Two Local Men Complete Life Insurance Exam

Raymond L. Erwin of Littlefield, district manager of the Southwest Republic Life Insurance Company, and F. L. Newton, representative of State Farm Life Insurance, have been notified that they have successfully completed Part II of the Life Underwriters Training Council examination.

The exams were administered on a nationwide scale in May, and results have just now been announced.

Both men previously had completed Part I of the examination and they will now receive a certificate from the LUTC for having successfully written the complete examination.

Chambers Tops At This Week's Toastmasters

The LUTC course is a practical on-the-job sales training program. Participating life underwriters attend 25 sessions of two and one-half hours per week during the fall-winter-spring school year.

The primary emphasis is on the development of sales skills and the most advantageous presentation and use of life insurance information.

"It's Easy to Cook-

When the Range is ELECTRIC!"

says MRS. M. H. SANDERS of ARTESIA, NEW MEXICO

"I wouldn't trade my electric range for any other type of cooking in the world. It's so easy to cook electrically. The oven bakes wonderful cakes. The deep well is keen for beans, stews, and foods like that, and everything is done so evenly when I use the broiler."

You'll eventually cook electrically, for it's the modern way. Why not now?

When you cook on a surface element on an electric range, all the heat goes into the pan - it cooks the food. And, in an electric range even there's complete insulation, no oxygen is needed to support flameless cooking. The result? Cool, clean cooking, and the best meals you ever prepared. REMEMBER - IN RANGES, AS IN ALL OTHER HOME APPLIANCES, IF IT'S MODERN, IT'S ELECTRIC. ASK FOR A FREE DEMONSTRATION FROM YOUR REDDY KILOWATT DEALER.

 Jeremiah 38:1-39:14
 Daniel Reading: 2 Chronicles 36:1

Right and Wrong

Lesson for July 24, 1955

...all very well to speak of the downfall of a nation, or of a disaster, you can read in books that such and such finally was wiped out in such and such a year. Judah, for example, ceased to be a nation in 586 B. C. But when a nation goes down, it means that it has become a city, a city that is down, peopled, business bankrupt, and its people are down with it.

Others Down

...of the many lessons one can learn from the downfall of Judah, the capital Jerusalem is that the people suffer with the land because of the guilty. Every one in a wicked nation is held; some may have been their level best to keep the land from going on the wrong. Jeremiah is a prime example of this kind of man. An prophet, he had been warning fellow-citizens for years, Ezekiel and other prophets, that the general disaster he had quite as much as anybody to blame for the whole of Jerusalem was swallowed, he might say, in two bites. The first was in 597 B. C. when the king Jehoiachin was taken off to go there to spend the rest of his days as a prisoner. Along with the kinglet went the royal court, the aristocracy, the top officers, and a thousand workers. Jerusalem and Judah were left to third-rate for years; stupid, weak men who made a long story short, committed national suicide. Jerusalem suffered a great deal at the hands of these men. More than 70,000 of these men. More than 70,000 suffered in the final days of starvation and panic. (Of which we will speak next week.) He was by far the first, last or only innocent to suffer in a nation's disaster. A good Christian like Niemöller suffers for Hitler's madness; a saintly Christian like Kagawa suffers in Japan's defeat, even though both of them protested against their nation's policies.

Others Up

...Needless to say, there is the other side of this. Just as the innocent are dragged down by the guilty, so the guilty are sometimes protected and benefited by the innocent. A nation by breaking God's laws pulls down many individuals who keep God's laws so far as they can; and on the other hand a nation that keeps God's laws pulls up many individuals who are indifferent to God. Take America at the present writing, for instance. The picture may have changed by the time you read this; but while it is being written our situation is at peace, prosperity blooms on every side, we are one of the two most powerful nations in the world has ever seen. Who deserves the credit? Not all of us, of course. We talk about the heroism of our forefathers, immigrants and pioneers; but we are not very heroic. We talk about American ingenuity and know-how; but how many of us know how! We point with pride to our vast educational system—and we read the comic books. We are happy to see erosion brought under control and fertility restored to waste land. But how many farmers were eager for such a program at first? We are proud of our progress, when if it had been up to most of us, we would still be stuck in the mud.

Price of Being Human

...The truth is, and we cannot be denied of it too often, that the human race is all tied together. Kindness is made for community. The human race is not like a tray of sand, where one grain can blow away without disturbing the others much. It is more like a block of concrete; move one grain of sand and it all moves. We are happy enough to be pulled up by the community or the nation when that helps us; but when we are pulled down by the community or the nation when that is more than we are, we can't help but be hurt by the badness of our bad neighbors. It is the price of being human, that we are tied together with countless others, and that with them we must often suffer the severe judgment of God.

Toward A More Prosperous Community

All margins from the operation of the Plains Cooperative Oil Mill are refunded to the South Plains cotton producers who send their seed to the mill.

This year \$278,554.17 in cash, and stock that will be redeemed for cash, has been refunded to Lamb County cotton producers.

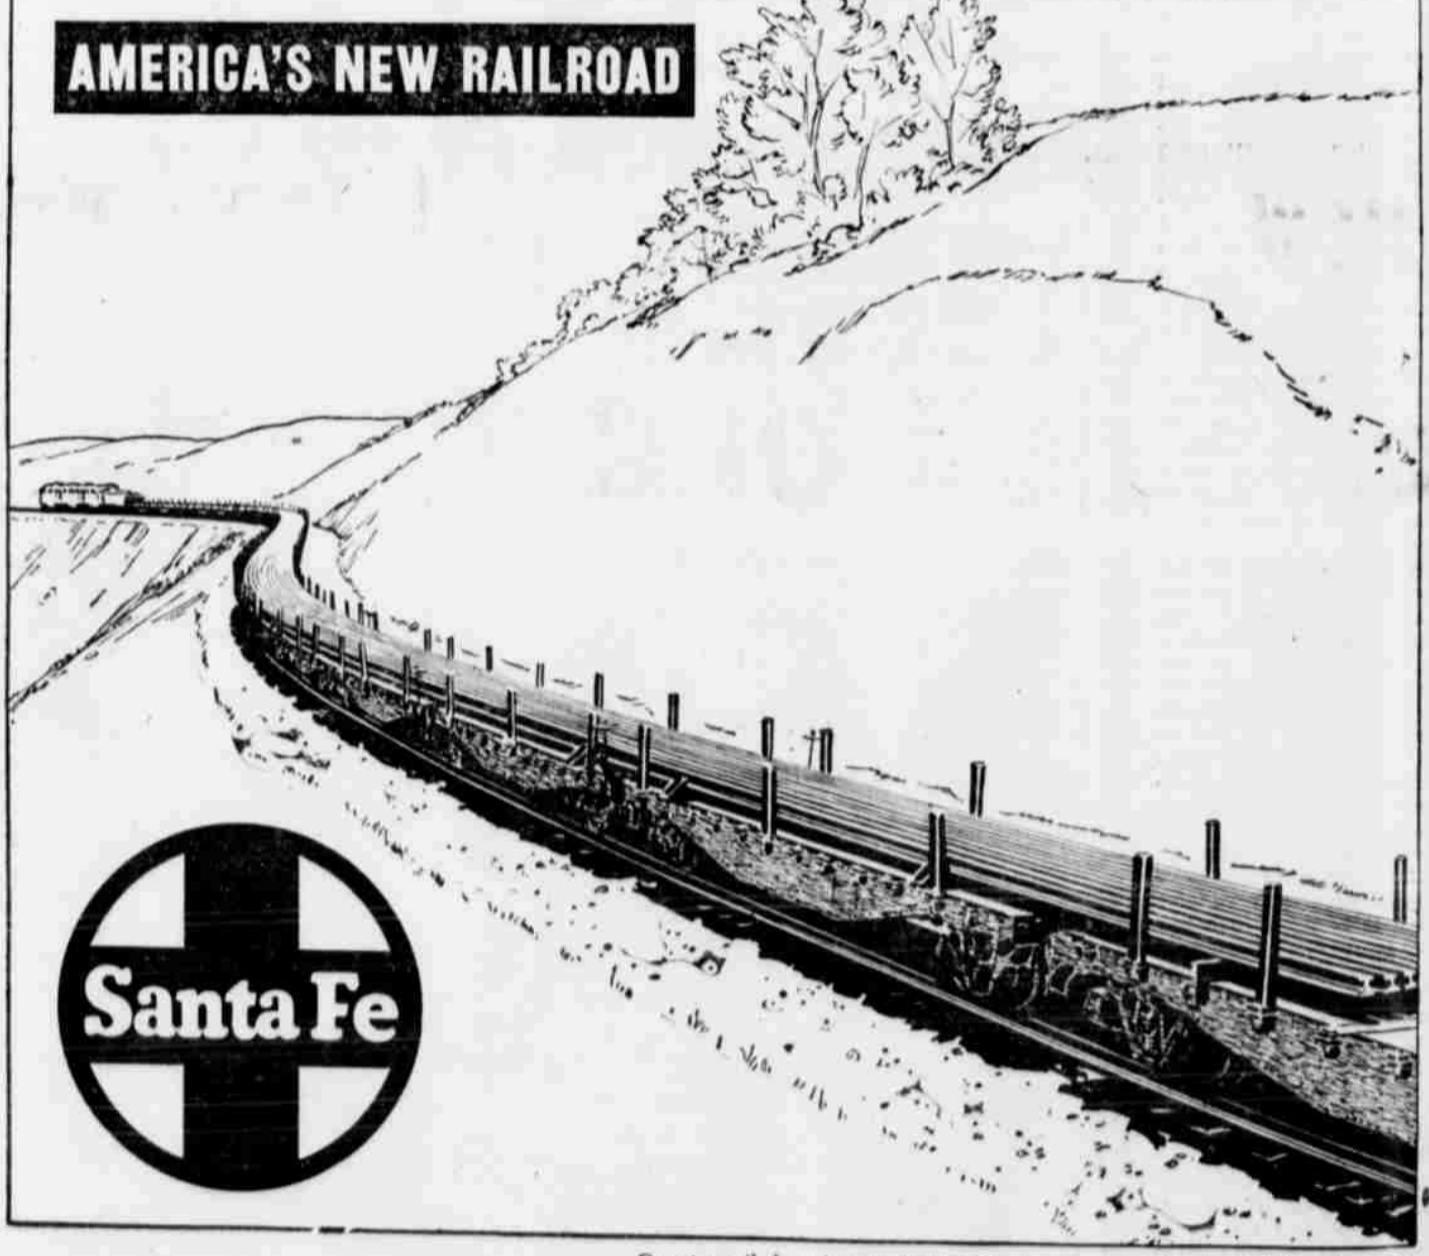

This sum represents the increase in value of Lamb County cottonseed after it has been processed by the Plains Cooperative Oil Mill. Every dollar of this increase in value is refunded to the farmer who produced the cottonseed.

This money, after income taxes have been paid on the entire amount, will be spent by Lamb County farmers for Lamb County goods and services.

This \$278,554.17 will help build a more prosperous community.

AMERICA'S NEW RAILROAD

Quarter-mile lengths of welded steel rail curve around a foothill like wire cable.

Not a "clickety-clack" in a carload

It's Santa Fe's new continuous welded rail... Fewer joints mean a smoother ride for you

An occasional little click—that's all you'll hear of the old "clickety-clack" as you glide over stretches of new continuous welded rail on the Santa Fe. And these stretches will be growing longer and more frequent on Santa Fe. For we're laying more all the time—103 miles of it this year.

with new improvements here, too. For instance, our own specially-devised ballast "dry cleaner." This unique machine cleans our ballast, keeps it more resilient so the track lies flat and even. And today we're replacing old ties with longer and stronger new ones—specially treated to stay strong and sturdy for 30 years and more.

What about expansion in these quarter-mile rails? Near Newton, Kansas, where yearly temperatures vary from 20° below to 114° above, we laid a 5-mile experimental stretch of welded rail. Here we found that anchoring the rail to every other tie restricted expansion to the area between anchors. Thus, overall expansion was reduced to the nearest fraction of an inch between rail ends. In other words, expansion is no problem whatsoever.

Best Conduct Youth Fellowship; Junior Muller Is Sponsor At RA Camp

JUNIOR MULLER and Mrs. J. D. Plumley and children returned home with them after having spent the last week here.

YOUTH FELLOWSHIP MEET
The young people of HC Baptist church had Fellowship meeting after services Sunday night. Waylan Hukill brought the devotional. Sue Sullivan conducted several games of vital interest. A game in which partners joined right arms, wearing boxing gloves and unwrapped chewing gum, was most entertaining. They also had a bubble gum chewing contest, the naming of the 48 states, and Bible characters in alphabetical order. After the games, Betty Franklin and Yvonne Huff served refreshments.

ATTEND PLAINS ASSEMBLY
Mr. E. P. Oliver and Pastor Charles Vanlandingham went to Junior RA camp near Floydada Monday as sponsors. Members going were Kerwin Oliver, Louis and Eusabio Lopez, Gerald and Clayton Vanlandingham, Larry Timmons, Phil Neinast and Lloyd Rich. The Junior group will return home Wednesday and the Intermediate group will go.

KNOX CITY VISITOR
Mr. and Mrs. Lennis Worley of Knox City visited in the Homer Worley home Saturday and Sunday. Donna Gay, their daughter, remained here for a stay with her cousin, Phyllis.

Mrs. Thurman Moody visited her father last week at Medical Arts Clinic in Littlefield and returned with her daughter, Elizabeth, who had been here with her grandparents, Mr. and Mrs. L. A. Pressley and Frances.

FIELDS FETED AT SHOWER
There will be a bridal shower honoring Mr. and Mrs. Duane Fields, nee Mary Lou Cowan, at the home of Mrs. Junior Muller, Wednesday, July 27, at 2:30 p. m. The young couple were wed Wednesday, July 20. Everyone is invited.

Mr. and Mrs. L. H. Neinast and Phil, visited Mr. and Mrs. W. P. Neinast in Lubbock Sunday.

FARM BUREAU MEETING
HC Farm Bureau met Monday night at the community center. No business of vital importance was transacted. The group including Aubrey Neinast, Mr. and Mrs. L. H. Neinast, Mr. and Mrs. Blanton Martin and Suzanne, Mr. and Mrs. W. A. Weatherly and Vaughn, and Mr. and Mrs. Junior Muller, Mark and Patti.

MISSION STUDY MEETING
The WMU met at the church Monday afternoon for a mission study program. Mrs. Homer Worley presided. Mrs. R. S. Moore was appointed to serve out the term of Mrs. Dewey Parkey as community missions and Jubilee chairman in lieu of Mrs. Parkey's resignation. A special offering for jams and jellies for the Baptist Orphanage at Beeville was taken in addition to the quarterly apportionment for the orphanage. Mrs. Junior Muller had charge of the program "Glimpses of Missions at Home and Abroad." Mrs. E. P. Oliver related "There Were Those Who Cared," and Mrs. Charles Vanlandingham told of "Life Through the Prison Bars." There were seven members present including Mrs. Blanton Martin, Mrs. L. W. Sullivan, Mrs. Charles Vanlandingham, Mrs. R. S. Moore, Mrs. Homer Worley, Mrs. E. P. Oliver, and Mrs. Junior Muller. Barbara Worley kept the nursery with three babies present. Every prospective member is invited to attend the meeting of the WMU at any time and especially on August 1, Monday, at 2:30 at the church, for the Royal Service program and refreshments. Plans for two circles are being discussed.

When a four-lane highway is built through a rural area, every mile of road requires the equivalent of 40 acres of farm land.

Legal Notices

NOTICE TO BIDDERS
Sealed proposals addressed to the County Judge and Lamb County Commissioners Court of Littlefield, Texas, will be received at the office of the County Judge until 4:00 P. M., August 3, 1955 for furnishing all necessary materials, machinery, equipment, superintendence and labor for concrete curb and gutter, concrete sidewalks, concrete retaining walls, excavation and shaping for drives, asphaltic surface treatment and building gutter leader pipes for the courthouse grounds, Littlefield, Texas.

Bidders must submit cashiers or certified check issued by a bank satisfactory to the Owner, payable without recourse to the order of the County Judge of Lamb County in an amount not less than five (5) percent of the largest possible bid submitted as a guaranty that Bidder will enter into contract and execute bond and guaranty in the forms provided within ten (10) days after notice of award of contract to him. Bids without required check will not be considered.

The successful Bidder must furnish performance bond in the amount of one hundred (100) percent of the total contract price from a Surety Company holding a permit from the State of Texas to act as Surety or other Surety or Sureties acceptable to the OWNER.

All lump sum and unit prices

must be stated in both script and figures. The OWNER reserves the right to reject any or all bids and to waive formalities. In case of ambiguity or lack of clearness in stating the prices in the bids, the OWNER reserves the right to consider the most advantageous construction thereof, or to reject the bid. Unreasonable or "unbalanced" unit prices will authorize the OWNER to reject the bid.

Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions.

This is a "Public Works" project, as defined in House Bill No. 54 of the 42nd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said Acts and attention is called to the fact that there must be paid on the project not less than the general prevailing rates of wages which have been established by the Texas Employment Commission.

Instructions to Bidders, proposal forms, specifications and plans are on file at the office of ASH ENGINEERING COMPANY, 704 N. Amburgey, Odessa, Texas, and/or office of the COUNTY JUDGE, Littlefield, Texas.

Copies may be secured from ASH ENGINEERING COMPANY or COUNTY JUDGE upon deposit of \$15.00, which deposit will be returned to the Contractor up-

on submission of a bona fide bid for the work, with such plans and specifications or upon returning the plans and specifications immediately after examination of same, and advising the Engineer that bid will not be submitted; otherwise, the deposit shall be forfeited.

THE TWO HOTTEST, FASTEST SELLING MERCURYS EVER BUILT. Above, the low-silhouette Montclair hardtop coupe is only 58 1/2 inches from road to roof. Below, the new Montclair 4-door—the sedan with the "hardtop" beauty—is only 59 1/2 inches high!

Take your pick—coupe or four-door sedan— You get Montclair "hardtop" beauty in both

When the Montclair "hardtop" was introduced, it was hailed by the automotive press as "the most beautiful car in America regardless of price." Now, as you see in the lower half of the picture above, it has an equally beautiful running mate—a 4-door sedan.

NEW 4-DOOR GIVES YOU TRUE SEDAN CONVENIENCE
The whole family can enjoy this car. There's plenty of room for all. Anyone who wants the convenience of a four-door—but admires "hardtop" beauty—can now eat his cake and have it, too! Both Mercurys have the same fleet look of motion and dramatic lowness.

MORE USABLE POWER—UP TO 30% MORE PICKUP
Seldom has an engine caused such enthusiastic comment as the 198-hp SUPER-TORQUE V-8 in these cars. Here is instant pickup at every speed—for lightning getaways, safer passing and hill-climbing. You can actually pick up speed on a 28% grade! Dual exhausts, 4-barrel vacuum controlled carburetor, and special high-compression spark plugs are included as standard equipment at no extra cost!

FIELD'S WIDEST CHOICE OF POWER FEATURES
There's no need to lift more than a finger or touch more than a toe to do so many things in this wonderful car. You have a wide choice of optional power features—for stopping, steering, opening and closing windows, adjusting the front seat 4 ways—even lubricating your car while you drive. Merc-O-Matic Drive is optional, too, for truly effortless driving. So stop in at our showroom. See and try your favorite firsthand.

Young Parolee Admits Molesting 6 Year Old

Seventeen-year-old Roy Gene McCauley was released from a state reformatory at Gatesville Wednesday, Thursday he molested a child in Littlefield. Tuesday he was in jail facing charges more serious than the burglary for which he had just served nine months and the purse snatching charges he had accumulated as a juvenile. He has no previous record of sex offenses.

He was living in Lubbock when sentenced, but was paroled to a relative in Littlefield, who helped him get a job here. According to the written statement he gave officers Tuesday night, he followed the 6-year-old girl home, and took her into a small out building but denied that he harmed her in any way. He did admit putting a hand over her mouth to stifle her screams when she became frightened.

He denied any connection with the series of break-in and peeping reports which have come in since he reached Littlefield. However, officers were of the opinion that he may have been responsible because two of the reports were from the home of a girl who worked at the same place he did and another was from the home of a friend of hers. So far they have not been able to connect him with the church and courthouse vandalism, which he denies. His former employer (who had fired him a few hours before he was apprehended) is not sure whether or not he was in the store at the times when the vandalism occurred. No fingerprints were taken at either place, although there is a possibility that some may yet be obtained from items the vandal is believed to have handled in the courthouse.

There were no more reports of peeping or attempts to break in after he was taken into custody. There had been such reports nearly every night since the original molesting incident took place.

County Attorney Curtis Wilkinson said Wednesday morning that he would draw up charges right away and that McCauley would be arraigned before Judge Glenn. He will probably come before the grand jury which meets next month.

The arrest and confession ended a feverish search which had been going on for five days, with a large number of local citizens assisting city officers in patrolling the streets and checking out reports of prowlers. A large number of suspects were poked up during this time, questioned and released. The most likely of them was the little girl, who said "no" every time until she saw McCauley. When she saw him she screamed, "Daddy, that's him" and tried to run away.

At the police station McCauley at first denied any knowledge of the incident, but after two persons who saw him in the alley faced him in the line-up at the county jail, he broke down and agreed to tell officers about it.

Local law enforcement officers say they were not advised of the fact that the parolee was being sent to Littlefield.

VISIT KEELING HOME

Mr. and Mrs. Wm. E. Shelton and son Ronnie, of Austin, left today after spending Tuesday and Wednesday in the Ray Keeling home. Mrs. Shelton is Mrs. Keeling's sister.

Amateur Sleuths Didn't Give Up

Catching the parolee who molested a six year old Littlefield youngster should be credited to the tenacity of two Littlefield men, both untrained in police methods, who spent almost all their time—day and night—from Thursday on searching for him. The girls father and a close friend, assisted by other members of the Jaycees, checked out every lead they could find during the day, then rode with police at night checking the prowling reports that kept coming in, confident that the same man was responsible for them all.

They eventually pin pointed the right one and pulled him out of a local drug store after the sheriff and the boy's parole officer had both questioned him earlier and turned him loose.

Suspicion first pointed to him when he appeared at the office of the First Methodist church and engaged the secretary in a rather incoherent conversation. She notified Sheriff Dick Dyer, who talked to him a few minutes, found out that he had relatives here that he had just lost his job, and that he was very disturbed because he had also lost his girl. He said the boy seemed mentally upset but he found no reason to investigate further, never did find out that he arrived in town from reform school just the day before the incident took place.

But the girl's father heard about it and thought it worth looking into further. He located the secretary in a local drug store, asked her for more details and found her alarmed because the boy had also looked her up to tell her what she did the right thing in turning him in to the sheriff, ask her when she got off work, and tell her he would see her later.

She pointed him out to the young girl's father. He had blondish hair, but was lighter and younger than they had been looking for. Nevertheless, he went to a phone, asked his wife to bring the girl down. While his friend stayed outside with the little girl, the father approached the seventeen year old boy, asked him to come outside.

As soon as the youngster saw him she started screaming, "Daddy that's him," and became almost hysterical with fright. The two men placed him under arrest and took him to the office of Police Chief Lawrence Walraven. There he denied any knowledge of the case, but when the little girl was brought in and repeated her identification and again became terrified, officers had to violently restrain her father from attacking the tall, slim young man.

Later, he confessed when faced by a neighbor girl and a colored maid who had seen him following the little girl.

Vandals Flood Courthouse, Damage Church Furniture

Police and sheriff's officers had made no arrests by Wednesday in the vandalism cases which shocked local citizens over the weekend.

First hit was the county courthouse. About 8:30 p.m. Saturday Radio Oper. Emil Macha heard water dripping in a light fixture in the sheriff's office. They went upstairs and found about two inches of water covering all of the top floor. It came from lavatories which had been plugged and the water left running in the rest rooms and in the district judge's office. Legal records had been thrown into the water in the judge's office.

Phone calls brought 30 or 40 people to help get the water out of the building and the mess cleaned up. It took until nearly midnight.

Monday County Judge Bob Kirk could make no estimate of the damage. He said that furniture and floor coverings showed no evidence of permanent damage. There were some damp spots on the walls and ceilings where water was evidently trapped. He contacted the architects who designed the new \$600,000 building and supervised its construction. They advised waiting until the water dries out of the walls and ceilings. Then they will examine the building to see if there is any damage.

Only a small amount of water seeped through to the first floor around conduits, etc. There was some damage to obsolete records in the basement from water which was left running there.

When the janitor left at 6 p.m., all outside doors were locked except the two at either end of the sheriff's office. The radio operator went to supper about the same time and from then until he returned at 6:45 there was no one in the building except the person or persons who turned on the water. At least it is assumed that the vandalism was committed during this time.

At 2:26 p.m. Sunday the clock in the LFD Drive Church of Christ stopped. It stopped because someone threw a heavy object into it, breaking the glass cover, and when the hands hit the glass they stopped.

There was lots of other broken glass. Sacrament glasses from a communion set, bottles of grape juice, fruit jars, windows, a big plate glass window, even flower pots were smashed.

Nursery toys were brutally torn into shreds. Furniture was senselessly overturned and broken.

Paper were strewn in wild abandon.

Furniture, book, Bibles, were tossed into the baptistry and the water turned on.

Water was running full force in two rest rooms.

The carnage was discovered about three o'clock by Ellwood Smith, before the water had spread far.

Minister Jack King estimated damage at about \$300 if the carpets can be cleaned, much more if they must be replaced. Biggest single item was the \$100 plate glass window in the nursery. Most of the pulpit furniture was taken out of the baptistry before it was ruined. Song books and Bibles destroyed amounted to something less than \$100.

King reported that an attempt to enter the building had been made the night before when a small window in the nursery had been broken and a crowd of outside lights knocked out. Apparently the prowler did not get inside, however.

He also reports that minor damage was done on two successive days about three weeks before, when it is believed that one or more children entered the building, tore up some toys and made a considerable mess.

It is reported that a home close by suffered similar damage several months ago.

Sheriff Dick Dyer told King, "We're going to catch whoever did it."

Funeral Rites For W.H. Cole In Winters

Funeral arrangements for W. H. Cole, who passed away Tuesday in Winters, Tex., will be held at 3 p.m. today at the Church of Christ in Winters.

Mr. Cole, who farmed in the Fieldton community for a number of years, was born Oct. 21, 1881 in Bowie County. He came to Reynolds county in 1892 and married Emma Williams in 1918. Survivors include his wife and three children. Mrs. John Richey of Littlefield, Mrs. John Spurgers of Mobile, Ala., and one son, Douglas, of Winters. Interment will be in the Winters cemetery.

Mr. and Mrs. Glen Reeves are leaving today for Abilene where they will spend the weekend visiting friends and relatives.

SHERIFF DICK DYER keeps a firm grip on a suspect he had turned loose earlier in the day. This time the boy said he was ready to confess.

Littlefield's Third Invitational Will Be Held August 12, 13, 14

The Third Invitational Golf Tournament, sponsored by the Littlefield Country Club, will be held August 12, 13, and 14, according to Bob Hodges, tournament chairman.

A total of \$1,000 in prizes will be given the winners, runner ups, and consolation winners with a special prize going for the medalist.

Defending champion Rex Baxter Jr., of Amarillo is expected back to defend his title.

Shirley Robbins of Midland will be started for the tournament. He is a former pro at the Big Spring Country Club and now head green keeper for the Ranchland Hills club at Midland.

Robbins knows his business and will keep the tournament moving smoothly and at a fast clip, which is always welcomed by the golfers," Hodges said.

Invitations have been sent to a group of prominent West Texas golfers including Bobby Wright of Big Spring, Bobby Maxwell and Arlyn Scott of Plainview.

CAR THIEF JAILED IN OKLAHOMA

Jack La Mary Laster, who has been jailed in Shawnee, Okla., after burglarizing a pool hall, has confessed that he and a partner took Al Chambers' car from Littlefield May 16.

At the time of his arrest, Laster was driving a 1955 Chevrolet which he had stolen from Marion, Kansas, after abandoning Chambers' car there.

A picture of Laster and a second man, whose name and whereabouts is still unknown, was found in the Chevrolet. The picture of the two men standing beside Chambers' car was made outside a tourist court in Amarillo, according to an FBI agent, who was in Littlefield Tuesday.

Laster confessed driving Chambers' car through Texas, Oklahoma, Kansas, Colorado and Arizona. The car was badly damaged when found on the street by Marion police.

The Chevrolet Laster was driving, which had been stolen from a showroom, was also badly abused at the time of discovery.

Gang War Threatens, Littlefield Police

Police Chief Lawrence Walraven reported this week that a juvenile situation is developing in Littlefield which could get out of hand Wednesday morning he and Mayor Keeling conferred with members of the Safety Committee and the Jr. C of C on how to do about it.

Within the past several days there have broken up three potential gang fights, issued a number of warnings, confiscated a number of lethal weapons, and jailed a young airman home on furlough after the leader of a rival gang agreed to sign a complaint.

Complainant said the accused threw a rock into his window. The accused said it was a soap, but either one was

Camera Club Will Elect Officers

The Littlefield Camera Club
was organized at a meeting in
the City Hall Tuesday evening.

At the meeting, in which Ell-
wood Smith presided, the club
voted to hold their first regular
meeting next Tuesday at 8 p. m.
for election of officers.

Proposed projects of the club
were discussed, objectives and
programs were planned.

The Camera Club is open to
anyone who owns any type of
camera and is interested in tak-
ing better pictures.

Members are asked to bring
their cameras to the next meet-
ing which will be held in the old
court room of the city hall.

Services for the meeting will be
8 p. m. daily; 10:30 a. m. and
7:30 p. m. services on Sundays.

Mrs. J. T. Elms and her niece,
Mrs. Tommy Kirby, and family
of Lampasas, left Friday to spend
a week in Rutland.

This Happened In Littlefield !!

Citizens of this normally peaceful community were shocked by three major criminal incidents which occurred last weekend. Only one had been solved when this page went to press. Citizens are assisting city police in patrolling the streets and alleys all night in an attempt to prevent more incidents and in search for suspects.

THIS PILE of papers on Judge Bill's desk was found floating in the water which flooded his office Saturday night. They had been taken from a closet and dumped on the floor. The water in his lavatory had been left running.

Here are the facts. . .

A teen age gang leader got beaten up pretty thoroughly last week when another teen age gang caught him alone.

Two groups of teen agers in cars were all ready to wage a full scale gang war when police broke the crowd up.

One boy on furlough from the Air Force was jailed this week for throwing an object at another boy's car.

The police had to escort one boy home Tuesday night because two cars of boys were after him.

Someone with a juvenile mind caused thousands of dollars worth of damage to public buildings last weekend by flooding and other acts of vandalism.

Nearly a hundred boys less than 20 years of age were counted in three blocks of the main street Saturday night. Not doing anything. But it was midnight. . . . A child molested by a sex pervert. . . .

Does this sound like something you read about happening in Houston, New Orleans, New York and the big cities? Well, it does happen there too. But all the things listed above happened right here in Littlefield last week.

Does it shock you that our own town has gotten to the stage where crimes we only read about, are happening.

Not long ago gang fights among teen agers forced the city fathers at Wichita Falls to enforce strict curfew laws. Any teen ager not accompanied by an adult found on the streets after nine p.m. on a week day night and 11 p.m. on Saturday, is immediately picked up for questioning and frequently jailed overnight.

In view of what is happening in Littlefield, many responsible citizens are recommending a curfew here.

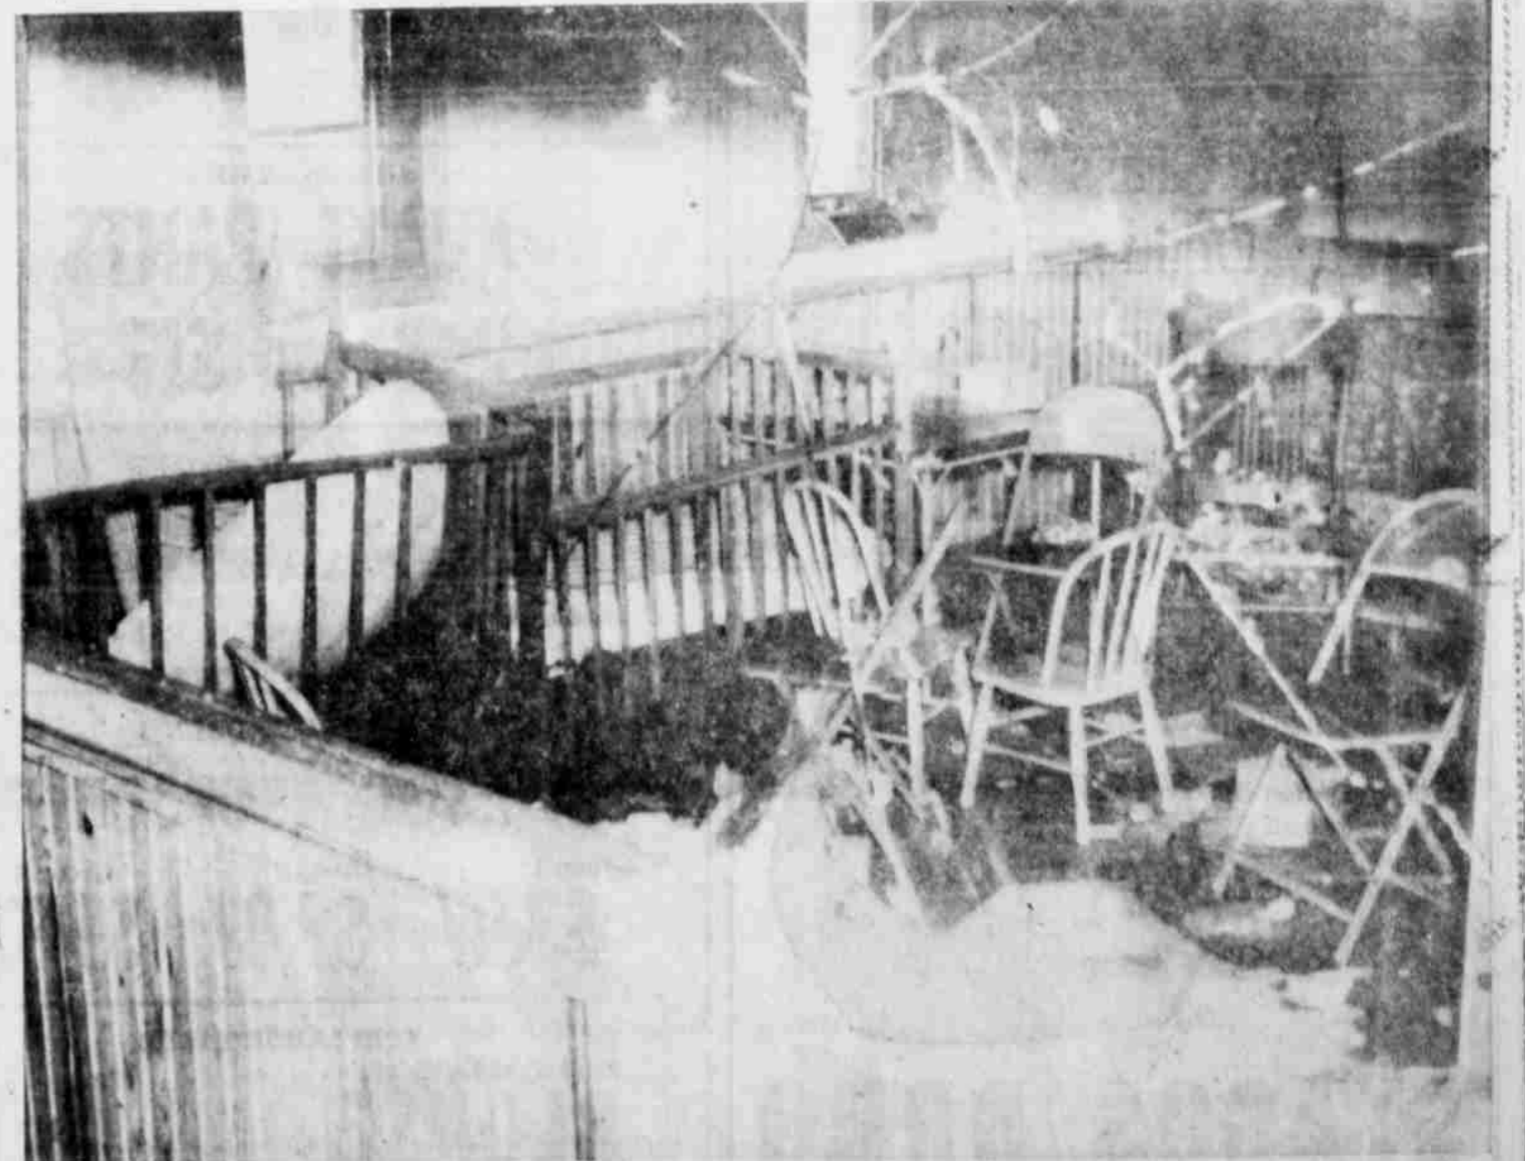

REPORTED AND WET to his knees, Emil Macha helps mop up the district courtroom after most of the water had been literally pushed out of the building with boards and brooms. Macha, an operator in the sheriff's office, first detected something was wrong when he heard water dripping into a light fixture.

FURNITURE, CURTAINS, BIBLES, song books and flower pots were heaved over a wall five feet high and into the baptistry at the Littlefield Drive Church of Christ Sunday afternoon. Most of the furniture was removed before it had been damaged badly.

BROKEN BOTTLES and glasses from the communion services were littered around sanctuary. Grape juice had been poured over the seats. Ellwood Smith discovered the mischief and turned off the water before it flooded this room. This was the fourth visit by vandals to this church within a three week period. Damage the first three times was small.

MOST EXPENSIVE damage was the breaking of this \$100 plate glass window in the nursery. Much of the litter in this room had been cleaned up when this picture was made. The vandals showed an especial interest in this room. Some dolls there were destroyed in the first visit and the window in the right background was broken the night before, but no entry was made at that time.

So. Plains Co-op Hospital Calls Stockholders Meeting

A special meeting of the stockholders of the South Plains Co-operative Hospital has been called by the board of directors for 8 p. m., Thursday, July 28, according to Charles E. Lewis, new manager of the cooperative.

A letter has been mailed to the hospital's 2600 members explaining the purpose of the meeting. Members have been urged to attend in order that the board can acquaint them with the business affairs of the hospital.

According to Lewis, the members will be asked to make decisions affecting the future of the hospital.

The hospital is now staffed by two physicians, Dr. J. H. Kanter and Dr. J. W. Charwell, a native of Sudan, who joined the staff two weeks ago. V. M. Pote man, route one, Amherst, is president of the board.

Nearly News

Some of his underworld cronies must have tipped KOGHE off that the lid was going to pop this week, and that's why he took off for a week's vacation in New Mexico.

There's more crime news in this issue than in all we've put out for the last six months I guess, and it all happened right here in Littlefield.

Some folks are of the opinion that nearly all of it was the work of one good looking, bluish young parolee who hit town the middle of last week. But at least a part of it was from some home grown young hoodlums who think it's fun to bash in each other's skulls, and maybe a few other skulls just for good measure.

We're sorry that so many of these stories are nameless. It seems sort of silly to refrain from publishing names when everyone is talking those names over their coffee cups and have been for days. But actually, it isn't everyone and even if it were, word of mouth is so temporary and the printed word is so permanent. And things sound so much more brutal in cold type.

So we abided by the family's wishes and left out names that might have identified them. They've had troubles enough without prodding their wounds, don't you think?

Mr. and Mrs. Darwin Pierce of Carlsbad, N. M., visited with Mr. and Mrs. Charlie Calvert and Mr. and Mrs. Elmo Jones over the weekend. They took their daughter, Pam, home after spending a week visiting here with her grand parents.

Mr. and Mrs. Guv Willis and granddaughters from Olton and Mr. and Mrs. H. O. Bigham and granddaughter, Othana Smith, spent last week in Chama, N. M.

Mr. and Mrs. Earl Rodgers, Mrs. Ira Bigham and daughter, Marilyn, from San Angelo, have been visiting in the home of Mr. and Mrs. E. C. Rodgers and family for the past week.

Mr. and Mrs. G. W. Willis and granddaughters from Olton and Mr. and Mrs. H. O. Bigham and granddaughter, Othana Smith, spent last week in Chama, N. M.

Everett Attends SW Institute

Jesse Everett, Chamber of Commerce manager, left Friday for Dallas where he is attending a week's course at the Southwestern Institute.

This is Everett's third year to attend the classes designed for Chamber of Commerce managers. He was accompanied by Mrs. Everett who is visiting her mother in Dallas.

VISIT SON

Mr. and Mrs. J. C. Muller returned last week from Chicago where they visited their son, Pfc. Don Muller. They were accompanied by Mrs. Don Muller, who had been visiting her parents, Mr. and Mrs. Bruce Porcher, for the past three weeks. Pfc. Muller was transferred from El Paso to Chicago.

VISIT IN FIELD ON SUNDAY

Mr. and Mrs. Leslie McCain and three-week-old son, Ben Leslie, visited in the home of Mrs. W. C. McCain and Mr. and Mrs. Eldon Hill over the weekend. Mrs. Hill is Mr. Leslie McCain's sister.

Miss Judy Christian returned home Friday after spending last week at Plains Baptist Assembly in Floydada where she was life-guard for the Junior and Intermediate assemblies.

Mrs. Bob Kirk and daughter, Bobbie, left Sunday for Waco where Bobbie will visit with her grandparents while Mr. and Mrs. Kirk attend a convention in California.

POSTMEN GET CARTS

PADUCAH Ky. — After 35 years as a mail carrier, J. E. Lovvo finally decided there must be an easier way to tote the heavy leather bag. So he bought a two-wheeled ready cart. Three other carriers also bought carts. And the post office ordered seven more for the rest of the carriers.

SCHOOL IMPROVEMENTS

So many new things around the Olton school, new curb and gutters and paving around the bus shed on Ninth. The tearing down of the old red brick school building behind the primary school hall to use and constructing new rooms to be used along with the sports activities, constructing new steel frames for seats at the stadium, and now Mr. Don Williams who has been our band director for the past four years has resigned to sell insurance. Also new roofs are being installed on some of our teacherages.

Despite the working progress on the new city well, Olton people are asked to take our watering a little easier and follow the system the city has set up for watering.

Why Won't Take 'No'

Where the school administrators in
 national convention indicated they are not
 to take "No" for an answer in their
 demands for federal aid for schools. And
 probably won't. They will probably
 on demanding of every Congress that
 federal government take over responsibility
 for the schools. But as far as this
 is concerned they will never hear
 "yes".

We are quite willing to pay what we can
 for schools, and we favor just about every
 proposal that the school people make for
 betterment of our educational institutions,
 with the exception of the fact that they all cost more
 money. But we do not want that feeling of
 responsibility for schools to be lost by our
 demands. Once a part of that responsibility
 is shifted to Washington, it will have been
 forever to local units. School boards will
 use rubber stamps for the national ad-
 ministration.

We have already lost much of our control
 of our sense of responsibility to the state
 government. But that is a lot closer home
 in Washington, and the state government
 does not print money, so it must use restraint
 in its spending.

And that is the reason everybody wants
 Uncle Sam's pocket of course. It
 appears to have no bottom. When all the
 dollars have been pulled out, he starts
 printing presses and we can just keep
 pulling in and pulling out money indefin-
 itely.

But unfortunately there is a limit eventual-
 ly to even printing press money, and every
 man who has trod that primrose path for
 long has found it out the hard way. There
 is no depression on earth like the paralysis
 that comes when people lose confidence in
 the medium of exchange. And the school
 board could well throw us into hopeless in-
 dustry if they ever get their nose in the

We need to feel local responsibility for
 schools and keep control decentralized where
 it cannot easily be used for brain washing
 purposes. We are sorry this makes it harder
 for the school administrators to get as much
 money as they feel they should have. But
 they are not alone. None of the rest of us
 has as much money as we think we should
 have either.

Everybody's Job

There is a new movement going on today
 which, though not broadly publicized, holds
 immense significance for every citizen. Def-
 erence of headway is being made toward getting
 the federal government out of competition
 with tax-paying private commercial enter-
 prise. Short of providing adequate national
 defense, this is the most important thing
 on the standpoint of keeping our country
 the sort of place in which we want to live.

Recently 24 synthetic rubber factories
 were turned over to private industry for a
 net profit to the government of \$35,000,000.
 A bill has been introduced which would get
 the federal government out of the city-run-
 ning business at Oakridge, Tennessee, and
 elsewhere, Washington and save the taxpay-
 er \$1,500,000 annually.

An article in Time magazine states that "in
 the eyes of other nooks and crannies of gov-
 ernment, less dramatic ways have been found
 to eliminate competition with private busi-
 ness. The defense department has shut down
 scrap metal operations, 7 bakeries, 9 laun-
 dries, a chain factory, a caustic soda plant,
 cement mixing plants, a tire retreading
 plant, 2 garden nurseries and 4 ice plants."
 The federal government's \$40,000,000,000 in-
 vestment in over 100 different types of tax-
 exempt businesses is getting smaller. It's a
 heartening thing to see somebody patching
 a few of the cracks in the foundations of our

Through A Glass Darkly

By HOWARD HORNE

Can't keep from wondering how Mom &
 Dad ever managed to keep going, back in the
 days when six to ten children made up the
 average family. And a family with running
 water in the house was re-warded as rich
 folks. I can remember getting out of bed at
 4 o'clock and helping mother get the water
 carried to the wash pot and a fire started, in
 order to get the washing done before the
 weather got too hot. Dad would be doing the
 milking and other morning chores while Mom
 got breakfast on the wood stove. By the time
 breakfast was ready Dad would have the
 horses harnessed and fed, The cows milked
 and turned out to the pasture, the hogs slop-
 ped, the chickens fed and Mom and I would
 have a big fire going under the wash pot and
 plenty of wood cut, along with the lye soap
 carried up out of the cellar and breakfast
 ready—and Boy—what a breakfast.

Good ole hot biscuits, home cured ham,
 fresh eggs, home made jelly and butter that
 had been churned the day before.

After breakfast we were ready to start the
 days work. Dad would be off to the field with
 a jug full of water, wrapped in a gunny sack
 and soaked with water to help keep it cool—
 Mom would get the clothes to boiling and
 start washing a pile of dishes that would send
 the modern day housewife to the hospital.
 By the time she finished the dishes, she
 would start dinner, change the clothes in the
 wash pot, make up the five or six beds, go to
 the cellar a couple of times to get a jar of
 something that had been canned by the old
 fashioned method. I can remember the big
 days when we used to can corn. It was al-
 ways my job to help gather the corn, shuck
 it and get the silks off the stuff and help clean
 up the mess that was always made. We won't
 mention the work Mom used to do in the
 garden, and sometimes in the fields, along
 with other chores such as making and can-
 ning hominy, curing meats, making almost
 all the clothes for the whole family.

Of course, times have changed. The aver-
 age family of today is only four and we have
 all the modern things that Mom & Dad never
 heard of, such as bath rooms, automatic
 hotwater heaters, washing machines, dryers,
 deep freezers, vacuum cleaners, store-bought
 canned goods, vegetables, bread and clothes.
 I am wondering just how many housewives
 under 35 years of age, ever made a quilt,
 churned some butter, did any canning, made
 lye soap, washed clothes on a rub board, after
 they had been boiled in an iron pot and
 then ironed them with a flat iron. Why—
 washing and ironing today in an air condi-
 tioned room with an automatic washer, dryer
 and ironer leaves the sweet little woman
 so tired at the end of the day she just can't
 hardly open the refrigerator to drag out
 those heavy ole cokes and lunch meat for
 sandwiches on bread that was brought home
 by Dad.

The following was taken from the Lamb

Lamb County Population is 17,449. In-
 crease of 16,274 in ten years. Report shows
 2,380 farms in county.

free enterprise economy.

As long as a person earns his income
 through self-employment or by working for
 another private citizen, his voting decisions
 are based upon what he thinks best for the
 country or the community, and they do not
 have a direct relationship to his means of
 livelihood as when he depends on government
 employment for work.

To keep our political liberty and our rep-
 resentative form of government, and to get
 most efficient production, the people must
 maintain their right to make a living without
 regard to political consideration. That means
 curtailment of government in business, and
 that's everybody's job.

RIGHTS AND LIABILITIES

Rights can be assigned but liabilities can't.
 Or, to state it another way, ordinarily you
 can sell or convey what you own, but you
 can't free yourself from your debts by get-
 ting somebody else to promise to pay them.

The usual application of this is obvious.
 If I borrow \$100 from you and promise to
 pay it back, I can't release myself from li-
 ability to you for the \$100 by getting my nei-
 ghbor to promise to pay it for me. True, he
 may become bound to pay it also, but I am
 also liable, unless you, as creditor, agree to
 release me and substitute him as debtor.

This simple principle, when involved in
 a more complicated contract, is sometimes
 lost sight of. For instance, Adams sells his
 house to Brown under a contract which calls
 for monthly payments of \$100. After making
 payments for about three years, Brown de-
 cides he wants to sell to Carver who is will-
 ing to pay him the amount of his property
 interest (his equity) and to assume and pay
 the remaining \$100 monthly payments as
 they become due.

Now Brown ordinarily can assign his in-
 terest in the contract to Carver with or with-
 out the consent of Adams (unless the con-
 tract calls for the consent of the vendor). He
 can do this because it is a property right
 which he owns.

But because Carver has assumed and ag-
 reed to pay the remaining balance owed
 on the Adams contract, Brown isn't released
 from liability even though Carver has also
 become liable. The only one who can release
 him is Adams. Brown can't without Adams'
 permission, erase his name from the contract
 and make a stranger to the contract the only
 one liable under it. Adams has the right to
 hold Brown to his original promise.

If you want to stir up memories some hot
 afternoon, get out an old address book. If it
 goes back several years, what a collection
 you'll find!

The friend of a friend who visited in
 town from Ohio: You gave a party for her,
 although you can't remember now what she
 was like.

The parents of your child's first college
 roommate. When he was homesick, they in-
 vited him for a holiday, so you send a greet-
 ing each year.

School friends, who came through town
 during the war: You were putting up apples,
 but you dropped everything and got a cold
 lunch on the table, and it was fun.

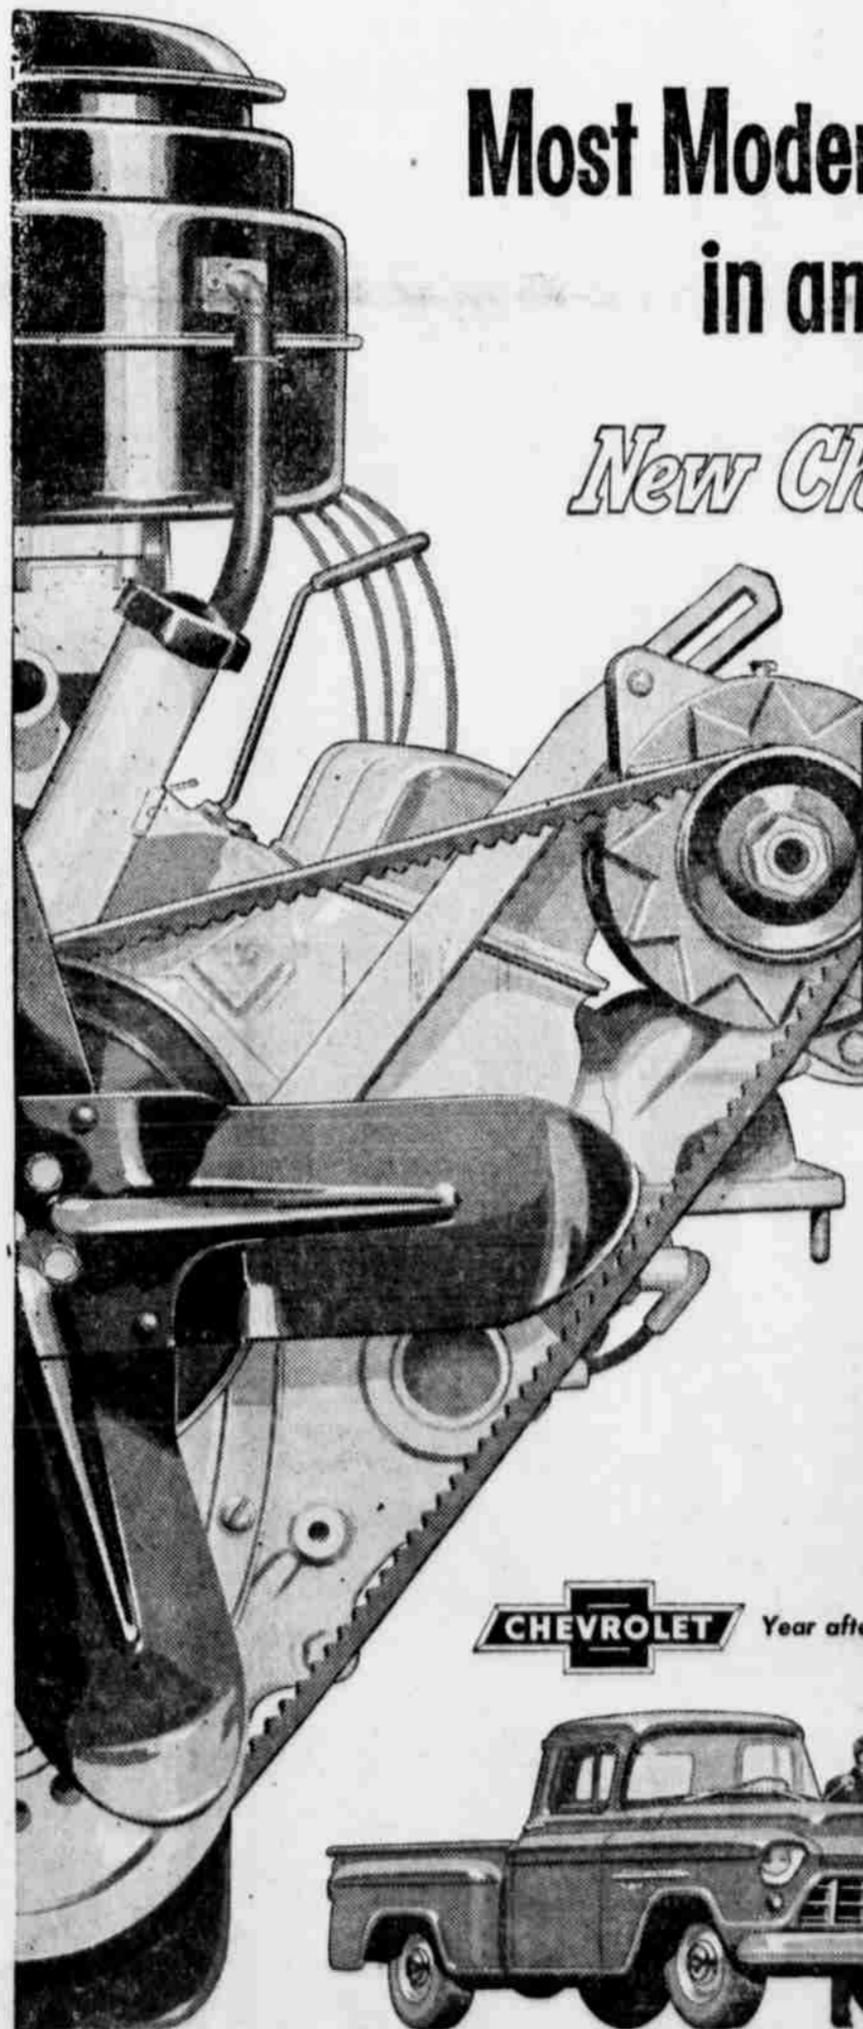

The spouse's college roommate, now a fa-
 mous cartoonist, who came with his wife
 from Florida: The four of you sat up half
 the night catching up on what had happened
 in the last twenty years.

The cousins, with whom you played as a
 child: Can't even remember their husband's
 names unless you write them down.

Friends made during the war, business ac-
 quaintances who have moved away, some-
 one with whom you share a hobby, people
 who have been kind to a loved one—so many
 names, so many memories! Did you truly
 mean to write when you put those names in
 your book? A few addresses have been chang-
 ed four or five times — someone has kept
 those friendships alive.

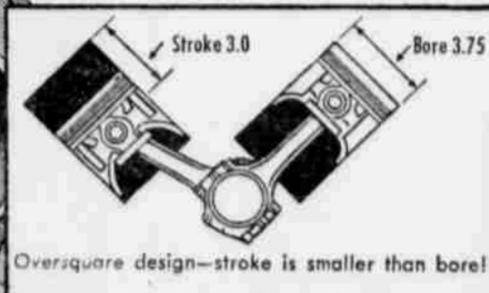

Some of these people you could write any
 day and the letter would be welcome; oth-
 ers — if they remember you at all — would
 wonder why in the world you had kept that
 address.

The paths we cross make life interesting.
 Some, like the lines drawn idly in the sand,
 weren't meant to be permanent. Others, etch-
 ed into the metal of real understanding, will
 remain a part of our life pattern forever.

Most Modern, Shortest Stroke V8's* in any leading truck!

New Chevrolet Task-Force Trucks

Here's the measure of a truly modern V8 engine—Chevrolet's advanced oversquare design. It means less friction . . . greater efficiency . . . longer engine life!

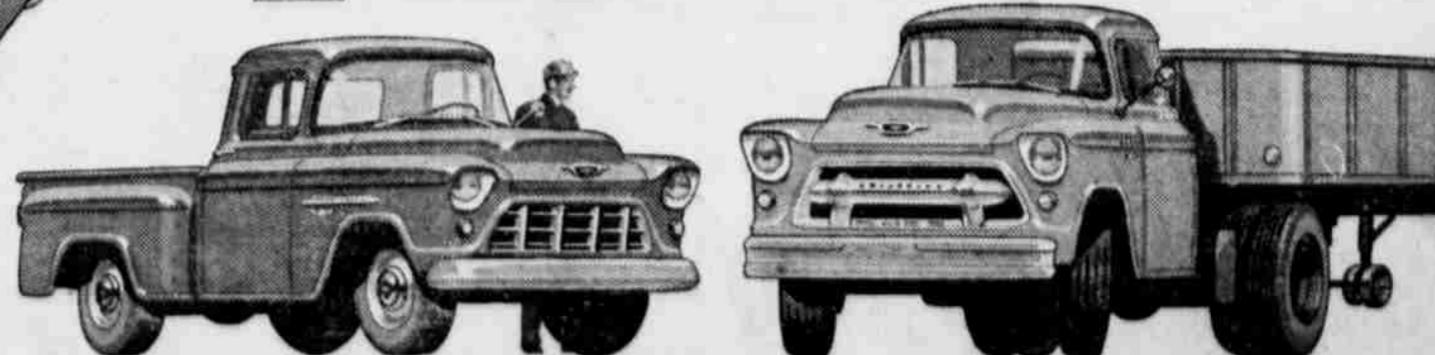

Here are more dollar-saving reasons why new Chevrolet trucks offer you the most modern V8's* your money can buy!

- MODERN 12-VOLT ELECTRICAL SYSTEM**
 Double the punch for quicker starting and more efficient ignition for finer performance.
- GAS-SAVING HIGH-COMPRESSION RATIO**
 With a high 7.5 to 1 compression ratio, Chevrolet's new V8 truck engines squeeze extra power—and work—out of gas.
- EXTRA-HIGH POWER PER POUND**
 Since these V8's deliver high power per pound of engine weight, more

- power is available for hauling.
- ADVANCED AIRCRAFT-TYPE VALVES**
 Valve action is more positive for finer, smoother performance.
- FLOATING OIL INTAKE . . . FULL-PRESSURE LUBRICATION**
 Oil intake selects the cleanest oil for positive, full-pressure engine lubrication.

AUSTIN, Tex. — Second round polo shots for Texas first and second graders were to begin this week.

Enough Salk vaccine for 299,700 inoculations arrived in Austin last Wednesday and was put in the State Health Department's refrigerated vaults. Local officials began arriving at school to pick up their portions.

Only those who stated they were prepared to use the vaccine were given allotments, said Dr. Henry Holte, head of the Department.

Ell Lilly Company of Indianapolis, the same company which supplied the shots given Texas children in April, sent the shipment. Preparation was reportedly under the strict new safety standards which went into effect May 25.

Half a million Texas school children received first shots last spring. Summer vacation absence is expected to cut the figure on the second round.

Folio cases over the state had risen to 618. The Health Department reported last Thursday.

BANK DEPOSITS HELD TAXABLE
Taxation of bank deposits and cash has apparently been struck on state and local taxing agencies by a Texas Supreme Court decision.

In a Harrison county case, the high court ruled that money in bank accounts, such as regular personal savings or education funds, is not to be taxed. The ruling is a victory for taxpayers.

Two lower courts were overruled by the decision. Now that it is upheld, the ruling is a victory for taxpayers.

Downstairs the same decision would be good news for the state, which has been depositing its funds in banks.

Cotton Quality Can Be Predicted By Studying Weather Conditions

University of Texas researchers have developed tests for predicting average fiber properties of cotton a month to six weeks before harvest.

The tests, based on relationships between weather and fiber properties should bring better prices to producers and help lower merchandising costs, Research Scientist Joel Hembree of the University's Cotton Economic Division, said.

Use of the technique will give the cotton trader more time to plan and carry out marketing and manufacturing activities which depend on annual crop results. Merchants and manufacturers will know earlier whether cotton with certain properties will be available nearby or hundreds of miles away.

The tests can be used to predict fiber properties of cotton in

a general community but not cotton in specific bales or on specific farms, Hembree emphasized.

Scientists long have known that larger amounts of moisture mean decreased fiber strength and coarser fibers, while smaller amounts mean stronger fibers with finer diameters. Research Scientist Bill Crumley of the Cotton Economic Research Division compiled data which reveal more precisely the nature of those and other environment-fiber property relationships. He based the data on comparisons between weather reports and fiber-property reports from all parts of Texas for six years.

The University project was supported with funds provided thru the Texas Cotton Research Committee composed of the heads of Texas A&M College, Texas Tech-

Farm Income Up 2 Percent

AUSTIN—Texas farmers' income has increased, despite a general decline in prices received for farm commodities, the University of Texas Bureau of Business Research reports.

Farm income was up 2 per cent during the first five months of 1955 compared with the same period of 1954, although prices paid to farmers for all products averaged 4 per cent lower this May than in May, 1954. The greatest increase over last year has been in income from cattle, up 4 per cent. At the same time, there was a 15 per cent decline from last year in prices paid for all meat animals.

FAIR TAX TRIAL POSTPONED

Date of the Austin trial of George Bert on income tax evasion charges was changed last week from July 18 to Sept. 6.

Postponement was because one of Bert's attorneys was busy with another case.

Fair had petitioned the Fifth Circuit Court of Appeals at New Orleans for a dismissal, contending the trial should be held in Laredo instead of Austin. The appeal was denied.

JOHNSON HEARING DELAYED
Hearing on an application to take additional water from the Pedernales River to irrigate U. S. Sen. Lyndon B. Johnson's farm has been postponed, August 8 is the new date set by the State Board of Water Engineers.

Twenty-four downstream ranchmen protested the application when it came to last week. They said water already being diverted to the Johnson land deprives them of stock water and increases the natural flow that fish are dying and polluting the stream.

Monte Harris' attorney, asked for the later hearing. He said Johnson's wife desired to be heard personally if there were objections. She is now in Washington where the senator is recuperating from a heart attack.

Cristoforo Was Here

Rossiter Smith, editor of the weekly *Tri-lingua* at Gouverneur, N. Y., the most widely known weekly news in the United States, is on a one-half month tour of Europe, as the special correspondent of the *Lamb County Leader* and other U. S. newspapers. The purpose of his visit is to "have a look at the background of the visits after World War II to attempt to sketch the picture of western Europe, from the perspective of their customs, conditions, their political outlook on domestic affairs."

The first in a series of articles.

CRISTOFORO WAS HERE

ON ROSSITER SMITH

Italy—"In the Evening" the hand steering, said it calmly, matter in a flat voice, this tall, slender man who had a big ship much as a pilot controls an airplane. The man's eyes were on the many new devices and safety devices during and since World War II. The man's business of sailing the ship, safer and more comfortable. There were reflections—memories, perhaps—in the blue eyes of Captain Jacobson, skipper of the SS Constitution since she finally slid down of the Bethlehem Steel shipbuilding division in Mass., back in 1951. Long years of experience led her and control her design—especially multitudinous mechanical manual practices which and her sister ship, the *Constitution*, the two of the safest and, under any flag.

When it comes to fire control... We went off the bridge into an cabin and now stood in a huge wall panel, marked compartments, a sort of floor plan of the end of the lenses of red and blue light in each. In event of emergency, close every water-tight door. Then there was a... which constantly tests the air in every cabin in every part of the ship for any concentration of smoke which might in the air.

It'd be a little difficult to say, he was saying that most of the cabin compartment walls have a... of fine wood... although they're constructed of steel panels... inflammable... a whole series of... quick-acting... designed to contain any fire in any part of the... these are only part of a... machine... radar and... and navigation... and radio... the world's largest... (some of them big... hold 150 persons), and... able to... on the high seas... and ride... in the features of this... kindly... white... retains just a trace of... Sweden in his accent... he wished one of us a "yawnt" (jaunt-through)... For now he was master... ship, the command... officers and men of... all geared to the... and appetite of... passengers who had... entrusted their lives to

the care of this splendid ship and its crew—without, perhaps, thinking too much about it. In the ancient traditions of seafaring men who come to love the ever-changing sea, he finds his job enormously satisfying and fascinating, even after 121 Atlantic crossings in the same vessel.

The skilled professional, in fact, became immediately apparent in our genial host, as he paused in conversation with his guests on the bridge, to give an order or receive a report from one of his officers—but even more so in the terse comment that "in the evening, we prefer the hand steering," the instant impression that despite the finest mechanical devices men's minds have yet achieved, Captain Jacobson plays, it safe, relying as most good seafaring men have done since the days of sail, on the human element as the real safeguard when emergency threatens.

The captain of a ship at sea is a legally constituted tyrant in his own right, but it's probably not surprising, actually that both passengers and crew look up to the skipper in admiration—not only for his skill and ready apparent quality of leadership, but also because the captain of a modern ocean liner must be something more than a seaman and leader of men. For nearly a week now—seven days of a delightful but nine-day cruise—he has in addition, combined the manifold attributes of masterful conversationalist, host at the captain's dinner, master of ceremonies in presentation of prizes in the bridge contests, timekeeper and shuffler of tournaments and for the passengers' routine party, diplomat and public relations officer in speaking and entertaining the inevitable and frequently numerous V. I. P.'s—not to mention dozens of others who think they are or would like to be—on this or on some other voyage.

A huge leather-bound autograph album in which an exact copy of his name appears in John Hancock fashion without troubling about the address and an impressive file of photographs attest to the host of famous and interesting people he has met aboard the *Constitution* since her maiden voyage four years ago.

On this cruise, for example which left New York at high noon June 29th and docks in Naples July 8th, the inimitable Garbo maintains her self-imposed solitude, despite frequent and occasionally ridiculous efforts on the part of fellow passengers to entice her to speak. But in the concern for and courtesy to the passengers which are a part of *Constitution* service, the ship's company has made every effort to insure her privacy and comfort. One of Italy's most influential business-

men returns with us to his native land, disembarking at Naples when we do. An American of Greek descent, once a poor emigrant boy and now the owner of a sizeable industry in the East, takes his wife home with him to Athens. Indeed, the passenger list is representative of nearly all nationalities and most regions of the United States—the North and the East, the Middle West, the Deep South and the Northwest. In fact, two of the four cars lifted out of the forward cargo hold and swung down into the waiting lighter when we anchored the other night were from British Columbia and Manitoba. (Parenthetically, "Gib" looks not at all like the insurance ad, but is none the

less impressive.) As for the ship's company itself—the officers and crew—this, too, is both international and "all-American," from the highly-trained Russian chef who wields a delicate but forceful whip and over a huge and sprawling but impeccably clean and intricately coordinated galley, to the Filipino steward and the Italian elevator boy. The deck steward who shakes a cautioning finger at the kids about diving or jumping in the swimming pool on the after deck (it might splash some of the sunbathers in the deck chairs just beside it) is a Scot, while the purser refers us to friends and relatives in London. The officer who showed us through the ship on a specially conducted tour is a Cuban, with not much good to say for the Batista regime in his native island while the members of the combo orchestra which plays in the restaurant are both blond and brunette.

Withal, it still seems enough of a miracle to cause one to rub his eyes and wonder if it really is possible after days of sailing across a calm, ever-changing yet nearly always empty ocean, to see the green and terraced Azores rise up out of the morning mists, even as Columbus must have seen them centuries ago; finally, two days later, to watch the land come into view on either hand as you enter the narrow, eight-mile-wide Straits of Gibraltar—that misty land on the right, shrouded in a sultry afternoon haze, is Africa, the shores of Morocco; while over here's Spain, except for that tiny spit of land which reaches out to the highly fortified Rock spiked with its forest of radio and radar antenna—this, of course, has been owned and jealously guarded by the British for more than two centuries.

The blue, blue Mediterranean is so wide that near inshore as we go to skim the edges of the Balearics finally to make the rolling approach to Cannes and eventually off Gibraltar, carried Canadian licenses—from British Columbia and Manitoba. (Parenthetically, "Gib" looks not at all like the insurance ad, but is none the

measure of men and ships. "This" the Genesse will tell you, "is the original home of Cristoforo Colombo."

HISTORIC PAPER
RICHMOND, Va. (AP)—H. Hill Sandidge Jr., wondered when the house he bought through J. B. McCall Jr. was built. McCall did not know.

Sandidge and his wife, Joan, were clipping away old plaster for a new coat when they made a find—a newspaper, the Richmond News Leader, stuffed behind the plaster. Quickly, they noted the date: Jan. 4, 1894.

McCall, who once wondered for the paper, quickly dispelled any idea that it was a "historic" home. He knew the answer: Typographical error.

No wonder this Hardtop is the HIT OF THE YEAR!

IT'S 4-DOOR HANDY
—and priced for action!

This one you'll just have to see. It's a beauty. It's a brand-new kind of car. It's a Buick Riviera with four doors. And to top it all—it's a SPECIAL—the lowest-priced of all Buick Series.

Know what that means? It means you can have the newest hit in hardtops—the most advanced new body design yet—and you can have it in the price range of America's smaller cars.

It means you can have a steel-roofed car with the long, low, sweeping sportiness of a convertible—with no center posts in the side window areas—and with two separate doors to the rear.

And you can have all this hardtop beauty with sedan comfort and convenience at the easy-to-take modest extra cost of a 4-door model over a 2-door model.

But if you think that's all—listen: This gleaming grace of automobile is a Buick through and through—a '55 Buick, from the hottest-selling line of Buicks in all history.

So here you have the soft, firm steadiness of Buick's all-coil-spring ride and torque-tube stability. Here you have Buick brawn, Buick solidity, Buick handling ease, Buick styling and visibility and interior luxury.

And here you have the lift and life of vigorous new V8 power of record might—and coupled to the spectacular performance of Buick's Variable Pitch Dynaflow.*

Why wait a day longer—when you can come in right now and try the first true hardtop with the extra comfort, room and convenience of a full-sized 4-door sedan?

Drop in tomorrow, first thing—for a look at the price, and an idea of the whopping-big trade-in deal our huge sales volume permits us to make.

*Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on ROADMASTER, optional at modest extra cost on other Series.

Now—Biggest Trade-in Deals ever on the Biggest-Selling Buicks in History! Come in and see!

Thrill of the year is Buick

AFTER THE TORNADO'S FURY
—A car lies against two tattered trees on a farm near Marshall, Minn. after a tornado hurled it 100 yards through the air. At right, some clothing hangs from a broken tree. The farm was totally destroyed, and its owners seriously injured, in the storm. One child was killed on another nearby farm.

Texas Today
By Bruce Henderson

SAN ANTONIO — A "great debate" echoes over the Trinity University campus: Should freshmen wear coonskin beanies? The question was sparked by the Davy Crockett craze. Around these parts Davy looms larger than a dim legend. The Trinity campus is just a rifle's shot northwest of the Alamo, that rustic Spanish mission where the Texas hero and "King of the Wild Frontier" made his famous last stand in 1836 as Texas fought for inde-

pendence from Mexico. Some Trinity upperclassmen think it might be nice for freshmen this fall to pass up the traditional beanies for coonskin caps. They made the suggestion at a planning session for "Fish Week," a period early in the fall when first-year students are taught the facts of college life.

They touched off a word battle in the summer student body, about half the fall campus population.

"Kki stuff," says opponents of the coonskin beanie. Others call the idea, "silly, corny." Some have even said: "For the birds." Others ask, "What's wrong with the beanie?"

The pro-coonskin crowd counters by pointing to current efforts by a special chamber of commerce committee to promote "Davy Crockett Time in San Antonio."

According to Leon Taylor of the Trinity of the Trinity public relations office, the committee has urged businessmen and insti-

tutions to whoop it up for Davy. One coonskinner read a paragraph from what he called a chamber news release: "The hushed confines of the Alamo, where Crockett, along with Bowie, Travis, Bonham, and some 180 courageous patriots lost their lives in the battle for Texas liberty, keynote the vast number of varied and intriguing historic and scenic sites awaiting the San Antonio visitors."

Faced with this, how can any body oppose coonskin beanies? The pro-coonskin crowd asks, "We ought to tie in to this patriotic theme," says one, who adds that requiring Trinity Freshmen to wear the Crockett headgear will be "fun," "different," and "in keeping with the pioneer spirit of 87-year-old Trinity."

It wasn't known when the argument will be settled. Classes are continuing.

The day on Mars is about half an hour longer than the day on Earth.

COLLECTOR COLLECTS
DES MOINES, Iowa — An employe in the city assessor's office, checking on a delinquent tax record, came across a report on his boss, City assessor Bert Zuber.

Zuber checked into the record and sure enough, found he had neglected to pay personal property tax of \$3.24 for the last half of 1951. With penalty, the amount due was \$4.18. Zuber paid up.

REDDY'S Farm Report

FROM THE AGRICULTURAL DEVELOPMENT DEPARTMENT
SOUTHWESTERN PUBLIC SERVICE COMPANY

Aeration and conditioning of small grain in flat storage on the farm is successful and profitable according to information compiled by the Agricultural Engineering Department at Texas Tech College in Lubbock, and other reliable sources. The work at the Lubbock College was in cooperation with the Texas Agricultural Experiment Station. Grain was placed in storage in October 1952 and complete records were kept on operating costs, temperatures, and moisture of the grain at all times for the past two seasons. Ira Williams, Head of the Agricultural Engineering Department, and Eldred Jordan, instructor, supervised these tests with the technical cooperation

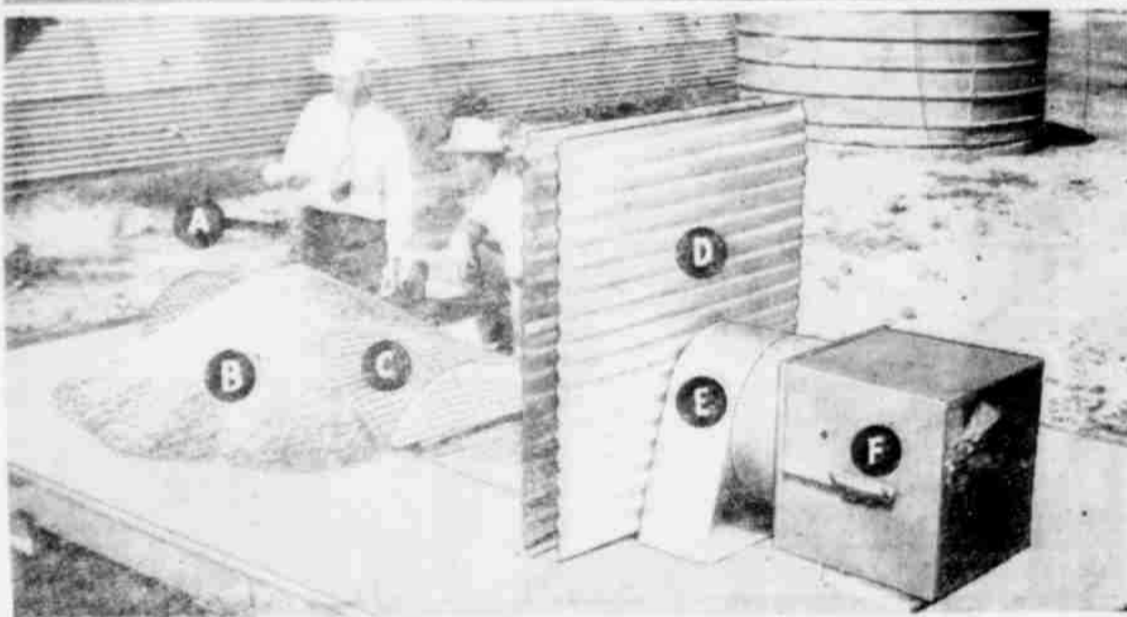

of the Steel Belt Products Company in Lubbock. The equipment at the College includes a 14' x 32' gipsometer building with an expanded metal mesh air duct tunnel extending the entire length of the building. A high speed three-horsepower electric motor drives the semi-pressure fan that is attached to the outer end of the air duct tunnel. Outside air is pulled through the duct, carrying out moisture and heat, both enemies to grain storage. Cost is small, particularly in view of the fact that moving and the turning of grain is eliminated. Also, any fumigation of grain that might be necessary is simplified. You

may get the details for the operation from Mr. Williams at the college, your nearest supplier of grain aeration equipment, and your county agricultural agent.

It is reported by Steel Belt Products Company engineers that this three-horsepower electric fan can safely aerate, fumigate, and keep about 72,000 bushels of grain in good condition in flat storage. If drying is desired, special attention should be given to the grain and not more than 3,000 bushels of grain should be dried with this unit in one operation. The job of keeping the grain cool, free of weevil and bug contamination is simple when this aeration process is used on the farm.

The cost of this equipment is fixed, the cost of electric power is insignificant; so barring poor weather or a poor market, your good management can increase your grain profits with aeration equipment.

Exposed model of aeration equipment clearly shows (A) conditioned grain as it flows from Ira Williams's hand; (B) simulated grain storage over aeration tunnel; (C) expanded wire mesh tunnel with screening pulled back; (D) bulkhead section as it would be in a flat grain storage building; (E) duct leading from fan to air tunnel and (F) high-speed three-horsepower electric semi-pressure fan. Fred McDonald, Steel Belt Products Company consults with Williams.

Nazarene Church Young People At Oltun Zone Rally

Members of the Nazarene Young People's Society went to Oltun July 14 to attend a zone rally. There were 15 persons who attended this construction, study and worship.

Among those attending were the president of the local society at First Church of the Nazarene, Mrs. Hazel Bolton, and the vice-president, Mrs. Lela Ayers. Classes were given on five different phases of the youth work in the church. A report of the rally will be given by those who went to

night in the 400 service at the church.

Local Nazarene Epworth Missionary members portrayed the foreign work last Wednesday night in a play entitled "The National Workers on the Field." Mrs. J. C. Montgomery was director of the play. Past members were: Pat Hazel, Coel Lynn, Lela Ayers, Janis Montgomery, Hazel Bolton, Robert Montgomery and Eugene Bolton. An instrumental offering was received for the foreign missionary work.

From 1951 to 1953, the price of milk rose about 50 per cent compared with a 150 per cent increase in food costs, says the Bureau of Labor Statistics.

A PRIVATE AFFAIR

CAMP PENDLETON (Calif.) — A corporal and a private pinned the new stars on U. S. Marine Corps Brig. Gen. Randall M. Victory when he was promoted from Colonel.

They were his sons, Cpl. Randall M. Jr. and Pvt. Wallis O., both in training at Camp Pendleton, where their father is assistant commander.

BOOTLESS REGRETS

AUSTIN, Tex. — On his 85th birthday W. J. Pannell recalled when he came here 84 years ago, land could be bought for a pair of boots.

How come his folks didn't buy a chunk of it, "We didn't have the boots," he said.
