## W. A. Wilson Jr. Killed Instantly In Car Wreck Friday

### Chester Toney Sustains Chest Injury, Broken Ribs

### Funeral Services For Wilson Held Sunday at Methodist Church

W. A. Wilson, Jr., 20, was killed instantly, and Chester Toney, 21, was severely injured Friday night about 11 o'clock near Fort Worth, when the automobile occupied by them hit a culvert.

Wilson had been visiting for the past three weeks with his sisters and brothers in Fort Worth, including his sister and brother-in-law, Mr. and Mrs. Joe Brown, at whose home he was visiting at the time of the accident.

Toney, a son of Mr. and Mrs. C. E. Toney of west of Littlefield, was discharged from the service about two weeks previous, left Tuesday of last week for Fort Worth, and was also a visitor in the Joe Brown home, Mr. and Mrs. Brown being his aunt and uncle.

Wilson and Toney had gone to a neighborhood store in an automobile belonging to the Brown family, and it is believed that in returning to the Brown home, which is located on Highway, the youths had missed the house, and were in the act of turning the car around to go back when a tire blew out, throwing the car against a culvert. Wilson was thrown through the windshield, and killed instantly. Toney sustained a chest injury, broken ribs, bruises.

### Awarded Letter Of Commendation

ROBERT GENE WOODY

Robert Gene Woody, Carpenter's Mate Second Class, USN, 23, son of Mr. and Mrs. H. L. Woody of Route 1, Anton, Texas, has received a letter of commendation for his "outstanding action" as a member of a damage control party on board the USS Hughes (DD-410) when that ship was struck by a kamikaze on December 10, 1945, in the Philippines Area, Eleventh Naval District Headquarters have announced.

The Hughes, operating on radar patrol outside Ormoc Bay, Leyte, two days after the Philippine invasion, was picked up by 12 Jap aircraft and immediately bombed and strafed. After wild maneuvering to avoid the attack, she was struck by a diving kamikaze and quickly took fire, losing power and all controls. But for the outstanding work of her damage control parties in maintaining her stability in addition to fighting the fires, while the planes circled overhead, she might well have been lost.

Woody, who was graduated from Littlefield High School, was employed as a carpenter before entering the Navy in 1942. He has served 38 months in the Southwest Pacific Area, and in addition to the Commendation Ribbon he wears the American Theatre Ribbon, Asiatic-Pacific Ribbon with stars for 10 major engagements, Philippine Liberation Ribbon with two stars, and the Victory Medal.

### Park Meeting Tuesday Night

As announced by Fred Wright, President, the annual meeting of the Littlefield Park Association will be held in the Courtroom of the Court House, Tuesday night, April 30, opening at 8 o'clock.

### Local Schools Lose Salary Aid

Due to a provision of the 1945 Equalization Law which states that school districts containing an incorporated town of over 3600 population is not eligible for any type of aid, the salary aid for the Littlefield district is cut off effective immediately. It was at first interpreted by state officials that transportation aid would be denied also, but a ruling by the Attorney-General of Texas held that districts of over 100 square miles in area would be allowed bus aid regardless of other qualifications. This ruling was made last Friday at the request of Littlefield School officials.

Supt. Fred Miller, H. C. Arnold, secretary, J. Earnest Jones, County Sup't. and E. H. Boulter, Deputy State Sup't. were in Austin last week to personally present the Littlefield problem to state officials.

The loss of both types of aid would mean a cut of \$35,000 annually in school revenue. The reinstatement of bus aid will mean that the district will still lose about \$18,000 on salary aid.

The board has not yet made a decision on how to replace this lost revenue and keep the school program up to date. However they expect to announce a plan right away.

This loss, even through crippling, does not mean the district is insolvent. The school will be able to meet all current obligations but something must be done to put the schools on a permanent adequate financial basis.

Supt. Fred Miller stated Wednesday that Brownfield had also had their salary aid cut off for the same reason as Littlefield.

The Littlefield School Board at their meeting May 6 will decide in what manner they will endeavor to offset this loss.

At the Friday night meeting of the Board of Commissioners for the Littlefield Soft Ball League, the board decided to delay the deadline for entries of teams until April 27. SAFETY—A BATTLE OF PEACE

Out on the highway there is a painted line. It is the line that separates life from death; happiness from despair; safe driving from dangerous driving.

Stay on your side and live. Thousands annually cross over that line and meet death or serious injury.

State Highway Engineer D. C. Greer makes a timely plea when he calls for strict observance of highway markings and signs. Traffic volume is already well above prewar peaks in Texas, tire and car shortages notwithstanding.

### Large Attendance At Sunrise Service

Despite the fact that the sun was not in evidence Sunday morning, due to a hazy sky, the Easter Sunrise service was held at the stadium according to plan.

"We Serve a Risen Savior," was the theme of the solemn and impressive service attended by a large crowd. A medley of Easter carols was the prelude to the service played by the Littlefield High School band, under the direction of Lt. Al-

len Winston.  
The High School choral club sang, "The Holy City" and sang with the congregation to the accompaniment of the band.

A lone cross adorned with greenery and a single lily stood on an improvised platform. On this stood members of the chorus and their director, Mrs. Norma Ewell, and seated were Rev. A. B. Haynes; pastor of the Presbyterian Church; Rev. Turner pastor of the First Methodist church and Rev. Lee Hemphill; pastor of the First Baptist church. Other pastors of the city whose names appeared on the program were unable to attend.

Voices from the choirs of the various congregations rang out in "All Hail The Power of Jesus Name" and "Christ Arose" as well as in unison in the responsive readings which interspersed the program. This gave a combined joyous Christian festival of Easter for a people whose world was at peace for the first time in nearly a decade.  
Rev. Orbin Turner touched the

hearts of those present with an appropriate Easter message.  
Rev. A. B. Haynes led the responsive reading and delivered the morning prayer.

Rev. Lee Hemphill read the scripture and closed the service with the benediction following the "Hallelujah Chorus" sung by the choral club.

Surviving the deceased are his parents, Mr. and Mrs. W. A. Wilson, Sr., three brothers and five sisters.  
The brothers are: Leonard, Sherman and Robert, all of Fort Worth; and the sisters are: Mrs. O. M. Lee and Mrs. Clarence Miller, both of Littlefield, and Mrs. J. T. Brown, Mrs. M. W. Metcalf and Mrs.

Claude Todd, all of Fort Worth.  
He is also survived by his grandparents, Mr. and Mrs. J. F. Rodgers of O'Donnell, Texas.

**How women and girls may get wanted relief from functional periodic pain**

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:  
1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.  
2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.  
Try Cardui. If it helps, you'll be glad you did.

What is your GUESS? on our profits...?

SOMETIMES, although an idea is wrong, it does no harm. Like the idea that a square jaw is the sign of will power.

But there are other wrong ideas, which are definitely harmful to public confidence in and understanding of industry.

Many people are apt to grossly exaggerate the money made by business. So Opinion Research Corporation (an independent organization) made a survey to learn just what the public thinks about profits.

Public guess on war profits . . . 30.0%

1 in four war year average profit . . . 4.9%

In this survey, the average of the guesses by the public of the wartime profits made by industry was . . . thirty per cent (30%).

But in the four war years of 1942, 1943, 1944, and 1945, the profits of International Harvester Company averaged only . . . 4.9% on sales.

For this period, the year by year per cent of profits on sales was: 1942—7.34, 1943—5.59, 1944—3.95, 1945—3.93.

Public guess on peace profits 18.0%

1 in four pre-war year average profit . . . 7.17%

In the four peace years of 1938, 1939, 1940, and 1941, the profits of International Harvester Company averaged . . . 7.17%. This is well under half of what the public "guessed" for all industry.

Majority think fair profit in normal times is . . . 10%

1 in ten-year average is less than 7%

The survey indicates the public knows that in our economy profits are indispensable. And the majority regard 10% as a fair

Wages and materials consume nearly all of every dollar Harvester takes in from sales. A Government board has recommended and the Company has agreed to pay a general wage increase of 18 cents per hour for Harvester factory employees.

There has been no general increase in our prices since they were frozen by the Government early in 1942.

So our situation today is that what we BUY costs us 1946 prices. We will be paying average hourly wages 56% above 1941. For what we SELL we get only 1942 prices.

Future Prices on I H Products

It is plain that price relief will be needed to meet the increased wage and material costs which we must carry.

We regret this necessity. We prefer to lower prices, when possible, rather than raise them and we know our customers prefer to have us do that. We had hoped to be able to "hold the line," at least.

Our customers can be certain that we will seek no more than a moderate profit, both because of our policies and because we have approximately 300 competitors fighting us vigorously for your business.

Our customers can be certain that we will seek no more than a moderate profit, both because of our policies and because we have approximately 300 competitors fighting us vigorously for your business.

rate of profit in normal times. Many large businesses, including ourselves, would consider it a banner year if we could reach this figure.

All these figures show that our profits are not high. As a matter of fact, the entire farm machinery industry is a low profit industry.

What About Current I H Prices?

When the War ended and we planned our peace-time production, we had hoped to be able to serve our former customers at the same level which has held since 1942, regardless of war-time increases in costs of wages and ma-

materials up to that time. But recent developments have forced a change in our plans.

### Cattle Prices Rise 25 to 50 Cents per Hundred Past Week

Last week saw steady prices and fair demand for most southwest vegetables, stronger prices for cattle, but weaker for sheep and lambs, hogs and grain at ceiling, and fair Easter demand for poultry and eggs at steady prices, according to U.S.D.A.'s Production and Marketing Administration.

Cotton prices fluctuated over a wide range during the week but later gained some ground.

Scarcity of all grains continued to hold prices at ceiling. Feed markets

were near stagnation with the demand for poultry feed rising. Remaining supplies of rice were in active demand. Local wholesalers in Texas and Louisiana were reported seeking left-over lots of seed rice for custom milling to take care of summer consumer needs.

Rain slowed down movement of South Texas vegetables early in the week, but it picked up later as the first offerings of corn and tomatoes appeared on the market. Beet, cabbage and carrot season was about over. Most vegetables were in fair demand at steady prices, except tomatoes. Bushel sacks of white corn containing six to nine dozen ears brought \$3.50 to \$3.75; lug boxes of tomatoes six by six and larger sizes,

### Lamb County Oil News

Humble Oil & Refining company No. 1 Campbell, northwest Hockley county wildcat, in section 116, block A. R. M. Thompson survey, and one mile south of the discovery well in the Anton field, in southwest Lamb county, had progressed below 9,878 feet, in shale and lime, of an unidentifiable formation, and was continuing.

Operator has not reported having logged any shows of oil or gas in any section in the exploration.

Humble No. 1 Virginia C. Hary, 1,980 feet from north and 660 feet from east lines of section 119, block A. R. M. Thompson survey, in southeast Lamb, and on the southeast side of the Anton field, completed for a 24-hour pumping potential of 14.93 barrels of oil, plus 11.43 barrels of basic sediment and water.

The production was from perforated zones between 5,696 feet and 5,764 feet. Several infections of acid had been used in that zone.

\$5 to \$5.25 and six by sevens \$4.50 to \$4.75; and 50-pound sacks of washed Bliss Triumph potatoes, \$1.95 to \$2. Good demand kept Laredo onions at ceiling price of \$2.60 per 50-lb. sack for fair to good Yellow Bermudas. Louisiana strawberries were up as demand grew better. Twenty-four pint standard and display crates of Klondikes and Klondikes realized \$5.65 to \$6.25. Louisiana sweet potatoes stood at ceiling of \$3.56 per bushel crate for kiln dried U. S. No. 1 and 2 Porto Ricans.

Easter demand kept heavy receipts of eggs at about steady prices last week. Current receipts brought 30 to 30 1/2 cents per dozen, Fort Worth; 30 to 31 cents, Dallas; 29 to 30 cents, Denver; and 31 to 32 cents, New Orleans.

Despite light movement of southwest poultry and fair holiday demand, prices remained about steady with heavy hens quoted at 22 to 24 cents per pound, Dallas and Fort Worth; 22 to 25, Denver and around 29 cents, New Orleans. Fryers were short of demand and brought about 30 to 31 cents a pound at most markets.

Cattle prices were up 25 to 50 cents per hundred at most southwest markets last week. Houston sold medium yearlings at \$13 to \$14.50 per hundred pounds and medium cows at \$10.25 to \$11.75. At San Antonio medium and good shortfed yearlings brought \$14 to \$15.50, and common and medium cows \$8.50 to \$12.50. Fort Worth moved good beef steers and yearlings at \$16 to \$17, medium and good cows \$11 to \$13.75. Oklahoma City and Denver quoted top steers at \$17 and beef cows to \$13. Wichita offered good light stock steers and yearlings at \$14 to \$15.50.

Except for steady prices at Fort Worth, most southwest sheep and lamb markets were weaker last Friday compared with the previous weekend. Good and choice spring lambs brought \$13.25 to \$14.25 per hundred pounds, San Antonio; \$15.50, Fort Worth and Oklahoma City. Good and choice fed Texas lambs realized \$15.50 to \$15.60, Wichita. Denver quoted choice fed Colorado lambs as high as \$16.75 per hundred pounds.

Broad demand ruled southwest hog markets last week and kept prices at ceiling.

Howdy Folks, We heard about a man who lived to be 94 years old and never used glasses, but then some men prefer to drink right out of the bottle.

And, as some one has said, more glasses are used under the nose than over them, now days.

Of course the only exercise some fellows get is chinning at the bar.

We heard about one man who was held up on his way home, but his case isn't so unusual in view of the fact that many men can't get home any other way.

When some men go out to make hay, they often start with a little rye, but if they keep it up long, they soon get to look a little seedy.

Oil mills and others are using bulletins, advertisements, news items and many other methods to help farmers make cotton more productive and profitable, in a balanced farming and livestock program. . . . ### Joe W. Jennings Outlines Platform

Joe W. Jennings

Joe W. Jennings, of Hale County, this week announced the formal platform on which he seeks election to the Legislature from the 102th Legislative District.

In the last election Jennings received 6,926 votes of a total 12,379 votes cast, being defeated by 327 votes. "Had I received 165 more votes I would have been elected by a narrow margin," he said "With a more vigorous campaign this time, I feel confident that I will be successful," he said, "many citizens having indicated to me that they want a change at Austin. I have never held any political office."

A native Texas, Jennings graduated from Texas A & M in 1911, taught vocational agriculture, managed a ranch in Bailey county 1916 to 1918, served as county agent in Lubbock and Randall counties, and since 1929 has farmed in Floyd county where he owns and continues to operate a 320 acre farm since moving to Plainview.

His platform advocates:

- Retention permanently of 4 cents per gallon refund on farm used gasoline.
- Equitable proportion of farm to market roads for West Texas.
- Adequate support of the needy aged, underprivileged children, the deaf dumb, blind and insane, but is not in favor of creating a Utopia for any group of citizens.
- American system of free enterprise, as opposed to government regimentation.
- Reorganization of Texas Legislature by reducing House of Representatives from 150 to 93, three representatives from each of the 31 senatorial districts, same being designated as Places, One, Two and Three, so arranged as to equally represent each district.
- Adequate, but not exorbitant salary for legislators, thus tending to reduce length of regular sessions and to decrease the number of special sessions, and to give legislators something over the expense of attending. This would make members independent of gratuities of well-meaning friends and free them from obligations thus incurred.
- Four-year terms for all elec-

He irrevocably opposes:

- Any form of state control of our underground water resources. If, and only when, any control should appear advisable that it be under districts governed locally by elected representatives, subject only to such advice and information as may be necessary or desirable from the State Board of Water Engineers.
  - Any new or higher taxes and deficit financing, except in cases of dire necessity. Strict pay-as-you-go state fiscal policy and building up in good times a cash reserve to serve as a cushion in leaner years.
  - Unnecessary governmental interference in private business and agriculture "more business in government and less government in business."
  - Government by special blocks or by pressure groups.
- I have and will make no comment to any one and will pass no legislative matters as they rise and on the basis of the public welfare.
