to think the tree is some sort of freak, with the pears mere decorations, tied on.

The diminutive tree is four years old, even though it isn't as tall as a midget automobile.

## Dry Season Dulls Crop Prospects

Dry weather is hurting Lamb county cotton prospects, and even grain yields "will drop considerably below last year's mark," County Agent Bill Kimbrough said Wednesday. However, he sees prospects of a 155,000-bale cotton yield.

On the other hand, ASC official L. D. Aten said he is "still staying by my original prediction of a 175,000-bale cotton crop." In issuing a more optimistic prediction, Aten said he believes the hail which hit in the northern part of the county last week "did not do as much damage as had been originally thought."

Kimbrough, who had said earlier in the month that a good rain around Aug. 12 would "put the cotton crop into first-class production" said Wednesday that the failure of rain to come had greatly reduced the crop's prospects.

### THE WEATHER

Forecast - Partly cloudy with scattered thunder showers.

Temperatures - Sunday low 63 high 94; Monday low 68, high 91; Tuesday low 69, high 95; Wednesday low 68, high 91.

Moisture - For the month .03; for the year 18.55; this time last year 14.41.

## Reunion Set For LHS Grads

Littlefield High school alumni are making plans for their annual homecoming to be held Oct. 14 when Littlefield Wildcats meet the Colorado City Wolves here.

An elaborate program is being worked out, and final plans will be made Sunday afternoon, Sept. 11 at a meeting to be held at L. V. Pierce's home, 215 E. 15th, Pierce is head of the organization.

Ceremonies before the game and after the game are being planned for the former students of Littlefield High School, Pierce said, and the entire program will be concluded with a dance.

At a meeting his past week, committees were named to have charge of the various phases of the program. Other officers of the organization are Ernest Mills, vice-president, Edwin Coffman, ham, secretary.

Efforts will be made to contact as many former students as possible, Mrs. Bingham said, and the event will be widely publicized.

For that purpose, an advertising committee has been named, headed by Ed McCanlies. Others on the committee are Roy Allen Hutson and D. D. Yantis.

Patty Jones heads the invitational committee.

Refreshments are to be served at the library preceding the game, it was explained, with Joyce Messer as chairman. Other members are Virginia Messer, Mary Jo Weige, Barbara Pierce, Ruth Bartley and Opal Pierce.

The dance committee will be

**TRAIN RIDE**—Girls of Woodcraft, a branch of the WOW, went on an outing Saturday by way of Santa Fe to Clovis. They spent the day in the New Mexico city taking in the sights. Those making the trip were Margaret Chapman, Brenda Alford, Linda Wright, Peggy Dean, Ann Minyard, Janice Williams and Laura Robinson. Adults accompanying the girls were Sybol Dean, Della Mae Chapman, Lucille Wright and Willie Faye Alford.

## Enrollment Set, School 'Ready' For '60 Opening

With additional enrollment schedules announced Wednesday, Littlefield schools were making final arrangements for the opening of schools 14 days from today. Teachers will meet next Wednesday for their first session with the superintendent and principals.

Superintendent Glenn Reeves said most repair work being done to the buildings and grounds, "is nearing completion" and that everything will be in readiness when the doors swing open for the 1960-61 term Sept. 5. Crews have been making repairs this month on the junior high buildings and a general repair program has been carried out in most buildings.

Meantime, Forrest Martin, principal of junior high school has announced enrollment dates for seventh and eighth grades.

Pupils in those grades are to enroll Sept. 1, with the eighth grade signing up during the morning starting at 9 a. m. and the seventh grade enrollment scheduled

for that afternoon at 1 p. m. Martin urged all pupils in those grades to be on hand for the pre-enrollment session.

With the filling of three places last week, the faculty was virtually complete only a sixth grade teacher remaining to be officially elected. Beryl Harris, band director for several years, was named

principal of the elementary school succeeding James L. Hinds who resigned to become city manager at Ruidoso, N. M.

Mr. and Mrs. Don Hayes were added to the staff last week at a called meeting of the board of education at which time Harris was moved to the vacated principal's position.

## County Cotton Growers To Name PCG Delegates

Two delegates will be elected Monday, Aug. 29 to represent Lamb county in the Plains Cotton Growers, Inc. at their fourth annual meeting in Lubbock Sept. 2.

The Lamb county representatives will be selected at a special

meeting in the district courtroom, starting at 2 p. m. Ross Lumsden will be in charge of the meeting here.

Lumsden says a member of the Lubbock organization will be present. Lumsden is a delegate of the association this year for

Lamb county.

Lumsden is urging all farmers and members of the cotton industry to attend the Littlefield meeting.

The Lubbock meeting, slated for Fair Park coliseum, will start at 10:30 a. m. Friday, Sept. 2, president W. O. Fortenberry has announced.

This year the PCG program will feature speakers from the cotton textile industry and the National Cotton Council of America plus a member of the House committee on agriculture. An official of the cotton division, U. S. Department of Agriculture, also will be present at the Lubbock meeting.

Fortenberry said the organization this year will have for its speakers such national cotton leaders such as J. Craig Smith, president of Avondale Mills, Sylacauga, Ala., who is president of the National Cotton Council of America; Harlan Hagen, representative of the 14th Congressional district of California who is a member of the

## 100 Expected At Pep Farm Dinner Tonight

Littlefield merchants and professional men will go to Pep tonight to eat German sausage and sauerkraut with farmers in that area.

It's the first of a series of fall and winter town and farm dinners. One hundred are expected to attend the dinner, sponsored by the Littlefield Chamber of Commerce.

Littlefield men buy two tickets, one for themselves and one for

a farmer, paying \$3 for the two tickets. The farmers are guests of the Littlefield men.

Howard Horne will serve as master of ceremonies.

Dinner will be served by the St. Ann Altar Society of St. Philip's Catholic Church at Pep with Mrs. Charles Burt in charge of arrangements.

Mrs. Burt, said that in addition to the German sausage and sauerkraut, the diners will eat cream

potatoes, green beans and fresh tomatoes. For dessert they will have their choice of several different kinds of cake.

She said the German sausage "varies from other types only by the type of seasoning used," adding, "it is a mild sausage, not the hot kind that some countries feature."

The dinner is to start at 8 o'clock and will include short talks by Littlefield men.

## Pioneers Get Together For Lamb County Reunion With Speeches, Music and Reminiscing As The Program

All part of the crowd that attended Tuesday's gathering of Lamb County 12th annual such event termed one of the most successful ever held.

Oldest persons present were Mr. and Mrs. Frank Norfleet, Hale Center, who came here in 1880. She is 89 and he is 95. He settled near Bull Lake and was a West Texas rancher for many years.

Music for the event was furnished by the Earth Trail Blasers. Left to right they are Leon Tuffy Dent, Carle Ellis, Norman Hemphill, Freddie Maxey and Kenneth Boone. (STAFF PHOTOS)

When Lawrence Cook, coach of the Bulldog football team, looks at the picture of big, beefy players because they look like MM or BB, he says, "I don't want any of those." He says, "I want a team that will be able to handle the hard hitting of the college level." He says, "I want a team that will be able to handle the hard hitting of the college level." wards, is vying for the fullback slot with Hedges, and, according to Cook, the starting assignment could go either way at present.

One of the boys Cook expects to suit out when school starts is senior guard, Carl Enloe, and the coach says that he expects Enloe to be a two year letterman, and a needed strength to the club.

The coaches listed Stokes and Collins as their two most promising newcomers in the line with Edwards, Hedges and Gary Sheff. He rated the honors in the backfield.

Other boys out for the team include, ends: Cris Eady, Jimmie Love, and Jimmie Priddy; tackles: Terry Hughes and Earl Ewing; guards: Bobby Cowan, Jack Durham and Ben Kelton; center: Toby Cox, halfbacks: Bill Breshears, Quentin Pierce; fullback: Gary Fitz; and quarterbacks: Jerry Norwood and Ronnie Smith.

Cook will utilize the Iowa winged "T" this season in attempt to bring Amherst's first district title since the early 1940's.

In discussing the outcome of the district, both Cook and Lockett agreed that Ropes was the team to beat.

As for their own spot in the final standings, the two felt that Amherst and Whiteface should battle it out for the runnerup spot along with Anton.

Meadow and Whitnarral round out the six team circuit.

The Bulldogs open their season on Sept. 2 when they travel to New Deal for a non-conference clash.

**Amherst Youth Sell Calendars**

The Amherst Methodist Youth Fellowship is selling birthday calendars, it was announced Wednesday.

The calendars carry anniversaries and birth dates of Amherst people, and have a picture of the Amherst MYF on the cover.

**LITTLEFIELD ALUMNI**

LITTLEFIELD alumni are getting set for their year's work and had a meeting one night this week to get the ball rolling.

These alumni associations are always interesting, although usually the load has to be carried by only a few. "Sure, I was graduated from good old L. H. S. back in the '50's, but I'm just too busy to do any work for the organization," so many exes always say.

Like my own alumni association, there was Louise. She was a good worker. She always did everything they asked her to do. I've got news for you: She's still doing it. The other members are perfectly willing to let her do all the work.

She's the one who keeps the minutes of the meetings. She's the one who personally keeps up the addresses of the hand-reds who have finished that high school through the years. She is the one who personally addresses the double post cards they send out each year just before the annual banquet and dance. And she's the one who files the returned cards, figures up how many are going to be present and tells the caterer what to prepare for how many.

OF COURSE it's nice that there is always a "Louise" in every organization, but his particular Louise is getting a bit old and should turn the reins over to somebody

**LITTLEFIELD ALUMNI**

**Pratt Gets Nod As Quarterback Club President**

Gene Pratt, local watch repairman was elected to head the Littlefield Quarterback Club at the organization's first meeting of the season Friday night.

Other officers are Dr. D. J. Stafford, vice president and Ed McCannies, secretary-treasurer.

The purpose of the QB Club, according to Pratt, is to give moral support to the coaches and the teams throughout the athletic department.

"While some people feel that we are restricted to football, this is not true," Pratt said. "We support all athletic events."

Close to 20 were present for the first meeting. Pratt said that the dues for joining the QB's is \$2.50 and that everyone interested is invited to become a member.

Among the projects that the club handles is the furnishing of programs at the football games.

"It is not our purpose," Pratt said, "to tell the coaches what to do. We are supporters of the coaches' policies, and it is our intention to help them in any way we can."

**O, bury me not**  
On the local prairie-e-e-e-ee  
Where the weeds grow high  
In the cemetery-e-e-e-ee  
Where the night winds sigh  
Throughout the summer,  
As I lie under weeds  
For my long, long slumber.

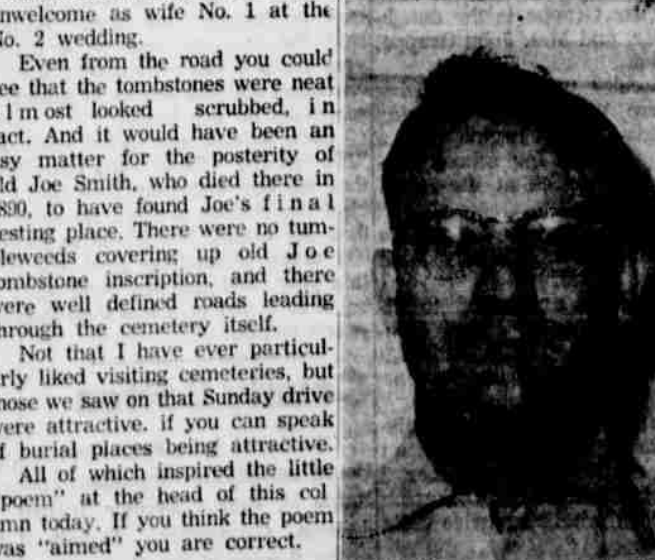

Last Sunday the missus and I went to visit some long-time friends who live several towns west of Lubbock. It was one of those leisurely jaunts, that started out just to be a Sunday drive but ended up with this call on the friends.

And because it was slow, we had time to observe the countryside. Just got to noticing the small town and rural cemeteries that we passed. There was the one between Idalou and Lorenza, for example, that was spic and span and where a careless weed or a tumbleweed would have been as unwelcome as wife No. 1 at the No. 2 wedding.

Even from the road you could see that the tombstones were neat and most looked scrubbed, in fact. And it would have been an easy matter for the posterity of old Joe Smith, who died there in 1830, to have found Joe's final resting place. There were no tumbleweeds covering up old Joe's tombstone inscription, and there were well defined roads leading through the cemetery itself.

Not that I have ever particularly liked visiting cemeteries, but those we saw on that Sunday drive were attractive, if you can speak of burial places being attractive.

All of which inspired the little "poem" at the head of this column today. If you think the poem was "aimed" you are correct.

most warm, and the green salad was only slightly wilted.

And Louise and her committee had arranged a good program.

**THERE WAS** just one thing wrong: She had arranged for a "get-together" before the dinner started. The card had read: "So we can get together and renew old acquaintances before the dinner starts."

She probably didn't intend to emphasize that word "old" but that's what it turned into for yours truly. There was Jim who was the lady killer of our class. Jim wobbled up to me and introduced himself. The only kind of a lady he would kill these days would be a lady bug. He had lost his hair, had added a stomach and a few hundred wrinkles.

"I want you to hear Jane singing tonight," he said proudly. "She's a graduate of this year's class, and I believe she has real talent as a singer. Of course I may be prejudiced. After all she's my grand daughter."

See what I mean?

Christopher Columbus commanded a fleet of 17 ships and 1,500 men on his second voyage to the New World in 1493.

## Canyon Films Set For Monday Booster Session

The Quarterback Club will meet Monday at 7:30 p. m. in the high school library, according to president Gene Pratt.

Highlight of the meeting will be a showing of the movies of the Wildcat scrimmage played at Canyon Tuesday afternoon.

Concerning the scrimmage, Don Williams felt that the team looked rough in places.

"Outside of one offensive series and one defensive series, we look bad," Williams said.

"We've got a long way to go."

## Tech Workouts For SWC Crown Begin Sept. 1

Texas Tech launches its first season in the Southwest Conference football race when fall practice begins here Thursday, Sept. 1.

More than 60 candidates are expected. The Red Raiders open here against an old Border Conference foe, West Texas State, Sept. 17, then start the Southwest Conference schedule by playing Texas A & M in College Station the following week.

Among the gridders will be 21 lettermen. Seven starters from last season will be back, including ends Don Waygood of Sunday, tackles Larry Mullins of Snyder and Bobby Cline of Belton, guard Fred Weaver of Lubbock (Cooper) center E. J. Holub of Lubbock, split back Dan Gurley of Fort Worth, and fullback Dick Stafford of Temple (now a center).

Fortune reports that some 3,000 U. S. companies now have substantial investments overseas. Since 1950, it adds, the total of private direct U. S. investments abroad has risen from about \$12 billion to nearly \$30 billion.

## Easterner Holds Cowpoke Crown

**TOP COWPOKE**—Richard Dale, 16, of Newark, N.J., presently holds the title of Best All-Around Cowboy of Boys Ranch. He won the title with 195 points out of a possible 200 in the 1959 rodeo and he will be in competition to retain his honor in the 16th Annual Boys Ranch Rodeo to be held at the Ranch over the Labor Day weekend, Sept. 4th and 5th, 2:30 each afternoon.

The title of "Best All-Around Cowboy" of Boys Ranch, now held by 16-year-old Richard Dale of Newark, N. J., will be on the line when the 26th Ranchers hold their 16th Annual Rodeo over the Labor Day weekend, September 4th and 5th.

Richard won his title the hard way in the 1959 Boys Ranch Rodeo with an unprecedented 195 points out of a possible 200. Impressive as this total was, Richard was only three points up on the second place winner, indicating the fierce and close competition.

The competition in the 1960 rodeo is expected to be as strong, if not stronger than the young Ranchers ride for points and prizes in calf, steer, bull and bronc busting events.

All seats will be in the shade for this year's show and 1,000 extra seats have been added to accommodate the expected record-breaking crowds. Two reserved sections have been set aside and advance tickets are now available at the Boys Ranch office in Amarillo.

The boys will handle every phase of the rodeo themselves; from riding the salty professional rodeo stock to handling and rigging the animals to operating the concessions to directing traffic. Every boy will have some part in the production and it is a Boys Ranch show, 100 percent.

Featured in the 16th Annual Rodeo will be the Amarillo Air Force Base band, representatives of riding clubs all over the Panhandle and six specialty acts staged by Boys Ranchers.

There will be two performances of this nationally famous rodeo; one each afternoon at 2:30, September 4th and 5th. General admission is \$1.50 for adults, 75 cents for children; Reserved section tickets are \$2.00.

Proceeds from the 16th Annual Boys Ranch Rodeo will be used in the Ranch expansion program.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Austin, Tex. - over 50,000 persons are drawing approximately one million dollars a week in unemployment compensation in Texas.

Investigations have disclosed fraudulent claims. Charges already have been filed in several Texas cities, and investigation is underway statewide.

In view of the recent frauds disclosed by investigations in un-claims," says Maurice Acers, Commissioner, "it is imperative that an already broad system of fraud detection and prevention be expanded and accelerated."

There are a number of ways TEC can catch the cheaters. And TEC is out after them now. One method is by "cross - matching."

A TEC employe asked the man why he was driving this company's truck. "Because I'm working for the company," the driver said.

There are some, says a veteran TEC employe, who take the attitude: "I've earned it. Now I want to collect it."

1. You must have built up a certain amount of work credits during the 15 months preceding application, with an employer who hires four or more persons.

For example, a woman unable to work because of pregnancy would not be eligible for unemployment compensation even though employed by a concern participating in the program.

Others drawing unemployment benefits may be "available" in body only. When directed by TEC to apply for a certain job, they'll do it, but will appear so dull and uninterested that prospective employers won't hire them.

Most important to TEC is throwing a barricade in the path of those people who just plain want to get some of the money just because it's there.

TEC also tries to alert employers to their role in halting fraud. When a former employe applies for benefits, a copy of his application is sent to the employer. If the employe quit or was fired for incompetence, it is the employer's duty to inform TEC at once.

TEC warns that if you're not willing to work at a suitable job, you cannot collect unemployment insurance. Furthermore, you cannot work, earn a salary and collect unemployment insurance at the same time.

chickens, and trouble for themselves, because they are laying their cards wide open for suits for fraudulent claims. Taken individually, the evidence is not as strong as it seems. But any unchecked fraud, viewed in the light of the whole massive unemployment compensation program in Texas, could multiply itself into a million-dollar headache.

Last year \$31,376,076 was paid out in Texas in employment benefits. This was more than was taken in in unemployment taxes from employers. Fortunately for TEC, the program has, over a period of years, built up a substantial trust fund - \$25,134,561 to be exact - against bad periods.

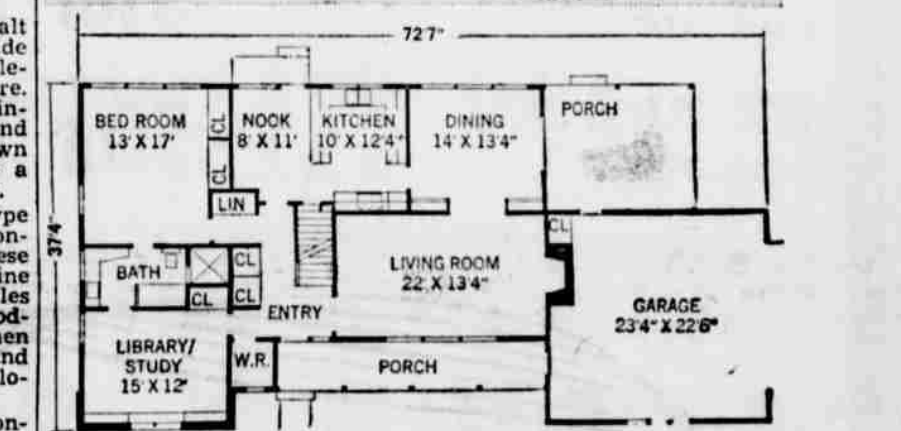

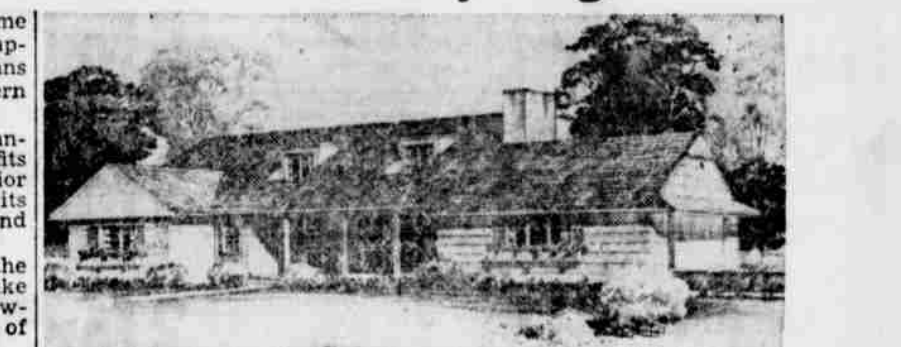

But this fund, designed as a cushion against depression - type breadlines, can serve its purpose only if it is not abused. It is not as insurance, TEC officials explain, not as a dole, and not to pay for vacations for those who are tired of working.

Short Shorts - Texas Department of Public Safety celebrated its 25th birthday this month. Chief of Police Garrison Jr. has been director for 22 years. The highway patrol has grown from 140 to 775 men, but is still far short of the 2,500 estimated need.

Personal income of Texans rose five per cent last year, bringing the annual per capita income for the state up to \$1,908. Some 700 persons from 100 Texas counties will attend the Governor's Conference on Aging, in Austin, on Sept. 7 - 8. Delegates will draft recommendations for the White House Conference on Aging.

Macaroni will not stick together if a teaspoon of cooking oil is added after cooking.

'Space Age' House Plan Offers Beauty of Traditional Styling

Today's most popular home designs are traditional in appearance, yet offer floor plans that fit the demands of modern living and growing families. This design, by Home Planners, Inc., of Detroit, neatly fits both requirements. Its exterior is subtly Colonial, while its floor plan is rambling and roomy.

Viewed from the street, the house takes on a mansion-like appearance, thanks to its flowing lines and broad expanse of roof. The architects specify asphalt shingles for the roof to provide the rich texture that complements traditional architecture.

To insure comfort and economy throughout the year, the architects recommend that the house be thoroughly insulated with mineral wool in walls, ceilings, and floors, and suggest that enough insulation be installed to permit the economical operation of air conditioning and electric heating if these are desired in the future.

Among the other features of the design are a library-study that can be used as a bedroom, a 19 by 15-foot playroom on the second floor that doubles as sleeping quarters for youngsters, and a windowed garage that makes the house appear larger.

Additional details, blueprints, and specifications may be obtained from Home Planners, Inc., 16310 Grand River Ave., Detroit, 27, Mich. Refer to design SR/E763.

## Dial Party Prevues General Phone System

EMPER, manager of the Western Division of General Telephone explains wiring system to the Rev. and Mrs. Alby Cockrell at the plant tour following last Saturday night. The tour preceded actual cut over to the new dial Littlefield.

FRESNO, CALIFORNIA, PLEASE! Mayor Foust makes the first dial long distance call and a special audio system allows the crowd to hear him as he talks to his brother. At the left, operator Edith Lambert demonstrates new touch system in fast connections with long distance calls. Littlefield school superintendent Gleen Reeves looks on as he hears the mayor's voice, his brother's voice and views the operator at work.

HEAD OPERATOR Elnora Trimmer shows off new operator's lounge to visitor Mrs. Bob Manley. The lounge features many comfortable chairs, coffee break accommodations and a built-in mirror across one end. General will feature an open showing of the building later for the general public.

**IN TEXAS... You pay 90¢ tax on 10 gallons of gasoline**

**Everywhere in Texas, car owners pay 90¢ tax on every 10 gallons of gasoline they buy.**

Does a tax this high—on a basic commodity like gasoline—really make sense? Gasoline taxes across the nation amount to a 50% sales tax—and that's five times as high as the tax rate on luxuries like diamonds and mink coats.

**How did gasoline taxes get so high? Well, since World War II, there have been three increases in the federal gasoline tax alone. This brought the Federal tax to 4 cents a gallon, in addition to the State tax of 5 cents a gallon.**

Looking at it another way, in the last ten years gasoline taxes have skyrocketed 51%—yet the price of gasoline itself has risen only 5.5% during the same period.

**\$78 a year for gasoline taxes!** Gallon by gallon, these taxes add up to a lot of money. Each year the average motor vehicle owner in this state pays \$78 for gasoline taxes alone. That's just a few dollars less than the average week's pay for most people!

**IT'S THE LAW in Texas**

What will happen if you should die without executing a legal and proper will? Who will inherit your property? Your husband, wife, mother, father, children, your wife's relatives? The best way you can say who will have it is to provide a will which will protect your rightful beneficiaries and dispose of your property in accordance with your wishes.

When a deceased has no will, or dies "intestate" as the law calls it, the property of that person is distributed according to a detailed formula fixed by law. In some cases this may be the way you yourself would divide it—but in many cases it is not.

The provisions of the law concerning the distribution of the property of a person who dies without a will are rather complicated, and all of the possibilities cannot be covered by a general statement.

There are different rules for real estate and for personal property, for community property and for separate property, for homestead property, and for all of the many possible combinations of surviving relatives. Each situation must be carefully studied to determine the correct distribution of the property.

For example, here is a general

Idea of how the community property which you and your spouse have accumulated will be divided if you do not make a will prior to your death.

If your husband or wife survives and there are not children, the surviving spouse receives all of the property.

If, in addition, there are surviving children or descendants of deceased children, they would divide one-half of the property, while the surviving spouse would receive the other one-half.

Of course, the grandchildren do not share in the estate unless their parent who would inherit is deceased. And when descendants of previously deceased children to inherit, they receive only the portion that the child would have received, regardless of the number of such descendants.

An odd note, perhaps, is that the surviving spouse already owns one-half of the community estate prior to your death, and the law adds nothing to this share when there are children surviving.

When there are only children and their descendants surviving, they divide the entire community estate between them.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

The country's population increased 26 per cent from 1935 to 1959, while the number of telephones served by the Independent telephone companies soared 239 per cent, from 3,185,000 to 10,785,000.

**LIPSTICK LOGIC**

No matter what the lady of the house thinks, nearly every home has enough storage space if it's used right. At least, that is what the home counselors say.

There's hardly a woman living—unless she has a brand new home—who won't argue this point. But when alone, if she is completely honest, she has to admit it's true.

What we keep and what we throw away is probably as personal as how much money we have in the bank, or what we think of our in-laws. It's just nobody's business but our own.

An inventory of long-time storage shelves reveals some strange whimsies in any home: notes from a favorite college course; toys and books from long ago; two chipped plates from our first housekeeping years; a jar of tomatoes put up during the war and long forgotten; shoes we haven't worn in 20 years; a dress "too good to throw away" that we wouldn't wear anywhere...

And to these treasures, the things we use on rare occasions: company glasses and china, flower containers, gift wrapping, old sheets, Christmas decorations...

And it's little wonder that the thing used daily get crowded into too little space. Maybe hoarders of things should be "committed" to trailer house living for a spell. That would either kill or cure!

Your gasoline dealer—who must collect these taxes from you—feels that gasoline taxes are much too high. More and more, thinking people are coming to agree. What do you think?

**HIGHWAYS AND GASOLINE TAXES**

Your gasoline retailer, naturally, favors construction of the roads that the motoring public needs. He believes in fair and reasonable taxation for this purpose but feels that taxes on gasoline have now reached unreasonably high levels. He also believes that all special taxes on the motorist should be used only for highway purposes. Yet last year, out of every automobile tax dollar collected by the Federal Government from highway users, more than 40 cents went for non-highway purposes. If these automotive tax revenues were dedicated for highway purposes, there would be no need for the latest increase in the federal gasoline tax.

# State's Cotton Outlook Dimmed By Heavy Rains In South Texas

Texas cotton production for 1960 has been figured at 4,375,000 bales in the first estimate released by the U. S. Department of Agriculture, but this was before heavy August rains covered nearly all areas of South Texas, the State Department of Agriculture, said Wednesday.

The 4,375,000 bale estimate would be some 125,000 bales below the 4,500,000 bale yield of 1959 in Texas, and it may be lower than that after the results of continued rainfall in the harvest season are counted up. About 10 per cent of the 1960 crop has now been gathered, mainly in the Rio Grande Valley and in the lower reaches of South Texas. The average yield in all of Texas this year is estimated at 321 pounds per acre.

Nationally, total cotton production for 1960 is estimated at about 14,471,000 bales, a little below the 14,338,000 bale crop gathered last year. This compares with a ten-year average of 13,710,000 bales per year.

Cotton harvesting will be late this year in nearly all areas of Texas because of the lateness in getting the growing season started. Growers in some sections were unable to get stands even with one or more replantings, and some acreage was diverted to other crops.

But whatever the outlook in the rest of the state, the 23 counties in the High Plains covered by the Plains Cotton Growers, Inc., were full of optimism as August neared its end. First official estimates put out by the Lubbock Cotton Exchange and the Plains Cotton Growers indicate a production of 1,899,000 bales for 1960, which would be 29,647 bales more than the 1959 production in the school. He attended Texas Tech— a 23-county area. It is figured that the 1960 crop will be worth from \$267 million to \$288 million to \$289 million, Levelland.

## Sandhills Philosopher

### Farmers Find Parallel In Service Station Boys

Editor's note: The Sandhills Philosopher on his Johnson grass farm thinks he sees a parallel between farmers and service station men, his letter this week reveals.

Dear editor: Not that it eases the farm problem to know about this, but other lines of work are having their troubles too. For example I read in a newspaper last night that the "entire service station industry is facing its most serious economic test in 15 years."

It went on to explain that the trouble is, "profits have not increased at the same rate as expenses," and also that "oil companies build stations indiscriminately, and thereby increase the number of retail outlets to a point where the competition is so great that no one is making money."

Now I want to say that I sympathize with the service station boys. I know what it is to have expenses mount and profits drop, and profits drop and I know what over-production can do to you. But as for the solution, that's another thing. I was talking with a neighbor of mine about this and he said, "Thunder, if they can't make a living where they are, let 'em move to town and get a job there," but I explained that most service stations are already in town.

## About Your Health

The major killers — cancer, heart diseases and accidents — do most of the statistic rattling in Texas just as elsewhere throughout the United States.

But there are lesser killers, no less potent once they strike — and in many cases the disease is preventable.

For instance, during 1959 there were 32 deaths attributed to tetanus, often called lockjaw. Most could probably have been prevented.

Twenty-four deaths were among infants less than one year old, but 17 fatal cases of tetanus were among persons 15 years of age or older.

Tetanus can be guarded against with appropriate toxoid injections. In fact, a standard recommendation of the American Academy of Pediatrics is for children to be immunized against tetanus in combination with pertussis and diphtheria, commonly referred to as DTP shots.

Parents are familiar with the DTP shots administered to their infants by pediatricians or a family doctor while the child is still less than a year old.

Such early protection is also recommended by state health authorities.

However, the protection afforded by tetanus toxoid loses strength over the years and should be maintained with a periodic booster or in the event of injury subject to tetanus infection if recommended by your family doctor.

Especially vulnerable are playing children and workers who may be injured on the job.

Males fall victim to the disease nearly twice as often as females. In 1959, there were 34 tetanus deaths among males and only 18 among females.

The tetanus germ is a stable for long periods of time — blowing around in the dust waiting for an opportunity to spring to death-denial life under the proper conditions of warmth and moisture found in a deep cut or puncture wound, or even an abrasion.

Tetanus appears to be a stable item in the death columns of Texas State Department of Health. In 1958 there were 57 deaths.

1957 — 46; 1956 — 52, and 1955 — 54 deaths.

It is a small figure in the total death picture of Texas — but even one death is too much when it can probably be prevented with tetanus toxoid.

(A weekly feature of the Public Health Education Division, Texas State Department of Health.)
