Stevenson Says **GOP** Indicts By 'Suspicion'

ATLANTA UB-Former Gov. Adlai Stevenson of Illinois, titular head of the Democratic party, to-day blasted the "Republican program" of "indictment by suspicion, or conviction by accusation.

"Gen. Eisenhower promised the ople a new morality, but his lieutenants have chosen their weapons without regard for their effect," Stevenson declared. "They have taken McCarthyism away from McCarthy. What an end to the great crusade!"

The Democratic presidential nominee of 1952, in a speech prepared for delivery before the Geor-gia Legislature, advocated disclos-ing the mistakes and failures of the past and rooting out agents of communism "But for the love of heaven," he

pleaded, "let us do it with dignity, objectivity and justice, and with some better motive than partisan strife that can only seriously weaken the United States x x x.

'No one wins this way. Suspicion of past Democratic mistakes is balanced by suspicion of present Republican motives. The people are confused, confidence in both parties undermined, the nation injured.

"The issue isn't which party detests communism most, but how to deal with the serious problem of espionage in our government. And it won't be resolved to the nation's advantage by shouting matches and degrading circuses of political profit.

Stevenson referred to former President Truman as the individ- who says cotton acreage allot-ual "who has done more than any ments announced for the state are Texas' cut, percentagewise, was living man to check the forward thrust of communism," and he rapped those whose "words im-ply disloyalty."

Applauding the "enormously improved" position of minority under a rigid production control per cent. groups, particularly the Negro, he called progress in the South "even nore conspicuous than that in the North.

sound economy." At a \$100-a-plate Republican dinner last night, Humphrey shared the rostrum with another Cabinet members, Mrs. Oveta Culp Hobby, secretary of health, education and welfare.

"Our concern for our economy is nothing less than our concern for the first line of defense for every freedom that we cherish," Humphrey said.

Mrs. Hobby told the 1,650 per-tons attending the dinner in the Palmer House that "peace in Ko-rea" ranks first among accomplishments of the Eisenhower ad instration.

Humphrey said the Republicans' economic policies are "speeding the day" of tax reductions. But he said these reductions can come only as spending drops. He said the present administra-

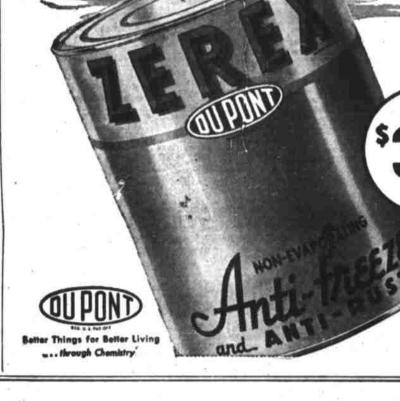

ion is dealing with "crippling bur dens inherited from the previous administration" in "the fiscal and conomic field."

Two of these, he said, were that the public debt "practically at the limit of 275 billion dollars" had been "badly managed by the Democrats and that no money had been provided to pay for 81 billion dollars in defense orders to be delivered this year and during the

## Irish's Deeds **Drawing Fire**

NEW YORK (# - Notre Dame caused the "sucker shift" to be outlawed last year and indications oday were that the Irish were to force the rulemakers to "acting" off the books. going

In the wake of Notre Dame's 4-14 tie with Iowa last Saturday. officials and coaches had plenty to say about their tactics of forcing the clock to be stopped with seconds remaining in both the first and second halves because of injuries.

If a player is hurt, the clock automatically is stopped. Frank Leahy's boys used this maneuver twice against Iowa, although the players who complained of the injuries seemed to suffer no illlater.

Coach Lou Little of Columbia, chairman of the Coaches' Rules Committee, commented:

"It's being done and has been done for years. "Generally it doesn't pay off, but this time it did. I don't think Notre Dame should be criticized. We should change the rule to cover the situation, and if a new rule is impossible we should change the code of ethics.

"I don't think a referee has the right to decide if a player claiming injury is hurt or not. As the rule stands, Notre Dame was within its province in stopping the clock.

Both times the Irish stopped the clock through the injured player times outs, they came back to score touchdowns to tie the score. Kenneth I. (Tug) Wilson, commissioner of the Big Ten, echoed Little's sentiments regarding the referee, as did Asa Bushnell, commer of the powerful Eastern Collegiate Athletic Conference. "An official is not a doctor,"

said Wilson. "He has to take such matters in good faith . . . A ref-eres can do nothing but recognize an injured player whether the player actually is hurt or not." Said Bushnell:

"A referee may know he's be ing fooled, but he can't take a chance when a player claims he' hurt.

The New York Dally News con-tacted Michigan's Fritz Crisler, chairman of the National Colle-giate Athletic Assn. rules body at Ann Arber, Mich.

He declined to comment on the Notre Dame ethics but admitted that a loophole apparently existed and that the entire matter would be brought before the NCAA com-

"It is the intent of the Rules lation of the spirit of the rules," he said.

He added that one sure way to stop phony injuries would be to the clock going under all listing them thusly: conditions

"But," he said, "that would work an injustice on a boy who really was hurt."

Iowa Coach Forest Evashevski told a television audience that the Big Ten coaches have a gentleman's agreement that players "so down" unless they are don't hurt. Otherwise he did not comment on the situation to the TV audience.

### QUARTERBACK FRANK LONG

I've been hearing less and less criticism of Frank Long's ability, which is understandable in view of the seven-game winning streak of the Big Spring Steers.

To me. Long is the unsung here of the Big Spring team, the boy to really makes the Steers click. The average grandstand observer would be amazed over the things

mpetent field general in football must do, and the red-head has it all down pat.

In a difficult, testy position where he must handle the ball every time the Steers are on the attack, Long does it without a bobble. Think handing the ball off to a teammate doesn't call for definess of hand? a should try it some time. Long must know each man's assignment on each play against every You sh

conceivable type of offense. He must also know each of the Steers' 70-odd plays and, more important still, have the common sense to try Committee to frown on the faking of injury and to consider it a vio-and call the right play at the right time.

It would be easy to get ratified under such circumstances but the carrot-top never lets it bother him. He's very cool at all times.

Biggie Munn, in his book "Michigan State Multiple Offense," says there are three things that everyone can do better than anyone else,

(1) Build a fire, (2) run a hotel and (3) quarterback a football team. Long gets a lot of advice from observers. After the San Angelo ume, you'd probably be surprised at the well-meaning but ill-informed patrons who came around to him and complained that the reason Big points to 142 for the opposition. And the losses and two ties.

thought he should have kept the team on the ground. It might have caused him to ration his passing for a game or two after that, and it might not. In any event, the critics should have kept back this year. their opinion to themselves. This is for sure, Frank was trying his best, giving it all he had.

He had been commissioned to serve as navigator by the coaches and can take a large share of the credit for the success the team has experienced since those dark early days.

Dressen, who quit after the Brooklyn club rejected his de mand for a two or three year con tract, now is manager and part owners of the Oakland Pacific Coast League club. The new Dodger manager, a na

tive of Hamilton, Ohio, played only one major league game during his career. That was at first base for

the St. Louis Cardinals in 1936. His 1953 Montreal team finished second to Rochester, but the Royals won the playoffs, then defeated the Kansas City Blues, four games to one, in the Little World Series.

The new contract was for one year, a Dodger policy. Walter Emmons Alston, who won

in the Brooklyn farm system for eight and a half years.

offs. The two teams play in Texarkana Thursday afternoon. Though Big Spring still has Brownwood to worry about before it can think about the semi-finals, and that will be a tremendous worry within Itself, the game is bound to come into sharp focus here. Texarkana has been discussed here before. Kilgore hasn't

My knowledge of Kilgore's club is meagre. It is known that Buildogs have a fine line and fine backs in Buddy Humphrey, Larry Hickman and Alton Walker.

Kilgore knocked over Lufkin, 27-14, a team which Texarkana was considered lucky to eke by, 7-0.

In the other AAA division, Temple is gathering strength and may be the power down there.

Temple has a big line and a powerful runner in Don Barfield, who scored two touchdowns last week while the Wildcats were beat-ing Corsicana, 27-7. Joel Honeycutt and Curtiss Morries are other other Temple standouts

Barfield weighs 175 pounds and uses it to good advantage.

None of the above mentioned can probably compare with Ray Masters, Brownwood's great one-man gang. Masters will be the man Big Spring will have to stop if it gets beyond the first round of the playoffs.

The new owners reportedly paid \$150.000 for the six-story residence, built by J. William Clark, presi-dent of the Clark Thread Co. It

was bought in 1943 by Leroy A. Lincoln, chairman of the board of the Metropolitan Life Insurance Co., who sold it to the Russians.

Built of stone, the house has 20 rooms and is equipped with an elevator. It adjoins the Russian U.N. delegation offices at 680 Park
