Hale Center Bank Robbed; \$9,426.00 Reported Missing

Officers Comb West Texas For 2 Men Who Escape In Automobile

Bandits who held up and robbed the Hale Center First National Bank of \$9,426 Friday afternoon continued at large late Wednesday, although Texas Rangers, state highway patrolmen, Federal operatives and sheriff's departments have combed West Texas for the two men who escaped after robbing the bank in an automobile which was identified as one taken earlier from a farmer.

The amount of the loot was considerably less than the approximately \$15,000 first announced as missing.

Cashier Al H. Lemond told how the men entered about 2:10 p. m., forced three officials of the bank and customers down on the floor in the teller's cage, scooped currency from the cage and took currency from a safe in the bank vault which they compelled Jefferies to open.

Then they hearded Lemond, Jefferies, Mrs. Jessie Payne, the bookkeeper, and five customers, two of whom had come in during the hold-up, into the vault before fleeing.

The two could not lock the vault, and as they sped away Jefferies, who secured a pistol from his desk, attempted to fire, but the pistol snapped.

The car was found abandoned about five miles southeast of Hale Center, and three youths whose pursuit of the pair was stopped by a blowout on their car, said the robbers transferred to a black sedan and sped away.

Increase In Number Of Polling Places Due To Rationing

Voting Places To Be
Open From 8 A. M. Until
7 P. M. Saturday, Dec. 12

Cotton farmers will decide the floor price of cotton when they vote on cotton marketing quotas Saturday, December 12, Clayton, chairman, Lamb County AAA committee, said this week.

He explained that OPA's ceiling price on finished cotton goods automatically places ceilings on raw cotton but that they did not establish a floor.

"The bottom price is left up to cotton farmers because loans at 90 per cent of parity are effective only when quotas are voted favorably," he continued.

Despite a present 24-million bale supply, cotton prices, which are supported by loans, are higher for the current crop year than they have been for several years.

Clayton said that farmers have a choice between planned marketing and loan-supported prices under a "Yes" vote and unlimited marketing and no price support under a "No" vote.

Wherever you live in Lamb County, there will be a polling place nearby in the cotton marketing quota referendum Saturday, December 12.

"REMEMBER PEARL HARBOR" GET IN THE SCRAP

Buy More Bonds

Prime Minister Winston Churchill of Great Britain, in a radio address Sunday, warned the Allied nations against relaxation in all-out war effort.

The British statesman declared that there may be many years of bloody war, and that present successes of Allied arms should not be accepted as indication that we have our enemies completely on the run.

Such statements by a man intimately conversant with the war situation brings home to all of us the fact that we must each relentlessly continue to do our part in helping win the war.

This means that we must increase our purchase of War Bonds and Stamps, that we must continue the effort to make scrap metal available to our government for the manufacture of munitions of war, that we must work, fight and sacrifice for the overthrow of our enemies and for the peace throughout the world that means more than life to all of us.

Hitler and his blood-thirsty followers have been pounding on the peace of the world . . . the "American Way of Life" for several years . . . and one year ago the sly, slippery Japs attacked Pearl Harbor. All that Hitlerism and Japanese ambitions have thrust on a world that seeks only peace . . . the pursuit of happiness . . . are fresh in our minds and each day brings new developments in the filthy plans of our enemies.

A two-day nation-wide observance of the anniversary of the attack on Pearl Harbor will be sponsored by the Office of War Information. Joining in the observance will be the War and Navy Departments, all other war agencies, war plants, labor, churches, schools, colleges and numerous other organizations.

The anniversary will be observed Sunday, December 6, and Monday, December 7, wherever there are Americans around the world.

The OWI proposes that the nation, under the cry of "Remember Pearl Harbor—Work . . . Fight . . . Sacrifice!" will:

Honor and remember the men and women who have already given their lives in this struggle.

Give thanks to God for the nation's survival of the unprovoked attack of ruthless enemies.

Clear-headedly assess what has been done in one year of war, and what lies ahead to be done in terms of "Work . . . Fight . . . Sacrifice."

Rededicate the nation's strength, its time, its wealth and its very life to preserving a concept of life more precious than individual life itself; to work, fight, sacrifice for all that is contained in the Bill of Rights and the Constitution of the United States of America.

Almost simultaneously with the announcement of the observance of the anniversary of the attack on Pearl Harbor comes an appeal from the government to the American farmer to dedicate the remaining weeks of 1942 to an intensified scrap hunt.

"Steel mills need more heavy scrap and the farmers are one of the best sources of this type of metal," said a telegram to the editor of the Lamb County Leader from Donald M. Nelson.

Farmers of the nation have turned over to the government tons upon tons of scrap for the manufacture of munitions of war, and their outstanding assistance in the war effort is fully recognized by the government. With the new appeal for scrap, farmers will again come to the assistance of their nation and repeat the good record they have already attained in the fight against Hitlerism and Japanese ambitions.

Observance of the anniversary of Pearl Harbor also is dedicated to a more extensive program in the purchase of War Bonds and Stamps. Our government needs the loan of our money to carry on the expanded war program.

We are Americans . . . we love the "American Way of Life" . . . and each of us, in the way that we best can, rejoice at the opportunity to take a "Slap at the Jap" . . . and Hitler, too, of course.

One year ago, December 7th—on a calm Sunday morning in one of the most peaceful spots in the world—Japanese gangsters launched the most treacherous attack in history against the United States of America. Without warning, Jap bombers struck American ships . . . destroyed American planes . . . and mercilessly machine-gunned unprotected men, women and children. We Americans have accepted that challenge . . . 130,000,000 of us pledged to fight every hour and every minute until we wipe out the shame of Jap treachery forever . . . and give Hirohito and his boys something to remember Pearl Harbor!

DECEMBER 7th, 1942

We have already had stirring proof that our fighting men can hold their own against the Japs . . . that our factories can turn out bombs and tanks and planes in overwhelming numbers to crush the enemy . . . and that the American people can more than meet this threat to their country and their way of life. That's our answer to Pearl Harbor, Hirohito! You got a taste of it when we bombed Tokyo . . . and we'll be back! We didn't want this war. Perfect Hostess

Corduroy, made of cotton, reaches the heights of glamor in this white hostess gown. Scalloping outlines the skirt yoke and bolero effect in the blouse, emphasizing the brilliant contrast of the cerise midriff and jewel-studded belt.

Cotton Hose to Forefront

It's no hardship for modern American women to give up their silk and nylon when cotton hosiery is so smart and serves so well. For war days when we're walking more, cotton hose are both stylish and comfortable. And they're particularly smart with tweed or tailored clothes.

Pictured, upper left, is a novelty mesh weave in beige; upper right, all-around hose for sports and utility wear; and lower right, a heavy, ribbed hose for daytime wear.

Typical of all cotton, the hose are stronger when wet than dry, enabling frequent washings.

Here's the Answer

Schools may pose the problem for youngsters but the answer to mother's question of what school girl should wear is contained in this trim little cotton corduroy suit. With box jacket, flared skirt and matching calot, it's smart and sturdy. And with specially treated cotton, it's water and stain resistant, as well.

"TOPPING" our biggest job

Long ago the railroads made possible the swift settlement and development of this land.

Today they face their greatest test in the struggle to preserve it.

For this is essentially a war of rolling wheels. Millions of men, and tens of millions of tons of vital raw and finished products must be moved swiftly and surely, where and when they are needed.

Stop the wheels that move them, and we stop all that floats and flies as well.

That is why today, on the Santa Fe, movements essential to the war effort are "topping" the biggest job in our history. They must come first, beyond argument or selfish interest, on every American railroad.

KEEP 'EM ROLLIN'—OR ELSE

* No nation that does not possess efficient mass transportation can hope to win a modern war. In America that mass transportation job is squarely up to her railroads. If they fail, we lose.

Neither battle gallantry nor industrial wizardry alone will turn the tide. To meet this tremendous responsibility, we ask for every possible consideration in the allocation of materials for vitally essential repairs, maintenance and new equipment.

LET'S ALL PULL TOGETHER

As the tide of military rail travel mounts, you can help us maintain adequate civilian passenger service as well, in these ways:

* Make reservations and buy tickets early * Cancel unwanted reservations promptly * Carry least possible luggage, checking extra pieces to avoid crowding * Vacate dining cars quickly after meals * Travel mid-week, avoiding week-end and holiday rush periods.

Turn freely to your local Santa Fe representatives for help on your travel or shipping problems.

and demolition training, returned to Fort Bragg, N. C., this week after a visit in the home of his parents, Mr. and Mrs. E. E. Rucker.

Mrs. Arthur Mueller received a letter from her brother, Lieut. Woodrow W. Holland, formerly of Eugene, Ore., but at one time of Fieldton, Texas, of the U. S. Marines, dated Nov. 9, but only received last week stating that he had seen active service on Guadalcanal; that he was in a small boat when it was sunk, and had to swim to shore, and lost all his belongings. As she has not heard from her brother since the more recent battles, Mrs. Mueller is anxious to learn of his safety.

Mrs. Mueller's parents formerly lived at Fieldton, and her brother has a number of friends and acquaintances in Littlefield and area.

Aviation Student Alva J. Spain, son of Mr. and Mrs. E. R. Spain of Olton, has reported at the Lubbock

Army Flying School, for the final lap of the training which is preparing him to be a Flying Sergeant.

At the large Lubbock twin-engine school, commanded by Col. Thomas L. Gilbert, Spain will complete the training he began in July at Cuero, Texas, and continued at Brady, Texas. Upon his graduation he will be commissioned as Staff Sergeant and assigned to active duty with an Air Force unit.

Prior to entering flight training he was an airplane mechanic in the Air Forces for six months. In civilian life he was a farmer.

Fort Leonard Wood, Mo.—Ira P. Bridges of Olton, who recently entered military service, has arrived at the Engineer Replacement Center here for an intensive training program in preparation for combat engineer duty. Subjects like close and extended order drill, manual of arms, rifle marksmanship and combat principles as well as the functions of military engineering—use

of tools and equipment, building of fixed and floating bridges, demolitions and construction of roads and obstacles. Soldiers go from here to tactical units or to special training or officer candidate schools.

Pvt. "Buck" Teague of the Medical Corps, who has been stationed at Camp Forrest, Tenn., completed his course in cooking, and was granted a leave of absence, arriving home Wednesday.

He came by train to Amarillo, where Mrs. Teague met him and accompanied him to Littlefield.

If Marketing Quotas Rejected, No Loans

No government loan can be offered on cotton in 1943 if marketing quotas are rejected in the nation-wide referendum Saturday, December 12, Frank Seale, state AAA committeeman, reminded cotton growers recently.

Seale, himself a Robertson county cotton farmer, pointed out that the law prohibits the Commodity Credit Corporation from making loans on cotton in any year in which quotas

are rejected. The government loan was as a floor under cotton prices since 1938, the first year were in effect, the AAA man declared.

Currently, the basic cotton rate of 16.97 cents a pound per cent of parity, is supporting price of cotton.

"With our huge supply of and with world prices about half what we're getting cotton, there is no telling would happen to American prices if the loan were Seale declared.

Cotton growers will vote sixth time on marketing quotas December 12. Each year for five years they have voted overwhelmingly to use quotas means of assuring each producer fair share of the available market.

Report 107,300 Gals. Gas Sold

Due to gasoline rationing going into effect Tuesday, there was a sizeable run on all service stations in Littlefield Sunday and Monday, some of whom had run out of gas before the deadline Monday night.

According to Service Station operators, residents of this area, seeking to circumvent the gas rationing law, were buying gasoline in large quantities, and storing it in glass jars, tin cans, barrels and an assortment of containers, ranging from one to 50 gallons.

In checking with the various local wholesalers, it was estimated that a total of 107,300 gallons of gas had been sold in Littlefield over the week end.

One Whitharral service station reported 3,500 gallons of gas sold Saturday and Sunday and 2,100 Monday.

Contained in the letter of appreciation by the Dogs for Defense, Inc., to Dr. and Mrs. Payne, was the following:

"We are going to ask Mrs. Payne to act as official information bureau for the Littlefield territory for war dogs for the U. S. Army. We are enclosing some questionnaires and release records. Three of each should go to everyone who wishes to enlist a dog in the Dog Corps. Please advise it is also necessary for us to have two kodak pictures. portance of all farmers voting made it necessary to increase the number of polling places for the referendum, E. C. Clayton, chairman of the county AAA committee, has announced.

"Since every cotton grower in the

county should participate in the referendum, we are doing what we can to make it as easy as possible for them to vote by increasing the number of ballot boxes," the AAA chairman said.

This year there will be more ballot boxes in the county.

"Gasoline rationing, tire shortages and other wartime problems required that the number of boxes be increased," Clayton said.

Polling places in Lamb county will be open from 8 a. m. until 7 p. m. List of all polling places will be worked out by the Lamb County ACA Committee and will be published in county papers next week.

who lives north of Abernathy, told how two armed men had forced him into his car, made him drive to his farm home and fill it with gas, then trussed Ellis and his family up in their home, and rushed away.

Mrs. Payne described one man who apparently was the leader of the pair as slender and "slinky," with an olive complexion. She said he was dressed completely in brown, and was about 5 feet, 7 inches in height. The other she described as heavy set, about 5 feet 6. Each had an automatic pistol.

The pair entered the bank and

Cotton Rug is Sensation

Most widely discussed topic in the rug market today is the new Victory Rug of cotton, such as the one pictured here. stood around casually, until the crowd thinned. Then they ordered the officials and customers, Curtis Logan, E. J. Watkins and Hollis Bryan to the floor. When two other customers, L. W. (Peg) Walls and Sam Scaling, entered, they also were forced to the floor.

William Lynch, Delmar Dee Harper and Perry Beecher, three Hale Center youths, saw the men speed away and gave chase. The blow-out on their car stopped them, but they told of seeing the pair transfer to a dark coupe. About the abandoned car which the two first used was scattered about \$50 in currency.

Jefferies told officials one of the bandits remained outside the cage grillwork, on watch while his companion handled details of getting the money.

"The one who came to my desk told me and two or three customers standing nearby to 'get your hands up and get back there; don't make

any noise; everybody lie down on the floor." He said the men appeared "very cool—and they said little. They must have been in the bank not more than three or four minutes."

PAIR OF PLIERS

es, sir, these tools have a big responsibility during the war, but you won't find them shirking. The war has made their job increasingly difficult. New appliances are gradually disappearing from our shelves and it will be our job, yours and mine, to keep the old ones in repair. It takes trained labor and service parts requiring critical materials to make a service department function efficiently. Therefore, we on the Home Front are called upon to help, by taking care of the appliances you have.

You can help by advising us of your service needs as far in advance as possible. You can help by exercising a patient understanding when parts, which under normal times could be obtained in a few days, are delayed much longer. Emergency jobs must be taken care of first, and here again we will ask your indulgence. Before you throw away ANY appliance that just doesn't work, consult us! Our Repair Department may be able to keep it in service.

Rev. and Mrs. Roy Shahan were honor guests at a farewell party in the basement of the First Baptist Church Tuesday evening, November 24, sponsored by the ladies of the church.

A patriotic program, with Mrs. Dewey Hulse in charge, was enjoyed.

Rev. and Mrs. Shahan were presented with corsages, and a gift from the church, a mix master, which, following the program, was presented by Mrs. Pat Boone, who made a very appropriate talk expressing appreciation on behalf of

the church to Both Rev. and Mrs. Shahan for their untiring service.

Mrs. E. Mueller, who left the middle of last week for Oklahoma City to make her home with her daughter and son-in-law, Mr. and Mrs. Baker, was also presented with a corsage. Rev. Shahan, on behalf of the church, also presented Mrs. Mueller with a gift, a shawl, and also expressed appreciation for her faithfulness to the church.

Following the program refreshments were served to about 25 church members present.

You are definitely NOT a "Lady in Waiting"

You are a very young bride, but you are not waiting until this war is over to have your baby. You are healthy minded, and you don't intend to retire until your baby arrives. Besides there is so much to do—and you don't want to miss anything!

You have harvesting to do (besides your very own), you are going dancing with your husband when he's on leave, you're learning to cook his favorite food, you take his dog "Pal" walking, you're knittin' for Britain (besides the little one), and all your other time you devote to selling WAR SAVINGS BONDS!

P. S. Because you are a very *bright* girl, you are wearing a Gossard maternity support. And because your I. Q. is exceptionally high, you are fussy about your bras, changing their size as you change, so that when all of this is over no one would ever suspect you of having had a baby—except for the very wonderful evidence of your very, very wonderful BABY.

IN BUSINESS IN LITTLEFIELD

You've helped us Build our Business . . . and we deeply appreciate your loyal friendship . . . your liberal patronage.

On the occasion of our 14th anniversary, we review the growth and progress of this business through the years. We are proud that we have had the pleasure to continuously serve our many customers through good years and lean, and are now the oldest cleaning establishment in this city.

As our men in the Nation's Armed Forces have sacrificed their homes and loved ones, to go to distant shores to protect the American standards of living . . . all of us "on the home front" have greater tasks and greater responsibilities.

We are glad to be a part of "The Great Working Army" of America . . . and—although we work early and late in order that we may serve our many valued customers, we feel that we are indeed helping toward the war effort, by helping to keep up Home Morale.

And—in recognition of your splendid friendship . . . the nice volume of business you have given us . . . we will continue to strive to render the best in service, keeping pace with the latest methods in the cleaning and tailoring service which we offer.

Jimie Zed Roberson graduated from the Bugler School of the U. S. Navy in San Diego, Calif., November 20, and left Wednesday of last week for Norfolk, Va. His father, Zed Roberson of Enochs, returned home Sunday after a week's visit with his son. He also visited relatives in Los Angeles, Calif.

Ray Dalton, third class petty officer of the U. S. Navy, who is stationed at San Diego, Calif., arrived in Littlefield Saturday for a visit with his wife and son, and his parents, Mr. and Mrs. J. L. Dalton, and other relatives. He left for San Diego today, Thursday.

Ensign Jerald Bartley of the U. S. Navy sailed from Houton last week end for "parts unknown." He is commander in charge of a gunnery crew. He talked with his parents, Mr. and Mrs. H. T. Bartley, here last Friday night. He has been in the Navy since last August. His wife is with her parents at Glenrose.

Cpl. Burl Cary, who is stationed somewhere in Australia, wrote his parents under date of November 11, which reached here Saturday, the following letter, which will be of interest to a large number of his friends:

"Dearest Folks,
"I just received four letters from you today. They were mailed Sept. 4, 7, 8 and Sept. 26. Boy I sure was glad to get all of them. I also got a letter from Jimmy. I was sure proud of the pictures. They really look good. I can't tell any of you have changed a bit. I would give anything to see all of you.
"Have you been getting all of my mail? I hope you have got the money and pictures I sent to you.
How are all of you by now? I hope it is not too cold there. I am doing fine. I like my job better all the time. It is really nice here.
"I went to a show here in camp last night. I am sure glad the Laundry is doing good. Say, did I write you about my seeing that Gee boy over here. Elmo Gee, you know who I mean. I saw him in town about two weeks ago. I was sure glad to meet up with someone from home. He is in a different camp.
"Daddy, I was glad to get your letter. I am sure glad your leg got alright. I guess you keep your knife too sharp (ha ha).
"Say, why is everyone going to Amarillo? Is there a big defense outfit up there or what? Are Hayden and Pearl still up there. Mama wrote that they were up there.
"That must have been a bad wreck you saw. One of our trucks got hit with a motorcycle day before yesterday. It hurt the guy on the motor pretty bad, but didn't even dent a fender on the motor. It tore a fender and headlight off our truck, but didn't hurt the driver.
"Have they got that pipe line

finished through there yet? I guess all the farmers are feeling happy over their good crops around there. Daddy, how much do you weigh now. In this picture you don't look as heavy as you did before I left. I weigh 174 pounds now, still gaining (ha ha).
"I know you all enjoyed grandpa's and grandma's visit out there. I would like to have been there. That was kind of a surprise to me about the new kinfolks from Pearl and Hayden (ha ha).
"I have been using the hair oil and things you sent me. Boy, it is all real stuff. I was really glad of all the things.
"Mama, I send most of my laun-

dry to town to get it done. I doesn't cost much, but it is not done as good as you used to do it, but I get along alright. I have a good place to stay and sleep. I can't write anything about the camp or anything, but it is alright.
"I sure am glad you all drive my car. It is better to be running it than to let it sit. I know it runs good.
"Jimmy wrote me all about him being Uncle. I guess he is tickled over it. He likes what he's doing now fine. Am really glad for him.
"Have you all got the money I sent you for Christmas yet. I sure hope you have. I thought that would be better than trying to send packages. I want you to get what you want with it.
"Well, I can't think of much more to write right now. I will write again soon. Don't worry about me. I am doing fine, and well and happy. I will write more late.
"Thinking of you all. Tell every-

one hello.
"Lots and Lots of Love,
"BURL."
Walter I. Houpt, Abernathy, has been appointed a second lieutenant in the U. S. Marine Corps, it was announced here today. He received his commission after graduating from an intensive ten weeks training course for officers at the famous Marine base at Quantico, Va. He now will undergo an additional ten weeks course to prepare him to lead fighting leathernecks in battle. The young officer is the son of Paul Houpt and attended the University of Texas where he played basketball. Before entering the Marine Corps he was employed by a pipeline company.

Bill Street, who received his commission as second lieutenant in the U. S. Army Wednesday at Fort Washington, Maryland, is expected to arrive home Saturday for a visit

with his parents, Mr. and Mrs. W. G. Street. His sister, Miss Alice Lynn Street, left last Thursday for Fort Washington to witness her brother's graduation from Officer's Candidate school. Miss Street also

expected to visit a former employer, Miss Jean Spencer of Baltimore, employed as a nutritionist in a New York hospital. Miss Street will come to Amarillo by plane.

You Would Fight To Protect This Little Girl! YOU CAN By Bringing In Your SCRAP METAL

Your Government Needs It NOW For The Manufacture Of War Requirements

We are Americans . . . we love the "American Way of Life" and each of us, in the way that we best can, rejoice at the opportunity to take a "Slap at the Jap" . . . and Hitler, too, of course.
The government is making another appeal to the American farmer to dedicate the remaining weeks of 1942 to an intensified scrap hunt.
"Steel mills need more heavy scrap and the farmers are one of the best sources of this type of metal," said a telegram to the editor of the Lamb County Leader from Donald M. Nelson.

Farmers of the nation have turned over to the government tons upon tons of scrap for the manufacture of munitions of war, and their outstanding assistance in the war effort is fully recognized by the government. With the new appeal for scrap, farmers will again come to the assistance of their nation and repeat the good record they have already attained in the fight against Hitlerism and Japanese ambitions.
