LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, FEBRUARY 28, 1929

No. 46

DAY OLD BABE LEFT AT HOTEL HERE PARTY PRESUMED TO BE A WOMAN IN DISGUISE; MANY WOMEN WOULD TAKE IT

Story of "lost child" always creation; but it was the cry "baby found" that produced a great excitement in the Littlefield Saturday afternoon.

At about three o'clock that afternoon a person of small stature, shabbily dressed called at the desk and asked for a room. They registered Mrs. J. C. White. When the desk, noticed they had a pair of soiled white cotton pants which they did not remove. The party if they had traveled far that day, and they returned about 200 miles. The temperature was cold, and was in a step to the fire and warm. They did for just a moment. When they went outside to a car and carrying an ordinary suitcase was shown to the room. A check was then made about a traveler's cheque cashed and they went out and never returned.

Several Littlefield women called at the hotel, after learning of the incident, and offered to give the little one a home.

OF LFD GETS INCREASED CREDITS BEING CAREFUL

City of Littlefield receives a 12 per cent on its final fire record of this city during the past three years. This record is due to the carefulness of the fire department and the watchfulness of the fire insurance companies. Keeping down all unnecessary expenses, and means a considerable saving to policy holders. Last year the fire loss of Littlefield amounted to about \$8,000, \$6,500 of which was in one building.

It is understood also that the key to the city, which is now 55 years old, will probably be reduced 15 per cent because of additional improvements to be received through additional funds and better facilities for fire fighting. There will be a credit on street paving, new fire hydrants, 100,000 gallon storage tank, 500-gallon per minute pumps in the waterworks system.

Fire rates in Littlefield now show a slight variation, running from \$1.00 on resident property to \$7.50 per \$1,000 on frame property. Unfavorable local conditions are running about 10 per cent above the average price for residence property and brick business houses. It is noted that there are about 100 buildings in Littlefield.

Y. H. LAND COMP'Y VAULT IS ENTERED \$20.00 ARE STOLEN

Unknown parties entering the vaults of the Rowe Abstract Co., and the Yellow House Land Co., sometime between Saturday night and Monday morning, took away about \$20.00 in currency. Entrance to the building was probably made through one or the other of the offices by a skeleton or duplicate key.

The abstract vault being used principally for fire protection, it was not the custom of the proprietors to lock it at night, and it is supposed the entrance was made through that door. However, there is a connecting hole between the two vaults near the floor, and large enough to admit the body of a man, through which the thief evidently passed into the Yellow House Land company's vault.

Some loose change was taken from one of the desk drawers of the abstract company, but about \$40.00 in currency lying on one of the vault shelves of that company was overlooked. In the Yellow House vault there was also about \$40.00 lying in a letter vault, about half of it was taken and the other half remaining undisturbed. No papers were disturbed, and it is the opinion of officials that the job was done by some one more or less familiar with inside condition of both vaults. Several finger prints were discovered near the hole connecting the two vaults.

A CHECK ON THE SEWER AND WATERWORKS SHOWS GROWTH

A recent audit of Littlefield municipal water and sewer system made by Superintendent H. J. Gibbs shows the following interesting facts:

There are 4.4 miles of sewer; 4.3 miles of waterworks pipe; 156 sewer connections and 319 water connections.

The water system has been a paying investment from its inception, the income derived from it assisting materially in defraying other municipal expenses.

Recently the City Commissioners ruled that no new buildings should be erected within the city limits where sewer and water lines were available without such connections, and building permits will not be otherwise issued.

ROTARY GIVES 30 TREES FOR PRIMARY SCHOOL GROUNDS

Last Friday the Primary school, under direction of Mr. Helweg, of the agriculture department, spent an hour planting trees on the campus.

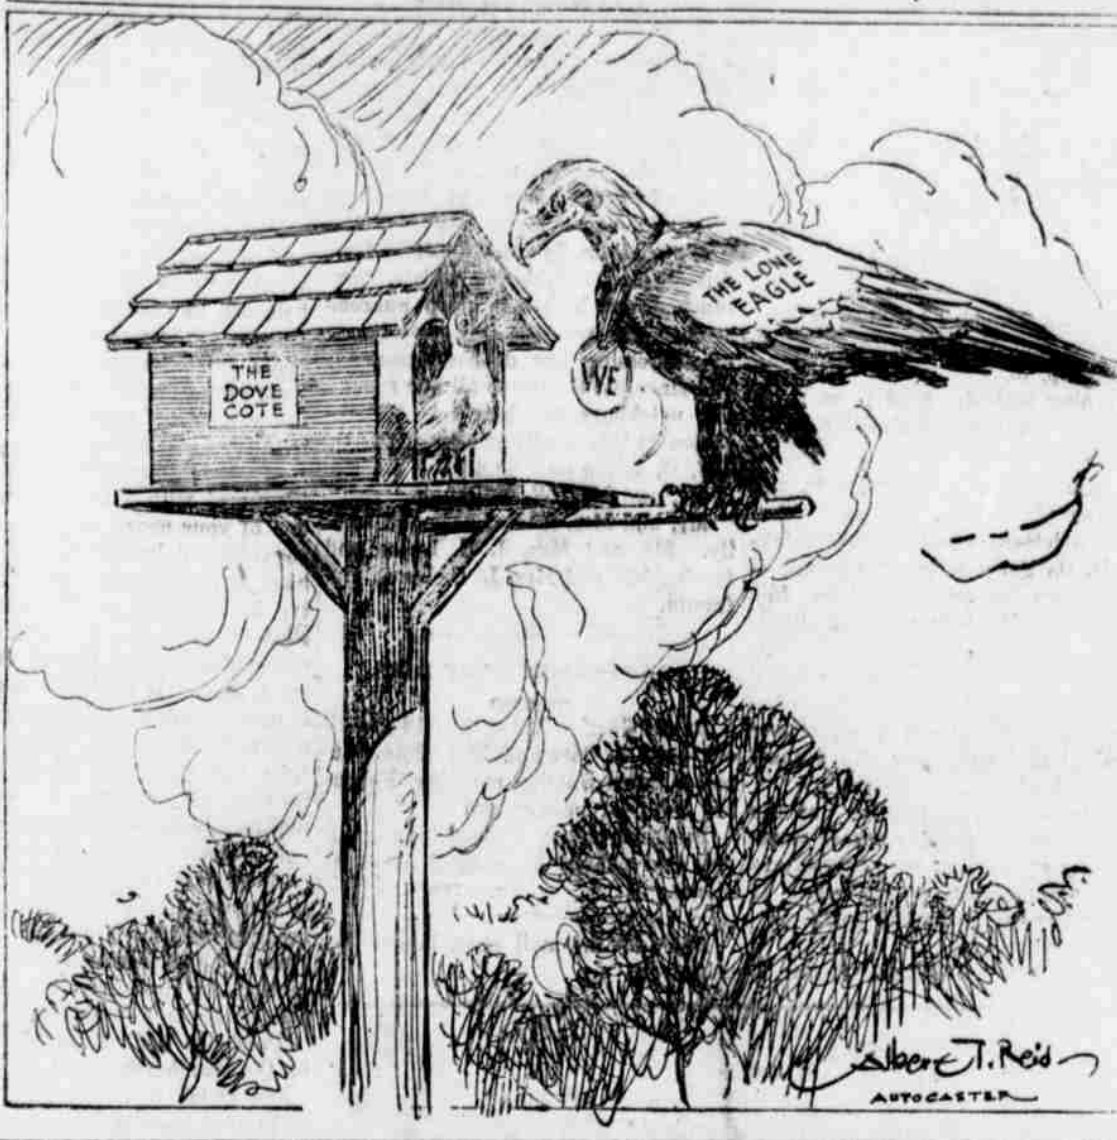

The 30 shade trees were presented to the school by members of the Rotary club.

Each room of the Primary building had charge of the planting of one tree and are responsible for the care of the tree they planted.

These trees will greatly enhance the beauty of the Primary grounds, and in a few years the people who assisted in the tree-planting will be proud of their work.

The Latest in Bird Sanctuaries

By Albert T. Reid

J. W. RATEKIN THE NEW SECRETARY OF COMMERCIAL BODY

J. W. Ratekin was elected secretary of the Littlefield Chamber of Commerce last week, at a special meeting of the Board of Directors called by President J. S. Hilliard.

Mr. Ratekin is a man of many years experience in Chamber of Commerce activities, and comes to this chamber very highly recommended with a good line of accomplishments where he has been secretary-manager of chambers of commerce in both the middle west and southern states, having served as managing secretary in two southern cities where he accomplished splendid results and gained a wide reputation as a man of vision and ability. Mr. Ratekin is no stranger to Texas nor to this section of the state, having visited points near here during the past 20 years, and has many acquaintances who have known him in the state during this period of time.

Mr. Ratekin says: "I am very familiar with all sections of Central and West Texas, as well as other sections of the South, and there is not a section to my knowledge to be found anywhere that affords such wonderful opportunities in Littlefield and Lamb county, and I predict in a short time it will be one of the leading counties in West Texas and the Plains country of Texas, not alone for the tourist, but for the investor, as well."

Mr. Ratekin expressed himself as very much pleased at the evidence he sees of constructive activities on the part of the business men of Littlefield and the county, and believes their efforts will be rewarded by the addition of thousands of new citizens and millions of new capital in the near future.

"Get acquainted with our secretary-manager and impress him with the fact that you are ready and willing to co-operate with him in every undertaking for the advancement and upbuilding of Littlefield and Lamb county," is the urgent request sounded by President J. S. Hilliard and the Chamber of Commerce officials.

Mr. Ratekin says: "It is a great pleasure to be elected secretary-manager of the Littlefield Chamber of Commerce. I have the most abiding faith in the future progress of Littlefield and Lamb county. There are big things ahead for all. The work of the Chamber of Commerce in the past is showing results. I appreciate the untiring efforts of President J. S. Hilliard, who is giving much time and serious thought for activities during this year."

"If there ever was a time in the history of Littlefield for every loyal man and woman to get squarely behind the Littlefield Chamber of Com-

merce with all their strength and energy," Mr. Ratekin continued, "it is now, for there are future developments pending with the prospects of being carried out, that will make you proud that you stood by your president and board of directors; for there is no organization that can successfully carry it through but your chamber of commerce. Its the only organization that is working for your interests all the time. I am here to serve your interests; I will appreciate your helpful suggestions at all times. I want them. Please bring them to the Chamber of Commerce office in J. E. Barnes Insurance offices" states Mr. Ratekin.

LAMB CO. BANDS TO HOLD BIG EVENTS IN CITY OF L-FIELD

The dates for the premier entertainments to be given by the Lamb county consolidated bands, under direction of Conrad Lam, have been definitely set as follows: March 15, band concert by the 60 piece Lamb county band; April 5, Dixie Revue; May 3, Big-time Play. The price of a season ticket is \$1.50 for adults and \$1.00 for pupils and children. Those desiring to attend these numbers should make it a point to purchase a ticket from some of the Pep squad girls at an early date.

"You bet we will," was the enthusiastic answer the local high school pep squad gave Director C. R. Lam when he asked the girls of that organization if they would sell tickets for the Lamb county band attractions. The young ladies will have several reasons for doing this.

In the first place, they will be helping the Littlefield band in its campaign to raise funds to pay the expenses of the musicians to the West Texas Chamber of Commerce annual meeting to be held in El Paso in May.

Another potent reason is that the director has agreed to reward the girl selling the most tickets by making her honorary sponsor of the Littlefield band. This lucky young lady will accompany the band on all of its tours, including, of course, the big trip just referred to. Furthermore, each one selling 10 or more tickets is to be presented with a complimentary one, and, in addition to this, the club receives a royalty on all the box office receipts.

ROY WADE IS APPOINTED MAIL CARRIER ON ROUTE

Following an examination some six weeks ago, Roy S. Wade, clerk in the Littlefield post office, has been appointed carrier for rural route No. 2, effective March 1. Leonard Wright, another clerk in the local post office, will step into Mr. Wade's place, while Eugene Latimer, substitute clerk, will take Mr. Wright's former place.

Rural route No. 2 will serve a large and rapidly growing territory located south and southwest of Littlefield. For the present mail will be delivered on that route three times weekly, though it is expected daily service will be granted within the coming six months.

Succeeds Booth.

Edward J. Higgins has been elected Commanding General of the Salvation Army, succeeding General Bramwell Booth, following action by the High Council meeting in England.

ROTARY OBSERVES ANNIVERSARY DAY WITH A PROGRAM

Thursday night of last week the Littlefield Rotary club observed its second anniversary with a banquet and program. Fortyone members and visitors were seated at the banquet table as follows: Mr. and Mrs. R. E. McCaskill, Mr. and Mrs. J. S. Hilliard, Mr. and Mrs. E. A. Bills, Mr. and Mrs. B. M. Harrison, Mr. and Mrs. F. G. Sadler, Mr. and Mrs. Sam Rumback, Mr. and Mrs. T. Wade Potter, Mr. and Mrs. John Arnett, Mr. and Mrs. Wm. J. Harris, Dr. and Mrs. M. V. Cobb, Mr. and Mrs. J. E. Barnes, Mr. and Mrs. Mon D. Thaxton, Mr. and Mrs. E. H. Williams, Mr. and Mrs. Dick Weaver, Mr. and Mrs. Herbert Teal, Messrs. Max McClure, Ross Mayhew, Pryor Hammons, C. E. Willis, C. C. Clements, Rev. Geo. Turrentine and Rev. Chas. Dvorak. Other guests were Mr. and Mrs. J. W. Hopping, Mrs. Chas. Smith, of Harrisburg, Illinois, house guest of Mr. and Mrs. Mon D. Thaxton, and Mrs. V. V. Wright.

President R. E. McCaskill was toastmaster for the occasion, this being also the 24th anniversary of Rotary International. J. S. Hilliard, secretary of the club, gave an outline of the history of Rotary; first as a business men's club and later when it became an international organization, also, stating the purposes and aims of the club; with some of the work Rotary is doing in this immediate vicinity, one item of which was presenting 30 shade trees to the local Primary school grounds.

Plans were discussed for taking part in the Boy Scout movement, and the regular meeting of Rotary to be held next Thursday was set aside as "Boys Day," at which time each Rotarian expects to bring to lunch one boy of the youngest age limit for boy scouts, hoping thus to interest a number of boys of that age in this work.

"Andy" Bills led the song program with a number of songs dear to Rotarians.

J. W. Hopping, accompanied by Mrs. Hopping at the piano, rendered the solo, "Waiting for Ships that Never Come In," and answered a hearty encore with "Down by the Winegar Works," and other songs which were received with much appreciation and applause.

Incidentally, two members present were found to have a record of 100 per cent attendance, they being Max McClure and J. S. Hilliard.

The banquet was prepared and served by the ladies of the Presbyterian auxiliary, in the basement of that church. The decorations and the costumes of those in charge of the catering were in keeping with the date and in commemoration of Washington's birthday.

Elected Secretary-Manager of the Littlefield Chamber of Commerce.

P. T. A. OBSERVES LINCOLN AND WASHINGTON BIRTHDAYS

Last Friday afternoon the Parent-Teachers association met in the high school for a social hour, and after a short business session the group retired to the gymnasium.

The gymnasium was cleverly decorated with patriotic colors and with Lincoln and Washington cut-outs made by the Primary pupils.

Rev. Geo. Turrentine led the group in community singing. Katherine Jones and Frances Barton each gave a reading.

Following the program, all were asked to join in a number of snappy games. The spirit of play was certainly evident. When the guests had become tired they were invited into the diningroom where they were graciously served by Mrs. J. S. Hilliard, Mrs. M. M. Britain and several of the home economic girls.

WANT CARLOAD OF PAPER

The Parent-Teachers association, assisted by the students of the public school are attempting to collect a car load of paper—old catalogues, magazines, newspapers, etc., to ship to paper jobbers in Houston.

The drive for the old papers will end in about 30 days. Patrons of the schools are urged to save old magazines, and other paper to help fill the car. The money received from the shipment will be added to the library fund for the Primary and Grammar schools.

THE CITY BLOTTER

In the Littlefield municipal court the following cases docketed for the past week:

—L. L. Newman, charged with violation of City Ordinance No. 1, was fined in the sum of \$10.00.

—R. C. Newman, on same charge, on own recognizance.

—J. W. Horn, same charge.

—Charles Gray and Chris (negroes) pleaded guilty of assault and battery, and were fined \$21.45.

A church is a great asset to any town or community. The pastor has received letters—one from Washington, D. C., the past week, wanting to know about the churches of our fair little city. He was a man with a family, and why shouldn't he ask this all important question? Show me a man who, when he thinks of locating here inquires about our churches and schools, and I will show you a character that will build our city.

Come to services Sunday at the Baptist church. Sunday school starts promptly at 9:45 a. m. If you are late you influence someone else. If on time, others catch the spirit. Looking for you!

—ROY A. KEMP, Pastor.

SACRED HEART CHURCH
 Divine services every Sunday.
 All preaching in the English, language, only.

The general time for services during the winter months is 10:30 o'clock a. m. one Sunday, and 8:30 o'clock a. m., the following Sunday.

When we have 8:30 o'clock services in Littlefield, 10:30 o'clock services will be held at Pep, and vice versa.

Everyone interested has a free access to our church, and is cordially invited by—
 REV. CHARLES J. DVORAK, Pastor

CARD OF THANKS

Bereavement is a tie that binds all hearts together in a common bond, for at some time or other all have felt the loss of some member of their household. In the recent loss of our son and brother, Harry, we have been the recipients of many words of sympathy and kindly ministrations from friends and neighbors which have touched our hearts in deep appreciation. May we take this opportunity of expressing our deepest gratitude and sincerest thanks to all our friends and neighbors for their help and devotion in this our time of sadness.

PATTERSON BABY DIES

Ralph Gustine Patterson, 18 month old babe of Mr. and Mrs. Pete Patterson, died Sunday morning, February 24th, of pneumonia.

Burleson-Mason Undertaking company had charge of funeral arrangements.

Don't let the mail order houses deceive you.

C. OF COM. WOULD STRESS THE VALUE OF DAIRYING HERE

The regular membership meeting of the Littlefield Chamber of Commerce held Tuesday at the College cafeteria was a most interesting one, as to number present and interest taken in the affairs of the organization.

President J. S. Hilliard presided, calling the meeting to order, he introduced the new secretary, J. W. Ratekin who, in a few well chosen remarks said: "To say that I am pleased to be secretary of the Littlefield Chamber of Commerce does not half express it. Since my arrival I have been very much pleased to note the good spirit of the citizens of this city. They are wide awake and up to the minute in doing worth while things which will advance your city and section by leaps and bounds. I want to thank Mr. Hilliard, Mr. Mitchell, Mr. McCaskill, Judge Rowe, Mr. Barnes and many others for the courtesies extended me since my arrival. I am here to work with you to work for you, and I want your hearty cooperation and constructive criticism."

Mr. Ratekin said, "I was very much impressed with a remark made by one of your progressive business men regarding dairying; that it should have good attention, and this industry developed to a high degree. Possibly many of you do not know what commodity in the United States the most money is paid for annually. It is milk. This is an industry that will never be overdone. For instance, take the statistics of Arkansas alone, which shows they are short 570,000 milk cows to supply their demand and consumption; and possibly Texas with its vast area is short millions of milk cows. Demands for milk are increasing all the time and will continue. Lamb county is a most ideal section for dairying; it's one of the most important industries to foster."

President Hilliard called attention to the membership and budget campaign which would be shortly made, and urged every member to talk membership with his acquaintances. Also, he advised that after the membership campaign has closed that many important standing committees would be appointed.

Report was made by F. G. Sadler regarding the road committee, and what it was proposed to accomplish. Interesting talks were made by Mr. Dunlap, C. E. Strawn, R. E. McCaskill, Ellis Foust, Rev. Chas. Dvorak, E. A. Bills and E. S. Rowe.

At the conclusion of the meeting many expressed themselves pleased in the manner the Chamber of Commerce was starting off. Every meeting will be interesting, every member should remember the date and be present every Tuesday at 12:30 noon in the College cafeteria.

Pep Paragraphs

The Community club will meet in the school auditorium next Friday night at eight o'clock. An interesting program will be given and refreshments will be served after the meeting. It is hoped that everyone in the community will be present and that those who have not yet joined will become members. The club is functioning splendidly and is a decided asset to the community.

Friday afternoon, Washington's birthday, the students of Prof. Murphy's room gave a Washington program consisting of extemporaneous talks on the life of Washington. The program was interesting and educational.

There is much illness in the community, flu, colds and coughs and a few cases of measles are reported. The following persons are ill from one or another of these diseases: Mrs. M. J. Demel, Garland Dempsey, Jno. William and Bertie Stengel, Silvester and Jimmie Greener and Eddie Silhan.

Mr. and Mrs. W. H. Heinen, of Littlefield visited the family of W. P. Lupton, Sunday.

The students of the school are greatly enjoying the course in music appreciation being given by Mrs. Lupton. The giving of this course was made possible through the generosity of the Community club, which donated money for the purchase of the records needed.

W. T. and A. G. Jungman went to Littlefield, Friday.

J. F. Gerik made a trip to Lubbock Saturday.

Mrs. J. O. Allison is visiting relatives in Muleshoe.

CARD OF THANKS

We are taking this opportunity of expressing our sincere thanks and appreciation of the many kindly acts and ministrations of friends and neighbors during the recent sickness and death of our baby girl.
 It—Mr. and Mrs. W. C. Barnes.

CARD OF THANKS

We wish to thank the people of Littlefield for the kindness shown us during the illness and death of our husband and father.
 It—Mrs. H. L. Snow and family.

Dairy cows watered once a day drink less and produce less than those watered twice a day or at will. The higher the production, the greater the benefit from frequent watering.

Dangerous Business

Our stomach and digestive systems are lined with membrane which is delicate, sensitive and easily injured. It is dangerous business, then, to use medicines containing harsh drugs, salts or acids, when we are constipated. In addition to the possibility of injuring the linings of our digestive system, these medicines give only temporary relief and may prove habit forming. The safe way to relieve constipation is with Herbine, the cathartic that is made from herbs, and acts in the way nature intended. You can get Herbine at Stokes & Alexander Drug Company.

THAXTON BROS. HARDWARE
 Littlefield, Texas

Fuel system of the new Ford
 has been
 designed for reliability
 and long service

The practical value of Ford
 simplicity of design is es-
 sentially apparent in the fuel
 system.

The gasoline tank is built
 integral with the cowl and is
 usually sturdy because it
 is made of heavy sheet steel,
 and is plated to prevent rust
 corrosion. An additional
 source of strength is the fact
 that it is composed of only
 three pieces, instead of three
 or four, and is electrically
 welded—not soldered.

Because of the location of
 the tank, the entire flow of
 gasoline is an even, natural
 flow—following the natural
 force of gravity. This is the
 simplest and most direct
 method of supplying gasoline to
 the carburetor without vari-
 ous inlets in pressure. The gaso-
 line feed pipe of the new
 Ford is only 18 inches long
 and is easily accessible all
 the way.

The gasoline passes from
 the tank to the carburetor
 through a filter or sediment
 bulb mounted on the steel
 dash which separates the
 gasoline tank from the
 engine.

The carburetor is specially
 designed and has been built
 to deliver many
 thousands of miles
 of good service.

Since all adjustments are
 fixed except the needle valve
 and idler, there is practi-
 cally nothing to get out of
 order.

The choke rod on the
 dash acts as a primer and
 also as a regulator of your
 gasoline mixture. The new
 hot spot manifold insures
 complete vaporization of the
 gasoline before it enters the
 combustion chamber of the
 engine.

As a matter of fact, the
 fuel system of the new Ford
 is so simple in design and
 so carefully made that it
 requires very little service
 attention.

The filter or sediment
 bulb should be cleaned at
 regular intervals and the
 carburetor screen removed
 and washed in gasoline. Oc-
 casionally the drain plug at
 the bottom of the carburetor
 should be removed and the
 carburetor drained for a
 few seconds.

Have your Ford dealer
 look after these important
 little details for you when
 you have the car oiled and
 greased. A thorough, peri-
 odic checking-up costs little,
 but it has a great deal to do
 with long life and
 continuously good
 performance.

NEW FIRE ENGINE RECEIVED

Littlefield is in receipt of its new
 fire engine, driven in by Doc Miller,
 from Dallas, where it was received of
 the Southern Fire Apparatus Co.

The engine of this new pumper con-
 forms to requirements of the Nation-
 al Board of 500 gallons delivery per
 minute, and on actual test showed a
 capacity of 688 gallons per minute.
 It was given a thorough test by mem-
 bers of the local fire department and
 found to be acceptable.

It is understood considerable re-
 duction in fire insurance rates will
 soon be given on account of this ad-
 ditional fire-fighting apparatus.

CO-OP. MAN TO SPEAK HERE

C. O. Thomas, of Childress will be
 in Littlefield Saturday afternoon to
 speak on the subject of organizing a
 co-operative gin at this place.

All farmers interested are invited
 to attend.

PRESBYTERIAN AUXILIARY

Mrs. Touchon entertained the la-
 dies of the auxiliary in the country,
 Tuesday afternoon.

This was the annual meeting, and
 election of officers for the coming
 year was held as follows:

Mrs. Doc Miller, president; Mrs.
 N. A. Douglas, first vice president;
 Miss Lula Hubbard, third vice pres-
 ident; Mrs. Chas. Barber, second vice-
 president; Mrs. Joe Chitwood, secre-
 tary; Mrs. E. A. Bills, treasurer; Mrs.
 Ray Jones, chairman of associate
 members, Mrs. Underwood, secretary
 of literature.

Mrs. W. O. Stockton had charge
 of the devotional. The lesson was
 pertaining to missionaries and arti-
 cles were read from "Women and Mis-
 sions," by Mrs. Lee, Wynn and Stock-
 ton.

Lovely refreshments of sandwiches
 date-nut pudding and chocolate were
 served to the following members:
 Mesdames, W. O. Stockton, Bob Smith
 F. G. Sadler, J. W. Porcher, Irwin

Miller, Sid Hopping, J. S. Hilliard,
 N. A. Douglas, M. V. Cobb, Joe Chit-
 wood, E. A. Bills, Chas Barber, Trowell
 Underwood, Wiseman, Wynn, and I.
 Leach.

The ladies are to have charge of a
 program at the church Sunday night,
 the theme being being "Stewardship."
 Mrs. Jones is hostess next Tuesday,
 with Mrs. Wiseman in charge of the
 lesson.

HENLEY BABY DIES

Little Marjory Wanda, nine months
 old babe of Mr. and Mrs. T. H. Hen-
 ley, died Tuesday of pneumonia.

Funeral services were conducted
 at the Church of Christ by Prof. Jno.
 Freeman and burial made in the Lit-
 tlefield cemetery, Smith-Hammons, mor-
 ticians, being in charge of arrange-
 ments.

MARRIED HERE FRIDAY

Miss Inez Clark was married Fri-
 day to Carl Lee, by Rev. Roy Kemp,
 at the pastor's home.

They will make their home in Lit-
 tlefield.

LAMB COUNTY LEADER

Published every Thursday afternoon at Littlefield, Texas.
Subscription: \$1.50 per year; 75 cents for six months.
Advertising rates given upon application.

No. Entered as second class matter May 24, 1923, at the post office 27 at Littlefield, Texas, under the Act of March 3, 1897.

JESS MITCHELL,

Editor and Publisher

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses.

Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, if matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

A SIGN OF SPRING

We have had for the past few days a positive tip that spring is on its way. We get the tip by seeing the annual arrival of seed and nursery catalogues in the mail—and there are no better forecasters in the world than the man who sells farm, field and garden seeds and the accessories that go along with them.

To use a little modern slang, "It won't be long now." Spring may, as in the past several years, be a little shy about throwing herself into old King Winter's lap; we may get some pretty blustery days and quite a few more uncomfortable ones, but that doesn't mean that we are going to be entirely bereft of spring. The seed men know better; that's why they're sending out their catalogues now.

Garden planning time is here, and planting time is just around the corner. Any job is half finished that is planned in advance, and that holds true with gardening and spring cleaning the same as with everything else. You can make it a lot easier when you do finally get at it by sitting down beforehand and working it out in your head, and by preparing in advance for its arrival. The man who is always behind is the one who gets started late, or who waits until the last minute to get ready. Seed men all know this; that is why they send their warning of spring's approach well in advance.

It's a hint that is a always sufficient for the wise, and ought to have some effect on those who haven't yet learned the ways of seed men and the seasons.

There never was a pretty girl who would not be twice as pretty if she did not know she was pretty.

NOW, LET'S GO!

For the first time in its history, the Littlefield Chamber of Commerce has an experienced man for secretary. Heretofore, the organization has done what it could with inexperienced men, and some great achievements have been accomplished; but now that a man of experience has been employed, even greater accomplishments should accrue.

Such a man is vitally needed at this stage of progress. There are innumerable conquests to be gained. The next two or three years are going to be vital ones in the history of this little city—they should be years of big gains. Numerous business interests not now represented are capable of being attracted this way, and will mean much to the welfare and perpetuity of the municipality.

Every Littlefield citizen is a stockholder in this city's corporation. He should have a vital interest in making his home town pay dividends. He should be a member of his local Chamber of Commerce and exert his best endeavors toward the success of its activities. What helps one; helps all!

Prosperity for 1929 is practically assured. There are four months in the year which have five pay-days each.

POTATOES AND STYLES

If there is anyone around Littlefield of the opinion that styles have nothing to do with farming and gardening, he wants to get that out of his head right now.

Last year the nation's potato crop failed to move as it should; it was sluggish and there was a slackening

demand. Now experts are explaining that some one told the women that to be stylish they must be slender, and to become slender they should refrain from eating potatoes. And thus, thousands and thousands of them are said to have heeded that advice. The potato market suffered, just as hairpin manufacturers suffered when the bobbed hair fad struck this country.

But no one fears the worst. Bobbed hair is already going out of style and it won't be long before common sense will step in to prevent foolish women from starving themselves to death just to be stylish.

Don't worry—the potato has been here too long to be knocked out by a silly fad.

Dents are what trucks put in the fender of a car and what the family puts in father's pay envelope.

THAT EXTRA SESSION

Now that it has been decided there is going to be an extra session of congress, there is a dispute about it—about what is to be done in it.

Speaker Longworth wants to limit its activities to two things, farm relief and the tariff. He thinks by the time those measures are finished it will be too hot to remain in Washington.

But the Speaker does not have all the party with him. Mr. Newton, of Minnesota, announces that congress in extra session must not be limited. He contends it should be able and ready to consider any subject. He is particularly interested in inland waterways development, and he believes that this subject is closely connected with the farm question.

At any rate, the argument only leaves taxpayers around Littlefield in position to wonder why it gets too hot for a congressman to stay on the job in the summertime, yet never gets too hot for those who work to provide congressional salaries.

The average cold, we are told, costs \$3.30. We suppose the 30 cents is the amusement tax.

NOT ALL GONE

There seems to be no occasion for worrying about the disappearance of our national resources where our fuel of the future is coming from, and all of that.

Uncle Sam sent out a bulletin on the subject last week, and in it we note that recent survey shows there are still thirty million acres of coal land, underneath which are two hundred billion tons of coal. In addition, there are a half million acres of phosphate land that can supply eight billion tons of fertilizer; there are 65 undeveloped oil fields that can supply 33,000,000 barrels of oil, and four million acres of shale land that can furnish sixty billion barrels more when it is necessary to resort to that method of producing it.

Think these figures over a minute and you'll not only get an idea of how vast are our undeveloped resources, but you will see that there is no occasion for worrying over where the next generation is going to get its coal or fuel for running its automobiles.

LITTLE LEADERS

Believe it or not, but an echo is the only thing that can stop some Littlefield women from having the last word.

No Littlefield father has yet been able to figure why his daughter doesn't pick the same kind of husband her mother did.

Perhaps some of the repair bills in Littlefield wouldn't be so high if mechanics didn't feel like they had to leave about 50 cents worth of grease on the steering wheel and seats.

The reason a Littlefield shoe dealer doesn't ask a lady what size she wears is because it's a lot easier to measure her foot than to argue with her.

Discretion is something that comes to every Littlefield man when he is too old to benefit by it.

There's a whale of difference between offering a Littlefield man a suggestion and telling him how to run his business.

Ever notice that when a Littlefield citizen wins in a guessing contest of some kind he goes around blowing about "what good judgement" he displayed?

Courtesy is the thing that keeps a Littlefield woman smiling when a departing guest stands at the open door and lets the room get cold.

The old-fashioned Littlefield woman who used to have prunes every morning now has a daughter who has dates every night.

We can remember distinctly way back when the buttons would stay on a garment at least six months after one bought it.

JESS' JOSH

Littlefield husband who had just purchased a new car: (make not given)—"Great heavens! This engine is overheating terribly."

Wife, (calmly) "Then, why don't you turn off the radiator?"

When a Littlefield lad was boasting the other day that he played almost entirely by ear, we couldn't help wondering if he didn't have some awful spasms of earache.

Minister—Brother—, does your daughter trust in God?
Father—"She must—judging from the company she keeps."

One of Bob McCaskill's men was doing some work at the grammar school one day last week when a small boy came along and asked what he was doing. Installing an electric switch," replied the workman. "Well, it don't worry me any," replied the lad, "my folks are moving away from here next week and I won't go to school here no more."

The woman on XIT Drive says a woman should pick her company, but that doesn't mean she should pick them to pieces.

Our idea of the meanest man in the world would be a warden who would put a tack in the electric chair.

The first of this month a young lady collector stepped up to a local citizen noted for his slow pay. Presenting him with a statement, she said, "Mr. — has hired me to collect this bill."

The cit., smiled blandly, and, as he turned away remarked: "You are to be congratulated upon having obtained a permanent position."

My Bonnie leaned over the gas tank. The height of the contents to see; She lighted a match to assist her— Oh bring back my Bonnie to me.

A negro who had been picking cotton in the Littlefield vicinity last week stepped into Earnest William's store and said he wanted to buy a new pair of shoes.

"Old ones worn out," queried Mr. Williams.

"Worn out, did you say?" replied the negro. "Why man, the bottoms of these old shoes are so thin ah can step on a dime and tell whether it's heads or tails."

DOCTOR FRANK CRANE SAYS

THEORY PAYS

A very common notion is that theory has not much to do with practice.

We dismiss a proposition with a wave of the hand when we characterize it as nothing but theory, or as impractical idealism.

We praise the inventor who devises some useful application of knowledge but have a tendency to overlook the discoverer who finds out the knowledge that the inventor applied.

As a matter of fact, all our great inventions rest upon great discoveries made by painstaking theorists, who love knowledge for itself alone.

Wireless telegraphy, the telephone, aeroplanes, radium, antiseptics, anti-toxins, spectrum analysis and X-rays were all discovered in the course of purely scientific and theoretical investigation.

Lord Kelvin said that no great law in natural philosophy had ever been discovered as a result of practical experiment, and that "the instances are innumerable of investigations apparently quite useless which led to the most valuable results."

For eighteen centuries many great minds gave their lives to studying conic sections. This work was far from useless, for the laws of projectiles, the building of great bridges the curves of ships and the rules of navigation depend upon conic sections.

Wireless telegraphy goes back to the studies of Lagrange in purely abstract mathematics, and to Professor William Thomson, who laid the foundation of electric oscillations.

The man of deeds, the practical man would be saved many a foolish experiment and would be kept back from many a useless trial if he knew the background of thought that should underlie his actions.

AUTOMATIC HEATING SAFER

It is estimated that today more than 600,000 American homes are heated by oil. Though a comparatively recent innovation, domestic oil heating units have won, through their unrivaled simplicity, cheapness, cleanliness and efficiency of operation, and important place in the modern home.

John Gambler, State Fire Marshal of Illinois, in comparing the several types of furnaces in regard to fire risk, has said that "fully automatic burners actually reduce the fire hazard when compared with coal. No soot or sparks are formed. This eliminates all roof and chimney fires which alone are responsible for more than 75 per cent of the dwelling fires. With more widespread use, they are rapidly becoming an important protection that is certain to reduce fire losses throughout the country."

It is often said that a good grooming of the horse is as valuable as a feed. Grooming removes the internal waste that comes through the pores of the body and thereby aids digestion and utilization of feed.

The ordinary toad is extraordinary in the use it makes of its hind feet. It reverses the usual order of things in making its burrow by digging with them and going in backwards. Each hind foot is equipped with a spur.

If grain feeds for dairy cattle are mixed on the farm, they should be ground only as they are mixed, and to insure freshness too much should not be mixed at one time. It is a good idea to add one pound of salt to the mixture for each 100 pounds of feed, says the U. S. Department of Agriculture.

Over a Billion Deadly Germs in a Single Drop of Water
Germs are so small that there may be as many as one billion, seven hundred million of them in a drop of water. And just a few of these tiny germs, if they get into your blood through a cut in your skin, may make you so sick you will be in bed for weeks—may cause the loss of a limb through blood poisoning—may even infect you with that most dreadful and fatal of diseases, lockjaw.
Just because you can see no dirt in a cut does not mean that it is clean. You cannot see germs. The only safe and sane thing to do, is to thoroughly wash every cut, no matter how small, with Liquid Borozone, to kill the germs, and then dust it with Borozone Powder, to hasten the healing. Liquid Borozone costs 30 cents, 60 cents, \$1.20 and \$1.50; Borozone Powder, 30 cents and 60 cents, and can be had at Stokes & Alexander Drug Company.

DISTRICT COURT IS CALLED WITH BIG DOCKET ON LIST

Lamb County District court, Judge Charles Clements presiding, was called, under the recently passed law, at Olton last Monday morning.
One of the first cases under the new regime will probably be that of Estel Pugh, charged with assault and intent to kill Charley McDuff the charge growing out of an altercation at a dance last week held at the home of J. O. Sweet, about five miles north-east of Sudan. Following the difficulty, Pugh was held under bond for appearance before the grand jury which met last Monday. According to Pugh's attorney, the young man is 17 years of age, and there is some doubt as to the grand jury returning an indictment on the present charge.
The docket presented to Judge Clements this week by District Clerk A. H. McGavock is said to be a heavy one; but it is thought by attorneys that not many of the civil cases will be heard this term, tho it is hoped by Judge Clements to be able to clear the records of all new and pending criminal suits.

COLD WEATHER MAY CUT NUMBER SPRING FRYERS
That there will likely be a shortage of early spring fryers, with an attending high market price for those that are sold, is the statement this week of W. T. Jones, local producer-dealer.
The statement is based on the fact of considerable cold weather experienced in this section during the past

month. Many chicken raisers not anticipating such approaching Arctic conditions failed to properly protect their hatching eggs, resulting in many of them chilling to the point where they will not hatch. Some incubators, it is reported, where automatic heat regulators were not working properly, have lost practically all of their settings during this period.
Hatcheries in this section are said to be running below capacity, with desirable eggs difficult to obtain.

PRESIDENT HILLIARD URGES C. OF C. CO-OPERATIVE WORK

President Hilliard, of the Littlefield Chamber of Commerce, feels that the time is at hand when this community should realize on the many advantages nature has so lavishly bestowed upon its people. "We have one of the finest agricultural sections in the world; transportation facilities most excellent, complete and modern; climate conditions unsurpassed; and last but not least, a citizenry equal to any," he said.
"We want to augment the cumulative work of our able predecessors and so order our affairs that desirable people from all parts of the United States will join us in building up our city and community in keeping with our wonderful resources," he said.
"Give our public officials every encouragement in providing abundant school privileges, parks, paved streets, water and sewerage, and cheerfully help them meet the many problems usual to building a worth while community. A progressive future can only be assured by our citizens working together, and the Chamber of Commerce stands dedicated as the instru-

ment in which everybody can do his full part.

President Hilliard said: "I have always been proud of this community, its people, its institutions, and its opportunities; but never so optimistic as I am today. I urge every citizen to join the Chamber of Commerce, if not already a member, and to fully co-operate and aid in the development of the great opportunities before us, with their thought, their time and their money."

GREW TWO FINE CROPS OF POTATOES LAST YEAR

A. H. Gadberry, who resides a few miles south of town, last year grew two fine crops of Irish potatoes from the same plot of ground. In the early spring he planted about one-fourth acre in potatoes and aside from what the family used for a few weeks, he harvested 38 bushels of potatoes, or an average of 162 bushels per acre.
On July 18th he again planted part of this land in potatoes and in the fall harvested a still larger yield. The fall grown potatoes were larger and finer in every way than those grown earlier in the year, and Mr. Gadberry is convinced that potatoes would prove a highly profitable commercial crop for this section where expert attention is given them.
Others who have grown fall potatoes here are of the same opinion, and it is likely that it will be tried on

a marketable scale in the near future.—Hockley County Herald.

GROW BABY PASSES AWAY

Cleo Ann Grow, age two years, three months and eight days, daughter of Mr. and Mrs. C. H. Grow, died Saturday, February 23rd at 10.15 a. m., from cancer of the stomach.
Funeral services for the little one were held Sunday afternoon by Rev. George Turrentine, pastor, at the Methodist church, Smith-Hammous being in charge of the arrangements.

The average number of conversations a day per telephone in Texas is about five. There are approximately 635,000 telephones in the state.

COLLEGE NEWS

On account of a number of the teachers, students and patrons desiring to attend the school meeting at Floydada, we did not have school last Wednesday. Weather conditions proved to be very unfavorable for the meeting, and as a result the meeting was not well attended, but it is that a number of things were accomplished.

Mr. and Mrs. R. O. Conner and daughter, Miss Juanita, were here last week, also, R. F. Duckworth.

L. W. Hayhurst and Alva Johnson were here on business Thursday afternoon.

Misses Elva Mae and Sara Edith Dickson, and their niece, Miss Alma Dick, who have been away for several days on account of illness and death of the Misses Dickson's sister, returned Monday evening.

John R. Freeman returned Monday from a business trip to Eldorado, Texas.

Mr. and Mrs. Otis Morton visited

Mrs. Morton's sisters here last weekend. Two of Mrs. Morton's sisters, Mrs. Dotson J. Lewis, and son, and Mrs. J. D. Latham, accompanied her to her home near Ralls, where they expect to spend a week visiting.

Mrs. W. H. Boyle and her granddaughter, Miss Ruth Botts, visited relatives near Hereford last weekend.

Dotson G. Lewis went to Leveland and preached there Sunday.

Roy E. Hazelton, accompanied by M. L. Garrett and family, and J. H. Tolar and family, went to Progress, northwest of Muleshoe, Sunday Mr. Hazelton preaching there.

Virgil Jackson and Clayton Seymour made a business trip to Andrews last weekend.

A new Frigidaire was installed in the cafeteria refrigerator last week.

BARNES CHILD DIES

Clyde Barnes, little son of Mr. and Mrs. W. C. Barnes, died February 23rd of pneumonia.

Rev. Roy Kemp, of the Baptist church, had charge of the funeral.

services. Smith-Hammons Undertaking company conducted the funeral.

MRS. KEY ENTERTAINS

Mrs. Otha Key was a gracious hostess to the members of her club with a bridge luncheon Thursday of last week.

The menu consisted of fruit cocktail, veal loaf with tomato sauce, baked stuffed potatoes, creamed asparagus, mushrooms on toast, hot biscuits, peach salad and snow pudding.

Mrs. Wm. J. Harris won high score and was presented with a beautiful vase.

Second high score was won by Mrs. Everett Whicker, who was given a box of lavender soap.

Mrs. Robert Steen, of Lubbock, was the guest of Mrs. Key and was given a pretty box of handkerchiefs.

Those attending were: Mesdames A. C. Chesser, John H. Arnett, Wm. J. Harris, Dick Johnson, Everett Whicker, T. Wade Potter and Mrs. Robert Steen, of Lubbock.

The Leader for printing.

Two Girls Live on Hot Water and Rice

Due to stomach trouble, Miss A. H. and sister lived on hot water and rice. Now they eat anything and feel fine, they say, since taking Adlerika.

Even the FIRST spoonful of Adlerika relieves gas on the stomach and removes astonishing amounts of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you.

Stokes & Alexander Drug Co.

AGRICULTURAL GRADING

Standardization of agricultural products, a development of very recent years, is doing much to aid in the profitable marketing of the farmer's goods.

The Department of Agriculture has established a comprehensive set of standards and grades which cover almost every farm product. Not only is this practical in local and national trade, but in international commerce as well.

The farmer, as a result, is benefited by an increased demand for graded products, and by the fact that grading determines which goods are to be stored for future sale and which immediately marketed.

Henry Rawson of Chicago, testified that his breaking a chair over his wife's head was an accident.

VALUE OF A CHAMBER OF COMMERCE TO A COMMUNITY

Chambers of commerce all over the country have been bringing the business man into the picture, making him see and sense his community and national responsibility and function on community and national interests.

As a result of that, what do we see chamber activities growing into—following education in our community, following sanitation, the expenditure of funds, the raising of money for all sorts of progress, perfection of city governments and on down through the varied list of activities which make for betterment in community life.

These are becoming the major problems which we are gradually getting our business men to see and problems that underlie really the whole spirit of their lives. That is the work being done in chambers of commerce today.

NOTICE TO THE PUBLIC

In the interest of better business, notice is hereby given that on and after March 1, our business will be on a cash basis, thus enabling us to sell high quality goods at lower prices. Itc —Littlefield Coal & Grain Co.

ESSEX

THE CHALLENGER

Twice now... in 30 days... production has had to be increased

Essex the Challenger sweeps aside the barriers of price class. It challenges the performance, the style, the luxurious roomy comfort of any car at any price, on the basis that no other car gives you back so much for every dollar you put in.

A glance at its 76 advanced features reveals at once why Essex exceeds no car in its challenge. For point after point in fine car construction, performance and detail, brings you directly to costliest cars to find comparison.

With above 70 miles an hour top speed, Essex the Challenger, in thousands of demonstrations, is proving the endurance and ability to do 60 miles an hour all day long.

It is the finest, largest, roomiest, most brilliantly performing Essex ever built, and the price the lowest for which Essex ever sold—but little above the lowest priced car on the market.

That is why the acceptance of Essex the Challenger is the talk of motordom. Join the van of 1,000,000 Super-Six owners who are demonstrating its right and ability to challenge the best that motordom offers.

Hear the radio program of the "Hudson-Essex Challengers" every Friday evening

76 ADVANCED FEATURES

INCLUDE:
Power increased 24%—Above 70 miles an hour—Four hydraulic shock absorbers—New type double action four-wheel brakes—Large, fine bodies—Easier steering—Greater economy.

Elliot, of Wellington, this state. He will shortly leave for Winnipeg, Canada, going later to Alberta province, where he will spend the summer, returning here again in the fall.

Harry C. Lucas, Popular Littlefield School Boy Is Buried Here on Tuesday

Harry Lucas, popular Littlefield boy among his schoolmates, and elder son of Mr. and Mrs. J. H. Lucas, was buried Tuesday afternoon in the Littlefield cemetery.

Harry was 18 years of age, just turning into manhood, when life was cut short. He was born April 25th, 1911; died February 25th, after a lingering and painful illness of 30 days duration. An internal injury is supposed to have been the incipient cause, followed by rheumatic fever. He had lived here with his parents during the past four years.

The funeral services were held from the Baptist church, Rev. Roy Kemp, pastor, officiating, Smith-Hammans Undertaking company having charge of the arrangements. An exceptionally large concourse of friends and neighbors attended the body to its last resting place, and, school having been dismissed, many of his young friends were present to pay their last tribute of respect to a fallen classmate.

Prof. F. O. Boles, Coach Jno. R.

Tucker, Bill Arnn, Curtis Heard, Harry White, Lawrence Thornton, all teachers and school friends of Harry, were active pall bearers, while the lads of the athletic squad, of which he was also a member, formed the honorary pall bearers.

Harry had been a member of the Baptist church for nearly two years. Aside from his many friends, the deceased is survived by his father and

step-mother, Mr. and Mrs. J. H. Lucas; sister, Miss Lucile; younger brother, Sidney; three uncles and their families, of whom were present at the funeral the following: E. E. Lucas, Marshall; L. C. Lucas and son, James, Big Springs; J. E. Lucas, wife and son, Lloyd, Olden.

EVERY FARM IMPLEMENTS

The symbol of better farm implements

The Avery trade-mark is universally recognized as the symbol of America's finest implements.

Over 100 years have passed since Benjamin Franklin Avery hammered out his first plow and in this past century his motto, "To build well—to deal square" has been the watchword of all who have succeeded him.

When you see the Avery trade-mark on a farm implement you are assured of more than its genuineness—you are given positive promise of unfailing service and lasting satisfaction.

South Plains country. "Never felt the cold so greatly in my life," he said. "My! but it's great to get back to this delightful climate." He expects to bring Mrs. Badger and her mother here during the summer months to enjoy the delightful zephyrs rippling across these broad prairies.

The ladies of the Methodist church were hostesses at a silver tea Thursday afternoon of last week at the home of Mrs. Earnest Williams.

The red, white and blue color scheme of George Washington was carried out, a small spinning wheel was used as center decoration for the table, which suggested the colonial period. The hostesses were dressed in colonial costumes.

A very interesting and attractive program was given. Mrs. T. Wade Potter sang "Believe Me With All those Endearing Young Charms" and "Annie Laurie." Betty Alice Thaxton gave a reading, "Little Brown Baby." Music was furnished by Miss Lois Farquhar.

Those in the receiving line were Mesdames. Earnest Williams, H. B. Teal and J. C. Houk.

The guests were met at the door by Alice Betty Thaxton and Wayne Arnold dressed as Martha and Geo. Washington. Mesdames Carl Arnold W. C. Thaxton and Van Clark poured the tea.

The missionary society of the Methodist church met Monday afternoon at the home of Mrs. Van Clark with Mrs. G. S. Glenn and Van Clark as hostesses, and Mrs. Laky, leader.

Four new members were added to the society: Mesdames R. E. Riley, J. J. Yates, C. M. Traylor and G. D. Hobbs.

The "Voice" lesson was studied, and it was social day for the society. Delightful refreshments were served to the following: Mesdames B. L. Cogdill, J. W. Keithley, M. D. Thaxton, Geo. Turrentine, Jones, Carl Arnold, G. S. Glenn, Van Clark, Cane, A. G. Hemphill, Luther Kirk and Geo. Kirk.

The society will meet with Mrs. Luther Kirk next Monday afternoon.

B. Y. P. U., PROGRAM

The senior B. Y. P. U., of the Baptist church met Sunday evening with Doyle Berryman as leader. Fifteen members and seven visitors were present. Mrs. Alvan Harbin will be leader next Sunday and the program will be as follows:
Introduction, Avon Harbin.
Power to Pull the Hill, Oliver Eubanks.

Watch Your Power Supply, Dunagin.
The First Infalling, Otis Smith.
Prayer, The Preparation, Power, Lillian Pato.
Sources of Power, Esta Coe.

Mrs. Gretchen Vordien of neaburg, who slept 18 years in aleptic trance, is learning to again.

Mrs. Robert Bell, of Glasgow, a party for her dog Billie on her birthday.

Mrs. Elsie Graham of Chicago granted a divorce on offering evidence a letter from her husband in that "one wife means no more."

GIVE A SILVER TEA PARTY

The ladies of the Methodist church were hostesses at a silver tea Thursday afternoon of last week at the home of Mrs. Earnest Williams.

The red, white and blue color scheme of George Washington was carried out, a small spinning wheel was used as center decoration for the table, which suggested the colonial period. The hostesses were dressed in colonial costumes.

A very interesting and attractive program was given. Mrs. T. Wade Potter sang "Believe Me With All those Endearing Young Charms" and "Annie Laurie." Betty Alice Thaxton gave a reading, "Little Brown Baby." Music was furnished by Miss Lois Farquhar.

Those in the receiving line were Mesdames. Earnest Williams, H. B. Teal and J. C. Houk.

The guests were met at the door by Alice Betty Thaxton and Wayne Arnold dressed as Martha and Geo. Washington. Mesdames Carl Arnold W. C. Thaxton and Van Clark poured the tea.

MISSIONARY MEETING

The missionary society of the Methodist church met Monday afternoon at the home of Mrs. Van Clark with Mrs. G. S. Glenn and Van Clark as hostesses, and Mrs. Laky, leader.

Four new members were added to the society: Mesdames R. E. Riley, J. J. Yates, C. M. Traylor and G. D. Hobbs.

LADIES—YOUR ATTENTION!

We want you to know that the homes we sell are planned to lighten the work.

Women are the home makers. Naturally they look for features that make a home convenient, livable, and that lighten housework.

They want airy, dainty bed rooms, lots of closet space, many windows and a modern kitchen.

All these things can be had in a home of very moderate cost, when the plans are made by an expert. Come in and examine the many plans we have to show you of homes of small cost—convenient homes in which the housekeeping is a joy.

OR A NECKTIE

AN OPPORTUNITY!

...FOR STOCKMEN...

WHY NOT OWN A RANCH WHERE YOU CAN FINISH FOR MARKETS AND ADD TO YOUR PROFITS EACH YEAR.

Several real buys in small ranches out of the famous Yellow House Ranch on the South Plains of Texas, in Lamb and Hockley Counties, as listed below. All these tracts are located convenient to railroad, splendid schools, good towns, and surrounded by the greatest agricultural development in Texas where feed is plentiful.

This section is destined to be one of the best finishing grounds in the South, and the small rancher here will have an advantage worth-while.

14,000 acres, including Yellow House Ranch headquarters improvements. No better cattle or sheep range, with plenty of good agricultural land that will increase in value. Fenced and cross-fenced. It will pay you to investigate this promptly.
Price \$15.00 per acre. Liberal terms, 6% interest on deferred payments.

2500 acres. One of the best little combination propositions, in this section, splendid location.
Price \$15.00 per acre. Reasonable cash payment, liberal terms on balance, 6% interest.

4500 acres. Two miles from \$30,000.00 brick school building, store and gin. Fine location and splendid little ranch, with plenty of good agricultural land.
Price \$16.00 per acre. Liberal terms, 6% interest.

3500 acres. Mostly enclosed with sheep proof fence. Splendid location and includes some good agricultural land.
Price \$16.50 per acre. Liberal terms, 6% interest.

3000 acres. A splendid little ranch and all the good farm land needed.
Price \$16.00 per acre. Liberal terms, 6% interest.

Also, smaller combination farm and ranch tracts, if desired, at attractive prices.

In addition to these combination tracts, we have some fifty thousand acres of 100% agricultural land surrounded by development in tracts of 177.1 acres each at \$30.00 and \$35.00 per acre. One-fifth cash, balance liberal terms, 6% interest.

It will pay you to investigate these propositions at your earliest convenience, as these lands are selling and the country developing rapidly.

Now 'Is The Time to Buy!
