Game Scheduled To Get Underway At 2:30 O'Clock

Littlefield-Morton Game Expected To Produce Outstanding Contest

The Littlefield Wildcats will journey to Morton Friday afternoon to meet the Morton Indians, which game opens at 2:30 o'clock, and promises to be a good game.

The Indians will no doubt be all set to revenge the recent contest here Friday, October 29, when the local eleven defeated the Indians to the tune of 33 to 7.

The probable lineup for the Wildcats will be:

Homer Peel, left end; James Gimmell, left tackle; Melvin Coley, guard; Jimmie Armstrong, center; Neil Singer, right guard; J. C. Davis, right tackle; Doyle Elliott, right end; Buster Owens, quarterback; Cecil Harp, halfback; Winston Barton, right halfback; Billie Lyman, fullback.

Substitutes will be Junior Graham, Gene Pratt, Jimmie Chapman, Edgar McCankins, Walter Sewell, Preston Orr, Kenneth Ware, J. C. West, Charles Pharris, John Willingham and Fred Grisham.

Wildcats Bow To Lobos 20-0 Friday

The Littlefield Wildcats bowed to the Levelland Lobos for the second time this season last Friday afternoon at Seely Field. The score was 20-0, with the tallies being divided among the first three quarters.

The local eleven made a good showing on the field against the strong Levelland squad, but were unable to check the spurts of gained yardage that netted the scores.

Junior Red Cross Roll Call Opens

Throughout the United States a national enrollment campaign is being conducted from November 1 to 15 for the enrollment of schools in American Junior Red Cross.

The annual Junior Red Cross roll call campaign was opened in Littlefield schools Monday morning, Nov. 1. Each teacher is responsible for the enrollment of her own room, or group under her supervision. It is expected and hoped that the Littlefield schools, as well as all the other schools in Lamb county will enroll 100 per cent this year.

Some worthwhile projects have already been started among the students in the various schools of the county as a part of Lamb County's Junior Red Cross Production Program.

Mrs. J. H. Carl is Junior Red Cross Chairman for the county.

Brooks & Deaton Gin Destroyed By Fire Friday Last

122 Bales Cotton Burned At C. E. Dean Gin Sunday Afternoon

The Brooks & Deaton Gin at Lum's Chapel was completely destroyed by fire Friday afternoon together with several tons of cottonseed and 69 bales of cotton.

The fire which started about 2 p. m. was believed to have started in the cotton house when unloading a bale.

The fire truck from Littlefield responded to the call.

Reports are received to the effect that the gin was still smoldering Sunday afternoon.

One hundred and twenty-two bales of cotton were destroyed by fire at the C. E. Dean Gin at Spade Thursday afternoon, when a blaze started in the cotton stored in the open. It is believed this fire started when the high wind blew fire out of the burr pit, representing a loss of between thirteen and fourteen thousand dollars.

Mr. Dean owns several other gins, including one at Valleyview and one at North Spade.

The Littlefield fire truck went to the scene of the fire, and prevented the blaze from further spreading.

At the Irvin Gin here Friday night a bale of cotton on a trailer caught fire. The Littlefield fire boys answered the call, and were able to turn the trailer over, and run it off the burning cotton, and thereby save the trailer and other cotton from being destroyed.

Fire also started in a bale of cotton stored in the open at the Lamb County Cooperative Gin Sunday afternoon, when seven or eight bales were badly damaged.

The local fireboys extinguished the blaze.

A wagon load of seed cotton also burned early Friday morning at the Yellowhouse Gin.

Bob Cox is chief of the local Fire Department.

HOME ON LEAVE
Dale McDaniel, son of Mr. and Mrs. W. R. McDaniel of Whitharral, arrived home Sunday on leave from Camp Roberts, Calif. He will leave Tuesday of next week to return to duty, reporting to Fort Ord, Calif.

Poppy Sale Nets Auxiliary \$119.00

The Poppy Sale, sponsored by the American Legion Auxiliary, and held on the streets of Littlefield Saturday, was an outstanding success. One thousand poppies were sold, which netted a total of \$119.

Mrs. Neal A. Douglass was Chairman of the drive, and was assisted by the following: Mesdames Maude Street, Tom Matthews, E. M. Davis, Warren Rutledge, and Jack Johnson, and Misses Joan Gallisap, Tommie Lou Matthews, Erna Douglass, Regina Evans, Marjorie Claire Joplin, and Connie Wray Hopping.

These poppies are made by veterans of wars in hospitals now, and a portion of the proceeds will be sent to them, and the balance will be used for child welfare and the benefit of wounded veterans.

Mrs. Douglass asked the Leader to thank the residents of this city and area for their splendid cooperation extended in this poppy sale. She stated that the Auxiliary were very appreciative to those who purchased the little red flowers, and also those who helped sell them.

Much Speculation As To What Will Happen In Court

Investigation Continues Over State Into Murder Of Dr. And Mrs. Hunt

The case in which Mrs. Ruth Newton of Cameron is charged with assault with intent to murder, will be called in 64th District Court at Olton Monday, November 15.

The charge against Mrs. Newton is an outgrowth of the shooting of the late Dr. Roy E. Hunt on the night of May 21, 1942, when the physician answered a call to a point on the Littlefield-Levelland highway, about three miles east of Littlefield.

Dr. W. R. Newton, her physician husband, was convicted by a jury in the Olton court, August 25 of this year, on a charge of assault with intent to murder, in connection with the shooting of Dr. Hunt, and was sentenced to seven years in the penitentiary. He has appealed his conviction to the Court of Criminal Appeals at Austin.

When the case in which Mrs. Newton is charged, was called in the Olton court the day following the conviction of Dr. Newton, counsel for defense obtained a continuation of the Cameron woman's case until November 15.

What Will Happen Monday? There has been considerably speculation as to what will happen when Mrs. Newton's case is called in District court in Olton next Monday. Beyond the fact that the case will be called, with District Judge C. D. Russell presiding, what will happen is not known. Even prosecution and defense attorneys are in the dark...

several things can happen in a case called in court under the circumstances in which Mrs. Newton's case will again be brought before the tribunal.

Dr. Hunt is dead. That removes the State's chief witness.

But the prosecution can announce that it is ready to proceed with the trial, and depend on other witnesses in their efforts to obtain conviction of Mrs. Newton. Or the prosecution could ask for a continuation of the case.

In granting a continuation of Mrs. Newton's case last August, Judge Russell instructed all witnesses to be on hand when the case was called November 15.

There are several moves open to the defense when Mrs. Newton's case is called. Defense counsel could announce ready for trial, ask for an-

Newton Lawyer In Interview Tuesday

(Special to the Leader)
LITTLEFIELD, Nov. 10.—Robert L. Lyles, attorney of Angleton, Texas, is to have been employed recently as additional counsel for Dr. W. R. Newton, Cameron physician, called at the August term of District Court at Olton in the shooting of late Dr. Roy E. Hunt of Littlefield on the night of May 20, 1942, in Plainview today.

Newton has appealed the sentence of seven years in the penitentiary to the Court of Criminal Appeals at Austin.

Lyles said that he was in connection with Dr. Newton's case, and that he was preparing the appeal of the doctor to the court. This work involves considerable detail and the preparation of numerous legal documents.

Newton was tried at Olton on a charge of assault with intent to murder.

Governor Acts In Hunt Case

Governor Coke R. Stevenson Tuesday urged the cooperation of his office and asked all peace officers to assist in bringing to justice the slayers of Dr. and Mrs. Hunt.

The atrocious murder of Dr. and Mrs. Hunt challenge the attention of peace officers everywhere," Stevenson declared in a formal statement.

Stevenson said the slayers "should be located, arrested and prosecuted in the fullest spirit of the law."

The governor said he realized the working on the case "have a tough job, and because of an calling on all other peace officers to render every assistance possible."

Stevenson said the slayers "should be located, arrested and prosecuted in the fullest spirit of the law."

Christmas Mailing This Year

Every year of the annual flood of gifts and cards on time, is a serious problem, "will be a problem this year—it is an impossibility—unless mailings are made largely by hand."

Postmaster General C. Walker has warned.

Transportation facilities are being limited with war material personnel, and the Postal Service has sent more than 31,000 employees into the Army.

Mr. Walker said, "The solution to the Christmas problem is the only way to avoid delay on Christmas Day not many civilians but also for members of the armed forces who are still in this country."

also the only way to avoid delay of a Christmas emergency transportation and possession. If the public will cooperate in mailing their Christmas cards during November, we can avoid a small volume of light-weight mailings, such as up to December 10—but we must avoid an emergency November is really 'Christmas Month'."

Food For Freedom

Inauguration of a "Food Fights for Freedom" campaign in Texas during November has been announced at the State War Office, following conference of State officials with representatives of the War Food Administration, the Office of Price Administration, and the Office of Civilian Defense.

A proclamation on the subject was issued by Governor Coke R. Stevenson, chairman of the National Defense Committee of Texas, and bulletins were dispatched to local coordinators of war activities throughout the State.

Simultaneously, information on the campaign was released by the Texas State Nutrition Committee to local defense nutrition committee and by the Office of Price Administration to community service members of local war price and rationing boards.

Presented as a war activity in which every person can participate, the "Food Fights For Freedom" plan carries an appeal for each individual to:

1. Produce more food of the right kinds;
2. Conserve food—avoid waste;
3. Preserve fresh and perishable foods;
4. Turn food into effective working power by eating the right foods every day for health;
5. Adjust his diet to the food available by substituting plentiful for scarce foods;
6. Play fair in buying food;
7. Help keep food costs down—by paying no more than top legal prices;
8. Participate in community food projects;
9. Place the war first and expect to adjust to wartime and post-war.

Responsibility To Next Generation

One important war-time responsibility of parents is to help young children have a tolerant and sympathetic feeling for children of other races, says Dosca Hale, specialist in parent education for the A. and M. College Extension Service. She believes by helping children develop this understanding, the post-war peace will be more secure.

In almost every Texas neighborhood there are people from other lands who have brought much of interest and value. So, the specialist says, if children learn now to appreciate these persons of other races and from other countries, in later life they will be more free from prejudice and discrimination.

Electricity On The Farm

There are in Texas 300,102 farms without central station electric service, the Rural Electrification Administration has advised.

Knowing farm people's appreciation of rural electrification, C. B. Ray, Extension specialist in cooperative marketing, Texas A. & M., predicts a big expansion in REA co-ops after the war. There are now about 74 such co-ops in the state, he says.

Rural electrification is not exactly at a standstill, despite critical shortages of materials. Where electric service will greatly increase war food production, some extensions are being made to REA lines. For example, rural electric cooperatives at Brady, Roby, Robstown, Hondo, and Stanton recently have been allocated loans for this type of expansion.

Commissioned As Second Lieutenants

Graduating as a Pilot, and awarded the Commission of Second Lieutenant at Brooks Field, San Antonio, Wednesday of last week was Joe W. Simmons of Route 2, Sudan; and also awarded Wings and graduating from Blackland Field, Waco, Texas, on the same day was Bennie S. Setliff, Enochs, Texas.

The shadow of more and more wings fell ominously over the Axis super-fabric of once-dreamed invincibility as pilot wings became the possession of hundreds of new combat-ready fliers. Graduation ceremonies throughout the great Southwest were held by the 11 advanced pilot schools of the Army Air Forces Central Flying Training Command.

the intensive training in the huge Central Flying Training Command area were men from every state in the Union.

Altus and Frederick in Oklahoma and the Texas training schools of Aloe, Brooks, Lubbock, Blackland, Pampa, Moore, Foster, Ellington and Eagle Pass graduated pilots in the current class. All eleven advanced pilot schools are part of the nation-spanning Army Air Forces Training Command.

Following a few weeks of transitional training, these new pilots will be capable of piloting speedy pursuit ships and giant bombers.

SELLS FARM; BUYS LANGFORD PROPERTY

Rea Scott recently sold his farm six miles north and three miles east of Littlefield to J. E. Johnson. This property consisted of 192 acres and a 5 room house. It is expected that Mr. and Mrs. Tom Roper will move to this property and work the land for Mr. Johnson.

Mr. Scott, after disposing of his property, purchased a place 8 miles southeast of town from Bill Langford, and will move there sometime in December.

HART CAMP SCHOOL TO STAGE EDUCATIONAL RALLY SUNDAY

In keeping with the nation-wide educational program, to be observed in November, a special program is planned for the Hart Camp school community, next Sunday afternoon at 2:30 o'clock. In line with every school in our county, this community believes in its public school, and wants it always to be a "going concern," through the earnest and cooperative efforts of the whole community. Therefore, this community-wide program next Sunday afternoon, 2:30 p. m., at the school auditorium. On time, please.

Good singing, good fellowship, and hot shot addresses from 15 to 20 minutes each, by the following invited speakers: J. Ernest Jones, County Superintendent, subject: "Our county wide educational program, its costliness, our common community problems, and how to meet them." Prof. Cook, principal, Littlefield, subject: "The public school a community asset or benefit." Stressing the social, informational, vocational, and character building place or value of our public schools, and, therefore, our responsibility for the growth or dying out of educational sentiment in community life. Prof. Davidson, Superintendent of the Spade school, is asked to tell "what Spade is doing for its youth responsibility." Then, a talk by W. K. Johnston, Superintendent of Hart Camp school on "How to make our school go." After all, is this not what every school community is concerned about, how to make our school a going, growing concern? Closing the program with any remarks or responses from members of the board, teachers present, patrons or any of the students, who have a word to say, from this community or any other in the county.

Everybody cordially invited. Let

your school enthusiasm speak out, by your presence, on this occasion. Let us have a fine attendance at this most meaningful and worthwhile program, in the interest of education and the youth of today, training for tomorrow. Let us who have families be present, and especially our young people from these and other parts. Said Woodrow Wilson, in a graduating address at Princeton, "A trained mind elevates a man or woman, a home or family, a community or nation; nations are never better than their schools." Don't miss this program at the Hart Camp school auditorium, next Sunday afternoon at 2:30.

Local Gunner Is Awarded Wings

Another class of aerial triggermen to guard Army Air Forces' bombers was graduated this week from the Harlingen aerial gunnery school at Harlingen Army Air Field, Texas, and among the qualified "Sharpshooters of the Sky" was Cpl. Jesse Compton, son of Mr. and Mrs. Authar Bryan Compton, of Littlefield.

Along with his diploma he received a pair of Aerial Gunner's silver wings at brief graduation exercises held at Harlingen. After a delay enroute to visit relatives, he will join an aerial combat team, unless retained at Harlingen to serve as an instructor.

He was prepared for his place in America's stepped-up air offensive by a comprehensive six week course in every phase of aerial gunnery warfare. Besides learning to fire every type weapon from camera

guns to the deadly caliber .50 Brownings, he studied turret manipulation, aircraft identification and was taught to tear down and assemble machine guns while blindfolded. He climaxed the course by firing on towed target from Texan training planes and medium bombers.

Lawrence Cook New Principal

Lawrence Cook, Superintendent of Fieldton Schools for nearly three years, has accepted the position, and took over the duties of principal of the Littlefield High School and Coach, starting Monday of last week.

Mr. and Mrs. Cook have been prominent in civic and club activities at Fieldton, and will be sorely missed.

Hart Camp School Re-Opens Monday

After being closed six weeks so that the students might assist in the gathering of the cotton crop, Hart Camp School will re-open Monday morning, November 15, at 9 o'clock, according to an announcement made this week by W. K. Johnston, Superintendent.

Mrs. L. A. Smith of Littlefield has been elected teacher of the Intermediate Grades, where Mrs. Parks has been so efficiently and faithfully substituting since school opened in August.

He said any producer wanting to build a new structure could obtain the necessary rating from his county war board to buy the materials. The agency requires, among other things, that the building must have a good roof, a floor which would hold the bales at least eight inches off the ground and hog or poultry wire hung down the sides to protect the cotton from poultry and livestock.

The cost of obtaining a farm storage loan is \$1 a bale, Wells said. The loan rate is the same as the warehouse rate. According to Wells, the producer earns 10 cents a bale a month for cotton delivered to the CCC in satisfaction of the loan; if the producer sells the cotton and pays off the loan no storage allowance will be required.

The AAA representative stated that the farmer would get his money three or four days after loan papers are filled out.

He pointed out that the CCC would accept only three loans a year from a producer. Therefore, he would have to space his applications so that he could get the loan on the maximum amount of cotton.

Cotton men said it was fortunate that over an estimated 50 per cent of this year's South Plains cotton already is in warehouses or has otherwise qualified for government loan. A majority of farmers, they said, had received sufficient money from their first bales to pay operating expenses for several months should storage remain short for that time.

Cotton Situation In Area Critical

South Plains' cotton industry faces a critical problem, it has been generally agreed. Most warehouse firms have ceased to store more cotton, and others only a trickle of bales whenever a "hole" can be found.

Thus the farmer is unable to get the warehouse receipt required for a loan through the Commodity Credit Corporation. His alternatives are hauling his ginned cotton back home and holding it a few weeks, arranging his own storage space at his home or selling his product at prevailing prices. The latter course, cotton men said, will entail a loss of from \$10 to \$15 a bale.

Warehouse operators are reluctant to place cotton on their yards because of huge losses which likely will incur through deterioration in quality caused by the weather. However, one business which has its headquarters in Lubbock reported it had 200,000 bales in the open at its

warehouses located throughout the South Plains. About 12,000 bales of that figure are at the firm's Lubbock yard.

Reconcentration points on the Gulf and West coasts are reported similarly jammed, many storage houses formerly used for cotton are now filled with war materials.

Warehouses have advised farmers to haul their cotton back to their farms and "sit tight" for several weeks, foreseeing that the situation might improve meanwhile. A representative of one firm said the government has begun to ship considerable cotton to foreign nations, mentioning Spain for one. He said, too, that more large capacity railroad cars may be made available. Lack of transportation facilities has been one of the factors contributing to the storage problem.

One warehouse official said his company could handle many hundreds more bales if labor could be obtained to operate its compress.

Walter Y. Wells, Lubbock county AAA official, said many farmers have buildings at their places which

H. O. Bigham is owner and operator of this concern.

CERTIFICATE WILL BE ISSUED FOR UNUSED STAMPS

According to District OPA officials, an announcement from Washington to the effect that no extension has been granted on sugar stamps 15 and 16 has punctured wide-spread rumors that these stamps are still valid.

Consumers who did not use stamps 15 and 16 may take their books to their Ration Board where certificates can be issued for sugar up to 10 pounds per person on the basis of unused stamps. Sugar for canning was set up on an annual basis of 25 pounds with the fiscal year ending February 29.

Cecil B. Oliver, Petty Officer 2-C of the U. S. Seabees, stationed at Camp Peary, Va., who has been in the service 10 months, left Sunday, accompanied by Mrs. Oliver, after spending 10 days visiting his parents, Mr. and Mrs. E. G. Oliver.

This was Mr. Oliver's first leave in the 10 month's service. His wife makes her home at Richmond, Va., to be near her husband. Miss Eileen Oliver, sister of Petty Officer Cecil B. Oliver, and typist at the West Airbase, Lubbock, spent last week here also in the home of her parents, and visited her brother and sister-in-law.

Kenneth Manuel, son of Mr. and Mrs. J. L. Manuel, who has been stationed at Fort Knox, but was recently moved to Los Angeles, has been promoted to Sergeant.

Kenneth has been in the Service since February, and is in a tank division. At present he is on maneuvers.

It is expected that Charles will be awarded Wings and receive his commission in April, 1944.

Reports indicate that when this group of cadets were moved from San Antonio to Chickasha for primary training that 45 per cent did not make the tests.

Lieut. Willard (Bill) Street has landed in Australia, according to information received by his parents, Mr. and Mrs. W. G. Street. Lieut. Sine Mora Certificate

I certify that Pvt. E. F. Burch, Hqs. Btry. 183 F. A. Bn., in the capacity of Lineman did meritoriously conduct himself in maneuvers and problems held in the California Desert from April, 1943, to August, 1943. Under very exceptional conditions, such as: temperatures averaging 120 degrees, long forced marches, and difficulties of water supply, he lived up to the highest traditions of the American Soldier. By being well-disciplined, mentally alert, and physically fit, he endured the rigors of the Army's hardest training course and was present for duty every day in the battle preparedness maneuvers conducted June 26, 1943, to July 15, 1943. In a barren, tree-less land of salt lakes and jagged granite mountains this soldier contributed to his unit's preparedness in the following engagements:

- Battle of Palen Pass (5 days);
- Battle of Granite Mt. and Iron Mts. Pass (6 days);
- The Mule Tail Mine Concentration (2 days);
- Battle of Old Woman Mountain (2 days);
- Battle of Fenner Pass (5 days).

Police Lean To Theory That Dr. And Mrs. Hunt Were Anaesthetized Before They Were Slain

Officers leaned toward a theory that Dr. and Mrs. Hunt were anesthetized before they were slain.

They theorized that vinyl ether or tetryl cholride, both of which are powerful anesthetics, might have been used, soaked in garments, to keep the victims asleep. Another property of these chemicals, officers explained, is that the odors dissipate rapidly.

Authorities weighed this theory on the statement of 5-year-old Jo Ann, who said the intruder "threw water on me and it smelled like gasoline."

But before the 37-year-old physician was shot to death with a pistol

and his 26-year-old wife fatally slugged, officers said, they must have struggled because their bonds had burned their legs, arms and throats.

Examination disclosed that the slayer used two methods to take the lives of his victims. A small pistol was used on the physician. Mrs. Hunt succumbed to a major concussion of the brain, brought about by a blow on her forehead, just above the right eye.

When Will the WAR END?

We Can't Answer That Question **BUT... We Do Know** **How Much It Costs To Bomb Berlin** **And What It Will Take To Help Get** **This War Over In A Hurry**

SUPPOSE, in the dusk of an English evening, 1,000 huge bombers soar over the Channel and head for Berlin.

By the time those planes return to England, their motors will have consumed 2,400,000 gallons of gasoline!

The cost . . . of the gasoline ALONE . . . will be more than \$380,000.

To pay for the gasoline used in ONE such raid, 96,000 Americans would have to invest at least 10 per cent of their next pay check in War Bonds!

You get a big kick out of reading about those 1,000-plane raids. You know that such raids, if repeated often enough, will soften up the Axis. But . . .

What are YOU doing to help pay the cost of those raids? (In addition to the gasoline they use, it cost Uncle Sam TWO HUNDRED MILLION DOLLARS to build 1,000 4-Motored Bombers . . . plus the cost of training 10,000 men who make up their crews!)

Modern war is expensive business . . . its cost runs into fantastic figures. Millions and millions of American wage earners, farmers and business men are constantly buying War Bonds . . . but still it isn't enough.

Our air raids on the Axis are increasing in frequency and intensity. When land operations really get going, the cost will be staggering.

More and more Americans must buy War Bonds . . . more and more Americans must jack up their War Bond purchases . . . must start to invest an increasing amount in War Bonds.

Remember . . . War Bonds are the finest investment in the world today. You get back \$4 for every \$3 you invest. And . . . the more War Bonds you buy now, the quicker the Axis will be licked . . . and the less the war will cost in the long run.

Think it over. And every time you're tempted to put a nickel in something you don't absolutely need—put it in War Bonds instead!

YOU CAN HELP **Get This War Over**

There are two important things which should be done to protect your car from that extra wear which comes with winter: It is important to change from Heavy Weight to Lighter, Easier Flowing Oil in your Crankcase. Let's Plant A Tree For Each Service Man

A number of Littlefield and Lamb County parents are receiving native black walnuts from Judge R. E. Sparkman of Italy, Texas, who has offered the entire crop from an 85 year old tree at his home to any parents of a soldier in the armed forces to be planted in honor of their son or daughter in the service.

Judge Sparkman began donating walnuts in the fall of 1940 after he had planted two in honor of his only two sons who had entered the service and the idea immediately became popular, resulting in thousands of nuts being planted in all parts of Texas and he had calls from five different states. The black walnut is adapted to most every section of the North American Continent and makes a beautiful tree: Its long life, immunity from diseases common to most trees, its rapid growth and its high commercial value combine to make the black walnut one of the most valuable trees known. Its commercial value when processed into lumber has a wide use in the manufacture of much of our most valuable household furniture, such as cabinets, radios, phonographs, and other of the more expensive cabinets, the finest gunstocks, air-plane propellers and fine veneering are made from walnuts.

In addition to its use in manufactured products the walnut is one of the most highly flavored and nutritious nuts known, its use enters into the manufacture of fine candies, ice creams, cakes and many other of our most delicate foods.

Mr. Sparkman advises that the nuts be planted in rich soil to a depth of three or four inches and may be planted any time up to March 1. In dry weather the ground should be kept moist.

The idea of the Ellis County man is that in no way can a soldier be more fittingly honored than by growing a lovely, stately tree which becomes a living, growing monument beautifying the country for which the soldier offered and in many cases gave his life. Any parent, friend or relative may secure a walnut to plant for this purpose by writing R. E. Sparkman at Italy who will mail a tested nut. In order to lighten the burden on the donor it is suggested that a few cents be enclosed to pay the expense of the work.

Judge Sparkman started the planting of black walnuts when he planted one in 1917 for a brother who entered World War I. He gave his life, but the planting of the nut then has developed into a wonderful tree in 26 years, attaining a height of 30 feet.

ber 26, during which time it was decided to urge on the various P.T.A. units of the county the necessity of cooperating in the Tin Can Salvage program.

Mrs. Warren Rutledge, president of Lamb County Council of P.T.A., and Mrs. Jack Johnson and Mrs. A. B. Haynes attended from Littlefield. Mrs. Rutledge presided, and Mrs. H. G. Stinnett addressed the group on P.T.A. work in general.

Following the meeting delicious refreshments were served by the Spring Lake P.T.A. association. The next meeting will be held in April with Sudan P.T.A. as hostess.

Judge Sparkman is to be commended on his thoughtfulness, generosity and patriotic spirit in offering to provide parents with walnuts to plant in memory of their sons in the service.

Condition Of Dr. Duke Is Improved

Dr. Thos B. Duke, who is suffering from a heart ailment and an aemia condition at the St. Paul's Hospital, Dallas, and under the care of a heart specialist, is reported by friends here to be improving.

Dr. Duke accompanied Mrs. Duke to Dallas where she underwent an operation for the removal of a cataract from one of her eyes, and following her operation, he took ill. She is reported to have now passed the crisis of her operation, and since they are both confined on the same floor, she is able each day to be wheeled to his room to visit him.

Dr. Duke has responded nicely to the treatments, but it is understood that the specialist, under whose care he now is, wants him to remain for a few more days in the hospital.

His son, Robert Duke, will accompany Dr. and Mrs. Duke to Littlefield when they are able to come.

Three Stolen Tires Found In Bull Lake

Three tires reported stolen from a car, when the automobile was stripped near Seagraves September 1, were recovered by a group of Pep and Spade boys Sunday afternoon in Bull Lake.

The boys were: Dean and Weldon Barton, aged 18 and 15, son of Mrs. R. L. Livingstone, of Pep, and Dwight Lawson, 18, son of Mrs. Lawson of Pep; and James Bowen, 14, son of Mr. and Mrs. John Bowen of Spade.

Noticing something bobbing in the water they waded out to see what it was, and finding it was a new six-ply tire, they began looking for more, and found two more. All tires had the serial numbers cut from them. The boys notified Sheriff Sam Hutson, who did not have any stolen tires listed in this county. He, in turn, notified sheriffs of adjoining counties, and Thursday morning the Deputy Sheriff from Seagraves presented an accurate description of these tires, and they were turned over to him.

He advised Sheriff Hutson that there was a \$25 reward offered for the tires and wheels, but the wheels

are still missing. The boys were at the Rock at Bull Lake when they discovered the tires in the water.
