

JUNIOR CHAMBER OF COMMERCE TO BE ORGANIZED IN LITTLEFIELD

Beautification Of Highway Is Suggested

County Chairman Is Proposed by State, C. of C. to Act

Planting of Trees and Shrubbery Is Part Of Program

Roadside improvement and beautification in Lamb County will be discussed by the directors of the Littlefield Chamber of Commerce, at an early date.

One of the outstanding objectives of such a program will be to make the highways of the county attractive to out of state visitors and tourists. Nicely improved highways leave a favorable impression, it is pointed out.

W. B. Holden, advisor for the Roadside Council, State Highway Department, with offices in Lubbock, visited the offices of the Littlefield Chamber of Commerce Tuesday and conferred with E. C. Cundiff, secretary.

Mr. Holden asked the Chamber of Commerce to appoint a county chairman to assist the Highway Department in improving the appearance of the highways through the county and maintaining them in an attractive way. Planting of trees and shrubs is suggested.

Announces for Sheriff's Office

Sheriff Sam Hutson, resident of Lamb County for the past 17 years, has announced his candidacy for reelection.

Mr. Hutson's formal announcement follows:

"I am again making the race for sheriff of Lamb County. Mighty little I can say or promise to the voters as you all know me, and I know the people of Lamb County whom I represent. The only promise I can make is that I will do the best I can, I feel that I can be of more service to Lamb County at the present time than ever before, I feel that I know the conditions of the county and how to deal with the problems that confronts the people and mostly with juvenile delinquency and with the youth of our county. A good sheriff or a good peace officer can be a help to any county, or he can be a detriment. I am willing to leave that to the voters. When my time comes that I cannot be of service and can not accommodate the people that I represent then you won't have to defeat me, I will volunteer and quit. If you reelect me I will assure you that I will appoint deputies in different parts of the county that will be honest and sober, and we will stay on the job. Any time we can be of service to you let me know. Appreciating your vote and influence the coming election, I am.

Respectfully yours,
SAM HUTSON.

Clarence Davis Outlines Candidacy

Clarence Davis, resident of Lamb County for the past 11 years, and in the service 44 months, having been discharged January 10 last, has announced he will be candidate for the office of Tax Assessor-Collector of Lamb County. His formal announcement follows:

"To the Voters of Lamb County: 'I have decided to make the race for Tax Assessor and Collector of Lamb County. I believe I am fully qualified in every way to perform the duties as your Tax Assessor and Collector. 'I am 30 years of age, and have lived in this county for 11 years. I graduated from Amherst High School and then took a business course. I worked part time in the Tax Assessor and Collector's office when Judge I. B. Holt held that office and have kept books for three different gins in this county.

"On January 10 I was honorably discharged from the U. S. Marine Corps with which I have served for the last 44 months, with two tours of duty overseas.

"I can assure you that if elected I will do my very best to make you a good and efficient Tax Assessor and Collector. If you can see fit to give me your support and influence, I will assure you it will be greatly appreciated."

Urges on Everyone To Get Behind the Drive and Help

In an interview with G. M. Shaw, county chairman, Wednesday, he stated: "The Victory Clothing Drive is dragging, and it seems that pressure will have to be put on to make residents of the county realize the fact that the people in the war torn countries are starving and freezing to death."

"Last year Lamb County shipped a solid car load of clothing. This year we are only asking that one garment from each member of the family be donated; and I am urging on everyone to bring in your used clothing to your nearest receiving station. At Littlefield the Red Cross office and post office are receiving stations; at Amherst, the school house and the city hall; at Sudan, the city hall and school house; and Springlake, Spade, Fieldton and Hart Camp communities the school buildings are receiving stations."

The program has been extended to February 20, according to the county chairman, who urges that "everyone please get in behind this drive and let's put Lamb County over the top."

Oddfellows Enjoy Social Thursday

The Independent Order of Odd Fellows and Rebekahs met Tuesday night in an old fashion get together. There was nothing formal in the whole affair, just plain folks, with an old time air of friendship and fun.

Gems of Thought DUTY

Duty is carrying on promptly and faithfully the affairs now before you. It is to fulfill the claims of today.

—GOETHE.

Consciousness of right-doing brings its own reward; but not amid the smoke of battle is merit seen and appreciated by lookers-on.

—MARY BAKER EDDY.

The duty of man is plain and simple, and consists but of two points; his duty to God, which every man must feel; and his duty to his neighbor, to do as he would be done by.

—THOMAS PAINE.

The path of duty lies in what is near, and men seek for it in what is remote. The work of duty lies in what is easy, and men seek for it in what is difficult.

—MENCIVS.

The truth is, one's vocation is never some far-off possibility. It is always the simple round of duties which the passing hour brings.

—J. W. DULLES.

There is no mean work, save that which is sordidly selfish; no irreligious work, save that which is morally wrong; in every sphere of life the post of honor is the post of duty.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion, which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

Prayer service, Wednesday, 7:30 p. m.

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses.

Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by publisher.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Lamb County Leader will be gladly corrected upon being brought to the attention of publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

We Thank You

We sincerely appreciate all the friends that have stood by this paper, the Lamb County Leader, throughout the years it has functioned as a newspaper. Both advertisers and subscribers have been loyal and faithful. To them we are largely indebted for whatever success we have achieved. We are grateful and we take this means of expressing our gratitude.

Very few individuals, enterprises or institutions can succeed without friends. Life would be a cold, stark thing without friends. Most of us would fail if it were not for friends. It follows then that we should appreciate good, true and tried friends and should express feelings of gratitude to these friends. Some have been subscribers or advertisers ever since the Leader began going into the mails. Their names have appeared on our books year after year. Others have followed their example as they moved into our community or as they discovered the value of this newspaper as a news dispenser, as an advertising medium or as a community booster.

While we have kept our old friends, we have also made many new friends which are supporting us loyally. All this heartens us in our efforts and spurs us to greater endeavors towards the making of a better and better newspaper. We want to continue to merit your approval and support.

It is no small task to produce a newspaper, week after week, that the community is proud of and that performs a continuous and growing job of championing its interests and recording its achievements. Again at the beginning of a year we gird our loins and set forth to do the job right.

At this season of the year a large number of subscribers give us their renewals and many more come to us as new subscribers. We welcome all these both old and new to the reading of the columns of the Leader during 1946. We suggest that you make a habit of reading all of the columns of the paper from A to Z. You will find front page news, society news, school news, church and lodge news, farm and ranch information, items of interest concerning county and community, state, national and international affairs. You may find editorials, discussions of important questions, and advice on problems. You might even get your picture in the paper or make the front page if you do something desperate or remarkable.

Tiring of news turn to the advertisements. There you will really make

discoveries. Often you find bargains, get good suggestions and actually save money. Modern advertising is a real art and we claim for the Leader a full share of success in that line. Read all the ads and be able to buy wisely.

It takes a good deal of effort, both brain and brawn, to get out a paper, however easy it may seem to an outsider. But we are glad every one of us, on the Leader force, to do all of it in order to please our friends.

Hope all of you have a prosperous year and that you get value received and more for all you invest in subscriptions and ads with the Leader.

Also, we want to thank the many who have patronized our job printing department. The Leader has been exceedingly busy during 1945 turning out the printing needs of a large group of people. These good customers have come back for more and more. Let the good work go on.

Again we say, THANK YOU to all our friends.

GOOD-BY, GI

This poem has been printed on post-cards and mailed to thousands of Americans. Written by England's famed author and Member of Parliament, A. P. Herbert, it first appeared in the London "Sunday Graphic."

Good-by, GI — Goodby, big-hearted Joe.

We're glad you came. We hope you're sad to go.
Say what you can for this old-fashioned isle;
And when you can't — well, say it with a smile.

Good-by, GI — and, now you know the way,
Come back and see us in a brighter day,
When England's free, and Scotch is cheap but strong,
And you can bring your pretty wives along.

Good-by, GI, don't leave us quite alone,
Somewhere in England we must write a stone,
"Here Britain was Invaded by the Yanks,"
And under that a big and brilliant "Thanks."

—A. P. HERBERT

TAX QUIZ

By W. A. THOMAS
Collector Internal Revenue

1. Assuming I had enough income in 1945 to be required to file a declaration, is there a penalty for failing to file or pay the tax due on a declaration? Yes. The penalty is 5 per cent of the amount due and unpaid, plus one per cent for each additional month—the total penalty not to exceed 10 per cent of the amount unpaid.

2. Is there a penalty for estimating my tax too low? Yes, but only if you underestimate your tax by more than 33 1-3 per cent if you are a farmer, or by more than 20 per cent if you are not a farmer.

3. How much is the penalty for underestimating? The penalty is 6 per cent of the difference between your estimate and the correct tax (but not to exceed the total difference between your estimate and 66 2-3 per cent of the correct tax if you are a farmer, or the total difference between your estimate and 80 per cent of the correct tax if you are not a farmer).

4. Suppose I filed my 1945 declaration last March but now find it is underestimated by more than 20 per cent. Can I avoid the penalty? Yes, by filing an amended declaration.

Form 1040-ES, or your annual return, Form 1040, by January 15 and correcting the underestimate.

5. Suppose I based my 1945 estimate on my actual 1944 income. Does that excuse me from the penalty for underestimating? If you based your estimate on your actual 1944 income and figured the tax at

1945 rates and exemptions, there will be no penalty.

MEMORIAL SERVICE HELD AT ABILENE CHRISTIAN COLLEGE

Don H. Morris, president of Abilene Christian College, Abilene, Texas, has announced that the school will hold a memorial service for its 37 ex-students who lost their lives while in the uniform of their country, during World War II. Time of the service is set for 7:30 p. m., February 5, and will be held in Sewell Auditorium on the ACC campus.

The men, whose memory will be honored, are as follows: Elbert Alvis, Joe W. Boyd, J. W. Burns, Raymond Burroughs, Ray DeBusk, Dan Finch, Ted Hale, Edwin W. Hampton, Harold Haun, Freeman Holly, W. Robert Hornbaker, Albert Hunter, C. W. Johnson, R. B. Kendrick, Robert King, Emmett Lee, Dane Lovelace, John Middleton, Glen E. Moore, John D. Moore, Bruce Munday, Wyatt Oliver, Homer Osburn, Austin Parrish, Earl Proctor, David Pursch, Reginal Reynolds, Henry Roberson, David Rose, Charles Scarborough, Gene Allen Scruggs, Paul Sherrod, Jr., Will Smith, Hulen Stromquist, Charles Yates, Gene Young, and Nick Young.

The program will consist of songs by the ACC A Cappella chorus; prayers by James Cox, president emeritus of ACC, and Paul C. Witt, head of the science department of ACC; reading by Major Landon Hill, former student in ACC; and addresses by Chaplain Jack Fogarty, returned veteran now enrolled in ACC, and President Don H. Morris.

War Bonds to Be Known As U. S. Savings Bonds

War and Victory Bonds will now be known as United States Savings Bonds, Nathan Adams, chairman of the Texas Advisory Committee, Savings Bond Division, U. S. Treasury Department, said today in announcing that the program for selling government bonds and stamps will continue.

He added, "We can be sure that these bonds are still the best and safest investment in the world, and if we consider only one benefit derived from the war financing program, this being the habit of saving, it would merit the continuation of the program."

Formation of the committee was decided upon as a result of the thousands of requests from employee groups, industry, and the general public, all asking that the sale of U. S. Savings Bonds be continued following the close of the Victory Loan Drive.

The chairman added, "The benefits of the war financing program are many, and in addition to creating the habit of systematic saving, it taught many of our citizens the value of personal security, and has helped combat the rising inflation."

Favorable reaction to the continuation of the savings bond program is reflected in letters received by the state headquarters from employers throughout the state of Texas. The same reaction to the program has been found throughout the nation in a survey conducted by the American Institute of Public Opinion (Gallup Poll).

Secretary of the Treasury, Ferd M. Vinson, said recently in addressing employers and employees. "I am pleased to tell you that the Treasury will still issue and sell savings bonds. As both management and employees have enthusiastically endorsed the continuation of the payroll savings plan, we are urging all companies to facilitate the sale of bonds to their employees through this convenient pay-as-you-go method. The bonds and stamps will also continue to be on sale in most schools, banks, post offices and other issuing agents."

SIDELIGHTS FROM WASHINGTON

By CONG. GEO. MAHON

I think the following regarding the chances for heavy export of surplus American cotton will interest West Texans:

Last September, during a conversation with Lt. General Lucius Clay, U. S. Deputy Military Governor of Germany, I learned to my surprise that plans were being considered to permit a revival of the synthetic textile industry in Germany but that no definite plans were under way to permit a revival of the German cotton textile industry.

I urged upon General Clay that this plan be reversed and that the utilization of American cotton by Germany be encouraged and that the synthetic industry—capable of quick conversion to war—be discouraged. General Clay was not unfriendly to the idea.

Later in Washington I went to the White House and presented the matter to President Truman, and thereafter to Secretary of State Byrnes and Secretary of Agriculture Anderson. Other members of Congress joined in the effort.

My point was that we should encourage the purchase and use of surplus American cotton not only by Germany but also by Japan, and in fact, all nations that might afford a market for American cotton.

The President and Secretary of Agriculture Anderson and their assistants have worked diligently on the idea and as this is being written the chances are that an early announce-

ment of considerable success will be made.

If these plans for the disposition of surplus cotton abroad work out, and they have already worked out in part, it will mean millions of dollars to the cotton growing South, particularly to West Texas where shorter staples are grown and a large part of the surplus exists.

It is too bad that American textile mills are not doing a better job of providing badly needed cotton fabrics. But there is no danger of a shortage of raw cotton for American mills.

Tex Easley of the Associated Press asked me the other day what I thought of the proposal of OPA for a ceiling price on the 1946 cotton crop. I branded the proposal as an unwarranted and unjust attack on the cotton grower and told him of my efforts in opposition to the plan.

There is no possible justification for ceiling prices on commodities of which we have vast surpluses, such as is the case with raw cotton. We may have as of August 1 a carry over of American cotton of as much as 9 million bales. We need to bend every effort toward holding up the price of cotton, not beating the price down by OPA threats. Fortunately, we have provided by law for a floor or support price on cotton of 92 1/2 of parity for the next two years. But the support price is not adequate because in determining parity the tremendous increase in farm labor costs are not fully considered.

The OPA threat of a ceiling of 24 cents per pound is misleading because the 24 cents is for 15/16 middling at the mills. The ceiling on some of the shorter staples and lower grades at points remote from the

mills would be little more than 1/2 the top ceiling price announced.

Some of us in Congress who are interested in this vital matter have met with Administrator Bowles of OPA and the Secretary of Agriculture and requested that they issue a public statement to the effect that no ceiling prices would be fixed on the 1946 cotton crop. To date our request has not been granted. The mere threat of ceiling prices on raw cotton is damaging to the cotton grower.

Those who have had no opportunity to investigate the proposed plan for ceiling prices on raw cotton, perhaps, do not realize the extent of the injury that would be done the cotton grower should such a plan actually go into effect. Moreover, the red tape and confusion involved in trying to put such a program into operation would be intolerable. We are determined to defeat the proposal.

Questions and Answers on Sale Of Savings Bonds

Q. Will the government continue to sell "E" Bonds?
 A. Yes, the same type of Savings Bonds that were sold during the war years, and they will carry the same features. Those issued now will be called U. S. Savings Bonds instead of War Bonds or Victory Bonds.
 Q. What is the difference between War Bonds, Victory Bonds, "E" Bonds and the new Savings Bonds?
 A. None, except in name. They are all guaranteed by the government and will be paid according to the schedule printed on them. They increase in value each year. Hold them to maturity for the greatest in value return on the investment.
 Q. What is the interest rate on the Savings Bonds?
 A. 2.9 per cent and will return \$4 for every \$3 invested if held to maturity.
 Q. Can the Savings Bonds still be purchased through the payroll deduction plan?
 A. A survey has shown that most all companies are planning to continue the payroll deduction system. The payroll plan is being continued by employers because of the numerous requests from employees that this helpful service for systematic saving be retained.
 Q. Will Savings Stamps continue to be available?
 A. Yes. Particular emphasis is being put on their sale through the schools. They will also be on sale at most banks and post offices as well as through some other channels.
 Q. How much was invested by Texans in "E" Bonds during the war financing period?
 A. \$1,590,376,394 was invested in "E" Bonds since the inception of the program in Texas.
 Q. Will there be more drives?
 A. No, not as such but the savings bond program is being continued into peacetime and special attention will be given the payroll deduction plan, sales through schools, banks and others Savings Bond issuing agents.
 Q. Why should people continue to buy Savings Bonds?
 A. It is good business for the individual; the return is good and they are a riskless investment within the reach of all. The systematic purchase and holding of these bonds will provide personal security.
 Q. How many persons own bonds?
 A. 85,000,000 Americans.

Swing of the Southwest Farm Markets

The third week of January saw farm markets disrupted by rains, snow and dangerous highways, as well as unsettled labor conditions, according to USDA's Production and Marketing Administration.
 Livestock receipts fell off to a mere trickle even at terminals which were not affected by the packing-house workers' strike. Stockyards were closed at some of the more seriously affected markets, including Fort Worth which suffered most in the southwest. Price trends, as far as could be determined by the light volume of sales, were on the strong to higher side on cattle and fully steady on most hogs through San Antonio reported light weight butchers down 25 to 50 cents for the week. Sheep prices were mostly nominal due to lack of supply.
 Both eggs and poultry, which had taken on a seasonally easy trend under increased offerings early in January, drew strength from the prospective reduction in meat supplies if the strike lasts long. Eggs continued to lose ground, however, in line with the gradually declining ceiling level.
 Weather conditions and shortage of cars were the keynote of the vegetable situation. Fields were too wet for hauling in the south Texas area, and the consequent reduction in offerings made for stronger prices on items that had begun to sag under increased movement the week before. Movement of potatoes and the remaining light supply of onions from Colorado continued to feel the effects of the car shortage, as did shipments of sweet potatoes from Louisi-

ana, with prices firm on these commodities.
 Cotton prices, which declined slightly when OPA announced proposed ceilings, regained most of the loss in later trade and ended the week fairly steady at levels near the recent high point. Sales of 100,300 bales in the ten spot markets were about equal to the volume in the preceding week but were below a year ago.
 A better feeling in domestic wool markets followed the Commodity Credit Corporation's announcement that further price reduction on its holdings were not in prospect and that sales since the decline last November have been very satisfactory. Contracting of spring mohair has begun in Texas at a price of 75 cents a pound for kid hair and 55 cents for adult hair.
 Grains held firm at ceiling levels with tight supplies a predominating factor. Demand is very active from both domestic and export buyers. Feeds are extremely short because mixers are unable to buy the necessary ingredients. Peanuts also are below trade needs at ceiling prices.

SANTE FE OFFICIAL DIES
 William T. Treleven, retired general livestock agent for the Santa Fe Railway, died at his home in Dallas, January 21. Starting his railway career as an express messenger in 1879, Mr. Treleven probably was one of the most widely known railroad men in the Southwest at the time of his retirement in 1936.

612 Volunteers Enlist This Month

The intensified recruiting drive being put on by the United States Army Recruiting service has currently accounted for 612 volunteers enlisted for the Regular Army thus far this month in the West Texas area alone, it was announced today. However local recruiters are not satisfied with this figure and are determined to enlist several hundred more men who are eligible by January 31. This date marks the last day by which former servicemen may re-enlist and retain the rank they held at discharge, provided they also re-enlist within 20 days of such discharge date.
 The intensified recruiting drive of the U. S. Army recruiting service is for the purpose of securing the maximum number of voluntary enlistments in the Regular Army at the

earliest date possible. This is to release men who have long and arduous war service and who desire to return to civilian life. Also it is sought to build up the Regular Army with volunteers to a strength adequate to meet our needs for occupational duty overseas and to protect our national

interests, and carry out commitments made by our country for peace. The success of our recruiting program will be an indication of other nations of the world of our attitude toward our post-war commitments for international order and peace.

For the Information OF THE VOTERS OF LAMB COUNTY

I Am Setting Out A Few Things Below That May Be Of Some Help and Information to the Voters of Lamb County:

- First—**
 Every person who shall have attained the age of twenty-one (21) years and is a citizen of the United States, and who shall have resided one year in the State and six months in the County preceding an election, are entitled to vote and are subject to a Poll Tax, except those becoming twenty-one (21) years of age since January 1, 1945, or those over (60) years of age.
- Second—**
 Persons over sixty (60) years of age do not need an exemption in order to vote. Exemptions are only issued in Lamb County to those becoming twenty-one (21) years of age after January 1, 1945.
- Third—**
 A new ruling, (Attorney General's Opinion No. 0-6236), now in effect, requires those who are blind, deaf or dumb, or who is permanently disabled, or has lost one hand or foot, to pay \$1.00 for a Poll Tax, and are not entitled to an exemption as heretofore (World War 11 disabled veterans will not have to pay the \$1.00 Poll Tax unless he has been discharged for more than 18 months prior to the date of election).
- Fourth—**
 A soldier and his wife who still claim Lamb County as their home may cast a vote even if they live and have been out of Lamb County the entire time he has been in service; he does not have to pay a Poll Tax but his wife does.
- Fifth—**
 A person may pay Poll Tax without paying their other taxes, and may pay one whether it is assessed against him or her, or not.
- Sixth—**
 A person may appoint an agent to pay their Poll Tax for them. Said appointment must be in writing and Poll Tax receipt must be mailed back or given to him by the Tax Collector and not by the agent. Candidates for office cannot be appointed agent.
- Seventh—**
 Poll Tax must be paid by midnight on January 31, 1946, and all applications for Poll Tax must be in my office at that time. No Poll Tax will be issued after that hour.
 The State gives the Tax Collector 25 days in which to make his report for the month of January, and I assure you that he needs every minute of that time, but just as soon after January 31, 1946, as we can, we will have out our Certified List of all the Poll Taxes paid in Lamb County.

Information for Veterans

Q. May a five year level premium term policy be converted to another type of policy while waiver of premiums is in effect?
A. Yes, no restriction may operate

to bar the right to convert a National Service Life Insurance policy, in case the provisions of the law have been otherwise met.

Q. If the veteran is basically eligible for a loan guaranty under the G. I. Bill must all active service have been after September 16, 1940?

A. No, in computing the active service of applicant, the entire period of his active service is reckoned to his

credit provided it extends to a date subsequent to September 16, 1940.

Q. May a veteran continue gratuitous insurance issued him while a prisoner of war?

A. Yes, such gratuitous insurance will remain in force and premiums waived during all the period he is a prisoner and for six months thereafter. The policy will be continued beyond that period by tender of premiums thereafter becoming due.

Q. Is it necessary for a veteran to have a physical examination in connection with an application to reinstate National Service life insurance?

A. If the insured made application for reinstatement within six months from date of discharge or within three months from the date of the first premium in default it will not be necessary to have a physical examination. A statement satisfactory to the administrator that he is in as

good health as he was on the due date of the first premium in default will be all that is necessary.

Q. May a veteran make application for a loan guaranty at any time in the future?

A. The veteran must make application for the guaranty provisions within two years of his discharge or within two years of the termination of war whichever is later. And in no event more than five years after the termination of war.

Q. Who makes the examination necessary for reinstatement of National Service Life Insurance?

A. Examination for reinstatement may be made free of charge by a physician at a Veterans Administration facility. Such examination may also be made by a private physician designated by the Veterans Administration as an insurance examiner. Examination by private physician will be at the expense of the applicant.

Q. May a veteran go to school under the provisions of the G. I. Bill and at the same time secure a guaranty on a loan to buy a home?

A. There is nothing in the law to prevent a veteran from participating in the benefits of both of these pro-

visions of the serviceman's Readjustment Act.

Q. May the widow of a Spanish-American or World War I veteran receive pension if she has remarried and the second marriage has been dissolved by divorce or death?

A. The widow of a Spanish-American veteran who has remarried and has subsequently had the second marriage dissolved may receive a pension by making a new application. The widow of a World War I veteran may not receive a pension under such circumstances.

Q. Is there any time limit in which a dependent parent must make application for death compensation based on the death of a son in service during war time?

A. There is no limitations as to when application for this benefit shall be made. The only requirement is that the parent be dependent as defined at the time of application.

Q. How do pension rates for peace time disabilities compare with those paid for war time disabilities?

A. Usually pensions paid for disabilities incurred in peace time service are 75 per cent of those paid for similar disability incurred in war time service. However, wartime rates will be paid for disabilities resulting while engaged in extra hazardous or service under conditions simulating war.

Q. Will the proceeds of a National Service Life Insurance policy that has been converted to a permanent policy be paid to the beneficiary in a lump sum?

A. Under the law there is no provision for lump sum payment of any National Service Life Insurance policy.

Q. Will a veteran who had 90 days service but who served half of his time prior to September 16, 1940, be eligible for education under the G. I. Bill?

A. Yes, if the veteran had 90 days or more of service and any part of it was after September 16, 1940, he is eligible for this benefit. The length of time he may receive schooling depends on the period of service on or

"Just a few lines with the newspapers I am enclosing. "The Stars and Stripes" is the daily publication of a paper by members of the armed forces, and the "Nippon Times" is an English language version of a paper of the same name originally in Japanese. Hope you will like them.

"I would very much appreciate it if you would change the address on my Lamb County Leader. My new address is PFC Johnny Swanson, Co. E, 187 GI-Inf., 11th Airborne Division, APO 468, C/o P. M., San Francisco.

"God bless you all and keep you safe.

TEXAS PART OF NATION FOR 100 YEARS; COLORFUL ERA AS INDEPENDENT REPUBLIC

Uncle Sam's giant son has reached the century mark.

On December 29, 1845 (according to a U. S. Supreme Court decision) Texas entered the family of commonwealths that make up the U. S. A. It was the 28th state to join the Union and the fourth wholly or partly west of the Mississippi River.

Texas became the ranking state in area and at that time represented almost one-fifth of the territory covered by statehood. It has kept its rating as largest than one-eleventh of the area of the 48 states, says the National Geographic Society.

When Texas joined the union it smashed more records than the one for size. It is the only full-fledged nation that has thrown in its lot with Uncle Sam. For nearly 10 years it existed as an independent republic, a world state with all the usual trappings of sovereignty; a constitution, a flag, a president and congress, an army, a navy, its own money and an exchange of diplomatic representatives with other sovereign states. The dwelling house which served as the French legation still stands in Austin, capital alike of the republic and the state.

When Texas began its statehood its population was only 125,000, less than all but four of its little-sister commonwealths. Today it has more than 6,500,000 inhabitants and ranks fifth among the states. The wealth of the state a hundred years ago was probably less than \$100,000,000; now the figure is near the \$12,000,000,000 mark. A growing population, tilled soil, orchards, vast herds of cattle, sheep and goats and other livestock, developed forests, dams and power plants, mines and oil and sulphur wells—even the extraction of valuable minerals from sea water—have made the difference.

In numerous ways Texas has cashed in on its climate. Milelong freight trains loaded with winter vegetables and citrus fruits roll to the colder parts of the country. Winter visitors flock to its frost-free southern sections.

Transcontinental railroads, high ways, and airways pass through the state on the nation's routes least affected by winter blizzards.

Texas had piled up a long and eventful history before it decided to give up its independence. Over its soil, between 1519 and 1845, floated the flags of four nations: Spain, France, Mexico and the Republic of Texas. Two other banners were to be added: Those of the United States and the Confederacy. Spanish missionaries from Mexico began building enduring structures in Texas in the early 1700's when the restless American colonists along the Atlantic coast had not yet pushed beyond their first barrier, the Allegheny Mountains. A number of these

massive mission buildings together with the famous Alamo, still stand in and near San Antonio. It was the Alamo during the Texas Revolution against Mexico that Davy Crockett, James Bowie, William B. Travis and approximately 180 others were killed to the last man.

Unlike federal territories, which must grow up under guardianship beneath the parental roof-tree before they are made actual members of the family, the Republic of Texas was in the unique position of an adult nation which could discuss the terms of a family merger. The conference led to the drafting of a treaty of annexation between the two nations; during a presidential campaign but because of political tensions the treaty was not formally ratified. Instead, the treaty was introduced in the form of a resolution in the Congress of the United States and was adopted. Texas got the benefit of the treaty provisions.

The state kept for its own the republic's vast and valuable public domain. Texas is thus the only state in the Union, with the exception of a few of the original thirteen, which retained possession and management of its public lands. The state, like the nation, has its general land office and has distributed millions of acres to settlers.

The treaty provisions also gave Texas a market for some "surplus" territory. The United States paid \$10,000,000 for Texas claims to more than 120,000 square miles of land in a strip lying west and north of the

Leader Receives Letter Of Appreciation

The Leader is in receipt of a letter from the United States Treasury, War Finance Committee of Texas, thanking this newspaper for assistance in recent victory drive. The letter follows:

"I wish it were possible for me to personally convey my thanks to you for the fine support you have given us throughout the war financing program. As you no doubt are aware, we have exceeded our quotas in the Victory Loan drive and by doing so, Texas occupies an enviable position.

"In this final Victory Loan drive, we attained 102.7 per cent of our Series E quota, and 221.7 per cent of the over-all quota. This is a remarkable record, and I can truthfully say that it would have been impossible to have even assumed the responsibilities placed on us had it not been for the all-out support of the citizenship. Since the inception of this program, Texas has invested \$1,590,576,394 in E Bonds and total sales have amounted to \$5,009,185,485. This program has taught people the habit of saving money, and the Treasury Department will

present state boundaries, and making up parts of the existing states of New Mexico, Oklahoma, Kansas, Colorado and Wyoming.

One index to the development of Texas during the past century is the growth of its towns. San Antonio tops the list for age, having been started with the building of the first mission in 1718; but it had only a few thousand inhabitants in 1845. Now its metropolitan area has a population close to 400,000.

continue to offer for sale U. S. Savings Bonds and Stamps.

"Our objectives under this new program will be to continue the sale of Savings Bonds through the payroll savings plan in industry and the sale of stamps and bonds through schools, banks, and other business and civic groups. I am sure that you will agree with me that this is sound business. It is with that thought in mind that I accepted the appointment by the Secretary of the Treasury to serve as chairman of the Texas Advisory Committee for the Savings Bonds Division of the U. S. Treasury Department.

"I again want to express our sin-

cere appreciation for your support throughout the war financing program and to ask your cooperation in helping in what I consider a sound business undertaking. This program will certainly help us in combating inflation. In a few days our publicity department will prepare a special news release that will be sent directly to you, and it is my hope

that you will be able to see such a way that you will aid the people of Texas of the country of our program to sell U. S. Savings Bonds and Stamps.

Sincerely yours,
NATHAN ABRAHAM
Chairman Advisory Committee Texas United States Savings Division."
