

How to Make Profitable Use of Underground Water

of ground-water conser-... as authorized by... Texas Legislature, would... service new educational... to help the irrigation... are how to make the most... use of his underground...

WHAT SIZE PUMP?
A district's investigations might also provide the answers to these questions: What size pump is best to use under the conditions of the ground-water...

basin in this particular area? How much and how long is it safe to pump without permanently damaging the water supply? How close together may wells be drilled without the danger of mutual interference ruining either farmer's investment? Is sprinkler or flood-type irrigation more efficient or more productive or cheaper in this part of the country?

known which crops will make the most money with the least water would be another useful educational function of a district. Take alfalfa and cotton, for instance. Alfalfa requires nearly three times as much water as cotton, but cotton usually sells for more. And in addition, cotton can be produced for less, because less costly pumping is required.

plant or how much water to pump, but it could point out the most beneficial use of the water and the most profitable use. Another function of districts would be to conduct experiments and carry out projects to re-charge underground water reservoirs, thereby making more water available for use and insuring a constant supply.

wet-weather lakes. These old lake bottoms fill up after heavy rains, and much of the water evaporates before it can be put to any beneficial use. Experiments have shown that the underground water level adjacent to some of these lakes rises as the water seeps downward, whereas the water level is not affected further away from the lakes. The logical conclusion is that the rainfall is reaching the

water table through seepage. By digging holes in the lake beds, or otherwise disturbing their surface, it may be possible to help more water get down to the water table. Obviously, most farmers don't have the time or money to conduct such experiments. Through districts, it could be done, and both individual and large-scale projects for re-charging could be carried out.

Farmers Sign To Determine Limits of Underground Water District

LAMB COUNTY LEADER

OFFICIAL NEWSPAPER OF LAMB COUNTY
VOLUME XXVII. LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, MAY 18, 1950 NUMBER 24

Summer Recreation Program For Children To Begin May 29

From May 29 until the last of July the Community Chest will conduct a summer recreation program for boys and girls in second grade through high school. The program will be conducted five days a week, Monday through Friday, from 8 a. m. to 12 noon. This program, which has been carried on successfully for the past three years, is organized to provide play and recreation for any youth who wishes to attend. Different types of games such as tennis, volleyball, touch football, basketball, and playground ball, will be played in the high school gym as well as the playground. The main emphasis is placed upon good sportsmanship, teamwork, cooperation and aptitude. The swimming pool will be open for the boys and girls from 8 until noon and every child will have the opportunity to take instruction in swimming on the level of their ability to swim. They will also be given some time each morning for free swimming and play in the pool under careful supervision. Each boy and girl will need a bathing suit and a pair of tennis shoes. If possible, each child should have a gym suit to change to from their wet swimming suits. The program gives a wonderful opportunity for children to learn (Continued on Page 4)

IT'S ROUGH UP THERE... but boy, you're still a good rider!

You'll see plenty of good ridin' and ropin' at the the annual Jaycee Rodeo in Littlefield June 15, 16 and 17.

OUT OF THE CHUTES... you'll learn the result at the Jaycee Rodeo

Those Brahmas are rough... plenty rough... rougher than the calves you rode when you were a boy.

Man Killed In Fall From Train; Companions Held In Clovis Jail

A man tentatively identified as James O'Malley, 59, of Oklahoma City, was killed in a fall from a freight train east of Littlefield early Wednesday morning. According to testimony given to police in Clovis, N. M., by the man's companions on the train, O'Malley slipped from the freight car as the train approached Littlefield. His companions, James Alva Poteet, 42, of San Jon, N. M., and Archie Walker, 48, of Pueblo, Colo., told Clovis police who have them in custody, that the three of them had boarded the west-bound freight in the Lubbock stockyards after being released from the Lubbock city jail. After O'Malley fell from the train the two men informed train workers at the next stop west of Littlefield what had occurred. An east-bound (Continued on Page 4)

Water Users Ask For Designation Of Boundaries

Proposed Water District Debated At Two Meetings

Petitions to the State Board of Water Engineers, requesting designation of an underground water reservoir in determining the boundaries of a proposed underground water conservation district, are being circulated in Lamb County. Following meetings Monday in Springlake and Tuesday in Amherst, the Lamb County Water Conservation Association reported that 156 water users had signed the petition. About 80 irrigation farmers signed the petition Tuesday night following a spirited question-answer forum during which the merits of (Continued on Page 4)

Connell Taylor Accepts Position At First Baptist

CONNELL TAYLOR

Mr. Connell Taylor, educational director of the Gambrell Street Baptist church of Fort Worth, has accepted the call to become educational director and youth leader of the First Baptist church of Littlefield. He was with the church during (Continued on Page 4)

Injured In Accident

Swanner, 19, son of Mr. J. A. Swanner, was secured when the car he turned over several feet, oily pavement near Wednesday evening. Swanner is manager of the J. & Cattle Co. ranch between Levelland and Sundown. Swanner was pinned under the wrecker and needed to be removed from his body. He was taken to the Payne-Shotwell hospital in an ambulance from the funeral home. Swanner's condition was described as not critical by hospital officials last night. He received a laceration on his head, spine, chest and arm. He was attended by Dr. C. E. R. E. Maurer and Dr. J. H. Hutto.

Week Summer School Session Begin Here Monday, May 22

School in the Littlefield area will begin on Monday, May 22, and continue for eight weeks, ending on June 14, according to W. L. Hutto, supervisor of public schools. Hutto will be in charge of the school. The week-long session will enable students to earn one or two credits. Courses include those in history, civics, algebra and geometry, but courses will be offered where there is sufficient demand. Mr. Brune listed those pupils who would profit from attending the summer session as:
1) Pupils who wish to make up for falling work.
2) Pupils who wish to have a broader opportunity to select subjects in the regular term.
4) Pupils who wish to strengthen their academic background.
5) Pupils who have been out of school due to illness or some other reason.

BOARD WALL CRASH—Capt. Jack O'Diamonds crashed his stunt car into the flaming board wall Saturday as a finale to the afternoon's activities honoring Safety Day. Several hundred witnessed the thrilling act performed on East Fourth Street as well as the contest on Phelps Avenue earlier in the afternoon.

Veterans Thrill Show Promises Plenty of Action For Sunday Afternoon

Plenty of thrills are promised all those who attend the two-and-a-half-hour show presented by Capt. Jack O'Diamonds and his Hollywood Daredevil Aces at 2:45 Sunday afternoon at Duggan's Airport. The demonstrations of how not to drive the family car are being presented under the sponsorship of the John Henry Chapman post of the Veterans of Foreign Wars. Capt. Jack promises 12 acts designed to make your hair stand on end as his daredevils flirt with death. Jimmie "Flash" Bird will try to prove that his head is hard enough to break a board wall as he rides in the hood of a car driven by Miss Audrey Laster through a flaming board wall. The act is appropriately entitled "The Human Battering Ram." Other acts will be: A head-on collision, rolling a car, leaping a car off a ramp into a car body, crash into a ton of ice, and a drive through a tunnel of fire. In the "Death Drag," one member of the troupe will drag from the rear of a speeding car through a blazing fire. On hand in case of accidents. (Continued on Page 4)

Use of Anhydrous Ammonia to be demonstrated

Funeral Services Held Tuesday For Mrs. Mary Fondren

Funeral services were held at 2:30 Tuesday for Mrs. Mary Virginia Fondren, 86, former resident of Littlefield, in the Methodist church.

Mrs. Fondren died Saturday, May 13, in the home of her son, E. W. Fondren of Weslaco.

She was born Nov. 21, 1863, in Tennessee and married B. D. Fondren on Aug. 4, 1890. They moved to Littlefield in 1926 and Mrs. Fondren moved to Weslaco in 1946. Mr. Fondren died here in 1933.

She is survived by two children, Mrs. Bessie Lakey of Morboro, Ark., and E. W. Fondren of Weslaco; a foster son, A. L. Lee of Skelleytown, Texas; 10 grandchildren and 10 great-grandchildren.

The Rev. Beecham of the Methodist church conducted the services in the place of Brother Jim Sharp, who was unable to attend.

Pallbearers were: Van Clark, M. P. Reed, H. O. Bigham, Warren Kirk, W. J. Boykin and J. E. Chisholm.

Burial was in Littlefield cemetery under the direction of Hammons Funeral Home.

The Western Fertilizer Co. of Muleshoe, Texas, assisted by Howard's Seed, Feed & Fertilizer Company of Littlefield, will demonstrate the use of Anhydrous Ammonia, applied to irrigation on dry land.

The Anhydrous Ammonia is an 82% nitrogen fertilizer, and is the cheapest Anhydrous source of nitrogen, according to Howard's Seed, Feed & Fertilizer Co.

The demonstration will be held on M. T. McKinnon farm, two miles

west of Littlefield, on Muleshoe highway at 10 a. m. Friday.

The Howard Seed, Feed & Fertilizer of Littlefield, is local dealer for the Anhydrous Ammonia.

Marshall Howard, owner, former district conservationist of Soil Conservation Service at Lubbock and, who has spent 15 years with the service, is qualified to discuss your fertilizer program with you.

In the above picture is Bob King, president of Western Fertilizer Company.

Soil Conservation Meeting At Tulia

Gov. Allan Shivers will recognize soil conservation work in Lamb County when he speaks at a banquet in Tulia, May 19, honoring soil conservation in 51 Panhandle counties.

Several people from Lamb County have been invited to attend the banquet.

The Texas governor had two soil conservation appearances scheduled in Texas this week. The first was May 16 in Houston. Tulia is the other special appearance the

governor plans in observance of Soil Conservation Week.

Johnny Linn, Uncle Jay of Radio station KGNC in Amarillo, will be master of ceremonies at the dinner. Mr. Linn was recognized May 1 in Fort Worth at the state soil conservation awards program as farm editor of KGNC which won the state award for outstanding work in soil conservation.

The West Texas State College band from Canyon will salute the governor when he arrives and then will appear at the banquet. Members of the band will present a variety program during the dinner.

While in Tulia, Governor Shivers will address the graduating class of Tulia High school.

Cancer kills Americans at the rate of 348 a day, the American Cancer Society says.

Answer to LAST WEEK'S Puzzle:

Leroy Breshers and Harold McGee Place First In Junk Car Races Sunday

Leroy Breshers of Anton, and Harold McGee of Lubbock were main event and trophy race winners, respectively, in the Junk Car Races held Sunday afternoon, May 14, at the Littlefield Speedway.

As a special feature, Clarence Carpenter of Littlefield, rolled a car traveling about 59 miles per hour. Carpenter performed the stunt without the aid of a safety belt or other safety gear.

Carpenter, who is not a professional stunt man, will perform the stunt again this Sunday afternoon.

Nineteen drivers participated in the racing Sunday, the majority from Lamb County, before an exceptionally large crowd.

The results were:
Main event—Leroy Breshers, 1st;

Billy Wayne Smith of Lubbock, 2nd; Tom Cox of Lubbock, 3rd; and Dub Posten of Lubbock, 4th.

Trophy race—Harold McGee of Lubbock, 1st; Jimmie Martin of Spade, 2nd; and Tom Cox of Lubbock, 3rd.

First heat race—Harold McGee of Lubbock, 1st; Tom Cox of Lubbock, 2nd; and Lyndal Harlan of Littlefield, 3rd.

Second heat race—W. O. "Fat" Jenkins of Littlefield, 1st; Jimmie Martin of Spade, 2nd; and Clarence Carpenter of Littlefield, 3rd.

Consolation race—Dub Posten of Lubbock, 1st; Truitt Bounds of Slaton, 2nd; and Leroy Breshers of Anton, 3rd.

Corned Beef Scallop
Broadcast: May 20, 1950

1 lb. can corned beef hash
1 can condensed cream of mushroom soup*
1/2 cup Pet Milk
2 tablespoons liquid off corn
2 cups drained whole kernel corn,
cooked or canned
1 cup grated American cheese

Turn on oven; set at moderately slow (350° F.). Grease a shallow 1 1/2-qt. baking dish. Press hash in bottom and on sides of dish. Mix until smooth the soup, pepper, milk and corn liquid. Add corn. Pour into hash-lined dish. Top with the cheese. Bake about 30 min., or until bubbly hot and cheese is melted. Makes 4 servings.
*Cream of chicken soup can be used.

You will need:
Pet Milk, Whole Kernel Corn, Condensed Cream of Mushroom Soup, Corned Beef Hash and American Cheese.

Announce Winners For Fire Contest

Yesterday the winners of the high school fire inspection essay and poster contests were announced by Mr. David Keithley of the Keithley Insurance Co. They are: First prize—Lydene Hofacket; 2nd prize, Sue Landrum; 3rd prize, John Banks. The poster contest winners were: First prize—Tommy Kay Simmons; 2nd prize, Sue Keeling; 3rd prize, Nancy Ann Burke. In each contest the prizes consisted of \$7.50, \$5, and \$2.50, respectively and were contributed by the fire insurance agents, cooperating in the fire inspection program being carried out in Littlefield today.

Farmers Sign—

(Continued On Page Nine) forming a district were debated. The forum, led by Arthur P. Dugan, Jr., of Littlefield, and Gus Parish of Springlake, followed the showing of a film by County Agent David Eaton.

Definition Sought

The petition seeks a definition of the boundaries of a proposed district. Under the law passed last spring by the Texas Legislature, these boundaries must be co-terminous with an underground water reservoir. The district will include part of Lamb County and may extend into neighboring counties.

The State Board of Water Engineers, after extensive investigation of the underground water reservoir, will call a hearing in this area before setting the boundaries of a district. Land owners who want to be included or excluded from the district may appear at the hearing. After boundaries have been settled on, an election can be held for creation of a district, if petitioned for.

Text of the petition is:

"Whereas, it is estimated there are 12,000 irrigation wells in operation in the irrigation area of the south Plains of Texas and it is reported that many more irrigation wells are being drilled; and

"Whereas, the spacing of irrigation wells too close together results in excessive lowering of the water level; and

"Whereas, due to heavy usage of underground water, it would be desirable to protect the supply by recharging the underground water strata; and

"Whereas, the Fifty-first Legislature passed a law making it possible to conserve underground waters through creation of Underground Water Conservation Districts and providing that the State Board of Water Engineers should designate reservoirs or sub-divisions thereof for the purpose of creating a district;

"Now therefore, we, the undersigned, being property-owning, tax-paying voters residing in Lamb County, Texas, hereby petition the State Board of Water Engineers to call a hearing for the purpose of designating the underground water reservoir or sub-division thereof."

200 Attend

An estimated 200 persons attended the meeting Monday night at Springlake, at which W. O. Fortenberry of Monroe, president of the High Plains Water Conservation and Users' Association, was the speaker.

Fortenberry traced the history of water in West Texas from the days of the Llano Estacado, when the plains were staked from water hole to water hole to keep travellers from perishing.

"It wasn't until we started using underground water that this country became of note," he said. "We have not had to bond this country for the building of dams to impound water—we were blessed with an abundant supply of water and it didn't cost us anything."

"The development of this God-given asset cannot be credited to any political faction—but to the hardy pioneers who took a chance on the land before they knew about its water. Without any outside help or subsidy, they found and developed this empire with water."

"Then certain people began to think we didn't know how to take care of it, saying that we are prone to exploit and destroy our underground water supply. Maybe we are, but even if this is true, we are the ones to do something about it. We have the talent, the brains and the ability to run our own show."

Fortenberry referred to administering underground water conservation districts as independent, locally-controlled democratic units.

Mrs. Travis Jacobs of Earth was released Saturday after undergoing medical treatment for three days at the local hospital.

Connell Taylor—

(Continued from Page One)

the recent revival and was given a call to the position at the end of the revival.

Taylor has a B. A. degree from Hardin Simmons in Abilene, a bachelor of music and master of religious education degrees from Southwestern Seminary in Fort Worth.

The Rev. Lee Hemphill, pastor of the First Baptist church, received a telegram from Taylor Wednesday afternoon informing him of his acceptance. Taylor and his family will arrive in Littlefield about July 15.

Thrill Show—

(Continued From Page One)

will be an ambulance from Hammons Funeral Home and wrecking cars furnished by Harrell Used Cars and Jones Motor and Tractor, according to Jack O'Diamonds. Tickets for the single performance are now on sale at many leading local stores and by members of the V. F. W.

Stores selling advanced tickets, are: Piggly Wiggly, Houk Grocery, Walters Drug, Dunlap's Department store, Farr's Jewelry, Rep-lin's Dry Goods, Hays' Coffee Shop, and members of the KVOW staff.

Prizes will be given to lucky ticket holders for both advance sale tickets and those sold at the gates on Sunday.

Man Killed—

(Continued from Page One)

bound train was flagged and trainmen informed Littlefield police of the accident upon arrival here.

Officer Fields found the body east of town about 1 a. m. and notified Sheriff Sid Hopping. The body was taken to the Hammons Funeral Home.

The dead man is believed to have a brother and brother-in-law in Albuquerque, N. M.

Col. Blase-

(Continued From Page One)

Changes Made
 A few changes in the original planned program were made during the past week due to unforeseen circumstances.

The program as it will be presented, will be started off at 10 a. m. with a flight of 18 B-25 planes flying in formation over the city.

At 10:15 Doyle Brady, a local youth who was recently discharged from the 82nd Airborne Division, will make a 3000-foot parachute jump at Duggan's Airport. Vic Streetman, airport manager, will fly the plane which Brady will jump from.

If possible, the Littlefield High school band under the direction of Don Hayes, will march down Phelps Avenue from the Court House to Fourth Street where they will play a few numbers. As school is out for the summer vacation there may be some difficulty in gathering the band members together.

Speakers at 11 A. M.
 The speakers' stand will be set up at Fourth Street and Phelps Avenue where the ceremonies will begin at 11 a. m.

County Attorney Bob Kirk will act as master of ceremonies and Hardy Shelby, president of the Chamber of Commerce, will introduce Col. Blase. The speech will be broadcast by Radio Station KVOW.

From 1 to 5 p. m. the U. S. Army and U. S. Air Force Recruiting Station will have an open house.

Sgt. Cutshall will be on hand to explain the different types of services, their uniforms and duties, and will compare the old services with that of the modern services.

Evening Dance
 From 9 until 12 p. m. there will be a dance at the V. F. W. hall where the Texas Melody Boys will play their usual Saturday night dance.

The Junk Car Races which was planned for Saturday from 2 to 5 p. m. will be run on Sunday at 2, to enable several local daredevils to participate.

John Robinson, manager of the Junk Car Races, has promised an exciting afternoon. A parachute jump at the Speedrome and rolling over of speeding cars on the track, are scheduled.

All citizens are urged to display their American flags all day Saturday and churches are requested to make appropriate recognition in their services.

Peggy Teoff of Abernathy, daughter of Mr. and Mrs. M. R. Teoff of Abernathy, was dismissed from Payne-Shotwell Foundation, Saturday. She had been suffering from pneumonia, and had been a patient two days.

Make a Date with a "Rocket 8"!

"88"

Driving is believing! You must have heard about Oldsmobile's "88"—that spectacular "Rocket" Engine car. It's all true—and you can prove it to yourself! Here's how: Call your Oldsmobile dealer and make a date with the famous "88." Test the "Rocket" for smoothness—quietness—flashing teamwork with Whirlaway Hydramatic! You'll say—it's really Futuramic!

Water Code Meeting Scheduled For May 24-5 At Houston

"The last Regional hearing of Texas Water Code committee in Houston May 24-25, will probably be the best attended meeting we have had thus far," Senator Rogers Kelley of Edinburg, chairman of this legislative committee, stated in Austin yesterday.

"From all sections of Southeast Texas have come requests from citizens desiring to appear before the committee at its meeting at the Rice Hotel in Houston. We are anxious to hear every citizen who desires to be heard and we will hold night sessions if necessary," the senator said.

"The intense interest manifested by the people of Texas, and particularly in and around Houston, indicates to us that our work in revising the water laws was not begun a bit too soon," Senator Kelley added.

It is estimated that between 75 and a 100 witnesses will be heard by the committee at this meeting.

Colonel George Knapp and Victor Bouldin, host members at this meeting, report from Houston that they have been swamped with telephone calls from persons and organizations desiring information concerning the hearings which will begin at 9 a. m. and continue throughout Wednesday and Thursday, May 24-25.

Anyone desiring to be heard by this legislative committee should notify either of those gentlemen or L. Hamilton Lowe, executive secretary, P. O. Box 2331, Capitol Station, Austin, Texas.

Pat Mann To Attend Amarillo Meeting

Pat Mann, manager of the Chamber of Commerce, will attend a Texas Chamber of Commerce managers' meeting in Amarillo June 4, 5 and 6. It was decided at a board of directors meeting held Tuesday morning, May 16.

Other business of the meeting included setting June 22 as a tentative date for the annual barbecue. Committee chairmen appointed for the barbecue, were: Travis Jones, food; M. O. Mitchell, arrangements; and Jack Christian, program.

President Hardy Shelby expressed his thanks for the cooperation he had received during the past year. He also told the meeting of a Civil Aeronautics Administration meeting in Norman, Okla., May 25 and 26, and stated that the city of Littlefield is likely to send a representative to that meeting.

Present at the meeting were: Dr. B. W. Armistead, W. C. Cannon, C. O. Griffin, Nelson Taylor, Paul Pharris, Wolfe Shaw, Hardy Shelby, Skipper Smith and Pat Mann.

See Cameron About Your NEW HOME

Let us take care of building your new home. More than 80 years' experience goes into every Cameron-Built home. Our reputation for reliability and quality materials is your assurance of complete satisfaction. In building and construction—if it's a Cameron job, it's a good job.

FHA FINANCING

No need to keep on paying rent when liberal, long term financing is available. For full information and arrangement for financing your new home, see us.

REMODEL—REPAIR NOTHING DOWN—UP TO 3 Yrs. to Pay

Repaint, repaper, reroof your home. Add a room, build a garage or a fence. Install an attic fan or a floor furnace. Anything to your property to make it more convenient, enjoyable and attractive.

No down payment—up to 3 years to pay.

Brownfield Men In Fair Condition After Accident

Emmett Roy Jenkins, 47-year-old Brownfield barber, who was seriously injured in an auto accident on Springlake highway Sunday evening, was reported to be in fair condition at the Payne-Shotwell hospital.

He is suffering from fractures of both arms and his right leg, deep lacerations on his side and head, extreme shock, and possible internal injuries.

Dead in the accident were his wife, Mrs. Beula Fay Jenkins, 43, and Floyd E. Chaney, 49, Plainview garage operator. Chaney died almost immediately after the head-on collision, a mile and a half north of here, and Mrs. Jenkins died in the ambulance on the way to the hospital.

Funeral Services

Funeral services for Chaney were held at 3 p. m. Tuesday at the Roy G. Woods Funeral Home chapel in Plainview. Rev. O'Kelly, pastor of the St. John's Methodist church of Plainview, officiated. Burial was in the I.O.O.F. cemetery.

Chaney was formerly a resident of Post until he moved to Plainview in 1923.

He is survived by his wife; six children, Mrs. W. A. Flake of Hale Center, Mrs. Lloyd Clark of Plainview, Curtis, Horace, Hazel and Robert of Post; eight grandchildren.

Brownfield Residents

Mr. and Mrs. Jenkins have lived in Brownfield for about 15 years where he operated a barber shop and Mrs. Chaney worked for the Collins Dry Goods Company.

They are believed to have been on the way home from a visit with Mrs. Jenkins' sister who lives in Friona.

Other survivors include four brothers, Jack Carter of Hobbs, N. M., Cliff and Clint Carter both of Rotan, and Cleo Carter of Pampa.

Funeral services for Mrs. Jenkins are still pending. The Brownfield funeral home is in charge of the arrangements.

City Softball Play Begins On Monday

Play in the City Softball League opened Monday night before a crowd that was kept rather small by slightly frigid weather.

In the opener, Guy Brown beat Cal Harvey behind the excellent pitching of Charlie Duvall by a score of 5 to 3. For the first four innings Duvall kept the Cal Harvey batters under control, allowing only one hit and one run.

Cal Harvey had three hits and

three runs and Guy Brown collected five hits and five runs.

In the second game, Anton beat Sudan 9 to 6.

On Tuesday evening V. F. W. defeated Oil Mill by a score of 10 to 6. Maytag defeated W. O. W. 14 to 12, in the last game.

Scheduled for tonight are Cal Harvey and Oil Mill in the opener and Maytag and Guy Brown in the second game.

Friday will see V. F. W. tangle with Anton in the first game and Sudan and W. O. W. mix it in the second game.

Play will resume Monday matineeing Sudan against Cal Harvey, and Anton against Oil Mill.

Seeks Office of County School Superintendent

Mrs. Anne Louise Wiseman, resident of Lamb County since 1918, authorized The Leader Tuesday to

announce her candidacy for the office of County School Superintendent.

Mrs. Wiseman has taught in the Littlefield school system for 13 years, and considered outstanding in her line of work.

Her formal announcement will follow at a later date.

Pat Boone, Jr., Passes State Bar Examination

Pat Boone, Jr., who is scheduled to graduate from the University of Texas School of Law, passed his bar exams and took his oath before the Supreme Court Tuesday in Austin.

He will return to Littlefield to practice law.

TEXAS ICE DAY—MAY 17!

for perfect Refrigeration you need the COLD-PLUS-MOISTURE of manufactured ICE

COLD ALONE IS NOT ENOUGH

Cold alone will keep most foods from spoiling—but cold alone won't preserve the vitamin content and garden-fresh crispness of the vitally important vegetables your family eats!

Modern Ice Refrigerators are beautifully and scientifically designed to get the greatest refrigeration value out of pure, crystal-clear, slow-melting manufactured ice. Only the Ice Refrigerator gives the three essentials of food refrigeration: constant cold—balanced humidity—elimination of odors and impurities.

100 YEARS OF PROGRESS

Behind the amazing development of Ice Appliances is 100 years of progress by the gigantic, vitally important ice manufacturing industry. This industry had its beginning at Apalachicola, Florida, in 1850 when Dr. John Gorrie invented America's first ice-making machine.

The second machine was installed in New Orleans a few years later and then moved to Brownsville, Texas. And the third machine was built at old Jefferson, Texas, in the middle Seventies.

Dr. Gorrie made just enough ice for the treatment and comfort of his patients... today, some 7,000 ice manufacturing plants produce over 50,000,000 tons of ice each year. Virtually all industries use manufactured ice in one way or another—but the greatest users are those concerned with the shipping, storage and distribution of meats, poultry, seafoods and produce. In transportation of perishables alone, some 5,000 insulated trucks and freight cars, refrigerated with ice, shuttle back and forth across the nation daily, filling the shelves and ice refrigerators of America's 150,000,000 well-fed-people!

IN TEXAS ALONE, 600 ICE MANUFACTURING PLANTS produce for Texas homes and industry five million tons of ice per year. This means the opening of distant markets for Texas fruit, vegetables, meats, and seafood—the preservation of foods for Texas families—the easing of Texas summers with cooling refreshments.

THE MOST IMPORTANT THING ICE DOES IS MELT!

Melting ice in your refrigerator carries away heat... carries away food odors... provides the combination of cold-plus-moisture that means perfect preservation of the foods your family will eat.

TRAINED ICE SERVICE MEN!

Ice service men today are trained thoroughly, as all good businessmen should be. They service your Refrigerator without making a mess... they make sure that pets or children don't slip out the door with them... they look, and are, neat and efficient and thoroughly familiar with their business.

PLENTY OF PURE CLEAR ICE ALL THE TIME!

Why fight a losing battle with home-made ice during the summer months? Real manufactured ice not only makes foods better for you—it provides a constant liberal source of sparkling ice for chilled drinks, table use, ice cream—and it costs so little!

GLAMOR-ICE YOUR MEALS!

Diamond-sparkling manufactured ice can give a party touch to the most commonplace chilled dish. Salads, cocktails, relishes, and desserts take on new zest... new appetite appeal... new, fresh-taste!

How UP-TO-DATE ARE YOU?

How up-to-date are you in your thinking about refrigeration equipment? Modern Ice Appliances are a far cry from what they were even a decade ago—better looking, better built, far more efficient. No matter what kind of refrigeration you're using, tell your family to find out about the NEW ice equipment that is now available. Let us show you—you'll be surprised!

- Small Portable Cooler, ideal for fishing, hunting, or picnics.
- Beautiful modern Ice Refrigerators with circulating cold air.
- Large Portable Cooler, made to fit in luggage compartment of car.
- Fish and Poultry Chest, indispensable to food stores.
- Pressure Water Cooler in baked enamel with bubbler.
- Hand and Electric Freezers for real ice cream.
- Vegetables require ice refrigeration for garden freshness and crispness.

FOR Purifying... FOR Sparkling Clarity... nothing can take the place of Scientifically MANUFACTURED ICE!

this week's patterns... BY AUDREY LANE

No. 2453 is cut in sizes 6, 8, 10 and 12. Size 8 requires 2 1/2 yds. 35-in.; 3 1/4 yds. edging.
