

# Scrap Rubber Drive Must Succeed If Gasoline Rationing Is To Be Proved Unnecessary

Whenever a patriotic or civic drive is launched there are always a few people who appear to be concerned that some person or group may obtain financial benefit. This has happened in the scrap rubber collection drive.

Under the caption, "Oil And Rubber Drive," the Lubbock Morning Avalanche says:

One question that has been repeated occasionally in the present scrap rubber collection drive has been: "What are the oil companies going to get out of sales of the rubber?"

"Clearly, the implication of those asking the question is that the oil companies expect to reap a profit from the rubber. This has happened despite assurances that all profits from sales, without deductions of any kind for handling,

are to be divided equally among the USO, the Army and Navy relief funds and the American Red Cross.

"Actually, reliable information is that oil companies expect to spend \$6,000,000 in their efforts to make a success of the campaign. The further report is that they are prepared to spend up to \$20,000,000 if that will forestall nationwide gasoline rationing to

conserve rubber.

"But suppose they should spend \$20,000,000? That would be considerably less than the business volume in one day of the oil and allied industries. This sum would be trifling if it would prove that nationwide gasoline rationing is unnecessary, and thereby enable the industry to continue in business.

"To be sure, the oil companies hope to get something out of this scrap rubber drive. To some of them, the success of it means their very lives. But they aren't expecting to make anything out of the actual rubber they handle. That is going to cost—and cost them plenty."

We are of the opinion that the Lubbock Morning Avalanche has very effectively explained the facts... such a clear explanation

should satisfy the big minority who are always fussing around while the rest of the folks throw their heart and soul, brain and brawn into the job at hand.

Possibly many thousands of pounds of scrap rubber could be procured by systematic combing of highways and roads of Lamb county. Combined with the search for scrap rubber could be incorporated.

## Sugar Industrial Users Are Given Allotments

announced by E. C. Cundiff, secretary of the Lamb County Rationing Board, institutional and industrial users of sugar are being given allotments at the local Rationing office this week, and will begin to do so until July 5. These allotments are composed of grocery stores, cafes, drug stores and board-rooms.

Cundiff also announced that a change has been made concerning War Ration Book Number One.

Number five is valid between June 28 and July 25 for the purchase of two pounds of sugar. Stamp number six is valid between July 26 and August 22, for the purchase of one pound of sugar. The amount of sugar allotted to each individual is the same, but this procedure requires the use of only half as many stamps and half as many trips to the retailer.

## OUT 85,000 POUNDS OF SCRAP RUBBER COLLECTED IN LITTLEFIELD

scrap rubber drive in Littlefield and the surrounding territory showing marked success, with the collection of about 85,000 pounds of scrap rubber, according to a survey made Wednesday.

Magnolia Company, with John Smith as agent; the Texas Company with Walter LeMond as distributor; the Gulf Company, with Grissom as agent; the Phillips 66, with W. E. Heathman as agent; the Continental Oil Company, with Geo. R. Sandidge as agent;

and the Sinclair Refining Company, with Oscar Wilemon as agent, and the various service stations of these companies, and the independent oil companies, including Morris & Son and McCormick Bros., are all cooperating in the drive to salvage every available pound of scrap rubber.

The drive will continue through Saturday, with service stations and wholesale houses offering a cent per pound for each pound that is turned in. This continues to be carried on under a non-profit agreement.

## F. A. Hemphill Delegate To Rotary Meeting At Toronto

F. A. Hemphill, superintendent of Littlefield Public Schools, is in Toronto, Ontario, Canada, this week attending the 33rd annual convention of the International Rotary Club from the local Rotary Club.

The convention was officially opened Wednesday, June 22, in a colorful ceremony by His Excellency, the Earl of Athlone, Governor General of Canada, and his wife, the Princess, with more than 7,000 Rotarians and members of their families from more than a score of countries.

## Edward Wood Reported Missing In Pacific Area

Edward Z. Wood, of 608 Second Street, Littlefield, received a letter last week from the office of Adjutant General in Washington, D. C., stating that her son, Edward, was reported missing.

The telegram read as follows: "I regret to inform you that James E. Wood, has been reported missing in action in the Pacific area, since about a month ago. Letter follows. Signed, The Adjutant General, Washington, D. C."

More information than was available in the telegram, for it simply stated that James E. Wood was missing, and several weeks probably elapse before certain traces of his whereabouts can be had.

## Plans Underway For Staging District Swimming Meet

### Men 18-20 Will Register Tuesday

The fifth nationwide "R" day will come next Tuesday with the registration of all youths between the ages of 18-20. When this is completed government officials will have a check of all man power in the United States between the ages of 18-64.

Registration places for Lamb County will be in the old post office building in Littlefield, at the courthouse in Olton, the school house in Spring Lake, and the City Hall at Sudan. These offices will be open from 7 a. m. until 9 p. m. for this purpose.

In charge of this outing will be Morris DuLaney, Scout Field Executive.

Littlefield's three Boy Scout troops with their Scoutmasters, Rel Stephens, Arthur Ernest and Willie Bradley, will take part. There will also be scouts taking part from Mulshoe, Sudan, Amherst and Anton.

Ribbons will be awarded to those placing first, second and third, who will go to Council Swimming Meet at Plainview July 17.

Littlefield Boy Scouts numbering 18 returned Saturday from Camp Post, where 146 Boy Scouts from the South Plains area enjoyed an outing.

### Priorities Clinic At Lubbock Today

The three sessions scheduled for the WPB Priorities Clinic which will be held at Lubbock Thursday, June 25, should furnish much needed information to manufacturers, wholesalers and retailers of the Littlefield community who are affected by Federal restrictions and priorities.

The sessions will be held at the Hotel Lubbock beginning at 10 a. m. They are sponsored by the Lubbock Chamber of Commerce and Business Education Division, State Dept. of Education, and will be conducted by Robert R. Harper, of Dallas office of the War Production Board.

In order that this clinic may be conducted for the greatest good, those planning to attend are asked to be present at the time their particular business is scheduled as follows:

10 a. m.—Manufacturers, George A. Simmons, chairman—including: mattress manufacturers, foundries machine shops, farm equipment, cotton compresses and gins, cotton oil and feed mills, ice manufacturers, electric motor works, builders supplies, chemical supplies, milk and food products and any other manufacturers affected.

2 p. m.—Supplies, S. C. Wilson, chairman—including: Wholesale hardware, automotive parts and equipment, electrical supplies, plumbing and heating supplies, mill supplies, bottlers, building contractors, oil well supplies, wholesale and retail.

### Outing To Be Held At Rainbow Pool; Date Not Announced

Those Placing To Receive Ribbons And Go To Council Meet

Plans are underway for the staging of the annual Boy Scout Swimming Meet for the Northwest District, which will be held at the Rainbow Swimming Pool in the near future. The date will, no doubt, be announced next week.

In charge of this outing will be Morris DuLaney, Scout Field Executive.

Littlefield's three Boy Scout troops with their Scoutmasters, Rel Stephens, Arthur Ernest and Willie Bradley, will take part. There will also be scouts taking part from Mulshoe, Sudan, Amherst and Anton.

Ribbons will be awarded to those placing first, second and third, who will go to Council Swimming Meet at Plainview July 17.

Littlefield Boy Scouts numbering 18 returned Saturday from Camp Post, where 146 Boy Scouts from the South Plains area enjoyed an outing.

### Last Rites Held For Mrs. J. R. Ray

Last rites were held Friday afternoon in the First Baptist Church at Anton for Mrs. J. R. Ray, resident of the Littlefield area for 17 years, who passed away last Thursday afternoon in an Amherst hospital from the effects of a kidney ailment.

Sally Barnett was born in Tennessee, and moved to Austin, in Travis County, Texas, with her parents at the age of two years. In 1890 she and J. R. Ray were united in marriage, and in 1925 they moved to Lamb county.

Survivors include Mr. Ray, three sons, Fred and Arthur of Littlefield, and N. D. of Pryor, Okla. Three grandchildren, Aubrey and James Ray of Littlefield, and Beva Jean of Pryor, Okla., and a brother, Bud Barnett of Caldwell, Texas, also survive.

Mrs. Ray has been ill for some time, and was confined to the hospital for three weeks.

She was a member of the Anton Baptist Church at which the services were conducted by Rev. James Vick.

### USO Drive Still Underway Here

Of Lamb County's quota of \$2,521.20 for the USO, only \$1602.06 has been turned in to county headquarters. This includes the contributions of Olton, Spring Lake, Hart Camp, Spade and Littlefield. The quotas for Amherst and Sudan are expected to be turned in by Saturday of this week.

Littlefield is still short about \$290 and the local committee expects to continue work on the quota until it is all raised, but they hope to close the drive by Saturday of this week. Those who have not already contributed are urged to do so soon, either to one of the members of the committees, to T. Wade Potter, or to J. C. Elms.

Texas' quota was \$1,110,000 and of this \$888,582 has been raised. The remaining \$221,418 is expected to be raised by this week end.

### Price Lists Must Be Filed By July 1

As announced by the Lamb County Rationing Board, of which E. C. Cundiff is secretary, all retailers in the Lamb County Rationing Board area are notified that price lists of costs of living commodities as defined in Bulletin No. 2, must be filed with the War Price and Rationing Boards by July 1.

## Cloud Burst Near Circle Brings 7 to 10 Inches To Section

Hail Damages Crops In Fieldton, Earth And Spring Lake

Littlefield and section has been experiencing various kinds of weather for the past few days.

Dry weather and high winds had prevailed for sometime and until Sunday evening, when hail fell in the Spade-Anton and Shallowater communities, and spotted showers over the Plains section breaking the drought, and bringing cooler weather which continued over Monday evening and Tuesday morning.

Tuesday morning various communities reported heavy rain. A cloud burst was reported in the vicinity of Circle, Olton, Earth and Spring Lake, where between 7 and 10 inches of moisture was said to have fallen within a short time. George Hardegree, broom salesman of Elk City, Okla., stated that he was about a mile east of Circle on the Olton highway, going to Earth, driving his broom delivery truck, when the cloud burst occurred, and that he was stalled for 56 minutes during which time a flood fell. He said he saw a large wash tub sitting in a farm yard fill to overflowing from the time it hit until it cleared sufficiently for him to proceed. He reported that there were six inches of water over the road at the place it was recently "filled in" west of Spring Lake, and that this flood reached from Circle to Earth, growing slightly lighter near the latter town. The lake east of Circle was reported to have flooded the highway to a depth of 18 to 20 inches, and was still rising. Earth was said to receive seven inches of rain, with lighter moisture at Olton. A good rain was reported in Amherst and north of that community, but only extended about 6 miles west of Littlefield. The moisture also extended East of Littlefield.

Hail in large quantities was reported Tuesday morning in drifts in the vicinity of Fieldton, Earth and Spring Lake. Strips suffering from hail were said ten miles north of town, between Earth and Spring Lake, between Spring Lake and Circleback, in Fieldton, and extending 20 miles north of Earth in Crosby county. Bill Langford, Swede Kling and Dan Heard were said to have suffered considerable loss in crops by hail. Hail was reported piled up eight to nine inches deep in places, and to be as large as baseballs. Mrs. Jake Hopping lost two calves in the hail storm.

Littlefield and vicinity received a heavy rain Tuesday beginning (Continued on Back Page)

Three Cheers For Debt?

Some of us who, a year ago, were greatly alarmed over our nation's growing debt, now are registering deep satisfaction when we hear that the government has, by a tremendous national effort, been able to spend a billion or two billion more this month than it did last month.

Of course the only reason for this is that we have now been taught to think of war production in terms of dollars expended. An extra billion spent means an increased supply of tanks, guns, ships and planes.

We wonder, however, if this method of announcing production increases in terms of dollars isn't a smart maneuver on the part of officials to paint a silver lining.

We are all happy to see production bounding forward, but, while an enormous amount of money continues to be spent by the government on non-war items, it is dangerous to respond too freely to those government cheer leaders who jump up and down every time we are able to get rid of a few more billions.

6,000,000 Days Lost

If 860,000 skilled war production workers said, "The heck with all this effort" and decided to knock off work for a week every month, the loss would be no greater than that now incurred by sickness among our skilled manpower.

Last year many of us became so incensed over the loss of man hours due to strikes that we saw to it that strikes were rapidly brought to a halt.

We can't be expected to feel equal resentment over delays in production caused by germs. When one man gets sick here and another there, it appears to be just a happen-stance which can't very well be avoided. But when we realize that 6,000,000 work days are lost every month, germs appear to be more of a calamity than strikes.

We can't learn to prevent all sickness overnight, but all of us can be of real service to our country if, through right eating and right living, we wage a real fight to keep well—to help win the war by making this the healthiest period of our nation's history.

Gasoline Rations To Tourists Cut

In view of the increasing gravity of the gasoline shortage in Canada, due to the exigencies of the war, gasoline rations for tourists entering this country has had to be drastically reduced.

We recently advised that United States motorists visiting Canada for more than 48 hours might obtain from the Canadian Customs Officer at the border a gasoline license and ration coupon book permitting the purchase of 20 units of gasoline, representing 100 Imperial gallons

under the present quota.

Now a new order of the Oil Controller abolishes the issue of the 20-unit coupon books to tourists. It provides that, if a United States or foreign car tourist proposes to stay in Canada long enough to need more gasoline than he has in his tank at the time he enters the country, he will be given at the port of entry a ration book permitting the purchase of only 4 units of gasoline. At present a unit represents five Imperial gallons, but its value may be changed at any time as circumstances require.

No more than one of these 4-unit coupon books will be issued for one

car in any one year, and the Canadian Customs Officer will stamp the vehicle license to show that a coupon book has been issued.

A motor cyclist may obtain a one-unit ration book under the same conditions.

The responsibility for not running short of gasoline is up to the tourist himself. If he were to run out of coupons he would be given no more and would have to arrange some other method of transporting his car back to the United States.

Wheat Farmers Collect Insurance

COLLEGE STATION, June 23.—Insured wheat farmers are off-setting crop failures by collecting insurance on this year's crop.

Already, 342,000 bushels of indemnity wheat have been paid on 1,917 claims with majority of wheat placed under government loan. Present loan rate is approximately 15 cents per bushel more than market price.

All claims paid represent 100 per cent crop failure and none have been paid to producers who have harvested any wheat, E. R. Duke, state wheat insurance supervisor, announced.

Under the 1942 wheat insurance program, production on approximately 11,451 Texas wheat farms was insured. Wheat insurance provides 50 and 75 per cent coverage, with a majority of farmers signing for 75 per cent coverage, Duke said.

FALL SHOWS CALLED OFF

Fairs, livestock shows and other attractions set for summer and fall are being called off in response to government appeals for fewer gatherings and less travel on the highways. Cancellations "for the duration" are being reported from many West Texas points.

How To Cooperate With Salvage Plan

Salvage officials in the regional War Production Board office, Dallas, have given this advice on how to cooperate with President Roosevelt's all-out, nation-wide scrap rubber salvage campaign:

1.—Collect old and discarded rubber items around your home and

yard. Acceptable scrap rubber includes tires of any kind whether automobile or baby carriage, rubber tubes, patches, boots, reliners, and cut up parts except beads and buffings. Also wanted are old rubber boots, shoes, soles, heels; drug remedies such as hot water bottles and rubber gloves; rubberized clothing, bathing caps, and a multitude of miscellaneous things like rubber mats, hose, jar rings, fly swatters, rubber stamps and pads, etc.

2.—Remove all wood, iron, leather and cloth from the rubber article.

3.—Take it to a filling station where you will be paid a penny a pound for this scrap rubber. The filling stations will also accept contributions.

The only kind of old rubber that

Families who have left here recently to make their homes in Amarillo are Mr. and Mrs. Ray Peek and family; Mr. and Mrs. Bud Cox and family; Mr. and Mrs. Garling Cox and family; and Mr. and Mrs. Randolph Beville and family. Messrs. Peek, Bud and Garling Cox, and Randolph Beville are employed at the Amarillo Bombing Plant. Harvey and Billie Tolbert of Vega arrived Sunday to visit their grand-

## TEXAS SHORT 20 PER CENT ON USO QUOTA

With just two weeks remaining before the deadline in the USO war fund campaign, Harry C. Weiss, state chairman, Houston, has issued a plea for support to put the drive over the top.

Latest reports received at state headquarters show that just over 80 per cent of Texas' \$1,110,000 quota has been contributed to the fund which provides off-duty recreation for the men in the armed services. Seventy counties have reached or exceeded their quotas, the chairman said.

"Texans are noted the world over for doing the job well in the Army, Navy and Marines," Mr. Weiss declared. "Every day we read of Texas boys sinking Japanese and German ships. Yet we here at home have not yet reached that perfection in support of these fliers, sailors and ground soldiers. Eighty per cent wouldn't be enough in the Battle of Midway; why should it be enough in the home-front battle for the USO fund?"

The chairman pointed out that the USO drive, which opened May 11, is scheduled to close July 4, along with those in the other states. He called on Texans to take their contributions to headquarters in every town and county to complete the campaign as soon as possible.

Mr. and Mrs. Bill Jeffries, who has been seriously ill and confined in the Littlefield Hospital for the past two weeks, suffering from ruptured appendix, on which an operation was performed, is reported by hospital authorities to be much improved.

### CHAPTER IX SYNOPSIS

A man identified as Joseph Slinn is found drowned in the Hudson river near Albany, N. Y. Slinn was insured by the Albany Life Insurance company, and the beneficiary is a man named B. B. Twombly who lives in Troy. The company's Albany agent, Carlin, identifies the body, and the insurance money is paid to Twombly. But Jerry Glidden, who says that Slinn was murdered, has a different story. He says that Slinn was a Pennsylvania, a little mining town near Pittsburgh, to see an "Angela" woman. She turns out to be an ugly woman who lives in a shack near the abandoned "Break O'Day" iron mine. She denies knowing Joseph Slinn, but Walker, granddaughter of the owner of the mine, runs the local store and post office. When a man registers at the hotel as B. B. Twombly of Portland, Maine, Jerry wires Mart McDowell at Troy for information about Twombly. He sees Twombly talking to Rose, and later he sees him again at Angela's house. He returns to the post office for the reply to his wire, which confirms his suspicion that this Twombly is Slinn's secretary. As he looks up after reading the telegram, he sees Angela Slinn watching him from the doorway. Twombly, however, has not yet returned when Jerry sat down to dinner in the hotel dining room.

"What were you talking to that man Twombly about?"

"Dear Mart: Thanks. I'll not forget, but you'll have to wait a while. That bird's trying to get something for nothing, and I'm trying to get something for something. If I win, there'll be a beat for you. But don't spill a line till I wire again. Yours truly, Jerry."

Not what he had meant to do. Not half what he wanted to say. But he was afraid that, if he wrote the office, stupid Steinhardt would make some pacific move calculated to drive the quarry to cover, while Lightner laughed—and he was afraid, too, that, addressed to McDowell, a full narrative of existing suspicions might tempt the temporary journalist into too precipitate print. The result he stamped. He addressed it. "Mr. Twombly not back yet, Mr. Hassler?" "No, he ain't, an I'm now beginnin' to git some worried myself." "I'm going for a stroll before I turn in. I'll keep an eye open. Where's the nearest mail box?" "Ain't but one. Offer there on the porch post of the store." "Till then Jerry went. The moon hadn't yet risen, but there were many stars. He found the box—dropped his report into it. "Hello, Jerry!" said a mocking voice near by. "Hello!"

That return of her greeting leaped forth spontaneously; then he bit his under lip. Rose was leaning out of a window, her arms extended for seizure of its shutters; an appealing pose for a painter. Jerry wished with all his heart that he did not mistrust her part in whatever plot Twombly was pursuing. "I'm just shutting up shop for the night," she said. Jerry's regard was a gaze as unwavering as his emotion would permit. "How did you get hold of my first name?" "There's a register even in Ironburg's hotel." "Yes, I heard you'd been there." His tone betrayed him. Her face clouded. "What of it?" Well, what? How could his rights extend to interference with her actions? He owed her his life and was duly grateful. Yet, like most people in the wrong, Jerry became belligerent. "What were you talking to that man Twombly about?" "Business." "What business?" "Mine!" She banged those shutters. Jerry knew that, if his doubts were justified, he had prematurely shown them—supposing Twombly, or perhaps Angela, hadn't already revealed them. On the other hand, if they weren't justified, he had merely increased the girl's annoyance with him. He ought to go, but he wanted to stay!

He stayed. And he had his reward. Soon—though not too soon—the door opened. She stood at it with that smile of the modern young woman which impudently transforms an insult into a peace offering. "You're still here? It was nice of you to wait. Now you may walk as far as my house with me." They walked under the stars, up the silver ribbon of the turnpike. There was no other person promising Ironburg's sole thoroughfare. Woodland scents fell sweetly from the hills. Something inside Jerry bade him abandon his sulking. He fought it. Anyhow, she would have to speak first. Silence. She would have to! The village possessed no street-lamps, and most of its houses were dark. Through the faint light above the entrance to one of them, however, a tardy luster showed, and when these strollers reached it, the girl seized his shoulders and

Glidden made a rude interruption. "And there's where our fifty thou' is going!" "Your what?" "Nothing." "He only offered me five thousand—Twombly did. But that's a lot more than it's worth." (TO BE CONTINUED)

## Jimmie Vaught Loses His Pet Pup "Pal"

"Jimmie" Vaught, 3, youngest son of Mr. and Mrs. George Vaught, is mourning the loss of his pet pup, "Pal," a Cocker Spaniel given him about a year ago by Lieut. McDonnell of the CCC camp.

Just what happened to Pal is a mystery. He was missing over a day from his home, and when he finally returned home he was suffering from wounds of some sort in

his side, which the Vaught children thought might have been dog bites, and were of the impression he had gotten into a fight. In any case he died shortly thereafter.

Isn't there some big-hearted person who has a real nice pup to give Jimmie—one who will appreciate a nice home, and not run off and get in a fight? We know Jimmie's big blue eyes will glisten with excite-

# WINSTON INSURANCE AGENCY ANNOUNCES War Damage Insurance

Announcement has been made that the War Damage Corporation, created by the RFC, will inaugurate on July 1, 1942, a program of insurance against loss to real and personal property "resulting from enemy attack, including action taken by the military, naval or air force of the United States in resisting enemy attack."

Under the law, war damage insurance protection has been granted without charge since December 7, but the free insurance ends with July 1.

We are in a position to care for your requirements through our companies, which are qualified as Fiduciary Agents of the War Damage Corporation and as service offices for issuing its policies.

Rates for most properties are reasonable, ranging from 5c to 25c per hundred dollar valuation, with a \$3.00 minimum policy premium.

## The Usual Policy DOES NOT Cover War Damage

IF THIS COVERAGE IS DESIRED IT IS NECESSARY TO ISSUE SEPARATE POLICY

Fun Aboard a U. S. Aircraft Carrier

Although rations are never short aboard American war ships, the best fed and best paid sailors in the world still can joke about some of the minor inconveniences of war. On the flight deck of a U. S. aircraft carrier, the last T-bone steak is passed in review as the ship's band parades the juicy morsel past a steak-hungry crew. Note the steak's honor guard. Two enlisted seamen won the honor of scooping this "last T-bone in captivity."

**"To The Shores of  
Tripoli" Comes to  
Palace This Week End**

"To the Shores of Tripoli," in Technicolor, which comes to the Palace Theatre Saturday midnight, continuing through Sunday and Monday, is a thrilling story of the U. S. Marines, of a cocky young fellow who gets his taste of what being a Marine means when his father, a former Marine, inveigles him into joining—there he has his ups and downs, mostly the latter, but winds up a hero when he really becomes a Marine at heart. Heading a great cast are John Payne, Maureen O'Hara, Randolph Scott and Nancy Kelly.

**"A Gentleman After  
Dark" To Be Shown  
At Ritz This Week End**

"A Gentleman After Dark," the picture that will be shown at the Ritz Theatre Saturday midnight, and continuing through Sunday and Monday, is an exciting story of a gentleman crook who gives his daughter to a police captain when he is given a life term for murder. In the years to come the daughter is grown, the police captain is an important man, and the girl's mother is blackmailing the girl's foster father. On learning about this, the girl's father escapes from prison and the excitement begins. In the cast are Brian Donlevy, Miriam Hopkins and Preston Foster.

tions for farm labor shortage problems, the Texas USDA War Board informed the 254 county boards in Texas recently.

In a joint letter to county war boards and the county victory councils, B. F. Vance, chairman of the state board, and H. H. Williamson, chairman of the State Agricultural Victory Council, declared the "final responsibility for farm labor reports and planning shall rest with

the County War Boards." County boards were instructed to make full use of farm labor sub-committees which have been making monthly surveys of the labor situation for the past year.

The letter suggested that the labor sub-committee serve as an advisory committee to the county war boards and that membership on the committee include five farmer members and representatives of the U. S. Em-

ployment service and the WPA.

"The County War Board and the Farm Labor Advisory Committee shall take the initiative and the leadership in the prosecution of farm labor planning and the execution of such plans as may be recommended," the agricultural officials said.

The county board must make monthly reports to the state board, combining information concerning the previously-announced 12-point

farm labor program and information about the labor situation which previously was reported by the labor sub-committee.

**Santa Fe and your WINTER WHEAT**

● Once more the miracle of the winter wheat harvest is with us. Nature has been kind, in Santa Fe territory, and another bumper crop is indicated. Prices, too, are good.

That is a happy prospect, but it brings serious problems with it—both for you who raise the grain, and for us who move it.

You face a shortage of harvest labor, and a serious lack of storage space, at terminals and in rural bins, because of the unprecedented carry-over of old wheat. We face the job of moving a vast grain tonnage, in a short time, on top of the greatest railroad traffic load in history.

For example, in April, 1941, Santa Fe freight cars moved 108,131,891 miles. In April, 1942, that mileage had leaped to 142,823,878. A great part of that 32% jump represented war freight, that *must* move first.

Santa Fe pledges every possible help in moving 1942 wheat to points where it can be accepted and placed for use. Of you we ask prompt loading and unloading, and that no car be used for storage, even temporarily. Let's pull together and whip this war-born transportation problem, as we have so many others in the long years we've worked together.

AT YOUR SERVICE—Talk over your transportation problems with your Santa Fe representative. He'll be glad to help with practical suggestions.

**Defense Course  
In Woodwork To  
Be Taught Here**

Beginning next week, the local high school, in cooperation with the State Department of Vocational Education will offer a ten weeks course in woodwork. This course will include the handling of both hand and power tools, and construction of various equipment from simple jobs to the repair and building of barns and houses. The course will be taught by E. J. Moore, High School principal, and will be in the shop building at the northeast corner of the bus shed on the school grounds.

The first meeting will be held next Monday night, June 29, at 9 o'clock in the Vocational Agriculture Department just back of the high school building. At that time the class will be organized and hours for meeting set. The class will meet three hours a day, five days a week and the hours will be set to meet the needs of those attending. In order to teach the course there must be an average attendance of 10 students, so those interested should be sure to attend this first meeting.

At the close of the course a certificate will be issued by the State Department of Vocational Education to those who complete at least a 120 hours of work, showing that they have done such work.

**Scrap Rubber Or Walk**  
That's What The War Board Says To The  
American People!

**This Is Our Last Chance To Prove  
Gasoline Rationing Unnecessary**

**BRING IN YOUR SCRAP  
RUBBER NOW!**

The radio and the press quote President Roosevelt as declaring that we must get our scrap rubber into circulation or gasoline rationing will go into effect. Each of us knows what this would mean to all of us . . . it would mean an economical catastrophe.

You can make a vital contribution to our war effort by digging cast-off articles of rubber out of every hiding place, attic, closet, cellar, garage, warehouse or barn. Each bit of rubber is buried treasure where the war effort and the tire situation are concerned.

This rubber salvage campaign must be a success, for failure means certain gasoline rationing, and the eventual disappearance of civilian motor cars from the highways.

Take all of your scrap rubber to some filling station or gasoline warehouse and turn it in to them. You will receive a cent a pound for this old rubber, and the rubber will be turned over for salvage to be used in all the ways new rubber would be used. **Act Now!**

## With South Plains Men In U. S. Service

Beryl Williams, son of Mr. and Mrs. Carn B. Williams of Morton, is in the Naval hospital in Philadelphia, recovering from wounds, the nature of which was not disclosed to his parents. He formerly was on board the "Brooklyn" but after his convalescence, will be assigned to the "Cleveland."

Wesley Henry Long, son of Mr. and Mrs. Octavian M. Long of Sulphur, now stationed at Goodfellow field, basic flying school at San Antonio, recently was promoted from rank of sergeant to rank of sergeant with rating of second-class air mechanic.

With the recent enlistment of Highway Patrolman John Nunn, Mr. and Mrs. J. H. Nunn, who live north of Abernathy, now have four sons in service. Delbert is at an army air base at New Orleans, La.; Staff Sgt. Weldon, Fort Bliss, Kansas; second Lieut. Robert, Fort Bliss. Delbert is the youngest of their sons in service. John has been a resident of Amarillo for several years.

Elmer Lee Rice, 24, another of those who got away from the Lexington and watched the huge carrier listing after the Japanese attack May 8, arrived in Lubbock Saturday morning to spend a few hours with a sister, Mrs. Claude Weir, of 514 Alice street.

Afterward he left for Amherst to visit with his mother, Mrs. Hattie Petty.

Young Rice was a 1937 graduate of Amherst High School and was employed in Lubbock before joining the Navy.

What did he experience in the battle?

"Quite a swim," he said. He had

no other remark for publication, he said.

Arriving at Fort Knox, Ky., recently for an introduction to the Army through its swiftest, hard-hitting land branch, the armored force, the following men from the South Plains are now assigned to the 8th Armored division, commanded by Maj. Gen. Wm. M. Grimes: William O. Bass and William E. Elms, Amherst; Thomas W. Sisson, Littlefield; Cecil C. Testerman, Edward A. Diersing, William N. Parrish, Billy L. Bowling and Charles E. Nichols, all of Sudan; and Buford D. Elliott, Morton.

NEW ORLEANS, La., June 24.—The third and largest class of V-5 instructors—249 former athletic directors, coaches and physical training experts—graduated from their special indoctrination course at the Naval Academy, Annapolis, Md., on June 13.

Among these officers who will carry on naval aviation's intensive physical training program for flying cadets is Ensign Charles L. Storrs, of Littlefield, whose permanent assignment is Pre-Flight, at Athens, Georgia.

Granville Clark, 21, son of Mr. and Mrs. Joe Clark, who has been in the Army since May 5, is now stationed at Camp Crowder, in the Signal Corps.

In a letter to his parents dated June 13, written on USO stationery, Granville compliments this organization as follows:

"I got your letter today and was really glad to hear from you.

"I am in town tonight for the third time. There isn't much here to do. The USO here is a good place. They have anything here a guy could want.

"I had my pictures taken over and maybe they will be good this time, I hope. I got my cap and now I can't wear it even to town. So I had to have my pictures taken in the regular cap. They didn't tell me I couldn't wear it till I had already bought it, and then they told

John Collier (Jake) Duncan and Robert Lee (Bob) Taylor have enlisted in the Navy Construction Regiment and are awaiting their call to service.

They enlisted at the recruiting station here in Littlefield two weeks ago, and passed their final physical examination at Dallas a few days later. They will be classed as painters in the Navy Construction Regiment, and expect to be called soon.

The following letter was received this week by Mrs. W. R. Wilson from her son, Pfc. Robert P. Wilson, who is at present in Northern Ireland. Pvt. Wilson joined the Army in February of 1941, and was sent to Fort Bliss, from Littlefield. He was then sent to Fort Knox, in Kentucky, and from there to Fort Dix, New Jersey. He is serving with the 13th Detachment of the Medical Corp.

"Dear Folks:  
"Yes, I do move around some, do I not? For here I am in Northern Ireland.

"From the country side that I have seen, it is a very beautiful country, green hills covered with wild flowers. And the houses are something to look at, very odd to me.

"Things are very high here. Cigarettes are 40 cents a package, and you cannot buy candy or any sweet cakes.

"Tell Wallace to send me a cigarette lighter like the one I left at home, and some flint to go with it. Oh, yes, how is Wallace. Did he get over his illness OK? I sure hope he did.

"How are the rest of the folks getting along? I have a cold but I will get over that soon, I hope.

"This has been a great trip for me. Had lots of fun on board the ship. I did not get sea sick, but I sure got on a cheap drunk from the boat rocking.

"Mother, you can send me that box now that you were going to send for I sure could enjoy some candy, cakes and cookies that are made at home.

"At the top of each letter will be marked what number of letter it is. So you will know if you miss getting one. And you may do the same, each one of the family who writes to me.

"My address is still the same.  
Love,  
"Pfc. Robert P. Wilson."

Mrs. O. K. Yantis and Misses Jerolding Robinson, Sydney Yantis, and Nettie Belle and Patsy Patton accompanied Jimmie Zed Robinson and Sunny Campbell to Lubbock Wednesday of last week, where the boys reported at the Navy Office, and left from there for Dallas.

Campbell is reported to have been rejected, but Jimmie Zed enlisted in the Navy, and went through Littlefield Saturday afternoon by train for San Diego, where he will be stationed.

ELLINGTON FIELD, Texas, June 22. (Special to Leader).—Learning today to fill his destiny as a slambang Air Force bombardier is Elmer Bane McKnight, a Littlefield aviation cadet now enrolled in the current class here at the world's largest multi-motor flying school.

At Ellington he is undergoing intensive training that will fit him for his post on the finest combat precision team, the air crew. The air crew, consisting of pilot, navigator,

and bombardier, all receive their training at Ellington.

Learning the basic rules of bombarding from an Air Force war-wagon is a full-time job for these fighters, but even after their course here they will not be quite ready to launch forth on their mission against the enemy. From here they will go on to advanced bombardier schools, from which they will receive their commissions as second lieutenants in the U. S. Air Force Reserve.

Before signing up as an Aviation Cadet, McKnight was a student at St. Mary's University, where he lettered on the football team for three years. He is 22 and the son of Mrs. Lorado McKnight, 602 East 4th St. A brother is a sergeant in active duty in Puerto Rico.

E. J. Foust, who has been stationed at the Army Air Base, in the Market division, at Salt Lake City, phoned his parents, Mr. and Mrs. Ellis Foust, recently that he was being transferred.

## ALLRED ASKS HOME FOLKS TO AID IN SOLDIER VOTING

James V. Allred, candidate for United States senator, has appealed to the families and friends of service men in every county in Texas to inform them of their right to vote in the party primary and make that right effective.

"Texans in the armed forces of the nation this year can maintain a voice in the operation of their government," Former Governor Allred declared.

The State Democratic Committee, after hearing arguments from Allred and others, has adopted a resolution permitting our soldier boys to vote.

Service men must write their county clerk at home, asking for an absentee ballot, the letter accompanied by a poll tax receipt or affidavit that the poll tax was paid. The ballot must be filled out in the presence of a notary or summary court officer or adjutant and returned to the county clerk. Period for absentee voting in the July 25 primary is July 5-22, or not more than 20 nor less than three days before the election.

## Don't Let Your Favorite Garment Become the Moths' Favorite Home!

How exasperating! How troublesome! How wasteful! We mean this thing of letting moths "move in" and take up residence in your favorite garments. Or any garments, for that matter.

Yet that's exactly what they're likely to do, unless you take steps to prevent it. Right now, it's easy for you to take those steps. All you have to do is send your cleaning to us. We will clean your garments thoroughly — remove every trace of dirt and grime — and then reshape them to original beauty. But in addition, we will treat them with MONITE — which absolutely keeps moths away — and insures you against moth damage for a period of six months — or until the garments are again cleaned.

Why run the risk of moths, when you can get this service at absolutely no additional cost? Send us all your clothes for cleaning today — tomorrow at the latest!

**WE ARE PROUD OF OUR ACHIEVEMENT OF COLLECTING 30,000 POUNDS OF RUBBER**

**DURING THE TEN DAYS OF THE RUBBER SALVAGE CAMPAIGN BUT WE WANT MORE**

The representatives of the Texas Company in this territory have worked faithfully, and have collected a great deal of scrap rubber, but in order to make this drive a success, we must not stop there. We want every ounce of scrap rubber in this territory to be turned in for salvage before the week is over, and will continue to pay a cent for each pound that is turned in.

**Scrap Rubber—**  
(Continued from Page One)

porated a vigorous effort to gather all scrap metal to be found along the highways and roads. Such programs carried out statewide and throughout the Nation would produce thousands upon thousands of pounds of rubber and metal so much needed by our Government in the all-out effort for victory.

Boys who are out of school and have time wasting on their hands could easily be interested in searching the roadsides if trucks were made available for hauling their finds back to town. The boys and girls of our county and Nation are anxious to participate in the war program; all they ask is an opportunity to work.

This salvage drive is one of the most important tasks in civilian defense at present and calls for a united effort.

If nation-wide rationing of gasoline is to be avoided, or even postponed, the current drive for scrap rubber must succeed on a large scale. Discarded rubber must be brought out of sheds, trash piles, garages, any place it can be found, and sold to wholesale oil companies and service stations, which are acting as the handling agency. They pay 1 cent per pound and receive the same amount when they dispose of the rubber. In other words, the oil wholesalers and the service stations are acting as handling agencies without receiving one penny of profit for their services.

If you do not want rationing of gasoline, act now! Bring in all the scrap rubber you can find.

**Heavy Rains—**  
(Continued From Page 1)

about 11:30 a. m., which cleared up about 2 o'clock, but began again about 9 p. m., which continued into the night. A total of 1.31 inches was reported by the West Texas Cottonoil Mill Wednesday morning. The rain was reported pretty general over the territory Tuesday night. Heavy rains fell from Littlefield north to Dimmitt; west as far as Clovis; east to Lubbock, with Enochs, Morton, Levelland and Brownfield all reporting from one to two inches of moisture.
