Questions And Answers Q-Under provisions of the GI Bill, howl long can an on-the-job training course last?

A-On-the-job training courses, other than apprenticeships, must last not less than three months or more than two years. Apprenticeship courses, under supervision of State or Federal agencies, may last as long as four years.

Q-I am a disabled veteran and wish to go into training under Public Law 16. Will I be permitted to decide my job objective?

A-Before you can take training under Public Law 16, VA will have to determine that you have a vocational handicap as the result of a service-incurred disability. Then VA counselors will help you decide on a job or trade objective.

Q-My son, a veteran of World War I, died of a service-connected disability about three years ago. I understand I should have filed for burial allowance within two years of his death and it is now too late. Is this true? And is there a deadline date for applying for compensation?

A—The two year limitation from date of burial will apply in your case in so far as the burial allowance claim is concerned. On compensation, since your son died of a service-connected disability, you are eligible to apply for compensation at any time after his death. However, payments if awarded may commence only from date of

Q—I was discharged from the U. S. Army in 1945 and have been taking GI Bill training. I recently married and hope to save enough money to make a down payment on the purchase of a home. Is there a deadline for me to apply for a GI loan?

A-Yes, there is a deadline. You have until July 25, 1957 to make formal application for a GI loan, guaranteed or insured under the Servicemen's Readjustment Act.
