gallons of liquefied petroleum gas in other trucks, Petrolane Gas Service of Long Beach, California, can now deliver 3,500 gallons a day! That's 7 days a week usually, over back trails and up into high rock country with maximum GVW loads. And with Chevy's Torsion-Spring Ride paving every foot of the way! "You don't get any more jolting on washboard roads than you do in a passenger car, or any sidesway on curves," says driver Bernie Stone. "I used to take some rough roads at from 5 to 8 miles an hour. Now I can go 30 over them." Petrolane has over 200 Chevrolets hauling for them.

If you think we're excited about Chevy's independent front suspension, you ought to talk to the truck owners who are profiting by it. They'll tell you Chevy's torsionspring design is the hottest thing to hit the industry since trucks began. Drive one-that's the proof, short and sweet.

Diligently Pray For The Work of Your Church

This Series is Sponsored By the Business Firms and Individuals Listed On This Page, These Firms Along With the Ministers of Littlefield Hope That Each Weekly Message Will Be An Inspiration To Everyone.

This man ean see for many, many miles, but he's not up in the clouds; his feet are on the ground!

Contrary to what some people think, that's what the Church does for a man, too. Certainly it gives him a broader vision: it lifts up his eyes to see God and the eternal valnes of love, truth, justice and service which God inspires. It gives him a divine perspective from which to view his job, his family, his country - his life!

But the Church always keeps that man's feet on the ground! It accepts him for what he is - regardless of the clothes he wears or the job he holds. It looks evil in the face and sees it for what it is - a devilish cancer which only God can cure. It keeps a man squarely in this world while it lifts up his eyes to see another beyond the horizon.

And this is what the Church can do for you! It can give you greater vision. But it's not up in the clouds. it keeps your feet on the ground!
