Women Will Make Strong Derby Bids

Only 5 Of Fair Sex Have Seen Colors Borne To Victory

By ORLO ROBERTSON (Associated Press Sports Writer) NEW YORK, April 14. (UP)—Although not presenting as formidable a threat as in other recent years, women owners again will make a strong bid in the Kentucky Derby at Churchill Downs, May 2.

Only five of the fair sex have seen their colors borne to victory in the 41 years of the one and one-quarter mile classic. Mrs. Lasco Durnell was the first when Elwood won in 1904.

Mrs. John D. Heris's Reign Count whipped 21 other three-year-olds, the largest field ever to face the barrier, in 1928. Three years later Mrs. Payne Whitney, owner of the famous Greenlee Stable, sent out the mighty Twenty Grand to smash the track record in the striding time of 2:01 4/5.

Two Winners Return Only two of the quintet have horses eligible for this year's renewal and with the exception of Mrs. Whitney's Memory Book, none figures strongly in the future books.

Large Wheatley Entry The chief strength of the women owners, numerically at least, is housed in the Wheatley Stable, which Mrs. H. C. Phelps owns jointly with her brother, Ogden Mills. Snark and Teufel are the stable stars.

Mrs. Ethel V. Marx, owner of the Milky Way Farm, and Mrs. Elias D. Mason have candidates in The Fighter and He Did, respectively, which may prove dangerous. The Fighter has shown nothing more than brilliant sprinting ability so far, but He Did was good enough to win the Santa Anita Derby.

EARLY EGG HUNT Mrs. E. I. Studley was hostess to a group of Caudle school children Sunday afternoon at her home. Games were played and the children hunting Easter eggs. Jim Curran was the child who found the most eggs.

RACE AT BOSTON TO TEST 200 OLYMPIC PROSPECTS

Florida Racing Fans To Back Joseph E. Widener's Brevity On May 2

FOUR RANK FAVORITES IN EVENTS

By FRANK MURPHY United Press Staff Correspondent BOSTON, April 14. (UP)—The first official tryout for any division of the United States Olympic Track and field squad will be held here April 20 when more than 200 human endurance machines—lured by the prospect of a trip to Berlin and international glory—match strides and grit in the 40th annual Boston A. A. Marathon.

A record-breaking performance over the classic 26-mile-385-yard course from the village of Hopkinton to Boston's Back Bay is looked for by many experts, since the winner—or the first American to finish—is a "cinch" for one of the four places on the Olympic Marathon team.

Runners-up, on the other hand, will have to compete in the second and only other tryout, the National A. A. U. Marathon at Washington, May 30, to clinch Olympic berths. So there'll be plenty of incentive to push some favorite or darkhorse to new figures.

Fawson Holds Record Ideal weather conditions and a perfectly timed race will be needed, however, if the winner is to better the mark of 2 hours 31 minutes 1 5/8 seconds established by Leslie Fawson, 31-year-old Pawtucket, R. I., park department employe, three years ago.

Fawson himself is one of the 1936 favorites and along with him the runners they say must be beaten by those hoping for Olympic selection are slim Johnny Kelley, the 25-year-old Arlington florist and 1935 winner; Pat Dengis, Baltimore Scot, who placed second a year ago and went on to win the National A. A. U. Marathon; and consistent Mel Porter, of Newark, N. J.

Kelley won the recent 20-mile North Medford A. A. Race—as he had done before winning the Boston A. A. Marathon a year ago—although he suffered a slight foot injury, Johnny says he's fit. Fawson and Dengis both placed well in the North Medford club "test race," and each says he's in excellent condition.

Most likely to upset the Fawson-Kelley-Dengis-Porter ticket, in the opinion of observers, is 22-year-old Ellison Myers (Tarzan) Brown, of Alton, R. I., a full-blooded Narragansett Indian, who placed 13th in his bare feet a year ago and has been running sensationally ever since.

Brown, who will run under the auspices of the Providence Tercentenary committee, holds the National A. A. U. 20 and 25-kilometer championships—both of which he won after last year's B. A. A. run. Showing that he's tip-top, he won the time piece and placed second in the Presentation club's 10-mile race here a couple of weeks ago.

Other American entries who must be reckoned with are Gordon Norman of Beverly, Earle Collins of North Medford, Joseph W. Flouffe of Pawtucket, Fred Ward of New York, and Andre Brunelle of Beverly, who placed fourth, sixth, seventh, eighth and tenth in the select "first ten" a year ago.

The veterans Clarence H. De Mar of Keene, N. H., and Jimmy Henigan of Medford, past winners, cannot be ignored, and 52-year-old Willie (Bill) Kennedy of East Port Chester, Conn., who won way back in '17, may surprise some of the youngsters by his 1936 form.

Several Listed As "Possibles" Cecil Hill of Beverly, 12th last year; Bill McMahon of Worcester, seventh in 1934; Bill Molloy of Somerville, tenth in 1934; Walter Ray of Middleboro, Johnny Semple of Lynn, Bill Agee, Bill Simons and Roger La Bonte stand out among the rest of the "domestic" entries.

But some of the outstanding favorites are listed among the more than a score of Canadian and Finnish runners who can come pretty close to winning Olympic marathon berths in their respective countries by finishing far up in the R. A. A. grind.

They include Dave Komonen of Sudbury, Ont., the 1934 winner; Hugo Kauppinen of New York, fifth a year ago; Willie Kyronen of New York, fourth in 1932 and fifth the following year; Dave Fagerlund of New York; Richard (Dick) Widling; Vic Molloy of Burnside, Frederick Bristow; Jim Shaw, and Percy Wyr, all of Canada.

ABILENE BOY TO DRAKE RELAYS

ABILENE, April 14.—Alton Terry, Harold's Simmons University javelin thrower and winner of the event in the 1936 Texas Relays, will compete in the Drake Relays next week, university athletic officials have announced.

Terry, who has been defeated only once in competition during his high school and university career, will be taking part in his first big-time meet outside of Texas. His best throw of the year, a 215 yard toss in practice last week, should place him among the winners in the Drake meet. He captured the Texas event with a throw of 207 1/2 feet.

Connie Mack Has Another Broken Team

PHILADELPHIA, April 14. (UP)—Connie Mack isn't as greatly concerned about the howling of the Philadelphia fans as he is about the cries of the other club owners when they get a glimpse of their share of the receipts for games played in Shibe park. For years the American league owners have been howling about the poor attendance at the Browns' games in St. Louis. This year the Athletics seem destined to give them an even greater headache.

The dean of baseball managers added something like \$300,000 to his till by transferring Jimmy Fox, Johnny Marcus, Roger Cramer and Eric McNeil to the Boston Red Sox. That's a lot of money—more, perhaps, than Connie could draw through the gate at Shibe park in years.

Mack's 52 years of baseball experience isn't much help when it comes to learning exactly what the Philadelphia fans want in the way of a ball team—if anything. He broke up his greatest ball club, his 1914 and 1929 championship teams, because the local fans were tired of seeing the club win. Last season, with a team that occupied the cellar, the clicking of the turnstiles died down to a whisper. Having further weakened his Athletics by the sales to Boston, Connie may well expect to have the ball park all to himself.

At 72, Mack insists he is starting to build another pennant winner. It took him 18 years to get back to the top of the pile after he wrecked his 1914 champions. Add 15 onto his 72 and that would give Connie another winner at 87; Mack may still be managing the club at 88 but the odds are against him.

It would be interesting to know Connie's thoughts as he sits back in the shade of the dugout watching teams like Boston and Detroit fighting it out for the pennant. Teams that have been bolstered by the very men who won championships for him a few years ago. Of course he has the money—or had it, at least—but he wouldn't be human if his thoughts didn't go back to the good old days, back in 1929 when his Athletics beat the Chicago Cubs for the world title.

ROLLS GO ON DARK BAY COLT

NEW YORK, April 14. (AP)—The hopes, prayers—and money—of Florida racing folks will be backing Brevity when Joseph E. Widener's beautiful dark bay colt goes to the post for the Kentucky Derby, May 2. Those who saw the picture horse match Discovery's world mark of 1:48 1-5 for the mile and a furlong in winning the final running of the Florida Derby are confident Brevity will not fall them.

Girl Golfer Practices For Curtis Cup Matches

The 'Breaks Win' Says Patty Berg's Dad—Golfer

MINNEAPOLIS, April 14. (UP)—"Just a big bunch of breaks—this golf business—if you get them you win. If you don't you lose, when playing the topnotchers."

This was Patty Berg's father talking—not Patty. Patty Berg smiled, freckles and all, but said nothing. Maybe she agreed.

"Patty, like any other golfer, has to have the breaks in order to win," said H. L. Berg, the father of the 18-year-old golf sensation. "This is the youngest member of the U. S. Curtis cup team, which sails for England, April 18."

"Patty," the father said, "is working hard in preparation for the English matches. She has shown great improvement in her handwork and now is playing what I call smart golf."

Patty, who played a round with Babe Dickrickson, said Babe would be one of the top-flight players next season.

About herself, Patty said nothing.

13 Broncos In Line For Trip To Sweetwater

Thirteen players are due to make the trip to Sweetwater Saturday to compete in five round events of the district five meet.

Gene Gardner, coach of the Broncos, said this morning that the drawing for opponents would not be held until Saturday morning.

The Bronco players: Robert Savage, John Miller, Harold Bethel, Leaman Bostic, Bobbie Martin, Conrad Watson, R. E. Creek, Frank Barton, Tabor Rowe, Horace Bostic, Leo Walling, Des Foster and C. B. South.

Elk Number 18,914 JACKSON HOLE, Wyo., April 14. (UP)—Elk in the Jackson Hole country numbered 18,914 in this country's count by the U. S. biological survey.

FOUR TEAMS TO PLAY IN MUNY

Four teams, instead of five as was first reported, will begin play in the American Munny softball league next Monday night.

The Rebels agreed to drop out, leaving the Petroleum building, Settles Coffee shop, Lee's store, and the Howard County refinery as members of the circuit.

Ice Cream And Cake Diet For Race Horse

SYDNEY, Australia, April 24. (UP)—A filly named Leadola, of the Rockhampton stable here, is said to thrive on a diet of cakes, ice cream and ham sandwiches.

She frets if her noon meal does not include a cup of tea, which she drinks sweet, and she likes to finish each meal with fruit.

Another horse likes a daily nip of whiskey, but he is a veteran of the turf—and of more mature tastes.

Washington, California Rowing Teams To Clash

SEATTLE, April 14. (UP)—The crews of the University of Washington and the University of California will meet April 18 on the sheltered Sheridan Beach course on Lake Washington in their annual regatta.

Freshmen, jayvee and varsity crews are rowing for the championships of the Pacific Coast. The varsity race, over a three-mile course, also will indicate whether the Bears or the Huskies have the best chance to represent the United States in eight-oared competition at the Olympic games.

Freshmen and the jayvee, or second varsity crew, will race over a two-mile course.

Swept Regatta Last Year All three Washington crews made a clean sweep of the regatta when it was held on the Oakland estuary last year. Washington's varsity and freshman oarsmen also stroked their way in ahead of the Bears at the last meeting here, two years ago.

For Openers!

NEW YORK, April 14. (UP)—Probable batteries for the opening games of the major league season today:

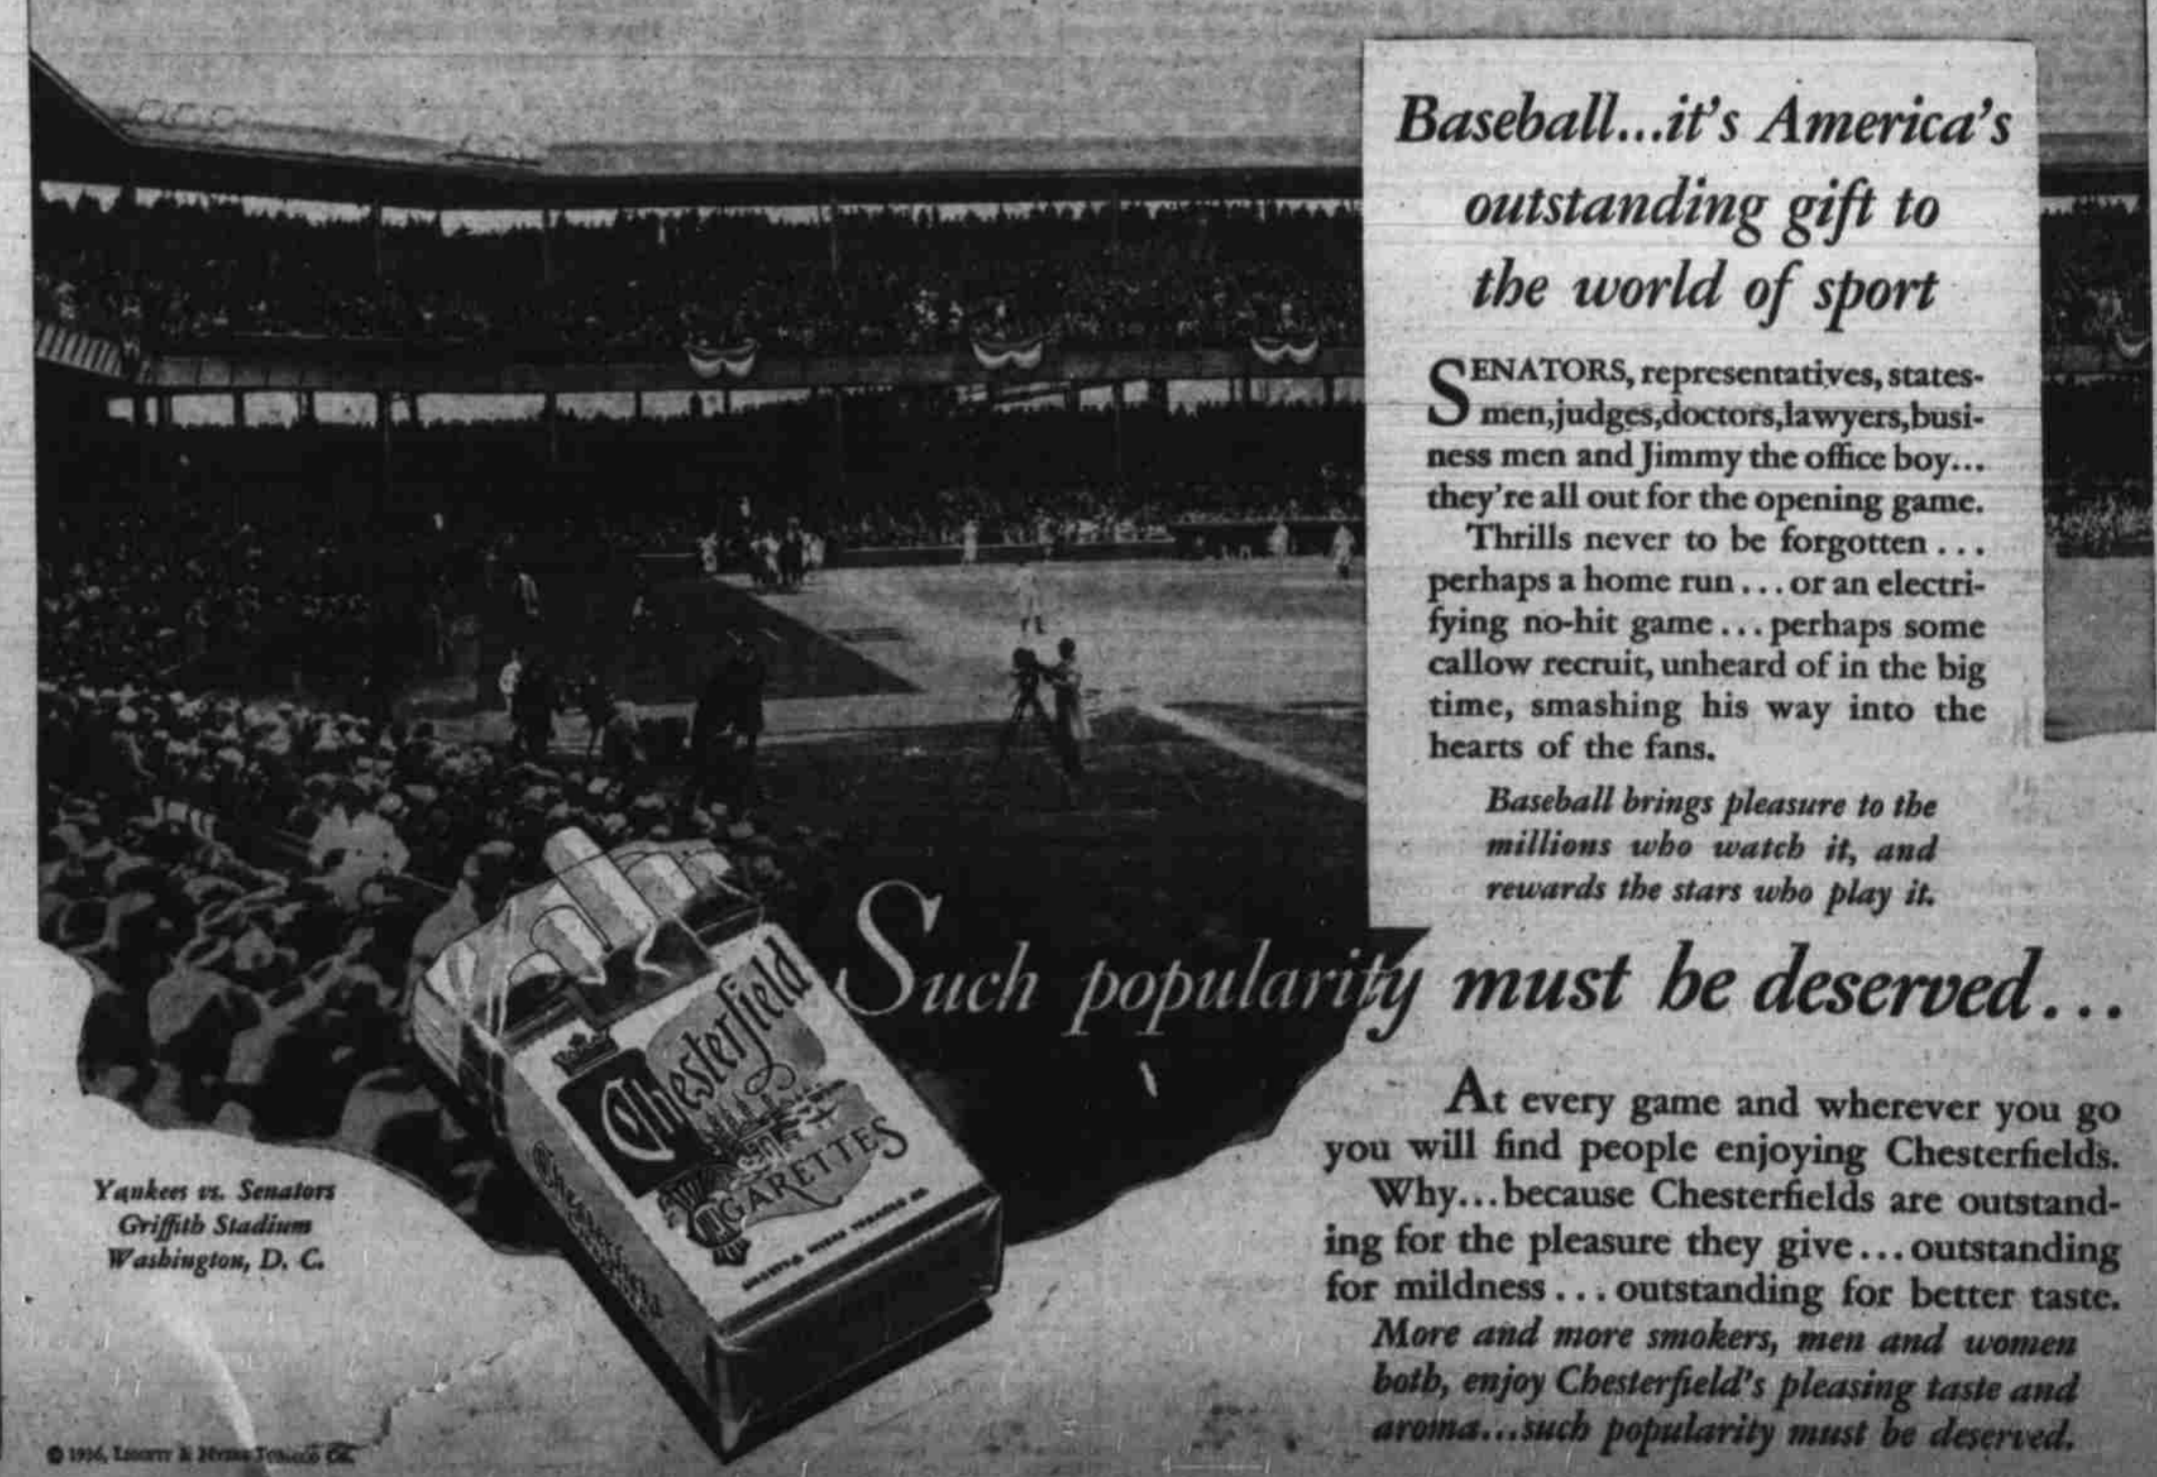

National League Brooklyn (Mungeo and Bettes) at New York (Schumacher and Mancuso). Boston (MacPeyden and Lopez) at Philadelphia (Davis and Wilson). Chicago (Warneke and Hartnett) at St. Louis (J. Dean and W. Davis).

Pittsburgh (Blanton and Todd) at Cincinnati (Derringer and Lombardi).

American League New York (Gomez and Dickey) at Washington (Newsom and Bolton). Detroit (Rowe and Cochrane) at Cleveland (Harder and Pylak). St. Louis (Andrews and Hemslley) at Chicago (Whitehead and Sewell).

Philadelphia (Dietrich and Hayes) at Boston (W. Ferrell and R. Ferrell).

TODAY..the President of the United States throws out the first ball...and the 1936 season is on

Baseball...it's America's outstanding gift to the world of sport SENATORS, representatives, statesmen, judges, doctors, lawyers, business men and Jimmy the office boy... they're all out for the opening game. Thrills never to be forgotten... perhaps a home run... or an electrifying no-hit game... perhaps some callow recruit, unheard of in the big time, smashing his way into the hearts of the fans. Baseball brings pleasure to the millions who watch it, and rewards the stars who play it. At every game and wherever you go you will find people enjoying Chesterfields. Why...because Chesterfields are outstanding for the pleasure they give... outstanding for mildness... outstanding for better taste. More and more smokers, men and women both, enjoy Chesterfield's pleasing taste and aroma...such popularity must be deserved.

Yankees vs. Senators Griffith Stadium Washington, D. C.

With Money From Government, Farm Family Is Able To Purchase A Horse To Replace Children At The Plow

JEENA, La., April 14. (UP)—A horse now pulls the plow which for three years has been drawn by members of the Paul J. Green family.

Rather than go on relief, the middle-aged backwoods farmer, his wife, two daughters and a son attempted to till the soil by taking turns pulling a home-made plow over a small piece of land which Green's father had given them.

Days of the toughest physical labor left the marks of shoulder straps on Hesselbine, 14, Ruth, 17 and Artie, 20.

For two years the family ginned two bales of cotton annually, barely enabling the Greens to exist. Last year, however, weeds defied their own hoe, with the result that only one bale of cotton was ginned.

The family faced starvation. Officials of the Resettlement administration heard of their plight, investigated, and arranged a loan of \$300, payable in five years.

Green's first purchase was not badly-needed food and clothing, nor other equally needed necessities of life, but a horse. The animal cost \$65. No horse ever was more pampered, for it meant the end of virtual slavery.

Now twenty acres of stump-infested, piney woodland are in cultivation. The Greens have purchased a cow, hogs, chickens and are raising feed crops. Only six acres are planted to cotton—on either two bales, Green estimates.

In a case which rivalled that of the Greens, the Louisiana Rural Reclamation corporation, which preceded the REA in the state, last year took Roscoe Hicks and his wife out of harness and got them a horse. The Hicks' children were too small to lend a shoulder to the plow.

Franchot Tone And Loretta Young In Feature At Ritz

A new romantic team is presented to movie goers in "The Unguarded Hour," a mystery romance story that is the feature of the Ritz program for Tuesday and Wednesday. The principals are Loretta Young and Franchot Tone.

Adapted from the play by Ladislaus Fodor, "The Unguarded Hour" deals with a well-to-do married couple. The husband is an attorney whose brilliance enables him to send men to the gallows by circumstantial evidence alone.

In his most sensational case, he finds his wife the witness whose testimony absolves the defendant, after which he himself becomes involved in a crime, entangled in a web of circumstantial evidence which he cannot break. The story is a thrilling one which never lags from the first scenes to the courtroom climax.

The supporting cast includes Lewis Stone, Roland Young, Jessie Ralph, Dudley Diggs, Henry Daniell, Robert Greig, E. E. Clive and Alleen Pringle.

Dolls of World Collected
BOSTON (UP)—Mrs. Clara Fittz Rosbury home is a little girl's paradise. She has more than 300 dolls representing many periods in history and gathered from all parts of the world. The dolls range in age from 100 years to a few months.

Jane Sadler spent the Easter holidays in Wills Point with relatives.

FLAMING SPECTACLE WHEN OIL TANK CARS DERAIL

Nineteen railway tank cars carrying crude oil and gasoline burst into a flaming spectacle near Holliday, Kas., when an 87-car Santa Fe freight train was derailed. The burning wreckage and tankers strewn over the right-of-way are shown above. No one was injured. (Associated Press Photo)

Murder Trial Is Postponed

Woman Charged With Poisoning Daughters Gets Delay

GREENVILLE, April 14. (UP)—Trial of Mrs. Velma Patterson on charges of murdering her two small daughters by giving them arsenic was postponed yesterday until April 23.

Postponement was ordered because of the serious illness of Mrs. E. J. McKinney, mother of C. C. McKinney, co-counsel for Mrs. Patterson. Her son was at her bedside.

Hunt county's district courtroom was packed when the case was called. Present were 175 men on a special venire for the case and more than 300 witnesses called by defense and the state.

Mrs. Patterson was represented by G. C. Harris, former Hunt county attorney. The prosecution was in charge

of District Attorney Henry E. Pharr assisted by Benton Morgan, Greenville attorney, and H. O. Norwood, former district attorney.

Mrs. Patterson talked almost constantly with her son, Junior during the three hours the court was in session.

She was dressed in a new triple sheer gray dress, her hair was carefully waved, but her face was pale without the usual garish makeup she wore in her hometown of Commerce.

Mr. and Mrs. Justice of Abilene were recent guests of Mr. and Mrs. T. E. Pierce.

NYA Quota Is Set At 12,000

Figure Will Take Care Of Those Now Employed In Texas

AUSTIN, April 14.—The Texas labor quota for the National Youth administration has been set at 12,000, Lyndon B. Johnson, state director, has announced.

Johnson said that the established quota will take care of all youths who are now at work on NYA projects as the total number employed is slightly less than 12,000. A sum of \$250,000 has been set aside for the prosecution of NYA projects in Texas.

A report from Washington shows that on more than 6,500 work projects the National Youth administration is employing approximately 210,000 out-of-school young people. Falling under four general classifications—youth community development and recreational leadership, rural youth development, public service and research—the projects are adapted to the needs of the individual communities and approved by state directors.

The big majority of Texas youth projects are sponsored by local public and quasi-public organizations which furnish equipment and supervision.

"In this way," Director Johnson states, "the NYA is enabled to spend more than 85 per cent of its project fund for youth labor." Preference in placing youths on jobs is given to members of large families so that where the need is greater the family income may be supplemented.

A survey of projects underway in the Lone Star state reveals that the largest number sponsored by a single organization is approximately 130 under the supervision of the Texas highway department. Youths on these projects are build-

ing "pocket-size" parks, school bus stops, and improving other high way areas.

Youths working on 90 projects sponsored by county school superintendents are rendering office assistance. Miscellaneous school projects call for boys and girls to enlarge and maintain rural libraries, improve school grounds and athletic fields, and to do minor repair work on school buildings.

Twenty projects are located in the offices of the Texas relief commission where youths render services outside the normal budgeted scope of the organization. County agents and home demonstrators are sponsoring approximately 50 projects which take youths into the field. The work consists of spreading better health, sanitation and domestic science practices and disseminating information on im-

proved farming methods. On other youth projects youths improve parks, supervise recreational activities, sew for the needy, bring files up-to-date and in general render many public services.

Collins' FORMULA 5000 RELIEVES GAS PAINS

You need no longer suffer from after meals aches, gas pains, heartburn, nausea, from acid stomach and disordered assimilation. CLEVELAND LOOKS FORWARD TO FIREWORKS AS REPUBLICANS PREPARE FOR CONVENTION

Political leaders predict a hotly-contested Republican convention next June in Cleveland's public hall (above) where Calvin Coolidge was named G. O. P. standard bearer 13 years ago. The map shows the location of the auditorium with respect to various points of interest near the convention site.

CLEVELAND, April 14 (UP)—Public Hall, in recent years the setting for colorful pageants, noisy circuses and the splendor of grand opera, will echo beginning June 7 with what may be the most interesting republican political show in many years.

The republican party, in choosing Cleveland for the nomination of its 1936 presidential candidate, selected a city and state where political contests are bitterly fought and widely appreciated.

The hall itself has political background. Calvin Coolidge was nominated there in 1924 amid cries of "Keep cool with Coolidge." The economy platform which Coolidge took into the White House was approved there.

Expectations of national G. O. P. leaders who hope the convention will generate power for a sweeping concerted drive against the "new deal," are matched by those of Ohio republican leaders. They expect the convention to provide stimulus for a successful attack on the democratic regime in Ohio government.

Expect "Fighting" Meeting

A spirited boisterous gathering generally is expected. Lafayette B. Gleason, temporary secretary of

the republican national convention, expects the convention will be a "fighting one for the first time since 1912."

The 1924 convention was a moderately quiet affair. Coolidge was nominated on the first ballot, 1065 to 44.

Republicans who attended that convention will find changes when they come to Cleveland this year. Arriving by train they will find a new union station. There are more hotel accommodations. If they arrive by plane, they will see a larger airport.

The hall itself has been enlarged so that it will now seat 14,200 persons. The lack of smaller halls where delegates might hold private conferences has been corrected. There are now 15 such rooms. The main arena, 120 feet wide and 248 feet long, affords an unobstructed view from any part of the hall. A glass ceiling, 110 feet high, conceals the lighting system.

Ohio's Political History

In 1928, one of the crucial battles in the pre-convention campaign was fought in Ohio with Col. Carl A. Thompson of Cleveland aligned with the then secretary of commerce Hoover, against a "favorite

son," Sen. Frank B. Willis. In the background, directing the primary and pre-convention campaign was another Ohioan, Walter F. Brown of Toledo, who became postmaster general.

Former Sen. Simeon D. Fess, another Ohioan and former national republican chairman, co-operated with Thompson and Brown in obtaining the 1924 convention for Cleveland.

Five major party conventions have been held in Ohio. The democratic convention of 1856 was held in Cincinnati as were the republican convention of 1878 and the democratic convention of 1880. The liberal republican convention of 1872 was held in Columbus. The last was the 1924 convention here.

Six Ohioans have been elected to the presidency, William H. Harrison, Rutherford B. Hayes, James A. Garfield, William McKinley, William Howard Taft and Warren G. Harding.

Three Ohio nominees were defeated: Harrison, in 1836; Taft, in 1912, when a split occurred in the republican party, and James M. Cox, in 1920, when as a democratic nominee he was defeated by a fellow Ohioan, Harding.

Auto Men To Pay For City Safety Drive

Education Work In Traffic Control To Be Given At Evanston

EVANSTON, Ill., April 14 (UP)—A fresh assault on America's mounting traffic toll is to be directed from this Chicago suburb, long known as one of the nation's safest cities.

This newest project in the drive on automobile deaths is to be conducted by Northwestern university in cooperation with the Automobile Manufacturers' association and the International Association of Chiefs of Police. The A. M. A. has agreed to contribute \$15,000 annually toward the project.

Plans provide for expanding a traffic officers' training school from a single two weeks' course to at least three distinct courses.

Police departments throughout the country will be invited to send representatives to these sessions.

Lieut. Franklin M. Kreml, director of the bureau of accident prevention of the Evanston police department, has been named director of the institute.

With his leadership Evanston has won the National Safety Council award as the nation's safest city. He will be assisted by Capt. Ray Ashworth of the Wichita, Kan. police department.

Under the provisions of a tentative program, the institute will:

1. Install traffic accident prevention bureaus in selected cities and states.
2. Assist in improving traffic curricula and give instruction in state-wide police schools such as are sponsored by state municipal leagues, state police associations and the American Municipal association.
3. Cooperate with Harvard university's accident prevention bureau in connection with extension courses and curricula preparation.
4. Provide traffic information service to police departments. Assemble files of best safety and prevention practices.
5. Cooperate with the National Safety Council in improving city and statewide safety programs.

FATHER GIVES LEG BONE TO SON

Dr. L. C. Hunt (left), Wyoming secretary of state, and his son, Buddy (right), were recovering from the third of a series of operations at Rochester, Minn., in which bone was transferred from the father's shin to the son's upper leg in an effort to correct a pathological fracture of the boy's thigh. (Associated Press Photo)

Suits Are Filed To Recover State Tax On Chain Stores

AUSTIN, April 14 (UP)—Attorney General Williams McCraw today was served with notice of suits by chain store taxpayers for recovery of taxes paid under the chain store tax of the last legislature. Filing of suits for the purpose by West Texas Utilities was necessary to preserve their right to claim refunds.

Test of the act already is pending in consolidated litigation of file in Dallas. Collection of the tax is enjoined there in suits against county officials, State Comptroller George Sheppard and others.

First Assistant Attorney General Gaynor Kendall said a motion to dismiss the Dallas injunction will be pressed. The tax is a so-called tax based on number of stores in a chain. It included utilities selling equipment.

Howard Thurston, Famed Magician, Taken By Death

MIAMI BEACH, Fla., April 14 (UP)—Howard Thurston, 66, one of the world's most famous magicians, died at his winter home here yesterday.

Pneumonia, contracted as the result of a sudden hemorrhage which occurred two weeks ago, was the impelled by "the smell of grease." The master of magic, compelled

to go into retirement last fall when he collapsed after a performance at Charleston, W. Va., had planned until March 30—when he suffered the hemorrhage—on returning to the stage this spring.

He had performed before royalty of Europe and before many of America's important personages. Just four months ago he announced he intended to return to the stage, impelled by "the smell of grease and my love for the theater."

Mrs. E. F. Gary has gone to Mineral Wells to attend the Baptist State Sunday school convention. She expects to go to Dallas from there before returning to Big Spring.

Use only one level teaspoonful to a cup of flour for most recipes.

Public Works Urged To Aid Canada's Idle

Minister Of Labor Asks For Legislation To End 'Blank Check' Use

OTTAWA, Ont., April 14 (UP)—A new employment relief plan, empowering the government to tackle the problem by creating employment through a scheme of public work projects and agreements with private industry, has been placed before the Canadian parliament by Norman Rogers, minister of labor.

Rogers quoted comparative figures on unemployment for this year and 1935 to support his contention that new legislation is necessary to deal with the constantly changing situation in Canada. The total receiving direct relief from the Dominion in February this year was 1,060,031, compared with 1,130,840, in February, 1935, but to this year's figure, he said, must be added some 250,000 farmers and their families in the drought-stricken areas of Western Canada who are being directly supported by the government.

Bill Past First Reading

Rogers said the object of the legislation he has sponsored in the house, and which already has been given first reading, was to vest in the government authority to:

1. Establish an employment commission to co-ordinate all relief efforts and promote efficiency and economy.
2. Vote specific sums in supplementary estimates to cover relief costs, ending "blank check" legislation.
3. Initiate programs of public works to provide jobs.
4. Sign agreements with companies, partnerships or individuals relating to the expansion of industrial employment.
5. Extend land settlement schemes to take more men from the cities and back to the farms.
6. Negotiate direct relief agreements with the provinces, continuing or extending the monthly payments now in force.
7. Lend money to provinces.

Government Gets Leeway

Under the minister of labor's bill, the government may initiate any works and undertakings that it finds to be in the general interest of Canada and may execute agreements and contracts deemed necessary or expedient. Money for these undertakings will be appropriated by parliament.

As far as it is reasonably possible, persons on relief will be employed on these works. All such undertakings are subject to the approval of the minister of labor and will be supervised by a government engineer.

The bill also provides that any agreements entered into by the government and private industry to create employment must be sanctioned by parliament, and must be paid for out of funds appropriated for relief purposes.

The purpose of the legislation is to abolish waste. Under the system of relief in force in Canada during the last five years, there have been three large spending entities, the dominion government, the provincial governments and the municipalities, and there has been no co-ordinating agency and no supervising agency.

Financial Check Sought

With the measures proposed by the minister of labor the government hopes to obtain economy and efficiency by a complete supervision not only over expenditures made by the federal government on relief, but over expenditures made by all bodies.

son on employment, Rogers said, would enable the government to determine much more satisfactorily the type of relief works which should be undertaken and would enable the government to develop a program which might be proceeded with or discontinued as circumstances warranted.

"We are dealing not with a static situation, but with one that is constantly changing," Rogers said. "We must as far as possible provide ourselves with the means of meeting eventualities. At the same time, we are eager to preserve parliamentary control of expenditures."

Calles Rests In San Diego

Exiled Dictator Guarded At Home Of His Son-In-Law

SAN DIEGO, Calif., April 14 (UP)—Gen. Plutarco Elias Calles, former president of Mexico who was exiled from his native land, today was resting in the seclusion of his son-in-law's home under police guard.

The former "strong man of Mexico" came here Sunday from Los Angeles for an indefinite stay with his daughter, the former Josephina Calles, and her husband, Fernando Torreblanca.

The general was reported convalescing from an attack of influenza but friends said a physician examined him in Los Angeles Saturday and reported his slight lung congestion was not serious.

Torreblanca said General Calles would reside with them "for some time."

The Torreblanca home is a Spanish-style dwelling located in the exclusive Kensington Heights residential area, just outside the city limits. The general resided there for several months last fall prior to returning to Mexico.

New "Hot Dog" Invented

TOLEDO (UP)—E. E. Marquart, an electrician who likes "to combine mechanical things" when business is dull, has patented a machine which will roast wieners—or other meat fillers—and the bread batter encasing it.

CAMAR, Wash. (UP)—The Crown-Williamette paper mill recently "graduated" 108 employees from their annual paper school classes which include 16 weeks of intensive study in various phases of paper manufacturing.

TX Service Station

"Our restrooms are as clean and as sanitary as the bathroom in your home"

"We've had many compliments on the cleanliness of restrooms in our Humble Service Stations. Homemakers here in Texas have got so they expect clean restrooms when they stop at a Humble Station, and out-of-state visitors always make some comment. A lady from Illinois, for example, wrote us that Humble restrooms were the cleanest and the nicest she had found in a motor trip clear across the country. That's fine! We want folks to be pleased with our stations, our service and our products. We're doing all we can to make driving an automobile in Texas pleasant, comfortable and carefree, to make the Humble Service Station a real oasis of the highway. We invite you to drive in where you see our Humble sign, to try Humble service and Humble products—we're confident that both will please you!"

HUMBLE SERVICE STATION SALESMEN

HUMBLE

A TEXAS INSTITUTION MANNED BY TEXANS

Every year, the Humble Company receives thousands of voluntary comments on Humble Service Check Cards from Texas motorists and out-of-state visitors. These cards tell their own story of courteous, helpful service, of clean stations, of spotless restrooms. Humble Station men take a justifiable pride in these comments from their customers.

Humble Service Stations are carefully designed and landscaped to make them attractive features of the neighborhoods in which they are located. They are fully equipped for your comfort and the expert care your car requires. Humble men are proud of the Stations which they man, and this Centennial year, they're putting their best foot forward.

In a recent study of Humble Service Check Cards mailed to the Company by Humble customers, nearly half the comments complimented Humble Service Station men on their friendly courtesy. These trained men render the kind of service which motorists find helpful.

We make no exaggerated advertising claims for Humble products, but we do say, you'll find them definitely second to none. We ask you to try them in your own automobile; to test Humble Motor oils and Humble motor fuels under your own driving conditions. When you do, we're confident you'll come back for more.

IT TAKES MORE THAN RELIEF Despite the gigantic relief and works program that has been carried on, through governmental agencies and otherwise, since the collapse of business in 1929, the unemployment problem remains unsolved.

A dispatch from Washington Saturday said that the nation's relief rolls stand at an estimated 20,000,000 persons, as many as a year ago. Some blame industry for not doing its part in absorbing the jobless; some blame the advance of machine methods.

In defense of the latter charge, the Machinery and Allied Products Institute has issued a pamphlet in which it surveys the unemployment situation, asserting manufacturing industries, with their machine methods, are not solely responsible for the present state of affairs.

The Institute points out that today's unemployment is due more to an increase in the percentage of the population seeking gainful employment. The supply of workers in relation to population, this organization asserts, has increased more than 50 per cent in the last 100 years.

On this basis, the Institute argues that the surest method of relieving unemployment is increased production. Its analysis of the situation takes the long view, which is the view the nation as a whole must take before the unemployment problem is really solved.

A review of the state of affairs leads to the conclusion that unemployment is not solely a business problem, but one that is also social. The mere providing of a few more jobs by industry, the distributing of a few more dollars for relief will not cure the ill. Permanent stability calls for an approach to the question from a wider front.

★ Man About Manhattan ★ By George Tucker

NEW YORK—When Dashiell Hammett isn't on the coast or holding open house on his estate on the Long Island shore he spends most of his time lounging around the fifties, looking just like one of the detective heroes in his novels. But that isn't strange, for years Hammett was a detective himself. He is a tall, slim fellow with a fine shock of iron grey hair, and he is always fashionably dressed.

Life's Darkest Moment

WASHINGTON—A fellow newspaper publisher, who has known Colonel Frank Knox for many years, recently remarked: "I wonder if Frank hasn't scooped himself on the republican nomination."

Crime To Be Sermon Topic

Rev. Flowers Opens Revival Meeting At Methodist Church In announcing his sermon topic for tonight, "The Cause and Cure of Crime," Evangelist R. L. Flowers, who is conducting a revival campaign at the First Methodist church said: "America is the most lawless nation in the world. We spend more money on crime in the United States than on the upkeep of the government, all churches and all schools combined. Can a nation long exist that spends 13 billions of dollars annually for crime? We spent in 1935 seven cents for booze and eight cents for crime out of every American dollar. The church can meet the crime challenge if it will." The evangelist invited all law enforcement representatives as special guests at the service tonight.

ALLRED DELAYS PLANS FOR YEAR'S CAMPAIGN

AUSTIN, April 14. (UP)—Gov. James V. Allred has made no plans for campaigning for re-election, so far he revealed today, though he will be a candidate for a second term. San Jacinto day, usually is looked upon as the time for opening state political campaigns. It will be the occasion of a non-political speech by Governor Allred at the Centennial celebration at San Jacinto battlefield.

Centennial exposition officials are urging him to make the Centennial train trip as head of the state government.

Bender, Ore. (UP)—S. C. Seeds, former president of the Bend Skyliners hiking club, who has spent most of his holidays and vacations conquering towering peaks and crags, opens his 1936 recreation in visiting the lower point in the United States, Death Valley, Calif.

Dr. Kellogg and Mrs. Dr. Pickett, Masseurs and Adjusters, have bought and moved into the Lange Apartment House at 1301 Scurry St. They have renovated on the ground floor and they are well equipped and ready to treat the sick. They successfully treat most all kinds of diseases; scientific massage and adjustment is a wonderful therapeutic means in relieving and curing most all kinds of diseases; so if you are afflicted with sinus, hay fever, stomach, kidney, bladder or female troubles; skin diseases of all kinds and old sores; if you have any of the above mentioned troubles, be sure to see Dr. Kellogg & Pickett. that he was convinced that Florida racing had grown to the proportions which warranted such a fix. In other words, the \$50,000 race is a landmark in Florida racing.

Vanderbilt Goes South

Racing in Florida received a rare boost when Alfred G. Vanderbilt let it be known that he was planning to ship his entire stable of Florida tracks next winter. The youthful owner is extremely popular with racing fans in Florida, and that goes for the stable boys as well through the official family.

Walter H. Donovan, president of the National Association of State Racing Commissioners, pointed out that the effort to bring about periodic international races was a step in the right direction. Not only will such races mean another year toward good will, but it will properly place the emphasis on the sport. There is a lot of truth in the statement that — emphasize the part of racing and the mutuals will take care of themselves; but emphasize the mutuals and the sport will die.

The National Association of State Racing Commissioners has made remarkable strides towards a goal by working together with understanding. The value of approaching racing from a national angle has been demonstrated by the results obtained by the formation of the body. Its action has done such to win national confidence and support. It behooves the operators to realize the need of cooperative action and not to permit individual competition between tracks which is reflected by the standard of operation throughout the country.

Racing is riding high on the crest of popularity and the need for united and coordinated action supervising the sport becomes more and more apparent each day.

**This Makes Laxative
Pleasant to Take**

People who have tried other laxatives know that they are not pleasant to take. They are hard on the stomach, they are hard on the bowels, they are hard on the nerves. They are hard on the system as a whole. They are hard on the mind. They are hard on the body. They are hard on the soul. They are hard on the spirit. They are hard on the life. They are hard on the death.

TRIAL DATE IS SET

**Doctors Must Answer To
Charges Of Mayhem**

SAN FRANCISCO, April 14 (UP)—Trial of Drs. Tilton E. Tillman and Samuel G. Boyd, charged with mayhem in that they performed a sterilization operation upon Miss Ann Cooper Hewitt, will start June 1.

Mrs. Maryon Cooper Hewitt, mother of Miss Hewitt, is also charged with mayhem, but she is ill in New Jersey.

Judge George J. Steiger set the trial date yesterday when the doctors were arraigned and pleaded not guilty.

**Jasie Asked
To Aid Jurors
In New Probe**

Dr. Condon Indicates He
Will Not Appear In
Wendel Inquiry

TRENTON, N. J., April 14. (UP)—A request to Dr. John F. (Jasie) Condon from the Mercer county grand jury to appear before it Wednesday opened an apparent avenue toward new sensations resultant from the Lindbergh kidnaping.

The grand jury is investigating a repudiated "confession" of Paul H. Wendel, disbarred Trenton attorney, that he kidnaped and murdered the baby for whom slaying Bruno Richard Hauptmann was executed.

Alyne M. Freeman, grand jury foreman, revealed he had telegraphed a request to Dr. Condon at his home in New York, but refused to disclose how the grand jury expected the aged educator to help it in the Wendel investigation. Freeman said he had no intention of questioning condition about anything pertaining to Hauptmann.

Since Condon's connection with the Lindbergh kidnaping was as the ransom pay-master, authorities whom the grand jury has consistently cold-shouldered speculated that it probably wanted to check details of Wendel's "confession" against facts of the ransom negotiations as Condon remembers them.

FDR Pledges

(CONTINUED FROM PAGE 1)

greater efficiency nor can we legislate against the use of new tools—or would we if we could," he said.

Population Increase

"Our working population increases every year, both because of population increase and because more and more women are working for wages. That is as it should be. But when we face our problems, these increases raise the question as to whether it is not possible and right to limit the active working ages at both ends.

"We in your government are seeking to extend the school age in every state of the union and to make it easier for boys and girls to stay in school. Work out for yourselves what would happen if all the boys and all the girls of 14 and 15 and 16 and 17, who are now working in industry, found it possible to stay in school until they were at least 18 years old.

"How many jobs would that give to the young people of the nation who have graduated from high school and from college? And how much better equipped would be these youngsters who are now 'I work if they could stay in school to the completion of their education?"

"In the same way, ask yourself how many jobs would be created if the great majority of people who are now over 65—to take a figure at random—were in a position to retire in security for the balance of their days on earth. And how much greater happiness would such security give to their old age."

WILL SPEAK HERE

**Rev. Goodman To Preach
Wednesday Night**

Rev. H. C. Goodman of Phoenix, Ariz., organizer of the Fundamental Baptist church here and pastor of the church for some three years, will preach at the tabernacle at Fourth and Benton streets Wednesday evening.

Rev. Goodman, with his family, is due to arrive Wednesday for a visit with Mr. and Mrs. O. A. Goodmor of the Moore community.

All the minister's friends and the public have been invited to hear him speak.

WOMEN RULE IN MISSOURI TOWN

Victorious in a municipal election, a feminine city council has taken over control of Greentop, Mo. Its members, shown above, are (front row) Mrs. Floyd Beck (left) and Mrs. Bryan Arnold; back row, Mrs. John W. Young (left); Mrs. Ira Pearce, mayor; and Mrs. C. M. VanOndol. (Associated Press Photo)

**Safety Gadgets For Home Include
Rubber Fan Blades, Six-Leg Stool**

CHICAGO, April 14. (UP)—A bumper 1936 crop of new safety feature "gadgets" for the home promise to help reduce the annual spring house cleaning accident toll this year.

According to the National Safety Council home furnishing manufacturers have devoted much time in recent years toward devising safer things for the home. The result has been a gradual decrease in household accidents, although construction shortcomings of household appliances and makeshift devices still are responsible for nearly one-third of the accident fatalities in the United States.

Some of the developments in reducing home accidents shown in a preview here in the Merchandise Mart were:

An electric fan with rubber blades, sturdy enough to create a strong breeze but so pliable that an infant's fingers will not be harmed by direct contact.

A non-tippable bridge table that will support a man on the edge without tipping over.

A milk bottle sterilizer that reduces the danger of scalded fingers when removing sterilized bottles from the pan; several new automatic heat control devices for electric irons which reduce the possibility of fires from irons left standing; tea kettles with tops which cannot pop open accidentally.

As shown were attachments for gas cook stoves which make it impossible for children to turn on the gas; gas stoves whose burners are in sets of two each on either side of the top, with working space in the center, so there is less reaching over open flames; a combination step ladder and kitchen stool with six legs for security; several devices for making throw rugs cling to the floor; non-skid rubber bath mats, and all-porcelain, shock-proof electric fixtures for the bathroom.

**"Womanless Wedding"
To Be Presented As
School Stunt Affair**

The annual stunt program sponsored by the junior class each year, will be staged Thursday morning in the high school auditorium, Miss Catherine Young, class sponsor, said Tuesday. This year the program will be in the form of a "womanless wedding."

Participating in the program are: Usher, Ben Case; bride's mother (Ma Nut), Jimmy Myers; bride's sister (Ima Nut), Sam Flowers; Ima's baby (itty Bitty Nut), Aubrey Weaver; nurse, Sam Atkins; deaf aunt, H. C. Burrus; bridegroom's father (Pa Bright), Tommy Reeves; groom's mother (Ma Bright), Charles Sykes; groom's little sister (Marie Antoinette), Joe Robert Myers. Organist is to be Homer Adams and R. H. Miller will be the featured soloist singing a parody of "Oh Promise Me." Minister, Elton Gilliland; groom (Izy Bright), Ralph Cathey; best man, W. D. Sullivan; flower girls, John and Harry Blomshild; ring bearer, Floyd Dixon; bride (Ura Nut), Murray Patterson; bride's father (O. U. Nut), James Wheat; matron of honor, Lawrence Liberty; bride's maids, Robert Hildreth, Billy Danner, Morris Barnes, Buck Tyre, Nelson Henninger, Wayne Nance, David Williams and Jimmie Ford.

The play was written by Miss Young and Elton Gilliland.

Proceeds go to pay for decorations of the junior-senior banquet.

**ZEPELIN IS REFUSED

Chinese Resent New Coins

SHANGHAI (UP)—An urgent request that an old Chinese custom be revived and that holes be put in the new subsidiary coins now being minted, has been lodged with the Chinese government by the China industrial federation.

**FORMS FOR COTTON
SALES MAILED OUT**

WASHINGTON, April 14. (UP)—Commodity corporation officials said today that application forms for farmers wishing to sell cotton under the 12-cent loan are in the mails, and that movement of a million bales to market should begin tomorrow or Thursday.

The applications will be available through RFC loan agencies and county agents' offices, it was said.

**SENIORS PLACE ORDER
FOR CAPS AND GOWNS**

Measurement for the traditional graduation uniforms of caps and gowns was near completion Tuesday at noon. All but 18 of the 137 seniors had been measured and chosen the style of diploma they preferred. This year two types of diplomas were offered, either a plain style or an embossed finish.

**A LIGHT SMOKE
OF RICH, RIPE-BODIED TOBACCO**

Each Puff
Less Acid

I smoke for pleasure,
my mind's at rest

I smoke Luckies
a Light Smoke of rich,
ripe-bodied tobacco
"it's toasted"

Luckies are less acid

Recent chemical tests show
that other popular brands
have an excess of acidity
over Lucky Strike of from
53% to 100%.

Luckies — "IT'S TOASTED"

Your throat protection — against irritation — against cough
