

Location For Deep Test Staked Out; To Be Spudded In Before July 1

Lamb County 4-H Rally Day Friday At Youth Center

Will Be Drilled On Compress Property

Contract Calls For Depth Of 7700 Feet

John W. Murchison, who is to drill the first deep test oil well in the townsite of Littlefield was here last Thursday with a corp of engineers and staked out a location for the first well.

It is to be located on the southwest corner of the compress property, being drilling block No. 98, and 330 feet from the property line on the west and south boundary line.

The well will be spudded in on or before July 1, as announced by C. J. Duggan, personal representative of Mr. Murchison.

The contract calls for a total depth of 7,700 feet unless oil is found in paying quantities at a lesser depth.

Mr. Murchison stated Tuesday that they did not have leases covering 700 acres, as sought after, and would quit taking leases when the well was spudded in, and give no more over-riding interest that date, or pay cash for pig leases.

Last Rites Held For J. H. Bowen

Funeral services were conducted Saturday at 3 p. m. at the Baptist Church at Litleia, Oklahoma, ten miles east of Lawton, for J. H. Bowen, 70, former Littlefield resident, but recently of Texarkana, Texas, who passed away Wednesday, June 10 at 6:20 p. m. at the home of his daughter and son-in-law, Mr. and Mrs. Lawrence Smith, at Texarkana.

Burial took place in the Litleia Cemetery. Attending the services from Littlefield were Mr. and Mrs. Ben Crawford and children, and Mr. and Mrs. Bob Taylor and daughter, Betty. Mr. Crawford and Mr. Taylor were among the pall-bearers who served.

Litleia is the old home of Mr. Bowen, he having been born and reared there. Mr. Bowen had been in the grocery business in Littlefield since 1938, until about six months ago when he sold his business and he and his wife moved to Texarkana to make their home with their daughter and son-in-law.

Mr. Bowen underwent an operation for ulcerated stomach about eight weeks ago, but it is understood that a gall bladder ailment caused his death.

Deceased is survived by his widow, Mrs. Docie Bowen, his daughter, Mrs. Lawrence Smith, a son, Buster of Port Arthur, and two grandchildren, R. L. and Jimmie Bowen.

Jaycees Select Candidate For West Texas Contest

Miss Jeanne Hill, 19, daughter of Mr. and Mrs. Leonard Hill of 520 East 14th Street, was selected by a committee from the Littlefield Jaycees to present Littlefield in the Miss West Texas Contest to be held at Odessa on July 4.

The winner of the Miss West Texas contest will be eligible to

MISS JEANNE HILL

compete at Galveston for the title of Miss Texas.

Jeanne is a graduate of Littlefield High School where she was elected to many honors. She attended Texas Tech for one semester. At present Jeanne is employed by the First National Bank.

Ground Breaking Ceremony Held For New Church Building

A ground breaking ceremony for the new educational building of the First Presbyterian Church was held Sunday, June 14 at 7 p. m. on the site of the new building, south of the George L. White home.

Rev. Henry M. Haupt presided and he was assisted in the ceremony by E. A. Bills representing the session of the congregation, W. G. Street, Jr., for the Board of Deacons, Ira E. Woods for the Board of Trustees, Mancel Hall, chairman of the building committee, B. W. Armistead of the building finance committee, Bruce Porcher, superintendent of the Sunday School, Mrs. E. A. Bills of the Women's Auxiliary and Dr. Fred Faust representing the Men's Council.

This new 5,000 square foot building will accommodate Sunday School rooms, kitchen, and a fellowship hall, and will cost \$39,815. It was designed by Atkinson and Atcheson, architects of Lubbock, and will be built by Harold Biffle of Lubbock. The land on

Legion Elects Officers Monday

Officers for the ensuing year were elected by the Richard New Post of American Legion Monday night. Officers named were:

Wayne Butler, commander; Alex Krausher, vice commander; Gerald Cutshall, second vice commander; Ray McKinney, adjutant; Gene Bartley, finance officer; Ernest Gaston, sergeant-at-arms; J. C. Bolton, chaplain; Homer Howard, historian; and Bob Kirk, service officer.

Installation of officers will take place next meeting night, which will be July 6.

which the new building will stand was donated to the First Presbyterian Church by George L. White.

Officers Elected By Red Cross

The American Red Cross held a meeting Tuesday night at Dyer's Cafeteria and elected officers. Rev. J. Henry Cox of Olton was named chairman and J. E. Chisholm, Jr. was named vice chairman. Pat Boone, Jr., of Littlefield was elected treasurer.

The board was extended from 7 to 9 members. Those elected for the board were: J. E. Chisholm, Jr. of Littlefield, Joe Salem of Sudan, Truett Sides of Olton for one year; Rev. J. Henry Cox of Olton, Joe McWilliams of Amherst, Mrs. Herman Haber of Earth for two years, Pat Boone, Jr., of Littlefield, Jess T. Favors of Littlefield, J. T. Arnold of Sudan for a three year term.

Watermelon was served.

E. E. Wesley returned home Tuesday of last week from Oklahoma City where he was taking treatments for a back ailment at the Bone & Joint Hospital. Mrs. Wesley went to Oklahoma City and accompanied her husband home.

J. H. Lee Suffers Paralytic Stroke

J. H. Lee, president of the First National Bank here, suffered a stroke of paralysis about 4 a. m. Saturday at his home, 301 East 11th Street, and was rushed to the Littlefield Hospital and put under an oxygen tent.

His left side is said to be paralyzed and he is reported in a serious condition. No visitors are being allowed in his room.

According to Mrs. Lee, her husband had been in apparent good health and had played 18 holes of golf Friday afternoon.

Mr. and Mrs. J. B. Kempton of Carlsbad, daughter and son-in-law of Mr. Lee, arrived Saturday to be at the bedside. According to Mr. Lee's physician, Dr. Still, late Wednesday, his condition was slightly improved.

Littlefield Federal Savings And Loan Association Declares Dividend

J. T. Elms, president of the Littlefield Federal Savings and Loan Association has announced that the directors of the association have declared their semi-annual dividend of 3% per annum, effective June 30. This will be the eighth semi-annual dividend declared by the local association since its organization in 1947.

The total assets of the Littlefield Federal now exceed \$1,300,000. The original organization

started with assets of \$75,000 in 1947 and the growth has been steady over the past years. All holders of either savings or investment accounts will be notified by mail of their dividends.

Over 500 loans have been made to home owners in this area by the Littlefield Federal since it was organized. There are at present over 400 holders of savings and investment accounts. All accounts

CROWNED QUEEN . . . Pat Haws, 20, daughter of Mr. and Mrs. J. W. Haws of Ropesville, who represented the Wolfthorpe Lions Club, was crowned queen of the annual District 2T-1 Lions Convention at Borger Saturday night. There were 41 contestants for the title.

Last year the Lions Queen was sponsored by the Lubbock Lions Club.

Coronation ceremonies were conducted during the governor's banquet Saturday night in the high school cafeteria.

Joe R. Phillips of the South Amarillo Lions Club was named winner of the district governor's race. Phillips won out over Bruce Gentry, New Deal, from the Monroe Lions Club, and W. W. Cooper of Turkey, in one of the most enlivened governor's races in the district's history.

Delegates attending the three-day convention selected Amarillo as the sight for next year's annual convention at an afternoon business session.

School Board Lets Contract On Building New Football Bleachers

measuring about 120 feet in length, 15 rows high and providing 1,200 seats, at an investment of \$8,500. The frame work will be of steel. The reserve seat section, under the new plan, will be moved to the west side.

These new bleacher seats are expected to be completed by September 1.

The V. R. Rogers & Son are said to be building a like project at Hereford, and after laying the foundation there, it is said they will move the machinery down to Littlefield, and get started with the local construction.

The new stand will be between the 30 yard line, and lumber taken from the old stand will be used for additional seats to the 20 yard line.

Cafe Owner Suffers Injury From Fall

H. C. Fisher, owner of Fisher's Cafe, fell while climbing a ladder in the rear of his place, and injured his right foot. Mr. Fisher's foot was broken in three places. The accident was caused by a shock from an electrical wire which he touched when reaching the top of the ladder.

Mr. Fisher is now at Payne-Shotwell Foundation and expects to be there for several days.

Light and H. A. Wallace Wed
Lovely Church Ceremony Friday

Marriage of Miss Ruth Light and H. A. Wallace was solemnized in the Methodist Church, Sem... Friday evening.

MRS. H. A. WALLACE

Accompanied by Mrs. Mc Adoo at the piano, Mrs. Holbrooks sang "Through The Years", "Always" and "The Lord's Prayer".

Following the ceremony a reception was held in the Fellowship Hall of the Methodist Church. The bride's table was laid with beige lace cloth over yellow, with white tapers in crystal candelabra forming a background for an arrangement of pink stock.

News of Women

Single Ring Ceremony Unites Loveta Hawkins and Wm. S. Thompson

In an impressive single ring ceremony at the home of the bride's parents, Mr. and Mrs. E. R. Hawkins, 1 1/2 miles east of earth, Miss Loveta Hawkins, became the bride of William S. Thompson, of the Engineering Department of the U. S. Government, of Amarillo.

Rev. Bruce Giles, pastor of the First Baptist Church of Earth, performed the ceremony at 5 p. m. Friday with the couple standing in the archway between the living-room and the dining room, flanked at either side with tall baskets of white chrysanthemums.

Wears White Suit
The bride was attractive in a white shantung dressmaker suit with navy accessories. She carried a white Bible topped by an orchid.

Mrs. Pierce Attendant
Her sister, Mrs. J. W. Pierce of Earth was matron of honor. She wore a navy dress with white accessories, and a white carnation corsage.

Charles Barnett of Amarillo served as best man.

Reception is Held
A reception was held at the Hawkins home following the ceremony. Miss Linda Crabtree of Amarillo, registered the guests.

Hand Embroidered Cloth
The bride's table was laid with hand crocketed cloth. The heart shaped white one tiered wedding cake with the names "Loveta and Bill" was placed at one end of the table with the crystal punch set at the other. A crystal bowl of white roses centered the table.

Miss Linda Crabtree poured punch while Mrs. Charles Barnett cut and served the cake.

The bride was graduated from College High School at Canyon, and has been employed by the Canyon Tailoring Company for about

MR. AND MRS. WM. S. THOMPSON

13 years. Following a two weeks honeymoon at Powder Horn, Colorado, where the groom owns a dude ranch, the couple will live in Amarillo.

Evelyn McNeill Is Bride of John Franklin Bridges In Church Rites

Miss Evelyn McNeill, daughter of G. E. McNeill of Springlake, and John Franklin Bridges, son of Mr. and Mrs. H. F. Bridges of Sunnyside, were married Thursday June 4, at 7 o'clock in the evening in the First Baptist Church of Springlake.

Rev. J. T. Williams, pastor, performed the double ring ceremony. The bride, given in marriage by her father, wore a ballerina length dress of white lace over white satin, styled with a flared skirt and a fitted bodice with tiny self-covered buttons down the front.

Her hat was of matching lace and rhinestones and she wore a shoulder length veil. She carried a white Bible topped with an orchid and orchid streamers.

Miss Dorothy McClanahan, of Springlake, was the maid of honor. Her dress was ballerina length, and was styled like the brides, of orchid nylon organdy over orchid taffeta. Her hat was of white silk grosgrain ribbon. She carried a colonial bouquet of orchid carnations with orchid streamers.

For something old the bride wore a cameo lavaller which belonged to the groom's mother; something new was the white Bible given to the bride by the YWA of the Springlake Baptist Church; her earrings were borrowed from the groom's mother, and she wore a blue garter.

Mrs. R. G. Wilson, Sr. played the traditional processional and recessional wedding marches and appropriate music during the ceremony. Miss Naomi Fanning of Earth sang, "O Promise Me", and at the end of the ceremony sang Malotte's "Lord's Prayer". She was accompanied by Mrs. Wilson.

The service was read by candle-light before a background of greenery, baskets of white mums, candelabras and green palms. White lighted tapers tied with white satin bows marked the wedding aisle.

The candles were lighted by Earl McNeill, brother of the bride from Baylor University and Eddie Haydon, of Springlake. They also served as ushers.

Joe Percy Hart of Hart was the best man. After the ceremony, Mr. and Mrs. E. H. Green, aunt and uncle of the bride, were hosts for a wedding reception at the church.

Misses Janis Jones, cousin of the bride and Miss Sarah Garrison of Littlefield registered the guests. Mrs. Bill Thorne and Miss Joan Maxey served the punch.

Erna Jane Jones Takes Part In Sunshine Music Camp

Twirling exhibitions by 40 members of the Sixth Annual Sunshine Music camp at Eastern New Mexico University were presented at 8:45 p. m. Friday, in the patio of the Quadrangle building, Portales, New Mexico.

Twirling instruction at the camp this season is under the direction of James LeMaster, head drum major and twirling instructor at North Texas State College, Denton.

Four soloists were featured in a different style of modern twirling entirely new to this area of the United States, LeMaster announces. Soloists were Erna Jane Jones, Littlefield, Texas; Jo Ann Rumpf, Carlsbad; Glenda Hyman, Hobbs; and Bunchie Droke, Clovis.

The exhibitions closed with a demonstration by LeMaster.

Mr. and Mrs. T. A. Henson and Mr. and Mrs. Jarold Jones spent the week-end at Ruidosa, New Mexico.

MISS SHIRLEY FAVER... Bride-elect of Keith Streeby, whose engagement has been announced, and who will marry about the middle of August. Parents of the bride-to-be are Mr. and Mrs. T. C. Faver of eight miles northeast of Littlefield, and the groom-elect is the son of Mr. and Mrs. J. A. Streeby of five miles east of Littlefield.

Martha Sue Beason And Winston Ferguson Married at Amherst

Miss Martha Sue Beason became the bride of Winston Ferguson Thursday evening May 28, at the Baptist parsonage in Amherst.

Rev. John Rankin, pastor officiated with the double ring ceremony. The bride is the daughter of Mr. and Mrs. E. E. Beason and the groom is the son of Mrs. B. M. Ferguson, all of Amherst.

The bride wore a ballerina length dress of white organdy. It was made with a fitted waist and bouffant skirt. The full skirt was fashioned of panels.

She wore a small flower hat of orchid, with orchid accessories and she carried a bouquet of pink rosebuds.

Mrs. Bill Carter, a sister of the bride, from Placerville, California, was the matron of honor. She wore a dress of iridescent chambray with a pink carnation corsage.

Bill Griffin was the best man. After the ceremony a reception was held at the home of the bride's parents for relatives and close friends of the family.

Miss Billy Ruth Fieldton served the punch, while Mrs. Roy Beason, sister-in-law of the bride, cut and served the cake.

Mrs. Jack Dyer... who previous to her marriage on Friday June 5, was Miss Arlene Hoffman, and is the daughter of Mr. and Mrs. W. C. Hoffman of Lubbock.

Mr. and Mrs. W. B. Dyer of Star Route, Hale Center, are the parents of the groom. The couple were married in St. Elizabeth's Catholic Church, Lubbock, with the Rev. Bertrand Roberts officiating with a double ring ceremony. The couple will be at home at Cotton Center.

Mr. and Mrs. Burgess are 1952 graduates of Olton High School having attended school at Olton all their high school life.

Juanell Crawford and Kenneth Miller Married Sunday In Church Ceremony

Jolene Wozencraft And Freddie Burgess Wed At Olton

Sunday afternoon June 7 at 2:00 o'clock in the first Baptist Church, Olton, Miss Jolene Wozencraft, daughter of Mrs. Edley Wozencraft, Olton and Mr. Melvin Wozencraft, California, was married to Freddie Burgess, son of Mr. and Mrs. Bob Burgess of Olton.

The church was decorated with an archway and gates with greenery amid baskets of white gladiolas and palms. Tall white tapers burned on each side of the arch. Rev. John Watt, Lovington, New Mexico officiated at the double ring ceremony.

Gwen Phillips played the traditional processional and recessional wedding marches and rendered soft music during the ceremony. Dorothy Watt, of Lovington, New Mexico, accompanied by Gwen Phillips sang, "Because" and "Indian Love Call".

The bride, given in marriage by her brother Max Wozencraft, was a picture in a bridal gown of white lace and satin. The gown was styled with a lace bodice with self covered buttons and the sleeves coming to a point on the hands. The skirt was of satin with a train. Her finger tip silk illusion veil fell from a coronet of blossoms.

She carried a bouquet of white carnations atop a white Bible, a graduation gift from the Baptist Church.

For something old she had a silk handkerchief belonging to her grandmother Wozencraft; something new, bridal gown; something borrowed, pearl necklace and earrings belonging to her grandmother Wozencraft; a blue garter and a penny in her shoe.

Nora Lee Wozencraft attended her sister as maid of honor, and Rosalie McFadden, Sue Macon and Nina Vernon, Lockney were bridesmaids. They wore pastel gowns of blue, yellow, green and orchid and carried bouquets of carnations to match their gowns.

Lenville Hines was best man and James Johnson, Littlefield, Donald Kerby, and Troy Pritchard, Plainview, cousins of the groom, were ushers.

The reception was held in the church fellowship hall immediately following the ceremony. Leabelle Sluder, cousin of the bride, served the cake and Melba Kirby, cousin of the groom, poured the punch.

For a wedding trip to Ruidosa, New Mexico the bride chose a grey dress trimmed in navy blue with white accessories. The couple are now at home in the Hines apartment and Mr. Burgess is engaged in farming with his father.

Mr. and Mrs. Burgess are 1952 graduates of Olton High School having attended school at Olton all their high school life.

At the Springlake Church of Christ Sunday, June 14 at 4 p. m., Miss Juanell Crawford of Springlake became the bride of Kenneth Miller of San Antonio.

Judge Otha F. Dent, uncle of the bride, read the ceremony before an arrangement of greenery, white tapers and white gladiol.

The bride, given in marriage by her father, Mr. Floyd Crawford, was attired in a ballerina style gown of white embroidered organdy trimmed in seed pearls. Her elbow length veil of tulle was attached to a tier of pearls.

She carried a bouquet of Stephanotis centered with a white orchid.

The maid of honor, Miss Lois Clevenger of Dimmitt, and the brides maid, Miss Rita Crawford, sister of the bride, were dressed in identical gowns of white organdy over pink with pink velvet sashes.

Miss Floydell Crawford, sister of the bride, also dressed in pink was flower girl.

C. H. Jarrett of Ed Couch, Texas, was best man.

Tom Couch of Texarkana served as groomsman.

Donnie Dent of Littlefield, cousin of the bride, and Jolene Kirkpatrick of Springlake lighted the candles.

Guests were registered by Miss Frankie Bozeman of Springlake.

Ushers were Dale Crawford, brother of the bride, and Ted Starns of Abilene.

Recorded vocal music was furnished by the A Cappella Choir of Abilene Christian College with Mary Blake and Tommy Carter, soloists. Selections included, "Because", "I Love Thee", and traditional wedding marches. Miss Janabeth Laing of Earth interpreted Elizabeth B. Browning's sonnet, "How I Love Thee".

Mrs. Floyd Crawford, mother of the bride, wore a rose lace dress. Mrs. Miller, the groom's mother, was attired in a navy blue suit. Both wore corsages of white Stephanotis.

Immediately following the ceremony a reception was held in the parlor of the church.

Miss Runette Plowman of Abilene and Miss Sue Zeman of Springlake served the guests.

For their wedding trip to Ruidosa, New Mexico, the bride chose a pink faille suit fashioned with full skirt and white accessories.

Following their honeymoon, the couple will be at home in Abilene, Texas, where both are drama students at Abilene Christian College.

Out-of-town guests were: Miss Gayle Collier, speech instructor of Abilene Christian College, Miss Dorothy Adams from Sulphur Springs, Texas, Mr. and Mrs. Moran Sturgess and family of Tulla, Texas, Mr. and Mrs. James Cox of Abilene, and Mr. and Mrs. N. C. Clevenger of Dimmitt.

FARR'S JEWELRY LITTLEFIELD

COUNTY AGENT'S WEEKLY LETTER
FARM NEWS

The dryland cotton outside of the sandy soil is beginning to die. Because of the lack of moisture. A lot of farmers in the south of the county are dusting in cotton seed so that they can obtain a stand of cotton in the next few days.

From Hampton Gin east to the county line the farms have not had enough moisture to plant on, and as the time to plant cotton is about past, most of the acreage in that area will have to go to feed, grain sorghum, Sudan or peas, because of the lateness of the season.

From time to time we have had questions concerning the activities of the National Cotton Council of America, and the uses to which the 10 cent per bale were put, that the farmers and ginners give.

Research and promotion pays dividends for cotton. We therefore will give a few of the things that the council is doing in those fields.

We have about 130,000 acres of irrigated and about 60,000 acres of dryland cotton up to a good stand in Lamb County, but we are going to have to have some rain to save the dryland.

Gains for cotton in apparel and household uses resulting from research and promotion are affecting recent heavy losses sustained in industrial uses. Research and promotion are not being applied in Europe to rebuild cottons foreign markets as well.

Lack of adequate research, trade sources say, has caused the losses in the tire cord market. However, despite the fact that cotton has lost over half a million bales in tire cord and bags, domestic consumption is now running at an annual rate of 9.4 million bales; 2 1/2 million bales more than the average of any five year period prior to 1940.

Improved qualities and heavy promotion of cotton products have been important factors accounting leaving its rival, rayon, far behind in many household and apparel uses. In fact, leading rayon yarn producers have recently set up their own promotional organization—Rayon Information Center—to do the same kind of job for rayon that the National Cotton Council has done for cotton. The Center has an initial budget of \$750,000 set up for this purpose.

The National Cotton Council, which is made up of the raw cotton interests, is not letting up in its programs of research, promotion and production efficiency, however. The industry is now in the midst of a drive for expanded farm research and education as well as research to improve the quality of the finished product. It is also pushing forward with the hardest sales promotion effort in the history of the industry.

To recapture a dwindling foreign market, the cotton industry has sent top flight men to Europe to help initiate promotion and research program. The programs will be patterned after those that have proved so successful in the country.

The director of the Council's sales promotion division met with textile representatives of the French, English, Dutch, West German and Belgium to discuss sales promotion plans for increasing consumption in Europe.

In another series of conferences, the director of the Council's foreign trade division and a team of cotton scientists told how improved qualities of American cotton could best be utilized by European mills and described new techniques being used in America to improve quality.

The National Cotton Council is financed and governed by the six branches of the cotton industry—producer, ginner, crusher, warehouseman, merchant and spinner. Its policies and program are decided upon by a delegate body selected by the respective form and cotton organizations in each state. The programs of the Council are all aimed at increasing the consumption of American cotton and cottonseed through research, promotion, production efficiency and by earning the goodwill of the general public.

Bag worms excel in the art of camouflaging. Usually confined to arborvitae, Italian spruce and similar cedar-like plants, this year bag worms are attacking brodia leaf plants such as althea, elm, roses, oaks and many others.

Now is the time to begin your campaign to destroy the bag worms. When first hatched, the bag worms are so little and well covered, it is difficult to see them. They spin a cone-shaped, water-proof silk cover and conceal the cone with bits of bark and green leaves. As they grow, the bag worms add to this tent-like home, only sticking their heads out long enough to feed on the tender tips of plants. The cone-shaped cover grows with the bag worm and may be as large as three or four inches by August.

Claudine Curry and Raiford Daniel To Wed June 21

Miss Claudine Curry was honored with a tea Saturday afternoon, June 6 at 4:00 o'clock in the home of Mrs. J. C. McComb, 4006, 32nd Street, Lubbock.

The tea was given by her sister, Miss Johanna Curry to announce her engagement and forthcoming marriage to Raiford Daniel, Jr., Olton, on June 21, 1953.

Tea, nut drop cookies and ribbon sandwiches were served by the hostess, Mrs. McComb.

The color motif of pastel green and orchid are the chosen colors of the bride-elect.

Guests from Olton included Mrs. C. C. Curry, Mrs. Raiford Daniel, Sr., and Misses JeVern and Betty Daniel.

Sammy Batton and Virgil F. Johnson To Wed July 10

The engagement and approaching marriage of Miss Sammie Batton and Virgil F. Johnson has been made by the bride-elect's parents, Mr. and Mrs. Sam H. Batton of 3809 Toledo, Lubbock, formerly of Littlefield.

Mr. and Mrs. W. L. Johnson of 2108 7th Street, Lubbock, are parents of the groom-elect.

The couple are students in Texas Tech.

They have chosen July 10 as their wedding date. The ceremony will take place in the Ashbury Methodist Church, Lubbock.

Mrs. Hampton Hostess To Sunnyside H. D. Club Recently

The Sunnyside H. D. Club met with Mrs. W. O. Hampton, June 5 for a program on household storage. Roll call was answered with a storage hint, and Mrs. B. L. Wheeler distributed leaflets on storage suggestions.

Mrs. Edd Mote presided at the business session in which plans were completed for the Chamber of Commerce farm dinner held June 9.

Refreshments of punch and cookies were served to Mesdames W. W. Borden, L. L. Massengill, Edd Mote, L. G. Grizzle, Bill Cape, Lee Holtcamp, J. F. Minyard, E. D. Brooks, S. A. Davis, R. C. Jennings, B. L. Wheeler, Walter Schroeder, B. D. Birkelback, Claude Russell, Paul Lewis, J. G. Perkins, C. F. Bryce, C. K. Pillon, J. R. Lackey, W. I. Banks, Miss June Lackey and the following visitors, Mrs. Carlyle, Mrs. Bill Brantley, Misses Ellen Massengill and Carrie Grizzle.

The next meeting will be on June 26 in the home of Mrs. Harry Williams with Mrs. Clyde Hauk as hostess.

Mr. and Mrs. Jimmie Parker and two children of Fort Worth are here visiting his grandmother, Mrs. Jennie Parker. They came Saturday for a few days visit.

The bag worms should be killed now before they reach a mature stage. A lead arsenate spray, applied once a week, will kill them before the bag worm destroys or seriously damages a plant. To make the spray solution, mix three tablespoons full of lead arsenate in a gallon of water. If it rains, spray more often because rain washes the poison off the plant. Usually two sprayings are enough. These pests die slowly, often taking ten days. When dead their rwell built protection will cling to limbs for months and even years. It is a tedious job to pull the bag worms off the hand when they are full grown. Spraying the plant with lead arsenate during June and July while the insects are young will keep them from injuring the plants seriously. Old ones may escape to produce eggs for next year's crop.

Market news reports on East Texas tomatoes are now being issued by the U. S. Department of Agriculture.

Daily reports during the rest of the season will originate from the Dallas fruit and vegetable branch, USDA's Production and Marketing Administration. Eugene Paulson, market reporter, isn't charge.

Tomato bulletins contain F. O. B. shipping point information and wholesale prices at major terminal markets. Also they show shipments by state and district, primary destination and track and truck holdings at large cities.

In addition, these reports contain information on watermelon shipments, F. O. B. information from areas outside of outside Texas, a few terminal market prices, track holdings and truck arrivals.

Producers and other persons interested in these daily bulletins should send requests to the fruit and vegetable market news office, Room 553, Terminal Annex, Dallas.

Bride-elect Honored At Shower Thursday

The former Miss Sue Minyard, bride of Bob Sprouts of Lubbock, was honored a bridal shower Thursday evening June 11, when a group of hostesses entertained in the home of Mrs. C. B. Jaquess. Those in the house party were Mesdames Lyle Brandon, Edd Mote, Ross Lumsden, R. C. Jennings, W. O. Hampton, J. G. Perkins, W. R. Faver, T. C. Faver and Miss Shirley Faver.

Games were directed by Mrs. Lyle Brandon. The bride's mother, Mrs. J. F. Minyard, and the mother of the groom, Mrs. J. C. Sprouts, assisted the honoree in opening the lovely and useful gifts. The hostess gift was an electric iron.

Pastel blue was carried out in the refreshment plate of lemonade and cookies. Plate favors were tiny white brides bouquets tied with blue ribbon with the names "Sue and Bob" written in white on the streamers.

About thirty guests were present, and others sent gifts.

LEGAL NOTICE

ORDINANCE NO. 132
An ordinance prohibiting drilling or operating wells for oil and gas and other mineral within the corporate limits of the City of Littlefield, Texas, without a permit, providing regulations controlling the drilling of such wells: Fixing the terms and conditions for securing permit: Providing for fees to be paid for said permit: Providing for posting of bonds to indemnify the city and/or the individual from loss by virtue of operating said wells, and fixing the amount of said bonds, providing for the dividing of the city into drilling blocks and limiting the number of wells to be drilled in any one block: Establishing a tax on production from such wells: Making the violation of this ordinance a misdemeanor: Fixing the penalties for such violation: Repealing all laws in conflict herewith and declaring an emergency.

SECTION 14. Any violation of any of the terms of this ordinance, whether herein denominated as unlawful or not, shall be deemed a misdemeanor; and any person convicted of any such violation shall be fined a sum not exceeding one hundred dollars (\$100.00); and any natural person so convicted shall be committed to jail until such fine and costs are paid. Each day of the continuance of such violation shall be considered a separate offense and be punished therefor.

A. C. Chesher, Mayor
L. C. Hewitt, Commissioner
L. C. Campbell, Commissioner
Attest:
W. G. Street, City Secretary 5-11-C

LEGAL NOTICE

NOTICE OF BOARD OF EQUALIZATION MEETING

In obedience to an order of the Board of Equalization, regularly convened and sitting, notice is hereby given that said Board of Equalization will be in session at its regular meeting place in the court house in the town of Littlefield, Lamb County, Texas at 10:00 o'clock a. m. beginning on Tuesday the 30th day of June, 1953, and from day to day thereafter, for the purpose of determining, fixing and equalizing the value of any and all taxable property situated in Lamb County, Texas until such values have finally been determined for taxable purpose for the year 1953, and any and all persons interested or having business with said Board are hereby notified to be present.

Joel F. Thomas, County Clerk,
Lamb County, Texas
Lamb County, Littlefield, Texas.
17th day of June, 1953.

LEGAL NOTICE

Notice is hereby given that JOHN W. MURCHISON of San Antonio, Bexar County, and THE TEXAS COMPANY, a Delaware corporation, acting under and pursuant to the terms and provisions on an ordinance regulating the drilling of Oil and Gas Wells within the limits of the city of Littlefield, Texas, and providing for the public safety in connection therewith, being Ordinance No. 132, did, on the 17th day of June, 1953, file with the City Secretary of the City of Littlefield, Texas, an application for a permit to drill a well for oil and/or gas at a location 440 feet from the west line of Labor 12, League 664, in Lamb County, Texas, and 793 feet from the north line of said labor 12, league 664, which location is within the city limits of the City of Littlefield, Texas, and is in Drilling District No. 98, and defined by Ordinance No. 132. Hearing upon such application will be held in the office of the City Secretary of the City of Littlefield, Texas, at the City Hall in Littlefield, Texas, on the 29th day of June, 1953, at 10 o'clock a. m. 5-11-C

Frank Daugherty To Attend University Of Texas

Frank Daugherty, The Olton High School track sensation, who set a new national high school record of 29.5 seconds in the 220 yard dash on May 8, has accepted a track scholarship from the University of Texas. He also turned in a 9.6 time in the 100 yard dash.

FRANK DAUGHERTY

His effort in the 220 bettered Jesse Owen's 1933 mark but was not official because a 15 mile an hour wind backed Daugherty during the race. His best time in the 100 yard dash was 9.5 seconds at the Caprock Relays at Slaton this spring. Daugherty was unbeaten in the dashes all season.

MORRIS AND SON OPEN THEIR THIRD SERVICE STATION

Morris and Son recently opened a new service station at the corner of Phelps Avenue and Sixth Street. They operate three stations to serve you in this area, one on the Levelland highway, one on the Amherst highway and the new downtown location. Whether you need gasoline, motor oil, washing, greasing, tire repair or battery charging pay them a visit. They are offering specials for this week-end only, these specials will be good at all three stations. In connection with the opening of their new station, Morris and Son will offer refreshments for the children, when accompanied by their parents.

Time of Services Are Changed At Emmanuel Lutheran Church

Regular worship at Emmanuel Lutheran Church, 417 West 3rd, have been changed to 8:30 p. m. this coming Sunday evening. Sunday School will precede at 7:30. A guest minister, Rev. William Gummelt of Lariat, will fill the pulpit Sunday night while the vacancy pastor, Rev. Louis Fabor, is attending a Synodical Conference at Houston. The vacancy was created when Rev. H. A. Heckman accepted a call to Harlingen after serving here four years. Beginning Sunday June 28, worship services will start at 8:30 a. m. with Sunday school following at 9:30. The earlier hour is necessary to allow Rev. Fabor to fill his regular post at Lubbock.

Summer School Examinations Are Being Given Friday of This Week In All Classes

According to school officials, summer school term examinations are being given Friday of this week in all classes. This closes the first term of summer school. Students desiring to make a half credit during the second four weeks should enroll at the high school Monday morning, June 23. Classes start at 8 o'clock, and continue until noon, for five days each week. The tuition for one term is \$12.00.

Lamb County Posse Plan To Attend Santa Fe Rodeo July 9, 10 and 11

The Lamb County Posse will meet Monday June 29 in the court room at the court house at 8 p. m. The meeting is being called to discuss plans relative to attending the Santa Fe Rodeo, which is scheduled to be held July 9, 10 and 11. The Lamb County group rode in the Brownfield rodeo parade last Thursday. There were 26 members of the Posse attended from Littlefield.

To Sing At Ten Day Revival

Tommy Meers, son of Dr. and Mrs. Weldon B. Meers, left Saturday afternoon for Amarillo, Texas where he will be leading singing for a ten day revival meeting at the Central Baptist Church of Amarillo.

Lieutenant Joplin To Visit Parents Here

Lieutenant Charles Joplin, who has been stationed at Camp Chaffee, near Fort Smith, Arkansas, is expected to arrive in Littlefield today to spend from Thursday until Sunday here with his parents, Mr. and Mrs. Arbie Joplin. Lieutenant Joplin is being transferred to Fort Benning, Georgia, and they will leave Sunday for his new station. His wife, who has been living in Lubbock will join him here and go with him to Georgia.

Mrs. Stacy Hart Hostess To Wesleyan Guild

Mrs. Stacy Hart was hostess to the members of the Wesleyan Guild of the First Methodist Church Tuesday night. After a short business session, presided over by the president, Mrs. Hilbun, Mrs. Buster Owens, Jr., gave a short devotional. Miss Viola Rettman introduced the guest, Mrs. J. F. Ward of Hereford, who brought an inspirational message on pioneers, both of the Bible and in America. She, herefore, is a pioneer. Refreshments of frosted punch and cookies were served to the following: Mesdames Tom Hilbun, Dan French, Dick Carl, Richard Rogers, Bob Bennett, Leon Jennings, Buster Owens, Jr., James Shotwell, Marshall Howard, and Misses Viola Rettman and Louise Chisholm, and guests, Mrs. J. F. Ward and Mrs. O. G. Hill, Jr. of Hereford, and Mrs. Homer Garrison of Littlefield.

Heart Attack Fatal To William Owen Roebuck, 72

William Owen Roebuck, 72, passed away Sunday at 11 p. m. at his home, nine miles southwest of Olton, as the result of a heart attack. Funeral services were conducted Wednesday morning at 10 o'clock at the Roebuck residence with Bro. Grady Pricer, minister of the Church of Christ of Springlake, officiating, assisted by Bro. Marvin Sturgis of Tulla. Burial, in charge of Hammons Funeral Home, took place in the Olton Cemetery. Mr. Roebuck had been a resident of the Olton area for 25 years. He is survived by his widow, Mrs. Ruth Roebuck, a son, Owen Roebuck of Hartford, Conn., and a daughter, Mrs. John Tesovnik of Bakersfield, California.

Dr. and Mrs. Meers Have Guests

Mr. and Mrs. J. T. Rosson and family of Austin, Texas, were guests in the home of Dr. and Mrs. Weldon B. Meers Monday. Accompanying them was Mrs. Naomi Rosson of San Saba, Texas who plans to visit for a while in the home of her daughter, Mrs. Meers.

SUITED FOR TRAVEL

Ready to take off on a flying vacation to Caribbean islands, this smart vacationer is well-suited to travel in a three-piece ensemble. The Hope Skillman's chambray. The loose, straight-hanging coat is an incoming fashion that is due for a long lift. The matching cotton blouse and jacket lining are typical of the costume that will be seen frequently this summer.

LYMAN'S
RECIPE OF THE WEEK
By Mary Lee Taylor
Ribbon Icebox Dessert
1 Breakfast Jugs 20, 1953
9 Graham crackers 1 package preserved
2 1/2 lb. pound heavy cream
1/4 cup soft butter 1/4 cup Fat
1 cup powdered sugar 1/4 cup evaporated Milk
2 Tablespoons Fat 1/4 cup cream
1 cup Raisins 1/4 cup dried
1 cup Juice off fruit cocktail
Use a loaf pan holding about 6 cups.
Line bottom of pan with half of graham
crackers, cutting crackers to fit if necessary.
Put butter into a bowl, beat powdered sugar, about 1/4 cup at a time.
Stir in 2 tablesp. milk, a table-
spoon at a time. Spread on crackers in
Cover with rest of crackers. Chill in
juice to boiling. Add gelatin and
milk dissolved. Cool, but do not
divide into 2 equal parts. Let cool
stand at room temperature until
the 1/4 cup milk into other part
chill until slightly thicker than un-
der whites. Then beat with
beater or electric beater at high speed
until fluffy. Pour over crackers.
Chill. Add water and fruit
all in lower half of gelatin. Pour
chilling liquid over in pan. Chill
until set. Cut into squares. Makes 4 squares.
*If there is not enough juice, add water.

NEW POSTOFFICE BUILDING

A new post office on First Street was opened for business Monday...

Postmaster Simon D. Hay said the building would give postal employees 600 more feet of work...

At SUPPER Mrs. Olan Roark, who moved to Muleshoe, were at a backyard supper...

SUDAN ROTARY BARBECUE JUNE 26

The annual Sudan Rotary Club barbecue will be held on the lawn of the Simon D. Hay home here...

The newly organized Sudan Lions Club will be invited to furnish a portion of the entertainment. New officers to be installed are: J. W. Miller, president; James P. Arnold, vice president...

With the exception of an out of town speaker to be announced later, the Sudan Lions and Rotarians will present an entertainment at the barbecue...

President W. V. Terry announced at the last club meeting that effective July 1, the Rotary Club would change its meeting dates...

NEW PASTOR OCCUPIES PULPIT

The Rev. H. F. Dunn has assumed his duties as pastor of the Sudan Methodist Church. He replaces C. R. LeMoand who is now at the Tenth Avenue Methodist Church in Amarillo.

Rev. Dunn was born in Jones County, Texas and received his high school education at Coahoma in Howard County. Following his graduation from McMurry College, Abilene, he accepted his first pastorate at Bakersburg, Oklahoma...

Mrs. Dunn is also a native Texan having been born and reared in Shackelford County. She and Rev. Mr. Dunn were married in 1937.

Rev. and Mrs. Dunn and five children have established their home in the parsonage next door to the church. The children are Weymond, 15, a junior in high school; Eleanor, 13, a freshman; Elaine, 12, Treva, 8 and Barbara, 6 years old, all in grade school.

GIRL SCOUTS Attend Camp

Ten Sudan Brownie Scouts and their leaders attended the XIT Girl Scout Day Camp held at Littlefield last week.

The camp included swimming, hiking, outdoor cooking, arts and crafts, games and singing. Brownie Scouts attending from Sudan were Carol Ann Watkins, Carole Wood, Ruby Wilkinson, Wayne Howell, Glenna Gatewood, Sue Lurch, Carole Ann Harper, Gale Masten, Dyanne Curry and Karen May.

O. E. S. Install Officers

Installation of officers for the Sudan chapter of the Order of the Eastern Star, held in the Masonic Hall Monday night at 8:30 p. m. The Rev. M. A. Walker of Amarillo, a former Sudan resident, was the installing officer...

Elective officers installed in the program were: Worthy Matron, Mrs. Hazel Gaston; Worthy Patron, Joa Rone; Associate Matron, Veda Terrell; Associate Patron, Dorman Chester; Secretary, Mrs. Homer Doty; Treasurer, Mrs. A. Pinkerton; Conduress, Mrs. Charles Logan.

Appointive offices installed were: Chaplain, Laura Martin; Marshall, Ime Olds; organist, Mrs. Wayne Brown; Adah, Mrs. J. M. Shuttlesworth; Ruth, Mrs. Hershel Olds; Easter, Willie Terrell; Electra, Mrs. R. E. Ragan; warder, Mrs. J. B. Bottoms; sentinel, Mrs. O. Solomon.

Following the installation ceremonies the worthy matron brought greetings revealing her colors, motto and plans for her work for the ensuing year.

Olton News

ATTEND LIONS CONVENTION

Several Olton Lions Club members and their families attended the district convention at Borger last week-end.

Included among those attending were Mr. and Mrs. G. H. Bley and Carmen, Mr. and Mrs. Royce Vernon and family and Lions Club queen contest entrant Miss Gayle Silcott. Miss Barbara Cornelius accompanied Miss Silcott.

The convention began Friday noon and continues through Saturday night.

IN HOSPITAL

Miss Judy Ogletree, 12-year-old daughter of Mr. and Mrs. O. R. Ogletree, is confined in W. I. Cook Memorial Hospital in Fort Worth, where she has undergone surgery. Reports here are that she is improving.

She will be kept in the hospital three weeks. Her address is as follows: Miss Judy Ogletree, W. I. Cook Memorial Hospital, 1212 West Lancaster Avenue, Fort Worth, Texas.

IS COURT REPORTER

Clifford Carlisle, son of Mr. and Mrs. V. J. Carlisle, Olton, is in Brewton, Alabama, where he has been appointed official court reporter.

The appointment was made by Judge A. T. Elliott.

Carlisle graduated with the 1952 class of Olton High School and entered Luppert's Business College where he trained to become a stenographer.

TAX SALE ON LOTS

Next tax sale on Olton city lots will be held on July 7 in Littlefield.

PARENTS OF SON

Mr. and Mrs. Ralph Roper, Jr., are the parents of a baby boy born Friday June 1, in the South Plains Hospital at Amherst.

The little lad weighed 6 pounds and 11 ounces and has been named Jackie Hay. He will reside with his parents at Star Route 2, Hart, after Monday June 8.

Paternal grandparents are Mr. Ralph Roper, Olton and maternal grandparents are Mr. and Mrs. Wyatt Burkhalter of Lubbock.

WHEAT HARVESTED

Approximately 4,000 bushels of Hart's 1953 wheat crop had come in to Hart elevators.

Although the acreage is relatively small, the production is reported at from 20 to 25 bushels an acre. The test is running from 60 to 64.

About a half dozen farmers are harvesting. The harvest is scheduled to reach a climax some time this week.

DAUGHTER BORN

A baby girl was born Monday June 8, at Olton Memorial Hospital, to Mr. and Mrs. Kenneth Sanders of Springlake.

At birth she weighed 7 pounds, 2 1/4 ounces and has been named Sonya Beth. The paternal grandmother is Mrs. H. T. Sanders. The maternal grandparents are Mr. and Mrs. M. M. Smith.

ATTENDS SERVICES

County Judge Otha F. Dent and Bates Loftis of Olton, attended funeral services at Frederick, Oklahoma, for Jack Masters.

Mr. Masters, 92 years old, lived in the Olton Community from 1926 until 1942, when he moved to Oklahoma.

A masonic service was held, with interment in the Frederick cemetery.

'THE BABE' WASHES UP—Babe Zaharias smiles as she washes the hood of the Zaharias' new Cadillac during a visit to the R. O. Bowen home in Fort Worth. Once the world's greatest woman athlete, Mrs. Zaharias is now recovering from a cancer operation.

Amherst News

Number of Pastors Changes are Made

A number of pastoral changes were made at the Northwest Texas annual Methodist Conference held at St. Paul's Methodist Church in Abilene recently.

In Lamb County, Rev. Harry Vanderpool was returned to the First Methodist Church in Littlefield, as was Rev. Darris Egger to the First Church at Amherst.

Rev. H. F. Dunn, formerly of Lorenzo, was transferred to the church at Sudan and Rev. William H. Watson, formerly of Texas Tech, is the new Whitharral pastor.

At Anton, Rev. Hugh Blaylock is the new pastor, coming from the armed forces chaplaincy.

Rev. George Bryant, former Bula pastor has retired, and his many friends will be glad to know that he is living at 1917 Dixie Drive in Lubbock. No replacement was announced for the Bula church.

Rev. R. H. Campbell of Plainview is the new pastor at Olton. A. N. Motes was transferred from Grassland to the Epochs church.

Rev. John R. Wood was returned to the Earth church.

Rev. Lamond moved from the Sudan church to the 10th Street church in Amarillo; Rev. Paul Boyer went from Whitharral to Pampa district. Rev. Aubrey White went from Olton to Merkel, and Rev. J. C. Arnold was transferred from Epochs to McAdoo.

W. C. 'Hoot' Cannon was delegate from Littlefield church to the conference, where reports were heard from the 289 churches in the conference and pastoral assignments were made.

At the conference, the Littlefield church reported that 94 new members were added to the church making a total membership of 630 at the time of the conference. Sunday School membership was 554, an increase of 59 over the previous year.

WSCS membership is 90, and 71 in Methodist Men.

Mr. and Mrs. Darwin Pierce and daughter, Pam, of Carlsbad, New Mexico, formerly of Littlefield, visited Mr. and Mrs. Charles Calvert over the week-end.

PARENTS OF SON

Mr. and Mrs. Ralph Roper, Jr., of Star Route 2, Hart, are the parents of a son born Friday June 1, in the South Plains Hospital, Amherst.

The infant weighed 6 pounds, 11 ounces and has been named Jackie Ray.

Paternal grandparents are Mr. and Mrs. Ralph Roper, Olton, and maternal grandparents are Mr. and Mrs. Wyatt Burkhalter of Lubbock.

DAUGHTER BORN

Mr. and Mrs. John Wiley are the parents of a new daughter born June 4 in the South Plains Hospital. The infant weighed 6 pounds, 12 ounces and has been named Brenda Joyce.

Lamb County Leader

LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, JUNE 18, 1953

NO. 5

Lamb County Farm Bureau Protects and Promotes Farmers at Capital

Lamb County Farm Bureau Federation, with its slogan—"Protects Agriculture"—during the session of the 53rd Legislature at Austin, according to the president of the county Farm Bureau.

Farmers and other rural leaders made the most important session of the session was the abatement of the real threat to take the rural road program an appropriations, the counties' vehicle registration fees and road bond assumption.

The 1951 session an attempt was made to take from the farmer's refund tractor tax, for use in construction of superhighways. The Farm Bureau mustered strength to defeat the bill, which passed late in the session through a gathering of rural gas.

At the state capital, the bill was introduced to take away the farmer's refund tractor gasoline tax. The bill never considered. Also, a bill introduced to increase the tax on gasoline from 10 cents a gallon. It, too, failed to pass.

Contrary to Farm Bureau wishes, and the county organizations over the session up to help prevent the bill which would have been introduced to rural dwellers—was the Administration plan to reshuffle school funds and force the counties to bear an increased share of the Minimum Foundation Fund. The Farm Bureau among many civic-minded citizens which successfully defeated the bill.

Dry winds are about the only thing flowing under the international bridge at Laredo in this picture taken from U. S. side and looking toward the modernistic

Mexican border station housing immigration and customs offices. The bridge connects the cities of Laredo, Texas, and Nuevo Laredo, Mexico.

Mexico. In front of the Mexican border station is the big concrete levee built as a protection against floods. (AP Photo)

David Wynn, Aged 8, Registers For Tech Summer Orchestra School

Among the students registering for the summer orchestra school at Tech College Thursday, was 8-year-

old David Wayne of Amherst, who plays a half violin. He is the son of Mr. and Mrs. May Wayne. The father teaches choral music and piano and the boy's mother teaches first and second grades in the Amherst school.

The orchestra school is one of the three summer schools for secondary students under the sponsorship of the Tech music department. Raymond Elliott, a member of the music faculty, is co-ordinator, and Randall Raley, in charge of the string program in Lubbock public schools, is director of the orchestra unit.

The faculty includes Dr. Herbert M. Preston, conductor of the Hardin-Simmons University Symphony, Mrs. Dorothy Summerlin, Austin, and Mrs. Patsy Gibbs Scroggins, Dallas.

The two-week school will have its commencement program on June 24. The time, place and program will be announced later. And you can bet your boots that David will be in there playin' fortissimo and his pint-size—excuse it, please—his half-violin.

Soil Conservation Notes

The board of supervisors of the Lamb County Soil Conservation District met last Monday night for their regular meeting. Plans were approved on 27 farms and covering 6,983 acres. These plans were marked out jointly by the Soil Conservation Service technically assigned to the district and the individual farmers.

After a discussion the board decided to purchase a spurling meter and water level tester for use in measuring well output and determining the depth to water. These two pieces of equipment are very valuable in telling a farmer whether his pump is worn out or if his water supply is declining.

There has been a growing interest among farmers in the planting of cowpeas by the farmers in Lamb County Soil Conservation District. The planting of cowpeas in the same furrow with grain sorghum at approximately 5 pounds per acre, is becoming very popular.

Most equipment companies are putting out special attachments for planting them together. The benefit of this practice can be figured several ways. First it produces a lot of green tonnage which furnishes active organic matter to soil. Second they are like other legumes in that they are capable of taking nitrogen from the air and fixing it in the soil. Third, the peas shade the ground thereby cutting down on the evaporation from the bare ground between the rows.

Dimmitt Couple Injured in Three Vehicle Accident Near Springlake

Furr Food Managers Meet At Estes Park, Colo. Monday, Tuesday, Wednesday

Furr Food Stores with headquarters in Lubbock held their second annual managers convention at Estes Park, Colo. Monday, Tuesday and Wednesday of this week.

Attending from the Littlefield store were Kenneth Hingle, manager, and Mrs. Hinkle, and Raymond Moore, manager of the Furr Food Market, and Mrs. Moore, who left here Sunday and will return Friday.

Joe Oakley, assistant manager, will be in charge in Mr. Hinkle's absence.

The group of 200 persons convened at the Stanley Hotel in Estes Park for the three-day session. Roy Furr is president of Furr's Inc. Last year the market managers, department heads and executives and their wives met at The Lodge, Cloudcroft, New Mexico.

The event started with a chuck wagon meal Monday night and concluded with the Wednesday noon luncheon. The featured event was a Tuesday night banquet and dance with Art Mooney's orchestra playing, plus four acts out of Denver. Prizes of all kinds were

(Continued on Back Page)

BENSON TO APPEAR AT TECH
—Secretary of Agriculture Ezra Taft Benson will appear for a speaking engagement on the Texas Tech Campus June 27 as part of the American Cotton Congress in Lubbock, June 25-27. Secretary Benson will take part in the Congress Field Day on the campus where exhibits will be on display.

Troy Joe Langford, 24, and his wife, 22, of Dimmitt, were admitted to the South Plains Hospital about 11 a. m. Saturday, suffering from injuries sustained in a three vehicle collision about 2 1/2 miles north of Springlake on State Highway 51. A small son also a passenger in the Langford car at the time of the accident, escaped injury.

Other vehicles reported by officers Clayton Culp and B. L. Warren of the Highway Patrol, as figuring in the collision were a truck alleged driven by Juan Quinonez, 18, of Springlake, and a car said to have been driven by Henry Olefter Shipp of Hart.

Mrs. Langford received a broken leg and cuts and bruises, and Langford a cut on the head. Both were reported in fair condition at the hospital.

Considerable damage was done to the Langford automobile and some damage also done to the other car.

Quinonez was arrested by officers Culp and Warren on a charge alleging the pulling onto the pavement without safe clearance and no operator's license. He appeared before Justice of the Peace Glenn, pled guilty and was fined \$42, including costs. In lieu of payment of the fine, he was placed in the Littlefield Jail.

WHAT WITH I.O.U.'S AND PAPER MAZUMA I'D JUST AS SOON PLAY "PUSSY WANTS A CORNER"

... and calves to Fort Worth was the second week of October, 1946, the week after OPA regulations were dropped. On that Monday, some 10,150 cattle and over 9,800 calves arrived. That being a season of heavy calf sales, which June is not, the combined totals far surpassed the Monday run at Fort Worth.

High grade cattle and calves found prices steady to weak, except prime dry lot fed heaves were steady to strong. However, the cull, common, plain and medium were fairly good cattle and calves were weak to \$1 lower. Shelly low grades were off fully \$1 and more.

Another larger offering appeared in the sheep barn at Fort Worth Monday, as receipts hit 14,500. Choice fat lambs of over 70 pounds were fully steady, lighter weights and the medium and lower grades were weak to \$1 or more lower. Ewes were \$1 off. Old bucks lost \$1. Choice fat yearlings were steady, but others dipped sharply.

Hogs were steady to 25 cents higher, topping at \$24.50 and \$24.75. Sows were steady at .20 to .22, and feeder pigs cashed at \$21 down.

Good and choice fed steers and

LAMB COUNTY LEADER, THURSDAY, JUNE 16, 1952

yearlings sold for \$17 to \$23.50, the day's top honors were shared by L. G. Davis of Shackelford County and G. A. McClung of Johnson County. Davis had 37 steers averaging 1,070 pounds at \$23.50 and McClung had 20 yearlings of 995 pounds at \$23.50. Common and medium grassers sold from \$10 to \$16, and cutter grades sold from \$7 to \$10. Fat cows \$8.50-12.00, a load of heiferettes averaging 1,025 pounds from G. A. White, Brady, topped at \$14.25. Canners and cutters \$5.00-\$8.50. Bulls from \$7.00-\$14.00, some shelly dairy breeds down to \$6 and below.

Good and choice fat calves \$16.00 to \$20.00, some yearling weights 500 pounds and up, \$21.50. Common and medium \$10.00-\$15.00, culls \$7.00-\$10.00. Good and choice quality stocker steer calves \$16.00 to \$20.00, good and choice stocker steer yearlings \$15.00-\$19.00, heifer calves and heifer yearlings \$2 to \$3 under comparable steers. Stocker cows \$10.00-\$13.00.

Good and choice milk lambs \$18.00-\$25.00, few to \$26.00-26.50 and cull, common and medium to good sorts from \$12.00-\$18.00. Feeder Spring lambs \$12.00-\$16.00. Feeder yearlings \$10.00-\$15.00, cull yearlings \$8.00-\$10.00. Fat yearlings \$17.00-\$20.00.

Two-year-olds \$9.00-\$14.00, and old wethers \$10.00 down. Old ewes \$3.00-\$5.00. Old bucks around \$3.

Make a **Double-Date** with a **"Rocket 8!"**

DRIVE IT YOURSELF!

You want a car you'll both be happy with—one that performs for a man, handles easily for a woman. We believe Oldsmobile's the answer. That's why we're launching this special "Double-Date" campaign—inviting you to come in and drive the Super '88" or Classic Ninety-Eight together. See for yourself how the "Rocket" Engine rules the straight-away, how Hydra-Matic's Super Range levels the hills, how the Power-Ride Chassis seems to iron out the roughest roads. Then ...

LET HER DRIVE IT TOO!

You'll learn that Oldsmobile has a double appeal—to men and women alike. She's probably told you already how she loves Oldsmobile's long, sweeping lines and luxurious Custom-Lounge interiors. But at the wheel she'll discover that this big, powerful car is as obedient to her touch as to yours—with Power Steering* and Power Brakes* taking the work out of driving. Come in together. Discover the double appeal of Oldsmobile!

*These Power Features and new Automatic-Eye are optional at extra cost

**Quotas and
Allotments on Wheat**

How shall state allotments be computed for the past 10 years? The National allotment apportioned to the states on the basis of the average seed acreage for the past 10 years. State acreage will include wheat acreage for the past 10 years. The 1943 Wheat Allotment for the years 1945, 1946, and 1947 will include wheat acreage computed under the 12, 79th Congress, for the years; and the 1950-51 wheat acreage will include diverted acreage for all applicable years. The state wheat acreage adjustment for abnormal conditions and for wheat acreage during the year. How will county allotments be computed in the state wheat acre-

age allotment will be apportioned to the wheat counties in the state on the basis of the same 10 years of wheat acreage and with the same adjustments for abnormal conditions and trends as are used in apportioning the national wheat acreage allotment to states. Adjustments may also be made for the proportioning the national wheat acreage allotment to states. Adjustments may also be made for the promotion of soil conservation practices in individual counties.

3. Question: How will farm wheat allotments be computed for 1954?

Answer: Each farm on which an acreage of wheat (seeded for any purpose or volunteer wheat reaching maturity) was grown for the 1951 or 1952 or 1953 crops will be entitled to a 1954 allotment as an "old" farm.

A farm on which there was no wheat acreage for the 1951 or 1952 or 1953 crops may receive a 1954 allotment as a "new" farm upon proper and timely application to the PMA county committee by the farm operator or owner. Not more than three per cent of the county acreage allotment may be used for establishing allotments for "new" farms.

Provision is also made for the establishment of equitable allotments for (1) farms acquired by owners who were displaced from farms acquired for National Defense purposes in 1940 or thereafter by the U. S., and (2) farms acquired for National Defense purposes in 1940 or thereafter by the U. S. that are being returned to agricultural production by the originally displaced owner. A state wheat allotment pool will be established for these two purposes.

The remainder of the county allotment not reserved for "new" farm allotments, less reserves for errors and appeals, is apportioned

to each "old" farm in the county on the basis of "usual" wheat acreage for each farm. In general, the "usual" wheat acreage is the average wheat acreage on the farm in recent years, but adjustments are permitted for acreages affected by drought, flood, failure of other crops, tillable acres, type of soil, topography, and substantial change in established crop rotation practices on the farm.

4. Question: When will a decision with respect to 1954 wheat acreage allotments and 1954 wheat marketing quotas be made?

Answer: The Secretary of Agriculture is required by law to make a decision with respect to marketing quotas for the 1954 crop of wheat on or before July 1, 1953. At that time, if he finds that the supply of wheat for the 1953-54 marketing year that begins July 1 exceeds the normal supply for the marketing year by more than 20%, he is required by law, unless a national emergency exists, to call for a referendum of wheat farmers to be held not later than July 25, 1953 to determine whether or not such farmers are in favor of or opposed to marketing quotas on the 1954 crop of wheat.

The Secretary of Agriculture is required by law to establish a national wheat acreage allotment for the 1954 crop of wheat not later than July 15, 1953, unless a national emergency exists, and to apportion such allotment to states and counties. In this manner, the Secretary will have the benefit of the July crop report of the Bureau of Agriculture Economics before making determinations required by law.

5. Question: Who is eligible to vote in the July wheat referendum if one is held?

Answer: Each person who, as owner, operator, tenant, or share-cropper, will be entitled to share in the proceeds of the 1954 crop of wheat on a farm on which more than 15.0 acres, will be planted, shall be eligible to vote. If the farm has a 1954 allotment of more than 15.0 acres, they will be automatically eligible to vote.

6. Question: Will all wheat farmers be notified of 1954 farm wheat acreage allotments prior to the date of the referendum?

Answer: Yes. It is the policy to notify all farmers of allotments in advance of any referendum conducted by the Secretary of Agriculture.

7. Question: How many farmers must vote in favor of marketing

quotas in the 1954 crop of wheat before such farm quotas would be in effect?

Answer: More than two-thirds of all wheat farmers in the United States who vote in the referendum must vote in favor of quotas on the 1954 crop of wheat before the program could be put into effect.

8. Question: How will the wheat price support program be affected by the results of the referendum?

Answer: If more than two-thirds of the wheat farmers voting in the referendum favor farm marketing quotas on the 1954 crop of wheat, the price of wheat before the program will be supported at 90% of the effective parity price to the co-operators only (those who comply with farm wheat acreage allotments). No price support would be available to non-co-operators.

If more than one-third of the wheat farmers voting in the referendum oppose quotas for the 1954 crop of wheat, the marketing quota program would not be operative for the 1954 crop and price support would be at a level equal to 50% of the effective parity price for wheat to co-operators only. No price support would be available to non-co-operators.

9. Question: May the "farm marketing excess" be used for feed or seed on the farm where produced and thus avoid a marketing quota penalty?

Answer: No. To "market" wheat means to dispose of wheat by sale, barter, exchange, gift, or feeding. Wheat used for seed is included in the national, state, county, and farm marketing quotas and therefore is reflected in the farm acreage allotment.

10. Question: How do farm wheat acreage allotments affect small wheat farms?

Answer: As many as 15.0 acres of wheat may be harvested on any farm and the production may be disposed of in any manner without incurring any of the penalties of the wheat acreage allotment and marketing quota program. However, price support is not extended to the persons interested in the crop of wheat on a farm on which the wheat acreage allotment is over planted. In addition, the penalty provisions of the wheat marketing quota program are not applicable to a farm on which the normal production of the planted acreage of wheat on the farm is less than 200 bushels.

**P. M. A.
PROGRAM**

According to the 1953 cotton crop insurance policy, farmers insured under the 1953 program are entitled to a 5 per cent discount if the premium is paid on or before June 30, 1953, and provided that the report has been filed by that date. If you have the Government Crop Insurance, it is very important to report your planted acreage before June 30, 1953 as this is the deadline date.

NEW WHEAT FARMS

June 30, 1953 is the final date for submitting your application as a new grower of wheat for the coming year. We have the forms in the PMA Office therefore if you are interested please come by the office before the above date and we will be glad to assist you in completing it.

1952 COTTON ACREAGE

It is very possible that we will have cotton allotments for the coming year, therefore if you have not reported your cotton acreage for 1952 it is very important that you do so. It is very necessary that we have a complete history of your farm, since this could effect your allotment if and when they are announced.

FARM STORAGE FACILITY LOAN PROGRAM EXTENDED

The U. S. Department of Agriculture has announced a one-year extension of time through June 30, 1954, in which farmers may obtain Commodity Credit Corporation loans to finance the construction or purchase of new farm storage facilities for grains and other storable crops.

This program, initiated in June 1949, has been extended from time to time for the purpose of increasing farm storage space and of easing the pressure on transportation facilities. As of March 31, 1953, a total of \$4,263 loans of approximately \$40,548,000 had been approved for farm storage structures having an aggregate capacity of over 142,000,000 bushels.

Loans are available up to 80 per cent of the cost of the structure, to any owner-operator, tenant, land lord or partnership of producers wishing to erect a facility which will meet requirements for eligible storage under the price

**MOVES FRIDAY TO
NEW BUILDING**

The Sudan post office, Friday moved into its new building across support program. Loans are payable in four annual installments, or earlier at the option of the borrower. The first installment is payable twelve months after the loan is disbursed by CCC. Interest on loans is at the rate of 4 per cent a year.

Loans are available through local lending agencies or from Production and Marketing Administration County Committees. They are available to producers of wheat, corn, oats, rye, barley, grain sorghums, soybeans, dry edible beans and peas, rice, peanuts, cottonseed, flax seed, hay seed, pasture seed, and winter cover crop seed.

Golf Pointers-- The Grip

When fingers on left hand are closed properly to the grip, the black dots represent the pressure points. Note how last three fingers form a firm coupling. This is absolutely essential and must not be relaxed.

(This is the first of four articles on Golf Pointers as written by Tommy Armour, pro at Florida's famous Boca Raton course. Armour, who has won the US and British Opens, recently wrote "How to Play Your Best Golf All The Time—Simon and Schuster.")

By TOMMY ARMOUR

AP Newsfeatures

The first thing that determines how well you're going to be able to play golf is the way you hold the club.

The basic factor in all good golf

is the grip. Get it right and all other progress follows.

To hold the club properly, let the shaft lie where the fingers join the palm of the left hand. The last three fingers of the left hand are closed snugly to the grip.

A good tip is to keep the little finger of the left hand from being loosened; then the next two fingers will stay firm.

The left thumb is placed down the right side of the grip.

Keep the left hand grip as near to the roots of the fingers as possible.

The position of the left hand definitely must be slightly over to the right of the shaft so the V of the thumb and forefinger points to the right shoulder. Old advice, but still the best.

In gripping the club with the right hand, the right little finger goes over the forefinger of the left hand, or curls around the exposed knuckle of the left forefinger. Use the position you like.

The right hand is placed slightly to the right of the top of the shaft.

The right thumb is in a natural position to the left of the shaft.

It is important that the right thumb and forefinger be close as comfortably possible because these two parts of the right hand are vital combination in a grip for power. The club is held in the right hand with about half the pressure of the left hand grip. The right hand grip tightens in the lifting area just before impact, but all aspects of the right hand

smash are held back until the instant.

Next—preparing to w

NO MONTHLY CRAMPS... not even on the VERY FIRST DAY!

Doctors' tests show amazing preventive relief of pain, headaches, nervous feelings

Women and girls who suffer from the functionally-caused cramps, backaches and headaches due to menstruation—who feel upset and irritable on certain "particular days" every month—may be suffering quite needlessly! Such is the conclusion from tests by doctors in which Lydia E. Pinkham's Vegetable Compound stopped or gave amazing relief of such distress in 3 out of 4 of the cases . . . even on the very first and worst day of the period! Yes! Medical evidence proves Lydia Pinkham's mod-

ern in action. It exerts a remarkably calming effect on the uterus—without the use of pain-deadening drugs!

The effectiveness of Lydia Pinkham's needs no proof to the millions of women and girls whom it has benefited. But how about you? Do you know what it may do for you?

Take Lydia Pinkham's! See if you don't get the same relief from cramps and weakness . . . feel better both before and during your period!

Get either Lydia Pinkham's Compound, or new, improved Tablets, with added iron!

Lydia Pinkham's is wonderful for "hot flashes" and other functional distress of the "change of life," too!

Lydia Pinkham's has a quieting effect on the uterine contractions (see chart) which may often cause menstrual pain!

Farm for the Birds

John Bentley, superintendent of the Main State Game Farm, checks pheasant eggs in one of the big incubators. Pheasant eggs require three more days for hatching than chicken eggs—and more care because pheasants are live-lie.

These greens really are doing the trick... said Supt. Bentley. It's all good stuff, just a speck here or a flaw there. You sure can see the difference in those pheasant eggs."

The birds also require grain and good care. These are expensive items. Medicated grain has conquered coccidiosis—an intestinal disease common among poultry. Cannibalism, especially wing picking, diminishes as the birds are moved from confinement of brooders to outdoor ranges.

Bentley successfully mates one male to 11 hens. The former ratio was one to 10. Next year he'll experiment with one to 12. This helps cut costs.

When Bentley came to the pheasant farm 17 years ago he had to comb the countryside for broody hens to hatch the eggs.

Now there are 48 bottled gas brooders with a capacity of 300 to 350 chicks to keep them warm until they have feathered sufficiently to be shifted outdoors. Depending on the weather, the birds are moved to the range at the age of six weeks.

One third of the young stock is released to sportsmen's clubs which promise to raise them to maturity for release in their areas. Others are freed in the fields by the State Department of Inland Fisheries and Game. Some are kept as breeders.

From where I sit... by Joe Marsh

Heard About the Electric Weather Predictor?

Smith built up quite a name last month by predicting the weather. What he said was true.

So that folks would sit in the little Antique Shop and listen to his opinion.

Monday, though, he said he knew what the weather was to be like next day. He surprised us and when we asked what happened, Squint turned up on my electric weather predictor. I'll get it again tomorrow because Squint had been getting the weather over the radio—just like anyone else!

From where I sit, that's the way it goes with some "experts." They often don't have any more inside information than you can get for yourself. Like those who "know" the weather is the only thirst-quencher after a day's work. Far as I'm concerned, I'll take a temperate glass of beer. But—I won't try to "predict" your choice for you.

They're Never Too Young for Glamour

By VIVIAN BROWN
AP Newfeatures Beauty Editor

Girls will be girls—so even the tiniest tot enjoys rummaging in Mom's handbag or vanity table for cosmetics. A raid on face powder will leave its mark on plump cheeks, and lipstick smeared on small mouths will startle the household.

These are not the traits peculiar to certain of the lollipop set. Queen Elizabeth II, they say, upset the palace in her toddling days by appearing with rouged mouth on occasions. Many an underprivileged youngster has done the same thing.

A smart mother will make use of the yen for big-girl charm by taking the opportunity to instill some good-grooming habits in daughter. She stresses the importance of brushing for lustrous hair, and teaches her child a 20-strokes-a-day routine. She teaches her how to wash her hands, how a small brush will remove dirt from under the nails, how to push back the cuticle gently with a towel occasionally. She impresses her with the importance of the daily bath and makes it less of a chore and more fun with the addition of scented soap. Bubble bath or a drop or two of bath oil. And she teaches her that cleanliness is the basis of beauty, that such embellishments as powder, rouge, lip-

EYE STUFF . . . Little Kathy Gary, of Richmond, Va., will try anything once and maybe twice. Here she raids Mom's dressing table, using the mascara brush in pretty style.

EXPERT TOUCH . . . Very thorough with the cold cream is 2½ year old Kathy, who is enjoying her makeup practice. Hours of secret sessions preceded this one, according to her mother,

LITTLE GIRL GLAMOR . . . She will surely find it with lipstick she says and handles it very well indeed. Wise mothers use daughter's yen for big-girl glamor to further good grooming habits.

stick and nailpolish are not applied merely to cover up flaws. Mom may encourage her little

girl to eat foods "that are good for beauty." Such staples as orange juice, spinach, milk, cereal, carrots

and eggs are all the more palatable when they make you beautiful, as any little girl knows.

Air Conditioning on wheels* comes of age!

NOW you can have a car that's as comfortable on hot days as your air-conditioned home, office or favorite theater.

Now you can ride in draft-free coolness at the temperature level you choose—even when the outside reading is 110° and more.

Now you can take a full complement of passengers through the thick of traffic on a sweltering day—and each one of you will keep looking and feeling fresh as a daisy at dewtime.

Grilles in Buick's exclusive dual roof ducts insure draft-free distribution of conditioned air—and also provide individual control of air direction as desired.

Return air grilles on package shelf help maintain continuous circulation of conditioned, pollen-free air.

Air intakes on each side of car introduce outside air into system.

You do this with the compact Buick AIRCONDITIONER—the completely practical unit available at extra cost in 1953 SUPER and ROADMASTER Sedan and Riviera models.

But note this: what Buick put into its AIRCONDITIONER goes beyond the usual.

For the advanced design of this Buick unit provides dual roof ducts that distribute up to 300 cubic feet of cooled, freshened, filtered, air per minute to all parts of the car interior evenly and constantly—without icy blasts and drafts on your neck, shoulders, legs.

What's more, these exclusive roof ducts have individually controlled air directors above the side windows. So each window-seat passenger can guide a gentle breeze of conditioned air exactly where he wants it.

Of course, the Buick AIRCONDITIONER is automatic.

You switch it on, choose the temperature setting you want—and that level of coolness is maintained constantly. It thoroughly conditions the air around you—automatically. It carries off heat, stale air, tobacco smoke—automatically. It continuously introduces outside air into the system—automatically.

It's fast-acting, too. Even after an hour or more locked up under summer's hottest

sun, the car interior can be brought to a delightfully cool comfort in a matter of minutes.

And it's really compact. The cooling unit itself fits neatly on a narrow shelf in the big trunk compartment—leaves plenty of room for luggage and the like.

Why not drop in on us and try a demonstration?

You'll find that the Buick AIRCONDITIONER with its exclusive dual roof ducts is the ultimate comfort in hot-climate driving.

*Buick Airconditioner available in 1953 Roadmaster and Super Riviera and Sedan models at extra cost.

COUNTY AGENT'S WEEKLY LETTER FARM NEWS

Family cars, pick-up trucks, or other farm vehicles still carrying anti-freeze around in their cooling systems may likely become "boiling babies" with rust-choked radiators in the summer weather just ahead.

The experts say all types of anti-freeze should be drained out in the spring and the cooling system thoroughly flushed to remove all rust. A commercial cleanser should be used. If much rust is present at drain-out time, states the National Bureau of Standards. The cooling system should then be refilled with water containing a corrosion inhibitor.

There are several products on the market which not only inhibit rust, but also neutralize acids, and lubricated moving parts of the water pump.

Don't worry about protein supplement pellets as a source of X-disease next winter, advises Dr. A. L. Malle of the school of veterinary medicine at Oklahoma A. and M. College.

The cause of X-disease has been traced to feed pellets containing chlorinated naphthalene, says Dr. Malle. This chemical has been found in grease used to lubricate pellet making machinery, he says.

This information seems to indicate, Dr. Malle says, that there will not be another outbreak of the dreaded disease due to chlorinated naphthalene among cattle herds this winter.

X-disease (hyperkeratosis) is a condition affecting cattle. It is recognized by changes occurring in the mouth and skin. There may be wart-like papillary ulcers in the mouth. The skin may become

thickened, and appear to be in crusty folds.

Death may occur, but cases have been known where cattle have complete and normal recoveries from the disease.

Once a good pasture is established, management largely determines its productivity. Attention given the pasture should be equal to that given other cash crops on the farm, for pastures are a cash crop.

The objectives of a good pasture management program should include the use of practices that will lead to the production of good quality grazing; maintain high production and efficient use of the forage produced.

Rotation grazing is of prime importance. Continuous grazing is often not efficient for studies have shown that frequently up to 50 per cent of the forage produced is lost from trampling or is wasted because of excess production at peak periods. Grazing animals may be limited to small areas through a rotation grazing system. This will force the animals to take all the forage produced. Rotation grazing permits use of the plants they are most palatable and productive. Studies have shown in some cases pastures clipped at four week intervals produced 50 per cent more than those clipped at two-week intervals.

Rotating the grazing also gives the plants a chance to rest and make re-growth between grazing and permits the plants to maintain their vigor both above and below the ground. Excess production and there would be some during the early growing season, can be utilized for either hay or silage.

The fencing can be handled, by using portable electric fences if permanent ones are not feasible. Another important phase of the pasture management program is mowing. This practice will give weed and small brush control and will keep the plants growing. If pasture plants are not mowed they become woody and less palatable as they approach maturity. Mowing plants during their growing season, on the other hand, causes new vegetative growth, keeps the plants tender, palatable and with a higher protein content.

Temporary or supplemental pastures have a definite place in the management program. Small grains and legumes are excellent for fall, winter and spring. Sudan and cowpeas are tops for the summer and fall grazing seasons. Temporary pastures will provide grazing when the permanent ones are short and also makes possible rest periods for the permanent pastures. Some producers, use temporary pastures the year-round instead of the permanent type and actually produce more beef and milk per acre.

Finally, the pasture management program is made easier when only the best adapted plants are used in the pasture; when adequate supplies of fertilizers—based on soil tests—are used on the pasture and when dry hay is made available to livestock grazing on lush, succulent pasture.

Did you know that the type soil on which hay and grain are grown may influence the production you receive from your dairy herd? Improved pastures, grain and hay crops grown on fertile soils help to supply the mineral needs of dairy cattle.

Building soil fertility should rank high in our farming program. Legume hays from calcium-rich soils are good sources of calcium which is required in large amounts by dairy cattle. Cottonseed meal and other protein-rich feeds are good sources of phosphorus.

Where home grown feeds are known to be low in calcium and phosphorus, you may use steamed bone meal to supply both calcium and phosphorus. Add one per cent steamed bone meal to the grain mix, plus addition salt and bone meal applied in a mineral feeding box to meet the needs of your dairy animals.

Trace mineral elements may be added at low cost by using recommended premixes. But you should be careful to follow the manufacturer's directions.

Get a copy of Extension circular 135, "Minerals and Vitamins for Dairy Cattle", and learn how you can supply your dairy animals essential minerals through good feeding.

PVT. ROLAND COWEN ARRIVES IN ALASKA

With U. S. Forces in Alaska—Army Pvt. Roland D. Cowen, whose wife, Shirley, lives in Littlefield, Texas, recently arrived in Alaska for duty with the 4th Regimental Combat Team.

Private Cowen, son of Mr. and Mrs. Pittman Cowen of Route 2, Littlefield, entered the Army last December and received basic training at Fort Bliss.

In civilian life, he was engaged in farming.

Furr Food—

awarded during the three-day meeting. Tuesday afternoon's recreation included a bus tour to the Trail Ridge Road, golf, bridge and canasta and other games. Business sessions were held on Tuesday and Wednesday mornings.

Towns represented were Lubbock, El Paso, Midland, Odessa, Big Spring, Childress, Lamesa, Plainview, Littlefield, Brownfield, Levelland, Monahans and Snyder in Texas and Roswell and Hobbs in New Mexico. General chairman of the event was Jack O. Stone, Vice President Clem B. Boverie handled the program while H. C. Cummings, secretary and treasurer, was a member of the general committee.

Several national manufacturers co-operated in the program.

Soil Notes—

(Continued from Page One)

Peas planted in this manner may be harvested by hand green, or combined dry as an addition to the cash crops.

Some farmers tell us they have obtained a 10 bushel increase from their sorghum. Farmers over the district that have planted or are planning to plant these peas this year are: M. P. Brigance, A. J. Brothers, W. B. Jones and J. W. Adams to list a few.

The varieties that are being planted are New Era, Chinese Red, Whippoorwill, and Brabham cowpeas. Some blackeyes will also be planted. There has been such a demand for seed that they are getting scarce.

Lamb County—

(Continued from Page 1)

Among the important bills passed this year with Farm Bureau backing, approval or sponsorship included legislation designed to eradicate the swine disease, vesicular exanthema; a bill which regulates the sale, use and distribution of hormone-type herbicides, a law which gives grain farmers their best warehouse legislation to date; and better seed laws.

The Texas Farm Bureau was instrumental in securing an increase in appropriations of nearly a half million dollars for the Texas A. & M. College Extension Service and Experiments Station. Of this amount, \$238,320 was earmarked for use in the counties.

"We are going to make sure that the interests of farmers and ranchers were protected this year," Shelby explained. "That is why Farm Bureau opened the Austin office. Also, it was easier for the various county Farm Bureaus over the state to co-ordinate efforts with the state organization. The Austin office kept the county leaders informed on what was happening and what needed to be done in order for a certain bill to be passed or killed. Then it was up to the counties to contact their elected representatives.

Bullet From Gun Accidentally Discharged Lodging In Girl's Leg Just Below Knee

Nettie Sue Barriek, 14, daughter of Mr. and Mrs. J. W. Barriek of near Oklahoma Flat Gin, was admitted to the Payne-Shotwell Hospital Thursday evening suffering from a gunshot wound in her right leg below the knee.

X-rays were to be made of the girl's limb before the doctors decided if and when they would take the shot from the girl's leg.

In explaining how it happened, Nettie Sue stated that she had been using a gun for sometime

and was a pretty good shot. She had been teaching Stina, 16, how to shoot. She had been practicing a 22 at the time she was shot.

While she was gone to the mill, according to the report, she ran in front of her sister holding the gun, and the gun went off, hitting Nettie Sue in the leg.

Nettie Sue said she was away from the gun when it hit her in the leg.

NEW FIRESTONE SAFETY TIRES PROTECTS AGAINST BLOWOUTS AT ANY SPEED!

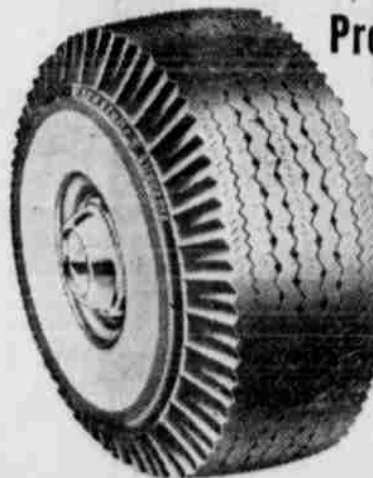

Photo above shows car racing across a bed of 4" razor sharp steel blades (inset at right). In test after test, at speeds up to 80 MPH, both front and rear tires have been slashed to shreds, yet driver brings car to a safe, straight-line stop despite double blowout.

Here's Why it Protects You

When an ordinary tire blows out it goes flat in one-tenth of a second... so fast that you hardly have time to prevent an accident. With the Firestone Supreme, blowout accidents can't happen because inside the tire is a safety diaphragm, which holds a reserve supply of air to give you complete control of your car after the blowout occurs.

Revolutionary New Firestone Supreme Tire Protects Against Punctures, Skids, Too

Nails or glass can't cause flats because inside this tire is a puncture-sealing material which adheres to penetrating objects and prevents air loss.

Maximum protection against skids because more square inches of tread grip the road... Traction Boosters and Skid-Resisters step up gripping power per square inch.
