Funeral Services Monday Afternoon for C. E. Pickrell

Dies Suddenly When on Trip and Enroute to Brownsville, Texas

C. E. (Charlie) Pickrell, 64, passed away suddenly about 5 P. M. Thursday at McAllen, Texas, as a result of a heart ailment.

Mr. and Mrs. Pickrell were enroute to Brownsville, Texas, on a vacation and fishing trip. Apparently feeling the attack coming on Mr. Pickrell stopped his car near Roma, Texas, and got out. He slumped to the ground and was assisted into the car again by a man passing by who drove Mr. and Mrs. Pickrell into McAllen. However, Mr. Pickrell passed away before they could get him to McAllen Hospital.

They had planned at Brownsville to visit Mr. and Mrs. C. C. Tremain and Mr. and Mrs. Jack Brannen, former Littlefield residents, and had left Littlefield about 4 A. M. of the day previous to his death.

Mr. Pickrell has suffered a heart attack over a year ago at which time relatives state his physician advised that the seriousness of his heart condition.

A daughter, Mrs. Elvie Hays, of Littlefield received the phone message from her mother about 5:30 P. M. Thursday.

Deceased's son, Jim Pickrell, and his daughter, Mrs. Elvie Hays, and sister, Mrs. E. E. Wells and Mr. Wells left here for McAllen immediately on receiving the message. Mr. and Mrs. Brannen and Mr. and Mrs. Tremain went to McAllen and remained with Mrs. Pickrell until relatives arrived. Mr. Pickrell accompanied the remains back to Littlefield, while the balance of the party returned by car.

Mr. Pickrell was born on March 30, 1882, in Wise County. He married Miss Alma Boil at O'Brien, Haskell County, in 1904, to which union were born five children, three sons and two daughters. One son died in infancy, and a daughter, Miss Pearl Pickrell, passed away in 1931; and a son, Roy Pickrell, died in 1935.

The Pickrell family moved to a farm near Fieldton, 12 miles northeast of Littlefield, in 1927, where Mr. Pickrell farmed for a number of years, moving to Littlefield several years ago.

He was a member of the First Baptist Church, Littlefield.

The remains arrived in Littlefield from McAllen by train Sunday afternoon; and funeral services were conducted at the First Baptist Church Monday afternoon at 2:30 o'clock, with Rev. Local Men Witness Mammoth House Making Machine

If materials are available a number of building projects will be carried out in the near future in and around Littlefield.

A. C. Chesher, Clint Griffin, and Clyde Hilbun returned to Littlefield, Tuesday after spending since Thursday last on a business trip to East Texas in an endeavor to locate building materials for the construction of some houses in this area. Mr. Chesher reports very limited materials at the present time, but hopes to secure materials in about 60 days.

Mr. Chesher has 48 lots west of town, on which he is considering building houses, provided he can get the necessary materials.

While gone, the Littlefield men visited Longview, Monday, for the purpose of seeing the giant "house-laying machine" produce a concrete house in 18 hours, and to attend the dedication of the LeTourneau Technical Institute of Texas.

Mr. Chesher stated that they did not see the actual construction of the house, but did witness the machinery in place following the completion of the structure.

A crowd estimated at 10,000 saw the machine in operation, staged in connection with the dedication of the Institute. R. G. LeTourneau is builder of the towering crane-like device, which was brought on a special train from Peoria, Ill. The City of Longview is reported to have donated 1,250 acres of land for the building of a \$5,000,000 plant where LeTourneau equipment, including the Tournalayer, will be placed. A ground breaking ceremony for this plant also took place Monday last.

The LeTourneau Institute will be a technical engineering school, at which instruction will be given in the operation of the Tournalayer (house making machine).

This machine makes a complete house with the exception of the windows and doors, reported Mr. Chesher, who added that it was a mammoth machine, which consisted of four pieces of machinery, a big mixer, a hoist, the forms mounted, and a flat car that hauls some of the equipment.

The dedication program, featuring addresses by President Gibb Gilchrist of A. & M. College, Senator W. Lee O'Daniel, State Superintendent of Education L. A. Woods, Atty. Gen. Grover Sellers and others, marked the reconversion of Harmon General Hospital into a modern training school with an initial capacity of 2,000 students.

An extensive building program is being considered by Jess Elms, prominent farmer and business man of this city.

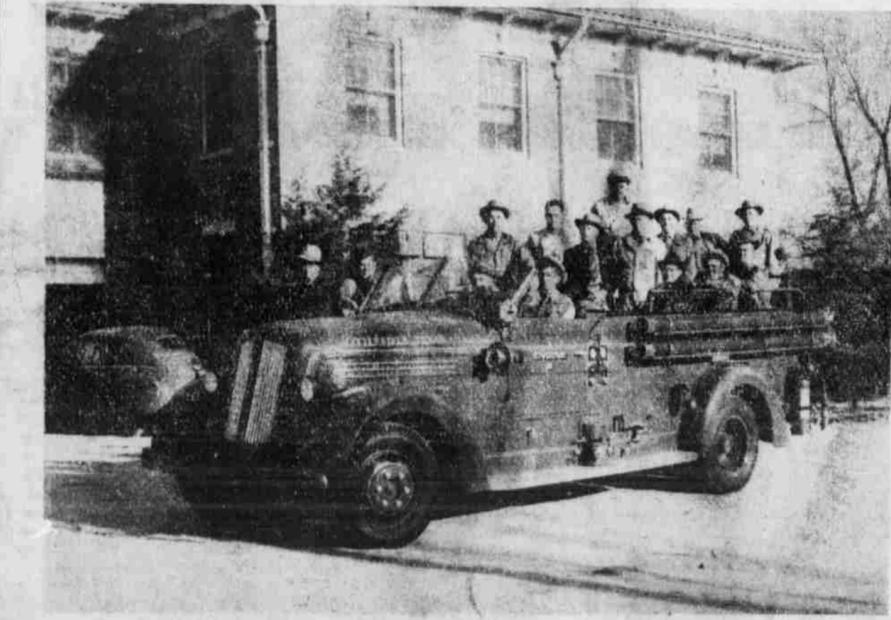

Included in his plans is the subdivision into lots of his 40 acre farm located on the edge of Littlefield and adjoining Southmoor Addition; and the building of a large number of homes in this subdivision.

In an interview with Mr. Elms Tuesday he stated: "We have many people here needing homes, and if we can get materials we are going to take care of them. We could have 1,000 additional families here inside six months if we had the homes for them to occupy."

Mr. Elms also mentioned other

Seeks Re-election As Dist Attorney

Harold M. LaFont, Monday made his announcement for re-election to the office of District Attorney for the 64th Judicial District of Texas. In making his announcement for re-election, Mr. LaFont stated:

"I want to first take this opportunity to express to the people of this district my appreciation for their loyal support in the past, and to thank them for their vote and influence.

In making my announcement for re-election, I wish to state that I have performed the duties of this office to the best of my ability and have tried hard to represent the people of this district and the State of Texas in the matters that have been brought up in court, and that have come to my attention. I have tried to perform the duties of this office impartially and in a business-like manner.

If the people of this district see fit to re-elect me for another term, I shall do my best to serve as I have tried to do in the past. I wish to state that I am making this race on whatever merit that I may have and not on the demerits of any person that may announce this race. I would appreciate your consideration of my candidacy, and if you can see your way clear to vote for me in the Democratic Primary in July of this year, I assure you that no one will appreciate that vote more than I will."

Miss Mata Dell McFarland is now employed at the Lamb County Electric Cooperative office here.

Suppose A Courthouse LOCATION Had Never Been Chosen Where Would YOU PUT IT?

We, the undersigned citizens of Lamb County, residing outside of Littlefield Community, believe that the County Seat should be moved and that now is the time to move it.

We have given the matter consideration and believe that the County Seat ought to be moved to Littlefield.

It is five miles from the center of the County to the nearest point of the limits of Amherst, and over six miles to Amherst depot. Littlefield is very little farther away from the center of the county. The difference is negligible.

The City of Littlefield has leased its City Hall to the County for ten years. That fact cannot be disputed.

The people of Littlefield could not build a new court house. It will take a vote of the peo-

ple of the entire county to put over a bond issue for that purpose. Besides, we won't need a new court house as the County will have use of the City Hall, which is sufficient for the county needs.

A vote for Amherst is a vote for the County Seat to stay at Olton. There is no chance for Amherst to ever get the County Seat. The vote at the last County Seat election was as follows:

LITTLEFIELD	2001 Votes
Amherst	374 Votes
Olton	932 Votes

The County is missing out on a lot of things that we could get if the County Seat was located at a more convenient place on a railroad and more accessible to most of the people of the county.

We the Undersigned Believe the Location of the Courthouse at LITTLEFIELD
Would Serve Most of Lamb County More Efficiently:

Sudan Road Work Gets Started

Caliche hauling work on the new county road now under construction north of Sudan got underway last week.

Commissioner Jack Yarbrough of Road District No. 4, said recently that all right-of-way deeds have been signed on the north and east roads. All but one property owner the road from Beck's gin east, and a few deeds are lacking for the road between Sudan and Friendship. One deed is lacking northwest of town, but the majority have been obtained, Yarbrough stated.

He said O. O. Baker, whose farm is east of Friendship, was the land owner called on to donate the largest piece of property—10 acres.

"Yes, he thought it was a bit high, but he wanted the road in there," the commissioner said in answer to a query.

Baker also had a farm north of Sudan, a mile from the city limits, where he was called on to donate land for a new road.

Yarbrough and Sam Cearley, commissioner from Earth, were appointed notaries by the Secretary of State, and worked this district to obtain the necessary deeds. No lands have been condemned as yet, but a few probably will be, they said.

Oldham and Harrison company engineers, are working with the road contractors to ensure that the work meets specifications set up by them. Hall & Son contract terms allow 120 working days from Feb. 5, 1946, to complete the work in this vicinity.

Gen. Eisenhower will make a one-day visit to Denison, Texas, in April.

Douglass plans on returning to his studies at Tech College, where he was majoring in Economics when he entered in service.

This information will be helpful to buyers in determining the quality of feeds offered for sale on the open market.

This is Station Bulletin No. 673 and copies will be sent free on request by stockmen and poultry raisers to the Division of Feed Control Service, Texas Agricultural Experiment Station, College Station, Texas.

K. W. Wells and Ed Hart, two of the directors elect for the proposed "Citizens State Bank of Antón", went to Jayton, to look at some bank fixtures that are for sale.

AIR CARGO

CHICAGO—The zooming growth of air cargo is seen in steps taken by the 19 domestic airlines of the United States to set up equipment and schedules that will raise their capacity in the immediate post-war years by five-fold over the 1944 level, according to a survey by the Air Transport Association of America.

The airlines last year carried 202,879,006 pounds of mail, express and excess baggage, whereas the use of added planes on order or option will provide cargo space sufficient to handle about one billion pounds of cargo, ranging from jewelry and drugs to perishable foodstuff and machinery parts.

The expanded fleet of passenger planes will provide much additional cargo space, with some of them having compartments for mail and freight which can be made larger as any particular passenger load grows smaller. All-cargo planes of war-time types are increasing in numbers, to be supplemented very soon by planes designed exclusively for cargo carrying, with features which will greatly expedite the speed and economy of loading and unloading.

Meanwhile plans are underway for expanding present pick-up systems, which operate without landings. New methods are being studied by airlines and manufacturers.

Already a unit has been developed allowing a plane in flight to pick up a loaded glider from the ground, making peacetime routine of one of the war's most dramatic exploits.

Program Underway to Make Highway 51 Canada to Gulf Road

AUSTIN—The State Highway Commission considering a proposal by representatives of four Texas counties that highway 51 be converted into a United States highway stretching north and south from Canada to the Texas Gulf Coast.

Spokesman for the group, M. J. Benefield of the Odessa Chamber of Commerce, said that representatives of Northern states along the proposed route are also petitioning their state highway commissions on behalf of the super highway.

In asking the support of the Texas Highway commission, the delegation said the route would provide an outlet for Texas produce. They said also it would enhance the possibility of attracting tourist trade to Texas and, particularly, the Big Bend National Park.

SIDELIGHTS FROM WASHINGTON

By CONG. GEO. MAHON

This is being written on George Washington's birthday and shortly after the reading in the House of Representatives of Washington's Farewell Address, an annual custom.

I think the Father of our Country would approve the action we took in Congress yesterday in passing overwhelmingly a bill designed to curb the actions of James Caesar Petrillo, head of the Musicians Union. You will remember that this is the man who in recent years has set himself up as the dictator in the field of music.

On one occasion, he refused to permit the broadcasting of a special program at a National Cemetery in Virginia, commemorating Memorial Day, because a U. S. Army band furnished the music. He demanded \$2,800 of one of the Washington theaters because some young women who were members of the armed forces were allowed to put on a home-talent play at a program sponsoring the sale of War Bonds. He stopped a home-talent program for crippled children on one occasion. These and other unreasonable actions by Mr. Petrillo have brought down the wrath of the people upon his head.

The general public, as well as labor unions whose cause has been unfairly injured by the unwise actions of Petrillo, will, no doubt, be glad to see Caesar's wings clipped.

On yesterday we also had the final roll call vote on whether to continue Federal participation in the public school lunch program. The vote was 275 for and 191 against. I voted to continue the program.

The program was begun several years ago, the Federal Government sharing in the purchase of the food and seeking to stimulate the wise disposition of surplus farm products. It is felt here that the school children and the people generally approve the program.

My mail on the subject was very light. Six Parent-Teacher Associations and 27 individuals in our District wired or wrote me, requesting that I vote to continue the school lunch program.

Bill Sims, former Army sergeant, of Fluvanna, Scurry County, is a frequent visitor in my office. Bill is a Tech graduate and is now attending Georgetown Law School.

Naval Academy graduate Lt. (jg) Bob Crawley of Lamesa and his wife, Peggy, came by for a little visit. Bob will be on duty in Washington for a few weeks before returning to the fleet.

Capt. Crawford Bates of Littlefield, recently returned from overseas, came by the House Restaurant for lunch with me a few days ago.

Over 400 Sport Fans Attend Presentation Meet

More than 400 sport fans, including visitors from distant cities, attended the ceremony at Sudan High School recently, when F. O. Masten presented the school with a check for a \$6,200 football stadium.

In turn, Coach Francis Smith gave Masten a life pass to all athletic events here, thanking him for his generous gift to the boys of this community.

"This gift really puts us on a spot to deliver the goods," Coach Smith declared. "But," he promised, "each Hornet will give the game everything he's got, and we'll play it fair and square, win or lose."

In his presentation speech, Masten revealed his enthusiasm at hearing Sudan and Littlefield fans describe the thrilling Thanksgiving day game they had played, when he returned to town the following day.

First, he offered to finance a team trip to the Cotton Bowl game at Dallas, he related. Coach Smith told him the community had already contributed money for that.

Then he suggested buying up all the turkeys in the county and throwing a gala banquet for Sudan's football players. Coach Smith said mothers of the team were already planning to do that.

"Now," exclaimed Masten, "I'm giving this check to build a stadium, and if any of you fathers are planning to run under me on that, I want you to say so right now, or forever hold your peace!"

Rev. Orbin M. Turner, pastor of the First Methodist church at Littlefield, the principal speaker, was much enjoyed by the audience for his humor and appreciation of football.

School board members were seated on the stage during the evening's program, including Gus Bellamy, Harvey Messamore, Elgan Baccus, Tray Gaston, Robert Masten, Frank Bryant and L. G. Fox.

The New Army

The following editorial has been furnished us through the Headquarters of the West Texas U. S. Army Recruiting District, Lubbock, and is reprinted with the permission of the Dallas Morning News.

The old-time Regular Army used to be what we had left after we sent our fighting armies home. It was a skeleton framework on which we aimed to build our next fighting outfit. A division shrank to a regiment in size and a regiment looked like a battalion. A company was no bigger than a platoon and the platoon would barely make a real squad. A unit commander had to "simulate" men, weapons and equipment. We thought that was the way to keep the peace.

Things are all different now. If we have any peace in this world, we shall have to police it. It so happens that the only two countries with what it takes to supply a world police force are Russia and the United States. And when its down to the countries able to meet the pay roll of such a force, it may turn out that the United States is the world policeman, if the world has any at all.

This is how it happens that we know we must have an Army big enough,

strong enough, skilled enough, mobile enough—and sufficiently available on short notice to go anywhere and do whatever needs doing. Now there is a vast difference between fighting a war and policing a trouble spot. Our men will have to be trained for this new job. Being Texas Rangers, so to speak, to all creation is a brand-new job. It is a big job.

The fact that our forces, very probably, sometimes will be under the command of an Iclander or a Peruvian named by the United Nations will make the job more difficult. The new Regular Army will be made up of technicians in maintaining peace in a raw and thin-skinned world. Men who can do that should have top pay, top training, top skill—and top advantages of advancement from the buck privates to five-star brass.

Zippers can never take the place of buttons—in the collection plate.

Don't let your desire to acquire out-do your desire to enjoy.

Too many people waste their time until their time is about gone.

Pure humanity, friendship, home, the interchange of love, bring to earth a fore-taste of heaven. They unite terrestrial and celestial joys, and crown them with blessings infinite.—Mary Baker Eddy.

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "cramps" to come.
2 Started 2 days before "your time", it should help relieve pain due to purely functional periodic causes.
The Cardui, if it helps, you'll be glad you did.

LOCATE the COURT HOUSE in the HEART of LAMB COUNTY, TEXAS, at AMHERST...

Here's your chance to place your County Seat in Amherst, center of Lamb County. Just a majority of us gets the job done.

VOTE For Removal to Amherst

YOUR ONLY CHANCE TO MOVE OUR COURT HOUSE and settle this question once and for all in fairness to all the people of the county.

Amherst has been solicited by voters from all parts of the county to enter this contest, as they feel there is only one place for something that belongs to all the Citizens of the county.

Let's all vote from an unselfish standpoint; get your neighbors to vote and this fight is over for good.

The people of Amherst will favor less expensive quarters than any other point in the county.

Your County Agent's Office is located here, A Good Bank, A Good Hospital, Good Hotel, Roads, and All Necessary Facilities Are Here, and we all know with just a little help it will be easier to secure a majority than 66 2-3% of the votes, to move your County Seat from one corner of the county to another corner.

If we do not settle this question now by our vote to move the Court House to the center of the county, it will be settled forever by remaining at Olton.

We all know that sooner or later, we will have to build a new Court House for our County Offices, so let's consider all the facts and the question from an unselfish standpoint; and vote to move the County Seat to a point where it will serve all of us more efficiently.

RESPECTFULLY,

**Statement Regarding
 Veterans Without
 Foundation**

Charles E. McCarthy, Acting Manager of the Veterans Administration Regional Office in Waco, Texas, which exercises jurisdiction over practically the entire State of Texas, is in receipt of a telegram from General Omar N. Bradley, U. S. Army Administrator of Veterans Affairs, calling attention to a telegram sent to Department Commanders of the American Legion at the direction of Mr. John Stelle, saying: "The Veterans Administration is attempting to dismiss from hospitals 46,165 total non-service connected cases."

General Bradley wires that statement is without any foundation in truth. That such statement might cause no unnecessary worry on the part of patients in Veterans Administration hospitals and their loved ones, he has requested that publicity be given to the following letter which he has sent to all members of Congress:

"Upon inquiry made of the National Adjutant of the American Legion, the Veterans Administration is informed he has sent telegrams to Legion Department Commanders, quoting the Legions National Commander as saying "The Veterans Administration is attempting to dismiss from their hospitals 46,165 total non-service connected cases." The statement is absolutely without foundation in truth. There is a great danger that it will cause unnecessary fear and anxiety among sick veterans and their families. At a press conference held on February 1st, 1946, I said: "Under the law, priority must be given to service connected cases. Non-service connected cases will be hospitalized whenever possible. I have not, nor will I advocate any change in the law which would provide for hospitalization of service connected cases only." That statement still holds good. We are

not dismissing non-service connected cases of any character from our hospitals so long as they are in need of hospitalization.— This is being sent for your information that you may reassure any constituents who write to you that there is no basis of fact to this allegation."

**Springlake Wins
 Right to Enter
 Regional Tourney**

Ted Harberer flipped in a south-paw push shot in the last ten seconds at Springlake, Friday, to drop the District 6-B cage crown on the heads of the Springlake cagers, and beat the Anton five 27 to 26.

Only two nights before Packard flipped in a field goal in the last 15 seconds to win the series opener 22-

21, in a game played at Anton. Harberer took off scoring honors of the night, getting 13 points to spark the winners.

Bill Woods flipped in 10 points for honors for Anton, closely followed by Eddie Hart, who scored eight points.

The victory gives Springlake the right to enter the regional tournament at Texas Tech, March 1 and 2.

**Last Rites Held
 for Mrs. F. W. Dent**

Mrs. Frank W. Dent, 70, of Sudan, who had been hospitalized since September, died at South Plains Co-op hospital, Amherst, Sunday, Feb. 17. She had lived in Sudan about nine years, having been married to F. W. Dent in 1937.

The former Mrs. Ella Hogue, she was a native of Range county, and

leaves three children by her first marriage. They are Bill Hogue of Cisco, Mrs. Jewell Anderson of Denver, Colo., and Mrs. Rowena Berry of Dallas.

Funeral services were conducted at 2 p. m. Monday Feb. 18, at the Church of Christ, of which she became a member in 1896. Due to poor health, she was unable to attend services in recent years. J. A. Bristow, minister, officiated, assisted by

Rev. W. L. Brian, Baptist pastor, and Rev. Hubbard of the Assembly of God church.

Interment was in Sudan cemetery. Arrangements were made by Hammons Funeral home of Littlefield.
