## SPECIALIST WEST TEXAS FOR COTTON

Hunter, Department of Agriculture, expert, recently completed a tour of inspection in West Texas. A recent bulletin issued by him, he says:

"The situation in West Texas, within the limits of the cotton belt, is such that such planting is recent, and a possible increase in the production of 5,000,000 bales is possible. This possible increase in acreage and new territory as well as within the present limits of the cotton belt in Texas, would increase the volume of the American cotton crop by 10 per cent."

"The increase of immense significance in these figures is certain to be a great acreage planted to cotton. Second, West Texas acreage yield as a general spread of cotton in that section rapidly is a possibility of elimination of sections outside of the cotton belt."

"The acre production of cotton in this country over a period of 285 pounds per acre has been 135 for the cotton crop in West Texas, without the use of fertilizers, can be increased to the acre, and the stimulation of natural growth of the country can do no better than a bale. The acreage is overwhelmingly in favor of the Plains farmer. The increase in West Texas indicates that the death of cotton has been concentrated reduction. There is little effort to have in the future. Therefore, that with conditions a record will be produced in a few years: Low production costs are such a development upon those who are producing cotton. The result will be a development of cotton in the growing regions of West Texas appears to be the position of cotton growing in the West, but that of the cotton crop can be

"The women of Blackwater Draw met last Friday at the home of Mrs. Johnson's and organized a home demonstration club. Officers as follows were elected:

Mrs. L. A. Robinson, president; Mrs. E. W. Willis, vice-president; Mrs. E. W. Herman, secretary-treasurer; Mrs. H. W. Qualls, reporter; Mrs. C. L. Johnson, chairman of program; Mrs. W. M. Atkinson, chairman of membership.

Gold and white were selected as club colors, and it was voted to purchase a community canner and sealer. Captains were selected and a membership contest will be started immediately, the losers to entertain the winners. Pictures were taken of the members present.

The next meeting will be held April 17th, at the home of Mrs. W. Matkinson.

## ROCK

Pave High Plains.

The allowing the voting of \$100,000 worth of waterworks bonds for extension of the service, the city officials of Slaton, last week let the contract for the construction.

This additional expenditure will take care of a city of 25,000 population, and will mean much toward the city's future prosperity.

## TWO DAY MILLINERY SCHOOL

Ladies to Meet at Presbyterian Church April 9 and 10

Mrs. Dora R. Barnes, clothing specialist from the Extension Department, at College Station, will conduct a Millinery School, assisted by the local Home Demonstration Agent, April 9 and 10, in the basement of the Presbyterian church.

This school is planned particularly for the women of Lamb county. If you have a millinery problem bring it April 9 and 10, and let Mrs. Barnes help you solve it. It costs you nothing. If you have either a hat for an adult or child to be renovated bring it—for renovating, cleaning and dyeing. If they are to be dyed any color except black, bring the dye, any commercial dye, such as Putman Elkay's—Colorite, etc., with which to dye them.

If for making hats—bring frames, if you have one already, and any material you have on hand, otherwise, material will be on display for your selection. The local merchants will be glad to accommodate you. Each woman needs to bring scissors, tape, needle, thread, and any other material needed for a hat. Some scraps are used to have for test stitches; paper and pencil, etc.

A big spread will be made from the lunches brought by the women. You really know the joy of an old fashioned dinner spread. Yes, we shall have that very kind—so ladies come, bring your basket and stay all day or both days, and do not miss anything. There will be social time, meeting your neighbors and county citizens, besides valuable free information that we need all the time.

## SNAPPY GAME SUNDAY

Littlefield Defeated Amherst with Pinch Hitter Thompson.

At the hands of Littlefield, and on their home grounds, Amherst met defeat last Sunday afternoon, in a score of 9-2.

The game opened with Pruitt in the pitcher's box and Ellis behind the bat for Littlefield, the first six innings being a pretty close stand-off. In the seventh inning the score stood 2-1 in favor of Amherst.

At this point in the game Thompson went into the pitcher's box, and from that time on the visitors played some real ball. In the eighth inning Thompson tied the score, and later on, with three men on bases he struck a three bagger, bringing in three other men on a force run and clearing the bases.

The largest crowd of the season is reported to have been in attendance at the game.

## THE YELLOW HOUSE SELL 15,000 WHITE FACE YEARLINGS

One of the largest cattle deals of the year was consummated last Tuesday, when J. P. White, of the Yellow House ranch sold to his brother, J. W. White, of Mason, Texas, 1,500 white face yearling steers at \$35.00 per head.

This bunch of yearlings is considered the best in the country, and will be shipped to Mason within the next few days where they will be matured. It is stated that this same quality of cattle sold last year for \$24 and \$25 per head.

With the shipment of this bunch of yearlings, the once large herd that roamed over the broad acres of the Yellow House ranch is further depleted. Slowly, but surely the cattle are giving way for the new settlers coming in to take up the land for more profitable usage.

The first of next month seven more leagues of land, or about 31,000 acres will come onto the market for settlement by the Yellow House Land Co. This land has already been surveyed and some tentative locations decided upon by prospectors who are anxious to locate in this new section. That it will go quickly to the hundreds of home-hungry people coming this way there is no doubt.

It is now only a matter of a few months time until the last cow of this once famous ranch will be forced beyond its borders and every quarter section will be occupied by a new homestead.

## LAMB COUNTY COTTON

Official Washington Report Shows Big Increase Over Last Year.

Official report, dated March 20th, and received by this newspaper this week from the Washington Bureau of Census, shows a tabulation of 10,834 bales of cotton ginned in Lamb County this year, as compared with 2,402 ginned last year.

## WORKING HIGHWAY

A crew of workmen are now engaged in resurfacing the Olton-Littlefield highway over a stretch of about 12 miles long through the Sand range. Clay is being brought up from the bar pits alongside the road for surfacing purposes and filling the chock holes.

Success—"I burned the midnight oil—and I succeeded."  
Youth—"Yeh—I burn it now and get pinched for speeding."

## BEGIN REVIVAL MEETING

Rev. Morton, of Carbon, To Preach For the Methodist People.

Revival services will be started at the Methodist church next Sunday, March 29th.

The pastor, Rev. Silas Dixon, will be assisted in the meeting by Rev. W. B. Morton, pastor of the Methodist church at Carbon, Texas.

Rev. Morton has the reputation of being a forceful old time Gospel preacher, and those who hear him once will want to again. A special song leader is being arranged for, and the music will be a feature of the meeting.

All churches and individuals are given a cordial invitation to co-operate in this meeting.

## ANTON TO HAVE A BIG CELEBRATION FRIDAY NIGHT

In keeping with the progressive spirit of our sister town and community, there will be held a big celebration at Anton, March 27th, at which time several of the new brick buildings on Main avenue will be open. All these buildings are to be occupied with real up-to-date business firms.

The public is assured that plenty of entertainment will be on hand for the celebration. The Littlefield Chamber of Commerce band, accompanied by a large delegation, is planning to be present and extend their good wishes and fellowship greetings to this rapidly growing new town of the South Plains.

A program committee has been appointed and no detail of arrangements is being left undone to make this a memorable event to all visitors who may be fortunate enough to attend. The roads in all directions are being marked with signs, so that even the strangers passing through, or but lately moved to this section, may readily find their way to the seat of festivities on this occasion.

Anton is destined to become one of the most populous and prosperous little cities of this section. Several new buildings are now under way of construction. The homes of Messrs. John Higgins, C. D. Reid, and J. D. Gilbert are now practically completed, and last week arrangements were made with Jess Mitchell for the publication of a newspaper at that point, which publication will start off with more than 300 subscribers.

## MANY WEST TEXAS TOWNS VOTE FOR MORE WATERWORKS

In consideration of the fact that so many of the neighboring towns are voting bonds for waterworks extensions, Littlefield seems to be right in line with the general spirit of the South Plains.

A brief resume of the newspapers coming to the exchange table of the Leader reveals the fact that Slaton, which had already voted \$90,000 for waterworks system, about three weeks ago let the contract for an additional \$190,000 extension. Slaton's water plant pays all the city expenses, they receiving a rate of \$1.50 for the first 2,000 gallons consumed; 40 cents for the next 3,000 gallons, and 25 cents for every 1,000 gallons over the first 5,000. This is a fair example of what can be done in Littlefield.

Brownfield, with a population of about 1,200, is just completing a waterworks plant that will cost them \$40,000.

Ralls has just completed a \$50,000 water plant. It has a population of about 1,100.

Paducah, with a population of 3,500, has let an additional contract for 170,000 water and sewer improvements.

Floydada is completing a \$60,000 sewer system to go with their \$75,000 water plant.

Claude, with a population of only 700 people, recently voted \$40,000 for an ice plant and waterworks system.

Amarillo has just voted \$1,750,000 for municipal waterworks.

Muleshoe and Amherst, both nearby towns, are now contemplating putting in water and sewer systems.

## OLTON HAS CONTEST

Ladies Consider Hat and Cheese-making—Have Secured Garbage Grounds.

The Olton Home Demonstration Club met March 19th, at their regular hour. Several members were present, and Miss Burkhalter gave a very interesting demonstration on cheese-making and serving. We made cream cheese and cottage cheese. This was indeed interesting and helpful. Then she told us the uses of junket. We made several deserts using the junket powder, which was much quicker than using the tablet.

We put on a new membership campaign. The members of the club were divided, with Mrs. R. L. Hunt, captain of the "Golds" and Mrs. J. B. Patton, captain of the "Whites." We cordially invite the new ladies of the community to our club.

Our next meeting will be April 1st. We will have Miss Claytor, of College Station with us. She will give a very interesting lecture, I am sure. The club will give a program with Mrs. L. E. Silcott and Mrs. L. M. Black hostesses. Everybody come.

All the clubs of Lamb county are putting on a millinery show at Littlefield the 9th and 10th of April. Mrs. Barnes will be with us, so let's make over our old hats or make us a new one. Every one invited.

Ladies we have found a place to dump our junk. So load up all your old tin cans and all kinds of rubbish and carry it all to Dady Bonher's place and throw it in his old cast away silo. So let's take a day off and clean up around our home. We won't only rid our place of filth and flies but make our little city cleaner.

## Poem

by Uncle John

My niece has bought her new spring hat—a snug, artistic dome—that looks like it was built to keep her intellects at home; I never like the "cart-wheel" shapes she wore in years ago, that took a half a dozen spears to hold the critter on, but this here up-to-date device that crowns her brow today, is certainly a winner—and, I'm back of what I say!

"A gravy-bowl turned upside down" describes it mighty nigh, and a single, bobbin' feather captivates the searchin' eye. Its base-line gives the merest hint of Venus in eclipse—but it fairly socks the emphasis on smilin' ruby lips!

Although my niece's new spring hat ain't needin' no defense, I'll stake my reputation it's the peak of common sense. The unassumin' egg-shell may be plumb bereft of pride, yet every time we meet one, we can swear to what's inside! When we run across perfection it's the time for standin' pat—so, I register approval of my niece's new spring hat.

Uncle John.

### JAMES SIMPSON'S PREDICTION. MAN'S GREATEST WAR. GET YOUR MONOPLANE. THE QUEEN BOBS HER HAIR.

Manufacturers that produce, merchants that distribute and workers that depend for employment on generally prosperous conditions will be interested in one paragraph of a letter just received from Mr. James Simpson, president of Marshall Field & Company.

Mr. Simpson, whose business far exceeds one hundred millions a year, writes:

"Business for the year starts off very well with us, and the general feeling of confidence is developing with just enough conservatism to make me feel certain that we are entering upon a period of sound business development and activity."

## Community Building

### Beautiful Village Near Chicago Won't Grow Up

Winnetka is one of Chicago's most beautiful residential suburbs. It is a village that has refused to grow up. In its early days its promoters made valiant efforts to accelerate its development only to see Evanston on the south, Gross Point on the southwest, and even communities to the north flourish while Winnetka, the "beautiful land of the Potawatamies, languished unnoticed. The Green Bay road was no longer an avenue of commerce, and the railroad, aside from establishing a "wooding station" to replenish the fuel supplies of its wood-burning locomotives, aided little in the early development of the community.

The Chicago fire gave Winnetka its first boom; but its growth, until fifteen years ago, was slow. Since that time the efforts of the conservative element have been not so much to stimulate development as to restrict it. Winnetka believes that its chief charm is its village atmosphere, a smart pseudo rusticity as an antidote for those who have to spend their working hours in the city.

Winnetka's streets wander about and in and out like the country lane, leisurely streets, to be used by leisurely people. A straight line may be the shortest distance between two points, and streets crossing each other at right angles may afford the quickest and most convenient means of communication; but in Winnetka village there is no need for speed. It is a haven of refuge from right-angled streets, cubical buildings and all that they connote.

Winnetka's principal business building—business buildings being permitted only on sufferance—is in harmony with the village idea. It is in the half-timbered architecture of the English village, a style that is much in evidence in the architecture of Winnetka homes. There is no tavern in Winnetka at present and by the zoning ordinance adopted last January none can be built, nor, an duplex houses or apartments be erected. A few blocks along the railway tracks are set aside for business and industrial purposes; the rest of the village is restricted to residence buildings exclusively.

Further restrictions are imposed by the terms of sale of vacant properties. It would be hard to find a lot in Winnetka that could be purchased without restriction as to the cost of the residence to be erected on it. In the subdivisions these restrictions run from \$10,000 to \$20,000. There are no movie theaters; but hand-picked films are shown at the Community house, an institution serving as a clearing house for most of the village activities.

### Anti-Billboard Campaign

Further results of the campaign against billboards in spots where they disfigure natural or civic beauty by the Woman's club of Glens Falls, N. Y., which is supported by the New York State Federation of Woman's Clubs, is reported by Mrs. W. L. Lawton, secretary of the national committee for restriction of outdoor advertising, in the New York Post. Mrs. Lawton, whose home is in Glens Falls, was the moving spirit of the campaign there.

It is reported that 28 firms which used boards for local or national business have taken down some or all of them; that 15 have painted out signs from rented boards, and that 13 firms are known to have given up new boards planned for the coming season. Forty-two boards have been taken down, 46 signs have been painted out, and more than 100 have been prevented from going up.

Special emphasis is laid by the Glens Falls Woman's club on keeping signboards off Lake George highway, the most scenic road in the vicinity. The state and national advertisers have ordered their posters off this road.

### Must Pass on Plans

"The ruling that plans for public buildings to be erected in the District of Columbia should first be submitted to the fine arts commission has great advantage for the city of Washington," said Joseph A. Meyer, of Pittsburgh, at Washington, D. C. "It is a regulation that will bear careful consideration by the authorities of all large cities.

"No doubt the fact that Washington has so many large, beautiful buildings is due to just this regulation. Of all the cities of the United States, there is certainly none superior to the capital in the symmetry, beauty and diversity of its large public structures. But to bring this condition about there must of necessity be careful planning and insistence by authorities on the elimination of everything unsightly and purely utilitarian in the way of public buildings."

### A Symmetrical Tree

London plane is a relative of the American sycamore, usually listed as Oriental plane, says the American Tree association of Washington, D. C. It is supposed to be a natural hybrid between our sycamore and the true Oriental plane. This is more symmetrical and compact than the sycamore, and in many cities it is more used than any other tree, because of its beauty and the readiness with which it adapts itself to the conditions of city environment.

### Infertile Eggs Contain Some Important Elements

Feeding of infertile eggs that have been candied out of an incubator was mentioned in a recent issue of the Orange Judd Farmer. It was suggested that these be cooked and ground up to feed baby chicks. Some complaint is made about the odor of these eggs. Don't let that frighten anyone. If they are thoroughly cooked there is no danger to the chicks. Even the eggs containing dead germs if candied out before they are too far along, make good feed.

The chicks thrive on these ground eggs, and they furnish some important feeding elements. The shells can be ground up with the eggs. Frequently the number of eggs tested out of incubators is small. In such a case, market eggs are usually profitable as a feed for the first two weeks.

### Poultry Notes

\*\*\*\*\*  
 Head lice kill chicks and poulets.

\*\*\*\*\*  
 Sell the males and produce infertile eggs.

\*\*\*\*\*  
 Keep brooding baby chicks until they are fully feathered.

\*\*\*\*\*  
 You can count your chickens before they hatch if you observe carefully the correct principles of egg selection and incubation.

\*\*\*\*\*  
 Wood floors for poultry houses are a little cheaper in first cost, but rot easily and are difficult to keep clean and free from vermin.

\*\*\*\*\*  
 The location of the poultry house requires very careful consideration, as it has a great deal to do with the convenience of handling and the success with which the work is carried out.

### Increase Yield of Eggs by Destroying All Mites

Poultry men and farmers sometimes overlook a very important fact. It is that the best of feed, plenty of it, well balanced ration, etc., will not induce hens to lay eggs if they are compelled to roost in houses infested with mites.

The little red insect saps the vitality of the hen by sucking her blood. Hens have actually been killed, virtually eaten alive, by mites. Chickens cannot lay except when their vitality is maintained. Vitality and mites cannot exist in the same hen roost.

Guard against mites by giving all woodwork inside the poultry house a coat of hot whitewash well carbolized.

The roosts and their supports should be painted all over with carbolineum, zenoleum, carpoline, or kresol. These are all similar products, called by different names by different manufacturers. They are cresol or tar oil disinfectants, and are death to mites, while in no way injurious to the chickens.

The time and cost of carrying out these suggestions will be amply repaid by the hens who will show their appreciation by an increased yield of eggs.

Mr. and Mrs. Cliff McKnight made a flying trip to Snyder last weekend.

Mr. and Mrs. W. H. Jarrell of Farwell, Texas, visited Mr. and Mrs. Pat Hart this week.

M. M. Greenbaum, of Dallas, was the Sunday guest of Mr. and Mrs. G. M. Shaw.

Dr. W. P. Pillians, who has been in a Lubbock sanitarium for the past week, has returned home much improved.

The infant child of Mr. and Mrs. Homer Thornton was badly burned last Monday when a heating stove overturned on it.

C. E. Ellis is this week adding new show cases and counter display room, also rearranging his store to take care of increasing business.

Mrs. Dealys and Miss Bettye Jo Eddins, of Slaton, are this week the guests of Mrs. R. N. Beckum and family.

**BORN:** March 21st, to Mr. and Mrs. H. E. Robeson, Jr., an eight pound girl. Mother and baby doing fine.

Mr. and Mrs. T. L. Bruce, of Sayer, Okla., are here prospecting this week and purchased two lots in Southmor addition.

Otto Jones, of the West Texas Grocery, has moved his family here from Goree and is temporarily located in the rear of their store until his residence can be completed.

Len Irvin has resigned his position as deputy sheriff of Lamb County, and will in the future devote his time entirely to the duties of the office of city marshal of Littlefield.

Pro. Decker, of Verdun, Okla., is here this week making improvements on his 640 acres of land near Morton. He states it is very dry in the section of Oklahoma from whence he came.

Hurbert Mueller, Wayne Gaither and Julian Joplin left Sunday for Austin, in connection with signing for places in the Central Texas baseball league.

Miss Mae Pittman, of Clovis, is here visiting her aunt, Mrs. R. N. Beckum and family. The Beckum have taken a contract to run the local telephone exchange.

Miss Mildred Beckum, of Memphis, arrived Tuesday for a few days visit with her mother and sisters of this place. She is a Senior in the Memphis high school and will return to her studies next week.

Manager A. R. Hendricks returned Monday night from Dallas where he has been attending a convention of telephone managers. While on the trip he visited several other east Texas points.

H. H. Carrell and son, Seth, of Tatum, New Mexico, were visitors last week in the home of his brother, J. I. Carrell and family. He was greatly impressed with the growth of the city since his visit here last August.

J. D. P. Schmidt and T. B. Schmidt of Chickasha, Okla., who bought land near Morton are here this week making improvements in the way of putting up buildings and breaking out land. They own 435 and 278 acres, respectively, and have a couple of nephews owning 218 and 216 acres, respectively, all of whom expect to make this their home during the year.

W. I. Cole and family, of Killeen, are here this week visiting with his brother, R. E. Cole and family. He recently sold out his business in Killeen, and while en route to Littlefield, stopped at several places contemplating a new location. It is needless to say, however, that when he arrive here the matter was entirely settled. He is wonderfully impressed with this town, and is already planning to become a permanent citizen in our midst.

Albert Anderson and Clyde Arnold returned last week from Paint Rock with a whopper of a fish story, incidently they brought back with them some of the proof in the form of a yellow cat of the ichthyological tribe and weighing 21 pounds average. In a day and night fishing they pulled out of the Concho river nearly 100 pounds of the finy family, several weighing a little less than exhibit "a" which they brought along to confirm their story. The editor of this great religious weekly has frequently fished in this same river and at the identical spot wherein this alleged catch was produced, but he was never able to secure any such catch at this. These gentlemen both being highly reputed citizens of this little city, there is no doubt as to the veracity of their statements; but the dry and innocent public certainly is entitled to know the particular brand they used or fed to the fish in order to make these denizens of the deep act so foolishly and in such wholesale manner.

# DISTINCTIVE and NEW SPRING FROCKS

—Distinctly new, this group of frocks combines the chic and liveliness one expects only in expensive high-priced frocks with a price that makes possible for every woman to have two new Spring frocks at the price she would ordinarily pay for one frock of this type. This new silhouette, softer and more feminine than the straight, uncompromising silhouette of former seasons is introduced in many strikingly individual ways, in order to keep the freshness one found in the boyish lines of the piece frock. Soft, graceful material give the frocks the slight flare introduced for Spring Wear.

## MATERIALS

—Every frock is fashioned of the finest materials available. Soft chiffons, silk crepes, crepe de Chine, Crepe Satin, Georgette and printed silks are used for the dress frocks. For the sport frocks, fine woolen cashmere, kasham twills and flannels are used, in stripes, checks and solid colors.

## COLORS

—Alluring new colors adapted, give the utmost chic and simplicity. Included are lovely shades of green, rose, violet, blonde, poppy, grey and navy blue. Every color ranging from the high pastel shades to black are presented.

## STYLES

—Tailored frocks and frocks have the new silhouette which may be at the sides, or all around the bottom of the skirt. One and two models are shown. For frocks, there's the rippable jabot, and the fullness of the new apron flares, inserted godets, straight line frocks, with sleeves and long sleeves.

## New Spring Footwear

—Footwear that is indescribably beautiful—the last word in all that is fashionably new and smart. Shoes that will meet every demand of the woman who wishes to be well groomed. There is a style to complete every costume—priced so reasonably that it is possible for every woman to purchase at least one pair, and women with foresight will purchase more than one pair.

## Choice Spring Hats

—We have a very choice selection of irresistible spring hats. Every style displayed—from the jewel-tinted felt hats to the elaborate models of silk and straw. Many new picture hats are also shown.

—Our ready to wear Millinery Department has filled a long felt want with the ladies of this community. Every hat purchased by us this spring was bought with a definite purpose in view of becomingly fitting some particular type of feature. Therefore, we have a line of the latest creations from which every woman, young or old, slender or stout may make a pleasing selection.

## RUNNING LIKE A CLOCK

—30,000 miles is this car's record and it is just as powerful as ever. But then—Sam Jones is one automobile owner in a thousand: has it overhauled regularly, small parts replaced when necessary and keeps the radiator repaired to keep it from running dry and heating the engine.

—How about your car? Is it as powerful as ever despite its miles. It can be so. An overhauling of engine—carbon removed, valves ground, maybe new piston rings or replacements of small parts slightly worn—and it will have the same old "kick" or "get-there" feeling of old.

Drive it around. We will tell you honestly if it needs any adjustments.

 O. W. Ribble and F. E. ... Miss Marie Hood, ... with a surprise party at ... of Mrs. Ribble.

As soon as all guests were present, each was given a tea towel to use and finish in any way they so desired. Later on each guest was presented with a sheet of paper, on which she was requested to write her favorite recipe. This was rather hard on some who had never cooked and consequently had no favorite recipe. A few of the late magazines were extremely popular among these. Delicious refreshments of bread and butter sandwiches, green salad (topped with a green cherry) cake and tea were served. After vainly trying to learn from Marie just when and where the said incident was going to occur, the crowd departed, declaring they had never had so much fun in one evening.

Those present were: Mesdames Fred Hood, S. D. Hay, and Misses Marie Hood, the guest of honor, Dixie McMeans, Willie Mae Moffett, Viola Collins, Gladys Johnson, Eva Frank, and the hostesses Mesdames Miller and Ribble.

As no man were allowed at this party, the husbands of the hostesses had their revenge by acting as butlers for the occasion. They were given a rising vote of thanks for their splendid services and politeness (?).

Our heartiest congratulations to the proud parents and to the equally proud brothers, Bill and Jack. Mother and baby are doing nicely.

**NAMES FOR THEATRE**  
 Only a few names have been suggested for the new theatre. A 30-day race is worth working for, and as most of us enjoys a good picture show, why not try to be the lucky one?

Following is the list of suggested names and the date of receipt: Alpha Theatre, Comeallye, Princess, Royal, Gay, Dixie, Grand, The Merry Hour.

## MARRIED AT OKLA. CITY

Movie Man Imports Beautiful Bride To Sell Tickets.

Thursday afternoon, March 19th, at the home of the bride's parents, in Oklahoma City, W. J. Chesher and Miss Neva June Stogner were happily united in marriage, returning the following day to Sudan, where they will make their future home.

Mr. Chesher is a brother to our fellow townsman, A. C. Chesher, and is to be the proprietor of the new picture show in Sudan that is now nearing completion. He is an excellent young man who has recently cast his lot in this section, and has already made a large circle of friends and business acquaintance. The picture show that Chesher brothers are putting in at Sudan will be one of the nicest to be found anywhere in this part of the South Plains country.

## MAX HOUK THROWN FROM FAST AUTO; SERIOUSLY HURT

Max Houk, nine year old son of Mr. and Mrs. J. C. Houk, was seriously injured today noon while coming from school.

According to report, he was riding on the rear of a Ford coupe that was going at the rate of about 25 miles per hour, and, in attempting to get off fell, striking his head against the hard ground of the street, rendering him unconscious. He was picked up by H. E. Robeson, who was just then passing, and taken into the Littlefield Service Station, when a local physician was called for examination.

Fearing there was concussion of the brain, as the child failed to recover consciousness, he was immediately rushed to a sanitarium in Lubbock for special examination.

The driver of the car is unknown.

## MUST GIVE MORE ATTENTION TO THE POULTRY HOUSES

Texas poultrymen often overcrowd their poultry because they wish to keep as many birds as possible throughout the winter, regardless of lack of proper housing facilities and of the results that follow such overcrowding. Often as much profit is made on a flock of 100 birds properly managed as on one of 200 birds which is crowded into a small house. The most successful poultry raisers suggest four square feet of floor space for each bird. With the improved, open-front house less space per bird is needed. However, in the average Texas hen house, which is usually some other building converted into a poultry house, four square feet of space is the minimum. Without the proper amount of floor space for each bird, the litter becomes damp and dirty quickly, and if it is not removed frequently, one can expect a drop in the egg production.

The idea of the average farmer is that chickens should rustle for themselves. Farmers who have been fortunate enough to have kept records on their farm enterprises have found that such a method is not satisfactory.

Hens give off more moisture and heat per one hundred pounds of live weight than any other farm animal; therefore, if the poultry house is to stay dry, it is essential that the damp air be carried off. Many West Texas farmers permits air drafts to strike the bird while they are on the roosts. This condition can be prevented by use of the open-front house. There is plenty of straw on the average farm, but the winter has found few farmers who take time to place this straw in their hen houses.

Poultry raisers in West Texas have complained to this department that their birds became too fat. When these people placed their grains under a straw litter and forced the birds to work for their feed, this condition was remedied, and the egg production in their flocks rose to satisfactory level.

A count should be made of the birds that are to be kept through the winter, and if there are more than can be housed satisfactorily, the surplus ones should be culled out of the flock. If one does not understand how to cull birds for utility purposes, he should secure the services of his county agent. The work of the county agents of Texas including both men and women, has been so much value to the poultrymen of this state because of the excellent results the agents have obtained in culling poultry.

One poultryman has said: "The essentials of a good poultry house are cleanliness, dryness, freedom from drafts, plenty of room, and plenty of sun light." I would like to add that the house should be a comfortable hen home.—Frank R. Phillips, Director of Agriculture, West Texas State Teachers' College.

**THE DISTRICT  
 INTERSCHOLASTIC  
 MEET, APRIL 17-18**

The University Interscholastic League district meet for the Lubbock District will be held in Lubbock Friday and Saturday, April 17th and 18th. All county directors should make prompt reports of County winners to proper district officers, and all schools represented by these winners should mail entries to district officers not later than April 13th.

The following list of district officers with their respective addresses is given: Director of Debate, Supt. F. P. Moss, Post; Director of Declamation, Supt. H. P. Caviness, Tahoka; Director of Essay, Supt. I. C. Bagwell, Snyder; Director of Music Memory, Miss Mary Dunn, Lubbock. County Directors of Public Music, and of Spelling will forward all 100 per cent papers to the state office of the University Interscholastic League, Austin, Texas.

The District Executive Committee has provided for a district music memory contest during the district meet. Teachers coaching teams in music memory, after having won the county meet, should file entries with Miss Mary Dunn, Lubbock, Texas.

All contestants in debate, declamation, music memory, extemporaneous speech, volley ball, and tennis should report in the auditorium of Lubbock High School at one o'clock Friday, April 17th, for instructions and to draw for position.

There will be Class A and Class B divisions of track in the county contests, but only one division in the district track meet. All winners of first, second, and third places in the county meets, either A or B may enter the district track meet. A fee of 25 cents for each original entry and 5 cent for every additional entry of same contestant in other events will be charged. The official entry blank with fees should be mailed to W. E. Patten, District Director of Athletics, at Plainview, not later than April 13th. There will be no 50 yards dash in the races, and the javelin throw has been added to the field events. The track meet will begin at 9 a. m. Saturday morning in the Lubbock County Fair Grounds.

The baseball championship for this district will be determined in Lubbock May 2, beginning at 10 o'clock in the fair grounds. Teams to be eligible to compete in this final series, shall be from member schools and shall have won from two member schools out of the four required to play. If any team plays more than four games, then such team, to be eligible, shall have a percentage of not less than 500 per cent. No team shall count more than one game won from the same school. Every team that has an eligible record on April 25th and expects to enter the final series at Lubbock on May 2nd should wire Mr. Patten expense. In case six or eight teams should be eligible to take part it would be necessary for the series to begin on Friday, May the first.

**AVAUNT, THE VOLSTEAD ACT**

It was a dry and thirsty bunch indeed that surrounded Cliff McKnight's car Monday morning as it stood in front of Stokes & Alexander's drug store. Some of them were spitting cotton, while others had their tongues rolling out of their parched mouths—all in hopeless anticipation of relief.

The secret of the whole matter was simply this: Cliff and his family went down near Fluvanna last Sunday to visit some of their folks, and while there visited a famous rattlesnake den nearby. The day was warm, and the reptiles, in anticipation of coming spring, were sprawled out on the rocks, sunning themselves. Cliff and his companions, all being very temperate gentlemen and members of the W. C. T. U., were very careful to not get bitten, but they did succeed in killing 10 of the 14 reptiles before the remaining four could get back into their den of winter for protection.

Everybody around these parts knows Cliff to be a very sober, hard-working man, never imbuing anything that would savor of snakes in his boots or delirium tremors, etc., but this was something out of the ordinary, and he felt that it was incumbent upon him that, before he attempted to tell such a snake story, he should have with him some evidences of the fact. So he brought along one of the diamond marked ovoviviparous specimens just as corroborating evidence. Stretched out on the running board of his car, the reptile measured five feet and four inches from tip of nose to bottom of tail. It had a circumference of a little more than nine inches around the largest part of its colly body, and

there were 10 immense rattlers buzzing on its appendage.

Of course, Cliff had no thought of creating such a scene and working such a hardship upon his fellow creatures when he stopped down town to exhibit the legless bird. Neither was it a premeditated determination of his that he stopped in front of a drug store. But he hadn't been there five minutes until he realized the awful mistake he had made. The reckless manner in which some of them approached the reptile was astonishing. Some poked it with their fingers, others waved their hand in front of its fangs without the desired result. At last some one explained that the snake was dead, and, of course no chance for a snake bit—and, no opportunity for the coveted antidote—with a drug store no nearby. Of course, anyone that knows Stokes also knows that he never carries in stock any of the famous cure for snake-bite so prevalent prior to the Volstead Act; but many of these spectators were strangers and unaware of the fact. Possibly some of them would still have been willing to take their chances, even tho it would have been necessary for them to go to Lubbock, Plainview, or some other nearby sea port for the desired remedy. But the great-great-great-grandson of the snake that Eve stepped on while picking posies in the Garden of Eden had lost its ability to become a satisfying agency for human thirst, and sadly the group departed, looking downcast and shaking their heads in a hopeless manner. Alas, such is life in desert America!

**CHURCHES ARE TO  
 CELEBRATE TEXAS  
 INDEPENDENCE DAY**

On account of the great crowds attending the monthly social meetings of the churches it has been decided to hold the next one at the school house where larger accommodations may be secured.

This next meeting will be held on the evening of April 21st, in commemoration of Texas' Independence Day.

C. J. Duggan has been appointed commander-in-chief of the occasion, and the following committees selected to assist in arrangements: Tickets—Mrs. R. D. Borough; Maps—Mrs. Harry Wiseman; Decoration, Mrs. W. G. Street and Miss B. L. Burkhalter; Program—Mrs. G. M. Shaw; Refreshments—Mesdames S. C. Givens, Walden and H. J. Jordan; Chairs; W. V. Tolbert; Children—Miss Lillian Hopping; Child entertainment—Mrs. Bessie Baze, Miss Lois Graham and Miss Vivian Courtney.

In as much as the expense of this social will amount to between thirty and forty dollars, a small charge of 10 cents per head admission will be made for all over eight years of age.

Mr. Duggan states an exceptionally interesting and entertaining program, with many surprises is being arranged for the occasion. There will also be a number of contests and prizes awarded.

Lookin' toward the future holds a fascination strange, for ambitious human natur' ever thirstin' for a change. — And, though we're doin' well enough as on our way we prance, we embrace a resky promise every time we get the chance!

Lookin' toward the future holds the element of doubt—jest enough to spur a feller who delights in findin' out,—No—it aint the fact of dyin' that arouses latent dread—it's the likelihood of sufferin' at the cross-roads on ahead—

Lookin' toward the future for a better, brighter day, we escape the hauntin' memory that would face us t'other way — While there's nothin' quite so certain as a snooze beneath the sod, nobody doubts the future of a pardsnership with God!

## Bayboro

Cobb, of Plainview, filled Sunday appointment for the following Saturday night and Sunday evening.

The first Sunday in April was the first Sunday upon the new Baptist church building recently completed here.

Mr. and Mrs. J. E. Brannen, of Littlefield, were Bayboro visitors on Sunday and Monday.

A large number of the young folks of the community attended singing at the church Sunday night.

Mrs. John Wright was a caller in the home of Mr. and Mrs. W. B. Serratt on Saturday afternoon.

Mrs. J. M. Serratt spent Saturday at the home of Mr. and Mrs. W. B. Serratt.

G. L. Blackshear moved into his new five-room residence Monday. The house has recently been added to this city's building movement.

Mr. and Mrs. Henry Gatlin, of Garrettsville, visited Mr. and Mrs. W. B. Serratt on Monday and Tuesday.

Miss Woolley, who has been visiting the Cox home for several days, returned to her home in McAadoo Saturday, accompanied as far as the home of H. E. Cox.

The big prairie fire which came

from Portales, New Mexico, Tuesday destroyed many acres of grass, but nothing of more importance was damaged. The cause of the fire is unknown.

Mr. and Mrs. Robert Snowden, of Memphis, Texas, returned home Thursday, having been called to the bedside of Enid Wallis, who has been dangerously ill, but it now rapidly recovering.

W. M. Lauerty of Spur, Texas, was attending to matters of business in the Bayboro community Thursday and Friday.

In the baseball games Friday, between the Bayboro school boy team and the local team with the Causey, New Mexico, teams, on Bayboro grounds, resulted in the score of 17 to 6, for the school boys here, and the score stood 25 to 5 in favor of the home boys local team. The games are to be returned on and played on the Causey diamond.

The party Friday night in the J. D. Essary home was well attended and a good time reported by all those present.

Frank Stevens of Eli, Texas, is visiting Clifford Wallis for an indefinite time.

Mr. and Mrs. J. W. Slone were business visitors in Portales, New Mexico, Saturday.

## Your Last Name

### IS IT CUSHING?

THE name of Cushing, well known in England and the United States, may be derived from Cuzson, a place in France, though it may, in some instances, be derived from the French word for cousin. One authority on name origin has it, however, that the name is derived from an older surname Cusyn, from the French, meaning cook, and that it is therefore an occupational name like Cook. Other forms of the same name are Cushon and Cushion.

The Americans of the name can trace their descent back to a period before America was discovered by Columbus. The first whose name and record are known was Thomas Cushing of Hingham, England, whose will is dated 1496. His son, William, of Hingham, England, had a son of Hingham, and his son Peter was the father of Peter Cushing who was born in 1589, who came to this country with his wife Nazareth, settling in Boston in 1658. Later they removed to Hingham, Mass., named from the old home of the Cushings in England. There have been many prominent Cushings in many different professions. William B. Cushing was a distinguished naval officer in the Civil war and Nathaniel Cushman was a brave soldier in the Revolution. There was a Thomas Cushman noted as a statesman in the Revolution, and a Caleb Cushing, born in 1800, an able statesman in pre-Civil war days. He it was who confirmed the first treaty between the United States and China. Frank Hamilton Cushing was a noted ethnologist and Jonathan Cushing was a prominent educator.

Tiffany.—This is an old English name derived from the word once popularly used for Epiphany. Perhaps it was first adopted by one who was born in the season of Epiphany—just after Christmas.

Budd.—It is hard to trace this surname to its origin. One good authority places it with a group of short names that are probably contractions of longer first names usual in Anglo-Saxon times which have since been lost sight of.

### The Appleton Family

Mr. Lysander John Appleton  
Mrs. Lysander John Appleton  
Miss Daysey Mayme Appleton  
Master Chauncey Devere Appleton

ALL his life Lysander John Appleton has been governed by a Court Tail Censor. When his wife isn't pulling his coat tail for him to sit down, it is his daughter Daysey Mayme. Other men get up in public and have their

say, and their women folks sit down in front and split kid gloves applauding, but Daysey Mayme and her mother always make it a point to sit behind Lysander John and pull at his coat tail when they think it is time for him to sit down. As both are club members and know all about the art of public speaking, they pull promptly and often.

Daysey Mayme Appleton loves her brother, Chauncey Devere, the most when it is necessary to send to the butcher's for five cents worth of liver. If there is anything more degrading to the pride of a princess than to send her to a butcher shop for five cents worth of liver, Daysey Mayme does not know what it is.

The women folks in the Appleton family call the front porch the veranda, but Lysander John and his son Chauncey Devere persist in calling it the stoop.

When Lysander John Appleton goes to church and hears them singing about the Rock of Ages, and what a safe retreat it is when "troubles o'er me roll," he always thinks of the room at his house which the women folks call his Den, and in which he is permitted to seek a retreat when his wife and daughter are giving a party.

### CITATION BY PUBLICATION

THE STATE OF TEXAS  
TO THE SHERIFF OR ANY CONSTABLE OF LAMB COUNTY—  
GREETING:

You are hereby commanded to summon J. B. Lauterstein, by making publication of this Citation once each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Lamb County, to be held at the court house thereof, in the town of OLTON, on the 1st Monday in May, A. D. 1925, the same being the 4th day of May, A. D. 1925, then and there to answer a petition filed in said Court on the 18th day of March, A. D. 1925, in a suit, numbered on the docket of said Court No. 113, wherein Dickens County, a duly organized county of the State of Texas and a political corporation and subdivision thereof is plaintiff, and J. B. Lauterstein is defendant, and said petition alleging that on or about the 9th day of October, A. D. 1922, plaintiff was lawfully seized and possessed of the following described land and premises, situated in the County of Lamb, in the State of Texas, holding and claiming the same in fee simple, to-wit: 316.28 acres of land, known and being the West one-half of Block No. Twenty (20) of League No. 244, Dickens County School Lands, as shown by plat of the subdivision of the three leagues, Nos. 242, 243 and 244, Dickens County School Lands, of record in Volume No. 3, pages 380 et seq., Deed Records of Lamb County, Texas, being described by metes and bounds as follows, to-wit:

Beginning at the south west corner of Block No. 20 and the north west corner of Block No. 21. THENCE, North 2300 varas to the North West corner of Block No. 20; THENCE East 776 and 3-7th. varas to a point, the center of the North line of said Block No. 20; THENCE South 2300 varas to point, the center of the south line of said Block No. 20; THENCE West 776 and 3-7th. varas to the place of beginning.

That on the day and year last aforesaid defendant unlawfully entered upon said premises and ejected plaintiff therefrom and unlawfully withholds from plaintiff the possession thereof to its damage Three Thousand Five Hundred Dollars.

That the reasonable annual rental value of said land and premises is \$200.00.

Plaintiff further alleges that the only claim defendant has or is asserting to, the land hereinabove described is through and by virtue of a certain order of the Commissioners' Court of Dickens County, Texas, passed by said court on the 11th day of September, A. D. 1922, authorizing the sale of said land to the defendant, J. B. Lauterstein, for the sum of \$635 per acre, aggregating the sum of \$2008.41, upon the following terms, \$158.00 cash in hand paid, and the balance \$1850.41 on 30 years time, to be evidenced by a promissory for said last amount, executed by the said J. B. Lauterstein and payable to the order of the Commissioners' Court of Dickens County, or their successors in office, bearing interest at the rate of 6 per cent per annum, interest payable annually at Dickens, Texas, said note to provide for attorney's fees, in the usual form. That the defendant has in no way complied with the terms of said order, but the same is a cloud upon the title of plaintiff to said land. Wherefore plaintiff prays judgment of the court that defendant be cited in terms of law to appear and answer this petition, and that plaintiff have judgment for the title and possession of said land and premises, and that the cloud upon plaintiff's title to same by virtue of said order be removed and forever quitted and that a writ of restitution issue and for its rents, damages and costs of suit, etc.

Herein fail not but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Olton, Texas, this 18th day of March, A. D. 1925.

## FARM POULTRY

### MUCH TURKEY LOSS DUE TO BLACKHEAD

A large part of the turkey losses  
seen to be due to blackhead. Various  
medicines have been recommended for  
this disease and recently the ipecac  
treatment has received a great deal of  
publicity in hopes that it might be the  
long-sought-for cure.

Up to the present time I can locate  
no cases in our section where the  
ipecac treatment has given results  
sufficiently good enough to prove that  
it is definitely beneficial, says a writer  
in the Indiana Farmer's Guide. This  
being the case, I feel that turkey  
breeders must still rely on the old  
methods of preventing disease and not  
depend upon medicines. Inbreeding  
must be avoided as it often results in  
weak poults which are subject to a  
disease like blackhead. Breeding from  
mature stock seems to produce more  
resistant poults than those from  
young breeding stock.

Turkeys that range with farm poul-  
try of all kinds seem more apt to have  
blackhead as they are often scratch-  
ing in the dirt of the other birds.  
Plenty of sour milk in the turkey rati-  
on seems to help the poults to resist  
blackhead. The sour milk is not a  
cure but it does stimulate a rapid,  
vigorous growth and this in turn helps  
to keep down digestive disorders which  
might weaken the poults and make  
them subject to blackhead.

It is difficult to raise poults on land  
where blackhead has been prevalent  
and some breeders have cleaned up  
their premises by ceasing to raise tur-  
keys for a year or two. Then they ob-  
tain clean breeding stock and have  
better success. At present there are  
many farmers who might have good  
success with turkeys because none of  
the birds have ranged on their farm  
for five or ten years or more and the  
soil is probably entirely free from the  
disease.

### Profit Made in Guinea

Broilers and Roasters

The guinea hen is a good layer, but  
on account of the wild gamey flavor,  
the eggs have never had an extensive  
sale for table use. However, to turn  
these eggs into young broilers or  
roasters, a considerable profit will be  
derived. The flesh is the nearest sub-  
stitute we have for the wild game.

The guinea is of a roving disposi-  
tion, and one of the best known de-  
stroyers of insects.

The laying season starts in early  
April and continues until October, the  
hen laying as many as 120 eggs in a  
season. In the early part of the  
season it is not advisable to let the  
guinea hen hatch a brood, as she is  
of too restless a nature, and will not  
give her young the proper attention.  
But after the first of July, on account  
of the warm weather, she will be more  
quiet, and she can be safely entrusted  
with a brood.

It requires four weeks to hatch out  
guineas. The hen always hides her  
nest, and that, too, in some obscure  
place. As they come off the nest they  
give a shrill cry, and in this way their  
hiding place can be detected. All the  
hens of a flock are apt to lay in one  
nest, and in taking away these eggs  
they should not be touched with the  
hands, for if the hen discovers that the  
nest has been touched she will desert  
it and hunt another place. But if the  
eggs are removed with a stick she  
will not leave the nest, even if the  
eggs are taken out nearly every day.

### Overcrowding Is One of

Most Common Mistakes

Overcrowding is one of the most  
common mistakes made in growing  
chickens. Overcrowding of the baby  
chicks usually corrects itself by the  
simple method of the chicks dying  
from day to day until the number that  
can be accommodated with air is left.  
Any condition that depletes the vital-  
ity of the chick is apt to bring on a  
looseness of the bowels.

All cases of diarrhea are not the in-  
fectious white diarrhea; many of them  
could have been prevented by provid-  
ing more room for the chicks; the  
diarrhea is merely an evidence of over-  
crowding.

When the young stock have reached  
the sex-conscious age, the sexes should  
be separated. Separation of the sexes  
promotes the growth of each.

### Wet Feeds for Chicks

A few breeders say they have good  
results with wet feeds for baby chicks.  
Since many breeders fail with this  
system, we do not recommend it.  
Clean dry grains after the rolled oats  
becomes offensive to the chicks is the  
safest feed. Sour milk is very impor-  
tant in the feeding rations of baby  
chicks.

### Origin of Pekin Duck

The Pekin duck is of Asiatic origin,  
and was imported to this country  
from China, about thirty years ago.  
A traveler who saw them about the  
streets of Peking mistook them for  
small white geese at first, but upon  
finding them ducks, was so impressed  
with their snow white plumage and  
mobile carriage that he secured some  
of their eggs. They were brought to  
Hong-Kong and hatched, and in due  
time the birds were shipped to New  
York.

### Why Delay Starting The Building Job You Have Planned For This Spring?

Get the materials at hand and be ready to take advantage of every  
working day. Already many such sunny days have come and gone.

—We do not know your plans or what you want to do—but we know  
we have the best materials to be had—well seasoned lumber of all kinds,  
mill-work cut accurate and true—Cement, Sand, Gravel, Tar, Glass, Wire  
mills, Wire, Posts, Builders' Material, and various kinds of Roofings that  
guaranteed in every possible way.

—Whether the job is a larger or small one we want to supply you with  
ing A-1 building materials. When you build—make it permanent. It's  
cheapest in the end. Our prices on first grade materials are no higher  
you may pay elsewhere for inferior and second grades.

## Now on Display

**New** value—new quality—a new line of Chevrolet models  
even better than ever before. Chevrolet has become  
the world's largest producer of automobiles with  
modern, 3-speed transmission by making quality cars  
to sell at low cost. Now this Chevrolet quality has  
been greatly increased.

**New** chassis—with larger, stronger frame; new semi-  
elliptic, chrome vanadium steel springs; stronger  
axles, rear axle of the finest construction—banjo type  
housing with greatly strengthened gears; improved,  
fully enclosed dry-plate disc clutch requiring no  
lubrication; extra heavy brake bands; and many  
improvements on the powerful Chevrolet motor.

**New** bodies—of even greater beauty and comfort. All models  
have new radiator of more beautiful design, made of  
non-rusting airplane metal. All closed models have  
new and exceptionally beautiful Fisher bodies with  
the new VV closed-body one-piece windshield and  
automatic windshield wiper. Balloon tires on all closed  
models and disc wheels on the Sedan and Coupe.

**New** finish—all models are now finished in Duco—the new  
finish that retains its color and lustre almost indefi-  
nitely and withstands the severest usage. These  
are but a few of the quality features of the new  
Chevrolet—quality features that you would expect to  
find only on cars of much higher price.

**INTERSCHOLASTIC MEET AT SUDAN OF WIDE INTEREST**

The Lamb County interscholastic meet will be held at Sudan March 27 and 28. The literary events will be held the first day.

The forenoon will be devoted to spelling, arithmetic, music memory work and essay writing, while the afternoon will be devoted to preliminaries in declamation, debate and extemporaneous speaking.

The track and field events will be held Saturday.

The people of all towns represented in the county are urged to attend this annual meet; to bring their lunches and make a day of it.

The trucks from all school districts will be in service those days, but it is suggested by one of the directors that it is not a good idea for a large group of small children to be sent to this meet, if sent in care of the truck drivers or teachers. The director of each event will be responsible for the contestants, but where parents wish their children to attend, it is requested that they accompany them or else make arrangements for this care by some one else other than the teachers and truck drivers.

—R. L. Speight, Director General.

**NOTICE TO VOTERS**

I wish to take this opportunity of expressing my personal and sincere appreciation to the citizens of Littlefield for their loyal co-operation and support during the past year that I have been Mayor.

The election of officers for another year is rapidly drawing near, and I have been solicited by numerous friends to stand for re-election. However, I do not feel it advisable to do so. I am glad to have been of service to our little city during the past year, and have endeavored to render that service to the best of my ability. But on account of pressing business matters demanding a constantly increasing portion of my time, and the further fact that I believe there are other citizens who are also capable of carrying forward the administration of our city in an efficient manner, I have decided that I will not be a candidate for re-election.

Again thanking you one and all for your loyal support and valuable suggestions during the past year of my administration, and assuring the citizens of this town my loyal interest in everything that is for its betterment and upbuilding, I am,

Very truly,  
—B. L. COGDILL.

**Wealth Through Misfortune**

At the end of life a man finds himself rich, not so much by his fortunes as by his misfortunes. The Persians had a vase of glass which when empty was colorless, but when filled with wine flashed forth many rare pictures. So a bosom empty of a heart of pain makes a lusterless life, but a bosom in which a heart bleeds reveals hidden virtues.—Tilton.

**Rat's Deadly Work**

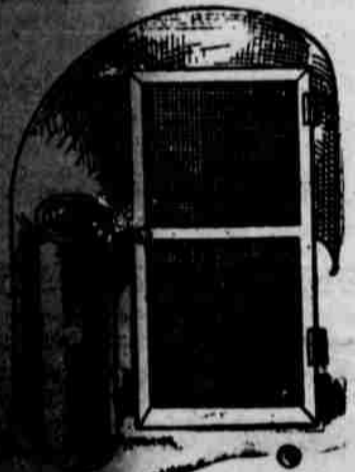

At the end of a year a pair of rats and their descendants if the progeny were unchecked, would number 1,125 in four years they would number 11,000,000. In six lunar months 1,130 rats would spoil and consume more than 25,000 loaves of bread.

**SIX SAVING MONTHS!**

April to September are saving months—or, at least should be to every home in the land. During these six months is a period when expenses can be pruned to the bone.

Garden stuff, fruit and other home products will be coming on so the grocery bills will not be so heavy. With the coming of the warm months the need for clothing will also be much less. Fuel, too, will not have to be purchased.

Some things ARE essential. One can't do without them entirely, and they can't raise everything at home to eat and wear. We CAN supply the balance at such reasonable prices that it will be of material assistance in helping on your saving campaign. We specialize in good groceries at live and low prices, carrying nothing but the very best, and selling it for the same or less money than you pay for inferior goods at other places.

**NOTICE OF SALE**

STATE OF TEXAS  
 COUNTY OF LAMB.  
 IN THE DISTRICT COURT OF  
 LAMB COUNTY, TEXAS:  
 Hulda Fassler, Emma Schanse and  
 Aurthur Schanse, Plaintiff.

VS.

John Fassler, Frank Fassler, Christ  
 Fassler, J. William Toepfer, Tarsa  
 Goll and Henry Goll, defendants.

WHEREAS, by virtue of an order  
 of sale issued out of the District  
 Court of Lamb County, Texas, on a  
 judgment rendered in said court, on  
 the 4th day of December, A. D. 1924,  
 in favor of Hulda Fassler, Emma  
 Schanse and Aurthur Schanse, plain-  
 tiffs, and against John Fassler, Frank  
 Fassler, Christ Fassler, J. William  
 Toepfer, Tarsa Goll and Henry Goll,  
 defendants, in cause No. 101 on the  
 Docket of the said Court, I did on  
 the 3rd of March, A. D. 1925, at  
 Olton, 10 o'clock a. m., levy upon the  
 following described and parcel of  
 land situated in the County of Lamb  
 and State of Texas, and belonging  
 to the parties to this said suit above  
 named, the said land as follows:

Being the West One-half Survey  
 35, Block 2, W. E. Halsell's Subdi-  
 vision of Lamb County, Texas, and  
 on the 7th day of April, A. D. 1925,  
 being the 1st Tuesday of the said  
 month, between the hours of 10  
 o'clock in the morning and 4 o'clock  
 P. M. on said day at the Court House  
 door of said County, I will offer for  
 sale and sell at public auction, for  
 cash, all the rights, title and interest  
 of the said Hulda Fassler, Emma  
 Schanse and Aurthur Schanse, John  
 Fassler, Frank Fassler, Christ Fass-  
 ler, J. William Toepfer, Tarsa Goll  
 and Henry Goll, in and to the said  
 property.

Dated at Olton this 3rd day of  
 March, A. D. 1925.

H. J. CARTER,  
 Sheriff of Lamb County, Texas.

**Ancient Thumb Rings**

Imperial Rome permitted only the  
 senators and nobles to wear golden  
 rings. The common folk had to be  
 satisfied with iron rings. At the time  
 when luxury reached its climax in  
 Rome, rings were often worn on the  
 thumb, many of them of a ridiculous  
 size. One of these thumb rings, bear-  
 ing an intaglio of the bust of Em-  
 peress Plotina, was fully 2 1/4 inches  
 broad.

**To Be Successful**

To be successful in anything, one  
 must cultivate the habit of thinking  
 completely around his problem, little  
 or big. To be satisfied with thinking  
 two-thirds or three-fourths of the way  
 around is to stand back deliberately  
 while some one else gains greater effi-  
 ciency, prestige and leadership. Many  
 people fail because they do not think  
 their problems through and take time  
 enough to do it properly.—Selected.

**Happiness**

Happiness is the reflection of our  
 blissful or divine nature on the mind  
 undisturbed by desires, passions or  
 anxieties. Happiness comes in free-  
 dom, never in slavery. True freedom  
 means the emancipation of the soul  
 from the bondage of ignorance, delu-  
 sion, selfishness and all other imper-  
 fections.—Abhedananda.

**Approved of Scriptures**

Nestorian Christian missionaries  
 were received by the Emperor Tai-  
 tsung in 631. He listened to an ex-  
 position of their creed, and ordered the  
 Christian Scriptures translated into  
 Chinese for his perusal. In 628 he  
 announced that he found the new re-  
 ligion satisfactory, and that it might  
 be preached within the empire.

**Fertilizer for Plants**

A very weak solution of salt make  
 an excellent fertilizer for house plant  
 especially winter bulbs.

**Early Use of Penknives**

The penknife is a hold-over from the  
 days before steel pens were known.  
 Originally a penknife was a small  
 knife used to make and mend quill  
 pens. It was then customary for each  
 man to cut his own pens as he needed  
 them. Nowadays almost any kind of  
 small pocket knife is called a pen-  
 knife.

**Helpless on Land**

Due to the remarkable dexterity of  
 the hell-diver in the water, it is usual-  
 ly impossible to approach it to within  
 camera range, says Nature Magazine.  
 Only when the photographer is so very  
 fortunate as to come upon this queer  
 bird on land, where it is helpless, may  
 intimate portraiture be successfully in-  
 dulged in.

## SCHOOL DAYS

## THE FIRST NAME

By DOUGLAS MALLOCH

TO KNOW the fellow that I meet,  
And meet him with a smile,  
And not unknown to walk the street,  
Unnoticed all the while—  
Oh, that's the road I want to go,  
I want to have a friend or so.

To call the fellows "Pete" or "Bill,"  
Not "Mister" all the time,  
Will keep me younger on the hill  
Of life I have to climb—  
Will make me feel a boy again,  
And do the same for other men.

To have men called me what they did  
Back there in boyhood days,  
The things they called me when a kid,  
Is sweeter than the praise  
That any flatterer may give,  
Will help me more my life to live.

The last name is the name of age,  
The first the name of youth;  
I pray you, backward turn the page  
To innocence and truth  
When I was young, and so were you,  
And call me what they used to do.

## Something to Think About

By F. A. WALKER

### HELP YOURSELF

EVERYTHING beneath the sun is available to the deserving, so reach out your hands and help yourself.

To be worthy you should be patient, industrious, persevering, charitable toward the weak, respectful to the strong.

You must overcome foolish pride and envy; be not afraid to soil your hands, but a veritable coward when it comes to the point where you are called upon to smudge your soul.

Go forth with a heart full of faith and a joyous countenance.

Do not grumble if you happen to be in the lower ranks.

Think of the great men of today who came up from humble places and won distinction, whose names are written across the lands and seas in flaming letters.

Hold faith high above your head. Let its unflinching torch illuminate your path all through life, and march on assured that the goal you have set your heart upon is just ahead.

Do not falter if your road should be difficult and your burden wearisome.

Difficulties are common obstacles. No one can get anything worth while without overcoming them.

Affluence and power have their beginning in small things, both capable of being won by well-directed thought and effort.

They belong to the capable who are qualified to use them in the right way, not to the doubting, inefficient and wavering, but to the courageous, the steadfast, who never admit defeat nor turn their faces in the darkest hour from the sun of faith, shining always on every cross and care.

If you would help yourself to the best there is, keep track of your faults. If inclined to procrastinate, take a lesson from the tides, the revolving earth, never delaying or hurrying.

Be methodical, even though it may in the present day of haste and confusion be considered old-fashioned.

Train your mind to remember what your eyes see; keep your brain sensitized so that the impressions made upon it shall become permanent pictures to which you can turn when they may be needed.

Only what you can recollect in the distant future is any use to you, and you should fail to do so if you do not train your mind to remember what your eyes see.

## Mother's Cook Book

Few people rich or poor, make the most of what they possess. In their anxiety to increase the amount of means for future enjoyment, they are too apt to lose sight of their capability for the present.—Leigh Hunt.

### PUDDINGS AND CAKE

IF IS during the cold weather we enjoy the puddings and sauces. The following is a famous pudding which the Savoy chef prepared and shipped two tons of to America for holiday consumption:

#### English Plum Pudding.

Take twelve ounces of malaga raisins, the same of smyrna raisins, currants, suet and candied orange peel. Ten ounces of bread crumbs, nine ounces of flour, one ounce of preserved ginger chopped, four ounces of chopped apple, one ounce of chopped citron, one teaspoonful of salt, eight ounces of brown sugar, six eggs and a cupful of milk. Mix and steam five hours. This recipe makes seven pounds of pudding.

#### Plum Pudding.

Put into a bowl one-half pound of finely chopped suet, the same of flour, and brown sugar, one-fourth of a pound of bread crumbs, one-fourth of a teaspoonful each of cinnamon, nutmeg, allspice, cloves and ginger. One-half pound of currants, one-fourth pound each of malaga raisins, lemon peel, citron and orange peel, all cut fine. One-half pint of black molasses, one-fourth pint of grapejuice or cider, two beaten eggs, the juice and grated rinds of two lemons. Mix well, put into buttered molds and steam four hours. This keeps indefinitely. Re-heat before serving.

#### Bishop Bread.

Take two cupfuls of brown sugar, one-half cupful of butter, four eggs added one at a time; one cake of sweet chocolate grated and mixed with two cupfuls of flour, three teaspoonfuls of baking powder, one-half teaspoonful of cinnamon and one-half pound of blanched and shredded almonds. Mix and spread in a well-floured tin and bake twenty minutes in a moderate oven. Cut into strips when cool.

## The Young Lady Across the Way

The young lady across the way says it must be awfully interesting to go abroad in the steerage and see how they guide the ship, but she supposes it costs extra.

## FIRST CHILD BORN IN ANTON

Monday, March 24th, Mr. and Mrs. J. H. Parnell welcomed to their home a fine 8 pound baby girl. The baby has not been named but has the distinction of being the first child born in Anton, Texas. The mother and little girl are doing nicely.

A. O. Duggan, manager of the Anton Townsite Co., presented the new arrival with a savings account deposited in the Citizens National Bank, at Lubbock, Texas.
