Lamb County Men Attend Meeting of Highway Commission

It is almost certain that contracts for the paving of highway No. 7 through Lamb county will be let the latter part of this month or in early August, it was indicated at a meeting of the State Highway commission held in Austin the early part of this week.

The commission announced during the meeting that a large part of the federal emergency unemployment relief funds allotted to Texas highway construction will be used in the immediate future. \$25,000,000 has been allotted

The commission made it known that contracts for the completing of highway No. 7 would be awarded at the first letting. J. W. Hale, secretary of the Littlefield Chamber of Commerce, and C. E. Strawn, County Commissioner, represented Lamb county at the meeting.

All projects must be approved by the federal bureau at Fort Worth and then advertised for two weeks before contracts can be let.

In another effort to reduce the electrical rates in Littlefield, Mayor L. R. Crockett called a conference with the Littlefield city commission and representatives of the Texas Utilities company at the city hall last Saturday afternoon.

After September 1 the three per cent federal tax on electricity heretofore paid by the consumer will be paid by the Utilities company, it was said. However, the customers will still be required to pay the federal tax on the use of telephones.

Three Cent Rate Still in Force

Owing to the fact that there has been some misunderstanding in regard to the postage now being due on first class mail, J. G. Singer, Little-field Postmaster, has asked the Leader to explain that 3 cents in stamps are required on all letters mailed from the Littlefield Postoffice to other cities or towns, and that the 2 cent rate only applies on letters being mailed from the Littlefield Postoffice

The Weekly Press throughout Texas has joined the drive started by the Texas Weekly in its recent proposal that newspapers in towns of less than 15,000 undertake to collect funds for the Texas exhibit at Chicago, on the basis of a minimum quota equivalent to a penny

In the July 1 issue of the Texas Weekly it was explained that the proposal a penny a person basis is merely used to figure the minimum quota of the town, and not that each person in the community pay one penny to the fund.

Up until Saturday, July 1, over a hundred towns in the state had responded to the call. All towns that contribute to the fund in any way will be placed on the Roll of Honor at Chicago.

The larger cities of the State are also going ahead with the campaign to assure an exhibit for Texas at Chicago, as is noted from an article written by Peter Molyneaux, editor and the publisher of the Texas

Weekly. Mr. Molyneaux's article article follows in part:
"The big cities have gone ahead

dy at a meeting of the new commi-tice at Dallas last Monday, and San Antonio had a check for half of its quota to turn over. That put Dallas on its mettle, and Frank Helland, Jr., and some helpers got busy, with the result that on Thursday morning a telegram was sent to Chairman H. H. Ochs at San Antonio that the Dallas check is ready also. Fort Worth has not completed its quota at this writing, but I am sure that the Panther City will be in line in a few days, and that the amount pledged by the four cities, which totals \$24,-000, will be available. In addition to this the West Texas Chamber of Commerce has had \$5,000 in the bank for some time for the exhibit fund, and will be made available also. The Lower Rio Grande Valley towns are raising a special Valley fund, which wil go to swell the total, and it is expected that intermediate cities of more than 15,000 population will contribute a substantial amount also. If the smaller towns continue to line up as they have during the past week, the Texas exhibit fund will be the most widely supported project of its kind that has been put ever in Texas in years. In any event, the ashibit is now assured.

Cotton Consumption Increasing

The indicated supply of cotton in the United States on June 1 of this year is 363,000 bales less than a year ago, according to figures compiled by the University of Texas Bureau of house in Littlefield. L. R. Crockett, Business Research, director Dr. A. B. Cox, has announced.

To Joyce this was too bitter for tears, too bitter for complaint. She could not hold her head up under the shame of it.

"Well, so Roxie she said to me that

I was to go to San Francisco and not come back until I found you! So I came, and doggone if I didn't find you the second day!'

"So Roxie believed in me!" thought Joyce, deeply touched. And aloud she said, "Bless her! I always felt Roxie could be depended on!"

Suddenly she realized that were more than half way to

Half way home!

A sob cought in her throat. The house seemed deserted when they arrived, and Joyce, who had been nerving herself for a reception by "the gang," felt tremendously relieved. She wanted a little time before seeing anyone, even the faithful Roxie for whom her heart was full of gratitude. She slipped quietly up to her bedroom, and stretched out on the bed, in tense silence.

What next? What next? She had never felt less mistress of the situa-tion since she had found herself Frills

Gradually as night drew on, heard sounds downstairs, and, along with pangs of hunger, she relaxed somewhat and began to consider facing Neil Packard. She took a hastybath, and dressed herself in one of the pretty frocks that still hung in her closet. It shocked her to notice how worn and haggard she looked; the life she had led in San Francisco had left its mark.

Sam was standing by the door as Joyce came down the wide stairs; he smiled at her with a return of old friendliness, and then slipped

She was left facing her husband. All thought of how she would meet this situation vanished when she saw Neil. Such an intensity of unhappi-ness brooded over his face that Joyce was instantly stabbed, and without a moment's hesitation she ran toward him. Here was some one of whom she was genuinely fond, in the greatest trouble—no thought but to comfort him! He did not once lose his selfcontrol, but the tragic look in his eyes lightened when he saw her, and

his whole tense expression softened.
"It was a lie, Neil!" she said, "It was a lie that I knew! Of course I didn't! Oh my dear, my dear, forgive me. I'm so terribly sorry. I loved your mother too. No one could have helped loving her."

"I guess I was the dud," he said gruffly, "to have believed Joyce Abbott. Gee, I did'nt know women did that sort of thing to each other!"

"Not all women!" said Joyce, "Remember it was Roxie who didn't believe her and sort Santo didn't be-

lieve her, and sent Sam to find me!"

LOCAL OPTION **ELECTION LIKELY** FOR LAMB COUNTY

A petition has been signed by over 400 qualified Lamb county voters calling for a local option election permitting the sale of 3.2 percent alcohol beer in this county. The election will be held on August 26, the same day an election will be held to vote on the proposed amendments to the state constitution.

It is likely that the petition will be submitted to the Lamb county Commissioners Court in the next few days. It is necessary that an election be called after 10 per cent of the qualified voters of the county sign the petition requesting that the court call the election.

which to secure the cotton bought by the old Farm Board to be used in the option contract where the farmer chooses that form of payment. Callstretching away in endless vista comes the question "if a farmer owns cotton land that runs in two counties door he regard the county line and deal with two county committees or may he sign up with one or the other committee?" And perfectly in accord with the traditional feeling for local

self-government the typical Texan has, back comes the answer "Each county is organized as a unit to handle the lands within its boundaries. by the local committeemen and approved by the county committee responsible for the work in the county where the land is situated, unless

Five-year averaged figures on the production of land and figures of last year's crop for the whole county are in the hands of the county control committees, but these are simply used as a background and a check on estimates that get too far out of alignment. The estimate is made by the farmer and the local committeeman who visits the block of land to be retired from production, Mr. Williamson said. The applications are filed as rapidly as possible with the county

committees where they are reviewed

Wallace in and supplied him with cash with regard to the acres leased by the government in its efforts to retire ten million acres of cotton land from production this year. It is estimated that the land will be benefited by plowing under the cotton, adding that much humus to the soil, and many farmers will welcome the opportunity to add to their feed crops, since in certain areas they are short because of continued dry weather.

College Station .- "In the community where I grew up it used to be a practice that some farmers would sell their cotton crop at this time of the year and spend July and August Land to be retired must be inspected in other occupations, coming back in the fall and picking cotton for hire," said H. Hockley County Man Uses Tin Cans to **Irrigate Tomatoes**

A "poor man's garden irrigation ystem" which uses tin can pipe to distribute the waste water from the weekly washing to irrigate 75 feet of tomatoes has been devised by Joe Macha, Hockley county farmer. He slashes the bottom of tin cans obtained at the city dump heap to make flanges that fit to the mouth of the next can. The sections of pipe thus made were laid 2 to 3 inches in the ground and the water seeps through the points for about 2 feet on each side. When plowing he removes pipe.

WHEAT INCOME TO BE LARGER

This year's wheat crop will brin Texas growers approximately \$3,750. 000 more, on the basis of present prices, than did last year's yield, though the 1932 crop was about twice as large, Texas grain dealers have estimated.

The estimate of the 1933 production ranges from as low as 12,000,-000 bushels to 15,400,000 bushels, most forecasts being in the neighborhood of the higher figure.

The Panhandle yield is placed at 7,000,000 bushels, compared to twice that total last year, but the grower is receiving around 85 cents where a year ago he obtained only 30 cents

Littlefield,

STEEL ALONE IS NOT ENOUGH!

-neither strong enough, nor safe enough, nor quiet enough for the body of a quality car like

CHEVROLET

Why is it that every 12cylinder and 16-cylin-

der car in America has bodies of steel reinforced by hardwood? Why is it that every make of car selling for over \$4000 uses bodies of exactly the same type? Why? For the same reason that Chevrolet uses it exclusively. Because every test and every experiment have definitely proved: STEEL ALONE IS NOT ENOUGH!

The trouble with steel alone is that it stands just so much shock and punishment. Steel alone is also inclined to rumble and rattle. BUT-when you put the two together-a heavy, staunch steel body over tough, solid hardwood -then the hardwood reinforces the steel-and vice versa! And the result: the strongest, safest type of body, such as Fisher builds for Chevrolet. CHEVROLET MOTOR CO., DETROIT, MICH.

Eat Gypsum Weed by Mistake for Spinach

A rather peculiar sickness developed in the Lee Wilson home here Thursday last.

Following their first "mess" Thursday noon of what they believed to be spinach, and which they thought had grown in their garden from spinach seed purchased, Mr. and Mrs. Wilson, daughter Margie, and Dick Porter, a boarder, became very sick, the disease affecting them both bodily and mentally. When Lee Wilson, who is

a barber at the City Barber Shop, returned to his duties following lunch Thursday, acting and talking "goofy," Beaman Phillips, one of the proprietors, took him home. On arriving at the Wilson home he found the rest of the family suffering the same as Mr. Wilson, so thereupon called Dr. J. D. Simpson, who treated the patients. The doctor pronounced it a poisoning and pumped the stomachs of the patients, who were unconscious

object of farm administrators will be to reduce the potential crop as much as possible for the benefit money expended. The work of passing on these contracts may take a month, Wallace

He was hopeful, however, that the first checks might be sent to farmers by early August but said that late August was more likely to be the time the principal cash benefits would move into the south.

The attitude of the cotton producer during this campaign has been highly satisfactory," Wallace said. "The majority of them understand the situation, and realize that it is imperative they do something about

Necessity Emphasized

"Today's acreage reports on land in cultivation emphasize the necessity for the success of this campaign. The cotton producers cannot expect a de-cent price for their crop this fall if the present planted acreage is permitted to go to harvest."

The administration will determine what acreage is to be retired after the acreage offered has been inspected and the cost determined, Wallace explained. He said the plan would be carried through as rapidly as possible.

South Plains

Quota Almost Assured

According to figures received Saturday night, the last report available, the 17 South Plains counties had already contracted to plow under twothirds of their quota of 410,000 acres. County agents and other authorities of the South Plains were of the opinion that after final checks were made that this section would be well over the top.

Following is the report made Saturday night, giving the quotas and
