press never seems to run on an even keel. It's one of those things that either it's in our personal or our community life, we slumber along placidly until what comes our way. . . . suddenly a spark is lighted, a spark ignited early last when businessmen began meeting each Monday morning to lay the groundwork for organizing Littlefield.

Enthusiasm ran high through the town until the Industrial Center was organized last summer. A hall developed while waiting for months for the Inter-revenue Department to approve the foundation.

When the decision was finally made down recently. . . . even though it wasn't what the town hoped for. . . . it was the first time since again put civility to work.

When businessmen met for the first time Monday morning and the group voted unanimously to begin the regular week-meetings once again.

Some of the things ahead for Littlefield in the very immediate future. . . . with the encouragement and assistance of civic leaders will be only the beginning of a great new era for Littlefield and Lamb County.

Someone that is interested in Littlefield's future is urged to attend Monday's meeting at the Cafeteria.

Several interesting projects are being planned and there's plenty of constructive work for all.

Parents of teenagers are really bright. Certainly the boys don't think so.

When Paul remarked to a recently.

Your mother as silly as I am. Everytime we bring a new something she wants to know about him from the back of his shoe laces to his security number.

When she's got a point. I guess she's got a point. I guess she's got a point. I guess she's got a point.

When I met one of Paula's new friends last summer, Karen suggested I print some forms prospective dates to fill out, and mail them on the front with a sign saying, "Please fill out before knocking."

When I doubt that would solve the problem. They would all run fast, somehow, when it's your best they're coming to see. . . . when she's 14 or 40. . . . you'd soon they would all just running.

Polio Survey To Be Made During Sept.

A countywide survey to discover the current rehabilitation needs of all post-polio patients is being conducted this month by the Lamb County Chapter of the National Foundation for Infantile Paralysis, Rev. Ronald W. Luckemeyer, chapter chairman, announced today.

The local survey is part of a nationwide project by the National Foundation to compile a roster of polio cases of all ages and degree of disability, regardless of date the disease began.

"Modern medicine has made impressive strides in developing new rehabilitation techniques in recent years," Rev. Luckemeyer said. "Pilot surveys already undertaken show that there are thousands of polio-handicapped in the United States who have not yet had an opportunity for medical evaluation to determine if they might benefit from these techniques."

"The March of Dimes organization, having scored a tremendous victory in its war on polio, does not now propose to walk off and leave the wounded behind so long as help for them is possible. We wish to find everyone who has had polio, whether paralytic or non-paralytic. We want to know what the special problems may be so that they may be helped to regain useful lives, if humanly possible, even though it will take a considerable period of time."

Liquor Cache Found In Well House

Sheriff's deputies, assisted by members of the Liquor Control Board, uncovered a large amount of beer and whiskey Saturday night in the pump house on a farm just south of the sandhills in the northeast part of Lamb County.

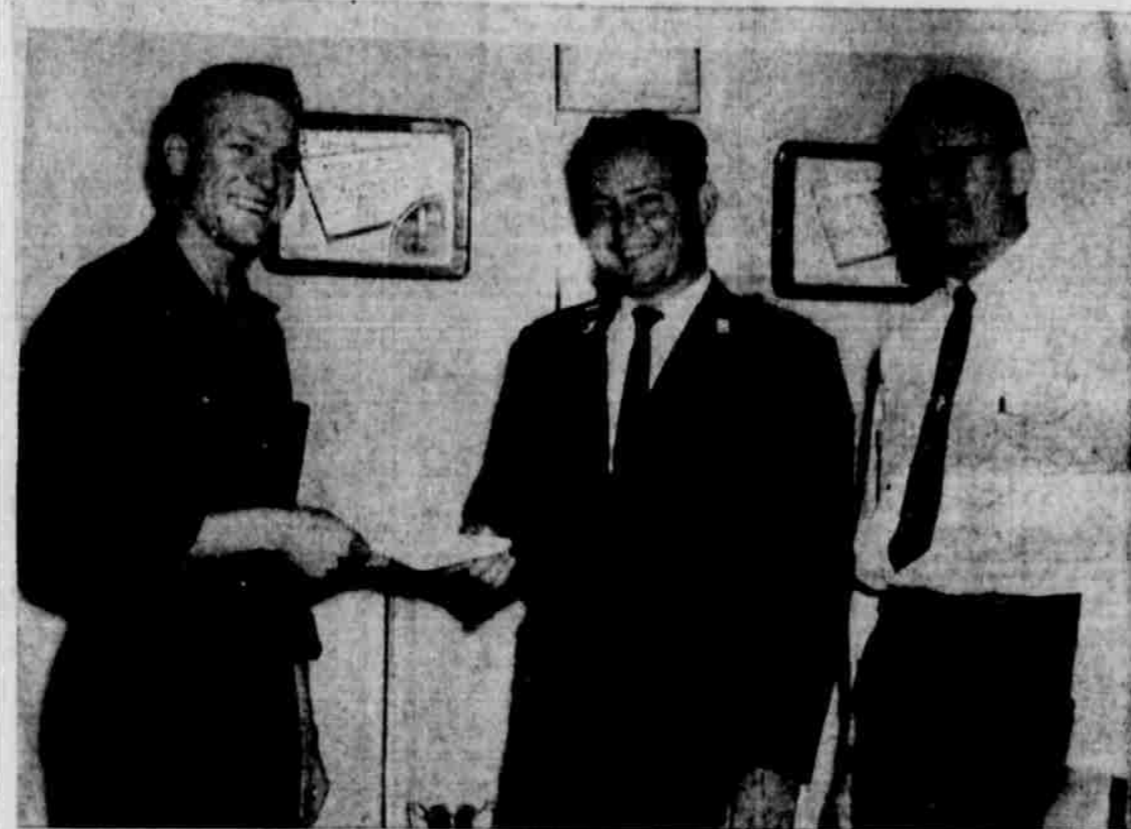

County Attorney Curtis Wilkinson said the law enforcement officers had been watching the place for some time. They went to the farm and found thirty-seven cases of beer and one case of whiskey. A trap door in the well house led the men to the discovery of a newly dug tunnel about four feet wide and several feet long. The case of whiskey was found in the tunnel.

Byrl Wilks of Olton and Frank Martinez were charged with possession of beer and whiskey after the two appeared at the farm while the deputies were there, Wilkinson said. Martinez faces an enhance penalty. Wilks has no other case against him, but faces a charge that is pending.

Olton Man Injured In Accident

Elvin Samuel Howard, 23, of Olton remains in critical condition in the Olton Memorial Hospital. He is suffering head injuries received in an accident which occurred around 6 a.m. Wednesday morning on US Highway 70, three tenths mile east of Circle near Olton.

Howard was driving a 1955 Ford, and according to investigating Highway Patrolman Floyd Cavin, apparently went to sleep. He ran off the pavement on a curve and pulled back onto the pavement 58 yards from where he left it to the center stripe of the highway. He then went 75 yards before the car came to a stop in an upright position after it had rolled twice.

Policeman James Cox takes information from Joe Pierson at the scene of the four car accident Saturday afternoon. Damage to the four cars is estimated at \$2100.

Damages Total \$2100 In Four Car Collision

Four cars were damaged Saturday afternoon at 1 p.m. when Joe Pierson, who was driving a 1957 Ford belonging to Arthur McLeland, a passenger in the car, side-swiped a 1955 Ford that was parked on the west side of Twitchell Ave. The Ford bounced into a 1954 Oldsmobile knocking the Oldsmobile into a 1957 Ford that was parked on the East side of the

street. The boys were traveling north on Twitchell. Connie Elliott was driving the Oldsmobile. The 1955 Ford belonged to Kenneth Berg and the other Ford that was parked on the east side of the street belonged to Pete Shipley.

Pierson was on leave from Ft. Carson, Colorado, and had arrived here the night before. Policeman James Cox investigated the accident. Acting Chief of Police F. A. Fitzgerald said that the boys were charged with reckless driving and paid fines totaling \$90 after spending the night in the city jail. Total damage to the four cars totaled around \$2100. Damages were estimated as follows: the Berg car, \$400; the McLeland car \$1000; the Elliott car, \$600; and the Shipley car, \$50.

Three New Directors Appointed

Lamb County's United Fund goal for this year will be \$29,590.85. The goal and the date November 19 were set when members of the United Fund board met Monday night in the men's jury room of the Lamb County Court House.

Three new board members were elected. They were Mrs. J. H. Lee, Mrs. Troy Martin, of Olton, who replaces H. C. Carter; Billy Braden, of Springdale, who replaces Mrs. Jack Henson. Carter and Mrs. Henson were unable to serve.

By organizations the goal was set for the following amounts to go to each organization: Boy Scouts, \$6000; Girl Scouts, \$3000; Heart, \$2000; Salvation Army, \$6,679; Red Cross, \$9,976; and organizational expense, \$1932.85.

Agent Advises Blanching Vegetables before Freezing

By: LADY CLARE PHILLIPS, Lamb County HD Agent

We have had many inquiries on whether it is advisable to freeze vegetables without blanching. We would like to say that the Extension Service and United States Department of Agriculture does not recommend freezing vegetables without blanching.

It is necessary to heat vegetables before freezing to slow down the action of enzymes. Until vegetables are ready to pick, enzymes keep them from growing and maturing. If they cause loss of flavor and color, if vegetables are not blanching enough, the enzymes continue to be active during frozen storage. The vegetables will then develop off-flavors in a few months or may discolor or toughen. Heating also wilts or softens vegetables and makes them easier to pack. Too long a heating period will result in softening of textures and an unnecessary loss of water soluble vitamins and minerals.

For home freezing the most satisfactory way to heat practically all vegetables is in boiling water. Use a large kettle that can be covered and into which a fine-mesh wire basket fits; or use a blancher which has a blanching basket and cover. A large loose, cheesecloth bag may be used in place of the wire basket in kettle. For each pound of prepared vegetable use at least 1 gallon of boiling water in the blancher or kettle. Put vegetables in blanching basket, cheesecloth bag or wire basket and lower into the boiling water.

Place cover on blancher or kettle and keep covered during entire heating period. Keep the heat on high so that the water will continue boiling vigorously. Start counting heating time as soon as the vegetable is put into the boiling water, plunge the basket of as a different heating time. Follow exactly time given for each vegetable.

This information can be secured from the Bulletin Frozen Foods at the home demonstration agent's office. Cool vegetables quickly and thoroughly to stop the cooking. To cool vegetables heated in boiling water, plunge the basket of vegetables immediately into running cold water or a large container of iced water. It will take about as long to cool the food as it does to heat it. Test coolness of the vegetables by biting into several pieces. If the product is cool to the tongue, it is cool enough to pack. Remove vegetable from the water and drain thoroughly.

After the vegetables have been packed, cooled and drained, pack in airtight moisture-vapor-proof containers, leaving one-half inch headspace. Seal according to type of container being used.

Hall County Residents To Gather September 15

The third annual Hall County picnic will be held Sunday, September 15th in the Memphis City Park.

Guests are asked to bring a basket lunch. Ice water will be furnished. All ex-Hall Countyans are invited to attend.

Nothing is more ludicrous than the littlen who takes himself too seriously.

A Testimonial of sincere appreciation is presented to Mrs. Marjorie Merrweather Post for the unselfish gift of the C. W. Post Memorial Scout Camp near Post, Tex. Through this camp, Boy Scouts of the South Plains Council have for over thirty years enjoyed the outdoor experience of scouting and have benefited in great measure from the citizenship training which has been given them. This grateful acknowledgement is made of the contribution which the C. W. Post Memorial Scout Camp has made and will make in the development of character in the boys of the area.

Gamma Iota Chapter Of Delta Kappa Gamma Meet

The Gamma Iota Chapter of Delta Kappa Gamma, Plainview District, inaugurated the season at their workshop meeting at Tulla High School at 10 a. m. Saturday, September 7.

The members took sack lunches. The Tulla members, who were hostesses for the meeting, furnished hot tea or coffee to drink.

Group singing was led by Mattie Ruth Nowlin of Plainview, who also gave an interesting report on The Delta Kappa Gamma Breakfast at the N.E.A. Convention in Philadelphia, Pa. this summer.

Mildred Hulsey and Gladys Whitaker reported on their experiences at the Delta Kappa Gamma Regional meeting in Hawa.

The speaker brought out the fact that Margaret Boyd, the International president, works with three hundred exchange teachers. She expressed the opinion that this is a real contribution to International understanding in the field of education.

Gamma Iota members attending the meeting from Littlefield were Mrs. Audie Collins and Mrs. J. S. Abernathy.

Mrs. Glasscock Has Products Party

Earth, (Spl.) Mrs. Ray Glasscock entertained a group of friends with a products party Monday afternoon.

Games were played and refreshments of macaroons, coffee and punch were served to Mesdames Barney Glasscock, Crill Dull's, Eugene Lee, Marvin Allen, Homer Starkey, T. V. Murrell, Neil Webb, John R. Rudd, Rae-mea Cole, Bazel Glasscock, Clyde Knight, Lynn Glasscock, Eldon Paulish and the hostess.

Willams will find kindred souls in Plainview with his hobby, that of flying. Plainview is known for having more private planes based here than at any town of comparable size and probably many with much larger population.

Mrs. Williams, who has taught English at Littlefield, has been employed to teach English in Plainview High School, according to a recent announcement from Dr. Charles F. Mathews, superintendent. They are the parents of three children, but only their daughter, Carol, is living at home. Their sons are Clarence Earl Williams, Jr., and Paul Williams.

TROPICAL PINEAPPLE PIE

- 3 Tablespoons melted butter or margarine
- 4-oz. can shredded coconut (1 1/2 cups)
- 9-oz. can crushed pineapple (do not drain)
- 1 cup water
- 1 Tablespoon lemon juice
- 1/4 cup sugar
- 1/4 teaspoon salt
- 2 eggs, separated
- 1 pkg. lemon gelatin
- 1/2 cup INSTANT PET (in dry form)

Mix butter and coconut. Press in bottom and on sides of 9-in. pie pan. Bake near center of 300 oven (slow) for 15 to 20 min., or until golden brown. Cool. In 1 1/2-qt. saucepan mix pineapple, 1/2 cup of the water, lemon juice, sugar, salt and egg yolks. Cook and stir over medium heat until mixture comes to full, all-over boil. Take from heat. Stir in gelatin until dissolved. Chill until as thick as unbeaten egg whites. Put egg whites, remaining 1/2 cup of the water and INSTANT PET into 1 1/2-qt. bowl. Beat with rotary beater or electric beater at high speed until mixture stands in peaks. Beat in pineapple mixture gradually until well mixed. Let stand a few min., until mixture mounds when dropped from spoon. Put into cool coconut shell. Chill until firm.

Ordinarily I'm not one to waste anything but last month I threw away a half bushel of peaches and several quarts of cherries.

We went on a buying spree at a country fruit stand, thinking we'd eat some, can some, and share the rest with our neighbors. Only our neighbors had the same idea that particular week-end and we couldn't give away a single peach.

Before I got around to canning them all, they had spoiled!

Bill told our sad story to the couple next door but got no sympathy. Instead, he got a look inside their big new RCA Whirlpool upright freezer neatly laden with country-fresh fruits and vegetables.

"Honey, come on over here," he called. "I've made a discovery!"

Well, I've seen a freezer before, but I assumed a wide-eyed expression and let Bill tell me all about it. He showed me the five fast-freeze shelves and the gliding baskets at the bottom of the cabinet.

"And take a look at this door," he urged. "The shelves are adjustable and these gates hold every package in place."

It was I who noticed that the freezer was made by Whirlpool Corporation, the same people who made our automatic washer and dryer. That's all I really needed to know.

"Bill," I mused, "I think we really need a freezer like this." And Bill agreed.

If I had planned it cunningly and far in advance, I couldn't have done a better job of selling my husband on that freezer.

So this is HOMEMAKING.

Hall Named Chairman Of Area NADA

Appointment of Manell Hall, owner of Hall Motor Co., as an Area Chairman of the National Automobile Dealers Association. His appointment was announced in Washington by Frederick M. Sutter, president of the 30,000 member dealer organization.

Mr. Hall will represent NADA in this area. He is responsible for reporting on the affairs of the national association to other franchised dealers here and he is also in charge of recruitment of new members.

NADA represents new car and new truck dealers in the Nation's Capital. It also conducts a number of programs and activities designed to raise advertising and merchandising standards in automobile retailing.

Mr. Hall was appointed jointly by Suter and officials of the Texas Automobile Dealers Association. His appointment is effective until June 30, 1958.

Plainview Bulldogs Plan New Strategy

Wildcats Open Season In New Stadium Friday Night

Leading the yells at the Littlefield-Plainview game Friday night will be the Cheerleaders of Littlefield High School. Left to right they are Linda Latimer, senior; Bettye Wyatt, senior; Barbara Chester, head cheerleader, senior; Betty Purdy, junior; and Sandra Ross, Senior. (Staff Photo)

The Plainview Bulldogs come to Littlefield Friday night with the expressed purpose of dedicating the new Wildcat stadium in the same manner that Littlefield dedicated their stadium last year.

The Bulldogs, after a dismal season last year, are hoping a revised line-wing attack will get them back on the road to victory. Coach "Tom" Warren, for one reason or another, has installed the new 10-0-10 single-wing offense that has been so successful in Tennessee.

Back to the Plainview backfield is the all district quarter-back Jesse McQuire, now operating at tail back. His running mate at full back will be 250 pound Robert Dalton, starting tackle of one year ago.

If a couple of injuries come around, the following boys will probably start for Littlefield:

Left end, Little Bevel, left tackle, Wallace Lee, left guard, Bill Wade, center, Landon Roberts, right guard, Bruce Trotter, right tackle, Floyce Pierce, right end, Miles Stephens, quarter back, James Pressley, left half back, Buddy Jones, fullback, Eddy Cunningham, and right half-back, James Goldston.

Buddy Jones and Leslie Bevel will serve as game captains this week.

Anton Bulldogs Choose Three Captains

The Anton football team met this week to choose captains for the coming season. The three captains chosen to lead the team were Ronnie Karvas, Gary Don Newton and Doug Goen.

Soybean Fertilizer Tests to Be Shown on Field Day

Higher and variety tests on a Texas crop, soybeans, will be up for inspection by registered farmers on Wednesday, Sept. 15, when the High Plains Station holds its first annual Field Day at Halfway in Hale county.

Soybeans will offer promise as an important crop in the farming of the region when we know how to grow them and we realize how beneficial they are to the physical and chemical properties of the soil," Dr. Longmeyer, Head of the Station, said Tuesday.

They were grown on a very small scale in the High Plains of Texas until 1906, when approximately 25,000 acres were planted. Farmers, however, were deterred in soybeans because of low yields.

Dr. Longmeyer said the soybean fertilizer tests at the Station were being conducted to determine whether yields could be increased by fertilization.

The first test involved application of phosphate at the per-acre rates of zero, 40, 80, and 120 pounds and nitrogen at the per-acre rates of zero and 40 pounds. These were applied at planting alone and in all possible combinations.

Usually, nitrogen applications on soybeans are unnecessary, for they are a legume and are able to take nitrogen from the air. In the corn belt area, however, farmers found that light applications of nitrogen at planting time help the beans off to a good start," Dr. Longmeyer explained.

Another soybean test underway at the Station is one in which one row of beans to the bed is compared at five different rates of seeding.

These rates are 40, 50, 60, 70 and 80 pounds of seed to the acre. Dr. Longmeyer said that all received a uniform application of phosphate at the rate of 40 pounds an acre at planting on June 18-19.

Dr. Longmeyer thought perhaps that the spacing of rows and the rates of seeding might be the answer to the low yield.

The Station's soybean variety

To lead the Sudan band for the first appearance Friday night at the game between Sudan and Muleshoe at Sudan will be the four majorettes and drum major pictured above. They are front row, Mary Mullins, Senior, daughter of Mr. and Mrs. J. R. Mullins; Faye Scott, Freshman, daughter of Mr. and Mrs. Randall Scott; back row, Kay Gentry, daughter of Mr. and Mrs. Albert Gentry, sophomore; Frank Foster, senior, drum major, son of Mr. and Mrs. Joe Foster; Betsy Walden, daughter of Mr. and Mrs. Guy Walden, member of the eighth grade class.

tests consist of four parts. In one, 50 varieties and strains are in 2-row, 22-foot plots, with four replications. Another consists of ten commercial varieties in 2-row, 100-foot plots, with three replications. "A third test is a dryland plant-

ing of the Lee variety of soybeans to stumpy yield. And the fourth is a seed production project of an unreleased strain which has potential value as a cash crop in this region," Dr. Longmeyer said.

Area Bands Invited To Participate In Parade

Lubbock, Sept. 7 (Spl.)—Every high school band outside of Lubbock in West Texas and Eastern New Mexico is invited to participate in the 4th annual Parade of Bands which will be the big opening day feature of the 40th annual Panhandle South Plains Fair in Lubbock next Sept. 23 through 25.

The soybean is peculiar, he explained, in that varieties usually do not have wide ranges of adaptability. The problem is to find those that will furnish the soils and climate of this area.

Even though soybeans are a soil-improving crop from the standpoint of adding organic matter to and fixing nitrogen in the soil, they are not a soil-improving crop from the standpoint of their use of soil minerals.

The beans draw large amounts of phosphorous and potash from the soil. "For that reason additional fertilizer experiments are planned in which potash as well as phosphate will be used," he concluded.

This invitation has been extended by Dr. D. O. Wiley, professor of music and conductor of Texas Tech bands, who will be chairman of the band parade this year.

Dr. Wiley said that formal invitations to compete for the \$500 in cash prizes offered in the parade will go to high schools in a 51-county area immediately after the start of the new school terms.

If any school should fail to receive an invitation or should be overlooked, they are requested to get in touch with Dr. Wiley at once. Inquiries should be addressed to him in care of the Panhandle South Plains Fair Association, P.O. Box 561, Lubbock, Tex.

While many of the details of preparation for the event are yet to be completed, here is some information supplied by Dr. Wiley which may be of widespread interest:

There will be four divisions of competition designated as Classes AAA, AA, A and B, regulated according to the enrollments of individual schools.

First prize in each division will be \$100 and second prize \$50.

Three outstanding band directors will be judges and they will observe the usual standards in Texas Interscholastic League band competitions.

The parade will start moving promptly at 10 a.m. on Monday, Sept. 23, and will mark the official start of the Fair.

The parade will start from the parking lot of Sears & Roebuck at 13th Street and Paris Avenue. The procession will move east on Broadway from Avenue P to Avenue A and then will proceed east on Avenue A to the fairgrounds entrance.

The reviewing stand will be the balcony of the Lubbock Hotel.

Perennial Sweet Sudan Profitable For Farmer

Sudan Sidelights

George B. Snow, who farms northeast of Littlefield, produced pounds of ripe Perennial Sweet Sudan seed on one acre. The seed was estimated to be worth half of what will be produced on that acre. Snow paid \$70 for the seed and \$1807 for the seed. He watered the field one and one half times. He has harvested twenty acres in Perennial Sudan. He expects a net return of 1100 pounds of clean seed per acre. He did not use any fertilizer. The crops on the farm are grain and grain sorghum. Control is a great virtue for individuals even seek to it.

CHEVROLET PICKUP CLIMBS PIKES PEAK THE HARD WAY ...OFF THE ROAD!

An off-the-road run up Pikes Peak was called impossible by people who know the mountain well. But a production Chevrolet pickup actually did it... to prove its pulling power and ruggedness!

All the way to the top without using the road! Here the truck scales high boulder pile near the 14,110-foot summit.

Steep grade near timberline—a rugged test of power. The power and torque of Chevrolet's famous Thriftmaster 6 proved more than a match for the most difficult grades.

Miles of loose boulders and thinning air offer extreme challenge. Yet the big Chevy engine never faltered; it performed flawlessly mile after mile, all the way up the mountain!

Final effort conquers summit! Pickup conquers Pikes Peak... shows why Chevrolet trucks are famous for staying and saving on tough jobs! Talk trucks with your Chevrolet dealer.

IS THE LOCAL PRESS CONTROLLED

Upon reading the prepared speech this week end of J. H. Carl, manager of the Lamb County Electric Coop, Inc., one would wonder if the representative of the 11,000 to 13,000 members is mad at the entire world. In his speech he blasts, Legislators, Eisenhower, Benson, Private Enterprise, Utility Companies, both gas and electric, Radio, Businessmen, T-V, Newspapers and Magazines . . . to name a few. In his speech made last week here in Littlefield he makes particular mention of the "local press," which can mean only the Lamb County Leader and The County Wide News.

In order to have absolutely no controversy as to what was said exactly, we quote: "Have you ever seen anything in our local paper in favor of the R.E.A. or farm programs?" But you can always find the other side of the story. I think we should change the name of free press to controlled press."

This newspaper has been accused of many things under the present ownership. However, let me say this emphatically. We have never been accused of being a "controlled" press or being against farm programs. To be frank, we have been threatened for being "Uncontrolled."

In going over our files, we find we have given news coverage adequately to notices of their annual meetings. In last Sunday's issue our news department covered the meeting with a camera showing the meeting in progress, and not one word of adverse publicity. In fact, for the information of the thousands of members of the REA, we state now, that we have never refused to carry in our columns, a news release or an advertisement from the organization.

In last Sunday's County Wide News more than eight full pages of news and advertising were devoted to Soil Conservation, a farm program. As to "ever seen anything in our local paper in favor of the R.E.A." we herewith quote from our issue of the Lamb County Leader of April 25, 1957: "Ten men from Tahoka and seven from Hereford arrived Sunday night to help the local R.E.A. crew repair lines. Service was restored to 95 percent of the area by Tuesday night."

This was the issue that was printed immediately after the disastrous tornado. In fact, we praised all public agencies including the telephone company, Public Service Co., Red Cross, Salvation Army and many others for the outstanding job they did. There was never a word mentioned to the contrary.

In Carl's last epitaph at humanity he states: "I'm of the opinion if the farmer, who are a minority group today, is to survive the trampling to come they are going to have to do as Senator Johnson says to quit raising so much cotton and start raising more hell."

It is indeed regrettable that the representative of so many fine people feel this way about so many people and organizations. We are sure Carl is only speaking his own mind, and not expressing the sentiment of the thousands of solid citizens who make up the R.E.A. in this area.

Following The Crowd

Too many of us, and the writer is no exception, tend to follow the crowd and "conform." However, much of the world's progress has been made by men and women who refused to conform when they thought the crowd, or the majority, was wrong.

It is very easy in life to accept gossip about those one has an inclination to be jealous of. It is a common fault for us to try to pull others down to our own level — if they have out-performed us in life in some way.

Moreover, the tendency of too many of us is to belittle things we do not understand, dislike those with whom we disagree and to close our minds to learning after we have reached a certain age in life.

There is usually a high price to pay when one bucks the majority, or when one refuses to follow the crowd. If everyone around us idles away their afternoon, that is no reason why we should idle away ours.

If a certain type of work is frowned upon by the so-called social set, that is no reason why some good, honest sweat should not be expended by any man or woman who puts common-sense ahead of false pride.

It is good for all of us to evaluate our lives and our philosophies and give some thought to standing on our own two feet. It is easy to follow the crowd. But remember the crowd is often wrong.

'Beware! Fools At Large'

This message is not directed to the fools who cause head-on collisions. It would do no good to address a message to them, for three reasons. In the first place, the kind of drivers who pass on hills and blind curves, and pull out of lane without bothering to see if another car is coming, are too busy preening themselves on what sharp drivers they are to read any message. In the second place, it is doubtful if these morons can read, anyway. If they could, surely by now they would have read newspaper stories about the hundreds of horrible head-on crashes caused by drivers like themselves, and learned some sore of lesson from the stories. Finally—very finally—the criminally careless drivers, who have already had their head-on collisions are probably dead, along with the innocent victims they carried with them.

No, this message is for the good drivers; the drivers who recognize that others have a right to a part of the road; the drivers who like to get home alive. Here is the message—it ought to be posted along every highway: "Beware! Fools at Large!" Keep this message before you every minute, every second. Death can come in the wink of an eye. It isn't enough merely to drive safely yourself; you have to allow for the other fellow. The one who can't wait to get over the hill before he pulls out to pass, who can't wait to get around that curve or for a break in the traffic stream. You may meet him anywhere, anytime. He's a fool in a hurry and he'll kill you stone-cold dead if you don't watch out.

It used to be "The price of liberty is eternal vigilance." Today on the highway that's the price of life itself.

LAFF-A-DAY

"No, I don't find farm life lonesome. I meet a lot of nice city folks over this fence every week end."

DOWN MEMORY LANE

(From the files of the Lamb County Leader, Sept. 9, 1937)

Mrs. J. C. Chaney was hostess to the Fieldton Home Demonstration Club at her home near Fieldton.

Mr. and Mrs. Pat Boone left Thursday for their ranch near Elida, New Mexico.

Mr. and Mrs. E. S. Rowe, and Mr. and Mrs. Melvin Ross, returned Friday from Portersville, California, where they had spent several months.

Miss Virginia Walker, daughter of Mr. and Mrs. P. W. Walker, is leaving September the 15th, for Dallas where she will enter Miss Hockaday's school for girls.

Mrs. T. A. Henson, Sr., returned Wednesday night from a two weeks trip to Fort Worth, where she was attending the sick bed of her daughter, Mrs. C. H. Jeffers.

Highlights and Sidelights From Your State Capitol

By VERN SANFORD
Texas Press Association

AUSTIN, Tex. — BenJack Cage has more invitations than a pretty girl with a rich papa. Cage's "dates" are with some half-dozen groups who want to know what caused ICT Insurance Co. to go under with multi-million dollar losses. Cage was ICT manager until a year before it collapsed.

After a grand jury session and the detector test in Dallas, Cage moved to Austin. At the head of the line of questioners here is the Travis County grand jury. Other questioners include:

1. House general investigating committee.
2. Senate general investigating committee.
3. Renne Alfred, attorney for the state liquidator, handling what remains of ICT.
4. Federal agents—from the postal inspection service and Securities Exchange.

GOVERNOR SOUNDS OUT SOLUTIONS—Gov. Price Daniel has asked legislators for a "frank expression of their attitudes toward proposed special session.

In an individual letter to each member, the governor outlined the session goals: (1) a lobby registration bill, (2) a bill requiring registration of those who represent others before state agencies, (3) a bill setting up a study on how to prevent spread of crime and (4) legislation to develop a state master water plan.

No new taxes will be needed to finance any of these projects, or the session itself, the governor's letter contended.

Best guesses are that, barring stringent opposition from the lawmakers themselves, the session will be called for Oct. 15.

NAMED TO TAX COMMISSION—Three business experts from over the state will join with lawmakers in making a thorough

study of the state and local tax structure.

Named by Governor Daniel to the Tax Study Commission are Dr. John R. Stockton, Austin, director of the University of Texas Bureau of Business Research; John McKee of Dallas, executive in the Ford Motor Co.'s Dallas plant; Hugh Loewenstern, Sr., Amarillo real estate dealer.

Three senators and three representatives also will serve on the Commission.

NEW MAP AVAILABLE — A new map, loaded with historical and geographic information about Texas, has just been published by the General Land Office.

Copies are available without charge. Schools are expected to find it particularly useful.

Marinkings include the lakes, mountains, rivers, dams, reservoirs, off-shore tidelands, state-owned lands, old cattle trails and stagecoach routes.

RETAIL SALES UP — Retail sales in Texas during July increased two per cent over June, nine per cent over July of last year.

Latest figures from the University of Texas Bureau of Business Research show Austin merchants out in front compared with other cities. Their increases: seven per cent over June, 12 per cent over a year ago.

Other leaders: San Antonio, up 10 per cent from '56; Dallas and Houston, each up nine per cent; El Paso, seven per cent; Fort Worth, two per cent.

THERE'LL BE A WAIT—Owners of land in the path of new state highways face a delay before getting their money for it.

Under new law state pays half the cost of right of way buying for state roads. But since the money is to come from higher automobile license fees, the state won't

Sandhills Philosopher Says,

Editor's note: The Sandhills Philosopher on his Johnson grass farm probably is unduly alarmed about the matter he's discussing this week, but if it wasn't that it'd be something else.

Dear editor: I've always felt that while nobody in Washington can solve the farm problem, it didn't hurt to have them talking about it, it's comfortable to know you're not forgotten, but now I've changed my mind. You can run this thing into the ground.

For instance, I was reading in a newspaper last night which somebody had use to stuff around a set of teacups my wife got through the mail from some of her kinfolks—only three of 'em

have it until next year after people buy new plates.

In the most recent group of road building projects authorized by the State Highway Commission, it was expressly stated that money for land buying would not be available until after March, 1958.

NO LENIENCY FOR DWIS—Motorists who lose their drivers licenses for drunken driving needn't expect to get them back before the suspension period is over.

State Board of Pardons and Paroles said it is no longer even making recommendations for early return for licenses. Governor Daniel, who must approve the recommendations, has made it clear, said the board, that he doesn't favor leniency for DWI cases.

Law takes away license for six months on first conviction, a year on second conviction.

MORE MONEY FOR SCHOOLS—State aid to Texas public schools has been raised \$2 per pupil. It's now at a record-breaking \$80 per child.

State Board of Education upped the allocation after State Comptroller Robert S. Calvert reported a revenue estimate nearly \$4 million higher than his previous estimate.

Present outlook is that the state's bill for educating its 1,923,849 pupils will be a whopping \$336,116,108.

SHORT SNORTS—Most of Texas' farmers and ranchers will go into the winter with the best supply of hay and feed in years, reports the U. S. Dept. of Agriculture.

Surge of back-to-school activities may push the number of Texas jobholders to the three million mark, says the Texas Employment Commission. July total was 2,998,000. School payrolls are expected to add 20,000 more and provide more business for retail and service industries.

Leon R. Graham, member of the Texas Education Agency staff, has been advanced to the post of assistant commissioner of education for administration. He replaces Bascom B. Hayes who resigned to become superintendent of the Brazosport School District.

Choosing a site of the new state archives building has been delayed, reports Rep. Vernon J. Stewart, chairman of the selection committee. Legislature authorized the building last session, but provided no money to survey property for a site.

Watson Wise of Tyler will serve as chairman for Texas' observance of United Nation Day, the governor's office announced.

letter turning up in the mailbox now: "Based on your five-year history of production, it has been found you are unnecessary and your name has been removed from the list of farmers in this county. Severt penalties for violating this order will be enforced."

You can see what this would do to me, and I think if I tried right hard I could name a few others in this vicinity.

Furthermore, if they found out this country has more farmers than it needs, what's to keep them from finding out it's got more filling stations than it needs? Or more grocery stores? Or more automobile dealers? Or more Congressmen? Or more newspapers? Or more women?

It may be true that 20 per cent of the farmers could quit and move to town and the country would still be well-fed and well-clothed and Sec. Benson would still have a surplus to worry about, but I have a notion you could shut down 20 per cent of

the filling stations and have to go without gas, wait in line. Yet they're getting em up in cities, even they find a vacant corner. And it's possible, with a Congressman, with a Congressman, we still have just as many laws turned. Let's drop this whole thing. Yours faithfully, J.A.

Looking at the FOOD BILL!

"A penny saved is a penny earned" and a look at the food savings possible with an electric home freezer makes the penny look mighty big. Meats, poultry and vegetables can be bought in quantity, in season, when prices are low. Garden vegetables and fruits can be frozen, retaining all the goodness, freshness and tastiness of the freshly-picked product. Time is money and a freezer frees you from sudden, surprise meals. Such meals are prepared in advance, frozen and are ready to serve, piping hot, in minutes. Why not take a look — tomorrow — you'll like the savings you'll see.

Funeral rites were held for John F. Fry of Anton Monday at Sanders Funeral Home in Lubbock.

He died Monday at the West Texas Hospital.

Funeral services were held for John F. Fry, 68, of Anton Monday at Sanders Funeral Home in Lubbock. He had formerly lived in Canton where he was sheriff for eight years. He had been a resident for the last several years of Anton, Texas.

Survivors include his widow, Mrs. Sally Fry, a daughter, Mrs. Hulma Ross, two grandchildren, Johnny and Sue Ross, all of Anton; four sisters, Mrs. Juan E. Cook of Amarillo, Mrs. George Baker of Amarillo, Mrs. S. A. Henry of Lubbock, and Mrs. Laura Cook of Fort Worth, and three brothers, R. E. Fry and Luther Fry, both of El Paso, and Olin Fry of Amarillo.

Funeral services were conducted by Royce Womack of Anton and Rev. George Applewhite of Lockney.

Anton News

The Anton Assembly of God Church closed its revival Sunday with Evangelist Mary Miles of Snyder, Texas doing preaching.

The revival closed with a pool record of sixteen being saved and nine baptized. Miss Miles is a High School senior in the Snyder High School this year.

Mr. and Mrs. W. C. Williamson from White Horse visited in the home of Mr. and Mrs. M. B. Cardiff of Anton this last week end.

Mr. and Mrs. Brad Gilbert attended the drug market in Dallas this last week. Tommy and Stacey spent the week end in O'Donoghue visiting their grandmother.

Mr. and Mrs. J. B. Richardson and children from Kettle Falls, Washington visited in the home of Mr. and Mrs. W. H. Taylor of Anton. Mrs. Richardson is a sister of Mrs. Taylor. After visiting here they are going to visit the father and mother of Mrs. Richardson. They were touring several places of interest in the Western states including the coastal route, by way of Golden Bridge, Catalina Island, Disney Land, and other places of interest.

Young People Hold Meet
The young people of the churches of Christ in their monthly sessions of a 100 mile radius gathered at Anton Thursday night, Sept. 5, for an area wide youth rally.
