#### DONKEY-SHINES ON SCHEDULE FOR AMHERST SATURDAY NIGHT

Donkey-shines will be in order in the Amherst high school auditorium Saturday night when the faculty members oppose the students in a donkey basketball game for the benefit of the football athletic fund. Donkey basketball, in case you don't know what we mean, is a basketball contest in which the players are mounted on the backs of donkeys. The rubber-shod mounts are being supplied by Dunham's Star Donkeys, of Crescent, Okla., and they are said to be specially trained in the sport so that they actually know what they should do—and usually do the opposite. Superintendent of Schools W. D. Kay said Wednesday the players would be the ones usually on top of the donkeys. He said he wished to make that absolutely clear in order to forestall any waggish questions from the audience.

Members of the Amherst Lions Club first were invited to form a team to oppose the students but declined on the grounds it would not be fitting for any member of an organization named after the king of beasts to come in personal association with a lowly donkey. Principal V. B. Osborn will captain the faculty team. The players will be selected from a "squad" composed of Mr. Kay, Charles Hester, A. D. Shaver, Herb Willford, J. W. Adams, Mal Wynne, Elvin Ingram and A. T. Hedgpeth. Members of the student team were to be chosen from the football and basketball squads. The game will be open to the public and is expected to attract a capacity audience. Those who have witnessed previous performances of "donkeyball" say it is one of the most hilarious entertainments that can be seen anywhere.

### Buy, Store Insecticides Now For Next Year, Farmers Urged

Now is the time for Lamb County farmers to buy the insecticides they will need next year, County Agent D. F. Eaton said Wednesday. The more widely used insecticides are plentiful now and farmers should get an adequate supply and store them until they are needed, he said. "Last year," he said, "farmers who waited until it was time to use the insecticides before they made their purchases had to pay about 65 per cent more than they would have paid had they made their purchases earlier." Follows Other Reports Mr. Eaton's recommendations are in line with a report by Guy E. Carpenter, Extension Service entomologist for the South Plains, who pointed out that insecticide manufacturers have limited storage space and when this space is completely filled, they must cease operations. Farmers and distributors by taking delivery now can keep the insecticides moving and at the same time, help the storage and transportation situation.

Insecticides will cost no more now than they will next summer and there is a possibility they may cost more next year, Carpenter said. Dusts and sprays can be stored safely on the farm. The dusts must be stored in a dry building and the spray containers should be stored where they will not be damaged from breakage. Both types of material can be safely stored for at least 12 months. Sprays will not freeze because of the emulsion they contain and no cases have been reported that show that dusts or sprays have broken down when kept in storage for as long as a year. Most of the metal containers, have a special lining and unless this lining is broken, no trouble from leaky containers should occur. Formulas To Be Same The recommendations covering the use of insecticides for cotton insect control have not yet been made for 1951 but the standard formulas will not be changed, Carpenter said. It must be remembered that the basic chemicals used in the insecticides will not be changed. (Continued on Page 4)

More than 1000 of the country's greatest theatrical and musical artists comprise the list of talent from which the Board of Directors of the Lamb County Concert Association will pick its 1951 series of entertainments Saturday afternoon, following the close of its current drive for new members. Such stars and top-flight attractions as the Philharmonic Piano Quartet, Vivian Della Chiesa, Donald Dame (star of the Bayer Aspirin Album of Familiar Music), Christopher Lynch (star of the Voice of Firestone Hour), Norman Farrow (NBC singing star), Alec Templeton, Conrad Thibault, Rose Bampton, Nadine Conner, Anne Bollinger, Nino Martini, Igor Gorin, the St. Louis Sinfonietta, Gladys Swarthout, James Melton, the world renowned Don Cossack chorus, Rise Stevens, the internationally famous Trapp Family singers, the Columbus Boy Choir, Littlefield high school still has a chance to win undisputed possession of the 1950 District 4A football title IF— The improbable IF is a Tahoka victory over Levelland at Tahoka Friday night. If Tahoka wins, Littlefield wins the title. If Tahoka loses, Littlefield, which bowed to Levelland last Friday night in the Lobo stadium, 14 to 26, will be tied with the Loboes for the title. In the latter case, the principals of the schools in the conference will be called upon to select one of the two tied teams to represent District 4A in the playoffs. IF the principals wish to shun the responsibility they can tell the two schools simply to flip a coin. Meantime, everything awaits the outcome of the Lobo-Tahoka game.

### Three LFD Players May Get in Game

ABILENE. (Special) — Littlefield men will see action as the McMurry College Indians close out their schedule — against the Southwestern University Pirates in Abilene Friday night. Most likely to see service is Billy Sisson, letterman guard, but among others who may play are center George Kirk, guard Donald Timian, back Stephen Brock, and back Sabin Hendrickson. Hendrickson broke a leg early in the season but has been out of the cast nearly a month now. His main difficulty has been in building up his speed again.

### APPEAL FOR COMBINES BROADCAST FOR COUNTY

Additional combines were converging on Lamb County this week following a radio appeal by J. D. Jordan, manager of the Littlefield office of the Texas Employment Commission. The appeal, broadcast Tuesday morning over an Amarillo radio station, sought quick help in the grain harvest in the county before dust storms or high winds laid the top-heavy grain stalks low. The stalks were weakened to a danger point by the hard freeze of the last ten days and not much of a wind is needed to lay many of the fields low, Mr. Jordan said. Some Damage Tuesday Some damage was done to the milo crop by Tuesday's winds and farmers all over the county were holding their breath lest a northern descend on the area before the milo is cut and harvested. The grain harvest was in full swing in all parts of the county this week. The some sixteen commercial elevators were filled to the overflowing Wednesday and mounds of grain were piling up alongside all of them. In addition, many farmers were farm-storing their grain, County Agent D. F. Eaton reported. Some of the ground storing was because of lack of bin facilities and some was to reduce excessive moisture content. Promises of help in the harvest were received by Mr. Jordan and the county agent's offices from Plainview, Tulla, Dimmitt and Hereford. It was expected 12 or 15 additional combines would be available for harvest work in the county today. Seven combines were expected here from Plainview, four from Tulla, a like number from the Hereford area and some four from Lamb County harvesters who have completed their work in their own fields. With the additional harvesting machines it was expected any loss to the farmers because of wind would be minimized unless there was a heavy blow within the next few days. Steady Call for Machines Calls for combines were coming in to the employment offices steadily this week, Mr. Jordan said, as the grain growers raced against time and the elements to save their crop. The harvest in some top fields was running as high as 3000 pounds to the acre but the county average probably will not exceed 1500 pounds, Mr. Eaton said. Almost all the grain now being harvested is reported to be high grade. A check by the employment service Tuesday revealed the harvest about 50 per cent complete in the Amherst area, about one-third completed in the Littlefield district and only about 15 per cent finished around Sudan, Mr. Jordan said. In Parmer County the harvest is about 50 per cent completed and about one-third of the grain in the Bailey County, he said.

In a beautiful double ring ceremony at the Emmanuel Lutheran Church, Littlefield, Sunday afternoon at 3 o'clock, Miss Helen Synatschk, daughter of Mr. and Mrs. Herman Synatschk of five miles south of Anton, and Elmo Pietsch, son of Mr. and Mrs. Alfred Pietsch of Warda, Texas, exchanged wedding vows.

Rev. H. A. Heckmann, minister of the church, officiated.

**Wears White Satin**  
The bride wore a gown of white slipper satin, with fitted bodice and lace yoke, long tight sleeves tapering to a point at the wrist, and long full skirt falling in a train. Her fingertip veil of bridal illusion fell from a tiara encircled with rhinestones and pearls. She carried an arm bouquet of white mums tied with streamers of white satin ribbon.

For something blue she wore blue ears screws; for something borrowed a double string of pearls belonging to her sister; for something new her wedding attire; and for luck a penny in her shoe.

**Mrs. Pietsch Matron of Honor**  
Mrs. Walter Pietsch of LaGrange, Texas, served her sister as matron of honor. She wore an orchid taffeta dress with V neckline, with fitted bodice, large scalloped collar, short puff sleeves and long circular skirt. She also wore matching sweetheart head dress and mits. Her corsage was of yellow carnations.

The bride's other attendants were: Miss Adfelda Synatschk of near Anton, sister of the bride, who served as maid of honor, and who wore a rose taffeta dress with matching head dress and mits, and a corsage of light pink carnations; Miss Frances Pietsch, sister of the groom, who wore a blue taffeta dress with matching head dress and mits, and a corsage of pink carnations; Miss Venetice Pietsch, cousin of the groom, who wore a green taffeta formal with corresponding head dress and mits, and a corsage of bronze carnations; and Miss Audrey Hobratschk, cousin of both the bride and groom, wore a yellow taffeta formal, with matching head dress and mits, and a corsage of deep lavender carna-

**Wear Identical Dresses**  
They all wore dresses fashioned identical to that worn by the matron of honor, and all carried white lace handies.

**Walter Pietsch Best Man**  
Walter Pietsch, brother-in-law of the bride, served the groom as best man.

**Groomsmen were:** Oliver Hobratschk, Herbert Synatschk, Leroy Kappler and Clarence Hobratschk. Ushers were Willie Hobratschk and Walter Schramm, Jr.

**Janette Kappler served as flower girl.** She was dressed in aqua taffeta and carried a crocheted basket of rosebuds.

**William Kappler carried the ring on a heart shaped pillow.**

**Mrs. Synatschk, mother of the bride, and Mrs. Pietsch, mother of the groom, both wore dresses of brown crepe, with black accessories, and corsages of yellow roses.**

**The bride's table was laid in white linen, centered with a beautiful three tiered wedding cake, bearing miniature bride and groom, and decorated with pink rose buds.**

**Attend Golden Wedding**  
The happy couple plan to leave today (Thursday) for South Texas to attend the golden wedding anniversary of the groom's grandparents, Mr. and Mrs. August Pietsch, Sunday.

SUDAN ROTARIANS SEE FILM OF 1949 FOOTBALL HIGHLIGHTS

Routine business is on the program for the Sudan Rotary Club at the regular weekly session Friday at the First Methodist Church in Sudan.

Women of the church will serve the club luncheon at 12 o'clock.

Last week the Sudan Rotarians were entertained with motion pictures shown by Pete Peterson of the Wayne Dairy of Littlefield depicting the highlights of the 1949 Southwestern Conference football

games.

Outstanding plays in the various games throughout the 1949 season, including the great battle between SMU and Notre Dame, kept the club members on the edge of their seats throughout.

One new member, Ted Walker, operator of the new Gulf service station on the Littlefield-Lubbock highway in Sudan, was admitted to membership.

ian Kallir (sensational new 19-year old pianist), the Zucker Sisters (one of America's finest two piano teams), Teresita and Emilio Osta (brilliant Latin America dance and piano team), Erica Morini, Dorothy Maynor, Albert Spalding, Sigurd Rascher (the world's greatest saxophonist), and the Holbrooks (in their "Theatre of Great Personalities") are but a few of the scores of entertainers available for appearances in Littlefield this season.

"Never before has such an extensive list of great and familiar names been available in this part of the country," Bob Gaus, Mutual Concerts representative who is in Littlefield this week assisting the local Association in conducting its third annual drive for new members, said. "And it is doubtful whether such a large assortment of talent will ever be available again during the course of a given season."

A goal of \$50 members in Lamb County has been set for the week-long drive, which closes at noon Saturday. After this time, no memberships will be available for the 1951 series, nor will single tickets of admission be sold to any attraction.

The shows will be given in the auditorium of the Littlefield High School at intervals between the months of January and April, 1951. From three to eight attractions will be offered, depending upon the size of the membership and the amount of money available for artists' fees.

Membership in the Association

is open to all residents of Lamb County upon payment of the annual membership fees of \$4.80 for adults and \$2.40 for students. Memberships are transferable.

Members of the local Association are privileged to attend all of the attractions presented by Mutual Associations in any neighboring community without payment of any kind. There are Mutual Concert groups in Hereford, Levelland, Brownfield, and Lamesa.

Scores of workers are canvassing the county this week in an effort to extend an invitation to every family in the area to participate in this project, Don Hayes, president of the Association, said.

Headquarters have been established in the Littlefield Chamber of Commerce office, phone 172, and will be open daily from 9:00 till 5:00 and Saturday from 9:00 till 12:00 for the sale of memberships.

## Sudan Hornets Cherish Chance To Gain Tie for District Title

Sudan high school will close its 1950 football season Friday night at Olton in a game in which the Hornets have a chance to gain a tie for the district championship. Olton now leads in conference standings without a loss in the season's play while Sudan and Dimmitt are tied for second with only one loss apiece.

Should Coach Francis Smith's Hornets take the measure of the league leaders in Friday night's game, the season will wind up in a three-way tie involving Sudan, Dimmitt and Olton.

While the Olton eleven has been made the favorites in the Friday night encounter the Hornets aren't conceding a thing.

"Win, lose or draw, Olton's going to know it has been in a ball game," Principal O. B. Stamper said.

Comparative scores, which mean little in such a game, would give Olton better than a two-touchdown edge over the Hornets, based on the outcome of the games against Dimmitt.

Olton defeated Dimmitt by a score of 26 to 14 while Dimmitt in turn beat the Hornets by a 12 to 6 count.

However, even the most sanguine Olton supporters probably would be ready to settle for seven points right now.

The game, starting at 8 o'clock, will be broadcast by radio station KVOW of Littlefield.

## Olton to Contest Sudan Friday Night

The Olton football team defeated Dimmitt Friday night to the tune of 27-12.

## Attend Optometric Meeting Thursday

Drs. Ira E. Woods and B. W. Armistead of Littlefield attended a meeting of the South Plains Optometric Society which was held Thursday evening, November 9, at the Hilton Hotel in Lubbock. Dr. Louis R. Hill of California, associate director of Ethics and Economics of the Optometric Extension Program was guest speaker of the evening.

According to Dr. Hill the careful study of growing children has revealed that much can be done to prevent visual handicaps in later years. The schools are having trouble teaching children to read, stated Dr. Hill, because of the visual handicaps that the children develop, such as astigmatism, suppressions, amblyopias and the like. The great authority on school environment, Dr. Darell Boyd Harmon, has shown that school rooms, old fashioned seating, blackboards and misplaced light has actually created these visual defects in children, and the optometrist is rapidly becoming the coordinator and consultant of the illuminating engineers, architects and others having to do with school construction and equipment, for Optometry is more and more concerned with the prevention of visual difficulties at an early age rather than having to overcome these difficulties in adults.

Mothers are cautioned to watch their children carefully at around three years of age, to detect any signs of crossed eyes, and at seven years of age to watch and note if the child is holding reading matter very close to its face—an almost sure sign of developing nearsightedness.

## Olton Schools Declare Visitation Day; Visit in Area

The Olton luncheon room ladies came to Littlefield and visited the luncheon rooms here, according to Rev. Jordan.

## Primary P. T. A. To Meet Tuesday

Mrs. McClain will be in charge of the program, which will feature the Thanksgiving theme.

**Chocolate Toppers**

1 package vanilla pudding powder    1 tablespoon butter  
1 cup brown sugar        1/2 cup finely cut nuts  
1/2 cup Pet Milk            1 cup chocolate morsels

Grease a pan about 8 x 4 inches. Mix in saucepan until smooth the pudding powder, brown sugar, milk and butter. Cook and stir over low heat until sugar dissolves. Boil slowly, stirring now and then, until candy reaches soft ball stage. Remove from heat and add nuts. Beat until candy begins to hold its shape. Pour into greased pan. Cool thoroughly. Heat chocolate morsels over hot water until partly melted. Remove from heat; stir rapidly until completely melted. Pour over candy; spread to edge of pan. When firm, cut into inch squares. Makes 32 squares.

\*Plain chocolate bars, broken in small pieces, can replace the morsels.

*You Will Need:*  
Pet Milk, Chocolate Morsels, Vanilla Pudding Powder, Brown Sugar and Nuts.
