### Track Pair Upset Top Men Throughout Entire State

By J. D. TRULY  
The Littlefield Wildcats captured eighth place in the 13th running of the West Texas Relays at Odessa. The relays were run on Friday and Saturday of last week. Littlefield earned 10 points for their place in the team standings.

PICTURED ABOVE are two of Littlefield's track stars, Bobby Cunningham and Max Morris with Coach Gene Mayfield. Both boys were members of the 1956 semi-final football squad. Morris is one of the upper 10% of his class scholastically and was voted a member of the All-State football team. This is the first year that Morris has been outstanding in track. Cunningham, however, placed second in the AA mile run last year. Both boys have participated in five meets thus far this year and Cunningham has been defeated only once by Jack Tayrien. He avenged this loss last Saturday when he beat Tayrien at Odessa in the West Texas Relays. Both boys will participate in the District 1-AAA Meet at Canyon Saturday.

Five records were broken in the high school division and if the weather had been better, many more would probably have fallen. There were high winds, blowing dust, and blowing snow. These ingredients are no conducive to track and field events.

Two Littlefield students looked at the weather with complete disregard, however, and they went out to upset the bet makers and the favorites with their individual events. These two track enthusiasts were Max Morris and Bobby Cunningham.

Cunningham, a junior, ran another one of his fabulous mile runs in a relatively slow time but considering the weather and the people he beat, it was a great win. The prunning favorite was Carlos "Speedy" Gonzales of El Paso High. Gonzales is the defending West Texas Relays champion and also the state AA champion. The week before Gonzales had run a 4:27 and Cunningham's best time was 4:38.8.

Cunningham started this race as he always does. For the first three laps he was contented to run in fourth place behind the leaders. In the final lap, he opened up and passed Gonzales and then Carter Conaway of Abilene who at that time was in first place. Conaway began falling and Gonzales passed him and stuck on Cunningham's heels for almost half the way around the final lap. As they came into the home stretch, Cunningham outlasted Gonzales and won by a going-away eight yards.

Gonzales was not the only one favored to beat Cunningham. Conaway had also turned in a faster time this year as he ran a 4:38.6 on March 16 in the Southwest Recreation Club Relays.

Max Morris turned in an individual performance that would outdo any turned in by anyone in the state this year. Morris stepped into the circle in the preliminaries and when he got through turning and twisting, the discus went sailing through the air for an amazing 168'11". This throw was among the best ever turned in in the state. Coach Mayfield said "This may not have been a state record but it was among the best half dozen throws ever made in the state."

Morris made this tremendous throw in the preliminaries and it was good enough to carry him through the finals. Jack Tayrien was by far the favorite because he had beaten Morris in the ABC relays the week before.

# KAT'S KORNER

Hi! You busy little people—

This week is really a rat race for most of us. Most of the Inter-scholastic League contests are Saturday and all the track team, the declaimers, the extemporaneous speakers, the poetry readers, the E.ady Writers, and "I don't know what all else" are going to Canyon to contest. Every one is driving themselves nuts trying to get ready.

Last Tuesday the one-act play contest was to have been held in Canyon, but because of the weather it was called off. The play cast had a chance after all, though because they gave their play for the Elementary P.T.A. that afternoon.

Those lucky Student Council delegates they left at 4 o'clock for Galveston Tuesday and they won't be back until Saturday or Sunday. Think of missing all that school to go swimming in the Gulf and enjoy the coastal sunshine. The delegates are: Gerald Zybra, Carol Caldwell, Charles Duval, and James Pressley. Their sponsor, Mrs. Kinsner is going with them too.

I sure am sorry to hear about Mrs. Lynn's little boy being sick. I hope he gets well real soon.

The band is going to give their Spring Concert tomorrow night. They are going to play their contest numbers and some of the banda favorite tunes.

Their contest numbers this year are "Sequoia Tone Painting" by LeGassey, "Morning, Noon and Night" by Fvon Suppe, and "No Bel Men March" by Henry Fillmore. The rest of the program will be such numbers as George Ger-shwin selections, "El Cabelero," a Spanish march, "Manhattan Beach March," "Bugler's Holiday," and other light numbers. This promises to be the best yet of the Wildcat Band's public performances, so be sure not to miss it.

Congratulations to the Choir on winning Sweepstakes at their contest last Saturday. We really have a music department, don't we? And all those people who made a first division on their solos and ensembles really makes you proud you are a LHS'er.

I didn't know we did have so many talented actresses and actors in our school. That Moon Shire Shindig Monday night was a hilariously funny way to get ennis courts for Littlefield. Those jokes, those boys that threw the atom around, and that music! I laughed until I was weak at those "black faces". Hope they do something like that again.

I have a biology report to get so I'll see you at the band concert.

# 25,000 Acres In County Signed For Soil Bank

## Deadline Set For April 15

According to Lamar D. Aten, Jr., Lamb County ASC manager, Lamb County farmers have signed agreements to divert 9,252 acres of their cotton allotment land to the Soil Bank, in the acreage reserve, which is for a period of one year.

Aten stated that 163 agreements have been signed up, covering 9,252 acres, for which the farmers will receive from the government a total of \$369,507.

The deadline for signing up under the Acreage Reserve was March 15.

Farmers have until April 15, said Aten, to sign up under the Conservation Reserve. Agreements run from five or 10 years, and land covered by same must be sowed to a permanent grass.

To date, 15,000 acres have been entered in this unit of the Soil Bank totaling \$215,000 in annual payments. This acreage is divided about 40 per cent covering the ten-year period and 60 per cent the five-year period.

The government is sharing the cost of sowing 12 different grasses, and information in this regard and payment rates are available at the ASC office in the basement of the Court House in Littlefield.

# Littlefield Music Department Makes Outstanding Record In District Meet

Members of the music department of the Littlefield schools made an outstanding record at the district meet held Saturday in Brownfield.

The high school a capella choir won sweepstakes wards and both the girls' choir and the junior high mixed choir were first division winners. All decisions were unanimous with the three judges.

All eighteen vocal soloists and

one piano soloist that entered rated in either first or second divisions. In addition the Melody Bells and the Quintones received second division awards.

Palmer McCown and Sam McCormick both rated in the second division in the student conductor competition.

In commending the students for their achievements, Director Hugh Ellison explained, "Third division

is considered an average performance. Therefore, second division is really an achievement, though not equal to a first division."

"All of our soloists, ensembles and choirs came out with a second division or better", he pointed out.

"Credit is due our three accompanists, Trudy McGee, Gracie Russell and Paula Sue Johnson for their fine work. Also deserving of much credit is Mrs. Al

Chambers, elementary school music teacher, for fine preparation of these young musicians", Ellison continued.

Soloists winning First Division—Nancy Russell, Paula Sue Jensen, Teddie J. Obitner, David Ogg, Neal Walker and Palmer McCown; Class Two were—Gracie Russell (piano) and Sam McCormick, De Pierce, Charles Coffey, Lena Naylor and Sandra Stout.

Second Division winners were

Jo Ann Hall, Patsy Tiley, Marilyn Penn, Penna Smith, Joyce Vaughn, Othana Smith, Jerry Kolter, Juanita Kenedy.

## H.D. Program Presented By Mrs. Phillips

The County Home Demonstration agent, Mrs. Lady Clare Phillips presented a program on "Food" demonstrating a meal from the freezer to the table, when she met with the Sunnydale club at the home of Mrs. Bill Cape on Friday, March 22nd, 1957.

Mrs. Thos Harris presided over the business meeting.

For opening exercise a slip of paper bearing the name of either some H. D. Club, or Council members, County or Legislative official, was pinned on each ladies back. The ladies then had to guess whose name had been pinned on their back by asking questions to which only "yes" or "no" could

be answered.

A game of candy relay followed. Leaders of each relay team raced to a bowl of many colored candies, picked up a toothpick speared a candy of their teams chosen color raced back to the next player and fed her the candy, she in turn did the same to the next player and so on. The winning team were given the remainder of the candy as their prize.

Roll call was answered by naming one daily food requirement.

Mrs. W. O. Hampton gave the council report. Council recommendations were discussed and adopted. One of these recommendations was that each member make a kitchen hat to be paraded at April meetings. The winning hat to be paraded at May council meeting.

Following the business meeting Mrs. Phillips gave a program on "Food".

She outlined a summary of several interpretations of the word "Food".

(1) To most people food means

satisfaction of hunger, enjoyment of eating, pleasant experience with family and friends.

(2) To the homemaker it means the job of planning, preparing, serving and cleaning up. It means satisfaction in improving skills. An opportunity for the family to plan and work together.

(3) To the head of the house it means as much as 1/2 to 1/3 of the family income. It means the satisfaction in providing through food the health vigor and enjoyment of the family.

(4) To the farmer, food means production the satisfaction of feeding the world and improving the health and vigor of all people.

(5) To the wholesaler, grocer, processor and transport co. It means pride in making available the world's food, an opportunity for service as well as a source of income.

(6) To us as individuals, food means life, it means growth and repair, the source and energy for living, working and playing.

(7) Since food is life, are we eating to live a longer, happier, more productive life? There is evidence that many Texas people are not.

Mrs. Phillips then prepared and served a delectable meal from the freezer, of individual meat loaves in barbecue sauce, green beans,

fruit salad with poppy seed dressing and hot rolls. The hostess added a desert of cake, strawberries and cream with hot coffee and cookies.

Those present were: Mrs. Thos Harris, Mrs. Jack Brooke, Mrs. W. O. Hampton, Mrs. Louise Joyce, Mrs. Paul Lewis, Mrs. B. E. Reagan, Mrs. Fred Grisham, Mrs. E. J. Grisham, Jr., Mrs. Bob Lackey, Miss June Lackey, Mrs. A. L. Aldridge, Mrs. I. J. Rice, Mrs. C. E. Walker, Mrs. W. W. Boren, Jr., Mrs. C. Russell, Mrs. L. G. Grizzle, Mrs. L. B. Elms.

Members are asked to make and model their kitchen hats (made from things to be found in a kitchen) or an eastern bonnet. At the next meeting which will be April 12th, 2 p.m. at the home of Mrs. L. B. Elms.

## Student Urged To Hold Onto Social Security Cards

"Hold on to that social security card you used last summer. It's now more valuable than ever, because of the recent changes in the Social Security Act." This is the advice given to students by John G. Hutton, Manager of the Lubbock District Office of the Social Security Administration. Mr. Hutton explained that each individual should have only one social security account number and that if the card were lost, a duplicate should be applied for at the social security office. He said that getting another original number, instead of a duplicate with the number of the lost card on it, would mean credits for social security benefits split between two accounts. This, in turn, could result in a reduction of social security payments at retirement, death, or disability. Some of the main changes made in the social security law, Mr. Hutton said, were disability insurance payments for totally disabled workers at age 50, reduction of retirement age for women to 62, coverage for almost all self-employed professional men, except medical doctors, benefits for totally disabled dependent children over 18, and coverage for the uniformed services on the basis of employees in commerce and industry. A representative from the Lubbock Social Security Office will be in Littlefield on April 4 at 9:30 a.m. at the Employment office.

## Earth Stores And Homes To Be Numbered

Numbers are now available for all business places and residences in Earth. Maps have been worked out for postal regulations for postal delivery when the city of Earth warrants free delivery. House numbers can be obtained from the Chamber of Commerce for \$1.00 each set. When an individual offers you something for nothing, it is time to remember that the price is too high. Optimism is that quality that permits us to hope that somebody else will do something for us.

A "colyum hitter" who is really good leads a very interesting life. He sees and hears in great volume the events of this rapidly revolving age. Some of them travel the world... there are others among us on this sphere of grief and disappointment who seldom get beyond the city limits. But as long as the little woman tolerates us... and our dog understands us... well, this isn't such a bad old world... the next could be a lot less comfortable.

Frankly, our feet are gettin' itchy; we've been in the house under suppression of our old enemy... the "flu". Even our dog got tired of lookin' at us; he kept edg'in' around to the subject of backin' out the car and goin' places. But he was sort of a hospital case himself. We just happened to think (it does happen to us once in a while) that Parson Vandergool told us that the new First Methodist Church will have a counseling room, which will be used at times especially for warning newsmen that there is a hereafter... sort of an upper and lower berth deal... mucho frio, comodo in the upper... mucho caliente in the lower.

That word "counseling" got us to thinking... wondering... what the future held for us in our association with the Littlefield representative of the Methodist clergy... what "out" we had when our sins backed us in a corner in the counseling room. But we are of good cheer... our dictionary tells us... among a lot of other things that we sometimes don't know that "counsel" means "interchange of opinion"... For some reason April is the month the experts have picked for special funnybone stimulation. National Smile Week, March 4-9, was just a prelude... in fact, it slipped by with scarcely any attention.

We have April Fool's Day, April 1, then National Laugh Week, April 1-8, National Fun Day, April 26, winding up with Mother-in-Law Day, April 28.

There are other special weeks and days coming up in rapid succession; we'll try and keep you informed on coming events... all three of you who read "Coffee Breaks."

### Basic Issue Dodged

The Supreme Court dodged the main issue Monday in ruling on a case involving political spending by a union.

The 6-to-3 decision held that the United Automobile Workers violated the Taft-Hartley act in using dues money to support candidates in 1954. The matter of whether the law is constitutional, however, was left open. And the majority decision made a distinction in use of union money which does not appear to be sound.

The U.A.W. was indicted under the Taft-Hartley provision putting labor unions under the same prohibition in political activities as corporations. The latter are not allowed to use stockholders' money without their consent for political purposes. Taft-Hartley placed the dues of union members in the same class.

The indictment was dismissed by a Detroit federal judge and the case was taken up to the highest court.

The three-man minority upheld the dismissal of the indictment, declaring that in this case the law violates the First Amendment covering freedom of speech, of assembly and the right to petition.

The majority held that the law was violated but refused to say whether Congress had the constitutional right to enact such a law.

Justice Frankfurter, author of the majority opinion, wrote that the case would have been different had the appeals for certain candidates been made to union members only. The appeals in question were telecasts to the general public.

The fallacy in Frankfurter's reasoning is this: Since the money that paid for the telecasts was union dues, the basic issue here is whether leaders can spend that money in behalf of candidates opposed by some of the members. In other words, whether members' dues can be used for political purposes without their consent.

The union attempt to sidestep this particular provision in Taft-Hartley by calling their political activities "education" although a large part of these activities consists of plain electioneering.

Sooner or later the Supreme Court must face up to this issue: If corporations violate stockholders' rights by using company money in politics, don't unions violate members' rights by using dues for the same purpose?

### You Have More Dollars Now, But . . .

A perusal of graphs showing growth of American industrial production, increase in national income and average income per person, and government in the standard of living in this country can be stimulating experience.

However, one gets a highly distorted picture unless the graphs also show comparisons between 1957 dollar and the dollar of some earlier year; also unless the increase in population is taken into consideration.

For example, the March 8 issue of the magazine U.S. News & World Report has some highly interesting charts on several phases of the business picture. The ascending lines are exciting, sometimes sensational.

But when one takes note of the second ascending line below the first one on some charts, adjusting value of output and average income for price inflation, he gets quite a different picture. He gets a considerable different picture, too, when he considers the fact that the country's population has almost doubled since 1910.

One chart shows gross national product about \$33,000,000,000 in 1910. Today it is \$400,000,000,000 in today's dollars. Figured in 1910 dollars, however, it is about \$140,000,000,000 — little more than four times as much instead of 14 times. And when the virtual doubling in population is taken into account, we find that it is about twice as much per person as 47 years ago.

That's a tremendous gain, and a magnificent tribute to American productivity under the free enterprise system. No one should belittle it. But one has to consider more factors than the top line on the graph to get the true picture.

Take average income per person. It was about \$700 in 1929. Today it is about \$1700 — in today's dollars. In 1929 dollars, near \$1050. That's a 50 per cent increase. But it is noticeable that there has been virtually no increase in average income, after taxes, adjusted for price inflation, since 1944.

Another highly interesting graph is the one on cost of living. It shows that if the 1947-49 average is taken as 100, present living cost is straining toward 120. In 1939 it was 60 — but your dollar is worth just half as much today as it was in 1939, which balances out. In other words you have more dollars today than in 1939 but they will buy only just as much.

BALTIMORE, MD., THE DAILY RECORD: "We do a lot of kicking about taxes, but most of us forget that a rise in taxes is caused not just by the government spending for projects advocated by the 'other fellow' but also by the spending necessitated by the projects we ourselves advocated."

### Highlights and Sidelights From Your State Capitol

By VERN SANFORD  
Texas Press Association

AUSTIN, Tex. — Legislative digging into the affairs of ICT Insurance Co. has reached the pick-and-shovel stage.

Previous sensation-a-day pace could hardly be maintained. In prospect now is an exhaustive turning over of every detail of the bankrupt company's financial history. Goal is to discover if crash was due to any violations of law, or lack of adequate laws or enforcement.

One possibility for fresh sensations would be the return of Ben-Jack Gage, former manager of the company. Gage is in South America. He said he would be glad to talk with the committees, but was busy right now and couldn't get away.

Gage's successors at ICT have accused him of squandering the company's funds in numerous bizarre promotional schemes.

Recent disclosures from testimony:

(1) Former Insurance Commission Chairman J. Bryon Saunders received some \$7,000 from ICT Discount Corp. in monthly checks. Saunders said it was in payment for his interest in Wood County oil wells. Atty. Gen. Will Wilson questioned Saunders closely as to why the money was listed on his income tax return as legal fees rather than money from a property sale.

(2) Two former Insurance Commission examiners were asked to explain if they were the same men whose names appeared on checks from a Ben-Jack Gage interest. A doctor certified the two, L. W. Blanchard and Robert Butler, were too ill to testify. Both had been discharged from the commission for alleged connections with another company that went broke.

(3) Renne Alfred Jr., court-appointed liquidator for ICT, charged the company was organized with borrowed money, a procedure contrary to state law. He also said year-end statements were fattened by short-term loans.

(4) Several legislators and former legislators testified concerning fees from ICT. Most were small in amount and received some time ago.

### COKE'S CO. IN TROUBLE

Physicians Life Insurance Co. of Dallas is to appear before the Insurance Commission Thursday (March 28) to show cause why it should not lose its license.

This is only one of the difficulties faced by the company headed by former Gov. Coke Stevenson.

It is one of the several Dallas-based insurance companies that are to be investigated by a special Dallas County grand jury.

Governor Stevenson said the original founders of the company sold some of their stock through the company at a tremendous profit and retained the money themselves. None of these people is in authority now, he said, and the firm has sued for recovery of the money. "It will go a long way to get things straightened out," he said.

Stevenson also told stockholders the company's future solvency requires it to get loose from a commitment to take over assets of American Atlas Ins. Co. from the state receiver. Federal tax liens against American Atlas were discovered after the deal was made.

Another Insurance Commission order gives Legal Security Life of Dallas until April 15 to clear up charges it falsified its books to show assets in excess of their true value.

### CONFUSED HISTORY

House bribery investigators are having

slow going with the Texas Naturopathic Association.

Efforts to uncover details of the TNA's past legislative activities have been repeatedly balked by faulty memories and lack of records.

On the committee's recommendation the House formally commended ex-Rep. James E. Cox of Conroe. Cox has been indicted on charges of agreeing to accept a bribe from the TNA.

Panel only hazy and conflicting testimony was received. No records were kept, said a former office secretary.

Erked by it all, the committee prepared content charges against a Dallas naturopath, Dr. Robert Spears, for refusing to answer questions about his background.

### OIL DOWN AGAIN

Texas' big gush of oil production was short-lived. Europe couldn't use it after all.

Texas Railroad Commission cut the April allowable by 224,710 barrels a day. It is to be at 3,564,665 barrels a day on a 16-day producing pattern. This puts things back about as they were in February before the big jump to 18 producing days in March.

Major oil companies had strongly urged increased production on the commission. But after three weeks under the high pattern, they were unanimous in asking a cutback.

News of the lower allowable brought uneasiness to Legislators. They had been counting on high oil production to bring in the increased revenue to put over their record spending program without new taxes.

### LIMITED SALES APPROVED

Bill to prohibit limiting of sales for below-cost items is back. Senate State Affairs Committee approved the measure sponsored by Sen. A. M. Aiken Jr.

A similar measure passed in 1955 was outlawed by courts because it applied only to groceries. Aiken's bill applies to all retailers.

### SHORT SNORTS

Texas Research League announced it has accepted the Insurance Commission's request to survey its activities and offer suggestions for more efficient operation. . . . A bill to make parents liable up to \$300 for a minor child's property damage is unconstitutional, ruled Atty. Gen. Will Wilson. . . . Former Congressman Brady Gentry of Tyler was appointed Highway Commission chairman by Gov. Price Daniel. Gentry previously headed the Commission from 1939-45. . . . Texas highway deaths during 1956 hit a record-breaking 2,611, reported the Dept. of Public Safety in closing its statistical books for the past year. More discouraging, the number of deaths per miles traveled also inched up. . . . Court of Criminal Appeals upheld the conviction of George B. Parr for threatening to take a human life. A Jim Wells County court had convicted and assessed a \$1,500 fine against the onetime

## Farmers Should Have Right To Urbanize Neighboring Cities

Editor's note: The Sandhills Philosopher on his Johnson grass farm is talking about something that is a business, his other business reveals. Dear editor:

Where I live, there is a much danger of any city ever bringing my farm into its city limits, cities may be hungry for more area, but no city could be that hungry, yet a lot of cities throughout the country are growing and expanding and taking in land all around them, and I understand it creates a problem, especially for a farmer who wakes up some morning to find his barn on the city tax rolls.

I was reading last night in a newspaper which some city man threw out of his car along with some tin cans while he was driving through the countryside out here earlier in the day where a big New York real estate developer says a city ought to have the right to annex the area around it. It's not fair, he said, for people living near a city to enjoy its advantages and not pay any of its taxes, and he said the city should have the right to take in the territory without the consent of the people taken in.

Now this may be a good idea, if it's allowed to work both ways. For example, take city people. They enjoy the advantages of the land around them, at least they still enjoy food, and if they've got the right to urbanize the country, the country ought to have the right to ruralize the city.

A lot of city area would be hard to plow, but many's the time I've driven through a big city and thought about what my hungry

political leader . . . February saw 3,202 Texans enter the armed forces while 2,932 were separated, reports State Selective Service Headquarters. Only 816 of the 3,202 entrants were drafted.

## Sunrise Easter Pageant Planned For Big Springs

WEBB AFB, Tex. - For the first time in the long and storied annals of the West, an Easter Sunrise Pageant will be held in the great stone amphitheatre in Big Spring, Texas, on Easter Morn. The production will depict the events surrounding the death, burial and resurrection of our Lord, and will be told in song and pantomime, with the last of the seven scenes timed to catch the first rays of the rising sun. Personnel of Webb AFB will join with residents of nearby Big Spring to make the play a joint production.

Background music will be furnished by a one hundred voice choir made up of trained voices from local churches. The Big Spring Pastor's Association, in cooperation with the Big Spring Theatre, Inc., have under-

Pageant the outstanding event in the history of either group. Reverend William Boyd, of St. Mary's Episcopal Church was chosen by the ministerial group to supervise the production, coordinate the script and arrange for the music. He will also act as narrator.

T/Sgt. Dewey Magee, of Webb Air Force Base will direct the pantomime. Lt. Robert Grew, president of the Big Spring Civic Theatre, Inc., said that Sergeant Magee would begin casting soon and would continue until the entire cast for the seven scenes had been selected. Mrs. Jesse Thomas, local professional writer has agreed to assist the Reverend Boyd in coordinating the script.

Reverend P. D. "Dick" O'Brien, pastor of the First Baptist Church told the theatre group that they could expect 100 per cent coopera-

tion from the ministers and churches. The huge stone amphitheatre, in city park, in Big Spring, will seat some ten thousand persons, and additional standing room for approximately two thousand others can be made available. Visitors from all sections of Howard and neighboring counties are expected to attend and special arrangements for parking will be in the hands of the Big Spring Police Department, Sheriff's office, and some volunteers from various civic organizations.

### Adequate Housing Available For Rotary Convention

LAMESA (Special) — Plans for the 1957 Conference of District 183, Rotary International, to be held April 7, 8 and 9 in Lamesa are fast moving into high gear, according to Matt McCall, conference chairman.

All committees have started to work in earnest, with the housing committee faced with the task of providing housing for the more than 500 members expected to attend.

However, Sam Jenkins, housing chairman announced today that his committee sees little difficulty in providing the necessary rooms for members and guests.

Several local motels, said Jenkins, have already made arrangements to hold open more than three-fourths of their rooms on the dates of the conference. More than 100 rooms have already been reserved for conference delegates.

Owen Taylor, a charter member of the Lamesa Club, who has a perfect attendance record of more than 19 years, stated plans for entertainment are also well along. Signed to provide vocal selections at one of the social functions are the Lamesa Barbershop Quartet and Chorus.

J. D. McPaul, attendance chairman, stated that members of the host club are making visits to a number of the clubs in District 183 with personal invitations to attend the 1957 Conference. Several clubs in the immediate area have already been contacted said McPaul, and other clubs in the District will be contacted between now and April 7.

Reports from the registration chairman, Pat Ryan, indicate that if the present sign up rate continues, attendance of at least 500 persons is assured.

Registration for the conference will start at 2 p.m., Sunday April 7, and early arrivals will have a chance to go a round of golf at the newly renovated Lamesa Country Club Sunday afternoon.

Sunday night at 7:30 p.m. special Rotary church services will be held at the First Methodist Church. This will be followed by the newly completed Rotary Community Center in Forrest Park.

The first plenary session of the 1957 Conference will be held at 8:50 a.m. Monday.
