## Sen. O'Daniel And James V. Allred In Run-Off Campaign

O'Daniel Receives More Than 48 Per Cent Votes Cast; Carries Lamb Co.

"There ain't gonna be no run-off!" that didn't work this year for Sen. Lee O'Daniel, winner of past political victories without a run-off, will face James V. Allred in a run-off campaign for United States Senator in the primary August 22. With the vote out estimated at 4,000, the Texas Election Bureau's tabulation late Tuesday gave O'Daniel 470,317; Allred, 311,358; Moody 177,019, and Floyd E. Moore 12,516 in the first primary computation.

The bureau estimated O'Daniel's percentage of 9971,210 votes counted at 48.42 per cent; Allred's 32.05, and Moody's 18.22. A run-off is necessary unless a candidate gets a majority. O'Daniel went from Fort Worth for his jobber, to governor, to U. S. Senator in four years without a run-off primary, making his election spectacular in the entire nation.

James V. Allred, a former Texas Governor, resigned a federal judgeship to campaign against the incumbent O'Daniel for the Texas Democratic nomination to the U. S. Senate. In Lamb County the candidates for U. S. Senator received the following votes: O'Daniel 2,428; Allred 1,051; Moody 415; and Ryan, 55.

### Ceiling Prices On Added Articles Must Be Filed

Price Administration Reported To Be Making Survey Of Merchants

All retail merchants in Lamb County are reminded by C. O. Griffin, chairman of the Lamb County War Price and Rationing Board, that they must file with the local board by August 10 a list showing cost-of-living articles and their ceiling prices which the merchant has added to his stock since July 1.

"The filing of such lists by the tenth of each month is made mandatory by General Maximum Price Regulation No. 1," Mr. Griffin pointed out. He also called attention to the fact that many retail merchants still have not filed the initial listing of cost-of-living articles and their ceiling prices, which should have been in the hands of the rationing board not later than July 1.

"Failure to file that list is a violation of the General Maximum Price Regulation," Mr. Griffin said, "and we have been advised that the state office of Price Administration staff is now making a field survey to determine how many merchants have not filed this list."

The results of this survey, he said, are to be turned over to the OPA compliance and investigation department, for immediate attention. Any merchant who still has not obtained a copy of the General Maximum Price Regulation, or of Bulletin No. 2—"What Every Retail Merchant Should Know About the GMPR"—can get copies by applying to the office of the Lamb County War Price and Rationing Board, City Hall, Littlefield.

Mr. Griffin stressed that compliance with Price Control is an essential duty in winning the war "on the Home Front."

President Urges Fullest Cooperation, Pointing Out Urgency

A county wide meeting of the members of Lamb County Salvage Committee has been called by V. F. Jones, County Chairman, for Friday night at 9 o'clock at the offices of the Littlefield Chamber of Commerce for the purpose of completing plans for the salvage campaign in this city and county.

At Friday night's meeting the entire program will be taken up, and places designated throughout the county for the handling of the scrap, and it is expected that the campaign will get underway beginning next week.

The Western Motor Company on Highway 7 west of town have expressed their willingness to cooperate in the salvage campaign, and this concern will be a receiving station in Littlefield.

"Salvage is sorely needed by the government, especially iron, steel, rubber and fats, and this nationwide drive is already underway in many counties of the State. It is, therefore, urgent that Lamb County complete plans to get the drive underway at once," said Mr. Jones Wednesday.

### Discuss Farm Labor Situation Friday

A meeting of the County U. S. Department of Agriculture War Board was held Friday afternoon at 2:30 o'clock in the County Agent's office at Amherst, when the monthly report on the farm labor situation was discussed, in which it was stated that the farm labor shortage was not critical at this time, but was getting more serious all the time.

In an interview with County Agent V. F. Jones Wednesday, he stated that it was the opinion of the committee, of which he is a member, that if the farmers could get sufficient help to harvest their cotton crop they could get by for the year on the farm labor situation.

Other members with Mr. Jones on the War Production Board are: L. F. Bain, Floyd Chafin, C. W. Smiley, C. A. Thomas, and Peques Houston.

### Workers Needed At Local Co. Cannery

Any women needing to can, who have not the products, have the opportunity now to secure their share of fresh vegetables for contributing their work to the project.

SALVAGE CAMPAIGN TO RELIEVE STEEL SHORTAGE

The War Production Board of the United States has issued an earnest plea to the people to gather up all the scrap on their premises and sell it—now.

We are faced with a serious shortage of steel scrap, rubber and other vital materials. This shortage must be filled.

By the end of 1942 we shall have the plants with which to make 92,000,000 tons of steel ingots a year. During this year we are actually producing 85,000,000 tons.

Why, then, are we short of steel? Simply because we have a much larger task to complete than Germany did. We are trying to do overnight what Germany did over years.

The 17,000,000 tons of scrap metal, which it is estimated must be turned in between now and January 1, is available if we will but gather up the scrap iron and steel about our homes.

Sell your scrap metal . . . now! The National Salvage Campaign is under way, and it is the patriotic duty and privilege of each person to take part in it.

The situation is serious although many do not realize it . . . but before victory can be ours, we must awaken to the problems of our country. Act

TRANSPORT AIRLINERS

Army plans for increased use of large airliners to transport soldiers and war supplies point encouragingly to the time when the United Nations will be able to engage in swift movements that have been the mark of Axis victories in both Europe and the Far East.

The United Nations must cope with Axis force both in output of armament and trained men and in the rapidity of disposition of this material and manpower to the war fronts where they are needed.

Airliners will not supplant cargo vessels and transports as the backbone of supply. The mass of material and men still must be transported to Europe and the Far East by convoys at sea.

The Government wisely is committing to experienced commercial airlines the responsibility of handling our cargo airliner program in the war. They may be depended upon to handle the job well.

now—beat the Axis at their own game with tons and tons of scrap iron and steel!

**Mrs. Ray Bellomy Gives Talk At Lions Luncheon**

An interesting, informal discussion of Hawaii and the conditions at the time of the sneak Jap attack on Pearl Harbor was given Tuesday noon of last week by Mrs. Ray Bellomy, wife of a lieutenant commander of the old Coast Guard, now a part of the Navy, in a talk at a Lions club luncheon in Hilton hotel.

Lieut. Bellomy is the son of Mr. and Mrs. J. T. Bellomy of this city.

About a year ago Lieut. Commander and Mrs. Bellomy went to Washington to see about his new assignment, which was to have charge of lighthouse units in Honolulu. The assignment was to be for three years. The family consists of two children, a boy nearly 15 and a daughter 10.

"We were at home when the attack came," she said. "We were doing the usual Sunday things, looking at the morning newspapers after breakfast. We lived 20 miles from Pearl Harbor and we could hear the planes over the city later, and see the smoke of burning buildings."

Telephone service was immediately cut off. Later the radio announced "this is the real thing—it is a Jap attack." Later in the attack a Jap plane dropped an incendiary bomb on a block near them and a whole city block was demolished, with a Japanese seamstress being killed. "We could see the planes chasing the Japs," she added.

Commander Bellomy at once went to his station. She hardly saw him for a week, except for a few minutes at a time. He had taken the boy with him downtown, and when he found out about the situation, hurried the boy home, got into his own uniform and reported.

"That night we had a blackout," said Mrs. Bellomy. "We did not know but what the Japanese might start an uprising on the island. For a week I slept with a gun by my side. One of the hardest things was to get people to turn off their lights during a blackout. I heard orders over the radio to police to go to certain locations and get the lights out. They were told to 'shoot them out if you have to.'"

On Dec. 27 the family heard they were to be evacuated and returned to this country. It was not until Feb. 18 that they started. The convoy had nine ships, one of which was supposed to have aboard Jap evacuees. Two destroyers and a cruiser accompanied the vessels. The family had three days in which to pack up. Some of their furniture was left, but it is now being sent back.

**Mahon Speech Cites Budget As Nation's Largest**

Taken from the Congressional Record, excerpts of a recent speech Congressman George Mahon of the 19th District made before the House of Representatives on "The Costs of War" will prove interesting to readers of the Lamb County Leader. Excerpts of the speech are as follows:

"As has been stated a number of times, the bill which provides \$42,000,000,000 for the activities of the War Department the next fiscal year is the largest bill ever considered in the history of the federal government.

"When the bill was submitted, it was a shock to observe the tremendous proportions involved, but when one considers the task confronting the American people, the sum does not seem so large.

"With the viewpoint in mind that the whole world is a battlefield, with the destiny of nations involved for generations to come, the sum does not seem so large. So I say that the money part of the cost will be cheerfully given. It is more cheerfully given when I know that in proportion to the money we wisely spend and the weapons we create and build we shall have a diminishing sacrifice of human life upon the battlefronts of the several continents and the oceans of the world," Mahon concluded.

**LEASE INTEREST OF PARTNER**

The deal was completed last week whereby Lefty Hollingsworth leased the interests of his partner, H. C. Buck, of the Hi-way Service Station, Sudan. **School Days**

By MRS. S. B. JACKSON  
When school days roll around again Our thoughts go back to memory lane  
And tread again the winding path That leads us down to present things.  
Fast locked within subconscious minds,  
The past comes back and lives again; We only have to close our eyes,  
Then loving thoughts inspire our pen.  
Five little boys, five little girls,  
Stand 'round a mother's knee once more,  
In fancy we have called them back—  
Back from the other shore.  
The children know where wild flowers grow,  
The chinquapin tree where squirrels played,  
Just where the redbird builds her nest  
Beneath the hillside's deepest shade.  
The little cabin by the spring  
In their fond eyes, a mansion seems.  
No serpent, yet, has reared his head  
Within the Eden of their dreams.  
They know not what the future holds,  
We've learned, long since, 'tis toil and pain,  
But gladly would we live life twice  
To have our childhood back again.  
Take heed that ye offend not,  
One of these little ones. (Bible).

Mrs. Alpha McCarty was hostess to the Lum's Chapel H. D. Club Thursday, July 23. After the business session, the program of the day was presented. The first program on "Living Together in the Family" was discussed by each member giving a helpful hint in "guiding the adolescent." One useful suggestion discussed by several members was "being a pal" to the adolescent.

The second program was closely connected with the first in that it was on "Entertainment in the Home." Miss McCarty was in charge of this program, and reviewed a part of our "victory Pledge" to help people to be cheerful especially during the duration of war. This was carried out in "party suggestions" by Miss McCarty, including several clever games to be played at home.

In conclusion Mrs. Doss Maner gave a demonstration on "summer drinks." One, which was later served to the members, is as follows:

### Hopper Poison Mixing Stations To Be Closed

V. F. Jones, county agent, announced Wednesday that unless there were many more calls the next few days for grasshopper poison than there had been in the past several weeks it was the plan to close the grasshopper poison mixing stations Saturday night. He said there had not been enough poison being mixed to justify keeping the stations open.

The stations operating at present are at the old CCC camp in Littlefield; Beck's Gin and Earth, Texas.

Mr. Jones said there were still lots of hoppers, but that they didn't seem to be doing any particular harm, and that the farmers were not poisoning much.

**H. J. R. No. 1**

**A JOINT RESOLUTION**

proposing an amendment to Article III of the Constitution of the State of Texas by adding a new section thereto to be known as Section 49a, requiring all bills passed by the Legislature on and after January 1, 1945, appropriating money for any purpose, to be sent to the Comptroller of Public Accounts for his approval, and fixing the duties of the Comptroller with reference thereto; authorizing the Legislature to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by the General Revenue Fund on September 1, 1943; providing for the submission of this amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof; and providing for the necessary appropriation to defray necessary expenses for the submission of this amendment.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto, immediately after Section 49, a section to be known as Section 49a, to read as follows:

"Section 49a. It shall be the duty of the Comptroller of Public Accounts in advance of each Regular Session of the Legislature to prepare and submit to the Governor and to the Legislature upon its convening fully the financial condition of the State Treasury at the close of the last fiscal period and an estimate of the probable receipts and disbursements for the then current fiscal year. There shall also be contained in said statement an itemized estimate of the anticipated revenue based on the laws then in effect that will be received by and for the State from all sources showing the fund accounts to be credited

during the succeeding biennium and said statement shall contain such other information as may be required by law. Supplemental statements shall be submitted at any Special Session of the Legislature and at such other times as may be necessary to show probable changes.

"From and after January 1, 1945, save in the case of emergency and imperative public necessity and with a four-fifths vote of the total membership of each House, no appropriation in excess of the cash and anticipated revenue of the funds from which such appropriation is to be made shall be valid. From and after January 1, 1945, no bill containing an appropriation shall be considered as passed or be sent to the Governor for consideration until and unless the Comptroller of Public Accounts endorses his certificate thereon showing that the amount appropriated is within the amount estimated to be available in the affected funds. When the Comptroller finds an appropriation bill exceeds the estimated revenue he shall endorse such finding thereon and return to the House in which same originated. Such information shall be immediately made known to both the House of Representatives and the Senate and the necessary steps shall be taken to bring such appropriation to within the revenue, either by providing additional revenue or reducing the appropriation.

"For the purpose of financing the outstanding obligations of the General Revenue Fund of the State and placing its current accounts on a cash basis the Legislature of the State of Texas is hereby authorized to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by said fund on September 1, 1943, provided such bonds shall not draw interest in excess of two (2) per cent per annum and shall mature within twenty (20) years from date."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors

**Final Rites Held For J. W. Stewart At Rising Star Saturday**

Funeral services for J. W. Stewart, 71, were held at the Church of Christ at Rising Star at 4 p. m. Saturday. Bro. W. M. McFarland, minister of the Church of Christ at Lubbock, who formerly lived at Littlefield, was in charge of the service. Interment was in the Pioneer cemetery.

Mr. Stewart passed away last Thursday afternoon, following a heart attack. He had lived in the Rising Star community many years. Survivors include his wife, two sons and four daughters, three step-daughters, and eight step-sons, and two brothers.

**4-H CLUB BOYS TO DO THEIR PART**

Texas 4-H Club boys, 33,000 strong, have mobilized on the home front to do their part in winning the war just as their older brothers are doing in the armed forces.

According to L. L. Johnson, state boys' club agent of the Texas A. and M. College Extension Service, beef cattle, hogs, sheep and poultry the boys now have on feed substantially outnumber the livestock and poultry projects of last year, and field crops and Victory gardens show corresponding, or even greater, increases. Through May, 6,039 Victory gardens were being grown, compared with 1,471 in 1941.

Texas 4-H Club boys have carried forward their rifle training work, and many are taking first aid training, Johnson says. Some counties have organized labor patrols, which are helping with farm work in their communities and home counties.

The boys have taken an active part in all salvage campaigns including collection of scrap rubber, but totals for rubber are not yet available. Other achievements in connection with the war program, based upon reports from 129 counties, follow: scrap iron collected, 3,478,554 pounds; waste paper collected, 190,804 pounds, and sold for \$832; aluminum collected, 57,826 pounds, and sold for \$750; and bonds and stamps bought, \$39,456.02.

Demonstrations being conducted in the 129 counties are: beef calves on feed, 4,178; swine on feed, 10,582; sheep on feed, 4,477; hens, 73,230; baby chicks, 689,589; increased flocks, 2,332.

**To Devote Program Thursday To Memory Of Late Mr. Elms**

As an expression of respect to the late J. C. Elms, former vice president of the Littlefield Rotary Club, the program at the regular luncheon meeting Thursday will be devoted entirely to the memory of Mr. Elms, who was also chairman of the International Relations Committee of the Club.

The club met last Thursday, but after a short session dismissed in respect to the late Mr. Elms, whose funeral services were conducted the day previous (Wednesday).

**Home Demonstration Club Notes**

By Miss Beatrice McCurdy  
H. D. Agent

"Bouquets" go to the Littlefield Home Demonstration Club, according to Miss Beatrice McCurdy, County Home Demonstration Agent, Extension Service, A. and M. College, for the excellent club report made to council July 22. On July 2 the club members entertained their families with a picnic at the home of Mrs. A. S. Bolton, Littlefield. Twenty-eight persons attended.

Since the last council meeting, only a month ago, the club members have canned 700 quarts of food for the home food supply. The members have 300 chickens in the food lockers in Littlefield.

It has been said, "Wars are fought and won by the youth of the nation." To visit 4-H Club girls of Lamb County one would be convinced that these girls are taking their Victory Demonstrations seriously. These demonstrators know what to do and they are doing it.

The county home demonstration agent should like to quote from several of her club girls who have written to her telling her how they are helping to win this war.

Wanda Armstrong, Littlefield, has three pigs which will help out in the production of pork.

Martha Todd, Littlefield, says they are using every inch of the garden to grow vegetables. The fences are serving as poles for beans. They also poisoned grasshoppers in the garden.

Billie and Bobbie, the Yearly twins, have a big flock of chickens all their own.

The Ham Sisters, Viola and Audrey, Littlefield, have a flock of hens which they expect will help feed the family, help feed the soldiers, and help put them through school.

"Learning to make things from Syrup and honey" is the way Dorothy Marie Brewster, Littlefield, is helping.

Louise May, Amherst, has a lovely open garden from which she is canning and had a frame garden before the open garden came into production.

Lanette Parish, Spring Lake, says, "I'm saving money by not going to town for hair sets. Mother sets my hair and we save that money for stamps."

Selda Hardecast, Sudan, tends to the baby so her mother will have more time.

The Gray Sisters, Willie V., Lola Mae, and Ima Gene, of Olton are certainly not idling their time. They have a real Victory Garden.

Ganell Garnett, Spade, poisoned grasshoppers for days to save her shrubs with which she is trying to beautify her home. She has done excellent work with her first year yard demonstration.

These girls, as one can see, really live their motto, "To Make the Best Better."

# OUR SCRAP MATERIALS ARE GOING TO WAR, TOO

This war takes planes, guns, tanks, ships, and men—but it takes more than that to show the Japs and their Axis partners that we are going to win this war and make them pay for their treacherous stab in the back... it takes all the vital materials necessary to the building of armaments. A crisis now exists in the war production program. We are faced with a serious shortage of steel scrap, rubber, and the other materials vital to production.

Only the American people can relieve this shortage. It is the direct obligation of each of us to all the boys in service to add our bit to the salvage campaign and give them the implements of war they need. There is enough iron and steel on farms alone, if used with other materials, to make twice as many battleships as there are in the whole world today, or enough 2000 pound bombs to drop three each minute from big bombers incessantly for more than three years.

You may think that your "little bit" may not help much, but multiply your "little bit" by thousands and millions, and a great mountain of raw materials will be formed which can turn the tide of war. About fifty per cent of every tank, ship, submarine, and gun is made of scrap iron and steel.

ARE YOU DOING YOUR PART?

## Low Interest Rate Has Been Continued

Farmers and ranchmen of this territory served by the Littlefield National Farm Loan Association will save approximately \$86,000 during the next two years through continued low interest rates on Federal Land Bank and Land Bank Commissioners loans, Mr. C. O. Stone, secretary-treasurer of the association reported Wednesday of this week.

The saving, Mr. Stone explained, results from legislation recently passed by Congress, which continues through June 30, 1944, the 3 1/2 per cent interest rate on long-term Federal Land Bank and Land Bank Commissioner loans.

The Littlefield National Farm Loan Association has approximately \$2,874,551 in loans outstanding.

A recent report on the rubber drive shows a collection of about 400,000 tons of scrap. The War Production Board officials estimate that 88,000,000 tons of steel will be needed for war and essential civilian uses this year, and that one-fourth of this will have to be in the form of scrap picked up from the farm lots, the cellars and the industrial bone yards of the country.

President Roosevelt Tuesday made a general appeal for the fullest possible cooperation in the salvage drive.

He asked that cellars, attics and backyards be ransacked for old metal, rubber, and rags and that waste fats be turned in at meat markets. And in case of doubt whether a particular article would be of help to the war effort, he said the citizen should assume it was needed, adding that it probably was.

The people generally realize the seriousness of the situation, Mr. Roosevelt said at a press conference, but as yet it has made no impact upon the lives of many individuals. The scrap salvage drive he regards as a test and an opportunity for them to take a personal part in the war effort.

Mixed with pig iron, the scrap is needed to keep the nation's furnaces running. Last winter, according to WPB Chief Donald M. Nelson, as many as 15 furnaces were shut down at one time because they lacked scrap.

During the past six months some 13,700,000 tons of scrap was collected, but during the next six months WPB hopes to bring in 17,500,000 tons. This would provide full-time production and leave a stockpile which would run for 90 days.

## Legion Sponsoring Navy Recruit Drive

The U. S. Navy needs 20,000 men each month during August and September according to word received by J. E. Calloway, Chief Quartermaster and Recruiter in charge of the Lubbock Navy Recruiting Station.

The drive for Navy recruits for those two months is being sponsored by the American Legion Posts all over the nation. Lamb county has been assigned a quota of 25 Navy enlistments each month for August and September. Arbie Joplin, at the post office, and J. D. Evans at Evans Tailor Shop, have been designated by the Lubbock station as official Navy Recruiters for this county. All men interested should contact these men for information or go to the Navy Recruiting Station located in the basement of the post office building in Lubbock. A regular recruiter from the Lubbock office will be at the post office in Littlefield every Thursday of each week for the purpose of taking applications for the Navy.

Age limits for enlistment in the Navy or Naval Reserve are from 17 to 50 years of age. Parents' consent and proof of place and date of birth are required for enlistment of men under 21 years of age. Physical requirements have been modified to such an extent that many men who were formerly rejected are now qualified for enlistment. Minimum height is 62 inches, maximum height is 76 inches. Weight standards are proportionate to height and build.

Under the latest ruling by Selective Service officials, a man may be enlisted in the Navy or Naval Reserve at any time before he is actually inducted into the Army. Men volunteering for the Navy are given the same allowances for their dependents as men who are being drafted. Married men may be enlisted in the Naval Reserve provided their dependents have sufficient income to support themselves until November 1, at which time the allowance for dependents of service men will be started.

In addition to the opportunities the Navy offers to the unskilled man for trade training, there are many openings for men who are skilled workers in the construction trade and other men who have a trade applicable to Navy uses. Pay ranges from \$50 per month for Apprentice Seamen to \$138 per month for Chief Petty Officers with permanent appointments. Allowances for dependents and the additional 20 per cent allowed for men who are stationed aboard ship or stationed outside the continental limits of the United States are figured separately from the base pay figures
