

LAMB COUNTY LEADER

Official Newspaper of Lamb County, Texas

LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, FEBRUARY 20, 1930

No. 45

LEADER AUTO CONTEST CLOSED SATURDAY; S. SID HOPPING WON PLYMOUTH SEDAN; SECOND PRIZE GOES TO MISS ALMA BUSH

ing in a blaze of glory and undying excitement, after having held a wavering interest of all Lamb County for a period of five weeks, the chapter of the Lamb County Automobile Club's \$2,000 automobile and furniture campaign was written last Saturday night with the presentation of the automobile and other prizes.

The Prize Winners
Sidney Hopping, Chrysler-Plymouth sedan.
Alma Busher, \$300.00 living room suite of furniture.
C. H. Grow, \$150.00 bedroom furniture.
Vilas Emfinger, \$100.00 dining room.
Ida Jungman, \$75.00 diamond bracelet.

individual campaign for votes, they have learned much that will be of benefit to them.

Of course, it is inevitable in a campaign of this kind that all cannot win. Candidates understood that when they started. Were it possible, we would be glad to reward every candidate with a gift.

Yet to the ladies who worked, but who failed to win the automobile, the Leader extends its genuine regrets. If the thanks of this newspaper can, in a measure, lessen the regret of the losers, it is theirs. The remarkable fortitude displayed throughout the race at least reflects the belief that those who did not win will be good losers. The Leader appreciates the kindly feelings and good will of every woman who entered whether they had ten thousand votes or a hundred times ten thousand. There is wholesome satisfaction in the thought that, although we try for a goal and miss, yet our efforts were honestly put forth.

Those whose energy has carried them through the campaign to success, the Leader extends to them its hearty congratulations. We are proud of the women who have made this campaign such a remarkable success, and we hope that the winners who have taken possession of the prizes by right of conquest will, in turn, be proud of their reward.

campaign was conducted under the direction of the L. S. Raeford organization, of Fort Worth, selected by the Leader to work, only after a rigid and painstaking investigation of their record of successful operation in newspaper campaigns in southern states. The fair and equal treatment accorded each contestant representative of this company largely responsible for the tremendous success of the campaign, as well as the Leader actually in the field which it serves. The Leader aimed at circulation in Lamb County and its trade territory, and this object was obtained in advance circulation increased by nearly 100 per cent and fully 95 per cent of the subscriptions were obtained for delivery to trade territory, which will be the news to the advertisers.

Advertisers Will Benefit
Placing their copy in the Leader, advertisers may feel assured that their message will be read in homes in this district than in any other newspaper.

number of votes and subscriptions by contestants and their success during the campaign was staggering, and when the judges set to undertake the tabulation of totals, it would have been a laborious but for the keen interest even they felt in the outcome of the race and the knowledge had of the popularity of the movement in every section in which the Leader circulates.

conduct of the judges was megalomaniac and businesslike. The selection of the judges was an admirable and to them the Leader extends thanks and felicitations.

aggregate votes of the prize-winners alone reached enormous figures. The winners of all the prizes well entitled to success; they persevered conclusively that energy and persistence are the potent factors in any game of life. In distributing \$2,000 worth of awards and consolation checks among the contestants the Leader gives value for efforts in its behalf, yet the intrinsic value of the awards is the only consideration to contestants. In the pursuance of their

CITY SETS CLEAN UP WEEK PACE FOR OTHERS TO FOLLOW

The City Commission is setting a fine example for Clean-up Week by having a bunch of "white-wings" cleaning the pavements of the city, the first general cleaning of all the paved streets since they have been laid. Some of the white wings happen to be black ones who are said to be getting square with the Municipal Court assessments placed on them for various acts not in accordance with the theory of Kent Blackstone, and other legal authorities followed largely in this state.

The clean-up proper is under the auspices of the Lions Club, assisted by the Boy Scouts and with the cooperation of the City Commission. Everyone is urged to participate in making Littlefield a better, cleaner, and more attractive city. The matter of sanitation and better health conditions, it is urged, will warrant every effort put forth toward ridding the homes, lots, alleys and streets of accumulated debris.

Free truck service will be given those who pile their rubbish in an accessible place for hauling away.

LOGAN AND YEARY TO HAVE STATION ON MAIN STREET

John Blair formerly of Littlefield, but who now resides in Lubbock, is this week having a brick filling station erected on South Main Street on the corner just north of Walters' drug store.

The floor space of the building will be 400 feet while the drive way will be 300 feet.

E. C. Logan and W. O. Yeary have leased the building for five years and will open a filling station, which will be known as the "Main Service Station", the 10th of March.

Mr. Logan states that they will be equipped better to serve the public than they have ever been in the past.

LIONS VISIT SUDAN

In response to an invitation received by the Lion's club from the Kiwanis club, at Sudan, to meet with them at a banquet there Tuesday night a large delegation from the local club went and enjoyed the hospitality extended to them.

The purpose of the meeting was to establish a good will spirit between the two business clubs.

The Foundation of Our Country — By Albert T. Reid

Thomas Jefferson, inventor of the modern plowshare, demonstrates his device to George Washington in retirement at Mount Vernon. Washington to Jefferson: "Your plow, neighbor, will complete the work my sword began."

BUSINESS OF ANY CITY FOLLOWS NEWSPAPER CIRCULATION

The trade of a town or city follows the circulation of its newspaper just as surely as civilization follows the flag.

The man or woman who reads the Lamb County Leader feels a personal interest in the city of Littlefield and Lamb County—in local institutions and achievements—and in personal fortunes and misfortunes of the local peoples. Memphis, Tennessee, is known from coast to coast as the home of the Commercial Appeal. Dallas is noted for its Morning News and Fort Worth for its Star-Telegram. San Antonio is widely known for its Express and the mere mention of Houston causes one to instantly think of the Post-Dispatch or the Chronicle.

From a small beginning, the Lamb County Leader has grown during the past six years into one of the dominant institutions of the city, and a real leader among the progressive small city newspapers of West Texas.

This paper goes practically into every home within the trade territory radius of Littlefield, reaching out in large numbers to all parts of Lamb County and into adjoining counties, together with a large representative circulation in more than 20 states of the Union, where it is read by people who are interested in Lamb County, and everywhere it goes it is esteemed as a REAL newspaper, thoroughly representative of the splendid little city and the excellent county that has made such a publication possible.

Last year there was more than \$10,000 worth of advertising carried in the columns of the Leader and there was more than \$4,000 worth of free publicity carried by this newspaper—publicity that told of the merits, virtues and possibilities of future growth and development of the town and county—carried without a cent of cost to anyone except the management. This year there will be more advertisements and publicity carried and there will be still greater results accruing to the city and its business interests. The advertising rate will be slightly increased because of the recent large increase in circulation, but the proportionate result in the future by advertising patrons of this newspaper will be far greater in the future than in the past for money expended.

The Leader is a free and independent newspaper. Every dollar of its stock is owned locally—there is no syndicate or chain control, and no man nor interest can dictate its policies. It is published primarily in the interest of Littlefield and Lamb County, dedicated to the enlightenment of its numerous subscribers, the commercial welfare of the business patrons, and to the advancement of the city and the section it so satisfactorily serves.

The Leader maintains a code of ethics it will not violate. It is conscious of its high responsibility as a friend and welcomed weekly guest into hundreds of Littlefield, Lamb County and neighboring county homes. The management does not have to boast in egotistical manner when it states that this newspaper has been the largest public medium existing for the growth and development of both town and county, hundreds of citizens now dwelling here having voluntarily declared it was not through any other medium, agency nor instrumentality that brought them hither, but through reading the columns of the Lamb County Leader.

Now with the passage of years of successful service, with larger experience, wider acquaintance and greater influence; with one of the best mechanical plants to be found anywhere on the South Plains of Texas; with a circulation second to none within its rightful territory; and with more and better news features and a wider variety of well edited reader interest, the Leader is better equipped in every way for greater and more definite service to its constituents in the future than ever during the past.

It is your newspaper—a medium for the chronicling of all legitimate news, commercial, religious, educational and political. It is an open forum where all worth while questions may be reasonably discussed. It is a medium for barter and exchange of commodities, where buyer and seller are brought together for mutual benefit. It is the county's greatest existing agency for disseminating of information regarding the virtues of this particular section, looking forward to a greater population of the countryside, a larger growth of the city wherein it is located, and for promoting a wider welfare of mutual esteem, co-operative action general happiness and economic prosperity. It is your congenial friend, your willing servant, USE IT.

CITY HALL PLANS O. K'D.

Plans for the building of a new city hall in Littlefield, as presented to the City Commissioners last week were approved, and as soon as the specifications and blue prints are ready, advertisement will be issued for construction.

Fifty thousand dollars have been voted by the citizens for the construction of the city hall which will be located in the City Park at the south end of Main street.

Texas has 4,500 miles of electric transmission lines with many new miles under construction.

Dairy School Opened Here Friday; Prof. Box To Instruct the Farmers

The evening school in dairying which is being conducted by R. A. Box, teacher of vocational Agriculture, got under way Friday night with fair attendance. After some discussion, the following problems were decided upon as the ones that would be studied in the course:

Cow improvement by means of bull circles, by culling, testing, and proper care of heifer calves.
Feeding problems.
The pasture program.
Care of the Dairy Bull.
Keeping records on milk cows.
Judging Dairy Cows.
Sanitation in Handling milk.
Marketing problems.

The next meeting will be Friday night, February 21, at 8:00 o'clock. The class is meeting in the Agriculture room at the High School building. The subject of the next lesson will be "Cow Improvement Through the Bull Circle."

All are invited to enroll in the school if they are interested in getting more money out of the cows they are milking.

4164 POLL TAXES PAID IN LAMB CO. FOR THE YR. 1930

Poll taxes paid in Lamb county this year show a considerable increase over the number paid last year according to reports emanating from the County Tax collector's office. In 1929 the number of poll taxes paid was 2,977; this year the number is 4,164.

The following is a comparative statement by voting boxes for the years 1929 and 1930:

Poll Taxes Paid This Year	
Box 1 Olton	775
Box 2 Spring Lake	249
Box 3 East Littlefield	282
Box 4 Littlefield	1131
Box 5 South Sudan	311
Box 6 Y. L.	21
Box 7 North Sudan	282
Box 8 Amherst	576
Box 9 Fieldton	230
Box 10 Sod House	59
Box 11 South Olton	38
Box 12 Bainer	182
Box 13 North Pep	28
Total	4164

NOTE: The above figures represent number of last receipt in each voting precinct book. These figures are not absolutely correct due to some cancellations.

Box 9 Fieldton	110
Box 10 Sod House	20
Box 11 South Olton	29
Box 12 Bainer	32
Box 13 North Pep	2

WHY THE SOUTH IS ASKED TO REDUCE COTTON ACREAGE

The Federal Farm Board urges that every effort be made to reduce the cotton acreage, in the South by not less than 6,000,000 in 1930.

The following essential facts as to the cotton situation were prepared from data assembled by Dr. O. C. Stine, principal agriculturist economist of the United States Department of Agriculture and were presented for wide dissemination at the Jackson Miss. conference on acreage:

If the same acreage be planted in 1930 as was planted in 1929 (47,569,000 acres) and the yield by the average of the last five years (162.7 pounds per acre), the yield on the acres harvested (45,981,000 in 1929) would be 15,000,000 bales or more.

If the yield on the 1929 acreage would equal that of 1926 (182.6 lbs. per acre) the crop would reach 17,500,000 bales.

A carry-over of 3,000,000 bales in this country would make a total of 18,000,000 bales of cotton for sale during 1930. If the 3,000,000 bales are added to a possible 17,000,000-bale crop, the total would be 20,500,000 bales. World consumption of American cotton was about 15,000,000 bales last season.

Either of these figures would result in a disaster to the South and would affect all lines of industry.

It's great to be a Texan!

LAMB COUNTY FAIR ELECT OFFICERS AT AMHERST MEETING

Last Monday evening, at the call of the temporary chairman of the Lamb County Fair Association, a meeting of the original stock holders was held and five directors elected as follows:

Church Edgin, C. A. Duffy, C. V. Hermon, J. H. Bradley, and R. L. May, C. V. Hermon was then chosen president; C. A. Duffy, Treasurer; R. L. May, secretary and Frank Rogers, assistant secretary for the current year. Other officials and directors representing the other communities of the county will be elected later.

A committee composed of J. T. Harmon, C. A. Speight and W. R. Cole was appointed to solicit membership throughout the county. It is earnestly requested that the cooperation of every community and individual in the

fair a success, according to Mr. May, county be given toward making the who also states that land will be secured, adequate buildings provided, and other arrangements made at an early date, so that everything may be in readiness for the fair this fall, exact dates to be announced later.

This association was first organized in Amherst at a meeting of the Chamber of Commerce held October 28, 1929. It has been duly incorporated as a non-profit concern, having for its purpose the promoting of agriculture and livestock interests of the county.

MISS FAUST ENTERTAINS

A very enjoyable affair of the week end was that of the Valentine party given Friday evening at the home of Mr. and Mrs. E. J. Faust when Urene Faust was hostess to a number of her friends.

Refreshments were served to the following: Misses Lucille and Thelma Killough, Lois Lair, Winifred Crow,

Mary Edith Robinson, Ruby Yeary, Eula Mae Page, June McCormick and the hostess.

PRESBYTERIAN AUXILIARY

The Ladies Auxiliary met on Tuesday afternoon with Mrs. Mike Brewer in her home.

The Baptist and Methodist Missionary Societies are invited to meet with us in federation on the Fifth Monday in March.

Miss Lula Hubbard had charge of the devotional and Mrs. Bills gave an interesting talk on "Cities."

The Society received a new member Mrs. Argain.

Refreshments of sandwiches, wafers and spiced tea were served to the following members: Mesdames Argain, Chas. Barber, E. A. Bills, Mike Brewer, C. C. Clements, Wm. F. Fulton, J. S. Hilliard, Sid Hopping, L. L. Massingill, F. G. Sadler, Bob Smith, L. M. Touchon, Harry Wiseman, F. W. Wynn, Selman Yohner, Miss Lula Hubbard and one visitor Mrs. G. G. Hazel.

The next meeting will be with Mrs. Chas Barber at the Church.

We urge every member to the here and heartily welcome visitors.
Read Acts 11, 1 Cor. 21 and 22 and ask ourselves, "are we doing our duty?"

Texas has annual mineral production in excess of \$500,000,000. Its lumber, farm, ranch and mineral production is around \$2,000,000,000 a year.

Over a Billion Deadly Germs in a Single Drop of Water

Germs are so small that there may be as many as one billion, even hundred million of them in a drop of water. And just a few of these tiny germs, if they get into your blood through a cut in your skin, may make you so sick you will be in bed for weeks—may cause the loss of a limb through blood poisoning—may even infect you with that most dreadful and fatal of diseases, lockjaw.

Just because you can see no dirt in a cut does not mean that it is clean. You cannot see germs. The only safe and sane thing to do, is to thoroughly wash every cut, no matter how small, with Liquid Borozone, to kill the germs, and then dust it with Borozone Powder, to hasten the healing. Liquid Borozone costs 30 cents, 60 cents, \$1.20 and \$1.50; Borozone Powder, 30 cents and 60 cents, and can be had at Stokes-Alexander Drug Company

COLLEGE NEWS

Prof. Posey Here

The college welcomes Prof. J. B. Posey from Rusk, who is head of the history department, and who is a cred. B. A. and M. A. degrees from the University of Texas, has attended the University of Chicago, and has had eight years of successful experience teaching in colleges in addition to a number of years of experience as principal and superintendent of large schools. He is interested in athletics and in all of the activities of college life and work. The college is indeed fortunate in securing his services at this time.

The Alpha Beta Club had a call meeting Monday and decided to have the George Washington program, that was planned for Friday night February 21st, on Saturday night February 22nd in the assembly hall of the college. All are invited to attend the program.

President R. F. Duckworth and Mr. R. O. Conner left Saturday for a 10 day's trip to various points in Texas in interest of the college.

The college is still enrolling a few new students. Mrs. Juanita Pollock, the secretary to the president, has enrolled in the college department to

complete her first year's work. E. S. Rowe, Jr. has entered the commercial department. Miss Sibyl Glenn has begun work in the commercial department also.

Mr. and Mrs. O. O. Martin and Billy, spent the weekend in Lubbock. Mrs. Rosa Mickey and children spent Saturday in Lamesa attending to business.

Mrs. E. K. Kitching is improving after several days of illness.

Valentine Party

A very pretty party was given Friday evening in the Elmore Hall, of the Littlefield College.

The decorative scheme was in keeping with the date of the occasion and Valentine suggestions were also used in the refreshments.

Hearts and various contests were played throughout the evening, fortunes were told by means of matching couple. Little Miss Evelyn Baker, dressed as a postman gave a reading and distributed valentines to the guests.

Punch and heart shaped wafers were served to the faculty and students of the Littlefield college and their guests.

ORGANIZE SUDAN CLUB

The Home Demonstration Agent, Miss Ruby Mashburn, met with the women south of Sudan last Monday.

Mrs. E. W. Bacus was hostess, and after a short discussion of home demonstration work, the "Blue Bonnet" club was organized.

The following officers were elected: Mrs. H. F. Myer, president; Mrs. L. Williams, secretary-treasurer; Mrs.

Chas. H. Crawford, reporter. A. F. Wilson, vice-president; Mrs. J. W. Wilson, fourth Wednesday of each month. Our club will meet the second Wednesday of each month. Visitors are always welcome.

WORK ON NEW THROUGH HIGHWAY TO START

Work is expected to begin on grading the new road which will go a mile and one-half north of Littlefield then due east to the county line.

Right of way has been granted with the exception of one, which is expected will be received this week. Plans are being formulated to extend the road through Littlefield, Pep, Bula and into Roosevelt New Mexico, just across the county line on the west, making a route to Portales, N. M.

Commissioners of that county have agreed to co-operate with the people of Littlefield in furthering the grading of the road through the north portion of that county.

Plans have also been made to extend Oklahoma avenue to the South Spade headquarters.

Suffolk, Va.—When he failed get paid for burying a negro woman Thos. Cooke, negro undertaker, up her body on a charge of being fully disinterring a body, but duly a permit from the local authorities authorizing the Cooke told the judge that no money had been spent for a

LITTLEFIELD SCHOOL NEWS

Texas Club Entertains

Friday of last week the West club entertained the High School at the assembly hour with an interesting program. All who were present enjoyed the program and are looking forward to the time when the Texas Club will entertain again. The following program was rendered: Introduction by Percy Carter, a song, "The West", by the specialty by Glenn Woody and a book, "A Texas Sweetheart", by Beth Brewer, Ruby Clark, Everett and Jessie Opal Busher, the Cowboy's Dream", by the talk sketch by Virginia Staggenrich Harp solo by Glenn Woody and song, "Old Paint" by the

Parents Day At School

Members of the P. T. A., at a Wednesday, of last week, departed Friday March 7th as they are invited to visit all

rooms of the school building in which they are interested. All parents are asked to please keep this date in mind and show your interest in the school.

Campus Pick-Ups

Miss Ruth McKee went to Amarillo the past week end to see the "Passion Play". She reports the play was the most wonderful she had ever seen. Mrs. M. M. Brittain spent the week end in Seymour visiting with her father and mother. Mrs. M. W. Etter is out of school on the account of illness. We hope she can return soon. Mr. and Mrs. Pat Boone spent Sunday afternoon in Lubbock visiting with Mrs. Boone's father and mother. Mrs. M. W. Etter made a business trip to Lubbock Saturday. The Freshman English class postponed a theatre party until Friday of this week. Mr. and Mrs. F. O. Boles and family went to Amarillo the past week-end to witness the "Passion Play." Mr. Boles reports that he has never seen any play as wonderful.

ABERNATHY MAN SCOFFS AT SCOFFERS; SAYING HE SAW IT RAINING FISH ONCE

Without walking on the frogs, and no matter how hard you tried. "I picked up two sun perch that fell in the yard, one of them was as large as my hand and the other half that size. "This happened in Palo Pinto county, Texas, on or about the last day of June in the year 1886. It happened about noon and I jumped out in the rain and got the fish flapping on the ground. "You can tell those people that they have a lot of things to see yet." —Lubbock Avalanche. NOTE: Max McClure, motion picture magnate of Abernathy and former Rotarian fan of Littlefield, vouches for the authenticity of the above statement.

TON IS HOSTESS SUNDAY SCHOOL CLASS

Miss J. Fulton was hostess during the Sunday school class of the Presbytery of which she is a member. The girls of the Sunday school had a party at the home of Mrs. Wright. Games furnished entertainment throughout the evening and a hot salad course with hot punch had been served several times by Miss Laura Virginia Hadden Wright were enjoyed. Present were: Misses Laura Hadden, Mildred Wharton, Ella Ina Belle Wharton, Inez Pearl Cox, Ray Barlow, Wilma Wilker, Glenn Baker, Horace Baker, Mike Brewer, Carl Drake and Tilden W. H. Rutledge, Mrs.

Jorie Claire, Mr. and Mrs. T. P. Arbie Joplin and little daughter Marjorie Wright.

MY APPRECIATION

I wish to sincerely express my great appreciation to the many friends and citizens who assisted me in winning the handsome Chrysler-Plymouth automobile given away last night by the Lamb County Leader in their subscription contest. I assure one and all who assisted me, both through their influence and by giving their subscriptions, that I am indeed very grateful.—MRS. SID HOPPING. —1tc

Texas is first in railroad mileage with 16,429.43 miles. More new construction is under way now than in any other state and will increase that total by several hundred miles within the next year. Illinois with 12,004.17 and Pennsylvania with 11,261.05 are second and third.

WARNING!

THE ORDINANCES OF THE CITY OF LITTLEFIELD PROVIDE AS FOLLOWS:

Every vehicle shall be driven within the limits of the city at a greater speed than 20 miles per hour. No vehicle shall pass or attempt to pass at any street intersection with another vehicle going in the same direction. No vehicle shall be stopped with its left side to the curb, and no vehicle stand backed up to the curb except for the purpose of loading or unloading. APPROACH OF ANY FIRE APPARATUS OR FIRE TRUCKS MUST IMMEDIATELY DRIVE AS CLOSE AS POSSIBLE TO THE RIGHT HAND CURB AND REMAIN THERE UNTIL SUCH FIRE APPARATUS SHALL HAVE PASSED. All vehicles approaching from the north side of Fourth Street (that is, from the First National Bank and the Rumback building) and all parking on L F D Drive must be parallel to the curb. "STOP" and "SLOW" signs to be strictly observed at all intersections where they appear in the city. All vehicles approaching from the left all drivers shall go to the further side of the intersection before turning. All vehicles of automobiles and trucks are hereby warned that the above ordinances will be strictly enforced in future and will be assessed for violation. ORDER OF THE CITY COMMISSION OTTO JONES, Mayor

PERSONAL ITEMS

C. A. West and C. J. Miller were in Lubbock on business, Sunday. Mr. and Mrs. Arnon Beckett and Mrs. Clara Woods were Lubbock visitors Monday. Charlie Harvey made a trip to Clovis, N. M. Sunday. A. G. Jungman and daughter, Miss Ida, of Pep, were in Littlefield Saturday. F. L. Green is having a new residence erected on his farm in the Field-ton community. Miss Sybil Glenn was enrolled in the commercial department of the Littlefield college. Mrs. N. T. Dalton returned Sunday from Albany where she spent the past week visiting her mother. The Bell-Gillette Chevrolet Company announce the sale of a Sport Coupe to Sam Rumback and a truck to W. A. and J. A. McCormick, this week. A. F. Curry Jr., left Friday for Tullia, where he was joined by his mother, Mrs. A. F. Curry, Sr., and from there they went to Hot Springs, Ark., where she will take treatment for several days.

While working in his garden Tuesday afternoon, W. H. Baker suffered a light paralytic stroke which affected the left hand, also the left foot in slight manner. His condition is not thought to be immediately serious.

The following members of the local Chamber of Commerce attended a banquet given last week at Plainview by the Chamber of Commerce: Arthur P. Duggan, J. E. Brannen, Otto Jones, J. H. Hale and J. S. Hilliard. J. M. Tunnell accompanied by John Prather, of Almagorda, N. M. returned Monday from a trip through East Texas and visiting the new oil fields, at Van, in Van Zandt County, where they secured properties in the new field. Mrs. E. Varner chaperoned the following young people to the Spade school house Sunday afternoon where they attended the singing there: Misses Lorena Joseph, Dorothy Varner, and Margarete Porch; Bill Rhodes, Paul Beebe and Joe Russell.

The John H. Arnett Motor Company report the following Ford sales: T. J. Cowan, Amherst, sedan; L. G. Fox, Sudan, Sedan; A. E. Lichte, Littlefield, sedan; L. D. Fox, Sudan, coupe; Joe Warren, Littlefield, sedan; and C. E. Moore, Littlefield, sedan. Mr. and Mrs. W. O. Burford, who have been residing five miles northeast of Littlefield, have recently moved to their new home 16 miles east of Littlefield on the Spade land. They have just completed an addition to the house which was already on the land.

WOMEN WORRIED MOST BY NOISES FROM THE AUTO

Generally speaking, women are the more susceptible to noise than the men. Nowhere is this better illustrated than in the automobile. In the days when the motor car was largely a mechanism for masculine operation and enjoyment, very little attention was paid to the elimination of squeaks, rattles, grinding noises, vibration and the crashing, clanking sounds that emanated from the chassis and bodies of our earlier gasoline vehicle. Now all that is changed and much of the credit for the silence of the modern automobile must be given to the millions of women who have become car owners and drivers. One of the newest and most interesting methods of noise elimination adopted by several manufacturers, has been the use of ball bearing spring shackles which allow springs to operate on smooth running ball bearings free from annoying squeaks and rattles common to old cars. Thus is war being waged on noise and again woman has been the incentive for progress.

GRAIN STORAGE ON THE FARM

Farm storage of grain is advantageous in more ways than one. More orderly marketing of grain is possible and car shortages and embargoes at markets are prevented. The crop can be handled with less hired help. Newly threshed grains need not be piled on the ground, and grain can be conditioned before marketing. Wheat can be sold on a protein basis. Farm grain storage buildings may be portable or stationary and of a permanent or temporary construction. Bins must be well ventilated, unless damp grain can be transferred from one bin to another. Working drawings for several type of farm grain storages can be secured from the Division of Agriculture Engineering Washington, D. C. Bedford, Iowa.—To prove his constancy in enforcing traffic rules, May or M. A. Sawyer recently called himself before his court, pleaded guilty in failing to halt his car at a stop sign, assessed himself a fine of \$3.00 and then paid off.

President Shot! Pascual Ortiz Rubio, new President of Mexico, was shot and dangerously wounded by an assassin while leaving the National Palace just after taking the oath of office.

The Family DOCTOR BY JOHN JOSEPH GAINES MD PEPTIC ULCER

If you suspect that you have ulcer of the stomach or its immediate vicinity, there are certain usual symptoms which may confirm or dismiss your conclusions, according to whether they are present or absent. If your distress, whatever it is, comes on at least two hours after taking food—even later is the rule—this points to ulcer. Some are nauseated, some have actual pain, some become distressed by gas. The point is, the distress comes on when the stomach is empty or nearly so; and the reason for this is, the excess of acid in the stomach reaches the surface of the ulcer, and sets up anything from gastric spasm to boring, burning pains, nausea, sour stomach, as well as many minor symptoms—always with an empty stomach, long after taking food. This furnishes material for the second diagnostic point, which is this: Eating sometimes gives temporary relief in almost every case of peptic ulcer. When a patient comes to me with such evidence, I am led to suspect ulceration. The food relieves by absorbing the excess acid which causes the pain—takes it up much as a blotter takes up ink on paper. And a hyperacid condition is present in

simple ulcer of the stomach. Taking "soda" relieves so many acid conditions that it is of lesser value in pointing to ulcer. Capable X-ray, of course, clarifies the situation. My first requirement in ulcer is SOFT diet—and my reason is plain: If you had ulcer of the palm of the hand, you wouldn't rub it with half-masticated redish, celery, fried meat or potato—and expect it to heal. No raw fruits, or acid fruits (except possibly juice of sweet orange, sparingly. Soft food always. No overloading. Never make a business of washing out the stomach, once ulcer is accurately diagnosed. Ulcers resent "prodding."

Published every Thursday afternoon at Littlefield, Texas.
Subscription: \$1.50 per year; 75 cents for six months.
Advertising rates given upon application.

No. Entered as second class matter May 24, 1923, at the post office 27 at Littlefield, Texas, under the Act of March 3, 1897.

JESS. MITCHELL.

Editor and Publisher

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office no later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

WASHINGTON

The greatness of Washington is appreciated more and more keenly with each passing year, as historians throw new light upon the Father of his Country. Greatness cannot be defined, but it is easily recognized in the perspective of time. The greatest men are those whose lives and works have influenced the greatest number of other persons. Measured by that rule, George Washington towers as one of the greatest figures in history. He, more than any other man created the new nation which was to set its impression upon the entire world. It is not mere pseudo-patriotic boastfulness to declare that the United States is the worlds greatest nation today; greatest not only in material things but greatest in its influence upon the rest of the world. And our national greatness has been made possible by the leadership of George Washington.

Politically, Washington established one tradition that has been largely responsible for the success of our American experiment in popular government. That was that the President after his term of office was finished should retire from public life and take no further active part in politics. Only in two or three instances has this rule been violated. John Quincy Adams served in the House of Representatives after having been President; and in our own time the political activity of Theodore Roosevelt did not end with his presidential term. But the tradition of aloofness from interference with the conduct of his successors in office has guided every other president. In the republics of South and Central America, where this has not been the rule, national progress has been impeded by revolutions headed by former presidents in dozens of examples.

Washington as a young man saw clearly what some others did not realize, that the territory of which the British colonies occupied the eastern fringe must be protected against in-

vasion by any other nation. Historians seldom emphasize the service which he as a young man, rendered in driving the French out of Ohio and the Mississippi valley country. That was a service which later rendered possible the expansion of the young United States to the westward. Our march toward the Pacific began with the ending of the revolution. Had the French remained in possession of the Ohio River valley country and of Canada our whole national history would have been different, if indeed, we had any national history other than that of British colonists.

Washington is the one American whose birthday is observed as a holiday wherever the American flag flies. He is the one American concerning whose essential greatness there is no longer the slightest difference of opinion among the people of the nation which he led to liberty.

✦ DANGEROUS HOUSE PETS ✦

Newspapers throughout the country have been making much over the discovery of a new disease called "parrot fever." It is said to be common among parrots, yet easily contracted by humans who may handle them. A number of deaths have been contracted and attributed to it in various sections.

We often wonder, in considering house pets scattered in homes around Littlefield if some of these animals that live so close to man do not have diseases that we know nothing about which may not attract attention, yet which may, when transmitted to humans, prove serious. It is generally believed that mosquitos carry the germ of yellow fever into human bodies and also the germ of ague.

We love pets, and we feel there is something fine missing out of the makeup of anyone who doesn't. But even our regard for them cannot bind us to the fact that they should be watched more closely than they are for the appearance of disease, and given more careful attention in the matter of cleanliness. We have no means of knowing how many cases of illness might be prevented if this plan was more generally carried out, but we do know that it would be a far more sensible thing to do than to wait until an epidemic was traced to the animal and then have to stage a wholesale slaughter of them, as has been the case since "parrot fever" developed.

✦ CHEAPER CAR FUEL ✦

Littlefield motorists who find the purchase of gasoline a burden will be among the most interested citizens in the country in a report that there is early promise of applying the Diesel principal to passenger car fueling.

We read that a six cylinder car recently made a 720 mile trip on \$1.38 worth of fuel oil. At that rate a car could be run from New York to San Francisco at a cost of \$8.40. To get the same results from gas a gallon of it would have to run the car 120 miles—and who ever heard tell of anything like that? If the Diesel principal can be made practical for all types of passenger cars we are due for nothing less than an industrial revolution. For one thing, we would never have to worry about a shortage of gasoline, and until our present laws could be changed or amended we would affect quite a saving in gasoline taxes.

Automobile engineers are frank in saying that there is no reason to scoff at the attempt being made to build a Diesel engine for auto use. In fact, they intir ate that there are quite a

successfully done within the year. So successful have experiments along this line proven up to this time that it really gives us something to think about. And the figures furnished us as to cost of such power, once it is in general use, gives us something new to hope for.

✦ WOMEN AND MONEY ✦

Financial experts report that 41 per cent of the wealth of the United States is in the hands of women. This includes real estate, stocks, bonds and cash in the bank. It leaves 59 per cent of the wealth owned by men. Yet if the pay envelope issued to husbands, and bank accounts in their names were credited to the wives who really control them, the percentage would be reversed.

We take it, of course, that these figures will prove out in Littlefield as everywhere else.

So, if they are true the male end of the population can commence to draw in its horns, for it is far worse off than it had any idea.

Pretty soon, if this keeps up, and any more of the nation's wealth gets into the hands of women, we'll be arguing that wives should give their husbands a general allowance, instead of insisting that they are the ones entitled to be on the receiving end of the proposition.

✦ YOU CAN'T BEAT IT ✦

We dare say a number of local citizens recall when Clarence Saunders, originator of the "Piggly Wiggly" stores, went to New York a few years ago with a determination to beat Wall street. He took \$16,000,000 with him. And he not only lost that but his business as well. He started at the bottom again—this one-time grocery clerk—and he has built up a new chain through which he has amassed more money than he had before.

But he is through with Wall street. He didn't lose a penny in the recent panic. And that his advice may be given a little serious consideration in this neighborhood we quote it here:

"It is foolish to try to beat Wall street crowd. In the end there is bound to be only one result—disaster. No matter what the temptation, don't try it; it's only gambling. And when you get through you'll have gambler's losses more times that you will have gambler's luck."

✦ CORN STALK FUEL ✦

When we announced along last year that the manufacture of paper from corn stalks had actually begun, our readers in and around Littlefield accepted it as just another step toward the conservation of wood and, possibly, another bit of farm relief.

But now comes announcement of still another important product to be derived from cornstalks—a fuel and illuminating gas.

Dr. Arthur Burwell, of the University of Illinois, says the stalks are pulped and put in a tank, kept at 60 degrees. The heat generates a gas that may be used for heating or illumination. He says 40 acres of corn stalks will supply heat, power, cooking fuel and light for the average farm for one year. Four acres would provide enough gas for a year's lighting. And the refuse remaining after the gas is made can be purified and sold for paper making.

Score one big discovery for 1930! And if anyone has others that would prove as beneficial as this one may turn out to be, let's have them without delay.

✦ LITTLE LEADERS ✦

The way a Littlefield man treats the family dog depends a good deal on the way the family treats him.

An ideal husband is the Littlefield man who has sense enough to remember his wife's birthday and forget how many she has had.

The Littlefield man who doesn't want a motorist to run him down has to be careful and if he doesn't want the neighbors to do the same thing he has to be good.

Another fault to be found with many of the younger generation around Littlefield is they are doing too much neck and not enough head work.

There are said to be 200 dialects in the U. S. but to the average Littlefield citizen the dollar speaks louder than them all.

✦ - SOME SNAP SHOTS - ✦

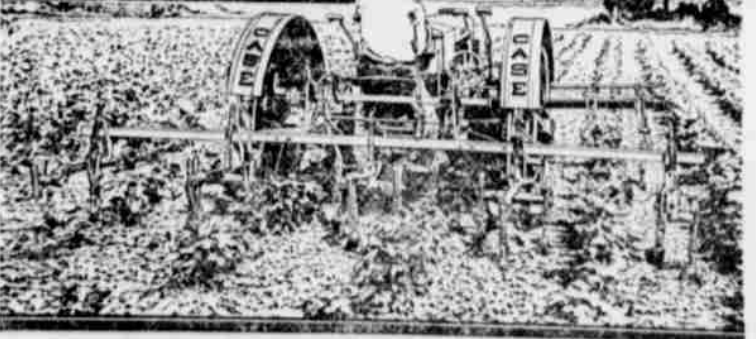

What would have happened if the hoop skirts and rumble seat had occurred in the same generation?

About the only improvement now

A Brand New General Purpose Tractor

That's far ahead of anything you've ever seen

NOW you can get the tractor you've always wanted—a powerful, light weight, fast moving and easy to handle tractor that is as practical for planting and cultivating row crops as it is for plowing, threshing and the usual run of tractor jobs. It's the new Model "CC" Case—a real general purpose tractor.

The rear wheels can be quickly and easily set wider apart to fit the rows when cultivating, and just as easily changed back to plowing and disking width.

Two foot brakes that work on the differential,

independent of the steering device, aid in handling the tractor on slopes and over rough land. You can hold either of the rear wheels and pivot on it when you want to make a short turn.

You can sit down, stand up or change about as you choose. The controls are conveniently placed. . . the steering gear is very fast. . . the front wheels respond quickly to the slightest turn . . . all in all the tractor is remarkably easy to operate.

You will be as enthusiastic about this tractor as we are. Come in and let us tell you more about it.

FOXWORTH-GALBRAITH LUMBER CO.
LITTLEFIELD, TEXAS

CASE

Full Line of Quality Farm Machines

left for Henry Ford to put on his cars it spurs to help them climb the telegraph poles.

Many congressmen seeking reelection this year will have to stutter if they tell the farmers how much they have helped them.

After being engaged 26 years a Missouri man married at the age of 91; but you'll have to admit that he put up a good fight.

A New York girl found \$2,000 on the street, returned it, and won a husband. Which proves to girls that they can't be too careful about what they pick up on the street.

Now that spring is not so far off it might be well to remember "Paint-up Week" was not solely for the flappers.

Dangerous Business
Our stomach and digestive organs are lined with membranes which are delicate, sensitive and easily injured. It is dangerous business, then, to take medicines containing harsh salts or minerals, when we are constipated. In addition to the possibility of injuring the linings of our digestive system, these medicines give only temporary relief and may prove harmful. The safe way to relieve constipation is with Herbine, the cathartic made from herbs, and acts in the gentle nature intended. You can get Herbine at Stokes-Alexander Drug Company.

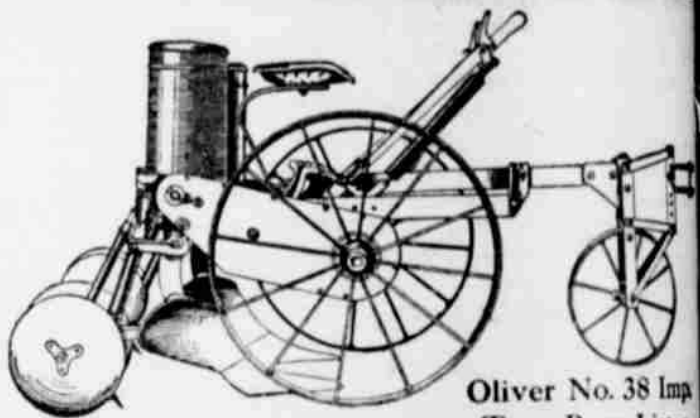

THERE IS NO GUESS WORK WHEN YOU COME HERE

We are REGISTERED PHARMACISTS and you can feel sure your prescription will be filled with infinite care and accuracy and that the charges will be economical

STATE CO-OP BILL
APPROVED BY THE
SENATE LAST WEEK

Without a dissenting vote, the
senate Friday of last week passed a
bill effective immediately which per-
mits co-operative farm marketing or-
ganizations in Texas to participate in
funds of the Federal Farm Board.
The bill gives the Texas co-operatives
the right to buy, trade or sell in
farm products produced by non-
members, one of the requisites laid
down by the farm board in the \$500,1
000,000 revolving farm relief fund.
Under the existing statutes the ac-
tivities of the Texas co-operative or-
ganizations had been restricted to
buying, selling and trading in com-
modities produced by its own mem-
bers.

ANOTHER PROF. B' GOSH
Fifteen minutes after Mrs. Garland
Lewis, of Ozona, arrived at a Lub-
bock hospital, the stork arrived with
"James Cecil" who greeted his mother
with the customary kindergarden yell.
Garland says he had it all figured out
that Abraham Lincoln was to be high-
ly honored some day, and he could
think of no better way than to have
his first born son arrive on the birth-
day of the great Emancipator.

Professor Lewis was formerly prin-
cipal of the Littlefield schools, and
Mrs. Lewis who before her marriage
was Miss Hazel Morris, a sister of Mrs.
B. L. Cogdill, this city, was also a
teacher in the school here.

SEALE BUILDS DUPLEX
Work is underway this week on the
construction of a two story, 36x52 ft.
brick apartment house for Mid Seale
on lot 4 block 38, just east of the
Phillips Petroleum Service Station.

The lower floor will be a duplex
while the upper floor will be arranged
into 10 rooms, and the building will
be modern throughout.
Mr. and Mrs. Seale will occupy one
side of the duplex and look after the
managements of the apartments.

PARENT-TEACHERS MEET
The Parent-Teachers Association
met Wednesday afternoon at the High
School Auditorium.
The birthday anniversary of the or-
ganization was celebrated with a can-
dle lighting ceremony.
The program was directed by the
chairman of the committee, Mrs. P.
H. Boone, and 30 girls from the home
economics department assisted in light-
ing the candle. The ceremony was
closed with a wish and a prayer for
the P. T. A. offered by the president,
Mrs. R. E. McGaskill.

Littlefield Won Honors For the District Meet

As a result of the Round Robin basketball tournament composed of teams from Spring Lake, Fieldton, Olton, Sudan, Amherst and Littlefield held the last three days of last week, which were days of fast and furious battling, the local Wildcats came through covered with glory and victory winning the county championship and the right to represent the county in the district tournament which opens at Lubbock Friday.

were played in the gymnasium at Olton, and the Saturday games were played in the local gymnasium. Littlefield's game schedule was as follows: Thursday night, Olton vs. Littlefield, game at close of first half favored Littlefield with a score of 7 to Olton's 2, but ended in favor of Olton 10-16. Friday afternoon, Spring Lake vs. Littlefield, score: Spring Lake 17, Littlefield 32; Friday night, Amherst vs. Littlefield, score: Amherst 12, Littlefield 32; Saturday afternoon, Fieldton vs. Littlefield, score: Fieldton 16, Littlefield 24; Saturday night, Sudan vs. Littlefield, score: Sudan 13 Littlefield 14. Spring Lake lost to Sudan and Littlefield.

Sudan lost to Olton and Littlefield. Olton lost to Spring Lake and Amherst. Amherst lost to Sudan and Littlefield. Littlefield lost only one game and that was to Olton. The boys are hard at work this week preparing for the district meet and everyone is asked to be there to back the boys who are in high spirits and hoping to win. The regular line-up for the tournament was as follows: Forwards: J. T. Allen and Fulton Smith. Center: Witty Davenport. Guards: J. B. Guthrie and Leo White. Substitutes: Forwards: Max Stansell and H. B. Hutson. Center: La Verne Stevens and A. C. Tremain. Guards: Johnnie Smith and Gordon Roberts.

ATHLETICS WIN IN SEASON'S CLOSING AGAINST LUBBOCK

Playing the best brand of basketball thus far exhibited on the local court, the Athletics nosed out the fast Comets from Lubbock in a thrilling battle in the High School Gym, Tuesday night of this week, to end the play on the local court for this year. At the end of the game the score was 37-35, and never during any stage of the encounter was there over five points difference in the score. At the first rest period the Athletics led 22-18.

Stagers Plays Good Defensive
It was Kenneth Stagers who time after time broke up the offensive drive of the Lubbock aggregation to turn the ball in the other direction and place it in the hands of an 'A' who found the basket. The Comets were unable to penetrate the defense of the Littlefield five and had to resort to long distance shooting at which they were very effective and kept themselves in the running by constant goals from the back court. Jimmy Kerr of the visitors, former Tech guard and stellar player, was high point man for the Lubbock crew, but high point honors for the night went to Lacy of the Athletic Club. Stone and Davenport were effective in working the ball to scoring positions, but were not in the running when the fast and charging Lacy was on the court, for it was his night even though he was very ineffective at hitting the basket from a close angle at times.

Stewart furnished the best officiating that has been seen here this year. The Athletics will don new sweaters in the for mof an award for their service throughout the past season, and these new sweaters are expected in real soon. The Athletics close the season with a game at Muleshoe Thursday of this week.

DEMONSTRATION CLUB MEETS

The Womens Home Demonstration Club met with Mrs. Roy Blessing, Thursday, Feb. 13, with nine members present. A very interesting and beneficial discussion on diagnosis, preventing, and cure of common poultry diseases was given by Miss Ruby Mashburn, the Home Demonstration Agent. There were 9 members added to our list. They were: Mrs. G. F. Hodges Mrs. W. S. Cooper, Mrs. A. L. Hood, Mrs. Leslie Martin, Mrs. Roy B. McQuatter, Mrs. J. E. D. Roberts, Mrs. J. C. Whisenant and Mrs. Kukindall. We are very happy to have them with us.

We were glad to have the following visitors with us: Mesdames, Mike Brewer, Hilliard, J. B. Johnston, Ross Britt and Gentry. The next meeting will be Thursday Feb. 27 with Mrs. W. H. Roberts. Our lesson will be "Color and Line in the Home." Answer roll call with your preference of color scheme for a living room. Delicious refreshments were served to 24 guests by the hostess.—Rep.

PROMINENT PRESBYTERIANS HONORED BY LOCAL CHURCH

An all day meeting was held Thursday of last week at the Presbyterian church, at which time Rev. George W. Fender, Synod executive, of Dallas, Rev. J. W. Robinson, Sunday School field man of the Amarillo District, and his wife, who is secretary of literature for the auxiliaries of the District and Mrs. Aldridge of Amarillo, president of the Presbyterian of the Amarillo district, were in attendance. A splendid sermon was delivered by Rev. Fender at the 11 o'clock hour following which a dinner was served to those present, by the ladies of the church. Talks were made by the visitors in the afternoon session and a round table discussion was held by the visitors and the local congregation on church, Sunday School and auxiliary work.

CELEBRATE BIRTHDAY

The sixth birthday of little Aldwyer Mills was celebrated Wednesday when his mother, Mrs. J. S. Mills entertained a number of his little friends with a party at her home in the High School addition. Several games were played and refreshments consisting of hot chocolate and cake, roasted peanuts and pop corn, were served to the following: Cecil Smith, Barbara Ejan Wynn, Yantis Wright, Erlene Smith, Tharon Mills, Junior Smith, Maxine Davenport, Landerslee and Aldwyer Miss.

ENTERTAIN S. S. CLASSES

Mrs. A. E. White and Miss Esta Mae Connell entertained their classes, of the Junior Department with a Valentine party at the Tabernacle Baptist church Thursday evening. Various games and contests were played at the close of which refreshments of cake, sandwiches and cream were served to the following: Alford Manley, Eula Mae Cox, Carleen Manley, Lois Etheridge, Dorothy Dalton, Vellie Dalton, Strauss Atkinson, Ernest Connell, Jacelyn Lambert, Dewey Connell, Sanders Lee Mills, Edne Bell Gillette, Dorothy Nugent, Bo Phillips and Ruth Busher.

O. E. S. MEETING

The local order of Eastern Star met in regular session Friday evening with about 14 members present. The initiation work, which had previously been planned was postponed, due to the fact that other affairs on that date conflicted with the meeting. At the close of the meeting refreshments consisting of coffee and date nut pie topped with whipped cream, were served to those present by Mrs. A. H. McGavock and Miss Myrtle Bartlett of Olton.

Two thousand, one hundred and ninety-four rural mail routes serve 1,209,000 patrons in Texas at a cost of \$15.25 a family per year. In the United States are 44,288 such routes

Four of the 85 active gypsum plants in the United States are in Texas, which now produces fourth in gypsum production. The value of gypsum produced and sold in Texas in 1928 was \$3,094,144.

BIBLE CLASS MEETS

Mrs. C. O. Stone was hostess to the Church of Christ Ladies Bible class, Tuesday at 3:30 p. m. An interesting study of "The Apostles" was held. Following the lesson plans for the future were discussed, 13 visits reported during the past week. Next week's meeting will be with Mrs. J. W. Hale, the lesson to be "The Great Commission." Refreshments of sandwiches, cake and chocolate were served to the following members: Mesdames Adams, Biebe, Bigham, Claude Clark, Collins Gregory, J. W. Hale, James, Jackson, Kimmel, Mayhew, McDaniel, Enloe Smith, and the hostess. The class met last week with Mrs. Claude Clark, wit han interesting lesson on "The Apostles." A social hour with dainty refreshments served to 13 members and two visitors was held.

BIRTHDAY SURPRISE

C. A. West was pleasantly surprised Wednesday night of last week by a party in honor of his 50th birthday. The older folks enjoyed games of "42", while the young folks enjoyed other amusements. At 9:00 o'clock the guests gathered around a table laden with all kinds of food. Those enjoying the affair were: Mr. and Mrs. Herman West, Mr. and Mrs. A. D. Bennett, Mr. and Mrs. C. J. Miller, Mr. and Mrs. Tom Edwards, J. J. Little, S. W. Little, N. E. Little, Carl Stewart, Mr. and Mrs. J. N. Kelsey and son Alvin of Idalou, Mr. and Mrs. Otto Lichte, and Mr. and Mrs. C. A. West and family.

Farmers Want Better Cotton Staple and Uniform Variety for This Area Growing

Farmers are always looking forward to larger and better yields of their crops, and cotton farmers are no exception. Many cotton farmers of this section have never been entirely satisfied with the variety of cotton they have been growing, especially those farmers coming from other sections where the long staple variety is being grown, while out this way most of it is of the short type.

Some farmers have experimented with the growing of long staple cotton in this section, with more or less favorable results, and there are others who insist that the continued growing of short staple cotton on the South Plains in time put this section into a low classification list by the buyers which will mean low price for all cotton regardless of its staple.

"What this country needs," remarked one farmer to the Leader representative, "is the longest staple cotton that will grow here during our growing season." Those who have been growing cotton along this line bear out the statement, and various results have been attained. Perhaps the best index obtainable is that of the experiment station located at Lubbock which is as follows:

Gives Figures On Early Cotton
Early cotton is recognized as best. It is also recognized as bringing the best price. Over a four year period during the seasons of 1925, 1926,

1927 and 1928, the following shows the percentage of certain cotton varieties opened after 134 days, and 147 days from time of planting:

Burnet cotton, the experiment station's records show, had 25.2 per cent of the crop open at 134 days and 67.5 per cent open at 147 days.

Mebane No. 804, with 15 per cent open at 134 days had 56.4 open at 147 days after planting.

Acala shows 14.4 per cent after 134 days and 40.8 per cent open at 147 days.

Half-and-Half shows 14 per cent at 134 days and 49.8 per cent open at 147 days.

Sunshine cotton records 10.4 per cent after 134 days and 33.2 per cent after 147 days.

Per Cent Acre Yields Recorded
Production records of a number of varieties reveal the following averages over the same four year period: Westex, which is a variety out of Burnett, and shows practically the same maturity average yielded 177 pounds of lint per acre. Acala, with an average of 166 pounds is next. Mebane 406, yields 162 pounds, Half-and-Half yield was 161.31 pounds. New Boykin yielded 159 pounds. Burnett yields 156 pounds. Kasch shows 152 pounds, Mebane 804, 138 pounds, Sunshine 129 pounds, New Mebane, 100 pounds.

Staple lengths recorded over an 8-

year period show the following:

Mebane 804, New Mebane and Kasch, each 31 thirty-seconds of an inch. Acala averaged one and one-third thirty seconds of an inch. Burnett shows fifteen-sixteenths of an inch, as does New Boykin, while Sunshine averages one inch plus. For a four-year period Mebane 400 shows fifteen sixteenths average.

Drouth Shortens Length
Half-and-Half over a five year period, averages three-fourths of an inch, while Westex over the six-year period, averages seven-eighths of an inch staple length.

Because of the past two years, the staple lengths have been made shorter than ordinary by the drouth and boll worms. It would be unfair to compare the cotton on which a record has been kept for the past few years with varieties experimented with over a long period.

"Well-bred cottons produce a staple length that varies but little from year to year," Mr. Jones states. "Poor soil prolonged drouth and immaturity are some of the factors that influence this inherited characteristic of staple length. It would then seem only reasonable to believe that if one-fifth of the total cotton produced in the U. S. untenderable on account of staple, and that staple is an inherited characteristic, it would be well for us to change to some well-bred cotton of a medium staple length."

AGRICULTURE NOTES

By D. A. ADAM
Lamb County Farm Agent

Dairy farmers should begin to make plans for their pastures during the coming year. Sweet clover, sudan and some winter pasture should be figured on. On the basis of five cows, three acres of sweet clover, five acres of sudan, and 12 to 15 acres of some good winter pasture should be planned. February is a good month in which to sow sweet clover. The best method is to sow it in three foot rows with lister, dropping about 150 seed to the foot, which will make about 15 pounds per acre. This method makes it possible to cultivate two or three times during the early growing season to keep down weed growth. A good pasture program for every dairy herd in the county will cut down production cost one-half. This has been demonstrated on farms in this county during the past year.

During the past few weeks the county agent has conducted 12 terracing schools with an attendance of 72, and of this group 10 men are now able to run terrace lines for farmers in their respective counties. Terracing in Lamb county last year increased crops on terraced farms 20 to 25 per cent.

A baby beef club show will be held in Amherst March, at which time calves will be shown that have been fed by club boys of this county. Everyone is invited to attend and see what can be done with Lamb county baby beefs fed Lamb county feed by Lamb county 4-H Club boys.

Capons pay, according to John Horton, of Amherst, who could have sold his cockerels in the spring at about 40 cents each, but in going the capon route realized \$1.32 profit each from his No. 1 capons.

Mr. Horton caponized 154 cockerels when they were six weeks of age, and sold on Feb. 10 with a total income of \$210.12; 23 of these were sold in early fall as slips at 60 cents each; 34 were eaten at home or died from some cause, these being valued at 75 cents per head; 74 No. 1 weighing 572 pounds at 25 cents brought \$143.00; 23 No. 2 and slips weighing 159 pounds at 18 cents brought \$28.62; making a total income of \$210.12. Expense on this total number is as follows: cockerels 30 cents at six weeks of age; caponizing 5 cents; miscellaneous, equipment, etc. 15 cents; and a \$12.75 feed bill for fattening mash, making a total cost of \$89.75; leaving a total profit of \$120.37, or 78 cents per head. All No. 1 capons averaged a total profit \$120.37 or 78 cents per head; all No. 1 capons averaged a total profit of \$1.32, and all others a profit of 71 cents a head. Mr. Horton intends to caponize 200 birds next year.

MRS. A. P. DUGGAN HONORED
Mrs. Arthur P. Duggan, of this city is in receipt of information to the effect that she has been appointed as chairman of County Drama, by Mrs. Whitmore, of Snyder, seventh district, who is president of the Federated Clubs of Texas.

Colorado Springs, Colo.—A check for one cent, drawn May 15, 1926, has been honored at a bank here. The cent represented a dividend on one share of mining stock.

ROTARY PLANS MINSTREL
The Rotary club met Thursday at their regular weekly luncheon at the Methodist Church, with 27 members in attendance.

President, Dr. C. C. Clements presided, and, due to the absence of W. J. Chesher, who was in charge of the program, the regular program was

dispensed with and the meeting was turned into a round table discussion of various matters relative to the club.

The committee in charge of the Minstrel show, which is to be given the 27-28 of this month sponsored by the Rotary Club, reported that plans for the show were progressing nicely.

M. C. Bennett, of Sudan, and Ro-

tarian, Roche Newton, of Lubbock were guests at the meeting.

Denver, Colo.—Declaring that his wife made him accompany him to the bank of a creek near their home where she held seances with the spirit of her first husband and with those of other friends who had died, Michael Burke has asked for a divorce.

NEED Lots of Light?

New 1500 watt "Red Line" Delco-Light gives you all you need . . . and more

No matter how much light you need, the new 1500 watt "Red Line" Delco-Light does the job to perfection. It's designed for the bigger light and power jobs on large farms, country estates, resorts, in summer hotels, schools, churches and filling stations. No better plant was ever built for use on ranches, poultry farms, in hatcheries, dairies, amusement resorts, country clubs, mines and similar places where extra lights are needed.

We are the authorized Delco-Light Dealers in this territory and we'd like to show you this and other new 1930 "Red Line" Delco-Lights.

AVERY Sied and Two-Row Listed Corn Cultivators

A crop well started is half made

As your corn is started, so will be the crop. That is why many up-to-date listed corn farmers are turning to Avery Sied and Two-Row Cultivators.

These famous cultivators deliver just the required amount of finely pulverized soil to nurse the young crop to health and strength. They do the most for the crop, in the best and easiest possible way, at the time when good care is most needed.

The Avery Sied Cultivator runs in the furrow beside the row, doing the work easily, accurately and effectively. The Avery Two-Row Listed Corn Cultivator offers broader development of the same principles, but due to the exclusive Avery equalizers and other features, it cultivates two rows with the same ease and accuracy as the single-row machine.

The Avery Sied and Two-Row Listed Corn Cultivators—because they do the best work and wear longest, with the least upkeep expense—are in the end the most economical to buy. Their modern design, fine adjustments and good materials reflect the 100 years of experience back of them, and the resources of America's finest implement factory.

We will give you full details. Call at our store and ask us to show you.

There is a full line of famous Avery walking, riding and tractor plows, tillage implements, and Champion harrowing and icing machines.

A FAMOUS NAME . . . A FINER CAR

means that Pontiac value has been increased...

THE New Series Pontiac Big Six is called "a finer car with a famous name."

This means that the intrinsic value for which Pontiac has always been famous reaches new heights in the New Series Six. It means that new-type rubber engine supports make Pontiac's big, 60-horsepower engine smoother than ever. It means that a new steering mechanism, acting on roller bearings, gives Pontiac still greater ease of control. Its big, improved, internal, non-squeak four-wheel brakes are now safer and more dependable than ever. There is smart new styling in its bodies by Fisher. It has a new sloping windshield that lessens headlight glare. And improved Lovejoy Hydraulic Shock Absorbers, at no extra cost, give big car riding ease.

If you are in the market for a low-priced six that combines fine performance and attractive style with assurance of enduring satisfaction—do not fail to see the New Series Pontiac Big Six—a finer car with a famous name!

Prices, \$745 and up, f. o. b. Pontiac, Mich., plus delivery charges. Shock absorbers standard equipment. Bumpers and spring covers at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list (f. o. b.) price when comparing automobile values. . . . Oakland-Pontiac delivered prices include only authorized charges for freight and delivery and the charge for any additional accessories or financing desired.

SOUTHWEST NEWS

The people of the Southwest vicinity met at the L. N. Guy home, Sunday afternoon to organize a Sunday school. Mrs. L. N. Guy was elected

Superintendent, Bernice King, Secretary, Mrs. Reins song leader, and a number of teachers were elected to teach the classes.

Neighbors and friends are invited to come to Sunday School which will be held every Sunday afternoon at

2:30 at the L. N. Guy home. Bill Parson is on the sick list. J. M. Scheuer and family visited Sunday at the J. H. Reisman home and had a very pleasant time. J. F. Walden, who lives five miles south of Littlefield, has his fine new residence completed and is now occupying it. J. H. Reisman was the contractor and builder.

Laura and Andrew Schlotzman are on the sick list.

Job Witzcher and family visited J. M. Scheuer and family Sunday evening and enjoyed a forty-two game.

Grady Simpson and family went to Dr. J. D. Simpson to see his mother Mrs. M. B. Simpson, who has been quite ill there for some time. She is improving slowly.

Mrs. Max Kopp spent Monday with Mrs. J. H. Reisman.

Mrs. Joe Witzcher went to Littlefield Monday on business.

Max Kopp returned home Wednesday from Olton where he has been painting some signs for some new business houses just opening.

John Casgrove of Slaton visited Mr. J. M. Scheuer last Friday.

SUDAN BAND BOYS HERE FOR REHEARSAL LAST WEEK

Bandmaster Crane and a large number of his band boys from Sudan came down to Littlefield Thursday night of last week and "sat in" with the local band for a fine rehearsal. Under the impetus and inspiration of the combined organization, the entrancing strains of "brass" music swept out for many blocks furnishing a free melody concert at home for many people.

Prof. Crane is also director of a recently organized band at Morton, comprising 30 members, and which he says is developing rapidly.

Gas For Farms Will Soon Be a Possibility M. Bowron Declares

Nearly everyone in and around Littlefield knows Monte Bowron as a musician and band director of some note; but comparatively few know him as a benefactor to the human race in other ways. Yet such is the case.

For several years past Mr. Bowron has been bringing joy to the faces of his auditors with sweet strains of music, but he has also been illuminating their countenances and, incidentally, their homes, since his chief business is the selling of Deleo light machines, of which there are hundreds in the farm homes of this section.

Now, Mr. Bowron says his company is bringing out another invention which is destined to make farm living still more like residing on a city boulevard—it is gas for the country home, just as satisfactory and more independently than if one were hooked onto a city main running direct from some well known well bored down deep into the bowels of terra firma.

The user of this new gas, which no one knew anything about until a few months ago, and which is a by-product selling very cheaply, just buries a tank in his back yard, makes the proper connections and is ready for cooking and heating, using the same type of stoves as the city dweller uses.

Artificial gas costs on an average of \$1.75 per thousand cubic feet, according to Mr. Bowron, but this new farm gas can be used at a cost ranging from \$1.15 to \$1.25 per thousand cubic feet. It's going to be a wonderful convenience, said Mr. Bowron. "What with people having their own personally controlled refrigeration systems, their heating and lighting systems, their private waterworks plants, their radios, automobiles and a dozen other conveniences, living in the country will, in a few years, become more popular, because more healthy and more independent, than living in towns and cities," said Mr. Bowron.

American Legion Will Start Membership Drive

The Richard New Post of the American Legion met Friday evening in the basement of the Presbyterian Church in regular session.

Under the direction of R. E. Riley vice-commander, a splendid program was rendered. Stamps quartette, with Frank Stamps in person, rendered several numbers previous to their engagement at the theatre later in the evening, and, musical numbers were also rendered by the Ford brothers, of Littlefield.

Commander J. H. Ware was in charge of the meeting and several important topics were discussed, plans were made for a membership drive, and it was decided that the Legion meet every second and fourth Friday evening in the future.

At the next meeting the wives, mothers and sisters of Legionnaires will be invited and plans will be formulated for the organization of an American Legion auxiliary.

Dr. R. M. Walthall was in charge of refreshments which consisted of sandwiches and coffee.

The new building on South Main street, which is now under construction, will be occupied by the West Texas Gas Engineering Company has been designated as a regular meeting place.

All ex-service men, whether members of the local post or not, are cordially invited to attend these meetings.

MISS HUBBARD ENTERTAINS

Miss Lula Hubbard entertained the members of the Presbyterian Christian Endeavor with a party at the church Thursday afternoon.

Refreshments of turkey and jelly sandwiches, cookies and punch were served to the following: Ann Marie Harless, Betty Ann Hilliard, Alice Lynn Steet, Blanche Wales, Juanita Hazel, Juerine Wharton, Fredda Bills Ernestine Cundiff, Pearl and Oma Green.

MRS. MASSINGILL HOSTESS

Mr. and Mrs. L. L. Massingill entertained with a "Miller Maid" buffet supper Thursday evening Feb. 13, from 7 to 11 o'clock.

The following were present: Mr. and Mrs. C. O. Roberts, Mr. and Mrs. V. Q. Matthews, Mr. and Mrs. J. L. Dow, Mr. and Mrs. W. H. Roberts, Mr. and Mrs. Kaykendall, Mr. and Mrs. Irvin Inklebarger, Misses Ruby and Thelma Mashburn.

Help keep Littlefield clean!

B. Y. P. U. PROGRAM

The following program will be rendered Sunday evening at 6:30 o'clock at the B. Y. P. U. meeting at the Tabernacle Baptist Church:

Subject: "Missions in the New Testament."

Introduction: Fleddie Dunigan.

"Missions in the Birth of Jesus", Merle Atkinson.

"Missions in the Commands of Jesus", Odell Crow.

"Missions in the Works of Jesus", Helen Rumback.

"Missions in the Conversion of Cornelius", Rudolph Kemp.

"Missions in the Leadership of the Spirit", Wilton Lambert.

"Missions in the Decree of the Jerusalem", J. W. Harbin.

Conclusion, Mrs. Clyde Kemp.

Several special musical numbers will be rendered.

A concoction of fats from the lion, goose, serpent, crocodile, ibex and hippopotamus would cure baldness according to a belief of the ancient Egyptians.

cession drifted to alleged poor service rendered by this company to Littlefield patrons, several business men declaring it far from first class, while one man who pays rent on two tele- phones said he generally got the best service by walking and personally deliv- ering his messages.

AN ESSAY ON COTTON

The following essay on cotton was written in order for the farmers to appreciate cotton and for them to know all about its history, cultivation and care. This article was written by a city guy, but he has made quite a study of the subject and feels that he can do justice to a scientific treatise of it. You will find his obser- vations of great help in teaching your children how better to understand the marvelous attributes of this great commodity.

Cotton is a vegetable that grows in bowls on bushes. You plant it with a tin can with a hole in the bottom run- ning on wheels dragging a cement sack behind it and following a plowed field to two mules or other wild ani- mals.

When the cotton begins to come up, you chop it with axes. Johnson grass is the greatest friend the cot- ton farmer has because when a stalk of this grass grows right beside a stalk of cotton, if left alone, you won't ever have to pick the cotton. In this way Johnson grass becomes a great labor saver, (by the way, Johnson grass was first cultivated by an old man named Johnson, who that all the time he was growing wheat.)

A field of cotton is useful in two ways: first, the cotton makes pretty white and pink blooms. The farmers gather all of these blooms for beau- tiful bouquets. They are nice bouquets for weddings because they signify lots of work. When the cotton is ripe it is white, and you begin to collect it. This is done by hand. You have a large sack in which you place the cot- ton. You sit down upon the sack and scoot along the rows. You pluck the white bowls of cotton off the bushes and put them in your hip pocket; then when you get to the end of the row, you empty them into the cotton sack. After you have harvested all of the cotton, you take it to the thresh-

An Unpleasant Subject

All of the functions of life are not pleasant to consider. Perhaps this is why some mothers refuse to think that such symptoms as restless sleep, loss of flesh, lack of appetite or itching nose and fingers in their children, can be caused by round or pin worms. Many mothers have proven, however, that a few doses of White's Cream Vermifuge, that sure and harmless worm expellant, will make these symptoms disappear. You can get White's Cream Vermifuge for 35 cents per bottle from Stokes-Alexander Drug Company

SPECIAL LOT PRICES

If interested, see any of our agents, or call at our Littlefield office.
—Yellow House Land Co.

er which spans all the seed out of it. This thresher is just a funny house. It has a windpump which sucks the cotton up its neck. Inside there are barrels covered with spikes, saws and wheels. It comes out baled in nice bundles for market. Cotton was first discovered in a pair of King George's party pants. Since then it has become quite a fad for men to wear pants made of cotton. Cotton makes good fillers for cakes in the absence of eggs. It also makes good icing for pies.

MONUMENTS OF PRIVATE INITIATIVE ARE BUILDING

Individual prosperity and attain- ment must always come before gen- eral progress. It is the aggregate re- sults of private initiative and enter- prise in many fields that has made our modern industrial age possible.

The great progressive movements in this country have been started and given momentum by individuals—not by government. When the gov- ernment goes into business, forcing out the private citizen, the result is economic and social paralysis.

PEP PARAGRAPHS

Wilhelmine Albus, who was ill of pneumonia at the Lubbock Sanitarium had recovered sufficiently to be brot home Saturday.

Bessie Hughes, who was operated on for the appendicitis at a Lubbock sanitarium is reported to be improv- ing rapidly.

Speaking Contest

The Pep Community Club held its regular monthly meeting last Friday night. In lieu of a program the prelim- inary speaking contests of the Pep school pupils were heard by the club. Three club members acted as judges of the speaking. First place in the Senior Girls contest was awarded to Blanche Stengel. Second place to Ida Jungman.

First place in the Junior Girls con- test was awarded Lorena Jungman, and second place to Clara Beth Wil- liams. First place in the Senior boys Declamation contest was awarded to Silvester Greener, and second place to Adolphus Jungman.

The club voted to give a prize to each boy or girl winning a first or a second place at the county interschol- astic meet.

The club took up the matter of se- curing local telephone service. J. E. Stengel was appointed chairman of a committee which is to take the mat- ter up with the proper authorities.

The social committee of the club had arranged to serve refreshments of cake and coffee after the meeting. A pleasant social hour was spent by the club members after adjournment of the meeting while everyone did jus-

tice to the refreshments.

Miss Ida Jungman is wearing a nice diamond ring which she secured as a well merited award in the Lead- er Subscription contest.

We are wondering why the Pep Paragraphs did not appear in last week's paper. They were mailed on Monday and should have reached the office in ample time.

NOTE: r-p paragraphs have frequently been too late for that weeks publication due to no fault of the correspondent, but from the fact that the mail carrier took them on to Morton for stamp cancellation and mailing. While the items last week were mailed out of Pep on Monday they did not leave Morton until the following Friday, according to the post mark on the envelope. Through the courtesy of the Littlefield post master, arrangements have now been made for Pep news to be brought direct to Littlefield, and it is hoped that prompt service may now be given that community.—Editor.

The fourth, fifth and sixth grade children of the Pep School are now acting as reporters. Some of them have the born reporters nose for news. They feel rather disappointed when their items do not appear. This scribe merely acts as proof reader and cen- sor of the items.

The following pupils of the fourth, fifth and sixth grades won places in the spelling honor roll the past month: Robert Gerik, Wilma Gerik, Harold Sparks and John William Steun.

John Richard Allison was absent from school last week because of ill- ness.

Reverend Pukluda, of Rowena, gave a two day mission in Pep last week. Morning and evening services were held. The sermons given by the visit- ing priest were excellent. All the ser- vices were well attended and mu- ch spiritual benefit was derived from the mission.

John Scott and W. P. Lupton made a trip to Tulsa last week.

Mrs. W. T. Jungman received a message from Knox county last week stating that her father was seriously ill. Mr. and Mrs. Jungman left for Knox County the same day. The younger children accompanied their par- ents. Mrs. Sparks is keeping house for the older children until their parents return.

Whitharral News

Everybody is enjoying these pretty days. We know how to appreciate a pretty day after we've had a bad sand storm. They are still a right smart of sickness in our community.

Whitharral turned on the electric lights last Saturday night.

A Mr. Avery is putting up a bar- ber shop just south of the store.

Work on the church is progressing rapidly.

Edd Lankford and family moved into their new house Thursday.

We are to have gas by fall or be- fore.

School is progressing nicely. Still new pupils coming in.

One of the teachers, Miss Evelyn Hefner was absent several days on ac- count of sickness. Mrs. Marvin Book- er was also absent several days on ac- count of the flu.

We are glad to report Mr. Black- well who has been sick several weeks is improving now.

All the High School and several from the community attended the ball games at Anton Friday. Our boys won but the girls were defeated.

The gin ran all day Thursday but most everybody is through: will prob-

ably gin one or two more days.

Mrs. Nick Grey visited Mrs. Clar- ence Kenney last Wednesday evening.

Miss Grace Goodwin and Juanita Hank went to Littlefield Monday to get ads for their school paper.

Mrs. Jack Clegg visited Mrs. Fred Sherrel Friday afternoon.

Miss Tarwater met with the club women Friday evening in Mrs. C. B. Edgars' home.

There was a nice crowd out to hear Rev. Roy Kemp preach Sunday even- ing.

Mr. and Mrs. Fred Newsome were in Littlefield Saturday afternoon.

The Lowest Estimates on the Highest Quality of

LUMBER

For building or repairing, we can furnish the finest lumber, and give you better service than you can get elsewhere.

We have the wanted white pine—other pines—best hardwoods, in fact, every fine wood for building at a reasonable price.

Our stock is one of the most complete in the country, and our estimates will prove that we save you money!

Littlefield Section and the South Plains Has Had the Greatest Agricultural Development in Texas for the Past Few Years

1930 LOOKS LIKE A BANNER YEAR

Lamb County Has Already Ginned Over 49,000 Bales of Cotton from the 1929 Crop and Will No Doubt Exceed 50,000 Bales

This demonstrates beyond question that the Littlefield section is a cotton country second to none, and everybody knows it is a wonderful feed country.

With these facts, and the rapid settlement of this section by good farmers from Texas and other states, there can be but one result—THESE GOOD LANDS MUST ADVANCE IN PRICE!

Why not secure one or more of our 100 per cent farm tracts, or combination propositions in the center of development while same can be had at present low prices!

The Terms are Liberal and the Interest Rate Low

NOW IS THE TIME TO BUY!
