

Station To Be Built Triangle Near Post Office

is scheduled to be completed in two weeks in the erection of a super-service station on a vacant triangle south of the Littlefield post office. The building, purchased recently by P. Wileman, Littlefield real estate agent from Dr. Woods, fronts on LFD street and Farwell street, and will be originally improved with a frame dwelling, which was purchased several years ago by Dr. Woods from the Duggan interests. The house was later sold to Sid Hopping, and moved to another part of town.

Mr. Wileman announced that the new station will be a super-service development in every respect. In addition to regular service station facilities, the new station (Continued on Back Page)

Drive To Raise \$15,000 For Youth Center Begins

LAMB COUNTY LEADER

LITTLEFIELD, LAMB COUNTY, TEXAS, TUESDAY, JUNE 27, 1950 NUMBER 35

Local Men Safety Council

Dr. Woods, president of the Assoc., Inc., and Joe C. Superintendent of the Public Schools, have appointments as directors of Safety Council. Pierce president of the council, this week.

Safety Council, a non-profit organization, was organized in 1933 by Brooks. It has 153 members and is active throughout the state in promoting safety.

at present on a speaking tour which will address local business clubs, and throughout the state to promote what local organizations do and have done for

Will Serve Accounting Head

ould Rushing, head of the of accounting and financial Texas Technological college, has been elected president of Association of University of Accounting.

ing will serve until June, and has served as vice-president for the past

Christian Church Organized Muleshoe Following Revival

ation of the First Christian Church of Muleshoe was perfect. The church was organized with formation of a governing committee headed by Maltby.

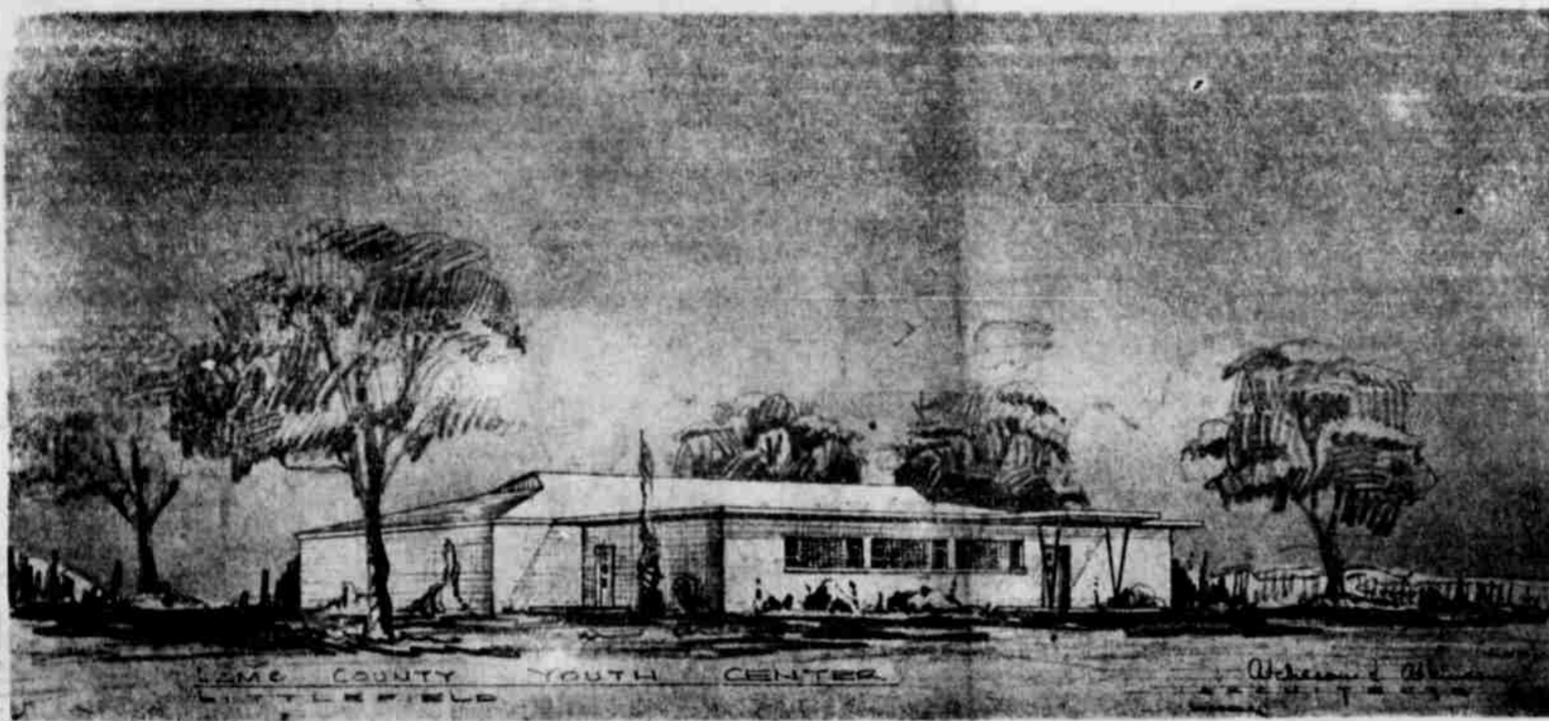

on the organizing committee will function until the next board is elected. It is planned to hold the charter meeting on January 1, and it was thought that some more Christian church of this vicinity will affiliate.

Mrs. L. C. Reece, evangelist, conducted revival services as a forerunner to the church. They attended their morning service two Sundays at the theatre here, an in this section of the congregation is planning to

erect a church edifice here in the next year, and it is hoped that a minister will be here to take over the work in the next few weeks.

Other members of the organizing committee are: Clyde Bray, Mrs. R. R. Holton, Mr. and Mrs. D. Aylesworth, John T. Dudley, and Mrs. Jack Epps. Mr. Bray was elected treasurer and Miss Frances Roy, secretary of the Texas Christian Missionary Society, will be here the coming Sunday to lend what ever assistance he can to the young church.

The following are charter members of the new church:
Mr. and Mrs. G. T. Maltby, Mr. and Mrs. John L. Roy, Miss Frances Roy, Mrs. Jack Epps, Otto O. Smith, Clyde A. Bray, Sr., D. R. Aylesworth, Mrs. D. R. Aylesworth, W. F. Creamer, C. H. Long, Mr. and Mrs. (Continued on Back Page)

An architect's drawing of the youth center now under construction in the northeast corner of the city park. Six teams began this week a drive to raise funds to assure completion of the project. The center when completed will include a large recreation room, kitchen, library and rest rooms. A donation to the youth center will be an investment in Lamb county youth.

W R. Smith Warns Of Danger Within Nation

Hobgood No. 1 Shows No Oil Or Gas In Drillstem Test At 7,203

Humble Oil & Refining company No. 1 J. J. Hobgood, and others, central-north Hockley county wildcat 8 miles southeast of Littlefield and 660 feet from south and west lines of labor 10, league 693, State Capital lands failed to find any shows of oil or gas in a drillstem test in the lower Permian at 7,203-75 feet.

The tool was open 30 minutes. Recovery was 19 feet of drilling mud, with no shows of oil, gas or water. The prospect is to drill deeper.

It has shown possibilities of producing from the Clear Fork of the Permian between 6,570 feet and 6,670 feet. Some free oil was recovered in drillstem tests in that horizon.

On a deeper drillstem test at 6,841-6,940 feet, recovery after

two hours was 92 feet of gas cut mud. Still deeper testing at 6,942-80 feet, 1,150 feet of black salty sulphur water was developed with no shows of oil or gas.

Originally the No. 1 Hobgood was slated to go approximately 11,000 feet to test all zones down to and including the Ellenburger. Possibly operators intend to continue with this original plan in spite of the good shows of production in the Permian.

Return from Vacation Trip

Mr. and Mrs. Roger Willett of Amherst returned Friday from a two weeks' vacation trip of Louisville, Ky. Mrs. Gordon Saunders and two children, Mary and Dick, of Baltimore, Md., who were also visiting at Louisville, returned with Mr. and Mrs. Willett for a visit.

Over 250 persons were on hand Friday night, June 23, to enjoy barbecue chicken and hear W. R. Smith, vice-president of Abilene Christian College, present a thoughtful address attacking the social planners and the persons attempting to destroy our government.

The occasion was the fourth annual Chamber of Commerce barbecue held at the V. F. W. hut.

Smith told the Chamber of Commerce members and guests that the Chamber of Commerce is a cornerstone in the fight against oppression. He urged them to have faith and keep fighting. He pointed out that the people of the United States, only seven per cent of the world population, have more buying power than the combined people of Europe and Asia. He gave pluck and initiative as the contributing factors in the progress of the United States.

Warns of Enemies

He outlined the Chamber of Commerce program which is designed to make Littlefield a better place to live.

"This is your Chamber of Commerce," he told the group. Let's (Continued on Back Page)

Fire Department Holds Election

Bob Cox, who has been chief of Littlefield's volunteer fire department for many years, was re-elected to that position at a regular business meeting held last week.

Other officers re-elected were Sam Lambert, assistant chief; J. P. Ray, president; E. W. Yearly, vice-president; Gene Johnson, secretary; and Otis Smith, treasurer.

Elected captains were M. O. Dunagin, team no. 1, and Roy Wade, team no. 2.

Following the business session, six new members were initiated into the department. They were Lindsey Williams, D. B. Self, F. H. Glazener, Jr., D. W. Bawcom, Melvin Dunagin and G. C. Richards.

Heart Attack Fatal To Mrs. B. F. Vaughn

Mrs. B. F. Vaughn, 75, of Amherst, passed away at 9 o'clock Sunday morning as the result of a heart attack.

Mrs. Vaughn had been suffering from a heart ailment, and had been a patient for about a week in the South Plains Hospital, Amherst. She had been home a week, and was feeling fine, and had eaten her breakfast Sunday, and going about as usual, when she suddenly was stricken and passed away.

Mr. Vaughn passed away Oct. 31, 1945.

8 Children Survive

Surviving deceased are four sons, and four daughters. The daughters are: Mrs. E. Black of Amherst; Mrs. Merle May of Sudan; Mrs. W. L. Downing of Lubbock; and Mrs. Lewis Hubbard of Tyler. The sons are: DeWitt Vaughn of Lefors, Texas; M. B. and J. F. Vaughn of Carlsbad, N. M. and Pete Vaughn of Amherst.

She is also survived by a sister, Mrs. Hattie Brown of Ballinger, Texas, and a half sister, Mrs. Minnie Lansford of Melrose, N. M., 28 grand-children and 19 great-grand-children.

Last Rites Monday

Funeral services were conducted Monday afternoon at 2:30 o'clock at the First Methodist Church, Amherst, with Rev. Elmer Crabtree, pastor, officiating, assisted by Rev. J. Henry Cox, pastor of the First Baptist Church, Amherst.

Interment, in charge of Payne Funeral Home, took place in the Amherst cemetery.

As Mary Katherine Hughes, deceased was born January 12, 1875, at San Saba, Texas. She was the time of her death she had been a resident of Amherst for 36 years.

Six Teams Will Take Field To Obtain Funds

Construction Will Need Aid In Labor, Cash

Six teams were briefed at a "kick-off" breakfast held Monday morning in Hays Coffee in preparation for a drive to raise \$15,000 necessary for the completion of the Youth center.

Manell Hall, president of Lamb County Youth, Inc., announced yesterday that approximately 36 workers will take the field during this week to obtain donations.

Team captains will be board of directors Jack Christian, Joe Hutchinson, Jay Fikes, Dr. W. N. Orr, Hardy Shelby and Manell Hall.

Mayor A. C. Chesher is in charge of the campaign and has assumed responsibility for the larger gifts. Chesher hopes to raise \$9000 in contributions of \$30 from 30 Lamb county businessmen. He has already raised a total of \$4,316.

This sum leaves \$10,684 left to go before the \$15,000 goal is reached.

A great deal of material and labor has already been donated but more will be needed in addition to the financial aid.

Construction of the youth center is well under way with the foundations already in.

The center when completed will contain a large recreation room 85 feet by 40 feet, providing adequate space for ping pong tables, shuffleboards and other games; a kitchen 18 by 20 feet, a library 16 by 24 feet, a soda fountain and rest rooms.

Every person in Lamb County is urged to contribute as much as they can in labor or money to assure completion of the fine structure which will be an important asset to Lamb County.

Dr. Maurer's Father Passes Away In New York City

On learning that his father, Samuel Maurer, was very ill and in a critical condition, Dr. R. E. Maurer left Wednesday afternoon of last week for Mr. Maurer's bedside at New York City.

In a telephone conversation later Mrs. Maurer learned that her husband's father had passed away Wednesday night. As the telephone connection was very indistinct, Mrs. Maurer did not learn any particulars of the death or when the services were held.

Mr. Maurer had been ill for sometime with a kidney ailment and complications.

Petitions Seek Designation Of Underground Reservoir

Shaw To Attend Anniversary Observance Of Home Town July 4

Shaw will leave next week for Enterprise, Miss., to attend the 116th Anniversary celebration of the city of Enterprise.

Shaw was born and reared in Enterprise, and stated Saturday that he would have an opportunity to see old school mates here in 45 or 50 years.

Shaw will observe the anniversary July 4.

Shaw will drive the 999 mile trip.

Littlefield Gains Win By Forfeit

Littlefield's Junior Legion baseball team gained their third victory by a forfeit Friday, June 23, when the Earth Juniors failed to make their appearance at the local diamond.

Thus far in the season the local players have three victories and one loss. They dropped a close one to Amherst 8-7 last Wednesday.

The Littlefield nine has two games scheduled this week. Last night they went against Plainview on the Plainview diamond and Friday night Muleshoe will appear here.

Home on Leave
Bynum, who is with the 7th, and stationed at San Antonio, arrived home on leave Saturday to visit his mother, Mrs. Bynum, of Amherst. He will return July 13 there.

Petitions from Lamb County voters seeking designation of an underground water reservoir by the State Board of Water Engineers are on their way to the Board.

Members of the Lamb County Water Conservation Association Monday gave the petitions, with 250 signatures, to Lamb County Clerk Joel Thomason for recording here. Then they will be forwarded to the State Board of Water Engineers.

Meanwhile, the High Plains Water Conservation and Users Association reorted indications that two other counties would follow the course of action already taken by Lamb, Hockley and Dallas Counties.

County-wide meetings of irrigation farmers and other well users are set in Hale and Swisher counties. In each case, farmers will be asked if they want to learn boundaries of proposed districts in their area. After the boundaries are settled on, they can petition for an election creating a district. This is the procedure authorized by house bill 162, enacted by the 51st Legislature.

W. O. Fortenberry, Monroe winner and president of the high Plains association, will speak at the Swisher county meeting in Tulla Thursday, June 29. The meeting is called for 8:30 p. m. in the courthouse. Clyde Bradford of Happy, president of the Swisher County Water Users Association, announced.

Hale County farmers, who recently indicated a desire to form a district, will meet at 8 p. m. July 10 in the Plainview city auditorium. Mayor Charles Schuler, Jr., of Petersburg announced.

Good Attendance At Political Rally

A good attendance is reported at the Candidate speaking held at Pleasant Valley School house Friday night.

Nearly all candidates in the County were reported to be present and made talks.

Pie, coffee and cold drinks were served by the Pleasant Valley Social Club.

New Records Made In Building Permits

Two records were set last week by the issuance of building permits totaling \$330,800 and boosted Littlefield's total building permits for 1950 to near the \$900,000 mark.

The \$330,800 sets a new all-time record for Littlefield in one week. A building permit issued for the construction of the new high school for \$325,000 set a new record for the largest single permit. Other permits last week were issued to Elton Hawk for construction of a frame dwelling on West First street for \$3,300 and W. A. Epperly, frame building on Burleson street for \$2500.

This year's issuance of permits totaling nearly \$900,000 with the year not have completed make it almost certain that 1950 will pass the record year of 1948 when permits totaled \$977,175.

J. M. Cook Announces Candidacy For Court of Criminal Appeals

A 39 year old Harris County Attorney and a native of Yoakum, Texas, Joel W. Cook, has announced as a candidate for the Texas Court of Criminal Appeals. He was an honor graduate of Baylor University as well as Baylor Law School, and has been in private law practice since 1923.

Olton Prepares To Outline Softball Summer Schedule

Olton Softball club is announcing that the recreation softball lights have been installed and everybody who is interested in playing ball are urged to go out, so that a schedule may be worked out.

JOEL W. COOK

Many Motorists Do Not Know The Meaning Of Flashing Lights

Do you know the meaning of a flashing red or yellow beacon and the purpose for which they are used? If you do not know, you are not in a class by yourself. There are many motorists in this "don't-know-class" who should graduate to a higher knowledge of flashing beacons. By so doing, they could help to insure their own safety, as well as the safety of others. They could perhaps save themselves the sad experiences of some day having to explain a traffic violation to the judge.

The flashing red beacon means STOP and then proceed when it is safe to do so in the same manner as you would after stopping for a STOP sign. If you run through a flashing red beacon without coming to a full stop, you are just as guilty of a traffic violation as you would be if you ran the red light of a stop and go signal. The flashing red beacon is generally used instead of or to emphasize the need for stopping, and for important intersections where the traffic conditions will not justify the installation of a stop and go signal.

The flashing yellow beacon means CAUTION. Drivers of vehicles may proceed through the intersection or past such signal only with CAUTION. Flashing yellow beacons are most frequently used to mark a physical obstruction existing in the roadway, an important intersection hidden by an obstruction or sharp curve in the highway, or a sudden change from rural conditions, where relatively high speeds are safe, to those of an urban district where speed must be reduced.

Flashing beacons have an important part in the scheme of traffic control, and a better understanding by motorists of the purpose for

which these signals are erected would increase their effectiveness many times. At the lighter traffic intersections which will not justify the more rigid control of a stop and go signal, the flashing beacon marks the existence of an intersection of more than average importance by either emphasizing the need for stopping with flashing red or proceed with caution with flashing yellow.

When the beacon shows flashing red, be ready to stop; when it shows flashing yellow, be alert and ready for any emergency that might confront you.

Olton Buys Fogging Machine

In the regular monthly meeting held early last week, Olton City Commission purchased a fogging machine for the spraying of the town with insecticides during the summer months.

This will not be much cheaper to the city than hiring the fogging done, but the great advantage will be in being able to fog the town when the conditions are right to be most effective for the control of flies and mosquitoes.

Delivery of the machine was made last week, and as soon as weather conditions will permit, the town will be fogged.

Most everyone seems to agree that the fogging done last year was a big help in controlling the flies and mosquitoes.

Don't serve a small child too large a portion of food at one time; it's better to give him seconds when he wants them than to discourage him with too much food.

SUDAN FAMILY RETURNS FROM LENGTHY TRIP

Mr. and Mrs. Elmer Kimball and children of Sudan returned last week from a 3800 mile trip to California. They went to Los Angeles and on up the coast to Sacramento. They spent several nights near Bishop where they visited with Mrs. Kimball's sister and husband, Mr. and Mrs. Isadore Burnsen who were recently married and were on their honeymoon.

While in Los Angeles, the Kimballs attended several radio programs such as "Queen for a Day" "Club 15" with the Andrew sisters and also saw the program with Jo Stafford and Bob Crosby. They also attended "Truth and Consequences" with Ralph Edwards.

The highlight of the trip, according to Mrs. Kimball, was a trip to the Observatory in Los Angeles.

Mrs. Kimball said they enjoyed seeing the beautiful mountains and scenery, but she was very glad to get back to Sudan.

Claves are the dried buds of a tropical evergreen tree.

Sudan C. of C. Will Investigate Costs Of Hospital Construction

Construction of a hospital was discussed by the Sudan Chamber of Commerce in a called meeting on Tuesday of last week.

The action of Dr. O. W. Fritske, who recently established an office in Sudan, in accepting a position with the Green hospital and clinic in Muleshoe set off the inquiry by Sudan C. of C.

The group appointed W. H. Lyle, Jr., Harold Close, and Preston Hawks as a committee to inspect a recently completed, city-owned 10 bed hospital at Crosbyton. The hospital is reported to have been built and equipped for less than \$50,000.

Chamber of Commerce members voted unanimously for the appointment of a committee to investigate the feasibility of the Chamber petitioning the City to call a bond election to provide funds for construction of hospital facilities in Sudan.

Fritske said after accepting the Crosbyton position that it was possible that he might return to Sudan if proper hospital facilities were established. He adds that there would be no difficulty in interesting a good doctor to practice if hospital facilities were available.

Chamber members suggested that should the building of the hospital be found a feasible project, City officials would be asked to submit the question of cancelling \$35,000 in bonds voted several years ago for the construction of a community building and the new issue for other purpose substituted.

According to members of the city commission, the larger portion of the \$35,000 bond issue which has never been used, has been retired and it is estimated that the entire issue will be paid for with the next 30 to 60 days.

Is Stationed At Frankfurt, Germany

Special to Lamb County Leader.—RHEIN MAIN AIR BASE, Frankfurt, Germany. — 2nd Lt. Robert F. Evans of San Antonio, Texas is a recent addition to the personnel of Rhein-Main Air Base, Frankfurt, Germany. Lt. Evans attended Pascal High School, Fort Worth, until he entered the service in December 1941. He spent 42 months in the Pacific with the Navy, and after his discharge entered Paris Junior College, Paris, Texas in 1945, graduating in 1948.

After following his civilian occupation, as Sports Editor and Press Photographer with a newspaper, he entered the Aviation Cadets, and received his commission in March of this year. Now a pilot with the 61st Troop Carrier Wing,

DR. C. E. PAYNE TALKS TO SUDAN ROTARY CLUB

Sudan Rotary Club invited Dr. C. E. Payne to speak at the Friday meeting in an address before the club at their regular luncheon held in the Sudan Methodist annex.

Dr. Payne was the speaker at the meeting, which was held at the home of Mrs. W. L. Watkins, program chairman for the Friday meeting.

Other guests were Mrs. J. L. Evans, Mrs. W. L. Watkins, Mrs. C. E. Payne, and Dr. O. W. Fritske.

Lt. Evans is playing football in the Armed Forces organization in Germany. Mrs. Evans, the former Lane, waiting to join her husband in Sudan. Lt. Evans is presently in Sudan. Elsie M. Evans, mother of Lt. Evans, is residing at 1001 Street, San Antonio, Texas.

MARINE AIR RESERVE MOBILIZATION 1950

41 U. S. MARINE AIR RESERVE SQUADRONS, based at 25 U. S. Naval Air Stations throughout the nation, are poised to make the two largest coast-to-coast mass air movements ever planned for American reserve air fighter units in peacetime. 21 Western squadrons will leave home stations (black arrows) simultaneously, July 8th, 1950, for maneuvers lasting to July 22nd at Cherry Point, N. C. 20 squadrons at bases east of the Mississippi (white arrows) will leave simultaneously August 5th, 1950, for maneuvers lasting to August 19th at El Toro (Santa Ana), California. Fast moving Marine mobile radar equipment will be set up in radar networks in the field to direct interception of "attacking" planes.

as on a network basis.
panding number of these
erve field radar squad-
Marine Air Reserve
Command has developed
activity of its type to be
the nation's air reserves.

Record Reserve Airlifts

The two mass airlifts of Marine
reservists will involve a reserve
record total of 561 planes — 481
fighters and 80 transports — and
approximately 6,000 highly trained
officers and men—rated to be the
most combat-ready of the nation's
air reserves.

Twenty-one squadrons—15 fight-
er squadrons and 6 radar squad-
rons and 6 radar squadrons—based
at Naval Air Stations near
Seattle, Oakland (California), Los
Angeles, Denver, Dallas, Lincoln
(Nebraska), Kansas City, St.
Louis, New Orleans, Memphis,
Minneapolis, St. Paul and Niagara
Falls (N. Y.), will leave simultane-
ously, July 8th, for maneuvers on
the east coast lasting to July 22nd,
at Marine Corps Air Station, Cher-
ry Point, North Carolina.

Twenty squadrons — 15 fighter
squadrons and 5 radar squadrons
—based at Naval Air Stations
near Boston, New York City,
Philadelphia, Washington, D. C.,
Norfolk (Virginia), Jacksonville,
Miami, Atlanta, Birmingham (Ala-
bama), Akron, Columbus (Ohio),
Detroit and Chicago, will leave,
simultaneously, August 5th, for
maneuvers to the west coast last-
ing to August 19th, at Marine
Corps Air Station, El Toro (Santa
Ana), California.

Pilots will fly the fighter planes
Corsairs, Hellcats and Bearcats—
in squadron formations from coast
to coast. Ground personnel and
field equipment will be flown in
the transports in simultaneous
lifts, co-ordinated to arrive at the
same time as the fighters and
ready for simulated combat action.
Ground crews will be stationed
across the country to handle re-
fueling and servicing of the fight-
er planes on the transcontinental
hops.

More Jet Fighter Training
More Marine Air Reserve fight-
er pilots will be checked out in jet
planes at the maneuver sites this
year—continuing a policy initiated
during 1949 summer maneuvers
Plans call for all Marine Reserve
pilots to be indoctrinated in jet

operations and tactics. Facilities
for jet fighter training at home
stations now are available to Fly-
ing Leatherneck reservists at Los
Angeles, Oakland (California),
New York City, Philadelphia and
Norfolk (Virginia).

Highlight of the maneuvers on
the east coast will be combined
exercises in close support of regu-
lar and reserve Marine ground un-
its on a battle-problem covering
the seizure and defense of an ad-
vanced air base off the North Car-
olina coast on the 13th of July.

Leathernecks Primed for Test

The Flying "civilian-Marines"
from nearly every State in the
Union who will be leaving farms,
factories, stores, offices and
schoolrooms to participate in the
record coast-to-coast flight move-
ments, are timed and eager for
their big tests. Many are veterans
of the air fighting in the Pacific
during World War II, with dis-
tinguished records and decora-
tions.

For all of them, the maneuvers
will be the pay-off for a year of
training as "week-end warriors" at
home stations. They are willing,
able and ready to go. Each squad-
ron also will be competing for pos-
session of the Marine Air Reserve
Trophies awarded annually for the
best all-round performances
throughout the year. The present
defending national champions are
Marine Reserve Fighter Squadron-
142, Miami, and Marine Ground
Control Intercept Squadron-19,
Grosse Ile (Detroit), Michigan.

Anton Lions To Install Officers Tuesday Night

A large number of Anton Lions
and Lionesses will attend the In-
stallation of Club Officers of the
Whitharral Lions Club Tuesday
night June 27 at 8:00 p. m., with
Anton Lion J. S. Bridges officiat-
ing in the Installation Ceremony.

The following new officers of the
Whitharral Club will be installed:
President, H. G. Walden
1st Vice-President, G. L. Landers.
2nd Vice-President, A. P. Grant.
3rd Vice-President, Max Walden

tending the annual reunion of the
Shofner family, Sunday, Father's
Day, at McKenzie Park, Lubbock.

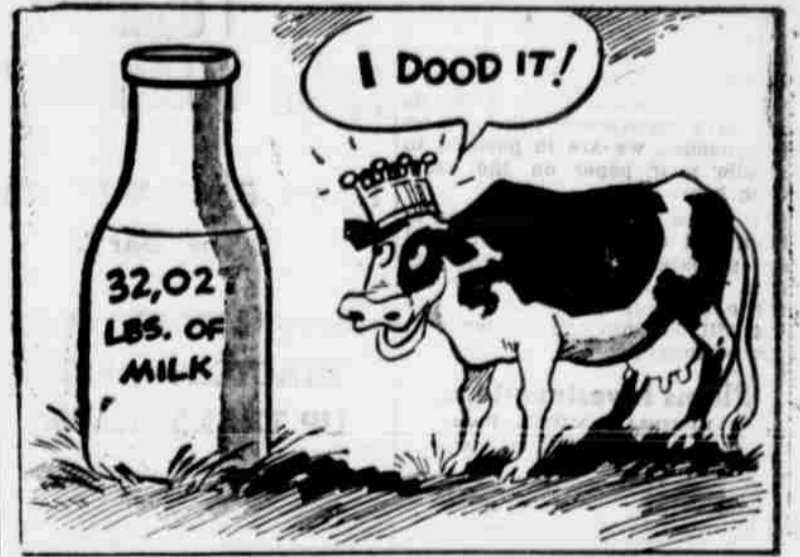

Richard's grand-parents, Mr. and
Mrs. W. C. Huffaker of Tahoka,
came by Littlefield, and Richard
accompanied them to the reunion.
Dinner and supper, picnic style,
were enjoyed by a large number of
relatives.

At least that's the indication given
by a recent survey of question-
naires filled out by McMurry stu-
dents at the beginning of the cur-
rent summer session, Registrar
Jerome Vannoy reveals.

The McMurrans listed 65 occupa-
tions that are pursued by their
parents. Farmers lead the field,
with about 15.8 per cent of the
student body coming from farm
homes.

Second highest group that sent
sons and daughters to McMurry are
ministers, whose offspring comprise
approximately 9.3 per cent of the
total enrollment. Next come teachers,
6.6 per cent; retired parents, 5.9
per cent; and ranchers, 3.9 per
cent.

Not all the students now enrolled
designated their parent's occupa-
tions. Vannoy feels, however, that a
fairly accurate representation
was given.

With 32,027 pounds of milk to her credit in one year, Green Meadow Lily Pabst, Holstein cow owned by Merle H. Green of Elmo, is queen among U. S. Holsteins milked twice daily.

SEES SON AFTER 14 YEARS . . . Mrs. Mary Franz of Uniontown, Pa., who recently regained her sight after 14 years of blindness, looks lovingly at the face of her son, Christopher, whom she last saw as a child of three. He was serving in Germany when his mother came out of darkness. The Fayette county Red Cross interceded with army officials, and the boy, now 17, was granted a 30-day furlough and flown home for the reunion with his mother who had asked to see him.

Convenience Is Very Important In Farm Building Arrangement

There are many factors that should be considered by the farm family when plans are made for laying out a farmstead. One of the most important, says W. S. Allen, extension agricultural engineer, buildings of Texas A. and M. College, is arranging the buildings for convenience. Time can be saved and inconveniences avoided by placing new buildings, including the house, in a suitable location with reference to buildings already in use on the farm.

One arrangement, suggested by Allen, groups the most frequently used buildings around a barn. Plan the locations so all the buildings can be reached easily from the barn and there should be an all-weather walk from the rear of the house to the barnyard.

Another suggested arrangement is to place the buildings along a straight walk that leads from the back door of the house. The first building could be a food storage building, then the garage, next the poultry laying house and on to the barn. This arrangement, says Allen, puts the buildings that are visited the most close to the house and at the same time gets the buildings that should not be too close to the living quarters the greatest distance from the house.

The plans for new houses should include the views that can be seen from the windows, roof water disposal, turning facilities for vehicles and practical arrangement of walks. He points out that regardless of how good a house plan may be, if it doesn't suit the spot on which it is built, there is a great loss of convenience and beauty.

He says people who hunt a hill-top primarily for the view the location offers sometimes find too much wind for comfort. Fuel bills are likely to be higher; an adequate water supply is usually harder to find in such places and very often accessory buildings must be located in inconvenient places.

Allen says it is best to plan the entire farmstead just as carefully as you plan the house. Once the buildings are constructed, nothing much can be done to correct a bad situation. Moving buildings is always expensive and for reason, he says every farmstead should be planned before actual construction gets underway.

First Luncheon Held In Baptist Building

The first luncheon to be served in the new educational building of the First Baptist church was served to the teachers and officers last night when they held their regular monthly covered dish luncheon.

The luncheon was served by Mrs. Viggo Peterson, Mrs. Frank Rogers, Mrs. Eugene Johnson and Mrs. Lee Hemphill.

Eggs of almost all birds and of some reptiles and fish are, or have been eaten by men in some part of the world.

Unless the soil where corn was planted this spring was supplied with plenty of nitrogen, yields will be low. The situation can be corrected through the use of a nitrate fertilizer applied now as a side dressing. Two hundred pounds of ammonium sulfate will balance the 200 to 300 pounds of 4-12-4 or 5-10-5 that was applied before the corn was planted.

Shape And Size Of Road Markers Contains Meaning For Motorists

The shape and color of a highway sign should have meaning for you, Mr. and Mrs. Motorist, even though there is no message or symbol on it. You have only a split second at high speeds to read a written message or grasp the meaning of a symbol on a traffic sign. If you fail, you may be courting disaster. Is it not logical then that meaning should be assigned to shapes and colors of a sign as added assurance of your glance recognition? Wouldn't knowledge of both be added insurance for your safety?

From the shape and color of the sign, it is possible for you to tell whether it is a REGULATORY sign intended to inform you of a law or regulation enacted to promote safety and convenience upon the streets and highways, whether it is a WARNING sign erected to tell you of a hazardous condition either on or beside the road, or whether it is a Guide or Directional sign to lead you to your destination.

Guide Signs An Aid

Although GUIDE signs are not as important to the motorist from the standpoint of safety as the REGULATORY and WARNING signs, they are certainly invaluable in guiding him to his destination on roads he has never traveled before. They also serve other functions for the motorist such as: (1) informing him of intersecting routes; (2) identifying rivers, streams, parks, forests, and historical sites; and (3) giving him such information as will help him along his way in the most simple, direct method possible.

GUIDE signs are divided into three major groups: (1) Route markers, (2) Destination and distance signs, (3) Information signs. All three groups have black letters and borders on a white background, and they are always reflectorized to improve their visibility at night.

Route markers are either U. S. or state. U. S. route markers are used only on the U. S. numbered highway system or the approaches thereto, and they can be identified easily by their shield or shape. State Route Markers are used only on state numbered routes and their approaches. There are instances in which a state route follows a U. S. route, and state route markers are mounted on the same post under the U. S. route marker. Each state picks the shape of its own state route markers, and Texas has selected the square shaped marker for the reason that it gives the greatest space for large numbers and letters.

Route Markers

Route markers are erected: (1) in advance of intersections where the marked route is intersected or joined by another marked route; (2) as confirmation markers just beyond any intersection where there is any possibility that the motorist might lose his route; and (3) as reassurance markers at intervals of two miles in rural areas and at whatever intervals are necessary to properly guide the motorist in urban areas. In rural areas the Route Junction marker is usually erected 300 to 500 feet in advance of the intersection, while in urban areas

REGULATORY SIGNS

WARNING SIGNS

GUIDE SIGNS
SKETCH G

the route junction marker is erected midway of the block preceding the intersection.

Destination signs carry the name of a city, town, or other objective and a directional arrow. It is usually located at the intersection to which it applies.

Distance signs are located a short distance outside each city or town, and they show the distance to the center of the business district of the next town and the next county seat or town over 2,500 population. Where the next town is the county seat, the distance of the following county seat or important town on the route is shown on the lower line. When the name of a town is once placed on a Destination sign, it appears on all subsequent Destination signs until the town is reached.

Information signs show such things as the names of rivers, state lines, parks, city limits, and other things of interest to the motorist. These signs are usually located at the point to which the sign message applies.

Remember that U. S. route markers are always the shape of a

Byers Feed Store Issued Certificate

R. L. Byers Feed Store has been issued a certificate of mixing accuracy by the Ralston Purina Company, following an analysis of samples taken from custom-mixed feeds prepared specially for customers of the mill.

The proper mixing of ingredients, using grain grown locally by farmers in this area, has long been recognized as an important factor in the efficient and economical feeding of livestock and poultry.

Before Purina approved the mill as an authorized mixing station using Purina formulas and ingredients, laboratory tests were made to determine the accuracy and uniformity of the mixing service rendered.

The samples which passed the most recent laboratory tests, and qualified the mill for the Certificate, did not carry more than one-half of one per cent in protein content.

New Manager For Country Club

R. C. (Bob) Campbell, of Dallas, assumed his duties yesterday as pro-manager of the Littlefield Country Club.

Campbell will give golf lessons, manage the club house and its activities, and take charge of the work and maintenance of the golf course.

Golf lessons will cost \$2.00 for 30 minute lessons.

Campbell has been a golf professional and assistant pro for a number of years. He was a pro in Colorado for 12 years and has recently been in Dallas.

Campbell is married and the father of a seven-year-old son.

sheld: Texas route markers are square; and destination, distance, and information signs are rectangles with the long dimension horizontal. The standard colors for all these GUIDE signs are black letters and borders on a white background.

MERMAID IN STRIPES

This attractive mermaid (who really has been swimming!) gets her quota of Vitamin D basking in the sunshine after her dip. She is wearing a glamorous Roman striped swim suit of cotton puckerette designed by Catalina. The two-piece cotton suit has a solid-colored back.

Journalism Head Named At Tech

Appointment of J. Russell Heitman, news bureau director of the University of Alabama and secretary-manager of the Alabama Press association, as head of the Texas Tech department of journalism has been announced by Pres. D. M. Wiggins.

Heitman, Lubbock, 45 will succeed Cecil Horne, head of the department since its organization in 1934 and director of Tech publicity since 1936. Prof. Horne, who has reached the retirement age for administrative officers, will remain in the department as full professor.

Dr. Wiggins also announced appointment of Harold N. Nelson, University of Minnesota faculty member who has just completed work toward his master's degree, as assistant professor of journalism, succeeding Clark Schooley, member of the department since 1942 and sports publicity director since 1945.

Heitman, graduate of the University of Missouri with a master's degree from Northwestern university for 17 years was publisher of newspapers in Illinois. He is a former member of the University of Illinois journalism faculty and for the past two years has been in Alabama.

Nelson is a graduate of the University of Minnesota, where he taught for several years. He has served as reporter for the United

relations man for a Minneapolis banking firm in the Navy during the war he was a submarine chaser commander as a lieutenant. Press associations and as public

IN THE COOL COMFORT OF

THE PALACE THEATRE

— 3 BIG DAYS — JUNE 28-29-30

ANOTHER STRIKE

AGAINST THE PUBLIC AND INDUSTRY AND AGRICULTURE SERVED BY FIVE WESTERN RAILROADS

President Truman's EMERGENCY BOARD recommends a 40-hour week and a pay of 18 cents an hour, or \$1.44 a day for switchmen represented by the Switchmen of North America.

• Notwithstanding the tremendous increase in their expenses involved, the

Railroads' answer to Board is... YES

Union leaders' answer to Board is... NO

In face of Board findings to the contrary, union leaders insist on 48 hours pay for 40 hours work. This would be an average increase of 31 cents an hour, or \$2.48 a day. So Union leaders have called a completely unjustified strike on 5 Western railroads, effective June 25.

On June 15, an Emergency Board appointed by President Truman under the terms of the Railway Labor Act recommended the railroads grant switchmen a 40-hour week and a wage increase of 18 cents an hour, or \$1.44 for an 8-hour day.

Despite the added financial burden involved, the railroads are ready to accept these recommendations, as they have always accepted Emergency Board recommendations on national issues.

But the leaders of the Switchmen's Union refuse to accept! They demand an average increase of 31 CENTS AN HOUR OR \$2.48 A DAY—although their present earnings are substantially higher than those of workers in other industries!

Board Says Demands Unjustified

In its report, the Board declared this demand unjustified by all the evidence presented. It also pointed out that it would give the switchmen an unfair pay advantage over other groups of railroad employees, and would add too great a burden to railroad costs.

Here is another case of a railroad union flouting the findings of an Emergency Board—another case of calling a crippling

strike in an outrageous and reckless attempt to force demands which the Board clearly labels as unjustified!

Leaders of the Switchmen's Union are calling this strike in defiance of the Board—in defiance of the facts—and at the expense of the public!

In its report on this case, the Board made this statement:

"The railroad industry, the Board believes, needs above all else a period of relative stability to adjust and adapt itself to present competitive post-war conditions."

Despite this warning, the leaders of the Switchmen's Union are upsetting the apple-cart—forcing a completely unjustified strike against everybody who uses the railroads.

FIVE WESTERN RAILROADS AFFECTED BY THE JUNE 25 STRIKE

The five railroads affected by this strike, which goes into effect at 6:00 A.M. local time Sunday, June 25, 1950, are:

Chicago Great Western Railway
Chicago, Rock Island & Pacific Railroad
The Denver & Rio Grande Western Railroad
Great Northern Railway Company
The Western Pacific Railroad Company

It is time to put an end to American tactics!

The Answer to a Raw Deal At Dictatorship is "No!"

In the interest of the public who use the railroads every day, there can be one answer to this outrageous and dictatorial action by the leaders of the men's Union. And that answer is

gram.

The appropriation for the PMA
program should be raised to \$400-
000,000 per year. The two greatest
needs today are lime and terraces.
Terraces to protect the body of
the soil itself and lime to increase
the growth of legumes. Money
spent for soil conservation is not
an expense but the best invest-
ment the taxpayers of the United
States have ever made or ever
will make because it helps guaran-
tee food, clothing, and shelter not
only for themselves but for their
children and grandchildren."

Said Congressman Christoph-
futer: "We say we are the great-
est country in the world, which is
true, but let me recall something
to your minds. India, Korea, China,
Manchuria, Formosa, Burma, Indo-
china, with her teeming popula-
tions, have only four-tenths of one
acre of land that is fit to grow food
per capita. We say that Asia; those
are the backward countries of the
world, the countries that we need
to help. And, I voted on the floor
of this House for appropriations
to help them. How do we stand
in the United States from the
standpoint of something to eat? We
have 3 1/2 acres of good agricul-
tural land for every man, woman,
and child in the United States, fig-
uring we have a population of 150-
000,000. What would we have in the
United States if we are crowded
like Asia? Instead of hav-
ing 150,000,000 people in the United
States to live off our soil we would
then have more than 1,300,000,000
people in the United States to live
off our soil. If we should double
our population and add 1,000,000
people to it, then we would be in
the condition that Ala is today,
and today in the United States
we do not have enough houses

with only 150,000,000 people. What
in God's name would we have if
we had 1,300,000,000 people in the
United States to live off our soil—
instead of the 150,000,000 that we
do have?

SCOUTS GET OIL WELL AS GIFT
More than 15,000 Texas Boy Sc-
outs and Girl Scouts are in the pe-
troleum business, because local oil
men drilled a well for them during a
Scout fund raising drive. The well
is a producer, so Boy Scouts in a
16-county area share a monthly in-
come of \$900, and Girl Scout troops
receive \$125 monthly. Oil men sim-
ilarly support community and civil
projects everywhere.

Chrysler-Plymouth Dealers In Training

Ninety-four per cent of the na-
tion's Chrysler-Plymouth dealers
have enrolled in Chrysler's Master
Technicians Service Conference, ac-
cording to F. E. Van Halteren, di-
rector of service, Chrysler Division,
Chrysler Corp.

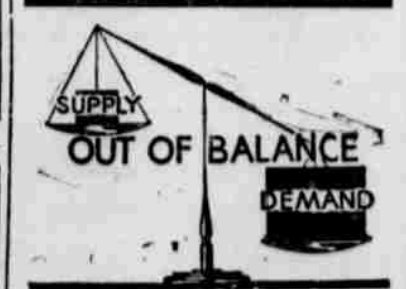

The service conference is a spe-
cial training program carried on in
the dealer's establishment to in-
struct service personnel in the best
methods of car maintenance, ser-
vice, and repair.

Training materials are supplied
to the dealer in the form of sound
slide films, complete instruction
guide sheets for group leaders,
charts showing exploded views of
the particular units under study,
and reference booklets on each
subject for each person taking the
course.

The monthly training meetings
are concluded with working demon-
strations of the service functions
under study and a questionnaire
test on the subject. Complete re-
cords of each man's grades are
kept in Detroit.

A one-year certificate is awarded
to each man who completes 12 con-
secutive sessions with a grade of
70 per cent or better. More than
10,000 Chrysler-Plymouth dealer
employees have already success-
fully completed one full year of
this special training and have re-
ceived the one-year award.

BIG JOBS, BIG RISKS IN OIL
Oil activities in the Gulf Coast
tidelands have to date produced a-
bout \$1 for every \$10 invested. It
costs much more to find and pro-
duce oil from steel platforms per-
ched out in the Gulf of Mexico than
in on-shore drilling. In addition, the
movement of oil to land presents a
special problem.

Out of Balance

All property values are
high — the law of supply
and demand is working. It
affects your home and
contents. Fire may bring
you a greater loss than you
realize unless you in-
crease the fire insurance
on your home to cover its
greater value. Talk it over

Oil Discoveries Ahead Of Demands

The discovery of new oil fields is
exceeding the consumer demand for
petroleum and brightening the na-
tion's long-range supply outlook, a
Texas Tech petroleum engineering
expert has declared.

Prof. W. L. Ducker, head of
Tech's department of petroleum en-
gineering, said that about two years
ago the nation appeared to have a
12-year supply of oil. He said the
new discoveries, particularly the
Scurry field in Texas, have caused
a revision of the estimate. Known
reserves would carry the load of
consumption into 1963, according
to latest estimates.

"We have about 25 billion barrels
of known reserves, and about 175
trillion cubic feet of natural gas
reserves," he said. "It seems that
petroleum's outlook is better than
the natural gas one because nat-
ural gas demands are rapidly multi-
plying."

The Tech professor said that in
1947 the natural gas reserves were
expected to last until 1948. The
increase demand has dimmed the
outlook to the present estimate of
a reserve which will be depleted
in 1973. New discoveries of nat-
ural gas have not been as productive
as those of petroleum.

"The figures represent no occa-
sion for alarm," Professor Ducker
added. "Estimates during the last
three decades have been as low as
seven years, and yet new discover-
ies have successfully kept ahead of
demands."

Baptist Junior Boys Go To Camp

Junior boys from the First Bap-
tist church left at 1:30 p. m. yester-
day for boys' camp.

The boys, who are under the care
of Jack Walker and W. O. Hamp-
ton, will return Wednesday after-
noon.

At 1:30 p. m. Wednesday the in-
termediate boys are asked to bring
a Bible, pencil, notebook, cot and
bedding, \$3.50 for registration and
eats, a small amount of spending
money, swim suit and towels.

Three Delegates To Attend H. D. Meeting In August

Three delegates to the state
meeting of the Texas Home Demon-
stration association from Lamb
County were chosen at a meeting
of the Lamb County Home Demon-
stration Council held last Wednes-
day, June 21, in the court house.

The three delegates to attend the
meeting in Big Spring, August 23,
24, and 25 are Mrs. Hub Sprayberry,

Mrs. J. M. Griffin, and Mrs. A. A.
Royal

Mrs. Xie Collins, Lamb county
home demonstration agent, was
present at the meeting at which
five clubs were represented.

Mrs. L. R. Davis presided over
a business meeting and Mrs. K. E.
Gregson reported on the trip to the
state roundup at College Station.

A 22 acre oat pasture at the Bra-
zos River Field Laboratory of the
Texas Agricultural Experiment
Station near College Station fur-
nished good grazing during the
past winter for 85 steer calves for
94 days and for 88 cows and 30 cal-
ves for 21 days.

About People You Know

Leland Stone returned Sunday night from spending a week with his father, S. B. Stone, at Big Springs, Texas.

Mr. and Mrs. Wiley Roberts and family are leaving Sunday for Granite, Okla., where they will visit his mother, Mrs. Sallie Roberts, returning Wednesday.

Miss Patsy Davenport, who is a student of Scott-White, Temple, Nursing school, arrived home Saturday on a three weeks' holiday, to visit her parents, Mr. and Mrs. A. L. Dunn.

Mr. and Mrs. S. J. Farquhar left Wednesday for points in Central Texas. They plan to visit his

sister, Mrs. A. H. Jenkins, at Burnett; her sister, Mrs. Ell Shelley, and a number of old friends at Marble Falls, Texas. They will also visit their daughter and son-in-law, Mr. and Mrs. T. C. Smith, at Rosenberg, and another sister of Mrs. Farquhar and brother-in-law, Mr. and Mrs. David Grimes. Mr. and Mrs. Farquhar planned to be gone about two weeks. They formerly lived at Marble Falls.

Mr. and Mrs. Pat Boone left recently to visit the El Paso Chapter of the Order of Eastern Star. They also planned to visit Chapters in Old Mexico, and go to their ranch near Elida, N. M. Mr. and Mrs. Pat

Boone, Jr. were to join his parents there.

Mr. and Mrs. Olley Robbins and daughter, Camille, left recently for Red River, N. M. on a two weeks' vacation trip. They will return to Littlefield next Sunday.

Mrs. Winnie Zoth is a patient in the Payne-Shotwell Hospital.

Carol Jean and Lena Fern Naylor, little daughters of Mr. and Mrs. Nelson Naylor, visited their grandparents, Mr. and Mrs. J. B. Naylor, at Portales, N. M. last week. Their parents took them over a week ago Sunday, and then went after them this past Sunday.

Mr. and Mrs. Pryor Hammons returned recently from their cottage at Tres Ritos, N. M. where they had spent about ten days.

Mr. and Mrs. Lenton Smith and son, Randy, left Wednesday last week for Tres Ritos, N. M. to spend a week at the Hammons Summer Cottage.

Mr. and Mrs. Lee Fletcher and son, Gene Lee, and daughter, Nancy, of King City, Calif., arrived Friday for a few days' visit with Mr. and Mrs. Pryor Hammons. Mr. Fletcher is a nephew of Mr. Hammons.

Mrs. Frank Ropman arrived in Littlefield and will spend a few days here. Mr. Ropman is Assistant Supervisor Mechanical Trainee for the Atchison, Topeka & Santa Fe Railroad, and his work takes him many places. Mr. and Mrs. Ropman have been at Albuquerque, N. M. for the past three months. Mr. Ropman expects to go to Cleburne from Albuquerque, and possibly Chicago after Cleburne.

Mrs. Allen Bailey, employed in the County Clerk's office will begin her two weeks' vacation July 1. Mr. and Mrs. Mike Tarter of Houston, friends of Mr. and Mrs. Bailey, will visit them next week here, and the Baileys will accompany Mr. and Mrs. Tarter on a fishing trip to Buchanan Dam, following which they will go to Houston with Mr. and Mrs. Tarter and spend a few days.

Mr. and Mrs. Bob Watson spent a recent week end with Mrs. Watson's parents, Sheriff and Mrs. Sid Hopkin.

Mr. and Mrs. J. I. Carrell are visiting now in Beaumont with Mrs. Carrell's sister and brother-in-law, Mr. and Mrs. J. B. Scott. They plan to return home this week. Mr. Carrell is much improved in health.

C. L. Colbert, who has been employed by the W.W. Electric, has accepted a position with the King Electric at Wichita Falls, and moved Saturday to that city.

Mr. and Mrs. C. C. Harkey of Houston arrived for a week's visit with his parents, Mr. and Mrs. Newt Harkey following which accompanied by Mrs. Harkey they will go to Red River for a few days.

Mrs. L. V. Wood was admitted to the Payne-Shotwell Hospital Friday suffering from a back injury.

Mr. and Mrs. Otha Key of Lubbock were in Littlefield Saturday. Mrs. Key was having a checkup at the Payne-Shotwell Hospital, and they were also visiting friends here.

Mrs. J. E. Chisholm, who was admitted to the Payne-Shotwell Hospital Wednesday of last week

TENNIS, ANYONE?

This trim young lady is all set to win a love game. She's ready for action in her cotton sports outfit that combines crisp white shorts of cloquodot pique and a comfortable cotton T-shirt. Her neat cotton play ensemble was designed by Graff of California, the National Cotton Council reports.

suffering from a nervous condition, is improving. However, she is still a patient of the hospital, and spends considerable time under the oxygen tent.

Dr. and Mrs. I. T. Shotwell left recently for points in the north including Cuba. They expect to be gone several weeks.

Mr. and Mrs. Leon Campbell and children of Snyder visited his mother, Mrs. Jessie Campbell, over last week end.

Ray Linton of Abernathy, Texas underwent an Appendicitis operation Wednesday of last week, and is getting along nicely.

Nick Toews, who has been a patient of the Payne-Shotwell Hospital for the past two weeks, is reported some better. He is suffering from a stomach ailment.

Roy Gattis, who has been a patient of the Payne-Shotwell Hospital for a month suffering from a heart ailment, much improved, was released and went home Saturday.

Mrs. O. K. Yantis, Sr. returned Friday from visiting Odessa and Andrews. At Odessa she visited Mr. and Mrs. Alph Wright, and at Andrews Mr. and Mrs. Otis Ogden. Mrs. Yantis' sister-in-law, Mrs. Merrill of Seminole, came home with her for a few days visit.

J. B. Boudreaux of Levelland who underwent an operation for apendicitis a week previous, was released from the Payne-Shotwell Hospital Saturday.

B. Hutson, who has been a patient of the Payne-Shotwell Hospital, two weeks following a car wreck, in which he was injured, was released and went home Friday last.

He warned that a country with so much wealth always has enemies from within and from without.

"There are men and women in this country who are eating like termites at our economic system," Smith said. These people working from within our nation are more dangerous than the enemies from outside our country, was his warning.

The social planners, working from within, are more dangerous, he said, than the socialists attacking us from outside.

"These social planners know

that there is no quicker way to kill off our government than through extravagance and a large national debt," the educator said.

Smith gave England as an example of the results of social planning and socialism.

"Socialism in Great Britain has been a stupendous failure," according to Smith, "There dreams of plenty has turned into a stupendous nightmare."

U. S. Aids

He warned that Great Britain will be faced with grim reality when U. S. aid ceases.

"We must wage a battle to preserve the freedom of our forefathers," Smith said and he told the group that they must be downed by worry, fear, and confusion.

Introduction of the main speaker of the evening was made by F. O. Masten.

Jack Christian served as master of ceremonies for the evening and introduced a number of guests from out of town. Out-of-town guests were: Mrs. Raymond Lee Johnson, Plainview; Mrs. Jim Roberts, Plainview; Mr. and Mrs. Harry Houre, Amarillo; Grady Bond and Bill Clark, Lubbock; Dr. and Mrs. David Armistead, Lubbock; Mr. and

Mrs. Payne Wood, Lubbock; Mr. and Mrs. W. C. Warren, Lubbock; Mr. and Mrs. Henry Williams, Muleshoe; Gene Holmes, El Paso, formerly of Littlefield; Crawford Bates, Los Angeles, Calif.

A Real Honor

Dr. B. W. Armistead, who succeeded Hardy Shelby as Chamber of Commerce president, was introduced by Dr. C. E. Payne. Dr. Armistead told the group he felt it a real honor to serve as president of the Chamber of Commerce.

"It is through organized cooperation and our combined efforts that we can gain progress for Littlefield," Dr. Armistead said.

Woman Stars In Unusual Sales Job

Outstanding success in an unusual field for women—selling trucks to large operators of automotive equipment—is the record of Mrs. Dorothy Dennis, fleet sales manager of a large Chevrolet dealership in St. Louis and believed to be the only woman in the country to occupy such a position in the automobile industry. Entering the highly competitive fleet business, Mrs. Dennis established a notable record in the sale of cars and trucks to owners of large fleets in the middle-west. Pictured above with two officials of the United Van Lines, Mrs. Dennis says the formula for sales success consists of hard work, enthusiasm and customer service.
