Sugar Allotment Time Extended

War Ration Stamp No. 8 will be used for the purchase of five pounds of sugar during the ten-week period beginning August 23 and ending October 31. C. O. Griffin, chairman of the Lamb County War and Rationing Board, announced this week.

This is a larger amount of sugar and the ration period is longer than has been assigned for any previous stamp," Mr. Griffin explained, "but each person will have to continue using sugar at the original rate of no more than half a pound a week to make the five-pound ration last ten weeks."

Mr. Griffin said the allotment of pounds on Stamp No. 8 will permit household users to buy sugar in larger packages, and also help to dispose of five, ten and pound packages.

Twenty-five Tons Scrap Shipped From Littlefield Recently

Approximately 150,000 pounds, 75 tons, of scrap iron and metal have been shipped from Littlefield defense factories the past few weeks, Andrew McGehee, local scrap iron and metal dealer, announced Wednesday.

"We appreciate what everyone is doing in this salvage campaign," T. Elms, local chairman of the Lamb County Salvage Committee, said, "but we must have more scrap materials to send to Uncle Sam."

It was not determined Wednesday just how much scrap iron and metal had been collected in the county.

Plans are being made for a "Scrap Day," Saturday, August 24, when every citizen in Lamb County is urged to contribute something to the campaign.

Interest Big in Senate Race; Election Saturday

Lamb county voters will go to the polls Saturday, in the second primary election, and cast their ballots in five state and four congressional contests.

In the state contests the chief interest centers in the race for the United States Senatorship, with Senator W. Lee O'Daniel asking re-election and James V. Allred, former governor and former Federal judge, seeking the office. This has been a hard fought contest since the very outset.

Outstanding interest in the races for county and precinct offices centers in the contest for sheriff, with Sheriff Sam Hutson asking re-election and Don Bryant campaigning for the office.

The ballot for Saturday's election will be set up in this order:
 FOR U. S. SENATOR: W. Lee O'Daniel, Tarrant county, and James V. Allred, Harris county.
 FOR LIEUTENANT GOVERNOR:

Mrs. Othal Popplewell, 34, wife of Dr. Popplewell of Anton, passed away at a local hospital Friday morning about 6:45 o'clock, where she had been taken about five hours earlier.

Mrs. Popplewell had undergone major surgery several years ago, since which she had been in poor health. About three months ago she again underwent an operation, and two days previous to her death was stricken with Lobar Pneumonia, which proved fatal.

Funeral services were conducted at 2:30 o'clock Friday afternoon at the Baptist Church, Anton, with Rev. F. N. Allen, pastor, officiating.

The remains were shipped by train by Hammons Funeral Home, Littlefield, to Fort Worth Friday afternoon, where burial took place Saturday afternoon.

Mrs. Popplewell was born May 23, 1908, and was a member of the Anton Baptist Church at her death.

Surviving her were her husband; a son, Eugene, aged 14 years; a sister, Miss Gertrude Greenleaf of Wichita, Kans.; and two brothers of Fort Worth.

Dr. Popplewell was accompanied to Fort Worth by George Broom, James Weiss and Clarence Matthews, all of Anton.

Cotton Loan Plan Announced By AAA

Texas cotton farmers will receive loans at 85 per cent of parity on this year's cotton crop.

Rates on 15-16 inch middling cotton, net weight, vary from 16.61 cents in the El Paso valley to 16.82 in East Texas and back to 16.77 in the Central Texas area, P. C. Colgin, state AAA commodity loan specialist, has announced.

Loan rates throughout the state will vary, he explained, because of location and freight rates.

As in previous years, premiums and discounts for grade and staple in the 1942 program will be calculated in relation to the loan rate on 15-16 inch middling cotton.

The average loan rate on 7-8 inch middling cotton, gross weight, is 16.02 cents per pound while the net weight loan rate is 70 points higher to compensate for the lesser number of pounds on which the loan is extended. Loan rate for middling 15-16 cotton is 20 points above the basic loan rate for 7-8 inch middling cotton, the average price being 16.92 cents, net weight.

Notes will bear interest at the rate of 3 per cent per annum and will mature July 31, 1943, but will be callable on demand. Loans will be available until May 31, 1943.

Full loan rates will be available to AAA cooperators while non-cooperators may receive loans at 60 per cent of the full rate on that part of their cotton subject to penalty, Colgin said.

Littlefield Gets 1.26 Inches Moisture Thursday, Friday

Rains General Over South Plains Area; Will Greatly Aid Crops

Littlefield and the South Plains received much needed rains Thursday and Friday nights, the total precipitation, according to the West Texas Cottonoil Mill gauge, being 1.26 inches.

Rain, reported to be general, began falling here Thursday night about 6 o'clock, which continued throughout the night, when 1.09 inches are reported. Friday evening moisture started to fall about 8 o'clock, and drizzled during the night when .17 of an inch fell.

H. C. Pumphrey, local Santa Fe agent, reported that on the Santa Fe route from Littlefield to Clovis; from here to Slaton, on the Crosbyton branch of the Santa Fe, and as far north as Plainview good rains are reported. Moisture from one to two inches is reported over Lamb County, Morton, Enochs, Bula, and Brownfield all report good rains, measuring an inch or more.

Lubbock reported two inches, while Muleshoe and Post reported lighter moisture, with Levelland receiving half an inch.

Farmers and business men alike welcomed the rain, which will greatly aid the crops, and is proving a relief from the dry hot weather which this section has been having for the past two months.

Teachers Named At Special Board Meet

At a special meeting of the Littlefield School Board Monday night, eight teachers were elected, and a special meeting will be held Friday night to name six other teachers, Supt. F. A. Hemphill reported.

At the meeting Monday night, the board voted to purchase casualty and accident insurance on the school buses and for the drivers.

Nine local citizens and a group of high school boys called on the board, asking the members to reconsider the decision made several weeks ago to abolish football in the local school. Board members received their petitions, and stated that they would reconsider the decision and make a report to these citizens. Mr. Hemphill stated that no athletic coach was available, and to date, there had been no applications for the position presented to the board.

The following teachers were elected Monday night: Mrs. J. D. Armistead, a graduate of Texas Christian University with an instrumental music major, with several years teaching experience, was elected as band director and to teach Public School Music in the grades.

Miss Winnie Hendrix of Spring Lake, to teach in the grades; Miss Vera Moorehead, who has taught in the Bailey County schools, will teach in the primary grades.

Miss Merrill Nystel, Abernathy, science in high school; Miss Betty Buckner, Cotton Center, social studies in the grades; Miss Nettie Belle Batton, graduate of Tech, language arts in grades; Mrs. Edward Betts, the former Miss Lucille Hall, who has taught the past several years in the Tahoka school, social studies in the grades; Miss Lois Kinchen, Eric, Okla., commercial work in high school.

Mr. Hemphill stated that the Littlefield schools are fortunate this year in securing teachers with longer experience records than heretofore.

Vacancies exist in many schools in this area, Mr. Hemphill said, as so many teachers are entering defense plants and other phases of employment. However, the local school is reported to have a more complete faculty at this time than other schools in the county.

The following resignations were announced by Mr. Hemphill: M. T. Camp, who has been inducted into the army; Arnold Richards, who will be superintendent of the schools at Blackwell; Miss Anna Mae Fleisher, accepted a civil service position in San Antonio; Miss Oleta Bryan; Miss Laura Mae Slaughter, employed in civil service in Amarillo; D. C. Lindley, now employed at local Piggly Wiggly; Miss Mary Ann Tolson; Mrs. David Keithley, will teach English in the Levelland high school; Miss Eddythe Walker, who will teach in the primary school in Lubbock; Miss Ollie Brown, Miss Ruth Jordan, and Miss Janelle Kirk. Red Cross Field Executive Praises Work In Lamb County

E. L. Durkee, field representative for the American Red Cross for the Panhandle and South Plains, accompanied F. A. Hemphill, county Red Cross chairman, visiting the chapters of the Red Cross in Lamb county last Thursday and Friday.

Mr. Durkee reported that he found the county units in a very cooperative spirit, and complimented the work being accomplished by the various chairmen and their helpers. He stated that Mrs. Simon D. Hay, Sudan, chairman of the War Relief Production in the county, was doing "a mighty fine job," and C. A. Duffey, Amherst, chairman of the Emergency Relief Drive, had "served in a very efficient manner."

Urging that more First Aid Courses be conducted in the county, Mr. Durkee stressed the need for Home Nursing courses in Lamb county.

No membership drive will be made in the county this fall, Mr. Hemphill stated, but plans are being made for the annual Roll Call to be included with the War Fund campaign, which will be staged next March.

'Sport' Lakey Reported Missing in Pacific Area

Mrs. Beattie Lakey received a letter Monday from the Adjutant General's office of the War Department, Washington, D. C., stating that her son, Private First Class Webster C. "Sport" Lakey, was reported missing in action.

Pvt. Lakey was believed to be serving in the Philippine Islands at the time of the final surrender. His mother received a letter from "Sport" December 6, 1941, which had been written November 21, 1941, at Nichol's Field, Manila, and this was the last word she had received from him. He had been in the army two years, and had been in the Philippine Islands about a year.

A portion of the letter received by Mrs. Lakey is printed below:

"According to War Department records, you have been designated as the emergency addressee of Private First Class Webster C. Lakey, 6,296,931, who, according to the latest information available, was serving in the Philippine Islands at the time of the final surrender."

"I deeply regret that it is impossible for me to give you more information than is contained in this letter. In the last days before the surrender of Bataan there were casualties which were not reported to the War Department. Conceivably the same is true of the surrender of Corregidor and possibly of other islands of the Philippines. The Japanese Government has indicated its intention of conforming to the terms of the Geneva Convention with respect to the interchange of information regarding prisoners of war. At some future

date this Government will receive through Geneva a list of persons who have been taken prisoners of war. Until that time the War Department cannot give you positive information.

"The War Department will consider the persons serving in the Philippine Islands as 'missing in action' from the date of the surrender of Corregidor, May 7, 1942, until definite information to the contrary is received. It is to be hoped that the Japanese Government will communicate a list of prisoners of war at an early date. At that time you will be notified by this office in the event his name is contained in the list of prisoners of war. In the case of persons known to have been present in the Philippines and who are not reported to be prisoners of war by the Japanese Government, the War Department will continue to carry them as 'missing in action,' in the absence of information to the contrary, until 12 months have expired. At the expiration of 12 months and in the absence of other information the War Department is authorized to make final determination. . . ."

RETURNERS WITH PRISONER
 Sheriff Sam Hutson returned from Riverside, Calif., Saturday, bringing with him Johnnie Edgar Piers, arrested in California for Sheriff Hutson, on a charge of alleged forgery.

Sheriff Hutson said the Grand Jury would investigate the case August 21, and that the case no doubt would be tried August 31.

Purpose To Carry Out U. S. Program More Efficiently

Total Number Stamps, Bonds Sold in Lamb Co. In July Was \$34,786.05

Additional committeemen were named by the County War Bond committee in a meeting Tuesday night at the local post office, Pat Boone, county chairman, announced Wednesday.

The additional members were named by the committee, after general business conditions in the county were discussed, and it is the hope of the committee that each community might more efficiently carry on the work of contacting people who have not bought bonds, but who are financially able to do so, and also those who are not purchasing sufficient bonds and stamps.

Committees in the county now include: Littlefield—J. C. Hibun, E. A. Bills, F. O. Boles, Homer Hall, W. D. T. Storey, F. A. Hemphill, and J. A. Price; new members—L. C. Hewitt, H. C. Pumphrey, C. O. Stone, Ralph Smith, L. B. Stone, W. D. Watkins, J. O. Garlington, and E. J. Foust; Amherst—Allen White, Neal Duffey, C. M. Coffey; new members—T. I. Batson, C. V. Harmon, Matt Nix, Ira Eolland; Sudan—S. D. Hay, F. E. Miller, P. E. Boeson, Joe Hutchinson; new members—Herman Lyle, Jess Parks, Drew Watkins, John Dean; Olton—R. E. Dennis, H. P. Webb, J. F. Wiles; new members—L. E. Silcott, I. B. Holt and C. E. Bley.

No additional committeemen were named for Earth Tuesday night, due to the absence of Marshall Kelly, chairman for that vicinity.

The total number of war bonds and stamps sold in the county during the month of July, \$34,786.05, was reported by Mr. Boone.

He stated that he believed the August Quota, \$54,000, would be reached this month, as county banks and the local post office have reported that they had already sold twice as many bonds and stamps as they sold during the month of July.

Postmaster W. D. T. Storey reported that bonds and stamps totaling \$2,100 were purchased at the local post office Monday. Only a few individuals did not purchase this amount either, Mr. Storey said, but many people were buying bonds and stamps who had not done so heretofore.

Six Million Tons Scrap Needed

We are facing a crisis in our war production. Unless we immediately salvage at least 6 million tons of scrap iron and steel, and great additional quantities of rubber and other materials, we are not going to meet our production quotas, and our boys and our Allies are not going to get the materials they need—in time . . . the situation is serious. . . Your help is needed now.

All counties in the United States have had special scrap collections, but in spite of the excellent work that has been done, every evidence we have shows that there are still untold tons of scrap in rural areas. Experience has also shown that one collection drive, no matter how good, does not get all there is. For example in one state a strong program produced 44,000 tons of scrap metal. A month later a special effort produced an additional 40,000 tons.

While scrap collection cannot end with a single drive, but must be a continuing program, an intensification of effort is essential to obtain all available scrap from farm areas before winter stops the flow. To accomplish this a County Committee was appointed, of which V. F. Jones is chairman; and also a local Salvage Committee, of which Jess Elms is Chairman, who are assuming the responsibility of seeing that this salvage campaign is carried out.

A fine job was done on the salvage of waste paper and rubber in Lamb County. Now our great task is to do an equally good job on iron and steel scrap, nonferrous metals and rags.

In the barnyards and gullies of farms and in the basements and attics of homes is a lot of Junk which is doing no good where it is, but which is needed at once to help smash the Japs and Nazis.

Scrap iron and steel for example. Even in peacetime, scrap provided about 50 per cent of the raw material for steel. It may be rusty, old "scrap" to you, but it is actually refined steel—with most impurities removed, and can be quickly melted with new metal in the form of pig iron to produce highest quality steel for our war machines.

The production of steel has gone up, up, UP, until today America is turning out as much steel as all the rest of the world combined. But unless at least 6,000,000 additional tons of scrap steel is uncovered promptly, the full rate of production cannot be attained or increased; the necessary tanks, guns and ships cannot be produced.

In addition, we have new responsibilities in the salvage of surplus cooking fats and, in certain cities, tin cans.

The immensity of the task we still face requires a stepping up of the tempo of the Salvage program. If we are to keep our steel mills going full blast this winter, we must increase the flow of scrap iron and steel by at least 6,000,000 tons—25 per cent more than normal.

Another vital scrap material is scrap rubber. With the enemy controlling over 90 per cent of the world's crude rubber supply, and with synthetic rubber in volume at least a year away, scrap rubber has become an essential war material. We need all we can get.

The Junk which you collect is bought by industry from scrap dealers at established, government-controlled prices.

The only way we can meet the requirements of war production is to obtain every bit of scrap from every home, every commercial establishment, every industrial enterprise in the country.

It means that the cooperation of every man, woman and child in the country is needed to supply the Government with the vital war materials. This is the people's job. Are you going to do your part? Are you going to hunt and hunt in every corner of your home or farm for the much needed scrap and bring it to the junk dealer . . . receive your pay therefor . . . and feel proud that you have contributed that much to the big task of winning the war?

How To Place Tires

Assuming 100 per cent as the total wear on all the tires of your automobile which one, if any, wears the quickest? The engineer has found out and here is the answer he gives to that question: On your left front tire 14 per cent; on your right front 19 per cent; on your left rear 29 per cent; and on your right rear 38 per cent. With this in mind you know where to put your weakest tire and furthermore you know that one of your rear tires is going to wear more than twice as fast as one of your fronts. Several people (maybe everybody except us) already know this and are changing their tires with regularity to wear them all down somewhat more evenly. A good many owners of these, instead of doing the job themselves, ask their service station man to do it. This, together with the fast-increasing number of flats occasioned by bad tubes and wearing out tires is making a job out of the position at the station. Time you change a few big tires and then fix a few tubes that can't be fixed the day has begun to start for the filling station boys—and are they tired and ready for a little rest by night time!

Cotton Ruling Made On Conservation

Cotton farmers who overplant their allotments by not more than three acres, or three per cent, whichever is the larger, will not be con-

sidered as "knowingly overplanted" and may be eligible to receive part of their conservation payments but they will be subject to conservation penalties and marketing quota penalties. B. F. Vance, state AAA administrative officer, has announced. Conservation penalty rates, Vance

explained, are ten times the payment rate and if the three acre overplanting is 10 per cent or more of the allotment, the penalty will wipe out the payment.

As an example, if the allotment is 30 acres and the farmer plants 33 acres, the penalty on the three acres will wipe out the payment on the 30 acres.

This provision, Vance explained further, in no way affects marketing quota regulations and the farmer will receive a red card if he overplants his allotment and will be subject to a marketing quota penalty if he sells cotton in excess of his farm marketing quota.

However, he concludes, farmers whose overplantings do not exceed three acres or 3 per cent, whichever is the larger, will be eligible for government loans.

The STORY OF "Shortages" -

For months, the word "shortage" has been applied to every basic industry and material. There was a shortage of aluminum, steel, lead, tin, copper, gasoline, rubber, etc. There have been critical shortages of important materials that have hampered the production of the vital ingredients of war, ships, planes, tanks and guns.

For months there have been rumors of power shortages. But there has not been one single instance where production of material for armament has been delayed because of a lack of Electric Power. The Electric Industry is the one industry that, even six months after Pearl Harbor, is able to furnish all the power necessary in our quickening drive for Victory.

LET'S GET IT STRAIGHT

There has been ample Electric Power for all war needs without depriving offices, stores or households of their normal supply. No one has had to issue rationing cards for domestic use of Electricity. Let's remember these thoughts when we hear rumors of power shortages.

* These thoughts taken from a statement issued by J. A. Krup, chief of the power branch of the War Production Board, July 22, 1942, Washington, D. C.

Jester's Campaign For Rail Board Hits High Speed

Corsicana, Aug. 15.—Predicting victory because of general approval of his win-the-war program for the Texas Railroad Commission, Beauford Jester this week swept through the final phase of his first campaign for public office.

The Corsicana lawyer and farmer whose friends term him "a war veteran for a war job," declared he

BEAUFORD JESTER

is daily receiving word of support from all sections which indicate he will lead the balloting by a wide margin Saturday.

Jester's service at the front in the first World War has attracted the attention of most Texans, since his gave him a first-hand view of the needs of fighting men. Likewise, it showed him how American soldiers fight through when they get the supplies and support they need on schedule and in sufficient quantities.

Jester this week reiterated his first campaign pledge when he entered the race, that he would turn the full energies of the railroad commission to pushing the war program. "There is nothing more important to our war effort than the production of oil and the maintenance of transportation," he declared. "I shall do all within my power to see that nothing stands in the way of the proper functioning of these two great industries in the interest of our war effort."

He again called attention to his platform plank for farmers, written in the interest of a group whose problems he knows because of his own participation. "The farmers and

visitors are invited to attend this council meeting.

JUNK needed for War

In the barnyards and gullies of farms and in the basements and attics of homes is a lot of Junk which is doing no good where it is, but which is needed at once to help smash the Japs and Nazis.

Scrap iron and steel, for example. Even in peacetime, scrap provided about 50% of the raw material for steel. It may be rusty, old "scrap" to you, but it is actually refined steel—with most impurities removed, and can be quickly melted with new metal in the form of pig iron to produce highest quality steel for our war machines.

The production of steel has gone up, up, UP, until today America is turning out as much steel as all the rest of the world combined. But unless at least 6,000,000 additional tons of scrap steel is uncovered promptly, the full

rate of production cannot be attained or increased; the necessary tanks, guns and ships cannot be produced.

The rubber situation is also critical. In spite of the recent rubber drive, there is a continuing need for large quantities of scrap rubber. Also for other waste materials and metals like brass, copper, zinc, lead and tin.

The Junk which you collect is bought by industry from scrap dealers at established, government-controlled prices.

Will you help? First—collect all of your waste material and pile it up.

Then—sell it to a Junk dealer, give it to a charity, take it yourself to the nearest collection point, or get in touch with your Local Salvage Committee.

If you live on a farm, consult your County War Board or your farm implement dealer.

Throw YOUR scrap into the fight!

United States Senate

. . . A Real Democrat . . . A West Texan . . . A Man Whose Record of Public Service Stands Up Under Rigid Inspection

Stands For Not Less Than 25c Cotton

Pledges to Work For 3 Per Cent Government Loans to Farmers and Ranchers

Would Not Outlaw Labor Unions But to Control Them

His Platform:

1. To win the People's war as quickly as possible;
2. To provide for our boys in uniform while they are in and when they come out of the service;
3. To set up a machinery for readjustment at the present time and rehabilitation after the war is over;
4. To write and enforce an enduring peace that shall insure our children against another war.

JAMES V. ALLRED
As Attorney General (1931-1934)

Collected and saved for Texas people \$7,338,088.03.

Challenged Supreme Court interpretation of fee laws, saving Texas \$800,000 annually. Collected for the State School Fund \$1,000,000—eight times as much as any other Attorney General.

Established School Funds title to oil royalty in Yates Field valued at more than \$20,000,000.

Gave relief to hundreds of legitimate concerns suffering from unfair trade practices and combinations.

Successfully fought Federal income tax officials in their efforts to tax school income.

Allred resigned a lifetime appointment as Federal Judge in May to run for the U. S. Senate, declaring: "I do not believe in holding one office and running for another."

JAMES V. ALLRED
As Governor (1935-1938)

Social Security Constitutional Amendment—including old age assistance—submitted and adopted during his administration.

Instituted a pardon and parole system that became a model for other states; instituted prison reforms.

Instituted unemployment insurance department. While he was Governor, sit-down strikes were sweeping the nation. He said there would be none in Texas and there were none.

Instituted vocational training.

Established a Negro tuberculosis hospital.

AS FEDERAL JUDGE
(1939-1942)

Commended for his record on the bench by President Franklin D. Roosevelt, who in accepting his resignation, wrote:

"I want you to know that the trust imposed in you by your appointment as Federal Judge has been fully honored. You have made a fine record on the Bench and can leave it with that comfortable feeling of a job well done."

The Pension Record

ALLRED

- (1) Ran for Governor on platform of old age pensions in 1934. The first candidate for Governor in Texas to include such a plank.
- (2) Submitted an old age pension Constitutional amendment to the Legislature in 1935.
- (3) Made speeches asking the people to vote for it during the summer of 1935.
- (4) After the people had voted the amendment, he called special session of the legislature to put the amendment into effect.
- (5) Signed first old age pension bill in Texas history November 19, 1935.
- (6) Called three special sessions of the Legislature in efforts to raise sufficient funds.
- (7) Was always opposed by the same special interests who are now supporting O'Daniel in this race.
- (8) Additional funds finally provided, effective November 1, 1936.
- (9) 114,500 on pension rolls as his term ended.

NOTE: All the pension money ever paid to the old folks in Texas was raised by laws passed during Governor Allred's administration; or by laws passed by the Legislature during O'Daniel's administration, but in spite of his opposition to them.

THAT IS THE RECORD

In the more than 100 years of Texas history, Texas has never been represented in the United States Senate by a West Texan. This year, for the first time, you have an opportunity of electing a West Texan to that high position by VOTING FOR JAMES V. ALLRED, WHO WAS BORN AND GREW TO MANHOOD IN WEST TEXAS AND WHO KNOWS AND UNDERSTANDS THE PROBLEMS OF WEST TEXANS. HIS RECORD OF TWO TERMS AS ATTORNEY GENERAL AND TWO TERMS AS GOVERNOR OF TEXAS IS FILLED WITH PAGES OF SUCCESSFUL SOLUTIONS OF WEST TEXAS PROBLEMS.

With South Plains Men In The Service

Mr. and Mrs. J. M. Blessing, Mr. and Mrs. Roy Blessing, and Mrs. O. K. Yantis, Jr., returned Tuesday from San Antonio, where they visited since Friday with Samuel Erwin Blessing, who is stationed at Kelly Field No. 2, San Antonio. Sam Ed is training as a cadet and lacks only three weeks before he will start flying.

He hopes to have his wings in about six months.

Robert Earl Guthrie, crew chief over Carpenters Division, at the Lubbock Air Base, spent the past week with his mother, Mrs. Joe Guthrie.

Guthrie was promoted from the rank of Corporal to Sergeant this week.

The Leader received a letter from A. B. Chapman, formerly of Littlefield, Tuesday which besides subscribing to this newspaper said:

"I am in Greeley, Colo., now learning radio, with the U. S. Signal Corps. My civil service appointment finally came through as mechanic learner (radio). Radio work is so interesting, and I am so glad to have a part in the war effort. xxx"

Sergeant Cecil Hall of Will Rogers Field, Oklahoma, accompanied by Mrs. Hall and daughter, who have been living in Oklahoma City,

arrived in Littlefield last Friday for a visit with Sergeant Hall's parents, Mr. and Mrs. Homer Hall. They also have visited Mrs. Hall's father at Abernathy, and Tuesday they visited Sergeant Hall's brother, Robert Hall, and family, of near Slaton.

Dwight Jefferson Nance of Littlefield is a member of the South Plains unit of the "Texas Plainsmen," a Naval aviation cadet squadron recruited from the South Plains area, which group were honored Monday by a luncheon given in the Hilton Hotel, Lubbock, by the Junior Chamber of Commerce of that city, at which Congressman George Mahon was guest speaker and enthused the group by his splendid patriotic talk.

A similar event was held at Amarillo Tuesday for the entire squadron, at which about 400 people attended.

The Lubbock group left by special bus for Amarillo, and from there proceeded to the University of Georgia at Athens for preliminary training before being assigned to Naval stations for flight training.

G. W. Steffy of the U.S.S. West Virginia has been promoted to first class seaman. This is quite an honor since he made it in five months whereas it usually takes 14 months. He expects to get a furlough to come home about Christmas.

Jim H. Sharp, Pastor
A Service Dedicated to the Boys in the Service of Our Country. Next Sunday morning we are dedicating our morning service to our boys in the service of our country. We want every Mother, Father, Sister, Brother and friend of our boys to come and work with us. It would be a fine thing if we could wire or write our boys that "We are enjoying the freedom of worship and blessing that you are fighting for. We are praying for you." What a thrill it would be backing them with our prayers and that we were taking advantage of the privilege that is ours. Come and worship with us Sunday.

PROPOSED CONSTITUTIONAL AMENDMENT

H. J. R. No. 1

A JOINT RESOLUTION

proposing an amendment to Article III of the Constitution of the State of Texas by adding a new section thereto to be known as Section 49a, requiring all bills passed by the Legislature on and after January 1, 1945, appropriating money for any purpose, to be sent to the Comptroller of Public Accounts for his approval, and fixing the duties of the Comptroller with reference thereto; authorizing the Legislature to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by the General Revenue Fund on September 1, 1943; providing for the submission of this amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof; and providing for the necessary appropriation to defray necessary expenses for the submission of this amendment.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto, immediately after Section 49, a section to be known as Section 49a, to read as follows:

"Section 49a. It shall be the duty of the Comptroller of Public Accounts in advance of each Regular Session of the Legislature to prepare and submit to the Governor and to the Legislature upon its convening a statement under oath showing fully the financial condition of the State Treasury at the close of the last fiscal period and an estimate of the probable receipts and disbursements for the then current fiscal year. There shall also be contained in said statement an itemized estimate of the anticipated revenue based on the laws then in effect that will be received by and for the State from all sources showing the fund accounts to be credited during the succeeding biennium and said statement shall contain such other information as may be required by law. Supplemental statements shall be submitted at any Special Session of the Legislature and at such other times as may be necessary to show probable changes.

"From and after January 1, 1945, save in the case of emergency and imperative public necessity and with a four-fifths vote of the total membership of each House, no appropriation in excess of the cash and anticipated revenue of the funds from which such appropriation is to be made shall be valid. From and after January 1, 1945, no bill containing an appropriation shall be considered as passed or be sent to the Governor for consideration until and unless the Comptroller of Public Accounts endorses his certificate thereon showing that the amount appropriated is within the amount estimated to be available in the affected funds. When the Comptroller finds an ap-

propriation bill exceeds the estimated revenue he shall endorse such finding thereon and return to the House in which same originated. Such information shall be immediately made known to both the House of Representatives and the Senate and the necessary steps shall be taken to bring such appropriation to within the revenue, either by providing additional revenue or reducing the appropriation.

"For the purpose of financing the outstanding obligations of the General Revenue Fund of the State and placing its current accounts on a cash basis the Legislature of the State of Texas is hereby authorized to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by said fund on September 1, 1943, provided such bonds shall not draw interest in excess of two (2) per cent per annum and shall mature within twenty (20) years from date."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas, at the next general election to be held on the first Tuesday after the first Monday in November, 1942, being November 3, 1942, at which election all voters favoring said proposed amendment shall write or have printed on their ballots, the words: "For the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Those opposing said proposed Amendment shall write or have printed on their ballots, the words: "Against the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and have same published as required by the Constitution for amendments thereto.

Sec. 4. The sum of Five Thousand Dollars (\$5,000.00), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas, not otherwise appropriated, to pay the expenses of such publication and election.

**Vote on Marketing Quota
Referendum To Be Taken**

College Station, Aug. 17.—Some time before June 10, 1943, Texas wheat farmers will vote in their third national wheat marketing quota referendum.

Purpose of announcing the marketing quota proclamation at this early date is to get word out to all farmers now planning their fall wheat seeding operations, B. F. Vance, administrative officer of the AAA in Texas, announced.

"With the present war emergency like it is and the urgent need for certain type of commodities other than wheat, I hope Texas wheat farmers will divert as much acreage as they possibly can to other war-crops insofar as it is possible," he said.

He explained that wheat is a val-

uable warcrop, as shown during the first World War when there wasn't enough of it, but that present supplies were so heavy that the nation was hard pressed to find adequate storage even though large amounts were being fed to livestock.

Diversion of wheat acreage to warcrops, storing wheat on the farms and marketing it wherever possible in the form of livestock and poultry were cited as special contributions wheat farmers could make to the war program.

Quotas are announced for an approaching year whenever it appears the total supply of wheat will exceed a normal year's domestic consumption and exports by more than 35 per cent.

Due to successive large crops and

TO PAY 85c FOR FEED WHEAT

decreased exports, the 1943 wheat supply not only will exceed domestic consumption and exports by 35 per cent but probably will be twice the size of these outlets, Vance said.

TO THE VOTERS OF LAMB COUNTY

It has come to my attention that a circular is being distributed, purporting to show that I owe Lamb County a sum of money.

You who know me, know that such statements are not true, but to clarify any doubts that some may have, I wish to deny the charges, and have personally signed the following statement:

I hereby state that I do not owe the county money; that actually there is due me a small sum for fees, after all credits due from state and county are audited.

I operate my office on the fee system, and not out of the county treasury and the taxpayers' money.

If any person, or group of persons, can prove that the foregoing statements are not true, I will pay any amount that is due . . . or the county CAN and WILL make my bondsmen pay it for me.

As your sheriff, I am under a substantial financial bond, which remains in effect as long as I am in office. It is a surety bond backed by a big company with large reserves and approved by the county officials. If anything were wrong in my office, the company would pay any deficit, then cancel my bond and bring court action against me.

I am signing this statement so that you may know the FACTS . . . So that you can Beware of and Disbelieve and Disapprove of last minute unethical political propaganda.

My record as your sheriff is an open book . . . I have nothing to hide . . . I can look every citizen of our county in the face knowing that I have been honest and straight forward in everything that I have done.

I ask for your vote and support for the office of Sheriff on my record, and promise to continue to keep our county clean, and crime at a minimum.

SINCERELY,

SAM HUTSON

SHERIFF
