VOLUME 23

LITTLEFIELD, LAMB CO. TEXAS, THURSDAY, DECEMBER 6, 1954

NUMBER 28

PUBLIC MEETING ON WATER IS TONIGHT

Interest that continued to mount early this week in Littlefield's water-sewer bond election is expected to hit its peak tonight (Thursday) at 7:30 when a mass public discussion will be held here in the District courtroom.

The meeting is designed to

bring out the facts in the \$1,700,000 water program in a panel discussion headed by Chief Hydrologist Bill Broadhurst of the High Plains Water District, Engineer Horner Hunter of Dallas and local Mayor Ray Keeling.

Originally set to appear on

the panel was former County Judge Otha Dent, who said in a telephone conversation Tuesday that last-minute changes in his plans would prevent his appearance.

The mass meeting will be the culmination of three days of talks by the three-man panel.

They appeared at regular meetings of the Jaycees and the Lions Club on Tuesday and Wednesday and are slated to talk before Rotary members today at noon.

Broadhurst, a veteran of 21 years in the study of underground water, said in his talk

Tuesday to Jaycees that "there is less than three years supply of water in the city's present well field, based on usage of two million gallons a day."

The veteran hydrologist was speaking of the Sorenson field alone and added that there is somewhat less than "six years

supply of water on all the land the city now owns." Total land includes 345 acres at the Sorenson property and about 265 acres north of that property.

In the city's 11 1/2 sections of water rights in the sandhills,

BY BETTY WILLIAMS

Remember when you were a kid and Montgomery Ward was the largest retailer in the United States?

It wasn't by chance that Montgomery Ward began slipping and let Sears-Roebuck take the lead. During the war, Montgomery Ward executives decided this country was headed for another bad depression and refused to gamble on new stores and bigger

stores. Sears had faith in the country's future. By an extensive expansion program they have moved ahead rapidly and are now on top of the heap of the retailers of the world.

This is a good story to remember when people warn you that by putting in adequate water mains and sewer lines and developing a permanent water supply . . . Littlefield will have to take bankruptcy as it did during the depression days.

Are we going to allow the fears of the great depression to haunt us just as Montgomery Ward has done.

This is the same thinking that caused Plainview to sit quietly by and let Lubbock become the metropolis of the South Plains.

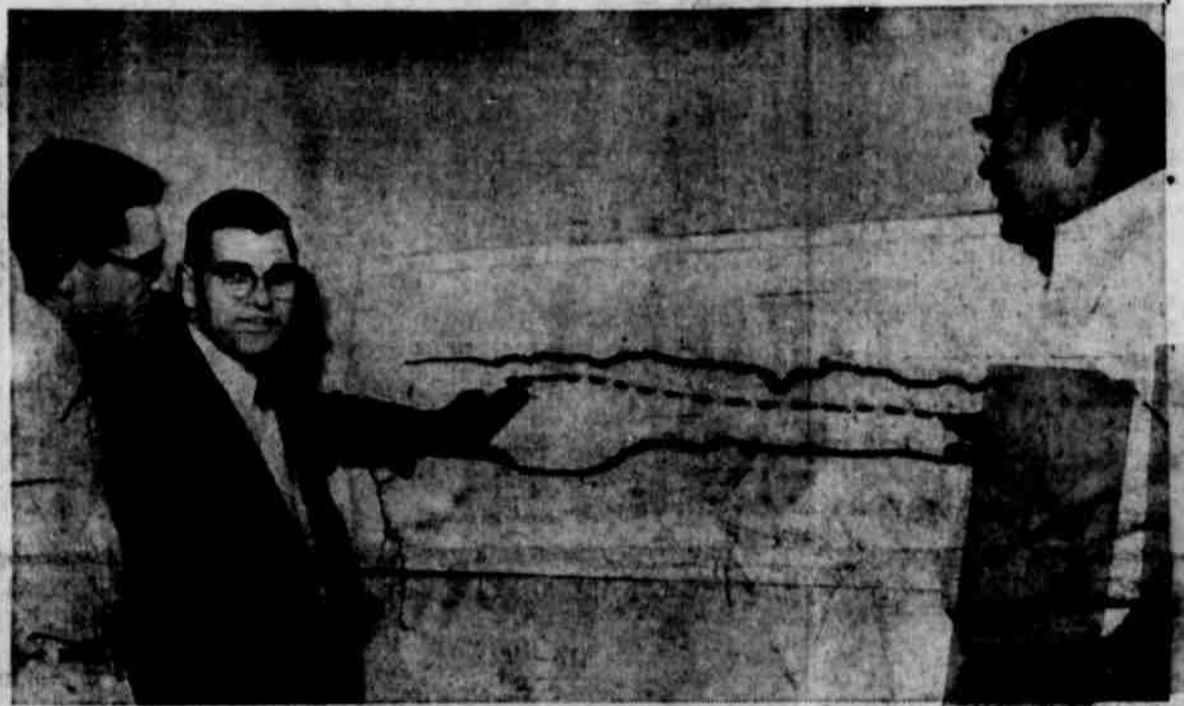

The people who led the fight against the highway last summer are the same people who are leading the fight against the water issue today.

Before you cast your vote Tuesday . . . or before you decide not to bother to vote . . . ask yourself this question: Can Littlefield survive without good highways and water, too?

You have those days when it just doesn't pay to get up. The Vernon Hofackert family thinks there may be nights when it doesn't pay to go to bed.

One night last week the Hofackerts were awakened by the sound of running water. Vernon jumped

HYDROLOGIST BILL BROADHURST of the High Plains Water District, points out the depth of water sands in the sandhills in comparison with their depth under the city's present water supply, as demonstrated by Mayor Ray Keeling, right. Broadhurst told Max Bagwell, left, and other Jaycees that Littlefield's present water supply will last less than three years under expected conditions, while there is more than 100 years' supply at the Sandhills.

Bert Murray Charged In Slaying

Negro Man, 55, Killed In Shooting At Flats

A quarrel between two Negro men in the Flats led to the fatal shooting of one of them here Sunday afternoon.

Dead was John Gunnels, 55-year-old laborer who county officers said arrived in Lamb county several months ago for the cotton harvest. The man had been working in Sudan recently, Sheriff Dick Dyer said.

Charged in the killing was Bert Murray, 78-year-old retired local man who has lived here since 1921. Officers said he is a former Compress employee.

Murray signed a statement in the presence of Dyer and County Attorney Curtis Wilkinson early this week admitting that he shot Gunnels with a .22 rifle.

Gunnels was pronounced dead

at Medical Arts Hospital at 3:10 p.m. Sunday, 25 minutes after the fatal shooting. Sheriff Dyer said Gunnels had been shot in the back of the head.

The Sheriff said Murray told him that Gunnels began the argument as Murray walked from the local train station to his home in the Flats. Murray went into his house, but Gunnels reached through the door and pulled him out, according to the statement given officers.

Murray told Dyer that he broke loose from Gunnels and ran back into the house to get his rifle. The Sheriff said Murray told him that Gunnels got his knife. Murray came out and the last moments of the incident began, officers said.

Gunnels' body was transferred to Lubbock for funeral services.

★ GRID WINNER? MAURER AGAIN

Richard Maurer, young son of Dr. Ralph Maurer carried on the family tradition this week in winning the Leader's football contest. Ralph Jr., won it last week when he picked 17 games right.

Richard came along with another top effort this week, picking 17 games on the nose. He missed the Graham-Snyder, Amarillo-Paschal, and Army-Navy games.

Closest to Richard in the final count was Bobby Banks of 915 E. 9th, who picked 16 right. Tied for third in the contest were Terry Hyatt, 215 E. 13th, and Jimmie Starnes, Rt. 2, both of whom missed five games.

Maurer will receive a check for \$5.00, Banks one for \$3.00, and Hyatt and Starnes \$2.00 each.

AN EDITORIAL

Be Informed and Vote—A Duty And A Privilege

You, as a Littlefield citizen, have two opportunities between now and Dec. 11th to take advantage of your rights as an American.

We hope you will not take either opportunity lightly. The first one comes tonight when citizens will gather at the District Courtroom. A panel composed of men who believe they are doing what is best for Littlefield now and in the future will present the facts in a \$1,700,000 water and sewer bond election that is scheduled for Dec. 11th.

You will have to decide for yourself whether you think the program is sound . . . whether it is needed . . . whether it is best.

The important things are that you are informed and that you understand what is proposed.

Whatever your decision after the meeting, take your opinion to the polls and have your say.

You have to live with that decision. Make certain that you will not regret it.

Part Three Of A Series On Water

Present Distribution Branded 'Inadequate'

Editor's Note: This is the last in a series of three articles related to Littlefield's present water and sewer facilities and what is proposed under a Dec. 11th \$1,700,000 water-sewer bond election to improve the current situation.

Ever wonder why that slow stream of water you sometimes have at your faucet isn't as good as it ought to be?

The reason, says Engineer Horner Hunter, is this: "Present supply wells provide barely enough water to supply the city during maximum day consumption periods, the high service pump station has inadequate capacity to deliver all the water needed during peak hour demand periods, elevated storage is inadequate to provide water storage requirements satisfactory to the State Fire Insurance Commission, the water distribution system is inadequate in some areas to provide adequate domestic service, and a number of dead-end 6-inch mains should be connected to form a continuous loop for water circulation and for better fire

protection under all conditions." Hunter's statement is a long list of inadequacies, and it points out the need for a bond election.

(Continued From Page 3)

Mayfield commented early this week: "We are working overtime in an effort to figure out a defensive pattern that will stop Gibbs' passing attack, together with Graham's rushing attack. We still have several of our boys trying to overcome their bruises and injuries; how strong our team will be for the Graham game depends on how well our team rounds into playing condition."

Coach Curry, in his fifth year at Graham, has respect for the Wildcats, also. Curry stated this week that his Steers will be in tip-top shape and expects a good game. The Steers have a 10-0 record for the season with their only loss to Comanche by a 7 to 6 count; ironically, the reverse of the score in their bi-district win over Snyder. The Graham eleven has scored 285 points, while allowing their opponents an even 100.

Graham has one of the best centers in the state in senior letterman Bob Robbins who is a stalwart in the Steers defense as well as offense. Robbins' terrific defensive work forced Snyder to punt while attempting to run out the clock with 48 seconds remaining in their playoff game last Saturday, as the 175-pound center threw Snyder's Hinojos twice for a four yard loss and then Robbins partially blocked the punt to force the ball out of bounds for a short nine yards, enabling Graham to score. The Steers have a backfield weight average of 170 pounds with giant Sonny Gibbs tipping the scales at 195.

The Wildcats have an average

(Continued on Page 4)

GETTING READY FOR SANTA — With Charise Smith and other Southwestern Public Service employees hard at work early this week, Littlefield got its Christmas decorations ready for Santa's visit today at 4 p.m. Smith is pictured as she hangs lights and greenery on wires across Phelps Ave. Other appropriate decorations went up during the early part of the week.

Spade Youth Dies After Illness; Services Today

Funeral services for Robert Tomlinson, 16, of Spade are

scheduled this afternoon for 3 o'clock in the First Methodist Church, Spade.

Robert died early Wednesday morning at the home of his parents, Mr. and Mrs. O. L. Tomlinson after a ten-months illness. During the summer, he underwent surgery at a Dallas hospital.

Born October 18, 1940, at Spade, Robert moved with his parents to Lamb County from Leveland in 1956. He attended Spade High School.

Survivors include his parents and three sisters, Barbara, Mary Beth and Ethel Jean and one brother, Oscar Lee, all of the home; and Mrs. J. P. Tomlinson, paternal grandmother of Littlefield and Mrs. Ada Bundick of Spade, maternal grandmother.

The Rev. C. P. McMasters of Lubbock will officiate assisted by the Rev. Roy Patterson pastor of the Spade Methodist Church. Burial will be in Littlefield Memorial Park under the direction of Hammons Funeral Home.

AFTER THE ACCIDENT — This mule which pulled a wagon operated by O. C. Sharp, 75-year-old Littlefield man, is tied to a telephone pole after a mishap on Highway 51 about a mile north of the city Monday afternoon. The arrow points to the area where Sharp's wagon was demolished. Sharp, hit by a 1955 pick-up driven by Earl Glass of Anton, was sent to the hospital with lacerations about the face and head. No arrests were made in the mishap and Sharp was released from Medical Arts Hospital Wednesday morning. Damages to the Glass pick-up were \$75.

up and after a bit of searching found a broken pipe in the attic. He tried to stop the water but just didn't have the proper tools.

After calling the city water department, he decided while he waited to run to the store and get a wrench . . . and was apprehended in the act by two city policemen.

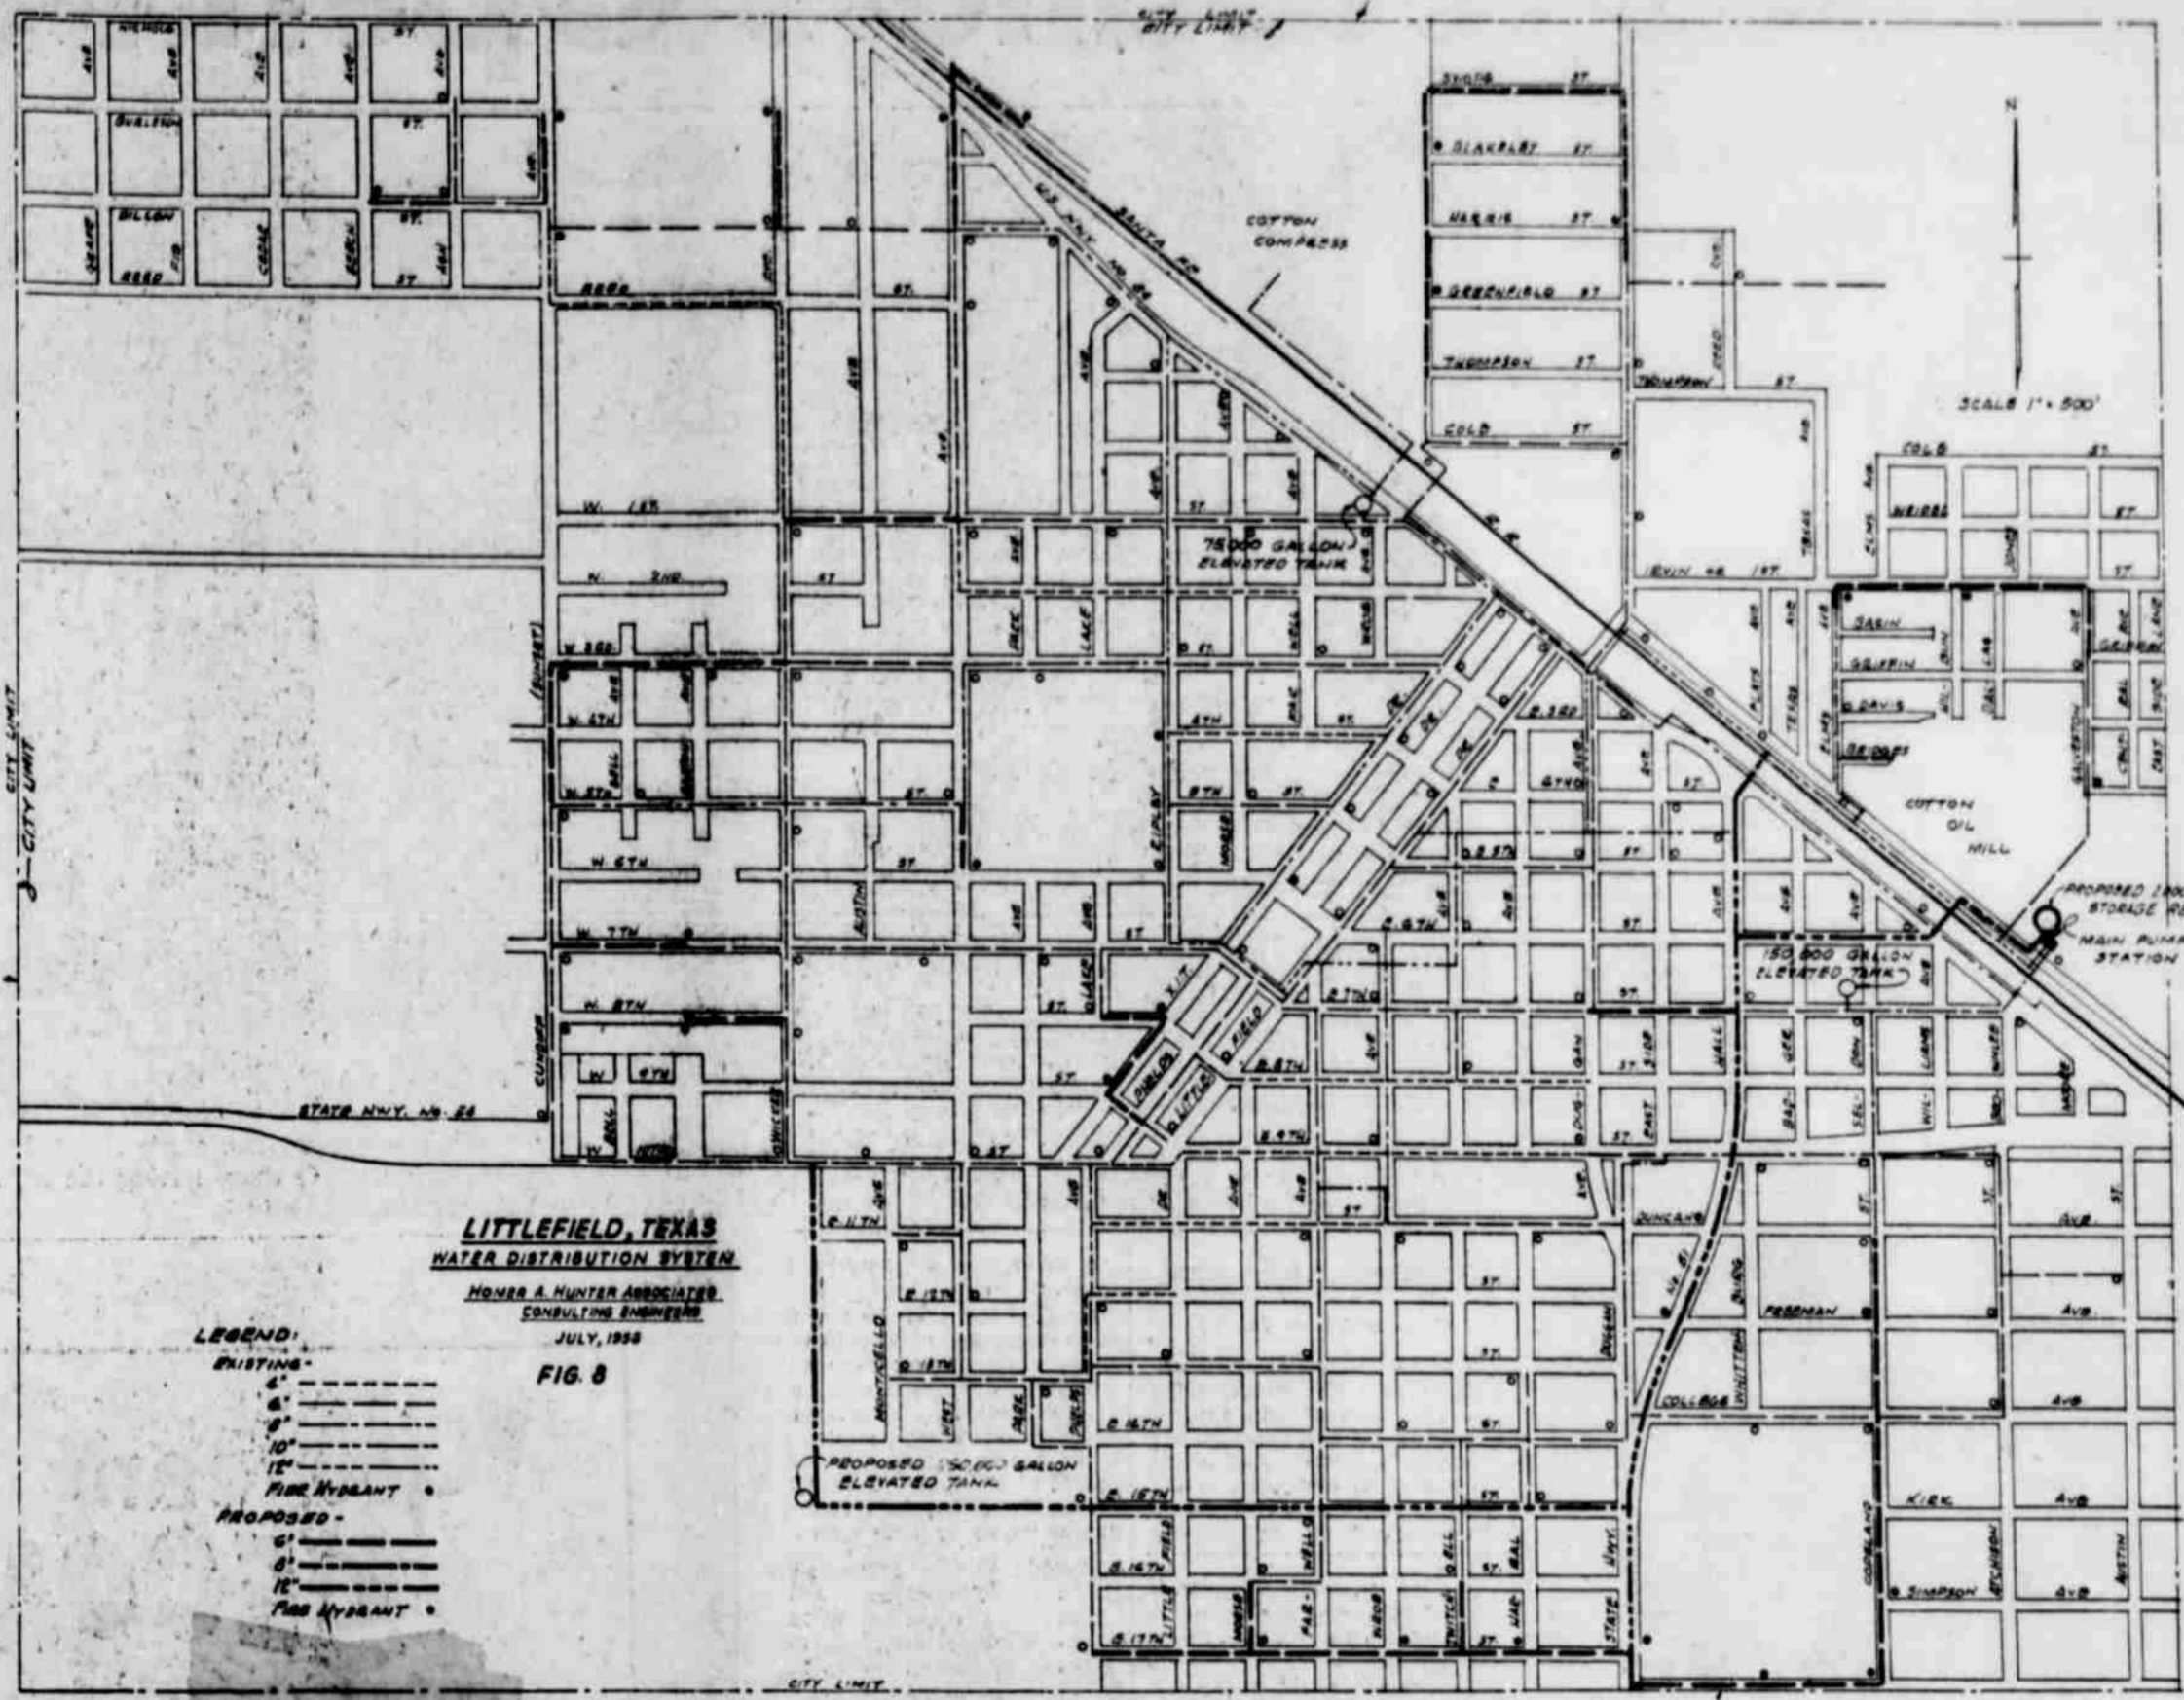

After some explaining, Vernon convinced the police that wasn't a burglar. He arrived back home at the same time the city water employees got there.

In all the commotion, the garage door across the street fell on top of Rev. James Cox car which was parked halfway in the garage.

"I'm not going to take the blame, but the strong language I was using about that time may have had something to do with that door falling", Vernon later admitted.

ELUSIVE OIL SCIENCE "BUGGY"

Scientists are "catching" it if they high enough germ count. It is to petroleum microbiologists certain types of bacteria hydrocarbons. These are very abundant in soil above oil and gas fields. An oil - service believed to be unique country - will offer the soil new technique for soil microbes as an additional producers in track oil and gas pools.

Here Are Proposed Improvements To Local Water Distribution System

Who's New In Littlefield

LITTLEFIELD WELCOMES THE W. P. DENNIS FAMILY: Dennis is the new minister of the First Drive Church of Christ. The family moved here from Hamilton, which is near Tuesday. Bro. Dennis will conduct his first service here Sunday. A graduate of Floydada School, Dennis attended Abilene Christian College. In 22 years in the ministry his congregations have included churches at Tipton, Oklahoma; Ft. Worth, El Paso, Tulsa and the past years at Hamilton. Dennis is not a stranger to Littlefield. He has conducted three revival here previously. Bro. and Mrs. Dennis have two sons, Dwayne a junior at A.C.C. and a freshman at Littlefield High School. Dwayne has been preaching the past year to a congregation at Fairly along with his studies at college. The Dennis family is residing in a parsonage at 209 East 15th. (Staff Photo)

Public Meeting

(Continued from Page 1)
Broadhurst said there is 135-140 years of supply based on the same rate of consumption used in computing the time left at present city property.

"Of course, as Littlefield grows, you can count on more water being used than the two-million-gallons-a-day rate I used in figuring the time left at these water sources," Broadhurst said.

"Water supply will be the controlling factor of the economic development of West Texas in the future. And . . . water supply will be more expensive in the future."

"Twenty years ago, you could have bought water in the sandhills for \$5.00 an acre. Today it costs \$30-50 an acre. Twenty years from now, water rights in the sandhills will cost \$200 an acre," he said.

The hydrologist said he met with the Lubbock city council in 1938 when the city had 19 wells. He said he was asked what the city should do about its water supply.

"Go to eastern Lamb County, I told them," Broadhurst said.

"They told me that Lubbock will never need to go outside the city for water," he said.

"I asked them this: 'How short-sighted can you be?'" Today, Lubbock is building a 45-inch pipeline to the sandhills in Bailey County at a cost of millions.

The hydrologist said that intensive research by the High Plains Underground Water District shows that there is less than 100 feet of water sand under the city's present property in contrast to more than 200 feet of water sands under the city's sandhills water rights.

GAUDY, BUT NICE!
There's a bright day coming for a sprawling, 600-acre oil refinery in Philadelphia. More than 700 buildings, tanks, and refining units will soon be wearing coats of glowing pinks, yellows, blues, grays, and greens. The painting job, which will transform the refinery into a rainbow panorama, is part of the plant's arrangements for easy identification and safety measures. It's only natural for the oil industry, one of the most colorful and efficient in the world, to make use of color for efficiency - and safety.

To fill a medium-sized oil tank shop would require the liquid cargo of nearly eight hundred of the big clipper trucks that haul oil on highways and at airports.

Cat Basketballers Open Play Today

Plans Laid To Form Cage Schedule For Little League

Something new has been added to the local sports scene. Coach Gerald Bullard from the Littlefield High School and J. D. Truly from the Littlefield Elementary School got together a couple of weeks ago.

They talked over the fact that boys going into junior high school have had no opportunity to participate in any kind of organized athletics and decided to organize and coach a basketball league for fifth and sixth grade boys.

There seems to be quite a bit of interest among both the boys and have been only two practices and there have been approximately 50 boys present for each of them. About 90 boys have signed up to play and it is hoped that there will be about 60 boys to play full time.

The boys will be divided into six teams and each team will practice once each week and play one game each week. Practices are scheduled for Saturday mornings from 9:00 to 11:00. Games will be played on Monday nights between 6:30 and 8:00. Later in the season two teams will play each other during the half time of the high school varsity games.

The boys of each team will be allowed to select a name for their team and it is hoped that

local merchants will sponsor a team and furnish them with jerseys. All games will be free and the public is invited to see the little league boys play. Each game will be hard-fought and local interest will be high. All games and practices will be held in the Littlefield High School Gymnasium.

Whitharral Takes Amherst, 48-31

Amherst's girls swept to victory over Whitharral's girls in a basketball game at Whitharral Tuesday night, but the Panther boys came back with a 48-31 victory over the Bulldogs.

The win gave the Whitharral boys a 3-1 mark for the season. They will play in the Friona Invitational Tourney that begins today.

Coda Stephenson with 15 and Dale Gage with 14 points led the Panthers to victory. Whitharral led all the way, rolling up a 17-8 margin at the half and a 36-20 mark at the end of three quarters. Donnie Bowman hit 15 for Amherst.

Amherst took the girls game by 49-41. Linda Reed of Whitharral was the game's top scorer with 23 points.

HERE ARE the triple-A brackets for the state playoffs. Nederland and S. A. Edison are favored in the Southern bracket while Cleburne is favored in one of the north-

ern brackets. The Littlefield-Graham game is rated a toss-up by the experts, with Graham having the edge in weight and a strong passing attack.

LHS Cagers Go To Friona Meet

By J. D. TRULY

With the smell of football still in the air, basketball season is getting into full swing. The Littlefield Wildcats open their season play in the Friona Invitational Tournament. The tournament begins today and lasts through Saturday, with the Wildcats in the opening game. They will play Claude on Thursday afternoon at 4:30. The winner will play the winner of the Whitharral and Bula game Friday afternoon at 4:00. This will be a double elimination tournament so win or lose, Littlefield will be playing two days. If the Wildcats should lose, they will play the loser of the Whitharral-Bula game Friday afternoon at 2:15.

Coach Gerald Bullard will be starting this season with a complete team of inexperienced boys. Bullard has five boys that are six feet or over but none of them has ever played varsity ball.

Coach Bullard's squad is not only hampered by inexperience but also by depth. He will only have nine boys to take to the Friona Tournament Thursday. His hopes have hinged on seven boys who are still playing football. He is counting on these boys to provide at least three of his starting five when the Wildcats get into Dis-

trict play.

The probable starting line-up for Thursday's game will be: Name Pos. To C. Palmer McCowan F 57, Gerald F. Qualls F 67, Charlie Duvan G 57, Gaston G. Shaw G 67, Jerry Banks C 67.

The only reserves Coach Bullard has are: Otis Ashley 6-1, Alex Duggan 5-10, sophomore Rhodes, 5-6 freshman, Wayne North 5-6 freshman.

The Wildcats have been working hard in early drills. They are slow in getting started, having trouble learning the game.

With Bullard in his first year, the boys are fast learning the methods different from what they have had here before.

The only boy back this year has earned a varsity letter. Buddy Jones, 5-4 junior, however, is still playing football. Coach Bullard is also counting on James Pressley, James C. Bill Jefferson, David McMillan, Hilton Hemphill all of who are sophomores and are still playing football. With a team of sophomores, Bullard hopes to team for future years.

Boys stay with it, by the way, they are seniors. Littlefield has a state championship on its belt.

CO-CAPTAINS FOR THE Littlefield Wildcats when they play the Graham Steers Saturday are Davis Williams, 220-pound tackle in foreground, and Buddy Jones, hard-running halfback.

Geigel Vs. Tokyo Joe Tops Slate At Wrestling Arena

A triple main event, headlining a battle supreme, should be enough to make every wrestling fan in the Littlefield arena vow to not miss the exciting card to be presented this Saturday night at the Littlefield Sports Arena.

Promoter John Ussery has lined up an exciting card featuring two matches with 45 minutes time limits and a final main event scheduled for one hour of wrestling. The top battle of the night

should be the final which brings popular Gory Guererro against Tommy Phelps, the fans pet "cry-baby". Phelps and Guererro have been having a feud going for the past two weeks. It all started two weeks ago when Phelps challenged Guererro to a battle after he had just disposed of Roger Mackey. Guererro came to the ring from the dressing room and Phelps struck him from behind and ran his head into a corner post

Wildcats Meet

(Continued from Page 1)

age of 150 pounds in the backfield to give the Steers an 20 pound per man advantage there. Graham's line will outweigh the Cats with an average of about 186 pounds as compared to the Wildcats' 175 pound average. Littlefield will be giving away

an average of 15 pounds per man.

Graham has scored an average of approximately 26 points per game while holding their opponents to an average of nine points. The Wildcats have an average of about 25 points per game with their eleven opponents having scored an average of nearly 12 points. Following is a record of games payed by both teams:

HERE'S HOW...

MAKE A GUN CASE

A safe carrier protects prize guns from injury.

Two of each of the parts, except D, should be made if the case is for two guns. For one gun, one of each part is made.

Use 1 by 10-inch lumber for D and C. On each part C trace the outline of the gun, and cut out the shapes with a coping saw. Sand the pieces smooth and round the sharp edges of the cut-outs. Attach an 18-inch piano hinge, using 3/8-inch screws, recessing the plate.

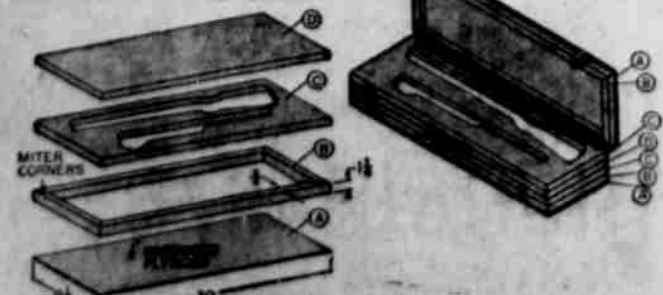

Make the frames, B, mitering the corners and fastening them with glue and 4-penny finishing nails. Use picture frame clamps until the glue has set; then chisel out a recess on one long edge to accommodate the hinge plate.

The hardwood plywood outer face, part A, is attached with glue and 1/4-inch No. 16 brads. Sink the brads and fill the holes with wood putty.

Join the two parts C to part D, one on each side, using wood glue and 1 1/4-inch flathead wood screws. Countersink the screw heads.

When all glued parts have set, fasten the hinges to the lids. Use four small hasps with twist staples to secure the lids. Add a luggage handle, as shown.

Finish the case by varnishing. Felt may be used for lining. Cut-outs may be made also for cleaning rods, an oil can, etc.

How Long Will Your Present Water Last?

That's the primary question in the water bond issue. Will it last two years . . . five years . . . or even 12 years like some people are telling you.

Here Are The Facts — Judge For Yourself

1 — *During the past five years the water level surrounding the Sorenson property has dropped from 50 feet to 124 feet*

2 — *When we hit 190 feet we reach the red bed which means we have only 66 feet to go or only four year's supply if used like it has been for the past five years.*

3 — **BUT** *Littlefield has been using water this field for only one year. Can you expect this water to last more than two to three years when both YOU and we farmers are pumping from it.*

4 — *What have you gained by pumping water an extra two or three years if you make dry land farms out of thousands of acres of the farm land nearest you.*

5 — *You also stand to lose heavily if you drain the water from under your own farm which netted you over \$5000 in rent this year.*

Consider These Basic Facts Before You Make A Decision On The Future Of Your Town

THINK

before you make a decision on the future of your town — Listen to facts, not rumors

Many Cities Decide Water Is Worth Whatever It Costs

BILL TURNER
ask is water worth? A question most Littlefield citizens are asking themselves with a \$1,700,000 water bond election approaching.

Other Texas cities were asking themselves the same question in recent years. How much did they decide was worth in Dallas? In Leonard? In Post? In Crosbyton? In Spur? These cities concluded that the worth whatever they

had to pay to get it. A couple are still deliberating the question. Dallas citizens, still seeking a way to solve their water problem, now are paying 50 cents a gallon for drinking water.

The little town of Roby, near Sweetwater had to spend \$300,000 to keep its village from drying up. The 600-700 citizens there found their water source, a spring-fed creek, drying up. It had supplied them for 50 years.

Faced with the choice of getting water or leaving their homes, Roby's citizens voted a \$300,000 bond issue, part of that

in revenue bonds and part in tax bonds. About \$60,000 of that was current indebtedness.

Today, Roby residents pay \$3.00 for a minimum of 2,000 gallons, and a whopping 90 cents more for each 1000 gallons up to 12,000 gallons. The next 10,000 gallons cost the resident 80 cents a thousand more. All over 22,000 gallons re-

quires a devastating 75 cents more per thousand.

That makes the Roby resident's average payment per month, on a year-round basis, a terrific \$8.40 cents—\$3.75 higher per month than the average Littlefield citizens now pay, and \$2.60 more than local citizens will pay on the average if they vote the approaching

bond issue.

To top that, the Roby citizen is paying a 50-cents-per-\$100 valuation property tax to help pay off the \$300,000 in bonds.

Why did Roby have to spend so much? The nearest water turned out to be 20 miles away at Sweetwater, and it took a 20-mile pipeline. Between the time Roby's wa-

ter supply went dry until the pipeline was constructed, residents had drinking water trucked from Sweetwater daily.

In Fannin County, Leonard, Tex., residents presently are faced with much the same problem Roby citizens had. The town's main well went dry and the Mayor called upon citizens to "limit the use of water to absolute essential purposes."

The well sanded in — meaning that sand shifted and blocked the flow of water.

Since, 12 tank trucks have been hauling water to Leonard's reservoir. The trucks are running continuously. And Leonard is still working on an answer to its problem.

The four cities of Post, Ralls, Crosbyton and Spur believe they have found the answer to their water problems. They have recently approved, by a vote of more than 30 to 1, a method to insure plentiful, pure water for current and future growth.

In the culmination of a 20-year dream, residents are going to help pay for harnessing the White River which flows through near-by Blanco Canyon. Water will be sold to each town at the same rate, about 30 cents per thousand gallons. The rate of resale of the water in the cities will be set by that city's government.

The State Board of Water Engineers congratulated the cities for "doing on your own all you can to get water instead of waiting for somebody else to do

it for you."

Nocona, a small town north of Dallas, is still stymied with its water problem. The city was checked twice by new industries within a two-month period, and on both occasions was unable to invite the industry.

The reason: "Nocona can meet practically every requirement,

except the required amount of water."

Nocona's number one problem for the Nocona of today and the Nocona of tomorrow is an adequate supply of water, says the Nocona News.

As the newspaper said in an editorial: "We could realize this fact too late."

Social Security Representative To Be Here Dec. 13

A representative of the Lubbock Social Security Office will be in Littlefield on Dec. 13th at 10:00 a.m. at the Employment Office and will be glad to assist in all matters pertaining to Social Security.

Persons who may become entitled to old-age or survivors insurance payments during the next few months just ahead, because of recent changes in the social security law, namely, women aged 62, disabled workers who have reached the age 50, and children who were disabled before age 18, will not lose any payments if they delay filing a claim for benefits, John G. Hutton, district manager of the Lubbock social security office, declared today.

Payments to a woman who has reached age 62 can begin with the check for this November which will be due after the end of that month. However, women 62 and 65, do not need to apply for the payments immediately. "Even if they wait a full year before filing a claim at the social security office—that is, not until November, 1957—they can still get any back payments they are entitled to," Hutton assures them.

A disabled working person who has reached age 50 can't start to get monthly benefit payments until July 1957. Even if he does not file a claim until the end of December 1957, he will get back payments for all months beginning with next July. In the case of a child who became disabled before reaching 18, the first payments are for January 1957. However, if the claim for benefits is not filed until January 1958 back payments for the 12 months can be made.

Hutton said that many people who have read about or have been told about the recent changes in the social security law feel that they stand to lose some benefit payments to which they may be entitled if they do not get to the social security office right away. He wants to assure them that this is not the case. "Remember," he says, "women age 62 have a full year after reaching that age to file an application without losing a single month's payment; a worker disabled before age 50 has until the end of 1957 to file without losing any month's payment to which he may become entitled after next June, and an application for a child who became disabled before 18 can be made at any time before the end of January 1958 and back payments will be made for all 12 months of 1957."

Hutton has a word of caution in the case of the disabled worker, however. While he has until the end of next year to make his claim without losing any payments, it may be advisable for him to get in touch with the social security office before that time. While delay would not effect his own benefit payments, it might mean lower benefit payments to his survivors in case of his death before he makes application to establish his disability.

Family-Farm Progress In Texas Is Noted By FHA

Annual gross cash income grew from \$4,880 to \$8,021 in five years for a group of Texas farm families who obtained Farmers Home Administration farm ownership loans in 1950 to buy, enlarge, or improve their farms, the agency's State Director Walter T. McKay reported today.

The average net worth for these Texas farm families advanced from \$7,301 before they received their farm ownership loans to approximately \$10,900 at the end of their fifth years of operation under that loan program.

Before the loans were made the average family in the group was operating 189 acres but was operating 224 acres in 1955. The combined value of equipment and productive livestock owned by the average family in the group was \$4,538 before the loan was made, and was approximately \$6,686 in 1955.

Figures showing these advan-

ces, together with five-year progress along other lines, come from a survey of 1955 borrowers who obtained loans in 1950. A similar survey is made each year. The 1956 figures will be available in 1957 showing five-year progress made by those who got their loans in 1951.

Farm ownership loans are made to buy family-type farms, enlarge undersized farms, develop farms, and refinance debts. Funds come from private lenders under the insured loan program or from annually appropriated funds, and are amortized for periods up to 40 years. On an average the loans are repaid in 9 years. Insured loans are limited to 90 percent of the fair and reasonable value of the farm. A loan to buy a family-type farm cannot be made if the fair and reasonable value of the farm is more than the average value of efficient family-type farms in the country.

CROSS AIDING HUNGARIAN REFUGEES

Humanitarian refugee, one of thousands fleeing to the USA from strife-torn Hungary, is fitted with a coat by a Red Cross worker before leaving. Mrs. John Kilmer, of Cleveland, Ohio, is seen with her husband, one of the young men. The Red Cross is serving humanitarian relief to the refugees in the form of food, medicine, clothing and necessities in London and Budapest, is launching a campaign to raise \$1,000,000 in this year to meet costs of the mammoth humanitarian program. By the end of the year the Red Cross will be feeding over 200,000 victims in Hungary, besides supplying needed clothing, fuel and medical supplies.

"Baking results become really important when I'm cooking several fruitcakes at a time!"

says MRS. BILLY HENRY
520 WEST VIRGINIA ST.
FLOYDADA, TEXAS

GETS CONTROLLED HEAT

"I've cooked electrically for years, so naturally when I bought a new double oven range, it was electric. When I am working with expensive fruit cake ingredients, my baking temperature must be exact. I have found that an electric ven gives me exactly the controlled heat I want."

RANGE DOES PERFECT JOB

"The double oven model is excellent, not only in my fruit cake baking, but comes in handy for family dinners and entertaining friends. Handy, too, for quick snacks are the surface units . . . they're so fast. I find my new range does a perfect job whether it's a quick snack or the fully loaded ovens."

LIKES ELECTRIC!

Mrs. Henry describes her home as an electric one and she says, "We are all proud of our electric appliances which make living more enjoyable."

Fieldton Facts By Mrs. R. A. Reed

AREA RESIDENTS ATTEND RITES AT PORTALES

Several from Fieldton attended funeral services for Mrs. Ray Pool, Monday, at Portales, N.M. Mrs. Pool and her family were residents of Hart Camp community, several years ago.

Among those attending were Mr. and Mrs. Calvin Hukill, Mr. and Mrs. H. T. Hukill. Mrs. Pool died suddenly of a heart attack. She is survived by her husband and seven children.

J. B. Aldridge, from Dallas, visited here from Saturday till Monday, with his brother and wife, Mr. and Mrs. W. J. Aldridge.

R. V. Stanfield, who has been a patient for over a week, at the Amherst hospital, was slightly improved at the last report. Their son M. Set. R. W. Stanfield, stationed at Roswell, has been with his father part of the time. Also their daughters, Mrs. G. W. Woods, of Ft. Sumner, N. M., and Mrs. Frank Phillips, of Albuquerque.

Mrs. Paul Green accompanied a friend, Mrs. D. L. Greenwood, of Spade, to Dimmitt Sunday, where they visited a daughter of Mrs. Greenwood.

Mr. and Mrs. Calvin Hukill spent most of last week, at Bovina, with their son and wife, Mr. and Mrs. Lavon Hukill. They were assisting the younger couple in moving to the farm.

Mrs. Paul Chumley, her two sons, and daughter, Sue, from Howe, spent Thanksgiving here, with her sister, Mrs. Charles Adams and family, and other relatives.

Visitors in the home of Mr. and Mrs. Leon Cassetty and sons, over the Thanksgiving holiday were her father, W. L. Rowan, a brother, Thomas Rowan, a sister Mrs. W. C. Alden, all of Blue Ridge, Texas, and Mr. and Mrs. Sam Montgomery, from Garland, Texas.

Mrs. Hardy Collins, sister of Mrs. C. V. Hill, has been released from the Littlefield hospital and is again staying with her daughter;

with his mother and other relatives. John Muller accompanied them to Lawton and visited with his daughter, Mrs. Loyd Joyner and family.

Mr. and Mrs. Harold Robinson have been in Arkansas for the last two weeks, attending to busi-

ness at their farm, near Booneville.

Mrs. H. C. Pickrell and Linda, from Pierre, S. Dakota are visiting relatives here, at Lubbock and Amherst.

Mr. and Mrs. T. D. Terrill, from Quanah, visited here last week, with her aunts, Mrs. Sher-

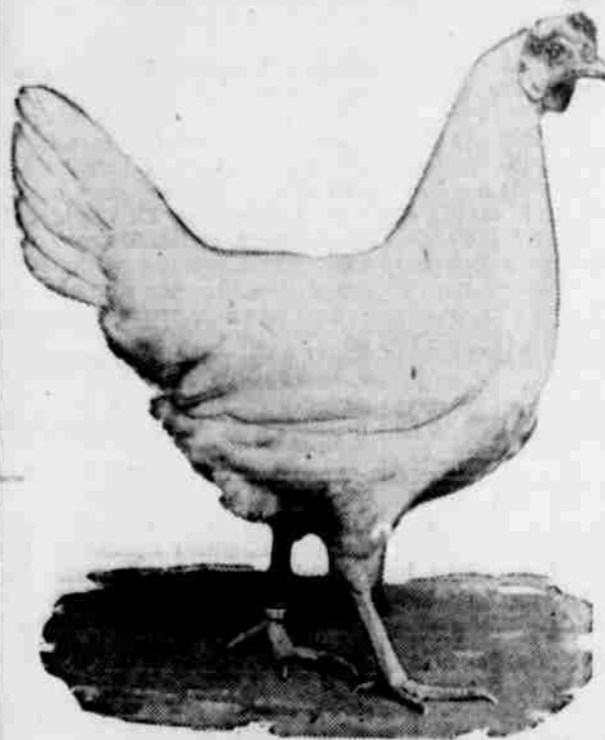

man Rushing, Mrs. Paul Green, and their families.

Supper guests in the home of Mr. and Mrs. Charles Adams and children, Friday night, were Mr. and Mrs. Leon Cassetty, and their three sons, their house guests, W. L. Rowan, Thomas Rowan, Mrs. N. C. Alder, Mr. and Mrs.

Sam Montgomery, Mr. and George Cassetty and from near Vega.

Mr. and Mrs. Vernon, Mr. and Mrs. Basil Jefferson, Dianne attended a regional Thanksgiving dinner at the home of Vernon, Mr. and Mrs. H. W. Qualls, Sr., at

DTD YOU KNOW

The Texas Longhorn, a cross between Spanish aristocracy and American mongrel milking stock, was never recognized as a definite breed?

Hart Camp Happenings

By Mrs. Junior Muller

Mack Wheeler has returned to California to live after spending two months with his parents the M. W. Wheelers.

The Roy Osthus family were dinner guests Thanksgiving in the home of his mother, Mrs. C. M. Osthus in Littlefield.

FORMER RESIDENT IS HOSPITALIZED AT DENVER
 Buck Fredrickson has recently been hospitalized at Lubbock and Temple and is now in a Denver, Colo., hospital. Fredrickson is a former community resident and owns a farm near Hart Camp.

The Johnny Lalhunts attended the Andrews-Littlefield football game at Andrews Thanksgiving afternoon.

FORCHER HOME IS SCENE OF FAMILY GATHERING
 Mr. and Mrs. Don Mullin and Donna were dinner guests Thanksgiving in the home of her parents, the Bruce Porchers near Littlefield. Among the other guests

an aunt of San Augustine, Mr. and Mrs. Louis Porcher, of Dallas, Mr. and Mrs. John Porcher, Mr. and Mrs. George Porcher and Mike, Mr. and Mrs. Ben Porcher, Jr., Ben Porcher, Candace and Bobby Don and Porchers' mother.

Guests in the J. C. Muller home Thanksgiving were H. E. Lucy of Spade, the Gerry Langfords of Levelland and the Junior Mullers

Mary Scribner, sophomore student at Olton High School is a candidate for Miss Future Teacher at the F.T.A. convention, Dec. 11, at Wayland College in Plainview.

The Andrew Jarnigans have moved to the farm they purchased from Jess Runtree.

Mr. and Mrs. Albert Scribner Mary and Wendell spent several days last week at Holly, Colorado,

where they formerly resided and returned home Sunday.

Among the quail hunters, Saturday, were M. W. Wheeler, Roy Johnson, Duane Fields, Aubrey Neinst, Junior Muller and E. P. Oliver.

Mr. and Mrs. Mae Tucker of Littlefield were supper guests in the S. C. Owens home Saturday night.

The L. H. Neinst family visited John Humphrey at the Amherst Hospital Sunday. Humphrey lost a finger when his senior ring caught on a trailer.

Mr. and Mrs. Oliver Bier of Plainview visited in the H. V. Lynch home Sunday.

Kelley Davis of Southland spent the weekend with her cousin Suzanne Martin.

Mr. and Mrs. Dewey Parkey and sons were Thanksgiving dinner guests in the H. V. Lynch home in the afternoon the Lynchs and Parkeys drove to Floydada and visited relatives.

R. S. Moore and son Grandy of Portales celebrated birthdays Sunday. Attending the birthday luncheon were the Ernest Ragle fam-

ily of Plainview, the Grady Moores of Portales, Mr. and Mrs. R. S. Moore and J. Fae.

MRS. LYN H DIRECTS WEEK OF PRAYER PROGRAM
 The Hart Camp W.M.U. met at the church Monday afternoon. Mrs. H. V. Lynch was in charge of the "Week of Prayer" program. The theme was "Hallowed Be Thy Name".

Attending were Mrs. Blanton Martin, Mrs. Dewey Parkey, Mrs. L. W. Sullivan, Mrs. Charles Vandlandingham, Mrs. Roy Osthus, Mrs. Harvey Jones, Mrs. R. S. Moore, Mrs. H. V. Lynch and Mrs. Junior Muller. A map of world missions was on display during the program.

Members of the W.M.U. and Brotherhood with their husbands, and wives, are invited to a Christmas Banquet at the church parlor Monday night Dec. 10th at 7 o'clock.

Guests in the Harvey Jones home for Thanksgiving supper were the George Jones' of Anson, the Lloyd Hayes of Spade, and the Jim Robinson of Fieldton.

Fish swim upstream because it is easier to obtain food than by swimming downstream.

Pfc. O'Dell Takes Part In Pacific Marine Operation

IWO JIMA, (FHTNC) — Pic. Oscar L. O'Dell, son of Mr. and Mrs. Albert L. O'Dell of 809 Williams st., Littlefield, participated in amphibious shop-to-shore maneuvers with the 9th Marine Regiment of the 3rd Marine Division on the tiny volcanic island of Iwo Jima.

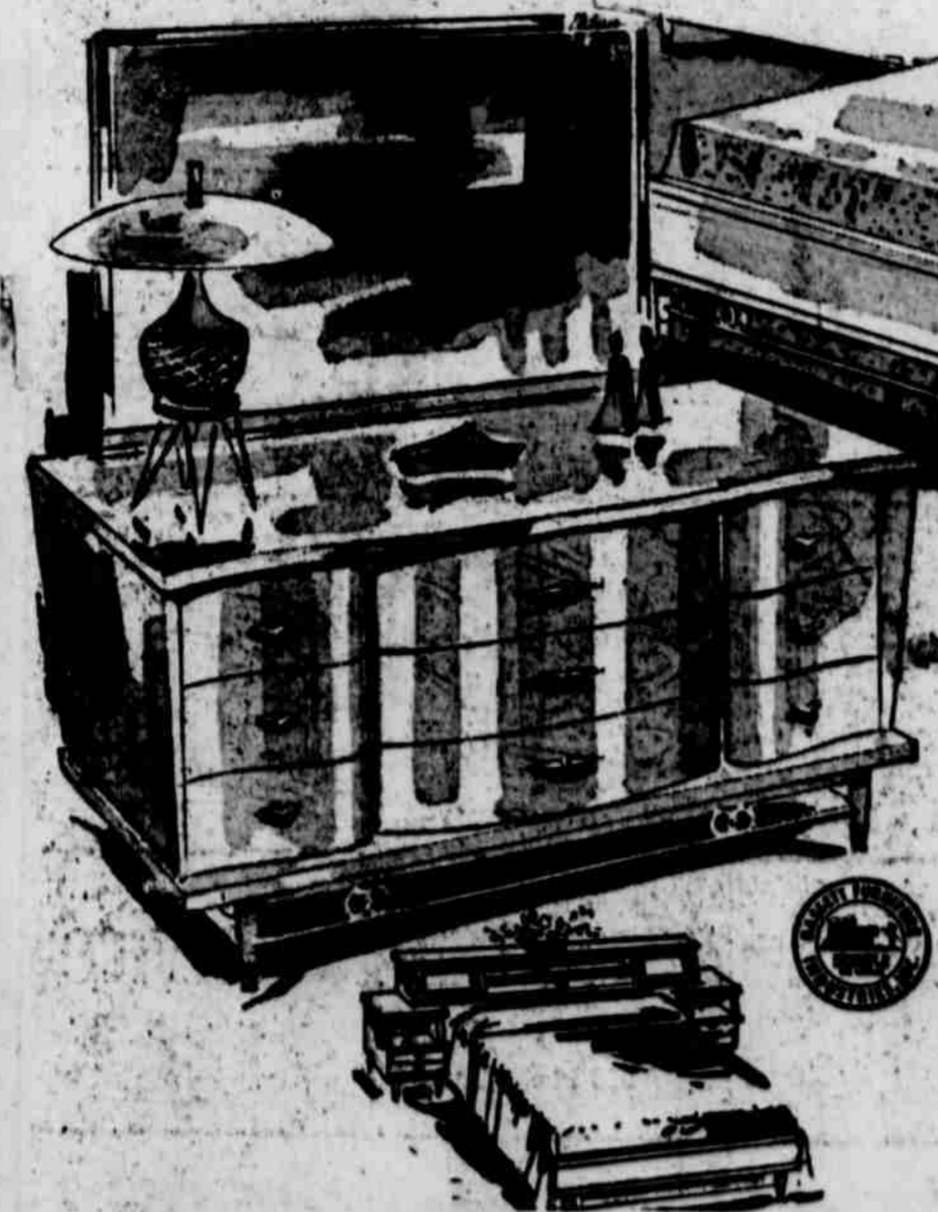

Highlight of the maneuver came Nov. 12 when part of the landing forces, using small landing craft, hit the beach while other Leathernecks hopped over the simulated beach defenses in helicopters to an inland site.

The maneuver was part of a continuous testing program of the Marine Corps' original vertical envelopment theory which provides a landing force with a powerful one-two punch for securing a beachhead.

HART CAMP WOMEN ATTEND SHOWER AT AMHERST

Mrs. L. H. Neinst, Mrs. J. W. Wells, Mrs. L. E. Ball, and Mrs. W. P. Neinst attended a pink and blue shower for Mrs. Barry Bearden at Amherst Friday.

"TEMPO" BASSETT'S NEW CREATION IN Moon-Mist Mahogany

Triple Dresser, Night Stand, Bookcase Bed

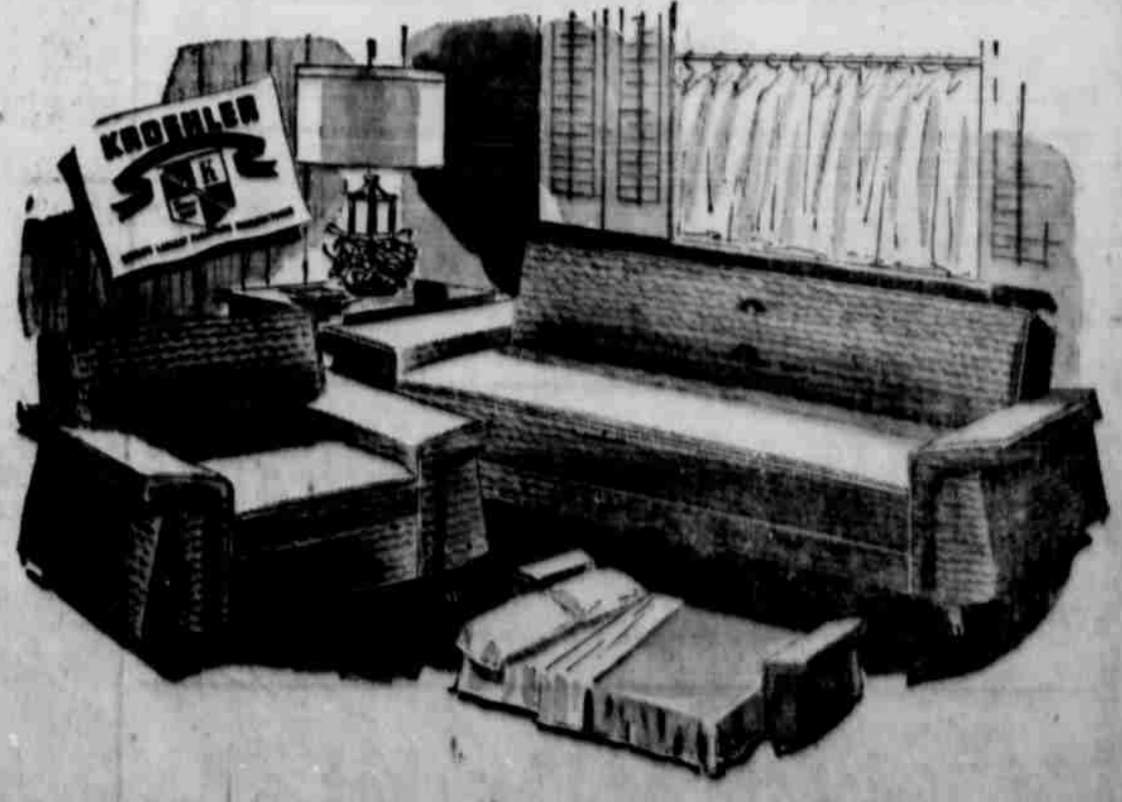

Through the tremendous production of the world's largest bedroom furniture manufacturer, we are able to offer this new massive modern bedroom at a fraction of the price you'd expect to pay! The clean, simple lines show off the beautiful hand-painted finish. Contrasting accents of gleaming brass in stretchers, legs and drawer pulls. The huge triple dresser will store loads of things... and you can depend on the quality for years and years of satisfaction. Famous DuPont "Dulux" finish... Pittsburgh plate glass mirror, dozens of other fine features.

Wyatt, Judy and Jimmy of Eldorado; Mr. and Mrs. Henry Randolph, Jane at Pat; Mr. and Mrs. Ray Glascock, Larue and Connie; Mr. and Mrs. Lynn Glascock and children; Mr. and Mrs. Barney Glascock and son; and Mr. and Mrs. Earl Glascock and children all of Earth.

Mr. and Mrs. Willis Allen and children; Mr. and Mrs. Arnie Lee Allen and children of Quinion, Tex.; spent Thanksgiving holidays with their parents, Mr. and Mrs. Marvin Allen.

Mr. and Mrs. Barney Glascock have moved into the Crill Bullis farm north of Earth. Mr. and Mrs. Leonard Stephens will move into the Glascock house.

Mr. and Mrs. James Glascock and Mary Beth of Bledsoe spent Saturday night in the home of his brother, Mr. and Mrs. Ray Glascock.

Linda Glascock spent Saturday night with Janie Randolph. They visited other relatives Sunday.

Mr. and Mrs. D. E. McCarty and Macky spent last weekend with their daughter and family, Mr. and Mrs. J. C. Smith in Safford, Arizona. The Smiths moved to Arizona, from California about a month ago.

Mr. and Mrs. T. C. Martin took Mrs. R. C. Martin to Lubbock Sunday to be at the bed side of her father.

Mr. and Mrs. T. C. Martin then

IT'S THE LAW in Texas

A public service forum of the State Bar of Texas

OUR "BILL OF RIGHTS"

With December 15 being observed as "Bill of Rights Day" throughout the land, many persons are (or should be) thinking about what this important "document" means to them. This column will attempt a brief explanation of its meaning.

The American "Bill of Rights", consisting of the first ten amendments to our federal constitution, all adopted at one time in 1791, specifies in some detail a number of basic civil rights of the individual citizen. Unaltered by subsequent amendments and jealously guarded by our courts, these privileges must still be respected by our governing bodies today.

Among the most familiar of our constitutional guarantees are those relating to freedom of religion, speech, and of the press. The same article protects the rights of peaceable assembly and the privilege of petitioning the government for redress of grievances.

Another amendment secures our persons, houses, papers and effects against unreasonable searches and seizures, and specifies that no warrants shall issue but upon probable cause, and unless supported by oath or affirmation.

The due process of law amendment encompasses not one but several guarantees. Every American is secured against being placed twice in legal jeopardy for the same offense; against being compelled to be a witness against himself in a criminal case; and against having his private property taken for public use without just compensation.

He is also secured against being held for trial for a capital (death penalty) or other infamous crime, unless upon a presentment or indictment of a grand jury. And, of course, no person may be deprived of life, liberty or property without orderly court procedures, on due process of law.

The right to a speedy and public trial, by an impartial jury, in the locality where the crime was committed, the right to be informed of the nature and cause of the accusation; and the rights to compel attendance of defense witnesses and to have the assistance of defense counsel in all criminal prosecutions are secured by another section of the "Bill of Rights."

Excessive bail and fines, and cruel and unusual punishments, are prohibited in Amendment VIII. Other articles insure the right to bear arms and ban quartering of soldiers in private homes during peacetime.

Then, to make quite clear to our governing bodies the underlying intent of the preceding provision, the Ninth Amendment states: "The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage other retained by the people."

The Tenth Amendment further emphasizes this basic theory by providing: "The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people."

Thus that fundamental philosophy expressed in the Declaration of Independence, that men are endowed with certain unalienable rights, and that "to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed," has been carried forward into the highest law of our land.

(This column, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

went to Meadow, Texas, where they were dinner guests of her niece and family, Mr. and Mrs. Albert Joplin and children.

Mr. and Mrs. D. E. McCarty visited her sister and family, Mr. and Mrs. Ralph Burt of Lemon, Texas, Sunday.

Mr. and Mrs. J. B. Martin and girls and Sandra Kaye Martin visited relatives in Hereford Sunday.

Dovle Bills and Donald Stephens left Sunday for Houston where they will enroll as students in the University of Houston.

Mr. and Mrs. W. C. Maxey were dinner guests of their daughter and family, Mr. and Mrs. Lexie Branscum of Farwell Thursday.

Jannie Branscum spent a few days with her brother and family Mr. and Mrs. Lexie Branscum of Farwell.

SOLOISTS FOR THE MESSIAH PRESENTATION scheduled December 19th at the Littlefield High School auditorium were selected recently. Five of the eight singers selected are pictured above, left to right: Miss Trudy McGee soprano; Charles Heathman, J. H. Penn, bass; Kenneth Hill, tenor; and Paula Sue Jensen, soprano. Other soloists are Miss Teddy Jo Bitner, soprano; Mrs. Arthur Hunt and Miss Jo Ann Hall, alto; and accompanists, Mrs. J. H. Penn, Mrs. Ivan Fowler and Miss Gracie Russell.

The time is near..

VOLUME 23 LITTLEFIELD, LAMB CO., TEXAS, THURSDAY, DECEMBER 6, 1956 NUMBER 28

Water Shortage Brings Pitfalls for Cities, Declares Judge Dent

ROLEY B. DRAKE
of cities without adequate water for immediate and future needs were brought into the Judge Otha F. Dent, a member of the Texas Board of Engineers, and a former judge of Lamb county. Judge Dent in a recent address...

that has an adequate water supply now and for the foreseeable future is an exception, rather than the rule.
Water Use Increases
"During the past century urban per capita water use increased from less than 50 gallons per day to 135 gallons (estimated use of water in the United States, 1950 by MacKichan). This figure includes the water used for fire protection, certain small community enterprises and street flushing, but does not include water used by industry.
"Household automaton has also had its part in increasing the per family use of water and until the last (time-saving appliance) is installed, the upward trend in water use will continue."
Delay Causes Trouble
Caught in a four-way squeeze between fast growing population, increasing per capita de-

mand, lack of finance and a prolonged drought, countless communities have been brought face to face with the realities of an inadequate water supply system, Judge Dent said.
From the cross road communities to the great metropolitan areas there are approximately 3,200 population centers in Texas, and included in that number are about 800 incorporated cities.
"The magnitude of Texas," said Judge Dent, "is measured by its great distance and manifold extremes. From the humid east to the arid west and from the northern high plains to the coastal Rio Grande these population centers face problems notable not only for their number but also for their diversity.
Need O. Water Universal
"Yet with all their diversities and variations there is one basic and fundamental problem

common to all the population centers:
"Need of water."
Judge Dent declared that water sets the pattern for human activity.
"With the state's population increasing at the rate of a quarter of a million each year, only water will set the limit on the state's ability to absorb this increase of population and its accompanying industry. It will be the one factor determining whether the additional population and its accompanying industry will be retained by the state or will look elsewhere to more favorable areas.
"When the books are balanced on the state's economy, the presence or absence of water will be the determining factor as to whether or not a community, town or city, will be an asset or liability."
Water A Civic Responsibility
Judge Dent said that "the im-

mediate problem that is or should be uppermost in the minds of all city officials is the assurance of an adequate water supply to their inhabitants now and in the future."
The judge said that a great many Texas cities have recognized that they have a water problem, either immediate or in the future, and are taking steps to correct the situation.
Judge Dent commented that "unfortunately" some cities with a water problem are not actively engaged in "firming up" future reserves.

Spade Scoops By Mrs. Joe Prater

Mrs. C. B. Blankenship of Salem, N.M., is visiting her son and family, Mr. and Mrs. Joe Blankenship.

Visitors in the homes of Mr. and Mrs. Joe Prater and Mr. and Mrs. Bayne McCurry and Roger Prater's sister and brother-in-law, Mr. and Mrs. Clarence Chumley of Farmers Branch, and their daughter and family, Mr. and Mrs. Ed Russell, Debbie and Eddie of Irving.

H. R. Wallace went hunting in Hall county last week.

Edward Mitchell went hunting and visited relatives at Quail during the Thanksgiving holidays.

LINDA HOPPER UNDERGOES SURGERY
Linda Hopper, daughter of Mr. and Mrs. Travis Hopper of Spade,

underwent tonsilectomy in the Medical Arts in Littlefield last Wednesday. She was improving nicely at the home of her grandparents, Mr. and Mrs. E. T. Miller of Littlefield the first of the week. Linda was carried to the hospital the second time last week where she remained until Sunday afternoon.

Eleven ladies attended the "Foreign Mission Week of Prayer" program at the Baptist Church Monday at 8:30 a.m. Mrs. J. R. Inklebarger was in charge of the program.

Monday at 7:30 p.m. in the Spade School the Farm Bureau held its regular monthly meeting.

Colleen Bundick, a student at W.T.S.T. at Canyon was home during the Thanksgiving holidays.

Mr. and Mrs. Joe Gregson were presented with their first granddaughter Nov. 26 in the Littlefield hospital. She weighed 7 lbs. and 11 ozs. and is named Donna Le Gay. Her parents are Mr. and Mrs. Gaither Vanderveer of Littlefield. The mother was formerly La Verne Gregson, a graduate of Spade High School.

Wille Steffey has purchased the Luther Kirk farm which he has operated for several years. It is 3 miles west and two south of Spade.

Herman Biffle has sold his farm which is 3 miles south and 1 1/2 miles west of Spade.

Rev. Bill Wadley, Rev. M. M. Crawford, Rev. Dennis Heard, E. C. Glass, A. F. Sladek, J. G. Anderson and Joe Prater attended jail services in Littlefield Sunday afternoon. Rev. Crawford was in charge of the services.

Mr. and Mrs. J. P. Minor of Ft. Worth are visiting her parents, Mr. and Mrs. W. M. McCurry. Mr. and Mrs. Lynn Talley of Lubbock were weekend guests in the McCurry home.

Mr. and Mrs. Floyd Hensley of Abilene were guests in the home of Mr. and Mrs. Jerry Quigley, Monday.

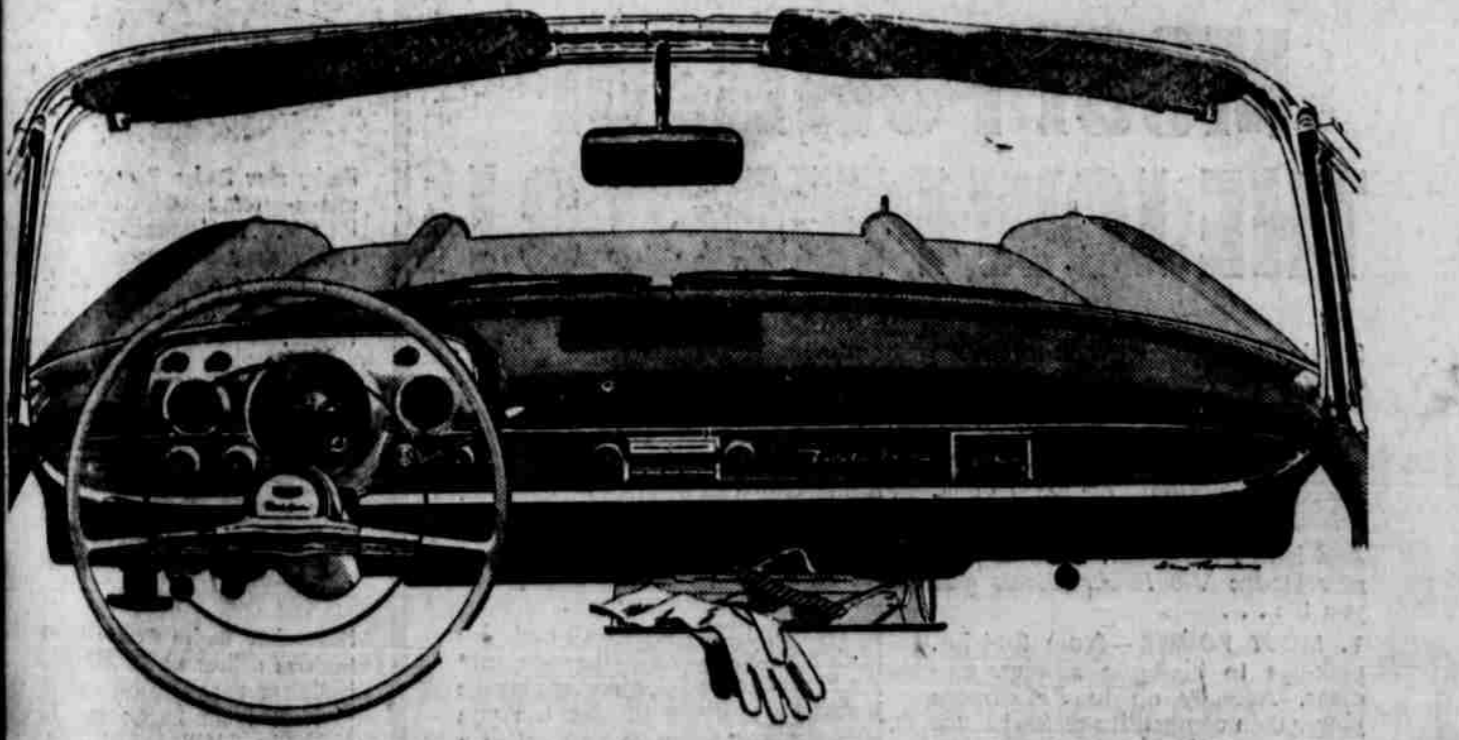

er, Littlefield will vote on a program to assure Littlefield adequate water for the present and through the years.
"like almost everything human experience," said Dent, "fall into two categories: those that recognize the additional water supplies doing something about it, and those that only recognize the problem in this case, alert ones. Some of our people have not yet felt the pinch of rationing, or other re-temperary phenomena, consequently have not begun to think of the future to anticipate and resultant actions seems incredible that the publicity being given those cities that are searching for future supplies, there are some feel that a water shortage problem they will never face."
Dent pointed out that the designated municipal supply system of 12 or 15 miles very likely is inadequate to meet the present day needs.
Former Lamb county resident out that "the city

Mahon Urges Action On Light Spot Cotton

LUBBOCK (Special) — Rep. George Mahon has wired Secretary Benson, urging him to immediately set in motion plans which will guarantee a loan basis on light spot cotton for the 1957 crop year.
This action followed a meeting of a block of representative farmers from approximately 30 West Texas counties on November 28. At the meeting a resolution was unanimously approved calling upon the Department of Agriculture to include a specific loan on light spot cotton in the government loan program.
Attending the meeting were representatives of the Plains Cotton Growers Association, Farm Bureau, and Farmers Union. Other industry and producer groups were also represented.
In his message to Secretary Benson, Mahon pointed out that the

Area FFA Group Makes Donation

WHITHARRAL — For the past four years Area I Future Farmers of America has made donations to Boy's Ranch. This project was started during the school-year 1952-1953, by giving a "beef a month" to the ranch, eight beefs were donated that year. During the year 1953-54 and 1954-55, funds totaling \$864.00 were given to help start a vocational school.
Last year when Vocational Agriculture was added to the ranch's school curriculum and a F.F.A. chapter was organized, funds totaling \$402.90 from 30 F.F.A. Chapters in Area I were donated for the purpose of establishing a loan fund for the Future Farmers at the ranch, whereby they can borrow money to finance individual projects.
This annual drive is made during the month of November, and the Future Farmers of Whitharral chapter have again made a contribution of \$6.75 to this cause

You get better looking in a '57 Chevrolet!

There's a whole new outlook behind the wheel—a bigger view of the road over that sassy hood. And isn't that new instrument panel a honey!

Look through that '57 Chevrolet windshield and you see how its new, deeper design gives you better, safer vision.

Glance down—just a bit—and your eyes rest on the sweetest instrument panel a car ever had.

Then, take the wheel and you'll find the going's even better than the looking! (Horsepower ranges up to 245.)^{*} Come in and see.

Fowler Rites Conducted

Funeral services were held Thursday for Mrs. A. M. Fowler, mother of three Littlefield residents, Thursday, at Mansfield, Texas.

Mrs. Fowler, 84, died after suffering a stroke, Tuesday, at Los Angeles, California.

Survivors include three sons, B. A., M. R., and G. A., all of Littlefield and two daughters, Miss Gertrude Fowler of Los Angeles and Mrs. Elmer Oliver of Dallas.

Mr. and Mrs. B. A. Fowler, and M. R. and G. A. Fowler attended the services at Mansfield. Burial was in Mansfield Cemetery.

for business or for pleasure ... and seem to be thoroughly enjoying themselves. It is good business for the South Plains to encourage these folks to come among us ... true, they are celebrities ... but inside they are just folks who "came up from ranks" ... they like a good old fashioned West Texas welcome better than most of us realize.

— M B D —

We spent many years of our life on big daily newspapers, and in those days we interviewed numerous outstanding men and women ... heads of great corporations ... politicians ... famous folks in the entertainment world ... and noted writers.

With very, very few exceptions we found these folks friendly ... down to earth people who enjoy being friendly and appreciated friendly gestures ... they had climbed the ladder of success by thinking big and being big in heart.

— M B D —

More than 400 persons—some of them as far away as New York, California and Canada—are expected to attend the convention of the American Association of Sheriff's Poses and Riding Clubs. Nearly 100 riding clubs and posess are associated with the AASPRC in the United States and Canada, with a total membership of more than 3,500 persons.

— M B D —

And, concerning celebrities, Rex Bell, lieutenant governor of Nevada, former motion picture actor and humorist, will be the principal speaker at the AASPRC convention.

Appearing with Bell will be his wife, Clara Bow, the famous "It Girl" of the Roaring Twenties, "Hol of the Silent Screen."

— M B D —

Somebody was thinking ... thinking friendly ... when they arranged to have Rex Bell and Clara Bow on hand, all smiles ... absorbing the heart-warming welcome of West Texas.

— M B D —

And anent welcoming folks ... there's nothing that can take the place of a cool, refreshing drink of good water ... let's vote for the water program bond issue December 11 ... AND HAVE PLENTY OF REFRESHING WATER ALWAYS ON HAND TO WELCOME FOLKS TO OUR LAND.

BANK EMPLOYEES ENJOY MORE "FRINGE BENEFITS"—LIKE HOSPITALIZATION AND MEDICAL SERVICES, PENSIONS AND LIFE INSURANCE—THAN THOSE IN ANY OTHER INDUSTRY, ACCORDING TO U.S. CHAMBER OF COMMERCE.

First Farm Labor Day Is Success

Some 13 area farmers and more than 40 area workers attended the Texas Employment Commission's first Farm Labor Day Monday at the local TEC office.

Object of the special occasion is to bring laborers and farmers together in an effort to solve placement problems. During the day, 10 men were placed with visiting farmers and the office took about 25 new applications for employment.

The second and last Farm Labor Day of this year is scheduled this coming Monday, when TEC representatives hope to place more workers with farmers who need them.

Mr. and Mrs. Beryl Harris and family were guests in the home of Mr. Harris's father, B. R. Harris at Amarillo during the weekend. They attended funeral services at Pampa for Mr. Lee Harris, the Littlefield man's grandfather, before returning home.

Olton News

By MARDEMA OGLETREE

Mrs. Marguerite Covert and Miss Ethel Haigrove visited Rev. and Mrs. R. H. Campbell of Gruver last weekend.

Mr. and Mrs. Ernest Sturch spent the Thanksgiving holidays in Yuba, Oklahoma.

Mr. and Mrs. Bob Worley and Bennett visited in Lubbock Sunday in the home of Mr. Worley's brother, W. W. Worley.

Mr. and Mrs. T. B. Wheeler and children spent the Thanksgiving holidays with her parents, Mr. and Mrs. Dudley at Godky, Texas.

Mr. and Mrs. Robert Burgess and Kathy spent Thanksgiving Day

Olton School Lunch Room Serves Record 1002 Lunches

OLTON — The Olton School Lunch Room broke all previous records last Wednesday when 1002 lunches were served during the hour and one-half lunch period. The menu for the day was turkey and dressing, giblet gravy, green beans, cranberry salad, hot rolls, milk, and pumpkin pie and whipped cream.

The lunch room employs fourteen adults, and Mrs. Margie Slatten is supervisor and has served in that capacity since 1942.

Recently the kitchen area was enlarged. Lunch room equipment is valued at around \$50,000.00.

Not only are the Olton school

children assured of a tasty, well-balanced meal served by the school lunch room, but they have come to expect and take for granted the little extra touches. Always there are seasonal flower arrangements on the table. In the winter months artistic dried arrangements are used. Holidays bring a festive touch to the lunch room in both decor and menu.

And the name, "Margie", affectionately used by old and young alike, brings a glow of appreciation.

Lipstick Logic ...

At the beauty parlor the other day we got to talking about packages. There was one at home, I said, which I hadn't opened.

"An unopened package? How can you stand it?" the hairdresser exclaimed. Her husband, she said, was in Germany for two years and sent gifts often. "When Mother would call me about one," she said excitedly, "I couldn't even wait till after work. I'd phone a customer to come early, then, run home between shampoos to open it."

But that was different, I said. Each of her packages was a contact with her absent husband. They were more than presents. Then she talked of the things he had sent—beautiful china, jewelry, Dresden figurines ... "And let me show you something I've kept all this time." ... She opened a door in her dressing table to search.

I'm not sure what I expected, certainly not what she soon placed in my lap: a wooden box top about a foot-and-a-half square, neatly lettered with her address, a serial number and Mannheim, Germany, return. It still bore all the parcel post instructions that came with it in 1952.

"I guess that's silly," she said, suddenly embarrassed. "I brought it down to show the girls the lettering, and I just never have thrown it away."

Silly? Not at all. Up till now, she had seemed a quiet, efficient mind-and-body, attached to highly skilled hands. Now she was a human being, real feelings and a fine set of values. The Dresden figurines were at home gathering dust. She kept the box top where she spent most of her waking hours. It symbolized for her the man she had married—patient, orderly, clean-cut, generous and thoughtful. Why shouldn't she cherish a thing that refreshed such tender memories?

Letters To Santa Claus

Dear Santa,

For Christmas, I want an electric stove, a refrigerator, a washing machine, and candy, fruits, and nuts. Don't forget all the poor boys and girls.

Love, Charlene Brown, Age 6
810 W. 7th.

Dear Santa,

I am a little girl of three years, and I would like an ironing board, iron, and a tiny bear doll. Remember not to forget the other little boys and girls.

Love, Pamela Roberts
1500 W. 4th, Littlefield.

A weekend houseguest in the home of Miss Gay Ferguson at Tulla was Miss Linda Latimer of Littlefield. Jimmy "Jo" Jamieson, of Littlefield also visited in the Ferguson home Sunday. Miss Latimer and Mr. Jamieson returned home together, Sunday afternoon.

in Lubbock with Mrs. Burgess's father, Ira Kirby.

Mr. and Mrs. C. R. Stockstill were guests in the home of Mr. and Mrs. Calvin Hammons in Lubbock Thanksgiving Day.

Mr. and Mrs. William DeBerry and Mr. and Mrs. Durward Price attended the State Baptist Training Union Convention in Dallas last Thursday and Friday.

Mr. and Mrs. Roy Bartlett Granbery and Kay Jeanine of Lubbock spent the Thanksgiving holidays in the home of Mr. and Mrs. Roy Granbery.

Kay Granbery, daughter of Mr. and Mrs. Roy Granbery and student at Texas Tech, was home during the Thanksgiving holidays.

Mrs. O. R. Ogletree, Judy, Vicki, and Mike visited relatives in Andrews last Thursday and Friday and attended the Littlefield-Andrews football game.

Mr. and Mrs. E. C. Jones and Ellen and Charla Granbery went to Austin last Thursday for the A&M-University of Texas game and then to Dallas for the S.M.U.-T.C.U. game, they returned home Sunday.

Mr. and Mrs. Ernest LaFrance and Patricia and Mr. and Mrs. O. B. LaFrance and Cheryl Poet were in Dallas during the Thanksgiving holidays.

Mr. and Mrs. Lowell McGill and daughter visited Mrs. McGill's parents, Mr. and Mrs. O. F. Dent, in Austin during the Thanksgiving holidays.

are observing "Twirp Time" this week and next.

Although Mr. Webster knew nothing about "twirp time", the modern teen-ager influenced by Quisy Mae and Lil' Abner of funny paper fame knows that "Twirp Time" means girl dates boy, which is an innovation similar to man bites dog.

And Mr. Webster probably would not be half so surprised at the coining of a new word as would Emily Post be at the establishing of a new custom in American teenage society. Not only does girl date boy and call for him in her family's car, but she also foots the bill—which might be termed "poetic justice".

During the Thanksgiving holidays Mr. and Mrs. Drexel Lawson and sons and Mr. and Mrs. Cass Kirkpatrick and daughters went on a sightseeing trip to El Paso, Juarez, and the Carlsbad Caverns in Carlsbad, N.M.
