GO ON SALE FEBRUARY 1 -- Bright shiny black with white letters describes the 1962 auto license tags which go on sale February 1 in the office of Herbert Dunn, county tax assessor - collector. The new tags arrived this week and one box was opened for this picture. Viewing the new tags are Mrs. Martha Markham at left and Mrs. Margorie Wood, both are deputies in the tax office.

Feed Grain Signups Will Begin February 5

Producers who wish to comply with the 1962 feed grain program will sign up between February 5 and March 30, reports C. H. Bates, extension farm management specialist. Provisions of the 1962 program are very similar to those for 1961. One change is that idle and fallow land for the years 1959 and 1960 will be considered in the soil conserving base for farms. This will give less flexibility in the use of land diverted from feed grains, explains Bates. Payment rates for diverted

acres will be in line with those for 1961 because support prices for feed grains have been set at identical levels. The rates are again based on the normal production of the farm times the county support rate. The minimum acreage production (from the 1959 - 50 base) is 20 percent, which will earn a payment based on 50 percent of the local support price. For diversion of between 20 and 40 percent the payment will be figured at 60 per cent of the local support price. Barley, which was not included

Wildcats Drop Cage Tilt To Levelland

Levelland's Lobos scored a 68 - 50 victory over the Littlefield Wildcat cagers, who couldn't seem to get the ball into the net. The cold Cats fell behind in the first quarter and were behind throughout the rest of the game. Billy Thompson led the locals in the scoring department with 19 points followed by Grover Pilgrum with 13. Bruton led for Levelland with 15 points. In the first quarter, Levelland forged ahead 16 - 9 and at the half the score was 33 - 22. At the end of three quarters the score was 49 - 37. Harold Green, basketball coach, said the Lobos had a lot

of height and the locals just couldn't seem to "buy a basket." Levelland also won the "B" game 47 - 42. Tim Chambers led the locals with 13 points and Hines led Levelland with 17. Levelland was ahead 15 - 4 in the first quarter and 29 - 17 at the half with the third quarter ending at 38 - 29. Phillips will play here Friday night. Only one game is on tap with the varsities of each school pairing off at 7. Phillips has been a hot and cold ball club with wins over Levelland and Hereford and a loss to Dumas.

FOOD SHOTS AND HITS -- Larry Wood (20) goes high in the air to get this shot off against Levelland Tuesday night. The Wildcats lost to the Lobos in a 68 - 50 contest. Billy Thompson (14) was high point man for the Cats. The locals play Phillips here Friday night at 7.

County Jurors Hear Rape, Incest Case

Lamb County Jurors heard the case of the State of Texas vs. Catarino S. Lozano Wednesday. Lozano is charged by the grand jury with rape and incest of Lozano's daughter, Norma. Norma, 15, took the stand and testified that the alleged rape by her father occurred September 27, 1961 in a cotton field 3 miles northeast of Sudan. She testified that she was forced into the act by her father and threatened should she tell anyone. She testified that the alleged incident occurred while other workers in the field were at a nearby house eating lunch. Next witness for the state was Vicente Rivera, Latin American, who had contracted the Lozano father, daughter, and son to pull cotton along with other workers and who lived on the farm where the alleged incident occurred. He testified that all of the workers were at his house eating lunch except Lozano, Norma, and Vicente Lozano, 13, when the alleged incident occurred. He also testified as to

the location of the farm and identified Lozano. Rivera's wife, Manuella was next witness for the state and she testified similarly to her husband's testimonial. Next witness for the state was

Raymond Nix, farmer from Sudan, who rents the farm where the alleged incident occurred from businessman Joe Salem. He testified that Rivera lived on the farm and was responsible for the feeding operation. (See Jury page 6)

Lions, BCD, Rotarians Hear Talk

Marshall Howard, local businessman and civic leader, returned late Saturday from an extensive guided tour of western livestock feeding operations. He was one of about 200 men representing 40 counties in Texas plus a few others from Oklahoma and New Mexico. Howard spoke to the Lions Club Wednesday noon about the six-day tour. He was scheduled to speak to the Board of City Development which met this morning at 7 at Thornton's and will speak to the Rotary Club at noon today. He made the trip as a representative of the BCD and stated he was very enthusiastic about the potential of a feeding operation in this area. "It is a splendid opportunity for merchants and farmers to work together to improve the local grain market as well as profit from the feeding operation itself," he said. The tour stopped first at Phoenix and then continued on to San Diego, El Centro and Imperial Valley, Bakersfield and Joaquin Valley. They inspected operations in each area. Howard said the men on the tour were broken down into nine or ten categories according to interests. The tour includes farmer - feeders, rancher - feeders, commercial feeders, grain and feed dealers, bankers, production credit managers, state employees, institutional employees, chamber officials and railroad officials. The feeding operations observed ranged from small farmer - owned and operated lots of 1000 head to the large Kern County Land Company which is carried on the New York Stock Exchange. "All of the large feed lots are corporations or partnerships," Howard stated, "and do custom feeding." In an interview with Howard he pointed out the main points of interest and highlights of the trip. He explained the total picture of the operations he saw and how they can apply to the local area. Feeding is divided into three categories, starting rations, growing rations, and finishing rations. The finishing rations contain 80 to 90 per cent grain (See Howard page 6)

Soil Fertility Day Program Announced

Annual Lamb County Soil Fertility Day has been announced this week by Bill Kimbrough, County Agent, for Tuesday, Feb. 20, at the Community Center in Littlefield. Kimbrough said the event will begin at 9:30 a.m. and is being sponsored by the banks of the county and the Lamb County Extension Service. A free dinner will be served by the Oklahoma Avenue Home Demonstration Club. Stated to be on the program for the day are Gene Garrison manager of the Littlefield Chamber of Commerce, and Marshall Howard who will serve as master of ceremonies. Also included on the program are Byron J. Greisemann of Lubbock, Extension Service Specialist; John H. Seibert of Lubbock, Extension Service Specialist; Dr. George Pfeifferberger of Lubbock, representative of Plains Cotton Growers; Bill Nelson of Amarillo, representative of Grain Producers Association; Dr. Alex Pope of Lubbock, representative of the Experiment Station; Bill Gunter of Lubbock, Extension Service; and a panel composed of Jay Elms of Sudan, Alfred Allen of Olton, F.

M. Smith of Sudan, and Vic Neinast of Earth. Banks sponsoring the event are First National and Security State of Littlefield, First National of Sudan, First National of Amherst, Olton State and Citizens State of Earth.

L. D. Aten, office manager of the county ASCS, said there was some confusion concerning the 1962 skip - row planting of cotton. In attempting to answer questions which may be in the minds of area producers, he released the following skip-row patterns that will qualify in 1962 planting. Planting two rows in cotton and leaving two rows fallow will be measured as one-half cotton, planting four rows of cotton and leaving four rows fallow will be measured as one-half cotton and planting two rows and leaving one row fallow will be measured as two-thirds cotton. However, he pointed out that the rows of cotton and fallow land must be the same width. For example, Aten said if cotton rows are 36 inches the fallow rows must also be 36 inches. He explained that in no case could the fallow rows be less than 36 inches. Aten said if any producers have any other skip - row patterns which are desired to be used in 1962, they should contact the ASCS office in the courthouse in Littlefield.

Only 2519 Poll Taxes Sold To Date

At the close of business Tuesday, Herbert Dunn, county tax assessor - collector, reported that a total of 2519 poll tax receipts had been issued. Dunn said this was far below this time in 1960, and the outlook for reaching 6,000 was growing less likely each day. January 31 is the deadline for purchasing the right to vote. "It is unfortunate that the people are not interested in voting for candidates for political office," Dunn said, "and the purchase of the poll tax is the only way they have of voting." Poll tax receipt books are in the city halls of all towns in the county except Littlefield and they are also available in the tax office at the courthouse.

Edwards Will Not Seek J.P. Re-Election

O. M. Edwards, Justice of the Peace Precinct 4 since 1957, announced early Wednesday morning that he will not be a candidate for re-election. He was appointed to the post in 1957 to replace G. S. Glenn who had died. Edwards was elected as Justice of the Peace in 1958. In making the announcement Edwards said, "I want to thank the people of the precinct for their support while I have been Justice of the Peace. I have considered it a privilege and pleasure to serve such fine people." "I also want to thank each of my co-workers at the courthouse," he continued, "I have received excellent cooperation from each of them." "I have nothing in mind at this time," Edwards said, "but I am going to try to work in Littlefield."

Watershed Meet Slated For Bull Lake

All persons interested in the Bull Lake watershed have been invited to attend a meeting Monday night sponsored by the Lamb County Soil Conservation Service. The meeting will be held in the Baptist Church in the Friendship Community and will begin at 7:30 p.m. The SCS pointed out that watersheds such as this one need group participation so that all matters of interest can be discussed.

Flower Box Opens Here This Week

Mrs. B. E. Dunn is announcing the opening of the "Flower Box", located at 518 E. 5th, Littlefield. "Flowers, The Perfect Gift For Every Occasion" will be the slogan for her shop. The "Flower Box" will handle fresh cut flowers for all occasions, pot plants and materials for making dry arrangements. Mrs. Dunn was in Dallas last week where she bought merchandise for the shop and plans to have a formal opening in approximately three weeks when it arrives. "We are up on the latest ideas," she said. Mr. and Mrs. Dunn moved to Littlefield last year from Shallowater. "We were looking for a location for a flower shop" Mrs. Dunn said, "and we decided on this spot because it is close to the funeral home and hospital." The shop will be open from 8 a.m. to 5 p.m.

J.A. Lumsden Resigns From County Post

J. A. Lumsden, Lamb County School Superintendent for the past seven years, tendered his resignation early Tuesday morning to the County School Board and the Commissioners Court. Lumsden had announced earlier that he would not be a candidate for reelection in this year's election but had said he would continue to serve out the remainder of his term. In a letter to one of the County School Board members, Lumsden said, "It is with the deepest regret that I tender my resignation as County School Superintendent of Lamb County effective January 27, 1962. An unexpected vacancy in an administrative position in the Bridgeport Schools has given me an opportunity that I am unable to turn down. "I consider the seven years and one month that I have had the privilege of serving as your

Harold Miller Named Earth Postmaster

Harold D. Miller, acting Postmaster at Earth, was nominated Monday by President Kennedy to be Postmaster in that city. Miller will succeed M. E. Kelly who retired. The nomination is subject to confirmation by the Senate.

"Know Your Merchants" Contest Begins Sunday

Would you like to win some cold hard cash? In Sunday's County Wide News, the Littlefield Press will sponsor its "Know Your Merchants" contest with three prizes totaling \$65 in cash money. In Sunday's edition will appear the picture of just about every merchant in Littlefield and the three contestants who most nearly identify all of the merchants correctly will receive the prize money. The first prize is \$40, second \$15, and third \$10. On the following Sunday, the pictures will again be published with the correct names and firms they represent, and the winners will be announced. Main purpose of the contest is to benefit both customer and merchant in helping both become better acquainted. It's easy and a lot of fun, plus being profitable. Even if you don't win the money, just look at the new friends you have made.

SNOW AGAIN IN LITTLEFIELD -- Small amounts of snow fell Monday morning in Littlefield and the surrounding area. To date the area has had no less than four snows this season but each was enough to just barely cover the ground. Monday's snow had melted by noon in most areas. Continued cold temperatures plagued the area with the lows Monday and Tuesday recorded at 7 degrees.

MR. AND MRS. RONALD KUHLER

Double Ring Ceremony Unites Simmacher-Kuhler

St. Philip's Catholic Church was the setting Saturday morning at 9 for the wedding of Gretta Simmacher, daughter of Philip Simmacher of Pep, and the Rev. Louis B. Moeller, pastor of St. Philip's Church, officiated at the double ring ceremony.

The bride, given in marriage by her father, wore a gown of gorgeous satin fashioned with a bateau neckline and long sleeves tapering to petal points over the hands. A set-in midriff embellished in sequins and pearls complimented the empire bodice. The floor-length skirt featured a slight fullness at the back waistline to enhance the free sweep of the full train. Her short bouffant of silk illusion fell from a crown of pearls. She carried a bouquet of white roses.

Miss Elaine Simmacher, cousin of the bride, was maid of honor, and Miss Nelda Jane Miller, sister of the bridegroom, served as bridesmaid. They wore street length dresses of white chiffon, decorated with scoop necklines and skirts. Their costumes were completed by pink hats and shoes. Each carried a single rose.

Delta Kappa Gamma Meets Amherst

The Delta Kappa Gamma met Friday, January 13, at 10 p.m. in Amherst for a coffee meeting for the meeting was encouraging initiative in Securing Economic Stability.

Miss Bernathy presided at the meeting and Blanche Johnson read the minutes of the meeting followed by roll call. The committees reported on relation and teacher welfare. The group discussed the meeting to be held in Littlefield Friday 10 at the Community Center. Administrators will be invited, and seven chapters will be invited. 100 members presented the program on "Information Relate!"

Maloy Simmacher, brother of the bride, served as groomsmen. Guests were seated by Jerry Meyer, and Albert Simmacher, cousin of the bride.

The St. Philip's Choir sang the Nuptial High Mass, accompanied by Mrs. A. A. Homer at the organ.

A reception was held in the Parish Hall immediately following the ceremony. Guests were registered by Harriet Simmacher, and Judy Bowman of Texas Tech. Bernadette Decker served at the reception.

A dinner was served at 2 p.m. to friends and relatives. The bride's table was covered with a lace cloth, centered with a three tier wedding cake decorated with pink roses and topped with a miniature bride and groom. The bride wore a maroon and

pink suit with black accessories as they left on a short wedding trip.

The bride is a graduate of Pep High School and attended South Plains College, Levelland, and Texas Tech.

The bridegroom is a graduate of Pep High School, and is a Sophomore Electrical Engineering major at Texas Tech. He is a member of Phi Eta Sigma, National freshman men's honor society.

The couple will make their home in Lubbock.

Levelland Ceremony Unites Lanora Sue Grant-Jim Reed

Cactus Drive Church of Christ, Levelland, was the setting for the 7:30 p.m. Friday wedding of Miss Lanora Sue Grant, daughter of Mr. and Mrs. W. A. Grant, 223 Cypress, and Jim Reed, son of Mr. and Mrs. J. C. Reed, 802 Avenue C, all of Levelland.

The double ring ceremony was read by Joe Barnett, church minister, before an improvised altar of white stock and emerald palms. Completing the setting was a half tree of white bridal tapers flanked on either side by candelabras holding white tapers and pompons. White ribbon bows topped with red hearts marked the pews. Completing the decor were white tapers with tiny red hearts in each window.

Appropriate musical recordings were used throughout the ceremony. Escorted to the altar and given in marriage by her father,

the bride wore a wedding gown of Chantilly type lace and misty silk organza. The fitted bodice

featured a scalloped portrait neckline edged in sequins and pearls. Long pointed sleeves

tapered to petal points over the hands. From the bodice flowed a magnificent floor-length skirt, highlighted at center back by a butterfly bow. Her waist length veil of silk illusion descended from a pearlized crown. She carried a cluster of red Garnet roses with show-ers of white picot satin and red rosebuds tied in lovers knots atop a white Bible.

Mrs. Leslie Hulse of Whitharral, served her sister as matron of honor, Miss Carol Rushing of Levelland was bridesmaid. They were attired in identical dresses of red organza over matching taffeta. They wore matching clip-on headpieces of red flowers attached to short veils of red net. Their colonial nosegays of white pompons and Frenched carnations were completed with show-ers of white satin stream-ers.

Little Miss Joli Grant of Whitharral, cousin of the bride, was flower girl. She wore a dress of red organza designed with a very full skirt. Her basket of white starched net was filled with red rose petals. Van Hulse of Whitharral, nephew of the bride, was ring bearer.

Doug Reed served his brother as best man, Larry Adams was groomsmen. Accepting duties as ushers were Jimmy Jack Grant, brother of the bride, and Frank Odell of Levelland. Candies were lighted by Lonnie Reed, brother of the groom, and Joe McCullough, Levelland.

For her daughter's wedding, Mrs. Grant chose a light blue wool sheath dress with white accessories and a corsage of white carnations. The groom's mother wore a deep blue sheath dress with white accessories, and a corsage of white carnations.

A graduate of the Levelland High School, Mrs. Reed is currently employed in the city tax clerk's office. Her husband attended the Levelland High School and is employed by Latch Well Service.

Letters To The Editor

Dear Editor:
I have a few words to say in regards to the speech by Tom Anderson. I am not an all wise nor highly educated man, but I do have some opinions and I am an American with the privilege of expressing them.
Mr. Anderson said "The place to stop Federal aid is at home." According to the Americana Encyclopedia the U. S. government lost \$821,000,000 on price supports to agriculture in 1959. This same authority also states that the U. S. lost \$634,534,475 on the postal department. This loss was not on first class mail, it was on Magazines, newspapers, etc., If Mr. Anderson is the brave and courageous man that he would have us believe, why doesn't he start at home, his home.
I bet if you took a survey of the farmers in Lamb County you would find that since the installation of indoor toilets in farm homes less than 10% of the farmers subscribe to the Farm and Ranch magazine. They sell enough to pay Mr. Anderson's salary though. Would they make enough profit to pay him if they were not subsidized by the government? Now, my question is this, why doesn't Mr. Anderson go around the county making speeches to get the government to stop subsidizing magazines?

He reminds me of a boy I once knew when I was a kid. This boy always talked about how brave and tough he was. Then one day another boy told him that he was a yellow bellied coward and he turned to me and said, "If someone said that to a friend of mine I would punch him in the nose. Why don't you hit him? Are you afraid?"
When a magazine publisher starts to print his magazines he knows how many to make and how many he can sell. In fact they are sold before he makes them. He doesn't depend on the wind, the rain, the hail, nor the sunshine. He doesn't look for the weeds, the insects, nor the hands to hoe or gather his magazines. There aren't several million other men making the same identical product that he makes. He doesn't print magazines all year and then try to sell them all in the fall to pay his expenses.
I suppose the farmers in the U. S. are very stupid. They should know just how much to raise and how to sell it for a

good profit, but we don't. We are too stupid, so the government helps out by setting allotments and setting supports. I am one stupid farmer who is very thankful they do.
Waymon Lewis,
Amherst, Texas.

Agriculture offers thousands of jobs in hundreds of careers, many of them almost unknown a few years ago.

Farm Facts

Richard E. Bell of the U. S. Department of Agriculture's Economic Research Service reminds us the Russians need a farm labor force 6 1/2 times bigger than ours -- or about 45% of the available Russian labor -- to supply a population only 20% greater than ours.
The American farmer is supplying 182 million of us with nearly all of our food and fiber and there's enough left over to export one-sixth of his cropland output.
The U.S.S.R. had 501 million acres of sown cropland in 1960. The United States had 329 million.

Russia's 53,400 collective farms averaged 6,785 sown acres. Their 6,500 state farms averaged 22,485 sown acres. The average collective had 386 households, and state farms had an average of 753 workers.

The United States, by contrast, prefers smaller but more efficient farm units. This country had over 3.7 million farms in 1960 -- about two-thirds of them counting for almost all the sales. By and large they're family owned, averaging 44 acres, with one to two workers per farm.

Farming requires 45% of Russia's labor force.

There are but 7 days left in which to pay your poll tax. I wonder why we are so lax? It would seem that the reminder would be sufficient for a freedom loving community. However, evidence indicates that this is not the case. So we are told through advertising, editorials, newspapers, on radio and television to do our duty as citizens of a free country to pay our poll tax so we can vote. This year, the Jaycees are conducting their annual poll tax drive, here in Littlefield and throughout the county we are having a "Pay Your Poll Tax" week. All of this effort to re-

mind us is appreciated and commendable. The thought that comes to my mind is why are we, the average citizen so lax in performing this small duty which assures us a voice in our government? Actually, it is considered a heavy vote when 1/2 of our eligible voters register at the polls. To a nation so indifferent about using this right, it is amazing that we still have it. We would probably see an improvement in all aspects of our government if everyone took more pride in his right to vote. Pride and the right to vote, I mean make up your mind to vote and vote intelligently. The only way I know to vote intelligently is to make a study of the issues in relations to the candi-

dates -- become informed. Actually, I consider the matter of becoming informed about the economics of government, the effects of proposed issues of legislation on the country, in general, and our locality in particular, to be of more vital importance than the mere paying of poll taxes and voting. But one thing is certain. Unless you do pay your poll tax you will not be allowed to vote regardless of how much you inform yourself later in the year. So do not put off stopping by the County Assessors Collector's Office. If you doubt the small number of responsible citizens who do their duty each year and elect our officials, just ask your friends and acquaintances how many have their slip

of paper which entitles them to vote. To those who do not, why not give the Jaycees a hand and add your voice to try to shame, conjoin and appeal to them to pay this tax before it is too late. Adding decomposed leaves and other organic matter to the soil changes the soil structure so that it is better aerated and has better water-holding capacity. If our population reaches 230 million by 1975, as predicted, 47 billion pounds more of milk a year must be produced if we are to continue to improve our diets at the same rate as in recent years.

Mr. and Mrs. Jim Eddins from Seagraves visited during the weekend in the home of their parents, Mr. and Mrs. Elgan Baccus, and Mr. and Mrs. W. O. Eddins. Mrs. Keith May was honored with a tea-shower Saturday afternoon when the event was held in the home of Mrs. R. S. Gatewood. Forming the receiving line was the honoree, her mother Mrs. Hamilton of Lubbock, Mrs. Burnice May and Mrs. Gatewood. White mums highlighted the serving table which bore white and silver table appointments. The hostess gift to Mrs. May was an electric appliance. Miss Karen May registered approximately thirty five guests attending. Presiding at the coffee service was Mrs. Cleo Whitmire. Others assisting with hostess duties were Mmes. Hubert Dykes, Glenn Gatewood, J. B. Harper, Avanelle Lenderson, H. H. Olds, F. M. Smith, Richard Thompson, Dan Wood. Mr. and Mrs. Olan Walker were in Littlefield Friday evening to attend the Chamber of Commerce banquet when Tom Anderson, president and editor of the Farm and Ranch Magazine, was the featured speaker. Among others going from Sudan were Mr. and Mrs. Don Dykes, Calvin Jordan, Mr. and Mrs. Herb Potter. Roy Engram was among college students home from college last week for the between semester break.

Whitharral Whips Spade
Whitharral clipped Spade, 54 - 45 to give the visitors a 5-0 lead in District 5-B play Tuesday night. Jerry Ligon hit for 18 points to pace the victory but Spade's Charles Ramage poured in 26 points to lead the scoring column. Whitharral jumped to a 19-4 first quarter lead and stayed in front all the way. The home five outscored Whitharral in the third quarter, 12-11, and 17-9 in the final period, but to no avail. In the fem contest, Spade whipped Whitharral, 67 - 41, paced by a record 51 points by Ada Anderson. The Spade cager sank 13 field goals and 25 free throws and still made only 13 per cent of her tries from the floor. Erica Hayes pushed through 22 points for Whitharral with Lavern Smart getting 17.

Muleshoe In Win Over Olton
Three men scored in double figures for the Mules Tuesday night as they remained in contention for the District 2-2A title with a 64 - 58 victory over Olton. The Mullettes remained unbeaten with a 5 - 0 record by beating Olton in the opener, 54-37. Mary Wedel had 28 points and Trudy Davis scored 18, while Gail Nichols had 30 points for Olton. Wayne Malone had 17 points for Muleshoe, backed up by 16 points apiece from Jimmy Young and Vic Allison. Johnny Schenck led Olton's Mustangs with 17 points and Gary Johnson had 16.

Anton Loses To Smyer Five
The Smyer Bobcats downed Anton, 47 - 39 Friday night in a District 5-B basketball contest. Buddy Graham hit 14 points to lead the winners, and Jan Crews scored 13 for Anton. The Anton girls had better luck, as they downed the Smyer fems, 37 - 19. Dorothy Rackler scored 10 points for the winners and Gerry Oliver hit 11 for Smyer.

TOWN (Continued from Page One) on the 12th street rag, had he so desired).

In case you're not hep to Van Cliburn he won the Chaikowsky piano competition in Moscow in 1958... he is the only musician to ever receive New York's famous ticker tape parade honors...

The wife got to shake his hand... I doubt that she has washed her hands since.

Captain Eddie read an hour and a half talk on watching out for Communists and made a slashing attack on "left wingers, one worlders, do-gooders, fair dealers, socialists," while he praised "super patriots and right wing extremists," whom he compared to Washington, Lincoln, Franklin, Jefferson, and early heroes.

We heard former Army General Edwin A. Walker tell of his resignation (firing) from the Army because of his teaching anti-communism. Some of the publishers stood up and applauded him, others sat...

Like Jack Paar, Walker is a guy they adore or deplore. I hesitate to comment on Walker's situation until I hear both sides of the story...

Mancil Hall came over to the office Monday morning trying to figure out what he was supposed to do about paying a sales tax on some particular item. I told him he should have come over Thursday before I went to the convention because State Comptroller Robert S. Calvert was on our program and we fired questions at him and his two assistants for something over an hour.

Calvert very frankly admitted that all kinds of situations were coming up about the new tax that they couldn't explain... but he said California has had a similar tax since 1933 and they still have problems with theirs.

I explained that it was unfair for me to pay a gross tax at the end of the month on all the 10¢ (non-taxable) newspaper sales across the counter... he said he would sympathize with me, but I'd still have to pay the 2 per cent straight across the board.

I suggested that Littlefield was so far away from his headquarters that it would be unprofitable for the state to come way out here to audit my books. "No," he said, "but we just happen to have a couple of representatives from Lubbock who can run over to Littlefield in a hurry!"

It seems that Mr. Calvert's wife didn't exactly understand the new law either. He said that she had baked a cake for the women's society of their church and was taking it to the church to sell with the other women's cakes and pies. On the way to the church she stopped by a friend's house, and sold it, collected the \$3.00 and when she arrived at the church told her friends that she had already sold her cake and handed them the \$3.00. They immediately asked her had she just collected the tax... she had not.

I sat by two publishers from down state who sorta had the "blues" over business prospects for the new year. One lived down on the coast and he was crying that the big hurricane had

Liquor Law Charge Filed

Benny Freeman, 21-year-old Littlefield Negro man, was arrested last week on a charge of violation of the liquor law. He was released from the County jail on a \$1,000 bond.

In other action by County officers, one person was arrested on a warrant from Abernathy, one for traffic violation and one for disturbance.

The base feed in most of the western lots is alfalfa. This is locally grown and rotated with cotton. As a matter of fact, alfalfa caused many of the farmers to start in the cattle feeding business.

It was pointed out that previous reports that Westerners buy both their cattle and grain from Texas, ship them to the Coast separately and feed the grain to the stock and sell them there has been somewhat exaggerated.

Howard listed the following factors as important to consider when going into the cattle feeding business: (1) You must like the business. At least some one connected with the operation must like it.

(2) You must have sufficient capital. Feed lots are not a shoestring operation. Even on a small scale, \$25 to \$40 thousand should be invested in equipment.

(3) The location of lots. This includes the price of the land. Actually cheap land works better than expensive land for this purpose for two reasons. It is usually sloping so it will drain and has a caliche base for better firmness.

(4) The construction and design of the feed pens. Whether they are large or small, the design is the same. There will be a drive way between two rows of pens with concrete on each side.

(5) Insect and disease control. This is self-evident with so many varied points. They must be vaccinated for everything, observed constantly, separated from the other stock, and treated whenever something unusual or suspicious is observed.

(6) Utilization of manure for fertilizer. This is an additional profit for the feeder and extremely helpful to the farmer. This product has become so plentiful in large concentrated feeding areas that the price becomes very low but it still has to be moved from the premises, and is still good for the soil.

So, farmers, if you've thought hail storms were about the worst thing that could happen... freezes in the valley and hurricanes on the coast get pretty rough too!

LUMSDEN (Continued from page one)

County School Superintendent the high point in my thirty years experience in the educational field.

Lumsden's wife resigned from the Littlefield Schools two weeks ago and accepted employment in the Bridgeport school system.

The death of one of the Bridgeport school principals last week prompted the school board there to employ Lumsden to fill the vacancy.

"We have mixed emotions in leaving Littlefield," Lumsden said, "as we are very much in love with the people here and the community, but at Bridgeport we will be close to our children and grandchildren."

The Commissioners Court is not expected to appoint a successor to Lumsden until the February 5 deadline for filing in the primaries has passed.

Next regular meeting date for the court is February 12.

Theft, Wreck Investigated By Police

One or more persons entered the Higginbotham - Bartlett Lumber Company sometime Sunday night and carted off money and merchandise valued at more than \$200, according to Littlefield city police.

Officers said entry into the building was gained as the culprits broke out the glass in a north door. They continued that at least one of the burglars cut himself on the glass because there were bloodstains on the outside of the door.

Once inside, the culprits took about 250 pennies from a cash register, two electric saws, an electric sander, an electric jig saw and five or six pipe wrenches.

One accident was investigated by the police. Sunday afternoon, a car driven by Odell Johnson of Sudan and a motor cycle operated by James Burton Crawford of Levelland collided near the intersection of East Delano and Eastside Avenue.

Officers said Crawford was going west on Delano as Johnson, going east on Delano, attempted a left turn onto Eastside. They continued that Johnson failed to yield to Crawford and that the motor cycle struck the right front fender of the auto.

Damage was estimated at \$70 on the motor cycle and \$75 to Johnson's auto.

JURY (Continued from page one)

The all-male jury for the case is composed of Carl H. Arnold of Littlefield, Percy Carter of Littlefield, A. B. Brown of Spade, Harry E. Woody of Littlefield, Leroy Maxfield of Sudan, J. H. Ramage of Spade, W. E. Savage of Spade, Charlie Dunn of Earth, Hershel Barker of Littlefield, Wayne Goodrum of Littlefield, C. E. Layman of Earth and Bob Falk of Littlefield.

Prosecutor the State is Jack Young, district attorney, and counselor for the defense is Billy Hall.

Wednesday afternoon testimony included the witness of Vicente Lozano and Lonel Lozano brothers of Norma.

Also testifying was the defendants brother of Sudan, who testified that he brought Normas mother and Norma to Littlefield, to tell County Attorney Wilkenson of the alleged offense.

The defendant took the stand in his own defense and told the court he did not commit the offense as alleged... said that he was kneeling down near his daughter Norma attempting to repair a gas leak in his auto at the time the afore mentioned auto passed by.

He stated that he was the father of seventeen children of which fourteen are alive. He has been employed at the Sudan compress and as a farm laborer.

District Attorney Young submitted a birth certificate of Norma, stating that she was fifteen years of age at the time of the alleged offense.

The jurors viewed the certificate and it was entered as evidence. Final witnesses and statements were not finished at press time Wednesday afternoon.

Farmers are borrowing more money than ever before. In the face of the trend toward larger farms, credit helps provide the things they need to produce more efficiently.

The farmer's use of credit will continue to mount, notes W. D. Curtis, economist with the Louisiana State Agricultural Service. This will be due to: (1) greater investment per farm; (2) an increase in the use of power, fertilizer, chemicals, better seed, and other production necessities; (3) failure of savings to keep pace with mounting capital needs; and

(4) a more businesslike approach to credit - if one borrows, they borrow. From 1953 to 1960, the total volume of farm credit system loans increased 120% while the number of farm mortgage loans by farm and banks increased 30% while short- and intermediate-term loans by production credit associations increased by nearly 26%.

Despite the trend in "commercial" farms, the farm family will remain important.

WEATHER BOX FORECAST - Partly cloudy. TEMPERATURES - Sunday high 43, low 9; Monday high 69, low 7; Tuesday high 53, low 17; Wednesday high 54, low 17. MOISTURE - .47 for the week, 0.2 for the week.

TEXAN OF THE YEAR

AWARD

Presented to

VAN CLIBURN

of Kilgore

This award is presented to Van Cliburn, one of the great pianists of all time, by the Daily, Weekly and Semi-Weekly Newspapers of Texas represented by the Texas Press Association. It is presented in appreciation of the high honor and distinction he has brought to his beloved Lone Star State.

After winning numerous competitive awards in his own country, Van Cliburn rocketed to worldwide fame when he won the Tchaikovsky Competition in Moscow in 1958.

Since then, this modest young Texan has shown that he is an artist of which his State and Nation can be extremely proud. Additional evidence of his superior talent came with the recent announcement that a million copies of his recordings had been sold... the first classical album ever to achieve this milestone.

For his great talent, his humility of spirit, the gracious charm of his personality, his Texas pride, his contributions as an international ambassador of goodwill, and the fame he has brought to our State, we salute Van Cliburn as "Texan of the Year."

Presented by The Texas Press Association on Jan. 20, 1962 at TPA's Mid-Winter Convention in San Antonio, Texas

Van Cliburn Is Named Texan Of The Year

Van Cliburn, brilliant young pianist from Kilgore, has been named "Texan of the Year" by the Texas Press Association. Presentation of the award honoring the honor was made at luncheon Saturday during the Association's 15th Annual Mid-Winter Convention at the Plaza Hotel in San Antonio. Presenting the award, a 14" copper engraved plaque, was his hometown publisher, J. Deval of the Kilgore Herald.

Describing the 27-year old pianist as "one of the great pianists of all time," Deval said he had won every important competitive award in his own country before rocketing to world-wide fame when he won the Tchaikovsky Competition in Moscow in 1958.

"The tremendous acclaim with which this triumph was greeted gave birth overnight to the Cliburn legend," Deval said. "Since 1958 this modest young Texan has performed the incredibly difficult task of living up to this fabulous legend. By superb musicianship and the gracious charm of his personality, he has shown that he is an artist of which his State and Nation can be extremely proud."

Cliburn, a slender six-foot-four East Texan, recently was given RCA Victor's historic gold record, the millionth pressing of one of his recordings. It is the first classical album ever to achieve this milestone. A second award, representing sales of over \$1,000,000 in manufacturer's billing was given by the Record Industry Association of America.

Present for the luncheon Saturday were his parents, H. L. and Mrs. Rildia Bee O'Bryan Cliburn, Mrs. Cliburn, who became Van's music teacher when he was only 3, is the daughter of the late Col. and Mrs. William Carey O'Bryan of McGreg-

Koger To Take Part In Army Alaskan Move

FORT RICHARDSON, ALASKA (AHTNC) -- Army Specialist Four Edwin D. Koger, son of Mrs. Olivia P. Leake, Route 2, Littlefield, Tex., is scheduled to participate with other personnel from the U. S. Army, Alaska, Support Command in Exercise Great Bear, a joint U. S. - Canadian winter maneuver in Alaska, Feb. 12 - 21.

The exercise will test cold weather military doctrine and the ability of the two allied armies to work together as a fighting team. Exercise Great Bear will be conducted in the vicinity of Tanacross and Etelson Air Force Base, one of the most rugged areas over which an Alaskan maneuver has ever been held. Principle terrain features in the 3,200 square-

mile maneuver area are the heavily forested lowlands of the Tanana river valley and the mountains, which range as high as 4,000 feet, converging on both sides of the valley.

Koger, a petroleum supply specialist in Headquarters Company of the command's Supply Battalion at Fort Richardson, entered the Army in June 1957.

The 21-year old soldier attended Littlefield High School. His wife, Mary lives in Spensard Alaska.

U. S. Department of Agriculture figures on brucellosis show 4 1/2% of all American cattle were infected in 1947, compared to only 1 1/2% in 1959.

The farmer spends from 25 billion to 26 billion dollars a year for goods and services to produce crops and livestock.

Consumers usually spend about 20 cents of their food dollar for dairy foods.

Philosopher Wonders How Cities Got Along Without Urban Department

Philosopher's note: The Sandhills farmer on his Johnson farm recently encountered a city map, his letter reveals. What else it says, you'll have to decide, dear editor:

Visited by a friend from my city recently and he was excited over the latest development out of Washington. "Say," he said, "did you know Washington is thinking about establishing a new Capital post, the Department of Urban Affairs?"

"Nope," I said. "What for?"

Why, to help the cities solve

their problems, like you farmers have got a Department of Agriculture," he said. Then he went on to explain that cities have grown by leaps and bounds in recent years, problems have piled up, like traffic congestion, noise, inadequate police protection, water shortages, classroom shortages, worn - out city streets, slums, crime, high taxes, etc.

"You name the city," he said, "big or little, and it's got problems. Big problems. There just isn't enough money coming in to satisfy all the demands and needs of city peo-

ple, and the bigger the city, the worse the problem. The Department of Urban Affairs is the answer."

"Why, that's fine," I said, looking at him out of the corner of my eye. "Wonder why somebody didn't think of that a long time ago? You city folks have been asleep. Why, us farmers thought up the Department of Agriculture to solve our problems years ago. In fact, the Department of Agriculture is celebrating its 100th anniversary this year, and where do you think farming

would be today if we hadn't had that Department?"

"That's right," he said, "but we're catching on. We're going to get some help finally."

"Why," I said, seeing he wasn't catching on, "you simply can't imagine what shape farming would be in today if us farmers couldn't turn all our problems over to the Department of Agriculture. You take cities. You've got a surplus of cities, haven't you? Must have, since no city government is breaking even, they can't quite make ends meet, population pil-

ing up in huge surpluses, labor costs are high, street paving equipment wearing out and no money to replace it with, and things like that. It's sure clear to me that what cities need is a Department of Urban Affairs to handle their problems. It's the only answer."

"Say," he said, "are you kidding me . . . ?"

But I told him I had to go feed my chickens and would see him.

Yours faithfully
J. A.

Soybean Test Results Sold By High Plains

Eight strains and varieties of soybeans were evaluated in four tests at the High Plains Research Foundation in 1961. Twenty eight of the varieties were experimental, not yet released for production. The yields in the tests varied from seven to thirty nine bushels per acre.

Average yields of the eight were below the 1960 average, but were still above the national average of twenty five bushels for 1961.

The results obtained in these tests emphasize the necessity of soybean breeding program underway at the Foundation. Efforts to produce varieties suited to the climate, latitude and altitude take on added importance.

Cotton Support Price Told For 1962

Support levels for 1962 of cotton, peanuts, rice have been announced by the Secretary of Agriculture Orin Freeman.

Minimum national average support price for upland cotton will be 31.85 cents per hundredweight, the same as last year. This reflects a 52 per cent of the parity price. For extra staple cotton, the price will be 53.17 cents per hundredweight, and 65 per cent of parity price.

To prevent the minimum support price for upland or extra staple as required by the basis of parity as of beginning of the marketing year is higher than the announced, the level of support will be increased accordingly, the secretary said.

Minimum national average support price for peanuts will be \$221 per ton, the same as 1961 and it reflects 85 per cent of parity price on Jan-

uary 1. If quotas are not approved, acreage allotments will remain in effect as a condition of eligibility for price support at 50 per cent of the parity level.

The support price for honey was set at 11.2 cents a pound, substantially above the 1960 level, and reflects 74 per cent of the January 1962 parity price adjusted to a 60-pound container basis. The support announced applies to honey marketed during the 1962 season, which begins on April 1.

U. S. farmers are famous for how fast they can get the job done. They can plow an acre in 42 minutes; spray a field with ground equipment in 20 minutes and by air in less than 1 minute; kill 20 million weeds in an hour and harvest an acre of wheat or corn in 40 minutes.

COAST OF CALIFORNIA (FHTNC) -- Miguel Gutierrez, fireman, USN, son of Mr. and Mrs. Juan G. Gutierrez of Route 2, Littlefield, and Donald R. Wimberly, Fireman, USN, son of Mr. and Mrs. John C. Wimberly of Olton, serving aboard the attack aircraft carrier USS Hancock, are participating in Exercise "Air Gun" off the coast of California.

The eight-day exercise, scheduled to begin January 12, consists of 15 ships of the First Fleet.

Training maneuvers center around a fast carrier striking force which is subjected to air, surface and submarine attacks. The striking force will be replenished at sea by an oiler and an ammunition ship.

Grain Sorghum Crop Gets Revision

Because of the change in character of the grain sorghum crop due to the adoption of new varieties, the U. S. Department of Agriculture has announced a proposal to revise the Official Grain Standards of the United States for grain sorghum.

The proposed changes include the elimination of the class Red Grain Sorghums and all the subclasses in the classes of Yellow Grain and White Grain Sorghums. Since the new varieties and hybrids are heavier than the old ones, it is proposed that the test weight per bushel be raised from 55 to 58 pounds for No. 1, from 53 to 56 for No. 2, from 51 to 54 for No. 3 and from 49 to 51 for No. 4.

Also, in order to provide for better keeping quality, a proposal has been made to lower moisture content from 14 to 13 percent for No. 1, from 15 to 14 for No. 2, and from 16 to 15 for No. 3. It is also proposed to eliminate dockage and substitute a factor for fine foreign material in the grade table. Alternative proposals provide for dockage as now applied and a special grade "Tough" instead of moisture as a grading factor.

Informal public hearings to consider these proposals have been scheduled for Lubbock on January 29, at 1:30 p.m. in the Mackenzie Terrace, 407 E. Broadway and January 31, at 9:30 a.m. Continental Hotel, Kansas City, Missouri.

Production records show it costs \$110 to \$125 a year to feed a cow. If the cow produces only 150 to 175 pounds of butterfat per year, she actually is not paying for her feed.

One hour of farm labor produces four times as much food and other crops as it did in 1919 - 21, according to the USDA.

IT STINGS JUST A LITTLE -- Sad faces and a little whine now and then could be seen and heard Friday afternoon at the mass dog vaccination day. Here Dr. Charles Nace is inoculating "Tip", being held by his master Roy Wade of Littlefield. Over 123 animals were vaccinated Friday afternoon.

What about this loud cry that is coming from all parts of the government spending (a good deal of it waste) and an even louder cry for someone to "do something"?

Well, you can revolt at the polls. But just how shall we revolt? Shall we revolt from the Democratic party which boasts of its "policy" or shall we revolt from the Republican party which like wild in the separate states and which had eight years in Washington to cut Federal spending to the bone and did nothing?

was perfectly sound, for a period of time the arm would be completely useless. I don't suggest that you try it... you don't have to try it because each one of us does have something we haven't used, and we have, in some degree, lost it... our voice in government.

Just as a baby has to crawl before it learns to walk, we are going to have to begin in a small way to try and correct this outrage on the American citizen's pocketbook. After each of us has tried in our small way, we can then combine and correct this problem in a big way.

Certainly, it is easy to sit back and criticize our government, our leaders, our statements... but in doing so, we are criticizing ourselves, because we are the ones who put them into power. We cannot blame anyone else, but must accept the blame ourselves.

This is the real problem. Not a single one of us will stand up and admit we were wrong in any endeavor of life. Not a single one of us will stand up for what we really believe because it may hurt business or the feelings of our dear and close friends. Not a single one of us will accept the blame for our national failures.

I love America and believe in our Constitution. With all the faults that anyone can find in our government, it is still the best and greatest ever known on the face of the earth.

The full force of the statement that the American people will get "the kind of govern-

ment they deserve" never has soaked in on the citizens as a whole. All of us like to think we are deserving people.

But just how deserving are we? Less than 75 per cent of the people who are eligible to vote, saw fit to vote in the 1960 Presidential Election. Less than 25 per cent of the people have ever written to a Congressman or Senator expressing their opinion on any bill before the Congress. Less than 10 per cent of the people know what bills are pending before Congress and those that do, in most cases, are not interested enough to notify their Congressmen about their feelings. Less than five per cent of the people know where the government is spending their money and for what it is being spent.

Yes, we are a deserving people. We deserve to be tarred and feathered and run out of town on a rail and probably would be... except there are more of us who except a good coat of tar and feathers than those who would apply the stuff.

Logically, you and I can figure out how we would run the government if given the chance. Most of us would run it on a completely business basis... except we wouldn't be trying to make a profit. We would try to operate the government within a specific budget and try to make ends meet.

I have no objections to the government spending money for things necessary for the betterment of the government and the people, as a whole... but give away programs and federal aid to individual citizens and businesses are not for the betterment of the people as a whole.

This idea "that if we put our hand out long enough, we will receive a check from the government" has got to cease. It is time government returned to the people, by the people and for the people. But until it does completely, we must become interested in government, in politics and stand up for what we believe is right.

I think without too much practice, we can revive our "voice in government", if enough of us want it. If you believe in the Constitution and the right of the individual in government then loosen those stiff vocal cords of your "voice in government." A good way to start is by paying your poll tax so you can vote. If you don't believe in the Constitution and your right in deciding the type of government you want, then all I have for you is sorrow.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN, Tex.—A highway policy matter which has plagued both Houses of the Legislature for 10 years was settled when the House of Representatives passed a Farm - to - Market road bill introduced by Sen. Neville Colson of Navasota and Rep. Grainger Melihany of Wheeler.

Senate already had approved the bill by a 26 - 2 vote. At first, it looked like the House Agriculture Subcommittee, dominated by rural representatives, would succeed in pushing through a modified version of the bill by Rep. Max Carriker of Roby. His proposal was to space out the switch of funds from farm - to - market road construction to maintenance over 10 years.

House Agriculture Committee approved Carriker's bill unanimously until Gov. Price Daniel attended a final hearing with President J. H. West of the Texas Farm Bureau, Executive Vice President Callan Graham of the Texas Good Roads Association, Highway Chairman Herb Petry, Jr., and a dozen members of the County Judges and Commissioners Association.

After their urging, the House Agriculture Committee reversed its original decision and voted 10 - 9 to table the Carriker version and submit the Colson bill, which reduces the annual appropriation for rural road construction by about \$17,500,000.

When the Farm - to - Market road bill becomes effective about May 1, it will make these provisions:

1. Restoration of the \$15,000,000 appropriation from general State taxes to the Colson - Briscoe farm - to - market road program for the year starting Sept. 1, 1962.

2. A flat instruction for the State Highway Department to build \$23,000,000 worth of newly designated farm - to - market roads a year from now on, using the \$15,000,000 plus Federal aid of \$10,000,000 a year.

3. Allocation of half the surplus in the road bond assumption fund -- which comes from one fourth of the gasoline sales tax -- to maintenance of farm - to - market roads in the State system. That will be \$17,500,000, the first year... gradually increasing as gasoline sales tax revenues rise.

Total wages shown on an employee's W-2 must include amounts received as sick pay from his employer, even though no tax has been withheld on such sick pay. Sick pay is not required to be shown separately.

If it becomes necessary to correct a W-2 after it has been given to an employee, a revised statement must be issued and marked "corrected by employer."

4. Freeing an equal \$17,500,000 in the State Highway Fund, now being used for rural road maintenance, for construction and improvement of secondary and primary highways.

5. Application of the balance in the farm - to - market road fund (between \$17,500,000 and \$20,000,000 in the 1962 - 63 fiscal year) toward improvement of existing F-M roads, which need some 11,000 miles of repairs.

6. Agreement by the State Highway Commission to raise its goals from 35,000 to 50,000 miles of farm - to - market roads.

WHERE'S THE MONEY COMING FROM? - Gov. Price Daniel's proposals that the 57th Legislature approve appropriations of \$300,000 for tourist advertising, \$100,000 expansion in the juvenile parole system and \$150,000 for repair to the San Jacinto Monument seemed to be in danger when Rep. James M. Cotten of Weatherford got the House to endorse appropriation of \$220,000 for special session expenses.

According to the State Comptroller's estimate, this would leave less than \$300,000 for the governor's projects. But Governor Daniel powwowed with Speaker James A. Turman and Senator Charles Herring, as well as State Treasurer Jesse James.

He reported that James' first report on anticipated income from the Escheat Enforcement Act, submitted since the Comptroller made his estimate, lists more than \$2,000,000 in reports tabulated to date.

"I have asked the Comptroller to consider this," Daniel said, "and I believe it will be possible for him to raise his

estimate enough to take care of the recommendations before the Legislature."

The Senate Finance Committee came up with a compromise bill authorizing \$200,000 for tourist advertising, \$75,000 for monument repairs, \$65,000 for the juvenile parole system plus \$79,600 for a marine laboratory at Seabrook.

DORMITORY SUITS ANSWERED -- Two motions to dismiss a dormitory integration case involving the University of Texas were filed in the U. S. District Court at Austin.

First one was filed by Attorney General Will Wilson, whose office requires him to represent the state university in court. Second came from Edward Clark and Franklin W. Denius of Austin, and Leon Jaworski of Houston, attorneys employed by UT's board of regents.

Board Chairman Thornton Hardie of El Paso said the regents hired additional attorneys since Wilson is a candidate for governor and may be unable to give the case the attention it deserves. Wilson referred to Hardie's statement as "arrogant," and vowed he'll defend the case as his constitutional duty.

Integration suit was filed in November by three Negro students at the University. They asked that racial segregation in university dormitories be abolished with "all deliberate speed."

LOCAL PROBLEMS PRESING -- Several legislators who voted to adjourn the second day of the special session have decided to stick around awhile since the governor opened the session for local bills.

Bills considered most pressing include water bills -- such as one to create an Alice Water Authority, one to authorize construction of a water treatment plant for Lubbock and six other communities which participate in the Canadian Municipal River Water Authority.

Sen. Andy Rogers of Childress presented a bill to allow purchasers of gas for irrigation from utility companies right to seek rate regulation from the Railroad Commission, as cities do. Rogers said companies selling irrigation gas often charge farmers a higher rate than set in nearby towns.

Atty. Gen. Will Wilson told the Supreme Court that if it sustains riparian irrigation rights for Spanish and Mexican land grants on the lower Rio Grande "the vast orchards of the Lower Rio Grande River will die from lack of water because the

upstream riparian can, in times of shortage, absolutely deprive the downstream owner of the right to water."

TOWERY JOINS LAKE -- Secretary of State P. Frank Lake has acquired a new director for the corporation division.

He is Robert L. Towery, 29, of Austin.

Towery was one of former District Attorney Les Proctor's assistants. He replaces Pat Cain who resigned to run for the House of Representatives in Travis County.

SHORT SNORTS The Texas Municipal League reports that nine states -- including Alabama, Arizona, California, Louisiana and Mississippi, allow cities to levy sales taxes, in addition to state sales taxes.

Internal Revenue District Director, R. L. Phinney reminds farmers and ranchers that they must file self - employment tax forms, even if they owe no income tax for last year.

Marshall Formby has officially opened his race for governor... Sen. Crawford Martin of Hillsboro announced for lieutenant governor... Waggoner Carr, former Speaker of the House, paid his \$1,000 filing fee as a candidate for attorney general... and Austin attorney Les Proctor vacated his post as Travis County District Attorney to run for the same post.

Water Board Chairman Joe D. Carter spoke at "Federal Study Commissions" at the fourth annual meeting of the Interstate Conference on Water Problems in Dallas.

Supreme Court appointed Gibson R. Randle of Austin to succeed the ailing Judge Malory B. Blair on the State Board of Law Examiners.

Governor Daniel reappointed E. M. Decker, Jr., of Jacksonville to the Texas State Railroad Board, and reappointed C. B. Godbey of College Station, Dr. A. W. Young of Lubbock and Emmett Harper of Martindale to the State Seed and Plant Board.

Now - Ford frees you forever from the expense and bother of frequent car servicing. Twice-a-year maintenance is here - and only the cars from Ford have it!

In a new Ford Galaxie or Fairlane, the odometer rolls off a long 6,000 miles between every service stop. Compare this with other '62 cars and here's what you'll find: many cars still have to check in for service every 1,000 miles; some every 2,000 miles; others every 4,000 miles. Only the cars from Ford need service only twice a year, or every 6,000 miles.

When you own a '62 Galaxie or Fairlane, you don't have to drive with one eye on the odometer to make sure you're not forgetting an oil change or a grease job or other servicing. Ford's twice-a-year maintenance saves you time, saves you money. Just one stop every 6,000 miles takes care of servicing. You'll go 30,000 miles between major lubrications, 6,000 miles between oil changes and minor lubrications, 2 years or 30,000 miles without changing

engine coolant-antifreeze. Brakes adjust themselves. Why buy a service headache when Ford is ready with the cure? See your Ford Dealer - and see how close Ford has come to the fill-it-and-forget-it car!

Air-Force Has New Policies

United States Air Force recruiting service has announced a new enlistment policy according to MSgt Harl and SSgt Griffith, local Air Force recruiters. Due to the need for increases in Air Force manpower requirements, the USAF has lifted its high school education requirement for boys enlisting in the Air Force. According to Sgt Harl and Sgt Griffith, this opens a great opportunity for young boys below high school level to take advantage of the many opportunities that have previously been available to high school graduates only. The Air Force policy of students enrolled in high school not being accepted for enlistment until graduation is still in effect, and Sgt. Harl and Sgt.

AT ANTON

Guests for Sunday night supper in the home of Mrs. Vernon Taylor were her children, Mr. and Mrs. Chester Howe, Mrs. Dervin Eustace, Danny and Debbie, and Don and Carl Taylor, all of Lubbock.

Mrs. Willie Welch and her daughter Mrs. Wall from Littlefield visited Mrs. W. M. Inglis Sunday afternoon.
