Fire Damages Interior Of Medical Arts Hospital

Littlefield Fire Department personnel answered four fire alarms from Saturday afternoon through Monday evening with the worst being at the Medical Arts Hospital at approximately 6:30 p.m. Monday evening.

The fire at the hospital was caused by an iron being left plugged in while on an operating table in the emergency room. The plastic cover on the table caught fire causing considerable smoke throughout the entire first floor of the hospital. A complete estimate of the damage has not yet been determined but in addition to the fire damage in the emergency room and the smoke damage to the rest of the main floor, quantities of medicine which were in the emergency room will have to be destroyed due to overheating which caused the medicines to lose their effectiveness.

The firemen answered two calls Saturday, the first being at 2nd and Westside when the

rear seat of a parked car caught fire. Volunteer Fire Chief Leon Durham stated the probable cause was a cigarette.

Saturday night a three room house located two miles west of the Littlefield Cemetery burned to the ground. The house had been vacant for a considerable period of time and an investigation is underway to try to determine the cause of the fire.

The other fire call was Sunday night when a U-Haul trailer caught fire approximately 11 miles north of town. The owner had broken an axle on the trailer and had hitched a ride to Littlefield to get help. When the axle had broken the tire rubbed against the frame of the trailer and caused smoke. The owner had thought the fire was out before he had left but it broke out and a passerby turned in the alarm. Two mattresses on the U-Haul were damaged.

EMERGENCY ROOM FIRE -- A fire broke out in the emergency room of the Medical Arts Hospital Monday evening when a hot iron was left on an operating table. The fire, while confined to the emergency room, caused consid-

erable smoke damage and also damaged quantities of medicine kept in the room. Large amounts of smoke were caused by burning plastic which covered the table.

In the two most important items on the agenda the Littlefield School Board approved the 1965-66 school year budget and hired Beryl Harris as the High School principal for the coming year.

Harris has been at Littlefield for the past twelve years, serving as high school band director from 1953 to 1960 before his present position as Elementary school principal.

A graduate of Lovelland High School Harris received both his BS and MS in Education from Texas Tech. He will assume his new duties immediately and the board hopes to name a successor to Harris in the near future.

The Board approved a 1965-66 budget totaling \$1,036,474 compared to last year's budget of \$991,425. The largest increase was in the instruction where it calls for \$684,465 this year compared to \$645,838 in the 1964-65 budget.

Other increases are in the administrative costs which show a rise of almost \$5,000 to a total of \$46,750 and maintenance of plant which rose from \$18,800 to \$21,150 and in debt service up from \$146,142 to \$150,068.

The biggest decrease is in health services down from \$5,731 to \$250 and capital outlay down to \$6,700 a decrease of approximately seven thousand dollars.

Also cut was student-body activities from \$8,775 to \$7,075 with the biggest portion being in athletics and playground equipment which was cut from \$6,600 to \$4,800 for the coming year.

In other business the Board approved the hiring of three new coaches (See story Page 1) which leaves only the choir director position still vacant in high school.

Bids were opened by the Board on gasoline, milk and bread for the coming year. The gasoline bid went to Pierce Oil Co. who submitted a bid of .1710 per gallon. Other bids submitted included Texaco .1764; Gulf .1767; Conoco .1768; Mobil .1767 and Phillips .1784.

The awarding of the bids for the bread and milk were deferred until a special meeting scheduled last night.

The Board also approved an insurance plan for the student and athletes. The students will participate on a voluntary basis.

The Board also approved the sending of the high school band to all away football games this year. There will be six trips with the longest being to Sweetwater.

Superintendent Paul Manning also outlined portions of the recently passed Elementary-Secondary Education Act whereby schools are eligible for monies for students from families with less than \$2,000 annual income.

Three Coaches Named To Staff

Three coaches were hired for the Littlefield School system Tuesday night by the School board at their meeting.

Douglas Monzingo will be the new offensive line coach for the Wildcats. He comes here from Thorndale where he was head coach last year.

A graduate of McMurray College he spent three years as line coach and first assistant at Crosby before moving to Thorndale last season to become head coach there.

He will teach high school mathematics in addition to his coaching duties.

Also coming here from Thorndale is Derriel Franklin who was Monzingo's number one assistant last year. A graduate of Northeast Louisiana State last year was Franklin's first in the coaching ranks.

Franklin will be the Junior High School head coach and also assist with the varsity defensive team as defensive coach.

The third new coach added to the staff is Bob Swafford. Swafford went to Abilene High School and is a graduate of Texas Tech. He will assist Franklin with the Junior High School Athletic teams and will coach the varsity defensive backs and ends.

The three new comers fill the coaching ranks for the coming year as Bob Martin remains as basketball coach and Hal Stanislaw has moved up to head track coach for the Wildcats.

Four Persons Hospitalized Following Collision At Spade

Four persons were hospitalized Sunday following a two car collision Sunday morning at the intersection of Farm Roads 54 and 168 at Spade.

Those injured were Mrs. Joseph MacNamee and her daughter, Susan, passengers in a car driven by Mr. MacNamee, San Antonio and Mr. and Mrs. Paschall Caldwell of Spade, the driver and passenger in the other car involved in the two car accident.

Mrs. MacNamee was the most seriously injured of the four and is in fair condition at Littlefield Hospital suffering from a fractured pelvis, broken ribs, a broken collarbone and deep lacerations.

Susan suffered severe lacerations and a multi-dislocation of her left foot. She is reported in good condition at Littlefield Hospital and Clinic.

Mr. and Mrs. Caldwell are also both in the Littlefield Hospital, Mrs. Caldwell with four broken ribs on her left side and a four inch hole in her left leg. She also suffered a bruised left shoulder and a possible injury to her left knee.

Her husband suffered a serious concussion and as of the day following the accident did not remember driving the vehicle.

Mr. MacNamee, the only one of the five wearing a seat belt, suffered only a bruise on his

right cheek. Both vehicles, 1962 Chevrolets, were considered a total loss by Texas Department of Safety Officials who investigated the accident. The probable cause was the failure of the MacNamee car to stop at a stop sign.

The MacNamee car, hit in the left side by the front of the Caldwell vehicle, careened over the lawn of the Spade School grounds before coming to rest back on the highway.

In another accident Sunday a 1962 Chevrolet driven by R.J. Cook, Route #1, Amherst, and a 1963 Ford pickup driven by Monte Berry, Littlefield, were also damaged to such an extent as to be considered a total loss after they collided at the intersection of county roads approximately 11 1/2 miles northeast of Littlefield.

According to Texas Department of Safety officials the intersection at the scene of the accident is a blind intersection with trees and other growths obscuring the view of drivers.

The pickup traveled approximately 250 feet following the collision before overturning one and a half times and coming to rest on its top.

Neither of the two drivers were injured in the accident.

Two other minor accidents were also investigated by the Department of Safety, Sunday, both being one car accidents.

BAD DAY FOR ACCIDENTS -- Four persons were hospitalized and four cars were declared total losses following the two accidents pictured above. The two cars on the left collided at the intersection of Farm Roads 54 and 168 at Spade which sent Mrs. Joseph MacNamee and her daughter, Susan, passengers in the vehicle

pictured at top, and Mr. and Mrs. Paschall Caldwell, occupants of the car shown below, to Littlefield Hospital with serious injuries. In the accident on the right no injuries were suffered though the pick-up traveled approximately 250 feet and then turned over following the collision on a country road.

AT PCG MEET Growers Hear Cotton Program

Montgomery, Smith Re-elected

Between one hundred-fifty and two hundred Lamb County farmers turned out Tuesday night to elect two directors for the coming year to the Plains Cotton Growers, and to hear a discussion on the proposed cotton section of the farm bill.

Elected to the directors post were John D. Smith and Joe Montgomery. Both were currently serving on the board and Smith was vice-president of the producer's organization.

The high point of the meeting came when Donald Johnson, Executive Vice-president of the PCG, and Lamar Aten, Lamb County ASCS manager took the floor to outline the proposed farm bill, and then later opened the floor to discussion and questions.

Johnson, when asked from the floor about PCG's position on the pending bill said, "The directors of the PCG feel some type of legislation for cotton is needed and believe price supports has been the thing that has kept Plains cotton in a good economic position, however the majority of the directors do not feel the current proposal would be beneficial to the High Plains

Growers and for that reason are opposed to the bill as it now stands."

After the program has been outlined by Johnson and Aten, the questions came thick and fast to both men, with the majority being directed at Aten, who if the bill is passed in any form, will be responsible for putting the legislation into action.

Aten explained the bill simply by stating it would work in about the same manner as the grain bill now does. He said there is more to it than the grain bill but basically that would be the way this bill would function.

The following summary of the bill was presented by Johnson, who said he had reason to believe the bill would be changed before passage, either in the House or in the Senate. The bill is scheduled for a House vote later this week or the first part of next week.

The summary given by Johnson was basically the same as the explanation given by Aten except the example given was changed slightly.

Johnson and Aten both stressed the examples were based on Middling - inch cotton. High Plains growers would have to apply the payment schedule to the prices for their products. Johnson said, "Due to the differences in grade and staple, the average price for High Plains cotton will be about 3 cents per pound below the Middling one-inch price.

A loan price of 21 cents per pound on Middling-inch cotton at average location in 1966 and a loan price at no more than 90 per cent of the "estimated" world price for 1967, 1968 and 1969.

A mandatory 15 per cent acreage reduction for any farmer who wishes to be eligible for the loan or direct payments.

Unlimited acreage and production for farmers who elect to plant over 85 per cent of their effective allotment and sell on the open market without benefit of loan or payments.

A domestic allotment for each farmer at not less than 65 per cent of base allotment.

A price support payment of 9 cents per pound and a variable land retirement payment which, combined, would give the producer a total payment of (a) 11.42 cents per pound times the projected yield from domestic acreage (65 per cent of base) for growers who plant 85 per cent of base allotment, (b) 13.04 cents per pound times projected yield from domestic allotment for growers who plant 75 per cent, and (c) 14.65 cents per pound times projected yield for the grower who plants only his domestic allotment.

(Provisions in this paragraph were added to the bill after it was reported out July 9.) Under the authority for these payments, the producer would receive the remainder only when

he sold the cotton or the government took title to it under the government program. However, there is provision for a cotton farmer to assign direct payment checks to private lending agencies to obtain production loans.

Direct payments, expressed as a percentage of loan level, after 1966 that will go up or down with the loan level, except that loan plus payments are required to be no less than 65 per cent nor more than 90 per cent of parity.

A restriction on release and reapportionment which prevent cotton acres released from being reapportioned outside the county in which released.

A producer who receives reapportioned acreage will be eligible for the loan (21 cents) and the support payment (9 cents on domestic acres) but not for land diversion payments.

Allotment holders can release 85 per cent of their acreage and receive a land diversion payment in the amount of one-half the loan price times projected yield from the other 15 per cent without planting any cotton at all.

If the Secretary of Agriculture is unable to make payments as provided in the law he may carry out its provisions through use of loans or through purchase and resale of cotton.

The Secretary of Agriculture cannot sell cotton from CCC stocks at less than 110 per cent of the loan price except if he determines that production in any year will be less than off-take, in which case he can sell CCC stocks at market prices.

Farmers may, within counties or adjoining counties, trade rice and cotton allotments between themselves.

Sale and transfer of cotton allotments may be made between growers within a county, except that if a referendum vote (See GROWERS, Page 4)

Quarterback Club To Host Party

There will be a swimming party at 7:30 p.m. Saturday at the Crescent Park pool for all Littlefield High School football players.

Members of the Littlefield Quarterback Club will also attend the party, the first of the activities planned for the coming football season.

The first regular meeting of the Quarterback Club will be held the following Tuesday evening, August 17 at 8 p.m. at the High School cafeteria.

President Jim Mangum stated programs for the coming year will be discussed as well as hearing the first report from the football coaching staff.

Members will also be able to see the new activities bus for use by the high school which was recently purchased by the Quarterback Club.

SIGNAL LIGHTS -- The new signal lights being installed on Phillips Ave. will eliminate another overhead wire across the street. An added improvement with the new lights that the green lights will be on the bottom in both directions of traffic. The first lights were installed Tuesday at Phillips and put into use Wednesday morning.

WEEKEND In Rockies Contest 4th Week Winner Named

Ellen Powell, 906 East Littlefield, has been named winner of the ninth week of the weekend in the Rockies" being sponsored by the

Mrs. Powell, who lives with her mother and seven year old daughter Mary Ellen stated that the only place she had registered this past week was at E.C. Rodgers where she was the preliminary winner. "I had registered only one other place during the entire contest and that was during the first week. This was only the second time I have ever registered," stated Mrs. Powell.

The winner has lived in the Littlefield area practically all of her life and is presently an L.V.N. at the Littlefield Hospital and Clinic.

The final week of the contest is now underway and tomorrow is the deadline for registering for the final drawing. There is nothing to purchase and everyone over 21 is eligible to enter the contest.

The grand winner each week receives a weekend at a resort hotel or motel in the Rockies or a weekend at any of the Ramada Inns throughout Arizona, New Mexico and Texas. Lodgings and meals are free for the winning family up to and including five persons.

Names of the tenth and final week preliminary winners will be named in the merchants advertisements in this Sunday's County Wide News.

Spade School Board Sets Budget Meet

Members of the Spade School Board announced this week they would hold a public hearing on the proposed budget for the coming school year Monday, August 16 at 8 p.m. in the Spade School building. All residents of the Spade Independent School District are invited and encouraged to attend.

coat of paint on the old building and see if we couldn't improve the appearance just a little, and sure enough it worked. It's amazing what a few coats of paint can do to improve the appearances and to give a place a new life at a low cost. We do not advocate a big remodeling job for everyone but in most cases a new coat of paint can do the job. Now the next thing will be to get rid of some of the weeds that have again crept around the building. We hope we will have a little better appearance by the opening celebration which now is less than one month off.

Again we would like to remind you tickets for the Paul Harvey address will go on sale next Monday and to make your reservations for tickets you can give us a call at 385-4481 or can call Leon Slaughter at 385-4451. Either of us will be glad to take your order and see that you receive your tickets. We hurry and get your order in. There are only 1,000 of the tickets available, and due to the popularity of Mr. Harvey the ticket committee feels they will go fast.

THOUGHT FOR THE DAY "In the school of life, a grateful heart makes a good student."

we now seen everything, the dog. The other evening we were visiting Dr. instead who asked if I seen his dog which answering that we hadn't, needed to bring Sugar to the room and have a form. I'm telling you not only sings, it performs according to the doctor the bigger the audience the better the performance. If you get the opportunity to have the doctor on a show for you.

Mrs. Dwain Phillips Submits Luscious Lemon Cake Recipe

Norma Phillips, who supplies the recipe this week, considers herself a jack-of-all-trades, and well she might. She paints, bowls with her husband, Dwain, sews, plays bridge, sings, and plays the piano. She still finds time to enjoy cooking and keep up with her seven year old son, Jay.

Norma and Dwain have lived in town for only two years, but both are long-time area residents, having gone to school in Amherst. In fact, both started to school in the first grade together. "We first noticed each other when we were freshmen and given the same locker number," she said.

Although she hasn't been painting long, Norma has done quite well with her hobby. Several of her paintings decorate her home, and several have been sold or given as gifts. "You can lose yourself in painting," she said, "it soothes one's mind."

Apparently she and Dwain have "lost themselves" in bowling too. Their mantle is full of trophies they have won. Norma's average is 165 and her high game is 252.

Dwain's interests not only include bowling, but fishing and hunting as well. Jay's interests vary from time to time, but his main interest now is watching the developing cocoon of a Tiger Swallowtail. This rare butterfly, one of the largest in North America, seems to find an attraction to the Phillips home as several cocoons have been found there.

The Phillips live at 313 E. 20th.

Luscious Lemon Cake is the recipe Norma submitted for the readers this week. It is a delicious cake that seems to be a favorite with men. It is taken from a book of her favorite recipes, and several people have asked for it.

LUSCIOUS LEMON LAYER CAKE

- 1/2 cup shortening
- 1 cup sugar
- 1 teaspoon vanilla
- 1 teaspoon lemon extract
- 2 eggs
- 2 cups sifted cake flour
- 1 teaspoon baking powder
- 3/4 teaspoon soda
- 1/4 teaspoon salt
- 1 cup sour milk

Cream sugar and shortening. Add extracts and egg one at a time. Beat well. Sift flour and dry ingredients three times. Add to creamed mixture alternately with milk. Beat each addition until smooth. Bake in two

NORMA PHILLIPS IS SHOWN as she serves the last piece of Luscious Lemon Layer Cake to her son, Jay. It's to Jay's advantage that his mother finds time to cook such cakes. Her time is divided between bowling, playing bridge, singing, playing the piano, and painting, as well as cooking.

9" pans about 25 minutes in a 350 degree oven. Put layers together with lemon filling. Frost with lemon icing.

LEMON FILLING:

Mix 1/2 cup sugar, 2 tablespoons flour; add 3/4 cup cold water; blend. Cook until thick over low heat. Slowly add 1 beaten egg yolk, juice of one lemon, 2 tablespoons butter;

Proposed CONSTITUTIONAL AMENDMENT NUMBER NINE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. HOUSE JOINT RESOLUTION NO. 8 proposing an Amendment to Section 24, Article III and Section 17 of Article IV of the Constitution of the State of Texas, to allow an annual salary in an amount to be fixed by the Legislature for the Lieutenant Governor and for the Speaker of the House of Representatives, and increasing the per diem allowance of Members of the Legislature.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 24 of Article III of the Constitution of the State of Texas be amended to read as follows: "Section 24. Representatives shall receive from the Public Treasury an annual salary of not exceeding Four Thousand, Eight Hundred Dollars (\$4,800) per year. Senators shall receive from the Public Treasury an annual salary of not exceeding Four Thousand, Eight Hundred Dollars (\$4,800) per year. The Lieutenant Governor and the Speaker of the House of Representatives shall receive from the Public Treasury an annual salary in an amount to be fixed by the Legislature. All Members of the Legislature, including the Lieutenant Governor and the Speaker of the House of Representatives, also shall receive from the Public Treasury a per diem of not exceeding Twenty Dollars (\$20) per day for the one hundred and forty (140) days of each Regular Session and for thirty (30) days of each Special Session of the Legislature. No Regular Session shall be of longer duration than one hundred and forty (140) days. This Amend-

ment shall be self-enacting and appropriations heretofore made in the General Appropriations Bill for the biennium ending August 31, 1967, for the salaries of the Lieutenant Governor and Speaker of the House of Representatives shall not be invalid because of the anticipatory nature of the legislation.

"In addition to the per diem the Members of each House shall be entitled to mileage in going to and returning from the seat of Government, which mileage shall not exceed Two Dollars and Fifty Cents (\$2.50) for every twenty-five (25) miles, the distance to be computed by the nearest and most direct route of travel, from a table of distances prepared by the Comptroller to each county seat now or hereafter to be established; no Member to be entitled to mileage for any extra Session that may be called within one (1) day after the adjournment of the Regular or Called Session."

Sec. 2. That Section 17 of Article IV of the Constitution of the State of Texas be amended to read as follows: "Section 17. If, during the vacancy in the office of Governor, the Lieutenant Governor should die, resign, refuse to serve, or be removed from office, or be unable to serve; or if he shall be impeached or absent from the State, the President of the Senate, for the time being, shall, in like manner, administer the Government until he shall be superseded by a Governor or Lieutenant Governor. The Lieutenant Governor shall, while he acts as President of the Senate, receive for his services an annual salary in an amount to be fixed by the Legislature and the same mileage which shall be allowed to the Members of the Senate, and no more; and dur-

ing the time he administers the Government, as Governor, he shall receive in like manner the same compensation which the Governor would have received had he been employed in the duties of his office, and no more. The President, for the time being, of the Senate, shall, during the time he administers the Government, receive in like manner the same compensation, which the Governor would have received had he been employed in the duties of his office."

Sec. 3. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday following the first Monday in November, 1965, at which election all ballots shall have printed thereon the following: "FOR the Constitutional Amendment allowing an annual salary in an amount to be fixed by the Legislature for the Lieutenant Governor and for the Speaker of the House of Representatives and allowing a per diem for Members of the Legislature not to exceed Twenty Dollars (\$20) per day for the 140 days of each Regular Session and 30 days of each Special Session. "AGAINST the Constitutional Amendment allowing an annual salary in an amount to be fixed by the Legislature for the Lieutenant Governor and for the Speaker of the House of Representatives and allowing a per diem for Members of the Legislature not to exceed Twenty Dollars (\$20) per day for the 140 days of each Regular Session and 30 days of each Special Session."

KAY LYNN LOTT Attending Seminar

WHITHARRAL -- Miss Kay Lynn Lott is one of three Hockley County youths who are attending the Farm Bureau Citizenship Seminar at Sam Houston State Teachers College at Huntsville, Aug. 10-14. The other young people are Miss Jay Ellen Harbin of Levelland and Ronnie Glass of Anton. This is the third such seminar to be sponsored by Farm Bureau. Three hundred fifty students from 144 County Farm Bureaus will participate in an intensive course in citizenship, our American heritage, the proper role of government, and the threat of Communism.

Miss Lott, the daughter of Mr. and Mrs. G.E. Lott, will be a junior in the Whitharral High School this fall. She is very active in all school activities and has a high scholastic rating.

Mitchell On Auto Association Directors Board

Appointment of Area Directors throughout the state to serve in conjunction with the Board of Directors of the Texas Automobile Dealers Association was announced this week by TADA President Jack Rieger of San Antonio.

From Littlefield, Horace Mitchell of Mitchell Ford Inc. was named to the post. His particular responsibilities will be to work with other TADA officials and to specialize in research that will aid the motor vehicle buying public and the automobile industry.

"The automobile long ago ceased to be a luxury," Rieger pointed out. "It is a necessity in our modern world, and franchised new-car dealers are sincerely concerned with making driving safer, more convenient, and more economical for our customers."

"Highway safety is a particularly important area for us," he explained. "We are especially proud of the number of automobiles loaned to schools for Driver Education by our member dealers. Legislation also is a vital matter for dealers and public alike. Automobile dealers throughout the country are proud of the success of their efforts in reducing the excise tax on new cars. It is on matters of this type, at the grass roots throughout Texas, that our area directors work, and their help is of inestimable value to our association and to everyone who travels Texas highways." Rieger concluded.

Johnson Named To Committee

Donald A. Johnson, Executive Vice President of Plains Cotton Growers, Inc., has been appointed by the Secretary of Agriculture as a member of the department's Advisory Committee on Cotton.

The appointment came in a letter from Horace D. Godfrey, Chairman of the Committee and Director of the Agricultural Stabilization and Conservation Service. The committee, designed to advise the Secretary of Agriculture in connection with programs and problems concerning cotton, meets at the call of the chairman. Date for the next meeting has not been set.

Johnson, who succeeded the late George W. Pfeifferberger as head of the giant High Plains cotton producer organization on February 26 of this year, has been active in the Washington affairs of cotton for the past several years. He had been Executive Assistant to Pfeifferberger since 1962.

Plains Cotton Growers, Inc., with almost 25,000 members, covers 23 counties on the High Plains which produce about half the Texas cotton crop and some 15 percent of the cotton grown in the nation. "For this reason," Johnson said, "it is extremely important that the area be represented in all activities which relate to cotton, and we are certainly grateful for the appointment."

LETTERS TO THE EDITOR

A NOTE TO THE PARENTS OF OUR TEENAGERS:

I would like to inform those parents who forbid their children and the children of their friends from attending a dance given July 30 at the Sports Arena about the dance.

First, there was NO DRINKING, even though it was reported otherwise. I have proof to substantiate this fact because of my clean-up man and local police officers who I requested to supervise the party and protect my property. We are indeed fortunate to have men who spend their off-duty time helping sponsor the parties for our teenagers because the parents have failed to do so, at least, at the Sports Arena.

Secondly, I am not mixing the Spanish with the Whites. The Spanish have their private parties just as we have our private parties. They also rent the Community Center and the J.C. Party House.

I think that a building that is clean, run correctly, and paid for, has no limit to the enjoyment it can provide for our young people.

Most of the teenagers have come to me wanting a larger place with more freedom of movement. I have let them have the building for just enough to cover the overhead. I think anyone in business who loves kids would do the same.

I would like to invite any parent who is really interested in seeing that their kids have a good, clean time to come out... Owners of the Littlefield Sports Arena, Mrs. John Ussery

High School Student Seminar Set At Sam Houston State

A group of outstanding high school students from across the state are engaged in an intense study of their heritage and the threats of communism and socialism at a three-day seminar on citizenship here this week.

The third annual High School Students Citizenship Seminar is being held Aug. 10-14 on the campus of Sam Houston State Teachers College. Sponsored by the Texas Farm Bureau, the training school consists of thorough orientation on the basic principles of the American system and conflicting ideologies. Several well-known lecturers and educators are on the program.

A capacity enrollment of 320 high school juniors and seniors from 144 counties are participating this year. All of the students were selected on the basis of leadership and scholastic accomplishments.

Members of the faculty are: Dr. Clifton L. Ganus, Jr., Vice

president and head of the Department of History and Social Sciences of Harding College of Searcy, Ark.; John Noble, author and lecturer of Wheaton, Ill., who spent nearly 10 years in Soviet prisons; W. Cleon Skousen of Salt Lake City, former FBI agent and author of the book, *The Naked Communist*; and Dr. Nicholas Nyaradi of Bradley University who once served as Minister of Finance in the Hungarian governmental cabinet.

The curriculum has been designed to make students "better acquainted with the American scene and motivated to a more forceful expression of pride in our traditions and ideals," explained C. H. DeVaney, president of the Texas Farm Bureau. The farm organization leader said the training school is designed to "complement the formal education of these young folks and make it more meaningful for them."

Machinery Is Main Cause Of Farm Accident Increase

Farming as an occupation is getting more hazardous each year. Although the Texas farm population is declining, farm accidents are on the rise.

Increased mechanization is a big factor. Machines allow the farmer to do much more work than previously, but they also increase his work load. And as fatigue sets in, the accident potential rises.

The number of Texas farmers decreased some 45 percent in the last 15 years. But accidents have jumped an alarming 66 percent.

On the national average death rates from farm accidents varied by age groups, increasing rapidly after age 49, the rate was more than double the U.S. average for those farmers who were still active at 75. Highest farm accident death rate for any group under 50 is among those 15 to 24 years of age.

The leading cause of accidents on farms is machinery, followed by drowning, then firearms, falls, blows, burns, electricity and poison. Machinery accounted for 37.6 percent of the more than 9,000 fatal accidents on U.S. farms in the last three year period. This makes farming more dangerous than work in mines, quarries and industrial factories combined.

February through July is the most hazardous part of the farming year. Machinery accidents are highest during planting and harvesting season. Firearm fatalities increase throughout the summer and fall, then decline steadily from January through May.

Texas Agriculture Commissioner John C. White recently joined the National Safety Council in urging greater safety factors to be built into farm machinery.

"Automobiles are claiming a lot of attention among safety-

minded engineers," White pointed out. "We'd like the same attention to be directed towards farm equipment."

4-H Members Tour Markets

The Chicago Board of Trade, one of the largest terminal markets in the world, is helping young crop producers understand marketing functions.

For the 15th consecutive year the Board of Trade is sponsoring the 4-H Grain Marketing program in 11 states across the nation. The program encourages young people to trace the movement of grain from farm to market and chart market price of different commodities. It also provides training in grain grading, testing, storage and quality control. Tours of local grain marketing facilities are scheduled for 4-H'ers participating in the program.

Culminating their extensive study of marketing, some 25 4-H members will be selected for further training at a three-day grain marketing conference in Chicago. As guests of the Board of Trade, the group will witness trading in grain futures, tour a processing plant and learn about career opportunities. The next 4-H Grain Marketing Conference is scheduled January 25-27, 1966.

In addition, the Chicago Board of Trade provides educational materials and recognizes 4-H members accomplishments in the program with county awards of gold-filled medals. The Co-operative Extension Service selects the winners of these awards and the conference delegates.

States participating in the 4-H Grain Marketing program are: Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Nebraska, Ohio, Oklahoma, Texas and Wisconsin.

Sighting-In-Day For Hunters

Clubs affiliated with the National Rifle Association will again open their facilities to their fellow sportsmen for the purpose of sighting-in their firearms in preparation for the coming hunting seasons. This is the fifth year of nation-wide sponsorship of sighting-in events by NRA.

The program includes the provision of ranges for firing rifles and shotguns, assistance by range personnel in making sight adjustments and the information on the performance of sporting guns at various ranges. In addition, many clubs conduct running deer matches and provide gunsmiths for minor gun repairs.

A properly sighted-in gun increases the chances of successful hunting, produces more clean kills and enhances the enjoyment of hunting. Not to be overlooked is the opportunity for sportsmen to refresh themselves on the fundamentals of safe gun handling and good marksmanship.

Hunters attending an NRA Sighting-In-Day will learn the capabilities of their rifles at practical hunting distances, shotgun patterning and slug testing, trajectories of various rifle calibers, differences between uphill and downhill shooting, bullet performance during rain, the effect of cant on the point of impact, plus other items of importance to accurate field shooting.

Complete information on NRA Sighting-In-Day is available to individuals and organizations by writing to the National Rifle Association, 1600 Rhode Island Avenue, N.W., Washington, D.C. 20036.

Orders Passed By Commissioners

The Lamb County Commissioners Court passed five orders at their first meeting of the month Monday afternoon.

After approving the payment of bills for the month, the next order passed was the approval of reports given by W.R. Kimbrough, County Agent; Home Demonstration Agent Lady Clare Phillips and Ronnie McNutt, Assistant County Agent.

The third order passed was the signing of a contract with Lamb County Electric Co-operative in regard to the relocation of electrical power lines crossing U.S. Highway 84 as a result of the improvements to the highway.

The Commissioners next passed an order to effect the renewals and partial renewals and changes of time deposit in the First National Bank.

They approved adding \$8,500 to the time deposits bringing the total to \$232,300 now in time deposits. The largest gain was in Road District 1, 1960 when they added \$5,500 to bring the total to \$69,000. The only deposits decreased was the Court-house and jail 1953 a 1 and S funds which was decreased \$7,500.

Bill Weige Is Appointed To Position

At a regular meeting of the Lamb County American Red Cross on Friday, August 6, Mrs. Bonnie Haberer, Chairman of the Board, appointed Mr. Bill Weige as Chairman of First Aid. The Chairman also appointed Mrs. Norman Frey, who has been on the Red Cross Board for several years as Chairman of Volunteers. She will fill the vacancy due to the resignation of Mrs. Gladys Joplin, who has served faithfully in that capacity, and who will remain on the Board.

On behalf of the board, Mrs. Haberer, presented Mr. James P. Arnold, retiring County Chairman of Red Cross, a framed plaque in appreciation for his services rendered from 1962-65.

It was reported by the Executive Secretary that 37 cases had received attention in the month of July through the Red Cross office which included services to the military, veteran services, and services to civilians.

for any farm to which acreage is transferred can not exceed 150 per cent of the average size farm acreage allotment in that state or 100 acres, whichever is greater.

(This paragraph also added after bill was reported July 9.) A farmer who sold his cotton allotment could not plant cotton on his farm within five years of the date of sale. A farmer who leased his allotment could not plant cotton on his farm during the period of the lease. Therefore, these farmers would be ineligible to plant unlimited acreage after sale or lease of allotments.

Secretary of Agriculture would be authorized to make one-half of land retirement and price support payments in advance of determination of performance.

It can best be seen how the program would work by taking a simple example. Assume the following:

Present cotton allotment of 100 acres.
Yield per acre of 500 pounds or one bale.
"Projected" yield per acre of 500 pounds or one bale.

UNDER 1965 PROGRAM (Act of 1964) -- 100 B/C at 29¢ lb. (Middle-one inch 1965 loan) -- \$145 per bale or \$14,500.00.
CHOICES UNDER H.R. 9715--
I. PLANT 85 PER CENT OF ALLOTMENT (85 ACRES) -- 85 B/C at 21¢ lb. (1966 Loan) -- \$105 per bale or \$8,925.00.
65 B/C at 11.42¢ payment (combined land retirement and support) -- \$57.10 bale or \$3,711.50.
TOTAL GROSS -- \$12,635.50.

II. PLANT 75 PERCENT OF ALLOTMENT (75 ACRES) -- 75 B/C at 21¢ lb. (1966 loan) -- \$105 per bale or \$7,875.00.
65 B/C at 13.04¢ payment (combined land retirement and support) -- \$65.20 bale or \$4,238.00.
TOTAL GROSS -- \$12,113.00

III. PLANT 65 PER CENT ALLOTMENT (65 ACRES) -- 65 B/C at 21¢ lb. (1966 loan) -- \$105 per bale or \$6,825.00.
65 B/C at 14.65¢ payment (combined land retirement and support) -- \$73.25 bale or \$4,761.25.
TOTAL GROSS -- \$11,586.25.

IV. PLANT UNLIMITED ACREAGE -- It should be noted that the producer, under H.R. 9715, would be required to reduce his plantings to 85 per cent of current allotment to be eligible for price support or payments, and that all payments over the loan are made on the domestic portion of his production only. It is evident that if the producer is to participate in the world market, he must do so without benefit of any assistance whatever.

HEALTH & SAFETY TIPS

At what age should children learn and be able to do certain things?

Any such listing must always keep in mind the fact that no two children are alike and that development periods can and do vary widely in perfectly normal children, says Today's Health Guide, the American Medical Association's manual of health information for the family.

There are certain things that babies learn at approximately the same age in the early development period. Here are some of them--

- * One month--Can raise chin off bed.
- * Two months--Can raise chest off bed.
- * Three months--Reaches for objects, but without success.
- * Four months--Can sit with support.
- * Five months--Can sit on lap and can grasp small objects.
- * Six months--Can sit in high chair and grasp a dangling object.
- * Seven months--Can sit alone.
- * Eight months--Can stand with help.
- * Nine months--Can hold to pieces of things.
- * Ten months--Can be led by one hand.
- * Eleven months--Can be led by one hand.
- * Twelve months--Can stand with the furniture.
- * Thirteen months--Can climb up a few stairs.
- * Fourteen months--Can stand alone.
- * Fifteen months--Can stand alone.

with help.

But, cautions Today's Health Guide, the parent has no basis for either an unwarranted pride in the precocious child or an unwarranted pessimism over his slowest child's development. Parents should vary widely from above table.

No two children are alike.

Stance fatigue is a condition produced by quiet standing, sometimes observed in a soldier or guard after long standing at attention.

Accent On Health

Emphysema - a word you rarely hear 50 years ago - is a word you hear more and more frequently today. One reason is, when people had the disease many are being diagnosed today. Just in the last years, deaths from this disease have increased six over. More than 10,000 die every year.

Emphysema - pronounced em-fih-SEE-ma - is a disease causing the lungs to come greatly enlarged, usually, it is derived from Greek word meaning "blowing".

Simply speaking, this happens when a person's emphysema. His lungs normally contract and expand - inhaling and exhaling - to lose their elastic. When this happens, air is completely expelled, some of it remains in the lungs.

Emphysema may begin only a slight morning breathing inconvenience in breathing. Next, a short walk may be enough to bring on an acute breathlessness. As the disease progresses, the person has to breathe in harder to inhale air. This may become overstrained the same time becoming efficient in exchanging oxygen for carbon dioxide.

Unless promptly treated, lungs may be permanently damaged. A day-in, day-out struggle to keep the lungs working, every breath becomes a major effort. The hazard of emphysema, however, is the extra load it puts on the heart, which is required to pump harder and harder.

Is emphysema a "catch" disease? The cause of disease is not fully understood but many different things believed to contribute to slow development. These include chronic bronchitis, here whooping cough, early life, allergic asthma, pneumonia, air pollution, smoking.

At the present time, emphysema is the most common chronic disease of the lungs. The best way to fight the disease is to prevent it by early diagnosis, by avoiding the cause of the disease wherever possible, and by proper care of her respiratory condition as they occur.

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER ONE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. SENATE JOINT RESOLUTION NO. 24 proposing an Amendment to the Constitution of the State of Texas by amending Article VII, Section 17, providing a method of payment for the acquiring, constructing and equipping of buildings and other permanent improvements at certain state institutions of higher learning...

Section 1. That Section 17 of Article VII of the Constitution of the State of Texas be amended so as to hereafter read as follows: "Section 17. In lieu of the state ad valorem tax on property of Seven Cents (7c) on the One Hundred Dollars (\$100.00) valuation heretofore permitted to be levied by Section 51 of Article III, as amended, there is hereby levied, in addition to all other taxes of Texas, a state ad valorem tax on property of Two Cents (2c) on the One Hundred Dollars (\$100.00) valuation for the purpose of creating a special fund for the continuing payment of Confederate pensions as provided under Section 51, Article III, and for the establishment and continued maintenance of the State Building Fund as provided in Section 51b, Article III, of the Constitution.

Also, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Ten Cents (10c) on the One Hundred Dollars (\$100.00) valuation for the purpose of creating a special fund for the purpose of acquiring, constructing and initially equipping buildings or other permanent improvements at the designated institutions of higher learning provided that none of the proceeds of this tax shall be used for auxiliary enterprises; and the governing board of each such institution of higher learning is fully authorized to pledge all or any part of said funds allotted to such institution as

hereinafter provided, to secure bonds or notes issued for the purpose of acquiring, constructing and initially equipping such buildings or other permanent improvements at said respective institutions. Such bonds or notes shall be issued in such amounts as may be determined by the governing boards of said respective institutions, shall bear interest not to exceed four per cent (4%) per annum and shall mature serially or otherwise in not more than ten (10) years; provided further, that the state tax on property as heretofore permitted to be levied by Section 9 of Article VIII, as amended, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools, shall never exceed Thirty Cents (30c) on the One Hundred Dollars (\$100.00) valuation. All bonds shall be examined and approved by the Attorney General of the State of Texas, and when so approved and all approved bonds shall be registered in the office of the Comptroller of Public Accounts of the State of Texas. Said bonds shall be sold only through competitive bids and shall never be sold for less than their par value and accrued interest.

The following state institutions then in existence shall be eligible to receive funds raised from said Ten Cent (10c) tax levied for the twelve-year period beginning January 1, 1966, and for the succeeding ten-year period: Arlington State College at Arlington; Texas Technological College at Lubbock; North Texas State University at Denton; Lamar State College of Technology at Beaumont; Texas College of Arts and Industries at Kingsville; Texas Woman's University at Denton; Texas Southern University at Houston; Midwestern University at Wichita Falls; University of Houston at Houston; Pan American College at Edinburg; East Texas State College at Commerce; Sam Houston State Teachers College at Huntsville; Southwest Texas State College at San Marcos; West Texas State University at Canyon.

Stephen F. Austin State College at Nacogdoches; Sul Ross State College at Alpine; Angelo State College at San Angelo.

"Eighty-five per cent (85%) of such funds shall be allocated by the Comptroller of Public Accounts of the State of Texas on June 1, 1966, and fifteen per cent (15%) of such funds shall be allocated by said Comptroller on June 1, 1972, based on the following determinations:

(1) Ninety per cent (90%) of the funds allocated on June 1, 1966, shall be allocated to state institutions based on projected enrollment increases published by the Coordinating Board, Texas College and University System for fall 1966 to fall 1978.

(2) Ten per cent (10%) of the funds allocated on June 1, 1966 shall be allocated to certain of the eligible state institutions based on the number of additional square feet needed in educational and general facilities by such eligible state institution to meet the average square feet per full time equivalent student of all state senior institutions (currently numbering twenty-two).

(3) All of the funds allocated on June 1, 1972, shall be allocated to certain of the eligible state institutions based on determinations used in the June 1, 1966, allocations except that the allocations of fifty per cent (50%) of the funds allocated on June 1, 1972, shall be based on projected enrollment increases for fall 1972 to fall 1978, and fifty per cent (50%) of such funds allocated on June 1, 1972, shall be based on the need for additional square feet of educational and general facilities.

Not later than June first of the beginning year of each succeeding ten-year period the Comptroller of Public Accounts of the State of Texas shall reallocate eighty-five per cent (85%) of the funds to be derived from said Ten Cent (10c) ad valorem tax for said ten-year period and not later than June first of the sixth year of each succeeding ten-year period said Comptroller shall reallocate fifteen per cent (15%) of such funds to the eligible state institutions then in existence based on determinations for the said ten-year period that are similar to the determinations used in allocating funds during the twelve-year period beginning January 1, 1966, except that enrollment projections for succeeding ten-year periods will be from the fall semester of the first year to the fall

semester of the tenth year. All such designated institutions of higher learning shall not thereafter receive any general revenue funds for the acquiring or constructing of buildings or other permanent improvements for which said Ten Cent (10c) ad valorem tax is herein provided, except in case of fire, flood, storm, or earthquake occurring at any such institution, in which case an appropriation in an amount sufficient to replace the uninsured loss so incurred may be made by the Legislature out of any General Revenue Funds. The State Comptroller of Public Accounts shall draw all necessary and proper warrants upon the State Treasurer in order to carry out the purpose of this Amendment, and the State Treasurer shall pay warrants so issued out of the special fund hereby created for said purpose. This Amendment shall be self-enacting. It shall become operative or effective upon its adoption so as to supersede and repeal the former provisions of this Section; provided further, that nothing herein shall be construed as impairing the obligation incurred by any outstanding notes or bonds heretofore issued by any state institution of higher learning under this Section prior to the adoption of this Amendment but such notes or bonds shall be paid, both as to principal and interest, from the fund as allocated to any such institution.

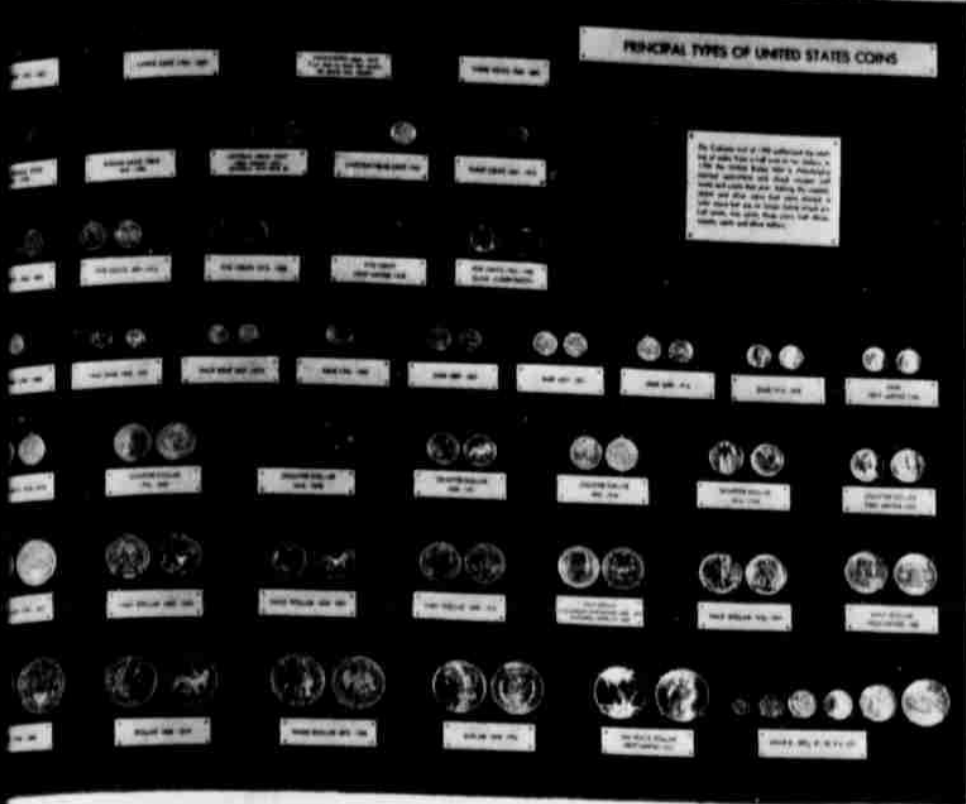

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at the General Election to be held on the first Tuesday after the first Monday in November, A.D. 1965, at which election all ballots shall have printed thereon:

"FOR the Amendment to Article VII of the Constitution of the State of Texas by amending Section 17 thereof, providing a method of payment for the acquiring, constructing and equipping buildings and other permanent improvements at certain state institutions of higher learning."

"AGAINST the Amendment to Article VII of the Constitution of the State of Texas by amending Section 17 thereof, providing a method of payment for the acquiring, constructing and equipping buildings and other permanent improvements at certain state institutions of higher learning."

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this state.

"FOR the Amendment to Article VII of the Constitution of the State of Texas by amending Section 17 thereof, providing a method of payment for the acquiring, constructing and equipping buildings and other permanent improvements at certain state institutions of higher learning."

Continued Coins Featured Display At Security

panoramic display of the principal types of United States coins issued since establishment of the first U.S. mint in Philadelphia in 1792 is now shown at the Security State Bank. The exhibit, on loan from the Manhattan Bank Money in New York, includes all coins officially issued in this country--oversize copiers and half cents minted in 1856 but replaced in 1864 with the Indian head which was issued until 1878, except for a few proof coins struck for collectors between 1879 and 1885.

One of the exhibit's more unusual coins was authorized in 1873 for circulation solely outside the United States. Slightly heavier than the standard silver dollar, the Trade Dollar was issued to help increase U.S. trade with the Orient. But when there was no appreciable growth in trade with the Far East, the dollars were discontinued. None were minted after 1878, except for a few proof coins struck for collectors between 1879 and 1885.

The first commemorative coin authorized by Congress is also on display. A half dollar with the portrait of Columbus was specially struck for the Columbian Exposition--celebrating the 400th anniversary of the discovery of America--held at Chicago in 1892 and 1893. Because commemorative coins are sold at a premium, few are seen in general circulation.

The reason for the changes in the design of U.S. coins is that the secretary of the Treasury, unauthorized by Congress, may change the design of any denomination after it has been in circulation for 25 years. But changes are not mandatory and popular designs--like the Lincoln penny and Washington quarter--have been retained long after the 25 year period is over.

The coins will be on display at the Security State Bank for one more week.

'The Monkey's Uncle' On The Madcap Side

As the title suggests, "The Monkey's Uncle" is another wacky Walt Disney comedy intended for those who like their movie fare on the madcap side—especially the swinging teenage set. In the tradition of "Absent Minded Professor," "Son of Flubber" and "The Misadventures of Merlin Jones," the zany feature has everything—from a wild Watusi with the shapely Annette to a hilarious plane ride with Tommy Kirk—to delight the young at heart. The story is about a brainy college kook named Merlin Jones who is called upon to prevent his school's football team from going down the tubes. First he keeps two empty-headed halfbacks from flunking out by inventing a screech sleep-teaching device. Then he tries to solve the age-old mystery of man-powered flight so that good old Midvale College can win a large endowment. The results are hilarious. "Monkey's Uncle"

opens Sunday at the Palace.

Besides Tommy Kirk and Annette, two of the nation's most talented and popular young stars, Walt signed a solid supporting cast for the wayout comedy. Leon Ames plays a hard-pressed judge who lets nothing short of Midvale football stand in the way of justice. Arthur O'Connell, whose performances in "Anatomy of a Murder" and "Picnic" won him Oscar nominations, shows his funny side as an ad-lib-pated New Englander with an extravagant bent. Leon Tyler and Norman Grabowski play ball-playing boos who serve as guinea pigs for Merlin's crazy experiments, and last, but not least, a chimp named Judy steals scenes like a child actor.

In brilliant Technicolor, "The Monkey's Uncle" was directed by Robert Stevenson with Edward Colman as cinematographer. Ron Miller co-produced the Buena Vista release with Walt Disney.

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.
SENATE JOINT RESOLUTION NO. 14 proposing Amendments to Section 4, 22 and 23 of Article IV of the Constitution of the State of Texas, so as to provide a four-year term of office for the Governor, Lieutenant Governor, Attorney General, Comptroller of Public Accounts, Treasurer, Commissioner of the General Land Office and Secretary of State; and certain statutory state officers; providing for the necessary election and the form of the ballot; and providing for the necessary proclamation and publication.

RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 4, Article IV of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Section 4. The Governor shall be installed on the first Tuesday after the organization of the Legislature, or as soon thereafter as practicable, and shall hold his office for the term of four years, or until his successor shall be duly installed. He shall be at least thirty years of age, a citizen of the United States, and shall have resided in this state at least five years immediately preceding his election."

Sec. 2. That Section 22, Article IV of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Section 22. The Attorney General shall hold office for four years and until his successor is duly qualified. He shall represent the state in all

suits and pleas in the Supreme Court of the state in which the state may be a party, and shall especially inquire into the charter rights of all private corporations, and from time to time, in the name of the state, take such action in the courts as may be proper and necessary to prevent any private corporation from exercising any power or demanding or collecting any species of taxes, tolls, freight or wharfage not authorized by law. He shall, whenever sufficient cause exists, seek a judicial forfeiture of such charters, unless otherwise expressly directed by law, and give legal advice in writing to the Governor and other executive officers, when requested by them, and perform such other duties as may be required by law. He shall reside at the seat of government during his continuance in office. He shall receive for his services an annual salary in an amount to be fixed by the Legislature."

Sec. 3. That Section 23, Article IV of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Section 23. The Comptroller of Public Accounts, the Treasurer, the Commissioner of the General Land Office, and any statutory state officer who is elected by the electorate of Texas at large, unless a term of office is otherwise specifically provided in this Constitution, shall each hold office for the term of four years and until his successor is qualified; receive an annual salary in an amount to be fixed by the Legislature; reside at the Capital of the state during his continuance in office, and perform such duties as are or may be required by law. They and the Secretary of State shall not

receive to their own use any fees, costs or perquisites of office. All fees that may be payable by law for any service performed by any officer specified in this Section or in his office, shall be paid, when received, into the State Treasury."

Sec. 4. The foregoing Constitutional Amendments shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1965, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendments providing a four-year term of office for the Governor, Lieutenant Governor, Attorney General, Comptroller of Public Accounts, Treasurer, Commissioner of the General Land Office, Secretary of State, and any statutory state officer who is elected by the electorate of Texas at large, unless a term of office is otherwise specifically provided in this Constitution."
"AGAINST the Constitutional Amendments providing a four-year term of office for the Governor, Lieutenant Governor, Attorney General, Comptroller of Public Accounts, Treasurer, Commissioner of the General Land Office, Secretary of State, and any statutory state officer who is elected by the electorate of Texas at large, unless a term of office is otherwise specifically provided in this Constitution."

Sec. 5. Nothing contained in this Resolution shall be construed so as to extend the term of office of any officeholder previously elected to a two-year term.

Sec. 6. The Governor shall issue the necessary Proclamation for the said election and have the same published as required by the Constitution and laws of this state.
