Old Settlers Plan Annual Meet Here

The 14th annual meeting of the Lamb County Pioneers is scheduled for Tuesday, Aug. 28, in the Community Center in Littlefield. The announcement was made by Mrs. C. A. Joplin, publicity chairman.

The meeting will begin at 2 p.m. with serving set for 6 p.m. Mrs. Joplin said Ewing Halsell of San Antonio will furnish the barbecue this year.

Grand Jury Hearing Set Monday

A panel of sixteen grand jurors has been called for service beginning Monday, Aug. 13, at 10 a.m. with District Judge E. A. Bills presiding.

Evidence will be heard at that time in a number of criminal cases. Jack Young, District Attorney, will present the cases to the jury.

Grand jurors called for duty include:

John Alford of Littlefield, John Riecke of Littlefield, William C. Heinen of Littlefield, R. W. Manley of Littlefield, Jess Parker of Olton, Frank Cornelius of Olton, J. Brent Burrow of Olton, Paul Wood of Earth, and J. W. Miller of Sudan, Orval Wallace of Sudan, C. A. Duffy of Amherst, Marvin Tollett of Spade, C. W. Conway of Littlefield, Donald Avery of Littlefield, Landon Grissom of Littlefield, and H. C. Randall of Littlefield.

CC Board To Meet Tonight

Board of Directors of the Littlefield Chamber of Commerce will meet tonight at 7:30 in the Council Meeting Room of City Hall, according to an announcement made by Kenneth Ware, president.

Ware said committee reports from the Back-to-School Trade Promotion Committee, Agriculture Committee, Membership Solicitation Committee and Community Development Action Committee would be given at the meeting.

He urged all board members to attend the session.

T. V. "Red" Murrell of Earth, president of the organization, has called a meeting Monday evening at 8 in the county courtroom in Littlefield. Murrell requested that all chairmen and co-chairmen attend the session.

Chairmen and co-chairmen for the various committees were released Wednesday morning by Mrs. Joplin. They are as follows:

Hospitality - Mrs. Bonnie Haberer of Pleasant Valley; Registration - Marshall Kelley of Earth and Bill Street of Littlefield; Program - Mrs. S. D. Hay of Sudan; Barbecue - Dick Carl of Littlefield; Chairs - Charles Jones of Amherst; Publicity - Mrs. C. A. Joplin; Gifts - Mrs. W. H. Rutledge of Littlefield; Purchasing food and refreshments - E. J. Foust, Sr. and Stanley Doss of Littlefield; Kitchen and table - Mrs. A. C. Barton of Springlake; Meat Serving - John D. Smith of Littlefield; and Memorial - Mrs. Melton Welch and Mrs. E. C. Hudson of Earth.

Chamber Membership Group Works

The membership committee of the Littlefield Chamber of Commerce met Tuesday morning at a breakfast meeting with Bob Manley, chairman, in charge.

The committee, formerly called the ways and means committee, is composed of ten men who have agreed to work the next 12 months on enlarging the chamber. Each of the ten will make a study of the local chamber and how it can benefit every person in Littlefield.

Manley said at the Tuesday meeting, the members of the committee discussed the importance of the chamber program of work and the benefits of belonging and working in the chamber.

The committee members will call on businessmen and women in Littlefield who are not presently members of the chamber. "This will not be pressure selling," Manley commented, "but just to let these people know what the chamber can do for them."

NEW ATHLETIC DIRECTOR -- John Howle, right, is shown talking with Glenn Reeves, Littlefield superintendent, after he was named head coach and athletic director for the school system Tuesday night at a called session of the Board of Trustees. Howle is showing Reeves an article he wrote that appears in the current issue of Texas Coach magazine. Howle replaces Don Williams who accepted a similar position at Plainview.

Former Anson Athletic Chief

John Howle, head coach and athletic director the past two years at Anson, Tex., High School, was elected head coach and athletic director for Littlefield High School in a special meeting Tuesday night of the Board of Trustees. He was selected from a list of 13 applicants, four of whom met with the board.

Howle has had an outstanding record the past two years while at Anson. They won the district in 1960 and were beaten by state AA champion Denver City in regional play. In 1961, his team was named district co-champions.

Estes Elevator Not Sold As Scheduled

Sale of the Olton Elevator, scheduled here Tuesday, was apparently halted by a court order. No official word was received here concerning the postponing of the sale, but an article in an area paper indicated that a court order had been issued to stop the sale.

No one representing the interests of Mrs. Mabel Smith of Plainview, original owner of the elevator, showed up at the courthouse Tuesday, evidence that the sale had been postponed.

Other stories concerning the sale of property owned by the now bankrupted Billie Sol Estes, stated that at least three parties were interested in bidding on the entire holdings.

Agriculture Bill Debate Announced

A public debate on the comparative qualities of the Kennedy Administration's farm program is scheduled for the night of August 14 at the Lubbock High School Auditorium.

Representing the area farmers who oppose the program will be Frank Hinkson, Parkmer County farmer. He will point out the discrepancies in the Kennedy - Freeman farm program and will offer his positive approach to the situation.

Speaking for those who are in support of the administration and its farm program will be Paul Lewis, Lamb County farmer. He will point out the merits of the Kennedy - Freeman program.

He returned to Texas in 1958 and was assistant coach at Canyon for a year. He was named head coach at Memphis in 1959 and Anson head coach and athletic director in 1960.

After being told of the board's decision to hire him, Howle said, "I appreciate the confidence this board has placed in me and hope that our athletic program here will jell and we have a good program here this year."

"I think this is a good opportunity in a good football town," he stated later, "and I was greatly impressed with the administration and board in the Littlefield system."

Howle concluded, "I think we will have a good working situation here."

He met with the assistant coaches who will remain on the local staff at 1:30 a.m. Wednesday. Those remaining are Ben White and Harold Green. In addition, a new coach to replace Harold Gouge who resigned, will remain on the staff. He is Butch Gerber, a graduate of West Texas State this spring.

Howle and his wife, Carol, have three children, Rebecca, 8, John Austin, 4, and Michael David, 1. They will move here immediately following coaching school being held this week in Lubbock.

Howle will bring two assistant coaches with him, but Wednesday he was not sure who they would be.

Please Cut Those Vacant Lots

"Please cut your weeds!" "As the height of weeds increases so does the mosquito population," according to J. W. Harrison, city manager. "And dusting for mosquitos in weeded areas is a waste of time and spray."

Harrison pointed out that the city has begun dusting four nights a week instead of two nights, but the entire town is still getting just two sprayings a week.

Spraying will be done Monday through Thursday nights for the rest of the summer.

Harrison continued that with the height of weeds on vacant lots, the dusting isn't very effective and asked that all persons owning vacant lots to cut the weeds as soon as possible so the spray can kill the mosquito population.

Back-To-School Event Slated By Merchants

Over twenty Littlefield merchants have indicated their desire to participate in the "Mystery Shopper" back-to-school event and a host of gifts await the persons who correctly identify the mystery shoppers on August 16, 17 and 18.

Most of the merchants will be running back-to-school bargains during the three day event and the Littlefield Press will put out a special boxholder edition with the bargains in print.

The Littlefield newspapers and radio station KZZN will release clues as to the identification of the mystery shopper and it is hoped that a mystery shopper will be identified each of the three days. Gifts will be divided among the three winners should there be three who

correctly identify the mystery shopper each day.

At noon Wednesday the following merchants had agreed to give the following gifts to the shopper (See Back-to-School on Page 6)

Three Arrested On Liquor Law Charges

County officers arrested three persons on liquor law charges early this week. James Lee Hooper of Sudan was charged with the violation when arrested by the sheriff's office and officers from the Texas Liquor Control Board.

County officers, led by Texas Ranger Razz Renfro, made a raid on a local wrecking yard and arrested the owner, Charlie Hutson, on charges of

violation of the liquor law. The arrest was made at 9:10 Tuesday night.

Cache found at the scene included 34 cans of beer, a pint of whiskey and a pint of vodka. He was released on \$1,000 bond Wednesday morning.

A. H. Duncan of Littlefield was charged with violation of the liquor when arrested by sheriff officers and officers of the Texas Highway Patrol.

Cotton, Grain Sorghum Growing Fast

Crops Look Good, Experts Say

King and Queen of the agriculture industry in Lamb County and throughout the South Plains appears headed toward a near-record year.

The King, cotton, and the Queen, grain sorghum, have developed well since the rains in July. Prior to that time the prospects were not too favorable due to dry weather and persistently strong, hot winds.

Estimates range from 180,000 to 192,000 bales for the

county cotton production this season and grain production is estimated slightly under last year.

Bill Kimbrough, county agent, said Wednesday morning, "We have found no insects in large numbers and no fields that need spraying." "There has been some feed lost in spouted areas due to worms," he continued, "the 'green eyed monster' may increase or may die, we never know."

Kimrough estimated the cotton production at 180,000, considering all things. He stated that the dryland acreage doesn't look as promising as last year, but added, "as a whole the crop looks almost as good, and in spots better than last year."

"We won't need another rain until about August 25," Kimrough said. "We can go that long without any damage to any crops." He stated that most of the dryland cotton has just

fruited.

L. D. Aten, office manager of the ASCS said the crops look good. He continued that his office is about 98 per cent through the first measuring and some of the plowup acres have been re-measured.

When asked what the farmers who received heavy hail last week were going to plant on the hailed out acreage, Aten said, "some of them are going to plant fall Irish potatoes while

others are just going to leave it alone and hope for a late freeze."

Aten estimated the crop at 190,000 bales. He continued that all but 150 acres of the county allotment was planted. "This would have been," he added, "but dry weather kept it from being planted."

Rip Elms, manager of the Paymaster Cotton Oil Mill, said the outlook for a bumper crop is good and estimated the pro-

duction at 190,000 bales. He continued that the Cotton Exchange in Lubbock estimated county production at 192,000 bales.

"At the present time we have 205,000 acres of standing cotton," Elms added, "about 103,000 of this irrigated." "The big problem now is weeds," he said.

Last year's production was an all time high of 223,900 bales based on a 500 pound bale. (See Crops on Page 6)

MAIZE ABOUT READY -- Grain sorghum fields across the county are nearing the cutting stages with the first load expected either late this week or early next week. Forecast is for only a little less production this year than last.

COTTON GROWS TALL -- Cotton fields throughout the county are growing fast and the outlook for a near-record year is good. Agriculture experts estimate between 180,000 and 192,000 bales will be produced this year as compared to 223,000 last year.

Faster than hand washing

A water temperature of 150 degrees would be mighty hard on your hands — even when protected by gloves. But that's how hot the water is in your dishwasher.

The hot water puts all the cleansing action of your detergent to work and gives you much cleaner dishes — much easier.

It can take as long as 2 hours a day to wash and dry by hand — and that amounts to 30 full 24 hour days a year. That's a lot of drudgery. On the other hand, washing and drying dishes electrically is

simply a matter of getting the dishes off the table and into the dishwasher. No dirty dishes on the sink, either, you can store them in the dishwasher until you are ready to do them.

There's a dishwasher to fit your home — and your budget. Portable models require no special plumbing or wiring.

The cost of the electric service to wash and dry dishes is less — each day — than the price of one cigarette.

MRS. MARVIN W. SANDERS JR.

Miss Vicki Janette Prather Is Bride Of Marvin Sanders

Miss Vicki Janette Prather of Earth became the bride of Marvin W. Sanders Jr. Saturday, Aug. 4, at 6 p.m. in the Earth First Baptist Church.

The Rev. C. T. Jordan performed the double ring ceremony before an arch of green lemon leaves topped with bows and wedding bells and flanked with baskets of white gladioli with orchid bows.

Parents of the couple are Mr. and Mrs. Elmer Prather and Mr. and Mrs. Marvin W. Sanders Sr., all of Earth.

The bride, given in marriage by her father, was attired in a gown of cloud white taffeta and chantilly type lace, fashioned with a scalloped Sabrina neckline, sprinkled with seed pearls and sequins, and long sleeves. The fitted lace bodice was attached to a bouffant taffeta skirt enhanced by an inset panel of lace. A large butterfly bow at center back complimented the full sweep of the chapel train. She wore a crown of pearls from which depended a fingertip illusion veil. She carried a white Brides Bible topped with a bouquet of carnations centered with an orchid.

For something old the bride wore a gold bracelet belonging to the groom's great grandmother, something new was a white lace handkerchief and the matron of honor gave her a blue garter for something blue. For something borrowed and good luck she wore a penny in her shoe bearing the year of her birth, 1945, borrowed from her grandfather, J. F. Prather of Muleshoe.

Mrs. Gene Stephens of Amarillo, sister of the bride, was matron of honor. She wore an orchid taffeta frock with scooped neckline and brief sleeves with a pleated skirt held by a white silk embroidered bodice. She wore a white circular headpiece topped with a tulle bow holding her face veil. She carried a single long stem white carnation.

Bridesmaids were Miss Beverly Prather, sister of the bride, and Miss Pruda Kay Sanders, sister of the groom. They were attired in white taffeta frocks with scoop necklines, brief sleeves and pleated skirts. They wore white circular headpieces edged with orchid lilacs and face veils. They carried a single long stem orchid carnation.

Best man was James Donald Bartlett, Jr. of Meadow. Groomsman were Gene Stephens of Amarillo and Dale Dent of Earth.

Assuming the ushering duties were John Patterson and Freddy Kelly. They also served as candlelighters.

Ringbearer was Stevie Green, cousin of the groom, and flower girl was Alice Faye Adrian. Vocalist for the occasion was Mrs. Bobby D. Green, cousin of the groom, accompanied

New Deputy Named For County Office

Leonard White has been named deputy sheriff for Lamb County by sheriff Dick Dyer. White moved to Littlefield Monday and will live in the apartment in the courthouse. White will replace V. L. Smith, Sr., who moved back to Olton where he is deputy. W. O. Word, Olton deputy for the past two months, resigned from the county force last week. White was raised in East Texas but has been a peace officer for the past 13 years. He moves here from Snyder where he was a deputy for two years and on the police department for five years.

TOWN
(Continued from Page One)
The spoils system takes out an experienced man and puts in a newcomer to the office, who must in turn learn the business.

Perhaps the newcomer is a smarter person, a more capable person, but the old element of experience has been tossed out the window.

Two topics of conversation have dominated main street the last four or five days: "Who will be the Littlefield football coach? . . . and when will this heat let up?"

The coach problem will probably be solved by the school board, don't know what old mother nature will do about the heat.

With the state coaching school in progress in this little burgh to the southeast, it has been pretty handy for most aspiring football coaches to travel on over to Littlefield and put in their application for the coach's position. Monday and Tuesday it looked like the school might have been in Littlefield as various applicants hunted school board members in hopes of influencing them before they made their decision Tuesday night.

We welcome the new football coach . . . we've pretty well got used to getting beat by Leveland the last five years, of course we would enjoy a surprise every four or five years . . . or sooner!

Out best wishes go to the new coach John Howie and we welcome him and his family to Littlefield.

HERE'S a good one for the women: "As long as we prevent women from becoming astronauts, the man in the moon is safe."

IN OUR youth the perfect gift for an 18 year-old girl was a compact. It still is, if it has four wheels! (Look).

BCD Hears Industrial Rep

Members of the Board of City Development met with Bill Cobb, representative of the Texas Industrial Commission, Monday afternoon.

Purpose of the meeting was to ascertain from Cobb what Littlefield would have to do before additional industry would look favorably on the city. Cobb told the members of the board several avenues that need correcting before industry would consider Littlefield. Among them were a state approved water service, adequate water storage, adequate sewer system and a revamped tax struc-

ture. Cobb did speak favorably concerning the possibility of additional industries moving into West Texas, many of them having no specific location in mind.

Former Pastor Will Preach At Spade Church

The Rev. U. S. Sherrill, former pastor of the Spade Methodist church will preach both services at the Spade church Sunday in the absence of pastor Aaron Mitchell.

The Rev. and Mrs. Mitchell returned home from the hospital this week and both are recovering as well as can be expected. They were injured in an auto accident north of Anton last week.

Fender Bender Tops Police City Activity

City Police investigated fender bending at the intersection of 6th and Phelps about 8 p.m. Monday. According to the police a car driven by Lloyd Curtis Crosby of Littlefield stopped in the lane of traffic after turning the corner from 6th onto Phelps. An auto driven by J. W. Bitter Jr., also of Littlefield, following Crosby hit the rear trunk of the Crosby auto. Damage was estimated at \$12 to Crosby's auto and \$12 to Bitter's.

Highway Distress Ideas Given By State Patrol

Have you ever been in distress beside the roadway with a flat tire, out of gas or any other numerous things seem to plague us as motorists on our highways?

Forty-six states including Texas, have adopted uniform distress signals to be used by motorists in trouble. The idea now is to educate the motorists to their meaning and use.

Major Harry Hutchison, commander of Region #5, of the Texas Department of Public Safety today.

The American Association of Highway Officials is responsible for crystallizing and standardizing the following:

In an emergency on freeways, whenever possible, drivers should stop their cars on the right hand shoulder well away from the thru traffic lane.

Turn on the tail lights and the front lights of the stopped vehicle should be turned on.

If a vehicle is equipped with a signaling indicator having an "emergency" switch, it should be turned on so that both right and left turn signals flash simultaneously.

If a disabled vehicle is in such a position that it is in or near a traffic lane, a portable warning device should be placed to the rear of the stopped vehicle to warn oncoming drivers of the hazard.

Whenever help is needed, a cowboy Ellis makes first appearance.

Wrestling fans Saturday night witnessed some of the best wrestling matches at the Littlefield Sports Arena, that have been seen in a long time.

The Viking beat Miguel Cas-two straight falls in the first of forty eight minutes to his match.

Monroe beat Sir Nelson Royal and the Viking two weeks ago in Lubbock in one of the wildest matches ever to be held in Lubbock.

Wrestling fans can expect anything to happen at the Littlefield Sports Arena Saturday night.

Bob Ellis, the newcomer, is rated one of the top five wrestlers in the sport today. His home is San Angelo, Tex. He is rated the highest paid T V wrestler in the Nation today.

Matches start at 8:45 p.m. Doors open at 7 p.m.

white cloth or handkerchief should be displayed from the stopped vehicle so that it readily can be seen from other vehicles on the highway. For example, the white cloth may be hung from the window next to the driver's seat so that it is conspicuous to passing motorists. In addition, when practical, the hood of the car should be raised.

While waiting for help, motorists should remain within their cars or nearby in a safe position off the traveled roadway. They should not stand or walk in or near traffic lanes, or leave their cars unattended.

After observing a distress signal, passing motorists should notify the nearest police, highway, or automotive service official at the first convenient opportunity, giving the location of the motorist in need of assistance.

"If all motorists will remember and use these rules," Major Hutchison said, "much of the safety hazard now existing will be eliminated. Too many people are being killed or injured in Texas because they don't know what to do when they get into trouble out on the highway," he concluded.

Plains Farmers Form Sugar Beet Ass'n

The High Plains Sugar Beet Association was organized at a meeting in Plainview Monday night of representatives from five counties.

Among purposes of the association are those to encourage increased production of sugar beets for the Plains and to increase acreage approval by the government farm program.

Homer Garrison of Plainview was elected president of the group. Other officers named were Owen Thornton, Lockney, vice president, and W. T. Hall, Olton, secretary - treasurer.

SKATING WINNERS -- Shown above are the trophies given by Littlefield Sports Arena Sunday afternoon to the winners in speed skating races. From left to right the winners are Gene Williams, Laure Holman, Chuck Holman and Kay Harp.

er, and Hale Counties; Abernathy, Olton and Springlake associations and the Dimmitt Chamber of Commerce, Graddy Tunnell, Plainview attorney explained the process of obtaining a charter for an organization such as the High Plains Sugar Beet Association. A charter will be applied for.

The group authorized Garrison to send a letter to Orville Freeman, secretary of agriculture, asking for a large sugar beet acreage on the

Plains. The letter will be signed by heads of the associations in the area.

The assignment of substantial sugar beet acreage for the Plains is sought with the idea that some sugar mill will establish a plant here.

Farmers have indicated they will plant more than 46,000 acres of the crop. Hale county Agent Ollie Liner said commitments for planting sugar beets are still coming in to his office.

Claims Polls Showing Opposition to Tax Cut Taken In Europe

Editor's note: The Sandhills philosopher on his Johnson farm views the tax situation this week, in a round-about

editor's note: The Sandhills philosopher on his Johnson farm views the tax situation this week, in a round-about manner. I skipped over the news of the major crises around the world, having found out long ago the best solution to a crisis is to stay completely ignorant of it, and was reading along on an inside page when I ran across an item that said a public opinion poll has just been completed showing 72 per cent of the people in the United States don't favor a tax cut at this time.

feel like working or thinking either, I opened the paper and read a while.

I skipped over the news of the major crises around the world, having found out long ago the best solution to a crisis is to stay completely ignorant of it, and was reading along on an inside page when I ran across an item that said a public opinion poll has just been completed showing 72 per cent of the people in the United States don't favor a tax cut at this time.

This is like saying 72 per cent of the farmers in a drought area aren't in favor of a rain. What I believe is that the people running the poll got their wires crossed. They didn't take that poll in the United States. They took it in Europe. It's not hard to believe that 72 per cent of the people of Europe are opposed to a tax cut in the U. S.

In fact it's run closer to 100 per cent. I can't imagine a worse crisis in Europe than the threat of a tax cut in the United States.

Or, of the poll was conducted in this country, the clerks typed the question wrong, making it read not do you think we need a tax cut but do you think we're going to get one?

From my vast knowledge of

what the people think, based solely on how I feel, I would say that 72 per cent would like to have a tax cut but 99 per cent aren't counting on it. And for that 1 per cent counting on it, I'd recommend they hold back a little reserve, in case things don't work out.

Yours faithfully,

Flame Cultivation Tours At High Plains Research Are Friday

"Guests from throughout Texas and the United States are expected to attend the Third Annual Flame Cultivation Tours at the High Plains Research Foundation on Friday afternoon, August 10," William J. Law-

son, Executive Secretary of the Texas Butane Dealers Association, of Austin, said this week.

Fred Garrison, member of the Board of Directors of the

State All-Star Athletics Set For Lubbock

Outstanding schoolboy basketballers and footballers collide in the annual Texas High School All-Star games at Texas Tech Friday and Saturday nights.

North-South basketball game starts at 8 p.m. Friday in the Coliseum on the Texas Tech campus. The grid contest is slated for 8 p.m. Saturday.

All competitors were chosen by selection committees of the Texas High School Coaching Association, which is having its annual school here this year. Both general admission and reserved tickets will be available at the Texas Tech Athletic Office during the day, at the respective gates immediately preceding game time.

Association is chairman of the committee who will welcome, register, and guide the visitors on the tours. Literature on research results will be available at the registration tent.

Lee Dent, manager of the Hale Center Chamber of Commerce will dispatch the trailers drawn by tractors for the tours throughout the afternoon. Men experienced in flame cultivation will explain the research results at each of the stops on the tour.

Explaining results on corn and grain sorghum will be Jack Parks and Charles Hanaford, results on castorbeans and soybeans will be James Valliant and Bill Price. Sesame and peanuts results will be told by Jodie Howard. Weed control on cotton by flame will be discussed by Delbert Langford and Dale Price. Sugar beets, black-eyed peas, and greenbeans as affected by flame will be explained by Barry Love and Harry Garritson.

Demonstration of flaming on cotton at various stages will be made by dealers. Exhibits of flame cultivation equipment by manufacturers, will be made by Gotcher Mfg. Co. and A Kansas Flame Cultivator Co. Dr. Earl H. Collister, Director of the High Plains Research Foundation will preside at a conference at 4:00 p.m. The panel for this critique will be William J. Lawson, Ted Parks, of the State Association, Jack Parks, Foundation Agricultural Engineer, Charles H. Reggs, A Kansas Flame Co., William Gotcher, Jr., and a group of farmers experienced in weed control by flaming. Farmers in this group are: Eddy Reinauer and W. J. Messick, Hereford; A. C. Glenn, Plainview; Shelby Howell, Jr., Lowell Mitchell, and Glenn Tennell, Edmonson.

Members of the Board of Trustees who will be hosts to the visitors touring the new office building, greenhouse while attending the tours: Claude Fargason of Halfway is Chairman of the committee, Olan Alexander, Joe Don Scott, and Homer Garrison, Plainview; R. L. Burgess, Hale Center, Harmon White, Cotton Center, Lane Decker, Floydada; Joe Foster, Lockney, Willis Hawkins, Sr., Hart, Grant Hanna, Hereford; and Jarvis Angeley, Earth.

Ted J. Parks and the Texas Butane Dealers Association will hold a press conference for agricultural editors and reporters from 9:00 to 11:30 a.m. on the 10th. The Western Tank & Steel Co. will be hosts for a press luncheon at the headquarters conference room at Halfway.

Among the greeters and guides for the tour are J. C. Hamby of Olton and L. A. Watson of Springlake.

Homer Carter Participates With Reserves

Homer M. Carter, a first lieutenant in the Army Reserve and a citizen of Anton left Sunday for Camp Wolters, Mineral Wells, Texas, and two weeks' summer training with the 413th Civil Affairs Company of Lubbock.

The Lubbock unit, consisting of 60 officers and enlisted men, will be joined in camp by units from Dallas, Corpus Christi, San Antonio and Albuquerque.

During the two weeks of training the reservists will put into practice the lessons learned during weekly home-town classroom periods. The first four days at camp will be spent in the field working on civil affairs problems. The second week will consist of classroom instruction and a command post exercise dealing with various related problems.

The two-week training is mandatory for all active reservists and is part of the general program to build up America's military strength to a maximum peak of efficiency.

The unit is scheduled to return August 18.

STATE CAPITAL Highlights AND Sidelights by Wm. Sanford

AUSTIN, Tex. -- Lt. Gov. Culp K. Krueger, democratic nominee John Connally and dozens of other state officials and prominent Texans turned out at the monthly meeting of the State Highway Commission and to pay tribute to State Highway Engineer Dewitt C. Greer on his 35th anniversary with the highway department.

Commissioners Herb Petry, Jr. of Carrizo Springs, Hal Woodward of Coleman and Charles F. Hawn of Athens were among those making complimentary speeches.

Hawn stated that he had known Greer ever since the highway engineer began his career in Athens.

His and Greer's association was unique, said Hawn, since he was the groom and Greer the bride when the two took part in a "womanless wedding" in Athens about 40 years ago.

VETERANS' INSURANCE PLANNED -- Land Commissioner Jerry Sadler announced that the Veterans' Land Board had concluded preliminary arrangements to provide group credit life insurance for some 30,000 veterans who have purchased land under the state's \$200,000,000 program.

Great American Reserve Life Insurance Company of Dallas will be the insurer if the Texas Insurance Commission approves the plan.

Sadler said the plan is to guarantee full ownership of land to a veteran's widow or heirs at modest annual premiums.

Land board will send details to veterans included in the program when it is fully authorized.

BIG SCHOOLS "COOL" -- Mass air conditioning at the University of Texas and Texas A&M College will account for seven per cent of the \$25,767,000 of state funds earmarked for construction in the year starting September 1.

Money to air condition old classrooms and lab buildings on the Austin and College Station campuses comes out of revenue from University Permanent Fund investments, as does all the \$15,588,683 to be used for new buildings, renovation and additions at the two schools next year.

Air conditioning projects at the University include the chemical engineering building; Garrison Hall; Sutton Hall; and T. U. Taylor Hall engineering building.

A&M plans to air condition its agricultural building; animal industries building; biological sciences building; chemical building; engineering building; Francis Hall; and physics buildings.

DANIEL NAMES APPOINTEES -- Gov. Price Daniel named new board members for three of the state's 19 colleges and universities.

Ennis Favors of Stephenville, a former state representative, was named to the Board of Regents of Texas Woman's University; and Jack Hughes of Abilene to the Board of Regents of Midwestern University. Charles D. Matthews of Dallas will succeed Jim Lindsey of Midland as a director of Texas Technological College.

Governor Daniel also appointed Rep. J. W. Moore of Ballinger and Claude K. Robinson of Vernon to the interim house committee to study salt water pollution to the soil and surface water of Texas.

STATE LAUNCHES RAMP PROJECT -- Texas Highway Commission has approved a \$113,000 program to build 25 public boat ramps throughout the state. Money is surplus from boat registration fees collected under the Texas Water Safety Act.

Penn Point By D.H.P.

Mrs. Blanche Dödgen, long time resident and welfare worker, isn't all smiles as she usually is. She is the bearer of two shiners, and a rather enlarged nose.

Seems as though she was in the swimming pool last Saturday afternoon playing with her grandchildren. She was catching them as they came down the slide. As one of the children came down to be caught, Mrs. Dödgen got caught instead... right in the nose.

The impact broke her nose and surgery was required to repair the break. I visited with her Sunday night and although her face is swollen, her nose in a metal cast and her eyes blackened, she did manage to make the best of it.

I asked what they had done with her husband, to which she replied, "Well, I guess they have him locked up right in jail." Her other comment was that this would sure be a bad time to catch a cold in her nose.

Well, motion pictures, men and the world lost a lovely creature early Sunday morning with the death of Marilyn Monroe.

The apparent cause of her untimely death was an overdose of drugs, but, no reason was given for her actions.

Stories about her life lead one to regret that famous persons, Hollywood stars, etc., are not permitted to have private lives. Their every thought, action and words are used as high-powered copy for magazines and newspapers across the nation and the world.

Her life might have been different had it not been filled with these and other kinds of pressures, but then that is the price you must pay for fame and fortune. The sex, glamorous and don't-give-a-darn side of her was all that ever made the print. This is the usual Hollywood buildup for any of the appealing actresses and is another of the pressures applied.

I personally think it is a shame that the better side... the good side... of the actors and actresses is not given more publicity than the sexual, I am sure there was a good side to Marilyn as there is to everyone... with a few exceptions.

Thus her final picture completed can pretty well describe most of the actresses and actors... "The Misfits."

Additional cases where the use of the drug thalidomide during or before pregnancy are turning up throughout the nation. The drug is blamed for malformation in newborn infants.

Meanwhile, the drug, listed in several other names, has been banned from the American market... but this is like closing the barn door after the horse has gotten out.

I think it might be a good idea for the "all-powerful" Food and Drug Administration to take a long look at all the "wonder" drugs which have flooded the market in the past few years to see if any of them have caused bad side effects.

Our laws are strict on the use of medicines in livestock and pets but somewhat lax when it comes to humans. There is no question that many of the new drugs are excellent for their intended purposes, but one bad one can undo just about all that the good ones have done.

This may awaken the populace to a few facts of life.

Say, we found a good use for newspapers... besides

reading that is, The fly population at the office got so bad Monday afternoon they had to fly swatter. Yep, you guess it... we used folded newspapers to do the destruction of the varmints.

So you see, at times even we will admit that newspapers are good for other things besides their intended purpose. We suggest that you use an old paper or the current copy when you have read it... it becomes a little messy after killing a hundred or so flies.

Since the recent rains there are vacant lots in Littlefield that have the appearance of being planted in careless weeds and other unwanted and undesirable growths which detract from the beauty of the vacant area and the homes nearby.

Up there on 19th there are a couple of the vacant areas which are lush in their growth of weeds... and along with the weeds, a perfect place for mosquitoes to hide.

It is a shame that the owners of the lots don't have the pride or the neighborliness to at least keep the weeds... but I guess since the don't have to look at them every day or live next to them they don't notice how unsightly the areas have become.

A man threatening to end all was perched atop a building in Dallas. A policeman had made his way to the top to try to persuade him not to jump.

"Think of your wife and family," admonished the officer. "Haven't any," replied the man.

"Think of your mother and father," pleaded the cop. "Have none."

As a last resort the policeman said, "Think of Robert Lee."

"Who's Robert E. Lee?" asked the man. "Jump, ya cotton pickin' Yankee!"

SAID THE FORD FALCON TO THE CHEVY II (AND CORVAIR)

No matter which compacts you compare the facts favor the Ford Falcon. Here's proof!

FALCON VS. CHEVY II

Falcon's standard engine is a Six, Chevy II's a Four! Falcon goes 6,000 miles between oil changes. Chevy II, 4,000. Falcon topped Chevy II's gas mileage in the '62 Mobil Economy Run. In addition, Falcon gives you more glass area, multi-leaf (not angle-leaf) rear springs, wider choice of models! AND FALCON'S PRICES START LOWER!

FALCON VS. CORVAIR

Falcon is longer and almost 4" wider than Corvaire... holds 6 adults in comfort (try that in a Corvaire)! Falcon's engine delivers more power than Corvaire's. Falcon packs almost twice as much as Corvaire's front-end trunk. Falcon's wheelbase is 1 1/2" longer. Falcon has bigger brakes. Falcon's seats are comfortably higher. In addition, Falcon gives you oil savings, more glass area, bigger doors. AND FALCON'S PRICES START LOWER!
