## TA Complains On Afternoon Congestion Sidewalk And Parking Planned For Westside Primary

Complaints on traffic conditions on Westside av. primary school during the afternoon when parents pick up their children were discussed Monday evening at a meeting of the Littlefield Independent School Board district. Representatives of the P. T. A. committee appeared before the board of trustees and explained that traffic on the school becomes congested at the children are to be picked up at inadequate parking facilities. The board voted to explore the possibility of providing a sidewalk and an off-angle parking location. Another discussion centered on the \$375,000 bond issue for new construction and repair.

## Hewitt No. 1 Is Producer

Some 47 feet of saturated lime was recovered in coring the L. C. Hewitt No. 1 early this week. The hole was treated with 1500 gallons of acid and immediately afterwards swabbed 140 barrels in 9 1/2 hours. It was 12 per cent water and basic sediment.

The Livermore rig was moved Wednesday one location south to drill the L. C. Hewitt No. 1, which is in city drilling block No. 103. By the time it is completed Livermore expects to have a permit to drill on lots belonging to J. O. Garlington in block No. 92. This is in the northwest corner of Littlefield.

Livermore's first well, the high-school No. 1 made 175 barrels of oil on its potential test. It is expected to receive an allowable of 73 barrels per day.

Hall & Stewart's drilling rig is still stacked on the Foley lease just north of town after drilling four farm-out wells just outside the northwest corner of the city. They are expected to drill more farm-outs here before moving the rig.

## Two LHS Players Hurt In Scrimmage

Injuries to two Littlefield high school players in a practice scrimmage Monday may result in a defensive set back for tomorrow night's game with Muskogee. Coach Gene Mayfield said yesterday.

Bobby Orr, quarterback, suffered a mild concussion and was taken to Littlefield hospital for treatment. He was released Tuesday. Bob Murdock, guard, suffered a separated shoulder in the same scrimmage session. Both will be out of tomorrow's game.

Mayfield said Milton Vaughn, halfback, who was hurt in the Levelland game, may be back in action tomorrow. "We are awaiting an OK from the doctor," Mayfield said.

## 15,000 Cotton Bales Ginned

The Littlefield office of the Texas Employment Commission reported yesterday that some 15,000 bales of cotton have been ginned to date and dry weather has seen a return of pickers to the fields.

Some 150 new pickers have reported in the county but there is still a shortage. Latest count shows there is approximately 10,000 pickers in the county and the number is expected to be around 15,000 next week.

## LHS Choir Attends Fair

The Littlefield high school capella choir left Tuesday for Dallas where it represented this area at the state fair. The choir is expected to return tonight.

The choir presented a 20-minute concert in the Fine Arts building in Dallas Wednesday afternoon. Wednesday night they appeared in the Cotton Bowl with the massed chorus which consisted of choruses from over the state. They were accompanied by the massed band, which included the Dimmitt high school band. Over 1000 musicians performed in the program which was part of the School Days pageant of the state fair.

Accompanying the group to Dallas were Mrs. Ray Hulise, Stillwell Russell, Mrs. Virrell Roberts, Mr. and Mrs. Richard Daughtry, and daughter, Dawn, and Robert Trotter. Daughtry is director of the choir. The group made the trip in two school buses and each of the 46 students making the trip paid his own expenses.

## Turner Corn Yield May Set State Hybrid Crop Record

Lamb county may lead the State of Texas in the bushel-per-acre yield of hybrid corn this year. That was the word from County Agriculture Agent Dave Eaton yesterday when he sent in entries of the Turner brothers of the Pleasant Valley community.

Doyce Turner, an old hand at growing corn, this year brought in the whopping total of 215.7 bushels per acre. He used an average of 1/2 inches of water to an acre to produce one bushel of corn of 1/2 cents per bushel.

The Turner brothers—Doyce, Royce and Allan Dayle—each had five acres of Texas hybrid number 30 planted May 6. Their average planting spacing was 13 inches with four 40-inch rows. There were two cultivations on each plot.

In January, the brothers plowed under to a depth of 12 inches, some three tons of decomposed cotton burs. Then they added 200 pounds of 16-20-0 Amophos which was applied two inches under the seed at the time of planting. They had a planting rate of 12 pounds of seed per acre.

Doyce—the lucky brother—irrigated four times for a total of 128 inches of water and got his 215.7 bushels-per-acre yield.

Royce watered four times, applying 61 inches of water. He produced 167.5 bushels per acre, or one-third inch of water for one bushel at a fertilizer cost of 5.8 cents. Last year Royce was second high in the state hybrid-corn contest with 137.4 bushels.

Allan Turner irrigated four times applying 32 inches of water for a 93.4 bushel-per-acre yield, or 3/4 inch of water per bushel at a fertilizer cost of 10.5 cents per bushel.

Eaton said the highest hybrid corn yield per acre in the United States was 253 bushels, set in Iowa several years ago.

## Rites Tomorrow At Sacred Heart For Beloved Priest

Littlefield and Levelland's beloved Catholic priest—Rev. Father Florence Michael Higgins—was killed early Tuesday evening in an automobile accident near Sterling City, Texas. Funeral services will be held in Sacred Heart church here tomorrow at 10 a.m. Burial will be in Littlefield under direction of the Hammond funeral home.

Father Higgins

According to Mrs. Tom O'Brien of Slaton, Father Higgins was en route from Rosanna to Midland to buy furniture for his church here, when the accident occurred.

"His car evidently went out of control and ran off the road," Father O'Brien said. He related that Father Higgins was thrown some 30 feet from the car and was probably killed instantly. He said his neck was broken and he received many other broken bones. The car was demolished.

The 58-year-old priest came to this country from Ireland 34 years ago and after a return visit to his native land several years ago, remarked he was homesick for West Texas.

A zealous priest he held mass at both Sacred Heart of Littlefield and St. Michael's church in Levelland each Sunday and traveled extensively in this area.

Surviving is a sister, a nun at St. Joseph's convent, Webster Grove, Mo. There are also several brothers and sisters living in Ireland and numerous nieces, nephews and cousins in the Chicago and New York areas.

St. Michael's church in Levelland was named for him. His bequest offering mass in the Levelland Legion Hall in 1944, and 1950 saw the completion of the church which seats 300. He became pastor of Sacred Heart in 1941. In March of this year, he broke ground for the new Sacred Heart church here, which is still under construction. Levelland has about 800 parish members and there are approximately 600 members at Sacred Heart.

On June 15, 1948, Father Higgins celebrated his 25th year of ordination as a priest.

## Junior High Parents Go 'Back To School' Tuesday

Parents of Junior highschool  
students will go "Back to School"  
Tuesday night to familiarize them-  
selves with the school, the faculty, and the  
study methods being used.  
Parents will convene at 7:30 p.  
m. in the Junior highschool audi-  
itorium. School principal Forrest  
Martin will briefly address the  
group. From there each parent  
will follow a schedule of short  
sessions in which his child is a

member, in order to meet the  
teachers, discuss home study prob-  
lems, and become familiar with  
the instruction methods and study  
material.

### Spade Farm Bureau Shows Home Ec Department Monday

**SPADE** The Spade Farm Bureau held its monthly meeting in the high school gym Monday night at 8 p.m. with the president, Preston Pointer, in charge.

The group sang "America" and "America the Beautiful," led by Glennis Holly, a high school junior, accompanied by Mrs. Burke-Jess Emmert.

Jess Emmert was elected to represent Spade as a member of the County Board of directors. Ted Hutchins was chosen as the representative to the state F.B. Convention, Jack Wintersberger, Lamb County F.B. advisory agent, gave a short talk. County Agent, Dave Eaton, spoke on "High Food Costs."

Miss Tom Pointer, county F. B. Queen, expressed her thanks to the Spade F. B. for their gift to her.

Following the business session, Mrs. Burke-Jess Emmert presented a program with Miss Wanda Bryant as an audience of courtesy.

Glennis Holly sang "Don't Rob Another Man's Castle," accompanied by Billy Don Guthrie on the guitar, and Mrs. Burke on the piano. Other numbers included a piano solo by Yvonne Tate, a vocal solo, "Kiss Me in a Basket," by Evelyn Dean, a duet duet by Wanda Bryant and Glennis Holly, "Have You Talked To The Man Upstairs," and a clarinet solo by Janella Hale. "Let Me Call You Sweetheart."

The Spade string band consisting of Jerry Neal, Jimmie Morgan, Don Mote, Ray Don George, Roy Charles Dodson, Delvin Walden, Robert Tomlinson, Mary Lois Tate and Max Harris played two selections. "The Tennessee Waltz" and "Little Brown Jug," a vocal solo, "When Your Hair Has Turned To Silver," a vocal solo by Wanda Bryant.

The high school chorus consisting of Carol Ann Hazzop, Faye Tate, Betty Brown, Ly Stubblefield, Kay Hooten, Betty Byars, Virginia Grogson, Glennis Holly, Wanda Bryant and Janella Hale, sang "My Blue Heaven."

A guitar solo was played "Kentucky Waltz" by Billy Don Guthrie, and a vocal solo "Little Things Mean a Lot" was sung by Glennis Holly.

At the conclusion of the musical program, Edward Mitchell, secretary of F.B., introduced Mrs. Lennie Harn, home ec. teacher, and presented her a cash offering of \$15 for home economics department equipment from F. B. members. The girls also received cup towels, large glasses, fruit glasses, potted plant, dishes and material for a table cloth. Mrs. Harn introduced the F.H.A. president, Glennis Holly, who in turn introduced her chapter mother, Mrs. Lindell Holly, Mrs. Hortelcher, also a chapter mother, who was unable to attend. The chapter fathers are Preston Pointer and E. H. Gray. Glennis then introduced the F.H.A. "Devon Boy," Donald Mouser

Alvin Webb, who, as any golf er will tell you, is the luckiest man alive, didn't get a scratch Monday when a collision curved in the car door right beside him. Bu poor Jamie, who hasn't had an luck since some time before she married Alvin, was sitting on the "safe" side and ended up with a beat up nose.

But at least she has a police accident report to prove how she got beat up. That's more than had after I ran into the door last week. Nobody will believe that what happened except all the people in that end of town who had opened to be within earshot when I hit it.

Up in Oklahoma a few days ago I heard a speech by Messrs. addressing a bunch of Oklahomans in a town in Texas. Said he'd been out in West Texas and heard a proud resident tell about what wonderful country this is. The Texan wound it up by saying that if this country needs more water and more good people.

"Of course," the senator observed. "That's all he needs."

He might have added that if the devil raised two million bales of cotton or so every year, he could probably arrange for some of both.

And that reminds me that the other day some kind soul sent me a membership card in the Husband's Protective Association. Say it entitles me to one night out seawash, and one kind word from my wife each month. Haven't worked up nerve enough to flash it yet and see if it works.

Was at WW Electric called me over late Wednesday afternoon. When I got there he offered me a chair . . . which isn't the usual treatment given an ad salesman. With a little skepticism, I sat down.

You can imagine my surprise when I happened to glance at the nearest TV set . . . and there I was, big as life . . . on the TV screen.

The chair was offered me was directly in front of the Television Eye . . . that neat little gadget that will be on display in the W-W booth at the Fair. As you walk by the booth, the little miniature TV camera will throw your image on one of the TV sets on display.

Newspapering has a lot of hazards but one advantage it has is that if too bad a mistake jumps out when you open up a copy as it comes off the press and correct it. My heart went out to the poor TV announcer the other day who was displaying those "beautiful delicious chocolate drop cookies" when one of the chocolate drops started walking away. He couldn't stop the press.

## A PERSONAL COLUMN Brace Yourselves, Men! We're Getting 'New Look'

By DON PERRY  
News Editor NewsLeader

We received a news release from the Men's Wear Inter-industry council this week which made us shudder. Seems that male fashions within the next three years will dictate a "Go Between" suit, and it will not be of the "Long John" underwear variety, which the name suggests.

A one Mr. Edward Sarjos, whom the press release says is "an authority on men's wear" and "knows whereof he speaks," proclaims that the "Go Between" suit is the next step in the evolution of men's wear.

If by evolution, Mr. Sarjos is hinting that male fashions will change as rapidly and as silly as the distaff side, he should be wrapped tightly in his "Go Between" suit and sent to Paris to join Monsieur Dior, proponent of the "flat-chest" look in ladies' wear.

Briefly, this "Go Between" suit again according to the press release, "combines richly colored jackets with trousers of harmonizing color but different pattern," and "conventional" business furnishings will be worn with it.

If you can digest the above word run-around, it means one thing: Three years from now—if we stand still for fashion—we'll be wearing practically the same outfits that our great-great-grandpappies wore between 1800-1850. And judging from mug shots I've seen of whiskered gents of those days—it ain't going to be good.

This same council sent along a photograph of the new fashion. And if the male model had had a Grant-type beard he would have been a fashion plate of the pre-Civil War days.

Most outstanding feature of the photograph was the top coat, and

we hesitate to put that fine label on the garment. It resembled the peacock received by a sailor when he got his first issue at "boot training." Three sizes too long, that is? The bottom of the coat hits roughly two inches above the knees.

There's one good bit of news about the "Go Between" suit. Mr. Sarjos says it will not replace the "conventional suit of matching coat and trousers. In other words: don't throw away your only suit. And you don't have to dispense with your sportswear either. The "Go Between" suit will "go between" those two modes of dress. We've got another idea where the "Go Between" suit should go but we won't say.

Most outstanding feature of the photograph was the top coat, and

## IT'S UP TO YOU

By Howard E. Kershner, L.H.D.

"Operator, this is an emergency call," comes over the telephone wires hour after hour through the day and night. Each time the message is received a telephone operator puts into motion every needed facility to meet the crisis. Fires, floods, death, destruction, lost children, crime, medical aid and thousands of new and strange happenings require the alert operator to act on her own initiative.

No one will ever know how many lives have been saved, how many criminals relieved or how many problems solved because of the initiative of these public servants who are free to act in a land where freedom is practiced.

Little do we realize the great power for good that results from direct freedom of action. These agents of mercy, goodwill and justice do not have to relay the problems to multiple bureaus of government, local, state and national, before taking action. They do not have to fear the loss of their jobs for using initiative. They are not in danger of concentration camps because they have by-passed some bureaucrat or local official who seeks added prestige and power in the party.

Telephone operators are not the only people in this country who exercise their free will to deal with emergencies. Almost everyday we read of policemen who serve beyond the range of duty, Truck drivers, milkmen, clergymen, boy scouts, social workers, factory workers and scores of others serve their fellow men in situations foreign to their normal activities. In fact almost all of us have come to the rescue of someone who needed help. We render these services unconsciously because we live in a nation where the Golden Rule is a part of our everyday philosophy, and where initiative is recognized as a part of personal freedom.

Our religious faith teaches us to serve our fellow men as a part of our spiritual responsibility. The story of the good Samaritan stands as an ideal and we recognize all men as brothers regardless of race, creed or color. Here, where the teachings of the church are not hampered by the fear of the state, we serve our fellow men voluntarily and without fear of coercion.

All of this service is so much a part of our way of life that it is shocking to think of a government program which would deny service, oppose assistance beyond the scope of duty and eliminate it as an individual privilege.

### Panel Discussion To Be Held By Amherst P-TA Group

By Mrs. Lester LaGrange

The October meeting of Amherst Parent-Teacher Association will be Thursday, Oct. 21 at 3 p.m. in the school auditorium.

The program will be in the form of a panel, led by Mrs. Ray Blessing. Mrs. Johnny Weathers, president will speak for the P.T.A.; V. P. Osborne, the faculty; James Holland, the school board; and Glenda Blair, the students.

The subject for discussion by the panel will be "Who Are The People?" Refreshments will be served by Mesdames Cloda Tomes, Cecil Reedy, Henry Brown, R. Pennington, Billie Graham, Jim Edwards, Nolan Nuttall, Forrest Nuttall, Eryle Abbott and Muri Hufstetter.

Approximately \$300 was taken in the barbecue supper served by the P.T.A. at the lunch room Friday night. The net profit was \$172.36 and will go for much-needed equipment in the lunch room.

#### RED HANDKERCHIEF ON TELEVISION

Last summer Mr. and Mrs. Bailey McElreath of Beaumont, and her mother, Mrs. G. A. Foote Lubbock visited in Sudan with friends.

He coached at Sudan a number of years ago. Mrs. McElreath is the former Fay Foote and lived there at that time.

He is a member of Texas officials and told friends, at that time, that he had been assigned to umpire the game Saturday at Madison, between Rice and Wisconsin. He said he could be identified on the field by the red handkerchief in his left hip pocket.

He was there and could be spotted often in the game, seen on television.

Mrs. Ed Nicholson entertained with a covered dish dinner at her home Sunday, honoring members of the Harmon family, whose birthdays are in October.

Mrs. David Harmon, Ed Nicholson, George Harmon, W. T. Weaver and Eddie Henderson were the honorees. Others attending were their families and Mr. and Mrs. Bill Stern of Sudan and family. She is the Nicholson's daughter.

#### SHOWER HONOREE

Mrs. D. D. Yantis of Littlefield was the honoree at a pink and blue shower Friday afternoon in the home of Mrs. Jack Durham on Springlake highway.

Mrs. Leroy Maxfield served cake squares, lead in white and tea or coffee from a silver service. The lace covered tea table was centered with a miniature bassinet trimmed with val-lace and pink satin ribbon and contained pink Baby Doll poses.

She received a large array of gifts including a bathinet from the hostesses, Mesdames George Harmon, Vernon Stagner, Sam Harmon, W. T. Weaver, Gale Ballard, L. Y. Nix, Clay Bussanmas, W. P. Holland, E. F. Beuson, Leroy Maxfield, Mrs. Durham and Mrs. Harold Myers of Littlefield.

#### PAUL FRY RITES

Funeral services were conducted in Amarillo Tuesday afternoon

for Paul J. Fry, 52. Mrs. I. A. Bynum was his mother-in-law and Leon O'Neal was his brother-in-law.

He was a wholesale candy dealer and had many friends in this territory.

He is survived by his wife, three sons and a daughter.

#### MORTUARY IMPROVED

A number of improvements have been added to the Payne funeral home lately.

It has been re-finished throughout and a new brick fireplace, with gas logs, large window, box of plants and new tables added, and chairs re-upholstered.

Mrs. O. G. Moore is visiting in Austin.

Fanny Sue Williams, Glenda Blair, Beverley Brown and LaVelle Caraway spent Sunday with Laura Jones at Wayland College in Plainview.

#### DINNER GUESTS

Mr. and Mrs. D. A. Adams of College Station spent Saturday with Amherst friends.

He was Lamb county's first agricultural agent, coming here from Post in 1928.

They were guests of George (Sooty) Sampson at the banquet given in his honor in Post earlier in the week. They, with county agent Dave Eaton were dinner guests of Mr. and Mrs. Charlie Harmon Saturday.

#### UNDERGOES SURGERY

Mrs. Buddy Shirley received word that her brother Homer Campbell successfully underwent major surgery at the Veteran's Hospital in McKinnel last Thursday. His brother, Mrs. Henry Campbell and his wife, Dean, are in McKinney.

Several from Amherst attended the dedication of a new dormitory at Wayland college, Plainview Sunday afternoon. They were Rev. and Mrs. John Rankin, Mr. and Mrs. C. W. Jones and Linda Mrs. Lolla Walker, Mrs. J. N. Thomas, Charles Jones and Miss Viola Stinson.

Mr. and Mrs. Jim Duffy of Mangum, Okla., visited his brother, C. A. Duffy and family, during the weekend.

#### COMING HOME

Mrs. Jomeryl Harmon has received word from her husband that he expected to leave Korea last week and after a few days in Japan will be on his way home and will receive his discharge.

He is the son of Mr. and Mrs. George Harmon.

Mrs. J. A. Martens, house mother at the nurses' home, was an Olton visitor Monday.

Mr. and Mrs. Elton Wyatt and Mr. and Mrs. Bill Elms were in Dallas three days this week and attended the State Fair while there.

Mr. and Mrs. Fred Stevens of Slaton visited their daughter, Mrs. Jim Traurott during the weekend and attended a TV show Sunday at Lubbock.

Mr. and Mrs. Graham D. Lair returned last week from a visit with their daughters, Mrs. Joe

Stevens of Hamlin and Mrs. Bob Sherman of Temple and their families.

#### ON FURLOUGH

Pvt. Eddie Henderson is here with his family on a 14-day furlough. He has completed his 'boot' training at El Paso and will go to Camp Gordon in Georgia.

Mr. and Mrs. C. A. Wornack of Slaton were here with their grand children, Patricia and Jerry Wyatt this week while their parents were in Dallas.

Joyce Holland, Sandra Harmon, Jed Blessing and Dale Wheeler were here from Tech for the Amherst-Sudan football game Friday night.

#### BABY BOY

Mr. and Mrs. Roger Brett of Quincey, Calif., are parents of a nine-pound son born Oct. 5.

Mr. and Mrs. Ray Blessing and Mrs. Mary Brett all of Amherst are the grandparents. They have two other children, Barbara, five, and Gary, two.

Mrs. Bob Harrall of Levelland spent Sunday with her mother,

Mrs. R. Pennington. Miss Dorothy Yarbrough was home from Spur for the weekend.

#### OKLA. VISITORS

Mr. and Mrs. Emory Blume and Phelps visited relatives in Vernon, Texas and Mantou, Okla., this week.

Mr. and Mrs. Charlie Harmon were Dora, N.M., visitors Sunday.

Mrs. L. E. Vaughn returned last week from a visit with relatives in Fort Worth, Burkhardt and Petrolia.

Mrs. J. T. Elms of Littlefield and Mrs. Maurice Brantley were Clovis visitors Wednesday.

Mr. and Mrs. George Jenkins and daughters of Odessa visited their daughter, Mrs. W. T. Weaver Jr., and family last week.

Mr. and Mrs. Allan White are in Austin, the guests of their son, Sid (Bouncer) and family.

Mrs. Aubrey Jones and daughters had as their guests several days last week, his father, J. A. Jones of Comanche, and his sister, Mrs. S. J. Edmondson of Coleman.

#### ENTERS ARMY

Alvin Messamore, son of Mr. and Mrs. Harvie Messamore volunteered for service in the army last week. He expects to be sent to Fort Bliss, El Paso, Oct. 18 for basic training. He is a 1954 graduate of Sudan high school.

Miss Frankie Stevens and Mr. and Mrs. Claude Gage of Sudan attended the funeral of their brother-in-law, Roy Beasley in Amarillo Monday.

Mr. and Mrs. Charley Hill were in Amarillo Sunday where they met her mother, Mrs. Verne Reator who is here for a visit.

#### CHURCH HOMECOMING

The annual homecoming of Amherst Methodist church is to be next Sunday, Oct. 17.

Rev. J. L. Carpenter, pastor of Trinity Methodist church from Albuquerque will be the main speaker. He went into the ministry while a member of Amherst church.

A covered dish dinner will be at the noon hour.

## This 'Lemon Blossom' Pie

Have you been looking for a recipe for lemon meringue pie that would always turn out just right? Then here it is. Tart-sweet filling that's not too soft, not too stiff. Tender, all meringue that holds up beautifully, cuts easily.

Here is the quick, easy way you make this outstanding pie.

#### "LEMON BLOSSOM PIE"

##### Step 1:

**Lemon Filling:** Mix thoroughly 1 cup C and H Cane Granulated Sugar with 4 tablespoons cornstarch and ¼ teaspoon salt. Add all at once to 1½ cups boiling water in saucepan and cook, stirring briskly until clear and smoothly thickened. (This is an old-fashioned short-cut that works fine. The sugar keeps the cornstarch from lumping.) Remove from heat temporarily. Mix 3 egg yolks with 2 teaspoons grated lemon peel and 1-3 cup lemon juice (if more convenient, use 1-3 cup of frozen or canned lemon juice and omit grated peel); stir into hot mixture, then put back on heat and cook, stirring, 2 minutes. Stir in 2 tablespoons butter. Let cool about 5

minutes, stirring once or twice; then pour into baked 8-inch pie shell.

##### Step 2:

**Tall 'n' Tender Meringue:** Beat 3 egg whites with dash of salt until foamy throughout. Gradually beat in 9 tablespoons sugar. Continue beating until the meringue will hold up in stiff points. Pile lightly on the pie, bringing it up onto crust all the way around. Bake at 400 degrees about 6 to 8

minutes, until golden brown. Bake 400 degrees in rack. See 'Pie' ringue is much more tender and browned in a hot oven. Cool a rack away from drafts.

##### Step 3:

Cut your lovely "Lemon Blossom" pie in the kitchen. Do not wish. But do set it on a platter and bring it to the table to serve, so everyone can share your creation.

### This Week's "Player of the Week"

(Five dollars will be given to Sam Hutson for this week's winning letter)

Sir:

I would like to submit the name of "Kippy" Cutshall as "The Player of the Week." "Kippy" was outstanding last week not only in offensive but defensive play.

He broke up eight of 10 plays and his interference was excellent. "Kippy" was one man who seemed to be in every play. His blocking and tackling left little to be desired.

Sincerely,  
Sam Hutson

## Anton High Homecoming Game Scheduled Oct. 29

ANTON — Homecoming at Anton high school has been set for Oct. 29. The football game will be with Amherst. Approximately 500 ex-students and teachers have been invited to attend the annual affair.

Fred Groves of Lubbock, former teacher in Anton schools, will be guest speaker at convocation before the football game.

All business houses and community organizations have been invited to enter a float in the parade which will be held at 4 p.m. Prizes of \$25 for first and \$15 for second places will be awarded.

Preston Lyda is president of the "exes" this year. Other officers are Vice-president, Kendall Criswell; secretary, Mrs. Claude Cochran; treasurer, Mrs. Al Herrin.

The entertainment committee is Mr. and Mrs. Nell Herrin, Mr. and Mrs. Marion Hayes and Mr. and Mrs. Madison Newton. Any ex-student who did not receive an invitation, or who received a forwarded one, or who will have a change of address before next year's homecoming, has been asked to notify by card or phone, any of the entertainment committee.

Parents, friends or relatives of any of these persons have been urged to do the same.

other organizations, is spearheading a nation-wide "Money March" to finance expense of sending U. S. athletes to Australia, Italy and Mexico.

The drive will begin the week of Oct. 10 and continue through Dec. 15. President Eisenhower has been authorized to proclaim Oct. 16 as National Olympic Day in conjunction with the fund raising drive, Williams said.

Each Jaycee is to "sponsor" one money container and to fill it at football games and other athletic events in coordination with a national press, radio, and television publicity campaign to help raise the more than \$1 million dol-

lars needed to finance the team.

## Predicting This Week's Games

By JAMES HINE

My first attempt at predicting football games is history and I should quit while I'm ahead. Enjoyed the outcomes with the exception of two games. Did have something to say about in being the only one close by to pick the winner of the Amherst-Budan game.

The game at Lubbock Saturday night, a couple of LHS exes participated in a score-at-will affair between Tech and the Minutemen of El Paso.

C. Northam carried the ball for the Red Raiders but managed to pick up only a few yards which was good for a first down. It's interesting to note that Northam is the shortest man on the Red Raiders squad. He measures 5' 7 1/2" and Quarterback Jerry Johnson of Hale Center is next in line at 5' 10".

Wesley looked like the same old Wesley of a few years back with his "hand-on-tips" walking habit between plays. He has one crushing tackle, also.

Wesley, another homecoming gift to Texas Tech looked exceptionally good playing right end. Wesley accounted for six touchdowns and assisted on four more. Both Wes and "M. C." on the Red Raiders' number-two team. Let me guess this is in favor of Texas Tech, 14-7.

A battle royal at Baton Rouge, Louisiana games this week Spade should get back in the winner's circle in a six-man tilt against the Way at Three Way, a game that failed to make a single play against Rula last week. He will be up for this one against Lazbuddie, Spade 40, Way 20.

Anton entertains Farwell this week in Anton and the contest will go either way. However, Anton should be ready to take the lead from the Border to a score of 14 to 6.

Hammit comes to Lamb county tomorrow night and the Sun Hornets will try to get back the winning column after their loss to Amherst.

Quarterback Charles Lynch

ball game. Amherst does not believe that it has found the right medicine for its illness and will prove so tomorrow night in Amherst. Amherst 39, Friona 14.

The Springlake Wolverines will play host to the boys from Happy. Springlake turned in a convincing 40-13 victory last week against Friona and should continue winning this week in dealing out a 35-12 victory.

Olton was knocked out of the ranks last week by a one-point margin dealt out by the Bulldogs of Spur. The Mustangs journey to Sundown this week, and the Roughnecks are one of the favorites in Class A. Coach Herman Smith of Sundown has a great offensive team, particularly in Halfback Johnny Perky. The Mustangs have not shown too much in the offensive department

much in the offensive department

thus far. My guess, Sundown 20, Olton 7.

Coach Gene Mayfield's Wildcats go to Muleshoe tomorrow night in the last non-conference engagement for both teams. Muleshoe has but one victory to its credit thus far. Littlefield should have an easy time of it against the mules. Littlefield 46, Muleshoe 13.

### ONE THIRD MORE ANGUS CALVES IN '54

Cattlemen raising purebred Aberdeen-Angus scored two new all-time records in breed expansion during the fiscal year which ended September 30. In the face of hazardous setbacks by widespread drought, America's Angus breeders registered a remarkable 33 per cent more purebred calves this year than last. In addition, sales by public auction and private treaty placed 16 per cent more registered cattle in the hands of new owners in 1954.

Mr. and Mrs. J. H. Utterback of Amarillo visited their daughter and family, Mr. and Mrs. Bill Lynn and Kay Lynn, last week end.

in case any married man's first statement, found a way. The next day we're driving home with you in five o'clock traffic, and you at each traffic light you've ever seen signs of heavy cars because you can pretty well tell the family situation.

It's nearly a cinch whether or not your neighbors are married. If he's dressed up and he has her with him, he's looking at her with animated interest. Or are they both relaxed and smiling of having been talked everything out?

He's neatly dressed, and she's not and he's smiling, is he life at the office more intense than he does at home? How fast is it? His, for some, the family lion? Or are you enjoying the party?

It's a shock certainly isn't it, but it's a stimulating while your own spouse is being happy. It's settled some of her own all his own before you something already heard.

It's a shame of self-consciousness—the world looks on it as the way most of us see the family eye. We're not relaxed then than we are in a clear house of a world—although it has of the disadvantages of

## Only 40 Days Late Enrolling

School had been opened for 40 days and so it was that Bob Cannon was a mite late for enrollment when he pulled into Littlefield Friday. But he had come a long way and he was accepted in the senior class.

Bob, son of Mr. and Mrs. W. T. (Hoot) Cannon of Ica, Peru, arrived here by plane, traveling some 3,692 miles. He had been in Peru with his parents since July. The Cannons lived in Peru for seven years where the father was in charge of Anderson-Clayton Industries. They later moved to Littlefield—again for seven years. Until July his father was manager of the Western Cottonoil Co.

Bob is living here with Mr. and Mrs. Jack Christian. When he graduates in the spring he will enroll at Texas Tech.

**ENTER TALENT SHOW**

Mrs. Burke and her music pupils went to Muleshoe Tuesday night to enter the talent show. The string band members have uniforms of white satin shirts trimmed in black with black trousers. Black and white are the school colors.

**TO MEN OVER 40**  
who feel all tired out, no vitality, can't eat or sleep well, bothered with aches and pains in arms, legs, back and shoulders and a general run-down condition, it will astonish you to know that many such symptoms of old age are caused by a deficiency of iron. **If it tastes like oil...  
it's good news for YOU!**

When a drilling foreman tastes oil on a core sample from the depths of a well, it usually means that he's about to bring in a successful oil well. That's great news for a production company because drilling for oil is mighty risky -- there are many dry holes for every producing well.

But it's good news, too, for you and your family because every new oil well means more gasoline for your

car, more power for farm and ranch, and more of the hundreds of oil products that bring you more comfort and convenience every day.

America's oil industry is competitive and progressive -- and every oilman has a special service to perform. We consider it our responsibility to bring oil supplies to your station. Here is our pledge that we'll continue to serve you well.

### Broiler Added To Public Service Fair Display Booth

Another innovation has been added to the Southwestern Public Service booth which will be set up at the Lamb county fair. In addition to equipment which will be used to bake cookies which will be given away free, a Mofat's "Rotiss-O-Mat" will demonstrate the latest methods of broiling. Chickens will be used in the demonstration.

Cooperating on the booth with Southwestern Public Service will be Littlefield's Reddy Kilowatt dealers. Each dealer will display electric ranges in the booth.

Throughout the three-day affair, home economists from Plainview will bake the cookies and give them away to persons attending the booth display.

Reddy Kilowatt dealers participating in the display are W. W.

## Rites Held Monday In Olton For George C. Brown, 52

OLTON — Funeral services were conducted Monday afternoon for George Conley Brown, 52, widely known Olton farmer and former Lamb county commissioner. S. A. Freeman, minister of the Olton Church of Christ, and M. F. Manchester, minister of the Comanche Church of Christ, officiated at the rites in the Olton high school auditorium.

Mr. Brown, who became ill of pneumonia and was admitted to Olton Memorial hospital Oct. 4, died at 7 a.m. Sunday in Taylor hospital at Lubbock.

He was born Jan. 29, 1902, in Leon county, and on June 20, 1922, he married Bonnie Carrie Perkins of Chalk, Texas.

The family moved to Lamb

county from Paducah in 1934, and Brown farmed near Hart Camp for two years. Later he farmed near Olton and in 1952 moved to Olton where he resided at the time of his death.

From 1947 to 1952 he served three terms as Lamb county commissioner. He was secretary of the Judges Commission of Texas in 1951-52.

Survivors include the wife, a daughter, Mrs. L. E. Patterson, and a son, Morris Gene Brown, all of Olton; a stepson, Joel Meyers, attending Texas Tech, a stepdaughter, Mrs. Roy Whisenhunt of Olton; the stepmother, Mrs. Ada Brown, Denton; three brothers, Arthur Brown, Monterey Park,

Calif.; Andrew Brown, Thermopolis, Wyo.; and Harvey Brown, Baytown; a half-sister, Mrs. Eunice Terrin, Fort Worth; two step-sisters, Mrs. Nettie Brown and Mrs. Leonard Daron, both of Wichita Falls; and four grandchildren.

**THE BIBLE SPEAKS**  
 BY DR. KENNETH J. FOREMAN  
 Scripture: Proverbs 3-4  
 Devotional Reading: Proverbs 1:10-20  
**Way of Wisdom**  
 Lesson for October 17, 1954

WHAT is the main thing to be desired in life? Different answers have been given and still are given. Some people think they would rather be rich than anything else; others count health the number one must; others value freedom above all things. There is a section of the Bible in which all the writers unite in giving an answer still different from any of these. "Wisdom is the principal thing," say they all, "therefore get wisdom." Dr. Foreman

The book of Proverbs is part of what Bible scholars call the Wisdom Literature. It is unique among the books of the Bible. It does not tell a story, it has no plot, no argument. It consists of a large number of sayings or proverbs, put together for the most part with very little order. You can try the experiment some time of reading aloud any chapter in Proverbs from chapter 10 through chapter 29, backward (i.e. the last verse first, then the next-to-last, and so on to the first verse), and see whether your listeners know you are reading backward.

But while the book of Proverbs is not all arranged in orderly sequence, there is harmony all through it. The great theme is Wisdom. The whole race of man is divided here into three kinds of persons; the wise, the fools, and the young—who can choose wisdom now before it is too late. (No fool like an old fool!) Wisdom is by no means the same thing as knowledge. Almost anybody can acquire knowledge; all it takes is perseverance and a good memory. Knowledge can be gained quickly, as the rapid-instruction classes in the army have shown. A person can learn a language, well enough to get along with it, in a year's concentrated time. But when he speaks it, will what he says be wise? A man may know a dozen languages and yet talk no sense in any of them. A high school student can make "A" in agriculture in his examinations on the book, and still not be a good future farmer. Wisdom is founded on knowledge; the complete ignoramus can never be wise. But wisdom is more than knowledge; it is knowing what to do with knowledge, how to put it to work.

**Wisdom Is From God**  
 In the book of Proverbs wisdom is not only different from knowledge, it is different from what is sometimes called worldly wisdom. Men are sometimes called wise by unthinking persons when they are merely wise in the ways of the world—smart, shrewd, able to look out for themselves, always alighting on their feet, like cats. The wisdom commended in Proverbs is not worldly, it is divine. It differs from ordinary smartness in two ways. First, it is from God. It can be learned anywhere ("Go to the ant... consider her ways, and be wise") but God is the final source of wisdom. In other words, wisdom in these pages means much the same as what other writers call conforming to the will of God. It means looking at things with the eye and the mind of God. Further, as the writers of Proverbs see it, true wisdom includes God; that is to say, the wise man will remember God while the fool either never gives God a thought, or says in his heart, there is no God. He is the most important fact in the universe; to leave him out of all our calculations is to be a top-flight fool.

**Wisdom Is for This World**  
 There have been good pious people who didn't know quite what to do with this book of Proverbs. For it is out of line with any other-worldly notion of religion. People who think that religion and common sense are two different things; people who think religion is concerned with things unseen while common sense deals with everyday facts; people who think that religion is chiefly concerned with death and what comes after—all these people are taken aback by the earthly simplicities of the Proverbs. The wisdom which is here admired and praised is not anything "out of this world," it is strictly for this world. A former governor of Virginia testified that during his term of office he had received more help in the practical problems of government from the book of Proverbs than from any of the books on political science which lined his library shelves.

### Editorial

#### Gratulations

To the Lamb County Farm Bureau on its stand for a public utilities commission whose job it will be to determine the real costs of furnishing Texans with gas, electric and telephone service and to set rates which cover costs and allow a fair return on invested capital, and to require rural utility subscribers must now pay whatever utility decide to charge them. And the townspeople are really better off. City commissions are unable to determine the real costs so in the end must give the utility companies just whatever they demand. And some of them have been demanding.

None of us like to see more power concentrated in a government so far away as Austin, but it would be extremely useful for each town and county to try to employ a staff of accountants to supply it with cost information on each company serving it. One staff at Austin can do the work for the entire state at a price we can afford.

The Farm Bureau has a habit of backing up its resolutions with legislative action. Everyone of us ought to give all the help we can on this one.

#### Keep Them Working - Not Running

When Texas set up its county governments most had few people in them. Everybody knew everybody else in the county, and when a man filed for office the voters had already judged him and knew whether they were for him or against him from the start.

Not so now. To become known by the voters a candidate must spend hundreds of hours and lots of dollars trying to get people and let them know what sort of person he is and what he believes in. Being a candidate has become an expensive and time consuming business.

In addition to everything else, candidates must pay all the costs of conducting and counting the primary elections. They were assessed in the vicinity of \$500 apiece for that in many counties this year.

Campaigning has become so time and money consuming with only two years between elections, public officials spend too large a share of the time they should be working for us and the money their families should have, just trying to hold their jobs.

We can improve this situation a great deal by approving a constitutional amendment next month which will set the terms of district, county and precinct offices at four years instead of two. It will not affect the two-year term of state officials.

The only objection that ever seems to be made to changing these terms is that "We want a chance to turn these officials out in a hurry when we get a bad one." But there is little in the past to indicate that we improve much in our choice of public officials. On the whole they are about as good about as bad after one election as after the next. The objection is that our choice is usually pretty limited because not many competent people are interested in getting in an expensive, insecure rat-race like that. With four-year terms instead of two-year ones, more competent people would be interested in asking for elective jobs in local government. And we could hire better assistants if they could offer at least two years of steady employment.

We have something worthwhile to gain by giving our district, county and precinct officials four-year terms. It is not doubtful that we have anything to lose by it. Let's keep them working instead of running.

## Negro Publisher Gives Views On Segregation

Editor's Note: Regardless of how you might feel personally about the segregation question, it is one which will generate some heat before decisions are reached. It behooves all of us to look carefully at all sides of any question, and we reproduced below an editorial written by a negro publisher for his newspaper. It is evidence of mighty intelligent thinking by one on the other side of the fence.

By DAVIS LEE  
Publisher, Newark (N. J.) Telegram

The efforts being made by certain paid agitators and pressure groups against segregated schools in the South may cause Southern Negroes to lose a lot more than they will gain.

The trouble with this group, as with similar ones, is that the initiators don't count the overall cost to the race. The present effort is designed to destroy the whole pattern of segregation, and to establish an integrated social order in which there will be no distinction made in this country on the basis of race, religion, color or nationality.

This is a laudable objective, but human nature just has not

changed that much, and the achievement of such an objective could cause repercussions that might set the Negro back 50 years.

Integration in the schools in the north and east is not a howling success. A Negro can attend most of the schools up here and get an education, but few of the states that educate him will hire him as a teacher. The State of Connecticut doesn't have 25 Negro teachers.

Northern in these integrated states do Negroes get anywhere near proportionate representation. Every device is employed to keep qualified Negroes from being assigned. Recently a reputable New York labor union made a report on the employment of Negro teachers in New York City and charged that a systematic scheme has been instituted to exclude Negroes as teachers.

This is not true, in the South. The State of Georgia employs 7,313 Negro teachers, and paid them close to \$15,000,000 in salaries last year. North Carolina paid its Negro teachers over \$22,000,000 last year. Florida is another state that ranks at top on teacher pay.

Mississippi paid \$7,414,278 in salaries to 6,753 Negro teachers in the state last year.

If these states, that are now pouring millions of dollars annually into Negro pockets which provides our people with money that enables them to enjoy the dignity of man, to enjoy the prestige and respectability, to buy homes and the necessities of life, are forced to abandon the segregated school, 75 percent of the Negro teachers in the south will lose their jobs. Not only that, but approximately 20,000 Negro prin-

cipals will lose their jobs as well. The present movement to end segregation in the school system is the beginning of a well-planned plan to completely and successfully destroy everything in the south. If this happens the Negro will be thrown into direct competition with the white race, and our business institutions will crumble.

No place in the world do Negroes own and control as much as do those in the south. Atlanta is without question the Negro capital of the world. It is the center of Negro culture, education, business and finance. And both Negroes and whites live, work, and operate business without either being conscious of the other's race.

This movement to integrate the schools of the south is loaded with more racial dynamite than appears on the surface and the Negro will be the one who is blown away.

During the past two years I have spent more time in the south than I have in my office, and I have interviewed thousands of Negroes in all walks of life and I have found very few who favor mixed schools. They want their own schools, but equal facilities. This being the situation, one question the fairness of forcing

these colored citizens to accept what they don't want. If a little group of paid agitators succeeds in forcing their will upon these people, it appears to me that they should at least be given an opportunity to be heard.

Right now the Southern Negro is in a better spot educationally, politically and economically than the Negroes any place else in the world. Race relations are continually improving. Every day more Southerners are recognizing the Negro as a man and according him the respect that he merits, but the Southern Negro himself can do more about improving conditions than can courts, legislation or pressure groups.

Despite all the hullabaloo about the liberal north and east, no Negro has been made head of a State college or university. Down south the woods are full of Negro college and university presidents. In Texas a Negro college president of a state school gets \$10,000 a year.

Negroes need to refresh their memories on the fact that just a few years ago we were raising Cain because colored kids in the south were being taught by white teachers. We wanted them taught by Negroes until now Negro tea-

## And Maybe They Had Lines Crossed

KEENE N. H. (AP) — "How soon will you get it fixed on Portland street?" The call didn't sound unusual to the power company operator during a recent storm.

"We're right up there working on it," was the reply, as he made ready to record the call. "Whose calling please?"

"This is the telephone company," said the operator, making conversation. "Have you got a lot of trouble, too?"

"Well things aren't so good right now," replied the voice. "You see our garage doors are electrically operated and we can't get our trucks out."

Teachers have completely taken over. A group goes back into the courts declaring that the Negro is not satisfied with equal facilities, that the separate but equal law is unconstitutional, that nothing less than integration will do. That doesn't seem fair to me.

### Imports Cuba Drop During 5 Months

WASHINGTON, D. C.—After a busy year, Cuban imports of American oil and petroleum products have declined during the first five months of this year, according to statistics from the Commerce department.

Cuban imports are down 10.7 per cent from the same period last year. Imports of American oil and petroleum products have fallen off by 16.7 per cent, as against a 16.7 per cent decline by all nations. The Cuban decline in 1953 resulted from a 100 per cent increase in American purchases of Cuban raw sugar, according to Commerce officials.

Imports from Cuba is important not only because of petroleum products, but also because of the largest customer for American rice, and a good source of other Texas farm products such as oranges, wheat and cotton textiles. Cuba is a good customer for such products as paint, tile, metal pipes, synthetic rubber, well equipment, sulphur, machinery, canned fruits, vegetables, wool, storage batteries, nails and wire, leather furniture, etc., as well as chemicals, cosmetics.

### Durable Fences Dependent On Woods Like Cedar, Oak

COLLEGE STATION—Strength and durability are the magic words when it comes to fence building. W. S. Allen, extension agricultural engineer, says strong, lasting fences depend upon posts which will last 20 years or more, a heavy quality wire, properly located and constructed braces and wire wrapped at each brace unit, stretched tightly and attached with fast holding staples.

Durable woods like cedar and post-oak will last 15 years or more. Non-durable wood treated with creosote, pentachlorophenol or osmosis salts will last 18 to 20 years. Hence post units, the engineer says, should be five to six inches in diameter at the top

### Tips on Freezing Meat Cuts

COLLEGE STATION—Stop and do a little figuring on the cost of meat for the home freezer. It is often the most important item stored from the standpoint of cost and storage space. Can money be saved by buying a whole, half or quarter of an animal instead of retail cuts?

If the amount paid for meat bought in quantity is less than the total of retail prices, Mae Bell Smith, extension specialist in consumer education, says some saving may be made. She points out that storing meat in a freezer costs from six to 12 cents a pound provided the box is used regularly. To make quantity purchases economical, the saving would have to exceed the cost of the meat and those for storage.

Since beef is in plentiful supply, the specialist uses a hindquarter of U. S. choice grade beef for the figuring job. The cuts from a 170-pound hind quarter will provide about 21 pounds of porterhouse steak; 27 pounds of sirloin steak or roast; two pounds flank steak; 38 pounds of round steak or roast; eight pounds of rump steak or roast; 40 pounds

are provided only for stretching with no provisions for holding except for staples. Staples can't do this job alone.

On level terrain, brace units may be put as far as 40 rods apart while on hilly land braces should go where the ground level changes, as the top or bottom of a hill. The horizontal brace with the diagonal number nine wire brace makes the strongest unit, Allen adds.

of ground beef or stew meat and 34 pounds of bone and fat.

If the hindquarter costs about 65 cents a pound already processed, the edible meat figures about 81 cents a pound. Now for the arithmetic, use retail prices for the U. S. choice grade and multiply them by the pounds of each cut you can expect from the 170-pound hindquarter and add. You should have the answer to

whether it is cheaper to buy in quantity or by retail cuts.

Miss Smith emphasizes that the most economically operated freezer is the one which is kept busy—keep food moving in and out.

### Two From Here To Be In Movie

PORT LEWIS, Wash.—Two Littlefield soldiers will appear in the battle scenes of Universal-International's forthcoming movie, "To Hell And Back", dramatizing the life of Medal of Honor winner Audie Murphy.

They are Pfc. Herman McGee, whose wife, Edna, lives in Littlefield, and Pfc. Willie Lewis, son of Willie Lewis of Littlefield.

Pfc. McGee, Lewis, and others of the combat-ready 123rd regiment help add authenticity to action sequences being filmed in the desert-mountain terrain near Yakima, Wash.

Son of Mr. and Mrs. Louis McCarty, 324 East Fourth, Bakersfield, Calif., McGee entered the Army in April 1953 and was last stationed at Camp Roberts, Calif. Lewis entered the Army in April 1953 and received basic training at Camp Roberts, Calif.

### Lubbock Flower Show At Anton

—The Anton Garden Club held a flower show on Thursday afternoon in the home of Mrs. Ashley Cox. Mrs. Doreen, of Lubbock, was the show judge. Mrs. "Bessie" was the show judge. Arrangements were made and the money was by Mrs. Jack. The "complimentary" was by Mrs. Caden. Mrs. John was "Tried."

# The First!

Phillips 66 brings you the first All-Weather Motor Oil which has proved it meets the most exacting standard ever established for automobile lubrication...  
Mil-0-2104, Supplement 1 level.

The toughest standard ever set up for automobile lubrication is the Mil-0-2104 Supplement 1 test. New Trop-Artic is the first all-weather motor oil to meet the requirements of this test. It is an oil which will serve you winter and summer... an oil so good it can double the life of an automobile engine!

Compared to ordinary motor oils, new Trop-Artic reduces ring wear 40% or more. It cuts oil consumption 15% to 45%. It keeps pistons and bearings cleaner... longer-lasting. It saves you money by increasing gasoline mileage. This has been demonstrated in tests representing over 150,000 miles of driving.

TROP-ARTIC is truly an all-weather oil... S.A.E. 10W through S.A.E. 30. Therefore it flows instantly for easy starting at sub-zero temperatures, and yet it retains the film strength necessary to prevent engine wear under high temperature driving conditions. It isn't just heavy duty. It's double duty.

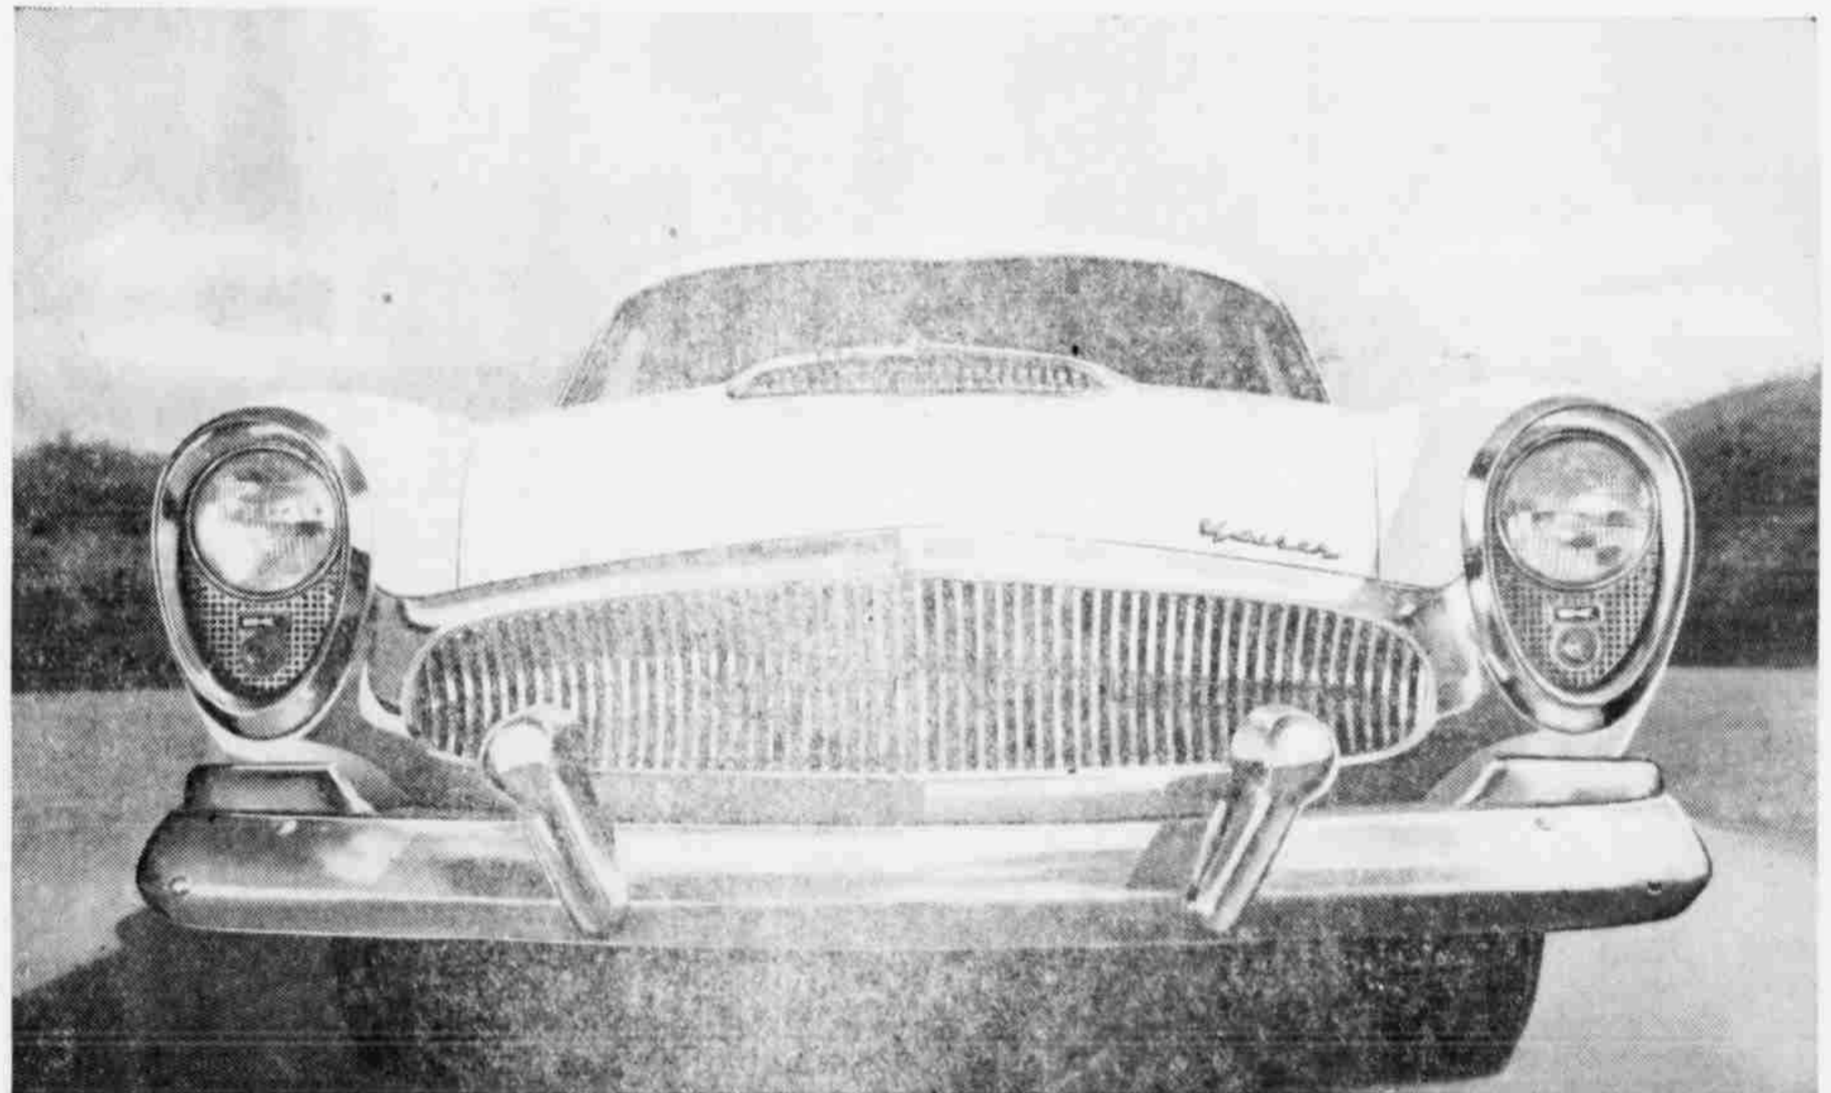

Any car, in any climate, at any time of the year will perform better with Phillips 66 Trop-Artic. It is a worthy companion product to Phillips 66 FLITE-FUEL, the new high performance gasoline recently introduced by Phillips. It pays to stop at the station where you see the Phillips 66 Shield.

### Highlights And Sidelights From Your State Capitol

By VERN SANFORD  
Texas Press Association

By VERN SANFORD  
Texas Press Association

AUSTIN—Governor Allan Shivers has lashed both Republican and Democratic national parties for refusal to let the South take a full share of determining party policy.

Shivers' criticism delivered in a speech at a testimonial dinner for Louisiana Governor Robert Kennon at New Orleans, singled out no particular party as major culprit.

For too long the South as a region has been "insulted and degraded by national parties and their leaders," he said. However, he served notice on the Democratic party that it must get in the middle of the road to win Southern favor.

Shivers appealed to people in all 48 states to join in defending "the last great safeguard of individual liberty through supporting local self-government over powerful central government."

#### ON BALLOT

Gerald Weatherly of Rio Grande City, refused a place on the Nov. 2 ballot by Secretary of State C. E. Fulham, has seen his decision reversed by the Supreme Court.

A writ of mandamus ordering that his name be certified for placing on the ballot was granted Weatherly by the court. He will oppose Sam H. Burns of Abilene for District Attorney in the sub-judicial Seventy-ninth district covering south Texas, George Parfomowicz of Dallas.

Fulham had rejected Weatherly's application "because so many of the 661 signatures on petitions were invalid that no enough remained for Weatherly to qualify."

#### INDUSTRIAL ACTIVITY

Texas' industrial business is picking up while farm income is declining. Dr. John E. Stockton, director of the University of Texas Bureau of Business Research, said the low farm income was due to months of continuous drought faced by farmers and ranchers.

However, he reported that the "high level of Texas business has been maintained by expanding industrial activity." The Bureau's business index for the state showed a two per cent decline in August from July. August totals were seven per cent better than August, 1954, Dr. Stockton said.

#### DWI LAW

Texas' motorists now face a tougher penalty for driving while intoxicated. A Court of Criminal Appeals ruling has labeled unconstitutional the part of law that let a presiding judge, at his own discretion, commit a jail sentence handed out in DWI cases.

#### GAS FIRMS

A five-year-old suit against 10 oil companies for anti-trust violation has been ordered for trial by the Supreme Court. Charges were made against the firms in 1949 by former Attorney General Price Daniel. Daniel alleged that the 10 companies violated Texas anti-trust statutes by upping whole sale gas prices several times after federal price controls expired in 1946.

Defendants are Arkansas Fuel Oil Co., Citico Service Co., Continental Oil, Gulf Oil Corp., Humble Oil and Refining Co., Macmillan Petroleum Co., Sinclair Refining Co., Phillips Petroleum Co., Standard Oil Co., and the Texas Co.

#### TOLL ROADS

Prospects of Texas' first toll

roads have faded from view with a Supreme Court decision that the highways, to be built and owned by private firms, would be taxable.

Attorneys for the Texas Turnpike Co., which had planned to toll road from Dallas to Houston, and the San Houston Turnpike Corp., planning a Dallas to San Antonio route, told the court the projects could not be realized without tax-exemptions.

#### INSURANCE

Insurance men have been warn-

ed that a move to place insurance under federal control may soon become a reality. State Insurance Commissioner Chairman Garland A. Smith charged that efforts are being made to turn the "Texas insurance industry into a national scapegoat."

Smith said he was alarmed at the number of letters his office has received in the last few months from Washington political office holders who are laying plans for insurance investigation or advocating central control of the industry. Many of the groups have continuously singled out Texas for unfair and untrue criticism, he reported.

#### NEW CONFESSION

An El Paso farmer has appealed to the state Pardon Board for release from a 15-year prison sentence, the request backed by a

confession of another man to the same armed robbery.

Kenneth Massey, now a 19-month prison inmate for armed robbery of a drug-store near El Paso made his appeal as his attorney handed the confession to the Pardon Board. The confession is from another convict now under death sentence in Iowa.

#### Egg Eatin' Parrot . . .

LACONIA, N. H. (AP)—When Goofy, the parrot broke out of his cage recently, even the coaxing of his best friend, Polly, another parrot, could not lure him back. But after four days Goofy returned when his favorite breakfast—scrambled eggs, coffee and doughnuts—was placed in his cage, lifted into a nearby tree.

It seems that Goofy is a traveler at heart. Last year he got the wanderlust and took a month's vacation.

### Sudan Study Club Sponsoring Carnival

AMHERST — Mrs. Louis Farr was hostess to the Amherst Study club for its meeting Monday night.

"Canada" was the program subject. Mrs. Allen White's subject was "Peace Garden," and Mrs. Lester La Grange described interesting places to visit in the 10 provinces of Canada.

Mrs. George Harmon, president, presided in the business session. Reports were made by the civic project and finance committees, on plans to support the movement for a band in Amherst school.

Reports were made on the club institute held in Canyon last week. Mrs. Doyle Watkins of Su-

day will be guest speaker for the club's meeting Oct. 18.

The hostess served refreshments to Mesdames Ray Blessing, Maury Brantley, N. B. Embrey, George Harmon, A. T. Hedgpeth, W. P. Holland, Lester La Grange, Buster Moller, Eugens Priddy, C. R. Stevens, W. P. Stone, Allan White, Elton Wyatt and Eleanor Dudgeon.

### TRAVELING INFANT BARBOURVILLE, Ky.

soon after 13-month-old Nancy Blair learned to walk, she left home unobserved, made her way down one block—with maybe a bit of crawling to rest her tiny legs—and crossed the street.

She rapped on the door of a house until Mrs. Jack Wharton answered the knock and returned Nancy to her worried mother, Mrs. Doug Blair.

### All It Needs Is A Dance Partner

VIENNA (AP)—Two brothers have devoted seven years of their spare time to become the friends of an entire family of brown trout. The fish live in a small stream that drives the brothers' mill at Engelhartzell, on the banks of the Danube.

The hobby of Otto and Karl Luger now attracts tourists and fascinated anglers. A single trout, which they named Hansel, was first to be tamed. He would follow his human friends along the little river, waiting for his food.

"He would come out and get the worms like a dog," said Otto Luger. "He even allowed us to take him out of the stream and let us scratch him on his back

for a few moments before he jumped back."

But Hansel, apparently trusted a stranger too much. One day, he disappeared.

The Lugers never gave up and now they are on the best of terms with a family of seven trout. They say, Mama and Papa Trout jump out of the water as soon as they dip a finger into the stream. The fish take worms directly from the brothers' hands. The fast, the brothers say. Trout kids also are catching on.

Settlement—Texas Style DALLAS (AP)—A judge gave Leslie Johnson, 35, five years in jail for his method of "collecting" \$9 for damages to his car after a minor collision.

Testimony said Johnson got out and settled the ensuing argument by drawing a pistol and persuading the other driver to hand over \$9.

### He Keeps Breathing . . .

PORTSMOUTH, N. H. (AP)—Streeter S. Smith recalled the tolling of bell following Lincoln's death and Union soldiers marching through Newburyport, Mass., as he celebrated his 101st birthday.

His birthday celebration was as usual, a trip to York Beach, Me., for a feed of lobster stew and clams. Wearing his 77-year-old wedding hat—it cost him \$1.50 in 1877—the centenarian went back 97 years in memory and told of a cattle show he attended when he was four years old.

By trade he became a carriage painter.

To the usual question as to what he attributes his long life, Streeter Smith reiterated, "I just keep breathin'."

mill stocks of cottonseed at the end of August totaled 428,000 tons a record high for end-of-August stocks.

plete. The oil content continued of improve in most all districts.

Cottonseed prices paid to producers at the gins in Texas Oct. 4-8 average \$58.60 per ton compared with \$59.10 per ton the week before. During the corresponding period one year ago the average gin yard price in Texas and Oklahoma was \$51.90 per ton. Oil mill prices (as is and basis grade 100) averaged \$63 per ton in Texas. Cottonseed meal was quoted at \$76 per ton wholesale, bag lots, carload lots in the Dallas market. Prices in other markets were: Abilene \$60, Lubbock \$71, Altus \$81, Oklahoma City \$78 per ton.

Cottonseed receipts at oil mills during August this season totaled 449,000 tons. This is the second largest August volume on record and compares with 276,000 tons in August last season and 398,000 two years ago. About 250,000 tons of cottonseed were crushed in August. This exceeds the previous record-high of 235,000 tons for August crushings, set in 1933. Oil

in Anton and Lubbock, was honored with a luncheon Wednesday at the Lubbock country club. Hostesses were Mrs. Emmett Kerr of Anton, Mrs. Rem Thomson and Mrs. Scott Ballard, both of Lubbock. Fourteen guests were present. After the luncheon the women attended Godwin's style show. Berna Howell played the organ and Grace Goodwin was vocalist.

The 1950 Study club of Anton met Wednesday in the home of Mrs. Nell Herrin. "We Learn by Making Our Heritage Live" was the program topic.

Mrs. George Broome presented the following speakers and their subjects: "The Story of Indian Village," Mrs. Chester Jones; "Texas Talk—"Sure Enough, How Come?" Mrs. Madison Newton; "Early Days in Texas," Mrs. Mrs. Dalma Bass.

Roll call was answered with a Texas "Antic-Dote." The club

"You better let me finish with this customer, George."

presented Mrs. Bill Brewer with two gifts. Plate favors were candy "Baby Bunting" and table decorations carried out the stork theme. Sixteen members were present.

# OIL IS AT YOUR SERVICE

Oil and natural gas supply power for industry.

Cons. burn gasoline, use tires of synthetic rubber.

Homes are heated by oil or gas-burning furnaces.

Printing inks, paints and plastics are petroleum derivatives.

Natural gas is the fuel for millions of kitchen stoves.

Oil powers the U. S. transportation system.

Detergents and a hundred other items of daily use are derived from petroleum hydrocarbons.

Synthetic fabrics are made from petroleum hydrocarbons.

The products of the petroleum industry are literally everywhere. Every hour of the day, oil or natural gas serves you and virtually every other American. Oil is indispensable to our way of life; it makes the United States a better, safer country to live in.

You may wake in the morning in a room warmed by a furnace burning fuel oil or natural gas.

You drive to work, and your car burns gasoline, uses petroleum oils and greases for lubricants, rolls on tires of synthetic rubber which had their beginning in an oil refinery.

The plant where you work may depend on oil or natural gas as the source of its power. The oil and gas industry supplies 65% of the nation's energy requirements.

Meanwhile, if you live in Texas, your children are attending schools to the support of which the oil industry pays heavy production and ad valorem taxes. And your U. S. Army, Navy and Air Force plan the national defense with confidence that the oil industry has developed the proven reserves that can fuel their machines of war. Oil also supplies munitions—TNT for instance.

Finally, the lady of the house may prepare dinner on a stove fueled with natural gas, and you may go to bed in pajamas laundered with a petroleum detergent, after reading a newspaper printed with ink made from oil, in a room decorated with a paint manufactured from petroleum.

... And that's only a beginning.

The products of the petroleum industry, oil and natural gas, head the list of our most useful resources. A progressive, competitive oil industry, encouraged in the future as in the past, will undertake the further development that will keep them there.

NEWPORT NEWS Va. (AP) — H. Reid found the gears missing when he tried to reconstruct a 1928 model street car sign—one of those roller things they cranked to let you know if it was the car you wanted.

A rubber stamp on the shade showed the name of the builder, in Flushing, N. Y., Reid wrote for prices on new gears. Back came a set of gears gratis with a letter from Fenley Hunter, president, expressing great interest in the preservation of things ancient, especially a Hunter model 1928 illuminated car sign.

### And We're Broke...

ANN ARBOR, Mich. (AP) — America's average breadwinner is in fairly healthy financial shape. A study by the University of Michigan's Survey Research center found that although consumer debts have risen, the situation is not serious.

The study showed the average age consumer family has time payments totaling some 20 per cent of its income. But more than a third expect to complete their payments within nine months, and about all the families could pay off their debts with savings and other liquid assets.

The average family increased its liquid assets from \$300 in early 1953 to \$350 in early 1954, the highest level since 1948.

## Local American Legion Post Opening Membership Drive

Local Legionnaires have announced plans for an intensive 1955 American Legion membership drive from Oct. 20 to Nov. 11, a 23-day period which has been designated as "AL Weeks."

This is part of a nationwide enrollment push approved by National Commander, Sebastian P. Collins with the objective of completing the entire 1955 membership job by November 11 which will be observed for the first time this year as "Veterans Day."

Announcement of local "AL Weeks" plans was made today by James R. McKinney, Commander of Richard News Post No. 361 of the American Legion of Littlefield.

"The objective of 'AL Weeks' is to extend every eligible veteran an invitation to affiliate with the American Legion," Commander McKinney said.

An all-time high post membership in 1955 is the goal of "AL Weeks," Commander McKinney declared.

"Our 1954 enrollment was 103 members," Commander McKinney said. "We are going to exceed this membership in 1955."

Commander McKinney said that Mayor Hewitt will be asked to issue a proclamation setting aside the period of Oct. 20 to Nov. 11 as "AL Weeks."

The local American Legion Post is planning a hand-billing publicity campaign to promote its "AL Weeks" Campaign.

The slogan for "AL Weeks" for all Legionnaires is "GET 5 FOR '55,'" Commander McKinney said.

"The nationwide objective of 'AL Weeks' is to enroll 3,000,000 or more for 1955 during this 23-day period," he added.

### Constitutional Amendment . . .

Editor's Note: This is another in a series of articles on 11 proposals to amend the Texas Constitution which will be voted on in the November election.

House Joint Resolution No. 37 proposes to amend the constitution by adding a new section 51a to Article III, giving the Legislature power to pass such laws as might be necessary to secure coverage under Federal Old Age and Survivors Insurance for proprietary employees of the State's political subdivisions.

In 1950 the Congress amended the Federal Social Security Act to permit a state to contract with the Social Security Administration for Old Age and Survivors Insurance for state and local government employees, including proprietary employees. Proprietary employees are those engaged in certain activities such as water or power systems, and are distinguished from other government employees carrying on the usual functions of government. In 1951 the Texas Legislature enacted a law permitting such coverage of county and municipal employees but specifically excluding proprietary employees.

The Attorney General has ruled that Texas has no constitutional authority to contract with the Federal government for such coverage of proprietary employees.

Our Constitution provides for retirement systems for both municipal and county employees. Numerous counties and cities have set up such systems, as well as separate plans for policemen and policemen. Other of the State's political subdivisions have placed their employees under Federal Old Age and Survivors Insurance. As of the present, there is no

method by which the Federal system can be made applicable to what are known as proprietary employees.

The Federal law requires that a state in contracting for coverage of public employees under Old Age and Survivors Insurance must guarantee and be liable for any contributions under the Federal law further provides that, if any such contributions are denied and not paid, the Social Security amount from any funds granted in the State under the Social Security Act Texas has attempted in its law to protect itself against future political subdivisions to make the payments called for by the contract with the Federal government. Nonetheless, there is the possibility that such a default might occur, so H. P. R. 37 contains a provision permitting the Legislature to make appropriations and authorize all obligations necessary to the establishment of coverage of proprietary employees.

If H. P. R. 37 is approved, it will be the first time specific constitutional authority has been granted for the State of Texas to make a business contract with the Federal government.

### When To Defrost Freezer

COLLEGE STATION — When your home freezer needs defrosting, don't put the big job off. A clean box actually leads to more economical operation and longer life of the unit.

It's difficult to set up a regular schedule to defrost when the sides of the box become frosted with one-inch of ice or more, says Roy W. Snyder, extension meat specialist.

Snyder explains that ice acts as a blanket over the refrigerating coils. The heavier the coating, the longer the machinery must run to produce a zero degree temperature. This raises temperature for keeping frozen meats, vegetables or fruits.

Plan to defrost when the food supply is low. During hot weather, defrost in the early morning, the specialist says. Take care not to let the food stuffs begin to thaw. This will lower their quality.

Two corrugated boxes, placed one in the other with the outer box packed with newspapers for insulation will keep foods several hours. A wool blanket spread over the boxes gives even more ideal holding conditions.

With the contents of the freezer removed, disconnect the electricity and open the door or lid. On warm days the ice will melt quickly, but an electric fan blowing into the box will speed up the process. Use only water from the faucet for cleaning a defrosted freezer, never warm or hot water.

When the frost is melted, clean dry the box, start the motor, allow the freezer to cool about an hour, replace the food and the job is done, Snyder says.

### THESE YOUNG DRIVERS!

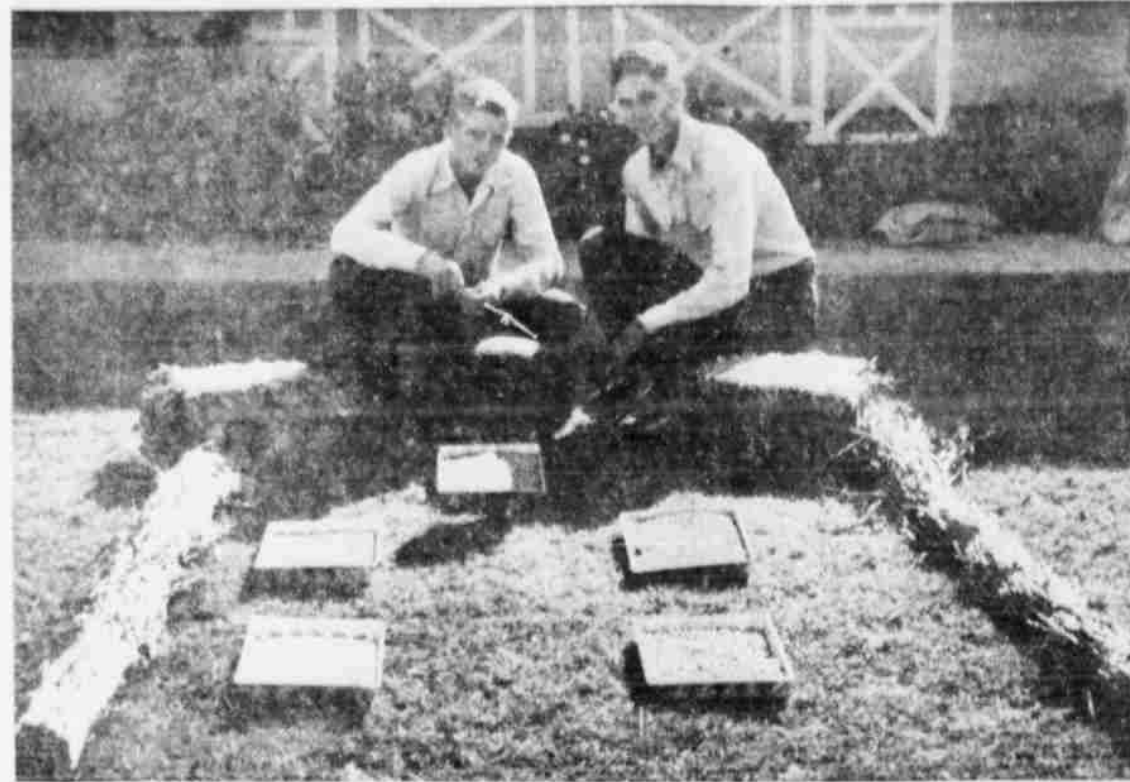

MOLDENVILLE, Okla. — Schaff, 2, managed to turn the key and throw his father's new car into gear. It crashed into the garage. The youngster escaped injury but damage to the car ran \$300 to the car \$700.

light of the world beckons us forward and upward. Our light is also a light of safety. Jesus promised that those who follow Him "shall not walk in darkness." There is great danger in walking in the dark. It invites disaster. Light, however, gives us clear vision of the path and shows us the right way.

This light is a life-giving light. "He that followeth Me shall . . . have the light of life." Life depends on light. We are told that without the light and warmth of the sun; life would disappear. This is certainly true in the spiritual realm. Jesus is "the life." In Him we live, but without Him we die.

For progress, for safety, for life, the "light of the world" bids us follow Him.

### The Light of the World

By Tommy Williams, Minister

Early one morning, Jesus taught in the temple. The marvelous splendor of the light of a new day gave an appropriate setting as He said to His hearers, "I am the light of the world; he that followeth me shall not walk in darkness, but shall have the light of life" (John 8:12). Let us study that statement and meditate upon it.

By these words, we are taught that the "light of the world" is a light of movement, of progress. Jesus is not the light for those who stand still, but for those who follow Him. "He that followeth Me," He said, "shall not walk in darkness, but shall have the light of life." Progressive development is the law of Christian living. This
