IN READINESS FOR THE SHORT COURSE TO BE HELD IN LITTLEFIELD, MARCH 7 AND 8th

For the purpose of the Short Course to be held in Littlefield, next week, it will be of the kind, and the most agricultural in this county. It is under the direction of the State Department of Agriculture, and is being held here for the first time in its history.

The program is being given in a liberal and practical way, and is well worth the attention of every farmer.

The motion pictures to be shown are not to be confused with advertising films frequently exhibited, but are animated depictions of life on the farm and in the home. Special attention will be given to modern methods, thrift, beautiful and attractive premises, as well as showing how these things may be obtained on the farm whose owner is ambitious to live better. Folks who attend these lectures will be made to feel like going home and taking a new start in life—real life in God's free air, where the possibilities for expansion and for prosperity are endless and without limit.

Every farmer, his wife and children should not fail to attend these two days meetings. They will be a liberal education in many respects. Everything is free. The program for the two days is as follows:

REMEMBER THE OLD STORY OF THE FROGS?

By A. B. CHAPIN

A SEVENTEEN YEAR OLD GIRL TAKEN; RETURNED TO HOME

A 17 year old girl, masquerading in boys' clothes, giving her name as "Bobby Newman," was taken last Friday night on the streets of Littlefield by Night Officer Albert Anderson.

Upon being questioned, she told the officers that she had run away from home. She said she lives at Woodrow, 14 miles southwest of Lubbock; that she left home in girl's clothing, having \$18.00 and a \$6.00 check in her possession. At Brownfield she bought some boy's wearing apparel and made the change, coming to Littlefield.

The girl was taken to the home of City Marshal Wynn, where she spent the night under the care of Mrs. Wynn. Her parents were duly notified, and the next day her mother and an uncle came for her. She went back willingly, but intimated to the officers she would not stay.

When asked as to her reason for leaving home, she said she was dissatisfied; that it was all work and no pleasure, and she was getting tired of it.

Officers stated that the girl was very quiet and modest, showing no traits whatever of badness, and they were convinced of the statements made by her to them.

BOYS TAKE A HIKE

Fourteen Littlefield boys, most of them local scouts, enjoyed a hike to Yellow House canyon last Friday afternoon, camping there until Sunday morning.

Credit on their scout activities were also given them by the Scoutmaster on the city.

LYCEUM FRIDAY NIGHT

The next number of the lyceum course will be given Friday evening at the Palace theatre, presenting the Anno Baker company of entertainers.

They present a very interesting program, including crayon sketches, clay modeling, costumed impersonations, piano numbers and other dramatic stunts.

WINTHROP GETS J. P.

At a meeting of the Hockley county Commissioners Court last week, a new justice precinct was created at Wintthrop, having for its bounds that part of the Wintthrop school district that is in the Wintthrop school district. The precinct will be known as Justice Precinct No. 1.

SEVERAL OIL TESTS TO BE MADE IN HOCKLEY COY

Prospects at present indicate that several of the larger oil companies will begin drilling in Hockley within the next few months. Geological reports are favorable and indicate that somewhere in this section is a large oil pool. The present activity will no doubt demonstrate whether or not these indications are well founded. Recently made a contract.

The El Capitlan Oil Company which has a location on the Ellwood tract, between Smyer and Anton have skidded their derrick a short distance and are drilling on a new hole. They had previously gone over 1400 feet when they had trouble with the casing and in an effort to remedy the matter ruined the well. They have contracted to go at least 3,500 feet.

The World Oil Company has recently made a contract to drill on the Wilbarger County School Lands situated about 15 miles southeast of Levelland.

The Magnolia Petroleum Company is also understood to be blocking off acreage on the old Zahava ranch, about 10 or 12 miles south of Levelland, for the purpose of making a thorough test.

STARTS GRIST MILL

John Stehlik has put up a building on his property opposite the Farmers gin, and reinstalled his grist machinery preparatory to doing all kinds of grain grinding.

Stehlik is an old hand at the business, having put in a grist mill here about 11 years ago.

REV. DOAK TO PREACH HERE

Rev. D. B. Doak, presiding elder of the Lubbock district, Methodist church, will preach at the Methodist church in Littlefield next Sunday morning at the eleven o'clock hour. He will hold quarterly conference at 7:30 o'clock in the afternoon.

W. H. HEINEN BUYS \$17,000 MAIZE AND CORN FOR MARKET

During the past 90 days W.H. Heinen has paid out approximately \$17,000 to the farmers of this section for grain products.

Six big ricks of maize and kaffir corn, representing around 900 tons and three long ricks of Indian corn in the husk, comprising around 20,000 bushels located in the northeast part of town, are involved in the purchase. Some of these ricks, nearly 100 feet long and averaging 12 feet high, are said to be among the largest piles of grain ever seen in this part of the state. It was bought for the Daggett Grain Co., of Dallas.

A thresher has been located at the maize and kaffir ricks, and it is being threshed out. The corn is being shelled, the husks baled, and will all be sent to the market in the near future.

THREE IN AUTO WRECK

Tuesday evening a Ford car, with three occupants, an heavily loaded, on both running boards, turned over on the highway east of Littlefield, near the section house. A broken spring, believed to have come loose, and which protruded through the wheel, is given as the cause of the accident. The car and contents landed on top of the three men, a man by the name of Owens being the only one who sustained any serious injury.

Owens managed to free himself from the wreckage, and lifted the car from off the other two men, then realising his own condition, fainted. H. D. Burris was passing on the highway at the time of the accident, and brought the men into town for medical aid.

Owens' hip was thought to have been fractured, and he was taken to a Lubbock hospital for treatment.

CIVIL SERVICE EXAMS.

Applications for civil service examination for the position of clerk in the post office at Littlefield will be accepted up to March 9th.

Details of the examination and prescribed application blank may be obtained by those interested, from the Littlefield postmaster.

BOY SCOUT MEETING

The Boy Scouts will meet next Monday night at 7:30, at the high school auditorium. All boys who have not turned in their applications are requested to do so at once.

E. M. CORDELL GETS 35.7 MILES FROM GALLON IN A FORD

The Ford mileage test held out of Littlefield last Friday morning, under direction of the John H. Arnett Motor Company, local Ford dealers, produced some startling results.

There were six entries, and their mileage was as follows:

- Jimmie Singer, Ford coupe, 31.2 miles.
- C. R. Singer, Ford coupe, 30.4 miles.
- Jack Henry, Ford coupe, 25 miles.
- E. M. Cordell, Ford coupe, 35.7 miles.
- T. D. Harris, Ford roadster, 31.5 miles.
- Star Halle, Ford roadster, 35.5 miles.

All cars were equipped with the new Ford vaporizer, the gasoline was drained from the tank and one gallon of other ordinary gasoline put in, after which the tank was officially sealed. Chas. Harless, T. S. Sales and Carl Arnold were the judges, and the mileage course was over the State highway from Littlefield to Lubbock. Awards of \$10.00 each were given the winners, E. M. Cordell and Star Halle, of the coupe and roadster classes. Finals were held in Lubbock Tuesday.

The Ford vaporizer is a recent attachment that now comes standard on all Ford cars, and increases the mileage considerably. According to Mr. Arnett, there is one case on record at Dallas where a Ford car made 57.4 miles on a gallon of ordinary gasoline with the new vaporizer attachment. At Fort Worth a mileage of 46.3 was recently made. The vaporizer is a product of the Holly Carburetor Company, and purchased by Mr. Ford for \$1,000,000.00.

HOCKLEY COUNTY TO VOTE FOR \$150,000 COURT HOUSE

The Commissioners Court of Hockley county, in response to a petition signed by 304 voters, has called an election for the purpose of voting on a bond issue in the sum of \$150,000 with which to build a court house and jail in that county. The election is to be held April 5th.

The Hockley county Herald, published at Levelland, in commenting upon the Court's action, said: "This is perhaps the most important question that has yet come before the voters of Hockley county, as every man, woman and child is vitally interested in the preservation of the county records and that the next amount to be expended for this purpose is to be of a permanent nature and in keeping with the growth and resources of the county."

SPEAKS AT AMARILLO

Mr. and Mrs. Arthur P. Duggan left Tuesday for Amarillo, where Mr. Duggan will be one of the principal speakers at the Panhandle Cattlemen's Association, held there this week.

By special request, Mr. Duggan will speak upon the equalization of taxes in Texas, a question of paramount interest to the large land owners who are in the cattle business.

Mr. Duggan has also been invited to speak at the first annual celebration of Borger, to be held next week.

**USED CAR
BARGAINS**

We have on-hand some mighty good buys in used and reconditioned Ford cars, well worth investigating, if you are in the market for a coupe, sedan, roadster or touring car. These cars are all priced for quick selling, and afford an excellent opportunity of purchase for anyone who does not care to invest in a new automobile.

Any of our salesmen will be glad to show these cars to you and give you a demonstration of their quality. You take no chances when you buy a used car from us. They are all reconditioned in our own shop by skilled mechanics and we guarantee them to be just as represented.

THE FORD VAPORIZER

Greatest Saving Convenience on Market Today

Unless you have driven a Ford equipped with the new vaporizer, you cannot appreciate what an improvement it makes in engine performance.

The vaporizer gives more mileage to the gallon, smoother operation, more power, less carbon and crank-case dilution, and makes starting easier under all weather conditions.

This is only one of the recent improvements added to Ford cars.

We shall be glad to tell you more about improved Ford cars and demonstrate, at your convenience, and without obligation, the type which you prefer.

We will install a Ford Vaporizer in your car for \$10.50. Bring it in!

**OBLIGATION OF THE
PARENTS IMPORTANT
TO LIFE OF CHILDREN**

The sacred obligation of parenthood as a holy binding power that enforces duty to both father and mother. When the marriage ceremony is performed a new home is begun. This home should be filled with happiness, contentment and usefulness. It should be a haven of peace and rest. Into the home comes future citizens of the world—the child. What a great responsibility one should feel in the rearing of this little one.

As Tagor says: "This child has come to a place of a hundred crossroads. He knows not which way to go—he has come to us, placed his hands in ours and asked us to show him the way. We must hold him close love him close and lead him straight.

In Proverbs 22:6 we find these words: "Train up a child in the way he should go, and when he is old he will not depart from it."

The destiny of the world depends upon the character of its children. At home, boys and girls should be taught to use their imagination to observe, form their own opinions, and express them freely. Let them play games and direct them frequently. Picture school as a happy place instead of a reformatory where punishment will be meted out.

Teach children not only the three R's, but also how to use the three H's—the head, the hand and the heart. Teach them honor, thrift, patience, courtesy, stick-to-it-iveness and common sense.

President Coolidge tells us, "The destiny, the greatness of a nation lies around the hearthstone. If thrift and industry are taught there, and the example of self-sacrifice oft appears; if honor abide there and high ideals; if then the building of fortune be subordinate to the building of character, America will rejoice in abundant prosperity and good government at home and in peace and respect and confidence abroad. If these virtues be absent, there is no power that can supply their blessings. Look well to the hearthstone. There is hope for America lies."

Theodore Roosevelt once stated, "Fundamentally the question of love and confidence between parents and children underlies the whole social system. Not only underlie, but are. Our civil life, in the long run, will rise or sink as the average family is a success or failure. All questions of a social life will solve themselves if the children are brought up to be the highest they are capable of being, if our social and family relations are as they should be; if, not, no material prosperity, no progress in art or success in business or victory in war can make up for it to the nation."

**Maoris Put Up Brave
Battle for Country**

The history of the Maoris of New Zealand is a most remarkable one. Primitive and even cannibalistic up to sixty years ago, they have in a brief space of years achieved equality with the white man.

In hundreds of years since six large canoes, each holding about 200 persons, arrived there from the Tahiti archipelago. Maori tradition has preserved the names of these boats, and the New Zealand fleet now employs them. By the time of the British conquest the 1,000 people who had landed, utterly exhausted by their tremendous journey, had become 100,000—a small population for such a large territory.

No tribe ever exhibited such heroism in the face of European conquest as did the Maoris. In seizing New Zealand, Great Britain lost 15,000 soldiers, though the forces of the Maoris, armed only with old-fashioned wooden weapons, did not exceed 2,000. When peace finally came, the conquerors found they had a deep respect for the conquered. —Arzobis Cipolla in La Stampa, Turin (Living Age).

His Opportunity Lost

The small boy had received many presents on his birthday, but the best of all—a real watering can—arrived just as he was going to bed, and despite his tears and protests the owner of this treasure was told that he could not use it till next morning.

Soon after dawn his mother heard sounds of anguish from the garden, and looking out, she discovered that these came from her small son, who stood in a drenching rain clad only in his nightshirt, grasping the cherished can in his hand.

"What on earth is the matter?" demanded the anxious mother.

"Oh, oh!" wailed the disappointed one. "I did so want to water the garden, and now God's been and done it!"

David Maxwell of Hereford, England, dug up a tin box in his garden containing \$5,800 a few days before the mortgage on his home was to have been foreclosed.

Fashion has taken the hatpin from women and left nothing but an automatic with which to defend herself.

**Aimee and Tex
Doing Their Stuff**

Aimee Simple McPherson, who New York termed "The Vampire in Vestments," went, saw and conquered the Great White Way in a swinging around the country, preaching the gospel which she learned at Los Angeles so successfully. Her first night in Gotham, she had an early morning visit to the famed "Texas" Guinan night club. Saw wickedness, made a speech, got a round of applause, then invited "Tex" and her gang to come out to meet the next evening. "Tex" said "Sure," and she went (as shown in insert below) and both of them held news spaces on the first page of every metropolitan paper for four days. That's advertising.

**A Punk Fight
Nevertheless**

Above is Jim Maloney, latest Boston strong boy, with a black eye and a \$40,000 smile after beating the famed Jack Delaney in a very punk fight of Tex Rickard's tourney to find a summer opponent for Tunney. Maloney is bound to be in the news, therefore we thought you would like to see what he looked like. Insert, Delaney taking a left on the jaw.

**DRILLING IS RESUMED ON
THE YELLOW HOUSE WELL**

Work on the Yellow House test well was stopped last week on account of stripping the threads from the drill stem, which had to be taken to Amarillo for rethreading. The repairs have been made and work was resumed this week at the 3,765 foot level.

The drill is still in hard limestone, making only about five or six feet daily. How deep the ledge of stone is, of course is unknown, but it is said to be similar to the formation in the Amarillo field, and it is anticipated by many that oil may be found underneath it.

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

A THOUGHT FOR THE WEEK

Grudge not one against another, brethren, lest ye be condemned; behold, the judge standeth before the door. Jas. 5:9.

To harbor hatred and animosity in the soul makes one irritable, gloomy and prematurely old.—Auerbach.

THE VACCINATION BILL

A circular letter sent out by Manager Homer D. Wade, of West Texas Chamber of Commerce, deploras the fact that Senate bill No. 162, which last week passed the Senate, proposes to permit the use of hog cholera virus by persons who are unfamiliar with sanitary control methods or disease producing vaccines.

Mr. Wade is of the opinion that the passage of this bill will produce haphazard methods of vaccination which will result in the wholesale spread of cholera throughout the entire state.

Perhaps it may; but we do not think so. It is our opinion that far more hogs have been lost to their owners through lack of vaccine than through the careless use it.

Mr. Wade declares it is foolish to assume that an untrained person can, in a few days, learn to do what it has taken a trained man four years to master. He says that the proper vaccination of hogs is not a matter of syringe manipulation. It requires a knowledge of pathology and bacteriology, and the vaccinator must be able to diagnose with reasonable certainty the various ailments peculiar to hogs.

Here again we disagree with Mr. Wade. We doubt very much if any person who has to study for four years to learn how to diagnose a case of cholera and to properly vaccinate the animal, will be able to properly do so at the end of that period. Any farmer with even reasonable horse sense can diagnose cholera in five minutes time after having been shown by an experienced man the infallible marks on lungs, liver and intestines, which the disease invariably leaves. Practically every farm agent and vocational agriculture teacher well understands the method of diagnosis and the proper application of both single and double inoculation.

Indeed, it is quit probable if the authorized skilled persons who administer the vaccine were more reasonable in their charges, the bill would be much less likely of passage in the House. It has been only a few months ago that farmers in this section were "held up" for exorbitant prices for swine inoculation. Some submitted; others refused and lost some of their hogs.

Hog cholera vaccine is not an expensive commodity; it requires no ultra skill to diagnose the disease and administer the precaution, and if the Legislature would set a reasonable and fair maximum price to be charged owners for such work, Mr. Wade's desire might be achieved.

State Superintendent of Education E. M. N. Marrs is now advocating the taxing of tobacco to raise more funds for school purposes. In other words, Mr. Marrs does not expect to run for the third term of the office he now occupies.

Nothing is more appealing to the sense of beauty in this particular country than beautiful lawns and luxuriantly growing trees. The time is almost here for such planting. Let every one strive to do something in this line toward beautifying of their homelands this spring. A little from all will mean much from many.

Several of the farmers of the Littlefield territory are this year planting a considerable acreage to barley. One man is putting in 350 acres. In some respects barley is a better crop

to grow than wheat. While it generally brings a lower price per bushel yet it invariably produces a greater yield per acre which offsets the price and, it is a hardier crop to raise.

From the amount of booze floating around this burg, the number of drunks and semi-drunks, and the number of suspicious characters reported, it would seem the better wisdom on the part of the City Commissioners would be to employ another cop or two instead of taking one off.

According to the newspapers coming to our exchange table, several of the surrounding towns have designated March 1st as clean-up day. Littlefield citizens may well be proud of the fact that this town doesn't need any cleaning. Some one ought to offer a \$5 bill to any stranger who can find a single piece of paper on the streets or even a stray tin can in the alleys. Sic!

Present indications are that the cotton acreage this year will not be cut much under that of last year. Practically all plans to reduce the acreage have failed and the same is largely true with the big plans of financing. With the carry-over from the 1926 crop, plus a 15,000,000 bale crop for 1927, farmers are not likely to see more than 10 or 12 cents per pound for their crop this fall.

The passing by the Senate last week of a measure liberalizing the libel law of Texas to permit newspapers to publish the statements made in public meetings and the transactions of such public meetings, means much for both the public and the papers. Heretofore, the public has been denied much important information because, under the former libel law, newspapers did not dare publish such for fear of lawsuits and other complications. The Texas libel law could be still further liberalized for the better!

President Coolidge is one staunch Republican of which the party may well be proud. He is a man who stands for his convictions even tho it means the gaff. His latest act of courage is in vetoing the McNary-Haugen farm relief bill, which he claimed was an "economic fallacy," would not benefit the farmer, but rather would raise the cost of living and operate to the injury of the general welfare. Attached to the President's Attorney General Sargent to the fact that the bill was unconstitutional. But Congress is soon to adjourn and the members will have to have something to tell their farmer constituents when they get back home.

When booze gets into a man's home, debauching and depraving the lives of his children, it is certainly high time for all good citizens of any town to rise up and demand a halt in the operations of the bootlegger and the rest of his ilk. Recent circulating reports are to the effect that some of the pupils of the local school have been tampering with the outlaw juice to an extent that is at least compromising with their better natures. If such is true, and there is no doubt but some of it is, then it is time for parents, officers and all law-abiding citizens to rise up in protection of the youth and against the nefarious and illegal traffic.

At 16 years of age Marcus Loew, a New York newsboy, was ambitious to be a head waiter and started toward his goal by getting a job in a restaurant as dishwasher. He dropped a big tray full of dishes and got fired. That was many years ago. Now he is the multi-millionaire president of about 100 theatrical enterprises, and says breaking those dishes was the cause of the big change in the course of his life.

 April 8

The nation at large, Republican leaders in particular, will watch with interest the reaction of sentiment following the debate between Dr. Nicholas Murray Butler and Senator William A. Borah at Boston April 8 on Prohibition enforcement. Dr. Butler's recent statements about President Coolidge's third term hopes; the importance of facing the wet and dry issue; and things in general about his party, brought Senator Borah into the picture, with a challenge for debate.

**HOW TO MAKE CONNON
 AT 12 CENTS A POUND**

Writing in the Anderson Mail, Geo.
 McGee tells just how to make cotton
 at 12 cents a pound. We know our
 readers will be interested in finding
 out just how it can be done so we
 give Geo's ten specific rules as fol-
 lows:

Rent a good farm for part of the
 crop and shoot your landlord if he
 ever mentions his part to you.

Buy your fertilizer on a credit.
 Steal your mule feed and plow tools
 from your neighbor. Give cold
 checks for your groceries.

Stay away from church so your
 preacher won't expect you to pay him
 anything, and if he sends a collector
 around, why, turn him down.

Borrow a shoat to raise on the
 halves. When he gets fat kill him,
 and tell the man you got it from
 that his half died.

Spend every Sunday with your
 wife's kirkfols, if she has any that
 are fit to go see, and borrow enough
 rations to live on through the follow-
 ing week.

Hire a hand and promise him two
 tales of cotton for his services, and
 run him off before you begin to gath-
 er the cotton. (Make him board him-
 self while working for you.)

Get some good man to endorse
 Get some good man to endorse
 your note for \$50 and don't speak to
 him again.

Trade at every store you find that
 will sell you on a credit. If any of

them turn you down buy a load any-
 how with a check.

As soon as crops are laid by—take
 your mules back to the man you
 bought them from and tell him you
 are "ruin." (He will be glad to get
 his mules back by that time.)

Pick your cotton as fast as it op-
 ens. Have it ginned and charge the
 ginning to your landlord. Sell your
 seed and cotton as soon as possible.
 Dodge everybody you owe, and move
 just as soon as you think that some
 one has an idea you are planning to
 leave.

CACTUS CLUB MEET

Mrs. F. A. Butler very charmingly
 entertained the Cactus club last Fri-
 day afternoon.

Those present were Mesdames W.
 W. Gillette, A. G. Hemphill, J. C.
 Cook, Logan, S. J. Farquhar, Gm
 Howard, T. Y. Casey, J. S. Hilliard,
 J. C. Barnes, W. H. Wales, and J. C.
 Houk.

Decorations were in George Wash-
 ington motifs, and refreshments of
 cherry pie topped with spanked cream
 also coffee, were served.

Mrs. Alton Barton will entertain
 the club March 3rd.

BETTER RANGE PASTURE

Grazing the herbage of bunch grass
 es on cattle and sheep ranges of the
 West when its height is four inches or
 less not only fails to satisfy the hun-
 ger of the animals, but also stunts the
 vegetation, say experts of the Forest
 Service, United States Department of
 Agriculture.

Furthermore, the shortage of for-
 age of good food value and the high
 succulence and comparatively low nu-

**R·P·M·
 & Power**

YOUR motor is designed to deliver a
 certain number of revolutions per min-
 ute to give maximum power and response
 under all conditions.

But as carbon forms, that "knock" occurs.
 The motor revolutions drop—and you lose
 power on hills and pick-up in traffic.

Conoco Ethyl Gasoline knocks out that
 "knock." What's more, the carbon (which
 causes the "knock") becomes a means of
 power because carbon increases pressure—
 and increased pressure means increased
 power. Conoco Ethyl Gasoline performs
 perfectly under this increased pressure.

So fill the tank with this revolutionizing
 fuel at the nearest sign of the Continental
 Soldier—and get extra knockless miles in
 spite of carbon.

tritive value of young herbage some-
 times causes serious livestock losses
 early in the spring. Bunch grasses,
 as a general rule, should be about
 six inches in height before grazing be-
 gins, and the earlier maturing plants
 should have fewer stalks showing.

Grazing closely twice or even three
 times in a season, provided the first
 grazing is late enough and the inter-
 vals are sufficient for the vegetation
 to recover fully from each cropping,
 ordinarily does not seriously affect
 the yield and vigor of the plant cover.

Maintenance and improvement of
 native pasture lands, the forage on
 which is composed largely of bunch
 grasses, is dependent upon the period-
 ical production of a fertile seed crop.
 To insure seed production of the more
 palatable forage plants requires pre-
 ventions of too early grazing, avoid-
 ance of overgrazing, and effective
 control and distribution of stock.

In 1926 Texas crops were valued
 at 22.3 per cent more than the ten
 year average.

And Now This

No one would think of harvesting
 grain in this day and age with a
 cradle, and there is little plowing
 done by oxen or seed sown by hand.
 Yet a De Laval Milker will save more
 time in the course of a year than a grain
 binder or any other labor-saving machine
 on the farm. A De Laval Milker not
 only saves time twice a day, 730 times
 a year, but because of its stimulating
 and soothing action almost invariably
 causes cows to produce more milk than
 by any other method—either hand or
 machine—and in addition produces
 cleaner milk.

Some will not per-
 mit us to point out
 the many features of
 superiority of the
 De Laval Milker, but
 you will give us an
 opportunity we shall
 be glad to go over the
 whole proposition in
 detail with you and
 tell you where you can
 see the De Laval Milker
 in actual operation. If you are milking five or more
 cows by hand, a De Laval Milker will soon pay for itself.

COMMITTEES ARE NAMED BY ROTARY CLUB FOR YEAR
 There were 17 members present at the meeting of the Rotary club last week. Visitors present were C. O. Stone, J. C. Whicker, Mrs. R. S. Thomas, Mrs. F. G. Sadler, Jerry Cox, Misses Maude Cuenod and Betty Culbertson.
 Tommie Thomashad charge of the program for the day, following the luncheon. T. Y. Casey spoke on the value of the Farmers short course to be given in Littlefield next week and urged the co-operation of everyone toward making it a success.
 Misses Cuenod and Culbertson then sang three numbers that were greatly enjoyed, after which Tommie put on a sketch of his own vintage, in which he outlined in terpsichorean meter the occupation of each member in a very interesting manner, incidently winning for himself a place of fame in the hearts of his fellow rotarians as a jolly good fellow, a skilled laborer of official license and a poet laureate excellendo fortissimo.

Gillette Returns From Chevrolet Convention
 The Chevrolet Motor Company is preparing for the greatest year in its history, according to W. W. Gillette, who last week returned from Dallas, where he attended a convention of more than 1,000 Chevrolet dealers. The meeting was the eighth of a series of 21 meetings that are being held this winter from coast to coast. Enthusiasm over the Chevrolet out-

look for the year and the popularity of cars was evident where. Dealers from all over the year will surpass 1926 when it let established a record in the history.
 Mr. Gillette declared that the Chevrolet Motor Co., is providing an organization with the highest of merchandising aid and attention. Following the meeting, the dealers were guests of the company banquet in the Adolphus hotel.

R. E. McCASKILL ELECTED PRESIDENT OF TEXAS UNITY CLUB MEETING IN LUBBOCK
 R. E. McCaskill, manager for the Texas Utilities Company in Littlefield, attended a meeting of company managers held in Lubbock last week, at which time the "Texas Unity Club" was organized, Mr. McCaskill being honored as the first president of the organization.
 The meeting was called to order by Manager Allen, of Lubbock, who explained the purpose of the organization, after which officers for the ensuing year were elected.
 Line Foreman Chase talked on "Co-operation of Local Managers in Relation to High Line Troubles." There were also talks made by other employees present. A board of directors and a committee to draft by-laws were appointed. The club was organized under the authority of General Manager E. S. Billings, of the Texas Utilities Company, and for the purpose of engendering and maintaining a loyal co-operative spirit among its employes and in behalf of the corporation.

 —and next, and the next! In fact, when you buy groceries at an "M" System store the price always sound like it is bargain week, in comparison with the prices asked by other concerns.
 Our unlimited power of quantity buying gives us a decided advantage in lower prices, and we are glad to pass them on to our customers, the same time making the same margin of profit as do other dealers who are unable to compete with the "M" System stores.
 Handling nothing but the very best brands and, on account of our big turnover, you always get fresh groceries at a special price, and maintain your friendship and continued patronage.
OUR MOTTO:
 Top notch goods at bottom notch prices.

BOYS AND GIRLS CONTEST

Seven prizes each, are offered to the boys and girls who induce the greatest number of men and women to attend the Short Course. Cards are distributed to the boys and girls of the Littlefield public schools for this purpose. Each person is asked to present a card, in order to give the boy or girl the benefit of their attendance. However, this is not necessary for admission, as all sessions are FREE to everybody. We urge you to come!

The prizes offered are \$5.00, \$2.50, \$1.00, \$1.00, \$1.00, \$1.00 to the boy who gets the most people to attend this Course. The same amount and number of prizes will be offered to the girls. Prof. Freeman has charge of the boys, and Mrs. Brittain has charge of the girls contest.

AGED MATRON DEAD

Mrs. Nancy Goodwin, age 86 years and nine months, died of pneumonia, Wednesday, of last week, at the home of her daughter, Mrs. W. A. Locke. The remains were shipped by the Burlison-Mason Undertaking company to Grandberry for interment.

BACK TO THE SOIL

Where manure is used as fertilizer, cows on home grown feed, under proper management, will return to the soil about 80 per cent of the fertility taken from the land in growing their feed.

These cows return in the per cent more than they take from the next state in rank.

Living up to his name, Jay of North Cambridge, Mass., got in front of a moving car and had his nose badly scratched.

Your House Next

You can never tell—the next time the fire answer a call it may be your home. Farmers especially warned to insure their house and buildings. Protection costs but little. Don't wait the siren calls. Insure now.
