

LAMB COUNTY LEADER

Official Newspaper of Lamb County, Texas

VOL. 7

LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, NOVEMBER 21, 1929

No. 32

R. B. FREEMAN IS THE NEW PASTOR NAMED FOR METHODIST CH.

R. B. Freeman is the new pastor appointed to the Methodist church this city, at the annual meeting of the Northwest Texas conference, held at Pampa last week.

Other appointments for this section read out Sunday night are:

C. A. Bickley, former pastor at Vernon, presiding elder of the Lubbock district. D. B. Doak, past presiding elder, goes to First church, Plainview. R. S. Watkins, Amherst; Geo. E. Turrentine, past pastor here, to Brownfield; H. L. Munger returned to First church, Lubbock; Ed A. Sharp, a former Littlefield pastor, to Post; O. M. Addison, Hale Center; Joe E. Boyd, Mulshoe; J. T. Howell, Olton; C. R. Hooten, formerly of Sudan, transferred to New Mexico conference, and stationed at Fort Stockton, Texas; A. V. Hendrix to Sudan.

Sweetwater was selected as the next meeting place of the annual conference.

Reports of pastors made at the conference showed a membership increase of 1,615 during the past year, since territory, also 45,977 pupils or a total of 62,000 for the conferred in the Sunday schools. The sum of \$1,320,977 was raised for all purposes, \$87,530 of this amount being for benevolences.

LUBBOCK LIONS TO ROAR AT MEET. FRIDAY NIGHT

The second meeting of the Lions club was held Friday noon at the College cafeteria, 15 members being present. The meeting was in charge of President Jimmy Brittain, and a number of topics for the good of the organization were discussed, road and hotel committees being appointed to cooperate with other bodies likewise interested. M. W. Etter was accepted as a member.

Friday night the Lubbock Lions will have charge of the meeting, and Friday night of next week a delegation of Lions from Plainview will be here to conduct the program.

"The new club is starting off with fine spirit," remarked Secretary Hugh Sullivan.

HERBERT C. MARTIN IS ASSOCIATED WITH ROWE

Herbert C. Martin, of Lubbock, is to be associated with E. S. Rowe, this city, in the practice of law.

Mr. Martin is a graduate of the law department, State University, and since that time has been associated with the County Attorney of Lubbock county.

He will assist the senior member in the firm's general practice, and will handle the Justice court cases and look after the collections of the firm.

Mr. Martin comes to Littlefield highly recommended both as to his character and ability, and states he is delighted to locate here, as he is confident Littlefield is destined to become one of the leading cities of the South Plains country.

P. T. A. MEETING

The Parent-Teachers association met Wednesday afternoon of last week.

The meeting was opened by all singing "America." J. W. Hale, secretary of the Chamber of Commerce made an interesting talk to the parents with the following program:

The meeting was opened by all singing "America." J. W. Hale, secretary of the Chamber of Commerce made an interesting talk to the parents with the following program:

This Girl Is a Boy

Angelina Buzzelli, 16, Cleveland, O., has learned household arts and looks as well as any woman, but records reveal Angelina is a boy. The father states that it is not unusual for boys to be raised as girls in Italy, and that despite protests of the Board of Education Angelina will continue to live as raised, will attend to housework, and probably marry.

PAVING WORK RESUMED

With the coming again of warmer weather the paving contractors are again pushing the paving work in day and night shifts, smudge fires being kept burning during the nocturnal hours to protect the slab from freezing.

G. R. Hand is here representing the engineering firm of Montgomery & Ward, supervising the construction work. Mr. Hand is the eldest employ of this firm, having been with them since the organization was founded in 1922. He is a graduate of State University and a very proficient engineer.

FARM BUREAU GETS FULL BENEFIT OF U. S. COTTON FUNDS

That the Farm Bureau Cotton association is now in position to assure its members the full benefit accruing from action of the U. S. Farm Board, is the statement of J. W. Hammock, associational representative for Lamb County. Mr. Hammock states:

"Some of our members have been disappointed over the fact that our initial advance has been cut from 12 to 8 cents here at home, but I have a copy of a letter mailed to all the banks in the state saying that this cut in the advance would not effect our 'seasonable pool' cotton, except from here to Houston.

"As soon as the cotton reaches Houston and is classed, the office at Dallas will mail out checks from time to time as this cotton is graded, to bring all seasonal pool cotton up to the special Farm Board loan advance, which will be 16 1/4 cents on middling 1/8 staple cotton, less the freight and overhead expense.

"We also have assurances from both the railroad and cotton representatives here that the compress will be delivered in Houston, if there is no delay, in about a week from the time it reaches the compress.

"We have a letter from the Farm Bureau headquarters saying that the checks will be mailed out this week, bringing our advance up to the 16 1/4 cent loan advance on such cotton as has been classed this season and is in the seasonal pool.

So in reality, our advance has not been cut on good cotton shipped to the seasonal pool, except just from here to Houston, which should be a matter of about two or three weeks."

WEATHER CONDITIONS WERE UNUSUAL DURING OCTOBER

October was a month of unusual weather conditions, as everyone in this section knows.

Statistics show that while the precipitation was only about three and one-half inches, a little less than one inch below normal, it was spread out over the month in such a manner as to be of considerable hindrance to harvesters.

There were eight clear days, 14 partly cloudy and nine cloudy.

The coldest day of the fall season occurred last month, when the temperature went down to 26 degrees. The maximum temperature was 93 degrees and the average 61.97 degrees.

Rainfall from January 1 to October 31 inclusive, was 17.56 inches, or about .71 of an inch below normal.

ROTARY MEETING

The Rotary meeting, held last Thursday noon, President Dr. C. C. Clements in the chair, enjoyed a nearly 100 per cent attendance.

J. S. Hilliard had charge of the program, and gave a very interesting talk on international Rotary service.

A male quartet, composed of Arthur P. Duggan, Pryor Hammons, Rosa Mayhew and E. A. Bills, rendered several enjoyable numbers.

P. T. A. TO MEET

P. T. A. will meet Wednesday, November 27th, at the regular hour, 3:45 p. m. The following program will be given:

Invocation, Rev. Grizzle. Music, Camp Fire Girls. Worthy Home Membership, Mrs. J. S. Hilliard.

After the program they will have a social hour when refreshments will be served. The parents are urged to attend more than they have been.

Senator Sheppard seeks dry law change to punish buyer.

Turn Him Loose

By Albert T. Reid

619,000 TONS OF COSMETICS USED LAST YR. TO MAKE WOMEN BEAUTIFUL SAYS EXPERT

"More and more American women are coming to realize that keeping their youth and comeliness pays big dividends in health and satisfaction to both themselves and those interested in them. Each year the number of women who visit the beauty parlors has a large increase, while the amount of cosmetics of different kinds mounts rapidly each 12 months," said Mrs. Eula Long, proprietress of a local beauty shop.

"Last year the women of this country used 4,000 tons of face powder alone, and enough lip stick to reach from Chicago clear to Los Angeles, going via San Francisco," said Mrs. Long.

Here are a few statistics showing how busy cosmeticians, pulchritude experts and hair artists were last year:

552,500 tons of cleansing cream; 26,250 tons of skin lotion; 17,500 tons of nourishing cream; 8,750 tons of foundation cream; 6,562 tons of bath powder; 2,375 tons of rouge.

"Sounds like it would cost a great deal, don't it," remarked the beauty specialist. Well, it does; but no one seems to regret it, for the men enjoy having their women folks looking pretty just as well as the feminine folks like it.

"And," concluded Mrs. Long, "with the increase of beauty, there has also come a decrease in avoirdupois, for women weigh from five to 15 pounds less this year than they did last—and the men appreciate that, also," she said.

BRUCE TOLBERT

Miss Lucille Bruce, daughter of Mr. and Mrs. Lee Bruce, residing north of Littlefield, was married last Monday afternoon to Wm. V. Tolbert, at Clovis, New Mexico, Rev. Jones, pastor of the Methodist church officiating. In the bridal party were also Miss Pauline Bruce, a sister, and Miss Eva Gertrude Chisholm.

Immediately following the ceremony, the bridal couple left for a trip to El Paso and points in Northern Mexico.

The bride was one of Littlefield's popular young ladies, graduating from the local high school, class of 1929. Mr. Tolbert has made his home in Littlefield for several years past, where he has been in business but is now operating a large wheat farm in the northern Panhandle section of the state.

They will make their home near Adrian, Texas.

BUYS SUDAN AGENCY

C. J. Duggan this week closed a deal for the wholesale agency of the Phillips Petroleum Co., at Sudan, formerly handled by Jim Surratt.

Ben R. Beck, formerly with the Littlefield station, will be in charge at Sudan.

Auditors Hefke and Bearden are here this week checking over the property.

STORK SPECIALS

Born to Mr. and Mrs. Geo. R. Long Nov. 15, a boy. Born in Dallas, to Mr. and Mrs. R. A. Johnson, Nov. 17, a boy.

Total of \$70,000,000 in loans so far applied for to Farm Board.

HIT AND RUN ACCIDENT

Monday morning a model A Ford Coupe, driven by an unknown party, collided with a Chevrolet coupe in an effort to make a fast turn on a street corner west of the Post office. The Chevrolet was considerably damaged, but evidently not so with the Ford, as the driver is reported to have left town at a still higher rate of speed.

REPRESENTATIVES FROM 34 CITIES IN W. T. C. C. MEETING

There were 34 representative citizens from various towns of the South Plains who attended the first meeting of District 2, West Texas Chamber of Commerce held at Lubbock last Saturday.

The meeting was presided over by Clifford Jones, Spur, director for this district, and attended by the newly elected President, W. B. Hamilton, Wichita Falls, and the recently chosen Manager, D. A. Bandoen, formerly of El Paso.

Plans and objectives of endeavor were laid out by the officers and generally discussed by those present, which it was the consensus of opinion that the regional body, under its reorganization plan, was now in a better position to adequately serve its constituents than ever before.

The delegates present were guests of the Lubbock Chamber of Commerce at a banquet served at the noon hour, and following the business session, were presented with passes to the Lubbock-Wichita Falls football game.

J. W. Hale, secretary of the Littlefield Chamber of Commerce, and Jess Mitchell, represented this city at the meeting.

LEASES TOURIST PARK

C. J. Duggan, of the Phillips Petroleum company, has closed a lease for the Wade Tourist park, which will in the future be known as the "Green Haven" tourist camp.

Mr. Duggan states that all the buildings are to be repainted and the place generally improved.

HALE CENTER vs. LFD. PLAYED HERE FRIDAY

A hard fought game of football is to be played on the local gridiron Friday afternoon, beginning at 2:30 o'clock, between Hale Center and Littlefield.

A good attendance of local fans is urged.

New Orleans and Mississippi are divided on flood control.

Federal revenues for the quarter exceed \$1,000,000,000.

COMMERCIAL BODY TO ENTERTAIN THE 4-H CLUB WINNERS

That the Littlefield Chamber of Commerce will entertain the Lamb county winners in 4-H club work, was the decision made at the noonday meeting of the organization last Tuesday. A committee was appointed to make arrangements for the banquet, to which will be invited the club members and the parents of the two winning boys, and an invitation will also be extended the commercial members of Sudan to participate in the affair to be held early in December.

In the interest of a more beautiful section, Secretary J. W. Hale stated he had a proposition whereby 1,200 Chinese elm trees could be purchased for \$100, and it was voted that such should be done. Just how the distribution will be made has not yet been decided.

It was reported that a representative of the Western Union Telegraph Co. was in Littlefield last week making a survey, and would recommend that an up town office be established if a suitable building could be secured.

A prize of \$25.00 was offered for the best Christmas lighting of any business house during the Christmas holidays, also, another prize of \$25.00 for the best Christmas home lighting.

Secretary Hale and Jess Mitchell made reports of the West Texas Chamber of Commerce district meeting held in Lubbock last week, and of the excellent reorganization of that regional body for effective future work.

T. Wade Potter reported that the committee was still working for the erection of a new hotel; that several thousand dollars had been already pledged toward the project and the committee was meeting with success in securing further pledges.

WIZARD COMING HERE FOR PROGRAM BENEFIT P. T. A.

Homar, "the wizard of the west," will be in Littlefield, Wednesday night, November 27, at the high school auditorium, for a program under the auspices of the Parent-Teachers association.

Homar has been an ardent student and demonstrator of magic for the past 20 years. His programs are said to be intensely interesting, appealing to both young and old, some of his stunts laughable enough to cause a smile to creep over the face of an Egyptian mummy.

The program lasts two hours—hours chock full of mysterious magic and wonderful illusions. His "spiritualistic paintings" are said to be positively baffling.

WOMEN WOULD HOLD THE ANNUAL MEET AT LUBBOCK

Littlefield is co-operating with Lubbock in securing the next annual meeting of the Texas Federated women's clubs, according to Mrs. F. G. Sadler, local delegate to the meeting held at Mineral Wells last week, she returning last Saturday. The meeting place will be decided in January, Houston being the other contender for the honor.

While at the meeting, Mrs. Sadler was appointed chairman of the Interior Decoration committee for the seventh district, annual meeting of which will be held next April in Pampa.

American Legion demands Senate inquiry into pacifist lobbying.

Only Screen Beauty?

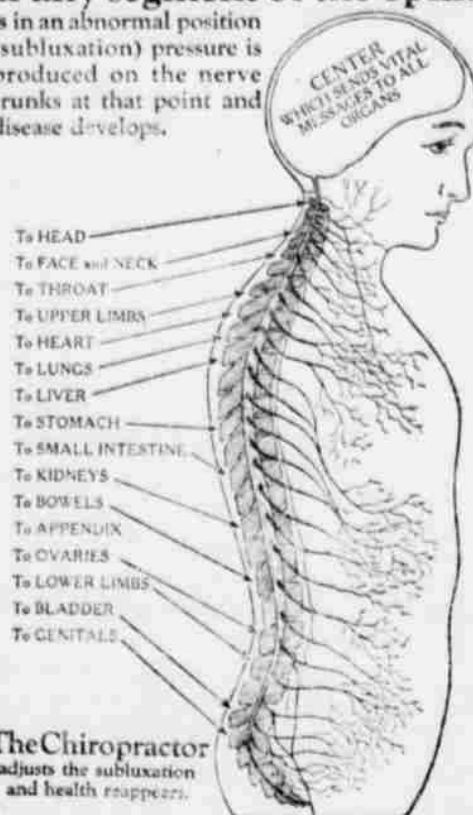

Gloria Swanson surprised Chicago by saying there that, Corinne Griffith, pictured above, is the only beautiful woman in the movies. "The rest of us are just types," said the actress.

CLOTHING SPECIALIST HERE TO MEET WITH 4-H CLUBS

Tuesday, November 12, the home demonstration agent met with the women North west of Amherst and organized the Sod House club.

The remainder of the day was spent in a beef canning demonstration, at the home of Mr. and Mrs. Martin White. Fourteen friends and neighbors were present and a pleasant as well as a profitable day was spent, Mrs. White serving dinner to all present.

One hundred seventeen number three cans of steak, roast, soup broth and chili meat was prepared. Miss Margaret Roebuck of the Circle community was a special guest of the Spring Lake 4-H club Thursday 14.

Miss Roebuck was an outstanding club girl of Baylor county for four years. She won two trips to the annual Short Course at College Station. The work done, and an excellent basis of a very charming, though cryptic of her trips was used as the modest discussion by the young lady.

Mrs. Roebuck mother of Margaret, was also present at the meeting.

The club girls spent the rest of the afternoon mastering and applying the principles of buttonhole making. Mrs. Dora R. Barnes, Clothing Specialist, of College Station, will spend two days in Lamb county. She is scheduled to give "Shopping Demonstrations" as follows:

Spring Lake Womens club, Tuesday Littlefield Womens Club, Wednesday day 19; Olton 4-H Clubs, Wednesday afternoon.

Representatives from each of the Womens Home Demonstration clubs of Lamb county will meet at the home of Mrs. J. M. Whitfield of Amherst, Saturday Nov. 23 at 2 p. m. for the purpose of organizing a county council.

Just Like An Ostrich

A medical authority says that a person who tries to cover up skin blemishes and pimples with toilet creams and powders is just as foolish as an ostrich that buries its head in the sand to avoid danger. Skin eruptions are nature's warning that constipation is throwing poisons into your blood stream and weakening your whole constitution. Remove the constipated condition and you will strengthen your system against disease and clear up your disfigured skin. The best way to do this is with a course of Herbine, the vegetable medicine that acts naturally and easily, which you can get at Stokes-Alexander Drug Company

Fraley Substituting Gets Broken Hand In Clovis Boxing Match

Lee Fraley, local pugilist met Tom Ott, from Kansas at Clovis last Monday night in what was supposed to have been an eight round boxing bout, but lasted only three rounds, owing to Lee breaking his left hand in the first round.

Lee accepted the bout on a telegram from Clovis asking him to substitute for another participant who had backed out, and, supposing the fight would not be held for two or three weeks, accepted much against the advice of some of his friends.

Fraley was decidedly out of training, in fact, had not had on a pair of boxing gloves for three months; but game lad that he is, refused to back down after giving his word to substitute.

Notwithstanding his opponent was in good training and several pounds heavier than Fraley, it is said by those who accompanied the local man to Clovis, that Lee had everything his own way the first two rounds, though with a hand broken shortly after the opening round.

In 43 fights this is the first time Fraley has been knocked out, and local fans do not accept the defeat as a real one, owing to his lack of condition. An effort is being made to bring Ott to Littlefield sometime next month, and with Fraley in condition then, it is predicted that the result will be entirely different.

PASTOR'S WIFE FAVORED

Friday afternoon the ladies of the Methodist missionary society gave quite a surprise to Mrs. Geo. Turrentine, wife of the pastor of that church, when they gave her a miscellaneous shower at her parsonage home.

Sunday morning Mrs. Turrentine was the recipient of a nice traveling bag and blanket, the gift of her Sunday school class.

GIBBS IS WATER SUP'T

H. J. Gibbs has been re-appointed in charge of the municipal water-

works, following resignation of L. W. Wynn last week.

Gibbs had charge of the water system during its early history and did much toward developing it and its correspondingly financial increase to the city. He is an experienced man in his line and should render efficient service to the city.

Mr. and Mrs. L. O. Ely were here prospecting, Monday.

P. T. Adams, of Winters, was here Tuesday on business.

P. M. Hopper is erecting two houses on his farm near Littlefield.

T. W. Rodgers is improving his farm with new buildings near here.

C. J. Duggan spent the weekend in Lubbock visiting his family.

Dr. T. W. Grice made a business trip to Fort Worth last week.

Mrs. Eula Long transacted business in Lubbock, last Thursday.

Steve Etter, of Dalas, has accepted a position in a local drug store.

W. L. Blaylock, of Lelia Lake, was here on business, Tuesday.

Mr. and Mrs. Jim Davenport motored to Lubbock, Wednesday of last week on business.

Mr. Boone, of the Littlefield Body Works, motored over to Slaton, Sunday afternoon.

Mr. and Mrs. Arthur Dozier and children visited relatives here this week.

Miss Lora Ann and Al Mueller were Lubbock visitors Sunday afternoon.

Mr. and Mrs. P. Griffith, of Sudan, visited Mr. and Mrs. J. G. Chambliss and family, Sunday.

R. A. Chisholm and his niece, Miss Eva Chisholm were in Shallowater, Tuesday taking pictures.

Mr. and Mrs. Raymond Lee and family spent Tuesday afternoon in Pep, visiting relatives.

Kenneth Hemphill attended the Tech. vs. Howard Payne football game at Lubbock, Tuesday.

Mr. and Mrs. Levi Gamble and family, of Wichita, Kansas, were in Littlefield, Tuesday.

Judge R. C. Hopping, of Lubbock, transacted business in Littlefield, Tuesday.

Maurice Fite, of Oklahoma, was here Saturday prospecting and purchased a farm.

J. A. Warren, of Snyder, Oklahoma, was here last week. He bought a lot and contracted for two labors of land south of town.

Charles Whitacre, of the Southern Life Insurance company, Lubbock, was here Tuesday looking after business interests.

C. F. Collier, agency manager of the Southern Life Insurance company, of Amarillo, was in Littlefield, Tuesday, transacting business with J. E. Barnes.

A. T. Griffin, who has been in East Texas the past several months has returned to Littlefield to assist his brother, Ike Griffin, who is a grain buyer here. He plans to be here indefinitely.

Mr. and Mrs. E. J. Newgent and daughters, Misses Mary Ruth and Dorothy, visited Mr. Newgent's mother in Plainview, Sunday. She is leaving soon for Corpus Christi where she will spend the winter.

Glenn Roper, driver of the Gulf Refining truck, turned over his loaded truck four miles west of town, Monday morning. The truck was much damaged but the driver was only slightly bruised.

Tremain & Norman, local implement dealers, this week began the erection of a brick building in Anton

for a branch store of the same kind. Acroy Barton and B. L. Cogdill are constructing the building.

John H. Arnett Motor company reports the following car sales: T. H. Kelley, Littlefield, roadster; Enoch Land company, Littlefield, sedan; J. H. Rudd, Littlefield, coupe; W. G. Murray, Littlefield, roadster; F. H. Davis, Sudan, sedan.

W. R. Geistman, former hardware dealer at Temple, has purchased the Sid Pace farm on which W. K. Titus is now residing. He is in Littlefield now and will move onto his newly purchased property as soon as he can obtain possession.

Bell-Gillette Chevrolet company reports the following car sales: W. P. Kirk, Anton, coupe; D. J. Casey, Littlefield, coupe; E. G. Edison, Levelland, sedan; Francisco Valdez, truck; J. W. Jones, Amherst, sedan; Mrs. Nellie Sanders, Amherst, coupe; E. F. Huntsucker, Amherst, sedan; W. E. Nickelson, Amherst, sedan; Will Weaver, Amherst, coupe.

Have your printing done at home.

ERNEST WILLIAMS PROMINENT BUSINESS MAN SERIOUSLY ILL

Ernest Williams, manager of Shaw-Arnett Co., and prominent local business man, was taken to a Lubbock hospital Sunday morning for operation following a ruptured appendix.

His condition is serious, but as the Leader goes to press this morning, (Thursday) a telephone message from his son, Carl, states his father had a restful night and the doctors are hopeful of his recovery.

A motorist is a man who thinks his make of automobile is the best in the world, but is saving up his money to buy another kind next year.

CARD OF THANKS

We wish to thank each and every one who so faithfully helped us during the sudden illness and death of our beloved husband, father, son and brother. We also wish to extend thanks for the many lovely floral offerings, and special songs. May God's richest blessings rest on each and everyone of you, is our prayer.

LITTLEFIELD,

TEXAS

Announcing

a revolutionizing Motor Oil,
a new principle
and a Challenge

the Challenge

Several years ago, the exclusive North American patent rights on the Germ Process were acquired by this Company. It was evolved and patented by two British scientists after exhaustive chemical and physical laboratory tests.

Germ Process oils were revolutionary in that they met every requirement, through special characteristics, for each type of internal combustion motor. These scientists, by the Germ Process, eradicated the prevalent weaknesses existent in motor oils regardless of their base.

This Company has made innumerable laboratory and road tests, under every conceivable condition, over the past seven years, and we are now prepared to state definitely that your motor oil problem is solved by the Germ-Processed Motor Oils.

By comparison, our tests prove that the "Germ Essence" creates the only safe motor oil under all conditions and at all times operates at the highest obtainable efficiency. We are now prepared to meet any challenge of competitors. I confidently believe that Conoco Germ-Processed Paraffin Base Motor Oils are superior to any other motor oils made from any crude by any process.

More than twenty thousand outlets are now prepared to offer to the public such a motor oil for the discriminating buyer, and for a technical problem which has always been recognized but not solved until now.

J. M. Moran President,
CONTINENTAL OIL COMPANY

Here are our Claims for Conoco Germ-Processed Motor Oil—Check against the oil you are now using

1 Under the Germ patents . . . exclusive to CONOCO for North America . . . there is imparted to CONOCO Germ-Processed Motor Oil an "oiliness" which is responsible for its greater lubricating value, greater film strength, greater penetrativeness, greater adhesiveness, greater tenacity, greater permanence, greater stability, greater stamina and a more nearly perfect compression seal than any other oil on the American market.

Because of this affinity for metal—this actually combining with the metal itself, CONOCO Germ-Processed Motor Oil never leaves the bearings. Where other oils drain out and leave the surface dry, Germ-Processed oil penetrates the metal surfaces, forming a film that adheres for months. This "carry-over" film—this always present film gives ample lubrication to all parts needing it when a cold motor is started, until such time as oil from the crank case can reach them.

2 This remarkable and exclusive feature of CONOCO Germ-Processed Motor Oil is reinforced by the fact that these oils are refined from only carefully selected paraffin base crudes by the most modern and scientific methods known to the petroleum technologist. Patented processes are used to remove all objectionable elements, leaving a perfectly balanced, stable product that is 100% lubricating oil. Thousands of tests demonstrate its remarkable resistance to corrosion.

The majority of motor oils never receive this degree of refining. None ever exceed it.

3 Increased gasoline mileage and improved motor performance are realized through the use of this new oil. The exclusive CONOCO Germ Process so adds to the "oiliness" of this lubricant that metal-against-metal friction is eliminated, even in motor starting after all oil ordinarily would have drained from the motor into the crankcase. The perfect sealing qualities of the CONOCO fracture-proof

film insures a high compression efficiency that results in greatly increased motor performance. Marked improvements in power, speed, acceleration and flexibility are noticeable.

4 Due to the Germ Process and the select, premium, paraffin base crude stocks used, CONOCO Germ-Processed Motor Oil positively does not break down under the most intense cylinder wall heat. A climb, high speed, heavy load, temperature extremes—none of these strains cause this oil to heat sufficiently to actually burn, break down or evaporate to any appreciable degree. By comparison with many oils on the market, you may confidently expect a saving in oil consumption up to 50%.

5 Automotive engineers agree that 40% to 60% of all motor wear occurs during the starting period. This destructive wear is definitely reduced by the use of CONOCO Germ-Processed Motor Oil. Ordinary oil, thinned by heat and dilution, drains down past the piston rings when the motor is stopped, leaving little or no protective film. On starting the motor, a considerable time is required for the oil to reach all bearings and working surfaces. Under adverse conditions, such as winter temperatures, this time may be from 15 to 20 minutes or even longer.

Since CONOCO Germ-Processed Motor Oil never leaves the bearings and working surfaces, it is always there under any and all conditions to provide needed lubrication until the normal supply of oil arrives.

6 Unlike other oils, dilution does not impair the "oiliness" value of CONOCO Germ-Processed Motor Oil.

7 CONOCO Germ-Processed Motor Oil retains its fluidity at sub-zero temperatures. No practical operating conditions in winter will affect its immediate lubricating value at the first touch of the electric starter.

LAMB COUNTY LEADER

Published every Thursday afternoon at Littlefield, Texas.
Subscription: \$1.50 per year; 75 cents for six months.
Advertising rates given upon application.

No. Entered as second class matter May 24, 1923, at the post office 27 at Littlefield, Texas, under the Act of March 3, 1897.

JESS. MITCHELL, Editor and Publisher

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, if matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

A WINTER FORECAST

There's a funny thing about the weather shark. No matter how far he may miss it, he always manages to forget his failures and turn up a little later with another prediction.

We feel sure many citizens around Littlefield recall the prediction of the Chicago scientist, a Mr. Brown, that two years ago would be "a year without a summer." They will also probably remember how far he missed it. Well, Mr. Brown wasn't squelched by that failure. He is with us again, and this time to predict that the winter just ahead of us is going to be composed of a little of everything, though not so much cold as to class it as a "hard winter." He says there will be only light falls of snow, and most of those will come toward the end of the season, though there will be plenty of sleet and ice and an unusual amount of high wind. Foliage still remaining green at the time he made his prediction several days ago leads him to believe it will be what we usually call an "open winter," and one without excessive moisture.

We have no means of knowing how many of our readers, if any, set any store by these self-appointed weather forecasters. Neither do we know whether or not they follow the predictions or prefer to do their own guessing. But we do know the weather is still the favorite topic of conversation, so we are offering Mr. Brown's forecast in the hope that it may add a little interest to the subject.

POWER ON THE FARM

The one thing needed to make the farm home and the farm itself as

modern as the city home and industrial plant is electricity. It permits the rural resident to accomplish many more tasks with less expenditure of effort than could be done in through manual labor and horsepower or even with the use of steam or gasoline.

The U. S. Bureau of Census has energy and in far less time than they just made a nation-wide survey covering the subject, and since everyone around Littlefield is interested in the welfare and advancement of farm life we are sure everybody will be glad to learn the result.

The report shows that a total of 454,100 farm homes now receive and use electricity from power stations, an increase of seven percent over last year. There are 475,000 farms using individual power plants, a tremendous gain also having been made in this field. Totals for the entire country have not been provided, but it is estimated that at the rate power companies are stringing wires into rural districts the next five years will see electricity used on one out of every four farms in America.

This is cheering news. It means that eventually it will be a poor farm and a poor farmer indeed that will not have the economic benefits and social blessings that electricity brings and to which every rural resident is entitled as those who live in our cities and towns.

NO NEED TO WORRY

Littlefield motorists who, finding nothing else to worry about, occasionally start worrying about a shortage in gasoline, can now hunt for something else to fret over.

A government report shows that more than 90,000,000 barrels of the crude oil were produced in July, a new high record. Consumption jumped 13 per cent in the same month

over July of last year—but the increased production took care of it.

New developments in Oklahoma, Texas, California and Kansas have greatly added to production, while automotive engineers say that within another year they will have perfected carburetors that will give far more mileage to the gallon than is now being provided.

This means that even if production should decrease we will still be as well off as we are now, for we will be using less gasoline.

And if it gives out altogether—which it will not for years to come—we can always depend on American brains to find something just as good for a substitute.

USED CAR BUYING

The Leader frequently calls attention to the need and value of patronizing home enterprises, and feels in so doing it is urging patriotic action on the part of its citizens. The principal should apply to large purchases as well as the smaller ones—the buying of an automobile as well as a spark plug.

During the past few weeks Littlefield has been flooded with "used car" dealers from other points, driven to this land of fortune and plenty largely because of crop failures in their own sections. They are here to dispose of their cars taken in on new car sales.

But it should be borne in mind by used car buyers that there are also several resident dealers here who have likewise loaded up with used cars to accommodate the new buyers. Certainly they should receive first consideration by home people who purchase used cars.

It is the bona fide citizen who pays local taxes, contributes to every worthy local enterprise, in fact, who is responsible for making the town what it now is and will be in the future. Other things being any ways near equal, he is entitled to first consideration. The foreign auto peddler has no interest here other than to dispose of his wares, taking the money received back home with him, where it is entirely lost to local circulation.

Remember home dealers first when buying an automobile!

WORKING HARD

Few of us work as hard as we think we do. Rare indeed is the man or woman who does not waste a lot of time and take twice as long to do his work as if he worked efficiently.

It is not the number of hours a man spends at his place of employment that counts, but what he accomplishes in a day. It is no uncommon thing to use up a lot of time in making decisions; in wondering just which things to do first. Then he will

hesitate about what he will do with each particular problem. Before he knows it a good part of the day is gone with little accomplished.

No one works at high pressure unless he is being forced. Yet practically everyone thinks he works hard, though the truth is that most of us could do a lot more than we do if we would work efficiently all the time.

We spend a lot more hours at our business than we work at it.

Judging from the tonnage of dope used by women last year to make themselves beautiful in the sight of man, as reported elsewhere in this paper, one would think the men were hard to please. Perhaps they are; but it seems they are paying for lots of their crankiness.

When buildings are being torn down and streets are being torn up in Littlefield, it may be inconvenient for a little while; but it is a sign that everybody is working, and when folks are at work they are generally happy, for they are prosperous.

One can't help but wonder how many citizens enjoy being awakened from their beauty sleep between 5:00 and 5:30 a. m., by the needless blowing of that cotton gin whistle. The bird who does that ought to be sent to Siberia.

Now that the weather has become settled again, street paving is being pushed forward rapidly. It is hoped by folks both in town and country that there may be no further cause for interruption.

No need for anyone going without an automobile this year. In addition to the popular new cars being sold here, the town is flooded with second hand cars brought here from other towns. Take your pick!

You have heard of "oil booms," well, Littlefield is having a cotton boom. Business of all kinds is at its peak during this time of the year.

LITTLE LEADERS

Compliments from his friends don't make a Littlefield man feel any better after he has heard his wife's description of him.

We've often observed that the bigger a Littlefield man's bank roll the tighter he keeps the rubber band around it.

Nowadays when a Littlefield family has a marriageable daughter, about the only place left for father is out in the garage.

Styles may change, but we never expect to see Littlefield women go back to cotton stockings.

A lot of Littlefield wives would be perfectly happy if they didn't talk over things with other women.

It's fortunate that the Littlefield women who are worried about the wrinkles on their face can't see the wedges in their necks.

It's slightly amusing when a 14 year-old Littlefield girl indulgently refers to her 37 year-old father as "old-timer."

Nothing else will put pep into a Littlefield conversation like a religious controversy.

FIRST NATIONAL BANK

LITTLEFIELD, TEXAS

WE STRIVE FOR A MAN TO MAN RELATIONSHIP THAT WILL PREVENT MISUNDERSTANDINGS, MERIT MORE CONFIDENCE, AND CREATE FRIENDSHIPS.

Just like MONEY in the bank

Two major qualities of the Pontiac Big Six—its reliability and long life—offer motorists a definite cash advantage which is just like money in the bank. For not only do these qualities effect big savings in the cost of operating every Pontiac . . . but in addition they increase still further the demand for used Pontiacs. And that means that the Pontiac Big Six you buy today will have a high resale value when you are ready to turn it in.

Pontiac has many other important qualities to offer you. It has the highest top speed, fastest acceleration and the greatest power to be found in any low-priced six. It offers more style in its bodies by Fisher—and more safety in its non-squeak,

dirt-and-weather-proof internal four-wheel brakes. And as for Pontiac economy, a large corporation operating 996 automobiles of 33 different makes found the operating cost of their Pontiacs during 1928 to be one cent a mile less than that of any other low-priced six.

Let us appraise your present car. Our allowance frequently covers the down payment so that a small amount monthly enables you to enjoy the many unusual advantages offered by the Pontiac Big Six.

PONTIAC BIG SIX at \$745

Pontiac Big Six, \$745 to \$895, f. o. b. Pontiac, Mich., plus delivery charges. Bumpers, spring covers and Luvax shock absorbers regular equipment at slight extra cost. General Motors Time Payment Plan available at minimum rate. Consider the delivered price as well as the list (f. o. b.) price when comparing automobile values. . . . Oakland-Pontiac delivered prices include only authorized charges for freight and delivery and the charge for any additional accessories or financing desired.

THE SATURDAY NIGHT BATH A MATTER OF
ANCIENT MYTHOLOGY SAYS WATER SUP'T

If the water records at the Littlefield City Hall go to prove anything, they prove conclusively that the proverbial Saturday night bath is a thing of ancient mythology, according to Harvey Gibbs, in charge of the city water department.
Mr. Gibbs says he believes people are diversifying throughout the week in their physical ablutions, and there appears to be no appreciable increase of water used on Saturday nights than on any other night during the week.
The first heavy pull on the big stand pipe generally begins about 6:15 a. m., and continues for about an hour and a half while breakfast is in preparation and the dishes are being washed, incidentally some of the folks taking their morning plunge under the shower or in the tub.
Then there is a falling off in the amount of water consumed until around 9:00 a. m., while mother is

getting the kiddies ready for school and doing the general housework. But after that time the consumption again increases, as there is washing to be done and other uses for the H2-O4. Perhaps on Monday morning there is more water used, between the hours of nine and eleven, than at any other time, due to the custom of handling the weekly laundry on that day. About 11:00 o'clock there is another upward tendency of the meter when dinner is being prepared.
Of course, during the summer, said Mr. Gibbs, there is considerably more water used than during the winter time. This is largely due to watering the lawn, irrigating the garden, etc. and constitutes the heaviest draft on the city supply, beginning about five p. m., and running on until dark. From 10:00 p. m. until 6:00 a. m. is the low consumption mark during the 24 hours of the day.

When Jack Frost Blows His Breath On The
Trees the Leaves Blush and Wither. It's
Nature's Way of Protecting the Tree's Life

The falling of leaves always follows the arrival of Fall, yet in prairie countries, such as is Littlefield's location, the citizens are not bothered greatly from this cause. When Jack Frost marches through the forests and touches the leaves with his chilly breath, there is a withering and a change of color.

Everyone who has lived in a wooded country before coming to this prairie section has admired the woods in Fall time, all upholstered in purple, brown and golden foliage. But why the change? is a question asked the Leader this week by a Littlefield school girl.

The answer is easy, and is simply this:

It is Nature's provision for saving the trees from dying of thirst during the winter time. On every tree there are hundreds of leaves, the grown ones literally having millions of them. Every leaf gives off water; but since the roots of a tree absorb little moisture during the winter months, if the leaves were permitted to remain on the branches, they would continue to sap the tree's present water supply and it would soon die. Nature knowing this, sentences the leaves to death.

Weeks before the first frost arrives, Nature realizing that the time of cold weather is soon due, begins extracting from the leaves all the food substances they have manufactured during the spring and summer months, thus causing the foliage to gradually wither and decay. Simultaneously, a thin walled layer of cells is formed at the base of the leaf where it is attached to the twig or branch, which layer becomes a zone of weakness causing the leaf to eventually fall off of its own weight.

However, the scar left by the falling leaf is well protected by Nature, it being immediately covered with a

substance that is practically waterproof. Since the bark of the tree is also nearly waterproof, the tree is then practically "corked up" for the winter.

There are not many trees in the Littlefield section now, but with the continued planting each spring, it will not be long before the kiddies may romp in the fallen leaves of early winter, and those who came here from the timbered countries will feel very much at home again.

GOLDEN RULE AT THE WHEEL

The Christian Register prints the following prayer for motorists, by Harry McCreary:

"Teach us to drive through life without skidding into other people's business. Preserve our brake lining, that we may stop before we go too far. Help us to hear knocks in our own motors, and close our ears to the clashing of other people's gears. Keep alcohol in our radiators and out of our stomachs. Absolve us from the mania of trying to pass the other automobile on a narrow road. Open our eyes to the traffic signs, and keep our feet on the brakes."

Advising the Jelly

A small boy was eating jelly, with a three-year-old baby's interest in the process. He watched it trembling as he brought it to his rosy lips, and spoke to it soothingly, saying, "Now don't get excited." Christian Herald

Priests Handicapped

Priests of the Maori tribes in New Zealand were not allowed to touch food with their hands at certain times, and so had to be fed.

Character—a reserved force which acts directly by presence and without means.—Emerson.

Two Girls Live on
Hot Water and Rice

Due to stomach trouble, Miss A. H. and sister lived on hot water and rice. Now they eat anything and feel fine, they say, since taking Adlerika.

Even the FIRST spoonful of Adlerika relieves gas on the stomach and removes astonishing amounts of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you.

SCHOOL - NEWS

GRAMMAR SCHOOL REPORTS

The Seventh grade organized a Reportal club Tuesday, November 12.

They elected reporters for the entire Grammar school which were as follows:

Eunice Smith, chief reporter; Eunice Mae Page, Mayme Ruth Berryman, and Jesse Denton reporters for 7-11. O. D. Yeager, June McCormick, and Fern Fralin reporters for 7-2. Victor Nixon, Wallace Varner and Ruby Yearly reporters for 7-1. The reporters met and elected Mr. Chisholm as their Sponsor. The reporters were all assigned special subjects to report on, some of which follow:

Absence of Teachers

By June McCormick
Mrs. R. E. Riley has been absent all week on account of severe illness. Her substitutes were: Mrs. E. A. Bills, Monday; Mrs. Garland, Tuesday; Mrs. Doss, Wednesday; and Eva Gertrude Chisholm for Thursday and Friday.

Absence of Pupils

Twelve pupils were absent in 7-2 this week.

Eight absent in 7-1 this week.

Seven in 7-11 this week.

Eighteen in Mrs. Lambert's room.

Nineteen in Miss Theima Killough's room.

Fourteen in Miss Ross' room.

Twenty-four in Miss Carmichael's room.

Eleven in Mrs. Tonell's room.

Twenty-one in Miss Terrell's room.

Twenty-seven in Mrs. Brittain's room.

Twenty-eight in Miss Hemphill's room.

Thirty in Miss Lucille Killough's room.

We hope all these will be back real soon.

Grammar School Sports

By Victor Nixon

This week the Grammar school boys have organized a basketball team. The boys have a fine team this year. Some of the boys have been absent from school, but most of them are back now. The boys have a working team that fights. Their motto is "Fight to the Finish!" With this motto the boys will always fight and they are sure to win. The team is going to get a pep squad and be a pep squad themselves at other games played by the girls. The principal of Grammar school, Mr. Chisholm, is always ready to help us to be a real basketball team. We hope, and almost know the basketball team will be a success this year.

The girls are going to get a team in a few days. They have a team which never gives up and gives every one a square deal. We intend to have a team this year with plenty of pep.

SCHOOL PERSONALS

Doctor Davis, of Lubbock, visited his cousin, Miss Eva Joe Carmichael, Sunday.

Mrs. Garland has been employed in the Grammar school as teacher of one section of the sixth grade.

Superintendent B. M. Harrison is planning to attend the T. S. T. A. at Dallas over the Thanksgiving weekend.

Mrs. Ray Jones was agreeably surprised by a weekend visit from her aunt, Miss Edna Graham, head of the Math. department at Canyon.

While attending Grand chapter at San Antonio, Mrs. Wiseman visited several of the San Antonio schools. She says we are to be congratulated on our excellent school cafeteria. Ours is far superior to those in the schools she visited. The teaching corps compares favorably also.

SEVENTH GRADE WORK

The Seventh grade have been studying about America after the Revolu-

tionary War. The classes being divided into two parts. One taking the articles of Confederation and the other, Forming of the Constitution, as it was formed then.

Mrs. Lambert gave each pupil a character in history to represent and everyone had to make a speech for or against the situation or Articles of Confederation. These people made talks and formed a Constitution which was enjoyed by them as well as the ones who were listening.

A FINE SCHOOL

Grammar school is trying hard to have a clean, good looking school this year. The rooms have all been fairly clean this week, however, it could be improved.

We have a fairly good library in school and the pupils of the sixth and seventh grades use them. Each room having a chance at them every five weeks. The reference books are in use most of the time because the pupils enjoy using books of this type because they are very interesting as well as instructive.

The pupils have all been improving and only two pupils in the seventh grade have misspelled over five words in spelling this week. They are Leon Leonard and Glyma D. Coffee. Every member of Seventh grade spelling class were to choose one subject from three in which to speak on. These subjects were given by Mr. Chisholm. There were many good talks and all were enjoyed.

MAY ADD STUDY HALL

Mr. Chisholm has been talking over with the pupils about tearing the stage out of the Grammar school and adding it on to the study hall. We hope this can be carried out before school takes up after Christmas vacation, because we expect to enroll many more pupils and to have a good many old ones back who have finished gathering their cotton.

—By Eunice Smith.

PEP SQUAD PEPPY

The Pep Squad Girls are in for boosting the football team of the Littlefield High school.

The leaders called meetings every day last week and learned some new yells and songs so as to boost our team during the game with Levelland.

During the half the Levelland Pep squad used the gridiron to form an "L," then the Littlefield girls formed an "L."

The Pep squad plans to have a pep meeting each remaining day of this week so as to be ready to boost the team Friday as they fight to win the game with Hale Center.

KNOW NOTHING CLUB

The Know Nothing club met Monday afternoon at the sixth period in room nine.

Officers were elected as follows: Percy Carter, president; Naomi White, secretary; Travis Houk, treasurer; Jessie Opal Busher, reporter; Whitaker, vice-president; Harry Virginia Staggers, Hazel Bennett and Billy Cooper, program committee. A committee was appointed to select a motto and song for the club. The roll was taken and 56 members were found present.

THE SENIOR CLASS

The Senior class of 1929-30 have received their play books and have started practicing on the senior play, "A Corner of the Campus."

It is a play with plenty of action and college fun. They expect to put on the play before Christmas.

Help keep Littlefield clean.

ENGLISH CLUB MEETS

The English club, sponsored by Miss Penelope Floyd, met for the second time Monday. The officers elected at the preceding meeting were as follows: President, Tilden Wright; Vice-president, Lucille Hall; Secretary, Jewel Glover, Reporter, Inez Wallace.

Blue and white were selected as the colors of the club. The members have decided to wear these colors as

a badge. The club has not been named yet, but a committee has been appointed by the president for this purpose. This club was organized to study literature and art of our country and others. We will study different subjects that will help us in our English work.

THE PUBLIC SPEAKING CLUB

The Public Speaking Club met

November 18. Norma Lee Gattis, Fulton Smith, Azalea Stanfield, and Pauline Courtney were elected chairmen of the four program committees. The rest of the time was spent in great enjoyment; the president appointing different one to make impromptu speeches.

At each of the following meetings they expect to have prepared programs. Anyone who is interested in the club is invited to join us.

The longest is at the same time. The best part of our school is more with good government, more is more. Righteous - virtuous.

Keep Guard on Tongue

For Accomplishment

The Phi Beta Kappa key is awarded for scholarship in college or given to men and women who have achieved distinction in some particular field allied with learning.

Pep Paragraphs

The explosions made by the companies testing for oil west of Pep shake the ground and rattle the windows at Pep in the manner of a miniature earthquake.

It is reported that drilling has been discontinued on the first well sunk at Lehman's though according to one observer oil stands at a depth of 18 inches in the large storage tank at the well.

Mr. and Mrs. W. T. Jungman and Miss Blanche Stengel visited the scene of the blasting operations near Morton, Sunday.

L. C. Hanley and Walter Lupton, Jr., went to Shallowater, Sunday.

Mr. and Mrs. H. J. Greener were in Levelland, Monday.

Mr. and Mrs. F. S. Murphy and Mr. and Mrs. W. P. Lupton motored to Morton, Sunday afternoon.

Miss Marie Tarwater, home demonstration agent, visited this community in the interest of her work, Friday afternoon.

J.F. Gedik went to Littlefield, Saturday.

The children of the primary room gave an interesting dramatization of the story of "Jack and the Bean Stalk" at the chapel program Friday afternoon. Their interpretation of the various characters was entirely original and for this reason was especially interesting and amusing. Several visitors were present.

Mrs. G. C. Keith and Miss Elizabeth Lupton were shopping in Littlefield, Saturday.

Mrs. J. O. Alison and son, Alvin, visited relatives in Littlefield, Sunday.

PRIMARY SCHOOL

The Primary building is dressing up for Thanksgiving. The reporter observed, while passing through the building, beautiful snow scenes in Miss Matthew's room, a Pilgrim project in the sand table in Mrs. Cogdill's room, an attractive November calendar in Mrs. Fulton's room, a big book of incidental readings of the many things for which Mrs. Wiseman's class is thankful, a beautiful Thanksgiving poster in Mrs. Harrison's room, a large bowl of luscious fruit in Miss Teel's room. One may hear a Pilgrim play in Miss Porter's room, and so on through the building.

It's great to be a Texan!

PRESBYTERIAN AUXILIARY

The Presbyterian Auxiliary met in an all day meeting at the country home of Mrs. L. M. Touchon. Each one bringing cats for a big dinner, after which the ladies worked industriously on the gifts for the bazaar to be held December 7. Plans are being formulated for a real dinner, in connection with the bazaar.

A short session was held during the afternoon, Mrs. Barber giving a Scripture reading, and Mrs. Bills giving a short talk on missionaries in Alaska.

Mrs. Robinson, of Lubbock, wife of the Sunday school field manager, will give a talk Sunday morning at 11:00 o'clock at the Presbyterian church, offering of Sunday school and church to be given to national missions.

The next meeting of the auxiliary will be with Mrs. Bob Smith.

Buy it in Littlefield.

Speech and Action

He who has been wont to pronounce so fluently upon the defects of another's rule and management finds, when in power himself, what a different thing it is to act and to talk.—Helps.

America's sea commerce in 1928 totaled 100,000,000 tons.

Doctors Disagree

When children are irritable and peevish, grind their teeth and sleep restlessly, have digestive pains and disturbances, lack of appetite, and have itching eyes, nose and fingers, doctors will not always agree that they are suffering from worms. Many mothers, too, will not believe that their carefully brought up children can have worms. The fact remains that these symptoms will yield, in a great majority of cases, to a few doses of White's Cream Vermifuge, the sure expellant of round and pin worms. If your child has any of these symptoms, try this harmless, old fashioned remedy, which you can get at 35c per bottle from Stokes-Alexander Drug Company.

"EVERYBODY'S SIX"

Smart · Smooth · Safe ·
Dependable—and Priced
Within the Reach of All!

THE new Chevrolet was designed and built to bring the advantages of six-cylinder performance within the reach of all those who can afford any automobile. For that reason it has met with sensational success—more than a million two hundred and fifty thousand on the road in less than nine months!

We cordially invite you to come in and see this remarkable car. Its smart Fisher bodies are styled in the latest mode—with tasteful mouldings, concave front pillars and oblong windows. Its great six-cylinder valve-in-head engine

is smooth, powerful and unusually swift in acceleration. It is designed throughout for greater safety and dependability. And its low first cost, combined with its outstanding economy of operation, makes it truly "Everybody's Six." Come in today for a demonstration!

The Roadster, \$525; The Phaeton, \$535; The Coach, \$595; The Coupe, \$595; The Sport Coupe, \$645; The Sedan, \$675; The Imperial Sedan, \$695; The Sedan Delivery, \$595; Light Delivery (Chassis only), \$400; 1 1/2 Ton Truck (Chassis only), \$545; 1 1/2 Ton Truck (Chassis with Cab), \$650. All prices f. o. b. factory, Flint, Michigan.

Consider the delivered price as well as the f. o. b. price when comparing automobile values. Chevrolet delivered prices include only authorized charges for freight and delivery, and the charge for any additional accessories or financing desired.

of said parties, if they or either of
them be deceased, and all persons
owning, claiming or asserting any
right, title or interest in and to the
land and premises hereinafter de-
scribed, are Defendants, and a brief
statement of plaintiff's cause of ac-
tion, being as follows:
Plaintiffs allege that they were on
the 5th day of January, 1929, the
heirs in fee simple of all that certain
tract or parcel of land lying and
being situated in Lamb County, Tex-
as, and being Lot No. 7, in Block No.
1, in the town of Littlefield, Lamb
County, Texas, as shown by the map
plat of said town recorded in Vol-
ume 500-502, Deed Records of
Lamb County, Texas, and being a
part of Labor No. 19, League No.
1, in said County; that on said day
defendants entered upon said
premises and ejected the plaintiffs
therefrom, and withheld possession to
plaintiff's damages \$600.00; that the
reasonable rental value of said prem-
ises is \$600.00 annually; that C. W.
Goodson is the common source of
title to this action is brought as
to try title as for damages. Plain-
tiffs additionally plead that the said
C. W. Goodson executed three notes
to William Trondson in part payment
of said property secured by deed of

**IMPROVEMENTS IN LOCAL
THEATRE ARE APPRECIATED**

Sunday pictures are proving as
popular in Littlefield as in many
other cities where they are shown
and are greatly appreciated by many
citizens. The picture shown last
Sunday afternoon was of an excep-
tionally high quality, the manage-
ment receiving many compliments
for the production. The house was
practically filled with patrons at the
first showing.
Manager Wm. J. Chesher is con-
stantly making improvements in his
show house that is meeting with the
approval of his patrons. Recently
several hundred dollars have been
expended in carpeting the foyer and
aisles, beautiful new draperies have
been hung, the walls draped with
art squares and the interior lighting
system changed and subdued in a
pleasing manner by reflection
through Japanese parasols.

Magnificent View

From the Rigi, famous Swiss moun-
tain, a view of 300 miles in every di-
rection is seen from the top. Rigi is
about eight miles from Lucerne.

Wave of spy mania sweeps Balk-
an countries.

trust to Arthur P. Duggan trustee,
providing that failure to pay either of
said notes would mature all said
notes, said notes being for the sum of
\$74.00; \$100.00 and \$100.00, respec-
tively, dated January 12, 1914; that
notes Nos. 1 and 2 were not paid and
at the request of said Trondson the
trustee sold said land and premises un-
der said deed of trust on Apr. 6, 1925,
after giving notice as required in
said deed of trust, and same was sold
to said Trondson to whom the trustee
executed a deed and the said Wil-
liam Trondson became the holder and
owner thereof in fee simple with title
superior to that of defendants; that
by mesne conveyances plaintiffs be-
came the owners thereof with superior
title to that of any of the defendants;
that plaintiffs own, hold and claim said
land and premises under the three,
five and ten years statutes of limita-
tion, alleging they have owned, held
and claimed the same by actual, vis-
ible, notorious, exclusive, peaceable
and adverse possession for a period
of more than ten years; that they
have held peaceable and adverse pos-
session thereof and paid the taxes
thereon for a period of more than
five years under deeds duly registered
and recorded; and that they have
been in peaceable and adverse pos-
session under title for a period of
more than three years. That defend-
ants claims cast a cloud on plaintiff's
title.
Plaintiffs pray for citation, that
defendants be divested of all right,
title and interest in said land, and
that title be vested in plaintiffs; that
plaintiffs have judgment for title and
possession and that writ of restitution
issue; that the cloud on title be re-
moved and plaintiffs title be quieted,
and for costs of suit and general re-
lief.
Herein Fail Not but have before
said Court, at its next regular term,
this writ with your return thereon,
showing how you have executed the
same.
Given under my hand and seal of
said Court, at office in Olton, Texas,
On this 5th day of November, A. D.
1929.
A. H. McGavock, Clerk, District
Court, Lamb County, Texas.
By Dovie Wallace, Deputy.
(SEAL)
Nov. 7, -4, 21, 28, 1929.

**POULTRY
FACTS**

**MEAT SCRAPS OR
MILK IN RATION**

Home-grown feeds should be used
as much as possible in the ration of
the farm flock, but grain feeds should
be balanced with milk or meat scraps
or both, says George Ghostley, poultry
specialist of the agricultural extension
service of the University of Minne-
sota. Ground feed called mash, as
well as grain. Is necessary. The fol-
lowing will give good results, he says:
Grain—Cracked yellow corn, two
parts; wheat, one part, and heavy oats
a half part.

Mash—One hundred parts each of
bran, middlings, ground yellow corn,
ground oats, and meat scrap, three
parts each of salt and charcoal.

Milk is an extremely valuable food
for poultry—more valuable even than
for hogs. Feed skim milk or butter-
milk if possible. Reduce the meat
scrap one-half if there is milk before
the birds all the time. If they have
milk only to drink the meat scrap can
be scrapped entirely, particularly if
5 per cent more bone meal is added
to the mash.

One pint of cod liver oil to each
hundred pounds of mash, mixed first
with charcoal and then with the other
ingredients, makes a valuable addition
to the ration. The mash should be
before the hens in hoppers or feeders
all the time. More grain than mash
should be fed during the cold weather
with the reverse the case in summer.

Feed lightly of grain in the morning.
Warm water, oyster shell, grit and
green or succulent feed such as alfalfa
or clover leaves, mangels, carrots,
cabbage, cull potatoes, rutabagas or
sprouted oats should be furnished.
Changes should be made gradually.

**White Hollands From
Original Wild Turkey**

White Hollands are thought to have
originated from sports of the original
wild turkeys, and perpetuated by se-
lection and breeding. In fact, some in-
formation leads to the belief that the
White Hollands were perfected in Eu-
rope, where range was restricted and
nomadic habits most desirable, and
then later returned to America by
some of the early Dutch settlers. This
may be largely based on the docile,
domestic temperament, characteristic
of White Hollands, which would indi-
cate the restricted areas of Europe of
that day, rather than America. Too,
White Hollands are said to have been
fairly well-known in England early in
the Nineteenth century, and it may be
due to their foreign invasion so to
speak, that they were later to become
well known in the land of their na-
tivity, than were some of the other
standard varieties which were perfect-
ed in America.

**Keep Poults Hungry for
First 48 Hours Anyhow**

Turkey poults should not be fed any-
thing the first 48 hours after hatch-
ing. If they have free range, they
will pick up some seeds and insects,
which will vary the amount and kind
of feed that may be needed after 48
hours. It is best always to keep them
just hungry enough so they will be
hungry feed and getting the exer-
cise that is required for best growth
and livability. Hard-boiled eggs
chopped fine and mixed with corn-
bread crumbs have been found gen-
erally satisfactory the first week, af-
ter which whole wheat and hulled oats
are good. Keep them out of wet grass
until they are well along. Three lit-
ters of eggs per year are generally
about all that will be satisfactory to
hatch, because late-hatched poults are
likely to be less thrifty.

Kill Harmful Mites

Mites do not live on the chickens
by day, but come out and suck their
fill of blood when the birds are roost-
ing. First the poultry house must be
cleaned thoroughly. Trash, nesting
material, etc., should be taken out and
burned. Then go over the whole house
thoroughly with crude petroleum or
carbolineum, using either a spray pump
or brush to supply the material. Pet-
roleum is cheaper but the carbolineum
gets into the cracks better and lasts
longer.

Geese for Breeding

It is inadvisable to dispose of an
older goose and keep young geese for
breeding purposes, provided the older
bird is in good health. Young geese
will often lay during their first year,
but the eggs are usually infertile and
the number produced is seldom as
high as would be produced by an old-
er female. Females of the Canadian
breeds do not lay, as a rule, until
they are three years old, but females
of any of the breeds may be kept for
breeding.

Eggs for Chicks

Eggs that are tested out of incuba-
tors up to the 14th day make good
feed for young chicks if properly pre-
pared. They should be boiled for at
least 30 minutes so as to kill all germs
that may be in them. Then pulverize
them in a jar or some container, using
a square stick that will thoroughly
mix the contents and pulverize the
shell as well as the interior portions.
The only danger in feeding eggs lies in
not cooking them long enough or over-
feeding.

Let Texas folks live for Texas!

A Great Discovery

When Pasteur discovered, in 1852,
that the infection of wounds was
caused by malignant bacteria, he per-
formed a service of inestimable value
to mankind. Since then medical science
has been producing better and better
antiseptics, to kill these germs that
may enter the smallest cut and give us
diseases such as typhoid, tuberculosis
and lockjaw. Now, all you have to do to
be sure that these dreadful germs will
not infect a wound, is to wash that
wound, however small, thoroughly with
Liquid Borozone, the modern antiseptic.
You can get it in bottles, in a
size to fit your hand and purse, from
Stokes-Alexander Drug Company

**TODAY IS THE
FOURTH OF JULY**
FOR MOTORS FUELED WITH PHILLIPS 66

Let cold winds blow—it's always summer for the car that's fueled with
Phillips 66. The volatility of this gasoline is scientifically controlled to fit
the season and the climatic conditions of the locality in which you buy
it. Your car is never handicapped by the weather. Starts instantly.
Warms up fast. Accelerates quickly. Gives you satisfying power—excep-
tional mileage—at no extra cost. Enjoy year 'round Fourth of July per-
formance. Switch to Phillips 66 or 66 Ethyl. For best results try a tankful.

Phill-up with
Phillips 66
CONTROLLED VOLATILITY
WHEN THE THERMOMETER GOES DOWN THE VOLATILITY GOES UP. Gasoline must vaporize before it
can be fired in the cylinders of your motor. Volatility refers to the ability of gasoline to vaporize. With volatility controlled, Phillips 66
vaporizes as quickly in cold as in warm weather.
