WATER, BUILDING CITY-COUNTY DEBATE TOP NEWS

Area Takes Giant Strides In 1964

As the dust slowly settles on 1964, and the clouds of 1965 begin to gather with the dawning of the new year, Lamb County looks back on the past year, a year which brought many things to a lot of people.

The county looks back at the giant progressive steps that were taken, at the business gains, at the general prosperity of the area.

1964 was a year of changes and challenges in our community. It was the year the city's water supply was approved by the State Health Department, it marked the opening of a new industry for our city, and the expansion of another county industry.

The year opened on an optimistic note, with the county banks reporting over \$38 million in deposits, and the record 1963 building boom showing no signs of slackening.

In the first week of 1964, the Security State Bank, announced the purchase of a three block downtown site for its future \$216,000 home.

One of the more cheerful notes of the year came on January 2, with the birth of Kathy Duran, the first child of 1964, and the first child of Mr. and Mrs. Mike Duran.

In the first city council meeting of the new year, the council undertook the task of designating over 50 blocks of city streets for paving.

Late in January, the Chamber of Commerce installed Jerry Sanders as president for the 1964-65 term, at the banquet that named Doug Walden as the top farmer.

The first fruits of the Littlefield Industrial Corporation were realized in July 1964, when Tide Products opened its plant in the area.

In the opening days of 1964 the city achieved bond rating for the city's \$1,257,000 in water bonds. The rating, achieved by the council meant a big savings to the taxpayers.

Despite the new ruling of 'free' votes, Lamb County residents turned out to purchase over 5,000 poll tax receipts in 1964, before the January 31 deadline.

School bonds once again figured in the area news as both Amherst and Anton passed school improvement issues.

The largest of 25 Lamb County livestock shows was held in February with 311 animals being entered in the event.

In March the County Commissioners Court voted to establish a bookmobile service for the area, and city residents.

The residents of Littlefield received the first of its sand-hills water in June, after many months of debate and court battles.

In March the Lamb County Leader and the County Wide News was purchased by the Littlefield Publishing Co., a company headed by Jerry Sanders.

Jack Barton and Pat Downs were elected to the Littlefield Independent School District school board, in April, while Dick Dyer, Curtis Wilkinson, Roy Yeager, A. J. Spain, and Hubert Dunn were all victorious in their bids for re-election to county posts.

One of the chief topics of conversations in March was the extreme lack of moisture for the newly planted crops, as the county went on to record one of the driest years in history.

The Spring marched into Summer and with it came a great number of advances including the purchase, by the Littlefield Industrial Corporation, of the 33.1 acre site for industrial expansion.

The early spring also found the farmers of the county uniting to fight the boll weevil on the caprock, by paying 50¢ per bale for control measures to prevent the over-wintering of the insects.

In the early summer months, the city marked, with sadness, the passing of Marshall Howard, a longtime resident and civic leader of the community.

As the year continued to progress, the need for rain on the dryland crops became more critical, and the constant threat of hail caused great concern among the farmers, many of whom had been forced to re-plant in 1963.

One of the brightest spots in the year came in late summer with the formation of the downtown improvement committee. The committee met and worked hard on plans for the improvement of the downtown area, and are predicting a general town facelift by the end of 1965.

The school openings of the early fall brought record numbers into Littlefield and county schools for the second year in a row.

The opening of school was highlighted with the October dedication of the new \$180,000 Littlefield High School, by State Attorney General Waggoner Carr.

In the closing months of summer, politics became the order of the day, with candidates for various state and national offices making county appearances, in preparation for the November balloting.

In early September the Chamber of Commerce endorsed the plans for the city's first Salute-to-Cotton promotion in the area cotton farmer. The Salute promotion held in November, was topped off with the appearance of Sharron McCauley, Miss Texas of 1964.

Also in November, the voters of the county turned out in great numbers to name Lyndon Johnson as their choice for President, and voted to return Ralph Yarborough to Washington for another six years.

cotton farmers of the area received good news that the allotments would be up for 1965. This was a welcome change, as Lamb was one of the few Texas counties to receive an increase two years in a row.

County farmers approved cotton marketing quotas for still another year in early December.

The county, also with the rest of the nation, saw the end of Public Law 78 in December. The passing of the Bracero program could have a big effect on the vegetable farming in the county, many farmers feel.

Then came Christmas, it came in a rush as stores packed and cash registers rang a merry tune for county merchants, who enjoyed a good year.

With the coming of the Christmas season, the area got its first snow fall of the winter, to give added zest to the yuletide holidays. The snow fell just one week before Christmas day.

In the year now closing the city of Littlefield Police Department investigated a total of 188 city accidents that resulted in injuries to 35 persons, and property damage amounting to an estimated \$43,930.00. The city did not record a single traffic fatality.

The city issued building permits for 86 new one family residences in 1964, with the reported building cost of \$1,347,057. Total building permits totaled \$2,046,027.00.

This was 1964 in brief, a panorama of progress, it's good things, it's heartbreak, it's progress.

The county now turns it's eyes to a bright new year that holds many surprises, and many completions of projects begun in 1964. As the year turns the corner into history, the 51st year of Littlefield's history -- we look into the new and bright world of 1965! -- Happy New Year!

will be the new aim in defense.

10. Intensified emphasis on new space-age defenses will provide more jobs in 1965 than the closing down of obsolete installations will eliminate.

11. The stock market will continue to be a paradox in 1965. The Dow-Jones Industrial Average may push to 1000 before any real turn-around takes place. Many stocks, however -- including numbers of issues oriented to conventional warfare and defense -- will still do little or nothing. Look for greater selectivity in stocks next year.

12. 1965 may be an advantageous time for investors to put very small sums of money into "space" stocks. These are outright speculations, but so were the ventures of Columbus, Magellan, and other explorers of the past. If there were no risk-takers there would be no progress. Such "investments", however, should be well diversified and limited to amounts you would be prepared to lose.

13. Cash dividend payments should increase in 1965... although at a much slower rate than has been the case this year.

14. No assessment of finances in the United States can be made without carefully weighing Britain's plight. We are convinced that unless the Labor Government adopts strict austerity measures, the pound will fall before the end of 1965.

15. Until the fate of the pound is resolved, short-term interest rates must be kept high to prevent foreigners from withdrawing their deposits held here. Also, domestic demand for credit promises to remain strong. Hence, interest rates will edge upward during 1965.

16. There may be some erosion in bond prices as interest rates move upward, but there should be no massive decline unless a real credit crisis develops. Investors making new purchases would do well, however, longer bonds may become good buys.

17. Inflation fears may rise in 1965; but we do not look for runaway prices next year, as productive capacity is too large.

18. More wage hikes are certain in 1965. Liberal concessions won in the auto and other industries in 1964 provide tempting targets for the steel unions and secondary labor groups to shoot at in 1965.

19. To the extent -- and this could be considerable -- that higher costs cannot be compensated for by price hikes and greater efficiency, profit margins will suffer in 1965.

20. Indeed, despite the projected 2% cut in the corporate income tax rate next year, we look for only a very slight overall rise in corporate profits... nothing to compare with this year's huge 20% expansion.

21. Labor disputes will be numerous in 1965. Many labor pacts can, and will, be renegotiated for wage adjustments during the coming year.

22. Employment will continue favorable in 1965, but additions to rolls will be most noticeable in fields such as teaching, personal services, and government work.

23. Little real progress will be apparent in the drive to reduce unemployment. We are only now just "touching off" the big new explosion in growth of the labor force.

24. Due to rising labor costs, look for business to turn even more to automation and labor-saving devices in 1965. Pressures on profit margins will spur cost-cutting and efforts to raise productivity.

25. Because of rising expenses and overwhelming competition, a further increase in fall-

ing will be seen in 1965.

26. As a result of automobile strikes in late 1964 and the fear of a possible steel shutdown in mid-1965, we look for a bulge in business volume during the first half of 1965.

27. In a nutshell, business should make new all-time highs in early 1965; after midyear, a tapering-off appears likely. However, 1965 will set another new record.

28. Following the strike interruptions of late 1964, personal income should move smartly ahead to new highs in the first half of 1965... although the rate of advance will slow after midyear.

29. This projected rise in income will be beneficial to retail trade. And though buying in the second quarter may be dampened by heavy income-tax payments due Uncle Sam on April 15th as a result of under-withholding during 1964, the last half of the year will find retail trade in certain lines -- such as furs and jewelry -- spurred by President Johnson's promised excise-tax cuts.

30. The important automobile industry should post another excellent sales year in 1965, but as the year advances we feel that gains will be harder to come by.

31. The powerful building and construction activities should prove a strong support to general business during 1965... even though we foresee no marked improvement. Some gain in dollar volume will be largely due to higher costs. Apartment building has been overdone in some sections and a breathing spell is logical. One- and two-family houses could post a small increase, but the big market for new housing is still some years distant.

32. Overextension of credit and overambitious operators have put the real estate market in a bind in many large metropolitan areas. We strongly advise caution in making new commitments, especially in commercial real estate where a thin equity exists.

33. However, even if scarcer than in recent years, there will still be opportunities for selective purchases of real estate in 1965. Each area is slow unto itself. Know your locality and study the direction of growth trends. Farm land bought in the past of expanding suburbs may be a better long-term buy in 1965 than stocks.

34. Nonfarm real estate foreclosures will continue in an up-trend during 1965. This should be particularly true in regions where overbuilding of speculative homes has taken place and where cutbacks in defense spending cause local distress.

35. Productive farm land that lends itself to mechanization will not decline in price in 1965. Rising use of farm equipment makes it necessary for operators to cultivate ever-larger spreads. This trend is maintaining the demand for fertile acreage in the farm belt.

36. As 1965 begins, prices for agricultural products are generally well above their lows for 1964. Unless severe widespread drought intervenes, we look for no more than seasonal strength in agricultural prices during the year ahead. In a word, we do not see any near-term important uplifting forces on the farm scene.

37. The situation in industrial commodity prices is somewhat different. With business heading higher in the first half and with labor costs scaling new peaks, industrial commodity prices, with some exceptions, will push upward at least during the coming six months.

38. Living costs will also rise to new all-time heights. And, since President Johnson is committed to getting Medicare passed at this session of Congress, look for hospital, nursing, and doctors' fees to

City Records Bumper Building Year

The city of Littlefield, in 1964, recorded its second best building year in its 51 year history, and it's best year from the standpoint of private investments.

The \$2,046,027 in total permits was \$50,000 shy of the total record figure compiled in 1963, but as city building inspector Ben Weeks pointed out, 1963 permits were effected by the construction of the new high school, which amounted to \$558,850, a sizeable portion of the total permits for the year.

Construction on one-family residences reached an all time

high, for a one year period, as work was started on 86 units, costing \$1,347,057.

Bank and professional building permits total five at a cost of \$280,000.

In all construction work was started on 125 units in 1964, an increase of 23 over 1963. Total permits issued in 1964 were 177, an increase of 28 over the previous year.

October, with its \$290,000 in permits, was the top month for the city. December was one of the lowest months of the year, with \$62,450 in permits being issued.

Annual Baby Derby Set

The first 1965 baby born in Lamb County has a real welcome waiting for him or her from 13 Littlefield business firms in the Leader and News Annual First Baby Derby.

He or she, receives gifts ranging from an ambulance trip home to cases of baby food, 15 dozen eggs, infant seat and many other fine prizes.

The winner will be the first baby born in Lamb County after the new year starts at 12:01 Thursday night. The time certified on his hospital or doctor's record will determine the first 1965 baby.

The first baby of 1964 did not arrive until 9:03 January 2. She was Kathy Duran, daughter of Mr. and Mrs. Mike Duran of Littlefield.

Hospitals in the county will be checked by the Leader and News, starting New Year's Day.

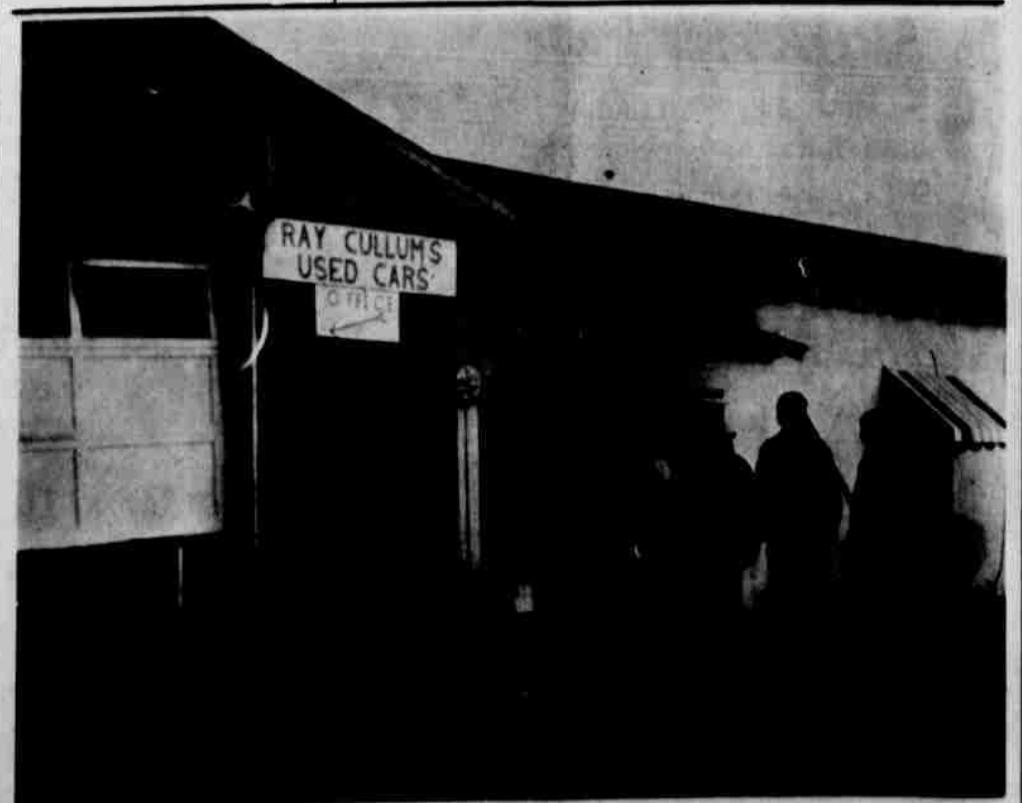

brightness, its promises of joy and disappointments are certain. We know that large numbers will be compiling lists of do and don't for the new year, to each of you, we hope you will have the courage and determination to stick to all the resolutions you may make, tough as they may be.

Speaking of resolutions, we have a few to make also. In 1965 we will try to greet everyone with a smile and a warm handshake. In 1965 we will work harder to serve our community in our meager capacity. We will tackle unpleasant situations with cheerfulness. We will in 1965, put forth every effort to be a better citizen of our town and nation. Instead of being a pessimist in this new year we will look for the brightness and good in people and events.

How about a good motto for Littlefield for this new year? In this day and age of sayings and numbers, it appears everyone has mottos and sayings so as a starter we offer this suggestion as a theme
LITTLEFIELD, A CITY WITH DRIVE IN NINETEEN-SIXTY FIVE!
If you have any ideas we will be happy to have them, let's find a motto for Littlefield's progress.

Weather

Continued mild afternoons through Friday. Winds in the afternoons from 20 to 30 mph, turning colder Saturday.

CHRISTMAS SEASON FIRE -- City firemen battle a Saturday evening blaze at Cullum's Garage. Firemen reported the fire started when a worker at the garage was pouring gasoline from a drum into a smaller can. The gasoline ignited and a troublesome blaze began. Damage to the garage and a car, being repaired was listed as heavy.

CONGENIAL HOSTESS -- Georgene DeBusk, 1313 West 13th Street, is pictured above pouring a cup of coffee to serve with the coconut pie for which she is sharing the recipe with our readers. Mrs. DeBusk enjoys preparing new

dishes, but her main hobbies are sewing and working in the yard. She is the wife of David DeBusk and mother of two children, David Ray and Georgeanne, both junior high students.

Mrs. DeBusk Shares Recipe For Tasty Coconut Syrup Pie

Looking for a new twist on the well-loved pecan pie? For our recipe feature this week, Mrs. David C. DeBusk is sharing her recipe for Tasty Coconut Syrup Pie, which is made in the same way as pecan pie. The coconut rises to the top making a toasty top crust with a delicious chewy filling. We suggest if your family likes coconut, you better make several, then stand back and watch them disappear.

David and Georgene DeBusk and their two children, David Ray and Georgeanne, live at 1313 West 13th Street. Georgene is

a telephone operator at General Telephone Company. Her husband is employed at Lamb County Electric Co-op.

Both of the children are in Junior High School. David Ray, age 14, is in the ninth grade and Georgeanne, 12, is in the seventh. They are both interested in music. David Ray plays a sousaphone and Georgeanne a flute in the Junior High Band. Georgeanne is also in the Junior Choir and David Ray takes guitar lessons.

Georgene loves to be outdoors, but with her job and housework,

she doesn't have much opportunity to be outside or get very much exercise. During the summer months she enjoys working in the yard, a pastime her husband also enjoys. They help their mothers keep their yards, too. David's mother is Mrs. Ruby DeBusk and Georgene's mother is Mrs. O.M. Guthrie. Both live in Littlefield. The DeBusks attend church at the Primitive Baptist Church at Anton. Following is Georgene's recipe:

Tasty Coconut Syrup Pie

- 3 eggs
- 1/2 cup granulated sugar
- 1 cup flake coconut
- 1 cup maple syrup
- 1 teaspoon vanilla
- 1/2 teaspoon salt

Beat eggs slightly. Add sugar, coconut, syrup, vanilla and salt. Mix well. Pour in partly baked pie shell. Bake 40 to 50 minutes in 325 degree oven.

Hulse Host Dinner For Wedding Party

Cub Scout Pack 674 Meets In Gray Home

SPADE -- Spade Cub Scout Pack 674 monthly pack meeting was held December 21 in the home of Mr. and Mrs. Duane Gray. A party was held and program presented.

The meeting opened with the den mother, Mrs. Duane Gray, lighting a tall blue candle representing the spirit of the cub scouts. The scouts stood behind a small American flag and sang "America". This was followed by a silent prayer. Jimmy McCurry led the "Pledge of Allegiance".

The parents and families sang Christmas carols led by the scouts. Games were played with parents vs. scouts.

The award ceremony was opened with the den mother reading a poem entitled "One Small Boy". Cubmaster Duane Gray presented the following awards: Gaylon Reed, bobcat pin; Jimmy McCurry, Randy Gray and Boyd Moore, silver arrow points under wolf; David Gray, silver arrow under bear; Danny Baker, silver arrow under lion. This was the final meeting for Danny Baker, due to his reaching his eleventh birthday. Jimmy McCurry received a recruiter badge for recruiting a new scout. In closing, Mrs. Gray lit seven candles, four of which were for each rank of cub scouts. In rededication of each rank the boys promised to do their best to

be square, to obey the law of the pack and to advance one rank this coming year.

The three remaining candles represented the scouts following, helping and giving. These candles were extinguished by the den mother.

The boys presented their parents the gifts they had made at den meetings this month. Cubmaster Gray then presented the boys gifts of cub scout book marks and combs which were given them by den mothers, Mrs. Nancy Ramage, Mrs. Robert McCurry and Mrs. Gray. Jimmy McCurry presented Mrs. Gray, a sweater on behalf of the scouts.

Scouts attending were Jimmy McCurry, Danny Baker, Gaylon Reed, Marvin Matthews, Chris Wallace, Boyd and Brian Moore, Tommy and Kenny Ramage, David and Randal Gray.

Others attending the meeting were Mr. and Mrs. Robert McCurry, Mrs. Leroy Wallace and family, Mr. and Mrs. Billy Poteet and family, Mr. and Mrs. Carl Reed, Mr. and Mrs. Ralph Matthews, Mrs. Nancy Ramage, Mr. and Mrs. Gray and family.

Refreshments of coffee, hot chocolate and cookies were served.

great-grandchildren and families of Mrs. Jim Parker gathered at the home of Mr. and Mrs. Philmore Parker, Anton, Christmas Day for dinner and a family reunion. Present were Mr. and Mrs. Arthur Parker, Muleshoe; Mr. and Mrs. Roy Sheppard, Snyder; Mr. and Mrs. Calvin Phillips and Muriel, Welch; Mr. and Mrs. Bob Parker and daughter, Halfway; Robert Parker, Odessa;

Mr. and Mrs. Hughlett and David, Floyd, N.M.; Mr. and Mrs. Clarence Parker and daughter, Glendora, Calif.; Mr. and Mrs. Sid McFall and daughter, Quitaque; Mr. and Mrs. Jimmy Parker and children, Des Moines, Iowa; Mr. and Mrs. Frank Parker and sons, Mr. and Mrs. Carlton Parker, Mr. and Mrs. Thomas Parker and daughter, Muleshoe; Mrs. Jim Parker, Mr. and Mrs. Monroe Parker and Timmy and Mr. and Mrs. Philmore Parker and Howard, all of Anton. Mr. and Mrs. Monroe Parker were hosts to the group for breakfast Friday morning.

Questions & Answers

Q -- May a veteran receiving a dishonorable discharge keep his Government insurance?

A -- Yes. The insurance once issued is a contract and is incontestable except for fraud, non-payment of premiums, or failure to be a member of the Armed Forces.

Q -- A widow had three sons, all veterans. One was killed in service and the mother is receiving death compensation and NSLI payments. One other son is hospitalized in a Veterans Administration hospital and an apportionment of his benefits

are being paid to the mother as a dependent during hospitalization. The third son is in training under Public Law 550. Is she entitled to be considered as a dependent mother for all three sons?

A -- Mother is entitled to death benefits concurrently as a dependent parent of more than one veteran.

Q -- A veteran is given the death penalty for crime. Would this bar the widow and children from receiving benefits from the Veterans Administration?

A -- No prohibition against paying all VA benefits to which she is otherwise entitled except Government insurance.

Q -- Is there great difficulty involved in changing beneficiaries on my National Service Life Insurance policy?

A -- No. Changing the beneficiary on your GI insurance policy is easy, and can be accomplished by writing to the VA insurance office where you pay your premiums. Be sure to include your policy number.

What Makes A Good Service Station?

I overheard this question asked yesterday and Virgil Zoth, operator of the Zoth Mobile Service Station, had this answer: "The business of a service station is to serve his patronage with prompt, courteous service, with quality products for dependability, safety, economy and give them the assurance that his work is well done. This makes repeat patronage," says Zoth.

Another thing that really counts is to give correct tourist information. As a member of the Triple A's, most information is available.

For the past 40 months, Zoth has been running the Zoth Mobile Service located on Highway 385 and 84, Littlefield. Here you find

everything a first class, one-stop service station, affords including clean rest rooms, washing and greasing facilities, tires, batteries, in fact, most automotive needs.

Zoth also fixes both car and truck tires, does minor motor adjustments and if car trouble is beyond his scope, he will get someone that can do the job for you. "Service with a smile is his slogan". To keep a car on the road is his main objective.

Zoth Mobile Service is open 24 hours every day. His attendants are experienced, willing and obliging workers no matter what hour you drive to his location. The treatment you receive is the kind that you

will like. Again the address is Highway 385 and 84, phone 385-8974, Littlefield.

... The start of a bright new year, Kathy Duran was the first Lamb County child born in 1964.

... Clearing for progress, this was the scene city wide in 1964, starting with the announcement of Security State Bank planned move.

... Littlefield entered a huge street and sewer improvement project in 1964. The final results will mean a better control of rains and improved city streets.

Lamb County 1964 News Highlights In Pictures

... Crops, grain and cotton, still remained at the top of the news, as a long dry summer cut production, but the county's final figure still will be in excess of 180,000 bales.

... Spade, like Littlefield, got into the water business in the year as they voted improvement bonds, to increase their water supply.

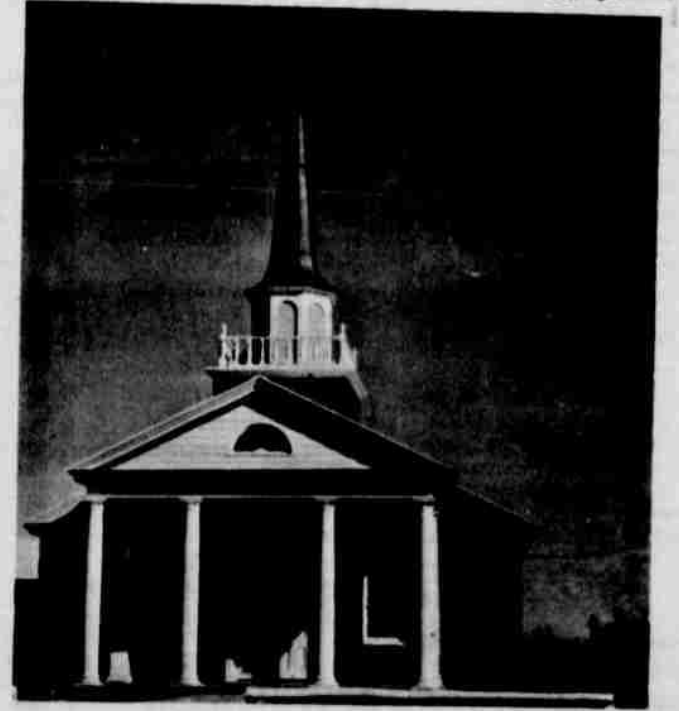

... Water was a big newsmaker in 1964, with the city of Littlefield receiving its first Sand Hills water, and approval of the water supply by the State Health Department.

... 1964 marked the beginning of work on the \$810,000 Highway 84 by-pass that will lead to future growth of the community.

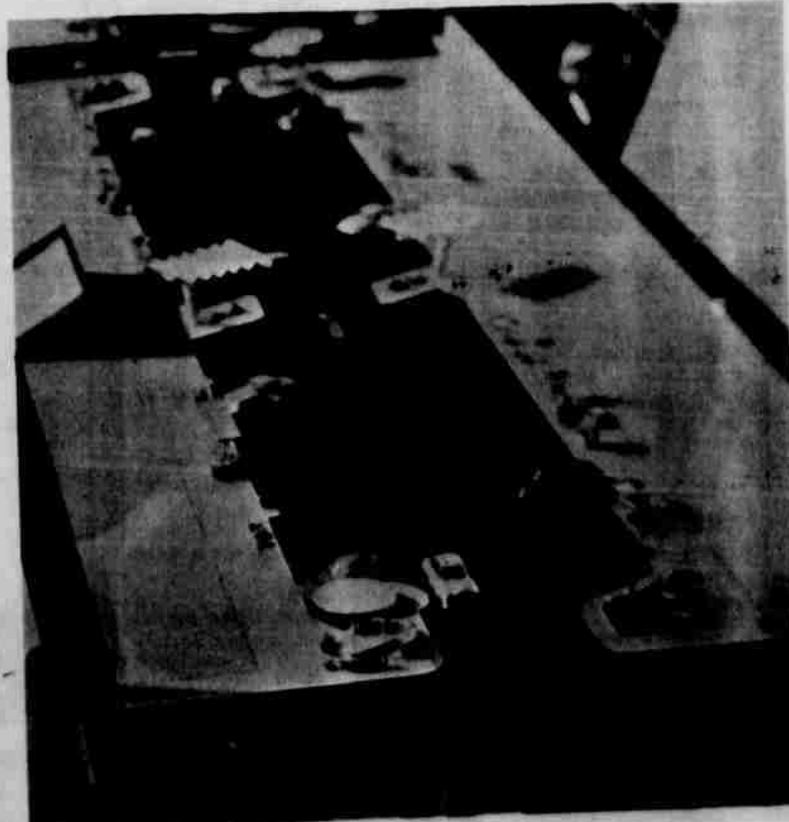

... One of the biggest newsmakers of the year was the completion of the new \$480,000 Littlefield High School building, which was dedicated in October.

... The construction of the First Presbyterian Church was completed in the year, as the churches of the city continued to grow.

... Industry came to the area in the year, with the completion of the Tide Products plant and addition of Southwestern Public Service's Plant X at Earth. Tide was opened in July, when Mayor Bill Armistead and Industrial Committee chairman Kenneth Ware cut the ribbon.

... Planning for the future of Littlefield was begun in earnest during the year, as planners began to get options and plans for the downtown improvement project rolling.

... 1964 was a political year for the residents of the county as aspirants for numerous offices, toured the area and met voters. Congressman and Mrs. George Mahon were honored at a reception in mid-October.

BABSON (Cont'd From Page 1)
 spurt before the end of 1965. Even with federal income taxes already slated to drop a notch next year and with prospects excellent that excise taxes will be cut, rejoicing should be restrained by the knowledge that local taxes will take another upturn and social security levies will rise again... even faster after the 89th Congress enacts Medicare.
 40. Climbing capital goods outlays will be one of the brightest spots for 1965. Gains over this year could run as high as 10%.
 41. Further progress in United States exports will be harder to achieve in the coming year. Certainly, if the steel labor outlook appears bad by mid-spring, heavy imports of foreign steel may be resorted to by U.S. businessmen. This would result in a narrowing of our favorable trade balance and have a further adverse impact on the U.S. international balance of payments.
 42. Although we are not forecasting runaway inflation for 1965, we do feel that attempts to keep money easy in this country, in the face of a world-wide trend toward tighter credit, will greatly increase the danger of a later inflationary blow-off. Conditions remind us of the late 1920's when the Federal Reserve here kept credit too cheap and plentiful to support the British pound. Hence the eventual collapse came from an even more dangerous level.
 43. It is unlikely that the United States will raise the price of gold during 1965. However, we may well see the calling of a monetary conference to deal with the weakened British financial situation and to attempt greater liquidity for world currencies generally.
 44. As far as gold stocks are concerned, they are already high and should only be held in 1965 as insurance against the long-range trend toward higher world prices for gold.
 45. The silver coinage situation will become more acute as the year progresses. The 89th Congress will be forced to consider a new silver coinage act. If it is not passed in 1965, it will be shortly thereafter.

46. Returning to the all-important foreign scene -- since we are very much wrapped up in the future of the Free World -- we forecast further instability among the Russian leadership. Khrushchev's ouster marked only the beginning of the coming power grab in Moscow. The real leader has not yet emerged.
 47. Ascendancy of the African and Asian nations to a position of control in the United Nations will force the United States in 1965 to take action alone when vital spheres of influence are violated. The UN will become even more of a debating society; and month by month the chances grow dimmer that we will ever again see United Nations troops used for rescue operations such

as in Korea or the Congo.
 48. Following the British crisis, General de Gaulle will work harder than ever in 1965 to unite Europe as a great third force between Communism and the United States. President Johnson is well aware that the winds of change are blowing strongly in Western Europe. 1965 could see the beginning of the end for transatlantic union as envisioned by U.S. Administration during the past two decades.
 49. World-wide credit problems and restrictions on trade cast dark shadows on investment prospects abroad. Many nations which have shown great growth during the past 20 years will be poor risks for new commitments during the year 1965.
