Parties Will Vote Primary Elections Pose Problems For Balloters

Are you confused about where to vote on May 5? Do you know whom you can cast your ballot in the primaries? The coming of the Republican Party in Texas and in Lamb County has caused many questions to be asked regarding the proper function of the primary elections and related political matters.

TOWN and COUNTRY by Wendell Tooley

THE CANCER Crusade in Lamb County far exceeded its goal for two very important reasons: first, it was well organized, second, it is a cause that has touched the homes, relatives of most everyone. It is easy for us here at the newspaper to recognize a well-organized effort. When we must know the same answer of "I know how the campaign is going call so - and - so" we can very readily see the organization is in pre-shape.

Cancer crusaders were called to call us and tell about progress of the campaign, they were very cooperative with us, they had a large group of workers who made contacts and promptly returned to the central headquarters.

At the first question asked after an operation is "the growth malignant?" we all more "cancer comes since we've had relatives or acquaintances to die of dread killers... so it's the Town on Page 6)

Men Will Sponsor Big Circus Here

On Saturday, April 28, the Carson and Barnes three-day Wild Animal circus will be in Littlefield under the auspices of the Lions Club. The show will be set up on fair grounds for the one performance.

It is a big day for every citizen and for all those who are still young at heart. Big white trucks and vans of Carson and Barnes three-day circus will roll into town Saturday morning and will set up directly to the show grounds where the work of setting up the tents and other circuses will get under way.

All those able to get to the show grounds circus setting, the setting up of the show should prove an interesting operation. The Carson and Barnes circus carries its "top" on large truck-mounted spools, spreads it on ground mechanically, and raises it into the air with help of ponderous elephants using special work harness. Stakes are driven mechanically and the big show goes up in air with amazing speed and efficiency.

The public is invited to the show grounds circus morning to the unloading of trucks, see elephants pull up the tent as well as the feeding and watering of the animals. There will be an animal party downtown Littlefield Saturday morning, and two performances of the show are planned for 2:30 p.m. and 8 p.m. Saturday.

County Makes Nine Arrests

County officers arrested nine persons over the weekend and the first part of the week according to records in the Sheriff's office.

The arrests included one for DWI, three for drunk, two on warrants from other cities, one for traffic, one for assault with intent to murder, and one for violation of the check laws.

Sam Haskins, Sudan Negro, was arrested late Sunday on a charge of assault with intent to murder. Haskins is specifically charged with shooting at Eather Burton through a door with a shotgun.

Harold Wedel of Littlefield was arrested and charged with DWI by officers. He was picked up just outside the city limits on U. S. 54.

Love Hambrick, Anton Negro, was charged with violation of the check law.

NO MONKEY BUSINESS -- Greg Lavo, two-year-old son of Capt. and Mrs. Robert A. Lavo, was having his picture made with a big straw hat as a promotion for Littlefield's Straw Hat Day when the monkey, Koko, came on the scene and the publicity picture went out the window. The photographer shot this picture of Koko, publicity agent for the Carson and Barnes Circus, shaking hands with Greg. By the way, if you wear a felt hat downtown Saturday the Jaycees might just fine you. So don't monkey around, get your straw hat during the special event. (PHOTO BY RANDY AMMONS)

Straw Hat Event Set For Friday

Six Littlefield merchants are joining efforts in promoting the annual "Straw Hat Day" for the area. Friday has been designated as the official day.

One of the merchants advertising the event said the weather is getting warm enough to do away with the "old felt" and replace it with a "straw". The annual event is held for the purpose of reminding the men that a change in the weather should also mean a change in the hat.

Veterans Name Gleaton New Post Commander

Elbert Gleaton was installed as commander of the John Henry Chapman Post 4854 of the Veterans of Foreign Wars Saturday night. The annual installation was held in the local VFW hut.

Leon Stansell, outgoing commander, was the honored guest for the affair which saw Billy Smith act as installing officer.

Commanders and guests from Hereford, Canyon, and Levelland were present for the installation.

Gleaton, in taking over his new duties, said that he would do everything in his power to keep the local post moving forward as it has in the past. Committees for certain projects, such as Poppy chairman, youth chairman and also a committee to help on the baseball program will be appointed at the next

Irrigated Cotton Is In First

With continued warm weather, this week probably will bring the peak of crop planting operations on irrigated farm land. Seeding equipment that had not already rolled early this week was poised throughout the county for action within the next few days.

Lamb County Farm Agent Bill Kimbrough Wednesday predicted that this week will mark seeding of most of the county's irrigated crop land, if the weather continued warm.

Soil temperatures the past ten days have averaged in the neighborhood of 61 degrees or one degree above the minimum which cotton specialists say should be the average before cotton is seeded.

The soil temperature at the Lubbock Experiment Station reported an average of 61 degrees for the past ten days. The readings are made at a depth of around eight inches.

A lot of cotton and some feed was planted in the area early this week. Some was planted earlier and one stand is reported up in the Baner Switch area. Harold Wedel planted about two weeks ago and the plants burst through the ground Monday.

Only a small amount of any of the dryland acreage has been planted until the area gets a rain or about May 10 without additional moisture.

Kimbrough observed that farmers this spring seem as a rule to be getting cotton seed "closer to the sun." This is, he explained, they are laying the seed in the drill nearer on the level and consequently in the warmest part of the seed bed.

Planting conditions seem more favorable this year than last, Kimbrough stated, and predicted that the 208,000 acre cotton allotment should get a better seedoff than last year's crop which, as it turned out, matured slowly.

Seeding over the area is on irrigation moisture. One of the lightest winter and spring moistures in years made it necessary for pumps to drive full blast the past several weeks. (See Crop on Page 4)

Master Plan Meeting Is Set Friday

A joint meeting, open to the public, will be held Friday night at 7:30 in the new City Council meeting room. The meeting will be with the City Planning Commission and the Board of Directors of the Chamber of Commerce.

The session will feature a complete discussion of the Master Plan for Littlefield. J. Nelson Ash, representative of the Joe E. Ward Engineering firm of Wichita Falls, will be present at the meeting to answer any questions about the various phases of the plan.

The public has been invited to attend the meeting by the CPC and the chamber board. Persons interested in finding out the scope of the master plan are urged to attend the meeting.

School Enrollment Begins Monday

Pre-enrollment for youngsters who will be in the First Grade next school year will begin Monday, April 30, and continue through the week, according to Paul I. Jones, primary principal.

Jones said parents of the children should accompany them and must bring a birth certificate for their youngster. He continued that any who have a shot record for the child should also bring that.

He pointed out that all children (See School on Page 6)

Rotarians Begin Bulb Sale Today

If you are a "blub snatcher" the Littlefield Rotary Club is out after you.

The local club members will stage a light bulb campaign all day today in an attempt to raise funds for restroom facilities in the Crescent Park play area.

PACKING LIGHT BULBS--Littlefield Rotarians were busy Wednesday afternoon getting light bulbs packaged for their sale today. From left to right the workers are Howard Horne, Dean House, Jack Wicker, and Marshall Howard. The Rotarians will be selling bulbs in the business and residential area all day today. Proceeds will go to help provide restroom facilities for the play area at Crescent Park.

Founder's Day Supper Set By Beta Sigma Phi

The Tau Chi Chapter of Beta Sigma Phi will celebrate its 31st anniversary with a salad supper for the occasion at the Community Center, Saturday at 7:30 p.m. with husbands as guests.

The organization was founded on April 30, 1931 in Abilene, Ka. There are now 7,000 chapters and 150,000 members in fourteen countries.

In addition to the salad supper traditional ceremonies will be observed. The history of the local chapter will be reviewed and new members will receive their first welcome to membership.

Joyce Branham is serving as Chairman of the Founder's Day supper. Toastmistress for the

evening will be Drusilla Moss. Reba Gouge has been selected for the honor of presenting a special message from the sorority's founder. She received the message from the International Headquarters in Kansas City. This message will be the central event of the evening and the culmination of the program.

Plans for the supper were completed Monday night when the Chapter met in the Reddy Room with Pat Bennett and Carolyn West hostesses.

A business meeting was conducted by the president, Allene Hinckley, at which time the Chapter voted to have Camp Sweeney Diabetic Center as their 1962-63 state project. Outcome of the statewide balloting

will be announced at the Texas State Convention early in June at McAllen.

Leta Merle Loflin showed slides for the program "Sculpture and Painting."

The next regular meeting will be May 14 with Salina Davis and Pat Garrison as hostesses.

Members present were Charlotte Bingham, Jeannie Britton, Sherry Cope, Pat Garrison, Marilyn Glover, Muriene Green, Leta Merle Loflin, Donna McCarty, Dovie Staggs, Norma Terry, Jennie Aten, Salina Davis, Reba Gouge, Allene Hinckley, Ariene Malone, Drusilla Moss, Paula Schroeder, Joan White, Wanda Wilson, and the hostesses.

Wade To Participate In Science Program

Rodger Grant Wade, son of Mr. and Mrs. George (T. C.) Wade, Jr., has been selected to participate in the Texas A & M College Research Participation Summer Science this summer at College Station.

Wade is one of the sixteen boy students selected from approximately 300 students from all parts of Texas who have been recommended by their respective schools and have completed the 11th grade and will enter the 12th grade in the fall of 1962. Students must show a genuine interest in science and have performed creditably in their school science courses.

The students selected for the program must be able to rank in the top three per cent of all high school students taking the entrance tests. The tests given were general aptitude tests in science and mathematics. Wade's experiment in high school biology has been con-

Rodger Wade earned with the breeding and care of guinea pigs. Also he will investigate tumor formation from hormonal stimulation in these animals.

Wade made application upon the recommendation of his science teacher, Supt. J. W. Bowman, and sent in the required information along with a letter stating interests and experiences in science. He will bear all expenses and will not receive any academic credit for this program which extends from July 16 to August 24.

From Your Chamber Office

Next Friday night 7:30 p.m. the Community Development Action Committee will hold their third meeting at the new Council room in the Littlefield City Hall. The purpose of this meeting will be to familiarize the group with everything the planning Commission has done since its formation; also the group will learn of the Commissions plans for the future; immediate and long-range goals, etc. Over a period of time this committee will become aware of every phase of the principles of community development as well as how these principles apply to Littlefield. It should be made clear that this committee is making no recommendations at this time. It is assumed that specific recommendations will come later in their study. The group has agreed to work in three separate but carefully coordinated functions: Fact Finding; Public discussion, and action. These functions are to be performed in sequence but on a carefully established time schedule.

FACT FINDING Fact Finding is recognized as primarily, a job requiring scholarship. It can be performed especially well by informed local citizens with occasional consultation with specialists in various fields. The responsibilities of fact finding should include:

This Week's School Menu

Monday: Hot dogs with chili, tossed salad, chip-o, milk, banana pudding.
Tuesday: Baked ham, whole kernel corn, grapefruit salad, rolls, milk, cake.
Wednesday: Fried chicken and gravy, creamed potatoes, English peas, rolls, milk, heavenly hash.
Thursday: Meat balls and spaghetti, spring salad, green beans, rolls, milk, cookies.
Friday: Salmon croquettes, blackeyed peas, spinach, rolls, milk, cobbler.

include the gathering of essential facts about an assigned problem, analyzing them to indicate possible courses of action and organizing the pertinent information for public presentation.

PUBLIC DISCUSSION Public discussion is designed to create interest in the issue, on the part of large numbers of citizens. It is designed, also, to give the people an opportunity, not for emotional argument but for discussion of the facts with respect to the issue, until individual, personal convictions have been developed. Citizens organizations are ideally suited for the organization and sponsorship of necessary discussion meetings. It is assumed that if the public does not approve or recognize the value of the project it is doomed for failure.

ACTION Action may be provided in many different ways. A referendum on a particular issue can give individual voters the opportunity to express the convictions generated by discussion. In some instances action will be taken by businessmen individually or as a group. In other areas action will be required only by elected government officials.

Whatever means to be used, agreement on the means should be made at the time arrangements are being made for the fact finding and discussion processes.

Why have I asked you to listen to this explanation of the new kind of community development program? Because it is your kind of a program a program for the citizen. It enables us to increase the effectiveness of business leadership in every community in the nation. It enables us to get our particular program of community development off dead center and into action with a kind of public support not ordinarily possible.

(Continued from Page One)
There will be an increase in skip row planting in the dryland areas and in the irrigated area where the wells are weak. A new ruling issued last week by the Department of Agriculture will now permit idle rows in the skiprow planting to be counted as diverted acreage under the feed grain program so long as four or more rows are skipped.

PRIMARY

(Continued from Page One)
 be presented to the judge of the election at the time the ballot is handed to the voter.
 The judge will, at that time stamp the word DEMOCRAT on the receipt if one is voting in the Democratic Primary and REPUBLICAN on the receipt if one is voting in the Republican Primary.
 This is in accordance with the Texas Election Code and is required in order to qualify the person as a member of his respective political party.
 Another stamp, VOTED MAY 5, 1962, is also applied to the receipt at this time. This procedure is to prevent a person from trying to participate

in the affairs of two political parties at the same time and is used in Texas in lieu of the registration of voters that is used in some other states.
 Q. What about exemption certificates?
 A. Those persons who are 60 years of age or older, and other qualified under the law to be exempt from the payment of a poll tax, for the first time in Lamb County, must have an "exemption certificate" issued by the county tax collector.
 Q. Will there be a "runoff" election held, now that there are two political parties holding primaries?
 A. Yes. Both parties are required under the Election Code to hold a second primary to choose between the two can-

didates who receive the highest number of votes in each contested race, unless one candidate should receive a majority of all votes cast for that office.
 There are no races that are contested in the Republican Party in the county and only one race in the Democratic Primary that may cause a runoff election in the county. However, there may be runoff primaries on the state level in both parties.
 In either party the runoff election will be on June 2.
 Q. Can a Republican vote in the second Democratic Primary if his party does not hold a "runoff" election?
 A. No. Only those persons who voted in the First Democratic Primary on May 5 and had their

tax receipts or exemption certificates stamped DEMOCRAT, or those who hold the election judge's stamped receipt or those who attended the Democratic county conventions to qualify can so vote.
 Except that any other persons who are otherwise qualified and who have not voted in any primary in May or attended any other party's precinct or county conventions may now declare themselves Democrats and vote. They will have their poll tax receipt or exemption certificate stamped DEMOCRAT at this time.
 The above rule also applies, of course, to Republicans.

Q. Why is the upcoming election different from the election when there were both Democrats and Republicans running for the U. S. Senate?
 A. We have been answering questions about the primary elections, which are strictly party functions. The nominating parties are governed by the Election Code, but the primaries are conducted by the various political parties.
 The primary elections are paid for, supervised by, and reported to the organized executive committees of the two parties, respectively.
 The primaries are solely for the purpose of choosing the party's candidates for the several offices, from governor to justice of the peace.
 After the primaries are held, the nominee for each office is then certified by the party chairman to the county clerk, and the nominee's name then is placed on the ballot in the November General Election under the party label. It is in November that the final determination is made by the voters whether a Democrat or Republican... or Independent... will be the winner.

IT'S TIME to throw away the old felt and don a new straw hat as official straw hat day comes to Littlefield Friday.
 From the looks of the advertisements in this issue, there's a big selection of several styles available... our boys have been wearing straw hats for over a month. It seems they talked neighbor James Pirkey into buying them hats when they were downtown one day. Keith has even slept in his, so he'll probably be in the market for another by straw hat day.
 IT TAKES a lot of money, a lot of sweat, a lot of hard work and a lot of faith to run for a public office. Obviously all candidates can't win, some must spend the money and time and receive only the privilege of having met about every person in the county, district or state.
 The candidate's cards, matches, advertisements, bumper stickers, etc. are beginning to pile up on my desk and I can honestly say that not one candidate in the county or district race is loafing on the job... they're all out working like trojans to shake every voter's hand and remind him that his vote will be appreciated.
 Sunday's County Wide News will feature the Littlefield Press's stand on the candidates of our choice... the ones we

feel to be best qualified to fill the offices that are open.
 It's not so important that you vote the way we suggest... the important thing is to be sure to get out and vote next Saturday, May 5. The Littlefield Press will put out an election "Extra" so you'll be able to read all of the election results in your Sunday morning May 6th County Wide News.

WE ought to have more women in government. Think of the fun they'd have moving all those Washington Bureaus around. (Phoenix Flame).

MEN, WE'RE in trouble again... the latest word on men's styles in suits, says that the old double breasted suit is coming back!
 Oh, to be in the men's clothing business... I should have saved that old brown double breasted suit that went out of style... it would have been good for two more years!

Robert Weil, president of the International Association of Clothing Designers and chief designer for After Six Formal of Philadelphia says, "Men are adverse to violent changes in clothes, whereas women crave it. Men do not want to be conspicuous. Of course, there are exceptions. But generally men want to be identified by groups."
 Twice a year, the association with headquarters in Philadelphia, makes its style predictions. Latest one: The double-breasted suit is coming back. It was last big in the 1940s.
 "There is a very close relationship between the style of men's clothing and the mood of the time," Weil points out.
 "With the advent of the jet age bringing people everywhere closer together a much more similar type of men's clothing is being developed the world over."
 "We try to stay away now from anything frilly or fancy." "The latest style is the un-

35 Entries Listed In Tennis Tourney

Thirty-five individuals and teams have entered the first annual Lamb County Tennis Tournament slated for Saturday and Sunday, May 12 and 13. Play will take place in Littlefield all day Saturday and in the afternoon Sunday.
 Entry deadline for the tourney is Monday, May 7. Persons wishing to enter the event may do so at either the office of the Sudan Beacon - News in Sudan or the office of the Littlefield Press. The two newspapers are sponsoring the tournament.
 Two trophies will be given in each division. Entry fees are \$1 for singles and \$1.50 for doubles. No division will be played with fewer than four contestants. Players must furnish their own tennis balls.
 Spectator benches will be provided at the two Littlefield courts.
 Entries in the two - day tournament include:
 Girls 18 and under -- Linda Kay Hodge, Sue Lynch, Linda Williams and Kathy Barnett, Williams and Barnett have entered the Girls under 18 doubles.

Mrs. Crank Honored By Exes With Life Story

MRS. ELVA T. CRANK

Grove School to Prosper in 1941. At the end of this term the Crank family moved to Lubbock so that the boys could help their maternal grandfather, Mr. John W. Thompson, in the work required on his farm there.

In November Mrs. Crank and family moved to Whitharral where she was employed as a teacher of the sixth grade. The last semester of the following school term Mrs. Crank moved to the high school as a social studies teacher. A close examination of many years assignment would reveal the multiplicity of subjects taught by Mrs. Crank and the efforts required would be obvious. Some of the courses she taught include Economic Geography, Business Arithmetic, World History, American History, Texas History and English from the sixth grade through the twelfth grade at one time or another during her long tenure.

The Crank children were all students in their mother's classes at Whitharral at one time or another. In recalling their experiences Dorothy states that it was impossible to get a perfect score from her mother, some minor imperfection would always occur.

As Dowden recognized the classes from 1943 on, individual representatives of that class told of part Mrs. Crank had in their lives. One of the more amusing comments came from Mrs. Juanita Dowel Gilley of Littlefield, class of 1947, as she related how difficult it was to convince her mother that she was not calling her teacher "a name", but she was calling her by her name, Mrs. Crank. Typical of the comments made was the one made by Geneva Raines of the 1958 class who said simply, "We love Mrs. Crank." Others such as Don Avery, Littlefield, class of 1948 who recalled the fact that Mrs. Crank was their room "mother" from the sixth grade through high school, being class sponsor through their junior and senior years. Mrs. Crank also recalls the ante-room off the book room in the red brick grade school where many boys stayed until another boy brought their pants or shirt to Mrs. Crank for repairs or buttons. She also recalls taking immunization shots first so that even seventh grade boys would follow her into the process.

Wesley Dyer of Dallas, class of '45 recalls Mrs. Crank's talking a long while of the Galveston flood of 1900. However when examination time came he stated that he could not remember anything of importance that occurred in 1900. Mrs. Crank laughingly said that she had been born in 1900. Dyer in turn put this down as the big occurrence of 1900 in Texas History. Juanita Raines Wright of Denver City, class of '53, a very close friend of Dorothy Crank said that Mrs. Crank had never taught her but somehow she was always at the Crank home around dishwashing time. Approximately twenty five persons testified to the many things Mrs. Crank had done for them from baking banana nut cakes for senior trips to the lasting influence toward excellence that this teacher had instilled in them.

Superintendent James W. Bowman then told of various assignments Mrs. Crank had performed for this community and stated that in his experience as a school teacher and administrator, Mrs. Crank ranked at the very top of the teaching profession because of her enthusiasm and great dedication and devotion to children and teaching. He emphasized that the Whitharral Community owed this teacher a deep debt

THAT FIRST BALE OF COTTON . . . this cotton was planted April 6 by Harold farmer southeast of Littlefield. The cotton is double rowed and should he get a command, Wedel could be in the race for first 1962 bale of cotton honors.

Control Insects For More Income

Want to increase the income from your cotton crop? One proven way to do this, says H. A. Turney, area extension entomologist, is to control insects. A properly performing spray rig is a must, and now is the time to get it in top working order.

Here are suggestions from Turney on getting the rig in

order. Clean all nozzles by washing them in kerosene or soapy water. Check to see that all nozzles are the same kind and size. Replace all worn nozzles and hoses. Test the pump and pressure gauge. If they are not working properly, replace them. A breakdown during the growing season could mean dollars lost in time and cotton,

For the application of early season insecticides, Turney recommends the use of one cone-type nozzle per row. Nozzle spacings of 20 inches on the boom are adequate for late season control. Good foliage coverage can be obtained by placing the boom 10 to 15 inches above the tops of the cotton plants, he says.

The per acre output of a spray machine must be known before the correct insecticide mixture can be maintained or even mixed in the spray tank. The rig's output can be determined by spraying a measured acre. Local county agents can

supply a chart which shows how far your spray machine must travel to cover an acre, and this will make the job of adjusting the machine for output of insecticide easier.

Turney suggests that you also ask the county agent for other information on insect control and especially for a copy of L-486, Insecticidal Spraying of Field Crops with Ground Machinery. He has other information proved by research and farm demonstrations that good

cotton insect control programs are income producers.

AT FIELDTON

Mr. and Mrs. Don Muller, Donna and Bryan visited Sunday with her parents, Mr. and Mrs. Bruce Porcher near Littlefield.

Mrs. May Allen, Littlefield, visited Monday till Wednesday with Mr. and Mrs. Claud McCain.

"Bad Egg" Is Almost A Thing Of The Past

The Texas housewife's chance of getting a "bad egg" at the supermarket today is only one in a hundred, Agriculture Commissioner John C. White said this week.

"Five years ago, she ran the risk of feeding her family about 16 poor quality eggs in every hundred served," White added.

The 37-year-old White, who is seeking re-election to the state's top agricultural post, cited the new Texas Egg Law as an example of new legislation he inaugurated for the protection of the consumer.

"Protection of the family budget is also another major goal of the department," said White. "The Weights and Measures Law is enforced on commercial scales, pre-packaged foods and many other items to make certain the housewife is getting full value for her food dollar."

"Last year, more than 400,000 pre-packaged meats and some 100,000 grocery scales were among items

checked to guarantee full measure. Even the local gasoline pump is inspected to make certain it is giving out a whole gallon," White said.

"We are still fighting a major battle against improper labeling and confusing food packaging practices, however," White added. "Many buyers pay dearly for a lot of air in a pretty box. My goal is to get more strength

in some of our food packaging legislation."

The young commissioner said he was especially proud of the fact that Texas is no longer a "dumping ground" for poor quality or unhealthy foodstuffs from other states. "We fought hard for laws which now serve as a watchdog for quality on such important food items as eggs, fruits and vegetables," said White.

"It is this type of protection which I seek to continue assuring the people of Texas as their commissioner of agriculture," White said.

Hints Offered On Buying Hay

Visual inspection doesn't tell the story of what is inside a bale of hay. The true feeding value of hay is determined by several factors, points out Shannon Carpenter, area dairy specialist for the Texas Agricultural Extension Service, and challenges hay buyers to become 3T purchasers.

Carpenter explains the 3T formula this way. The first T is for test. If a ton of hay testing 4 percent crude protein is purchased, 300 pounds of cottonseed meal will have to be fed with it to make it equal the protein in a ton of hay testing 10 percent protein. It's good business, says Carpenter, to ask the hay seller for an analysis on his product.

The second T is for time. Time the hay was cut. Time since fertilizer was last applied to the crop. Time since the last

cutting, and of major importance, time of season in respect to the time the hay will be fed. Ask some questions, advises Carpenter, and if the right answer isn't forthcoming, do some more shopping.

Carpenter's third T stands for ton, the usual weight basis on which hay is bought. One dollar for a 60 pound bale of hay equals \$33 a ton, but a dollar for a 40 pound bale equals \$50 per ton. The weight of the individual bale of hay thus is very important. Buy by weight instead of the bale.

The 3T hay buyer, concludes Carpenter, knows what he has bought, and how much. A visit with the local county agent is suggested as a source for additional information on quality hay production as well as good buying practices.

Collister Promoted High Plains

Earl H. Collister was named Director of the High Plains Research Foundation by the Executive Committee of the Board of Trustees at a special meeting in Plainview Saturday, Oct. 13. Collister will hold the new position on Oct. 15 when Dr. T. C. Longnecker resigns as Director and Chief Scientist. Dr. Longnecker is in private business at Oklahoma. He was elected member of the Board of the foundation. Collister has been Assistant Director and Chief Agronomist at the Foundation since November 1959. He came to the High Plains Research Foundation from the Texas Research Foundation having been on staff for ten years. His position at Renner was Chairman of the Plant Science Department in charge of all crops and plant breeding on 100 acre research center.

research. The new Director was also authorized to receive applications for position of Soil Scientist at the Foundation. An open house honoring the donors of the new building and greenhouse was set for a date in July when all laboratory equipment, greenhouse facilities, and landscaping could be completed.

The Sixth Annual Field Day was set for the afternoon of Friday, September 14th. The Third Annual Flame Cultivation Research tour was set for Friday P.M. August 10th.

Development Told In Paints

Linseed oil emulsion paints, with the high protective values of conventional linseed oil paints and the rapid drying and convenience of water-based paints, have been developed by researchers of the U. S. Department of Agriculture and the National Flaxseed Processors' Association.

These new exterior - surface paints, developed to expand the market for flax-seed, adhere to chalky surfaces, dry quickly, resist blistering and may be washed from brushes or rollers with water.

The USDA reported experimental, water-thinable, linseed oil emulsion paints over a year ago. Since then, ARS chemists have developed better emulsifiers, contributed new information about formulation of emulsion paints, and found a better way to incorporate driers in the paints. As a result of this research, a major company is now producing and selling linseed oil and water emulsions for making exterior paints.

The fast-drying, blister-resisting characteristics of the new linseed emulsion paint are due to its porous film, which permits water vapor to escape from the paint. They can be recoated within 30 to 60 minutes after application.

Emulsifying linseed oil does not damage its ability to cling to old, chalking paint surfaces, the scientists report. These emulsion paints can, however, be thinned with water.

Executive Committee authorized a new position of Assistant Agronomist to relieve Collister of some of the department breeding and crop

SULLY'S NOTES ON FARM CHEMICALS

The corn belt boys put down 4 or 5 different chemicals while planting. We, too, may soon do that. We now have pre-emergence weed poison KARMEX D L; systemic bug poison to get into the juice of the cotton plant Di SYSTEM; Soil Treater that prevents big shank, sore skin, root rot, especially in bad weather, Soil Treater X; and easy to apply fertilizers; all to go down as we plant. These are designed to keep down labor and help get a healthy plant going.

That answers about all the problems except hail.

DI-SYSTON WAS HERE

"Di-Syston—First Step in the Most Complete and Economical Cotton Protection We've Ever Had"

—Mr. Sam House, Lake Providence, Louisiana

"We get the most complete and economical protection we've ever had by using Di-Syston for early season protection followed by Guthion during mid and late season," reports Mr. S. L. House, Jr. Mr. House grows some 350 acres of cotton on his own farm and aids in the management of the vast Gaillard Plantations.

Di-Syston controls thrips, aphids and mites up to seven weeks. Protection is continuous, beginning with the tender two leaf stage. When planted with the seed, Di-Syston is absorbed by the roots and works from inside the entire plant, even protecting

terminal growth from sucking pests. You don't have to put machinery in the field when plants are small.

Di-Syston is unaffected by the weather—it kills when it's rainy, when it's windy, when it's hot or cold. It can't be weathered off because it's inside the plant. Di-Syston doesn't harm beneficial insects because it kills only the pests that suck the plant juices. When your young plants get such a good start, you get a higher yield—a more uniform stand of straight growing cotton and earlier maturity.

For a strong, healthy start for your cotton this year, order Di-Syston from your Farm Supply Dealer, today! It works!

WHITHARRAL NEWS by Mrs. Elva T. Crank

Whitharral H D Club Meets In Strickland Home Tuesday

The home of Mrs. Robert Strickland northwest of Whitharral in the Oklahoma Flatt community was the scene of the Whitharral Home Demonstration Club for the April 17 meeting.

Mrs. D. C. Theford, president, opened the meeting with the reading of a poem "Kindness". Roll call was answered with "What is a home?" Mrs. E. E. Pair, Mrs. Elva T. Crank, Mrs. Robinson and the hostess.

County HD Agent, Mrs. Jewel Robinson discussed "Family Relations" or "Harmony in the Home", distributing leaflets on "Home."

Mrs. Theford drew the hostess gift - a green corsage and scarf. The next meeting will be in the home of Mrs. Warren Tipton at which time a "white elephant" sale will be held on May 1. Sandwiches, frosted punch, cookies, and mints were served to Mrs. Theford, Mrs. Miller, Mrs. Tipton, Mrs. Hub Spraberry, Mrs. Ella Hewitt, Mrs. Russell Cotton, Miss Lena Maxey, Mrs. L. C. Lewis, Mrs. E. E. Pair, Mrs. Elva T. Crank, Mrs. Robinson and the hostess.

The Levelland FFA District met in Morton Agriculture Department Tuesday afternoon at 4:30 to carry on district business and to have agriculture sponsors to check the applications for Lone Star Farmer.

Jerry Ligon, district vice-president assisted in the business meeting, and competed for the National FFA Crops Award. Troy Harris competed and won the National Livestock Award; also winning the Sheep and Goat award.

Joe Klingensmith, Skip Hayes and Lynn Simmons won in the District FFA Talent Show.

The following made entries without wins: Kenneth Marrow for District Star Green Hand; C. E. Theford for District Star Chapter Farmer; Jerry Sires and Rodger Wade entered record books for State Farmer Degrees.

District winners will compete in the Area FFA Contest at the Lubbock High School on May 12, 1962. There will be an hour's television show in connection with the convention. Troy Harris, Area 1 FFA Sentinel will assist in the carrying on of the convention.

The Whitharral Ex - Student Association met for the fifteenth year at the high school gym here Saturday evening, April 21. Refreshments of coffee, tea, cookies, and doughnuts were served and a time of visitation was from 6 to 8 p.m.

Tables for four or more were covered in red checked table cloths with matching napkins. Coal oil lamps provided the lighting. The center of attraction was the old time coal stove with the coal scuttle, the old time iron and the sloop jar. The place mats to which the program was attached were reasonable facsimiles of the slates used in early school days.

Rev. Wayland Dowden, pastor of the Wesley Methodist Church, Levelland, presided at the meeting which opened at 5 p.m. Robert Avery gave the invocation. Supt. James W. Bowman welcomed the group. Faye Dyer Attaway of Richardson gave the response.

The new officers were elected as follows: President - Bob

Grant; vice president, Roger White; secretary-treasurer, Shirley Mitchell Grant; scholarship chairman, Betty Jones Burrus.

Committees for 1963 are: Decoration Committee, Elizabeth Rodgers Strickland, Elva Mae Sadler Anderson, Jeanette Rodgers Cotton;

Food Committee, Mr. and Mrs. Bufford Hayes, Mr. and Mrs. Leslie Hulse, Mr. and Mrs. Aubrey Kirby,

Invitation Committee, Lillie Jo Horton Newsom, Wanda Miller Strother, Joyce Newsom Owens;

Table Service, Ralph Wade, Tom Burrus, Marion Polk, Don Stafford.

Advertising Committee, Bob Grant, Joe Wade, Clifford Buckner;

Program Committee, Mr. and Mrs. Rafe Rodgers, Mr. and Mrs. T. C. Wade.

Approximately one hundred twenty five persons were present. In recognition of classes a "This is Your Life" program was presented in honor of Mrs. Elva T. Crank, a teacher in the Whitharral Schools for the past twenty years.

A banquet will be held at Easter time next year. Former students were present from Dallas, Fort Worth, Arlington, Richardson, Morton, Slaton, Levelland, Lubbock, Littlefield, Andrews, Odessa, and other area towns.

Scholarship Chairman, Mrs. Joann Thompson Williams, presented the \$50.00 scholarship to Bob Ward, high school senior. The Exes present a scholarship annually to a deserving student.

A committee of Ralph Wade, Lou Emma Edwards, Don Redding, Bill Langford Thomman and Robert Avery were appointed to look into other organizations and present constitutions and by-laws to the Association at the 1963 meeting for discussion and adoption if desired. Weldon Newsom of Morton gave the benediction.

Mr. and Mrs. O. L. Harp, Sr., of Lamesa spent Tuesday here with their daughter, Mrs. C. W. Stafford and family.

Mr. and Mrs. Joe Glenn of Lubbock visited Glenn's aunt, Mrs. Neta Morgan, here Wednesday evening.

Bill Gage of Littlefield, I. D.

Gage, Sr., and Jack Gage have returned from a fishing trip to Lake Falcon.

John L. Burnett and Betty Burnett and Loretta Tipton left Friday afternoon for Memphis, Tenn. for a visit with relatives.

Mr. and Mrs. Charlie Landers visited Mr. and Mrs. W. M. Byrd at Lubbock Sunday.

Jimmy Brantley and Butch Bryant returned Monday from a weekend visit with Ronnie Bryant at San Antonio.

Clayton Pennington, Jack Isaacs, and Durwood Hoge are home from a recent fishing trip near Abilene.

Mrs. Warren Huntspie and Linda Bryant and Loretta Smart attend the State meeting in Dallas Thursday and Friday. The Whitharral Club will be hostesses Friday noon.

Mr. and Mrs. Hub Spraberry had as their guest Mrs. Spraberry's sister, Owen of Eunice, N. M., Monday her sister, Mrs. Lloyd of Dimmitt, and Tuesday Spraberry's brother and Mrs. Alton Spraberry of Lubbock.

Mrs. Howard Venable returned from an extended visit with her mother who is very ill.

Mr. and Mrs. Herbert Cowan and son, Lubbock, visited Saturday with his parents, Mr. and Mrs. S. G. Cowan.

Allen, the Arizona cowboy who has "made good," not only in Republic motion pictures, but on television and radio as well, is the star of many a Southwest rodeo. His horse, Koko, will appear with him on the circus program. In addition, the Frontiersmen and Joanie, stars of television, too, will appear with Cowboy Allen.

The circus is truly international in aspect. It is produced by Hubert Castle, former tightwire star of Ringling Bros. Circus. The circus will have 35 specialty acts in three rings, not including the many clown routines. There will be the usual many animals, including Pink and June Madison's Elephants, Watkin's Chimpanzees, Leona's Dogs, Jennier's Seals, Berg's Bears and Robert Baudy's highly-trained animal act, featuring leopards. There will be the exciting "high-swinging" acts on the trapeze, wires, perch - pole, and the like. Novelty acts include unicycle, trampoline, parallel bar, ladder, acrobatic and teeterboard features.

All in all, the two-hour packed show will be a circus of thrills, -- just "like circuses used to be!"

Furr's Circus Set For Three Day Performance

Cowboy Rex Allen heads a strong aggregation of performers in the big 3-ring, two-hour Circus to be staged April 27, 28 and 29 at Lubbock in Lubbock Coliseum by Furr's Super Markets.

Already a capacity crowd is assured the circus performances. For seven weeks now customers of Furr's have received salmon colored cash register tapes for free tickets, on the basis of one for each \$25 in purchases. Tickets are available only through Furr's Super Markets. No tickets will be on sale at the site of the Circus. All tickets are for general admission.

Sunday guests of his grandparents, Mr. and Mrs. G. D. Lair were their grandson, Joe Stevens, Jr., and Miss Ginger Robjohn, Texas Tech students. Their daughter, Mrs. Bess Sherman and Tommy, were here from Temple.

Mr. and Mrs. Bud Thomas went to Amarillo recently and met their son-in-law, Major W. O. Swisher. They went on from there to Stamford Lake for fishing. They returned home the next day. Major Swisher returned to his base in Washington state.

New Innovation In Seating Sponsored This Year by Carson & Barnes Circus

All Children's Tickets 50¢ Hall Price

One feature of the circus this year that impressed the local sponsor of the Carson and Barnes big three ring circus was the new and attractive policy of informing the public of the PRICE of all tickets before attending the show, and allowing the public to pick the area they desire to sit in.

Carson and Barnes Circus has adopted the policy used by the major football and baseball stadiums and have made all of their seats reserved. A diagram of the seat location and the three price ranges can be seen in their news advertisement and on the circus ticket wagon. Remember, at the CARSON AND BARNES CIRCUS you select the area of the circus tent you desire to sit, purchase ONE ticket for the seat of your choice.

In addition to revolutionizing the seating policy of the circus, the Carson and Barnes Circus has modernized their performance to appeal to the adult as well as the children. Realizing that the television spectaculars like International Showtime, Ed Sullivan and the Dupont Hour, have been well received by the adult audiences the Carson and Barnes Circus has obtained some of the best acts appearing with International circuses.

These acts can be seen at both performances, afternoon and night

Q — Are bills pending in Congress about opening up some phases of WW I or WW II GI insurance?

A — Several bills have been introduced into both houses, but as yet no action has been taken on any of them.

Q — What is the priority for admission to a VA hospital?

A — First, a service-connected veteran requiring medical care for the injury or disability for which he is service-connected. Second, a service-connected veteran requiring medical attention for some other injury or disability than that for which he is service-connected. Third, a non service-connected veteran for whom a bed is available who will sign an affidavit that he cannot afford to pay the cost of his hospitalization and who must list all his assets and liabilities so as to give an idea of the worth of his estate.

Q — Are educational benefits still open to veterans of WW II?

A — The deadline for WW II veterans has expired as far as educational benefits are concerned, Korea Conflict veterans are the only ones entitled to educational benefits at this time.

Davis Makes Statement In County Judge Race

J. B. (DOBB) DAVIS

Statement to Voters of Lamb County

I am your democratic candidate for county judge of Lamb County. I was the first man to announce for this office. I did this of my own free will and accord. This is my first time to ask for a public office in this county or any other county.

I am 48 years old, a grain and cotton farmer in the Rocky Ford community, near the center of Lamb County. I have lived here for 27 years. I married Joyce Winters, a Lamb County girl that was reared in this county. We reared our two children in Lamb County, Diane Hatla of Dimmitt, Texas and Tommy Davis who is serving in the United States Army stationed at Milwaukee, Wisconsin. I finished Vernon High School, and attended Arlington State College in Arlington, Texas.

I belong to the First Methodist Church, and have served on the official board and was M. Y. F. Counselor. I belong to the Masonic Lodge, was a member of Lamb County Water Board for six years, three of which I was chairman. I was awarded honors in National 4-H Alumni Program. I have been active in Lamb County Stock Shows, 4-H Club, F. F. A., and sponsor of educational tours for 4-H and F. F. A.

You voters of Lamb County are going to have to pick a new county judge, because your present county judge is going to be your district judge.

Should you place your confidence in me and go to the polls and vote for J. B. Davis

Manley Head

Makes Voter Statement

Manley Head, a former state senator, is a candidate for congressman - at - large, an office that is not generally known by the voters.

The number of congressmen is allocated to the states on the basis of population. Texas has grown, and is therefore entitled to one more member of Congress. But there has been no redistricting, and therefore, the voters will select a congressman - at - large, representing all of the state, until a new district is created.

Manley Head is an attorney who knows his state by virtue of his years of service in the Legislature, both House and Senate. He also knows his way around in Washington, having worked there in various capacities for five years.

Head is basing his candidacy on certain well - defined principles, including fiscal responsibility - by which he means that there ought to be a closer relationship between the people and their tax dollars, and the Washington officialdom which spends those dollars.

Head is on record as favoring an increase in family income tax exemptions.

He would give preferred attention to the Western Hemisphere in foreign affairs and in foreign aid.

He has worked for the promotion of tourism and industrialization of Texas and pledges to continue those efforts as a member of Congress.

Head, a Democrat, is an attorney, a family man, and a member of the Church of Christ. "This race is going to result in a run-off, and I will be in it," Head predicted. "I don't know who will be in it with me."

AT EARTH

Six ladies of the WMU of the Earth Baptist Church met Tuesday afternoon for "Clean Up Day" activities.

on May 5, and again in November, then I shall be your county judge.

I will try the courts of your county giving justice to all. I will carry on the business of your county in a business-like manner, using good common sense.

I will work with your commissioners, as chairman of the commissioners court, and we will get the things done that should be done for your county.

I will get along with your young people, because I know young people.

I will devote all my time and be honest, fair and work hard. Should I be elected as your county judge of Lamb County, it would do my heart no better than in four years or the years to follow, that you might say, J. B. (Dobb) Davis made us the best county judge we ever had. I will appreciate your vote on May 5, 1962.

Thanks, J. B. (Dobb) Davis

NORFOLK, Va. (PHN) - Gordon U. Myers, fireman apprentice, USN, son of Mr. and Mrs. C. L. Myers of 209 South Westside Ave., Littlefield, is serving aboard the amphibious assault ship USS Thetis Bay, observed by President John F. Kennedy during a two-day visit on April 13 and 14, to the Atlantic Fleet in Norfolk, Va.

Following the Presidential visit, the ship headed for Vieques, Puerto Rico, to take part in a three-week joint Navy-Marine Corps maneuver involving more than 40,000 sailors and Marines aboard some 83 Atlantic Fleet ships to be climaxed with an assault on Vieques.

The President, accompanied by Vice President Lyndon B. Johnson, members of the Washington diplomatic corps and U. S. Congressmen, arrived in Norfolk the afternoon of April 13.

After a brief cruise in the fleet ballistic missile submarine USS Thomas A. Edison, the Presidential party boarded the tactical command ship USS Northampton to observe night air operations by the attack aircraft carrier USS Enterprise and the USS Forrestal.

The next morning, the President received full honors in a review of the Second Fleet, and following an anti-submarine warfare exercise and an aerial firepower demonstration by the Enterprise and Forrestal, his party observed amphibious assault landings using both landing craft and helicopters at Onslow Beach, N. C.

Penn Point

By D.H.P.

We are a contradictory people. We preach high morals to our young people, look down our noses when the moral laws are not followed by the younger... and then turn right around and read all there is to read about a supposed immoral act committed by a well-known movie star.

Whatever Liz and her new flame, Richard Burton, do in their secluded beach villa has never been stated in any of the news releases, but you can bet your bottom dollar they don't play tiddle-dee-winks.

We talk about taking lewd literature off the newsstands and we scream to the high heavens when copies of what are considered filthy magazines are

found for sale in Littlefield... and yet one of the so-called "decent" magazines published some pictures (one on the front page) that were just as bad as those found in "filthy" publications.

Evidently we are operating under two sets of moral laws... one that is thought to be the ethical, Christian and proper... and the other to fit into the workings of whoever happens to be affected.

If we are going to operate under two sets of moral laws we might just as well rewrite all our laws so that murder will be illegal under one set and legal under the other... it's just that simple.

For the sake of harmony and the peaceful fireside, we might as well start with the assumption that all women are angels. But scientific investigation has recently revealed that even those of them who actually fly around among the clouds are not as light on their feet as we chivalrous-minded males like to think.

The revelation that a dainty spike heel exerts pressures up to 2,000 pounds per square inch has come from literal-minded engineering types for whom two plus two has got to equal four, and who were asked to find out what was fracturing and generally tearing up the aluminum steps of the ramps used at Miami's Eastern Air Lines Terminal in loading passengers on their Convair 440 jet airliners.

It's all a matter of heel contact surface, say the slide-rule boys. A single modern spike heel effectively concentrates the weight of a petite 94 pound woman — or a more ample number — on something com-

parable with the head of a tack. Application of such high compressive weight, as the fashionable ladies flitted up the ramp and wadded down, added up to more abuse than aluminum was ever meant to take, and the steps gave up.

The maintenance engineers decided to try stainless steel — on the theory that if it met all the tests for the most heavily stressed sections of their aircraft it might be able to stand up against women — even with those punishing heels. So they herded a clutch of spike-heeled stenographers up and down a stainless steel-treaded ramp until mutiny was setting in — and found no dents. Today, all of the Convair 440 ramps are treaded in non-skid, textured stainless steel. Some have been in service for more than a year — and there are still no dents.

So now that scientists, metallurgists and technicians have pooled their knowledge, ingenuity and skills to protect otherwise rugged equipment against fashion's latest weapon — what

will the little angels do next?

Replacement of Marshal Ivan Konev, commander in East Germany, by a softer Red aristocrat, succeeding Konev's appointment preceding the fall of the Wall by Col. Gen. Ivan L. Skly, who was in command of a softer Red aristocrat, Konev took over in 1949.

It would be just as well, ever, to wait a few days we crowd, and see what Konev's tears the walls. Our disarmament now tell us we can do fences 30 per cent lick Red China in a war. And Russia, too.

We'd rather hear the of our military experts what we've got to hold the USSR while Chaining a try at Mao.

We are not persuaded Uncle Sam can let down er... guard without a kick where he is stomped.

STATE CAPITAL Highlights AND Sidelights

by Wern Sanford

AUSTIN, Tex. -- Next week some 2,500,000 Texans will make up their minds whom to cast their ballots for among a huge list of candidates for local, district, state and federal offices.

Prime interest is in the governor's race, where five democrats and two republicans are hoping to replace Gov. Price Daniel. The governor is working hard to see that they don't. Down the list, to the office of precinct chairman, there are more candidates than in many years. This is due primarily to the "open races" for the major state offices, namely those of attorney general and lieutenant governor. These openings have allowed those down the line to try to move up while at the same time leaving lesser offices open.

Also on May 5, the two parties will hold precinct conventions. They will name delegates to county conventions. County delegates, in turn, will name delegates to state conventions to be held in September. This is where party platforms will be written.

Big side-bar issues on May 5 will be the referendums on horse race betting and poll tax repeal. These will appear on both the republican and the democratic ballots. Also on the GOP ballot is the question whether Padre Island should be developed as a state park. Results of the balloting on these referendums are not binding. But they provide a public opinion poll and legislators are likely to follow the mandates set out by the voters.

DANIEL BACKS IMPORTS LIMIT -- Governor Daniel sent telegrams to the governors of the other 31 oil-producing states, and asked them to join him in supporting an oil imports

limitation amendment. U. S. Congressman Tom Steed of Oklahoma introduced the proposal. It would require oil imports to be cut to the 1956 ratio with U. S. production.

At the 1957 Governor's Conference, Daniel was successful in getting 32 gubernatorial signatures on a petition to Pres. Dwight D. Eisenhower, urging mandatory import controls. But he feels that nothing has been done to prevent imports from supplanting domestic production.

Daniel said that the recent schedule of eight-day allowables in Texas has resulted in a loss of more than \$100,000,000 in tax revenue for the State. May will be another eight-day producing month.

AGRICULTURAL WARON-- About 40,000 bushels of sweet potatoes worth \$100,000 are in danger of being ruined by the sweet potato weevil, according to State Agriculture Commissioner John C. White. Some 1,200 growers in 10 counties plan to join the state in a two-month battle against the pest.

About \$15,000 will be spent to dust sweet potato crops and some 100 storage houses in Anderson, Cherokee, Houston, Leon, Madison, Nacogdoches, Rusk, San Augustine, Shelby and Trinity counties.

White says the war against the Kaphra beetle, which devours grain, has been won at a cost of \$100,000. But every precaution is being taken to prevent another invasion from out-of-state.

On the positive side of the planting problems, the agriculture commissioner said South Texas cotton farmers have been given a 10-day extension -- to midnight April 30 -- to plant or replant where seeds failed to germinate because of unusually dry weather.

NO SECRETS ALLOWED IN SCHOOLS -- A Texas law that says that public school authorities can suspend or expel a student who solicits members for a fraternity, or other secret society, also prohibits other organizations from doing so. Attorney General Will Wilson has so ruled.

The law allows the formation in schools of Boy Scouts, Hi-Y, Girl Scouts, DeMolay, Rainbow Girls, Pan-American clubs, scholarship societies, and other "kindred education organizations sponsored by state or national education authorities."

But any "public welfare" group which isn't on the list of specifics is forbidden.

BOAT TRAFFIC BIG PROBLEM -- As warm weather inspires the owners of 177,082 motor boats to launch their crafts on Texas' lakes and streams, the problem of boat safety comes to the fore. The boat safety committee of the Sportsmen's Clubs of Texas plans to study the matter with Rep. Ben Atwell on April 27. Atwell has been directing questionnaires to all sportsmen's clubs to determine where and how boating accidents occur. Survey is to see if the Boat Safety Act passed by the 56th Legislature contains practical plans for accident prevention.

Henry J. LeBlanc, Sr., president of SCOT, called a meeting of the board for the same day in Fort Worth. There members will review the McGee Bend Dam project and other U. S. Corps of Engineers' plans which relate to impoundments on drainage systems in the state.

NEW HIGHWAY MARKERS-- The 57th Legislature failed to appropriate funds for advertising Texas' tourist attractions out of the state. But the Texas Highway Commission has come up with the dazzling device for pointing out places of interest to travelers once they get in the state.

Historic sites and other spots of unusual interest will be pointed out by big, cast-aluminum markers, such as those used in Virginia. These markers will be erected at roadside parks and turnoffs, so drivers can pull over and read the legends at leisure.

Markers are three feet wide and four feet, 10 inches high, and look like they're made of Swedish steel. They'll be mounted on six-foot aluminum poles.

Two already have been erected at a cost of \$1,000 each. One, placed two miles northeast of Tyler, marks the site of the largest Confederate Army prisoner of war camp west of the Mississippi. It was paid for by the grandson of a Union soldier who spent some time there.

The other was purchased by the Odessa Chamber of Commerce to point to the famous Meteor Crater near Odessa.

On May 4, a third plaque will be set up at McCamey. It will mark Castle Gap -- the old Butterfield State pass.

Attorney general ruled that such markers are necessary for maximum use of modern highways, and thus okayed the expenditure of state funds for future plaques.

Cost of plaques can be reduced to \$700 each in mass lots.

A committee headed by George W. Hill of the State Historical Survey Committee and composed of representatives from the Highway Department, the Parks Board and the Game and Fish Commission screens all recommended sites. About 100 spots are being considered right now.

SHORT SNORTS
Governor Daniel picked Lewis Spears of the Texas Education Agency to represent him at the White House conference

on the Youth Fitness Program. A Dallas law graduate, Robert E. Wade, scored an average of 57 - 1/4 to make the highest grade of the 145 applicants who recently passed the 1962 Texas Bar examinations. Odessa won second place in the National Cleanest - Town contest. Honored also were six other Texas cities - Devine, Brazoria, Pleasanton, El Paso, Fort Worth, and San Antonio.

The Texas Animal Health Commission finished the fiscal year with a \$38,368 balance. Its \$654,880 appropriation, except private donations for brucellosis eradication program, no contributions through in the year ending August, 1961.

Twenty-two U. S. congressmen have been invited to part in a panel discussion on May 17 convention of Texas Independent Producers, and Realty Owners Association, Houston.
