LITTLEFIELD, LAMB CO., TEXAS, THURSDAY, SEPTEMBER 22, 1955

NUMBER 17.

## Jaycees Protest Salary Boosts

The Littlefield Jaycees have protested the pending increases for Lamb County's elected officials. In their Tuesday they discussed the matter and adopted the following resolution:

"Resolved that in view of the economic distress of at least one third of the farmers in our county, we the Littlefield Jaycees are opposed to any increases in the salaries of our elected county officials at this time."

Chandler, president of organization, and Skipper, national director from Littlefield, told reporters later that many land owners in this area are in perilous financial straits and they felt that tax relief should have preference over salary increases.

He also pointed out that the county who actually do most of the work for the county are being paid out of the increase. They felt the deputies and maintenance personnel should share in the increases, but they are opposed to all increases unless some tax relief for drought-stricken farmers is granted first. Chandler and Skipper surmised their group might not be able to go into effect until the next election. They said they felt that the men now in office had known the amount of salaries when they asked for their offices and had in effect agreed to serve their terms on those amounts.

A group called on all citizens of the county who are interested in proposed salary changes to meet at the commissioners' meeting in the courthouse on September 30, at 10 a. m.

The increases in question will total \$15,300 additional per year. In the past it has been necessary to supplement the official salary fund with from \$10,000 to \$20,000 transferred from county funds. The \$15,000 increase in expenditures from the fund will probably increase the amount to be transferred from the fund.

The increases vary from 25 per cent to 50 per cent of present salaries. Smallest is \$800 for the county clerk. Largest is \$2400 for the county judge.

### Glenn Harvey Stricken With Illness, Monday

Glenn Harvey, youngest son of Mr. and Mrs. Cal Harvey of Littlefield, was taken to Plainview hospital center Monday by ambulance.

Glenn is a seventh grade student at Littlefield junior high school.

Mrs. Margaret Ann Brotherton returned to Bozeman, Montana, where she is attending the University of Montana. She will receive her bachelors degree in September. She is the daughter of Mr. and Mrs. R. A. Brotherton, of Littlefield.

Mr. L. C. Hewitt, Mrs. W. C. Denton, Mrs. E. J. Bussanmas, David Eaton and Mrs. Paul Smith visited the museum at Tech Sunday, where they viewed the art exhibit.

## Lions Broom Sale Grosses Over \$700

The Littlefield Lions club conducted the second broom sale of the year Tuesday at six Littlefield grocery stores, with proceeds going for the club's sight conservation and crippled children's projects.

Paul Carmickle, broom sales chairman for the club, reported Wednesday that more than \$700 worth of brooms, mops, ironing board covers and brushes were sold by volunteer workers from the club.

Club members were stationed at Furr's, Piggly Wiggly, Lymans Yarbrough, Renfro and Foust Grocery stores.

The products sold by club members were made by Texas blind people, who make their livelihood from the sale of their wares through civic clubs such as the Lions.

## City Police Jail Five Drunks On Past Weekend

City police jailed five drunks Saturday and Sunday, according to Police Chief Lawrence Walraven.

Four of the men paid \$19 fines Monday morning and were released. The fifth man was still a guest of the city Monday late.

U. S. Hiway 84 was flooded with water between Sudan and Muleshoe Saturday night when from two to four and one half inches of rain fell in the Sudan vicinity. Traffic was still being detoured Monday around the water bound road. Pictured above is a picture of a maintainer pulling a stranded car through the water early Sunday morning. One of the two vehicles were caught in the deluge of water and were left by the owners to remain there overnight. (Randall E. Scott Photo)

## Nearly News

By DOUG POE

In one of her stories Sunday, Maxine referred to XIT as meaning "Ten in Texas." It started a flurry of comment as to ten what in Texas.

One of the first stories we heard was that the brand XIT was originated by the Millers who had named their famous 101 Ranch in Oklahoma for the 101 sections they owned there. When they acquired ten sections in Texas they naturally named it the XIT, and that brand was later acquired by the owners of the three million acres of state Capitol land. This seemed a little far fetched, so we looked up the XIT chapter in Mrs. Hamner's history of West Texas, "Short Grass and Long Horns." She hadn't been able to satisfy herself on what the brand meant. She doubted that it referred to ten counties in Texas because at the time it was originated the country was not divided into counties and no one had any idea how many counties it would eventually become.

The meaning that most folks seem to go for is that it refers to ten English and Scottish companies which went into the syndicate that put up a million pounds to develop the XIT ranch.

What's your version?

HEARD—That Troy Armes got sack in Houston and didn't get to make the trip he won to Mexico City.

## County Court Session . . . Nine Plead Guilty, Pay Fines Totalling \$3,125 Plus Costs

County court moved into its 3rd day Wednesday with a number of cases docketed still to be tried before Judge Robt. Kirk.

Prior to the convening of court Monday, nine persons charged for trial during the session plead guilty and paid fines totalling \$3125 plus costs, and some also received jail sentences.

Octavia Lopez, charge with aggravated assault with a motor vehicle plead guilty and paid \$25; Lonnie Goolsby, charged DWI, paid \$100 and costs and was sentenced to three days in jail.

L. C. Blue Bailey, on two counts of violating liquor laws, paid \$500 in fines plus court costs. Al Thornton plead guilty to a like charge and was fined \$300 and costs. Pete Hernandez, charged with violation of liquor laws, plead guilty and Judge Kirk fined him \$100 on the first charge \$200 on the second and \$300 on the third, plus court costs.

Clarence O. "Pete" Abeyta plead guilty to a liquor law violation and was fined \$700 plus costs. Also pleading guilty to the same charge, was Malcolm McCool, who paid \$100 plus costs, and C. T. Childress, who was fined \$500 plus costs. Verdia Mae Elmore paid \$200 plus costs on a like charge.

Sixteen criminal cases remain to be tried, including charges of driving while license suspended; aggravated assault, DWI, and liquor law violations.

Only one civil case had been tried by Wednesday morning, involving R. L. Kamp vs. Joe Rone. Kamp was awarded damages sought. Pat Boone Jr., represented Kamp, and James Gowdy was attorney for Rone.

## County Wins 79 Ribbons At Tri State Fair

Lamb County's agricultural exhibits in the Tri-State fair at Amarillo Sunday won a host of ribbons according to James Pirkey and Dave Eaton, who entered 125 exhibits from 96 Lamb County farms.

The exhibits won 29 first place ribbons, 22 second places, 14 thirds and 14 fourth place awards.

Pirkey said the Lamb county exhibition of agricultural products took more awards than any other county entered in the fair.

The freshman FFA class of Littlefield high school assisted the teacher and county agent in preparing the exhibition material.

## Two Cars Crash Here Sunday PM

One automobile accident was reported in the city limits Sunday afternoon, for the only weekend accident recorded locally.

A 1955 Cadillac, driven by Clarence Young, was hit broadside by a 1955 Chevrolet driven by Olan Walker, according to city police records.

The incident occurred at the corner of LFD Drive and Fourth street. According to police, Walker made a left turn and hit the Young car, causing damages estimated at \$374.

Walker was charged with fail-

### Lobo - Wildcat Tickets On Sale At Sid's Office

Reserved seat tickets for the Littlefield-Levelland football game Friday night are now on sale at the office of the school secretary, Sid Hopping in the Woods-Armistead building.

Tickets may be bought for reserved seats for the rest of the season home games, or for individual games, Hopping announced.

### Exposed Persons May Get Gamma Globulin Shots

All persons who have been intimately exposed to the bulbar polio of Glenn Harvey, son of Mr. and Mrs. Cal Harvey may obtain Gamma Globulin shots for immunization from local physicians at no cost for the immunization material, Dr. Ralph Maurer, county health officer announced late Wednesday.

Dr. Maurer said the Harvey youth has been diagnosed as having the serious illness, and exposed persons may get the shots from their own physicians, paying only the physicians charge for giving the shots.

### Weekend Rains Bring Total To 13.08; Highway 84 Is Flooded

Rains continued to dot the plains this past weekend and early this week, but most weather observers believe the showers came too late in the season to be of any material use in increasing the harvest this fall. Some late cotton and grain in the low places may put on more, but the general picture is not too hopeful.

Rains measured 2.60 inches at the oil mill gauge since Saturday brings the total for September up to 3.12 inches. Total precipitation for the year so far is 13.08

inches, the highest total for September since 1951, when 17.92 inches fell for a five year record. The Saturday rains in the area dumped almost three inches on the Sudan area, and covered highway 84 with 19 inches of water, closing the road to westbound traffic for two days.

Temperatures have been warm during the day, and cooling at night, but present forecasts call for some lowering of temperatures, and possibly more rain in the next few days.

Several organizations in the county are preparing decorated floats for entry in the big downtown parade which begins at 4 p. m. today (Thursday) and which signifies the opening of the eighth annual Lamb County Fair, to run until late Saturday night at the Littlefield fairgrounds. The floats will join marching bands and commercial displays in the traditional fair parade. The parade will form near the city hall and march down Phelps avenue to the Santa Fe lot, turning onto West Second street to disband, or continue on to the fairgrounds.

### Clovis AFB Will Participate In Sudan Festival

Clovis Air Force Base will participate in the United Nations for World Peace Pageant and Parade of Nations at Sudan, Sept. 24.

Lt. Col. Charles E. Pannell, Air Base Group Commander will be present at ceremonies representing the Wing Commander.

A color guard will be provided to join in the parade and a training flight of F-86H's will probably deviate from course and make a pass over the parade route.

Mrs. C. O. Stone, who was to return to her home last weekend from Pampa where she has been visiting Mr. and Mrs. Bob Perkins and daughters, did not return. She plans to come back next Sunday. The Perkins have a new daughter, both Mrs. Perkins and the daughter are reported as doing fine.

Stilwell Russell, parade marshal for the sheriff's posse said that a number of commercial displays will be in the parade, and that every high school band in the county has been invited to march in the parade also.

The fairgrounds will become a beehive of activity this morning as preparations for the fair get underway. The judging in the flower division of the women's department will be held at 1 pm following a luncheon for the out of town judges.

All exhibits and displays are expected to be in place before the 6 o'clock deadline tonight, according to general fair superintendent, Dave Eaton, and fair board president, Skipper Smith.

The carnival for the fair arrived earlier this week and has been set up and ready to go for several days.

Judging for the livestock division begins at 9 o'clock in the morning Friday, and will continue most of the day. Livestock will remain in place until 10 pm Saturday.

Several repairs have been made to fairground buildings, including a new roof on the building housing the art competition and exhibit, and a large number of coops have been ordered for the poultry exhibition barns, to be supervised by Doc Leonard of Sade.

Fair officials said that most of the available commercial display and booth space has been sold, but that some outside space was still available at a late hour Wednesday.

The Chamber of Commerce will be in place to the merchants building during the duration of the fair, and most fair officials can be contacted through that central clearing house.

## "We're No Angels" Starring Bogart Opens At Palace Sun.

Pursuing a talent for murder, swindling or safe-cracking may land a man on Devil's Island, but trying to put that talent to more honest use may get him into almost as much trouble. That's the situation with Humphrey Bogart, Aldo Ray and Peter Ustinov, starring in "We're No Angels," Paramount's wonderful off beat drama opening Sunday at the Palace Theatre.

"We're No Angels" is the tale of three unlikely candidates for angel's wings, who escape from Devil's Island, succumb for the first time in their crime-riddled lives to the urge to help their fellowman, but instead stir up a hornet's nest of murder and larceny. It has had advance showing audiences and critics everywhere applauding excitedly. From all reports, it's one of the most highly entertaining films of this or any other season.

Graced by a starring cast of extraordinary quality; the drama in addition to Bogart, Ray and Ustinov boasts the top-flight talents of Joan Bennett, Basil Rathbone, and Leo G. Carroll, plus three young and highly appealing supporting players: Gloria Talbot, making her debut, John Baer and John Smith, Ustinov, by the way, will be remembered for his outstanding performance as Nero in "Quo Vadis" and Carroll is the ever-popular Topper on TV.

## Services For Mrs. Mealer Held Tuesday

Funeral services for Mrs. George Mealer, one of the area's most beloved women, who passed away Sunday afternoon at 1:30 pm, in the Littlefield hospital after she has suffered a brain hemorrhage at 9 am., were conducted at 2 pm Tuesday, at the First Baptist church with Rev. Lee Hemphill conducting the service.

Jewel Pierce moved to Lum's Chapel with her parents, Mr. and Mrs. V. B. Pierce in 1924. Her parents and a brother, Morris Pierce preceded her in death. She attended the Littlefield schools.

On March 11, 1928, Jewel and Mr. George Mealer were married. Mr. and Mrs. Mealer had one son, Billy V. Both Mr. Mealer and Billy V. survive her, as do her two grandsons, Billy Mace and Norris Allen.

Also surviving are three brothers, C. D. and L. V. Pierce of Littlefield, and D. T. Pierce of Carlsbad, N. M.; one sister, Mrs. J. L. Bachus of Alamo, Texas.

Mrs. Mealer started a candy route during the war and had operated it continuously since. Jewel loved people, both young and old, and her chief interest in life was helping people who needed a lift, both materially and with her gay wit. Only last week she had assisted a child who had lost a leg, and this and her other charitable deeds were not known until she had passed away. She constantly visited the sick and aged.

Burial was in the Tech Memorial Park cemetery in Lubbock with Hammons Funeral Home directing.

Reatives from Altus and Oklahoma City, Okla., Breckenridge, Abilene and McAllen, Texas, Artesia and Carlsbad, N. M., attended the services.

## Art Club To Meet, Friday

The Art Club will meet Friday for an all-day meeting. The meeting will feature the work to be exhibited at the Downtown Art exhibit in observance of American Art Week.

Mrs. W. J. Aldridge and Mrs. Bub Stewart of the Fieldton community will be hostesses at the Stacy Hart residence, 500 E. 14th St.

The group will eat lunch downtown, so that more time may be spent on their work.

## AROUND the COUNTY . . .

By MICKEY STEPHENS  
 The date for the Lamb County Farm Bureau convention was set for October 20th in the Littlefield Community Center at the regular meeting of the board of directors Thursday, Sept. 8. Resolutions voted on at this convention will be submitted to the Texas Farm Bureau convention in Fort Worth in November. These resolutions must be in the Farm Bureau office by the 1st of October in order for the resolutions committee to combine them and get them ready for the convention.

The convention will get underway again this year with a covered dish supper.

The board of directors met with Jarvis, Angley, Earth, this time and was his guest at a chicken fry honoring all outgoing directors.

Springlake Farm Bureau met the 13th with John T. Gregg, Lubbock, representative of the National Cotton Council as their guest. Hilbert Wisian is president of the Springlake farm organization.

Pleasant Valley met the 20th with John Gregg from the Cotton Council telling them all about the purpose of the National Cotton Council and what they are doing for each farmer. Gerald Al-

lison, president, introduced John Gregg.

It is time for all community organizations to decide who they are going to send to the Texas Farm Bureau convention in Ft. Worth. When you have decided please come by the office and let me now so that I may make the reservations.

Have you read the article in the Texas Agriculture by Gene Leach, Legislative director for the Texas Farm Bureau, explaining the right to work law now in effect in Texas and what the labor organizations would like to change in it. Compulsory unionism is by nature monopolistic and thus as much against the public interest as any other kind of monopoly. Read it.

Four Lamb County Farm Bureau membership drive leaders will attend a big state-wide Captains' meeting September 21 at the Commodore Perry Hotel in Austin, according to Jack Yarbrough, president of the Lamb County Farm Bureau.

Those planning to attend are Mr. and Mrs. Ted Hutchins and Mr. and Mrs. H. Neuschwander.

The big Austin Rally will kick off membership drive activity this year in some 100 counties. The state organization is shooting for a goal of 71,000 members this year. The official membership year ends October 31st. Lamb county goal is 1000 and this has been reached at this date.

Main speaker at the Austin meeting will be Hassil Schenck, president of the Indiana Farm Bureau. Schenck, who is also a member of the American Farm Bureau Board of Directors, is one of America's leading agricultural spokesmen.

The rally at the state capitol is an exclusive meeting, with only county membership chairmen and community membership captains eligible to attend.

Fun, prizes, information and inspiration are in store for those who attend the Austin meeting, according to President Yarbrough. Sixteen door prizes, including one grand prize, will be given out at a drawing. Entertainment will be furnished by talent numbers from the Williamson County Farm Bureau. Other speakers on the program include TFB President J. Walter Hammond and state field representatives O. K. Hoyle and Leon M. Lane.

## Texans In Washington

By TEX EASLEY  
 By TEX EASLEY  
 Special Washington Service

WASHINGTON (S)—While Texas has only one small tribe of Indians, a Texan in government service has much to do with the welfare of Indians in all parts of the nation.

He is Edger E. Witt, chairman of the Indian Claims Commission and one-time lieutenant governor of Texas. The 76-year old native Texan is past the voluntary retirement age, but is on the job daily.

Reviewing the activities of the 3-man commission, Witt in an interview pointed out that it now has under study the largest claim ever filed against the government.

It involves all the Indians of California, some 30,000 to 40,000 of them. They maintain that when gold was discovered in California the white man pushed their ancestors off their property and into reservations with paying a

cent for the land. Their suit asks payment for some 75,000 acres, with interest compounded since the 1850's, would aggregate half a billion dollars.

Witt recently returned from hearing testimony on the claim in San Francisco. His fellow commissioners followed up with hearing early in September, receiving testimony from some witnesses who had been unable to appear before the chairman.

Considering the time required for briefs and rebuttal arguments, Witt says it may be a year before the commission reaches a decision.

Its finding can be appealed to the U. S. Court of Claims.

"And," Witt said with a smile, "they will run into a Texan there, too. The Chief Judge is Marvin Jones, who used to be the congressman from Amarillo.

Long active in Texas politics and member of a Waco law firm, Witt served as state senator from 1918 to 1930 and as lieutenant governor from 1930 to 1934. He first came to Washington in 1935 to head the old Mexican Claims Commission, returning to Waco five years later when that body completed its work of settling claims of American citizens against the Mexican government.

AROUND THE CAPITOL:  
 Hatton W. Summers, former congressman from Dallas visited here recently for the first time in several years.

A member of the House from 1913 to 1947, when he retired voluntarily, "Judge" Summers stopped off for a few reunions with friends after attending the American Bar Assn. meeting in Philadelphia.

He spent a night in nearby Virginia at the country home of Rep. J. Howard Smith (D-Va.), veteran congressman with whom he served for many years.

At the Supreme Court he visited with Elmore Whitehurst, former Dallasite who originally came to Washington to work on Summers congressional staff. Whitehurst now is one of the top executives of the Court's administrative organization.

### Olton News: Mr. & Mrs. Fred A. Sudduth To Reside In Lubbock

By MRS. GERALD BIZZELL  
Before an arrangement of baskets of yellow chrysanthemums backed by greenery and candelabra holding white candles, Miss Elenor Campbell, daughter of Mr. and Mrs. J. W. Campbell, became the bride of Fred A. Sudduth, son of Mr. and Mrs. E. M. Sudduth of Ruleville, Miss. The Rev. J. Henry Cox read the double ring ceremony before relatives and friends in the home of the bride's parents.

Mrs. Eldon Franks played wedding music and "Melody of Love" on the piano and sang "Because" and "Always" and "The Lord's Prayer" accompanied by her daughter, Linda Franks.

Mrs. Benny Barnett, sister of the bride, was matron of honor. She wore a dusty rose dress of chryselette, fashioned with a yoke of tucks and a full skirt. She carried a nosegay of white carnations.

Wardell Harvey of Lubbock served as best man and Ronnie Truitt lighted the candles. Given in marriage by her father, the bride wore a traditional white wedding gown of rosepoint lace and nylon tulle styled with alternate tiers of lace and full on the ballerina length skirt. The bodice was a fitted strapless, covered with a bolero designed with long sleeves, terminating at the waist in points. Her finger length veil of silk illusion fell from a pearl encrusted tiara and she carried a bouquet of yellow rosebuds atop a white Bible. Mrs. Campbell, mother of the bride chose a navy suit with blue accessories and a white corsage.

A reception in the bride's parents home followed the wedding. The table was laid with a lace cloth over green, was set with silver and crystal. Mrs. Vernie Truitt, cousin of the bride served three tiered wedding cake and Mrs. Wardell Harvey ladeled the punch. Mrs. B. C. Cooner registered the guests. The bride chose a brown tweed suit and brown accessories and yellow rosebud corsage. The couple will make their home in Lubbock where he is employed by Harmon Tank Co., and she is a bookkeeper at the Citizens National Bank.

Wedding guests from out of town were Mrs. Lillie Campbell of Lone Wolf, Okla., grandmother of the bride, Mr. and Mrs. Elvin Lyon of Lockney, Mr. and Mrs. L. J. Rice and Mr. and Mrs. Glenn Reeves of Littlefield, and David Criswell of Lubbock.

to Stillwater, Okla., where she is working on her final year toward her masters degree. Helen is the daughter of Mr. and Mrs. George E. Brown.

Mr. and Mrs. Harry Thomas are the parents of a baby girl born Sept. 12 in a Lubbock hospital. The baby weighed 7 lbs., and has been named Connie Sue. The grandparents are Mr. and Mrs. Roscoe Thomas and Mr. and Mrs. I. V. Fent of Olton.

Rhonda Gullett, accident victim who was run over by a car was transferred to Lubbock where she underwent surgery Tuesday. Her condition is still serious. She is the daughter of Mr. and Mrs. Jack Gullett.

Mr. and Mrs. Lefty Hollingsworth and Mr. and Mrs. Louis Scherier are on a fishing trip this week.

Myra Kent has opened a beauty shop in north Olton. The shop is done in rose and grey and is quite attractive. Myra was formerly employed at Olton Beauty Salon.

Sue Macon, reporter for Olton Enterprise was around Friday, buying articles that would sell for a nickel. Her box was almost bare.

Fran Hall is the attractive blond who is salesgirl for the Flower and What-Not Shop.

Cynthia McKenzie is celebrating her ninth birthday Saturday.

Mrs. Leo Ross Bryant and Mildred Burrus have changed their Girl Scout meeting from Thursday to Tuesday.

Mr. and Mrs. Spud Stinson are the parents of a baby boy, born Tuesday, Sept. 13 in a Littlefield hospital. Grandparents are Mr. and Mrs. Rube Stinson of Olton and Mr. and Mrs. Alwyn Savage of Hereford.

Friday night was the first time the new stadium had been used. The project was financed by the purchase of reserve seats at the price of \$20 each. The Mustangs did us proud with a victory on home ground.

The North Side Church of Christ are having a revival meeting with Paul B. Keele Jr., of Big Spring as speaker. Services began on Friday, Sept. 16 at 7:30 pm, and will continue thru Sept. 25. The public is cordially invited.

Mr. and Mrs. H. E. Owens have returned from a two weeks' trip to Louisiana.

Rev. Glenn Godsey is holding services nightly in a revival at the Mexican Mission. Bro. Glen is doing the preaching.

By JIMMIE CHAPMAN

The tough Levelland Lobos from District 1-AAA will roll into town Friday night for a grid game with the Littlefield Wildcats. Game time is set at 8:00 pm at Seely Stadium and it will be the first home game of the season for the Wildcats who have already dropped their first two games of the season away from home.

Coach Mayfield announced Wednesday that he would start the same lineup Friday against Levelland as he did against Hereford last Friday except at the quarterback slot. Either freshman James Pressley or senior Bob Orr will start at the man-

under spot for the Wildcats. At ends will be Wayne Wicker and Andy Parker; tackles will be Glenn Richards and Joe Hoover; guards James Lee and Roger Lowe; and center Paul Yarbrough. In the back field besides Orr or Pressley will be halfbacks Max Morris and Mike Greer. In the fullback position will be John Clayton, who was named player of the week Tuesday by his teammates for his efforts against Hereford last Friday. Clayton scored one touchdown and kicked one extra point for the Cats. Halfback Max Morris made the other TD for the locals.

Mayfield also said Wednesday that his boys are still shaping into a football team but would probably lose more games before they get going, mainly due to offensive punch. He says they are improving and are hoping to give Levelland a battle. The spirits are higher than they have been all year and the team seems to be working together better than ever.

Levelland last week beat the Brownfield Cubs 60-0 in both of the teams season openers. Levelland was hit hard by graduation but by the score last week it looks as though the Lobos are loaded again this year.

The offensive scoring punch last week was sparked by their two halfbacks, Jesse Sudderth and Sonny Reeves. Reeves made two touchdowns against the Cubs last Friday while Sudderth scored five times on runs. He ran one punt back 70 yards to score once. Sudderth also booted four extra points to make his scoring total of the night read 34 points. Quarterback Jimmy Johnson and Fullback Joe Kennedy made one touchdown apiece last week and these two will complete the backfield for the Lobos.

The Lobos are not as heavy as they were last year when they beat the Cats 6-20 at Levelland early in the season.

## Joe Walden Is Player Of The Week At WTST

**CANYON (Special)**—Joe Walden, 175 pound senior left back was named West State's "player of the week" for his performance in the 46-0 win over University of Christus last Saturday. The ex-Littlefield fisher off two touchdown runs of 34 yards although he played less than a quarter. In all, he had five times for a total of 108 yards. Walden and teammates play at home again this Saturday meeting McMurry's tough team in Buffalo Stadium. Kick-off is 8 o'clock.

Melt a couple of tablespoons of butter with a few slivered almonds until the nuts are golden-brown; serve over the paragus (frozen or canned) cooked fresh snap beans.

## Dunbar To Tangle With Big Spring There Friday Night

The Dunbar Tigers will load into school buses Friday afternoon and journey to Big Springs where at 8 pm they will take on the Big Spring Leopards in a football game. Littlefield will definitely be the underdogs in this contest as Big Spring has already beaten Lame-

sa 13-7, a team that beat Littlefield last Thursday 14-0. Coach Caney has changed his whole lineup except at the center position and is going to run from the Split-T and Double Wing formations this week in hopes to win the non-conference affair. Littlefield will start the following

## PLAYER OF THE WEEK

Chosen by his teammates as outstanding player in last week's game was Co-captain John Clayton, son of Mr. and Mrs. John Clayton.

John, a senior student, made his biggest contribution in the game with Hereford while he was playing full back on the offensive. He carried the ball six yards for a touchdown and kicked an extra point. While playing half back on the defensive, he knocked down two passes.

This is John's second year as a started and third year to letter.

## House Of Our God

Lesson for September 25, 1955

WHY support churches? The first thing we need to understand about this, as Christians, is that support of the church is not optional, but a "must." During a year's time every citizen is confronted with more "causes" than most of us can keep up with. We are invited to share in many good works; orphanages, schools for the blind, boys' towns, foundations for the study of various diseases, hospitals for crippled children, the Red Cross, all sorts of things. Most of us have to decide which we shall send our few dollars to, and which not. But if a Christian thinks he has a right to decide whether or not to support the church, he does not understand what the church is. The central reason why the church calls for the support of the people of God is that it is the "house of our God."

Dr. Foreman

**Here They Know You**  
 If those poor people in ancient Jerusalem pledged themselves to support the house of God, we who are Christians have even more reason to do so. For one thing, the church is where we really belong. Where else in the world is a person recognized for what he is, a child of God? Elsewhere you are a statistic, a consumer, a customer, a taxpayer, a cost item, a voter. These may be important facts about you. But the most important fact about any human being is not that he is kin to the human race, important though that is. The big fact is that every human being is made by God, for fellowship with him. Every man alive is a child of God. Either he knows it or he does not know it. Vast numbers of the human race live as if they were orphans of the storm, they live pigs' lives like the prodigal in Jesus' parable. But no one will tell them they are children of God. No one will tell them of the Father's house, no one will recognize them for what they are. Only in the house of our God."

**Here Citizens Are Trained**  
 There are very shortsighted people who may tell you that money put into support of the church could better be spent in civic improvement, such as better schools or sanitation. On the contrary, supporting the church is the best thing that can be done for the betterment of society. It cannot be said too often: even if the church were only a listening post, even if a church did nothing at all but hold a meeting on Sunday, even if a church might as well be laid flat in ashes six days in the week, for all the work it does—still, even if it did no more than hear God's messages once a week, it would be doing a great and unique thing. For the people who hear those messages and believe them would come to know their true relation to God and their duty in his sight; they would live not as animals, not as the "beasts that perish" but as immortal sons and daughters of the Most High. Then if the church is more than a listening post, if it puts its members to work, they will be actually taught and trained in Christian living.

**Here God's Will is Sought and Taught**  
 Are we talking about the real church or are we idealizing it? Well, of course no church is quite ideal. But taking the church by and large, these things are true, the church at its best wants them to come true, this is what it is driving at. For the church is the only place in town where large groups of people join in trying to know the will of God, and how to find it and how to do it. The church is the place where problems, personal and/or social, can and ought to be discussed in the light of God's Word and Will. It is the place where life is looked at in the light of heaven. A church that does not live up to its high calling is hardly worth support; but a church where there is a sincere effort to know what God wants for this community and for our part in it, a church where there is brave and honest opportunity for minister and people to think and to study and to speak out for God and his ways, a church which by prayer and service keeps the door open toward God, such a church is indeed a House of God; how can a Christian refuse to support it?

**THE POWER OF EXAMPLE**

By TOMMY WILLIAMS, Minister

One story has it that a man walked down the street and passed a seed store and its seeds made no impression. In fact, he was barely conscious that he had passed such a place. However, farther along the street, he came to one place which impressed him very much. There was a window most attractively decorated. In the decorations there was a strikingly beautiful flower.

Entering this store, the man said to the keeper, "I should like to buy that flower."

"It is not for sale," he was told, "but there is a seed store on the way you have come, and if you will go there, you may obtain seed which will produce a flower like this one."

Though the man had once passed the seed store and had

scarcely noticed it, he now returned with the purpose of getting the seed he wanted.

The word of God is the seed of the kingdom of heaven (Luke 8:11). That seed will produce radiant Christian character in the life of the person into whose heart it is sown. Such a life is the flower of that seed.

Many may receive the word of God simply by reading it. Many others seem to be unimpressed until they see its results in the life of a Christian.

"Let your light so shine before men, that they may see your good works and glorify your Father which is in heaven" (Matthew 5:16).

## The Sandhills Philosopher—

Editor's note: The Sandhills Philosopher  
 his Johnson grass farm discusses the  
 problem this week, leaving it as un-  
 solved as it ever was.

Editor:

Everybody is talking about the farm  
 problem these days, the Republicans are say-  
 ing it's not nearly as bad as it sounds and  
 way they're going to do something about it  
 away, the Democrats are saying they  
 do something about it better and are  
 saying the problem gets solved but not be-  
 cause they get a chance to do it, and the farm-  
 ers in favor of the problem being solved,  
 it looks like whoever solves it, the solu-  
 tion is gonna come a little late to do any-  
 thing this year.

I have been giving this problem some  
 thought lately and it seems to me all the experts  
 brains are working on the wrong type  
 solution.

That is, they're trying to figure out how  
 to increase the price of farm products with-  
 out bankrupting the government, although I  
 think this is putting an undue burden on the  
 backs of the farmers, as I believe the govern-  
 ment, if it tried hard enough, could go  
 bankrupt without guaranteeing the farmer a

But the point I'm making is that the ex-  
 perts seem to believe if they could get the  
 market price of farm products high enough,  
 the farm problem would be solved.

This may be true of most farmers, but  
 not me. It's nice to get a guaranteed price  
 a bale of cotton or a barrel of rice or a  
 bushel of wheat, but that still leaves some-  
 thing going up one row and down another.  
 That I'd rather have is a guaranteed annual  
 profit.

Now I'm not saying that the production  
 of food is as important as the production of  
 cars, for example, but if the automobile  
 makers are going to get a guaranteed annual  
 wage, I'd like to see that system carried  
 over into farming too. There are just as  
 many layoffs in farming as there is in manu-  
 facturing.

If the political experts will tackle the  
 farm problem from that angle, I'm not sure  
 they can come up with a solution, but it'll  
 make better reading.

Yours faithfully,

J. A.

## We Must Save \$35 Billion A

Year

A recent study indicates that it takes  
 \$500 to give a man a job. At least that is  
 the average amount invested per employee  
 in American business. A place hiring four  
 men, for instance, will usually need \$50,000  
 in buildings, inventory, cash, receivables, etc.  
 and nearly a million new workers entering  
 the labor force each year, American business  
 must find about \$12½ billion dollars a year  
 to invest in additional capital goods for  
 these new people to work with.

But that's not all. The old workers have  
 to have their tools replaced as they wear  
 out. That takes an average of \$450 per em-  
 ployee per year—or another \$25 billion  
 dollars.

So to keep our standard of living ever  
 rising for a larger and larger population, we  
 must devise a tax system which will permit  
 citizens to save \$35 to \$40 billion dollars  
 a year. That's \$750 per family that we must  
 invest into new machinery ourselves, or invest  
 in banks, insurance companies, investment  
 firms, the stock market, etc.

How is your average?

## Through A Glass Darkly

By CARROLL PONCEY

Winter is approaching, and this, to the  
 Kindly Old Grey one is the best time of the  
 year, almost. It is a time for being indoors,  
 and taking comfort in the security of being  
 indoors. It is a time for reading and listening  
 indoors. It is a time for a little dreaming, too,  
 if you are inclined to be the dreamy type.

Listening to music, as we have hollered  
 about here before is one of the most delight-  
 ful sports this writer can imagine. Classical  
 and semi-classical music is the best kind of  
 music to listen to, and sad, but true, TV just  
 doesn't give us any good music. That other  
 medium, which begins with the letter R, is  
 really about the best way to listen to music  
 for free. Of course, the best way is to have  
 a large expensive record or tape library and  
 a high-fidelity reproducer.

But radio is cheap and plentiful, and  
 some stations devote almost as much time  
 to good music as to hill billy. Saturdays and  
 Sundays are the best days for hearing good  
 music, with Monday night ranking a close  
 second.

We have often wondered why good music  
 is not as popular as the run of the mill pop  
 and folk music which seems to blast out of  
 every loudspeaker on the plains. Certainly it  
 is more pleasing to the ears than the never  
 ending doleful complaint of some broken  
 hearted nasal tenor.

Good music such as that of Giuseppe  
 Verdi, is a boon to the soul and is an satisfy-  
 ing to the auditory senses as a steak is to  
 the gustatory ones. Giuseppe Verdi? Why  
 that's simply Joe Green in Italiano, and Joe  
 knew what made good music good and he  
 made a lot of it. But he's not the only one.  
 The ballet music of DeLibes is among the  
 most enchanting ever written, even if ballet  
 dancing leaves you a little nauseated, as it  
 does this one. You can close your eyes to  
 the entre chats and pas a deux, and the music  
 is wonderful.

## Lipstick Logic

By LOUISE ALLEN

Outside our bedroom window the other  
 morning, we noticed a small toadstool. These  
 pop out from time to time, so we might have  
 forgot about it if it had not grown so very  
 fast. The second day it was twice its original  
 size, and a companion stool stood nearby. By  
 the fourth day, it had reached the size of a  
 dessert plate and its running mate was plod-  
 ding along a day or so behind. We half-ex-  
 pected to see a miniature Alice-in-Wonder-  
 land seated on it swinging her feet off the  
 side.

By now it has stretched to its own limit,  
 is no longer cupped around the edges, but  
 has spread until the outer rim is torn. To-  
 day it resembled a meringue-covered pie  
 that has browned overlong. And underneath,  
 the lark-fluted lining has lost its delicate  
 charm.

Toadstools, or mushrooms, or fungi, as  
 they are variously called, are probably a  
 many nature's least understood freaks. We  
 got curious about this one and went to the  
 encyclopedia to find out how come and why.  
 Best we could make out, our new specimen  
 might be a pasture or horse mushroom. The  
 smaller ones that appear in our yard may  
 be fairy-ring mushrooms, or else the death  
 angel. We are entranced by the names of  
 these fungus-type plants, which, the book  
 says, have no chlorophyll of their own and  
 feed on other plant growth. They may re-  
 plenish themselves for hundreds of years.  
 they may be edible or extremely poisonous,  
 beautiful or hideous, and only an expert can  
 distinguish the good from the bad.

About all we got out of this research  
 into the world of fungi was that we'd best  
 never step on another one (that's just what  
 they want us to do; it helps them spread),  
 and that toadstools, like people, aren't al-  
 ways what they seem.

## GLEANINGS . . .

If people didn't read any thing but page  
 one, it might be different, but we know that  
 most people read the entire paper from front  
 to back.

And, second, The front page will hold  
 only a certain amount of space, and that is  
 all that can be put on it.

And third, he may be crazy, but the  
 editor thinks he has a pretty good idea of  
 the value of News, what is worthy of page  
 one space, and what is not, and if your item  
 is worthy of page one space, it will get there  
 without a special request.

And fourth, items that will make the  
 front page one week, might not make it the  
 next week, depending on the amount of top  
 news there was, etc.

That's the way it is!

## Tommy Shotwell Makes Headlines

Mr. Tommy Shotwell, young  
 son of Dr. and Mrs. I. T. Shot-  
 well, made the headlines recently  
 and in a most unusual manner.  
 The Press received a copy this  
 week of the Disneyland News,

the first edition.  
 The headlines read, "Tommy  
 Showell Tours Disneyland. Guest  
 from foreign nations, all parts of  
 America include Hollywood  
 stars."

A picture of Dale Evans and  
 Roy Rogers are just below the  
 headlines.

Dr. and Mrs. Shotwell and  
 Tommy made the Disneyland  
 tour.

## Grass Roots Opinion

MANCHESTER, TENN., TIMES: "The  
 Pennsylvania Grit sensibly says: 'Most U. S.  
 employers agree that the minimum wage laws  
 are necessary to protect workers from ex-  
 ploitation. The question is, how far can you  
 go—and still be fair to both employers and  
 employee? . . . Laws do not have the magic  
 power to create wealth and make it possible  
 for an employer to pay higher wages than  
 a worker is able to earn.'"

BROWNWOOD, TEXAS BANNER: "If  
 one is consistent and holds to the principle of  
 private ownership of business, he should be  
 opposed to any form of government owner-  
 ship of the other fellow's business, as well  
 as his own."

INDIO, CALIF., DATE PALM: "We  
 have long known that Uncle Sam was the big-  
 gest land owner in California. But it wasn't  
 until recently that an inventory . . . revealed  
 that his holdings amount to 46 million acres.  
 That's 56.4 per cent of the State's total area.  
 The administration has promised greater  
 speed in turning over 'surplus' lands to the  
 states or individual citizens. There must be  
 plenty here that can be turned over."

WHITEHALL, WISC., TIMES: "Too  
 many Americans, in this matter of guarding  
 the interests of the public, are content to  
 'Let George do it,' not realizing that 'George'  
 died several decades ago."

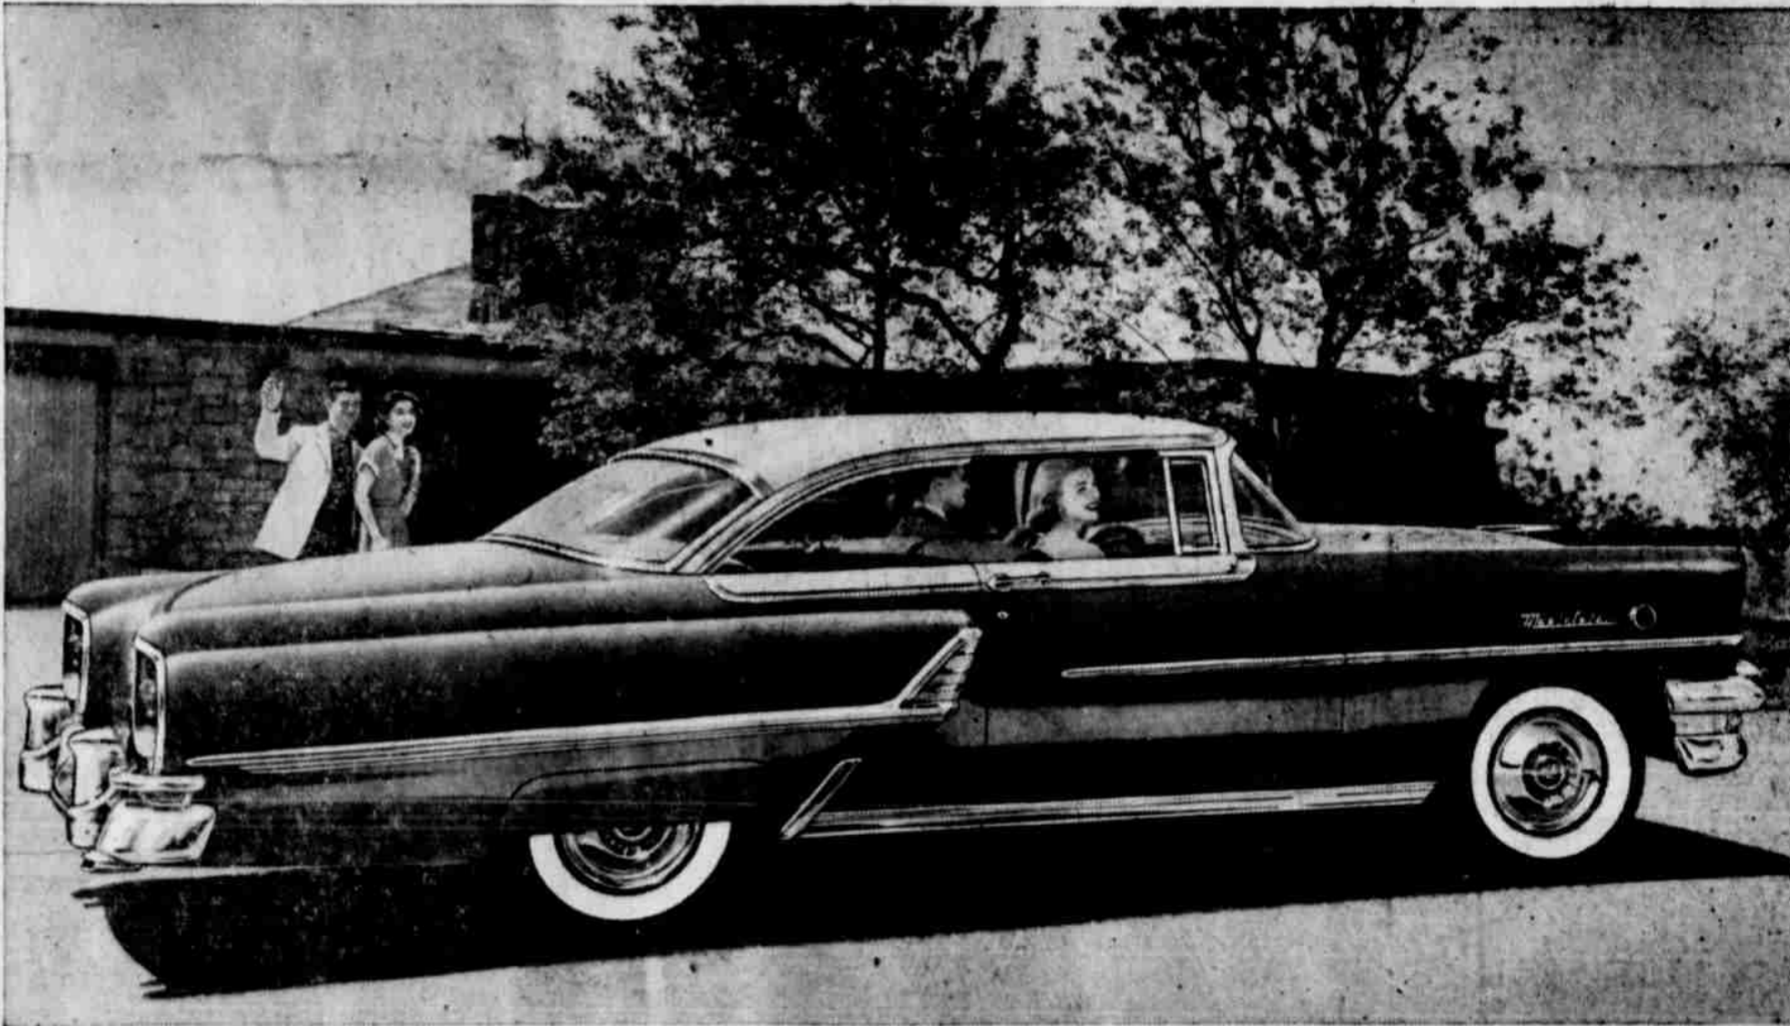

## The Unending Revolution

The elaborate Centennial of Farm  
 Mechanization, held at Michigan State Col-  
 lege during the August 15-20 period and at-  
 tended by 330,000 people, is over. But the  
 amazing revolution to which it was dedicated  
 continues in full vigor.

It is almost impossible to exaggerate the  
 impact of farm mechanization on an Ameri-  
 can life. In little more than a long lifetime,  
 machines made it possible for a small part  
 of the population to produce an abundance  
 of food and fiber for all—instead of the great  
 majority having to work the land from dawn  
 to dark to produce the necessities of life. It  
 thus released tens of millions of people to  
 work at other tasks, and to produce the  
 wealth of goods and services which make up  
 our American living standards. It has  
 brought the farmer far greater returns for  
 much less arduous labor. It has made modern  
 farming into a business.

Reporters who accompanied the Soviet  
 farmers on their tour of Iowa and other ag-  
 ricultural regions all commented on their  
 amazement that so few people were at work  
 on American farms. They were especially  
 surprised at the lack of women workers, who  
 are a mainstay of the communist farm labor  
 force. The main reason for this, of course,  
 is mechanization. In agriculture, as in all  
 other pursuits, American free enterprise has  
 produced infinitely greater benefits than com-  
 munist coercion.

## Corn Bread Is Partner For Ham

By CECILY BROWNSTONE  
Associated Press Food Editor

**CASSEROLE CORN BREAD:** good companion for baked ham when you are giving a buffet supper. Add a big salad—of cooked raw vegetables, or a combination of the two—and watermelon pickle and you can be sure your guests will fare well. The corn bread is firmer than traditional Southern spoon bread, but it should be served with a big spoon rather than cut with a knife. Be sure to have lots of pats of good butter (lightly salted or sweet) to go with it.

This Casserole Corn Bread is a recipe we had noted many times but had not tried until recently—the cheese variation makes it doubly useful. One word of reasur-ance to remember when you try it: don't worry if the stiffly beaten egg white doesn't combine perfectly with the thin batter. The little blobs of white will be taken care of in the baking.

**CASSEROLE CORN BREAD**  
Ingredients: 2 cups enriched yellow corn meal, 1 teaspoon salt 2 cups boiling water 1-4 cup butter or margarine (soft), 1 1/2 cups

non-political speech in Austin on September 28 in UT's Gregory gym.

Texas contractors look to 1956 as one of their biggest years in History. Future building projects already approved by federal, state and local government units total \$1,760,090,219.00. Construction during the first eight months of 1955 totaled \$613,610,219.00. That's \$58,000,000.00 over the same period last year.

Low bids totaling \$12,960,408.00 on 46 road building projects were tabulated last week by the State Highway Department.

Bond issues hit an all-time high of \$426,000,000.00 on public works projects in Texas cities, counties and school districts during the past year.

milk, 3 eggs (separated). Method: Stir corn meal and salt together in mixing bowl. Add boiling water and mix until smooth and free from lumps; stir in the butter until combined. Add milk; beat with spoon until smooth. Beat egg yolks until they begin to get thick; stir into corn meal mixture. With clean-beater, beat egg whites until stiff; fold into corn meal mixture. Pour into greased 2-quart baking dish. Bake in moderate (375 degrees) oven about 1 hour or until puffed and browned. Serve at once.

Variation: Stir in 1 cup grated cheddar cheese and 2 tablespoons finely diced pimiento with the beaten egg yolks. Make 6 to 8 servings.

**OTHER CASSEROLE CORN BREAD SERVICE**  
Baked ham is not the only accompaniment for Casserole Corn

Bread. Here are other sugges-tions:

For Brunch—Serve the corn bread with crisp bacon and apple rings. To prepare the fruit, core apples but do not peel. Slice into about 1-4 inch thick rings. Cook in a little butter or margarine in a large skillet, one layer at a time; sprinkle with brown sugar. Turn rings to cook evenly on both sides. Skillet may be covered through part of the cooking. But watch! They should not get time to help make apples tender. mushy.

For Lunch—When there's a ladies' party at noon, serve Casserole Corn Bread with creamed chicken and green peas. Add cranberry sauce so its garnet color will make the plates look pretty. The bread is good, too, with fried chicken and gravy. For Supper—Like baby turkey

oven-fried? The Casserole Corn Bread will taste good with it. Add a big salad of greens with a tangy FGrench dressing. Have the greens assorted, choosing among escarole, chicory, romaine, lettuce, water cress, and adding shredded green cabbage. Men

who won't eat a salad of plain lettuce or romaine seem to take to this potpourri!

Farm experts estimate that im-proved pasture can produce about 150 pounds of stock feed at a cost of about 60 cents.

The United States produced only 230 tons of magnesium in 1930 compared to 106,000 ton at the height of the Korean wa and 70,000 tons in 1954.

# Mercury Models For 1956 On Display September 29 For Premier Showing

Exciting new body styles featuring a low-silhouette in all three series, three new Safety-Surge engines with major improvements in performance, and distinctive changes in exterior and interior trim and fabrics are introduced by Mercury for 1956.

The new cars will be displayed in 2,750 Mercury dealerships throughout the nation on Thursday, September 29.

"A total of 13 models in the Montclair, Monterey and Custom series will enable Mercury for 1956 to penetrate further into all levels of the medium-price car market," said F. C. "Jack" Reith, vice president and general manager of the Mercury division. "This is the first new model introduced since Mercury became a separate division of Ford Motor Company some six months ago, and we expect this car to continue Mercury's near-spectacular accomplishments in the automotive industry," Mr. Reith said.

"Our new models will be displayed and sold in 700 more showrooms compared to the 1955 introduction," he said, drawing attention to Mercury's sharply expanded dealer organization.

Further emphasizing the wide choice prospective customers, Mercury for 1956 will have a total of 15 attractive body colors and 60 two-tone combinations.

A new low-price two-door sedan called the "Medalist" is one of six cars in the expanded Mercury Custom series. The "Medalist" was designed specifically for those who want big car performance and feel, yet at the same time require low cost transportation. It is an economy car that offers the chance to step up into Mercury engineering and performance at a budget-minded price. Chrome ornamentation and trim on the "Medalist" are styled in keeping with the clean, crisp Mercury lines.

A new six-passenger four-door station wagon is another new-coming to the Custom series, which also includes a new low-silhouette hardtop coupe, a four-door sedan, a two-door sedan and an eight passenger four door station wagon.

The appeal of Mercury's low-silhouette styling is emphasized in the Monterey series by a new four-door sport sedan and a two-door hardtop coupe. The conventional Monterey four-door sedan too is lower than last year. Fourth car in the Monterey series is the versatile four-door eight passenger station wagon with simulated wood paneling.

The Montclair series, which made its debut last year in pioneering the low-silhouette, presents a four-door sport sedan, a striking two-door hardtop coupe, and a glamorous convertible.

In offering a choice of three high compression, overhead valve V-8 engines, Mercury has designed its power plants and its transmissions to complement each other. Displacement has been increased to 312 cubic inches, with a larger cylinder bore and a longer piston stroke. The combination of increased displacement, higher compression ratios, greater breathing ability and improved carburetion makes the Mercury engines outstanding in performance and dependability.

Power when it is needed is assured at all driving ranges by each of these Mercury engines, with compression ratios of 9.0 to 1, or 8.4 to 1, or 8.0 to 1. Available with Merc-O-Matic transmission only, the 9.0 to 1 engine develops 324 foot-pounds of torque at 2600 rpm and 225 horsepower at 4600 rpm. The 8.0 to 1 engine is tailored to Mercury's standard and overdrive transmissions only. It develops 312 foot-pounds of torque at 2600 rpm and 210 horsepower at 4600 rpm. The 8.4 to 1 engine, available only with Merc-O-Matic transmission, develops 317 foot-pounds of torque at 2600 rpm and 215 horsepower at 4600 rpm. Bore

"Twice as much fun living ELECTRICALLY!"

says MRS. H. D. PATE  
1204 RIVERSIDE DRIVE  
CARLSBAD, NEW MEXICO

- TWO ELECTRIC RANGES
- ELECTRIC CLOTHES WASHER
- ELECTRIC HOME FREEZER
- REMOTE CONTROL LIGHTING
- ELECTRIC REFRIGERATOR
- ELECTRIC CLOTHES DRYER
- ELECTRIC WATER HEATER
- REMOTE CONTROL GARAGE DOOP

These are some of the electric appliances that make Mrs. Pate say "living is twice as much fun — electrically."

"Two electric ranges make a wonderful combination. Two of us can cook and bake at the same time. I have extra surface units with the two 24 inch ranges, and, as you can see, the two ranges, with a work space between, are ideal. And even with two electric ranges, my kitchen stays cool all the time."

There's just no limit to the pleasure of electric living. Ranges, for example, come in so many sizes and styles, including built-in custom models, that you can make any arrangement that pleases you and your budget.

Looking for more fun out of life? Try electric living for twice as much fun.

Watching the Fair at 5:30 pm, Thursday, we have wonderful things to see. The pilot was dusting the control. There are boys that keep their Fair Grounds barn clean. L. E. Sullins of Farm Supply Store has a lot of club boys. He has one of his pilots on two over the field. We are gratifying to us who are interested in the program to give us a look in this situation we are in. Thanks Sullins.

**CONTESTS**  
Assistant county agent records, for State and National contests from Lamb County. Turner in the contest, which was the International company. In recent at the District Exhibition in Lubbock, Doyle contest and was the State contest. He was entered in the Awards Contest and also won the District and was submitted. We should hear how these two out in the State.

**FAIRS**  
Forget to get all of the annual Lamb County Fair on time this year. Cultural, Horticultural and Poultry divisions as the Educational departments six days, September 22nd for entering and displays completed. Pirkey, Freshman Agriculture Instructor old schools is assistant preparation and set County Exhibit for Fair. We set the exhibit, September 17 there all day today. Amarillo Fair runs from 19 through September 22nd. Mr. Pirkey and

his class of Freshmen FFA students have given us an awful lot of help in preparing these County Exhibits.

## EXPERIMENT STATION FIELD DAY

The annual Field Day at the Lubbock Experiment Station will be held on Wednesday, Oct. 5. It will start at 9:00 am, Wednesday morning. We would like to urge each person interested in the Field Day at Lubbock to be sure to attend.

A any time during the morning you can join a small group in going over the Experiment Station riding on a trailer with a guide who will explain each of the things as you pass them.

At noon soft drinks will be served and you are to bring a sack lunch. Then immediately after lunch each member of the Experiment Station Staff will go into detailed explanation of the research that he is in charge of. I think anyone in the past who has made one of the Field Days at the Lubbock Experiment Station has derived a great deal from these visits that can be applied on their own farm. I would like to urge as many of you as possible to attend this Field Day.

Don't forget to contact your ginners, if you are interested in making the Field Day at the Paymaster Farms at Aiken Tuesday, September 27.

If you can attend either or both of the above Field Days, we feel that a lot of questions concerning crop varieties, diseases, hail damage, irrigation, fertilizer applications, and crop rotation practices will be answered. Remember that the only way we can combat the price cost squeeze that farmers are experiencing this year and our economists seem to think for the next several years is by increasing our crop yields and by cutting a few corners.

## TEXAS HYBRID CORN PRODUCTION PROGRAM

Corn producers in Lamb County who have a Texas Hybrid planted and are interested in entering the Texas Hybrid Corn Production contest should contact us prior to October 1 so that we can make arrangements to get your records sized up and arrange for the weighing and tabulation of your corn yields.

Last year we had the first, third and sixth place yields in this District and Doyle Turner set the

record yield for the State of Texas of 204 bushels per acre.

Producers over the State who planted good seed, properly prepared the soil, and used plenty of the right kinds of fertilizer and the proper cultivation methods are coming through with the best corn crops. So don't forget to notify us by October 1 if you would like to have your corn entered in this contest.

## SO MUCH FOR SO LITTLE THAT'S LEGUME INOCULANTS

The cost is small but the returns, in terms of increased yields and better quality legume crops, are great. Yet farmers still plant legumes without spending the few cents an acre required to do the inoculating job.

Fifty cents will buy the inoculant needed to take care of enough alfalfa or clover seed to plant up to five acres. Less than 25 cents an acre will inoculate winter peas or vetch. Different strains of bacteria are effective on different classes of legumes.

Be sure and get the culture recommended for the crop to be planted.

The seed inoculants contain beneficial live bacteria. The bacteria attach themselves to roots of leguminous plants where they absorb energy from the plant and in turn help the plant to take nitrogen from the air. They do this by a process known as "nitrogen fixing."

Both effective and ineffective bacteria may occur naturally in the soil but why take a chance on lower yields and quality by not inoculating the seed.

Seed inoculants can be obtained from seed dealers and it is important to follow the directions on the container. The seed should be planted soon after it is treated.

## RESEARCH ON HOUSE FLY CONTROL IN DAIRY BARN CONTINUES

Research studies being made by Texas A&M College System entomologists are aimed at helping dairymen combat one of their warm weather enemies — the

house fly.

In reporting on work done during 1954, Manning A. Price of the Department of Entomology, said the residual sprays were applied in many dairy barns in the College Station vicinity.

Malathion emulsifiable concentrate diluted to 1.25, 2.5 and 5 per cent gave protection for 17, 37, and 42 days respectively. "A 2.5 per cent spray appears to be the most economical concentration to use," said Price.

American Cyanamid Company's experimental compound 4124 at a one per cent concentration gave protection for 51 days but it stains barns and is more toxic to higher animals than Malathion.

Chlorthion at a 5 per cent concentration gave protection for 38 days while a 1.0 per cent concentration increased protection to 42 days. Here again staining was a tendency but to a lesser degree than with compound 4124. "The .5 per cent concentration appears to be the most economical to use," but he adds "more information on its toxicity to higher animals is needed along with experiments on fly control before the insecticide can be recommended for general use."

Diazinon wettable powder at a .5 per cent concentration gave protection for 71 days and a 1 per cent concentration for 98 days (used in one barn). Various mixtures with other sticker compounds were tried but Price says more experiments are needed to determine whether the additive to Diazinon makes the emulsion any more effective. Price said, "a .5 per cent wettable powder or a .5 per cent emulsion appears to be the most economical concentration to use."

Lindane emulsion at a .5 per cent concentration gave protection for 24 days while a mixture of .5 per cent lindane and .5 per cent Archlor gave protection for 17 days. All sprays were applied to the point of runoff with a power spray at 150 pounds pressure per square inch.

New apple dumplings: bake the apples, sweetening as usual, before covering with pastry and baking in a hot oven for about 20 minutes. Use standard pie pastry and brush it with a mixture of egg yolk and water for a pretty glaze.

## Social Security Representative Here Sept. 28

A Social Security representative will be in Littlefield at the Employment office at 1:30 pm, Sept. 28 and will be glad to assist in all matters pertaining to social security.

It was 20 years ago, on August 14, 1935, that the Social Security Act became law. John G. Hutton, district manager of the Lubbock social security office reminded people in this area today.

Generally, when people refer to social security, they are talking about the Old-Age and Survivors Insurance program under the Social Security Act, he said. In commemorating the 20th Anniversary of the signing of this law, Mr. Hutton indicated that almost 8 million persons are now receiving over 400 million dollars every month in benefits under the program. Over 70 million people are now insured under the law so that in the event of retirement or death, they or their families will be eligible for benefits.

The average retired worker is now receiving about \$60 a month. However, the average for those who have retired in the past few years is \$80 a month and their wives' benefits average \$41 a month. Moreover, Mr. Hutton stated that an important part of the old-age and survivors insurance program is the protection given to widows and children in the event of the workers' death. Today, the average benefit for a young widow with two minor children is \$185 a month. Total family benefits can be as much as \$200 a month. In addition, lump-sum death payments range from \$90 to \$225.

Looking ahead twenty years to 1975, Mr. Hutton predicted that by then 93 million Americans will be insured under the program. It is expected that of the 20 million persons over 65 at that time, 4 out of 5 will be eligible for benefits.

China's 500 million people constitute about a fourth of the world's population.

# Red Cross First Aid Class Holds Last Meet Thursday

**By MRS LEROY HICKS**  
The last Red Cross first aid class meeting was held at the Pleasant Valley community center, Sept. 8. There were eleven women from the Pleasant Valley community that passed the final examinations. They are as follows: Mesdames Kirk Pitts, R. L. Roubinek, Billy Free, Gerald Allison, Leroy Hicks, Oscar Allison, Floyd Andrews, Jim Grizzle Mack Ragsdale, E. K. Angeley and O. E. Green. The teacher, Mrs. Lyle Brandon made the comment that this class was one of the largest that she has instructed.

The regular Pleasant Valley community meeting was held at the Pleasant Valley community center Tuesday night, Sept. 13. The meeting was brought to order by the presiding officer. The minutes were read and stood approved. It was decided that the community would sponsor a booth at the Lamb County Fair in Littlefield. Those volunteering to help build the booth are Forrest Green, John Inman, and John West; Harry Engleking, Kirk Pitts and Harold Allison volunteered to gather exhibits for the fair. Those who have articles to exhibit are to have them at the Harold Allison home by 12:00 am on Sept. 22.

The meeting was adjourned. Doyle Turner the program chairman showed film slides and pictures of the Lamb County Tour and of the foreign visitors when they toured the Pleasant Valley community recently.

Next meeting will be Sept. 27.

had you called her Queen of the Wild Frontier. She was a Natchez Miss., belle of 17 when she met and married Dr. James Long in 1815. She was caught up in Dr. Long's dream of freeing Texas from the Spaniards who then held the state. He was killed and she carried on in the best horse-riding, Indian-fighting, cannon-shooting manner. It began with a mass meeting in Natchez in 1819 at which money was raised for an expedition to free Texas. Long was placed in charge.

Jane Long made the one-starred flag which Dr. Long raised after capturing Nacogdoches. He declared Texas a Republic and himself president. It was the first Lone Star flag. Because their second child was expected any day, Jane had been ordered to stay in Natchez. Twelve days after the baby was born she slipped out of town without telling her family. She left her children with a sister at Alexandria, L., and headed for Texas on horseback accompanied only by her negro girl, Kian. They swam their animals across rain-swollen rivers, dodged Indians and she reached her husband's side.

The Longs and their small army were soon chased back across the border. They made it one jump ahead of their pursuers. In February, 1820, the Longs were back again, this time headquartered on Bolivar Point across from Galveston Island. Their army was larger and Long set out for the interior of Texas one day to drum up more support. He expected to be back in three weeks and made Jane promise to stay at Point Bolivar.

Two months went by and Long had not returned. The soldiers began leaving. Two other women in the fort, worried about Indians and Spaniards, too, decided to leave. Jane was expecting her third child in another month—in December—and they implored her to return to Natchez with them. She refused.

In the dead of winter she was left on the island with her daughter Ann, 6, the negro girl Kian, several muskets, some ammuni-

tion and a few fishhooks. The Indians (she had been told they were cannibals) made several threatening forays near the fort and Jane fired the lone cannon. She apparently convinced them the fort was still well manned.

A real norther froze over the bay and a bear walked over the ice from the mainland. Fish frozen in the ice were set aside for food. On the night of Dec. 21, with a freezing wind screaming out of the north and Kian delirious with fever, Jane Long gave birth to Mary James. The next morning she was up hunting food for her family.

Jane and Kian used an old hammock to seine for fish. They robbed birds' nests for eggs, killed a few ducks and ate many oysters. For want of any other flag she ran a red flannel skirt up a flagpole.

Maybe it was the skirt that did it, some men finally showed up

at Point Bolivar and Jane Long learned her husband had been killed after being taken prisoner.

She had a comfortable Natchez home to return to. But, still consumed by a passion for Texas' independence, she set up a boarding house at Brazoria and began intriguing with the great men of the day. Among her guests were David Burnet, Sam Houston and Mirabeau B. Lamar, the first three presidents of the Texas Republic. Houston and Lamar courted her unsuccessfully.

With Texas independence assured, Jane Long established a plantation at Richmond which in 1850 was one of 16 in Texas valued at \$10,000. She sewed and knitted and knitted furiously for the South during the Civil War.

She died Dec. 30, 1880 at the age of 82. A marker at her old Richmond home describes her as the 'pioneer of Anglo-American women in Texas.'
