AFFECTS COUNTY

Election Set September 7

Absentee ballots are now available in the County Clerks Office in the Lamb County Courthouse for the September 7 election on a proposed Constitution Amendment.

County Clerk Charles Jones announced that the ballots would be available until September 3 for persons who will be unable to vote on election day. In addition requests are being taken for ballots by mail which must be back by 1 p.m. on election day.

The constitution amendment to be voted on is the increasing of the membership of the Texas State Senate from its present 31 members up to 39 members; to require apportionment of the senate according to population; and to delete the limitation that no single county is entitled to more than one senator.

Billy Wayne Clayton, Springlake, State Representative 91st District, outlined the effects of the proposed change on Lamb County.

"When the legislature passed the reapportionment bill this past session in accordance with federal laws, it greatly enlarged the senatorial districts with the least population." As an example, the reapportionment as it now stands, would have Wichita Falls included in the same district with Lamb County," stated Clayton.

"If the constitutional amendment passes the senatorial district would again be almost its present size. Under the present 31 senate members, 13 of the senators will represent metropolitan areas with an additional five or six others representing areas adjacent to metropolitan areas which would give these areas a majority of the votes," continued Clayton.

"Under the proposed 39 member senate, the eight additional senators would be from metropolitan areas but it would not give them a majority as with the 31 member senate," Clayton explained.

"The Texas Constitution when it was adopted in 1876, provided for each of the 31 senators to represent approximately 26,000 people, now each senator represents approximately 309,000 persons," outlined Clayton.

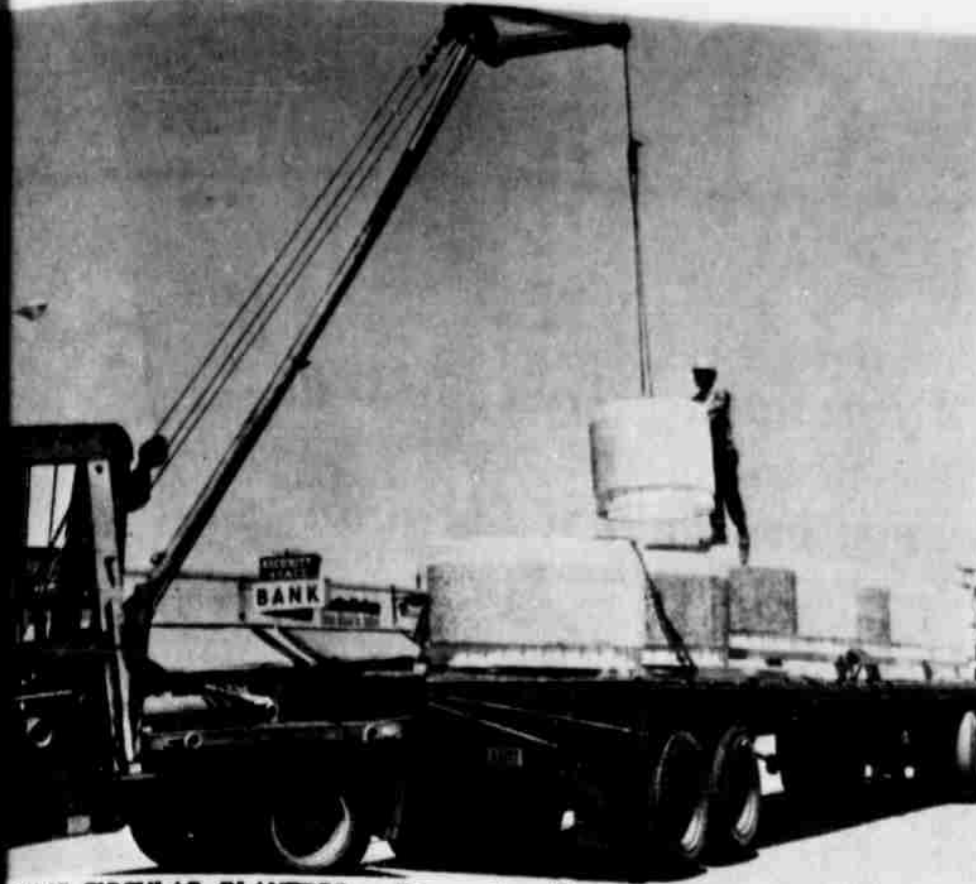

"Now there are 21 of the Districts that are larger than entire states with one larger than 17 states including Ohio, Tennessee and Virginia. Fifteen states, which combined have the same population as Texas, are represented by a total of 481 senators," Clayton concluded.

In regard to the voting, Jones stated that they have not received any word from Austin concerning the Poll Tax and that payment of the tax is still required to be eligible to vote in the election. "Unless we receive word to the contrary, persons are still required to have paid their poll tax," stated Jones, "and it is unlikely that there will be any change prior to this election."

Jones also stated that on election day the 17 voting precincts would be open for voting.

Bitner Wins Final Week Of "Weekend In The Rockies"

Albert D. Bitner, 817 West 11th Street is the final week's winner in the "Weekend in the Rockies" contest that has been sponsored by The County Wide News and Littlefield and Sudan merchants.

Mr. Bitner, who has lived here since 1944, was the preliminary winner at Jim Dandy Food Store at their drawing last Friday.

The Bitners have three chil-

King Receives Scholarship From Abilene Christian

Keith Lynn King, son of Mrs. Jack W. King, Sr., of 209 E. 15th in Littlefield, will be one of two Abilene Christian College students to receive \$3600 fellowships from the University of Texas and the state government to begin graduate study at the university in September in the field of public administration.

Also named to receive a fellowship was Robert Earl Smith of San Angelo. Both are among the first half-dozen government majors this spring and fall ever to graduate from ACC.

All of the government graduates are entering either master's programs in public administration or law school.

King and Smith will each receive the \$300 per month Texas State Fellowship in Public Administration, beginning in September.

This is the first year for the awards to be given, and only five were awarded. A joint committee of state officials and university representatives decided who was to receive the fellowships.

The grants are made to students planning careers in state governmental service.

Dr. Wendell McC. Bedichek, assistant professor of social science and head of the government department, said the awards were a very encouraging stimulus to the government major program begun only this year at ACC. Smith and King were officially sponsored by Dr. Bedichek.

He said that for two of ACC's first government graduates to each receive one of the five awards was a distinct honor.

Dr. Bedichek added that the assumption of responsibility by the state for training public servants in this manner is a sign of real progress in Texas government, and that this pro-

gram should reap real rewards in the future.

Back-To-School Section In Today's Leader

Only a few days remain before the kids will be returning to the class rooms, and to insure they will be properly prepared and ready, the merchants of Littlefield have scheduled a big three day Back-To-School shopping event. The stores of our town are laden with many money-saving buys on all types of school supplies and clothing. Don't miss this once a year event when you can save money and still get the kids ready for school.

Check the big 12 page Back-To-School section in today's Leader, for money saving buys and school activities, such as registration and needed supplies for each grade.

Jackie Friday Injured In Car Accident

An accident at 11 a.m. Wednesday morning on Highway 54 approximately one mile west of town put the driver of one car in the Medical Arts Hospital and the two occupants of the other vehicle were released after examination.

A 1957 Ford driven by Gwen Allen, 19, of Littlefield and with her 14 year old sister, Lavona, as a passenger was struck in the rear by a 1963 Chevrolet driven by Jackie Friday, 21, Littlefield.

Friday suffered a head injury in the accident and is reported to be in fair condition at Medical Arts. The Allen girls were examined for back injuries, then released.

Both cars were considered a total loss in the accident which resulted when the Allen girl slowed down and her car was hit from behind by the Friday vehicle.

For real money saving buys check the special section in today's Leader.

ONE IN HOSPITAL -- Jackie Friday, driver of the Chevrolet pictured above is in Medical Arts Hospital where he is reported to be in fair condition suffering from head injuries. The occupants of the other car, Owen and Lavona Allen suffered only minor injuries in the accident on Highway 54 Wednesday morning about one mile west of town.

Accidents Damage Four Vehicles

Two accidents occurred in Littlefield during the past few days as the four cars involved were damaged to an extent of slightly over \$400.

The first happened on Phelps Ave. Friday evening around 10 p.m. when a car driven by Joe Smith, Olton, was hit in the rear by a 1963 Ford driven by James Peterson, Littlefield. The Smith vehicle had stopped for a traffic light. An altercation following the accident resulted in the owner of the car driven by Peterson being booked by City Police on disturbance charges. The car owner's wife was also booked.

The second accident was at the intersection of Highway 84 and Sunset Ave. A car driven by Joetta Bond, Ltd., started to make a left turn off the highway onto Sunset when her car was hit by a vehicle driven by William Casey as he started to pass her, stating that he did not see the other car make any signal for a turn.

The damage to each of the cars was estimated to be approximately \$100.

Mahon Discusses Cotton Bill

To cotton farmers and business people whose economic welfare depends on cotton, I might say as the week of August 15 begins, "Hold your hat! Here we go." The long-awaited and much debated omnibus farm bill, which contains across-the-board legislation for many crops, including cotton, is scheduled for debate in the House beginning Tuesday noon.

With respect to cotton, neither farmers nor legislators can predict what the effect of the passage of the cotton section would be, I, myself, am deeply worried about what to do. The economy of the 19th Congressional District is largely dependent on cotton.

Shall we embrace the low loan and direct payment route which the bill prescribes? The loan on middling one-inch cotton would be twenty-one cents per pound for 1966. This would mean about eighteen cents to the farmer under the bill, if he reduces the planting of his allotment by thirty-five percent as many would be expected to do, would be the equivalent of about fourteen and one-half cents per pound, seventy-two dollars per bale. The farmer would have to reduce the planting of his allotment by fifteen per cent to be included in the program at all.

The bill is a four-year bill with provisions for the first year well spelled out; but after the first year the Secretary of Agriculture would have very broad discretion. The loan could not exceed ninety per cent of the estimated world price, but it could be less. The direct payment to the farmer would be within the discretion of the Secretary, but the loan, plus the direct subsidy to the farmer, would have to be equivalent to a total return to the

Band Invited To Plains Fair

The Littlefield High School Band has accepted an invitation to appear in the "Parade of Bands", annual kickoff event for the Panhandle South Plains Fair at Lubbock, September 27.

Littlefield has won the top award at the event for the past four years and is one of more than 60 bands receiving invitations to the event.

First Grade Registration Set

Littlefield school officials have announced that registration for first grade students will start August 23.

Parents are required to bring either a birth certificate or a hospital certificate as proof of age when the child is registered. It is also required that the child have been vaccinated against diphtheria and smallpox and also received at least the first of the series of polio serum.

Quarterback Club Sees New Bus

The members of the Littlefield Quarterback Club got their first look at the School Activities bus at their meeting Tuesday night (Pictured on Page 1 of Section 2) which has been painted and is now ready for use.

In addition to the Quarterback Club, the High School choir, Band Parents Club, FFA, and Distributive Education Club have donated toward the purchase and the Student Council, Patsy Lively Club, FHA, FTA, Library Club and Language Club have pledged donations.

School Superintendent Paul Manning, new high school principal, Beryl Harris and new members of the coaching staff were introduced to the 30 members present.

Head Coach John Howle

Head Coach John Howle stated that the football candidates had shown lots of enthusiasm and that they were really settling down to hard work.

Club President Jim Mangum announced that the next regular scheduled meeting will be held next Tuesday evening at 8 p.m. at the High School cafeteria.

**Lamb County Winners
In District Dress Revue**

Lamb County winners in the District Dress Revue held in Lubbock recently were Iva Tanner, Olton and Alene Weaver, Amherst.

Iva was first alternate in the senior division and Alene won a second place in the junior division.

Thirty-six girls participated in the revue. A dinner was sponsored by the Plains Cotton Oil Mill, Lubbock prior to the presentation of awards.

Here's how to estimate the amount of fabric needed to make cotton curtains or draperies. If you select a sheer, airy cotton like organdy or batiste, get enough fabric to measure two to three times the width of the window. To make draperies of heavier weight decorator cottons, get fabric that measures twice the width of window.

COMMUNICATIONS — Your Tool for Progress

What! An extension telephone in the barn?

Time was when a telephone in the barn was the last thing you'd ever expect. Not so today. Many of our rural customers have extension telephones in barns, stables and poultry houses, to save time and trouble just as city people do. Here is another example of how Communications can be your Tool for Progress. For full information about our many communications services, please call our Business Office.

If the children head for your new cotton upholstery with drippy ice cream cones, don't panic. Even if the upholstery doesn't have one of the stain-repellent finishes, the fabric is washable. To remove food stains from cotton upholstery fabric, first scrape off excess with a dull knife. Then gently rub area with a sponge dipped in a mild detergent solution. Wipe with a dry terry cloth towel.

"Towel" and "terry cloth" are synonymous because all-cotton terry cloth is the thirstiest of fabrics... ideal for bath and kitchen drying chores. The high absorbency and durability of terry cloth are not affected by frequent launderings. And, like all cottons, terry cloth is easy to keep clean. White cotton terry towels can be washed in very hot water... as hot as 160 degrees.

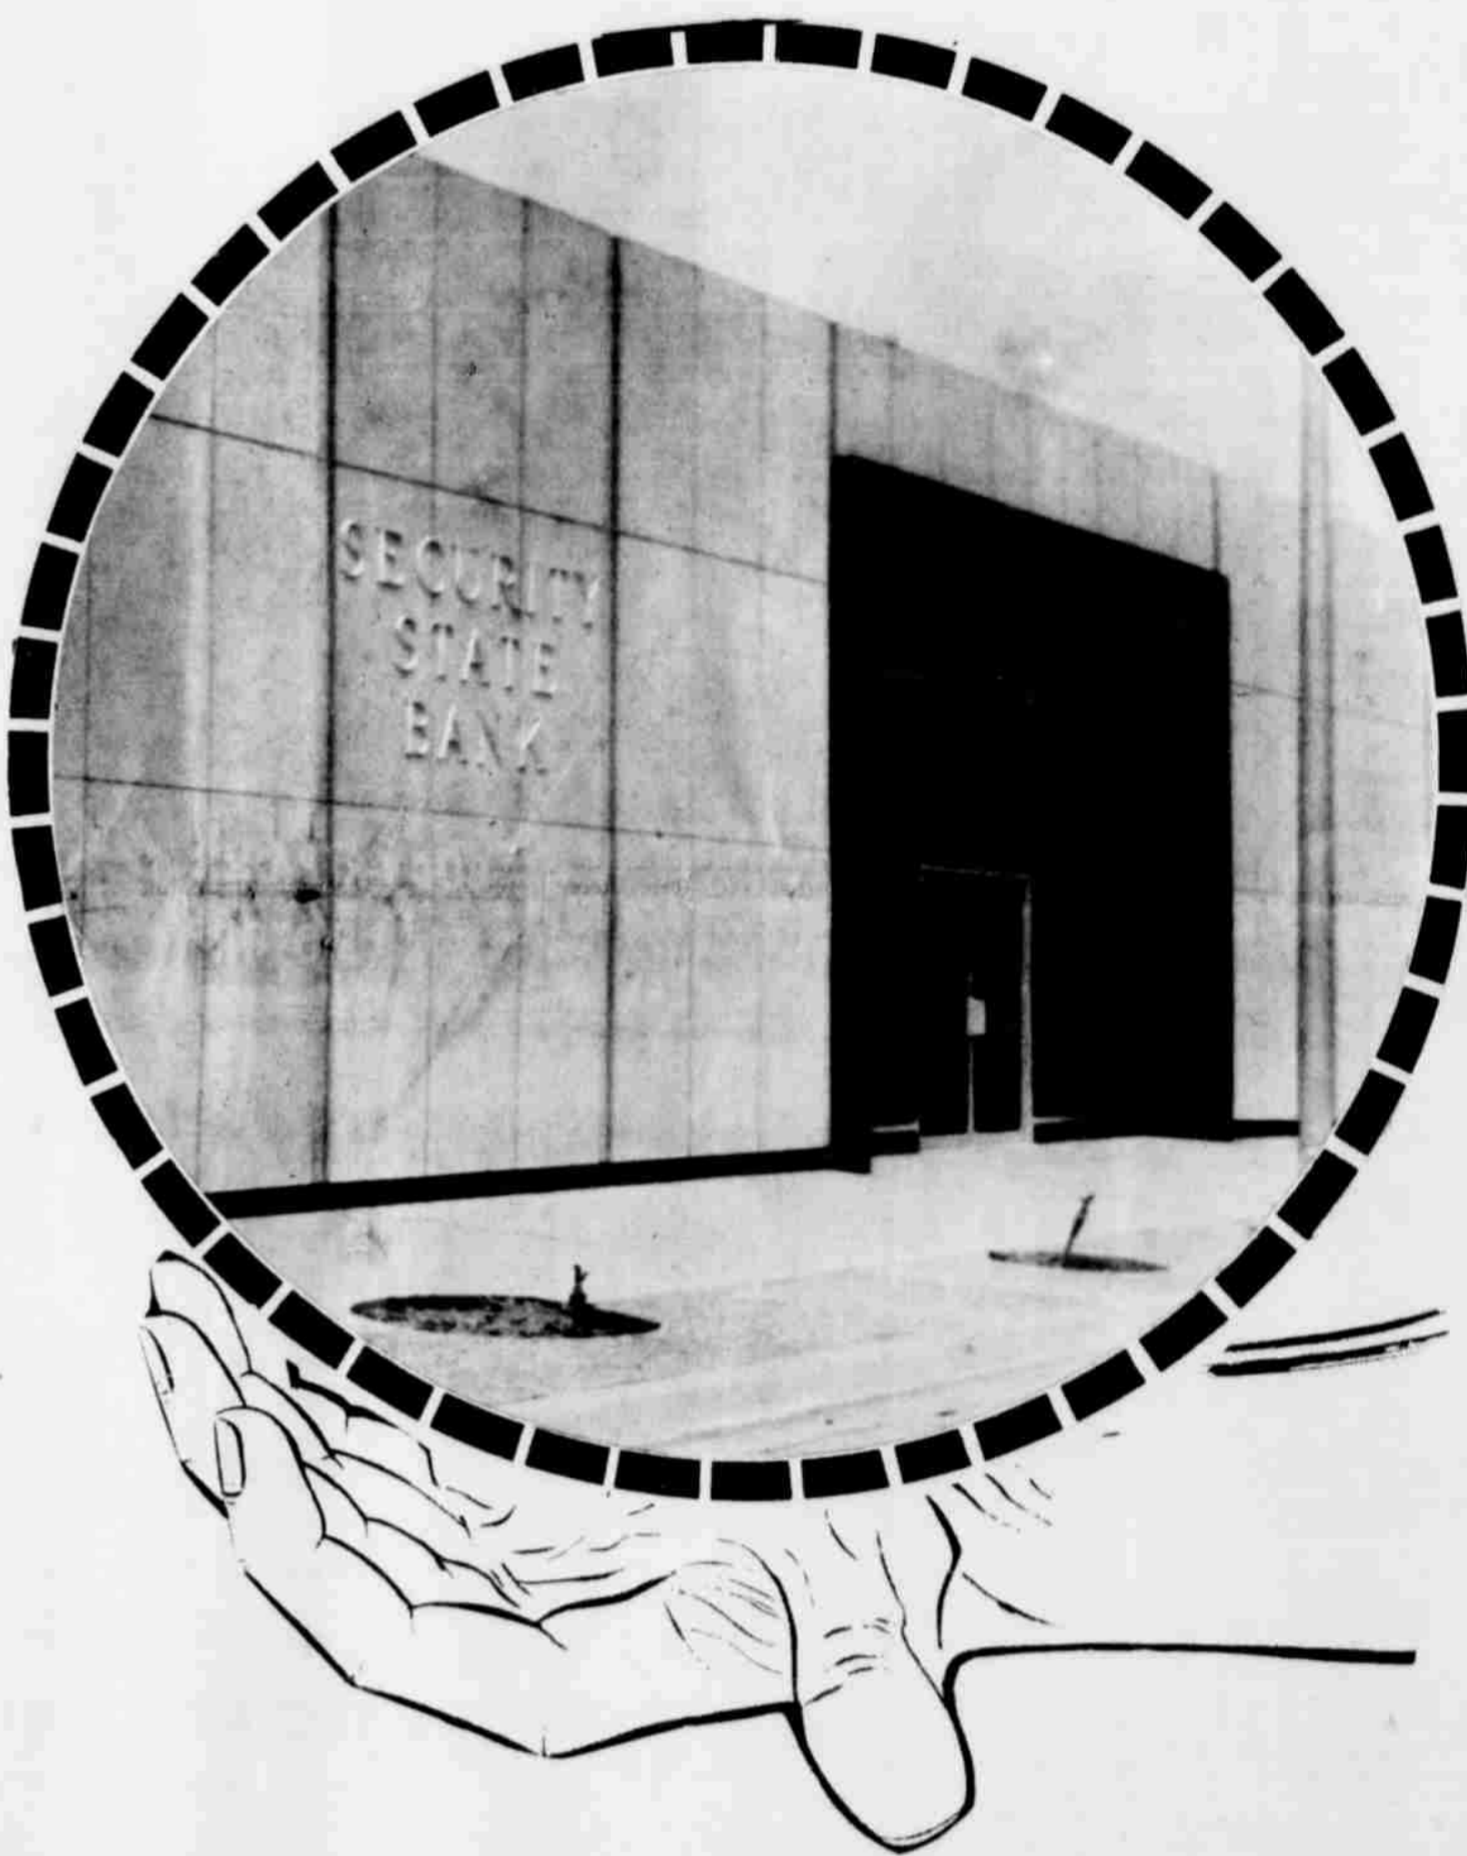

Cotton fabrics resist moths.

Use of cotton antedated ten history by many centuries.

In 1700, English woolers had cotton's use outlawed.

LHS Senior Supplies Recipe

Yandell, a seventeen year old senior at Littlefield school, supplies the recipe this week. He is the son of Mr. and Mrs. Reed Yandell, 2nd.

Ronnie's favorite past-time is cooking, but his leisure hours will soon be over as he prepares to go to college.

He is a typical boy who likes to swim, play golf, and basketball. He also likes to read and plans to be on the team this year at school.

Looking forward to starting school? "Yes, I am," he stated. "I guess it's the first year I've looked forward to it - except maybe when I was in the first grade."

His favorite subject is chemistry, but he enjoys band, too. He played the trombone in the school band for the last two years.

He is a part-time employee of Brittain Pharmacy, where there is of special interest to him as he plans to graduate from the University of Texas for a degree in pharmacy.

Although he likes to prepare and eat chip cookies the best, he also enjoys preparing steaks, hot dogs and hamburgers, too. He is the inventor of the hamburger recipe, it has been titled "Ronnie Burger."

In reference to having his recipe published in the paper he said, "You know, it sure is hard to live this life."

RONNIE BURGERS
1/2 lb ground meat
1/2 cup mustard
1/2 cup garlic salt
1/2 cup grated onion
1/2 cup tomato sauce
1/2 cup Barbeque sauce

1/2 lb ground meat, and add ingredients. Simmer until well done, then over warmed hamburger.

Seniors Advised To Think Ahead

The class of 1966 is preparing to enter the final year of secondary school work. Many of these high school seniors are so busy they have given little thought to what will happen after graduation.

Now's the time to take a thorough, realistic look ahead to the fall of 1966, says Patsy Reynolds, specialist in family life education with the Texas A&M University Extension Service.

"Parents and school counselors should help students take a look at their education or career plans early this fall. They need to complete their plans for college, business school, or other advanced preparation to earn a living. Applications should be submitted by November or December--yet many families do not realize this when their first child prepares to enter college," Miss Reynolds says.

Students who plan to apply for scholarships should keep this early deadline in mind, too. Many scholarships have a February 1 deadline for application.

"This means that the young person must already be admitted to the college and then file the application by February," the specialist adds.

She advises young people to talk to school counselors and write to the colleges or business schools in which they are interested.

A decision on higher education should be reached soon, and it may require some serious thinking before final plans can be made, Miss Reynolds says.

Mrs. Overstreet Given Shower

Mrs. Norman Overstreet was honored with a pink and blue shower Saturday morning in the home of Mrs. Jack Grace. The refreshment table was covered with a white cutwork cloth and centered with an arrangement of pink roses, silver and china appointments were used.

About forty guests registered. Out-of-town guests were Mrs. J.E. Knight and Mrs. Tommy Cheshier, Littlefield; and the honoree's mother, Mrs. W.W. Frazier of Olton.

Hostess gift was a car-bag and diaper bag. Hostesses were Mmes. Claud Couch, Carl Harrington, G.C. Reed, Reese Prichard, J.B. Pirtle, Richard Grace, Doyle Bishop, Johnnie Harper, Donald Love, Pat Byrum and Jack Grace.

Millions Make Life Unnecessarily Difficult

Are you among the millions of people who make life unnecessarily difficult for themselves--and suffer fatigue, irritability and accident proneness as a result?

Psychological factors are often to blame; the chronically irritable person, for example, may fail to put problems in perspective, set unfair standards for himself and others. But physical reasons--lack of rest or exercise, poor nutrition, un-suspected vision or hearing problems--may also help to create such self-defeating, self-cheating handicaps as poor work performance, bad memory, that "always tired" feeling.

A Vitamin B1 or thiamin deficiency, for example, may produce fatigue, depression and irritability along with such physical symptoms as constipation, loss of weight and a drop in blood pressure.

The frayed nerves and dragged-out feeling which accompany the "morning after" a sleepless night are experienced by a startling number of people. According to a recent Gallup Poll, 52 per cent of adult Americans suffer from chronic or occasional sleeplessness.

Moderate, regular physical exercise is the prescription given by many doctors to increase vigor, reduce tension and insure sounder sleep. Walking, which keeps the body in constant motion as opposed to the intermittent strenuous motion of a tennis match is one of the most beneficial of exercises--and you don't even have to walk fast to catch up with its benefits.

For many who experience fatigue, tension and poor work performance however, a fast walk to an eye specialist would be more profitable. In a recent survey of some 50 companies, ranging from industrial giants to small firms, four out of every ten employees were found to have vision inadequate for their jobs!

In one of the firms studied, product rejects decreased by 75 per cent after employees' eyes had been examined and effective lenses or other corrective procedures prescribed. In an electrical plant, training time was cut from 40 to 16 hours. Better vision not only increased productivity, but boosted employee morale. It was found the

accident and absentee rates were lower after correction of eye defects--so was employee turnover.

Just as many people unknowingly cheat themselves on the job because of uncorrected visual problems, so they often risk their own lives and those of many other people when they take to the road as motorists.

Since 90 per cent of all driving decisions and actions are based on what the driver sees, good vision is absolutely essential. Yet, according to information supplied by the American Optometric Association, there are at least 16 million motorists on the road today with below-average vision--a situation that every driver should view with alarm.

Another alarming fact is that one American child out of four--27 per cent of all elementary school youngsters--needs visual care he isn't getting.

Children's visual problems, like those of adults, stem from

the fact that the human seeing mechanism was never designed for steady, close-at-hand tasks. Nature designed it for distance seeing--but today's world brings with it more and more "near visual" tasks. Modern youngsters start these tasks at six--yet many studies show that the child's visual mechanism is not physiologically ready for the school reading load until age eight or nine.

Youngsters with uncorrected visual problems don't cheat themselves--they don't know their vision is abnormal. But they are cheated, often tragically--by underachievement in school or by being branded as slow or retarded. The Snellen Wall eye chart, a method used by some schools to determine the child's ability to see, determines--sometimes accurately, sometimes inaccurately--how well the child sees with either eye at a predetermined distance--usually 20 feet. But an examination by an optometrist will quickly reveal any visual difficulties which hamper him.

Children may not know enough to seek solutions to their problems--but adults do.

"Education to the proper safety procedures in application and handling of anhydrous, liquid, and dry fertilizer" is the subject to be covered in the first Texas Fertilizer Association effort to subdue unnecessary accidents. The Association will hold a meeting in Plainview, on August 25, at the Alcove Restaurant. The registration will begin at 8 a.m. and everyone who comes in contact with any type of fertilizer is urged to attend.

The program will include Zenas Beers, a speaker from the Anhydrous Ammonia Institute in Memphis, Tennessee. The school, however, will cover most areas of recommended safety precautions in the fertilizer industry, George Bragg, Jr., immediate past president of the Texas Fertilizer Association, will discuss both liquid and dry fertilizer safety procedures. Bragg is a fertilizer dealer in Muleshoe.

The Safety School will begin at 9 a.m. and will include assorted slide illustrations, pre-recorded tapes, general discussion, and live speakers. At noon, the program will adjourn for lunch, and will reconvene at 1 p.m. to continue the instruction. Specific questions will be answered concerning safe-handling and application in the various phases of anhydrous, liquid, and dry fertilizer.

Registration fee for the Texas Fertilizer Association Safety School is \$4.00 per person, which includes the noon meal. Similar meetings held last winter in the states of Iowa and Illinois, were made compulsory to employees of some companies because it benefited the industry through fewer accidents.

The Texas Fertilizer Association feels this meeting to be one of the most important meetings to be held in the industry this year.

Four Lfd Students Receive Degree

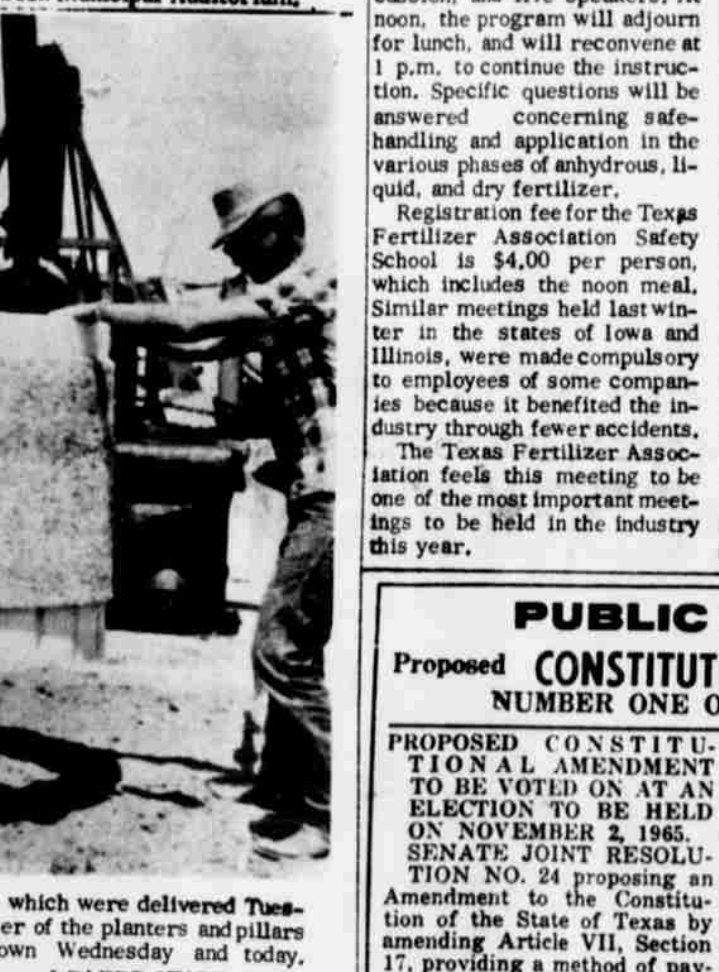

Four Littlefield students are among the more than 700 students that have applied for degrees at Texas Tech's summer commencement exercises August 21.

In the School of Arts and Science, Bachelor of Arts degrees will be received by Ronnie M. Carden in history and Sidney Gayle Reams in recreation.

Peggy Fox Scott will receive a Bachelor of Science Degree in education, majoring in elementary education.

James F. Hutter will receive a Bachelor of Business Administration with finance as his major.

Dr. Travis White, President of Midwestern University, Wichita Falls, will give the principal address at the exercises to be held in the Lubbock Municipal Auditorium.

Proposed CONSTITUTIONAL AMENDMENT NUMBER NINE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.

SENATE JOINT RESOLUTION NO. 8 proposing an Amendment to the Constitution of the State of Texas, to allow an annual salary in an amount to be fixed by the Legislature for the Lieutenant Governor and for the Speaker of the House of Representatives, and increasing the per diem allowance of Members of the Legislature.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 24 of Article III of the Constitution of the State of Texas be amended to read as follows:

"Section 24. Representatives shall receive from the Public Treasury an annual salary of not exceeding Four Thousand, Eight Hundred Dollars (\$4,800) per year. Senators shall receive from the Public Treasury an annual salary of not exceeding Four Thousand, Eight Hundred Dollars (\$4,800) per year. The Lieutenant Governor and the Speaker of the House of Representatives shall receive from the Public Treasury an annual salary in an amount to be fixed by the Legislature. All Members of the Legislature, including the Lieutenant Governor and the Speaker of the House of Representatives, also shall receive from the Public Treasury a per diem of not exceeding Twenty Dollars (\$20) per day for the one hundred and forty (140) days of each Regular Session and for thirty (30) days of each Special Session. No Regular Session shall be of longer duration than one hundred and forty (140) days. This Amend-

ment shall be self-enacting and appropriations heretofore made in the General Appropriations Bill for the biennium ending August 31, 1967, for the salaries of the Lieutenant Governor and Speaker of the House of Representatives shall not be invalid because of the anticipatory nature of the legislation.

"In addition to the per diem the Members of each House shall be entitled to mileage in going to and returning from the seat of Government, which mileage shall not exceed Two Dollars and Fifty Cents (\$2.50) for every twenty-five (25) miles, the distance to be computed by the nearest and most direct route of travel, from a table of distances prepared by the Comptroller for each county seat now or hereafter to be established; no Member to be entitled to mileage for any extra Session that may be called within one (1) day after the adjournment of the Regular or Called Session."

Sec. 2. That Section 17 of Article IV of the Constitution of the State of Texas be amended to read as follows:

"Section 17. If, during the vacancy in the office of Governor, the Lieutenant Governor, or the Speaker of the House of Representatives, he shall be removed from office, or be unable to serve; or if he shall be impeached or absent from the State, the President of the Senate, for the time being, shall, in like manner, administer the Government until he shall be superseded by a Governor or Lieutenant Governor. The Lieutenant Governor shall, while he acts as President of the Senate, receive for his services an annual salary in an amount to be fixed by the Legislature and the same mileage which shall be allowed to the Members of the Senate, and no more; and dur-

Farm Income Lags Behind Rest Of Nation Economy

Farm income continues to lag behind the rest of the nation's economy. Agriculture Commissioner John C. White pointed out recently.

"The farmer has in effect been subsidizing the consumer with low-cost food for several years," said White. "Food takes only 19 percent of the average take-home pay as compared with 23 percent about 10 years ago."

White said the farmer has been able to increase his efficiency and produce more food at a cheaper price. But at the same time, the prices he receives have gone down, and the prices he must pay to produce his products have increased.

This cost-price squeeze has been continuing for over a decade.

"Farm prices in 1964 averaged 13 percent less than the 1947-49 average," White said. In contrast, retail food prices in 1964 were 25 percent above the 1947-49 average.

The retail prices of food have little to do with the price which farmers receive for their production, White added. Most of the increased food costs have been for "built-in services" such as prepared and partially cooked meals, special processing and other factors.

Proposed CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.

SENATE JOINT RESOLUTION NO. 14 proposing Amendments to Section 4, 22 and 23 of Article IV of the Constitution of the State of Texas, so as to provide a four-year term of office for the Governor, Lieutenant Governor, Attorney General, Comptroller of Public Accounts, Treasurer, Commissioner of the General Land Office and Secretary of State; and providing for the necessary election and the form of the ballot; and providing for the necessary proclamation and publication.

RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 4, Article IV of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Section 4. The Governor shall be installed on the first Tuesday after the organization of the Legislature, or as soon thereafter as practicable, and shall hold his office for the term of four years, or until his successor shall be duly installed. He shall be at least thirty years of age, a citizen of the United States, and shall have resided in this state at least five years immediately preceding his election."

Section 2. That Section 22, Article IV of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Section 22. The Attorney General shall hold office for four years and until his successor is duly qualified. He shall represent the state in all suits and pleas in the Supreme Court of the state in which the state may be a party, and shall especially inquire into the charter rights of all private corporations, and from time to time, in the name of the state, take such action in the courts as may be proper and necessary to prevent any private corporation from exercising any power or demanding or collecting any species of taxes, tolls, freight or wharfage not authorized by law. He shall, whenever sufficient cause exists, seek a judicial forfeiture of such charters, unless otherwise expressly directed by law, and give legal advice in writing to the Governor and other executive officers, when requested by them, and perform such other duties as may be required by law. He shall reside at the seat of government during his continuance in office. He shall receive for his services an annual salary in an amount to be fixed by the Legislature."

Section 3. That Section 23, Article IV of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Section 23. The Comptroller of Public Accounts, the Treasurer, the Commissioner of the General Land Office, and any statutory state officer who is elected by the electorate of Texas at large, unless a term of office is otherwise specifically provided in this Constitution, shall each hold office for the term of four years and until his successor is qualified; receive an annual salary in an amount to be fixed by the Legislature; reside at the Capital of the state during his continuance in office, and perform such duties as are or may be required by law. They and the Secretary of State shall not

Proposed CONSTITUTIONAL AMENDMENT NUMBER ONE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.

SENATE JOINT RESOLUTION NO. 24 proposing an Amendment to the Constitution of the State of Texas by amending Article VII, Section 17, providing a method of payment for the acquiring, constructing and equipping of buildings and other permanent improvements at certain state institutions of higher learning; providing for allocation of funds therefor; authorizing the issuance of bonds or notes and the pledging of allotted funds for the payment of same; providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 17 of Article VII of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Section 17. In lieu of the state ad valorem tax on property of Seven Cents (7¢) on the One Hundred Dollars (\$100.00) valuation heretofore permitted to be levied by Section 51 of Article III, as amended, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Two Cents (2¢) on the One Hundred Dollars (\$100.00) valuation for the purpose of creating a special fund for the continuing payment of Confederate pensions as provided under Section 61, Article III, and for the establishment and continued maintenance of the State Building Fund as provided in Section 51b, Article III, of the Constitution.

"Also, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Ten Cents (10¢) on the One Hundred Dollars (\$100.00) valuation for the purpose of creating a special fund for the purpose of acquiring, constructing and initially equipping buildings or other permanent improvements at the designated institutions of higher learning provided that none of the proceeds of this tax shall be used for auxiliary enterprises; and the governing board of each such institution of higher learning is fully authorized to pledge all or any part of said funds allotted to such institution as hereinafter provided, to secure bonds or notes issued for the purpose of acquiring, constructing and initially equipping such buildings or other permanent improvements at said institutions. Such bonds or notes shall be issued in such amounts as may be determined by the governing boards of said respective institutions, shall bear interest not to exceed four per cent (4%) per annum and shall mature serially or otherwise in not more than ten (10) years; provided further, that the state tax on property as heretofore permitted to be levied by Section 9 of Article VIII, as amended, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools, shall never exceed Thirty Cents (30¢) on the One Hundred Dollars (\$100.00) valuation. All bonds shall be examined and approved by the Attorney General of the State of Texas, and when so approved shall be incontestable; and all approved bonds shall be registered in the office of the Comptroller of Public Accounts of the State of Texas. Said bonds shall be sold only through competitive bids and shall never be sold for less than their par value and accrued interest.

"The following state institutions then in existence shall be eligible to receive funds raised from said Ten Cent (10¢) tax levied for the twelve-year period beginning January 1, 1966, and for the succeeding ten-year period:

- Arlington State College at Arlington
- Texas Technological College at Lubbock
- North Texas State University at Denton
- Lamar State College of Technology at Beaumont
- Texas College of Arts and Industries at Kingsville
- Texas Woman's University at Denton
- Texas Southern University at Houston
- Midwestern University at Wichita Falls
- University of Houston at Houston
- Pan American College at Edinburg
- East Texas State College at Commerce
- San Houston State Teachers College at Huntsville
- Southwest Texas State College at San Marcos
- West Texas State University at Canyon

"Eighty-five per cent (85%) of such funds shall be allocated by the Comptroller of Public Accounts of the State of Texas on June 1, 1966, and fifteen per cent (15%) of such funds shall be allocated by said Comptroller on June 1, 1972, based on the following determinations:

(1) Ninety per cent (90%) of the funds allocated on June 1, 1966, shall be allocated to state institutions based on projected enrollment increases published by the Coordinating Board, Texas College and University System for fall 1966 to fall 1978.

(2) Ten per cent (10%) of the funds allocated on June 1, 1966 shall be allocated to certain of the eligible state institutions based on the number of additional square feet needed in educational and general facilities by such eligible state institution to meet the average square feet per full time equivalent student of all state senior institutions (currently numbering twenty-two).

(3) All of the funds allocated on June 1, 1972, shall be allocated to certain of the eligible state institutions based on determinations used in the June 1, 1966, allocations except that the allocations of fifty per cent (50%) of the funds allocated on June 1, 1972, shall be based on projected enrollment increases for fall 1972 to fall 1978, and fifty per cent (50%) of such funds allocated on June 1, 1972, shall be based on the need for additional square feet of educational and general facilities.

"Not later than June first of the beginning year of each succeeding ten-year period the Comptroller of Public Accounts of the State of Texas shall reallocate eighty-five per cent (85%) of the funds to be derived from said Ten Cent (10¢) ad valorem tax for said ten-year period not later than June first of the sixth year of each succeeding ten-year period said Comptroller shall reallocate fifteen per cent (15%) of such funds to the eligible state institutions then in existence based on determinations for the said ten-year period that are similar to the determinations used in allocating funds during the twelve-year period beginning January 1, 1966, except that succeeding ten-year periods will be from the fall semester of the first year to the fall semester of the tenth year.

All such designated institutions of higher learning shall not thereafter receive general revenue funds for acquiring or constructing buildings or other permanent improvements for which Ten Cent (10¢) ad valorem tax is herein provided, unless in case of fire, flood, storm or earthquake occurring at any such institution, in which case an appropriation in an amount sufficient to replace the uninsured loss so incurred may be made by the Legislature out of any General Revenue Funds. The State Comptroller of Public Accounts shall draw all necessary proper warrants upon the State Treasury in order to carry out the purpose of this Amendment, and the State Treasurer shall pay any so issued out of the special fund hereby created for that purpose. This Amendment shall be self-enacting. It shall become operative or effective upon its adoption so as to perse and repeal the former provisions of this Section herein shall be construed as impairing the obligation incurred by any outstanding notes or bonds heretofore issued by any state institution of higher learning under the Section prior to the adoption of this Amendment. Any such notes or bonds shall be paid in full from the fund so allocated to any such institution.

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the state at the General Election to be held on the first Monday after the first Monday of November, A.D. 1965, in which election all ballots have printed thereon:

"FOR the Amendment amending Section 17 of the Constitution of the State of Texas providing a method of payment for the acquiring, constructing and equipping of buildings and other permanent improvements at certain state institutions of higher learning."

"AGAINST the Amendment to Article VII of the Constitution of the State of Texas by amending Section 17 thereof, providing a method of payment for the acquiring, constructing and equipping of buildings and other permanent improvements at certain state institutions of higher learning."

Sec. 3. The Governor shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution and laws of this state.

Mails Get Hunt, Fish Licenses

One and one-half million "passports to paradise" -- that is hunting and fishing licenses -- have been put in the mail for distribution to Texas sportsmen.

J. Weldon Watson, executive director of the Texas Parks and Wildlife Department, said that a custom first installed last year has been pursued "with substantial refinements."

This, he said, means that the licenses were mailed a full three weeks before the September 1 beginning of the new state fiscal year.

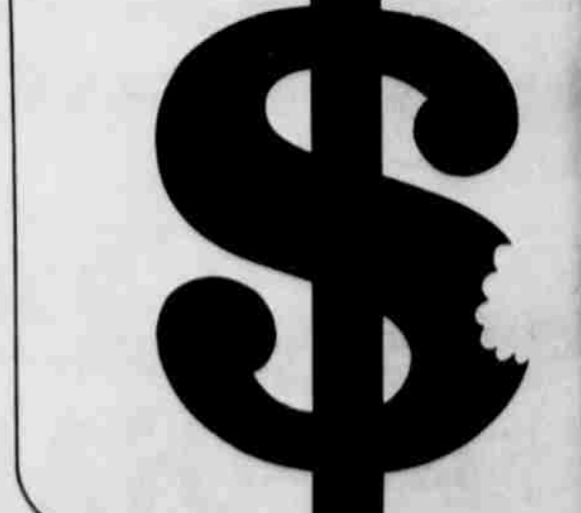

"It is now up to the mails and then to the 2,500 licensed dealers to serve the sportsmen in adequate time and to avoid delays that occurred in the past," said Watson.

The overall consignment included 775,000 fishing licenses and 736,000 hunting licenses. The present year licenses will be invalid September 1 when the new licenses become effective. The present year licenses will be invalid September 1 when the new licenses become effective.

cotton. After hearing all the
arguments, it is still impos-
sible to establish precisely what
to do and not to do. Of course,
everybody wants to overcome
the competition of synthetics
and sell large volumes of cot-
ton to domestic mills and over-
seas. Also, we would like to
see cotton move into the regu-
lar channels of trade and not
into the loan.

The proposed bill would cer-
tainly reduce the amount of cot-
ton moving into the loan. How
much it would stimulate ex-
port trade is difficult to cal-
culate but it would help.

The United States is produc-
ing about thirty per cent of the
world crop of cotton. We have

been exporting cotton at near
world prices for years, but
have had poor success with the
export sales program in recent
years.

If we cut the loan slightly
below the world price, will we
sell large additional cotton
stocks abroad or will foreign
producers, who have no way of
holding their cotton, do as they
do now, sell their cotton just
below the American offering
price? Would the twenty-one
cent loan just mean a less price
for cotton world-wide?

We are already selling mid-
dling one-inch U. S. cotton a-
broad for about twenty-four
cents. If we reduce to twenty-
one cents, this would certainly
dampen plans for further cot-
ton expansion abroad, but will
foreign growers continue to
meet our price and sell slight-
ly below? Nobody can prove
what the answer to this ques-
tion is.

Congress will have to pass
before it adjourns some type
of farm bill to cover most ma-
jor crops as many of the pre-
sent laws expire this year.

If the omnibus farm bill is
defeated in the House this week,
the Committee on Agriculture
will have to back-up and try
some kind of new bill. As dif-
ficult as the situation is, it
is not correct to say that the
issue is the pending bill or
nothing.

With respect to cotton, if the
present proposal is defeated, a
continuation of the present law
with an amendment calculated
to encourage a great improve-

ment in exports would no doubt
be among the approaches con-
sidered.

If the present law expires
and nothing is done, cotton would
revert back to the law of 1958
and that is not an acceptable
solution.

It would be up to Congress
to devise some kind of alter-
native to the present program
which is not succeeding in mov-

ing sufficient cotton into ex-
port.

Senator Ellender, Chairman
of the Senate Committee on Ag-
riculture, appears to scoff at
the cotton version of the House
bill, indicating that he will have
no part of it.

At the moment it is just not
possible to predict what this
Congress will do about cotton.
I believe something will and

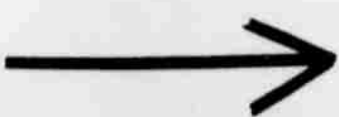

must be done but the dimen-
sions of the final legislation
are not yet apparent.

The wheat provision of the
omnibus bill is in controversy
because of opposition to the
certificate plan. In my opinion
this can and will be resolved.
The feed grain portion of the
bill is widely accepted and is
not in trouble.

CITY BITS

The second Polar Homecoming will be held at Polar, Sunday, August 29th. Everyone is invited. Bring basket lunches.

The 18th district meeting of the Historical Survey Committee was recently held in Tullia. Those from Lamb County attending the luncheon were Mrs. Tom Mathews, Mrs. W.D.T. Story, and Mrs. T.H. Anderson, all of Littlefield; Mrs. Paul Burrus and Mrs. L.B. Cowart of Olton. Plans were made for the State Meeting which will be in Odessa on October 28th through the 30th.

Larry Jones has returned to his home in Waco after a few days visit in the home of his grandparents, Mr. and Mrs. Otto Jones.

Mr. and Mrs. Arnold Neuman vacationed last week in Colorado.

Enrollment Up At High School

Enrollment figures for Littlefield High School and Junior High School will be in the year with almost a thousand students expected to enroll in six grades. The senior class is the largest in the history of the high school with 115 expected to enroll August 23. The Junior High School has the largest of the three school grades with an enrollment figure of approximately 140 students.

There will be approximately 160 new freshmen this year, starting their final year of junior high while Junior High principal Forrest Martin stated that 170 eighth graders are expected to enroll for the new year.

Did you know the Secretary Bird of Africa, with its long slim legs and feathers on top of the head, are great snake killers like the American Road Runner. These birds greatly enjoy a feast of snake meat, and prefer them over a diet of insects. They kill the snakes by stamping them to death with the long feet and pecking them with long sharp bills. The Secretary Bird gets its name from the feathers on top of the head, like an old time secretary, with quill pens stuck in her hair.

The new Parker 45 Convertible \$5

*SPECIAL REPLACEMENT OFFER

If you buy your favorite student a Parker 45 (the \$5 model) between now and October 16, 1965, he can protect it against loss for one full year at no extra cost. He registers its purchase by mailing one-half of the Parker 45 Registration Certificate to the insurance company listed on the certificate. If the pen is lost, all he has to do is complete and mail the other half of the certificate, properly notarized. The insurance company will replace it at no charge.

The Parker 45 Convertible fills two ways: with the cartridge, good for up to 10,000 words; or slip in the converter and fill from an ink bottle.

Even the Parker ink cartridge has been improved to make the 45 Convertible a better pen than ever for a student (or a grad). The cartridge now has an exclusive ink reserve—A TAP-TANK, we call it. When your pen runs dry, you tap the cartridge and down comes a reserve supply. You continue writing, and you're reminded that refill time is near.

What a \$5 worth! You get the pen, a TAP-TANK cartridge, the converter, and a choice of seven point sizes—PLUS Parker's special replacement offer. This guarantee against loss will be offered only until October 16, 1965—so better see your Parker dealer right away.

*Special replacement offer also applies to a 45 you buy for yourself.

A weekly public service feature from the Texas State Department of Health

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

Waning days of summer activities are attractive and more Texas parents are taking their children out into the sun before school starts. In a time of increased hazards of accidents and unexpected emergencies which inevitably come accelerated outdoor ac-

approximately 70,000 die each year in about 10 percent die as a result of accidents. Doubtless many are saved by prompt medical care, but many more are not.

It is not at all uncommon to find many people throw responsibility on the physician. Rescue squads save extremely few people who have stopped breathing unless someone has given artificial respiration or resuscitation on the spot.

Teaching Texans to react promptly and efficiently in emergencies is one of the prime goals of the "medical self-help" courses conducted around the state by local medical societies, local health departments and civil defense organizations.

The important rule to keep in mind when summoning medical help or an ambulance in event of serious injury of sudden illness is this: ask what first aid measures you should take.

AN SAM SEZ:

Many think that the dog August is the wrong time to get the tax instructions, but the tax instructions even hot - under-the-collar - can keep you cool and dry until April 15. Hunt your dog for a good airconditioned place to sit down and look over your tax returns and answer those questions now and save your- self a cool cash.

untreated test strips you use any farm chemicals, you'll have an accurate record of the profit or loss of the practice. You'll know whether any crop loss is caused by chemicals or something else. In addition, you'll know what chemicals are best for your own set of circumstances.

Don Reding's Card Hobby Makes Birthdays Brighter

Don Reding has a hobby that puts a bright spot in his friends' birthdays, anniversaries, illnesses and other special occasions. He collects and sends appropriate cards.

Almost every day of the year some friend opens an envelope to find a message that may read: "Your friends have taken a collection for your birthday". Inside a single, shiny penny with the message Happy Birthday and the signature Don and Pauline Reding brings a chuckle somewhere.

Whatever the message, it always seems to be a custom made card to the recipient, for much care is taken in choosing just the right one.

"I sometimes find a card and it fits only one person I know so well, that I keep it a year until the right occasion arrives," he said.

Wherever he goes he is constantly looking for cards. He especially likes the funny ones for light occasions.

Much time is spent in making a selection for a get well, sympathy or thank you note.

"He is very particular about sending the right Christmas cards," Mrs. Reding said.

Decisions the farmer makes on buying new machinery are among the most important he faces in operating a farm, says Dr. Ray Murray, agricultural economist at the University of Maryland.

"Every message is read before it is signed and addressed. It has never been an assembly line job for him."

"Because of this special attitude, I have learned to ap-

preciate sending and receiving cards, but that is all the credit I can take," she continued.

Reding started this unusual pastime about five years ago. He had been in favor of a community calendar for many years, but the Whitharral service organizations just didn't seem to find the time to make the project materialize.

"So he just made his own special occasion calendar,"

Mrs. Reding said, "and each year he carefully marked the new calendar with the old list of names and dates along with new friends and information."

This year the Whitharral Band Boosters took the community calendar for a project and Reding enthusiastically backed them.

The enthusiasm he generates is contagious, in fact, and the

card industries should be grateful for such carriers.

Some of the particularly good thoughts from cards, magazines and periodicals are part of a collection that go into an inspiring scrapbook he has started.

Reding applies this conscientiousness to community affairs also. He is a charter member of the Whitharral Lions Club and

served as president in 1962-63 and was selected "Citizen of the Year" by the club. This past year he served as zone chairman and now is District Deputy Governor.

He also served on the school board of education for six years, is a director of the Levelland Stock Show and manager of Whitharral Cooperative Labor Association.

Five New Teachers Assigned At Bula

Superintendent Marian J. McDaniels has announced that Bula Schools will have their first full day of school August 30. Buses will run and lunch will be served at noon. There will be no pre-registering.

The teaching faculty has been completed and includes the following new teachers: Don Macdon, Betty Sue Gauer, Mrs. B.H. McGinley and Mrs. Mary Ann Asbell.

Macon will be teaching high school math. He is a graduate of Howard-Payne College and Texas Tech. He taught six years at Matador and two years at Slaton.

Mrs. Betty Sue Gauer, high school science teacher, is a graduate of Baylor, and is doing work at Tech this summer. She taught one year at Moody.

Mrs. B.H. McGinley will teach the third and fourth grades. She is a graduate of Sul Ross, and taught ten years at Matador and one year at Slaton.

Mrs. Mary Ann Asbell will teach the first and second grades. She graduated from Sul Ross, and is doing work at Tech this summer. She taught one year in the El Paso School System.

Other teachers include Mrs. W.C. Risinger and C.W. Fincher. They will teach the fifth and sixth grades. Fincher will also coach boys basketball and football.

Terry Blake will be high school English and journalism teacher, and Supt. McDaniels will teach junior high language and arts. Mrs. Ruby Reid will teach social studies and typing, and W.C. Risinger will teach commercial studies, physical education, and coach girls basketball. Mr. Jack Tharp will be the agriculture teacher and Mrs. Owen Young will teach home-economics.

Mrs. Don Macon will be the bookkeeper and office manager. The lunchroom workers are Mrs. Blanche Cash, Supervisor, and Mrs. Lorene Cox, and Mrs. Myrna Turney, cooks.

Supt. McDaniels says that the set-up is well mapped out and looks well for a good school year. Carpenters and painters have been working most of the summer on the main buildings. The lunchroom and homemaking buildings have been re-painted, and most of the main building has been re-roofed. Some necessary plumbing and stuccoing has also been done.

Mr. and Mrs. Dale Hamilton and children of Lemon Grove, Calif. visited her parents, Mr. and Mrs. Ben Brandt and family last week. They also visited numerous other relatives and friends in the area.

Mrs. Helen Funk is a patient in West Texas Hospital, having undergone surgery last week.

Members of the Brandt family gathered at St. Martin Lutheran Church last Sunday for a reunion. They had lunch at noon and enjoyed visiting in the afternoon.

Present were Mrs. Henry Brandt, Mr. and Mrs. Ben Brandt and son, Littlefield; Mr. and Mrs. Dale Hamilton and six children, Lemon Grove, Calif.; Mr. and Mrs. Robert Alford and children, Muleshoe; Mr. and Mrs. Don Parrish and sons, Henrietta; Mr. and Mrs. E.J. Brandt and daughters, Littlefield; Mr. and Mrs. Hubert Tienert and children, Wilson; Mr. and Mrs. Walter Hill and family, Littlefield; Mrs. Weldon Mansfield and children, Tulsa and Mr. and Mrs. Roger Sell and boys, Littlefield.

HIGH SCHOOL PRINCIPAL -- Beryl Harris, Littlefield Elementary School principal for the past four years is busy at his new position as high school principal getting ready to greet the approximately 415 students scheduled to start registering a week from today.

School Registration Here Set For August 25 - 26

Registration for the 1965-66 school year will be held Thursday, August 25 and Friday, August 26.

High School seniors and ninth graders are scheduled to register between 9 a.m. and noon, Thursday, August 25. The seniors will register at the high school while the 9th graders will register at the Junior High School building.

Eleventh and eighth graders will register Thursday afternoon between 1 and 4 p.m. As with the morning registrants the eleventh graders will register at the high school and the eighth grade students for the coming year will register at the Junior High.

The other classes, the tenth and the seventh grade students will register at their respective school buildings from 9 a.m. to noon Friday morning, August 26.

Any new students in the Littlefield school system entering between the seventh and twelfth grades will register at their respective times.

New students enrolling in the primary or elementary grades will register Friday morning. Other children in the second through sixth grades do not have to register as they are already enrolled.

Children entering the first grade can register starting Monday, August 23. Parents of these children are reminded that three vaccinations are required prior to registration. These are small pox, diphtheria and at least the first of the polio series.

Scout Troop 638 Wins Swim Meet At Muleshoe

Littlefield Boy Scout Troop 638 racked up 36 points to win the George White District swim meet at Muleshoe August 16.

Nine troops from Muleshoe, Pep, Levelland and Littlefield participated in the meet with the meet broken down into three age groups.

Troop 620 of Muleshoe garnered 33 points for second place while Troop 624 got 32 points for third place in the meet. Troop 641 from Littlefield got 22 points while Littlefield's Troop 637 got 18 points while the Pep troop received 22 points.

Mrs. Cox Assigned To Fifth Grade

Mrs. Mary Cox will begin her first year of teaching in the Littlefield school system this year as a teacher in the fifth grade.

A graduate of Baylor University, she has over twenty years of teaching experience including the last 15 years as a third grade teacher in the Hubbard school system.

Prior to her attending Baylor she also attended Abilene Christian College and Howard Payne University.

Mrs. Woods began her teaching career in 1934 at the McCannless school in Navarre County, where she taught for two years. She resumed teaching in 1944 at the Mt. Calm School and from there to Malone School for two years prior to her moving to Hubbard in 1949.

Cub Scouts To Tour Palo Duro Canyon

Cub Scouts and members of their families will meet this morning at the home of Mrs. Duane Gary for a tour of Palo Duro Canyon. They will leave at 8 a.m., visit the Texas Museum at Amarillo and spend the day there. They will be back in Littlefield for the month of August. Mrs. Wendell Leach and Calvin left Sunday

for a week's vacation, visiting points in Colorado. Accompanying them were Mrs. Leach's parents, Rev. and Mrs. Dorn of Hartley. Mrs. John Ramage was a patient in Medical Arts Hospital over the weekend suffering from a virus. Mr. and Mrs. John Vrubel and family were supper guests of her mother, Mrs. Ellen Will of Littlefield, Saturday evening. Mr. and Mrs. Nathan Payne of Amarillo visited Mr. and Mrs.

Jimmy Long and Mr. and Mrs. G.R. Nabers Monday. They brought Jason Long home. She had spent a little over a week with them. Overnight guests of Mr. and Mrs. W.B. Jones were their children and their families, Mr. and Mrs. Glenn Waser and Tawny and Mr. and Mrs. David Jones and David Jr., all of Lubbock. They all attended church service at the Church of Christ Sunday morning. Also attending with them and visiting the

Jones Sunday were Mr. and Mrs. E.L. Durham of Yuma, Ariz. Dinner guests Sunday of the Joneses were those mentioned and Mr. and Mrs. John McCourt and daughter. Sunday dinner guests of Mr. and Mrs. F.L. Reed were Mr. and Mrs. Heston Reed, three daughters and a son of Marjetta, Okla. and Mr. and Mrs. Carl Reed and family. The Heston Reeds spent the weekend with the Carl Reeds. Visitors in the C.C. Byars home last Tuesday were Mrs. Webb Wiseman, Brownfield, Mrs. L. Dean Hughlett and son Darrin, Wichita, Kan., and Beverly June Parker, Oklahoma City. Mrs. Byars, Mrs. Wiseman, Mrs. Hughlett and son and Beverly June Parker all went to Abilene Friday where they visited Mrs. Byars' daughter and family. Mr. and Mrs. Weymond Dunn and family, Minday Dunn returned home with them and is spending a few days with the Byars.

The last den meeting of the summer was held by the cub scouts Monday. They met in the Duane Gray home and made scoops from bleach bottles and played games. David and Randal Gray served refreshments of cookies and lemonade. Attending were Kenny and Tommy Ramage, Chris Wallace, Jimmy McCurry, Marvin Matthews, Gaylon Reed and David and Randal Gray.

Larry Vrubel attended a Zone Walther League athletic rally Sunday at Plainview with a group of young people from Emmanuel Lutheran Church, Littlefield. Overnight guests of Mr. and Mrs. C.C. Byars and Steve Thursday were Mr. Byars' sister and brother-in-law, Mr. and Mrs. Lewis Starr and Phyllis of Bakersfield, Calif. Dinner guests of Mr. and Mrs.

12,000 Children Poisoned By Eating Plants In Yard

An estimated 12,000 children were poisoned last year after eating cultivated or wild plants growing right in their backyards. This shocking statistic comes from an article in the current issue of Pageant magazine. "The lives of these boys and girls were endangered because enough people do not know that many of the plants around us are poisonous," says Henry L. Verhulst, poison control chief of the U. S. Public Health Service, in the same article. Nature itself often aids in the deception, by combining poisonous and edible parts in the same

plant. Such apparently harmless foods as rhubarb, tomatoes and potatoes have dangerous chemicals in their leaves and vines. "Even adults fall victim to the innocent beauty of plants they have grown at home," continues the article. Among the more dangerous are lily of the valley, rhododendron and larkspur, while those Christmas harbingers of good will toward men—the cheery poinsettia and mistletoe—can also be fatal if the leaves or berries are chewed or eaten. These are just a few of the endless variety of plants which have to be handled with care, but Dr. John M. Kingsbury, New York College of Agriculture botanist, has identified 700 species of plants, shrubs and trees which are considered dangerous in varying degrees. The Pageant article lists many of them, and identified the symptoms and the harmful effects they induce.

F.L. Reed Saturday were their daughters and families, Mr. and Mrs. Bill Feagley and girls, Hereford, and Mr. and Mrs. Grady Trotter and boys of Littlefield. Mr. and Mrs. John Vrubel, Larry and Karyn and Mrs. Ellen Will of Littlefield attended an organ concert Monday night at the McBrayer Piano Co. in Lubbock. The concert was presented by Frank Stitt, a noted popular organist, who was an official staff organist at the Seattle and New York World's Fairs.

Guests of Mr. and Mrs. C.C. Byars Sunday afternoon were Mr. and Mrs. Clifton of Hale Center.

Karyn Vrubel spent Sunday afternoon with her grandmother, Mrs. Elaine Will of Littlefield.

Where there is any suspicion of plant poisoning, call the doctor immediately; he can call the nearest Poison Control Center for specific treatment. Above all, warn children of any age to keep plants out of their mouths unless served to them by an adult as food.

Mixing about 10 to 20 pounds of ground corn (medium grind) per 100 pounds of grass seed helps get the seed into the ground evenly without drill plugging.

READY -- The lawns are being cut, mowers are being made out and everything is in readiness for the students, starting next

Thursday morning when the seniors are due to register with the juniors registering that afternoon and the sophomores on Friday morning.

Carr Announces Youth Conference To Be Aired

Attorney General Waggoner Carr announced Tuesday that 17 Texas radio stations will broadcast the closing Sunday morning session of the Third Annual Attorney General's Youth Conference on August 22nd. Broadcast time will be 10:00 - 11:00 A.M.

The three day Conference, to be attended by more than 1,600 youth leaders from almost every county in Texas, will be held in Austin beginning Thursday.

Purpose of the Conference is to allow junior and senior high school delegates the opportunity to study the juvenile crime problem in Texas and suggest remedies for its alarming rise.

Stations scheduled to carry the broadcast include: KVIC, Victoria; KTAJ, Taylor; KINE, Kingsville; KWKC, Abilene; KVOZ, Laredo; KTEM, Temple; KXOL, Fort Worth; KBRZ, Freeport; KCRS, Midland; KERP, El Paso; KXYZ, Houston; KURV, Edinburg; KBOX, Dallas; KXOX, Sweetwater; KGKL, San Angelo; WOAI, San Antonio; and KREA, Lufkin.

First Historical Marker To Be Dedicated Monday

The first Official Texas Historical Marker to be erected from a Moody Foundation grant will be dedicated in Galveston Monday, August 23rd. This announcement was made by Lewis Timberlake of Austin, president of the Texas Historical Foundation, recipients of the \$10,000 grant.

The marker entitled "Galveston: Gateway to Texas" concerns the island's role as a chief port of entry. Dedication ceremonies will be held at 11:30 a.m. at the Moody Civic Center overlooking the Gulf of Mexico from which thousands of emigrants first saw the shores of Texas.

The Moody Foundation grant will cover Official Texas Historical Markers pertaining to early travel, trails and communication. The Texas Historical Foundation is responsible for marker topics and locations.

Subjects for the aluminum history lessons are transportation firsts for oil and gas pipelines, railroad, ferry, steamship, air passenger service, motor bus line, interurban travel, streetcar, livery stable and wagon yard, Early roads marked will be the Butterfield Trail, Old Spanish Road, and Central National Road. Also Indian trails of the Comanche, Cherokee and Karankawa as well as buffalo trail and cattle trail herding grounds. Communication first to be honored are the telegraph, telephone, radio, television and air mail service.

"The marking program of the Texas Historical Foundation is worthwhile because it teaches history through sight, and psychologists tell us the eye is the shortest way to the mind," explained Timberlake. "This is why we have as our project the Seeing and Saving of Texas history."

New Books For New Students

What should the school do about the health of its pupil? Today's Health Guide, the American Medical Association's new manual of health information and guidance, says the school has a three-fold responsibility for child health--

- Educate for safe and healthful living;
 - Create and maintain a safe and healthful environment;
 - Offer an adequate health service program including emergency care in case of accident or sudden illness.
- With the approach of another fall school year throughout the United States, it's time for educators and parents alike to take stock of the health programs in the schools.
- Major topics which should be included in a health education program are elementary first aid, home safety and safety in school and on the way there. At the proper age, every child should be taught bicycle safety and driver training. Parents

Health & Safety Tips

carry over into the home, resulting in the improvement of family and home hygiene, together with a better understanding and fuller use of community health resources. Parent-teacher organizations may become aware of important community needs, and, under the school's leadership, bring about community health improvements in such areas as raising of housing standards, removal of safety hazards or improvement of food sanitation in restaurants and markets.

Insistence on periodic medical and dental examinations for each school child points up to parents the importance of this procedure.

Did you know that the Cobras in India are not charmed by the music of the flute, by the snake charmers. They rear up, spread their hood and weave to get in line with the Hindu for a strike. The snake charmer also weaves to make the snake look as if it is dancing, while he is out of the snakes range, in case he does strike.

Dynamic health teaching will

Did you know that the African Elephant is much larger than the Indian Elephant, and the African's ears are much larger. The Indian Elephant has a small prehensile tip on the end of its trunk that the African doesn't have. The skin of an elephant even though thick, is very sensitive, and they can feel a fly crawling around on them. This is why they always throw dirt and hay on their backs.

Dimaggio, Foxx To Appear At Old Timers Day Game

Two of the greatest hitters in all baseball history, Joe Dimaggio and Jimmy Foxx, have accepted invitations to join the Baseball Immortals for the Old Timers' Day game at the Astrodome Monday, September 6.

The game between the Baseball Immortals and the Texas All-Stars will start at 6:30 p.m. prior to the regularly scheduled game between the Astros and Chicago Cubs.

Both members of the Hall of Fame, Dimaggio and Foxx were rated as two of baseball's most devastating hitters and each finished his career with a lifetime batting average of .325.

Dimaggio, who played with the Yankees from 1936 through

1951, holds numerous batting records, including one which may never be topped - hitting safely in 56 consecutive games in 1941. This streak surpassed Wee Willie Keeler's 19th Century mark of 44 and George Sisler's modern mark of 41 set in 1922. Many baseball men believe that Dimaggio's consecutive game hitting streak is one record that will be one of the most difficult of all records to break.

Rated as a team man and a player who was at his peak under pressure, Dimaggio was the sparkplug of ten pennant-winners and nine world's championship teams during his 13-year career with the Yankees. During his career "The Yankee Clipper" played in 1,736 games, hit 361 home runs, won the AL most valuable player award twice and copped two batting titles.

When Joe began to feel that injuries and the ravages of time had slowed him up so that he could not perform up to his standard, he announced his retirement December 11, 1951 despite the fact that the Yankees offered him baseball's biggest salary at that time to play one more year. Nothing could persuade him to return to active duty. His famous "No. 5"

was retired by the Yanks. While Dimaggio was rated the "perfect hitter" by many experts, he was a consummate ball player. He was among the greatest of all center fielders, and until he hurt his arm, he had one of the most deadly and accurate arms in baseball annals.

Quiet, unassuming and the epitome of concentration on the field, Dimaggio was often described as the "picture ball player." He had a wide open stance and almost motionless position in the batter's box until the pitcher delivered the ball. His swing was a thing of beauty. His batting eye was often described as uncanny.

To prove he can still hit Dimaggio slammed a home run off Bucky Walters in the 19th annual Yankee Old Timers' game at Yankee Stadium in July. Foxx, who played 20 years with the Philadelphia Athletics, Boston Red Sox, Chicago Cubs, and Philadelphia Phillies, hit 534 homers -- second only to Babe Ruth, who hit 714. Foxx hit 58 homers in 1932, closest anyone ever came to Babe Ruth's mark of 60 in 154 games until Hank Greenberg duplicated the feat in 1938. Roger Maris of course, broke Ruth's mark in 162 games in 1961 with 61 homers.

Foxx, who once hit four homers in a row over a 2-game stretch, hung up many batting marks. He drove in more than 100 runs for 13 straight seasons, and set a then league

mark by driving in 9 runs in one game. He hit homers with the bases loaded in two successive games.

A versatile athlete, Foxx played third base and caught

in addition to playing first base. He played in three world series and seven all-star games.

Others who have accepted invitations to play with the Baseball Immortals include pit-

chers Bob Feller, Lefty Gomez, Alie ... infielders Johnny ... Boudreau, Frankie ... Alvin Dark, and outfielder ... ie Manush.

Austin Preparing For Youth Conference Meet

One of the busiest offices in Austin at the present time is located on the 8th Floor of the Brown Building. It houses the headquarters of the Texas Attorney General's Youth Conference on Crime, a unique concept involving 1,600 young Texans from almost every county in Texas who will gather in Austin this week seeking methods of halting the increase of juvenile crime in Texas.

A staff of ten young Texans, headed by former Assistant Attorney General Robert T. Davis, is racing against an August 20th deadline, the day all of the young people will convene on the Capitol City for the three-day conference.

Seldom has any youth organization utilized the services of a more outstanding group of young men and women.

Typical of the Conference's staff is Greg Hooser, formerly President of his senior class at Austin's McCallum High School, and Governor of Hi-Y and Youth Government. It is Hooser's responsibility to arrange for transportation for the delegates and the securing of junior and senior counselors for the Conference.

Another of the outstanding young men participating in this year's meeting is Jack Hanks of Midland, Hanks, a former vice-president of Boys' Nation, is coordinating the activity programs that will be presented.

Press relations for the Conference are being handled by Sara Speights of Bellaire and Gay Nagle of Houston. Sara attended the first Youth Conference in 1963 as a counselor. She is a senior journalism student at the University of Texas. Gay was a May graduate from the University with a major in Journalism.

Jack Sims of Fort Worth is responsible for special projects to be carried out, such as the Awards Assembly that will be held on August 22nd.

Bob Shephard of Harlingen is in charge of processing delegate registration forms for the Conference.

ference, while Robert Parks and Perry Perryman, both of Lamars, are arranging for delegate housing.

Attorney General Waggoner Carr, host for the Conference, said, "The problems involved in this undertaking are monumental, and we are fortunate to have the services of these fine young Texans. Certainly, it would be impossible to hold the Conference without their assistance, and all Texans owe them a great debt of gratitude."

Q -- I have heard a number of states which authorized a state bonus for veterans. Why hasn't the Veterans Administration in Wisconsin authorized such a payment?

A -- The payment of a state bonus is authorized by the individual states, and not by the Veterans Administration. It is up to each state to determine whether they will authorize a state bonus for their veterans.

Q -- I am a World War I veteran and am receiving pension and aid and attendance benefits under the old law in the monthly amount of \$135.45. Would I be entitled therefore to medicine and drugs at VA expense?

A -- No. You would be entitled to medicine and drugs at VA expense only if you were receiving aid and attendance benefits under the new pension law. You, of course, have the right to elect under the new law.
