At the February term of District Court, which opened at Olton Monday, the Grand Jury, with C. E. Bley as Foreman, returned two true bills. These indictments were returned in the cases of:

Lair Fagan, colored, charged with assault with intent to murder. She is confined in the Littlefield jail; and

Earnest Mays, charged with burglary of Salem Dry Goods, Sudan.

Sheriff Sam Hutson left Tuesday for Palestine, Texas, to return to Lamb County Earnest Mays, who was arrested at Palestine, and is being held on instructions from Sheriff Hutson. Justice officers are also reported to have recovered some of the missing goods.

The Grand Jury is recessing until Monday, February 21, at which time, according to Sheriff Hutson, important matters will be taken up and investigated, including the Hunt case, tire thefts, etc.

The week beginning February 28 will be Criminal Week, when the cases in which indictments were returned at this term of court will come before District Court, with Judge C. D. Russell presiding.

Tax Collections In County Heavy

The heaviest tax collection in the history of Lamb County was reached this year, according to Frank Cummings, county assessor and collector.

With the compiling of the report of the collections of 1943 taxes it was found that 93.3 per cent of the current taxes had been collected.

This figure does not include any taxes delinquent from previous years.

The taxes were chiefly collected in two special tours of the county conducted by Mr. Cummings.

There were 4,158 poll taxes paid, and 24 exemptions issued. Considering the number of men who are away in the service and in defense work this was a very high figure, and compares approximately with two years ago.

the audience for War Bonds. The highest priced song was "Pistol Packin' Mama" bought by G. M. Vann for \$100. The girls then insisted that Mr. Vann come to the stage while they rendered this number, which proved to be a comedy act and Mr. Vann really "stole the show." He was reported to be such a "good sport" that he made a real "Pistol Packin' Papa."

Two servicemen who contributed greatly to the program by appearing on the stage, and taking part in patriotic numbers with the Personality Girls, were Dr. H. Allen, Jr., C. M. 2-C, son of Mr. and Mrs. D. H. Allen of Spade Community, who has been in the service since June, 1942, and 14 months in foreign service serving in the Aleutians and Attu; and now home on a 30 day leave; and Travis Dyer, Gunnery instructor in the 4888 Central Postal Directory, (Continued on Page 5)

Smiley, Littlefield; J. R. Kuykendall, Spade; C. A. Thomas, Amherst; C. M. Sanders, Pettit; Ben Gann, Olton; and K. P. Brammer, Sudan, directors, nearly all of whom have been serving since its organization.

V. F. Jones, County Agent, made a talk; and reports were made by the various officers, including O. K. Woodall, manager.

The possibility of a rural telephone system was discussed, and a committee was appointed to study the feasibility of such a project. Those named on this committee were: J. R. Kuykendall, John I. Bowling and C. W. Smiley.

A splendid meeting was reported by Mr. Woodall, who also reported a delicious meal served by the Oklahoma Avenue and Lum's Chapel Home Demonstration Clubs.

Only Five Days Remain To Raise Above Amount

"Everyone's Job And Responsibility" Says Pat Boone, County Chairman

C. O. Stone, chairman of the Fourth War Loan Drive, announced Wednesday that up to Saturday night the total purchases of all series of War Bonds amounted to \$460,894.50, leaving a balance of \$229,105.50 yet to go in order to attain the quota for the County.

Pat Boone, general chairman for the County, in an interview Wednesday asked the Leader to remind the citizens that only five more days remain for the committees to secure the above amount to make up the quota of \$690,000, and is urging on those who have not yet bought any bonds to do so at once; and those who have bought bonds he is urging that they buy more in order to put the drive over.

Mr. Boone also said: "It is everybody's job to see that this quota is met; it is everybody's responsibility that it is met. With our boys over there—making terrible sacrifices—so that we may enjoy the freedom of a democracy—it is very little for us to do at home to loan our money so that they may be equipped with the best in machinery to do the job over there; and the more money supplied, more and better equipment will be furnished, which will hasten victory and our boys' return home. With three and a half millions more money in Lamb County banks than last year, it looks like some of the residents are not doing what they should be doing regarding buying bonds. We ask that everybody, whether they have been contacted or not, go to one of the issuing agencies, and purchase their share of bonds, and help put our quota over.

"Let everyone ask himself this question honestly—how much of a sacrifice is it to give up some luxury just temporarily in order to buy the best investments in the world? When you've answered that question buy at least one extra \$100 bond now. And if you've already bought, buy again."

"Lamb County has never fallen down in any project it has undertaken, and it must not fall now."

The Littlefield store, which is being established on Phelps Avenue, next door to Hattie's Dress Shop, will be managed by Fred Helton, formerly of Levelland. Mr. and Mrs. Helton and C. E. Birdwell are here preparing for the opening of the new store.

next week.

Pfc. Hammons is a Marine Paratrooper, and has been in active service on Guadalcanal and Bougainville, etc. He has been in the service since August 5, 1942, and overseas about a year.

His parents talked to him over long distance telephone Monday, and as he reported he had lost considerable weight.

When Disaster Strikes

While the American Red Cross, through its various services to our men in the armed forces, is engaged in its largest job both overseas and in the military and naval posts in this country, its peacetime work must go on unhampered. There is its "Disaster Service," for example.

In the year just past, disasters—natural and otherwise—struck on the home front 178 times. A total of 1,019 lives were lost and 3,208 persons were injured through these disasters. More than 67,000 buildings were destroyed and 45 states affected. The Red Cross rendered emergency aid to 119,295 persons.

What is "disaster?" A flood plays havoc with a community, causing suffering and privation to many people. A large fire makes many homeless and for a time in need of life's necessities. A hurricane whips through, demolishing buildings, crops and causing helplessness on many sides. These and any similar situations which cause extensive need for emergency assistance are considered under the head of Red Cross "disaster."

In such instances the American Red Cross is on the job promptly and takes over, sets up, and operates the machinery of relief until normal conditions are restored. Since there is a Red Cross chapter in practically every county in the United States, disaster relief can be gotten quickly under way; years of experience have taught the best methods of operation.

Of the 178 disasters which occurred last year, sixty-eight were fires, forty-two floods and thirty-

AMERICAN SOLDIER—The night before he enlisted in the United States Army in 1917, Edward Markham, editor of the St. Peter (Minn.) Herald, wrote a little essay that hundreds of thousands of other American soldiers are saying in their own way today. What he printed then is worth printing again:

"I am a mother's son . . . I am the pride of a family and part of a home . . . I love my life as you love yours. I am a youth in years and experience in life, yet I am a gambler, betting the highest stakes that a man can wager . . . my life . . . If I win, you win; if I lose I have lost all. . . The loss is mine, not yours; and there is a grieved mother, a saddened family and a broken home to which I can never return.

"I ask only for the Godspeed and support of my nation in return for laying upon the altar of my country my all. . . For bravery and blood will you furnish bullets and bread? Will you pawn your shekels if I pawn myself? Will you bet your gold while I risk my life? I am the flower of a nation's manhood, the glory of a noble race. I am the American soldier."

Plans Underway To Remodel Church Of Christ Building

The Littlefield Drive Church of Christ placed an order recently with the L. L. Sams & Sons Company of Waco, Texas, makers of church furniture, for 42 new pews to be installed in their auditorium.
Due to the abnormal conditions prevailing at this time, it will be about the first of June before these seats will be available for installation.

Plans are also underway for the dashing of the outside walls, repainting of the window frames and the roof. When this work has been completed, and the new pews installed, you will find the LFD Drive congregation both comfortably and attractively housed.

In addition to these material plans, the congregation is likewise caring for the spiritual needs. A Fall meeting has been planned with Bro. Murray Phillips, of Natchez, Mississippi, to begin the last week in August. Brother Bill McCown, regular minister at the local congregation, will officiate and supported in a mission meeting in the Evangelical Country Club at New Berlin, La.

A regular program of work and worship is carried on by the local congregation. Bible study with classes at 10:15 a. m. on Sunday, 10:30 a. m. on Tuesday, 7:30 a. m. on Wednesday, 11:15 a. m. on Thursday. Evening services are scheduled for 8 o'clock, both Sunday and Wednesday. Ladies' Bible Class meets Monday afternoons at 2:30.

You are cordially invited to attend any or all of these services. We believe that you will be pleased with the simplicity of our worship and know that you will find it to be scriptural in every way.

Dickey Standifer, 12, son of Mr. and Mrs. John Standifer, who underwent an appendicitis operation at the Payne-Shotwell Hospital Friday last, is getting along nicely.

Requests \$116 For Each \$100 Bond

Mayor Homer Hall, in an interview Tuesday stated that recently after taking care of the annual payment of principal and interest due by the City each year on their bond indebtedness, it was decided by the City Commission to use the surplus money on hand over and above the City's obligations, to buy up some of the City Bonds which were not yet due and thus save the payment of

Facts on the rubber situation by

Phillips Petroleum Company, operating a 90,000,000 pound butadiene plant, for an annual production of rubber equivalent to 11,000,000 tires

THE RACE FOR RUBBER is right now entering the homestretch. Swiftly and surely, the nation's synthetic rubber plants are approaching peak annual production of 850,000 tons.

Despite this record-breaking achievement, the next six months are the time of crisis, because the full fighting power of rubber is needed for war: Tires for planes, and combat trucks and cars... rubber for life rafts and landing boats... rubber for bullet-sealing tanks and electrical insulation... rubber for a thousand and one victory needs.

This is why only the most essential civilian drivers can be supplied with new tires of synthetic rubber, at least until late in the year. The rest of us must

continue to save miles and rubber, and recap in time to keep rolling.

As a major producer of butadiene (the chief ingredient in synthetic rubber) and 100 octane aviation gasoline, the Phillips Petroleum Company presents these facts as a contribution to general understanding of the present transportation problem.

With us, as with every American motorist, the needs of war come first. But when victory is won, car owners will begin enjoying the benefits and product-improvements flowing from Phillips' gigantic chemical plants, devoted to producing new and better things from petroleum gases as well as petroleum.

4 1/2 per cent interest on such part of the City's indebtedness.

The City Commission were surprised to learn that the Brown-Crummer Company requested \$116 for each \$100 Bond, and also stated they didn't know whether they could find any at all for sale.

Mayor Hall stated that it might be well to buy War Bonds with the City surplus funds, as it was the patriotic thing to do, and, too, the City might have bad collections later on and need the money.

Appeal Issued For Furniture At Army Camp At Lubbock

The Llano Estacado Camp and Hospital Council had its regular meeting in the patients recreation room of the Lubbock Army Air Field Station Hospital the second Thursday of January. Lamb County was represented by Mrs. Ves Terry, County Chairman, and Mrs. Lyle Brandon. Each town chairman in the towns should remember the second Thursday of each month as the regular meeting date, and attend some of these meetings. The time is 2 p. m.

There were many requests at this meeting. Furniture, books, and records. They want both fiction and non-fiction, especially books of scientific matters. Records of all kinds, however, they want more classical and semi-classical this time.

They have an estimate of \$148 for repair and upholstering on most of the old furniture we gave them in the last drive. This must be taken care of as soon as possible or the furniture will have to be discarded. Let's not give our boys something we don't want ourselves; they are giving their all, even their lives, for us, so don't you think they are entitled to the best.

They are asking for furniture for two large rooms for the pilots who are flying the heavy bombers and towing the gliders. These boys are under a terrific strain and certainly do need a place to relax by themselves between shifts. Want six or seven divans, eight or 10 good chairs, 10 or 12 tables, several desks and at least 20 ash trays for these two rooms. These boys have a big job to do and they are really doing it. Let's do our part just as well.

If you have any of the above items, see these different chairmen in your towns: Mrs. J. T. Elms, Littlefield; Mrs. M. E. Kelly, Earth; Mrs. Lester LaGrange, Amherst; Mrs. F. W. Jones, Oiton; and Mrs. G. W. Chesher, Sudan. Call these women and offer your assistance in putting on this book and record drive in the near future, watch your papers for further information. But do start working on it now and let's be ready.

You bet we're buying War Bonds

on the

Troop trains... hospital trains... trains loaded with tanks, planes, guns, and food, bring us pretty close to the war. We see lots of them on the Santa Fe. Already over 9,000 of our employees are in the armed forces. That's why we railroad folks know how important it is to buy War Bonds and keep on buying them. Approximately 50,000 of our people

are buying War Bonds through the payroll deduction plan to back up our armed forces, as well as to save for peace and the future.

The Santa Fe Railway has purchased large amounts of Government securities—and that policy will be continued.

If you were "Workin' on the Railroad" these days, we believe you, too, would buy an EXTRA War Bond during this 4th War Bond Drive.

Pin-up picture for the man who "can't afford" to buy an extra war bond...

YOU'VE HEARD people say: "I can't afford to buy an extra War Bond." Perhaps you've said it yourself... without realizing what a ridiculous thing it is to say to men who are dying.

Yet it is ridiculous, when you think about it. Because today, with national income at an all-time record high... with people making more money than ever before... with less and less of things to spend money for... practically every one of us has extra dollars in his pocket.

The very least that you can do is to buy an extra

\$100 War Bond... above and beyond the Bonds you are now buying or had planned to buy. In fact, if you take stock of your resources and check your expenditures, you will probably find that you can buy an extra \$200... or \$300... or even \$500-worth of War Bonds.

Sounds like more than you "can afford"? Well, young soldiers can't afford to die, either... yet they do it when called upon. So is it too much to ask of us that we invest more of our money in War Bonds... the best investment in the world today? Is that too much to ask?

When Captain Wiggins speaks, the men listen closely, for they know his record of 156 hours of combat flying qualify him as an outstanding instructor.

The heroism and skill exhibited during 53 missions in the Solomons area brought Captain Wiggins the Distinguished Flying Cross and the Air Medal. He also was awarded the Purple Heart.

He was decorated with the DFC for scoring a direct hit on the bow of a Japanese destroyer "despite heavy fighter opposition, tremendous anti-aircraft fire and a severely damaged engine that momentarily threatened to engulf his dive bomber in flame," according to the citation from the secretary of the Navy.

Captain Wiggins' engine failed as he was retiring from the action, and only his skill enabled him to make a dead-stick landing on the water. Both he and his gunner got out of the sinking plane and into a rubber lifeboat, and were picked up later by a Navy patrol ship. Injuries received in that action occasioned the Purple Heart.

During their diving and scouting missions, members of Captain Wiggins' squadron constantly encountered Jap Zeros. It was in such a period of hostile activity the Marine aviator's "outstanding professional ability and keen initiative" earned him the Air Medal.

Then a first lieutenant, he scored two direct hits on enemy troop transports. This was done, the Air Medal citation noted, "despite heavy

NEW HIGH SPEED MILITARY TRACTOR IS ANNOUNCED BY ALLIS-CHALMERS

Springfield, Ill.—How Uncle Sam's big guns will get to Berlin was revealed here with the announcement of a radically new type high speed artillery tractor developed by the tractor division of Allis-Chalmers Manufacturing Company in cooperation with the U. S. Army Ordnance Department. Described as an 18-ton tank-type military tractor, and officially designated as the M-4 Prime Mover, the new unit, in addition to providing high speed motive power for hauling heavy artillery, also carries the gun crew and initial rounds of ammunition. It is armed with a caliber .50 machine gun for the protection of the crew. A closely guarded military secret until now, this high speed tractor has already seen front line action, and is augmenting trucks,

half-tracks, regular crawler tractors and other units now being used for the movement of field artillery in combat service.

The purpose of the unit, tractor division officials explained, is to "get there first with the greatest fire power."

The crew and initial rounds of ammunition arrive with the gun, and firing starts as soon as emplacement is effected.

Mechanical details are still a military secret, but officials say that the M-4 incorporates the latest military and automotive engineering developments as well as innovations in design and operation that will find their way into commercial products after the war.

The Allis-Chalmers company is represented in Littlefield and territory by Jones Hardware.
