### West Point Cadets on Parade

WEST POINT, N. Y. Cadets of the U. S. Military Academy on parade during annual visit and inspection by members of Congressional Board of Visitors.

Miss Bonita Joe Weiridge, who is employed at the Littlefield hospital, had her tonsils removed Thursday.

Wilburn Dunigan, aged 16, who was unfortunate enough to fall and break his left arm Thursday, was admitted to the hospital for treatment. His arm was put in a cast and he was released.

Miss Herman Abbey of Morton returned home Saturday after submitting to a major operation last week.

P. H. McCain of near Fieldton, who was admitted about two weeks ago, is improving and has been discharged.

### CLOTHES CLOSET IMPROVED

Extra storage space was provided in Jimmie Burkes clothes closet by adding five shelves at one end of the closet. These were made from orange crates and apple boxes and then were painted. The extra benches covering it stored on the top shelf. The others hold bed linens, hats and purses, underwear, hose, and club material. Below these shelves is storage space for shoe polish and old shoes. A shoe rack is on the floor under the rod that holds the dresses. These improvements cost 50 cents for the paint as the other material was scrap lumber.

Accents of the blue paint were carried out on the edge of the shelves, the hangers, shoe rack and hat racks. This is a pleasing cool note against the rose and ivory of the bedroom. The blue is a light pale color that makes the closet seem lighter.

Jimmie is the clothing demonstrator.

### County Demonstration Notes

#### FRUIT JARS USED FOR HAT RACKS

Quart fruit jars were used by Edith Allen who lives 3 1/2 miles west of Spade as hat racks. The tops were padded and then Edith covered the jars with pink crepe paper. Edith has found that they do not tip over on the closet shelf and she believes that these are easier to use than one made from wood.

The racks prolong the life of hats by keeping them in shape. Each clothes closet should be equipped with several. Edith is the clothing demonstrator for the Spade 4-H club.

#### Don't put up with useless PAIN

Get rid of it  
When functional pains of menstruation are severe, take CARDUI. If it doesn't benefit you, consult a physician. Don't neglect such pains. They depress the tone of the nerves, cause sleeplessness, loss of appetite, wear out your resistance.  
Get a bottle of Cardui and see whether it will help you, as thousands of women have said it helped them.  
Besides easing certain pains, Cardui aids in building up the whole system by helping women to get more strength from the food they eat.

JUNE ISSUE OF TEXAS PARADE CONTAIN ILLUSTRATIONS OF BEAUTY SPOTS TAKEN BY C. OF C. SECRETARY

In the June issue of the Texas Parade, a State Highway magazine, there appears several very interesting pictures illustrating a number of beauty spots in Gonzales Palmetto State Park. These pictures were taken, printed and enlarged by Glenn Burgess, Littlefield Chamber of Commerce Secretary-Manager, previous to coming to Littlefield, and sent by him to the Texas Parade. The news items in connection with the illustrations were written by Jack Blackwell of the Gonzales Enquirer staff, and explains pictures of concession building in Palmetto State park at Ottine, near

Gonzales, on the bank of San Marcos river and showing considerable Spanish moss; mineral spring; waterfall; lagoon in Palmetto State park, which park consists of 400 acres of moss covered trees, and is an outstanding beauty spot; C. C. camp, and another small lake in the park. Mr. Burgess takes a special interest in photographing places and buildings of interest; and the above pictures in the Texas Parade would indicate that the Littlefield Secretary of Chamber of Commerce is an artist along this line, as the work on these pictures is exceedingly fine.

**USES EVERGREEN FOR SCREENING**

Mrs. L. L. Massengill, who lives two and one half miles south west of Littlefield, has planted seeds of a drouth resistant variety of Armum River privit in a small frame bed in the garden. She has covered the bed with tow sacks to protect the seedlings from the wind and sand.

Next year Mrs. Massengill plans to transplant the seedlings so they will screen the barn and the garden from the road. The plants may be used as a foundation planting where tall plants are needed. Since the privit is evergreen the planting is effective in the winter as well as the summer.

Mrs. Massengill is the yard demonstrator for the newly organized Littlefield Home Demonstration club.

Deep drifts of sand were the chief difficulties of Mrs. Charlie Harrell when she began her yard demonstration this spring. The last of April the sand was scraped out of the yard, then the yard was plowed and leveled. A new fence was built to keep the chickens out.

One afternoon the Sod House Home Demonstration club helped Mrs. Harrell set out bermuda grass and make a flower garden. When the agent visited her last week the grass had started nicely. Mrs. Harrell plans to have fruit trees at the back to protect the yard from the sand and wind. This will be an attractive background for the house.

**SCOUT RADIO**

Editor-in-chief—  
—Mr. Eugene Latimer  
Co-editors—  
—J. G. West, David Storey

Scouting dates back into ancient history. We find among the old tribes of the various nations groups of young men and boys who all or most had their code of honor.

The Athenian youth was taught the necessity of a strong body and an alert mind. His watchword was "Be Ready". The Knight of the Middle Ages was taught to defend the weak and helpless even with his life if necessary. The Indian Brave was instructed to endure the hardest of hardships.

They were scouts for their elders and loved ones. They died fighting for honor and glory. To surpass others, the first scouts were informed to use strength, brute force, and cunningness while the scouts of today are told to achieve honor through educated coordination of trainer muscles and mind. The latter says "Be Prepared" at all times for any need that may arise.

**LOYALTY**

(NOTE: This is the second of a series of discussions of the twelve Scout laws).

Loyalty is one of the twelve character traits embodied in the Scout law. "A Scout is Loyal." He is loyal to all whom loyalty is due, his parents, country and Scoutmaster.

Can there be loyalty to a cause or a person without faithfulness? No. One notices that in stories told or incidents related, loyalty is indicated by faithfulness.

To be loyal to our government means that we must obey its laws and discharge our duties as good citizens. To be loyal to our parents and friends means that we must be true and consistent in our affection for them.

Think what would have happened to our own country during the World War if our citizens had not been loyal.

Then we say be faithful to your government, home, parents, and friends for a better citizenship and more happiness.

**DID YOU KNOW THAT—**

—In the Merit badge camping, a scout is required to camp out fifty days and nights.

—The second class scout may pass any five of a certain thirty merit badges.

—The life scout must qualify for 21 merit badges before becoming an Eagle Scout. Ten of these badges are already passed though, because to be a life scout one must qualify for those ten.

I know that country. Those herds will come north through Lawler Basin, then along the west edge of the Flytrap Roughs and finally hit the south end of Jericho Valley.

"An' yuh know where Jericho opens out; it opens right on the Circle L an' the Dot H Dot range! Man, there'll be thousands an' thousands of cattle passin' here inside another month."

"Naturally, them Big Bend owners expect to pay a certain amount per head to take 'em across this range. It's only fair that they should. Them cattle will eat a lot of grass in passin', an' we're gonna have some extra expense in hirin' extra hands to keep our own cattle from mixin' in with the trail herds."

Here's the scheme Arthur, Starbuck an' Brockwell are figgerin' on, I'll bet a laig. They've planned on these herds comin' through over this range. An' they've schemed to get hold of the Circle L an' the Dot H Dot. Once them trail herds get crowdin' well into Jericho, the Big Bend men could be held up some-thing scandalous.

"Time's damn important with 'em. That Kicapoo range won't last long, for it's a case of first come, first served. They'll stand for damn near highway robbery to get their stock across in time. An' if Arthur, Starbuck an' Brockwell controlled the Dot H Dot an' the Circle L, they could make 'em pay an' pay an' pay."

Slim laughed softly as Dakota finished. "The old 'aid is workin' all the time, eh, Dakota? You're right as rain! If I hadn't been too cussed stupid, I'd 'a guessed the scheme right along. Yuh've made it plain now. They railroaded me to prison for a job I didn't do. Dad was failin' at the time, and they gambled he'd die before I got out. He did. But I'm bettin' my parole kinda upset their plans."

"They tried to dry-guich yuh, Dakota. With yuh daid an' me in jail, they could soon get their hooks into the Circle L. Then Arthur got that mortgage against the Dot H Dot. Now he's goin' to foreclose, or rather he thinks he is."

"Man alive, that gang will be desperate, soon as Tisdale has his talk with Arthur. They'll be on us like a swarm of ants. But we know now what to look for an' why. Abe, I want yuh to do somethin' for me. Ride to town an' tell Arthur that Mona has the money to pay her mortgage. Then kinda let it slip that I'm gonna loan it to her. Will yuh do that?"

"Shore I will, Slim. But I don't think Mona will take it from yuh. She said she couldn't, though darn me if I can see why. Women get funny ideas."

"Never mind whether she does or not. Just give Arthur the notion that she is. Yuh can ride in when Tisdale goes."

A half an hour later, as Abe and Tisdale were about to leave, Slim made one last remark to Tisdale which caused that individual to wrinkle his brow in puzzlement. "When yuh get through waitin' to wring Arthur's stringy neck, Tisdale, ride back out here for the night an' we'll talk business."

As soon as the two were gone, Slim got hold of Roy O'Brien and Stoney Sheard. "I want yuh two to oil yore guns an' 'aid for town," he explained. "An' I want yuh to put in the time from now until tomorrow noon, keepin' yore eyes on the Standard Bank."

"Just hang around sorta, like yuh was killin' time an' loafin'. Watch that bank all the time. Yuh may have the chance to puncture a hold-up. If nothin' happens by noon tomorrow, come on home again. Understand, but I'm playin' a strong hunch."

"Shore, an' I've knowed hunches like that to pan out before," grinned Roy. "Come along with yuh, Stoney."

Dakota Blue's brow was furrowed with thought as he watched the two punchers jog away. "That's one angle that I don't quite get," he drawled. "What's the hunch, Slim?"

"My money is in the Standard Bank, aint it?" explained Slim. "Well, Arthur knows it an' so does the rest of that crowd. The surest way to keep me from usin' that money to loan out on mortgages, like the Dot H Dot's, is to grab the money off."

"Don't yuh see that Brockwell an' Arthur have gone too far by this time to back down? They either stand to win big or lose everything. I'll bet yuh anythin' yuh want, Roy an' Stoney will have work to do."

When Steve Owens and Charley Quinn came jogging in from their work that evening, Slim met them at the corrals. "For the next few

days I got a nice easy job lined up for the pair yuh," he told them. "You're gonna have to do a lot of loafin' around. I want one of yuh to be on guard about the ranch here all the time, day an' night. Yuh can take turns, but I want the man on watch to have a Winchester over his arm and be plumb wide awake."

"What's in the air, Slim?" yelled Steve Owens excitedly. "A scrap?"

"Likely to be," was the answer. "If it comes, it'll be a hummer. So watch things close."

"An' how!" chortled the irresponsible Steve. "We will, yuh know."

Just at sunset Tisdale came riding up. His eyes were bleak and his lips were stern. Slim and Dakota met him as the dismounted. At the look on Tisdale's face, Slim jabbed an elbow into Dakota's ribs. "I knew he'd be foamin'," he murmured.

Tisdale wasted no time in expressing himself. As he swung to the ground he faced Slim and Dakota truculently. "Listen," he demanded harshly, "how much range does that damn law shark own around here,

anyhow?"

Slim shrugged. "Not a yard of it that I know of."

"What? Don't he own any a-tail?"

"Not a bit."

Tisdale looked plainly astounded.

"That hombre must be plumb loco," he declared. "He gave me to understand that he controlled all this range for at least five miles, both

ways from the mouth of Jericho Valley."

"Then he lied, Tisdale. What he meant to say was that he hoped to control it by the time yore herds star across it. Ah, how much per haid was he gonna charge yuh in range toll for yore herds?"

"One round simoleon," exploded Tisdale. "Yes, sir, one whole damn dollar per haid, yearlin' included."

"What did yuh tell him?" "I told him that he was a cross between a polecat an' a buzzard an' that he could go to blazes. I told him that we fellers comin' north to the Kicapoo range would pay a reasonable range toll, but nothin' like a dollar."

"I told him we'd fight our way through before we'd be robbed by anybody. Why, there's nigh onto thirty thousand haid of cattle movin' up Jericho Valley right now—the combined herds of ten of us Big Bend ranchers. There'll be at least half that many more followin' us that I know of."

"That Jasper musta figured he was gonna clean up a fortune off us. He knows we can't afford to turn back by now. If we did, we'd never be able to drive another route in time to get to the Kicapoo country when it's opened."

"An' that range up there ain't gonna last any too long. It's a plain case of gettin' there right away, or not at all. But me, I can't understand him makin' such demands when he don't own none of this range."

"Suppose we go an' have supper," suggested Slim. "I'll tell yuh the whole set-up while we eat."

Over the meal, Slim gave the Big Bend man the entire story. "Yuh see," he ended, "Arthur an' the rest of the polecats in with him were schemin' quite a long way ahead. They shore hoped to be in control of this range. Several things kinda upset their calculations. One of them was havin' yore herds arrive so early. Another was my gettin' outa jail on a parole."

"With a little more luck they'd have won out, an' had yuh in a corner. Right now yore sore, Tisdale, over Arthur's demands. But yuh know as well as I do, that in the end yuh'd a' paid that dollar-a-haid range toll. Am I right?"

Tisdale nodded ruefully. "Yeah, yore right, Loyale. We'd just plain have to, or lose everythin'. But evidently, from the way he talks, that Arthur ain't given up hope yet of gettin' control of this range."

"He hasn't," agreed Slim. "The next forty-eight hours are gonna see hell a-poppin', or I don't know my way about, I'm tryin' right now to spread my cards to spoil his plans. Now then, just how much toll did yuh fellers figure yuh'd be willin' to pay an' call it a fair deal all around?"

"Two bits a haid," stated Tisdale. "An' we'll guarantee to keep the herd well bunched an' drive fast. We won't let 'em spread a bit. I think that's a fair offer."

"Darned fair," agreed Slim. "Now here's my proposition. Most of that crossin' will be over Dot H Dot

range. Miss Hall, who owns the Dot H Dot, has got to have money to squelch Arthur an' his foreclosure move. Me, I don't want a cent of money from yuh fellers. But if yuh'd ride over to the Dot H Dot with me an' make a deal with Miss Hall, puttin' up the toll money in advance, yuh'll get the crossin' for yore own price an' she'll have enough to pay Arthur."

"I've tried to get her to accept a loan from me, but for some darned reason I can't figure out, she won't take it. But a deal like I say with yuh, she'll grab in a hurry. An' it'll be to everybody's benefit except Arthur's. What'd yuh say?"

Junior Cowboy Contest To Be New Feature Of Reunion

Stamford, June 15. A junior cowboy contest, limited to lads under 12 years of age, will be a new feature of this year's Texas Cowboy Reunion which meets in Stamford July 1, 2 and 3. Winner of first place will receive a special made saddle, presented by Jack M. Little of Dallas. Second prize will be a pair of chaps.

Dr. Dallas Southard is chairman of the committee in charge of the new feature. The junior cowboys will be judged largely on the riding ability of the boy and the performance of his horse. The contestant's riding togs and equipment and the appearance of the horse also will be taken into consideration.

The addition of this contest practically completes the program for the Reunion. Performances of the rodeo in which actual cowhands compete in calf-roping, wild-cow milking, bronc and steer riding, will be held morning, afternoon and night each of the three days.

Special features include the cutting-horse contest, original with the Texas Cowboy Reunion, on the morning of July 2, and a calf-roping contest for cowboys over 65 years of age on the afternoon of the same day. A junior steer-riding contest for boys under 14 will be held at the night performances on July 2 and 3.

OIL NEWS

The Stanolind test which is to be drilled on the Alex Slaughter lands in Southern Hockley County is now placing machinery with a view of beginning drilling some time during this week. The derrick has been completed for over a week, but drilling had to await the release of a rotary outfit from a well in Gaines county. This equipment arrived at the location Wednesday night. The drilling crew also arrived last week and are quartered in Levelland.

The Ingiewright & Fogelson test being drilled on the adjoining land to the Duggan producer in southeast Cochran county, had reached a depth of approximately 3,700 feet. It is thought that the hole will be drilled to a depth of about 4,800 feet before standardizing. Owing to its nearness, to the Duggan, the formations are known. The Duggan well is bottomed at 5,065 feet, the depth at which the greatest oil showing was found. It was originally drilled 32 feet deeper but was plugged back to the depth given above.

The derrick over the Wiggins location about four and one-half miles northwest of the Duggan, was completed last week, and the greater part of the rotary machinery is now on the ground. It is thought that drilling will be underway in a week or ten days.

Lutheran Church Celebrates 20th Anniversary Sunday

marking the 20th anniversary of the organization Emanuel Lutheran congregation of this city will for two special services...

Contend for the Faith. The speaker for these services will be the Rev. E. H. Wildgrube, of New Orleans, La. Mr. Wildgrube was the pastor serving the Lutherans here at the time of the organization, in 1917.

Wis. and the Seminary of our church in St. Louis, Mo. He served a congregation in Texas for several years and for the last 12 years has been stationed in New Orleans, La.

HISTORY

On the evening of May 8, 1917 a meeting was held in the home of Mr. Aug Koenemann, now the property of Mrs. S. D. Pinkerton, about 4 miles north of Littlefield, in which the organization of our congregation was effected.

Since the organization the following pastors served here: The Rev. E. H. Wildgrube (1917); A. Kuecker, (1917-18); A. Arndt, (1918-19); E. Glabe, (1920); H. Scheiderer, 1923-25; C. Ahlbrand, (1926-27); W. J. Luecke, (1928 to the present time). During 1921-22 Rev. Kohlmeier, at that time living at Kress, served once a month.

The present frame structure, wherein we worship, was erected in 1923. However in 1935 an addition was built, which also now houses the Christian Day School maintained by the congregation. The basement serving for various meetings. The parsonage was acquired in 1925. The lot and house being bought and built through the medium of a loan.

CHRISTIAN DAY SCHOOL This year is also the 10th anniversary of the Christian Day School. Back in 1917, and also in 1919 school was held in the home of Mr. Aug Timian. However our present school was first begun by Rev. C. Ahlbrand in the year 1927. In 1928 the present pastor was called to this congregation and has taught school until last fall, when Mr. C. T. Boriack was obtained as teacher. Since then much new equipment has been acquired. The children made excellent progress in their studies. We are happy to announce that Mr. Boriack will also be with us in the coming year.

OTHER ORGANIZATIONS Our Sunday school was first organized in 1929. There are some 50 children attending. At present the following teachers are in charge: Mr. C. Boriack, seniors; Miss Rosella Goertz, intermediates; Mr. Erwin Bohot, juniors; Miss Edna Drager, primary; Miss Martha Ogerly, beginners; Mrs. W. Luecke, alternate.

1924. During these thirteen years Mrs. H. Timian has served faithfully as organist. She has also served as organist for our choir, which has been in active service since back in 1925. The choir numbers fifteen, and at present is under the direction of Mr. Boriack.

The oldest member of our congregation was Mrs. Elizabeth Stockenger who died at the ripe age of 94 years. Her death occurred in 1935.—W. J. Luecke, pastor.

### A BIG NEW INDUSTRY

More than five hundred different concerns are engaged in the newest of America's major industries. That is air-conditioning. The means of so building and equipping houses, offices, factories, stores and theatres that the temperature and humidity can be controlled at all seasons and under any weather conditions, has at last come out of the experimental stage and become a practical reality of everyday application.

It is in about the stage in which the automobile was when Mr. Ford turned out his first "Model T" thirty years ago. It will be years before an air-conditioned home will be as much a necessity for every family as an automobile is today; but it is pretty nearly a certainty that that time will come.

As with automobiles, increased production will bring costs down. Today only the fairly well-to-do can afford to equip their homes with air-conditioning devices, but in a not far distant tomorrow a house not so equipped will be regarded as out of date and fit only for the very poor to live in.

Permanent prosperity is brought about through the successive development of new industries. Air-conditioning is the largest and latest of these and holds unlimited possibilities for America's future prosperity.

### ABOLISHING POVERTY

It will be a marvelous thing if the prediction made lately by Harry L. Hopkins, Federal Works Progress Administrator, comes true. Mr. Hopkins said, in an address at Teachers College, New York:

"I expect to see the day, and it won't take more than 20 years, when the Government sees to it that one-third of the population which is at present insufficiently clothed and fed will have a decent living standard. We have just made a beginning." He added that "it's going to cost plenty," and that the cost will "come out of the hides" of those earning more than the average incomes.

Everybody would like to see poverty abolished, but not everybody will agree that the way to do it is to take from the abler to give to the less able. There is danger in reducing the competent to a state of near-poverty. What would seem to be the safe way to bring about a more equitable distribution of wealth would be to produce more wealth. Instead of talking about "taking out of the hides" of some particular class for the benefit of another class, it would be wiser for men holding high places of public power to be talking about encouraging those who control the machinery of production to produce enough more commodities so that nobody would have to go without.

That is the process by which America has made its people—all of them—wealthier than the people of any other nation in all history.

### THE BROOMCORN OUTLOOK

Intentions to plant broomcorn in West Texas territory indicate some reduction two years ago when about 100,000 acres were grown, but slightly less than last year's plant of 4,000 acres. Cotton acreage in this territory has seen a decline in the past two weeks, rains having been several inches, have been planted to all early planted seed about 75 per cent of the cotton planted was covered and away, replanting everywhere is in progress and it is expected that a material acreage is being planted to other crops with prospects for a material increase in broomcorn acreage. If the carry out their revised plan it is not unlikely that as broomcorn will be planted as usual, which, with favorable conditions, would forecast 100 cars for this territory. Planting interest in broomcorn centered around Littlefield only scattered interest in other counties. Planting is active in Muleshoe, Sudan, Amherst and other sections with considerable acreage already planted south of Littlefield. Early crops which survived

the recent rains are four to six inches high and probably total around 2,000 acres. The bulk of the crop still is to be planted. Early June, however, is normal planting time in the Littlefield territory which means September broomcorn as a cash crop for farmers if growing conditions continue good until harvest time. Ample moisture now is in the soil to produce broomcorn and since last years stocks will be well absorbed by marketing time, this assurance of fair prices for early broomcorn is particularly inviting to many who are diverting a part of their cotton acreage to other crops.

### BOARD URGES CAUTION CONCERNING SOCIAL SECURITY NO.

Dallas, June 11.—Get the right number when you list employees on your information reports, F. I. Tutt, manager of the Dallas field office of the Social Security Board today cautioned commercial and industrial employers throughout the Dallas area who are seeking to obtain the social security account numbers of wage earners no longer in their employ.

Under Treasury regulations, Tutt explained, employers must list employee account numbers on their information reports. Post offices are requesting that if an employee has failed to report his social security account number, the employer should file an application form (SS-5) with sufficient supporting information to establish the employee's identity beyond reasonable doubt. His application will be checked against the files to see if an account number has already been issued. If the employee has no account number, the employer must then file an application for an account number on behalf of his employee, stating on the form the reason for his filing such application.

Mr. Tutt also urged all employers who have not yet reported their social security account numbers to their employers to do so promptly. This applies also to workers who have worked for more than one employer since January 1, 1937, even though the period of their employment may have been one day or less.

Account numbers are being issued to workers through the facilities of more than 45,000 post offices which are being utilized in the assignment of account numbers until June 30. On July 1, and thereafter, application forms for account numbers can be obtained at any local post office, and at regional and field offices of the Board, but assignment of account numbers will be made by the Board through field offices. The Dallas field office is located at 1530 Allen Building.

debts of 55,576 farmers have been reduced \$47,352,521 or 25.9 per cent in the 20 months ended April 30, the Washington office of the Resettlement Administration announced this week.

Debts of these farmers before adjustment were \$182,827,530; after adjustment \$135,475,009. As a result nearly \$3,300,000 in back taxes were paid local governments.

A study by the Farm Debt Adjustment section reveals that of the 55,576 cases, 32,425 were adjusted through outright debt reduction; 14,978 through extension of time, 909 through substantial interest reductions, 3,734 through a combination of methods, and 3,568 through unclassified methods.

The analysts also reveals that 39,360 new loans were made aiding in the debt adjustment. The Resettlement Administration made 18,877 of these loans; Federal Land Bank 19,711; Land Bank Commissioner 2,543; Production Credit Association 1,221; and the remainder were made by local banks, insurance companies, individuals and other unclassified agencies.

**Littlefield C. Of C. Listing Available Housing Quarters**  
Glenn Burgess, Secretary-Manager of the Littlefield Chamber of Commerce, stated Tuesday that he is keeping on file a list of available rooms, apartments and houses for rent in this city, as many requests are coming in, and it is extremely difficult to locate new families.  
Mr. Burgess stated that last week four families living in Lubbock decided to move to Littlefield if four suitable furnished apartments could be located. These families, according to Mr. Burgess, have not yet moved, and he estimates that if they remain in Lubbock at least \$400 per month will be lost to the business men of Littlefield.  
The Chamber of Commerce will appreciate it very much if people will call in when they have a vacancy, and again when this vacancy is filled. In this way, when requests come in for places to live, it will not take long to give them a list of available places to stay. Thus,

time will be saved for both the Chamber of Commerce and those looking for a home.  
Postmaster and Mrs. W. D. T. Storey and son David, returned Saturday night from attending the Postmaster's State convention at San Antonio Thursday, Friday and Saturday.

The return will be made through Canada and by way of Chicago, Kansas City and Amarillo, arriving in Lubbock two or three days later than the delegation that comes straight home.
