

Know Your Water Laws" Is Subject Of Meeting Tonight

The "Water Law" is the subject of a county-wide rally at 8 o'clock in the Amherst auditorium to which 1200 well users have been invited.

The meeting will give farmers the opportunity to express opinions about forming a district under the Underground Water Conservation Law of 1949, and to ask questions about the law.

local-control law, now is the time to stand up and be counted", said Gus Parrish, president of the Lamb County Water Conservation association, rally sponsors.

ing a meeting today in Plainview of the High Plains Water Conservation and Users association.

School Enrollment Here Shows Increase Of 222 Students Over 1949 Figures

A census recently completed in the Littlefield schools shows an increase of 222 students over last year.

White boys in Littlefield schools outnumber girls 977 to 918. Colored students are about evenly divided with 129 boys and 128 girls enrolled.

LAMB COUNTY LEADER

VOLUME XXVII. LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, MAY 4, 1950 NUMBER 20

Assets Exceed Half Million Mark

The directors of the Littlefield Federal Savings & Loan Association have announced that the assets of the association have been steadily increasing in the past few months and have now exceeded the half-million dollar mark.

The regular monthly meeting of the directors of the Littlefield Federal Savings & Loan Association was held Monday afternoon and announced directly after the meeting that the association has increased the assets through additional investments to over a half-million dollars.

This announcement came just after the fourth anniversary of the association. The association was organized in May of 1946 and has enjoyed a continued growth through the confidence and savings of individuals in this area.

Is Non-Resident Student Of American Bible College

Rev. Weldon B. Meers, pastor of the Littlefield Missionary Baptist Church, has been accepted as a non-resident student in the American Bible College, Chicago, Illinois, to do further research work and study on a course leading to the doctor of theology degree.

Knights Wait For Aid From Bill In Congress

"We are just waiting with our fingers crossed."

That describes the situation now for Mr. and Mrs. E. J. Knight, 1924 Duncan St., who have worked industriously for a year to bring their grand-daughter and daughter-in-law from Germany and now must wait for Congress to make their dreams become reality.

Their son, Billy J. Knight, married a German girl, Ellinor, while he was serving in the Army of Occupation four years ago and a baby girl named Dortha was born to them in September of 1948.

In the spring of 1949 Billy returned to the United States on furlough to visit his parents, but death prevented his ever returning to his wife and child.

DORTHEA KNIGHT

MRS. ELLINOR KNIGHT

On May 23 he went to Buffalo Lake near Umbarger on a fishing trip with his father, brother Kenneth and other friends. After fishing on the bank he started to swim out to a dock 100 yards from shore but was drowned in the attempt.

When they contacted Ellinor Knight in Munich they found that the baby was ill and she was unable to support the child. She was also unable to present evidence in proof of her marriage to Billy.

House To House Survey Planned By Rural Telephone Association

A house to house survey is being planned for the near future by the Lamb County Rural Telephone Association to obtain the necessary subscribers so that an application may be made to the REA for a loan.

Members of Home Demonstration clubs in the county may possibly make the survey, according to Dick Carl, manager of the Lamb County Electric Cooperative. The advisability of such an arrangement will be discussed at a meeting with Home Demonstration women in Levelland tonight.

Although applications have been slow in coming in, interest was shown in the Pettit community where a meeting was called to discuss joining the association. Carl expressed the hope that other communities would follow Pettit's lead and hold meetings to discuss the telephone plan.

Plans now call for an application for 250 miles of lines with two subscribers per mile. Five hundred subscribers would be necessary before the application could be made.

phones or not. He expressed the hope that the people concerned will investigate and consider the possibilities.

Miss Foltyn Will Present Recital

Miss Catherine Foltyn, daughter of Mr. and Mrs. Joe Foltyn of Sunday, will present her senior piano recital on May 7 at 3 p. m. in the Littlefield High School auditorium.

She will play selections by Bach, Mozart, Chopin, MacDowell, Schubert, Debussy, Rachmaninoff, and Gershwin.

Miss Foltyn is a senior in Littlefield High School and is a member of the National Fraternity of Student Musicians and the National Guild of Piano Teachers.

Five Students Will Compete In State Contests At Austin

Five Littlefield High School students will leave for Austin this morning to compete in the state interscholastic league contest to be held there.

The students won the opportunity to compete at Austin by surviving the stiff regional competition held on the campus of Texas Tech in Lubbock on April 20 and 21.

The debate team composed of Robert Rutledge and Bill Gray gained first place in Region I and hope to repeat their performance in Austin.

Three second place winners at Lubbock will also compete. Diane Hall will meet top high school typists from the state and Eudene Glover will take part in shorthand competition.

Bob Cox will compete in the athletic competition running the 880 yard dash.

Accompanying the students will be Miss Doris Brantner, shorthand teacher; and Forest Martin, track coach.

Students To Speak At Rotary Meeting

A youth service program under the direction of Dr. William N. Orr is planned for the Friday meeting of the Rotary club in the dining room of the First Methodist Church.

Coy D. Orr, Junior Rotarian, who won the \$100 youth service scholarship offered by the Rotary club will speak at the meeting as will Donald Tiley and Joe Walters.

Coy Orr was selected for the award on the basis of scholarship, leadership in school, and high citizenship rating and other requirements. The rules and standards were set up by a committee composed of Dr. Orr, Dr. Ira Woods and Norman Renfro.

PURCHASES TOURIST COURT

C. W. Grant has purchased Mountain View Courts at Red River, N. M., and will leave next week to carry out certain improvements to his project.

Bob Kirk Appointed Commander Of Zone At Legion Convention

Bob Kirk, past post commander of the Littlefield American Legion post, was appointed a zone commander at the annual spring convention of the 19th Congressional District held at Big Spring, April 29 and 30.

The 19th district was divided into eight zones and Kirk will command the zone which includes Lamb and Bailey Counties. He attended the Big Spring convention as a representative of the local post.

State Commander Joe Spurlock, who addressed the convention Sunday afternoon, warned that Communist infiltration in the United States is greater than we think and that if it is not checked within two years it may be too late.

C. Of C. Sponsor Program To Take Place May 17-18

Schools To Be Checked From Attic To Basement

Littlefield will undergo a thorough fire inspection on May 17 and 18 by 40 experts of the West Texas Field club of the Texas Insurance Advisory association. The inspection is sponsored by the Littlefield Chamber of Commerce, Littlefield insurance companies and the West Texas Field club.

During the two days the inspectors will check hotels, churches, and every mercantile business house for fire hazards. Residents will inspect their own homes, using special blanks available at the schools or from school children.

The West Texas Field club is one of four similar organizations in the state sponsored by the capital stock fire insurance companies who make up the Texas Insurance Advisory association. Field club members are all special agents representing stock fire insurance companies who do town inspections such as this as a public service.

A preview to the two-day inspection will be an all out inspection of Littlefield schools on May 8.

Superintendent of Schools Joe Hutchinson said that the schools will be checked from attic to basement by a quintet of trained experts from the Field club.

In cooperation with the inspection an essay contest on fire prevention has been started this week in the High school and a poster contest in the grade school. Insurance men will award prizes of [continued from page one]

Lions Hear Report On District Meeting

Activities at the Lion's district convention in Childress were reviewed by Tom Hilbun, president of the Littlefield Lion's Club, at a luncheon yesterday.

Hilbun attended the convention in Childress yesterday at which Harold Butter, second vice president of Lions International spoke on the United Nations.

Dr. Marshall Harvey, Lubbock was elected district governor of District 2-T-1 at the convention and Miss Patty Reynolds, Texas Tech Sophomore of Kermit, was selected district queen from among 50 district contestants.

Hereford was selected convention site for 1951.

Important Matters Discussed Soil Conservation Heads

Problem of spending a \$10,000,000 appropriation, the first of four years expected to total about \$40,000,000 over a period of two years, considered by the Board of Conservation of the Lamb County Conservation District at a meeting Monday night.

the 51st Legislature. It must be spent by September on some project which is to the advantage of the district, or it will revert back to state funds. It must be spent in such a way as to provide an even return on the investment.

Two ideas were advanced by the board members: the handling of different kinds of seeds and fertilizer or the buying of heavy dirt-moving equipment, such as a maintainer and bulldozer. The latter move would enable the district to speed up work on applications for bench leveling over 22,000 acres.

The board of supervisors voted to defer decision on the matter until they can get the views of more farmers on the best way to spend the money. They invite every person who is interested to give an opinion.

covering 23,951 acres for the year, making an all-time total of 374 applications covering 85,555 acres.

Plans have been worked out on 66 farms, representing 13,004 acres, this year. In treating every acre for its best use the farmer have applied 1170 acres of bench leveling, 7907 acres have been mapped for improved methods of irrigation; 665 acres in cover crops and improved pastures; 15 miles of terraces; 2300 acres of contouring and other conservation practices, such as irrigation well locations, soil testing and water analyses.

The report added that farmers and ranchers of the Lamb County Soil Conservation District have been very cooperative in helping carry out the district-planned program; that businessmen and civic organizations have been cooperative in helping with educational (Continued On Back Page)

Watch Repairing JACK FARR Jeweler

Meat Prices In Canada and Here

Canadians view with regret that meat prices in the Dominion are much higher than in Texas.

And Texans who have eaten Canadian peameal bacon would give half a fat steer for all the peameal bacon they could eat.

Now read the editorial which appeared in a recent issue of The Expositor, a daily newspaper published at Brantford, Ontario, Canada.

"This, as poets and philosophers have remarked, from time to time is a crazy world. Many of the things in it do not make much sense, and while this may be diverting it is also perplexing.

"Take the price of meat, for instance. Here is an attractive advertising item: 'Steak, fancy ranch style, 45 cents a pound; T-bone steaks, baby beef, 49 cents; pork chops, tender cuts, 39 cents; bacon, 35 cents.'

"The foregoing is from a currently received issue of the Lamb County Leader, a newspaper published in the thriving town of Littlefield, Texas.

"Meanwhile, of course, prices for comparable cuts in this more northerly part of the world run between 69 and 72 cents a pound for steak, the same for T-bones, 49 to 59 cents for pork chops and 59 to 74 cents for bacon.

"Of course, Texas is a cow state and therefore sensibly enough, a meat state, and logic suggests that this is the reason why prices down that way are down by comparison with those up here. There is also the matter of climate to be taken into account.

"But the seemingly screwy angle of the case is that one of the reasons given for the price levels in Canada is that Canadian meat exported to the United States can demand such high prices that the figures properly remain in the present brackets in Canada too. Well, Texas is in the United States but presumably Canadian meat is not competing with the Texas stuff, and one wonders if the Texas packing houses could not ship some of their succulent goods to this Dominion and still offer pretty fair competition on the market."

BULL LAKE PHILOSOPHER FIGURES OUT A SOLUTION FOR THE FARM SURPLUS PROBLEM—LAY OFF A YEAR

Editor's Note: The Philosopher on his Johnson grass farm on Bull Lake has just about reached the apex of lazy proposals in his letter this week as you'll see by reading the following. Dear editor:

Seems like every time two Congressmen, two farmers or two businessmen get together they talk about the farm surplus, and any time an editor runs dry of ideas he writes about it too.

As I understand the problem, we farmers are so good at farmin we've outdone the automobile manufacturers, refrigerator makers, atom bomb makers and the other experts and piled up a surplus nobody knows what to do with.

Like it stands, if the government stops payin us for product a surplus, we'll go bankrupt, and if it doesn't, it'll go bankrupt, and there ain't much to choose from between a busted government and a busted set of farmers, although I've heard of countries getting along with both for years.

However, as I understand the argument, if us farmers would produce less, the price of corn or cotton or wheat or rice would stay high because of the law of supply and demand—there ain't no chance of the consumer public getting no reduction whatever takes place. In other words, if we reduce the surplus, the country would be payin in just as much for its food but nobody would mind and editors would be out of editorial matter because there wouldn't be no embarrassin surplus.

In fact, I have heard of some experts in Washington privately hopin for a first class crop failure this year. They figure this would overcome the surplus and restore things to normal and get people's mind off on something else, maybe Russia or flying saucers.

Now I ain't settin myself up as an expert, but I've got a solution to the surplus problem even better than a crop failure.

Why not just let us farmers take a holiday this year? Just lay off the next twelve months and sit in the shade.

If the object is to cut down on

the surplus, why wear out yourself and your machinery goin up one row and down another and runnin a chance of not havin a failure? Be worse off than we are now.

If the government is gonna guarantee us a livin, regardless of the market price of cotton or corn or wheat or rice, why run up a year's wear and tear on us and our equipment? We've already a year ahead of the rest of the country, we ought to be allowed to sit by and wait till the rest of you all catch up with us.

Yours faithfully,
J. A.

CARD OF THANKS

We kindly thank all friends and neighbors, both old and new, for their many kindnesses during the long illness and death of our husband and father.

The Family of J. R. Montgomery

OLTON SENIORS

The Senior Class of Olton High School presented a three act comedy entitled "Moonlight and Applesauce" Tuesday, May 2, at 8 o'clock at the school auditorium.

Jim and Skipper

By Faith Helen Faust

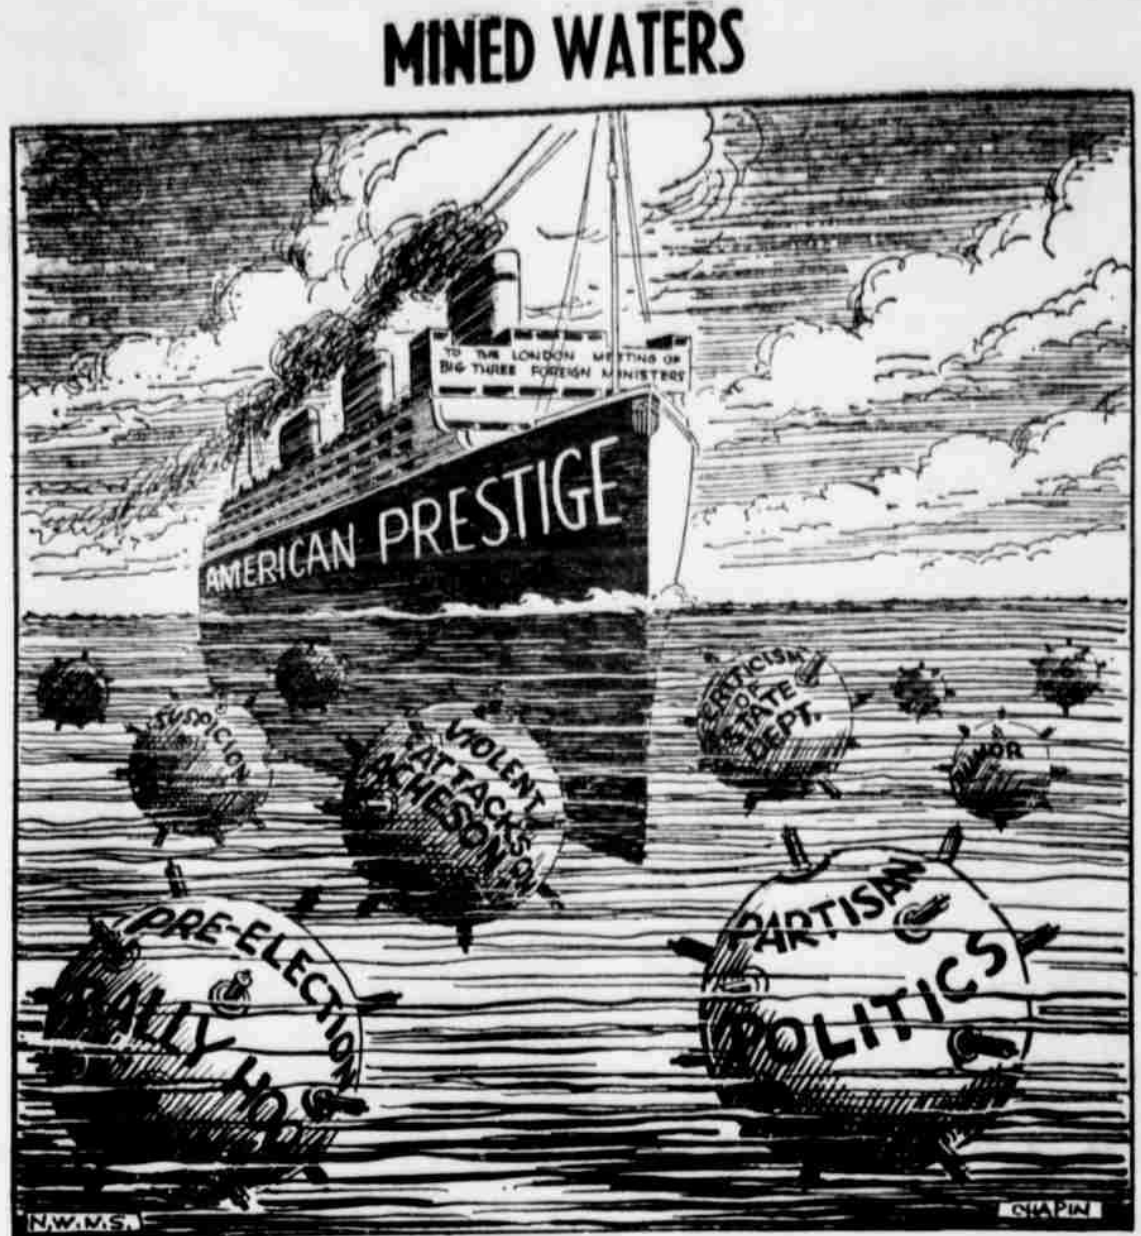

There was a black dog who did not belong to anyone. A few people fed him and tried to make him stay. Most people just chased him. They called him Skipper.

Skipper really wanted to have a little boy to live with. After school he would walk with some children. Always their mothers would chase him.

Jim was a boy who wanted a dog very much. He would bring something every day to give to Skipper. Skipper would walk home with Jim after school. But, Jim's mother would chase Skipper.

There was a lake in this town. Jim wanted to go fishing in the lake. He got his boat, fishing tackle and worms and went to the lake. When he got to the lake he started fishing.

Jim caught three fish. Just as

he was about to throw the line in once more a wave came with a big piece of driftwood in it. The driftwood hit the side of the boat. It made a small hole. The water began to come through the hole. Jim began bailing out the water. Too much water was coming in. Jim yelled for help. Some men on shore

began rowing out to him. Skipper heard him first. He ran down the block and jumped into the lake. He swam as fast as he as the boat sank. He grabbed Jim's shirt in his mouth. The waves helped Skipper swim in toward land. The men coming out to Jim

and met them half way to the shore. They wrapped Jim up in a blanket and took him home. When he got home he told his mother what Skipper did. She said, "I am going to reward Skipper by letting you keep him." Skipper was very happy. At last he had a little boy to live with.

BRIGHT NEW TOUCH TO A BIG BOLD MAN
See something new here? That's right—the gleaming new look of the ROADMASTER Buick today, extra touch of distinction that's yours as a standard feature.

What's the secret of the "UNRUFFLED" RIDE?

SOME car makers say springs make the ride—and so we give every Buick four of the soft, gentle coil springs practically all cars use on front wheels only.

Some say the drive is important—how power is transmitted to the rear wheels.

We agree—and use a torque-tube drive, that takes up all the thrust, freeing rear springs of driving pulsation.

Some stress tires—so you'll find low-pressure casings on every Buick, mounted on our own kind of Safety-Ride rims. Some play up shock absorbers—we make ours fast, soft and sure in action, to wash out all "after-bounce."

Then there are frames—and car weight—and engine mountings, which on Buick are a very special kind used nowhere else.

They're all important—yet the plain truth is no one of these things—or two or three—gives a ride you can truly call "unruffled."

We feel it takes all of them—springs, tires, shock absorbers, drive, engine mountings—carefully and precisely brought into balance with each other.

You can see why we think so in any Buick—SPECIAL, SUPER or ROADMASTER.

You can feel it on cobblestones

and car tracks, washboarded ground and weather-pocked macadam, country lane and city street. You even feel it on boulevards, which grow still smoother when you travel them in a Buick—especially when it has Dynaflo Drive!

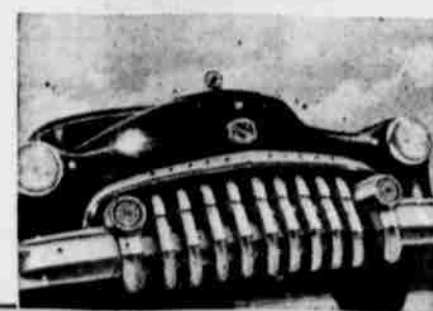

So we would like you to try a ride that is truly "unruffled." Free of harshness—undisturbed by jounce and jitter—level—steady-going—smooth.

Just ask any Buick dealer for a chance to try out any Buick. You'll find it "the ride of a lifetime"—and the buy of a lifetime too!

*Dynaflo Drive is standard on Roadmaster Special and Super models at extra cost on Super and Special models.

FOUR-WAY FOREFRONT

This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

Only Buick has Dynaflo—and with it goes!

HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER model). NEW-PATTERN STYLING, with MULTI-GUARD forefront, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SEAT less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, steering torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

fares; and
"WHEREAS, excessive speeds of overloaded and oversize vehicles upon our already crowded highways is hastening the day of utter collapse of our State Road System and such speeding is a most vital factor in the ever growing rate of death and destruction that rides the roads with these speeding monsters; and

"WHEREAS, there are now 32 License and Weight Inspectors of the Department of Public Safety, working in pairs patrolling the 33,645 miles of State Highways, or an average of 2100 miles per pair, who in the past six months, through fines collected for highway law violations and registration fees have paid into the Road and Bridge Funds of the several counties of Texas the sum of \$339,383.03; and

"WHEREAS, these 16 pairs of License and Weight Inspectors, who are more than paying their own way, are wholly inadequate to protect our highways from abuse, to say nothing of the more than 180,000 miles of county rural roads, most of which are served by old outmoded weak culverts and bridges.

"NOW, THEREFORE BE IT RESOLVED, by the West Texas County Judges and Commissioners Association assembled in convention, this the 14th day of April, A. D. 1950, in El Paso, that each county in Texas be urged to initiate a vigorous, fearless and sustained program of law enforcement in behalf of the public interest to protect our roads, bridges and highways of this State, built by the public and for the use and benefit of the public; and

"BE IT FURTHER RESOLVED, that we urge the State Department of Public Safety to intensify a strict enforcement of the highway laws, particularly those offenses of overweight, oversize and speeding of heavy commercial vehicles, and that we urge the State Highway Department to give closer scrutiny and more rigid supervision to the practices of issuing special super-heavy and oversize permits; and

"BE IT ALSO FURTHER RESOLVED, that the number of License and Weight Inspectors be increased so as to adequately protect our highways, and we recommend to the motoring public to bear in mind at all times that the "for hire" use of our highways is a privilege and not a right.

Inadequate Paved State County Roads

us Forms Of Of Highways Explained

conference of the County Judges and Association at El Paso, Texas, discussed, according to F. Dent, president of the association, the problem of inadequate and increased costs, they are deeply concerned with the complacent attitude of some users of the millions invested in State roads.

resolution passed by the association, they have tried to bring to the attention of the public the abuse of the highways on the part of those who have made certain suggestions which they feel would be in the public's best interests.

the cost of construction and maintenance of County roads has increased in Texas as has increased the volume of traffic and the size of the individual automobiles. This traffic is such a point far beyond the capacity of the State and the county roads to keep pace with the demands, and

the present sources of funds for the construction of such needed state and county roads and their proper maintenance is wholly inadequate.

due to the lack of adequate funds and the increase in the costs of material and equipment for construction and maintenance of roads and bridges, it is essential that we use common sense in the millions of dollars we invest in our system of roads.

the gross load limit under the State law increased 342 per cent decade, but in the face of the fact that the general load allowances, the damage to our roads, and highways has resulted in a loss of some highway miles and simply with respect to the fact that this selfish and practice of overloading the roads is destroying them faster than they can be rebuilt or repaired. It is an extra heavy tax burden upon our roads and our users, and

the practice of increasing the length of roads and extra height on length loads, that could be as the law requires, is a great hazard and is endangering the lives of the motoring public. It is a deep into their pockets for these thorough-

About People You Know

Mrs. E. L. Winston left Friday afternoon for San Antonio to visit relatives a few days, including her brother-in-law, E. P. Lively, who is critically ill. Mr. Lively has been sick sometime, and his condition is growing worse.

Mrs. Jodye Jones who underwent an appendectomy Tuesday of last week at the Payne-Shotwell Foundation, is reported as getting along fine.

Van Clark returned Friday from Mineral Wells, Texas, where he had been resting and taking baths. He had been gone two weeks.

Rev. Lee Hemphill, who underwent an emergency operation for appendicitis the first of last week, at the Payne-Shotwell Foundation, was getting along satisfactorily and was released and went home Friday.

Sgt. Charles Chapman, who is

with the Marines, and stationed at Burstow, Calif., and who is ill with an enlarged kidney and a patient of the hospital at the base, is reported to be some better. He will be obliged to remain in the hospital two or three weeks.

C. B. Burdine, who sustained serious injury in an automobile accident on August 31 last, and has been a patient of the Payne-Shotwell Foundation since that time, was dismissed from the hospital Saturday. Mr. Burdine sustained a broken leg, broken jaw, and many other injuries. He is able to walk by the aid of crutches.

Mrs. Lee Furrh, who underwent major surgery at the Payne-Shotwell Foundation two or three weeks ago, is still a patient of the hospital and getting along nicely now.

Dr. and Mrs. James Shotwell re-

RED-CONTROL . . . Thomas Harris, assistant general counsel for the C.I.O., tells an-American activities committee that communism can be and is being successfully combated in the U.S. without recourse to measures like the Mundt-Nixon-Ferguson bill.

turned Friday from Dallas, where Dr. Shotwell attended the Dental Convention, which opened Monday last week and continued through Thursday.

C. D. Branner who has been vacationing at Hot Springs, N. M., and taking the baths, returned home Friday. Mr. Branner, a former resident of Spade, is now living at Anton.

Dr. and Mrs. C. E. Payne left Sunday morning for Fort Worth, where they are attending the State Medical Convention, which opened Monday, and is running through Thursday.

Mr. and Mrs. O. K. Yantis, Jr., Mr. and Mrs. D. D. Yantis, and Mrs. Mutt Houk spent last week end at Odessa visiting in the home of Mr. and Mrs. Alph Wright.

Mr. and Mrs. Roy Gattis and Mr. and Mrs. Ellis Foust left Thursday on a two weeks' vacation trip to California, where they will visit points of interest.

Mrs. Ira Woods accompanied her mother, Mrs. Sallie Thomas, to Ft. Worth to visit her son for a few days. They were accompanied by Mrs. Alice Douglass and daughter, Miss Erna, as far as Decatur, where they visited in the home of Mrs. Douglass' daughter and son-in-law, Mr. and Mrs. H. S. Usury, and her grand-daughter and grandson, Mr. and Mrs. Hoyt Talley. They all returned home to Littlefield Saturday, and report a big rain in that area.

WOODCRAFT FIGHTS T. B.

Medical science has made great strides in combating Tuberculosis. But it's still the dread No. 1 killer of people 15 to 34 years old.

That's why the Woodmen of the World hasn't let up in its mighty, successful war on T.B. at Woodmen War Memorial Hospital, San Antonio, Texas. Nearly 5,000 Woodmen have been treated there free of cost in the past 27 years . . . the lives of most saved.

This is one of Woodcraft's "plus" fraternal services along with safe, sound, legal reserve life insurance protection.

Ask your local Woodmen representative to help you select the Woodmen certificate that best meets your needs.

Citizens of Littlefield:

There will be a complete fire inspection of Littlefield on May 8th, 17th and 18th

Yes, for your protection against heavy losses in property, money, and even life, fifty special agents from fire insurance companies all over the state will make a thorough survey of schools, churches, business houses, and homes in an attempt to eliminate the existing fire hazards.

To prevent scenes like the one shown is the sole aim of the group. To accomplish this, they point out hazards and how to correct them.

This week, school children will receive and take home a questionnaire which, with the help of their parents, should be filled out and returned to the school.

Please Cooperate In The Survey

THE QUESTIONNAIRE ASKS ABOUT CONDITIONS IN YOUR HOME WHICH MIGHT CONCEIVABLY LEAD TO FIRES. PERTINENT SUGGESTIONS FOR FIRE PREVENTION ARE ALSO INCLUDED.

ON MAY 8th, THERE WILL BE A VISUAL INSPECTION OF ALL SCHOOLS, TO BE FOLLOWED BY A SIMILAR SURVEY OF ALL CHURCHES, HOTELS, AND BUSINESSES. THE LATTER PROGRAM WILL BE ON MAY 17-18.

We Are Proud Of The Privilege Of Cooperating In This Outstanding Civic Activity

HELP! ... An embarrassed man sits at an open hatch of the S. S. Exeter sailing from New York harbor. He was saying "bon-voyage" to a friend and forgot to get off at sailing time. A tug finally took him back to shore.

Students Urged To Enroll Soon For Eight Week Summer Session

William Brune, supervisor of public schools, who will be in charge of the summer school at Littlefield High School, advised today that students from Littlefield and surrounding communities who plan to attend the eight week session enroll as soon as possible in the superintendent's office.

The session will begin on May 22 and close July 14 offering students the opportunity to earn one or two half-unit credits.

Those students who should attend according to Dr. Brune are: pupils who wish to make up for failing work, pupils who wish to have a broader opportunity to select subjects in the regular term by taking some required work in the summer school, pupils who wish to finish school ahead of their

regular class, pupils who wish to strengthen their academic background, and pupils who were out of school due to illness or some other cause.

Courses in English, history, mathematics, and civics are suggested but courses will be offered where there is sufficient demand. A \$10 fee in advance for each half-credit course will be required.

Special consideration will be given to students seeking graduation requirements.

The most disconcerted woman we know is married to a man who won't argue, and who adds to her confusion by making frequent and profuse apologies, most of which she says are absolutely unwarranted.

Congratulations To--

The following parents whose babies were born at the Littlefield Hospital:

Mr. and Mrs. Kenneth D. Heard of Littlefield on the arrival of a son Monday, April 24, weighing 8 lbs. He has been named Kenneth Don.

Mr. and Mrs. John A. Crowley of Littlefield on the birth of a daughter Wednesday, April 26, weighing 7 lbs, 2 oz. The child has been named Johnita Alene Crowley.

Mr. and Mrs. Robert L. Ramage of Anton on the arrival of a daughter Thursday, April 27. The little lady weighed 7 lbs, 7 oz., and has been named Linda Jo.

Mr. and Mrs. Bobby L. Masten of Sudan on the birth of a daughter Thursday, April 27, weighing 7 lbs., 8 oz. She has been named Vicki Dolores.

And congratulations to parents whose babies were born at the Payne-Shotwell Foundation:

Mr. and Mrs. Wm. Franklin Thompson to whom were born Tuesday, April 25, a son, weighing 9 lbs. He has been named William Franklin.

Mr. and Mrs. Charlie Vidler of Rt. 1 Littlefield, on the arrival of a daughter Tuesday, April 25, weighing 6 lbs, 8 oz. The child has been named Sherry Ruth.

Insurance

Builds—

YOUR INSURANCE COMPANY

STANDS READY TO:

(1) PREVENT

(2) PROTECT

... yes, your insurance company's first duty is PREVENTION. In line with that policy, fire insurance companies throughout Texas are sponsoring a thorough fire hazard inspection of Littlefield, May 8th, 17th and 18th.

This week, through the cooperation of the schools, questionnaires will be distributed to the homes in Littlefield. Included are suggestions for corrective measures in fire prevention in the home. It is urged that these pamphlets be filled in and returned to the school.

Later, on May 8th, there will be a visual inspection of all schools in Littlefield. This will be followed on May 17th-18th with a similar investigation of the churches, hotels, and business houses.

So you see, insurance companies are serious about their first-line function, PREVENTION. The second obligation, PROTECTION, can be fulfilled only through your insurance policy.

It's wise to be secure—it's easy to be secure—through insurance.

Plains Farmers Should Practise Watersaving

A recent article in Reader's Digest, written in connection with the current New York water shortage, declared that repairing leaky faucets alone would save 100 million gallons of water daily in that city.

If a single precaution against waste can save so much water, how much more could be saved by practicing not one but several proven water-saving rules.

A tremendous amount of water—more than is used by New York's eight million residents—is pumped from irrigation wells out here on the High Plains of Texas. New Yorkers use 1.2 billion gallons a day. Plains farmers use about 10 times that much in pumping seasons.

A good irrigation well will pump 1,000 gallons a minute. That's 60,000 gallons an hour and 1,440,000 gallons a day, for one well. Multiply that by 12,000 wells on the High Plains and the figure zooms to more than 17 billion gallons a day. Of course, some allowance must be made for the fact that all wells don't pump 1,000 gallons a minute, and all of them don't pump 24 hours daily.

In 1948, 97 per cent of the water pumped from the underground water reservoirs on the High Plains

was used for irrigation. About 1.4 million acre-feet were used.

With the privilege of using the water goes the responsibility of protecting the supply and conserving it so that it will last as long as possible.

Our underground water supply, where it exists, can be made to last forever, if use is soon enough made of the Texas Underground Water Conservation Law, Enacted in 1949, this law makes it possible for water users to band together in local, independent districts to protect, preserve, conserve and recharge the underground water supply.

So far, no districts have been formed to carry on this work. Until the organization can be effected, water users as individuals can practice conservation by observing these recommendations, made after extensive studies by a group of ground water geologists:

1. Conserve rainfall by proper methods of cultivation.
2. Select crops that produce the greatest returns from a minimum of irrigation water.
3. Locate new wells as far as possible from existing wells to lessen mutual interference.
4. Drill wells through the entire thickness of water-bearing sedi-

ments so that all sand strata will contribute to the well.

5. Case the wells with pipe of sufficiently large diameter to permits the pumps to be lowered as the water table declines.

6. Use a power unit adapted for the load to obtain maximum efficiency.

7. Reduce ditch losses by using pipe or an impermeable liner.

8. Apply water at proper times and in proper amounts.

9. Maintain in supervision while applying to prevent waste.

4-H Clubs Help To Beautify And Add Comfort To Homes

Trend of the times—people are spending more leisure hours in the home. This is particularly true of rural folks. Many have recently electrified their homes, added telephones and modern farm machinery. Consequently farm families are giving more consideration to the comfort and the beauty of their dwellings. Of particular value in this direction is the National 4-H Home Improvement program now in its fourth year. Enrollment has increased almost 15,000 in the past, and the number of 4-H'ers awarded county medals jumped from 2,433 to 3,052.

In Texas some 16,500 Club members will take part in the 1950 program, according to the State Extension office which conducts the activity. County Extension Agents and local club leaders give demonstrations, prepare displays and instruct the youth in phases of the home improvement. Members who become skilled in some particular job such as upholstering floor sanding or working with color also give demonstrations. The enthu-

MAID'S PARTY FROCK

The 1950 Maid of Cotton, 19-year-old Elizabeth McGee of Spartanburg, S. C., has a beautiful wardrobe of cotton party frocks in her famous collection of cotton fashions. This chic two-piece was created by Margaret Newman in lustrous cotton satin by Wesley Simpson, the National Cotton Council says. It is designed in shades of India pink and cranberry.

iasm shown by their sons and daughters inspires parents to cooperate in carrying out long-ranged plans to make their homes more livable.

A favorite place for girls and boys, too, has been their own bedrooms. They have done amazing things with a little ingenuity, lots of hard work, a few cans of paint and bright new fabrics. Living rooms should be high on the list this year, because the family finds extra time together indoors. Club members who have been active in the program during the past few years are skilled in renovating old furniture and redecorating the home. Many have done remarkable carpentry work, building closets, cupboards and bookshelves.

Outstanding accomplishment will again be rewarded by the Sears Roebuck Foundation. A \$200 College scholarship will be awarded to the eight top-ranking 4-H'ers in the nation. The State Champion will be given a trip to the National 4-H Club Congress, and county winners a medal. Last year medals were presented to 67 in Texas. State honors went to Barbara Dean, of Alvarado.

To Undergo Rigid Inspection Fire Hazard Monday, May 8

Littlefield will be the first community in the Plains area to be given such an inspection, Mayor Chesher said.

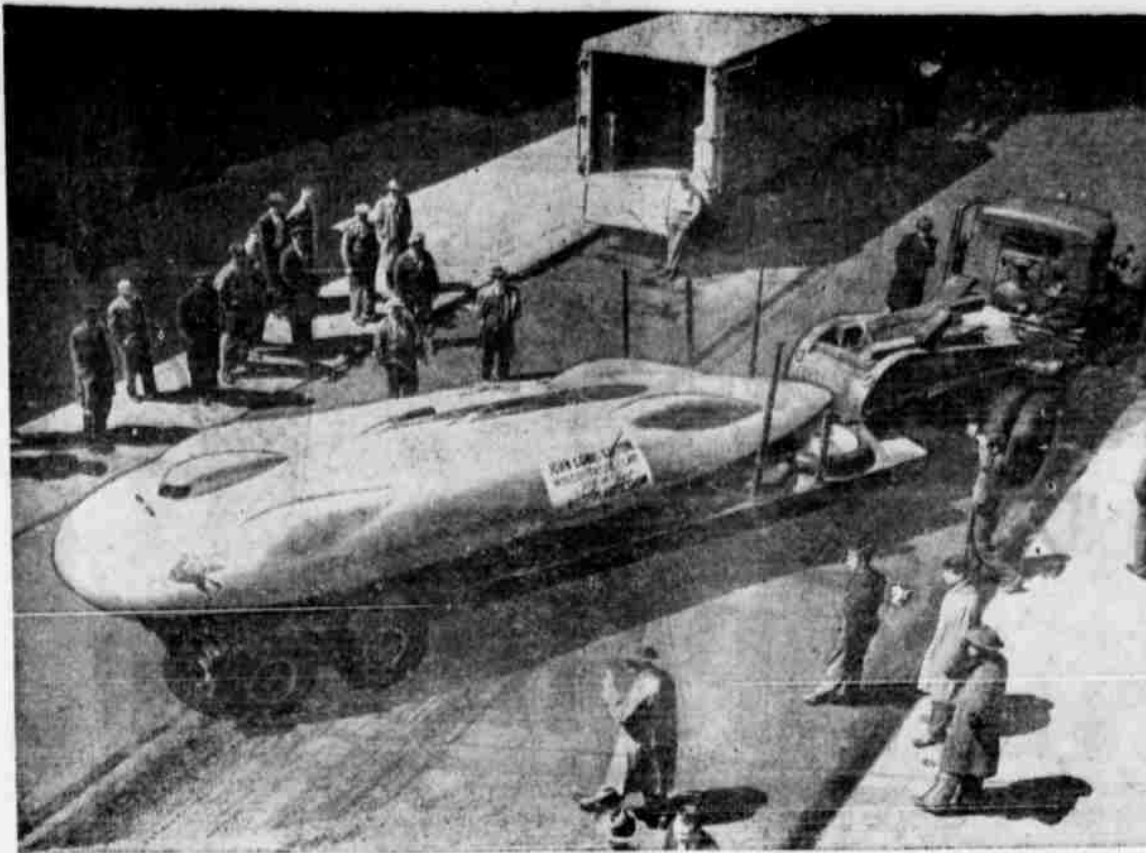

The West Texas Field Club is one of four similar organizations in the state sponsored by the capital stock fire insurance companies who make up the Texas Insurance Advisory Association. Field Club members are all special agents representing stock fire insurance companies who do town inspections such as this as a public service.

Littlefield is the first community in the Plains area to be given such an inspection, Mayor Chesher said.

ATTEND ROTARY MEETING

Four Rotarians from Sudan attended the Rotary International's 183rd District Conference in Amarillo which began Sunday and ended Tuesday of last week. They were Francis Smith, Olan Roark, Jay Miller and Harold Close. Mrs. Francis Smith was the only Rotary Ann from Sudan to attend.

FOR BEST RESULTS —

SPEED PELLET . . . New Yorkers had their first view of the "fastest car on earth" when the 400-mile-per-hour Ballton special was taken from a warehouse in midtown and hauled across Times Square to the Grand Central palace where it was exhibited at the British automobile show.

Sudan Man Sees "Flying Saucers"

At least one Sudan man has joined the ranks of those throughout the country who have seen the "Flying Saucers."

Hugh Vincent, owner of the Sudan Elevators and a former Mayor of the city, recently was traveling near Memphis, Texas when he spotted the tiny looking aluminum colored object high above the clouds. This was the same object spotted near Memphis a week previously by any number of Memphis and Clarendon citizens including a pilot of a commercial airline.

According to Mr. Vincent, the object seemed to be very high above the clouds and was of an oblong shape. "I was at least 15 miles from Memphis, over which the object appeared to be, and Hugh, after spotting it the object was not hard to see. I watched it for approximately 30 minutes. It must have been a huge thing because of the great distance I was away from it and was able to see it clearly with my naked eye."

The dentist is the only fellow we know of who finds it profitable to look down in the mouth.

MISSIONARY GIVEN WASHING MACHINE

A washing with motor and all necessary equipment is to go to Africa sometime in May, with Dr. Roberta Cox, now Mrs. Edwards, as she returns from her furlough in this country. The W.M.U. of First Baptist Church decided to purchase this machine with the help of Mr. and Mrs. Accey Barton. The washing machine has been delivered to the home of Mrs. Edwards' parents in Tuscola, Texas. If you have not had a part in this worthy project and would like to do so, please see Mrs. Homer Sewell, W. M. U. Treasurer immediately.

**New Parsonage
Nearing Completion**

The construction of the parsonage of the Littlefield Missionary Baptist Church is nearing completion. The new parsonage is located in the Duggan addition, the 600 block on 15th Street. It is expected that it will be ready for occupancy in about two weeks. Mr. Lou Wilson, of the Dillon and Wilson Lumber company, is the contractor.

Open house will be held by Rev. and Mrs. Weldon B. Meers in the near future.

City to Have—

(Continued From Page One)

\$7.50, \$5 and \$2.50 for the first, second and third place winners. The essays and posters will be judged between May 8 and May 17 with prizes being awarded on May 18.

The home fire prevention inspection blanks to be taken home by school children for their parents to fill out contain 22 questions designed to appraise the number of fire hazards in the home. Residents are asked to return the blanks to the schools so they can later be examined by the experts.

The completion of the blanks incurs no obligation to the resident but gives him the opportunity to have fire hazards evaluated by experts.

Littlefield will be the first of six cities in the Plains area to be given such an inspection, according to Mayor A. C. Chesher.

Important Matters—

(Continued from Page One)

programs and field days; and that the cooperation of the Highway Department, P. M. A., County and Home Demonstration Agents, vocational agriculture teachers and others has been of great value.

The supervisors cited one of their greatest problems in 1949 as the shortage of cover crop seed was also noted.

The report was prepared by C. H. Messer, chairman, and concurring were A. J. Dutton, secretary, Wallace Gosdin, Raymond Cooper and C. C. Byars, members.

Board members said they would try to attend the annual Soil Conservation Banquet for Region 1, to be held in Tulla May 19. Governor Shivers of Texas and Governor Mabry of New Mexico will be honor guests.

An interest in water conservation programs was expressed following a discussion by Miss Colla Rodman, of the High Plains Water Conservation and Users Association, on the need for organizing a district under the Underground Water Conservation Law passed in 1949.

Membership Drive—

(Continued From Page One)

Edward Rascher, saxophonist; John Anglin, Negro tenor; Lillian Kallir, pianist; Norman Farrow, bass-baritone; Anne Bollinger, Metropolitan Opera soprano; Francis James, violinist; William Massey, pianist; and the Northwest Sinfonietta.

Division chairmen for the drive in Littlefield are: Mrs. Elton Hank, Mrs. E. J. Packwood, Mrs. C. O. Stone and Mrs. O. P. Wilmore.

Representatives in Amberst are: Mrs. J. P. Brantley, Mrs. W. P. Packard, Mrs. Clyde Carter and Mrs. Lester LaGrange. Accepting memberships in Whitharral are: Mrs. L. E. Spears and Virginia Howard. Bobbie Sue Cearley will accept memberships in Earth. At Purglake the drive is under Leo Jolley and Mrs. E. W. Jackson at Sode.

Knights Wait—

(Continued From Page One)

which meant years of waiting for the German immigration quota. The Knights began their fight to support them and eventually bring them here.

That was almost a year ago and the boy's parents have been battling constantly to bring Ellnor Knight and her daughter to Littlefield.

Their efforts began to show results when a bill permitting the entrance of the couple to this country introduced by Sen. Lyndon B. Johnson passed the Senate last Monday.

In the House Cong. George Mahon is struggling to gain acceptance of the bill which would confer United States citizenship on Bill Knight's daughter and permit Ellnor Knight to enter the country without waiting long years.

The Knight's are in continual touch with Ellnor and send as much food, clothing, and money as their resources allow. Her son's insurance money is set aside to bring up his daughter when she is allowed to come to them.

Now the Knights have done all they can and must wait for Congress to fulfill their dreams. They must sit with their fingers crossed, praying that Congress will concern itself with justice as well as law.
