Littlefield, Lamb County, Texas, August 21, 1924

No. 18

## RULING IS MADE BY OFFICIAL ON RIGHTS OF VOTERS

### POLL TAX FOR 1923 NOT NEEDED BY NEW SETTLERS OUT OF STATE

In as much as there has been a difference of opinion regarding the legality of voting among some of the new settlers of this section and of others who do not have poll tax receipts for last year, the following letter received this week from L. C. Sutton, assistant attorney general will be of general interest and instruction:

August 15, 1924.

Dear Sir: "I have yours of the 12th inst. addressed to Attorney General Keeling.

"It is a question of fact in each particular case as to whether a person has acquired a legal residence for the purpose of voting. It is a question controlled to a great extent by the parties themselves although the mere intention does not control the exclusion of the facts. If the voter made a substantial beginning in their removal to your county at a certain time and then carried out their intention within a reasonable time we believe that the benefit of the doubt should be resolved in favor of their right to vote.

"If a person moved to your county from a point outside of the state subsequent to January 1st, 1923, he was not subject to a poll tax for 1923 and therefore if otherwise qualified he would be permitted to vote without the payment of the 1923 poll tax."

Yours very truly,  
L. C. SUTTON, Assistant Attorney General.

## NEW HIGGINBOTHAM LUMBER YARD NEARING COMPLETION

The new Higginbotham-Bartlett lumber yard is now looming up like a million dollars. It is being completed this week, and an establishment that would do credit to Dallas, Fort Worth or some other seaport of the first magnitude. In consideration of the manner in which the H.-B. Co., are spreading out here it is clearly evident they are anticipating a great big Littlefield, for this yard is one of the largest on the south plains.

The buildings cover an entire block on the southwest corner, facing towards Main street is the new office building 24x28, which is this week being furnished throughout on the inside with sheetrock. There follows a 100 foot lumber shed, three stories high. On the opposite side there is another big lumber shed 190 feet long, while the whole yard is enclosed with a high paling fence and sliding gates for the traffic.

Manager B. D. Cogdill is planning a little park and flower garden in the triangle spot in front of the office, which will be protected by concrete curbing, and become a little beauty spot for that part of the city.

## SPRING LAKE GETS READY FOR CO. FAIR

The Ladies Home Demonstration Club, of Spring Lake, met at the home of J. L. Henson, Friday, Aug. 5. Eight members answered to roll call and ten visitors were present. During the business meeting the County Fair was discussed and Mrs. G. R. Linville appointed director of the club's exhibits for the fair.

Miss Burkhalter then gave a demonstration of the pressure cooker. A delicious lunch, of chicken, green beans and potatoes, with bread and butter, was served to the ladies.

As a result of this demonstration, a pressure cooker was sold and others contemplated.

## RETAIL DRUGGISTS TO MEET IN LUBBOCK 16TH

Lubbock is to be the host to the West Texas Retail Druggists Association, September 16-17, and it is anticipated there will be about 150 medicine dispensers from all over the country present.

The program covering a two days session of interest to the delegates, is now in progress of preparation.

The Leader for printing.

## ORPHAN HOME OFFICER IS HERE AFTER CONTRIBUTIONS

President H. H. Halsell, of the West Texas Orphans Home was in Littlefield last week soliciting contributions for the erection of the home building in Littlefield. Glancing over the subscription cards it was found that Littlefielders had contributed very liberally toward this worthy institution.

Mr. Halsell stated that to date more than \$11,000 had been subscribed toward the building of the home, of which amount nearly \$6,000 had been paid in.

## DID YOU KNOW---

That Texas produced 965,000 more bales of cotton in 1923 than in 1922, and that the exports to foreign countries increased more than 954,000 bales.

That the value of the American cotton crop including the seed, was \$1,895,143,000 in 1923 against \$1,574,299,839 in 1922?

That exports of cotton to foreign ports was 5,804,534 bales as against 4,850,795 bales in 1922?

That American mills during the cotton year, exclusive of foreign cotton, consumed 5,813,000 bales as against nearly 7,000,000 bales of the preceding year.

That 10 new cotton mills in the south are in operation with 63,160 spindles and 14 are in course of construction with 5,190 looms and 312,653 spindles?

That the New Orleans cotton sharps place the cotton carryover at 254,000 less bales than last year after a world consumption of American cotton of 11,242,000 bales?

That it is unlikely competition from new cotton areas in foreign countries will be a serious factor in the world cotton trade in the immediate future?

That Australia has shown a large increase in cotton production during the last few years, but the total is only a few thousand bales?

That Egypt has a cotton area of less than 1,000,000 acres, and that the only way to produce cotton in the Sudan is to irrigate the land which would rob Upper and Lower Egypt of their annual supply for irrigation purposes?

More negroes migrated north from Florida during 1923 than from any other Southern state.

The American flag is the second oldest flag in use on earth today.

## LITTLEFIELD GOES AHEAD WITH GIGANTIC STRIDES

That Littlefield is in a fair way to lunge forward in big strides of seven league boot is evident by the visions expressed by leading citizens during the past week.

Last Saturday the newly elected set of first officers, consisting of Mayor B. L. Cogdill and Commissioners A. L. Crockett and J. M. Stokes received the oath of office from County Judge R. C. Hopping. They immediately filed bonds in the sum of \$3,000 each and entered upon their duties.

The first official action of the new administration was the appointment of Max L. McClure as City Manager. Mr. McClure has made a special study of city managerial business for several years, and has had considerable experience in this line of work, and the administration consider themselves indeed fortunate in securing the services of Mr. McClure at this time, when so much of the future of the city depends upon the efficiency of its first set of officers.

Mr. McClure's first official duty was to recommend to the city council the closing of a contract with R. E. McCaskill of Eleetra, Texas to install an electric light plant in the city of Littlefield, and this contract was duly accepted.

## THE WHITE FACE CAMP READY FOR SETTLERS

The Slaughter-DeLoache interests are rapidly getting the White Face Camp in readiness to receive prospective buyers.

This land comprises some 13,000 acres and is located about 28 miles southwest of Littlefield. Contractor H. W. Wilder is this week putting up a camp house nearly 100 feet long for the accommodation of the prospectives who have already begun coming to see this land.

## GOES TO MARKET

G. M. Shaw, accompanied by Mrs. Shaw and Mrs. W. G. Street will leave Friday for Dallas, Kansas City and St. Louis markets to buy goods for their establishment.

Mrs. Street is putting in a large millinery department in the Lamb county Mercantile Store.

Mr. Saw states their fall stock will be much larger and better than ever before.

Be proud of your home town.

Mr. McCaskill is an electrical engineer by trade, and has stated to a Leader representative that he had several offers of much larger towns to install electric light plants, but that he had passed them all by for Littlefield, because he firmly believed this town had before it the best future of any new town on the South Plains.

The contract which the city made with Mr. McCaskill calls for a full city lighting service of 400 watts for every 100 population. This will mean at once about 12,250 watt street lights placed at street intersections between the Roger Q. Mills highway and the city park.

Mr. McCaskill was granted a franchise for 20 years of electrical service with the customary protection from competition.

Mr. McCaskill will begin the construction of the plant within the next thirty days, and expects to be ready for electrical service before the first of December.

The City Council has retained attorney E. S. Rowe to draft the articles of incorporation and assist in drawing up the preliminary ordinances.

## PLAINVIEW TO HAVE RACES AND RODEO DURING MONTH

A three day rodeo and horse racing will be staged in Plainview August 21, 22 and 23 with prizes of \$1,500 in cash expected to attract much high class talent. Sargeant and Wilson, a Plainview firm, are in general charge of the event. The track has been prepared on a forty acre tract only a short distance from the Plainview business section and a large grandstand has been constructed near it. Many horses are now in Plainview for the races and cowboys from all parts of the southwest are expected to take part in the rodeo contests.

## OLTON SCHOOLS TO HAVE INCREASED BUILDINGS THIS YR.

### HAS MODEL ECONOMIC HOME FURTHER AFFILIATION TO BE ASKED OF THE STATE

Preparation for the opening of the Olton high school is progressing rapidly. Everything will be in shape by the date of opening, Sept. 8th. The home economics building, a modern bungalow, has been completed. This is a building to represent as nearly as possible a modern home and at the same time serve for teaching purposes. As far as we know Olton is the first town on the Plains to erect a building of this type. It will be used for the teaching of sewing, cooking, designing, household management and home nursing.

Vocational agriculture will be housed in a new building also.

In connection with this course the boys are given practical shop work, such as mending tools, harness etc.

The Olton school has 14 units of affiliation with the department of Education. Additional credits will be asked for this year. It is the purpose of the trustees and those in charge of the school, and the whole community is back of the enterprise, to make the Olton school second to none on the Plains.

Following are the teachers for the term 1924-25:

H. P. Webb, Superintendent; L. B. McFarland, Principal; R. L. Hunt, Agriculture; Miss Rosalie Bragg, Home Economics; Miss Odessa Howell, English.

### Grades

Miss Elsie Osborne, First and Low Second; Miss Agnes Bier, High School and Third; Miss Carrie Bier, Fourth and Low Fifth and Public School Music; Miss Mary Kiser, High Fifth and Sixth; Miss Lola D. Bell, Music.

### Ward No. 1

S. O. Summer, Principal; Mrs. S. O. Summer, Elementary.

## MISS HUFF WILL TEACH AT SCHOOL BUILDING

Miss Margaret Huff is here this week making arrangements for a class in voice and piano for the coming year.

Miss Huff is a graduate of the American Conservatory of Music, Chicago, and has had extensive training in both France and Italy. For two years she was connected with the British Colonization Schools at Cairo, Egypt, and during the past two years has been musical instructor in the public schools at Lubbock. She has been granted permission by the local School Board to use the school studio for her music classes.

## YORK BROS. ENTER BUSINESS IN GARAGE

Jess and "Shorty" York, having leased the mechanical department of the City Garage, are starting out in business for themselves.

These young men have been in Littlefield long enough for the public to know they are strictly first class mechanics, and they no doubt will receive a good patronage in their chosen line.

A new petrified forest has been discovered in the Mojave Desert in California.

When you know any news of interest, tell the editor, so it can be passed on to others.

## LADIES OF OLTON BUY A CANNER AND PREPARE FOR FAIR

### WILL ENTER DRESSMAKING CONTEST WITH OTHER CLUBS OF THE COUNTY

The ladies of the Woman's Home Demonstration Club had a canning demonstration at the school building Wednesday afternoon of last week, about 25 ladies being present, one hundred and fifty cans were filled and processed in less than three hours the products used being corn, peas, beans, and cucumbers.

Miss Burkhalter was present and gave instructions on the methods of canning and the use of the steam pressure method. The ladies used the stoves, vessels, tables and etc., of the home economics dept., of the school.

Mr. Hunt, vocational agriculture instructor was present and assisted the ladies as fireman, water carrier, time keeper, and general roustabout, we thank Mr. Hunt for his assistance.

The Club has purchased a steam pressure canner and sealer, and 1000 cans, and will continue the Club canning days.

The ladies are also entering the dressmaking contest and will be ready to compete with the other clubs of the county, at the fair. The next regular meeting of the club will be held Friday afternoon, Aug 22nd, at 3 o'clock at the school building.

## PROMINENT YOUNG FOLKS OF OLTON ARE WEDDED

Margaret Bernadine Owen and Mr. Paul Burrus were united in marriage at the brides home in Olton Sunday, August 10th, Rev. G. I. Brittain of Plainview, officiating using the ring ceremony.

The bride and her maid of honor, Miss Lily Maye Anderson, with the groom and best man, Mr. Sam Miller, entered the bridal parlor and advanced to the improvised altar to the strains of Mendelssohn's wedding march, played by Mrs. Buna Dodson, who also played "Humoresque" softly during the ceremony.

The bride wore a gown of white silk crepe de chine with ribbon trimmings. A touch of sentiment was expressed by the fact that she also wore her grandmother's wedding slippers, which were 44 years old, grandmother having worn them when she became the bride of F. F. Farrar on Feb. 25, 1880. The slippers are of white kid, white bows of the same material and Baby Louis heels. The bride's maid's dress was of white organdie with lace trimmings. The bride is the eldest daughter of Mr. and Mrs. C. M. Owen, and was born and reared near Palmer, Texas. The groom is the youngest son of Mr. and Mrs. E. N. Burrus, pioneer citizens of Lamb County. The happy couple left Monday for Colorado Springs and other points of interest in Colorado and New Mexico and upon their return will be at home to their many friends at Olton.

## BILL BOOSTER SAYS

"GOOD BRASS BAND PEP UP A TOWN! IT DEVELOPS AN APPRECIATION OF MUSIC! IT RAISES THE MORALE OF THE PEOPLE! THE CONCERTS BRING CROWDS TO THE TOWN! THE TOWN THAT BOASTS OF A BAND SHOULD SUPPORT IT LIBERALLY! THE TOWN WITHOUT ONE SHOULD ENCOURAGE ITS MUSICIANS TO GET TOGETHER!"

Carbon paper at the Leader office.

## LAMB COUNTY LEADER

Published every Thursday afternoon at Littlefield, Texas. Subscription: \$1.50 per year; 75 cents for six months. Advertising rates given upon application.

No. 27. Entered as second-class matter May 24, 1923, at the post office at Littlefield, Texas, under the Act of March 3, 1879.

JESS. MITCHELL, Editor and Publisher

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on but one side of the paper, and must reach this office not later than Thursday noon of each week. The right of revision or rejection is reserved by the publisher. Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed. Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate. Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

A friend in need is a friend gone to seed.

Opportunity doesn't knock around with other knockers.

To forgive and forget is fine, to give and forget is finer.

Some men are well to do because they are hard to "do."

Some wives' motto: "If at first you don't succeed, cry, cry again."

After all, growing up in a new country is largely a matter of just settling down.

After the deluge of votes next Saturday, Salt River will again become navigable.

Freedom of speech now days, reduced to its simplest terms, is mostly one argument after another.

Now days the age of discretion has been moved up to 60 or 70 years of age.

The fellows who become disappointed in the election next Saturday will have their eyes open to how many fools there really are.

It may be alright for a fellow to carry a chip on his shoulder if it is one worth knocking off. Most of them are not.

Use your perpetual talker for the benefit of the Lamb County Fair. It is a worthy institution and should receive your daily backing until time to pull it off.

Sunday morning some of the voters may have the consolation of feeling they picked the best man, even if the other damphools couldn't see it that way.

Mars will be closer to mother earth the latter part of this month than for the past 100 years, and astrologists plan to determine, if possible, if that planet is inhabited. But just now we are more interested in the inhabiting of Lamb County and the fine cotton and feed crops the new inhabitants are growing.

Should Use Windows. There is nothing that makes a business concern more attractive to street passers as a well dressed show window, and it brings some of the very best kind of advertising returns.

Goods of various kinds attractively displayed in show windows are very often sold without the need of clerk hire. It also shows pride of the merchant, and adds to the general appearance of the town.

There is no reason why Littlefield should not take advantage of everything to make her attractive.

Just a Suggestion. Now that the city council has set its own salary at the magnificent (?) sum of \$1.00 per year each, the Leader would like to suggest that it would be in perfect line with their laudable motives to inaugurate a big annual municipal picnic at the end of each fiscal year, when all the citizens of the City of Littlefield and surrounding communities would come together in a big speaking and barbecue. Let the City furnish the eats and each city official be given the opportunity of making a speech and donating back to the city his WHOLE years salary. It would be a novel stunt, to say the least. Everyone attending would have a good time, and, incidentally, the city would receive considerable publicity from the event.

Another Suggestion. No doubt the City Fathers are already scratching their heads (figuratively speaking, of course,) as to the most needed measures to be inaugurated in Littlefield. The Leader has not been called in as an advisor in the matter, and it never presumes to dictate, but it would suggest that

a fire restriction building district, extending from the State highway on both sides of Main street to the park, is one of the most important matters that could receive their attention.

An eight foot sidewalk up each side of Main street from the Grand Central Station to Duggan Municipal Park would also make a wonderful fine appearance for the new City. Also, hire a dog catcher, and get rid of some of the worthless curs in town. Selah!

Service vs. Salary. Some of the local citizens who were worrying themselves half crazy for fear the first city administration might set their salaries at about \$1200 per year each, may now calm their pulses. According to their own suggestion they will each draw the magnificent sum of \$1.00 each per year. This is a fine example of patriotism, for which the Leader heartily commends them. It is only another evidence of the fact that the majority vote of last week went to men who have at heart the very best interest of our little city. No doubt they will be just as loyal in their services to the city as if they drew a presidential salary. It is indeed a fine thing to come in contact with men once in a while who gladly put service ahead of salary; this they have done.

## Receipts

Recommended by the Home Demonstration Agent

CORN RELISH. 9 ears of corn, medium size, 1 head of cabbage, small, three red peppers, sweet; 3 green peppers, sweet; 2 white onions, medium size; 1 quart vinegar; 1 cup sugar; 1 1-2 teaspoons mustard; 1 teaspoon salt; 1-4 teaspoon tumeric. Shuck and silk the corn, place in a wire basket or a piece of cheesecloth and dip in boiling water 2 or 3 minutes. Remove and dip at once into cold water, remove immediately and cut the grains from the cob, chop the other ingredients; do not grind them. Combine all the ingredients and cook the mixture until the vegetables are tender (20 or 30 minutes.) Seal it in clean, hot jars.

PEPPER RELISH. 12 red peppers, 12 green peppers, 12 onions, 1 pint vinegar, 2 cups sugar, three teaspoons salt. Chop the peppers and the onions, cover them with boiling water and let them stand 5 minutes, drain off liquid, add the vinegar, sugar and salt, and boil the mixture for 5 minutes. Pour it into scalded hot jars and seal.

Spiced Green Tomatoes. 5 pounds small green tomatoes, or large tomatoes sliced medium thick, 3 pounds white sugar, 1 pint vinegar, 1 tablespoon stick cinnamon, 1 teaspoon whole cloves, 1 teaspoon white mustard seed. Wash the tomatoes but don't peel them. If small tomatoes are used prick them slightly. Combine the sugar, vinegar and spices; bring the mixture to boiling point and pour it over the tomatoes. Let them stand for several hours or overnight, drain off the liquid and cook it until it coats a spoon. Add the tomatoes and cook them until they are clear. Seal them in clean hot jars.

WATERMELON RIND PICKLE. Cut the rind in pieces 1-2 by 1-2 inch. Soak two pounds of watermelon rind overnight in salt water (1-4 cup salt to quart water.) Drain off the brine. Cook the rind in clear water until it is tender. Add the rind to the hot pickling solution made of the following ingredients, and boil it rapidly until it becomes clear. Seal it in clean hot jars.

2 pounds sugar, 1 pint water, 1 pint vinegar, 1 lemon sliced thin, 1 tablespoon cinnamon, 1 teaspoon cloves, 1 teaspoon allspice.

### EMERGENCY PICKLES

1 pint carrots, cooked and cut into strips; 1 red pepper, sliced in strips; 1 green pepper cut into strips; 3 medium sized onions sliced; 1 cup string beans, whole; 3-4 cups sugar; 1 cup vinegar; 1-2 teaspoon paprika; 1 1-2 teaspoon salt; 1-4 teaspoon tumeric.

Combine the ingredients and cook until it is clear. Seal in clean hot jars.

### MIXED PICKLES

3 large heads of cabbage; 1 qt. of vinegar; 2 popunds of sugar (or 4 cups); 1-2 ounce each of cloves, cinnamon, allspice and mace; 1 peck of green tomatoes; 1 dozen medium sized onions; 2 doz. cucumbers; 1 doz. green peppers.

chop material into 1 inch pieces, mix all together and put in alternate layers of the mixture and salt. Let it stand over night, then squeeze dry and cover with cold vinegar, let it stand 12 to 24 hours and squeeze as before.

Mix vinegar with sugar and spices boil for 5 minutes and pour over the chopped vegetables, allow to stand for several hours, pack in jars, garnish with strips of red pepper, process in hot water for 60 minutes and seal, or boil pickles and solution until pickles are tender and pack into well sterilized jars and seal.

### DIXIE RELISH

1 quart chopped cabbage, 1 pint chopped white onions, 1 pint chopped sweet red peppers, 1 pint chopped sweet green peppers, 4 tablespoons salt, 1 tablespoon mustard seed, 2 tablespoons celery seed (crushed), 1-4 cup sugar, 1 quart cider vinegar.

Soak the pepper in brine (1 cup of salt to 1 gallon water) for 24 hours, freshen in clear, cold water for one or two hours, drain well, remove seeds and coarse white sections, chop separately, and measure the chopped cabbage, peppers and onions before mixing, add spices and sugar and vinegar, let stand over night covered in a crock or enameled vessel. Pack in small sterilized jars.

When ready to pack, drain the vinegar off the relish in order that the jars may be well packed. Pack the relish in jars pressing it carefully; then pour it over the vinegar which was drained off; paddle the jar thoroughly to get every bubble out, and allow the vinegar to displace all air spaces; garnish each jar with two slender strips of red pepper; place these strips vertically on the seams in the jar on opposite sides; put on rubber, cap and clamp and process for 15 minutes in water bath (simmering on 180 degrees fahrenheit.

Note: all measurements are level the spoon cup or other measure has been struck off by the did of a spaula or knife level with the edges of the container.

Table of abbreviations and measurement: Teaspoon—tsp; or t. Tablespoon—Tbsp; or T. Cup—C. Quart—qt. Pint—pt. Saltspoon—ss. 1 Cup equals 16 Tbsp. 1 Tbsp equals 3 tsp.

### To the Voters of Lamb County

On the eve of the run-off primary election, I wish to solicit your support for the office of sheriff of Lamb County. I pledge myself, if elected, to devote my entire time to the duties of the office, to strict and impartial enforcement of all laws, to a conscientious effort to make the county clean, safe and a desirable place in which to live, for all people. I have had several years experience as peace officer and am familiar with

the duties incumbent on a sheriff. I can assure all the voters of efficient work in the sheriff's office should they honor me by electing me there-to. I have no favorites to cater to nor no enemies to harass. I want your votes and will assure you of my appreciation. Hoping you will remember me next Saturday,

I am, yours sincerely,

(Pol. Adv.) Hugh J. Carter.

**NOTICE OF BIDS**

For depository of School Funds of Sudan Independent School district, Sudan, Lamb County, Texas.

Notice is hereby given that the Trustees of the Sudan Independent School District, Lamb County, Texas will receive bids up and to twelve o'clock, August 30th, 1924, for depository of the funds of said school district.

The Trustees reserve the right to reject any and all bids.

W. W. CARPENTER, President,  
P. E. BOESEN, Secretary  
8-21-28-2tc

**FARMERS NOW OWN RANCH**

The original Sudan Farm Lands, including some 36,000 acres owned by Wilson, Furneaux & Temple, of Dallas, are about all in the hands of farmers. A few scattered tracts are fast being bought up and some of the original farms are being sold by the owners at prices ranging from \$45 to \$55 per acre.

Just another year or two of like showing in crops as are produced this year and all near-in lands will be changing hands at double the present prices. Lamb County is coming into her own fast.

**SUDAN SECTION**

**MANY BUYERS COMING**

Never within the experience of the writer, which includes some twenty-two years on the plains, have there been as many actual home seekers rushed over the country. From forty to fifty a day is the average in Sudan country. They come from every section of Texas, and many from Oklahoma and far off Louisiana and Alabama. Our wonderful crops attract them all and while not all of them are buyers, a large per cent invest in good land before they return to their homes.

Within the next ninety days, if we are to judge from the expressions of those who come and go, those who write and those who send word by friends and neighbors, there will not be an acre of unsold land in this community. And by community we mean all the land within a distance of twenty to thirty miles south and west of Sudan.

**SELLING BAR N**

P. E. Boesen, original colonizer of the Sudan country, and C. S. Brown, of Abilene, have contracted with W. B. Newsome and son, T. W. Newsome, of Dallas, to colonize the Bar N ranch now owned by the latter.

This tract of land includes 24,000 acres of fine catclaw land and is located eight miles southwest of Sudan, being a continuation of the Sudan Farm Lands.

The past week the greater part of one league of this land was sold to settlers and the agents say they will have all of it sold by Christmas.

Mr. Newsome has adopted the crop payment plan for the sale of this land after one cash payment is made, and this plan seems to attract men who have been renting land in other sections.

**NEW GIN NEARLY BUILT**

The new gin of the Dean Gin Co. is rapidly nearing completion and when done will be one of the largest and most complete plants in the country.

They will have storage capacity in their cotton house for 125 bales of seed cotton at one time. The plant will be run by steam and will have six 70-saw stands of the most improved type, together with the latest equipment in bolly machinery.

A neat bunk house has been completed for the hands and a new office building is being completed.

This together with the gin already here gives this firm one of the most up to date and complete plants to be found on the Plains.

**CROPS LOOKING FINE**

Sudan country has had more moisture than has been needed during all the present crop season. Many corn fields promise to yield fifty to sixty bushels per acre, cane 35 to 40 bushels per acre, maize 1-2 to 2 tons per acre, cotton one half bale to a full bale per acre, Sudan crops a thousand pounds to the acre, and all other crops in proportion.

According to the calculations of a local observer and careful calculator, Sudan crops will easily bring returns of a million dollars in cash this fall. Not bad for a country which boasted a population of five families five years ago.

**NEW REAL ESTATE OFFICE**

Nelson and Wells, of Amarillo, have established a real estate office in Sudan Hotel, and they have made a good beginning in selling out the Paul Brothers ranch, ten miles southwest of Sudan.

These gentlemen have themselves caught the fever of land buying and have recently purchased five tracts near Sudan, a section in Spring Lake country and several tracts near Muleshoe.

As experienced Panhandle landowners and traders they realize that prevailing prices on land making a showing of a half to a bale of cotton to the acre are plenty low to insure big profits in the near future.

**JAMES SELLING FAST**

John James one of our pioneer South Plains ranchmen has subdivided the four leagues of the Rocking Chair ranch, five miles south of Sudan, and sales to actual settlers is under way.

Mr. James is conducting his own sales campaign and reports from six to ten sales a day.

He expects to close out his entire tract within the next sixty to ninety days.

The Leader for Job Printing.

**BIG FARM ON MARKET**

Perry & Gra m, of Plainview, have undertaken the sale of the Big 4 ranch some thirty miles southwest of Sudan, and have established offices in Sudan Hotel. Their sales organization is being perfected and actual showing and selling of the land is to commence at once.

**A COMMUNITY SURPRISE**

Mr. Lonzo Wilcox and Miss Lula Tull slipped away from friends and went to Muleshoe Saturday morning where they were quietly married and returned to Sudan. We extend congratulations and wish them a long and prosperous journey.

**SCHOOL NEWS**

The people of Sudan are again enjoying a splendid school and community building, the school board having received it from the contractors a few days ago.

On last Feb. 9th when the people learned that they had really lost the greatest asset of the community, they were so dumfounded that it was several days before anyone ventured to suggest a move. But before hardly recovering from the blow, most every one began passing the word that the only thing to do was to build back equal to or better than the original building. As a result when an election was held to vote bonds to supplement the insurance, there was only three dissenting votes. Now the building is back and in many respects is better than it was before the fire, and it is being amply equipped for a school of the first class.

The faculty for next term consists of eight well trained and experienced teachers, every one of whom was in college during the last regular term or during the summer for professional improvement. The faculty and assignments are as follows:

O. T. Ryann, Supt., Vocational agriculture and mathematics; Miss Minnie Ruth Adams, Prin., home economics and mathematics; Jno. T. Duncan, high school and seventh grade history and boys coach; Miss Dixie Craver high school and seventh grade English and girl's coach; Benton Talbot, and Mrs. Jno. T. Duncan, fourth, fifth and sixth grades; Miss Willie Mae Moffett, second and third grades; Miss Ruby Thanam, first grade.

The faculty will be in institute at Lubbock during the first week in Sept. O. T. Ryan will attend a vocational conference at Austin during the last week in August.

The school will add the eleventh grade next year, and will apply for first class classification and thirteen and 1-2 units of affiliation. It is desired that everyone will cooperate to make the year's work merit as much credit as possible. Every credit that we fail to secure this year will be a serious handicap to those of our first graduation class who contemplate going to college next year.

The school board's planning to transport all the students from the remote parts of the district to school during this term. Two contracts have already been awarded to Mr. W. A. Long and Mr. E. Martin for this purpose.

School will be open Monday Sept. 8th. It is hoped that every patron will begin planning now to keep his children in school every day possible that they may make up as much lost time as possible that was lost last year due to the fire.

**COMPLETING EXCHANGE**

The new telephone exchange is about completed and the telephones will all probably be in within a few days and the long distance to Muleshoe completed.

This will give us some much needed service in this line.

**LOCAL HAPPENINGS**

The new Cafe owned by Mrs. King is now open for business and is a nice neat, up to date place, of which we were in very great need.

Watermelons are getting very plentiful and we expect to begin shipping in carload lots the latter part of the week. Sudan has some wonderful watermelon soil.

Mrs. J. R. Dean has recently returned from a trip to Oklahoma and Kansas points visiting relatives and friends. Mr. Dean has a smile that won't wear off.

Simon Hay our Commissioner from this precinct made a flying trip to Kansas City and return the past week. Simon says he might have paid return fare on two but there was so many he could not decide which one to bring. Ahem!—Editor.

Mr. and Mrs. Billie Winterrowd also report the arrival of another bouncing baby boy in Sudan. The stork favored them with a visit on July 21.

Rev. Burlesonn of the Church of Christ has been holding a protracted meeting for the past week, preaching to good crowds every night. The meeting closed Sunday.

The Methodist revival will start next Sunday the 25. We understand the pastor will start the meeting and the evangelist who will assist him will be here Tuesday following.

Mr. and Mrs. J. M. Carruth are away for a four weeks visit to points in Alabama and Texas. Mr. Lewis McNeely is helping in the store during Mr. Carruth's absence.

The Jones Bros. Oil Co., have recently bought out the oil station owned by Mrs. Crain. They will handle a complete line of oils we understand.

Mr. and Mrs. L. E. Slate have returned from an extended visit to Waco and other east Texas points. Mr. Slate reports crops in very poor condition in many places. While away they purchased a splendid new Buick sedan.

The plumber is this week making final connections of the oil tanks being put in by the Gulf Refining Co. This gives the Gulf people a very complete plant at this place and is quite an addition to the town, they having just completed a large new warehouse also.

Word has been received by friends from our genial cashier of the Sudan State Bank, Mr. C. S. Barron, that the stork left a lusty young cashier at his home on Friday of last week Mother and babe doing well and it is thought Clyde will recover. Congratulations, old man.

My Bonnie looked into the gas tank. To see what she could see; She lighted a match to assist her. Oh! bring back my Bonnie to me.

The new residence of F. Z. Payne, manager of the Higginbotham-Bartlett Co., is about completed and will soon be occupied by him. This is one of the nicest homes in town and Mr. Payne is to be congratulated.

**DAIRY FACTS**

**COWS ON PASTURE NEED SOME GRAIN**

The common practice of feeding no grain to dairy cows on early pasture is probably not good economy in the long run, in the opinion of workers in the field of animal feeding at Cornell University.

They point out that pasture grass is a strong stimulant to milk production, if no grain is fed the cows are likely to run down in flesh. This will lead to reduced milk production later on, when the pastures begin to dry up, and heavy feeding then will ordinarily not prevent this reduction. Cows of average production when they go on pasture should be fed at least one-half to one-half of the amount of grain they were receiving when in the barn.

But the grain mixture does not need such expensive high protein feeds as linseed oil, cottonseed meal or gluten feed as are given during the winter season. A mixture made up of equal parts of wheat bran, ground oats and hominy or corn meal would be suitable.

A grain mixture depends upon the kind of roughage with which it is to be fed. Pasture grass is a high protein feed and, furthermore, the proteins it contains are of the highest quality. So high protein feeds may be left out of the grain ration. Yet grass lacks fat or energy-producing nutrients. Except for this deficiency, it is an almost perfect feed for milk production.

In a ration made up of pasture grass and a grain mixture containing no high protein feeds, the protein content will always equal or exceed the amounts called for in feeding standards for cows producing up to sixty pounds of milk daily, as long as pasturage is plentiful, green and succulent. This statement applies only under these conditions. When pastures begin to dry up and get short during July and August the grass contains much less protein than earlier in the season. The grain mixture must then be changed to include some high protein feeds. In addition more grain must be fed to make up for the shortage in pasture.

**Best Plan to Grow Into a High-Producing Dairy**

"When good grade cows are selling from \$150 to \$200 per head, there is a tendency to buy cheap ones," says C. K. Finley, dairy expert of Iowa. Many men, he finds, get enthusiastic over the possibilities of dairying, sell their herds and replace them with cheap dairy cows whose only qualification for the name is the fact that they recently freshened or possess the color of one of the dairy breeds. The natural result is failure and a disgust for the dairy business.

Furthermore, there are many men who lack the necessary experience to make cows profitable should they succeed in buying good ones. Finley reports much more general success when farmers grow into a high-producing herd. This is accomplished by raising the daughters of a good pure bred bull or in buying a few choice heifers. No doubt individual cases warrant buying a few good pure bred cows for foundation animals.

The man who grows into the dairy business has an opportunity to reorganize his crop rotation and establish a legume crop so necessary for milk production. As a rule it is also necessary for him to improve his barn and put in a silo, all of which costs money and must be done as profits allow.

**Corn Fed to Live Stock**

More than 85 per cent of the United States corn crop is fed to live stock and somewhat less than 10 per cent is used for human food, according to recent data compiled by the United States Department of Agriculture. The hog is the largest consumer, 40 per cent being fed to swine on farms. Horses and cattle are next, using 20 and 15 per cent, respectively. The exports of corn, as grain, have never been large.

**Fergusonism Threatens to Swallow Texas**

For twenty-one years, I've worked and prayed, and paid my surplus earnings, against those things Jim Ferguson stands for. You ministers of Jesus Christ and a Christian mother taught me to do it. My Bible teaches me to do it.

It is not necessary to enumerate the thing Fergusonism stands for, suf-

ice it to say—THEY ARE AGAINST THE CHRISTIAN MINISTRY AND THE CHURCH OF JESUS CHRIST.

This letter is to appeal to you to sound the warning to your congregations at once, and urge men and women to rise in militant power against the dire evil that threatens us.

Before, with Jim, it was Anti-Prohibition. Now with him, it is Anti-Ku Klux, Anti-Protestantism, anti-Christ.

I know Judge Robertson personally. I beg you not to believe the campaign

lies being circulated against him. Even his honest ENEMIES say his life is above moral reproach.

Brethren, in the name of womanhood, decency, honesty, and in the name of our Lord and Savior, I appeal to you to save Texas from Fergusonism.

If Ku Klux is wrong, we can smash it later. If of God, it will live, but NOW, as I see it, we must keep Texas from being swallowed by Fergusonism.

Sincerely yours,  
H. C. GLENN

**A JUDGING CONTEST TO BE FAIR FEATURE AT AMARILLO SHOW**

A live stock and grain judging contest which will be open to boys from Texas, New Mexico, and Oklahoma is the latest feature planned for the Tri-State Exhibition, and may prove one of its big attractions.

Harmon Benton, county agricultural agent, who is head of the boys' department for the fair, is in charge of arrangements, and is sending the following letter out to county agents of the district which will be covered by the fair:

"Some of the county agents have suggested that we have a boys stock and grain judging contest, of club teams from Texas, Oklahoma and New Mexico, at the Tri-State Fair, which will be held in Amarillo, Texas September 22 to 28 inclusive. Personally, I think this is an important step in the right direction.

The Fair theatre management has agreed to furnish sleeping quarters, and give a three day's pass to each boy in the contest and a three day's

**To the Voters of Lamb County**

I am taking this last opportunity of presenting my candidacy to you.

Having lived in Lamb County for the past 25 years and having been a consistent Democrat all this time, I respectfully ask a fair consideration at the ballot box next Saturday, Aug. 23, and if you see fit to favor me I shall endeavor to the best of my ability to make a county judge for the entire county, and feel there is no man better qualified to do so.

I have travelled this county over as a boy and as a man until I know it like a book. I know the land value of nearly every acre in the county, and feel that in the appraisalment of land values my knowledge will be of great benefit to my constituents.

I regret that there is a certain secret political order that is doing its best to beat me, but to the members of that order I wish to say if I am elected and should they come before me, they shall have as fair a trial as any other citizen of the county, and just the same as tho they had not tried to defeat me.

Should you see fit to honor me by giving me the privilege of using the best part of my life as your County Judge, I assure you I shall use my best ability to be fair and square with all parts of the county, showing favor to no particular section, and shall feel that I owe you a debt of gratitude which I can never entirely pay.

Yours to serve,  
E. N. BURRUS  
(Paid Political Advertisement)

**Feeding Will Regulate Quantity of Milk Flow**

The question of the richness of the milk has received much attention by experiment stations in this country and in Europe, and the evidence is conclusive that the fat percentage of the milk cannot be changed permanently by any method of feeding. Certain experiments have shown that sudden changes in the ration, for example, greatly increasing the protein or oil content of the ration, may result in a small fat increase for a few days with some cows, with others no effect is produced. In any case the results are only temporary. No ration or method of feeding has been found by means of which a Shorthorn or Holstein can be made to give milk as rich as that of a Jersey or Guernsey.

However, the feed and management does not have a marked influence on the quantity of milk produced by the cow. The amount of milk a cow produces depends upon the ability of the cow to convert feed into milk and butterfat and upon the feed and care a cow receives. No cow can be made to produce milk above her capacity, no matter what kind of feed she gets nor how much.

**Calf Feed Important**

Experience has taught the importance of feeding the calf milk of uniform temperature from day to day. Best results are obtained when this temperature is kept between 80 and 100 degrees Fahrenheit. A young calf should not be fed milk that has started to sour. The pail should be thoroughly cleansed after each feeding in the winter time as well as during the summer season.

**Clipping for Cleaner Milk**

The production of clean milk is made easier by clipping the cow's udder and the tail from the switch up. This will prevent particles of dirt heavily infected with bacteria from dropping into the pail. Another practice that will aid in keeping the milk clean is washing the udder with a moist cloth and drying it thoroughly before starting to milk.

What a wonderful old world this would be if the men who think they know it all could only guess that

pass to each team manager. Also provide suitable prizes for the different contests, providing there is seemingly enough interest manifested in judging work to justify the time and expense.

"It is up to us county agents, if we are to have a Tri-State contest. What do you say?"

"Will you coach and bring a team to Amarillo for two days during the above dates?"

"Kindly advise the writer, just as soon as possible what you will do so that I may go ahead with plans; providing a sufficient number of you fellows will enter teams in such a contest."

"All of us know the advantage of a friendly contest of this kind.

"Please advise me at once what to expect. Full information will be furnished if interested."

Sam E. Skaggs and family, of Slaton were Sunday guests of Mr. and Mrs. D. E. Cox.

Mr. and Mrs. M. L. Morris and son, Cecil, of Post parents and brother respectively, of Mrs. B. L. Cogdill, are guests in the Cogdill home this week.

Fontaine Parker and R. C. Powers

returned Monday from Boulder, Colo., where they have been attending the summer term of Colorado University.

Miss Katherine Anderson, about a month ago went to California on a vacation, has become attached to the land of sunshine and poppies that she has decided to stay, and is taking up work as a certified accountant in the City of the Angels.

## Local News Items

F. A. Butler and family were Lubbock visitors Monday.

Mr. and Mrs. Ralph Parker are the happy parents of a baby girl born last Saturday.

Fred Noles Homer and Frank Newton, of Amarillo, are prospecting in Littlefield this week.

Lawrence Greshier and family, of Lubbock spent Sunday the guests of W. O. Burford and family.

Mr. O. D. Cardwell, of Post made a flying trip to Littlefield Wednesday on business.

D. T. Hunt of Blackwell is here this week looking after business interests and further investments.

Mr. and Mrs. W. M. Rosnagel, residing west of town, are the happy parents of twins, a boy and a girl, born Monday.

Miss Anne Douglass, after a two weeks vacation, has resumed her duties with the Lamb County Mercantile Co.

H. G. Dotson of Slaton and E. T. Lann, of Sweetwater were prospecting here this week. Mr. Lann while here rented the D. T. Hunt farm.

Mr. and Mrs. J. M. Blessing left Wednesday for a two weeks visit with friends and relatives in east and central Texas and southern Okla.

The infant child of Mr. and Mrs. W. O. Burford who was operated on last week at Lubbock for removal of tonsils and adenoids, is recovering nicely.

Misses Nell Ruth Earnest and Gladys Douglas are spending the week end at Scrapout Ranch, furnishing inspiration to a bunch of cowboys who are this week branding calves.

Mr. and Mrs. W. M. Luna, of Plains Texas are visiting Mrs. Luna's sister, Mrs. F. M. Sturges and Mrs. Robert Earnest, of Sudan. Mr. Luna is one of the old time Plainsmen of this country and a prominent citizen of Plains.

A deal was closed last Saturday whereby Chas. Harrel turned to A. J. Reed of Fisher county, the south half of labor No. 6, of League 671, together with stock and other improvements. This land is located southeast of Littlefield.

There were about 20 of Littlefield's folks who went to Silver Falls Saturday evening. They drove to Crosbyton for breakfast, returning to the lake for an early Sunday morning swim. They arrived back home in the afternoon.

Mr. and Mrs. Rush Allison of Mexia are here this week the guests of Mr. and Mrs. G. M. Shaw. Mr. Allison was formerly connected with the Yellow House Co., his wife, who was a former Mexia girl, met several old time friends here who had recently moved from her home town.

Thursday of last week Stanley Watson entertained Mr. and Mrs. G. M. Shaw, Mr. and Mrs. Rush Allison, Mrs. H. J. Jordan and Miss Nell Ruth Earnest for dinner at the Amherst Hotel. After dinner they motored back to Littlefield to a picture show party.

G. D. Holder of Iuka, Miss., was here this week visiting D. S. Layne and family. He was greatly impressed with this part of the country and returned home for the purpose of disposing of his land interest back there and coming out here to buy and make it his future home. Mr. Holder has been a reader of the Leader for several months, and stated it was through this paper that he became so interested in this section.

C. O. Stone put in an application for a young man to take John Pope's place in the bank. His wife applied for an assistant housekeeper. She got hers. The baby girl was born Saturday. Mother and child getting along fine. Dad was able to play ball Sunday afternoon.

Mrs. R. S. Thomas, daughter of Mr. and Mrs. J. C. Whicker arrived here this week to make Littlefield her future home. Mr. Thomas expects to be here about November 1st. He is interested with Mr. Whicker in the Littlefield Hotel, but it is understood he is contemplating taking a position which has been offered him on the faculty of the Tech College, at Lubbock.

Wanted: Woman for general housework.—Mrs. T. P. Wright. 18-1f

J. A. Bailey and family of Jones Prairie are this week visiting with W. O. Burford and family.

B. D. Burekleback, of Bell county is here this week putting up dwelling, barns and other buildings on his recently purchased land southwest of town.

Mrs. D. E. Cox and daughter, Miss Martha returned Friday from a two months visit with relatives in Indiana and Ohio points.

F. W. Lueck is this week building a new house, barn and putting a windmill over his well, on recently purchased land six miles west of town. J. H. Presler is directing the work.

J. T. Davidson, who recently sold his black land farm in Williamson county, is this week completing a full set of new improvements on his land bought about a month ago in this vicinity.

A. T. Evans, father-in-law of C. O. Robbins, is this week putting up a fine \$4,000 residence on his recently acquired land six miles east of Littlefield. Mr. Evans is from Fannin county, and bought 531 acres of land here.

### LAND SALES MADE BY YEAGER-CHESSER CO.

The Yeager-Chesher Land Company reports the sale of three thousand and two hundred and forty nine acres of land for the past week as follows:

A. D. Moore, Youn gCounty, 177 acres; S. D. Graves, Lynn County, 177 acres; Fred Green Hill County, 177 acres; Ira Carr, Hill County 177 acres; A. D. Bitner, Tillman County, Okla., 190 acres; Z. O. Cotney, Tillman County, Okla., 177 acres; T. J. Holloway, Dawson County, 177 acres; Will Yelverton, Palmer County, 177 acres; J. C. Tibbs, Lynn County, 192 acres; J. M. Renick, Bell County, 177 acres; O. L. Williams, Bell County, 177 acres; D. Stewart, Wichita County, 380 acres; D. Stewart, Wichita County, 177 acres.

## The DAIRY

CREAM AND MILK OF SUPERIOR QUALITY

(Prepared by the United States Department of Agriculture.)  
Because cream is sold in smaller quantities than milk is no reason why less care should be given by inspectors in insuring a safe supply of good quality. says the United States Department of Agriculture. It is just as desirable for cream to come from tuberculin-tested cows or be properly pasteurized, or both, as that milk should. Heavy cream for whipping purposes is often sold raw and its quality should be above suspicion. Cream from old or returned milk of poor quality is not desirable.

All cities need carefully defined grades for cream, according to the department, with a fixed minimum for light, table, or coffee cream, which is the usual cream of commerce. The federal standard for cream which goes into interstate or foreign commerce is 18 per cent butterfat, and in different cities it varies usually from 18 to 20 per cent. Sometimes what is known as "double cream" is sold, and when that term is used the cream should contain twice as much fat as is required in ordinary cream, usually from 38 to 40 per cent of butterfat. "Whipping cream" may contain less butterfat than "double cream," but, according to a ruling by the bureau of chemistry, cream thus labeled, if shipped interstate, must contain at least 30 per cent butterfat.

### Dairy Notes

For the dairy herd soy bean hay is the best annual hay crop that can be grown and it makes a very acceptable substitute for clover or alfalfa when these hays are not at hand.

Oat and pea hay well cured makes very desirable food for dairy cows or for sheep. It is also satisfactory as horse feed, though rather soft for horses that are required to do hard work.

Cows receiving all the alfalfa they care to consume are getting enough protein to permit them to do good work. On good quality alfalfa hay, cows have produced more than 200 pounds of fat in a year.

Republican Women Start National Campaign

Mrs. Alvin T. Hert, vice chairman of the Republican National committee, has just announced the opening of the National headquarters of the women's bureau of the campaign on the second floor of the Wrigley building, Chicago. Eastern headquarters have been opened in New York city.

The Women Voters Speak

The voices of the women of America are making themselves heard. From Maine to California, with a unison which is infectious, they are saying, "We want Coolidge and Dawes."

In the weeks which have elapsed since the Republican party nominated its standard bearer, the women have been weighing these candidates and their respect has gone out to these men, who represent the best qualities in American manhood.

All signs show that the women of the country have been weighing the Republican platform and that its pledges have won their support.

Women know that the running of the nation's business is simply housekeeping on a national scale. They know that there is nothing mysterious about it. They want the government to be managed as simply and as inexpensively as they manage their own homes. The women have heartily approved the budget system which the Republicans have established at Washington. They were quick to endorse the reduction of taxes by \$1,250,000,000 per annum and the curtailment of public expenditures without in the slightest disturbing business. When the Republicans stated:

"We pledge ourselves to the progressive reduction of taxes of ALL THE PEOPLE as rapidly as may be done with due regard for the essential expenditures of the government administered with rigid economy," the women knew that the country would be safe if Republican candidates were elected to office.

The platform's promise to continue the party's solicitude for all those suffering any disability as a result of service to the United States in time of war was particularly appealing to the women.

Pledges of law enforcement, the quest to the states to promptly consider the Child Labor amendment, the declaration for high standards of wages, working and living conditions for women workers, and a score of other progressive planks have won the support of the women.

Their minds at rest about the program of the Republican party if elected to run the government for the next four years, the women have started their campaign. They want Coolidge and Dawes and they are working to get a record-breaking number of women to the polls next November.

SCREENS SHOULD GO UP EARLY IN SPRING

Housekeeper Will Guard Against Flies.

(Prepared by the United States Department of Agriculture.)

There are three general measures to be observed in combating flies in the home: Keeping them out entirely, by means of screens; using fly paper, traps, and poison to destroy any that manage to get in; getting rid of all nearby breeding places, through personal or community effort.

The bureau of entomology of the United States Department of Agriculture has explained many times over exactly why the common house fly is such a dangerous visitor. Every school child understands that this insect breeds in manure and decaying garbage, that the adult may alight on animal or human excreta and then fly directly to the food on the table, carrying filth and dangerous disease germs, and that a well-screened house, promptly closed doors, and a good fly swatter are aids in protecting the family from contamination and possible sickness.

It is the part of the good housekeeper to have the screen doors and window screens in place early in the season before the flies get into the house, and to trap, or otherwise kill, as many of the early-season flies as possible, before they have had an opportunity to multiply. An individual female fly will lay from 120 to 150 eggs at one time and will usually lay from two to four such batches during a season. These eggs will hatch, under favorable conditions, in less than 24 hours. The larva, or worm, stage usually lasts, in summer, from four to seven days and the pupal, or sleeping, stage from three to six days.

A few flies usually manage to get in any house during the warm weather, either when doors are opened and shut, or through unnoticed cracks or screens around screens, broken window panes, or other entrances. All flies should be kept covered or screened so that stray flies cannot light on them. Putting sticky fly paper and poison preparations around helps to rid the house of those which accidentally get in. A very effective fly poison is made by adding three teaspoonsful of commercial formalin to a pint of milk or water sweetened with a little brown sugar.

It is perfectly obvious, from all that is known and has been written about the life habits of the house fly, that screens, flytraps, fly paper, and fly poisons would be unnecessary if all substances in which flies lay their eggs and breed were properly attended to. These include horse, chicken, hog, and cow manure, fermenting garbage, human excrement, and a great variety of fermenting and decaying vegetable and animal materials. All accumulations of these substances should be eliminated, or, if this is not possible, tightly covered or screened so that flies cannot reach them. In the country the main source of flies is the necessary manure heap. Farmers' Bulletin 851 tells how to care for manure so as to reduce this difficulty to a minimum. The proper disposal of sewage in rural districts is also of the greatest importance because of the likelihood of the spread of fly-borne diseases from human excrement. Other bulletins of the department make valuable suggestions for modern methods of sewage disposal for the farm home.

**Potato Flour Cake.**  
Add a tablespoonful of cold water to two eggs beaten light, then add one-third of a cupful of sugar, gradually beating constantly. Mix and sift one-half cupful of potato flour with one teaspoonful of baking powder and one-fourth teaspoonful of salt. Combine mixtures and add one-fourth of a teaspoonful of melted butter. Turn into a buttered, floured cake pan and bake in a moderate oven twenty-five minutes.

**Turnips, New York Style.**  
Wash, pare and cut into half-inch cubes three cupfuls of turnips. Cook until tender in boiling, salted water. Drain, add one-third of a cupful of butter, salt, paprika and finely chopped parsley sprinkled over them just before serving.

**Berkshire Pudding.**  
Mix together thoroughly one cupful each of sugar, flour and molasses. Melt one-half cupful of butter; add one-half cupful of lukewarm milk and add one teaspoonful of soda. Combine mixtures thoroughly; beat well; add four well-beaten eggs; turn into a buttered baking dish and bake in a moderate oven. Serve with foamy sauce. Prepare the sauce by creaming one-half cupful of butter; add gradually one cupful of powdered sugar, 21 egg well-beaten and a teaspoonful of vanilla, or two tablespoonfuls of orange juice.

COOLIDGE ACCEPTS WITH CONFIDENCE

Has Abiding Faith in Judgment of People on Accomplishments and Purposes.

SEEKS PEACE AND THRIFT

Wants Opportunity for All, No Government Monopolies, Independent But Helpful Foreign Policy.

Washington, Aug. 14.—No single question vital to the people of the United States was dodged by President Coolidge in the first great speech of the political campaign—his speech accepting the nomination as President offered him by the Republican party and delivered in Washington the evening of August 14.

After outlining the sound foundation of the party system of government, the President said: "Party means political co-operation, not as an end in itself, but a means, an instrument of government. If founded upon a great moral principle and directed with scrupulous regard for its integrity, it cannot fail to sweep onward and upward, advancing always steadily and surely, a mighty constructive force, a glorious bearer of progress."

"That is what the Republican party always has been and is today. In full faith that such it will continue to be, deeply conscious of the high honor it confers and the responsibility it imposes, I accept its nomination for President of the United States."

"In the history of our country is recorded the public services rendered by our party for more than the three-score years. That is secure. I pass on to the recent past and the present."

Progress of Four Years.

The President pointed out the condition of the nation in March, 1921, when the Republicans resumed the reins of government after a lapse of eight years. Though more than two years had passed since the armistice, the nation was still technically in a state of war. No diplomatic relations existed with Turkey, Greece, Russia, Colombia or Mexico, the Far East situation caused "grave apprehensions." Because of the war, "a reckless extravagance had come to characterize the administration of public affairs and all too prevalent in private life." The national debt had risen to the staggering total of \$24,000,000,000, more than \$7,000,000,000 of it in short-time obligations without provision for payment. Government bonds were below par. High war taxes burdened the people. Demobilization and liquidation were incomplete. Huge railroad accounts remained unsettled. Transportation was crippled. Unliquidated foreign debts amounted to \$11,000,000,000. Banks were filled with frozen assets. Interest was high, capital scarce, and financial distress acute. About 5,000,000 were without employment. No adequate provision had been made for relieving disabled veterans and their dependents. The great powers continued to burden their peoples by building competitive armaments. An avalanche of war-worn people and cheapened merchandise impended upon America from foreign lands, the President pointed out.

Turning to the settlement of these vast problems since the start of the Republican regime, the President pointed out that treaties of world-wide importance have been ratified with Germany, Austria, Hungary, Colombia and Mexico, that 42 other treaties have met with the approval of the senate, while 4 still await action. Friendly intercourse with Greece and Turkey has been resumed. Peace and American rights have been assured in the Far East and the Pacific.

Turning to finance, the President called attention to the enactment of the budget system, and the resultant tremendous savings. "For the fiscal year ending June 30, 1921," President Coolidge said, "our expenditures were \$5,538,000,000, and our surplus was \$80,000,000. For the year just closed our expenditures were \$4,497,000,000, and our surplus exceeded \$500,000,000. This was a reduction in the annual cost of government of \$2,041,000,000. The public debt now stands at about \$21,250,000,000, which is a reduction in three years of about \$2,750,000,000 and means an annual saving in interest of more than \$120,000,000. The \$7,000,000,000 of short-time obligations have all been quietly refunded or paid. The internal revenue taxes have been reduced twice, and many of them repealed, so that during the present fiscal year the tax receipts show a saving to the people of approximately \$6,000,000 a day compared with 1921. One government bond has sold well over 105."

The President pointed out that more than 40 per cent of the debt due us from foreign nations has been liquidated, providing funds for liquidating about \$15,000,000,000 of the national debt during a 42-year term. "The finances of this nation have been managed with a genius and a success unmatched since the days of Hamilton," Mr. Coolidge declared. "A great revival of industry took place, which is spreading to agriculture. Complaint of unemployment has ceased, wages have increased. Capital has become plentiful at a low rate of interest," Mr. Coolidge declared, "and the banks of our country, as a whole, show a high percentage of liquid assets."

Speaking of the generous laws passed to relieve disabled veterans, the President said that more than 71,000 have been rehabilitated, 58,000 of whom are earning more than they did before the war. Compensation is being paid at the rate of about \$100,000,000 a year, soon to be increased by \$50,000,000 more, \$40,000,000 have been provided for hospital facilities, which are open to veterans of all American wars.

"No government," the President declared, "ever provided so generously for those disabled by service in time of war."

Touching the exclusive law and restricted immigration generally, the President said: "Restricted immigration is not an offensive but a purely defensive action. It is not adopted in criticism of others in the slightest degree, but solely for the purpose of protecting ourselves. We cast no aspersions on any race or creed, but we must remember that every object of our institutions of society and government will fall unless America be kept American."

Next the President dealt with the tariff. "By means of a protective tariff," he said, "we have saved American agriculture, labor, and industry from the menace of having their great home market destroyed through the dumping upon it of a flood of foreign products. Under this wise policy we saw an economic revival, and our people as a whole, in marked distinction from the sufferers from the financial distress and depression of other lands, have come into an era of prosperity and plenty. As a source of revenue the tariff surpassed all expectations in producing an annual return of the unprecedented sum of about \$550,000,000. A fiscal policy which places a large and much needed revenue in the public treasury, while stimulating business to a condition of abounding prosperity, defends itself against any criticism. Its merits are demonstrated by its results. We have protected our own inhabitants from the economic disaster of an invasion of too many foreign people or too much foreign merchandise."

The Washington Conference.

Next the acceptance speech dealt with the Washington conference whereby an end was put to the ruinous competitive naval armaments of world powers, the importance of which has never been fully realized by the people in general, Mr. Coolidge declared. Turning to the "honest government" issue, President Coolidge pointed out bluntly that in all his studies of political history he could not recall an administration which was desirous of a dishonest government that, to check extravagance, introduced a budget system, cut taxes, purged pay rolls, made enormous reductions in the public debt and laid firmer foundations for the peace of the world.

President Coolidge declared he favored the system of private American enterprise and was opposed to the extension of government ownership and control; that he believed in economy in public expenditures and the practical application of the theory; that he believed in tax reduction and tax reform; that he favored protection.

Favors Permanent Court.

"I favor the permanent court and further limitation of armaments," the President said. "I am opposed to aggressive war. I shall avoid involving ourselves in the political controversies of Europe, but I shall do what I can to encourage American citizens and resources to assist in restoring Europe, with the sympathetic support of our government. I want agriculture and industry on a sound basis of prosperity and equality. I shall continue to strive for the economic, moral and spiritual welfare of my country. American citizens will decide in the coming election whether these principles shall have their approval and support."

"The domestic affairs of our country appear to me to be by far the chief concern. From this source comes our strength. The home market consumes nearly all our production. Within our own boundaries will be determined to a very large degree the economic welfare and the moral worth of the American people. These are plain facts, but there are others equally plain."

Reaffirming his opposition to entrance into the League of Nations as a surrender of independence, the President favored becoming a member of the permanent Court of International Justice, "as peace means fundamentally a reign of law." Entrance into the so-called World Court "would do much to indicate our determination to restrain the rule of force and solidarity and sustain the rule of reason among nations," Mr. Coolidge said.

America Helps Europe.

The President reviewed the difficulties of Europe and the unavailing efforts to find a way out until the American plan, proposed in 1922, was finally adopted, under which the reparations commission appointed a committee of experts, whose three American members included Gen. Charles G. Dawes, the President's running mate on the Republican ticket. The appointment of General Dawes as chairman and the report which has met world-wide approval were pointed out.

When the reparations plan is in operation, the President said, he would consider it time to approach the great powers with the proposal for another conference to limit armaments still further and devise plans for the codification of international law. "I trust that never again will the women of this nation be called on to sacrifice their loved ones to the terrible scourge of war," President Coolidge said.

Touching Latin America, the President said that he has constantly striven to come to more complete un-

derstandings with those nations. He recited the help given Mexico to avert domestic violence there, and the indication of a policy of making it worth while for a government to conduct itself so as to merit recognition. He pointed to the written agreement with Mexico to negotiate a treaty of amity and commerce such as has not been in existence since 1881.

Equal Opportunities for All.

Of discrimination of all kinds, President Coolidge said: "This is one country; we are one people united by common interests. There should be no favorites and no outcasts; no race or religious prejudices in the government. America opposes special privilege for anybody, and favors equal opportunity for everybody. It has adopted these conclusions because they are the logical conclusions of our ideals of freedom. Moreover, we believe they contribute to our material welfare. We oppose the artificial supports of privilege and monopoly because they are both unjust and uneconomic. They are not right. They do not work."

The Farm Situation.

Reviewing the situation of the farmer, the President said that one of the first thoughts in 1921 was for the relief and revival of agriculture as a fundamental industry, and touched upon the credits of between three and four hundred million dollars extended through the War Finance corporation, an additional \$50,000,000 provided for the relief of the cattle industry, and the formation of a \$10,000,000 corporation in the spring which, it was estimated, can furnish \$100,000,000 for diversification and relief in the Northwest. He told of the activities of the intermediate credit banks, directly and indirectly assisting 500,000 farmers.

The President commented on the present upturn of prices for agricultural products.

"The government rendered a great deal of assistance," he said, "and private enterprise co-operated, but the fundamental remedy was provided, as it always must be provided, not so much through the enactment of legislative laws as through the working out of economic laws. Because the farmers have thoroughly realized this, they have on the whole opposed price fixing by legislation. While maintaining that sound position, they have seen a partial relief come in a natural way, as it was bound to come."

"We now need in agriculture more organization, co-operation, and diversification. The farmer should have the benefit of legislation providing for flood control and development of inland waterways, better navigation east and south from the Great Lakes, reclamation, and especially relief for those who cannot meet their payments on irrigation projects. But the main problem is marketing. Co-operative effort, reorganization of the freight-rate structure, good business, and good wages in manufacturing, and the settlement of European affairs will all help to provide better market conditions."

"The Republican platform recognizes that agriculture should be on a basis of economic equality with other industries. This is easy to say, but the farmers themselves and their advisers have never been able to agree on a plan to provide it by law. Now that nature and economic law have given some temporary relief, I propose, therefore, to appoint a committee to investigate and report measures to the congress in December that may help secure this result which we all desire. I want profitable agriculture established permanently. I want to see the dollar of the farmer always purchase as much as any other dollar."

"Under the policy of protection and restrictive immigration," he asserted, "no deflation of wages has occurred. While the cost of living has gone down, wages have advanced. The 12-hour day and the seven-day week have practically been abolished. The uninterrupted operation of public utilities with mutually satisfactory and legally established methods of adjusting labor questions have been sought. Collective bargaining and voluntary arbitration have been encouraged. Republican rule has raised the wage earner to a higher standard than he ever occupied before anywhere in the world."

Reduction of Expenses.

President Coolidge then pointed out that the people of the country, because of the war have had to recreate nearly one-fifth of our national resources. We can make up the loss, he said, only by saving part of what we produce each day. "It is for that reason," he continued, "that the present administration has made every possible effort to cut down the expenses of government. The expenses of the government reach everybody. Taxes take from everyone a part of his earnings, and force everyone to work for a certain part of his time for the government."

"When we come to realize that the yearly expenses of all the governments in this country have reached the stupendous sum of about \$7,500,000,000, we get some idea of what this means. Of this amount about \$3,500,000,000 is needed by the national government, and the remainder by local governments. Such a sum is difficult to comprehend. It represents all the pay of 5,000,000 wage earners receiving \$5 a day, working 300 days in the year. If the government should add on \$100,000,000 of expense, it would represent four days more work of these wage earners. These are some of the reasons why I want to cut down public expense."

"Because of my belief in these principles, I favor economy that the taxes of everybody may be reduced. Much has already been done. The bill which I signed will save the people about \$1,000,000 each day. I want further tax reduction and more tax reform."

The raising of the revenue required to conduct our government is intimately connected with our economic welfare. If it is done by wise and just laws, the burden will be most easily borne. But if the method of taxation is not sound disaster will follow, reaching even to financial panic. Our first thought should be to maintain unimpaired the activity of agriculture and industry. That tax is theoretically best which interferes least with business.

Asks Just Taxation.

"Only about 3,500,000 people pay direct income taxes. The remainder pay, but pay indirectly, in the cost of all purchases, from a pair of shoes to a railroad ticket. This country has at least 107,000,000 of these indirect taxpayers. I am not disturbed about the effect on a few thousand people with large incomes because they have to pay high surtaxes. They can take care of themselves, whatever happens, as the rich always can. What concerns me is the indirect effect of high surtaxes on all the rest of the people. Let us always remember the poor. Whatever cry the demagogue may make about his ability to tax the rich, at the end of the year it will always be found that the people as a whole have paid the taxes. We should, therefore, have a system of taxation under which the people as a whole are most likely to be prosperous. Our country will be better off, if disregarding those who appear to be jealous and envy, it follows in taxation and all else the straight path of justice."

Far Economical Campaign.

"Economy should be practiced scrupulously in the conduct of a national campaign. I know it is difficult to distinguish between real service to the people and mere wastefulness. Costs have increased by doubling of the electorate, rendering close calculation impossible. "Nevertheless, I can perceive no reason why the budget system should not be beneficial in a campaign, as it has proved to be in government. It is to be tested by our committee."

"I would make clearly and definitely one other requirement, that no individual, or group of individuals, may expect any governmental favors in return for party assistance. Whatever anyone gives must be given for the common good, or not at all. Contributions can be received on no other basis."

"For the first time after having opportunity fully to organize, the women of the nation are bringing the new force which they represent directly to bear on our political affairs. I know that the influence of womanhood will guard the home, which is the citadel of the nation. I know it will be a protector of childhood. I know it will be on the side of humanity. I welcome it as a great instrument of mercy and a mighty agency of peace. I want every woman to vote."

"The Constitution is the sole source and guaranty of national freedom. We believe that the safest place to declare and interpret the Constitution which the people have made is in the Supreme court of the United States."

"Under our institutions there is no limitation on the aspirations a mother may have for her children. That system I pray to continue. This country would not be a land of opportunity, America would not be America, if the people were shackled with government monopolies."

"Our country has adopted prohibition and provided by legislation for its enforcement. It is the duty of the citizen to observe the law, and the duty of the Executive to enforce. I propose to do my duty as best I can."

For Child Labor Amendment.

"Our different states have had different standards, or no standards at all, for child labor. The congress should have authority to provide a uniform law applicable to the whole nation which will protect childhood. Our country cannot afford to let any one live off the earnings of its youth of tender years. Their places are not in the factory, but in the school, that the men and women of tomorrow may reach a higher state of existence and the nation a higher standard of citizenship."

"I am in favor of national defense, not merely as an abstract state of mind, but as a concrete mode of action. I favor not merely talking about it, but doing something about it. I do not want the safety of my country to be imperiled in its domestic or foreign relations by any failure to be ready to preserve order or repel attack. But I propose to work for voluntary observance of law and mutual covenants of peace."

Common Sense Greatest Asset.

"We are likely to hear a great deal of discussion about liberal thought and progressive action. It is well for the country to have liberality in thought and progress in action, but its greatest asset is common sense. It is the commonplace things of life that the strength of the nation. It is not in brilliant conceptions and strokes of genius that we shall find the chief reliance of our country, but in the home, in the school, and in religion. America will continue to defend these shrines. Every evil force that seeks to desecrate or destroy them will find that a Higher Power has endowed the people with an inherent spirit of resistance. The people know the difference between pretense and reality. They want to be told the truth. They want to be trusted. They want a chance to work out their own material and spiritual salvation. The people want a government of common sense."

"These, Mr. Chairman, are some of the beliefs which I hold, some of the principles which I propose to support. Because I am convinced that they are true, because I am satisfied that they are sound, I submit them with abiding faith to the judgment of the American people."

## LAMB COUNTY FAIR WILL BE BIGGER AND BETTER THAN BEFORE

The success of the Lamb County Fair last year has inspired the citizenship to greater efforts this year, and with the large number of new

residents and the same splendid co-operation of the various sections of the county, everything now looks favorable that the fair this year shall be a bigger and better one in every respect than that of last year. Community exhibits, individual farm exhibits, and general exhibits will feature in the fair again this year. One new feature of the fair will be an "Old Relics Exhibit." This will not only stimulate interest, but

will be educational as well. A sincere and earnest request is made to all residents of Lamb County to make this the banner fair of the Plains counties. We have the staff and the people, so let's go. Our neighboring counties will find a hearty welcome with us on these two days. The premium list will be ready for distribution soon.

The officers for the ensuing year are:  
H. P. Webb, Olton, President; Gus Shaw, Littlefield, Vice President; C. C. Covert, Olton, Secretary; W. H. Bohner, Olton, Treasurer;  
Directors:  
E. C. Cundiff, Littlefield; Lester LaGrange, Amherst; Geo. Linville; Spring Lake; Geo. E. Bohner, Olton; A. J. Mayfield, Sudan.  
Committee on grounds and concessions:  
C. C. Covert, Olton; Jack Silcott, Olton; Marshal Cavett, Olton.

### Baileyboro Buzzings

The party at the home of Mr. and Mrs. J. A. Essary was thoroughly enjoyed by a number of young folks of this community.  
A bunch of the young ladies ac-

companied Mrs. Lee Sherman home from Sunday school and all report a splendid time.

Mr. and Mrs. J. A. Baker and children, and G. W. Hale of Circleback spent Sunday in the Blackshear home.

Misses Grace Vesta, Annie Mae and Blanche Brannen were welcome guests of the Blackshear family Tuesday.

Quite a few of the people from this place have been plumb hunting in the sand hills with excellent results.

An old time watermelon feast and ice cream supper was given in honor of Ruby Johnson's sixteenth birthday at the home of her parents, Mr. and Mrs. J. H. Johnson. A large crowd was present and a good time was had by all.

Mr. and Mrs. John Blackshear and Mrs. Lott of Rio Vista, Texas are visitors and prospectors in the Baileyboro community this week.

The B Z B's.

### \$500 REWARD

For arrest and conviction of theft of any cattle branded on one side or both thighs; age brands of 2 to 0 on shoulder with out 5, or C brand on left hip.—C. C. Slaughter, 520 Slaughter Bldg., Dallas, Texas.

### S. O. S. CALL TO INTELLIGENCE

Believing that this is a time when all true democrats should rally to the banner of Democracy; believing that the greater part of the people yet believe in the good old time principals of a government "of the people, for the people and by the people;" we ask that you go to the polls on the 23rd of August and smite this secret monster known as the Ku Klux Klan with your ballot and smite him so hard he will not be able to raise his head, either in politics or religion during this century.

This secret monster, now being nourished and fondled by the hard earned money of the ignorant and thoughtless is being used by the designing politicians of the entire nation, must be checked at the ballot box on the 23rd, or personal and political freedom will pass from our state. It has already instituted the boycott in business, it has attempted to raise the hood and gown above the square and compass or the three links in the fraternal halls of our state; it has robbed our pulpits of our ministers and placed in their stead, mendicants who accept alms at the hands of the hooded mob; it has arrayed neighbor against neighbor and brother against brother. We as men, who love the light, who like to enjoy the great principals of Democracy know of no other way to restore those principals to the people than by a free and unfettered ballot and, as there is but one way open to us we shall cast a solid vote against the emissaries of this hooded Klan.

Mob rule must pass and in its passing it will carry with it Felix Robertson, the avowed candidate of the Ku Klux Klan; there is a mother, whom the hooded Klan claim is alright to can and preserve her fruits and vegetables and that she is not fit to be made governor. There was never a time in the history of the Lone Star State, when a preserver was needed more than now and on the 23rd of August the Democrats of Texas, both men and women will elect Miriam Ferguson governor of Texas and send her to Austin to preserve for us the GREAT PRINCIPALS of Democratic government.

Ku Kluxism must go and the following candidates, who are true Democrats and opposed to the Ku Klux Klan will be elected Aug 23rd. Vote for them and place the Stars and Stripes above the flaming cross of the hooded Klan.

For Governor, Miriam A. Ferguson.  
For Lieut. Gov., Barry Miller.  
For Attorney General, Dan Moody.  
For Chief Justice, C. M. Cureton.  
For County Judge, Ed Burrus.  
For Sheriff, Hugh J. Carter.  
Signed by sixteen Lamb County Democrats.

## Politics 110 In Shade!

With politics 110 in the shade, with rain falling plentifully, and with the prospects in West Texas at least 50 per cent above normal, why wait longer about figuring out that Tractor or Row Binder?

With the election of Mrs. Ferguson, only a matter of counting the votes, which means good times in Texas for at least two years, and with cat fish going up stream why should we worry?

### FARM IMPLEMENTS

Simply get down in you jeans and get ready for the biggest time next year that ever happened on the Plains. Some one says "wait". But that is not what John Kling, dit. Last fall he bought two tractors and a new Row Binder and let the weather take care of itself. Now John has about 900 acres of the best cotton in Texas, and the seed from this cotton will pay for every implement and tractor he bought.

It is the fello who tries that the Lrd helps. Pray and then put your shoulder to the wheel. Salvation is free, but you have to pay the freight. Do your part and Providence will do his.

We have two tractors of the 10-20 type and one 15-30 that we will make you as good terms as you can get anywhere, also the plows to go with them. This will enable you to prepare your land early and conserve the moisture of fall and winter.

### BINDER TWINE

We have Binder Twine, by the sack, 15 cents per pound, cash. It is the famous Deering Twine with a reputation for strength and durability.

### GROCERIES, ETC.

We have groceries that will make you sass your uncle, the knid that tickles your throat for more. Good clothes to keep you cool and makes you love the other fello who votes against you. Hats and caps that will please the home folks, and Chocolate Candy that we especially recommend for the ladies with bobbed hair.

#### TRUSTEE'S SALE

THE STATE OF TEXAS  
County of Lamb

WHEREAS by Deed of Trust dated the 2nd day of August, 1923, and recorded in Volume 8, page 235 of the Records of Mortgages and Deeds of Trust in Lamb County, Texas, J. C. Baker conveyed to C. E. Maedgen, as trustee, the following described property described in said Deed of Trust as being located in Lamb County, Texas, and as follows:  
"Being gin lot or tract of land and all machinery located thereon known as the G. M. Mason gin property in Littlefield, Texas, and land and property better described in a certain deed executed by G. M. Mason to J. C. Baker, to which deed and the record thereof, reference is here made for a more particular description."  
The above described lands together with the buildings, machinery, and all other improvements thereon being the gin plant in Littlefield purchased by me from G. M. Mason."

And that said property is described as being:  
Beginning N.W. corner of a field, same being 20 feet South of the center of a 40 foot roadway running East and West and 20 feet East of the center of a roadway running North and South, the intersection of the center lines of these two roadways being the original Northwest corner of a survey of 177.2 acres in Lamb County, about 8 miles South 12 degrees East from the center of the county, same being Labor No. 20, League No. 664, Abstract No. 334, original Grantor, Abner Taylor. Thence South 00-35'-30" W. 123.33 feet to corner at side of P. & N. T. R. R. right of way: Thence South 55 degrees 46'-11" E. parallel to center of railroad tract 773.9 feet to corner of said railroad right of way: Thence North 00-35'-30" E. 552.82 feet to corner in North line of this tract same being twenty feet South of the original North line of said 177.2 acre tract; Thence North 89 degrees 27' 30" W. 644.38 feet parallel with the said North line of 177.2 acre tract to place of beginning."

Witness my hand this 7th day of August, 1924.

—C. E. MAEDGEN, Trustee.

STOKES & ALEXANDER  
DRUG COMPANY

#### If S's Had Known

Another example of queer English has come to our attention. During a New York court inquiry into a family quarrel the wife stood up, raised her arms and cried: "Oh, if I had known when I was sweet sixteen already all that I know now yet!"

#### Choose Friendships Well

As the shadow in the early morning is friendship with the wicked; it dwindles hour by hour. But friendship with the good increases, like the evening shadows, till the sun of life sets.—Herder.

#### "JUST TWENTY-ONE"

One of the important factors in the election of the man who is to be the next President of the United States, will be the young men and women who are just old enough to vote.

Some of these first voters are wage earners, others are still in college. They share a common responsibility, that of expressing the views and wishes of the youth of America.

Here and there when a young man or woman can be persuaded to talk about it, they are heard to say that they want to keep President Coolidge on the job at Washington for the next four years. They can do it.

### COOLIDGE CHOICE OF WOMEN VOTERS

Mrs. A. T. Hert Praises  
Child Labor Policy.

"What the future holds for the wage earner and the wage earner's family, is of vital interest to the women of this country." Mrs. Alvin T. Hert, vice chairman of the Republican National committee, stated in a recent interview. "Therefore, the promises of the political parties on the subject of labor are of the greatest importance. When we reflect that there are eight and one-half million women wage earners including two million married women wage earners who are directly affected by labor legislation, as well as the wives of the laboring men who are interested in the protection afforded labor, the importance of the question can be plainly seen.

"Every woman in America is interested in the question of child labor and wants to see the children of this country safeguarded during the most important years of their lives.

"A fair deal to labor was assured by the Republican party in its platform accepted by the national convention in Cleveland. The platform pledges continued progressive reduction of taxes, rigid economy in government and promises protection against undue exactions.

"To the Republican party goes the credit of being the leader in the campaign for national legislation to protect the children. It was the party that enacted the first federal child labor law." Mrs. Hert said. "The Republican platform commended congress for its prompt adoption of the recommendation of President Coolidge authorizing congress to pass protective child labor legislation. It also urged the prompt consideration of the amendment by the legislatures of the various states.

"This law, when ratified, will afford nationwide protection for child workers.

"The average woman of today is worker. She either works to support herself and those dependent upon her or she works to make the family income buy as many comforts for her family as possible.

"The last federal census showed that out of 572 occupations, only 35 did not have women workers. Women have entered the realm of industry and they must be carefully protected. The action of the Republican platform in favoring high standards of wage working and living conditions among women has received widespread commendation.

"The election of President Coolidge and Mr. Dawes, supported by a Republican congress, will mean continued prosperity for the average home."

#### WOMEN OUT TO BEAT 1920 VOTE

Women are getting down to the business of voting.

Statistics show that approximately 25 per cent of the women eligible to vote, actually voted in 1920. This means only about one out of every four.

In 1920 one state had 3,462,879 voting citizens, her total vote was 2,090,468. What about the 1,372,411 who did not vote?

The women's bureau of the Republican National committee, with headquarters in Chicago, has just issued an appeal to the women asking them to see that every eligible voter in their families goes to the polls on registration day.

Women are out to round up the "civic slackers," and this means men as well as women.

#### Dairy Hints

Screen milkhouse.

Cool cream down immediately and keep cool until sold.

Place a salt box in the pasture and keep salt before the cows constantly.

#### Shunned by the Wise

Tricks and treachery are the practice of fools that have not wit enough to be honest.—Benjamin Franklin.

#### Exercise for Tired Eyes

Lie on your back and roll the eyes now to the left and then to the right, look up and then down. Look straight at the ceiling and then down. This exercises all the muscles and rests the eyes. Use a diluted turpentine eye wash; rest the eyes as much as possible.

#### Forbidden Monks Chocolate

The immoderate use of chocolate in a Seventeenth century was considered so violent an influence of the passions that John Penn Hanch enforced the necessity of forbidding the monks.

#### Desirable Place of Residence

The Land of Cockaigne was an imaginary land of idleness and plenty, in which the houses were roofed with cake, the rivers ran with wine and roasted fowl offered themselves to be eaten. The name was applied in derision to both London and Paris, following the writing of a satirical poem entitled "The Land of Cockaigne," about 1300.

There are no more...  
rollers, the birds...  
our habit of turning...
