OPEN HOUSE -- Southwestern Public Service Company's Plant near Earth, is the largest of the electric company's 11 steam generating stations. The newest unit at the plant, a 210,000 kw steam machine, is the largest single generator on the com-

pany's system. The total capability of the plant is 487,500 kilowatts. An Open House will be held at Plant X from 1 to 5 p.m. this Saturday and Sunday, and the public is invited to tour the \$43,000,000 plant.

SATURDAY AND SUNDAY

Open House For Plant X

Public Open House festivities at Plant X, Southwestern Public Service Company's \$43-million facility constructed near Earth, will be held this

Saturday and Sunday.

The facility is the largest of 11 base-load electric generating stations with which the electric company provides service for more than 220,000 customers in its 45,000-square mile service area.

Burglary Nets \$125 In Pennies

A break-in at the Pastime Club No. 2, 223 Phelps Ave., resulted in the theft of approximately \$125 in pennies, city police reported.

The pennies, in three money sacks, were taken from beneath a sink in the establishment sometime Monday night or early Tuesday. Entrance to the building was made by removing a heavy screen from the rear door. Exit, however, was made through the front door.

Two other thefts were reported to city police. Pat Downs reported the theft of an orange and blue kit containing a saw, flexible light, antenna plugs and various other items. The kit was stolen from Downs' truck parked in the 400 block of North Lfd Drive Monday night while Downs was attending a school board meeting.

Rosie Tijernia notified police that an unknown brand TV set and record player was stolen from her home sometime Saturday night. Entrance to the house was made through the bathroom window and the exit through the back door.

Federal Land Bank Annual Meet Tonight

The annual stockholders meeting of the Littlefield Federal Land Bank Association will be held tonight (Thursday) in the Junior High School cafeteria, starting at 7:30 p.m.

All members and their wives are urged to attend the annual dinner session which will include door prizes and a musical program. The business portion will feature reports, election of two directors and showing of the film, "Credit Where Credit Is Due."

County Lists 5 Arrests

The arrest of five persons on a variety of charges was reported this week by the sheriff's department. Those apprehended were as follows:

Robert McBride, 34, of Littlefield, drunk, fined \$20.50; Ray Barrientes, 19, of Olton, burglary, placed under \$2,000 bond; Clemente Camargo Prado, alias Jesus Martinez, 41, of Littlefield, charged with being wetback, turned over to Border Patrol; Warren Luther, 41, of Littlefield, turned over to Lubbock authorities on a felony charge.

2 Young Boys Admit Forgery

Two 10-year-old boys have admitted to city police that they forged a \$6 check on Littlefield businessman Gene Pratt.

Police Chief F.A. Fitzgerald said the youths have been placed under "stiff probation" by their parents and that the money has been returned to Pratt.

Plant X attracted nation-wide attention before the first shovelful of dirt was turned to begin its construction.

"X" was originally meant to serve only as a planning designation while the new facility was on the drawing boards of Southwestern's engineering department and during its construction. It was planned to give the plant another name when it actually went into service.

However, the combination of Plant X, and the location near Earth, had too much attraction, and wherever Public Service Company people traveled in the United States, as soon as their identity was known, they were asked "What are you doing at Plant X, near Earth, these days?"

So, the name was never changed. While the \$43,000,000 plant goes well beyond the stages of something that you might put together with a do-it-yourself kit, it is true to say that Plant X is a "home-made" generating station, in that all of the engineering and design work was done by Southwestern Public Service Company's system engineering department.

This fact, incidentally, was the first of a long list of "firsts" that are now credited to the huge generating station.

Prior to the building of Plant X, some plant additions had been designed and engineered by the company's own engineering department, but the first all-new generating facility to be designed and engineered at home, so to speak, was Plant X. Since that time all of the company's new generating stations, and additions, have borne the home-made label. This results in additional economies through standardization of many design and engineering features, and is one of the reasons that electric rates have remained at 1951 levels, or lower, despite the many increases in the costs of production.

Three times the honor of housing what was then the largest single generating unit on Southwestern's system has fallen to Plant X.

The original unit, installed in 1952, was the first 50,000 kilowatt generator to go into service on the electric company's system. Just one year later, the first 100,000 kilowatt generator went into service. As (See PLANT X, Page 4)

BOLT EXPLODES TANKS

Heavy Rains Soak Area

A soaking blanket of rain, accompanied by a brilliant display of lightning, rolled across Lamb County Tuesday night with the rain, for the most part,

bringing a sigh of relief from farmers, ranchers and city folk.

Estimates from throughout the area ranged from one to more than three inches. It was the first good soaking rain on an area-wide scale since late July.

The lightning also brought an explosion and fire to Littlefield, causing more than \$16,000 in damages.

A bolt of lightning, striking at about 10:20 p.m., exploded a group of oil tanks located between Austin and Wicker on the city's northwest side. At least two nearby homes were damaged by the blast, but there were no injuries reported.

The two tank units, involving a total of six tanks, were located 2,700 feet from another, but were apparently struck at the same instant. Fire Chief Leon Durham said the bolt apparently struck halfway between the two units and splattered into the tanks. One tank unit was empty at the time while the other was filled with oil. The empty unit exploded while the other caught fire.

The explosion blew out windows in one adjacent house and blasted a 2 1/2 inch pipe, 20 feet long, into the roof of the Rudy Ayala home at 249 North Austin. A plate from the top of one tank was located at a truck stop some 600 feet from the tank.

All personnel and equipment from the Littlefield Fire Department was summoned to the scene. Firemen maintained a close watch on adjacent houses and buildings until they were able to extinguish the flames at about 2:30 a.m. Wednesday.

The tanks, operated by George Livermore, were a total loss, with the damage figure estimated at \$16,000 on the tanks.

As to the rainfall, County Agent W.R. Kimbrough commented, "It was a little late, but sure was nice."

Kimbrough said the rain would prove beneficial to late cotton and might have produced some moisture to help in the planting of wheat, oats and barley for pastures and harvest next year. Burned out rangeland should start greening up within a few days.

Cotton farmers with irrigated fields, although appreciative of the rain, are now looking for hot, dry weather. If more rain falls, there is a danger of the staple length and quality being reduced. A prolonged cold and wet spell could cause havoc to the massive cotton crop now nearing the harvest stage.

Heaviest rains were reported in the Olton area, where estimates were around the three-inch mark.

High Water Bill 'Stuns' Trustees

A soaring water bill drew priority attention at the Monday session of the Littlefield school board and resulted in

city officials promising to look into the matter at the city council meeting tonight.

School Supt. Glenn Reeves reported that the August water bill, excluding the new high school, totaled \$1,281, as compared to \$465.75 in July. Reeves also presented statistics on usage and bills for the months of May, June, July, and August for the past three years, all under the amount for this past August.

Special concern was cited on the reading for Wildcat Stadium. According to the city water bill, the stadium consumed 1,333,000 gallons on the August bill for a cost of \$406.30. This was an increase of more than one-million gallons over July when 311,000 gallons were consumed for a cost of \$99.70.

"If these figures are correct, we'll go broke as this kind of money is not included in the budget," Reeves declared.

Mayor B.W. Armistead, contacted on the matter, later came to the meeting with City Manager J.W. Harrison and both city officials said they would look into the matter and have it placed on city council agenda Thursday night.

In other activity at the Monday session, the employment of two new first grade teachers, Mrs. Pat Lang and Mrs. Mary Clary, was approved. Mrs. Lang replaced Mrs. Edith Weed who resigned and Mrs. Clary replaces Mrs. Pam Thompson who will become a special education teacher.

Approval was made also on the hiring of a part-time custodian for the new high school, at a salary not to exceed \$25 per week. The board authorized the expenditure of \$1,040.63 to purchase a carpet, sofa, lamp tables, lamps and dining room furniture for the living-dining room at the new high school. Also approved was the purchase of 19 fire extinguishers for the new school, at a cost of \$216.85, plus freight.

A special meeting was authorized for 5:30 p.m. Monday in the high school conference room at which time the school board will consider plans for (See SCHOOL, Page 4)

County OK's Watershed Plan Funds

Lamb County's commissioners court this week approved a trust fund agreement for a plan study on the Running Water Draw Watershed for flood prevention, waterflow and runoff.

The agreement is with Farmer and Castro counties, and the city of Plainview in Texas; Curry County and the city of Clovis in New Mexico, and the Soil Conservation Service, Lamb County's pro-rata share of the \$70,000 agreement was set at 7.3 percent, or a total of \$4,197.50.

Plans for the study were launched about a year ago, with the watershed crossing Lamb County in the northeast section of the county, north of Olton.

Approval of the trust fund agreement was made at the Monday session of the county commissioners, which also included a public hearing on the county's budget. The budget, totaling \$738,972.40 in expenditures, was approved as presented, along with a continuation of the 95-cent tax rate.

In other activity at the Monday session, the commissioners approved a utility adjustment contract with Southwestern Public Service regarding the relocation of utility lines, etc., for a distance of 3.5 miles along Highway 84 from Amherst to FM Road 745. The contract pays the utility company \$35,894.57 for the project which is in conjunction with the Highway 84 improvement program.

Applications Being Taken For Voting Absentee Way

Applications from eligible voters for absentee ballots in the November General Election are now being accepted at the County Clerk's office in the courthouse.

Although absentee ballots will not be issued until Oct. 14, applications for ballots may be made now by servicemen and other eligible voters who will be out of Lamb County on election day. The clerk's office reports several applications are now on hand.

The absentee voting period will be from Oct. 14 through Oct. 30.

Frosh Gridder Is Hospitalized

A 15-year-old Littlefield freshman football player, Gary Tiller, is reported in good condition after being operated on for a ruptured spleen.

The youth, a guard on the Freshman team, was injured during a practice session Monday afternoon. He remains hospitalized at the Medical Arts Clinic-Hospital.

Wildcats Try Plainview In Victory Search

A near-capacity crowd is anticipated in Wildcat Stadium Friday night when the battling lightweight Wildcats kick open their home football campaign against the razzle-dazzle Plainview Bulldogs.

The victory-hungry Wildcats not only will be gunning for their first triumph of the season but will be remembering last year when the Dogs slipped past for a thrilling 20-18 decision.

Kickoff time is billed for 7:30 p.m. Wildcat Coaches John Howie and Bob Martin told the Quarterback Club Tuesday night that "Plainview is a much differ-

ent team than the type Littlefield fans have seen in recent years. They're a solid, sound team."

Everything points toward a mass invasion of Littlefield by upwards of 1,000 Bulldog fans, especially since drubbing Hereford, 20-0, last week for the first season's opener victory since beating Littlefield in 1957 and it was the first shutout by a Plainview team since blanking Lubbock in 1959.

Plainview sports editor Don Hilburn has ignited the Bulldog charge with his comments last Sunday that stated: "Right now the Dogs are undefeated, untied,

unscored upon. The goal of every Bulldog player and every Bulldog fan should be to keep that record intact Friday night. It will take an all-out effort by

Series Record

The game-by-game record between Littlefield and Plainview over the past 10 years is as follows, with Littlefield leading in the series, 5-2.
1963 -- Plainview 20, Cats 18
1962 -- Cats 27, Plainview 0
1961 -- Cats 32, Plainview 14
1959 -- Cats 20, Plainview 14
1958 -- Cats 14, Plainview 8
1957 -- Plainview 19, Cats 14
1956 -- Cats 36, Plainview 13

both the Bulldogs and their fans to beat Littlefield."

An estimated 1,200 Plainview fans went to Hereford last Friday to watch the Bulldogs reveal their razzle-dazzle offense. Plainview further prepped for the invasion of Littlefield by holding a pancake Victory Supper Monday night.

The man in the Bulldog-spark saddle is Tom Sawyer, 170-pound senior quarterback, billed as the top aerial gunner in District 3-AAAA for the past three years. Sawyer engineered the razzle-dazzle against Hereford with his breakway runs and air bombs. He gained 70 yards in seven carries for scrimmage,

completed six of 11 passes for 115 yards and intercepted two Hereford passes. On one of the interceptions, Sawyer legged the pigskin back 85 yards.

Other top hands in the Bulldog backfield are 195-pound halfback Lonnie Whitfield and 170-pound halfback Stan Rigler. The defense will probably center around tackle Jerry Don Smith.

The man in the Bulldog-spark saddle is Tom Sawyer, 170-pound senior quarterback, billed as the top aerial gunner in District 3-AAAA for the past three years. Sawyer engineered the razzle-dazzle against Hereford with his breakway runs and air bombs. He gained 70 yards in seven carries for scrimmage,

including 230-pound right tackle Billy Graham and 220-pound left tackle Robert Ferguson. The Bulldog offensive backfield will average 175.

The Wildcat offensive line will average slightly over 168.5 pounds and the offensive backfield averages 156 pounds. Thus, Plainview's offensive forward wall will outweigh Littlefield's offensive wall by nearly 18 pounds per man and the Bulldog backfield will outweigh the Cats by 19 pounds per man.

Miss Merrifield-Wallace Holly United in Marriage Friday

MRS. WALLACE HOLLY

Miss Marilyn Jean Merrifield, daughter of Mr. and Mrs. H. B. Merrifield, Star Route 2, Littlefield, and Wallace Lee Holly, son of Mr. and Mrs. Lindell Holly, Spade, exchanged vows Friday at 8 p.m. in the Elms Chapel of First Methodist Church in Littlefield. The Rev. W. O. Anderson, pastor of Rocky Ford Baptist Church, officiated.

Soloist, Jana Young, sang "The Wedding Prayer" and "Whither Thou Goest". She was accompanied by Mrs. Al Chambers at the organ.

Presented in marriage by her father, the bride wore a formal length gown of peau de soie featuring a portrait neckline, bracelet length sleeves and bell skirt. Chantilly lace motifs accented with pearls enhanced the bodice and skirt. A chapel train flowed from the center back waistline. A petal shaped headpiece of lace and pearls held the elbow length veil of imported silk illusion. She carried a bouquet of white French carnations and stephanotis atop a white Bible.

Serving the bride as maid of honor was Miss Linda Garren of Littlefield. She wore a street length dress of apricot crepe, designed with a sleeveless fitted bodice and draped cowl neckline. She carried a lined bouquet of white pom poms frosted in apricot.

Phillip Hughes of Spade served as best man. Ushers were Robert Bolton and Troy Jones.

The bride carried out the traditional theme of something old, something new, something borrowed and blue.

The bride's mother was attired in a three piece green wool knit suit with matching accessories. The mother of the groom wore a two piece apricot knit with matching accessories.

The couple greeted wedding guests at a reception in the church parlor. Mrs. Thad Minyard and Mrs. Gary Fitzgerald presided at the serving table.

For the wedding trip to Red River, N.M., the bride wore a sleeveless sheath of apricot wool with a matching coat of mohair. The couple will be at home near Spade where the bridegroom is engaged in farming. The bride is employed in the tax collector's office in Littlefield.

An electric polisher is not used with self-polishing floor wax, reminds Mrs. Eula J. Newman, Extension Service home management specialist. A long-handled standard wax applicator or a clean dry cloth is preferred. Rubbing is not necessary for a good gloss.

3 Cat Foes Rated High In Grid Poll

Three teams on the Wildcat schedule, including two yet to be met, are ranked among the top 10 in their classifications in the weekly football ratings compiled by the Fort Worth Star-Telegram.

Borger drew 10th spot in Four-A after defeating the Wildcats, 22-6 last Friday. Denver City, the Oct. 2 rival for Littlefield, is No. 9 among Double-A teams and Snyder, the 3-AAA favorite, drew No. 7 after being defeated by Andrews.

Ratings by classifications are as follows:

AAAA -- 1. Garland, 2. Spring Branch, 3. Galena Park, 4. Tascosa, 5. Victoria, 6. Pasadena, 7. Houston Lee, 8. Tyler, 9. Hillcrest, 10. Borger.

AAA -- 1. PSJA, 2. Dumas, 3. Athens, 4. Brownwood, 5. McKinney, 6. Andrews, 7. Snyder, 8. Vidor, 9. Conroe, 10. Wichita Falls Hirsch.

AA -- Phillips, 2. Ballinger, 3. Hondo, 4. Crane, 5. Rockwall, 6. Winters, 7. Brady, 8. Paul Hewitt, 9. Denver City, 10. Iowa Park.

A -- 1. Hull-Daisetta, 2. George West, 3. Albany, 4. Petersburg, 5. Woodboro, 6. Seagraves, 7. Ingleside, 8. Waller, 9. Clifton, 10. Idalou.

IN DOUBLE ACTION—Former West Texas State footballer Dory Funk, Jr., will be in double duty on the wrestling program at Littlefield Sports Arena Saturday. He will join Bill Graham and Jose Lopez in dueling The Viking, Dan Miller and Bruiser Bradley in a six-man tag team match, along with meeting Bradley in an individual match. Other matches will pit Graham against The Viking and Lopez against Miller. The program starts at 8:45 p.m.

3-AAA In Slow Start

After a near-complete zero on the gridiron last Friday, first week when all seven members were in action, District 3-AAA teams are hopeful for an improved showing tomorrow night.

Sweetwater was the lone winner last Friday as the league was tagged with one win, five defeats and one tie against outside rivals. The Mustangs, viewed as a leading contender for the district title, bumped strong Breckenridge, 22-16. Other members of the 3-AAA family weren't so successful; in fact, three of them failed to find the scoring gates.

Levelland, trying to recuperate after several players resigned from the varsity last week, didn't win, didn't lose and didn't score. The Lobos struggled to a scoreless tie with Seminole. Levelland had the edge in penetrations, but Seminole posted the most downs.

After eight games (San Angelo Lake View started a week earlier), the district has a weak record of 2-5-1. The seven teams of the district have produced a total of 55 points while being touched for 154 in return.

In games this week Sweetwater draws No. 1 focus as the Mustangs host Abilene's Eagles in another chapter of the annual brawl between the two long-time rivals. Abilene, not considered a strong team this year, nevertheless socked San Antonio Jeff last Friday, 10-7.

Snyder, a 10-8 loser to Andrews, tries to get moving against Class AA Stamford, which is 1-1. Lamesa, blanked by Big Spring, will travel to Andrews and it may be another shutout as Andrews sacked the golden Tornadoes last year, 19-0.

Brownfield dealt a 32-9 drubbing by Denver City, leaves the state in search of victory as the Cubs visit Hobbs, N.M. Hobbs was beaten by Kermit last week, 9-0.

Littlefield lost to Borger's Bulldogs last Friday and will try some more Bulldogs, the Plainview variety, this time. Plainview beat Hereford last week for its first season's opener victory since beating Littlefield in 1957. Levelland will be out to get rolling when the Lobos host Canyon, a two-point loser to Double-A Floydada last week.

Lake View plays its third straight Double-A foe when the Chiefs host Mason which lost to Winters, 16-0, after having won its Sept. 4 opener from Sonora, 24-0.

PLANT - -

(Continued From Page 1)

a matter of fact, construction on it was underway before the 50,000 kilowatt machine was "on the line". Still another 100,000 kilowatt unit went into service in 1955, but the so-called "temporary wall" was kept on the east side of the plant, because with the continued growth of the area, the continued expansion of Plant X was inevitable.

This year saw the first 210,000 kilowatt generator go into service on the Southwestern system, and it is at Plant X, and is known to the 58 man crew as "X-4".

Three major considerations played a role in the location of Plant X.

The plant site is adjacent to a natural gas pipeline, and, thus, the fuel supply was readily available. It is in the very heart of the electric load center of Southwestern's service area, which makes possible the transmission of the power to its point of ultimate consumption at the lowest possible cost - a factor in keeping rates low. Finally, it was located in the sand hills area because this land did not lend itself to agriculture, and the water that was used at the plant would not impede the progress of irrigation in the areas of tillable land.

Southwestern Public Service Company, incidentally, has embarked on a number of programs designed to conserve the water resources of their service area. At the Nichols Station, near Amarillo, cooling water is provided by treated sewage effluent, which is purchased from the City of Amarillo.

Fresh water is used to make steam for the boilers in the company's generating station, but this water is used and re-used constantly. Between 99-1/2% and 99-3/4% of the steam that goes through the boiler on each cycle is recaptured. In other words, only about 20 gallons of water a minute is used in this process, and it takes more than that to keep a lawn green.

Insofar as the cooling water is concerned, in the more modern generating units, steam is "bled off" during the generating process, and used to heat water which is on its way to become steam in the boiler. As a result, the steam that is "bled off" is not condensed through the use of cooling water, and the proportionate amount of cooling water is saved. Inasmuch as it takes a pound of water to condense a pound of steam, it can be seen that the conservation factor here is a major consideration.

Mathematically speaking, "X" may be the symbol for the unknown, but, in Lamb County, near Earth, Texas, it's the name of the largest of 11 base-load electric generating stations by means of which Southwestern Public Service Company meets the constantly growing electrical requirements of a region known as "America's Most Promising 45,000 square Miles".

Proper Picker Operation Can Produce Top Savings

COLLEGE STATION -- Cotton farmers interested in saving costly dollars on each bale produced should consider carefully the way they operate their mechanical pickers.

The difference between operating a mechanical cotton picker improperly and handling one skillfully may be as much as \$14.50 or more per bale, says Beverly G. Reeves, cotton ginning and mechanization specialist, Texas Agricultural Extension Service.

Driving the picker off-center

on a row often results in skinning off pieces of bark from the cotton stalks, explains Reeves. Being quite difficult to remove from cotton in the gin, bark may show up in the sample at the classing office. Cotton classed "bark" automatically loses one grade and receives a one cent per pound penalty in the loan, he points out.

As an example of what this might mean to you, let's say that your cotton was down-graded from M 1-3/32 to SLM 1-3/32 because of "bark." A difference in price of \$1.90 per one hundred pounds and the additional one cent penalty means a total loss of \$2.90 per one hundred pounds of \$14.50 on a 500-pound bale, explains the specialist.

Therefore, a properly adjusted, carefully operated cotton picker can save hundreds of dollars during a harvest season.

THE WILD WEST

One Down, Nine To Go

By NERT C. WEST

Webster defines hunger as: "to feel the pain or uneasiness which is occasioned by long abstinence from food; to desire with great eagerness; to long for."

In sports such as football the most enjoyable food is that which is cooked with a dash of football victory.

A team that goes into battle with complete and united hunger desiring victory with great eagerness, is most apt to find its longed-for seat at the victory feast table.

One game certainly does not make a season. The Wildcats got tangled up with a bunch of Bulldogs in trying to clear the first hurdle last Friday. There are, however, at least nine more blockades on the 1964 trail before any blue ribbons, or raspberries, are distributed. That stumble at the first hurdle was far from being fatal.

There's time to get untangled, get the spark lit, slash out galloping room for that widely-acclaimed speed, turn loose that hunger feeling on the enemy and gather some scalps. Wildcat-style. The next opportunity is Friday night when the Wildcats can lay ambush for another pack of romping Bulldogs, the Plainview variety.

Plainview halted its extensive losing skid last year by rubbing Littlefield. The Bulldogs will be bringing a huge collection of boosters to Wildcat Stadium in anticipation of making the Wildcats say "Uncle" for the second straight year. They got the fever started last week by using a rattle-dazzle production in bouncing injured Hereford; so, they'll be logging along high hopes of skinning some Wildcats.

All of which makes for a good time for the Wildcats to get a little hungry on their own. Some Bulldog-chow would make for a good appetizer toward the future menu.

MIGHTY BEARS . . . The PSJA Bears, ranked as the No. 1 team among Texas' Class AAA teams, have an interesting pedigree. In addition to reaching the state finals the past two years with teams that were much smaller in weight than the 1964 Littlefield Wildcats and having another squad of tiny mates this time around, the Bears have gone through 19 straight regular season games without defeat (three ties involved) and have gone through 20 straight district bouts without losing.

In four years of district play, PSJA has a 25-1-2 mark. The lone defeat and both ties came at the hands of San Benito, which is no longer in the same district.

As to defense, in the last 29 games the lightweight Bears have permitted only 152 points scored against them, an average of less than 5.3 per game. In 13 of their last 21 regular season games the Bears have held the enemy scoreless.

This Friday, the Bears play Four-A McAllen, a team considered the strongest in the 23-school Rio Grande Valley. It could set the stage for a Bear downfall.

STREAKS . . . All four 1963 state champs won last week, to continue their winning streaks. Corsicana and Rockwall are riding with 15 straight victories. Garland has won 13 in a row. Petersburg has won eight straight and gone through 17 straight without a loss.

HIGH SCORERS . . . Several schoolboy teams are off and running with high scoring machines. The Los Fresnos Falcons, a 32-AA team down in the Valley, are the leaders in the upper four classifications

with 137 points in two games for a 68.5 average. A 125-pound Japanese scabbard, Billy Nakayama, going for his fourth varsity letter, is one of the Los Fresnos sparkplugs.

Other high scoring teams are Hull-Daisetta. Spearman. Seagraves and Phillips. Hull-Daisetta has 102 in two games for a 51-point average. Seagraves and Spearman are each averaging 45 points per game after two starts. Phillips, now in Double-A, has scored 78 points in two starts without surrendering a single point in return.

COUNTY SCORING . . . Guy Hufstetler of Amherst has grabbed the early lead for Lamb County's individual scoring title. He has 13 points, one more than tallied by Olton's Richard Hall.

3-AA NOTES . . . The loop boasts three perfect record teams. Floydada, Friona and Lockney. Friona's Doug Ford leads the scorers with 10 points, while Sammy Watts of Floydada, Neil Mitchell of Lockney, Richard Hall of Olton and Nathan Knight of Abernathy have 12 points apiece.

3-A NOTES . . . The downfall of Springlake left the league without a perfect record team. The Wolverines have scored more points than any team in the loop, but they have also given up more points than any team, 36 to 73. Silverton quarterback Gregs Powe has taken over the individual scoring lead with 14 points, two more than Hale Center's J.D. Davis and Farwell's Dan Huffaker.

COLLEGE TRY . . . Time to fire up the crystal ball for a weekly try on the Tough Dozen college games. For the initial round we have Arkansas over Oklahoma State, Texas A&M passing LSU, TCU chopping Kansas, Texas Tech beating Mississippi State, Oklahoma mashing Maryland, Alabama sacking Georgia, Kentucky over Detroit, Army crushing Citadel, Washington downing Air Force, Mississippi over Memphis State and Wisconsin over Kansas State.

CRYSTAL BALL . . . Last week's efforts slipped to a .683 percentage with 53 winners, 24 losers and two ties in 79 games, bringing the seasonal mark to 77-31-2 for a .709 percentage. Our District 3-AAA effort was 5-1-1.

In this week's 3-AAA games we go with Levelland over Canyon, Andrews to shatter Lamesa, Snyder over Stamford, Lake View to rap Mason, Brownfield to whack Hobbs, Sweetwater to upset Abilene. As to the Wildcats, we figure they're ready to chop out some running room for the backs and we go with them to muzzle Plainview's Bulldogs by five points, something like 29-24.

For other games around the neighborhood, it's Amherst over Sudan, Springlake rebounding against Bovina, Olton topping Muleshoe, Ropesville beating Anton, Hereford over Dimmitt, Petersburg sticking Lockney, Abernathy over Hale Center, Seagraves beating Farwell, Idalou over Kress, Dalhart frying Friona, Borger to kayo Dumas.

Phillips over Tulia, Spearman stabbing Gruver, Perryton sacking Woodward, Pampa popping Ysleta, Tascosa topping Midland Lee, Wichita Falls nipping Amarillo, Corsicana over Riverside, Cleburne ramming Breckenridge, Graham over Brewer, Jacksboro beating Mineral Wells, Stephenville sticking Duncanville, Winters chilling Brady, Albany whacking

surprises on the enemy and, based on what took place in Hereford, the move has been successful--to date.

Howe pronounced the Wildcats in good condition for the first home game of the season. The only probable change in the offensive line-up will send James Black, 165-pound junior, to the split tackle post in place of George Willard. Black also handles most of the team's punting.

The Littlefield backfield will likely start Ronnie Sittin at quarterback with Larry Coffman and Larry Schovajsa at halves and Steve Lewis at wingback.

ANTON BULLDOGS--These are the 1-64 Anton Bulldogs of District 2-B who will be gunning for their first victory of the season Friday when they travel to Ropesville. Front row, left to right, are Tommy Landers, Danny Markham, Donnie Buchanan, Rickie Reep and Mike Burum. Second row, left to right, are Jerry Parker, Roger Mitchell, Nicky Biffle, Lambeth, Larry Conkin and Mike Roberts; third row, Mike Rodriguez, Eddie Henson, Larry Crews, Kirk Williams, Conkin, Mike Couch and Manager David Buchanan; fourth row, Mike Snead, Drew Dunaway, David Denson, Larry Glass, Paul Swanson and Ronny Glass.

GOING FOR 7TH STRAIGHT

Amherst, Sudan In Area Feature

The first collision of Lamb County teams for 1964 season, pitting Sudan against Amherst, spotlights the area football agenda this Friday.

Amherst, lone undefeated and united team left in the area, will be shooting for its second straight victory of this season and its seventh in a row dating back into last year, as it enters the 1-1 record Sudan outfit.

Amherst has an unbeaten string extending through seven games, but that includes a tie with Anton. Sudan won last year's match with Amherst, 24-0.

Other games for area clubs will have Springlake hosting Bovina, Olton entertaining Muleshoe, and Whitharral hosting Wellman while Anton travels to Ropesville and Bula goes to Sand.

Springlake, with its prestige deflated by the trouncing it expected from Seagraves, is expected to hit the rebound trail against Bovina. The 3-A Wolverines are 1-1 while Bovina of District 1-B dropped its seasonal opener to Farwell, 21-0. Olton will be trying a Triple-

games booked in Wildcat Stadium and one on the road.

The Seventh and Eighth Graders kick open their season when they meet Morton on the local field, starting with the Seventh Grader clash at 4 p.m. Following the Eighth Grader game, the Freshmen will take aim on their second straight win of the season when they play Plainview Coronado in a 6 p.m. bout.

The Freshmen, who haven't been beaten since they began play as Seventh Graders two years ago, won their opener from Morton last week, 32-0.

Billy Wayne Henderson scored four touchdowns for the Freshmen in their romp over Morton while Mike Grissom added another touchdown. Henderson also logged over a two point conversion.

Meanwhile, the Junior Varsity will hit the trail to Muleshoe for a 6 p.m. game. The JV's lost their opener to Monterey, 26-0.

YoungFarmer Week Set for Next Week

The period of September 20-26 is Young Farmer Week in Texas by official proclamation of Governor John Connally. The proclamation signed during the 11th year of operation of the State Association of Young Farmers of Texas asks all citizens to give recognition and encouragement to the young men who make up membership of the young farm group. The Governor has issued a similar proclamation designating the same period as Young Homemaker Week in Texas. The Young Homemakers is a companion organization to Young Farmers; membership in the majority of homemaker chapters is composed primarily of wives of Young Farmers.

The Young Farmer chapters are sponsored by the co-op teachers in the public schools while the Young Homemakers are sponsored by homemaker teachers. Weldon Mason of Brownfield is Young Farmer president. Mrs. Doris Weil of Hale Center is President of the Young Homemakers. Active membership in both organizations is restricted to ages 18-35; a person over 35 may belong in capacity of associate member, however.

Governor Connally points out in his proclamation that Young Farmers carry out educational activities designed to continuously upgrade themselves in their farming and ranching or agriculture related occupations and that while they are organized primarily for educational purposes, they incorporate in their planned programs civic and community service activities, rural leadership development, and recreation.

Currently, there are over 200 Young Farmer chapters in Texas organized on a school district or county-wide basis.

Some 33 new chapters have affiliated with the State Association in recent months.

There are 115 Young Homemaker chapters in operation. The organization is relatively young but is growing rapidly in chapters and in membership. Educational programs of Young Homemakers are designed to develop skills and to gain information on new and improved methods of homemaking. Other phases of the Young Homemaker work are built around leadership development, church work, family and community living, and preservation of the American home.

September is a month of intense activity for both Young Farmers and Young Homemakers organizations. Each group selects annual area award winners and gets together for area awards banquets during the month of September. Over 2250 Young Farmers and Young Homemakers attended awards banquets in their respective areas last year. With new record membership in both organizations, total participation in the various area awards banquets during September, 1964 is expected to be well over 3000.

Senior Citizen In Seminar Levelland

LEVELLAND--Senior Citizens of the area are encouraged to enroll as soon as possible in the South Plains College Seminar beginning Oct. 10. The course entitled "Importance of Positive Thinking," will be held from 10:30 a.m. to 12 noon each Saturday for 10 weeks. The price of the course is \$1.

Henry Adair, psychology instructor at SPC will conduct at Oct. 10 session on "Understanding the Human Mind."

The lecture will be followed by "Understanding Ourselves and Others," also by Adair on the following Saturday. Other session topics will include: "Think, Respond, Create;" "Reflection of that Creation;" "Motivation, Reaction, Rhythms;" and "The Stimulation that Causes the Simulation on the Stage."

Approximately 65 were enrolled in the class last fall and more are expected for this fall's Seminar. They attended from a radius of sixty miles around Levelland.

Additional information may be obtained from the office of Frank Hunt, Evening School Director.

BUSINESS SERVICES DIRECTORY

Perry's Coin Operated Laundry and Car Wash Offers Up-To-Date Service

About seven years ago, Perry opened the first coin operated laundry in Littlefield. About a month ago, he established the first coin operated self service car wash.

During the seven years, Perry has added many time saving features to the laundry as well as saving money for his customers. Vending machines have been installed to give correct portions of liquid bleach, hot starch,

soda ash, naphtha, etc. for their wash eliminating the necessity for bringing their own liquids and powders.

The self service coin operated car wash has 500 lb. pressure to hose your car with warm soft water and soap. Follow the instructions printed on the wall and you will do a good, clean, fast job. To clean the inside of the car an industrial coin operated type vac-

cum cleaner is available that gives 5 minutes for a dime.

Someone is available at all times to make change if required.

Each month an eight transistor radio is given away to a lucky registrant.

The Perrys have established an enviable reputation for giving the best in equipment and service in the automatic laundry field.
