## ONE OF TRIO IS SAID TO HAVE POLICE RECORD

### ARRESTS MADE LATE MONDAY BY DEPUTY SHERIFF MILLER

Murph Harrold, who, with another man, and a woman, were arrested in Littlefield at 5:35 p. m. Monday by Deputy Sheriff Bob Miller, is under grand jury indictments in Taylor county, as a result of felony charges, according to the Lamb county officer.

Deputy Sheriff Miller was notified Wednesday of the Taylor county charges by Sheriff Wheeler of Abilene, and immediately notified Lubbock, where the trio have been held, to turn Harrold over to the Taylor county authorities.

The woman arrested was the proprietor of a Littlefield beauty parlor which she was closing and having the equipment stored at the time of her arrest, according to the sheriff's department.

Gun Battle at Hobbs. Deputy Sheriff Miller was at Olton when notified of a manhunt which was underway following a gun battle between four bank robbery suspects and officers at Hobbs. He hurried to Littlefield and when a car was parked on Phelps avenue he placed the two men in the car, one of whom was Harrold, under arrest. He later placed the woman under arrest. Searched, the men were found not to possess firearms.

Charles R. Miller, 16, who was with his father at the time of the arrest, drove his father's car in the conveying of the arrested men to the Littlefield City Hall jail. The deputy sheriff rode in the rear seat.

The trio arrested in Littlefield were being held in Lubbock Wednesday. Deputy Sheriff Miller reported that the household goods of Harrold were being stored, as was also the beauty parlor equipment, at about the time the two men and the woman were arrested here. He also said that he obtained a shotgun from the house which is said to have been occupied by Harrold.

Harrold is said to have a police record in addition to the Taylor county charges. A relayed appeal for the two men held in Lubbock to come to Clovis, N. M., late Tuesday led Lubbock officers to believe the pair are connected with the gang involved in the shooting at Hobbs, and that two men wanted are in Clovis.

Connection of the pair held in Lubbock with the Hobbs shooting has not been established. Two customers who were approaching the First National Bank at O'Donnell last Thursday.

### TEACHERS ARE TO BE NAMED MONDAY NIGHT

At the request of J. E. Brannen, a member of the board of the Littlefield Independent School district, the Lamb County Leader is this week publishing the complete minutes of a meeting of the board, which was held Monday night.

At the request of Arthur P. Dugan, president of the board, and E. A. Bills, R. E. McCaskill and Ed Seely, members, the Lamb County Leader is publishing a statement addressed as follows: "To the Patrons of the Littlefield Schools."

The Leader, in keeping with a policy which was adopted when this newspaper was purchased by the present owner, is remaining neutral in connection with matters relative to the Littlefield schools.

This same policy also covers political, religious and fraternal matters. A newspaper serves best which publishes the news, leaving with the readers of the publication their 100 per cent American privilege—that of passing on matters for themselves.

## SOLDIER BONUS BILL WOULD HELP

We do not claim to be an expert political economist, nor do we claim to know much about the cause of the present business depression.

We do know that there has been a disastrous slump in the prices of all farm products and other commodities and that the purchasing power of the American dollar has increased enormously in the past three years.

It seems to be generally agreed that there has been a very substantial reduction during this period of time in the amount of money in circulation, due in part to hoarding and due in part to a contraction of the currency. Business is stagnant because people have no money with which to buy.

Now, it seems to us that the Soldier Bonus Bill now pending in Congress would very materially help this situation. The bill proposes that Treasury notes, commonly known as "greenbacks", be issued in an amount sufficient to pay the balance due the ex-service men on adjusted compensation, aggregating about \$2,000,000,000.00. Two billion dollars would mean about \$16.00 per capita new money placed in circulation. It would greatly deflate the present highly inflated American dollar, it seems to us, and would tend to bring prices back to "normalcy." It would greatly stimulate business because it would place two billion dollars in the pockets of more than two million citizens of this country, most of whom would spend the money freely, either in purchase of necessities for themselves and families or for the payment of harassing debts. As soon as people begin to buy freely, there will be an increased demand for merchandise of all kinds and the wheels of industry will begin to turn again. Men out of employment will be able to find jobs and will in turn become purchasers of the world's commodities. It therefore seems to us that the passage of this bill would materially help to end the depression and bring prosperity back to the country.

The objection to the bill is that this "fiat" money would have to be redeemed, that the gold reserve in the treasury would not be available or would not be sufficient for the purpose, and that the "greenback" dollar would probably depreciate in value. It is certainly true that the Government could not issue unlimited amounts of "greenbacks" and keep the value of the "greenback" dollar on a parity with the gold dollar, but we believe that the credit of this government, with its taxing power, would be sufficient to maintain the value of the "greenback" dollar as long as the amount issued is kept within reasonable bounds—and the sum of two billion, in our opinion, would not crack the credit of our government.—Lynn County News.

Four men robbed a bank up in Iowa, but within thirty-six hours every one of them had been caught, tried, and sentenced to the penitentiary. Such speed is not possible in most cases, but if we could speed up the trial of criminals about fifty per cent it would help greatly. Quick punishment is more effective than severe punishment.—Lynn County News.

## EIGHT YEARS AGO IN LITTLEFIELD

(Excerpts from Littlefield Leader)

There are more old people in the United States today than there were a decade ago, according to the director of the United States Census.

PERHAPS one contributing factor is the assistance given to science, surgery, medicine and the plain everyday standard of living by the electric light and power industry.

WE like to think we have contributed toward lengthening the span of life—as well as to know that we have contributed to the joys of living, what ever may be the span of an individual's life.

MORE than forty-seven and one-half million children under nineteen years of age are experiencing benefits, made possible by electrical development, unknown to their parents at the same age, and which were not even dreamed of by their grandparents.

### Fate Was Kind To The Principals Of "Racing Youth"

A strange thing is Fate. Four of the principals in "Racing Youth," which will be shown at the Palace theater Friday and Saturday, started in the moving picture field as extras. Three of them moved to California when they were less than nine years old, and thus were in a preferred position to enter the films. Just fate.

Slim Summerville, who was never funnier than he is in "Racing Youth" was taken by a prize-fighter friend to the old Keystone lot to make his first picture. His pathetic appearance secured the first prominent extra job the films ever offered. Louise Fazenda also came up from the ranks of extras in the old Crystal Company, which was part of the Universal organization, back in 1912. Frank Albertson sought for movie extra parts to eke out the small pittance he was getting in the laboratory department of Famous Players. Eddie Phillips was picked out of the extra mob by Carl Laemmle, Jr., to play the principal villain in "The Collegians."

It was the good fortune of Louise Fazenda, Frank Albertson and June Clyde to have parents who moved to California when they were very young, thus enabling them to take advantage of an opportunity to go on the screen. All of these players, together with Forrest Stanley, Olin Harlan and Arthur Stuart Hull, are concerned in the cast of this fast-moving comedy, "Racing Youth."

### Straw Vote Indicates Big Vote In Terry County For Hunter

Brownfield, Texas, April 20.—Terry county, in the heart of the farming and ranching area of the South Central Plains of West Texas, is enthusiastically interested in the Governor's race. Recently a Hunter-for-Governor club was organized for the purpose of furthering the candidacy of the man who is championing the much-needed tax reform in Texas. The organization being perfected, workers here canvassed the country, calling upon every voter, with the result that 2200 have committed themselves for Tom F. Hunter, while 12 stand committed to the Fergusons; 6 will go to Sterling; and 150 are non-committal.

Hunter's plan to re-allocate taxes is taking form.

It must be remembered that Mr. Hunter, when a young man, for two years taught school in this county. He was only 21 years of age when he was elected to head the county seat high school. Many of the old-timers yet live here and are counted among his strongest supporters. Judge George W. Neill, who was county judge while Hunter lived at Brownfield, is chairman of his club.

Hunter procured his law license while living at Brownfield, served as county attorney under appointment during the last year that he was in the county, teaching school at the same time. Tom Hunter married a Terry county girl, Vera Scott-Hunter, who has many friends in the county.

## THE 1932 YEAR BOOK OUR HISTORY OF 1931

In many lines of industry the largest companies reduced their output in 1931. Those who furnished them with raw materials had, at best, restricted markets.

Swift & Company's 1932 Year Book, now ready, tells how this nation-wide, diversified marketing organization met conditions in a better way.

1. It kept its doors open and handled more pounds of products than in 1930.
2. It continued to pay cash for all it bought.
3. In more than a hundred produce stations it held to the policy of purchasing all the poultry, eggs and dairy products offered by farmers.
4. Still more important, Swift & Company cut its own costs.

Thirty years of experience have proved that the most economical way to market produce is through the same channels that handle meats. The same salesmen sell, the same refrigerator cars transport, the same branch houses sell and deliver the whole Swift & Company line of fine foods, such as Swift's Premium Hams and Bacon, Swift's Premium Milk-Fed Chicken, Golden West Fowl, Swift's Brookfield Butter, Eggs, Cheese and many other products.

Read the 1932 Year Book. It explains how a rounded line makes Swift & Company operations stable and how diversification lessens the costs of handling both meat and produce. It takes the mystery out of the factors that go to make price levels. And it tells in detail the steps this Company has taken to make itself still more efficient in covering the gap between hundreds of thousands of producers and millions of consumers.

Your copy awaits you. Ask your local Swift Produce Plant or use the coupon below.

In order to get both sides the Board phoned F. O. Boles and Floyd Hemphill to come before them and give their side. Mr. Boles admitted that he had whipped the boy too hard, but stated the boy had been giving trouble all the year and in his judgment it was a question of whipping or expulsion. No action was taken in the matter at this time.

The Board agreed to adjourn to meet again next Monday night, April 25th, at 8 o'clock for the purpose of electing teachers.

The State of Texas, County of Lamb.

I, J. S. Hilliard, Secretary of the School Board of the Littlefield Independent School District, hereby certify that the above, and foregoing is a true and correct copy of the Minutes of the School Board held Monday evening, April 18th, 1932, as the same appears in Minute Book 2, Page 159-160, of the Records of the School District. Said minutes have not yet been read to the board and approved.

Given under my hand and official seal, this 20th day of April, A. D. 1932.

(Seal) J. S. Hilliard, Secretary Littlefield School Board.

Statement to Patrons. April 19th, 1932.

To the Patrons of the Littlefield Schools:

Feeling that you are entitled to know everything about your schools we give you the following facts: The Schools here at Littlefield are under the supervision of the State Department of Education at Austin. Inspectors and Examiners come out and examine and investigate the schools here, and, when conditions justify, demand changes and additions. This work is similar to examinations of Banks, Post Offices, etc. Such examinations would quickly disclose incompetency and unfitness of a Superintendent or teacher, and the same would be immediately reported to the School Board with a demand for removal or a change.

After such examinations the Littlefield schools have been classed by the Department of Education as A-1. The High school here is graded as a "Four Year High School of the First Class." This is the highest classification that the State Department of Education gives a High school in Texas. Your children have as good high school advantages as can be had in the State.

The High school here has thirty-one credits, or units of affiliation. That is all it can have until additional subjects are taught. Every department in the school has all the credits the department will allow. Your boys and girls can go from this school to the Universities and Colleges of the country and be entered without examination, the same as if they went from the schools of any city in the State.

The schools are now all running smoothly and harmoniously. Teachers are co-operating; every department is functioning perfectly and it would be impossible for any school to get along any better or do better work.

The Superintendent has charge of the entire school and plans all activities and his policies are carried out. The principals have detail work to perform under the direction of the Superintendent. No school could have reached the classification given the school here without absolutely competent supervision and perfect co-operation. These things your school has now. Do you think this should be changed?

The members of the old Board of Trustees are all citizens of this community, and heavy tax payers. They have as much respect for their obligation and oath of office as any trustee could have.

They have for years worked together in harmony, which makes possible the school you now enjoy.

The old Board members published in the paper, before the recent election, that values would be cut this year at least 25 per cent. They now believe they can be cut 40 per cent and maybe 50 per cent. You may be sure that school trustees do not like to pay taxes any more than you, and that every dollar will be saved the tax payers that is possible.

The undersigned trustees voted against the motion, made Monday night, to refuse to employ any married woman in the school here, for the following reasons: First, some of the best teachers in the school are married women; Second, a few years ago the patrons asked that more settled women teachers be employed. The young girl teachers wanted to go to parties, etc., and the reason so many married women are now in the school is due to this request. As it is, there is a splendid balance of teachers, married and single, and we can see no good reason for "firing" a good teacher, who is giving good service simply because she might have a husband. Married women are in every trade and profession now and it would be very inconsistent, as we see it, to say that they shall be barred from teaching even though they may say so in some other state or city.

Third: The letting out of half the teachers in a school this size at one time would seriously disorganize the entire school, and, believing that the school should have first consideration, and for the good of your children, we voted to elect teachers on their merits regardless of their marital relations.

We voted to place the salaries of all primary and grade teachers at \$80 per month for nine months. That is \$60 per month for the year, and teachers really have to live through the summer months as well as the time they are teaching. They must pay board and laundry and many other expenses. We are aware that many farmers are not getting \$60 per month now, but farmers do have a living at home, while the teachers have to buy everything in the store. Again the teachers will have to be paid in warrants from the beginning of school until taxes begin coming in, and these have to be discounted possibly 10 per cent. The cut of 20 per cent in salaries given, plus the discount on the warrants, makes more than 25 per cent, and, in our judgment, all the teachers should be asked to stand at this time. Yes we could hire CHEAP teachers, could get them with second grade certificates at possibly \$40 per month, but do you want your children taught by such teachers?

We voted to equalize the salaries in the High school and reduce them to \$900 per annum, or \$75 per month for the year. We do not think competent teachers can be had for any less.

We voted against the motion to ask for the immediate resignation of Superintendent Harrison and business manager J. S. Hilliard for two reasons: First, a two year contract was made with Mr. Harrison last year, long before this controversy arose. This contract has another year to run, and is a binding and valid contract, and we feel that a contract should be lived up to. To do otherwise would bring an expensive law suit on the district. Second, the condition of the school now abundantly proves that Mr. Harrison is thoroughly competent to manage same.

The same condition exists with reference to Mr. Hilliard. It has been the custom of the board, for many years, to employ the business manager early in the year. This gives him time to make his assessments early, to take the scholastic census in March, and to plan his year's work. This was done with Mr. Hilliard this year long before this discussion was brought about. He has a contract that is enforceable and since he is a tax paying citizen, and farm owner, in this community and very competent in his work, and his salary has been reduced 25 per cent, we did not think it for the best interest of the school to ask him to resign now.

In conclusion: Taxes will be cut this year at least 40 per cent. The finances of your school are good as the statement published last week shows; we have voted to maintain a good school for your children, which is what we think you intended we should do when you elected us trustees.

Arthur P. Duggan, E. A. Bills, R. E. McCaskill, Ed Seely, Trustees.

Salary Reductions.

In further explanation of the above statements, the Leader is giving the following information as obtained from the foregoing documents:

Salary of primary and grade school teachers reduced from \$100 to \$80 per month.

High school teachers have been paid \$125 per month, with the exception of the English teacher, who has been receiving \$140; the home economics teacher, who has been receiving \$150, and the manual training teacher, who has been receiving \$135. The foregoing figures are the per month salary for nine months. All high school teachers' salaries have now been fixed at \$100 per month for nine months, with the exception of R. A.

Box, vocational agricultural teacher, whose salary has been reduced from \$2400 to \$1800.

The salary of F. O. Boles, principal of the High school, has been reduced from \$2150 to \$1575.

Superintendent Harrison and Secretary Hilliard both accepted a voluntary reduction in salary a number of weeks ago. Mr. Hilliard's salary is now \$1800 per year as against \$2400, and Superintendent Harrison's salary is \$3,000 as against \$3600.

### NOTE FOR PLANTING INFERIOR SEED THESE MODERN TIMES, BOWER SAYS

NOTE: A series of articles has been written by H. J. Bower, secretary of the Denton County Pedagogical Association of the Department of Texas Technological College, on the importance of certifying seed. We are here publishing one of these articles published in the Journal newspapers.

undant supply of superior adaptable varieties, larger any reason to plant and lose money by doing so. Increase multiple production number of crop plants over and over again. Profoundly bred livestock, with investment. That poor seed is a money losing proposition. Improving crop varieties require scientific breeding methods and scientific breeding methods require scientific methods to the plants.

Browder, secretary and the Denton County Pedagogical Association of Denton following comment:

Business Than Theft. Seller foists on an unwise buyer seed that is inferior which are of low germination. He not only steals the seed the buyer thinks but he steals the use of the labor of the farmer. The time of the buyer that can never be recovered. The buyer cannot know until the seed is sown or at least far enough to show what the crop will be too late to remedy the

buyer attempts to save the loss, he is sure to lose on the seed. The most expensive seed is the lowest priced seed per pound when it is purchased. It is also the cheapest seed possible to obtain. Seed regardless of price.

Doesn't Count. Seed may look high in price and compared to other seed usually be high. But it is the seed costs that counts. What increase is secured.

per bushel is not a fair way to compute the cost of seed. The cost of looking at the price per bushel, we ought to be cost of seed. Look at the cost of seed to plant the seed and look at what is reasonably expected.

But the matter on this seed that the cost is not the same. Seed at four cents will cost possibly 10 cents to plant. Clean seed is a very small sum when compared to the increased yields from seed at \$2 per bushel. Seed can be planted for period of that price, but the seed will yield more extended very far to a good seed are cheaper. Side more of cotton to the present low price difference.

Price Will Pay. Seed of corn at \$4 may look like it will plant eight acres. Seed on an acre. One bushel on ordinary years pay \$4. One bushel increase may the total cost of the higher price. Which is

at 75 cents may seem a fact that the increase is enough to make more than one acre difference while an acre three bushels per acre of the difference, and at good seed will increase ten to forty bushels. In any way you will make out that the best seed is in price. It is about the truth that can be proved. We are losing more than

\$5,000,000 annually from poor seed alone in Texas. That is an average of about ten dollars per farm and a very conservative estimate.

**Should Investigate Rigidly.** "The farmer who listens to the smooth tongued salesman with his glowing adjectives describing seed that have no background and no warrant is listening to his hurt, and that hurt is more serious than the mere loss of the price of the seed. It is far more far reaching and far more damaging. The strictest investigation is none too rigid. The practice of false economy in buying seed for a low price leads to extravagance that is far more damaging than the price of even the highest priced seed, if the seed are true and have the qualities that they should have."

**Seed Sales Increase.** March and early April sales of planting seed were unusually high in both state tested and untested seed, according to J. B. McClung, chief of the seed laboratory division of the Department of Agriculture, who has just returned from a survey of seed conditions in West Texas.

**To Re-Establish Postoffice.** After being discontinued for a period of three years the United States Postal department has ordered the re-establishment of the post office at Whitharral. Application for furnishing space for office and position as postmaster must be filed with the department by April 22.

Rotan are defendants, in which suit it is alleged by plaintiff as follows:

"That on the 23rd day of December, 1930, the defendants L. K. Rotan and W. L. Rotan, made, executed and delivered to plaintiff their certain promissory note for the principal sum of \$50.00, dated the said 23rd day of December, 1930, due and pay-

That said note is past due and unpaid and defendants though often requested have hitherto failed and refused and continue to fail and refuse to pay the same or any part thereof, to plaintiff's damage. That plaintiff has placed said note in the hands of T. **PEP PARAGRAPHS**  
The Pep school again made a re-  
markable showing in tennis at the  
County Interscholastic League meet  
in spite of stiffer opposition. Gladys  
Jungman and Helen Burt won Girls  
doubles by defeating Anton, 7-5, 3-6,  
4-6, in the preliminaries. Ropes in  
the semi-finals by score of 6-2, 6-1,  
and the finals from Levelland, 6-4,  
7-5. Bernie Allison and Gaius Han-  
ley won second place, after losing a  
hard match to Levelland in the score  
of 6-3, 6-1, 8-5. Ida Jungman en-  
countered a very spectacular player  
in girls singles representing Levelland,  
losing her match 6-1, 6-3. Ber-  
nie Allison reached the finals in boys  
singles by defeating Anton 1-6, 6-1,  
6-3. He was unable to overcome the  
opposition offered by Gano Tubbs of  
Levelland in the finals.  
James Murphy, Edd Daulton, Chas.  
Burt, and James J. Lynch left Pep  
recently for a visit to Carlsbad Caver-  
ns, in New Mexico. They reported  
that the caverns were as impressive  
as pictured. From Carlsbad they  
journeyed to El Paso and across the  
bridge into Jaurez, Mexico. On the  
return trip they saw the white sands  
of New Mexico, the Asapche Indian  
reservation, and the Lincoln National  
Forest. From their accounts of the  
trip they saw many interesting places  
and had a very enjoyable time.  
The ladies of the Altar society are  
very thankful to Mr. James J. Lynch  
of Pep and his mother for the dona-  
tion of a beautiful lace for the altar  
of the Pep church. This lace was  
hand crocheted by Mrs. Lynch of  
Grand Center, Iowa, and is a mas-  
terpiece of handwork.  
Mr. and Mrs. Bill Yaxthelmer of  
Idalou were visiting in the G. C.  
Keith home recently.  
J. F. Albus and J. F. Gerik were  
in Levelland attending court the  
first of the week.  
A. G. and W. T. Jungman were in  
Littlefield Monday and Tuesday sell-  
ing spaces on a curtain for the  
stage in the new school now being  
built at Pep, and we are very thank-  
ful to the business men of this city,  
as they report selling most of the  
spaces there.

## FARM NOTES

By D. A. ADAM, County Agent

Lamb County 4-H Club Judging team won first in the 4-H judging contest during the Dairy Show at Plainview last week. These boys scored 1093 out of a possible 1500, and did exceptionally well, having had only two workouts, and the credit is due, not only to the boys and their efforts, but to their local leaders, Mr. O. L. Smith, and Mr. J. E. Smith, who encouraged the boys.

The boys will be entered in the State-wide contest, which is to be held at the Farmers Short Course at College Station this summer. The team which competed at Plainview was composed of Travis Winters, Winton Rochelle, and Jack Bradley of the Amherst 4-H Club.

Amherst, Olton, Spade, Hart Camp, Spring Lake, and other will be organized.

## OLTON

Funeral services were conducted Thursday afternoon, April 14, at 4:30 o'clock for Rev. Meador, aged 61, who died Wednesday previous at 12 o'clock noon, following a week's illness, suffering from paralysis. Rev. C. E. Comfort, Floydada, officiated, while the Lindsey Funeral home were in charge of burial arrangements, and interment was made in the Olton cemetery.

He is survived by his widow, Mrs. May Meador; his son, G. L. Meador, Villegreen, Colo.; his daughter, Miss Beatrice Meador, teacher in the old

Emma school, near Ralls; another daughter, Mrs. R. W. Fanning, Friona; a third daughter, Mrs. C. L. Bolding died Jan. 1, 1919, at Enid, Okla., and her daughter, Miss Frances Bolding, made her home with Rev. and Mrs. Meador. All children, and families, and Mr. Bolding were at his bedside shortly after he was stricken.

Beginning with his ordination in 1905, at Marlow, Okla., in the Cumberland church, Rev. Meador has been continually in the service of his church. He became pastor of the Olton Cumberland church December 1, 1931. He came to Olton from Ralls and before that was pastor at Olney.

During that long time he saw service as missionary, while living at Rocky, Okla., and was pastor of sev-

eral churches in that territory. Later he was church pastor at Fort Worth, pastor for four years at Bertram, and for four years at Floydada.

## ENOCHS' BREEZES

By Omas Campbell, Correspondent

Messrs. C. W. and Everett Campbell of Colorado visited with their brother, L. A. Campbell of Enochs, last week. It was the first time they had seen each other in forty years.

Soy beans should be planted about corn time, and cultivated like corn. Seed can be obtained at the P. W. Walker elevators and are Lamb county grown. Farmers also have a few seed throughout the county. Plant about 5-7 lb. per acre, and this will give you a good stand for hay.

Poison grain for use in the control of ground squirrels and prairie dogs can be obtained at the County Agent's office, or at C. E. Bley Store in Olton.

A Clark's Guernsey bull from Littlefield, placed second in his class at the Dairy show last week.

Buy a few State Certified Cotton seed for your seed block, in order to raise enough seed for next year's crop. John D. Roger's Acala, still is the favorite among farmers.

A load of pure bred gilts from Tierra Blanca farms at Canyon, Texas, was delivered to farmers in this county last week. Orders for these were placed at the county agent's office.

## Hose Or Lead Pipe Risky Gas Connections

Flexible connections for gas stoves are dangerous. They are likely at any time to become leaky or disconnected, with the danger of resultant injury to health and property.

This is true not only of rubber hose, but also of lead or copper-coated pipe, which, bent a time or two, may crack and leak. There is this additional objection to lead or copper-coated pipe; the aperture in the usual lead pipe connection is only one-eighth inch in diameter. A bend reduces even this small diameter. The result is that an insufficient amount of gas reaches the burners. A three-eighths-inch iron pipe connection is the safest and most efficient for the ordinary room heater.

Natural gas, when properly used, not only is the cleanest, most convenient and efficient of fuels, but it is also one of the safest and most economical.

If you are in doubt regarding the safety or efficiency of your gas equipment, call our Service Department. It is maintained for the free use of our customers.

Mrs. Clements followed up and carried off the prize for the period from Monday, March 21, until Wednesday night, March 23, which was her choice of any dress from the Marzelle Dress Shop.

Mrs. Pate, turning in the most business from Thursday, March 24, until Saturday night, March 26, won the prize, a \$15 manicure set from the Grand Drug Store.

A complete ladies' spring outfit, including dress, hat, shoes, hose, set of Munsingwear undergarments, and a purse, from the J. H. The prize from the Leader to the candidate turning in the most cash for the period from Thursday, March 31, until Saturday night, April 2, was \$25 in cash, which was won by Mrs. Touchon. A second prize for the same period, \$15 in groceries from Renfro Bros. Grocery & Market, was awarded Mrs. Pate.

Mrs. Touchon also won the prize

for the period from Friday, April 8, until Tuesday morning, April 12, which was an eight weeks' pass to the Palace theater.

Early in the contest a period prize consisting of a pair of ladies' dress shoes from the Cuenod's Dry Goods Co., was offered, but for that particular period, none of the contestants turned in the required quota.

The candidates, as well as the Leader, are very appreciative of the splendid co-operation and many courtesies extended throughout the circulation contest, and take this opportunity to thank one and all for their interest and assistance in making the campaign a success.

A large number of subscribers living in this immediate trade territory were added, which increases the pulling power of this paper's advertising.

**Prizes Awarded.**

During the last two days of the campaign, all subscriptions and money turned in by the candidates were deposited in a special sealed container at the First National Bank, and at 8:30 p. m. Saturday the judges opened the container and counted the ballots. The Leader wishes to express its appreciation to the judges, Mayor T. S. Sales, Mrs. M. V. Cobb, J. C. Hilbun, Sam Hutson, and John R. Horn, and to the First National Bank, for courtesies extended.

The winners in the contest were announced about 9:30 p. m. Saturday at the John H. Arnett Motor Co. R. H. Coleman, who had charge of the campaign, presided, and talks were made by the candidates and by Morley B. Drake, publisher of the Leader.

Mr. Drake expressed his personal appreciation and that of the Lamb County Leader for the excellent co-operation which had been extended the candidates and the Leader by the residents of Littlefield and Lamb county.

Our Association is in better condition financially in that we have reduced our indebtedness considerably, and with the collections for the sale of lots from time to time we hope to be able to give a more favorable report at the close of the coming year. The new Ford V-8 went on display late Thursday afternoon of last week at the John H. Arnett Motor Co., local Ford dealers.

From the very outset the new car attracted enthusiastic interest. Some indication of the interest centered in the new automobile is contained in the fact that the car was viewed by more than 800 persons Saturday.

Large numbers of persons have taken short rides in the car, and all have expressed enthusiastic approval of the latest Ford product.

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses and does it SAFELY and HARMLESSLY.

In the morning take one half teaspoon of Kruschen Salts in a glass of hot water before breakfast—cut down on pastry and fatty meats—go light on potatoes, butter, cream and sugar.

"It's the little daily dose that takes off the fat" and "brings that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

But be sure for your health's sake that you get Kruschen. A bottle that lasts 4 weeks costs but little. You can always get Kruschen at all druggists and money back if not satisfied with results after first bottle.
