In competition there, with the entire school pupils, of the city of Liverpool, he won the first prize in that city, for writing an essay on "The British Navy". He came to the United States, and enlisted in the United States Army in the First World War, but did not see overseas service. ## Troop 41 Receives Haynes Bond, Council's Highest Award

Troop 41, of Littlefield, received the highest honor bestowed by the Plains Area Council each year, the Haynes Bond Award, Tuesday night.  
 The award is given to the outstanding troop in the 22 county district to keep during the year. Scoutmaster Wayne Caldwell received the award at the annual meeting in Lubbock last night.  
 Sponsored by the Lion's Club, several outstanding boys in the fields of first aid, swimming, and other activities are to be congratulated.  
 Lubbock presented the War Bond which Mr. Caldwell received in 1943 and sent to be signed by Administrator.

Nimitz, commander-in-chief of the Pacific Fleet and Pacific Ocean, his deputy Vice-admiral John Henry Newton and their staff. Needless to say the value of the bonds in dollars is more than 50 times its face value, besides the inestimable value otherwise.  
 Troop 63 of Hale Center was awarded the bond in 1945. In 1946 Troop 5 of Lubbock was the council's best and in 1947 Troop 5 tied with Troop 8 for the award. Thus it comes to Troop 41 in Littlefield with an ever increasing significance.  
 Troop 41 was reorganized two years ago, following a few years of inactivity during the war years. The troop has 37 scouts, ranging from tenderfoot to First Class in rank, and from 12 to 15 years in age.  
 Wayne "Tramp" Brown is scoutmaster and Houston Hoover, assistant. Tom Hoover is institutional representative. E. G. Alexander, O. C. Salmon and R. E. Ater are committeemen.

Scoutmaster Brown also was a member of the Scoutmaster's panel during a question and answer period Tuesday afternoon. The purpose being to acquaint other scoutmasters with points which would improve their troops.

Total balance on hand as of Monday last, was \$209.56.  
 The total number of cases handled through the Red Cross since March 1, 1948, as reported by Mrs. L. M. Brandon, secretary, were 556, of which 337 were veterans; 132 were servicemen and 87 others.

### Attorneys Announce Intention To Amend Pleadings In Payne-Still Injunction Suit

Attorneys for the plaintiffs in the Payne-Still injunction suit announced Wednesday they intend to amend their pleadings and ask for a trial date within the next few days.

Judge C. D. Russell dissolved the temporary injunction against Dr. O. Still which Drs. C. E. Payne and Dr. Still, Jr., had obtained in an attempt to prevent Dr. Still from practicing in Littlefield or within a 50-mile radius.

A document entered into between the parties was the basis of the action.

The substance of Judge Russell's ruling was that "this writing (contract) was not an enforceable contract and therefore no basis for the injunction had been shown."

The temporary injunction had been granted by the plaintiff as the first step toward a permanent order which would have upheld what they claimed was a contract agreement between them and the defendant.

Attorneys for the defense are Grinnell Morehead of Plainview and P. Duggan, of Littlefield. The plaintiffs are represented by Dr. Still and T. Wade Potter of Littlefield and Crenshaw, Dupree and Lubbok.

### County Fair To Be Revived

Efforts for revival of the Hockley County Fair for the first time in 15 years appears likely this fall, according to recent statements from county officials. The fair association and rodeo association have purchased 216 acres on the route of the proposed new highway south of town and an attempt is being made to have ready for a renewal of the event.

### Rotary Clash Scout Benefit

There was a questionable, 15-minute end of the Lions-Rotary basketball game Tuesday night. But one thing certain is that the Boy Scouts received \$65.10 to help up their bus. Other than that, it probably doesn't really matter what they were playing.

### Loyalty Grove Has Regular Meeting

Loyalty Grove No. 2178 of the Supreme Woodmen Circle met Tuesday night, February 22, at 7:30 o'clock in the American Legion Hall.

A study of the new 1949 Ritual was held by the Grove President, Mrs. Tula Taylor. The second meeting of each month will be used for this purpose until the new Ritual has been thoroughly learned. Several changes have been made in all Ritualistic work. All officers and members should attend these meetings.

Final plans were completed for those attending the State Convention, from Littlefield. The dates for the convention which will be held in Galveston have been changed from March 14-17, to March 13-16. Members planning to make the trip are Mesdames Tula Taylor, president; Lola E. Adkins, corresponding and recording secretary; Lorene Banks, second vice-pres.; Lorene Perkins, treasurer; and Lois Sinclair, team character, Remembrance.

Mrs. Taylor is State Outer Sentinel and Mrs. Adkins is Delegate from the local grove. They will leave Littlefield Friday, March 11.

A grove inspection on the work of the new Ritual will be held in Littlefield by a national officer, soon after the Convention closes.

Tuesday, March 8, 7:30 p.m. is the next meeting night.

The capacity crowd had a million laughs and the way some of the players were moving around Wednesday morning most of them must have received almost a million sore muscles and spots. An exceedingly slick floor made footing treacherous with only a slight bit of imagination can't you picture Jack Christian, Doug Howell and Rev. Carter McKemy pouncing on the ball at the same time.

### City Takes Delivery of Garbage Truck

The City of Littlefield took delivery Monday of a new garbage truck to replace one in use for some time.

This truck was purchased from the Hewitt Chevrolet Company the latter part of December.

ONLY THE BRAVE PROTEST THE FARE . . . But in this instance it appears to be doing little good. A husky Rio de Janeiro, Brazil, cop is doing some vigorous necking here with Evandro Casato, one of 24 students of the National Union arrested in protest riots against a planned increase in Rio car fare. Three street cars were stoned and set on fire by the demonstrators, who, police said, were members of the young Communist league. All were released after questioning.

### Hart Camp News

#### FIRE DESTROYS HOME

Last Thursday night the Bullard home, southeast of Hart Camp, burned completely to the ground when a kerosene stove exploded, leaving the family of nine with nothing but what they were wearing when it happened. No one was injured, but the house was a total loss. The family stayed in the Oliver home until they were able to secure a house over in the Spade community, where they will work for Claborn Kesey. Mr. Bullard is a widower, his wife having passed away some three years ago. Contributions poured in, clothing, money, bedding and anything that would help them. The Womens Missionary Society of the Hart Camp Baptist Church, gave them a kitchen shower Monday. Contributions were even being taken up at the radio station.

#### NEW FAMILIES

Four new families have moved into Hart Camp, during the past few months, from Knox City Texas. They are, Mr. and Mrs. Edwin Oliver and Kerwin, Mr. and Mrs. W.E. Russell and family, Mr. and Mrs. Buster Wells and daughter, and Mr. and Mrs. Dan Puckett. Also, Mr. and Mrs. Bob Green, and Mr. and Mrs. Croft are newcomers to our fair community.

#### TOUR CAVERNS

Billy Frank Johnson went with Mr. and Mrs. Jim Paul Parks to Carlsbad Caverns, in New Mexico, over the weekend. He said that they enjoyed their tour through the caverns even if it was a six and a half mile walk. He also said that the caverns were quite well populated for short periods, as sometimes like 1500 people went through them while he was there.

Mr. and Mrs. Paul Teale, their daughter, and Mr. and Mrs. W.V. Douglas, all went to Carlsbad, N.M., last week to visit with Mr. Teale's mother.

Wanda White, The Spade writer spent the night with Peggy Ann Timmins Saturday night and went to Church with her Sunday morning.

#### GOOD ATTENDANCE

The Baptist Church had an attendance of about 44 for the preaching hour, Sunday morning, and enjoyed a good Sunday School lesson even if the attendance was smaller than was for the preaching hour. Rev. Charles Vanlandingham, and his son Travis enjoyed dinner with the H.R. Monroe family, and in the evening took some of the contributions to the Bullard family. So far as I know, one from Hart Camp attended the East Zone Meeting, held at the Jane's Chapel, church.

#### ODDS N' ENDS

It kinda looks like some of these farmers are going to have to quit resting and get down to brass tacks now as the weather has been kind as to dry most of the land to where the farmers can begin listing this week. A few have already started and does that ground look good after they finish, so black, damp and rich looking, compared to the dry stuff they turned up last year.

Its no trouble to make the listers shed either, or at least we haven't been having any trouble that away. The only trouble this coming year will be keeping control of the cotton and feed plants. With all the moisture we've been getting and the soil as rich as it is, why the cotton plants will soon get to be young trees, and the weeds? Thorn bushes of course.

WALLOWS IN MEDICINE . . . Taking his medicine with obvious relish is five-year old Kenneth A. Curtis, Jr., who is suffering from nephrosis, a kidney ailment. A doctor prescribed watermelons as a possible cure.

### City Lets Contract For Pipe Hauling

At a City Commission meeting Monday morning, as announced by Mayor A. C. Chesher, final contracts were let on taking up the remaining water pipe at Granada, Miss., which was war surplus materials, purchased by Littlefield sometime ago.

A contract was let to Bell & Messer, they being lowest bidders, to take up 17,000 feet of pipe at Granada, and load it on the railroad. This work should start within a week, according to Mr. Chesher, who also reported that contracts were made at the same time for taking up and hauling pipe from Camp Wallace, near Galveston, Texas, to Littlefield. This pipe was also purchased from the Government sometime ago. Contract for taking up the pipe was let to Mr. Irons of Arlington as low bidder, and to L. M. ## BULL LAKE PHILOSOPHER HAS BEEN STUDYING THE RUSSIAN PROBLEM, REPORTS HIS ANSWERS

**Editors' note:** The Bull Lake Philosopher on his Johnson grass farm on Bull Lake seems to be in a solemn mood this week. He'd probably be as well off worrying about the state of his own farm instead of the world but somebody else can tell him, not us.

Dear editor:

For months now I been neglectin my planning for spring planting just to study the Russian situation, combin this area thoroughly for every newspaper that turned up, even in yours, as I was desperate to figure out what the trouble is, and after considerable meditation and reflectin I have come to the conclusion that while nobody knows what's happenin, Russia is out-smartin us for the time bein, in a diplomatic sort of way.

That is, we don't know what Russia is gonna do, don't even know what we're gonna do, but

Russia knows what we're gonna do and herself to boot.

That is, we got different systems. Before this country could declare a war, we got to think it over and debate it in congress and find out how everybody feels about it, which is a good thing, but in Russia it's different. Over there the people can wake up some morning thinkin about spring plantin and turn on their radios and discover they're at war. Just one man or two or three at the most, has to make up his mind over there.

Russia knows, for example, that we ain't gonna start no war. We ain't gonna attach nobody unless they jump on us first. But Russia ain't got no such rules.

For that reason Stalin figures he has a marked deck and is playin the game like he pleases. For example, there ain't been a newspaper editorial writer or a radio commentator or any other statesman yet who can explain to me why, if the United States wants to haul food into Berlin, which we captured, from a hundred miles away, it has to do it by airplanes at

the risk of American lives instead of haulin it in by truck or train, just because Russia says the ground belongs to her. I'll admit after weeks of careful study and thought on this problem, at the neglect of my entire farmin program, I can't figure it out, and I haven't found anybody else who can tell me why this country can't just load up some trucks and tear out for Berlin. It seems to me it would be a good opportunity to find out who's bluffin, and I'll bet my next year's crop against next year's loan to England that Russia wouldn't start no shootin war, and if she did, now's a better time to find out she means bullets than later on. But I'm sorry to say this country seems to be bogged down in diplomatic manuevers which don't mean nothing to you and me, although none commentator did hint this country might, if driven to it, stiffen its backbone and take the extreme step of ignorin for six weeks a Russian diplomat in Washington, not even invite him to tea parties, to teach his country a lesson.

It's out of my province, but if you ask me, this is a good time to throw away them diplomatic top hats and silk gloves and polite sneakin around and use hard common sense. There ain't nobody left to fight but Russia, if we have to fight her, which I doubt, now's the best time on earth to find it out. If a man is bent on causin trouble, I'd rather find it out while he's out of breath than after he builds up his strength and resources by hoggin half my farm.

Yours faithfully,  
J. A.

### First Picture of New De Soto

The brilliantly-styled new line of DeSoto cars will be displayed for the first time by De Soto-Plymouth dealerships on Saturday, March 5. Representative of the entire line is the 4-Door Custom sedan shown above. The De Sotos have clean, flowing lines; increased roominess inside; better visibility all around the car; a more powerful engine; and scores of other improvements in comfort, safety, and convenience.

### New 1949 De Soto To Be On Display Littlefield Motor Company March 5

Completely new from bumper to bumper, a brilliantly styled new line of De Soto cars will be displayed for the first time at De Soto-Plymouth dealerships, the Littlefield Motor Company, Saturday, March 5, at their showrooms on West Second Street.

The new De Sotos were built to take advantage of all the beauty of modern design without sacrificing a single feature of comfort, safety, or convenience. The cars have a longer wheelbase, so that passengers ride cradled between the axles, yet over-all length has been slightly reduced. Seats are much wider, yet over-all width of the car is less. No headroom has been lost, yet over-all additional front seat leg room has been increased.

The result is a car that is far roomier inside, where space is needed, yet easier to park, garage and handle in traffic because of elimination of unnecessary bulkiness outside.

Additional front seat legroom has been secured by recessing the right side of the instrument panel and by moving the heater under the hood, out of the way.

The De Sotos have clean, flowing lines and a long, low look, accentuated by handsome chrome trim that also protects fenders and body from scrapes and dents. Fenders can be quickly removed for economical repair and are designed so that tires may be changed and chains put on with ease.

The De Soto Custom line includes a 4-Door sedan, club coupe, convertible, Suburban, and 8-passenger sedan. The De Luxe line comprises a 4-door sedan, club coupe, station wagon, and Carry-All sedan, a brand new idea in motor cars. The rear seat can be quickly and easily folded flush with the floor, providing an amazing amount of extra luggage and utility space.

From where I sit... by Joe Marsh,

### How's Your Listening Time?

Buck Howell and I were in Balle last week. Dropped in at Bob'siner where some friends were sitting around talking about whether to sell hogs now or wait.

Buck plunges right into the discussion. He's lecturing away when suddenly they all stand up and start stomping their feet like it was an Indian war dance.

I'm flabbergasted. But Buck looks sheepish and explains, Guess I was talking again, when should-of been listening. When a person's talking time gets out of

line with his listening time around here, the gang reminds him by standing up and stomping."

From where I sit, that's a good system. Everyone has a right to his opinions—but others have a right to theirs, too—whether it's deciding between to sell or not to sell, apple pie or cherry pie, or a glass of mellow beer or cider. Life's more interesting that way, and hang it if you don't sometimes learn something!

Many people condemn themselves to a life of needless fears and apprehensions about a "heart condition." Actually the heart is a wonderfully reliable organ, one that will render long and faithful service. But if nagging suspicion and worry haunt you — see your doctor! In many cases these fears are groundless, and relief from them is no farther away than your doctor's office. And if his examination should disclose something wrong — you will be far better off for having caught the condition early. Remember that even with a weakened heart you can usually lead a happy and useful life.

Cotton Acreage May Reach New Record

1949 will be a big year, the biggest ever, in South Plains cotton acreage according to H. I. Kiefer, Lubbock Avalanche-Journal Staff writer, who says crop prospects never have been better. Most observers expect about 3,000,000 acres with 2,500,000 regarded as the minimum cotton acreage. This is based on weather thus far and more moisture later.

Right now, soil and moisture conditions are as good as at any time in history, season considered, on the South Plains. The sub-soil, which was powder-dry a few weeks ago, now has a good reserve moisture as a result of recent rain and snow.

All observers agreed that accurate estimates of acreage are impossible at this time. Planting plans will be tentative and subject to drastic changes until farmers actually start putting seed into the ground.

"Then they'll plant the crops which, in their opinion, will be most profitable," Don L. Jones, superintendent of the State Agriculture Experiment Station in Lubbock, commented. "Smarter farmers don't exist than those of the South Plains."

The biggest uncertainty as to acreage is was agreed, is the question of what may be done in Washington about proposed support prices for grain sorghums.

Last year the acreage in cotton and sorghums on the South Plains was about the same. If sorghums are given supports, that ratio probably will be maintained this year. If supports are not approved, much land will go into cotton which otherwise would be devoted to sorghums.

But Jones, in particular, thinks the sorghum acreage will be large, regardless of what may be done about support prices. Much of it, he predicts, will be used for increased livestock feeding on the farm.

"South Plains farmers aren't likely to go too far overboard for any crop," he remarked.

But with the very best of inducements for sorghum, he expects cotton acreage to be "at least as large as last year."

Other unpredictables also are likely to have important bearing upon the extent of the acreage planted in various crops.

CROSSES POLE... First Lieut. Margaret C. Flynn, Philadelphia nurse now serving with the air force in Alaska, has won the distinction of being the first woman ever to cross the North pole. She went along in a B-50 bomber.

## Farmers Warn Legislature To Go Slow On Water Plans

News from Austin says that Texas dirt farmers are warning the Legislature "not to get the cart before the horse" in plans to lick the state's critical water shortage.

This water shortage loomed as the top agricultural problem at the fifth annual session of the Texas Dirt Farmers Congress.

Conservation of water should come before more state control, said Max Rotholz, Gonzales rancher.

The farmers called for a state-wide program to erect river dams, recharge ground water and develop surface water storage. This program would be administered by water districts, corresponding to soil conservation districts.

Rotholz urged the Legislature to go slow on plans to control water rights. He referred to a bill now before the Legislature to revise the surface water code. Two other water bills are before the Legislature. One would elect a board of directors to control underground water rights in districts. Another would authorize a Texas water conservation program fund up to \$200,000,000 to be used to help finance water conservation projects.

Rep. Louis J. Ivey of El Paso, told the Congress, "I'm afraid of legislation proposed to chuck out the window all the state's water rights. Most of them have been acquired by purchase and should be protected."

Gov. Beauford Jester told the Congress:

"We should not let industrial progress unbalance our state's economy and social status. Business and agriculture in Texas complement each other, have many mutual interests and should advance together."
