City To Be Divided Into East And West Sections

Lions In Charge Of East; Rotarians Of West Section

Many towns and cities of West Texas will have specially designated clean-up days or weeks this spring—some have already had them—but Littlefield is going them all one better in this year of 1949. Littlefield is having a double-barreled clean-up—doubled barreled in at least two ways.

First, it will last for two weeks instead of one, May 23 to June 6 (started last Monday).

Feed Loans Are Slightly Lower

Lamb County farmers will be able to protect certain 1949 feed grain crops through loans and purchase agreements at rates slightly lower than in 1948, according to John W. McQueen, Administrative Officer of the Lamb County A. A. Support prices will average \$2.03 per hundred pounds for farm stored grain sorghums. And there is an interim wheat loan rate of \$1.57 per bushel for Lamb County. The interim wheat loan rate will be in effect only until the final wheat loan rate is set in July. The final wheat loan rate, when set in July, will reflect 90 percent of parity.

The lower rates this year are a result of lower parity prices and a reduction in the percentage-of-parity rate for grain sorghum. The percentage rates are: 70 percent of parity for grain sorghums and 90 percent of parity for wheat.

Loans will be available through the County A. A. Office.

Loses Life In Drowning Mishap

Bill Knight, aged 21, lost his life from drowning at Buffalo Lake, government owned and built recreation center near Umberger last Monday afternoon about 1:00 p. m.

The young man's body was removed only a few feet from the shore. He had been fishing from the bank of the lake, and suddenly decided to swim out to a raft anchored about 100 yards out, and try fishing from the raft. With fishing pole in hand, he started to swim, but suddenly disappeared only a short distance from shore.

Recently Returned From Germany He only last month returned from Germany where he has been with the occupation army, and his wife and infant baby are still in the latter country. He had been in the armed forces three years, and was home on furlough. He expected to be discharged (Continued On Back Page)

Bruce Melton Is Electrocutted

Bruce Melton, 32, employee of the Southwestern Public Service Company, was electrocuted about 2:45 P. M. Monday when he came in contact with a live wire while working atop a power pole on the outskirts of the city.

(Melton's death was the second violent accident to claim a Littlefield man Monday, Billy Knight, 21, son of Mr. and Mrs. J. E. Knight, drowning during a fishing trip to Buffalo Lake near Umberger in the Panhandle.)

In Contact With Live Wire Bob Barnett, a fellow employe who was working with Melton on the pole, said that apparently Melton's arm came in contact with a "hot wire" carrying 4,160 volts of electricity (Continued On Back Page)

Provides That Moisture Belongs To Owner Of Land

Also Makes Possible Creation Of Districts

Underground Water Bill 162, which was introduced in the House by Representative I. B. Holt, was passed Thursday by the Senate, the members voting 27 to 1 in favor of the legislation.

According to Arthur P. Duggan, local attorney, who has also been working hard towards the preparation and passage of this bill, and made several trips to Austin in connection with same, there were four amendments added to the bill in the Senate, none of them adversely affecting the bill, which was presented to the House for concurrence.

The House concurred in the Senate Amendments, which means that the Legislature has approved the bill. It now goes to the Governor for signature.

Belongs to Land Owner The Bill provides that the underground water belongs to the owner of the land; and that should there be any regulation, it will be on a local option basis, making possible the creation of districts for conservation of underground water by vote of the resident tax paying voters in a district. The district could have authority to put more water underground, by recharging underground strata.

By way of explanation, Mr. Duggan stated that "when the Bill is passed and signed by the Governor, that does not mean there will necessarily be any regulation, as there cannot be any regulation until a district has been formed by voters in the district. All a district can do, when once formed for regulation", said Mr. Duggan, "would be to require new wells to be properly spaced and properly constructed, and prevent the waste of water. Rodeo Programs Are Being Prepared

Skipper Smith, Jaycee president-elect, announced Wednesday that the annual rodeo sponsored by the Jaycees promises to be one of the best ever staged in Littlefield. Everyone is cooperating to make it bigger and better than ever.

The Jaycees are working in conjunction with the Jaycees. This week they will call on each business house in Littlefield to secure advertising on programs that will go to help defray expenses. All profit made from the rodeo is in turn used for the betterment of the community, and also used in completing projects.

Dates set for the rodeo are June 16, 17 and 18. All residents of Littlefield are asked to wear western attire from now until after the rodeo to help advertise the show. Fines will be assessed those who do not abide by this requirement, declares Skipper Smith.

DON'T DEPEND ON LUCK In the summertime, most outings are planned with "angling" in mind. One out of four Americans are fishermen of some sort. For a pleasant trip and favorable weather, don't depend on luck. The various almanacs give fairly accurate forecasts and weather charts are remarkably accurate. Extended dry spells with low water and protracted wet spells with high water are bad for fishing. The effect upon fishing of fluctuations in atmospheric pressure is now a scientifically established fact. Usually a "high glass" brings good fishing while a "low glass" means poor fishing. Dew and fog are used, by many, as "signs" . . . a heavy dew in the evening means "clear tomorrow" while, by many, a foggy evening is regarded a good sign for the following day. Other elements enter into the elimination of "fisherman's luck" so it is well to learn what fish are apt to be doing, where they'll be and on what they'll be feeding. Follow rules and plan your fishing trips for the best sport offered for the season.

Letter To Patrons Outlines City's Need Of Better School Facilities

An open letter has been addressed to taxpayers and patrons of Littlefield Independent School District this week, over the signature of Mancil Hall, as president, and other members of the school board, calling attention to the fact that the much publicized Gilmer-Aiken school bill, has now been passed by the legislature, and in a broad way calling attention to the fact although broad provision is made for a widening of education in all Texas schools, the matter of physical equipment, such as adequate buildings, etc., is not in the bill, financially provided for, and this now becomes a pressing need in our own school system, and must be provided by the taxpayers of the districts.

The letter stresses the need for badly needed facilities, buildings, etc. by the simple procedure of enumerating the facilities which the schools now possess, and then listing what is actually needed, permitting the taxpayers to form for himself a true picture of the need for new facilities.

In a general way, here is what is listed as present facilities: Primary—20 class rooms, well equipped, adequate to care for present 693 enrollment. Elementary—12 classrooms adequate to care for grades 4, 5, and 6. (7th and 8th grades are now using this building, making it vastly overcrowded) High School—12 classrooms, poorly equipped, built for 200 students, now caring for 375, which is below normal (normal is listed at 450). Other things listed are inadequate auditorium, cafeteria, band hall, vocational Ag. building, Home Ec. section, and gymnasium.

A second page of the letter is devoted to a listing of needs to bring the facilities in line with the growth of the community for the past several years, and to care for modernization, neglected since the war years. These include: New High School building big enough to care for 500 students with cafeteria. Rooms and equipment to care for Vocational Ag., Home Ec., Manual Training, Auto and Tractor Mechanics, etc. A new gymnasium, with 60x90 playing space, and spectator accommodations for 800. New Auditorium with balcony, seating 1200. Listed as a school and community need.

The Board in the closing paragraph of the letter, requests that the matter be given careful study, that you may be able to give your opinions "when the time for action comes".

Without saying so, the letter implies that a second letter will probably follow, with some plan to alleviate the situation.

For some time past there has been much agitation for enlarging and bringing our school system up-to-date. Passage of the Gilmer-Aiken bill seems to have brought the matter into focus, and the school board is planning to seek decisions on the matter from the taxpayers.

Indications are that voters will be asked to decide in the near future on making financial outlay for a new High School building, and bringing other inadequate facilities up to par, and up to date.

Hodge, Whitharral School Districts To Hold Election

There will be an election held at the Whitharral High School, Wednesday, June 1, 1949, for the purpose of spreading the indebtedness of the Hodge School District and the indebtedness of the Whitharral School District uniformly over both districts.

In the consolidating of these two districts these debts were assumed and regular payments have been made. In the new building program that is being planned, however, it is necessary that election be called for this purpose and that the legal voters of the two school districts pass favorably upon this motion before the making out of the new bonds can be made.

Voters may cast their votes June 1, at the Whitharral High School between eight o'clock a.m. and seven o'clock p.m.

Water Bill

(Continued On Back Page)

Law, by its terms doesn't apply to any well that cannot produce more than 100,000 gallons of water a day. Passes House 114 to 11. The above bill passed in the House 114 to 11. Among those to whom great credit is due for their assistance in getting the Underground Water Bill passed, are: Representative I. B. Holt, Arthur Duggan, F. O. Fortenberry, President of the High Plains Water Conservation Ass'n., and former Pop ginner, Hubert Mow of Monroe, Texas; Mayor A. Chisholm, Littlefield, and Posey Cunningham of north of Earth, both members of the Executive Committee of the High Plains Ass'n., Gus Parish, President, and Les Watson, Secretary of the Lamb County Water Conservation Ass'n., A. B. Brown of Spade, Har- way Lee, Littlefield, and Senator Kil- mer Corbin.

Cleanup Campaign

(Continued From Page 1)

The clean-up of the eastern section of the city—the Rotary Club for the western half, and Phelps Avenue is the dividing line.

To Give Winning Club Barbecue. Both clubs realize that they have taken on a real job, yet one that is badly needed, and one urgently recommended by State Health Board, in view of the prevalence of polio in the state, but they've accepted that phase of it, and decided to have a bit of fun on the side by making of it also, a sporting proposition. They've wagered a barbecue to be given by losing club to winner, with the decision as to which side of town is cleanest at the end of the drive, placed in the hands of the Garden Club committee of the Woman's Club.

But every resident, every property holder, every boy, girl, woman or man, are going to be the real winner in the clean-up because it means a cleaner, healthier city; we hope the cleanest town in all West Texas.

And each of our citizens has a part and a big part to play in the clean-up. They should and must co-operate to the extent of cleaning up their own premises, but even in this, the drive will furnish every aid and assistance. Free pick-up and disposal of all trash and rubbish will be available during the drive, the property holder only being asked to rather the rubbish and place it where it can be picked up conveniently, to be hauled away.

Urged to Clean Up Lots. But vacant lots are not to be overlooked either. The recent extremely wet weather has added to, and not lessened a menace we have had with us, year after year—the prolific growth of weeds on vacant lots. Owners of vacant property are asked to clear those lots of rubbish, cans, tree limbs, etc., of anything that would interfere with the operation of a power mowing machine, and the Clean-Up committees will then provide mowing machines, manned with operators to cut those weeds.

Not only will it serve to improve appearances of those properties, but it will do much to keep down the number of mosquitoes and bugs that are now on the hatching stage in those weed infested plots.

The Rotary Club committee appointed to work on the drive is composed of Ray Hulse, I. D. Onstead, Jack Christian, Charles Duvall.

Lions Club committee is composed of Laurence Nichols, Ralph Douglas, Edwin Matthews, Alex Alexander and J. D. Smith.

ed from service at Camp Hood next month.

On Fishing Trip. He was one of a party of five composed of himself, his father, J. E. Knight, a carpenter, his brother Kenneth, 17, and two friends, Leon Durham and Ellis Tittle, which went to the lake for a day's outing. The family have been resident here for a number of years.

Hammons Funeral Home took charge of the remains, which were recovered from the lake only a few moments after the tragic accident.

Funeral services have not been completed, pending efforts to contact his wife in Germany, by cable, and will be deferred until word is received from her.

Funeral services will be conducted this afternoon, Thursday, at 3 o'clock, at the Littlefield Missionary Baptist Church, with the pastor, Rev. Weldon B. Meers, officiating.

Interment, in charge of Hammons Funeral Home, will take place in the Littlefield cemetery.

city. Administer First Aid. Robert Owen, also an employe of the utility company, was working at the base of the pole at the time of the accident and helped Barnett lower Melton to the ground, where Barnett and Freddy Friday, utility company worker, administered first aid and gave artificial respiration until a respirator could be rushed to the aid of the injured man.

Melton, however, was pronounced dead about an hour and a half after the mishap. The examining physician said that the worker suffered severe burns on one arm and a leg.

Services Wednesday. Funeral services were conducted at 10 A. M. Wednesday at the First Baptist Church, Littlefield, with Rev. Lee Hemphill, Pastor, officiating.

Burial, in charge of Hammons Funeral Home, took place in the Littlefield Cemetery.

Survivors include his wife and three children, Faye, aged 8 years, Robert Vernon 6, and Bruce Wayne aged 4 years; his parents, Mr. and Mrs. J. R. Melton of Brownwood, formerly of Littlefield; two brothers, Raymond and Haynes Melton, both of Littlefield, and a sister, Mrs. W. A. Nipper of Idalou.

tious delays, but with the exception of the golf course and some landscaping, and lesser minor details everything is in readiness for the opening.

Barbecue 7:30 P. M. A barbecue at 7:30 in the evening will open the evening's festivities, with arrangements in charge of P. W. Walker, Alvin Bagwell and J. D. Smith.

Dance To Be Held. Following the barbecue, and with Arthur P. Duggan acting as master of ceremonies, the dedicatory program will be held. Informality will be emphasized in this opening program, and in the dance which will follow in the ball room. An out-of-town orchestra has been engaged for the evening and for the dance.

Another feature of the opening will be a floor show, which portion of the program is in charge of W. J. Chesher.

The completion of the Country Club which represents an investment approximating six figures, marks a milestone in Littlefield. For years, many have hoped and dreamed and planned for the project, now a reality.

The membership rolls are remaining open, and a sharp increase in that membership, is almost certain to follow the opening next Monday.

Memberships have been offered at \$500 each, and organizers and committees have been active in this phase of the promotion of the new club since last summer, when the project was launched.

The club building, surrounded by a spacious lawn, and overlooking the golf course, which is already greened, is of gray-brown cut stone, is of modernistic design, and has a total floor space of 10,000 square feet.

Nine separate rooms have been provided, which include: reception room, dining room, kitchen, powder rooms, play rooms, dressing rooms, with the dance floor utilizing the reception room, of a floor size of 37x51 feet. Accordion doors open from the reception room into the dining room, which provides an additional space of about 750 square feet for the reception room. A multi-color scheme has been employed, each room utilizing a different pastel shade, yet all are in a beautiful harmony.

Furniture throughout the club is of semi-ranch style, and beautifully blended draperies add to the beauty and attractiveness.

Nine Hole Golf Course. The golf course is a nine hole course, and lies prettily and as the club installed its own deep water irrigation plant, has greened rapidly, and is expected to be ready for play in the next few immediate weeks.

J. H. Lee is association president. Other officers are Allen Hodges, secretary-treasurer, and A. C. Chesher, A. P. Duggan, C. O. Griffin, W. C. Cannon, H. R. Shelby, and Mrs. C. E. Cooper.

plene enthusiasts will be held June 19.

Some discussion was heard on plans for the Farm Dinner, to be held at Spade, Friday of this week.

The meeting discussed the possibility of making a contribution to Texas Good Roads association, but decided that the budget did not permit such a contribution at this time. Mancel Hall and Wolfe Shaw were named to talk with the Mayor and County Judge, to see if individual contributions would be satisfactory.

Ballots are in the hands of the membership containing the names of eleven nominees for directors, with four to be elected. The Secretary stressed that all ballots must be returned to the Chamber of Commerce office not later than June 6.

Youth Program Starts Monday

The annual Youth Recreation program will begin next Monday, May 30. All boys and girls of school age, who are interested in the program are asked to come to the High school building at 8:30 o'clock Monday.

J. S. Fikes and Joe Hutchinson will direct the program, which is being financed by the Community Chest. Assisting with the program are Mrs. Roy Allen Hutson, Jr., and Jo Ann Wallace and George Kirk, Gene McCanliss and Jackie Shelby.

Anthony Opening Is Great Success

The formal opening of the new C. R. Anthony Store in Littlefield, last Friday, and Saturday, as advertised in a two-page advertisement in last week's Leader, was one of the most successful in the history of the store, according to resident Manager Roy Holt.

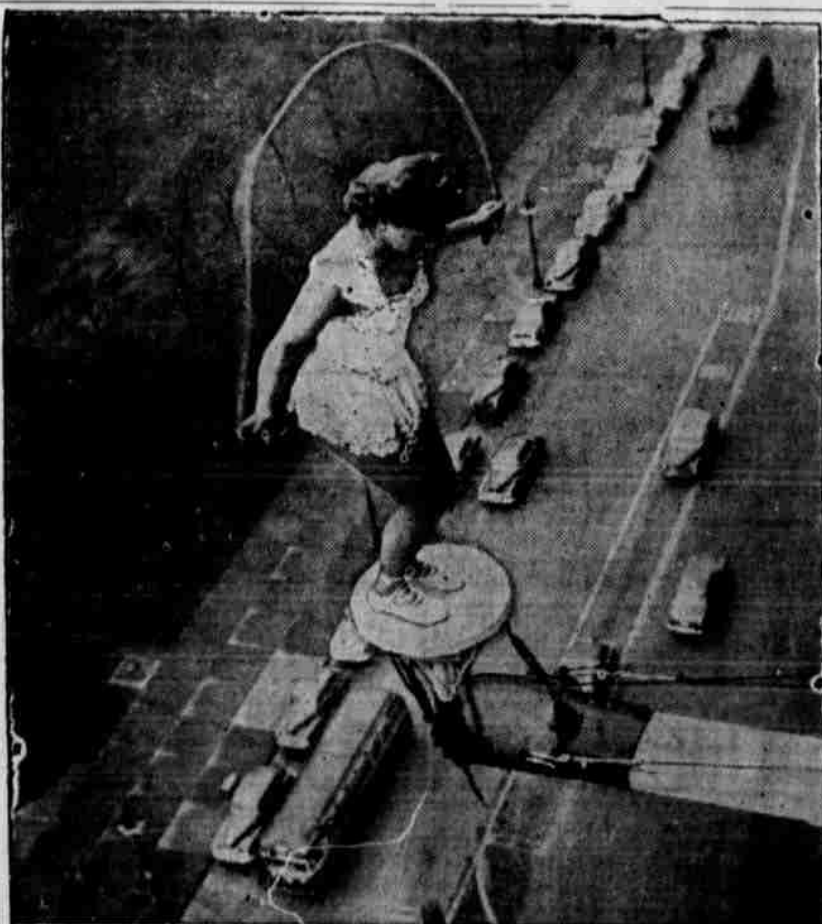

Not only the store manager, but Mr. Anthony, himself who was here for the opening, accompanied by half a dozen or more other officials of the 89 store chain, with headquarters in Oklahoma City, were not only pleased but amazed at the huge crowd that officially welcomed Anthony's to Littlefield.

The store is located in the building recently vacated by the Piggly Wiggly Store, and presented a highly attractive appearance for the opening.

The store is well stocked, and company officials openly stated that they were amazed, at the volume of sales during the two-day opening.

Last Rites For Lamb Co. Pioneer

Funeral services for Frederick Kraushaar, 76, a farmer of four miles south-west of Littlefield, were conducted at 10 A. M. Monday, at the Emmanuel Lutheran Church, with Rev. H. A. Heckman, pastor, in charge.

Interment, in charge of Hammons Funeral Home, took place in the Littlefield Cemetery.

Mr. Kraushaar passed away the Wednesday previous, at 11:45 P. M. at the West Texas Hospital, where he had been a patient several days.

Deceased had been a resident of Lamb County for the past 32 years, and was one of the founders of the Emmanuel Lutheran Church.

His wife preceded him in death in 1928.

Survivors include a son, Alec Kraushaar of Littlefield; two brothers, George and Jack Kraushaar of Canada, and two sisters, also of Canada.

Payne vs Still Case To Come Up In Court Today

In District Court this Thursday morning, the case in which Drs. Clifford Payne and I. T. Shotwell are plaintiffs and Dr. O. W. Still, a former member of the staff of Payne-Shotwell Hospital, is defendant, will again occupy the docket, with Judge C. D. Russell, presiding.

The plaintiffs are seeking to restrain defendant from the practice of medicine in Littlefield and a certain surrounding area, and have claimed a contract between the parties, forbids him to engage in such practice, for a stated period of time.

The matter has been before the Court, on at least two previous occasions, and has attracted considerable local attention, as all of the parties are prominent.

Sheriff Sid Hopping announced that a Jury panel had been summoned to be present in Court Thursday morning.

Local Lions Share Honors In Tourney

Several members of the local Lions club attended the District convention of the Lions club held at Lubbock the first of the week.

A golf tournament held Tuesday afternoon at the Lubbock Country Club closed the activities.

Littlefield Lions shared honors with Morton club in the tournament. Elmer McKinney, who captained last year's Texas Tech golf team, was low medal scorer with a 872.

Al Chambers scored the most 5's with 11 to win a special trophy.

Rhenard McCary made the longest drive with a 258 yard drive.

Plan Pre-Memorial Day Clean-up

So that Littlefield Cemetery will appear at its very best on Memorial Day, next Monday, when hundreds will visit the grounds, just outside the City limits west on Highway 87, the Cemetery Association with the help and co-operation of the Garden Club committee of the Woman's Club has announced a special pre-Memorial Day clean-up and beautification and are asking and urging the help of everyone.

The Garden Club committee had as their goal during the past year "a cleaner and more attractive cemetery," and through their efforts, much has been accomplished. But there is still need for considerable work.

Lot owners are especially urged to care for their own lots, and of course many are buried here, whose relatives have since moved elsewhere, and friends and others are asked to assist in helping to beautify these lots.

One caretaker is employed at the cemetery, but the work requires more than the services of just one.

Excessive moisture the past few weeks, has aggravated the clean-up need, as weeds have sprouted in profusion.

Those who cannot come to the cemetery next Friday, are urged to employ and send someone out to assist for a day, if possible.

Let's have our cemetery look its best next Monday, honoring our soldier dead, and all of our beloved ones.

Last Rites Are Held For Sister of Homer Sewell

Mrs. J. W. Gilliam of Carlsbad, sister of Homer Sewell, of Littlefield, passed away last Friday, at Littlefield Memorial hospital, where she had been a patient since May 13.

Funeral services were held at Carlsbad, Sunday afternoon.

Surviving besides the above mentioned brother is her husband, another brother, Rufus Sewell, of Carlsbad, and a sister, Mrs. E. B. Har- herst, of Whitharral.

Mr. and Mrs. Sewell attended the services.

TOO FEW CREAM CHECKS IN LAMB COUNTY

newspaper is and always has firm believer and strong support of the idea that diversification of the operations and of the products, in our area, yes in the county, represents and is the bulwark against a lessened prosperity in this or any other section, such as is ours. It is more than that, a veritable policy against hard times, that goes not only for farmers,

but for every segment of our business economy. Diversification of farming operations can only mean and be accomplished by one thing—more and better poultry and livestock on every farm. That was true 10 or 15 years ago. It is equally true today. **Fewer Dairy Cows Yearly** Yet the number of dairy cows on our farms is lessening year by year, year after year. And that decrease is in the face of the highest price for

raw milk in the history of the country. Several things have contributed to this situation, which is not yet of alarming proportions, but could quickly become so, if rigid acreage controls for cotton and grain are put into effect by the government. And such controls are more than a possibility—they are a probability. You can't or could not, re-stock Lamb County farms with high grade dairy herds over night. It takes

planning and preparation. **Fewer Cream Checks** A few years ago, half of our farmers were bringing cream to town each week, and receiving a check for it. Today, the farmer producing cream and milk and marketing it here in Littlefield, and other towns of the county, is the exception, rather than the rule. Yet the time may come, probably will come when these cream checks may be needed again—needed by both farmers, and

the business houses which supply those farms and farmers with the things they need and buy. This section now has some fine Grade A dairy farms, but it doesn't have enough of them. A few months ago, Lubbock was shipping milk in from northern states; Levelland today gets practically all of its milk from across the New Mexico line. And a considerable quantity of milk consumed in Lamb County during the past few years, has come from out of the county, and some of it from out of state. **The Hall County Project** This newspaper was informed that the City of Memphis in Hall county, was one which has recognized the facts of the situation, and had, through its Chamber of Commerce decided to do something about it. We decided that information on what they had done and were doing would be of interest, if not of value (Continued On Back Page)

Treasure Hunt Scheduled For Palo Duro Canyon State Park Saturday

Governor Beauford H. Jester will snip a ribbon Saturday, May 28th at two o'clock p. m., to start the 1949 Palo Duro Canyon State Park "Treasure Hunt." Just before the Governor cuts the ribbon, 10,000 numbered goldline coins will be dropped into the Canyon from an airplane. One thousand of the coins—all those ending in the number "seven"—will be listed prize-winning coins. All other coins will be potential winners of such prizes as a Chevrolet car, an expense paid trip to Rio de Janeiro and two trips to Habana, Cuba, via Braniff International Airways, a \$250 diamond ring, two registered quarterhorses from Glen L. Casey's famous herd, and other supplemental and grand prizes valued at over \$20,000. The Kwahadi Indians and Will Rogers Range Riders will participate in the opening ceremony as will a Queen from the radio show "Queen for a Day." Exhibition square dances will be held the night of the opening. On the agenda for May 29, is a spectacular horse show and parade at 3:30 p. m. by the Will Rogers Range Riders, boys from Boys Ranch, and the Wwahadi Indians. Over 100,000 spectators can view this event, which will be held atop the mesa below Coronado Lodge, from the rim of the Canyon. The Treasure Hunt will last from May 28 through Labor Day, September 5. All grand prizes and unawarded prizes will be awarded Sept. 11 at 4 o'clock p. m. at Coronado Lodge. Usual gate fees will be the only admission during the Treasure Hunt season. Gate fees are 42 cents for driver and car, 24 cents for additional adults, and 12 cents for children.

BULL LAKE PHILOSOPHER WORRYING OVER CROP CONTROLS, BUT NOT THE WAY YOU'D THINK IF YOU DIDN'T KNOW HIM

Editor's note: The Bull Lake Philosopher on his Johnson grass farm on Bull Lake, has heard about the prospects for crop control next year, and is worrying us with his worries, as follows:

Dear editor:

Ever since I got word the government was considerin on goin back in the crop control business, I've had up a mail box out here, and while a coffee can nailed to a mesquite tree may not come up to the standards of the United States Post Office Department, the thing works, at least mail has been showin up in it addressed to me, and as long as a thing works I don't care what standards it fails to come up to, we've even had Presidents that didn't come up to standard in some respects but the country held together, and yesterday I got a notice from the triple AAA to figure up the average amount of acreage I've had in various crops the past five years, and I don't mind sayin the thing has me stumped.

It ain't no easy job for me to sit down and say exactly what crops I've grown the past five years. You can start out plantin twenty acres of a crop, but if the grass starts closin in on you and you got somethin more important to do than plow, you may not wind up with more'n four or five acres, scattered here and there throughout the field where the grass didn't get no toe hold, but as for actually gettin out there and measurin it down to the quarter acre, I ain't never done it and don't

intend to.

For example, in 1944 it seems to me like I planted cotton in a 10-acre field north of the house, or how did cotton stalks get there and what are them furrows doin there, but if I sold any cotton off of it I believe escape your memory, especially when you're tryin to make a crop and still not neglect the United Nations, the European crisis, etc. Also me and my wife is still arguin over whether that was volunteer corn in my Johnson grass or volunteer Johnson grass in my corn in 1945, and since there ain't no place on the government form for Johnson grass, and I want to be honest about this thing, I'll admit I don't know what to put down, and if you leave a government form blank you've rocked the foundation of bureaucracy, it's like talkin about your wife's kinfolks, you'll never hear the last of it, hound you about it the rest of your life. A government clerk with an un-filled-out form or your signature on the wrong line is worse than a busted first cousin.

Some farmers maybe can tell you exactly what they planted in 1946 and how much they made down to the penny, but farmin with me ain't no assembly line production outfit, it's a way of life, and when I get through a year's farmin I'd just rather forget about the details don't even want to know how much I lost, don't want to know what I did wrong, don't even want to speculate on whether another plowin would have saved this crop or that one. Just want to forget about it and hope this year turns out better.

If you have any notions about what I could put down on this form to satisfy the government, will appreciate hearin from you. Some of my neighbors is afraid the government is gonna cut down on their acreage, not let em plant as much as they want to, but such thoughts

don't worry me, it ain't how much I can't plant, it's how much I have to, that keeps me worried.

Yours faithfully J. A.

Urge Rayburn of Necessity of Wheat Storage Facilities

WACO, TEXAS, May 12—In a telegram to Sam Rayburn, J. Walter Hammond, president of the Texas Farm Bureau Federation, has urged the Speaker to apprise Congress to the necessity for immediate action in authorizing Secretary of Agriculture Brannan to acquire ample storage facilities for the 1949 bumper wheat crop.

Although the House yesterday passed legislation authorizing the Government to provide storage bins for farm commodities, the problem still remains unsolved and grain harvest is only a few days away, Hammond pointed out. The Senate has already approved a bill similar to the House measure but adjustments still must be worked out.

Failure to provide government approved storage that will make the support price available to farmers will cost wheat growers millions of dollars and result in a subsidy to the grain trade, Hammond told Rayburn. Elevators are bulging now with last year's wheat because the Secretary has not been authorized to secure storage to enable him to move the grain, Hammond charged. The support price guaranteed to farmers is contingent upon the availability of Government approved storage and already elevator men in the wheat belt of Texas have notified farmers that storage for commodity loans will not be available.

Early this month Hammond sent a letter to Secretary Brannan and members of the Texas delegation in Washington warning that the wheat storage situation this year would be more critical than was presented by the grain sorghum storage problem in 1948 because of the bumper wheat crop and the storage bottleneck already existing.

A. C. Tremaian has been transferred by the Pan-American Air Lines from Brownsville to Palm Beach, Fla., where Mr. and Mrs. Tremaian have gone to make their home, after selling their property in Brownsville. Reports here also are to the effect that Rev. Joe Grizzle, father of Mrs. Tremaian, had resigned his pastorate at Los Fresnos, Texas. It is presumed that Rev. and Mrs. Grizzle may plan to live in Florida.

Mr. and Mrs. A. W. Schmidt, house guests of Mr. and Mrs. Pryor Hammons for the past two weeks, left last week for their home in New York City. Enroute they plan to visit other points of interest including Hot Springs, Arkansas.

Mr. and Mrs. Floyd Blackwell had as their guests Sunday, his brother Jerome Blackwell and family of near Artesia, N. M.

Mr. and Mrs. M. O. Mitchell and two children left Friday for San Antonio, where Mr. Mitchell is attending a National J. C. Penney Co., Convention. He is manager of the local J. C. Penney store.

Not being able to get word from relatives in the storm area of Amarillo last week, Mr. and Mrs. Jack Fore drove up there to investigate, and found that her two brothers and a sister, were in the direct path of the tornado, but all escaped injury. However, their residences were badly damaged, and loss of property was great. They returned home about noon Monday.

Mr. and Mrs. Jack Alexander and children left Wednesday of last week for Bowie, Texas, where they will visit friends and fish.

From where I sit... by Joe Marshall

Two Heads Are Better Than One (Or None)

I get a kick out of buying stuff down at the hardware store. And I always ask for a little advice from one of the two brothers who run it, because I know beforehand exactly what the answer will be.

Like when I needed a new garden hose. "Henry," I says, "how about this new plastic hose—is it really as good as rubber?" "Well," he says, "I'm inclined to think it is—but you'd better ask Tom."

I found Tom in back and asks him the same question. "Well," says Tom, "in my opinion it is—

but you'd better ask Henry." "I already have," I says, "and when you two cautious old codgers agree I'd bet my life on the decision."

From where I sit, your own opinion is worth a lot—but so's the other fellow's. That's why I keep saying, over and over, let's be tolerant of the other person's point of view—whether it's on politics or farming—or whether you like milk shakes and he prefers a temperate glass of beer.

Joe Marshall

Do you suffer distress from 'periodic' FEMALE WEAKNESS
With Its Nervous, Highstrung Feelings?
Are you troubled by distress of female functional monthly disturbances? Does it make you feel so nervous, cranky, restless, weak, a bit moody—at such times? Then so try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms! Women by the thousands have reported remarkable benefits. Pinkham's Compound is what doctors call a uterine sedative. It has a grand soothing effect on one of woman's most important organs. Taken regularly—Pinkham's Compound helps build up resistance against such distress. It's also a great stomachic tonic! All druggists.

Change of Life
If the functional "middle-age" period peculiar to women makes you suffer from hot flashes, weak, highstrung, irritable feelings—try Pinkham's Compound to relieve such symptoms. It's famous for this purpose.

Monthly Female Pains
Pinkham's Compound is very effective to relieve monthly cramps, headache, backache, —when due to female functional monthly disturbances.

To Graduate June 6 From T. S. C. W. With B. A. Degree

Miss Georgia Lou Smith, daughter of Mrs. Lucille Smith, will receive a B. A. Degree in journalism from T. S. C. W. at Denton, in graduation exer-

cises to be held Monday morning, June 6th, at 9:00 o'clock.

Those attending the exercises from here besides Mrs. Smith, will include her mother, Mrs. Martha Gardner, and Mr. and Mrs. J. T. Elms and Mrs. E. J. Newgent.

Miss Smith will accompany the group home, and will spend the summer vacation visiting her mother and grandmother.

Betty Smith To Graduate With B. A. Degree June 1

Betty Smith, 20, daughter of Mr. and Mrs. Enloe Smith, of Littlefield, will graduate from the George Pepperdine College, Los Angeles, Cal., June 1.

Miss Smith has been majoring in physical education, and will receive a B. A. Degree. She has been attending the George Pepperdine College three years, and two summers. She was graduated from the Littlefield High School with the class of 1946.

Mrs. Smith will go to Los Angeles to attend graduation exercises.

Lutheran Society Enjoy Meeting

The Lutheran Women's Missionary League of the Emmanuel Lutheran Church had its monthly meeting on Friday in the church basement. The meeting opened with one song and a prayer by Pastor Heckman. The topic on "Church Liturgy" was led by Mrs. Gene Bartley.

The society is planning to send another shipment of clothing to Europe for needy children. This society has been sending clothing and food to the orphans in Europe for the past 18 months.

Pastor Heckman introduced a new church family magazine called "This Day", which any person wishing to order it may see Mrs. Tommy Mauk or any member of this society. Those present were Mrs. Ed Drager, H. E. Gohlke, Adolph Lueck, W. T. Mauk, E. E. Sell, Walter Timian, Martin Tienert, W. G. Thornton, Otto Zuber, H. Heckman, Gene Bartley and Carl Reinsch.

Return From Baptist Meeting

Rev. and Mrs. Lee Hemphill returned Thursday night from Oklahoma City, where they attended the Southern Baptist Convention.

The attendance is reported as tremendous.

The reports at the Convention this year set a new record. Above 312,000 baptisms were reported last year.

Southern Baptists face a real problem due to the lack of adequate facilities of the average city to take care of the Convention. Chicago has invited the Convention for next year.

Sudan Students Leave On Senior Trip

The Sudan senior class and their sponsors left immediately after the Commencement exercises for Colorado Springs, where they planned on spending four days.

Approximately 18 seniors made the trip in a school bus which was driven by V. L. Rice.

Reservations were made at the Acacia Hotel in Colorado Springs. The seniors were accompanied by their sponsors, Mrs. Ouida Nichols, and Mrs. Beene and Mrs. Tray Gaston were selected as the mothers on the trip.

Attend Meeting

Lt. and Mrs. M. O. Salmon are attending a Salvation Army Council meeting being held at Atlanta, Georgia, this week. They made the trip by auto, and are expected to return home the latter part of the week.

Lt. Salmon is head of the local Salvation Army here.

Can Black-Draught Help That Dull, 'Dopey' Feeling?

Yes, Black-Draught may help that dull, dopey feeling if the only reason you feel that way is because of constipation. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations. If you are troubled with such symptoms as loss of appetite, headache, constipation, flatulence, nervousness, dizziness, mental depression, bad breath -- and if these symptoms are due only to constipation -- then see what Black-Draught may do for you. Get a package today.

Misses Teel And Lynch Honored At Party Thursday

to our farmers and our community. And with that in mind, we wrote a letter to Clifford Farmer, Manager of Memphis Chamber of Commerce, asking for information on their County Dairy program.

In his reply to our letter, among other things, Mr. Farmer stated that the program was sponsored by the Chamber "to furnish our farmers regular income in addition to their cash crops, like cotton and wheat."

Since the Chamber of Memphis went into action, two carloads of dairy breeding stock has been shipped in from Canada, and a third carload has just been purchased. The price has been high but "we feel justified in buying high-priced animals since they will be used for foundation purposes". Registered Jerseys were selected and bought. Even though the price has seemed high, farmers have been saved money because buying in quantity, has resulted in a much lower price than the animals could have been purchased by individual farmers, and shipping costs were appreciably lower.

The Memphis Chamber of Commerce has been able to do all this with an expense of only about \$1000. They have improved and increased their dairy herds, their dairies, and the ability of their farmers to withstand such shocks as are brought about by lower farm products prices, acreage controls, lessened government subsidies, one or all three, if, and when they come.

And a final note in our letter from the Memphis Chamber manager, adds this parting remark, which is food for thought, "we have some very choice bull calves for sale that were raised from these imported cows".

Memphis Project Good Pattern
We think the Memphis chamber has done a swell job on this, and is still doing it, and we further believe that our own chamber and our business interests should be vitally interested, in seeing to it, that something along the same line is undertaken here.

Too many Lamb county dairy cattle have succumbed to the high prices for beef cattle, the high price for farm labor, and abnormally high prices for our farm products. It's time to reverse the trend and start bringing some of them back—not just alone more dairy stock—but also better, pure-bred stock.

Miniature Circus—

Morris, an Amarillo, Texas Insurance man and Panhandle wheat farmer. It is a complete big-time, three-ring circus with operating railroad train, moving street parade, and other animated features, modeled after the old-time circus.

Has 7 Tents, "Big Top" Etc.

An area the size of a small dwelling is required to exhibit the circus. Its seven tents; the "big-top", the menagerie tent, dining tent, stable tent, dressing tent and side show are the standard setup of the big circus. A section has been removed from them to permit a complete inside view.

Featured At Tri-State Fair

The midget circus was a featured attraction at the Tri-State Fair in Amarillo, the Minnesota State Fair, the Oklahoma State Fair and the Louisiana State Fair, last year. It is said to be the most elaborate model of its kind and the large crowds attracted were amazed at its accuracy and completeness. It has been valued at over \$15,000.00.

Like the real circus it all loads into the 67 wagons and the wagons load onto the 25 car circus train. The 1600 workers, performers and spectators that cover the circus lot and fill the seats in the "big-top" add the last degree of realism. Some 50 of the 135 horses are used to pull the ornate wagons with their fancy wheels rolling realistically in the moving parade. The elephant herd numbers 25 and the cage wagons carry the usual variety of Barnum species of wild life.

Mr. Morris said the passing of the old circus with its mile-long street parade had inspired the building of the model. Not only has the detailed accuracy has been preserved but the atmosphere as well, even to the little boy crawling under the tent while the policemen's back is turned. Circus music, sound effects and a voice description accompany the show.

The exhibit is educational and entertaining and will interest both old

John Gary Bruce Killed In Car Mishap

Funeral services were conducted at Vega, Texas, Monday, May 16 at 2:30 P. M., for John Gary Bruce, aged 2, son of the late John Boots Bruce, and Mrs. Bruce of Albuquerque, N. M., with burial immediately following in the Vega cemetery.

The child is reported to have been accidentally killed Friday, May 13, when hit by an automobile as it was being backed out the driveway at their home. He is said to have run behind the car in play. He was rushed to a hospital but was dead on arrival.

This was the third tragedy in the Bruce family.

The boy's father, John Boots Bruce, was fatally burned when operating a laundry at Vega through explosion of gas from a hot water heater, March 24, 1947, and died April 2, following. John Gary was born March 6 of that year.

Previous to that, on June 22, 1943, Lee Bruce, grandfather of John Gary Bruce, and another grandson, Billy Tolbert, aged 13, son of Mr. and Mrs. Bill Tolbert, were killed in a train-truck crash.

Funeral services were conducted on June 26 following.

Child Ill With Spinal Meningitis

Patsy Richardson, aged 7, daughter of Mr. and Mrs. W. A. Roberts of Littlefield, was admitted to the Littlefield Hospital Friday morning suffering from Spinal Meningitis.

The child's father is a mechanic. Patsy is reported at the hospital to be seriously ill.

THE SECRET IS OUT! You knew it all along!!!

INTEGRITY

Simple wasn't it? The displays at the grocer's carried the letters "I-N-T-E-G-R-I-T-Y" on the different pieces. His newspaper ads did too. They named the Secret Ingredient. Without the honesty and integrity of the Duncan Coffee Company behind it, Admiration Coffee could never have won and held for 30 years the loyalty of so many thousands.

THE SECRET INGREDIENT IN Admiration Coffee

IS THE I-N-T-E-G-R-I-T-Y OF THE MANUFACTURER

freshness

No matter how good a coffee is when originally roasted, it loses its richness, flavor, aroma, and strength if not kept fresh. Years ago a method was devised by which Admiration is kept fresh until the can or package is opened for use.

Aroma

The wholesome, inviting aroma of Admiration is not an accident. It is blended into Admiration by the use of certain exotic green coffees from distant lands. Every delicate white is sealed in.

Honesty

Honesty covers a multitude of company policies. That has been Duncan Coffee Company's No. 1 Policy from the day of its small but gallant beginning to its present position as the Southwest's largest coffee roaster.

flavor

The clues were many and self-evident. Flavored by cheaper, less desirable grades of coffee.
