### GAS RATES OVER THIS DISTRICT ARE REDUCED

**Forty-Two Cities On South Plains Are To Be Affected**

Forty-two towns served by the West Texas Gas company will receive lower rates under an order issued Thursday by the state railroad commission.

The company voluntarily agreed to the reduction, the second similarly made in two years and will apply to January bills.

Commissioner Ernest O. Thompson said "as a result of this attitude by the company its consumers enjoy one of the lowest gas rates in Texas."

The chief reduction is in the new rate of \$1.25 for the first 2,000 cubic feet, the minimum bill per month, 10 cents less than the present rate. A ten-cent saving is also effected on the next 2,000 cubic feet.

The other new schedules are: next 48,000 cubic feet, 50 cents per 1,000; next 50,000, 30 cents; next 400,000, 25 cents, and all over 500,000, 20 cents.

The present schedule is: first 2,000 cubic feet, \$1.35; next 2,000 55 cents; next 46,000, 50 cents; next 60,000, 30 cents; and the next 400,000, 20 cents.

Towns in the system affected are Canyon, Hereford, Bovina, Dimmitt, Happy, Tulla, Silverton, Quitaque, Turkey, Kress, Plainview, Hale Cen-

### CHECKS WILL START COMING IN FEW WEEKS

**Will Be Payments Under 1936 Conservation Program**

Approximately \$568,030.00 will be received in the near future by Lamb county farmers as payments under the 1936 Agricultural Conservation Program, according to Donald Turner, County Agent. This is an average of about \$355.00 per farm for those participating in the program.

Checks on about 12,000 work sheets had been issued in the state up to January 15th according to a report from the state office. The state office has been centering their efforts in issuing checks to the drought-stricken counties first.

Lamb county should be receiving applications for payment within the next two weeks, states County Agent, Turner. After these are signed by the participating farmers, they will be returned to the state board, after which payment will be made.

### Have You Seen My Dog?

—Morley B. Drake Littlefield

If you will furnish information as to his whereabouts or return him to me, I will pay a reward.

His name is "Thirty," and he is a black and white bulldog weighing about 65 or 70 pounds, or thereabout. He left home Saturday night.

This dog isn't valuable in dollars and cents, having cost me only \$5 when five weeks old, but when you raise a dog from a waddling pup you sort of get attached to him.

When "Thirty" left home he was wearing a black collar with brass spots, a license tag and a small lock. The name of his owner, "M. B. Drake, Littlefield," was engraved on a plate on his collar.

Your cooperation in finding this dog will be appreciated and rewarded.

THING THE GOSPEL—preachers, bankers and editors are more than any three groups that come to our mind at the moment. A banker and an editor back and everybody seems less satisfied. But a preacher he is supposed to be exceedingly gracious and understanding—his temper—and not get over-acted in any manner—sort of turn the other cheek—even if he gets so inwardly boiling over that he must rush to his study and there in privacy set his head in a normal direction and in a manner that the "other cheek" is not in evidence and say unto himself in perfectly normal manner: "I would have enjoyed telling that bird where to head in."

We have often thought that an editor's job was tough; have declared that we wouldn't want to be a banker for a great variety of reasons. AND WE EVEN THOUGHT OF PREACHING THE GOSPEL THAT A PETITION WOULD BE PRESENTED TO EVERY LAW OFFICER FOR MILES AROUND

### McCain Child LOSES LIFE IN BLAZE FRIDAY

**Father Seriously Burned, Confined In Local Hospital**

Lee McCain, farmer of eight miles northeast of Littlefield, was seriously burned about the face, hands and chest, and his little daughter, Carmelita, aged 20 months, lost her life in a blaze Friday morning, January 22, which destroyed their four room residence, together with almost all their household effects and clothing.

The fire occurred about 10:30 Friday morning, when Mr. McCain attempted to pump air into the drum for that purpose on a gasoline heater. For some reason the gas and air are believed to have come into contact, causing the gasoline to explode, throwing the blaze over the building. Mr. and Mrs. McCain and three of their six children were in the house at the time, as well as a neighbor, J. M. Barlow. The other three children were at school.

Little Carmelita is reported to have been sitting on a chair in the corner of the room behind the heater at the time of the accident, and was burned beyond recognition before she could be discovered from the blaze.

Mrs. McCain's hair was also singed in the fire. She got the children out of the house.

## Lamb County Contributes \$250 For Relief of Flood Area Victims

Ira E. Woods, County Chairman of American Red Cross, announced receipt of an urgent appeal from the National Red Cross Headquarters, St. Louis, Mo., for funds to provide emergency relief of flood victims in the Ohio and Mississippi valley areas.

Dr. Woods got busy immediately and appointed committees to take care of the gathering of this county's quota, which ordinarily would be \$75.00, but which the National Chairman urged to be increased to double and as much more as possible.

Mrs. Ira Woods and Mrs. Oscar Wilemon made a solicitation Tuesday, and according to Dr. Woods raised \$82.00 towards the fund. Wednesday, another committee with Mrs. W. G. Street as chairman canvassed the city, raising the emergency fund to about \$150.00. Dr. Woods stated that he contacted

the Red Cross representatives of other cities in Lamb county, and that they had agreed to arise about \$100, which would bring the county fund to around \$250.00.

Two telegrams in regard to the urgent need of funds for emergency relief of flood victims were received by Dr. Woods from Gary T. Grayson, National Chairman, the first arriving Friday last as follows: "In order to meet hourly increasing need of flood victims in eight states Red Cross calling on people of United States for minimum relief of two million dollars. Reports received late tonight indicate total of two hundred seventy thousand men, women and children driven from their homes and now depending upon Red Cross for emergency relief including food, shelter, bedding, medicinal material, and warm clothing, raging blizzard and freezing weather in many flooded sec-

tions add to suffering of refugees and greatly increase need for instant relief. Sure people of your community will wish to aid promptly and generously. Urge you, take immediate action, raise your chapter quota 75 dollars, reporting to midwestern branch office at St. Louis."

And a second day letter was received by Dr. Woods Monday, as follows: "Because relief in flooded areas of Ohio and Mississippi Valleys increasing every hour as continued rains send rivers to highest levels in history, with more than four hundred thousand persons driven from homes. Urge you double your relief fund quota and go as far beyond the doubled figure as possible. Stop We are contributing million dollars from national funds stop 300 Red Cross relief workers now in disaster areas giving imme-

mediate emergency relief to flood refugees stop 350 Red Cross nurses in field engaged in battle against feared epidemic stop food, clothing, bedding, medical supplies being rushed by train, truck and boat, rescue work continuing at top speed stop please intensify your campaign efforts and keep midwestern office advised daily of amount raised stop Feel confident your people will not fail in this national emergency."

Anyone wishing to contribute to this worthy cause are asked to send their donation to Dr. Ira Woods, County Chairman; J. C. Elms, Treasurer of Red Cross Chapter, or forward direct to American Red Cross at St. Louis, Mo., headquarters for the Midwestern branch. Reports of the committee on soliciting funds indicate that a number from this section had already sent to headquarters contributions prior to the recent canvass for funds.

Don't Neglect Them! Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—fat tired, nervous, all signs out. Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbance. The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Doan's Pills. They have had more than forty years of public approval. **Cochran County To Get New Test Well S. E. Morton**

An increased flow of oil in the Duggan well, 9 miles southwest of Whiteface, and 17 miles southeast of Morton, was evident following the additional acidizing of the well with 4,000 gallons last week end.

This was the second increase in the well within the past three weeks. The first increase came with 2,500 gallons of acid being poured in the well. At that time the well increased from 168 to 301 barrels.

Drillers state that the well is good by actual test for 600 barrels at present.

It was also stated by those in authority that the gas pressure was the strongest of any wild cat in Texas. Not that the well was producing more cubic feet of gas, but that the pressure was the strongest of any record to date.

Lou Stogner of Fort Worth, representing Bank & Harrison of Dallas, and co-driller with Elliott Roosevelt of a well last year in Gaines county south of Bledsoe in which a duster was had, was in the city last week in the interest of his associates, and leasing some additional land.

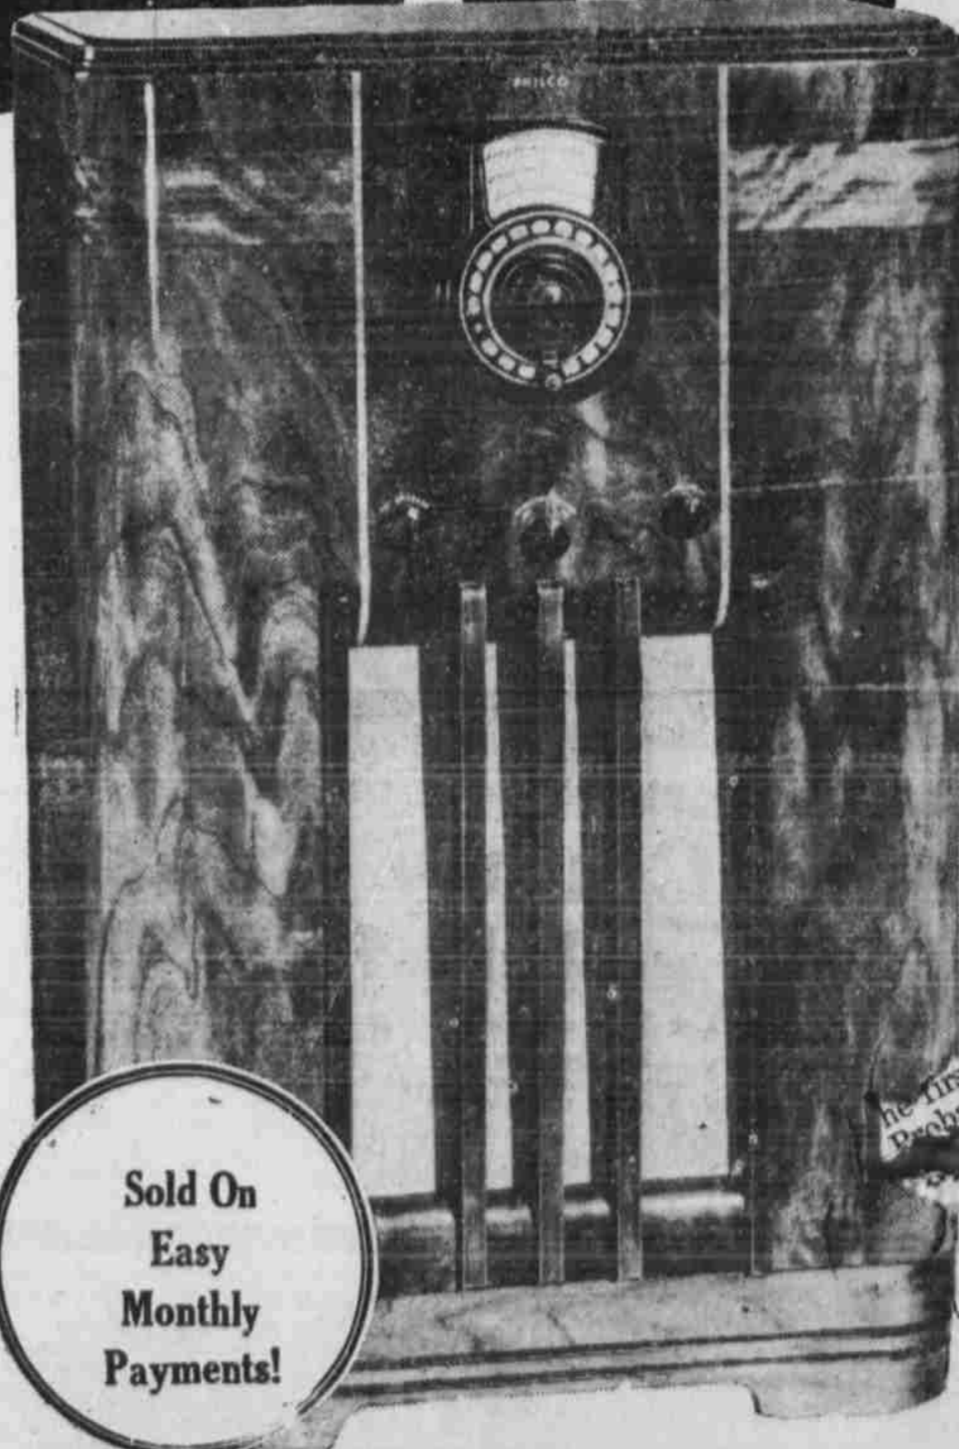

Mr. Stogner paid \$2.00 per acre for several tracts of individual tracts on the Cameron lands, which brought the total acreage of his firm to about 23,000 acres, east and southeast of Morton, extending near Whiteface and toward Whiteface and toward Lehman, and extending across the highway on both sides.

Mr. Stogner stated that his associates were under contract to the Cameron people to start a well on March 1. This test will be located 9 miles south and east of Morton, and about 4 1-2 miles north and east of Whiteface.

Mr. Stogner was accompanied to Morton by Mr. John E. Toles of

Dates for District 3 interscholastic league basketball tournaments were announced Saturday by athletic directors.

Huffman urged that all county tournament winners send in their entries as soon as possible. Fourteen counties comprise District 3, and in addition to their champions, the Class A teams of Lubbock and Plainview High schools are to compete. The latter do not compete in county tournaments.

The district director said that a team trophy would be given the champion, that 8 gold basketball trophies would go to individuals on the winning team, silver basketballs to the second place team, and 5 gold trophies to members of the all-district team. A gold trophy will be awarded the player voted most valuable in the tournament.

Coach Huffman announced the following schedule for the district tournament, names of counties being substituted for schools except as otherwise designated:

Friday, Feb. 12—9 o'clock a. m., Hale vs. Garza; 10 a. m., Terry vs. Plainview High school; 11 a. m., Dawson vs. Lamb; 12 noon, Crosby vs. Dickens; 1 p. m., Bailey vs. Floyd; 2 p. m., Cochran vs. Hockley; 3 o'clock, Lynn vs. Lubbock High school; 4 o'clock, Lubbock (county) vs. Yoakum.

Second round games will start at 5 o'clock Friday afternoon, winners meeting winners, in the order named above.

Semi-finals are set for Saturday morning, at 10 o'clock, with the championship game to start at 8 o'clock Saturday night.

## CHURCHES

### Methodists POUND Presiding Elder

At the close of the Quarterly Conference at the Methodist church Sunday afternoon, the stewards brought in a generous pounding which was presented to Rev. E. E. White, presiding elder, by the pastor, Rev. Marvin B. Norwood. The pastor spoke of the high regard and appreciation for Bro. and Mrs. White held by the people of Littlefield and asked that he accept this as a token of esteem from the officials and members of the Methodist church here. Rev. White responded expressing his thanks for this thoughtfulness on the part of Littlefield Methodists.

At the business session the report indicated the splendid spiritual condition of the church, showing that it is growing not only in membership (twelve new members having been added to the rolls since conference) but in attendance and interest. All finances were reported up to date, nearly a thousand dollars having been raised on the running expenses of the church this quarter.

### CHURCH OF CHRIST

We had good attendance in the services of the church yesterday. However, our attendance was not as large as the two Sundays past. The cold weather and sickness possibly accounted for the absences. However we have been having the house packed for the Sunday morning service. We plan to put more seats in the auditorium this week to take care of the crowd. So come next Sunday and we will try to have seats for all.

Our order of services follow: 9:45 A. M. Bible Study. 10:45 A. M. Preaching service. 11:45 Communion service. 7:00 P. M. Young Peoples Class. 7:30 P. M. Preaching Service. 3:00 P. M. Monday, Ladies' Bible Class. 7:30 P. M. Wednesday, Mid-week service.

On Wednesday evening we will begin an interesting Bible course. We will take up different Bible chapters and discuss them, using one chapter each night. Anyone present is free to ask any question on the subject at hand. You are especially invited to be in this service and take part in the discussion.

### SELF-CONFIDENCE

In any situation we must have confidence in our ability to decide rightly if called upon to express our judgment. Self-confidence comes from a proper application of our own ability and our power to carry out corrections of action once decided upon. It is based on knowledge on our accuracy in judgment. A self-confident person is one who has tested his judgment sufficiently to get faith in his decision. Self-control is a great power in all school relations.

THE REMAINDER OF OUR NATURAL LIFE.

We have come into close contact throughout our many years in the newspaper business with countless numbers of preachers and know their lives almost as well as they do themselves.

Some people have an idea that about all a preacher has to do is preach a couple of sermons each Sunday and marry and bury folks. DON'T YOU EVER LET YOURSELF THINK THAT A PASTOR OF A CHURCH HAS AN EASY JOB.

They work from early morning until late at night—preaching, marrying and burying—visiting the sick—comforting the bereaved—helping some cuss who has slipped along life's pathway to get back on his feet with his chin up—attending church and civic meetings of every description—counseling with church members on their problems—counseling with non-members of any denomination in order that they may be helped with the problems of life—active work in all civic matters to the end that the objective desired may be achieved—and, if they happen to get a few minutes to themselves in the busy days and nights they crowd in a few minutes with the family, or work on a sermon, or visit the family and work on the sermon at the same time.

WE THINK—

That if you have a faith that you should seek out that church and lend a hand.

And, if you haven't got any sort of church connection that you should look around and see which one suits you best.

Every church needs workers and every individual needs a church.

P. S. The above was not written at the suggestion of a minister, or any group of ministers; we just put down on paper what "We Think."

Youth Dies—

## THE SEVEN "C'S" OF LIFE

To be successful in 1937 the children of mothers must learn to sail the "Seven C's."

Just as there are seven major bodies of water on this old globe, there are seven great "C's" in life.

"Sail on! Sail on!"

First, the C of Courage. Without Courage the battle is lost at the outset, without Courage comes the second C—Confidence.

Second, the C of Confidence. How unhappy the mortal who lives without faith.

Third, the C of Cheerfulness. Who wants to face rain and cloud day after day.

Fourth, the C of Consideration. Can you place yourself in the other fellow's place. The Golden Rule is the best rule. Consider them and do unto others as you would have them do unto you.

Fifth, the C of Courtesy opens the gate, Courtesy throws wide the door. Courtesy lets down the bars. Lack of Courtesy has made ship-wreck of many a character and concern.

Sixth, the C of Companionship. Man was not made to live alone. We are members of a society in which we are told in Holy Writ to "Bear ye one another's burdens."

Seventh, the C of Cooperation. Where two or three are agreed it shall be done. Two is stronger than one.

Sail on! Sail on! Courage, Confidence, Cheerfulness, Consideration, Courtesy, Companionship and Cooperation.—The Austin Dispatch.

### Five Hundred Attend Open House At Carl Lambert's Store Here

Five hundred farmers, their wives and friends, gathered at the Carl Lambert Implement company's offices on Phelps Avenue, Littlefield, local John Deere dealers, Wednesday of last week to enjoy the National John Deere Centennial celebration, which was in the form of an all day open house.

A luncheon was served at noon, following which "The Blacksmith's Gift," starring Monte Blue, was shown as part of the celebration at the Ritz Theatre from 1 until 3:30 p. m.

According to Mr. Lambert, visitors came from far and near to see the "Blacksmith's Gift," and view the many improvements on the John Deere Implements for the past 100 years, as it was in 1837 that the first John Deere plow was made.

Mr. Lambert has been handling this line of implements since 1926.

## You Are Due Good Health, Success And Happiness

But you cannot enjoy these things if you have allowed your system to lag to such an extent that your bowels and liver do not function properly, causing you to suffer with headaches, loss of sleep, backache, coated tongue, bad breath, rheumatic pains, biliousness and gas pains brought on by inactive clogged bowel organs. Lagatone is an efficient stimulant for increasing the flow of bile. Lagatone also stimulates liver action, relieving biliousness, worn out feeling and sick headache caused thereby. Lagatone acts on bowels as a laxative and helps clear out old decayed food waste. Lagatone is a compound of several ingredients. Thus Lagatone is like several medicines in the same compound. No wonder people begin to inform us of the good results they are receiving after using it a short time. If your system is lagging and run down, your food disagrees with you, if you are tired and sluggish and lacking energy, Lagatone will clean accumulated poisons out of your system and restore your vitality, your appetite and your good health. Go to your druggist today and buy a box of Lagatone and if after you have followed directions, written on the box, for ten days, you are not pleased with the results and if you do not feel new pep and energy, go back for your money. Price, 1 box 36 capsules \$1; 6 boxes \$5. Lagatone is on sale with the Walters Drug Store in Littlefield. Please

do not accept a substitute for Lagatone, for your own good. "Never Let Your System Lag." 43-4tc.

Spade Longhorns Take Double Header From Sudan Wed.

On Wednesday night, January 20, Spade Longhorns met the Sudan basketball team in a two-way engagement. Both games were hard fought, closely contested, and greatly enjoyed by a full house of enthusiastic fans. The girls played first with a score of 21-32. The boys contest netted a score of 16-23 with every minute one of suspense. The games were called by Jack Hackler of Abernathy.

Greer of Spade copped seven field goals to lead the court in scoring. Brown also of Spade ranked second in scoring with 11 points to her credit. Wildcats Defeated By Ralls Tuesday Night; Score 21-1

By BUCK MUNGER

There really is not much to tell except that during the first half the Ralls team swarmed over the Wildcats, Tuesday night, to the tune of 21 to 1. The Ralls team passed quite a bit and a Ralls man was at both the passing and receiving end. The trouble with Littlefield was that there was a Littlefield man at the passing end and a Ralls man, most always at the receiving end.

The second half was a little more even with Ralls scoring only seven points, while Littlefield was scoring seven.

The first quarter ended with Ralls having 16 points to Littlefield's 1. The half, Ralls 21 and Littlefield 1. The third quarter ended with Ralls having 25 and Littlefield 4. The final score was Littlefield 8, Ralls 28.

Six of Littlefield's eight points came from free shots. Hall Rowe, center, scored Littlefield's only field goal late in the third quarter.

Oklahoma Ave-Spade WPA Project To Be Resumed Very Soon

According to Judge L. R. Crockett Wednesday, the WPA Pep road project will close the beginning of next week due to shortage of WPA funds, awaiting a further appropriation for this purpose.

Arrangements, however, have been made by the county commission, to have WPA project, starting at the end of the pavement on Oklahoma Avenue and running into Spade, on which will be laid a caliche base, ready to start by the time the Pep road project is closed, and thereby transfer the men employed on the west project to the east road work.

REPORT PENSION CHECKS MAILED TO BENEFICIARIES

Orville S. Carpenter, acting director of the old age assistance commission, has announced that 20,000 January pension checks were mailed Thursday and 1300 Friday. He was informed that the Social Security board had granted Texas \$2,677,500 for the first quarter of 1937.

ROAD 51 RE-DESIGNATED AS STATE HIGHWAY; WPA PROJECT TO START

Judge L. R. Crockett reported Wednesday receipt of advice from State Highway Department to the effect that Highway No. 51 had been re-designated a State Highway. Judge Crockett also stated that as a WPA project, work would start on this road running from the Lamb county line south to Center, or Spring Lake, as it is now called, Thursday of this week, employing about 60 men in the widening to 100 feet right-of-way, grading, drainage and laying of a caliche base on this highway.

He stated that instead of the county having to match the Federal funds for the building of this road, that the state is sponsoring the project and will finance the county's share of the expense.

Judge Crockett pointed out that Swisher county was improving the road from Dimmitt south to Lamb county, and that the proposed WPA project to start Thursday would connect with the highway. He added further that he was "quite confident now that the state would go ahead and improve Highway No. 51 across Lamb county within a reasonable time.

Lamb County's Red Cross Quota Raised To Amount Of \$375

Dr. Ira Woods, County Chairman, American Red Cross, received a message Wednesday from headquarters at St. Louis, Mo., stating that they couldn't give a definite final quota for Lamb county now, because the increase in suffering and destruction was so great that they couldn't see any end to the need of funds, and the money needed to be subscribed was only limited to the generosity of the American people. "The message intended to be conveyed," said Dr. Woods, "was that they could use all money they could get."

The wire also stated that the entire Red Cross budget had been increased from two million to ten million, giving this as a basis of this county's quota, which is five times the original amount of \$75, making the amount to be raised in Lamb county, \$375.

Dr. Woods stated that contributions will be received the balance of this week and all next week. Persons wishing to contribute may hand donations to Dr. Woods, whose offices are in the Madden Drug store, J. C. Elms at the First National Bank, or send direct to American Red Cross, St. Louis, Mo.

IN TRUCK LEGISLATION

Any change in existing Texas truck laws which will increase the present 7,000-pound load limit will affect adversely all communities in the state, both rural and urban. Large cities, at first stimulated by increased trade territories, bought at the expense of the country towns, will be ultimately affected adversely because of the resulting unhealthy condition of the rural communities forming these trade territories. The lower truck load limit of Texas now has the effect of acting as a barrier at Texas borders to the movement of the larger truck loads carrying merchandise from the metropolitan and producing centers of other states. Any increase in Texas truck load limits will break down that barrier and permit the free truck movement into the state of many commodities which unquestionably would be sold directly to the retailers, thus destroying, in a large measure, the business of wholesalers and jobbers now located in Texas cities.
