## COTTON, COTTON AND MORE COTTON

WITH HARVESTING GOING AT FULL SWING in Lamb County, these workers at Union Compress and Warehouses have plenty of work on their hands. In the picture, Compress Manager Huston Hoover, at rear right, checks with a weighing crew on the company's yard as the crew weighs bale after bale of the best crop here since 1949. The crew, headed by Weigher Troy Gardner, at left of Hoover, uses new electronic scales housed at rear of the tractor. The new scales weigh 225 bales an hour at exact accuracy. Old scales, the beam type, were about as fast, but not as accurate. Some 6,000 bales of cotton were on the Compress Yard Tuesday, and many of them were weighed by the \$5,000 rig. Other members of the weighing crew are, left to right, Benny Alvarado, Merced Espinosa, and Joe Sanchez.

## Bank Deposits Show Increase

Total deposits in six Lamb County banks at the Sept. 26 call are up almost three-quarters of a million dollars over the same period in 1955, reflecting the earliness of the 1956 cotton crop.

Biggest gainer over 1955 figures is the First National Bank at Sudan, which reported a whopping increase of \$492,000 (round figures). The two Littlefield banks saw more money coming in too, with the First National Bank reflecting a hike of \$254,000 (round figures) and the Security State Bank here posting an increase of about \$175,000.

Olton State Bank noted a gain of about \$30,000, while the First National Bank at Amherst declined about \$15,000 over the year. The Citizens State Bank at Earth dropped from \$1,365,000 (round) in 1955 to \$1,175,000 (round) in the same period of 1956.

Banking observers credited their gains to a 30-day early cotton crop, and reported even heavier gains since the Sept. 26 call. A steady rise in deposits through the rest of this year was predicted as crop harvesting gained in momentum.

Figures at the two Littlefield banks showed a gain in total resources along with the deposit increase.

The deposits by banks at the Sept. 26 call were: Citizens State Bank of Earth — \$1,175,000 (round figures); Olton State Bank — \$2,715,057.75; Sudan National Bank — \$1,667,933.63; Amherst First National Bank — \$2,487,420.55; Littlefield Security State Bank — \$3,633,074.51; and Littlefield First National Bank — \$3,856,173.93.

## Outlook For Cotton Crop Stays Good Farm Bureau Sets Meeting

Cotton prospects in this area stayed bright in a report issued by the Lubbock Cotton Exchange last week.

The Lubbock organization's prediction placed Lamb County's production estimate at 158,000 bales — 3,000 higher than the total production forecast earlier by the Texas Employment Commission.

With less than a fourth of this year's crop now harvested — approximately 30,000 bales — farmers still have 23 days before the average date of the first killing frost — Nov. 4. An estimated 60 per cent of the county's crop is now open.

According to area cotton classifiers, grades are better and the staple length longer than in 1955. The big thing with the 1956 crop, however, is it is approximately a month early. This time a year ago, less than 1,000 bales had been ginned in Lamb County.

With better grades and staples, farmers who had less acreage in cotton this year will be making more money off their 1956 crop than in 1955.

Lamb County was rated fourth in the Lubbock Exchange's report behind Lubbock County, 215,000 bales; Hale 173,000 bales and Hockley, 160,000.

Farm Bureau members from all over Lamb County are expected here tonight as the organization holds its annual county convention in the Community Center at 7:30 o'clock.

Working to better the farmer's lot, Lamb county members will elect delegates to their state convention in Houston, Nov. 11 and are slated to name five new directors of the organization.

The meeting is in the form of a covered dish supper.

Foremost among items on the agenda, however, is the discussion and passage of resolutions which will go to the state convention. Although more resolutions from members are expected at the meeting, these are already on the agenda:

1. Reaffirming the bureau's stand on a support price on basic commodities of 90 per cent of parity.
2. Methods to better the service received from the local ASC office.
3. That income from a crop requires more than six months for preparation and production shall be considered as a long term capital gain.
4. That aid to foreign nations should be commended, but when a nation becomes self-sufficient this aid should stop.
5. That the farmer should be allowed to take the depletion of his underground water supply from his income tax as is done with oil.
6. That only 2% of the state cotton allotment should be retained by the state A.S.C. committee.
7. That farmers should be allowed the cost of buying a farm in five years the same as industry is allowed to do with new factories and installation.
8. That C.C.C. stock of farm surpluses be allowed to ship into world markets on other than the U. S. Merchant Marine vessels.
9. Opposing the extension of the minimum wage law to apply to agriculture.

## Onstead Wins Grid Contest

Onstead was the closest thus far waged in the event. Five — yes, five — football fans were in the running all the way.

All five of the top finishers missed only two out of the 20 games, and declaring the winner turned out to be a tough job.

Onstead guessed the tie-breaking score to be 32-6, and the score on the Texas Aggie-Texas Tech game turned out to be 40-7. That put Onstead only nine points away from the correct score. Second place man Jimmie Starnes, also of Littlefield, guessed the score to be 34-13, putting him only 12 points away from the actual score.

Two other Littlefield fans missed only two games and predicted identical scores of 27-6 on the tie-breaking game, putting them only 14 points away from the actual score. Another Littlefield man, Bill Lyman, also missed only two games, but guessed 27-0 on the tie-breaker. That made him 26 points way from the true score.

Onstead picked up \$5.00 for winning, Starnes got \$3.00 for second and Carmickle and Hill won \$2.00 each, for third.

All four of the money-winners missed the Louisiana State-Rice Institute game this week. Rice won that one in an upset, 23-14.

The contest in today's Leader features all of the Southwest Conference games and a good smattering of Big 10, Southwest, and area high school football. Today's

## Fire Contest Deadline Near For Students

Students in all grades in Littlefield public schools who wish to enter the Chamber of Commerce Fire Prevention week contest have until Friday at noon to submit their entries.

Some \$60 in prizes is being offered to winners of the contest, staged as part of the local observance of fire prevention week this week. The event is sponsored annually by the Safety Committee of the Chamber, with prizes being financed by local insurance agencies.

All students are eligible for the contest, which has a theme of "Fire-Friend or Foe."

Primary and elementary school students who enter the contest will submit fire prevention posters. Junior High and High School students will enter 100-word theme on fire prevention in Littlefield.

Each building in the school system will be judged separately, with the winning student in each building receiving \$6.00. Second place is \$4.00 and third is \$2.00. In addition, a \$12.00 prize is being offered to the winner in the Junior High Art Dept. The winning poster from this department will be submitted for competition in the National Fire Prevention Campaign.

Winners in the contest will be announced in Sunday's County Wide News and awards will be made in school assemblies next week.

## County Assumes Responsibility For Public Library

County Commissioners Monday assumed responsibility for the public library, effective Nov. 1, after a discussion of a letter from the Littlefield Woman's Club.

Mrs. T. L. Dunlap, president of the club, said the library had grown too large for the organization to handle and that the county assume responsibility for it.

The library was established in 1913 with 20 books, under sponsorship of the Littlefield Woman's Club, has now an estimated \$20,000. It contains nearly 6500 books, including non-fiction and reference books.

Commissioners, in taking over the library, appointed an advisory committee, naming Mrs. C. S. Sil-Olton, Mrs. Lena Hite of Littlefield, Mrs. Radney Nichols of Littlefield, Mrs. Allen White of Amherst, Mrs. C. O. Stone of Littlefield, Mrs. A. B. Brown of Littlefield and Mrs. J. O. Hubbard of Littlefield.

The county has paid for the building, but the Littlefield Club has had the responsibility of purchasing books. The county will assume the operation, working through its appointed advisory committee.

## YES, SID JR.'S GOING PLACES

The Littlefield High School band was scheduled to arrive back in Littlefield early Wednesday night and Sid Jr. — the live Wildcat Mascot that went to the State Fair with the musicians — apparently had a home while he was in Dallas.

LHS officials said Friday that plans were to keep the animal in the Zoo during the band's two-day stay — and at last word, everything had gone smoothly. Sid Jr., rode to Dallas in a cage on a truck carrying band equipment.

Sid Jr.'s next appearance here will probably be at the school pep rally Friday afternoon and the football game Friday night, the football game, of course, that he's provided, of course, that he's not too tired from his Dallas tour.

## School Board Sticks To Its Guns On School Bus Routes

A request by a few families living within two miles of Littlefield schools to have their children ride the system's school buses was denied Monday night by school trustees.

The parents involved asked the board to consider having its buses pick up children inside the two-mile limit and some of them indicated they would pay for the service.

In other action at the meeting, the school board:

1. Employed Mrs. Ruth Joss as a first grade teacher to replace Mrs. James Abbott, who has been teaching temporarily.
2. Announced that 67 Mexican Nationalist children have been attending a special school in Fieldton that opened Sept. 24 for about an eight-week period.
3. Authorized School Secretary Sid Hopping to purchase liability insurance in the amount of \$5,000-\$10,000 on all 17 of the system's school buses. The cost will be about \$350 for the rest of the school year.

## Four Sign Up For New Program ASC Flooded With Queries On Soil Conservation Plan

A flood of inquiries hit the Lamb County ASC office this week on a recently-announced Soil Conservation Reserve program, Lamar Aten, Office Manager, said Wednesday.

"Nearly all dryland farmers are interested in the program," Aten said, describing the rush of questions about the plan.

Despite the heavy interest, four farmers had actually signed applications for the program, which gives the Lamb County farmer \$12 rent per acre per year for every acre up to \$5,000 worth that the farmer will lay away for conservation.

"The hold-up on most applications right now is that farmers have already harvested or grazed part of the land they want in the program," Aten commented.

The program states that a farmer wanting to for 1956 must not have harvested or grazed the land since Jan. 1, 1956. That rule will have most farmers waiting for the 1957 part of the plan.

The four farmers who signed up this week put a total of about 500 acres into the conservation program.

Aten said his office had received no applications for the Drouth Emergency Food program, also recently designed for Lamb County. Application are taken at the FHA office here in Littlefield, then forwarded to the ASC office.

The interest of most farmers, however, was centered on the Soil Bank Conservation program. The program gives farmers until Monday to decide whether they want in the conservation program for 1956. Another sign-up period will be held up until March, 1957, if farmers want in next year.

Under the plan, Lamb County farmers can receive \$12 per acre — minimum acreage is five acres and the maximum is 416.6 acres (5,000) — for each year they are in the plan. The minimum time is five years and the maximum is 10 years. Under the maximum acreage and the maximum time, a farmer could be paid a total of \$50,000 in the ten-year period.

Average total acres in soil-de-

## Plans For SP Cotton Maid Contest Begin

LUBBOCK, (Special) — South Plains cotton industry leaders have begun their search for an attractive young woman who will represent this area as one of the 20 finalists in the National Maid of Cotton contest in Memphis in December.

Chairman Charles Signor announced this week that plans are now being completed for the biggest and best contest ever held on the South Plains. The contest has been expanded to a two-day event, and a wonderful treat is in store for each Contestant for the South Plains title.

The South Plains Maid of Cotton Contest will be held November 19-20, with judging in the Caprock Hotel and the finals on the evening of November 20 before 3,000 persons in Lubbock's new Municipal Auditorium. Each contestant will receive awards, and the lucky girl chosen as South Plains Maid of Cotton will receive a \$1,000 wardrobe and an all-expense paid trip to Memphis for her and her mother (or chaperon).

All contestants for the South Plains Maid title must be between the ages of 19 and 25 inclusive, at least five feet five inches tall, never married and must have been born in a cotton-producing state. Contestants will be judged on basis of personality, poise, intelligence, and appearance. Entry deadline is November 9.

Entry blanks and details of the contest are available by writing to D. C. Prince, Contestants Committee Chairman, South Plains Maid of Cotton Committee, P. O. Box 561, Lubbock, Texas, or by calling at the Lubbock Chamber of Commerce.

Alc Donald W. Pace has been home visiting his mother, Mrs. Sid Pace and other relatives while on embarkation leave. He is to be stationed in England.

HOWDY FOLKS — Yvonne raises her trunk in greetings to those visiting the D. S. Dudley Shows now playing at the Lamb County Fair Grounds here. The Carnival is being sponsored by the Littlefield Lions Club and opens at 6 p.m. each night. The Dudley Shows will be here through Saturday night, with the Saturday performances beginning at 2 p.m. The elephant pictured above is two years old and weighs 850 pounds, but will weigh about 12 tons when fully grown — about 75 years from now. Yvonne eats a bale of hay every 36 hours, plus a good supply of oats. Worth \$8,000, she was flown to the U. S. from India.

### City Officers Jan One, Issue Tickets, Check 2 Wrecks

The City jail was cleared of all "guests" with the exception of one Negro who was arrested for drinking in public. Fine assessed was \$10.00. Officers also investigated two wrecks and issued eight tickets.

Bill Perkins, driving a 1948 door car pulled out in front of it from a side street. He was issued a ticket.

At 9:30 a.m. at the intersection of Freeman and Copeland, a car driven by Mrs. Carlos Hoppe and one by Paul Perros collided causing \$225 damages.

Mrs. Hoppe was driving a four door, 1950 model car South on Copeland and Perros was driving a 1948 light sedan West on Freeman. Perros' auto struck the Hoppe vehicle on its left front fender. Perros received a ticket from investigating officer for failure to grant right of way.

A man whose normal weight is 150 pounds would weigh about 50 pounds if all the water in his system were dried up.

### HERE'S TODAY'S TIP from Johnny Hartford, your Junior Fire Marshal

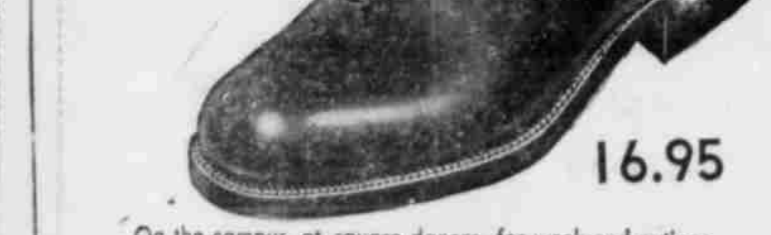

Your kitchen is a favorite place for a costly fire to start. To make your kitchen safer, keep stove free of grease and don't permit towels or curtains to blow over open flames. Make it a habit to always disconnect your electric iron when interrupted, even for a short time.

### Open the door, Richard!

"Open the door, Richard. Richard, why don't you open that door?"

Some one may be singing that song this week when he finds himself minus a few keys.

Just before presstime yesterday, a local merchant reported finding a set of 14 small keys on a metal ring just outside his door. Feeling that 14 keys must certainly be of importance to someone, he set out to find the owner. So far, he's still got the keys.

Anyone find himself temporarily locked out can call 26 or 27 and we may have the answer to why "Richard" doesn't open that door.

### Hospital News

**Medical Arts Hospital-Clinic**  
Three births were reported at the Medical Arts Hospital-Clinic yesterday morning. Mr. and Mrs. Royce Hargrove of Route 1, Anton are parents of a boy Bruce Marion born October 7th at 7:30 p.m., weighing 7 pounds 9 ounces.

Mrs. Patti Ann, was born Sunday at 3:30 a.m. to Mr. and Mrs. R. D. Heard. Patti Ann weighed 6 pounds 12 ounces. Mr. and Mrs. Heard also reside at Route 1, Anton.

Devona Gail Smalley was born at 8 p.m. Monday to Mr. and Mrs. Monte Dale Smalley of 1209 West 5th. The little girl weighed 8 pounds 10 ounces.

Rue Ann Reast underwent a tonsillectomy Monday at M. A. Hospital. She is the daughter of Mr. and Mrs. Kenneth Reast.

Admitted Tuesday morning with an arm injury was Ray Maner, son of Mr. and Mrs. Doss Maner, of Whitharral. Ray was injured in football practice Tuesday morning.

Also admitted Tuesday was Mrs. Marvin Drake of Sudan as a medical patient.

Bobby Lee Shaw, a negro, is described as doing as well as can be expected. Shaw was injured Friday when a silo caved in on him.

### ASC Flooded

Continued from Page 1

pletting crops in the two previous years determine the number of acres which can be put in the program. The total acres in these crops — cotton, wheat, grain sorghums, oats, etc. — for each year are added together, then divided by two. The result gives the "conservation acreage reserve base" — the number of acres which can receive \$12 per acre per year.

The farmer must agree to establish a permanent grass or cover on the land for the 5-10 year period and the type of grass or cover must be among those approved by the State ASC committee. The government will also pay 80 percent of the cost for establishing grass or cover.

If the farmer wants to join the program now, the land he enters must not have harvested a crop or have been grazed since Jan. 1, 1956. Land placed in the program cannot be grazed or harvested during the contract period — it must be left in permanent grass or cover for the entire time.

The \$12 an acre applies to both irrigated and dry land, in Lamb County, according to Kimbrough. In Lubbock, the rate is \$13 an acre and in Hale and Hockley counties, the rate is \$12. Bailey County has a \$9 rate. The highest rate in Texas is \$13, the lowest \$8.

Farmers who have already harvested or grazed land in 1956 may sign up for 1957, if they leave the land unused after Jan. 1, 1957. If they place acreage in the reserve in 1956 the years 1954 and 1955 are used to compute the number of acres. If they join for 1957, the years 1955 and 1956 will be used to determine the number of acres they can place in the reserve.

### IT'S UP TO YOU

By Howard E. Kershner, L.H.D.

IT has sometimes happened that a small boy has told a lie to avoid punishment. Soon he finds he must tell another to cover the first; then two more. "Oh, what a tangled web we weave when first we practice to deceive."

Our farm program parallels the experience of those who bear false witness. It has become hopelessly complicated.

First, we pay farmers to produce crops that are not wanted at the prices asked. Then, we pay them for leaving soil lie fallow. Next, we give them a bonus for fertilizing, so that on fewer acres they can raise as much as formerly. Now it is proposed that we dump cotton and other crops abroad, giving the citizens of other countries an opportunity to buy American agricultural products at less than we ourselves must pay.

We complain about the import of cotton textile goods at prices with which our manufacturers cannot compete. Nevertheless, we aggravate that condition by selling cotton to foreign competitors at 25 cents a pound while our American mills must pay 35 cents. Apparently, we are determined to assist foreign manufacturers to drive our own cotton textile people out of business.

Not only so, but we incur the bitter opposition of the foreign producers of cotton and foodstuffs when we interfere with their market by dumping these goods abroad.

Every government intervention in the economic activities of the people requires another intervention to try to make the first one work, then two additional interventions are necessary in order to make the first two work. Oh, what a tangled web we weave when first we interfere with economic laws!

**Girl Scout Fund Drive Set For October 15th In Amherst**

AMHERST — The fund appeal of Girl Scouts of the newly formed South Plains Council will be between Oct. 15th and 20th. This announcement was made this week by Mrs. Doyle Tapley, Chairman of the Drive Committee for Amherst.

In Amherst, there are more than 40 Girl Scouts, ages seven through seventeen. Together with their nearly one and half million sister Scouts through the United States, they are preparing for the larger responsibilities of adult citizenship through this program of fun,

service and training. To finance this program the coming year, the Girl Scout Council in the Lubbock area, must raise \$37,916.00 in their fund drive. This will be done through solicitation, door to door selling, and by direct service organization.

The human heart is made of eight-tenths of a second each contraction.

**Travel Goes On Year-Round Basis As Winter Vacations Boom**

Winter-time travel is booming to an even greater extent than travel in general. A new record both for overseas and domestic travel during the 1956-57 season is predicted by travel authorities. Increased winter vacations and the economy of "off-season" trips are the principal factors in the unprecedented rise in travel during the Fall and Winter months, say the experts.

Escorted Winter tours of Europe, for example, now are being offered for the first time by American Express Company. Six, six-week long Winter tours have been planned by the travel organization with stops at such fabled — and warm — places as Gibraltar, Seville, Madrid, Palma de Mallorca, Barcelona, Nice, Monte Carlo, Rome, Athens, Istanbul, Naples and Capri.

Guided by travel experts who know the countries, languages, and customs well, the tours probably are the most profitable way to see strange lands. In addition, they are a boon to the single traveler—the lone woman who may not wish to be completely on her own.

These special tours will leave on October 15, January 10, November 15, December 13, February 13, and March 27. But these Winter tours, unusual as they may be, are only one aspect of the increasing travel that is taking place during

the Fall and especially the Winter months. Skiing, for example, has become the favorite sport of 4,000,000 Americans and a billion dollar industry to boot. Thousands of skiers, reports American Express, the world's leading travel agency, soon will be heading for the Swiss, French, Italian and German ski resorts, not to mention the many thousands more who will slalom off for nearer places at home.

On the basis of present bookings, the travel service predicts the largest season yet for sun-lovers taking advantage of warmer climes in both hemispheres. The Caribbean, including the lesser known islands of the Lesser Antilles, undoubtedly will have the biggest season in its history in 1957.

Speedy air transportation has made this area south of the United States a haven for the one and two-week mid-Winter vacationist.

# Cats Host AA Power Canyon Friday

**THIS WEEK'S CO-CAPTAINS** are Senior Quarterback Mickey Ratliff and Senior Guard Gerald Zybura, both of whom have played important roles in the Wildcats' 3-0 record to date. Ratliff is light — 130 pounds — but a slick ball-handler and Zybura is a bulwark in a tough Cat line.

## Eagles Have Lost Only To AAA Dumas

By CHARLES DUVAL, JR.

Friday night's contest promises to be one of the best of the year for Wildcat fans. Littlefield High meets head-on with that highly-rated team from up north, Canyon's Eagles, in Seely Stadium at 8 p.m.

The Eagles were barely edged by Dumas last Friday night in a thriller, 19-12. Dumas has been picked by several sports writers to win District 1-AAA. Canyon has trounced Hershey, among others. With a host of fast backs and a heavy line, the Canyon eleven is tabbed as hard to stop.

Four hard days of practice for Coach Gene Mayfield's Cats has put the local eleven in shape for the non-conference affair. With Buddy Jones, Max Morris and Mike Greer in top shape, as well as reserve backs Bobby Cunningham and Ralford Light, the backfield is set. James Prestley will be the quarterback for its peak performance Friday.

The Wildcat line will be ready night. The game is rated a toss-up.

Co-Captain for the Eagle encounter are Gerald Zybura, a guard, and signal-caller Mickey Ratliff.

An idea of how balanced the Cat backfield is appears in the scoring columns, where Max Morris has scored 39 points for the year, Buddy Jones has 38 and Mike Greer has 37. Their total is 114 points, a 1 but four of the points scored by the Wildcats this year while chalking up a 3-0 record.

There are 16 bonus players in the American League with five of them on Detroit's young team. Cleveland has no bonus players.

## IT'S UP TO YOU

By Howard E. Kershner, L.H.D.

**REVOLUTIONARY** exile Carl Schurz had been in our country only six months when he wrote home (as quoted in the *Saturday Evening Post*):

"Here in America you can see how slightly a people needs to be governed. . . . Here are governments, but no rulers — governors, but they are clerks. All the great educational establishments, the churches, the great means of transportation, etc., that are being organized here — almost all of these things owe their existence not to official authority but to the spontaneous cooperation of private individuals. It is only here that you realize how superfluous governments are in many affairs in which, in Europe, they are considered entirely indispensable, and how the opportunity of doing something inspires a desire to do it."

"It is my firm conviction that the European revolutionists will drive the next revolution into a reaction merely through their lust for government, through their desire to improve things quickly and positively. Every glint into the political life of America strengthens my conviction that the aim of a revolution can be nothing else than to make room for the will of the people — in other words, to break every authority which has its organization in the life of the state, and, as far as is possible, to overturn the barriers to individual liberty."

Schurz was a wise young man when he wrote the above in 1852. His eloquent plea for strictly limited government and individual liberty was wise beyond his years and his time. Nothing is more urgently needed today.

## Amherst High Bulldogs Of 1956

**PICTURED ABOVE IS** the fourth in our series of area teams, with Amherst's Bulldogs in this week's spotlight. The Bulldogs face Springlake Friday night. Left to right in the picture are, front row, Manager Pete Chester, Keith Huggins, Keith Blair, Charles Schroeder, Raymond Kelton, Jim Melton, Welton McQueen and Andrew Pérez; second row:

Asst. Mgr. Tommy Davis, Mike Adams, James Rankin, Hubert, Jerry Gee, Joe Peterman, Joe Willard and Ledford Edgerton; third row, Coach Lamar Kelly, Jerry Wright, Don Gonzales, Ted Bill Adams, Jerry Polvado and Donny Bowman, Bill Stone, and wood Mayberry.

## Looking At Area Games

### Anton, Springlake, Bula Favored In Grid Clashes

By CHARLES DUVAL, JR.

Looking at the area games going to be held tomorrow night, two of the highlights is a non-conference contest between Anton and Whitharral to be played at Anton. Anton's record is one win while losing three; Whitharral has managed to stack up a 2-1 record up to this Friday night.

As Anton falls in Class A and Whitharral comes under Class B Anton will be favored over the Whitharral eleven Friday night.

At Amherst, another gridiron war is shaping up in preparation for the game with Springlake. Springlake is an yet undefeated while Amherst dropped its last game before a Class A and contest to Sulist, 13-0. This is a Class B school, and Springlake will probably keep their undefeated record this Friday night.

And to round out the week's tally of grid games, Seaman football will be at work at Bula Saturday as Seaman takes the Bulldogs on in a district clash. Bula is heavily favored to take the contest.

The following teams have open dates this week: Oton, Bula and Spide, both of whom will play the Mustangs and Seaman will play for a district rematch which will help decide the champs of

AAA. Sudan will take on Springlake in their own backyard for another district tilt which will probably decide the victor of District 2A. And finally Spede will meet Springlake, to play a district 6-man football clash. All these last games are due for Friday week.

These are our picks this week: **LITTLEFIELD - CANYON** — Too close for comfort — you pick this one yourself. Canyon's fighting made after Dumas spoiled its unbeaten record last week.

**SPRINGLAKE OVER AMHERST** — The Bulldogs will fight hard, but Springlake's Wolverines have too much speed, power and Jimmy Heering.

**ANTON OVER WHITHARRAL** — It figures to be close, but they're playing in Anton.

**BULA OVER SMYER** — Bula's on its way to another district championship.

SEASON RECORDS	
Springlake	5-0 140-28
Littlefield	3-1 118-58
Oton	3-1 112-81
Sultan	3-2 72-64
Whitharral	2-2 87-73
Bula	2-2 127-98
Amherst	1-3 31-91
Anton	1-3 53-91
Spede	0-4 35-114

### West Texas Favored Over Tech's Raiders Saturday

**LUBBOCK (Special)** — For the first time in many years, West Texas State will go into the Texas Tech game favored to defeat the Red Raiders here Saturday night.

In three games, Texas Tech has failed to post a win, while the Buffaloes have been unbeaten in as many starts. Tech has lost to Texas Western 17-0 to Bayler 27-0, and to Texas A&M 49-7. West Texas State's wins have been over University of Corpus Christi 39-6, McMurry 32-7, and Sul Ross 48-0.

With 30 lettermen returning, Coach Frank Kinsburgh has most of the Buffaloes who held Tech to a 27-24 win last year. Graduation was a lot kinder to West Texas State, whereas the Buffs lost a total of seven gridgers who had earned a total of 13 letters, the Raiders are missing 17 men with

42 letters. A pair of former District 1-4A gridgers will be in the spotlight as quarterbacks. They're Bibba Hillman of Berger, for the Buffaloes, and Buddy Hill of Lubbock, for the Red Raiders. Hill, slayed by a knee operation, hasn't played a lot for Tech, but looked so good against A&M, completing a touchdown pass to Ken Vukoy, that he's due to see more service against West Texas State.

West Texas State's last victory over Tech was in 1950, by a 23-11 score. This team is rated on a par with, or better than, that powerhouse, winner of the Border Conference and the Sun Bowl.

**WT-TECH FRESH PLAY** **LUBBOCK (Special)** — Freshman footballers of West Texas State and Texas Tech will meet at Canyon Friday night, Oct. 19.

## WRESTLING

Littlefield Sports Arena  
SATURDAY NIGHT, OCTOBER 13th

### TAG TEAM MATCH

Main Event

Guerrero vs. Mitsu  
Geigel VS. Tokyo Joe

Guerrero vs. Mitsu  
Geigel vs. Tokyo Joe

### Geigel-Guerrero Team Goes Against Mitsu-Joe Saturday

A thrilling tag-team tussle will headline the wrestling card at the Littlefield Sports Arena this week according to local wrestling promoter John Ussery. A pair of the fans' favorites will be pitted against two of their pet heavies.

The big card will be climaxed when Big Bob Geigel and ever-popular Gory Guerrero step through the ropes to oppose Tokyo Joe and his countryman, the Mighty Mitsu.

Geigel and Guerrero are two of the most popular wrestlers to ever appear in the local arena. Both were beaten last week, Geigel by Orton and Guerrero by Tokyo Joe, but neither was a clean cut decision.

Geigel had Orton going his way when a misguided blow meant for Orton claimed the chin of the referee. The stunned referee fell behind Geigel and Geigel tripped over the arbitrator with Orton lifted on his shoulders. The sudden weight of Orton's gigantic 256 pound frame fell flush on Geigel's shoulders as the two hit

the mat. When the referee recovered and saw Orton pinning Geigel he immediately called the three count giving Orton the final fall and the match.

In Gory's match with Joe, the popular Mexican flash was also on his way to victory when Joe ducked a drop-kick and Gory fell on his back momentarily injuring himself. Joe quickly took advantage of Gory's predicament and overpowered Guerrero for a three-count

to win the match. This week's tag affair promises plenty of excitement. It's one that's sure to please the fans and it will be the first tag-team battle to be staged here in quite a while. Guerrero will meet Mitsu in a one fall preliminary with a 20 minute time limit to kick off the lid of the card. Mitsu has appeared here twice before. The last time he was here he left the ring bleeding profusely after both Guerrero,

who was supposed to be Mitsu, was disqualified. It was a thrilling war, the fire for the main event. The flames will be more in the second of Geigel and Tokyo Joe another one fall, also booked for a 20 minute limit. The main event is the best two out of three, a one hour time

It takes 12 men to hold the reptile while he is being fed, and the feeding operation consists of a four-foot length of rubber hose with a funnel at one end. The hose is forced into the snake's mouth and is greased on the inside, to allow the food to slip down easily. The Dudley Shows will be here through Saturday.

### Yields Of 3,000 To 5,000 Lbs. Expected From Irrigated Crop

Lamb County's 1956 grain crop is moving at an accelerated harvesting pace, with average yields of 3,000 to 5,000 pounds per acre expected for most irrigated land. Termed as in "good shape" by County Agent Bill Kimbrough Tuesday, the 1956 irrigated crop is beginning to move into the elevators at a fast rate, with many farmers selling grain outright rather than putting it into government loan.  
The market over most of Lamb County is \$1.80 cwt at present, with some elevators offering as high as \$1.90 and some buying it at \$1.75.  
Dry land grain is only in "fair" condition, however, in most cases, with yields ranging from 1,200 pounds on down to 500.  
Early harvesting this year has meant that moisture content is high in many cases, R. L. Byers of Byers Grain and Feed of Littlefield said Tuesday that moisture content is generally running much

### Second Week Of State Fair Starts With Steers - Sooners

The second big week of the 1956 State Fair of Texas starts Saturday, Oct. 13, just as heavily loaded with fun and excitement as the first. The fair will run through Sunday, Oct. 21.  
The Texas - Oklahoma football classic, which will jam-pack the Cotton Bowl with over 75,000 frenzied football fans, will be played at 2 p.m. Saturday, to start the week off in a noisy fashion.  
And one of the fair's major special attractions, the Victor Borge show, will hold sway in the Cotton Bowl a week later, Saturday night, Oct. 20. Borge's record-breaking show, "Comedy in Music," had a sensational run on Broadway and since then has been smashing attendance figures on the funny-man pianist's national tour.  
Another entertainment highlight of the second week will be four free performances by Louis "Satchmo" Armstrong and his band Monday, Oct. 15, on the Magnolia Midway Stage. One of the Nation's top Negro football classics will be played Monday night in the Cotton Bowl between Prairie View A&M College and Tennessee State.  
Other special events during the second week will include the Rose Show Sunday, the State Fair Garden Club Award Tuesday, Women's Day program Wednesday, the Cake - Baking Contest Thursday, and high school talent contests Friday.

## Undetermined Origin

"Undetermined origin" they say.

It's a common phrase in news reports of a fire. In the charred and gutted shell of what used to be someone's home, it is sometimes difficult to figure out immediately where the first whisp of smoke curled up — where the first tiny flame licked out.

But given a little time, trained and experienced men can usually reconstruct the situation. A late party — people smoking — a cigarette that fell unnoticed among the sofa cushions and smoldered there. An open fire left burning — sparks that jump out on the rug or a piece of furniture. Over-size fuses in the fuse box — overloaded electrical wiring that burst into flame.

Whatever happened, it's past remedying. It matters only as a guide to the future. But to a fire victim, what matters most is the present.

Everything is gone: family heirlooms — cherished mementos — clothing, jewelry, furnishings that went to make up one family's daily life.

## DOWN MEMORY LANE

## Reservists May Attend Army O.C.S.

Army Reservists may now attend officer candidate school to become commissioned officers in the Army Reserve as announced at Alton Monday by Major General Lewis S. Griffing, Chief, Texas Military District.

The announcement followed a new Department of the Army policy which provides an incentive program for the advancement of young men and women in the Army Reserve. The program is particularly acceptable to high school students and post-service personnel.

To qualify, reservists must be 18-27 1/2 years of age at time of enrollment, in either enlisted or warrant officer grade, not on active duty, and possess a high school education or the equivalent. Prerequisites consist of basic military training and one year of satisfactory service in an Active Reserve status to include attendance at one annual field training period of two weeks duration.

For high school students there are various means to fulfill requirements and prerequisites which can be adapted from a basic plan. This plan concerns students aged 17 who will complete high school at age 18. Student enlists in the Army Reserve at age 17 and participates in drills and two weeks summer camp training he daily.

Upon graduation at age 18. Upon graduation he will have fulfilled most of the requirements and prerequisites. For example, he is a high school graduate, has completed one year of satisfactory service, and has attended one annual unit training period. After graduation, he will go on six months active duty for basic training and will be eligible to enter OCS upon completion of this training, having attained the required age of 18 1/2.

Upon graduation from OCS, in approximately six months, he will receive a commission as a second lieutenant and return home for assignment to an Army Reserve unit where he will serve as a commissioned officer in the Army Reserve.

In the case of prior-service personnel, the program will benefit veterans who have been active participants in the Army Reserve program. In many cases these veterans have fulfilled all prerequisites of the program.

Training will be conducted at either The Infantry School, Fort Benning, Ga., or The Artillery and Guided Missile School, Fort Sill, Okla. Female personnel will receive training at the Womens Army Corps Training Center, Fort McClellan, Ala.

Experimental tests recently have shown that steers fed the antibiotic, terramycin, ate less and returned and additional \$3.93 per head. In the test, the animals were given 75 milligrams of terramycin daily.

## Highlights and Sidelights From Your State Capitol

By VERN SANFORD  
Texas Press Association

By—VERN SANFORD  
Texas Press Association

AUSTIN, Tex. — W. Lee O'Daniel is back in the saddle again, riding the range for votes. This time it's his big bus and the Hillbilly Boys.

Twice refused a place on the general election ballot, "Pappy" is campaigning as a write-in candidate for Governor. He reports receipt of thousands of letters asking instructions as to how to vote "the write-in way."

First big bomb to be tossed by the former Democratic Governor was his endorsement of Republican Dwight D. Eisenhower for reelection as President of the United States.

Proof that O'Daniel means business is evidenced by the fact that he is advertising consistently by press and radio, statewide.

Other Campaigners — Texas strategists for Ike and Adlai will send fresh recruits into the field this week as campaigns enter the final month.

For Adlai, a "Democratic Victory Van," loaded with buttons, literature and speakers, was launched from Austin over the weekend. It will make a 30-day, 10,000 mile trek "to the forks of the creek."

Democrats for Eisenhower added a one-time Stevenson supporter to their crew. He is Johnston Murray, former Democratic governor of Oklahoma, now a Ft. Worth businessman. Murray, a long-time friend of Gov. Allan Shivers, speaks Spanish fluently, and will make speeches mostly in South Texas.

Resignations — James H. Blundell of Dallas, chairman of the Democratic Executive Committee for less than a month, has resigned. His reasons were both personal and business.

Succeeding Blundell is Jim Lindsey, former speaker of the House of Representatives and State Representative from Texarkana, now head of the Texas Good Roads Association.

L. C. Page, of Tyler, also a member of the committee, has resigned. He gave as his reason Stevenson's statement that he favored an end to the draft.

House Investigators To Meet — A loaded agenda awaits the House Investigating Committee meeting, beginning here Oct. 19.

Scheduled are: (1) Extensive inquiry into tide lands leasing procedures, as instructed by the Legislature; (2) Preliminary consideration of a report to be made to the next session on insurance companies; (3) A report on the committee's inquiry into absentee voting in Webb County; (4) Discussion of possible recommendations that powers of any future investigating committee be limited lest it be "used as a political tool."

Prison Expansion Urged — Texas Prison System is in for "serious trouble" unless it gets more money for buildings and salaries.

Gen. Mgr. O. B. Ellis warned that the prisons cannot continue to "stack men up the way they are now." Also, said Ellis, the system is understaffed by 58 guards, and lacks even one psychiatrist to deal with the increasing numbers of "mentally irresponsible troublemakers."

In an Austin speech Ellis gave an advance outline of the expansion program he will seek from the next Legislature. His proposed "bare minimum" budget: \$4-825,000 for new buildings and an \$870,000 increase for operating costs, including salaries.

Three Million Jobs Seen—Three million jobholders in the state by 1957 is foreseen by the Texas Employment Commission.

TEC also predicted steadily rising employment through the fall with a peak in December well above last year's figure of 2,861,000.

Even before school openings brought a bustling upsurge, non-farm employment had swelled to 2,901,500. Agriculture laborers totaled 273,600, which, despite drought, was 12,000 more than in 1955.

Business Record In Doubt — Economic experts are backing off from earlier predictions that Texas business in 1956 will top the 1955 record.

Retail merchants entered the fall months with the sales index off 8 per cent from a year ago. Automobile sales lagged 20 per cent.

Overall business activity for 1956 still is slightly higher than '55, says the UT Bureau of Business Research. But if the downward trends continue, hopes for a new record may be too optimistic.

Credit tightening has slowed, but not "seriously affected" Texas' rapid industrial expansion, says Dr. John Stockton, head of the research bureau.

Many Texas merchants look to a big holiday boom to bring up the year's average.

Washburn Verdict Reversed — The murder trial of Harry L. Washburn will have to be tried again. Texas' court of criminal appeals has reversed and remanded the Wacon conviction. Washburn has been given a life

sentence in the auto-bomb killing of Mrs. Helen Harris Weaver of San Angelo.

Defense attorneys contended the state prejudiced the jury with "fact-laden questions" to a witness who claimed 5th Amendment immunity.

Washburn said he hoped for a new trial in his home town, Houston.

Short Snorts — Number of patients confined in Texas mental hospitals dropped during the past year, despite an increase in the number admitted. Mental hospital rolls dipped from 16,445 in 1955 to 15,965 in 1956. But total number treated rose 1,321 in the same period.

Don't burn any trash until there is a rain. Texas Forestry Service warns. Tinder-dry woods and fields already have resulted in widespread forest fires.

"Wets" won out in three recent local option elections held in Tarrant, Moore and Gregg Counties, reported the Texas Liquor Control Board. This made a total of seven defeats for dry forces in elections held since June.

Others were in Potter, Gray, Dallam, Hutchinson and Moore Counties. . . . Men between 21 and 35 who want to be highway patrolmen may apply until Oct. 15, says the Department of Public Safety. Exams will be given after this month. Applications go to Chief W. J. Elliott, Texas Highway Patrol, Austin. . . . State cigarette taxes dropped in September, but increased liquor revenue more than made up the difference. State Treasurer Jesse James reported cigarette money down \$85,735 from a year ago, but liquor taxes up \$141,858. . . . A new law authorizing the Insurance Commission to judge competency of company management will be tested in appeals court Feb. 20. Third Court of Civil

## Lipstick Logic . . .

Somebody's gotta write a book about grandmothers. Because any resemblance between old a y's grandmother and the traditional one is purely coincidental.

We heard some of them talking the other night. One was was pretty worn down. She had kept little Mary for thirty-six hours while her parents went to a football game. It had been an active weekend. Another had her grandson overnight: "And do you know what? He woke up at six and wanted to ride his kiddie car outside. I took him!" Another said her grandson got out of bed begging for birthday cake and got it — for breakfast.

In our day, Grandmother was someone to respect if not fear. We had to be quiet at Grandmother's, not "meddle", and never, never be bad.

We've often wondered what makes grandparents such easy marks for second generation children. Do they have a bad conscience about having been stern with their own cherubs? Or they deliberately selfish in spoiling Junior so he'll be sure and love them as much as he does his own parents?

Young couples with no background of experience in discipline may be unduly stern with their youngsters — even as their own parents were with them. But they've got a day-in-day-out assignment, and living with a spoiled brat isn't nearly as entertaining as playing with one for three or four hours, then when he gets tiresome calling daughter to come take the little one home.

Today's grandmother has a job on her hands all right. She wants her own children to feel free to call on her at any time, but if she succeeds they're likely to impose. Then she has no life of her own. Yes, somebody's gotta write a book!

Appeals in Austin will hear the case brought by John L. Hammond Company of Dallas.

## W.O.W.s Hear R. N. Dossman, National Director

A meeting of the Littlefield Woodmen of the World Camp 3871, held Thursday, at the American Legion Hall, R. N. Dossman of San Antonio, Texas, addressed the members of the Camp and their families. Dossman is a National Director of the Woodmen of the World and State Manager of Southwestern Texas. He brought greetings from the Home Office of the Woodmen of the World in Omaha, Nebraska, complementing very highly the Littlefield Camp for its many and varied activities both in Camp work and community service. He also complimented W. L. Chapman, the District Manager of this area for the recent honor he was given when his picture appeared on the cover of the Woodmen magazine Chips. Dossman also made the official announcement to the Camp of the recent appointment of Bib Kirk as a Member of the Board of Directors. George Hine of Abilene, Texas, brought a brief message to the Camp. Hine is State Manager of Northwest Texas, and a frequent Littlefield visitor.

The Littlefield Camp presented Dossman with a western hat, referred to as a "Littlefield, Texas, Camp 3871 hat".

Both state managers were accompanied by their wives.

Ice cream, cake decorated with the letters W. O. W. and cokes were served to all the Woodmen families and friends.

Egg prices during the first six months of 1956 averaged 11 percent above the same period for last year while feed prices declined by 7 percent. It now appears that prices during the latter half of 1956 will be lower than for the same period a year ago. Extension Economist John McFarley gives two reasons—the nation's laying flock will be larger and tend toward a higher rate of lay will continue.

## Sand Hills Philosopher

Editor's note: The Sandhill Philosopher on his Johnson grass farm discusses sitting down as on subject on which he must be an authority.

Dear editor: I made a special trip into town yesterday to get hold of a newspaper to find out what my economic index was for this week. As I understand it, the government in Washington now knows more about whether a man is well off than he does himself and about every two weeks issues a set of figures showing whether the prosperity index is two points up or down, holding its own, etc., and while I have never been able to get a bank to honor my checks on the strength of a journal upward in the economic index, still I like to get those reports.

According to this one, the country is now at its highest peak of prosperity in history, and while the figures have the same meaning to me that the figures showing the nation was at its healthiest peak in history would have to a man in the hospital, still I've always contended there was an advantage in being busted during prosperity instead of a depression. Even if you aren't inside the stadium watching the game, there's some satisfaction in hearing the cheers of the crowd and imagining what's going on.

But don't get the idea that I'm complaining. I know there are people in Washington who say if I'd get up and go to work, I'd be better off, but that's because who ever said that doesn't know how much pleasure there is in sitting when you are. At the moment, I'm writing this sitting under a shade tree watching the month of October unfold, and if anybody in Washington thinks I'd be happier if I leaped on my tractor and started stirring up the dust, he either likes dust better than I do or he hasn't got a calendar. Furthermore, there are people who also say if a lot of government people would get up and go to

When we advocated the Board of Civic Development Littlefield the marrying of the nation, and that a "Widest Bachelor Contest" be annually, we overlooked one important suggestion: A set up especially to aid the and lonely who seek a mate.

We have an example need of such a program. We have just suggested, a toothless 250-pounder of a sailor from Naples, Italy, New York in search of a band.

"I'm a very strong and have great love for this and chuckled happily as she for the U. S.

Whether a man get up is a matter for him, he doesn't make any difference, there he's sitting on his farm or in a saved state Washington. And as for a country is concerned, it's as well off with some pigging. There's nothing wrong this, but where were you you read this?

**THE LAW**  
in Texas

the most mystifying of rules to the average driver relating to "Right of Way" at an intersection. In Texas, these rules are designed to understand the laws

regulating intersecting traffic, it is best to start off with the premise that all streets are of equal dignity, legally speaking. Traffic signs and signals may vary this rule somewhat, but when in doubt it is safest to assume that all drivers crossing your path have a claim to the right of way equal to your own.

Obviously, however, in many cases one driver or the other will be legally entitled to the right of way. When it becomes necessary to determine right of way in a particular situation, the driver who reaches the intersection first, or who is going to get there first, is ordinarily favored.

But when two automobiles are on equal distance from the intersection, that one approaching

from the other driver's right normally has the right of way.

Some intersections are known as "courtesy corners," having a stop sign or a flashing red signal facing each direction of approach. The first driver reaching the corner and coming to a complete stop will normally have the right of way over the other vehicles not already in the intersection. However, don't depend too much on the other fellow's courtesy, and be sure to keep a "proper lookout" and your car under "proper control," as explained in a previous column.

At intersections involving one through street and another street having a stop sign, a driver approaching the stop sign and coming to a full stop is ordinarily said to have the right of way over vehicles approaching on the through street but not already in the intersection.

However, this last rule must be qualified by saying that you should not proceed, cross or turn onto the through street until you can do so without interfering with oncoming traffic. In other words, if an approaching car will arrive within the intersection before you are completely clear, wait just a little longer. The same rules apply to entering a highway from a side road containing a stop sign.

Many drivers violate the rules of right of way covering left-hand turns at intersections. When turning left, you should always be on the inside (or center) lane, displaying the proper hand signals. You must allow all cars coming from the opposite direction, already in the intersection, to pass through before completing your turn. Even when the intersection is cleared, do not proceed unless other oncoming traffic is far enough away to be able to see your signal and slow down to allow you to turn with safety to all concerned.

Stay in the inside lane until your left-hand turn is entirely completed, and only then move gradually over to the right-hand lane if you wish. When turning right, stay in the right-hand lane at all times. Do not swing wide into the center lane, as to do so is unnecessary, unlawful and dangerous.

Many detailed rules and suggestions for safe driving are included in the official "Texas Driving Handbook" which is avail-

**Howard E. Kerahner, L.H.D.**  
**OUR economic aid program** was started to strengthen our friends. We expanded it to neutrals in the hope that, if we could not convert them to friends, we could at least encourage them to continue being neutral.  
How long before we shall expand it further in the form of aid to our enemies as bribery so they will not attack us? There is ample precedent for such action. Tribute to purchase immunity from marauders is an ancient practice. Known throughout history, it reached its most extensive development perhaps in the Danegeld which the English of the 11th and 12th centuries paid to purchase immunity from the Danes.  
This practice has always led to the conquering of those who engage in it. It may purchase temporary immunity but it leads to destruction. A sturdier generation of Americans coined the phrase "Millions for defense, but not one cent for tribute."

## Line Amendments Face Local Voters In November

**Editor's Note:** This article is from the Canlan Record is presented to inform County voters about the constitutional amendments they will be voting on November.

Voters will pass on nine amendments to Texas' much-

patched Constitution at elections this November. Eight of the amendments will be submitted to voters at the regular General Election on November 6 . . . and the ninth will be voted on at a special election on the following Tuesday, November 13, due to a snafu by the legislature in passing the election order. The amendments cover a wide

range of subjects, from permitting persons to be committed to state insane asylums on testimony of doctors or psychiatrists . . . without the requirement of a jury trial . . . to a lengthy amendment designed to unsmarl present state laws governing state college and university building funds. The single amendment which

will be submitted at a special election on November 13 provides for state assistance to needy individuals who are not otherwise covered by old-age pensions, Aid to the Needy Blind or Aid to Dependent Children. The amendment provides a limit of \$20 per month from State funds, to be matched by an equal amount

from Federal funds, for assistance to citizens between the ages of 18 and 65 who are permanently and totally disabled by mental or physical handicap and not feasible for vocational rehabilitation. It also provides that total payments from state funds may not exceed \$1,500.00 per year. Longest of the eight amend-

ments to be submitted at the regular General Election concerns state college building funds. The involved amendment provides, in general, for allocation of 3 cents of the 7-formerly collected for the Confederate pension fund to the various state colleges on the basis of enrollment; and provides for "the improved support" of the University of Texas and the A&M College system by permitting "broader investment of the Permanent University Fund in corporate bonds and stocks."

Senate Joint Resolution Number 2 proposes a revision of the Veterans Land Board and an increase of \$100,000,000 in the Veterans Land Fund. The proposed amendment would leave the Land Office Commissioner as a member of the Veterans Land Board, but provides for the appointment of the other two members of the Board by the Governor . . . relieving the Governor himself and the Attorney General of their responsibilities as Board members. It also adds another \$100 million to the Veterans Land Fund, increasing it from its present \$100,000,000 to \$200,000,000.

now required of all elected officials of the State also be required of appointed officers. Present law requires the oath of members of the Legislature "and all officers" but does not specifically require it of appointed officials . . . such as the Secretary of State and others. HJR No. 31 would amend the Constitution to provide that the Legislature may grant aid and compensation to persons who have been fined or imprisoned under laws of the State for offenses of which they are not guilty. The amendment would permit the Legislature to make amends in those rare cases ( few are on record) in which citizens have been unjustly imprisoned. Present law now makes no such provision. HJR No. 9 proposes that bail can be denied to a person charged with a felony less than capital who has been theretofore twice convicted of a felony. It is designed to clamp down on the State's habitual criminals who are now permitted to make bond while awaiting trial and, in many cases, commit new offenses while out on bail. The amendment provides that such third-time offenders may be held in jail without bail provided that they are brought to trial within 60 days . . . or longer if a continuance of trial beyond the 60-day term is obtained at the request of the accused. It also provides for appeal to the review of judgment under the Court of Criminal Appeals for statute.

### RODEO ATTRACTS 20,000

HUNTSVILLE, (Echo) — The performance of the Annual Prison Rodeo proved that the 25th show merited the title of "The Biggest Show of Its on Earth" before an estimated 20,000 spectators. The action was provided by riding of the convict cowboys mounted stock that was and tougher to handle than before experienced in the rodeo. Many of the spills narrow escapes came from the hooves and horns of onery bulls. The good riding was seen in

the saddle bronc and bareback contests, as well as some nasty spills. Calf-roping provided interesting action with some fast moving cow-punchers setting good time in the event. Three Sundays remain for this big annual event. Show-time will be at 2 p.m. on October 14, 21, and 28. Some preferred seats in Sections G, H, and I at \$3.75 each, tax included, still remain. Other reserved seats are \$2.40 each. For reserved seats, wire or write the Rodeo Ticket Office, Huntsville.

## Conservation To Be Stressed Area Men To Attend Water Meeting

By MORLEY B. DRAKE

South Plains men active in matters relative to the use and control of underground water will attend the twelfth annual convention of the Texas Water Conservation association in Fort Worth Thursday, Friday and Saturday, October 18, 19 and 20.

Among those from this section of the state who have announced that they will attend the Fort Worth meeting are Arthur P. Duggan, Jr., Littlefield attorney and outstanding authority on use and control of underground water; Tom McFarland, Lubbock, manager of the Hi-Plains Underground Water Conservation District No. 1, and Bill Broadhurst, hydrologist for the Hi-Plains Underground Water organization.

More Conservation Seen With the holding of this meeting, Texas will move into a new era of enlarged attention to the state's need for increased water, to the end that the state's entire economy may be sustained and strengthened. The entire state is interested

particularly in the welfare of the farmer and the rancher . . . the backbone of whatever affluence the citizens of Texas may enjoy.

Much Oratory Expected With several schools of thought in Texas interested in the use and control of surface and underground water there is every promise of a pyrotechnic display of oratory when the next session of the Legislature convenes in Austin in January.

Already various groups have given some idea of legislation that they hope to have go into law at the next session. Representatives of these groups will converge on Austin and present their views and desires.

Out of the meeting this month of the Texas Water Conservation association will come a good picture of what that organization believes is best for the various areas

of the state and the state as a whole.

Serves Many Years The Texas Water Conservation association was born in the administration of former Governor James V. Allred and moved conspicuously forward in the regime of the late Governor Beauford Jester.

The original purpose of the association was to discuss and analyze the multiple water problems of the state and to make recommendations to the Legislature and the Congress.

The organization serves the entire state, and the breadth of its influence and service is expressed in a list of the officers and directors.

A. F. Mitchell of Corsicana, is president.

Arthur Duggan is a director, and serves with the irrigation group of the directorate.

**It's Modern  
It's Clean  
if it's Electric!**

here's what the  
**J. W. PEARSONS, 510 ANGELO CIRCLE, CARLSBAD, N. M., say:**

They point out that a busy home requires husband and wife to share in the household duties. As Mr. Pearson says, "My wife is so busy with the children that I do a lot of the cooking. And I enjoy our electric range because it is quicker and a whole lot cleaner. Our electric range gives us a complete selection of controlled heat for any size pan, which is a big help for any cook." You'll notice the difference, too, when you start cooking electrically.

The Pearsons heat their water electrically, too. Mrs. Pearson says, "With a family of 5, including a baby, which sometimes requires as many as 3 washer loads of clothes a day, our water heater is economical, less than 10 cents a day to operate. It's completely safe, even for small children. In fact, we have put it in an open alcove in the hall." Notice in the picture, Mrs. Pearson fixes her daughter's shoe while daughter and mother obviously feel no wasted heat coming from the electric water heater. And that's because an electric water heater has no flame, and so is insulated on ALL sides.

#### Betty Crocker Scholarships Increased To \$106,000

Scholarships in the third annual Betty Crocker Search for the American Homemaker of Tomorrow have been increased to \$106,000 with three new awards. It was revealed today by General Mills.

The 1957 All-American Homemaker of Tomorrow, who will be announced at a banquet at the Waldorf-Astoria Hotel in New York City, May 2, will again receive a \$3,000 scholarship to the college of her choice. She will be selected from among 48 state winners and the representative from the District of Columbia.

This year for the first time, girls who rank second, third and fourth in the national finals, which will climax an educational tour of state winners to Washington, D. C., Colonial Williamsburg, Va., and New York City, will receive \$4,000, \$3,000 and \$2,000 scholarships respectively. All other state winners will be awarded \$1,500 scholarships and all state runners-up will receive \$500 scholarships.

The program is open to graduating senior girls in all high schools that are enrolled by Oct. 31. Each girl entered will take a written homemaking examination on Dec. 4. The test, prepared by Science Research Associates of Chicago and administered by the schools, will be the basis for awards until the national selections when personal observation and personal interviews will be included.

"The schools today are doing an excellent job in preparing our young people for their role as future leaders," declared Charles H. Bell, president of General Mills. "We want to help in any way we can. One of the problems is to instill in high school girls a realization of the vital importance of their role as future leaders."

Each girl who will receive a scholarship will receive a new Homemaker Progress Homemaking. The girl with the score in each school will receive a new award pin designed New York. Her name will be entered in state school of each state to receive a complete encyclopedia Britannica. All-American Homemaker of Tomorrow named in the first scholarship program Arnette of Enterprise, 1955 and Sandra Rafael, Calif., in 1956 is attending University in Marion, Ala., and is attending University in California at Davis, Calif. In the two years Crocker Search has
