John Howard, playing the suave amateur sleuth for the fifth time, wages a relentless war on a gang of desperate international agents who bring him into action when they steal an amazing new mili-tary machine, an electrical "detonator," and murder the inventor. one of the detective's closest friends

Howard's wild chase of the flee ng criminals chimes right in with today's headlines about the activi-ties of spies and might well have been taken from them. Warned by Scotland Yard officials not to meddle in such an explosive affair Howard defies all authority and flies after the cruise ship on which the gangsters are making their getaway. He catches up with them for a final showdown against the colorful background of a mysteri ous tropical port. Romance, in the person of win

some Heather Angel, goes hand-in-hand with the spy plot of the picture. Left waiting at the church once more when the murder breaks, Miss Angel sails from Eng land on the same cruise ship as the criminals and aids her sweetheart

in the final round-up.

The story of "Arrest Bulldog
Drummond!" was penned by H. C. (Snapper) McNeile, one of the country's best-liked mystery writers and author of a long line of "Drummond" tales. Playing lead roles in support of Howard and Miss Angel in the new story are H. B. Warner, E. E. Clive and Reginald Denny.

### BOAD PROJECT ON'D

WASHINGTON, Jan. 7 (49 -Business and Professional Women's auxiliary will convene at the First Presbyterian church Wednesday evening at 7 o'clock for a discount of traffic hazards, and as were also expected this Smith, Mrs. J. E. Kelley, Mrs. Bart Smith, Mrs. J. E. Kelley, Mrs. Earl \$142,698.

Sixteen years ago when father made mother believe a woman's place was in the home, two girls, not yet out of their "teens," did a daring thing by promoting a loan from the bank to buy the brackers studies a business they Bradshaw studio-a business they have conducted successfully throughout the years.

These two girls, who are sisters, Mrs. Tot Sullivan and Mrs.

Pyrie Perry, were very much of a rarity in the business world of the early days, for until 1929 women photographers were considered an oddity.

Photography seemed to sort of run in the Bradshaw family, since the girls had another sister, Mrs. H. W. Goodpastor of Goose Creek, who worked in the studio here when it was first established in 1921. Mrs. Sullivan served her ap-

prenticeship in a studio here and Mrs. Perry worked in Midland, Stephenville, Vernon and Graham before coming to Big Spring to buy the studio with her sister in

Keeping up with new ideas and developments in any-field is of vital importance to a successful business and every year one of the girls attends the Southwestern and National photographers' conventions. Mrs. Perry studied in Mr. Beaty's Lighting School in Dallas and two years ago Mrs. Sullivan attended Winona School of Photography, one of the first and the only advanced school in the United States located on Winona Lake in Indiana.

After these years, the girls still get a thrill out of their work because it takes them to many amusing places. They have taken pictures of everything from a

firebox on an engine to liquor stills and similar equipment. They have done commercial work from Fort Worth to Irann and had the honor of taking pictures of such notables as the late Will Rogers, Mrs. Franklin Roosevelt, Ruth Chatterton and Doug Cor-

One night recently, Mrs. Sullivan worked from 10:30 o'clock to 2 o'clock a. m. taking pictures of broken parts of a drilling rig so the manufacturer would know the extent of the damage. One of their biggest professional thrills came this winter when they took the head of a little boy in a kodak picture and his body from an-

other picture, enlarged the pieces and made a complete portrait The girls had an opportunity to try their skill because the parents wanted a picture of their son who was killed recently and they only had two snapshots. In one ture the boy's head was good and in another his body was excellent. By putting the two together,

a striking likeness was created.

The studio was not established by the girls' father, L. M. Bradshaw of Midland, as many believe but was started by Geo. W. Miller who named it the Bradshaw studio because Mrs. Sullivan and Mrs. Goodpastor originally ran it for him.
