Texas Farmers Receive Higher April Prices

AUSTIN, May 4 (U) — Texas farmers received higher prices in mid-April than a month earlier for most of the staple crops, cattle and calves but less for truck crops, dairy products, poultry and eggs, sheep and hogs.

The increases and decreases left the index of prices at the same level as the previous month. It was 274 per cent of the 1910-14 base but 14 points below the year-ago level, the U. S. Department of Agriculture reported today.

Beef cattle and calves were up 50 and 60 cents respectively from mid-March at \$21 and \$23.50 per 100 pounds. These were the highest levels in almost two years.

Sheep were down 20 cents from the record high of the previous month at \$12.30 per hundred. Hog prices dropped 40 cents to average \$15.00 per hundred.

Wholesaler milk prices fell 30 cents, averaging \$4.95 per hundred pounds, while the retail price of 18.5 cents per quart was one-half cent below the mid-March level.

Farmers received 28.3 cents per pound for chickens, down seven-tenths of a cent, and 26.9 cents per dozen for eggs, a 1.1 cent decrease.

Communist Paper Publicly Confesses Misquoting Stalin

BERLIN, May 4 (U) — The East German Communist Party newspaper Neues Deutschland today publicly confessed to an "unforgivable mistake" — misquoting Joseph Stalin.

And what a misquote it was. Yesterday the paper printed Stalin's "12 pre-conditions for the development of a (Communist) party of the new type."

One of these points, as it came out in print, stated:

"It is necessary for the party to understand that its leaders must be selected from the best elements of progressive fighters so that it will have genuine representatives of the struggle of the reactionary proletariat."

Today red-faced Neues Deutschland carried a correction:

"Naturally," it said, "we meant revolutionary, and not reactionary proletariat."

It added: "The editorial board will take the necessary measures."

Corpus Christi Navy Hospital Increased By 50-Bed Order

WASHINGTON, May 4 (U) — An immediate increase of 50 beds in the operating size of the Navy hospital at Corpus Christi has been ordered.

The Navy notified Rep. Lyle of Texas yesterday that the additional beds will be made available for use by the Veterans Administration in South Texas.

BINAGGIO HOPED FOR STATE CZAR POST, OUSTED OFFICIAL DECLARES

JEFFERSON CITY, Mo., May 4 (U) — Charles Binaggio, slain Kansas City politician, had hopes of becoming a state czar, an ousted police commissioner declared yesterday.

Hampton S. Chambers, removed Tuesday from the Kansas City police board after he refused to resign, said in a statement:

"Binaggio and his crowd wanted to throw Kansas City wide open to the gambling syndicates. He also wanted to reach out into other fields."

"He had ambitions to become a statewide czar and to use the police departments of Kansas City and St. Louis to further his ends and protect his rackets."

Chambers and R. Robert Cohn, another ousted police board member, said they fought against heavy pressure Binaggio put on them.

Take Care That Youngsters Don't Smell Gas Fumes

DETROIT, May 4 (U) — Mothers should be sure their small children don't take to sniffing the gasoline fumes from the family car fuel tank. The youngsters can become gasoline fume addicts.

One such case was described to the American Psychiatric Assn. today by Dr. Reynold A. Jensen, Minneapolis, and Robert L. Faucett, Rochester, Minn.

This involved an 11-year-old boy, thin and pale for no apparent reason.

It took sodium amyl sleep to learn what had happened. At age five he accidentally got a gasoline jag from breathing the family gasoline fumes.

He saw merry little gnomes, and they pleased him because his father was severe. He kept on. His hallucinations were no longer pleasant but he couldn't resist temptation.

The doctors said a few weeks without the fumes and explanations which he could understand cured him. They mentioned that in industry workmen sometimes get naphtha jags from gasoline fumes.

3-Day Protest Strike On Rail Centers Cut Off

CHICAGO, May 4 (U) — A three-day protest strike by the Railway Yardmasters of America in seven Midwest rail centers was cancelled yesterday by the union after a last-minute compromise arrangement.

The strike was to have started at 6 o'clock this morning to protest the government's handling of the union's demand for a five-day work week. The government had assigned the case to a fact-finding board that is hearing wage and hour demands of conductors and trainmen. The union wanted a separate board to hear its case.

Under the compromise, the board will hear the yardmaster's case in Chicago next week and rule on it at the same time it rules on the demands of the conductors and trainmen.

WOMAN WALKS TO SURE DEATH

NIAGARA FALLS, N. Y., May 4 (U) — A young woman rose from a park bench last night, walked into the swift rapids above the American Falls and plunged over the cataract.

The woman went to certain death still clutching a blue handbag, three witnesses said.

No clue to her identity was found immediately.

State Businesses In Triple Gain

AUSTIN, May 4 (U) — Texas businesses tripled and employes doubled during the past 10 years, according to a Texas Employment Commission report.

At the end of last year Texas had 80,138 business establishments employing 1,164,500 workers, the commission said yesterday. The figures compared, the report said, with 9,724 industries hiring 625,711 workers in 1940.

The report covered only those firms which employ eight or more workers.

Only industry showing smaller covered employment at the end of the decade was the furniture and fixtures industry. It dropped from 10,077 in 1940 to 6,800 employes in 1949. The number of firms, however, increased from 76 to 199, TEC said.

Iowa Republican Says Demos In Style In Comics

WASHINGTON, May 4 (U) — Rep. Taile (R-Iowa) said today "there could be no more appropriate medium than the comic cartoon for depicting the Truman administration's so-called farm program."

Taile said in a speech prepared for the House that he wanted to commend the Democratic national committee for "its realistic appraisal" of the Brannan Plan.

He referred to a recent announcement that the comic book technique would be used to explain it to the public.

ENGINEER ORDERED TO TRIAL IN ATTEMPT AT LIVES OF FAMILY

LOS ANGELES, May 4 (U) — John Henry Grant, an aircraft engineer, has been ordered to face trial on charges that he attempted to murder his family and others by placing a time bomb on an airliner.

He was ordered held for trial in superior court under \$50,000 bond after a preliminary hearing in municipal court yesterday. He is to be arraigned in superior court May 22.

There were 16 persons aboard the United Airlines plane when a suitcase containing an alarm clock mechanism and tire tube filled with gasoline was discovered before the scheduled takeoff for San Diego last April 17.

Mrs. Betty Grant, 28, the defendant's wife, who first announced that she would stand by her husband, later said she would seek a divorce. Yesterday she was one of the witnesses called by the prosecution, telling how her husband asked her to take out \$25,000 flight insurance for herself and their two small children.

Taft Sees Chance To Whack Half Billion From Aid Bill

WASHINGTON, May 4. (AP) — Encouraged by a new economy recruit, Sen. Taft (R-Ohio) said today "there is a possibility" the Senate will whack half a billion dollars from the pending European aid bill.

Sen. Ives (R-NY) told the Senate late yesterday that "for the first time" he will vote to cut a Marshall Plan authorization.

The New York Republican backed this up by offering an amendment to whittle \$500 million from the \$3,100,000,000 asked to finance the third year of the European recovery program.

Previously Sens. Taft and Hickenlooper (R-Iowa) had backed a 20 per cent cut of \$600 million while Sen. Kern (R-Mo) proposed a full \$1 billion slash.

The Senate has agreed to start voting on these various cutbacks and a long list of other amendments Friday.

Sen. Connally (D-Tex), floor manager for the big global aid authorization, told a reporter he was confident the Senate would reject all attempts to cut back the total, as it has in past years.

But Taft said he hopes economy

advocates can join forces "on a cut of 500 or 600 million dollars, I don't care which."

"I have not made any check yet and there will be some Democratic support," Taft said. "I think there is a possibility of a fair reduction."

Ives listed a number of reasons for supporting a cut this time, including:

1. An "urgent need for economy" because of the huge deficit being piled up now by this government.
2. A return to above pre-war productivity in most European countries.
3. Failure of western European nations to remove their trade barriers against one another and move toward unification.

Verdicts Vary Over Smathers Florida Win

By The Associated Press

You could take your choice today of what caused Rep. George Smathers' one-sided defeat of New Deal senator, Claude Pepper, in Florida's Democratic primary last Tuesday.

Smathers himself called it "a victory of liberalism as opposed to radicalism"—proof, he said, that the people of Florida "do not wish to venture off down the side roads of extremism or socialism."

Sen. Taft (R-Ohio) saw as the significant thing "that the labor people went down there to defeat Smathers because he was for the Taft-Hartley Law." Taft added that "the people were for it and I believe that indicates the attitude in other states."

Jack Kroll, director of the CIO Political Action Committee, viewed the Tuesday results as the triumph of "a sinister conspiracy" to impose "upon our country a cruel and reactionary program." He added: "The tactics we have just seen in Florida will soon be used in every state" and "this challenge will be met."

With only 10 precincts missing out of the state's 1,585, the unofficial tally was 382,949 for Smathers and 319,178 for Pepper.

Attorney Held For Threatening Stage Actress

LOS ANGELES, May 4. (AP) — Russell G. S. Stanford, 29-year-old Los Angeles attorney, has been indicted by a federal grand jury on charges of threatening an actress in the New York stage show "Kiss Me Kate" with death if she did not come to Los Angeles and marry him.

He is charged with sending threatening letters to Miss Christine Matas, 25, Stanford was arrested by FBI agents April 24. He is held in the county jail in lieu of \$15,000 bail.

Bandera Stampede Will Open Friday

BANDEA, May 4. (AP) — The Bandera stampede begins tomorrow with a schedule designed to remind visitors of old time Texas.

There will be square dances, roud dances, oldtime fiddlers' contests, washer and horseshoe pitching contests, and livestock weight guessing. Horse racing and three complete rodeos will add to the general pioneer atmosphere.

Despite Her 106 Years, She Cuts Mean Birth Cake

CHARLEROI, Pa., May 4. (AP) — "Aunt Hannah" Carson can still cut a mean birthday cake despite her 106 years.

"Aunt Hannah" handed the cake cutting chores yesterday at a birthday party attended by friends and relatives.

Mrs. Carson was permitted to go home for the party from the hospital where she has been under treatment for a stomach disorder.

Her recipe for a long life? "I believe the good Lord wanted me to live this long and that's why I did."

As she waved to her family and started back to the hospital, she promised: "I'll be back for number 107."

Big Spring (Texas) Herald, Thurs., May 4, 1950 3

U. S. CHAMBER GIVES ENDORSEMENT TO PROGRAM EXPORTING KNOW-HOW

WASHINGTON, May 4. (AP) — The United States Chamber of Commerce gave its endorsement today to a "modest and carefully considered" program of exporting American know-how to further the industrial development of backward lands.

The chamber's policy declaration, given unanimous approval at last night's closing session of its 38th annual meeting, was one of very few resolutions endorsing the legislative program of President Truman.

The chamber emphasized, however, that private enterprise and private capital should form the cornerstone of any American program along lines of Mr. Truman's "point four proposals."

The 2,500 businessmen closed

their Washington meeting with the election of Otto Seyferth, Muskegon, Mich., foundry president, as its president for 1950.

Seyferth, who started his career in Grand Rapids as a 24-year-old machinist's helper, was an AFL Union organizer at one time in his progress toward the presidency of 1,300,000 business leaders.

He succeeded Herman Steinkraus, president of the Bridgeport (Conn.) Brass Co. Harry A. Bullis, chairman of General Mills, Inc., was elected a chamber vice president for the northwest area.

The chamber delegates broadened their organization's participation in international affairs beyond any previous scope.

They recommended continued support for the Marshall Plan on a policy directed at "true international economic co-operation," as opposed to nationalistic stands which, it said, hamper the flow of world trade.

In urging the export of U. S. capital and technical knowledge, it

stipulated that treaties should be signed in advance guaranteeing fair treatment for American investors overseas.

It also suggested that an advisory board, made up of citizens having experience in foreign trade and investment, be created to assist the government in developing investment policies.

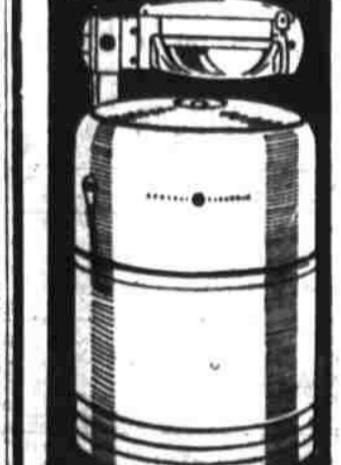

How To Hold FALSE TEETH
More Firmly In Place
Do your false teeth wobble and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just spritz a little **FALSETEETH** on your plates. This invisible tooth-actin powder holds false teeth more firmly and more comfortably. No gummy, gooey, pasty taste or feeling. Does not stain. Cleans "false teeth" (denture brass). Get **FALSETEETH** today at any drug store. (Adv.)

BRIGHT NEW TOUCH TO A BIG BOLD BEAUTY
See something new here? That's right — the gleaming sweepover now adorns the fenders of this ROADMASTER Riviera Sedan. An extra touch of distinction that's yours as a standard item.

What's the secret of the "UNRUFFLED" RIDE?

SOME car makers say springs make the ride—and so we give every Buick four of the soft, gentle coil springs practically all cars use on front wheels only.

Some say the drive is important—how power is transmitted to the rear wheels.

We agree—and use a torque-tube drive, that takes up all the thrust, freeing rear springs of driving pulsation.

Some stress tires—so you'll find low-pressure casings on every Buick, mounted on our own kind of Safety-Ride rims. Some play up shock absorbers—we make ours fast, soft and sure in action, to wash out all "after-bounce."

Then there are frames—and car weight—and engine mountings, which on Buick

are a very special kind used nowhere else.

They're all important—yet the plain truth is no one of these things—or two or three—gives a ride you can truly call "unruffled."

We feel it takes all of them—springs, tires, shock absorbers, drive, engine mountings—carefully and precisely brought into balance with each other.

You can see why we think so in any Buick—SPECIAL, SUPER or ROADMASTER.

You can feel it on cobblestones and car tracks, washboard gravel and weather-

pocked macadam, country lane and city street. You even feel it on boulevards, which grow still smoother when you travel them in a Buick—especially when it has Dynaflo Drive.*

So we would like you to try a ride that is truly "unruffled." Free of harshness—undisturbed by bounce and jitter—level—steady-going—smooth.

Just ask any Buick dealer for a chance to try out any Buick. You'll find it "the ride of a lifetime"—and the buy of a lifetime too!

* Dynaflo Drive is standard on ROADMASTER, optional on some SUPER and SPECIAL models.

Only Buick has Dynaflo—and with it goes!

HIGHER-COMPRESSION Fireball valve-in-head power in three angles. (New F-563 engine in Super models.) • NEW-PATTERN STYLING, with MULTI-GUARD fender, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and gripping, short turning radius • EXTRA-WIDE SEATS cradled between the seats • SOFT BUICK RIDE, from all-steel springs, Safety-Ride tires, low-pressure tires, side-standing torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

A Bible Thought For Today -

We are surrounded by petty injustice, but eternity is ruled by justice. We need patience and faith. "And He will judge the world in righteousness."—Ps. 9:8.

Financial Caution Well, But Not To Point Of Smug Complacency

Dr. Edwin G. Nourse, former chairman of the President's Board of Economic Advisers, thinks it foolish to pile up more and more military outlays "every time Joe Stalin throws a scare into us."

but certainly a weak sister industrially. We didn't think Japan could build a war machine capable of doing much harm, much less maintain it for four years.

Except For The Tail-End Shots, Most Of McCarthy Case Is Over

In his return engagement before the Senate investigating committee Owen J. Lattimore struck back at his principal accuser (aside of course, from Senator McCarthy), Louis Budenz, by terming his testimony "hogwash," the "product of a twisted and malignant personality."

Communist. She wouldn't and couldn't say whether Lattimore was a Communist; she claimed instead that his writings followed the Communist line.

Affairs Of The World—DeWitt MacKenzie

Bejeweled Indian Monarch's Decline Fast Toward Oblivion

THE HOST OF BEJEWELED INDIAN princes, who less than two years ago ruled their humble subjects with the power of life and death, are rapidly moving towards the oblivion which destiny has decreed.

many ways. He has been free in giving money for charitable purposes and for the British war efforts, but he watches his pennies. He allows himself \$1.05 per day for his normal personal expenses, and mends some of his own garments.

Notebook—Hal Boyle

Between Plane Times A Person Can Learn A Lot About People

SPOKANE, WASH. —IT WAS THE time between the planes going and the planes coming and the old man wanted to talk.

ing, chewing everything fluid as if it had bones in it. "Of course, Jim is my problem now," he said. "I could retire if it wasn't for him."

'That's A Kind Of Bi-Partisan Combination Too'

Today And Tomorrow—Walter Lippmann

McCarthy Campaign Reveals Grave Weakness In American Government

The McCarthy campaign has revealed, more sharply perhaps than ever before, a grave weakness in the American government. The Secretary of State is going abroad this week to meet the foreign ministers of our principal allies.

not be disproved. There is no clean way of ending the business conclusively. There is no tribunal, no court of justice, no formal proceeding of Congress, no clear way of referring it all to a decision by the voters.

Broadway—Mark Barron

Bette Davis Doubts Return To Warners

HOLLYWOOD. —Star news: Bette Davis strongly doubts a report that she might return to Warners for another picture. She is too happy on the outside.

dance numbers. June Haver postponed her Holy Year pilgrimage to Rome until September because of another picture. Allan Ladd continues to be Paramount's pet.

Half Of Maryland National Guard Planes Grounded

BALTIMORE, May 4. —Half of the planes in the Maryland Air National Guard have been grounded because of faulty engines, the state adjutant general said today.

New Funeral Head

DALLAS, May 4. —LeRoy Rader of Kilgore was named president of the Texas Funeral Directors and Embalmers Assn. at the annual convention which ended here last night.

Around The Rim—The Herald Staff

No Kidding, You Can't Tell, It Might Even Snow In May

As usual, the weather is a favorite topic. No doubt New Yorkers have been spending time discussing the weather, particularly after recent rainfalls replenished the New York City reservoirs to over 80 percent of capacity.

Well, as this legend goes, it seems there was in the early 1800's an editor of an almanac. The editor had predicted the weather for an entire year although he left the July 13th space blank.

Capital Report—Doris Fleson

Capitol-Tied Solons Restive As HST Tour Interest Rises

WASHINGTON—Every clear day now a plane sets down in some Oklahoma cornfield and an attractive, clean-cut young Congressman, Rep. A. S. (Mike) Monroney steps forth to spread the Fair Deal gospel.

A tremendous reception for the great Truman expedition to the northwest west week has been forecast from the grass roots. If it materializes, the congressional urge to call it quits and go home will be intensified.

The Nation Today—James Marlow

About 20 Per Cent Of Hoover Recommendations Are Approved

WASHINGTON, W. —IT IS ALMOST A year since the Hoover commission made its last recommendation for re-organizing the government. What's been done? About 20 per cent of the recommendations have been carried out.

man handed Congress 21 more reorganization plans. They'll go into effect May 24 unless Congress disapproves. About 66 per cent of the Hoover recommendations would become a reality if these 21 plans, plus 27 more set up last year, go through.

Tax Collections Amount Reaches 92.81 Per Cent

Tax collections for 1949 now amount to 92.81 per cent of the city tax roll. Tax Assessor - Collector Perry Johnson reported this morning.

Tax collections and discounts through April totaled \$184,974.37, giving a net collection of \$181,347.30, Johnson said. April collections amounted to \$891.26.

Penalty for delinquent taxes is now four per cent. It will be increased to five per cent in June and jump to eight and a half per cent, including six per cent interest, on July 1, the tax collector said.

Court Prepares To Hear Capital Cases

No criminal proceedings were underway in 118th District Court here this morning, since all but capital cases were completed earlier in the week.

A special venire is due to report Monday to begin trial of capital cases now on the docket.

Champ Calf Roper To Meet Local Man At Lamesa Rodeo

Troy Fort of Lovington, N. M., present world champion calf roper, will meet Sonny Edwards of Big Spring in a 12-calf match roping at 2 o'clock Sunday afternoon in the Lamesa Rodeo Arena.

Sponsors of the event is the Lamesa Rodeo Association.

The winner is to be challenged by Toots Mansfield, Big Spring, in a similar match at 2 o'clock, May 21, in the same arena. Mansfield has been several times the world's champion calf roper. Edwards, also well known in roping circles, has been a consistent prize-winner in rodeos throughout the nation. All have appeared in Madison Square Garden.

Open jack-pot ropings will also be held both dates, according to G. K. (Bud) McDonald, association secretary.

PFC. Ervin Stationed With Eighth Army

Pfc. John T. Ervin, 21, son of Mr. and Mrs. Ralph Twoler, Big Spring, is now stationed in the commissary warehouse with the Eighth Army in Camp Matsumura, Japan. He entered the Army on Nov. 14, 1947 and took basic training at Fort Ord, Calif. Then he went overseas with the 11th airborne division to Jimmach, Japan. He indicated he plans to re-enter service when his present enlistment expires.

Jordan To Return

Albert T. Jordan, range conservationist for the Soil Conservation Service here, was to return from Amarillo today where he has been attending a departmental program with other SCS employes.

MCCARTHY
(Continued from Page 1)

who deny my charges and smear the witnesses whom I have called, but to conceal behind closed doors testimony of those witnesses who are striving to expose Communists in government."

McCarthy also said additional witnesses would be provided to show Owen Lattimore's "close connections with America."

McCarthy has contended all along that Lattimore, whom he has accused of being Russia's top spy in the United States, was mixed up in the Amerasia case. Lattimore testified two days ago that he had nothing to do with it.

Lattimore did testify that he was a co-founder of the magazine, but that he left it.

After the Senate committee session with Bielaska broke up, reporters told Tydings that McCarthy had given them copies of his letter and asked for comment.

Tydings said that "submisses" were hurting the investigation, but declined to say what went on in the closed session with Bielaska.

As a part of a senate scrap, there was an uproarious debate in the senate late yesterday in which Democratic Leader Lucas (Ill) was ordered to take his senate seat on a charge that he had called McCarthy a liar in violation of the chamber's rules.

Lucas said afterwards: "We have just started to fight."

McCarthy got help in the floor battle from Republican Leader Wherry (Neb) and made plain he is ready to fire back any time the Democrats let fly at him.

Building Permit Total Stands At \$1,262,245

Building permit total for the year, through May 3, stands at \$1,262,245, F. W. Bettle, city building inspector, announced this morning.

The figure includes \$127,145 in permits issued this month, largely for new construction in the Bellevue and Ridgelea Terrace subdivisions.

Blankenship Invited To Participate In Dallas Meeting

W. C. Blankenship, superintendent of schools, has been invited to participate in a meeting at Dallas Friday evening honoring Dr. J. W. Edgar.

Dr. Edgar is the state's first commissioner of education. Blankenship was among the school administrators who worked on various commissions which led to the state minimum foundation program. It so happened, he served in the particular commission for administration with Dr. Edgar.

Tranham To Leave For Amarillo Rites Of Clay Thornton

Mr. and Mrs. C. O. Tranham were to leave for Amarillo late today where they will attend funeral services Friday for a brother-in-law, Clay H. Thornton. Mr. Thornton died in Amarillo Wednesday. Rites are to be held at 4 p. m. Friday.

Stanton Students Will Tour City Next Tuesday

Approximately 50 third grade students from Stanton schools are to visit Big Spring Tuesday on an educational tour sponsored by the Stanton Parent-Teachers association.

The pupils are to come here on the T&P Eagle and will visit railroad shops, the city hall and fire station, Seven Up Bottling Company, and The Herald plant. The tour has been arranged through the local chamber of commerce.

Visitors will be served free pop by the Seven Up company and will end the tour with a basket lunch at the city park. Mrs. R. B. Whittaker, Stanton, is tour chairman.

Charge Local Men With Burglary Try

Charges of attempted burglary have been filed in justice court against Eddie Bryant and James McCarty, both of Big Spring.

Bond for the pair has been set at \$500 each, Justice of Peace Oren Leonard said.

Chief of police Pete Green said they were arrested about 1:30 a. m. Tuesday at the rear of Gregg Street Cleaners, 1700 Gregg. He indicated they had signed statements before District Attorney Elton Gilliland.

Police Capt. Howard Shaffer arrested the two men at the rear of the cleaning establishment, Green said.

ADDED INTEREST IS ATTACHED TO HCJC SUMMER SCHOOL COURSES

Extra interest is attached to the department of education and psychology during the summer session of the Howard County Junior college.

With the state department of education serving notice on school boards that elementary teachers must conform to the requirement of 12 hours in elementary school education, demand for certain courses is anticipated.

In announcing June 1 as the beginning of summer school registration, E. C. Dodd, president, said that five education courses were expected to find demand from teachers. Numbers have made inquiry about courses, he said. Some have part of the required hours. Others, trained in the high school field, lack all or most of the requirement.

Among the education courses listed are: Elementary school methods (3 hours), curriculum problems in the elementary school, theory and practice in the elementary school, methods of teaching penmanship and spelling, and remedial techniques. All offer three semester hours credit. Other education courses are carried in the summer catalogue, subject to demand, as well as an introduction to psychology and applied psychology.

The agriculture department lists 11 courses, subject to demand; business administration 22; English six; speech two; modern language six (German and Spanish); mathematics eight; science 10 (chemistry, physics, physical science); industrial education 12 (drawing, woodwork, cabinet and millwork, machine shop and leathercraft); social studies nine (economics, history); government three; sociology two; business education 11. Practical courses in math, English and government are listed.

Classes for the first six-weeks of summer school begin on June 2 and end on July 13. Registration for the second six-weeks is on July 14 with close of term on Aug. 24. Class sessions will be Monday through Friday for 1 1/2 hours each or three nights a week for 2 1/2 hours each for the evening school.

Attlee's Prestige Is Enhanced Despite Labor Party Troubles

LONDON, May 4 (U)—The British Labor Party with its tiny majority is having a rough time in the House of Commons. Political observers, however, agree that events have enhanced the prestige of its unassuming leader, Prime Minister Clement Attlee.

The slight bald man managed the party in his first four and a half years as prime minister by pulling unseen strings. Now the strings can be seen more plainly. With a skippy majority there is greater need to put resolutions on strong and uncompromising nature and in his quiet way Attlee is using more muscle.

Attlee, usually seeming meek, can be very firm. He did not hesitate to expel left members of his party who attacked his policy. He stood up to criticism when the financial crisis forced his government to devalue the pound. He went ahead with the liberation of India and Pakistan despite the withering broadsides of eloquent Winston Churchill. He disregarded, without so much as a passing comment, the demand of the mass circulation Daily Mirror for his resignation.

In Parliament, where debate is often fast and brilliant, Attlee often seems to be one of the undistinguished persons "also present." Yet at the end of the day the retiring little man no one notices very much has his way.

A man with a carefully planned program, he sticks to it with dogged determination. As long as the program holds to its plotted course he is content to remain in the background.

At 67 Attlee is a fit, hard-working, studious and happy family man, father of four children and grandfather of one. His pleasures are simple. For fun he likes his pipe, a drive in the country with Mrs. Attlee, a garden, a serious book.

He likes the calm deliberation of golf, but is not very good at it. He likes cricket because the team play which is a prime essential of the game appeals to his team play character.

The late Ellen Wilkinson, who was his minister of education, once said of him:

"He started on the hard and austere road of a social reformer and became prime minister. He would never have flinched if that same road had led to jail, or the scaffold."

Attlee has a reputation for making dull speeches, and they are duller when he prepares them carefully. In policy-making decisions he is deliberately matter-of-fact. He avoids the spectacular, his delivery is clipped, and he has a habit of swallowing the tail of his sentences.

But when he speaks extemporaneously, he can be witty. In good company, he can be the life of the party.

By all his natural impulses a meek man, Attlee nevertheless has been very effective in parliamentary tussles against Churchill's broadsides. With his sharp wit Attlee is a nimble torador infuriating his opponent with swift little barbs.

Many of his colleagues say Attlee is never as successful in debate against Anthony Eden. Eden's methods are always gentlemanly, and they seem to arouse in Attlee an unwelcome amiability.

MANY NEVER SUSPECT CAUSE OF BACKACHES

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slow down kidney function. This may lead to back pain, a complaint of nagging backache, loss of pep and energy, headaches and dizziness. Getting up stiff or frequent urination may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try **DR. ROSS' PILLS**, a mild, safe, effective remedy for millions for over 50 years. While these symptoms may seem unimportant, correct, it's amazing how many these pills give happy relief—help the 15 miles of kidney tubes and bladder flush out waste. Get Dr. Ross' Pills today.

CAMPING EQUIPMENT TOOLS — TARPAULINS DRESS & WORK CLOTHES COTS — TENTS BOY SCOUT EQUIPMENT ALL TYPES OF LUGGAGE

Clement Attlee attended Halesbury College, one of the most exclusive of Britain's costly public schools. He followed his father into the law. He studied at University College of Oxford University, emphasizing history. He became a barrister in 1905, and as the son of the president of the law society would have had no difficulty getting solvent clients.

But he started drifting into London's East End, where the dockers at the beginning of the century were putting up a heart-breaking fight against unemployment, filth, disease and slums. Attlee joined the Fabian Society, an association of high brow socialist doctrinaires. He became a lecturer at the London School of Economics, a division of the University of London.

A youth of great energy, in 1910 he became secretary of Toynbee Hall, East End social service institute which brought him into intimate contact with the East End mothers and their dirty and often ill-fed babies. He went down to live in the East End's squalor. He recalls that he had to keep his coal under his bed.

He went to war in 1914, serving in the South Lancashire Regiment and later in the tanks corps. He campaigned at Gallipoli, at Mesopotamia and France. He was wounded severely and came out of the army a major. Back in Limehouse he went, spending his army gratuity to set up a center for the needy.

He joined a "no more war committee." The East End had a hard time getting acquainted with the quiet chap who was so persistent in doing good. But when it did get to know him the community of Stepney elected him mayor.

He was elected to parliament in 1922, the same year he married Violet Helen Miller—and Great Britain thereby acquired its most persistent member of the House, most persistent Socialist, most persistent trade unionist. He is a persistent man.

The one overpowering fear of the British Labor Party, Attlee soon discovered, was and is disunity. Labor movements had been weakened many times by internal quarrels. Trade union leaders are inclined to be boisterous, self-confident, hard-hitting extroverts.

The Labor Party was aware of a need for an umpire—and there was Attlee, the perfect chairman of a committee. His rectitude, his fairness, his persistence and burning socialist zeal marked him for leadership. He might not be the flamboyant leader of an exciting revolution, but British labor didn't want a flamboyant revolution.

As the years went on Attlee became a figure of national dimensions. The old Labor Party leader, George Lansbury, became involved in a typical labor dispute. He lost his post in 1935, blasted out by a faction controlled by Ernest Bevin. Thereupon the Labor Party elevated Attlee, and many observers said he "became leader by accident." The more striking and forthright members of the movement were too far right, or too far left, or they had made too many enemies with their sharp tongues.

Attlee has been described a compromiser. His supporters expected him to appease the right and cajole the left, to be in fact a good chairman of a committee.

The quiet little man became that and much more. Under his leadership labor has become a powerful unified force.

Doctors May Have Answer For Sex Crimes

DETROIT, May 4 (U)—The first official answer whether doctors can curb sex crimes better than prisons was given to the American Psychiatric Assn. this week.

The answer comes from Washington, D. C., where a new law is sending sex offenders to St. Elizabeth's Hospital to remain until the superintendent says they are safe to release. This experiment holds that sex offenders are sick persons rather than criminals.

The Washington report indicates that the chances are fairly good, but that cures probably will be slow and expensive. The American Psychiatric Assn. is interested because similar experiments recently have been enacted into law in New York State, California and Canada. And are under consideration in other American communities.

The report is by Dr. Bernard A. Cruvant, Milton Meltzer and Francis J. Tartaglino of St. Elizabeth's.

The District of Columbia legislation says the persons to be confined are "not insane." They are men whose repeated sex misconduct convinces a judge they are likely to repeat. Rapists are not included.

St. Elizabeth's has 24 of these men. None has been released although some have been there for more than a year. Twenty-five per cent are improved.

The first important medical finding is that the 24 suffer from five different kinds of mental troubles, all ordinary. There is no risk that a sex offender has any different phobias than other people.

The five are mental troubles due to disease, defective mind, some organic nervous—feelings there is something you just have to do no matter what the post—and split personalities and hysterics.

The principal treatments are to keep these men fully occupied. Six have improved enough to be transferred from restraint wards to open wards where they have freedom to attend hospital parties.

No specific treatment has been discovered. The report says there will be special treatments and that these will require trained personnel. Personnel no trained does not now exist. No predictions are made on how long it may take to cure a sex offender.

Big Spring Herald

Small College Can't Compete For Good Boys, Says Coach

LEXINGTON, Va., May 4 (U)—George Barclay, head football coach at Washington and Lee University, says "the small college coach must take the material he has and be satisfied. He has to forget about going after the big-name high school stars; he just can't compete with the bigger schools."

The coach must work hard in developing the fundamentals—what possibly the boy didn't get in high school—and then enjoy watching the boy develop into a very good, not great, player."

Barclay says athletic directors and athletic councils should look at the overall picture and schedule teams of comparable ability.

FINDS A SHELL, NOW IN HOSPITAL

TOKYO, May 4 (U)—A fisherman found an unexploded shell on a nearby beach.

His father, Toramatsu Seto, headed the fuse to extract powder.

Seto, his wife and two sons are in the hospital today.

'Liz' Having Hard Time Getting Wed

SANTA MONICA, Calif., May 4 (U)—Elizabeth Taylor of the movies and her fiance had an embarrassing time when a deputy county clerk turned them down flat on a request for a marriage license, saying he looked too young.

However Miss Taylor, 18, and her boy friend, Conrad Nicholson (Nick) Hilton, Jr., made a second trip to the county clerk's office yesterday with documents proving that he is 23.

Miss Taylor said they will be married Saturday in the Catholic Church of the Good Shepherd in Beverly Hills.

Two German Doctors Given Prison Terms For Killing Inmates

FREIBURG, Germany, May 4 (U)—Two German doctors have been sent to prison for killing 3,000 Baden Asylum inmates whom the Nazis termed unfit to live.

The defendants, Dr. Julius Schreck and Dr. Ludwig Brauer, contended they acted under Nazi orders to eliminate incurables. Schreck was sentenced to 12 years at hard labor, Brauer to 11 years.

Ample Storage Spots For Texas Grains

DALLAS, May 4 (U)—Latham White of the Department of Agriculture says there will be ample storage space for the 1950 grain crop in Texas, Oklahoma and New Mexico.

White, area commodity director of the department's production and marketing administration, made the prediction yesterday.

Whether Or Not You Like To Fish, It's Time To Try Some New Dishes

Big Springers agree the flavor of fish is enhanced when you catch your own. And now is the time.

If you're not the sportsman type, you can buy fish in the local market.

All fresh fish are more or less adaptable to the same methods of cooking—broiling, frying, baking, poaching and steaming. Although lean fish are considered better suited for poaching, steaming and frying, fat fish for broiling and baking, there are too many exceptions to make this a rule.

Fish have no tough connective tissue and therefore require a very short cooking period. Overcooking toughens the delicate fish protein.

When the Big Spring housewife serves fish, which is light on the digestive system, she has an opportunity to ser her favorite rich dessert—the one that's just too much with heavy meat courses. Too, the wide variety of fresh vegetables now available are perfect complements to fish.

Garnishes are to fish what cut-garages are to formal. A lemon cut in thin slices, wedges or in fancy shapes is the favorite. Parsley, paprika, pimento, green pepper, radish slices and rolled anchovy fillets are excellent, too.

Originality can be used to make lemon baskets for a tartar sauce filling. Tie a sprig of parsley on each handle. Top slices of tomato with thin slices of lemon and stuffed olive as another garnish. Or with a pastry tube form roses of lemon-butter or croissant slices of pickle. Insert thin strips of celery and carrot in green pepper rings. Scoop out unspiced cucumber to hold chili sauce, tartar sauce or any other cold fish sauce or a relish. Scallop the edge of the cucumber.

Baked Stuffed Fish
For a whole stuffed fish one weighing 3 to 5 pounds. Head and tail may be left on or removed and fish may be boned or not as desired. Wash fish; rub inside and out with salt. Stuff and sew together. Brush with melted butter or salad oil. If fish is lean, first slit skin at several places and insert thin slices of salt pork or

bacon.

Place heavy greased paper, parchment paper or strips of clean firm cloth across the bottom of the baking pan to facilitate removal of baked fish to serving platter unless the baking pan is one which may be brought to the table. Bake in a hot oven (400 degrees F.) allowing about 10 minutes for each pound of fish. Baste lean fish frequently with additional fat. When done the flesh separates easily from the bone. Garnish with parsley or water cross and lemon or a tart relish. Serve with any desired fish sauce.

Fish Stuffing
1/4 to 1/2 cup butter
1 tablespoon grated onion
2 cups stale bread crumbs or cubes
1 to 2 tablespoons lemon juice
1 tablespoon finely chopped parsley
1/2 teaspoon sage (optional)
1/2 teaspoon pepper

The amount of butter to use depends upon the type of fish—for fat fish use cup butter; for lean fish 1/2 cup. Heat butter; add onion and bread crumbs or cubes. Stir over low heat until bread is lightly browned. Add remaining ingredients.

For a cucumber fish stuffing, omit sage; decrease bread to 1 1/2 cups and add 1 cup chopped drained cucumber. Omit the butter for a bacon fish stuffing; dice 4 to 6 strips of bacon and cook until almost crisp; add bread crumbs or cubes and proceed as directed.

For a bacon and mushroom fish stuffing, add 1/2 cup sliced mushrooms to bacon fish stuffing. Sauté before adding bread crumbs or cubes.

Hong Kong Fried Trout
4 teaspoons onion pulp
4 tablespoons lemon or lime juice
1/2 teaspoon salt
6 small brook or other trout
4 to 6 egg whites, beaten

1/4 cup tart white wine
1/4 teaspoon salt
1/4 teaspoon cayenne
2 teaspoons powdered ginger.
Cut onion across; scrape off pulp. Mix with lemon juice and salt. Brush fish thoroughly with prepared marinade. Make batter of egg whites, wine, sugar, salt, cayenne and ginger. Beat as stiff as possible. Roll fish carefully in batter; fry in deep fat or sauté, using much butter.
Broiled fish is another Texas favorite.

Barbecued Redsnapper
3 or 4-pound red snapper, white fish or bass
1 tablespoon butter
2 tablespoons chopped onion
2 tablespoons Worcestershire sauce
2 tablespoons brown sugar
1/4 teaspoon salt
2 tablespoons vinegar
1/4 cup lemon juice
1/4 teaspoon pepper
Place fish in buttered, shallow pan; sprinkle with salt. Sauté in butter until golden color. Add remaining ingredients; simmer 5 minutes. Pour over fish. Bake.

Broiled Halibut Steaks
Brush with melted butter. Sprinkle with salt, pepper and chopped parsley. Place on greased preheated broiler pan about 2 inches from heat. Broil about 10 to 12 minutes. Turn carefully and repeat seasonings. Broil 10 to 15 minutes or until fish flakes easily when tested with a fork. Allow half a large steak for each person.

pend upon the type of fish—for fat fish use cup butter; for lean fish 1/2 cup. Heat butter; add onion and bread crumbs or cubes. Stir over low heat until bread is lightly browned. Add remaining ingredients.

Keep several cans in your refrigerator ... always ready for meals including hot biscuits.

Californian Files Suit For Oil Land Near Clairemont
CLAIREMONT, May 4. (AP)—Mrs. Nellie Kuteman of Riverside, Calif., has filed suit to regain 20 sections of oil-rich land near here.

Mrs. Kuteman is a former Kent County resident. The land is valued at \$10 million.

Mrs. Kuteman filed the suit in 38th District Court against Mr. and Mrs. W. A. Mays of Amarillo and four oil companies. The oil firms include Holland Oil Co., Barnedall Oil Co., Sunray Oil Co., and the estate of the late L. H. Wents, Oklahoma oil baron.

Mrs. Kuteman alleges that Mays bought the 20 sections of ranchland, June 15, 1942 after she had been adjudged of sound mind in 1941 and the Kent County court had taken over jurisdiction of the property.

Pull Up A Chair If You Think Explorers Only Give To Zoos

WASHINGTON, May 4. (U)—If you think that everything at a zoo is sent in by explorers and scientists from faraway places, pull up a chair.

Housewives, schoolboys, business men, even policemen, have given animals, birds or reptiles to the National Zoological Park of the Smithsonian Institution.

Various presidents of the United States have relayed gifts from admirers in this and foreign countries. Calvin Coolidge gave the zoo a raccoon he had kept for some time in the backyard of the White House.

Housewives specialize in sending in birds which fall from trees. Some nice bluejays, robins and cardinals have joined the zoo's family that way. So have some screech owls and even a pileated woodpecker or two.

Housewives, or their husbands, also contribute valuable pet parrots and turtles—sometimes even pet skunks.

"Of course," says Dr. William Mann, the zoo's director. "The skunks always have had their chemical warfare removed."

Schoolboys are always popping up at the zoo with a box or a paper bag containing snakes.

"I keep warning them against grabbing copperheads," says Mann, "but they don't pay much attention."

During the Easter season Mann generally gets a windfall of ducks and bunny rabbits which kids have received for Easter gifts.

"It's funny," says the doc. "Rabbits—and guinea pigs, too—go big out here. People look at them as much as they do the elephants."

Alarmed citizens sometimes call

police to report a "wild animal" hovering outside their bedroom windows. The police rush out—only to find an itinerant opossum presenting itself in the morning sun. They arrest the possum and make a fast run to the zoo.

Police and the Animal Rescue League once figured in a double play that resulted in a muskrat being carted to the zoo after it was interrupted during a downtown window-shipping tour.

Dr. Mann says the zoo will accept just about anything in the animal, bird and reptile line as a gift. "My motto is 'N.R.A.—Never refuse anything'—but he's choosy about 'deposits'."

Deposits, in zoo lingo, are creatures left temporarily in the zoo's care by their owners. The zoo will accept them—and even feed them for free—if they are "useful for exhibition."

Carnival people sometimes park an odd leopard or two during the off-season. People who have to leave home for extended periods are sometimes allowed to leave parrots or pet turtles. Once a Congressman, Rep. Carl T. Curtis of Nebraska, left a domestic rabbit.

"But we can't take in everything," says Dr. Mann firmly. "Otherwise, we'd be running a regular boarding house."

He more or less automatically rules out ordinary monkeys, which are a dime a dozen around the zoo. Domestic dogs and cats? Nothing doing.

"I'm thumbs down on cats," says the doctor. "I believe they can carry virus of gastroenteritis (A stomach ailment) although they are somewhat resistant to it themselves. A baby tiger and a puma died out here from that disease."

and I'll always contend they picked up the infection from people whose cats at home had brushed against their clothes."

Sometimes, depositors and even outright donors leave elaborate instructions about diets.

"Once," grinned Mann, "a nice lady left a linkajou and told me the animal was accustomed to having a maraschino cherry every Sunday with its dinner. I told her my governmental appropriation didn't cover maraschino cherries but that I'd see if I could take care of the matter out of my refrigerator at home."

Creatures given as outright gifts have all kinds of histories.

There's a "bleeding heart dove," presented by monks of the Franciscan monastery here.

Midland Gets Ready For Its Annual Rodeo

MIDLAND, May 4.—Again it is rodeo time in West Texas, and Midland is getting set for staging the greatest show in its history—the 18th annual world championship Midland rodeo, scheduled for May 31st, June 1, 2, 3, 4.

Clarence Scharbauer, Jr., president of the Midland Fair, Inc., sponsor of the event, said the 1950 rodeo will feature the roughest and toughest stock available, along with outstanding special attractions. Top cowboys and cowgirls of the world will be on hand to compete for the purses and prizes offered in the rodeo events. Everett Colborn of Dublin, Texas, will furnish the stock and will serve as the arena director.

The Midland rodeo, approved by the Rodeo Cowboy's Association, will open with a gigantic parade on the opening day, May 31. Night shows only will be held Wednesday through Sunday.

Attendance at the 1949 rodeo exceeded the 20,000 mark and indications this year point to record attendance figures. It is West Texas' "biggest and best" rodeo, and spectators from over the Southwest each year flock to the area's big entertainment event here.

Mexico Expects Big Boost In Wheat Crop

MEXICO CITY, May 4. (U)—Mexico expects to boost her 1950 wheat crop to 250,000 metric tons, still 200,000 tons short of what she eats.

Secretary of Agriculture Nazario Ortiz Garza told delegates to the National Grain, Cereal, and Food Products Congress yesterday that the current crop will be 50,000 tons over last year's.

GOHAMITES CHANGES THEIR TUNE, ASK RAINMAKER TO TAKE IT EASY

NEW YORK, May 4. (U)—Personal Dr. Wallace E. Howell, chief rain-maker, New York City:

Take it easy, will you, doc?

In one form or another, this plea went up from baseball fans, golfers, rheumatism-sufferers and a number of other citizens who would like to see the sun again.

It may be just coincidence but: Last March 14, when the city hired Harvard's Howell to try his hand at artificial rain-making, everybody was moaning about the water shortage. New York was being called "Bahara on the subway."

Last March 14, when the city hired Harvard's Howell to try his hand at artificial rain-making, everybody was moaning about the water shortage. New York was being called "Bahara on the subway."

Six weeks later the shortage isn't over, but hardly a day has gone by that New York hasn't had rain, snow, sleet, fog or all of them in combination.

Last week end the Giants and Dodgers were rained out — not for the first time.

Yesterday the publicity-minded management of Palisades Amusement Park, across the Hudson River in New Jersey, offered to double Howell's \$100-a-day salary—if he'd stop raining.

"Perhaps science can develop something that would eliminate clouds," wired the owners, whose usual crowds have been staying home out of the rain.

The New York Post interviewed

citizens at random, found the verdict four to one against rain-making.

"If this stinking weather we've been having is due to artificial means, may those responsible suffer pains and aches as bad as mine!" said a writer to the Daily News.

Howell has tried eight times to make rain, usually by "seeding" the clouds with sodium iodide. Rain has fallen each time but Howell declines to take credit — or blame. He says it's much too early to tell whether his efforts helped nature along.

But we never will know how that Giants-Dodgers game would have come out if it hadn't rained last Sunday.

Drunk Motorists Will Get Chance To See Selves

AMARILLO, May 4. (U)—Motorists who are seen driving drunk will soon be seeing themselves in the movies.

Potter County commissioners have decided to buy two movie cameras so officers can take pictures when making arrests of drunken drivers.

Judge Gene Jordan opined the movies will reduce the number of innocence pleas.

"When the old boy knows we've got a picture of him on the spot showing him drunk," the judge commented, "he'll be more inclined to enter a plea of guilty."

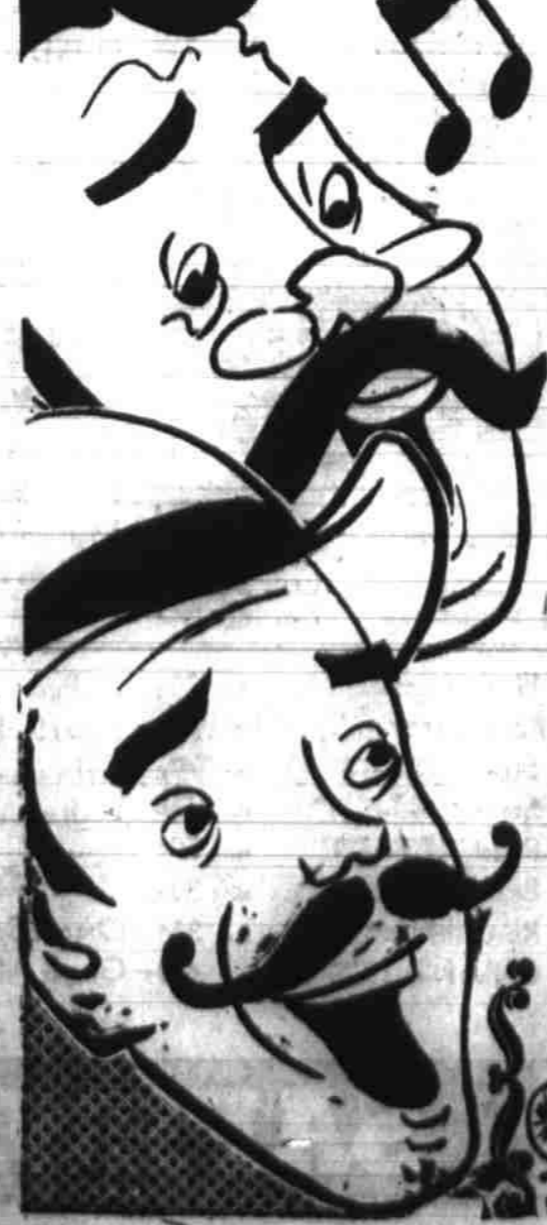

Farm Demonstration

Farmers in West Texas are being invited to a demonstration of deep breaking, subsoiling and chiseling Saturday. There will be demonstrations of 26-inch deep breaking as well as the other practices on the Zeryl T. Young farm at

West Texas Gypsum Supply Unlimited

By William C. BARNARD, Associated Press Staff
A rich vein of gypsum runs up through West Texas into Oklahoma and Kansas.
On this vein there are combination gypsum mines and plants at Sweetwater, Rotan, Hamlin and Acme, in Texas; at Southard, Okla., and at Medicine Lodge and Blue Rapids in Kansas.
At Acme, near Quanah, Gypsum has been produced since 1893. At first there was only a deep quarry. A mine was started in 1917 and the Certain-teed Products Corp. bought it in 1921. Now there's a \$3,500,000 plant with 185 employees, including 15 miners.
The mine has produced a million tons of gypsum in the past six years.
"How long will the supply last?" was asked H. J. Zelms, the tall, quiet-voiced manager of the plant, a man who has been in the gypsum business 32 years.
"The supply is unlimited," he replied.
Forty-five feet underground, the mine has about two miles of passageways and rooms. The rooms are 12 feet high and 35-feet wide and some are half a mile long. Overhead, farmers plow and cotton grows.
Gypsum is found in every state in the union but some of it is too deep to mine. It is a soft rock. From it are made a great variety of plasters—such as wall plasters, molding plasters, plasters for polishing marble and even the plasters which are used in molding dentures in dental laboratories. Crushed gypsum goes to cement plants for use in manufacturing cement.
But the biggest product at the Acme plant is wall board—it produces 100 million square feet of wall board a year.
"How do 15 miners supply enough gypsum to keep this plant busy, Mr. Zelms?"
"Mechanization does it. Until 1943, men worked with pick and

shovels. Now everything is diesel-electric. Loaders with a capacity of twenty-three tons are operated by one man. The loaders load the gypsum on rubber tired cars which haul the rock through the smaller passageways to the main tunnel to an electric locomotive and cars. The gypsum is then dumped into the cars and hauled out to the plant.
"Mechanized mining is safe mining, too. In 1947 we had the best safety record of any non-metallic mine in the United States."
"Living out in the country like this, do many of your employees take the opportunity to operate small-scale farms on the side, Mr. Zelms?"
"Only a very few. A farm means security, but plant workers these days feel their unions and unemployment insurance are security enough."

Water Consumption Slightly Higher Than Year Ago

Water consumption this spring has been slightly higher than at the same time a year ago, City Manager H. W. Whitney indicated today.
Big Spring residents used a total of 81,029,000 gallons during April, 1950, as compared to 68,116,000 for the same month in 1949. A total of 74,625,000 gallons were metered in March.
Increase over a year ago is probably due to the smaller amount of rainfall received here this year, Whitney said. Supporting his opinion is the 93,403,000 gallons total used in April 1948, also a comparatively dry year.
Big Springers have used approximately 2,000,000 gallons daily for the first three days of May. This is considerably lower than the 2,600,000 average daily consumption during April. Decrease was probably due to the showers that fell late last week the city manager said.

Passion Play Draws Ticket Requests From Red Countries

QBERAMMERGAU, Germany, May 4 (AP)—The revival of the world's most famous Passion Play is drawing ticket requests from behind the Iron Curtain as well as from the western world.
Officials of Oberammergau's centuries-old production—to be held this year for the first time since World War II—reported bids for reservations had come from Poland and Czechoslovakia.
The first public performance will be May 21.

Woman Killed When Trailer Hits Car

ASPERMONT, May 4 (AP)—Mrs. Sam Cochran, 35, was killed yesterday when the car she was driving and a trailer collided.
The trailer became detached from a pickup truck driven by Leonard Graham, 46, of Asper-

Young Man Shot On Denison Street

DENISON, May 4 (AP)—Dale Jackson, about 30, was shot twice on Main St. here in the center of the business district early today.
Hospital attendants said the youth was not expected to live.
A 39-year-old man surrendered to Grayson County authorities at Sherman a short while after the shooting.
Denison police said Jackson named an alleged Denison bootlegger as his attacker. Jackson told police the man was sitting in a parked car when he fired the shots. Jackson said he was a former employee of the man.

Lurline Sailing Delayed By Protest

SAN PEDRO, May 4 (AP)—Sailing of the Lurline for Honolulu was delayed for an hour and a half last night when the steward went ashore in protest over replacement of a stewardess.
A truce was finally reached and the ship sailed without a stewardess after the Marine Navigation Co. and the CIO Marine Cooks and Stewards union agreed in San Francisco to refer the matter to a grievance committee.

Diamond Shoals, off the coast of North Carolina, is called the "graveyard of the Atlantic" by sailors.

U. S., Mexico OK Recruiting Plans

MEXICO CITY, May 4 (AP)—A conference between Mexican and U. S. officials ended in agreement on charges in recruiting Mexican farm laborers.
The talks ended yesterday. However, the changes must be approved by both governments before they are effective.
Representatives of the two countries said the changes would principally speed and simplify the handling of requests for farm workers. Present procedure takes two to three weeks.

Explosion Kills

CATANIA, Sicily, May 4 (AP)—A deposit of heavy caliber aerial bombs exploded with a tremendous roar near Catania today, killing at least 14 persons.

DISMISSES DEMANDS MacArthur Rebukes Soviet Impertinence

TOKYO, May 4 (AP)—Gen. MacArthur today rebuked as "provocative impertinence" a Russian claim that maintenance of American military bases in Japan violates allied occupation policies.
In a sharp 250 words the supreme commander dismissed yesterday's demand by Lt. Gen. Kuzma Derevyanko for an explanation of the "reconstruction of the former Japanese naval and air bases" in Japan and Okinawa.
MacArthur told the top Russian representative in Japan that Okinawa does not come under international control. He continued:
"The United States Government is entirely free to take such military measures therein as it may deem advisable. Your inquiry concerning this matter is therefore a presumption without the slightest excuse of validity."
MacArthur told Derevyanko that "your professed anxiety with reference to Japan proper, which is subject to limited international supervision, is quite groundless."
The allied commander went on to say the demilitarization ordered by the far eastern commission has been accomplished, and he added: "As for bases and installations

for the forging of occupation, both American and British, they are—and will continue to be so long as occupation lasts—maintained in a condition of such adequacy and preparedness as will insure the fullest security, operational efficiency, and most complete readiness for any eventuality."
He bluntly informed the Russian that military details about Japanese bases "are matters which concern only their commanders."
MacArthur said the future of these bases can be determined only by a Japanese peace treaty.

Making major adjustments to the urges of life is the key to successful living, Dr. N. G. Randolph Longview, told the Lions club Wednesday.

New Born Quads Doing Nicely

SLEEPY EYE, Minn., May 4. (U-P)—Quadruplets born to a Minnesota farm wife—the first 20 minutes after she reached a hospital here yesterday—were "doing nicely" in incubators today.

After 122 Years, Girl Into Family

BOYNTON, Okla., May 4. (U-P)—A girl has been born into the Kirby family—and it's the first time in 122 years.

Gingham Glamour

A deep shawl collar magnifies the charm of face and neck. A bit of crisp organdy and flow-ers brings still more blandish-ment. So much new glamour for gingham! Not to mention the entrancing full skirt. In superb Galey & Lord black and white checked gingham.
