COMMISSIONERS CONTRACT FOR 100,000 GALLON RESERVOIR AND PUMPS FOR THE WATERWORKS

City Commission in session tonight let contract for water extension amounting to nearly \$100,000, Albert Nuenschwander, contractor, receiving award for the work.

Contract let to Mr. Nuenschwander comprises building of a 100,000 gallon concrete ground reservoir, to be underground and four feet above earth, and located on property near the city wells to be used in connection with the present water works. There will also be a brick house adjacent to the reservoir which will be located double unit pumps to carry the water into a power tank. The contract price includes building tank, laying 348 feet of pipe, building pump house, filling booster pumps, gate valves and other machinery and fixtures is \$200.

Contract was also placed with the Banks-Morse Co., of Dallas for a unit three stage turbine pump electric motor, the pump being of 100,000 gallon per minute capacity, to be installed in the new well recently completed by T. P. Wright.

The double unit pumps to be installed at the ground reservoir will either 250 or 500 gallon per minute, centrifugal type, with 25 or 35 horse power motors, respectively. Final decision was not made on capacity at the Monday night meeting, pending information as to

the amount of reduction which such installation would bring in the fire insurance key rate. It is thought the larger size will be the more desirable, from the insurance standpoint, also from the further fact of taking care of the water production problem in this respect for years to come. Furthermore, with the double unit 500 gallon pumps the fire engine now owned by the city may be used at its maximum capacity which will be virtually equal to the service performed by a pump of the LaFrance type.

Using four 3/4 inch nozzles from the four lines of the fire engine, in case of fire, under 70 pounds tower tank pressure, with the booster pumps in action, these four streams could be maintained to their full capacity, 160 gallons per minute for one hour and forty minutes, according to figures deduced by Engineer Upchurch employed by the city. This would provide a fire-fighting efficiency equal to that of a high power pumper engine, but at a saving to the city of approximately \$7,000.00.

Mr. Nuenschwander expects to begin work on the reservoir this week, and the other work will be pushed to completion as rapidly as material and machinery can be secured.

Money from the sale of \$40,000 paving bonds and \$10,000 waterworks bonds, together with accrued interest and premium of \$1,000 was received last week and is now available for construction as the work progresses.

CHAIRMAN SAYS HE GAVE DELEGATES CREDENTIALS

That credentials were duly given all delegates from Lamb county to the State Democratic convention, at Beaumont, is the statement of County Chairman E. H. Flynn. The statement arose as result of an insinuating article appearing in the Olton newspaper last week, wherein it was intimated that Mr. Flynn failed to perform his duty in that respect.

Mr. Flynn stated to a Leader representative that he made out the credentials for all three delegates on one certificate, as is the custom, giving some to one of the delegates from this section of the county, later calling the delegate from Olton and so advising him. It is his understanding that the delegates communicated with each other, making arrangements for a meeting place in Beaumont after their arrival at the convention. The insinuation made by the Olton newspaper that he is guilty of "slack thinking," pulling a "bonehead" or playing "a trick to sidetrack a dry delegate to the state convention" is very much resented by both the county chairman and the two delegates from the south side of the county, since they are all well known "dry" in their convictions and Mr. Flynn, former school teacher and banker, is not likely to be so slack in his thinking as to pull a bonehead in such matters.

BUILDING PERMITS ISSUED

DOUBLE PARKING MUST BE HALTED IN THE CITY

Double parking on Main street in Littlefield is getting to frequent and promiscuous according to City Officials, and must be stopped.

Some folks have formed the habit of stopping their cars anywhere on the streets and at any time they desire. Such action is permissible only when loading or unloading merchandise. Stopping a car in front of a store and letting it remain there for several minutes must be stopped. Those found guilty will be required to contribute \$1.00 and costs to the municipality.

WOULD OPEN NEW TRAIL

The road committee of the local Chamber of Commerce, has been working on the opening of the Ozark trail west of the city which will connect with the federal road in New Mexico, at Elida, saving the and west traffic 50 or 60 miles over the present route, and this short route will bring many tourists through Littlefield.

The committee report good success with the land owners in regards to making this an 80 foot right of way.

GREATEST CONVENTION IN HISTORY OF WEST TEXAS CHAMBER COMMERCE TO BE HELD AT FORT WORTH IN JUNE

Fort Worth, May 28.—When West Texans come to this city, June 18, 19 and 20 for the Tenth Annual Convention of the West Texas Chamber of Commerce, they may rightly expect the greatest convention in the history of the organization.

For more than two months, committees made up of approximately 200 of Fort Worth's leading business men have been engaged in making plans for the decadal meeting. Such a spirit of cooperation of business men has never been exemplified in Texas and the result is that plans are now practically complete.

There will be at least seventy-five sponsors to be presented at the pageant, an annual event on the opening night of the convention. More than 100 entrants have registered for the "My Home Town Contest," while 50 band masters have already signed entry blanks for as many squads of musicians. There also will be other contests, details for which are in the making. Headquarters for more than 50 towns, planning to send large delegations have also been assigned. Fort Worth is sparing no expense to make the convention the greatest ever held by any organization in the United States.

The pageant, always an event looked forward to by all West Texas, at this annual conclave, will excel in brilliance, beauty and grandeur anything of the kind ever staged in Texas. It will be presented at the Texas Christian University Stadium, Monday evening, June 18, where the seating capacity is twenty-odd thousand. At this time, Miss West Texas and the more than 70 sponsors, chosen by as many cities in West Texas, will be presented.

The annual convention parade will be staged Tuesday afternoon, June 19. Already more than 30 cities and towns in West Texas have announced they will enter floats for this contest. This will be the annual delegation parade and because the attendance at the convention is expected to set an all time record, this parade is expected to be one of the longest that ever passed in review before a Texas assemblage. It will march over Main and Houston Streets, after forming near the Texas & Pacific Railway passenger station.

Fort Worth's entertainment program is elaborate. Registration of delegates is expected to set new records because of this great entertainment program. Courtesy books will be presented each registered delegate. This will entitle free entrance to the pageant on Monday evening, one baseball game between the Fort Worth Cats and the Shreveport team, and will carry dance courtesies, as well as entrance to a theatre and swimming pools. Numerous other features are yet to be added. Registration badges have already been received and in many places these badges are being sold in advance by chambers of commerce secretaries. Thus it will be seen that cooperation to make this the biggest convention West Texas has known has spread to every section of the great West.

The program in all its detail will be announced within the next few days, according to Homer D. Wade, general manager of the West Texas Chamber of Commerce who is now in Fort Worth.

FE ENTERED OBJECTION AFTER OBJECTION TO THE ENTRANCE OF THE TESTIMONY INTO THE PRESENT HEARING WHICH WERE SUSTAINED BY EXAMINER DAVIS.

Nine witnesses were used by the Denver counsel in their case while the Santa Fe group had 19 on the stand during the three days.

A WORTH WHILE INDUSTRY

The Plains Electric Hatchery, of Littlefield have to date handled 76,167 eggs in their mammoth incubators this year, of this number 56,398 have turned out baby chicks, an average of 75 per cent hatch. This, coupled with the hundreds of chicks that have been shipped in this spring, will add considerable to the returnable wealth from the poultry crop of this vicinity during the year.

OFFICERS ELECTED AT ANNUAL MEET OF LFD. ROTARY

The Littlefield Rotary club held its annual meeting last Thursday evening at the Presbyterian church, a full membership being present, many of them accompanied by their "Anns" and other invited guests. Directors for the coming year were elected as follows: K. F. Albright, J. S. Hilliard, B. M. Harrison, T. Wade Potter, W. J. Harris, C. C. Clements, R. E. McCaskill. From this directorate the following officers were elected: K. F. Albright, president; R. E. McCaskill, vice-president; J. S. Hilliard, secretary-treasurer; C. C. Clements, sergeant-at-arms.

Rev. George E. Turrentine had charge of the evening program which was snappy and interesting. Following a round of fun stunts, readings were given by C. L. Harless, Jr., and Miss Norma Gattis, both young people showing marked talent and receiving applause of appreciation.

The ladies auxiliary of the Presbyterian church were caterers for the banquet, Mrs. W. O. Stockton being in charge, and many favorable comments were expressed in behalf of the excellent menu served as well as for the beautiful decorations in vogue for the occasion.

LUBBOCK GETS NEW COURT

Lubbock is to secure a federal court, according to the passage last week of the Mayfield bill creating a new district in this section of Texas. The new district comprises 19 counties as follows: Bailey, Borden, Lamb, Floyd, Kent, Motley, Hale, Dickens, Crosby, Lubbock, Scurry, Hockley, Cochran, Yoakum, Terry, Lynn, Garza, Dawson and Gaines. The judge for the newly created court has not been announced.

For the present space is to be reserved in the county court house to accommodate the new tribunal until the new federal building is erected, for which \$160,000 has been appropriated.

KILLED BY MULE KICK

Geo. S. Pearson, 21 years old, residing with his father, J. M. Pearson, in the Whitharral community, was kicked by a mule last Friday afternoon and died Saturday afternoon at 3 o'clock.

Funeral services were held, at the family residence Sunday, and he was buried in the Whitharral cemetery, Burleson-Mason Co., of Littlefield, was in charge of the services.

TO ATTEND THE STATE CONVENTION OF FIREMEN

Fire Chief H. C. Arnold, Alfred Dunnagin, J. W. Hopping and Jim Harless will leave here Tuesday, June 11th for Denton, where they will attend the State Firemen's convention.

Features of the convention will be schools of instruction and various contests of skill in handling fire apparatus.

ANOTHER FISH STORY

It is being confidentially told about town this week that a new baby arrived in the home of one of the citizens residing in the vicinity of the school center. It was an exceedingly husky and fine looking chap. The parents were exceptionally proud of the new offspring and shortly after arrival began conjecturing as to its probable avoirdupoise.

The doctor guessed the infant at eight pounds; some of the neighbors thought it might weigh 10 pounds. One friend of the family thought to settle the argument by getting some scales. She visited several homes in the neighborhood unsuccessfully, finally finding some scales at the home of A. G. Hemphill. The youngster was carefully wrapped in swaddling clothes, then hung on the hook of the weighing apparatus. The indicator promptly swung around to 23 pounds. Everyone stood aghast! But the riddle was quickly solved when some one picked up the scales and read on the dial the words: "Fisherman's Scales."

H. FLYNN OUT FOR JUSTICE OF PEACE PREC. FOUR

In this issue of the Leader, E. H. Flynn makes announcement of his candidacy for the office of Justice of Peace in Precinct Four.

Mr. Flynn states he has never before held public office, preferring to remain a private citizen, performing his duties as such without any of the emoluments or honors that accompany public office, and that it is only upon the urgent request of numerous friends and acquaintances that he now offers himself for this office.

Mr. Flynn is generally conceded to be well qualified for the duties of this office. He was one of the organizers of the American Bank & Trust Co. at Brownwood, and served as one of its directors. He also assisted in organization of the First State Bank at Bangs, and became its vice-president. Nine years of his life has been spent as a teacher in public schools. He is now a resident and property owner in Littlefield.

The favorable consideration of the Democratic voters at the coming primary will be appreciated by him.

PINK PARRISH IN SPEECH GIVEN IN THIS CITY SAT'Y

Hon. Pink Parrish, of Lubbock, candidate for senator, 13th district, was in Littlefield last Saturday afternoon, when he spoke to large crowd of voters gathered at the Palace theatre.

Mr. Parrish is a forceful and convincing speaker, outlining his policies in a clear cut manner that appealed strongly to the voters of this section. He was warmly received here, this community on two previous occasions having unanimously endorsed his candidacy.

Hon. W. H. Bledsoe, also of Lubbock, who has been senator of this district for the past 12 years, last week announced his withdrawal from the race. In making his withdrawal Mr. Bledsoe stated he was doing so on account of serious injuries received about a month ago in an automobile wreck near Tulsa, Oklahoma, and that he was leaving soon for the north west for an extended vacation and recuperation period. He commended the candidacy of Mr. Parrish to the voters of the district.

Parrish was for several years county judge of Crosby county, and has just finished a successful term as mayor of Lubbock.

LIGHT WAS TO READ BY, NOT LURE FISH

Littlefield piscatorial artists and ichthyological fiends are hereby warned:

Aurora, Ill., May 26.—The premise of this item is that the Illinois law forbids the use of a light to lure fish.

Frank Cross was charged with violating that law. He admitted the light but denied the lure.

"The lantern," he told Judge Gorham, "was to read by."

"Ah, yes," nodded the court. "And what, may I ask, were you reading?"

"The fish and game laws," replied Cross.

"I suppose," pursued the judge, "that you recall some of the more interesting sections?"

"Yes, your honor, I recall one section saying that it is illegal to use a light to lure fish, although there was no rule against using it to read by."

"The pursuit of knowledge," said the court, "is highly commendable. There is no disposition of this court to interfere with study. The case is dismissed."

Every 40 seconds of every working day somebody buys a Buick - Year after year it wins twice as many buyers as any other fine car

Buy your Buick with the knowledge that the overwhelming majority of America's fine car buyers are making the same wise selection and enjoying the same wonderful satisfaction.

This most brilliant of fine cars enjoys two-to-one leadership in its field and has maintained its leadership, not for a week or a month, but year in and year out since the early days of the industry.

The minute you see Buick you'll

know one reason for its popularity—it excels in beauty. The minute you drive it you'll discover a further reason—it excels in vibrationless performance. And when you compare values, you'll have the full story—for nowhere is there a car so fine and dependable at a price so remarkably low.

The judgment of America is mighty good judgment to bank on. And America, by a two-to-one vote tells you to buy a Buick.

ANNOUNCING New Agency

for
DE LAVAL CREAM SEPARATORS

We take pleasure in announcing that we have taken the agency for the De Laval Cream Separator — recognized everywhere as the world's best separator.

The "Golden Series" commemorating the 50th De Laval Anniversary which we now have on hand are the finest separators ever made. They have many new features and refinements and must prove a source of pride as well as profit to every owner.

You lose money by not having a new De Laval. With butter-fat at present prices you are losing more than ever if you have a worn-out or inferior separator or if you skim by hand. A new De Laval will soon pay for itself.

The De Laval can be purchased for cash, on easy terms or on the installment plan. Let us show you the new De Laval, or better still, let us demonstrate it on your own farm. Catalogs on request.

LUTHERAN CHURCH
Sunday morning services at the Lutheran church will be held in the German language. The sermon topic will be the "Triune God." Sunday night, English services begin at 8:00 o'clock. "Lutheran Church Customs" for example the wearing of a gown by the pastor, which are puzzling to many non-Lutherans, will be discussed and explained.

Wednesday night the Bible class will discuss "The First Murder." After Bible Class, the recently organized choir meets. The church was indeed fortunate in securing Mr. A. Neun-schwander as choir leader. In future we hope to have musical numbers rendered at the various services.

Last Sunday the Ladies Aid met. Mrs. B. Birkelbach was re-elected president of the society, and Mrs. H. Timian, secretary-treasurer, where-upon several new members were welcomed.

Due to the fact that all are very busy at this time, it was deemed better to postpone the public supper, which was to be held at this time, until fall.

early hopes and aims, and will incite in them a deeper sympathy and understanding of all that we are feeling and desiring as we enter into the exercises of the day.

To our parents and relatives, it is an hour of pride and affection; to our teachers an hour of mingled joy of our success, and regret, we trust over the necessary parting. So much, you see, depends upon the individual point of view.

As for us, this occasion closes an epoch in our lives—the most important period that we have yet known, and one of the utmost value in its bearing upon all our future career. As we look back over the past few years we feel that we can truthfully say that we have done our best at all times and in all places to make the most of every opportunity, so far as our young minds were able to understand it. We mean to continue to do that same best at all times and in all the places where Fate may hereafter direct our paths. And we are sure that at this time, every one must realize something of what it means to us, and while grieving with us at the suddening of the dear class-ties that each year has helped to make stronger, must at the same time rejoice with us that we have been able to accomplish as much as we have, while wishing for each of us greater

triumphs in whatever work may lie ahead of us.

We ask you then, dear friends, to be glad with us and for us, as we enter upon the program of the hour, sure that we are all most earnest in assuring you of our joy at having you with us, and that I, in the warm inspiration of your presence, am most sincere in telling you, in the name of my classmates, how truly glad we are that you are here. We hope that you

may all feel that it has been good to be with us tonight and may see in all that we do and say some assurance of your welcome, even while realizing that, as a class, we cannot well ask you to "Come again!"

In keeping fruit let it be spread out in a light, airy place, no two pieces touching. If piled together, or if stored in a damp, dark place, it will decompose quickly.

SALUTATORY

By VIRGINIA STAGGERS
Graduating Exercises, Grammar School, 1928

How many, many times in life we are forced to admit the inadequacy of mere words to express the deepest sentiments of the soul. Our hearts fill with emotion, and we learn when our tongues falter and our lips refuse to say what we wish them to say something of what Tennyson had in his heart when he wrote: "I would that my tongue could utter, The thoughts that arise in me."

Dear friends, one and all, this occasion is one of those times. Did you ever stop to think how much may lie underneath the surface of this word I have chosen to speak to you? WELCOME—the word that endeavors to assure you that you have well-come—the word that we try to express in so many ways.

For after all our fine words, our lofty sentiments and high sounding phrases how much more can we really put into this greeting to our friends—We hope you are well; we see you have come; and we know you are welcome.

Dear friends, I must say again that this is the position in which we find ourselves to night. To you this may indeed be a pleasant occasion, for we shall certainly do our best to make it so; but at best it will be only one of many such occasions in your life which, enjoyable as they may all be at the time, will be but fleeting in their influence. To us it is a great occasion, a red letter day, one of the brightest spots in all our lives and bound to live forever in our memories.

To you, it may be but a pleasant place to be, amused for an hour, and while the time away; to us it is a gleaming milestone along the journey of life, and the interest you show in us by coming to bid us God-speed on the way is most deeply and truly appreciated.

To those of you who have a personal interest in us as the boys and girls you have seen grow up from infancy, it means, of course, far more than to the chance guest to whom we appear but as strangers.

To those, too, who can remember, their own thoughts and emotions on similar occasions in their own lives, it will be a pleasant reminder of those

MEMBER National Editorial Association, Texas Press Association

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses.

Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

A THOUGHT FOR THE WEEK

Righteousness exalteth a nation.—Prov. 14:34.

Right is more beautiful than private affection, and is compatible with universal wisdom.—Emerson.

A TRIBUTE

€ You don't see as many of them now as you did in your younger years and yet memory will not permit you to forget them—the men who wore the Blue and the Gray. We associate them closely now, because they have come into a union of perfect understanding, and each year their fast-fading ranks remind us of the debt we owe them, as we pause on each Memorial day to pay our annual tribute to them.

We live in a busy age. The struggle for existence stops at no state boundary lines. North and South, East and West, we seek to do the tasks assigned us and, as good citizens, to honor the flag that floats above us all. Yet in this busy world we find time each year to lay our flowers on the graves of the Blue and the Gray, and to offer our smiles and our hand-clasps to the fast-fading ones who are still with us. Only a people firmly grounded in their love of country can do this. Only a nation made great through sacrifice can pause to pay an honest, loving tribute to those who made that sacrifice. This is America, united and unafraid, a nation of many races and many creeds, yet accepting the heroes of its own war as the greatest of them all.

There is no division of purpose now. As one nation, under one flag we come again to honor those who sacrificed that we might see the light and forever, through union, find comfort, and happiness, and liberty.

Littlefield joins her sentiments with those of every section of this great nation, as the hearts of our citizens breathe again love and honor for those who wore the Blue and those who wore the Gray. Memory of their sacrifices shall not perish. The heritage they have left us—a united and a happy nation—will not be forgotten in all the years to come.

Amble bouquets are said to be the latest fad. We may yet live to see knaves in bloom.

ENCOURAGING TOURISTS

€ New England is going to spend \$50,000,000 this year in improving her roads and making some new ones. Now study those figures, and let their meaning speak in.

New England wouldn't be spending this vast sum in a single year if she

didn't know it is a good investment and that she is going to get it back with interest. She has come to see the value of encouraging auto tourists to come into her midst. She knows that the better her roads the more of them will come, the more places they will visit and the more money they will spend. She is going after tourist trade—and she will get it. Any state will get it that builds roads over which the tourist can travel comfortably and speedily.

Tourists go home and tell their friends of their trip; their friends usually decide to follow them. They go, they are convinced and they in turn tell others. Thus new business is built up each year through good roads and good will. Littlefield will get a share of the tourist traffic this season—but we need more. Their money helps to make the whole nation prosperous. Let us keep this in mind, and let no one in the community be guilty of driving them away by opposing any measure that seeks to bring them here.

Lindbergh crossed the ocean in one jump; darkest Africa is now a flivver boulevard; the North Pole has been visited—but no one has discovered how to collect bad debts.

WHY LEVELLAND GROWS

€ During the past week there have been eight or ten voluntary members added to the roll of the Chamber of Commerce. These men have recognized the need of co-operation of the citizens to build a town as it should be built. They are willing to contribute a portion of their time and money to help carry on the work of development which can only be achieved through the united efforts of many. They do this, not in the spirit of philanthropy or altruism, with the idea that they are making a donation, but rather with a feeling that they are making a good investment, and one which will be as broad cast upon the water, and return tenfold.—Hockley Co. Herald.

It is just such spirit of genuine oyalty and interester team work that gives rapid development to any town. Levelland is to be congratulated on the high quality and enthusiastic energy of her citizenry. They are that type of people of which any thriving city may well be proud. The forward strides of Levelland are a good example for other cities of this section to emulate.

Italy has a law against shaking hands. It would play havoc with candidates if the United States should pass one like it.

AN EARLY FORECAST

€ Government crop reports just released forecast this country's wheat crop, now in the ground, at 73 per cent of normal. It also states that something like 30,000,000 acres have been abandoned to the crop since it was seeded. A large part of this having been planted in corn when the wheat failed to weather through the winter properly.

Speculators are sure to seize on this report, and there may be some wild scenes ahead in the wheat pit. But the Littlefield man who has any money to invest will think twice before gambling it away in the grain market.

This forecast, it should be remembered is for May. A lot of things can happen between now and harvest. It all depends on the weather—both wheat and corn crops—and the harvest may be far heavier than anticipated.

ARE YOU GUILTY?

€ We don't believe there is a motorist in Littlefield who would knowingly endanger the life of a fellowman. Neither do we believe he would jeopardize human life through carelessness if he would stop to think for a moment. And yet, human life is being needlessly menaced just now by poorly focused headlights. Lights on cars that have been driven all winter are in many instances out of focus.

Often, without the driver knowing it, they have become so focused that they cast a glare. No one has told them about it and they can't see when they are driving whether this is true or not. So they go on jeopardizing the lives of those who are driving toward them at night.

It is a simple matter to put your headlights in focus; it takes but a few moments to have it done. And those few moments may save not only some body else's life but the life of the one careless enough to neglect such an inspection. Is human life that cheap.

There are said to be 3,000 bootleggers in Washington City, but maybe that is only when Congress is in Session.

ANOTHER BENEFIT

€ Now comes L. H. Durst, A. & M. college engineer, who says that an automobile uses 44 per cent less gas-

oline when traveling over a hard surfaced pavement than is used on the average dirt road.

This is but another reason for street paving in Littlefield. There is also a considerable saving in tires—and religion, notwithstanding the plea of the Littlefield woman who likes to drive up and down our streets with her baby when it has the colic.

A New York editor says when a man has been in politics 10 years he is fit for nothing else. Is that a knock or a boast?

DID YOU EVER STOP TO THINK?

By Edson R. Waite, Secretary, Shawnee, Okla., Board of Commerce.

E. E. BRODIE, publisher of the Oregon City (Oregon) Morning Enterprise, says:

THAT students of advertising have come to recognize that newspapers are the most effective mediums.

Truthful and power-pulling copy placed in newspapers is sometimes more interesting than many of the news stories that grace the pages of the press.

Newspapers are read every day by every member of the family in every home. They are taken in doses at the table with the family meals.

Attractively designed advertisements in the newspapers carry an immediate and forceful appeal, keeping the name of the advertiser before the reader and stimulating the buying appetite.

The most successful business institutions in this country have grown great and prosperous by judicious and constant newspaper advertising. Prosperity is being achieved by the small town merchant, who is alive to his opportunities and covers his territory through his local newspaper, which has an intensive circulation in the field of business endeavor.

Show me a chronic non-advertiser and I will show you an ultimate business failure.

We overheard a Littlefield man say yesterday that about the only thing he gets on his radio is dust.

If a Littlefield girl is homely she consoles herself with the reflection that it's better to have brains than beauty.

The craze for "reducing" among women in Littlefield seems to be on the wane. The spirit may be willing but the flesh is weak.

Now and then we meet someone in Littlefield who doesn't seem to realize that a flea has as much right to live off of a person as persons have to live off of each other.

There's supposed to be a use for everything. But there's not a married man in Littlefield who can under-

HOW IS A NEWSPAPER LIKE A WOMAN?

The Fort Meade Leader propounded the query, "Why is a newspaper like a woman?" and offered a year's subscription for the best answer, which brought forth these replies:

Because you can believe everything they say; they are thinner than they used to be; they have forms; they have bold face dtypes; are easy to read; well worth looking over; back numbers are not much in demand; they are not afraid to speak their minds; they have a great deal of influence and if they know anything they usually tell it.

"Because they always have the last word and because they carry the news wherever they go."

The correct answer is: "Because every man should have one of his own and not run after his neighbor's.—Florida Newspaper News.

BAZE-TUTTLE
 Mrs. Bessie Baze and J. C. Tuttle
 were married in Lubbock, Saturday
 afternoon, by Rev. Walter Jennings,
 pastor of the First Christian church,
 that city. They were accompanied in
 the nuptial vows by Mr. and Mrs.
 Pat Boone.

Mr. Tuttle is traveling auditor for
 the John Deere Implement Co., and
 also is associated with his son in the
 ownership of an implement store at
 Enid, Oklahoma. For several years
 past he has made frequent business
 trips to Littlefield, where he is well
 and favorably known among business
 circles.

The bride has lived in Littlefield
 the past eight years during which time
 she has been a teacher in the primary
 department of the local public schools.
 In both church and social circles she
 has been one of the most popular
 women of the city, her talented and
 congenial disposition winning for her
 a great host of friends whose most
 hearty wishes for many years of fu-
 ture happiness accompany her as she
 goes with her husband to their future
 home.

Mr. Tuttle has put in about 30
 years on the road, and now feels he
 has earned a respite from his labors,
 so this fall he contemplates establish-
 ing a home for himself and bride in
 either Enid or Oklahoma City. Dur-
 ing the summer months his wife will
 accompany him on his trips for the
 company he represents.

HARMON-WEAVER
 Miss Roena Harmon and W. T.
 Weaver, of Amherst, were married
 here Saturday night at the Methodist
 parsonage. Those present were Paul
 Harmon, David Harmon and Misses
 Sara Weaver, Margaret Heckley, and
 Estelle Lyles.

Mr. and Mrs. Weaver left for Clo-
 vis, New Mexico, to spend a few days.
 They will make their home in Am-
 herst.

A VALID SUGGESTION

Parties building homes or making
 resident improvements should bear in
 mind the city requirements in certain
 respects.

In the residence district the ordi-
 nance requires that sidewalks shall be
 of brick, concrete or other stable
 material, not including wood; that
 they shall be built one foot from the
 property line; the walk shall be four
 feet wide, leaving five feet from the
 outside edge of the walk to the curb
 line to be used for grass, flowers, etc.
 The planting of trees should be in ac-
 cordance with these specifications.

STEWART PLEADS GUILTY

D. D. Stewart, of Littlefield, was
 arrested Wednesday of last week by
 Sheriff Len Irvin on a charge of pos-
 sessing beer. He pleaded guilty, pay-
 ing a fine of \$25.00 and costs. Fif-
 teen full bottles of beer and several
 empty ones were obtained in the

house, according to Irvin.
 Irvin also went to Trent last Fri-
 day after G. L. Bullard, charged with
 selling intoxicating liquor. He gave
 bond and was released.

**HOCKLEY CO. CELEBRATES
 POSTING OF LEGAL NOTICE**

The passing of a mile stone in the
 progress of Hockley County was cele-
 brated in the new court house on
 Wednesday 15 with appropriate cere-
 mony, when Sheriff Jim Stroud, Dep-
 uty Benbow, Attorney Frank Potter,
 and Dr. A. M. Chambers jointly post-
 ed the first legal notice on the bulletin
 board of that structure. It is re-
 ported that Mr. Benbow drove the
 first tack and in lieu of the silver
 hammer customarily used in ceremon-
 ies of this kind a capable thumb was
 substituted. Each of the others then
 placed a tack and the proceedings
 were complete.—Hockley County Her-

Years of Service in Model T Fords

*Expenditure of few dollars may
 enable you to get thousands of miles
 from your old car*

THE Model T Ford is still a great car. It led the motor industry for twenty years and it is used today by more people than any other automobile. More than eight million Model T Fords are in active service in city, town and country, and many of them can be driven for two, three and five years and even longer at very small up-keep expense.

The cost of Model T parts and of necessary labor is unusually low because of established Ford policies.

New fenders, for instance, cost from \$3.50 to \$5 each, with a labor charge of \$1 to \$2.50. Tuning up the motor and replacing commutator case, brush and vibrator points costs only \$1, with a small charge for material. Brake shoes can be installed and emergency brakes equalized for a labor charge of only \$1.25. A labor charge of \$4 to \$5 will cover the overhauling of the front axle, rebushing springs and spring perches, and straightening, aligning and adjusting wheels.

The labor charge for overhauling the average rear axle runs from \$5.75 to \$7. Grinding valves and cleaning carbon can be done for \$3 to \$4.

A set of four new pistons costs only \$7. For a labor charge of \$20 to \$25 you can have your motor and transmission completely overhauled. Parts are extra.

All of these prices are approximate, of course, because the cost of materials needed will depend on the condition of each car. They show, however, the low cost of putting the Model T Ford in shape for thousands of miles of additional service.

See the nearest Ford dealer, therefore, and have him estimate on the cost of re-conditioning your Model T Ford. He will tell you, in advance, exactly how much the complete job will cost.

North and South, East and West, we seek to do the tasks assigned us and, as good citizens, to honor the flag that floats above us all. Yet in this busy world we find time each year to lay our flowers on the graves of the Blue and the Gray, and to offer our smiles and our hand-clasps to the fast-fading ones who are still with us. Only a people firmly grounded in their love of country can do this. Only a nation made great through sacrifice can pause to pay an honest, loving tribute to those who made that sacrifice. This is America, united and unafraid, a nation of many races and many creeds, yet accepting the heroes of its own war as the greatest of them all.

There is no division of purpose now. As one nation, under one flag we come again to honor those who sacrificed that we might see the light and forever, through union, find comfort, and happiness, and liberty.

Littlefield joins her sentiments with those of every section of this great nation, as the hearts of our citizens breathe again love and honor for those who wore the Blue and those who wore the Gray. Memory of their sacrifices shall not perish. The heritage they have left us—a united and a happy nation—will not be forgotten in all the years to come.

Ankle bouquets are said to be the latest fad. We may yet live to see knees in bloom.

ENCOURAGING TOURISTS

New England is going to spend \$50,000,000 this year in improving her roads and making some new ones. Now study those figures, and let their meaning speak in.

New England wouldn't be spending this vast sum in a single year if she

didn't know it is a good investment and that she is going to get it back with interest. She has come to see the value of encouraging auto tourists to come into her midst. She knows that the better her roads the more of them will come, the more places they will visit and the more money they will spend. She is going after tourist trade—and she will get it. Any state will get it that builds roads over which the tourist can travel comfortably and speedily.

Tourists go home and tell their friends of their trip; their friends usually decide to follow them. They go, they are convinced and they in turn tell others. Thus new business is built up each year through good roads and good will. Littlefield will get a share of the tourist traffic this season—but we need more. Their money helps to make the whole nation prosperous. Let us keep this in mind, and let no one in the community be guilty of driving them away by opposing any measure that seeks to bring them here.

Lindbergh crossed the ocean in one jump; darkest Africa is now a flivver boulevard; the North Pole has been visited—but no one has discovered how to collect bad debts.

WHY LEVELLAND GROWS

During the past week there have been eight or ten voluntary members added to the roll of the Chamber of Commerce. These men have recognized the need of co-operation of the citizens to build a town as it should be built. They are willing to contribute a portion of their time and money to help carry on the work of development which can only be achieved through the united efforts of many. They do this, not in the spirit of philanthropy or altruism, with the idea that they are making a donation, but rather with a feeling that they are making a good investment, and one which will be as broad cast upon the water, and return tenfold.—Hockley Co. Herald.

It is just such spirit of genuine loyalty and interested team work that gives rapid development to any town. Levelland is to be congratulated on the high quality and enthusiastic energy of her citizenry. They are that type of people of which any thriving city may well be proud. The forward strides of Levelland are a good example for other cities of this section to emulate.

Italy has a law against shaking hands. It would play havoc with candidates if the United States should pass one like it.

AN EARLY FORECAST

Government crop reports just released forecast this country's wheat crop, now in the ground, at 73 per cent of normal. It also states that something like 30,000,000 acres have been abandoned to the crop since it was seeded. A large part of this having been planted in corn when the wheat failed to weather through the winter properly.

Speculators are sure to seize on this report, and there may be some wild scenes ahead in the wheat pit. But the Littlefield man who has any money to invest will think twice before gambling it away in the grain market.

This forecast, it should be remembered is for May. A lot of things can happen between now and harvest. It all depends on the weather—both wheat and corn crops—and the harvest may be far heavier than anticipated. Betting on what a short average

ARE YOU GUILTY?

We don't believe there is a motorist in Littlefield who would knowingly endanger the life of a fellowman. Neither do we believe he would jeopardize human life through carelessness if he would stop to think for a moment. And yet, human life is being needlessly menaced just now by poorly focused headlights. Lights on cars that have been driven all winter are in many instances out of focus.

Often, without the driver knowing it, they have become so focused that they cast a glare. No one has told them about it and they can't see when they are driving whether this is true or not. So they go on jeopardizing the lives of those who are driving toward them at night.

It is a simple matter to put your headlights in focus; it takes but a few moments to have it done. And those few moments may save not only some body else's life but the life of the one careless enough to neglect such an inspection. Is human life that cheap.

There are said to be 3,000 bootleggers in Washington City, but maybe that is only when Congress is in Session.

ANOTHER BENEFIT

Now comes L. H. Durst, A. & M. college engineer, who says that an automobile uses 44 per cent less gas-

oline when traveling over a hard surfaced pavement than is used on the average dirt road.

This is but another reason for street paving in Littlefield. There is also a considerable saving in tires—and religion, notwithstanding the plea of the Littlefield woman who likes to drive up and down our streets with her baby when it has the colic.

A New York editor says when a man has been in politics 10 years he is fit for nothing else. Is that a knock or a boost?

DID YOU EVER STOP TO THINK?

By Edson R. Waite, Secretary, Shawnee, Okla., Board of Commerce.

E. E. BRODIE, publisher of the Oregon City (Oregon) Morning Enterprise, says: THAT students of advertising have come to recognize that newspapers are the most effective mediums.

Truthful and power-pulling copy placed in newspapers is sometimes more interesting than many of the news stories that grace the pages of the press.

Newspapers are read every day by every member of the family in every home. They are taken in doses at the table with the family meals.

Attractively designed advertisements in the newspapers carry an immediate and forceful appeal, keeping the name of the advertiser before the reader and stimulating the buying appetite.

The most successful business institutions in this country have grown great and prosperous by judicious and constant newspaper advertising. Prosperity is being achieved by the small town merchant, who is alive to his opportunities and covers his territory through his local newspaper, which has an intensive circulation in the field of business endeavor. Show me a chronic non-advertiser and I will show you an ultimate business failure.

FOR WORKING PEOPLE

The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. HOW IS A NEWSPAPER LIKE A WOMAN?

The Fort Meade Leader propounded the query, "Why is a newspaper like a woman?" and offered a year's subscription for the best answer, which brought forth these replies:

Because you can believe everything they say; they are thinner than they used to be; they have forms; they have bold face types; are easy to read; well worth looking over; back numbers are not much in demand; they are not afraid to speak their minds; they have a great deal of influence and if they know anything they usually tell it.

"Because they always have the last word and because they carry the news wherever they go."

The correct answer is: "Because every man should have one of his own and not run after his neighbor's."—Florida Newspaper News.

BAZE-TUTTLE
 Mrs. Bessie Baze and J. C. Tuttle
 were married in Lubbock, Saturday
 afternoon, by Rev. Walter Jennings,
 pastor of the First Christian church,
 that city. They were accompanied in
 the nuptial vows by Mr. and Mrs.
 Pat Boone.

Mr. Tuttle is traveling auditor for
 the John Deere Implement Co., and
 also is associated with his son in the
 ownership of an implement store at
 Enid, Oklahoma. For several years
 past he has made frequent business
 trips to Littlefield, where he is well
 and favorably known among business
 circles.

The bride has lived in Littlefield
 the past eight years during which time
 she has been a teacher in the primary
 department of the local public schools.
 In both church and social circles she
 has been one of the most popular
 women of the city, her talented and
 congenial disposition winning for her
 a great host of friends whose most
 hearty wishes for many years of fu-
 ture happiness accompany her as she
 goes with her husband to their future
 home.

Mr. Tuttle has put in about 30
 years on the road, and now feels he
 has earned a respite from his labors,
 so this fall he contemplates establish-
 ing a home for himself and bride in
 either Enid or Oklahoma City. Dur-
 ing the summer months his wife will
 accompany him on his trips for the
 company he represents.

 Miss Roena Harmon and W. T.
 Weaver, of Amherst, were married
 here Saturday night at the Methodist
 parsonage. Those present were Paul
 Harmon, David Harmon and Misses
 Sara Weaver, Margaret Heckley, and
 Estelle Lyles.

Mr. and Mrs. Weaver left for Clo-
 vis, New Mexico, to spend a few days.
 They will make their home in Am-
 herst.

A VALID SUGGESTION

Parties building homes or making
 resident improvements should bear in
 mind the city requirements in certain
 respects.

In the residence district the ordi-
 nance requires that sidewalks shall be
 of brick, concrete or other stable
 material, not including wood; that
 they shall be built one foot from the
 property line; the walk shall be four
 feet wide, leaving five feet from the
 outside edge of the walk to the curb
 line to be used for grass, flowers, etc.
 The planting of trees should be in ac-
 cordance with these specifications.

STEWART PLEADS GUILTY

D. D. Stewart, of Littlefield, was
 arrested Wednesday of last week by
 Sheriff Len Irvin on a charge of pos-
 sessing beer. He pleaded guilty, pay-
 ing a fine of \$25.00 and costs. Fif-
 teen full bottles of beer and several
 empty ones were obtained in the

house, according to Irvin.
 Irvin also went to Trent last Fri-
 day after G. L. Bullard, charged with
 selling intoxicating liquor. He gave
 bond and was released.

 brated in the new court house on
 Wednesday 15 with appropriate cere-
 mony, when Sheriff Jim Stroud, Dep-
 uty Benbow, Attorney Frank Potter,
 and Dr. A. M. Chambers jointly post-
 ed the first legal notice on the bulletin
 board of that structure. It is re-
 ported that Mr. Benbow drove the
 first tack and in lieu of the silver
 hammer customarily used in cere-
 monies of this kind a capable thumb was
 substituted. Each of the others then
 placed a tack and the proceedings
 were complete.—Hockley County Her-

Years of Service in Model T Fords

*Expenditure of few dollars may
 enable you to get thousands of miles
 from your old car*

THE Model T Ford is still a great car. It led the motor industry for twenty years and it is used today by more people than any other automobile. More than eight million Model T Fords are in active service in city, town and country, and many of them can be driven for two, three and five years and even longer at very small up-keep expense.

The cost of Model T parts and of necessary labor is unusually low because of established Ford policies.

New fenders, for instance, cost from \$3.50 to \$5 each, with a labor charge of \$1 to \$2.50. Tuning up the motor and replacing commutator case, brush and vibrator points costs only \$1, with a small charge for material. Brake shoes can be installed and emergency brakes equalized for a labor charge of only \$1.25. A labor charge of \$4 to \$5 will cover the overhauling of the front axle, rebushing springs and spring perches, and straightening, aligning and adjusting wheels.

The labor charge for overhauling the average rear axle runs from \$5.75 to \$7. Grinding valves and cleaning carbon can be done for \$3 to \$4.

A set of four new pistons costs only \$7. For a labor charge of \$20 to \$25 you can have your motor and transmission completely overhauled. Parts are extra.

All of these prices are approximate, of course, because the cost of materials needed will depend on the condition of each car. They show, however, the low cost of putting the Model T Ford in shape for thousands of miles of additional service.

See the nearest Ford dealer, therefore, and have him estimate on the cost of re-conditioning your Model T Ford. He will tell you, in advance, exactly how much the complete job will cost.

MILL AT AMARILLO HAS COMPLETED \$250,000 ADDITION

With the completion last week of the towering elevator and group of storage bins pictured on the left in the above sketch, the Great West Mill & Elevator Company's plant at Amarillo becomes one of the largest in the Southwest. This new addition increases the storage capacity of the mill from 500,000 to 1,300,000 bushels. The original plant of the company was built in Amarillo in 1912 at a cost of approximately \$750,000. This new addition, the mill represents an investment of about \$1,000,000. The manufacturing capacity is 800 barrels of flour daily, with facilities for the handling of 110 carloads every 24 hours. Their products are handled here by Walter Burton.

UTILITIES COMPANY ENLARGE SYSTEM BY PURCHASING AMARILLO FRANCHISE AND SUPER-POWER PLANT

properties of the Southwestern service company, operating utility plants in Amarillo and Panhandle and New Mexico have been purchased by The Utilities company and the New Utilities company.

Two latter companies are owned by same interests, and operate in Panhandle-Plains and New Mexico points.

Transfer of the properties will be made on July 1.

Announcement of the sale was made Saturday in Amarillo by L. L. Ferree, general manager of the Southwestern Public Service company, and Judge I. R. Kelso of St. Louis, president of the Texas Utilities Company. The merger brings 57 Texas and

New Mexico cities into an interconnected utility system, with high-tension lines running from Pampa on the north to Carlsbad, New Mexico, and east and south into Texas to Lubbock Post and Floydada.

It will give the 43 cities in which the Texas Utilities company has been operating a connection with the \$2,000,000 super power plant erected in Amarillo last year by the Southwestern Public Service company, and which generates its power by gas from the Panhandle field north of Amarillo. A 20-mile link in this high-tension line is now being constructed between Amarillo and Canyon.

It Points to extra miles

THE indicator on your gasoline gauge tells the story of Conoco's extra miles far better than millions of words could tell it. And the indicator is a slow mover when you use Summer Conoco—because you go so far with so little gasoline.

Is it any wonder that Summer Conoco Gasoline enjoys such overwhelming popularity? If you're looking for more mileage, you won't have to look far. You can get it at any Conoco pump—at convenient locations everywhere.

A Tribute

The first monument to Cyrus H. McCormick, inventor of the first practical reaper, has just been unveiled at Raphine, Rockbridge County, Virginia, only a few feet from the old workshop where he created his first machine in 1831. The monument was erected by members of the student branch of the American Society of Agricultural Engineers at the Virginia Polytechnic Institute.

Mr. Ferree and Judge Kelso declined to make any estimate of the valuations of the Southwestern Public Service company's properties, but they are generally estimated to be worth upwards of \$4,000,000.

The merger in effect, links the Amarillo and North Panhandle cities with the South Plains in a system of high-tension power lines which will be fed from the Amarillo super-power plant.

"The merger of Southwestern Public Service Company and Texas Utilities Company and New Mexico Utilities Company has long been anticipated by the people of this territory, because it has always seemed to be the logical step for these companies to take," said Judge Kelso.

Judge Kelso, whose home is in St. Louis, has long been identified with the public utility industry in the Texas Panhandle, having organized the Texas Utilities Company in 1915 and been in continuous direction of its affairs since that time. He also organized New Mexico Utilities Company in 1925.

He is well known in Littlefield and the record of himself and his associates in building up and assisting in the development of the South Plains furnishes ample assurance to the people now served of continued devotion to the interest of their communities and with public utility service second to none."

TO BRIGHTEN RUGS

To bring out the color of rugs and carpets, brush them up with a mixture of a cup of vinegar to a gallon of water.

For general sweeping, dry salt scattered on the carpet also helps to preserve colors and to check the ravages of moths.

R. L. Mayhew and family, accompanied by M. P. Burt, left Tuesday morning for Hot Springs, New Mexico where Mr. Mayhew will take treatment for rheumatism.

When the fountain pen leaks don't worry. Rub the stained fingers with

No man can afford to drive a car without Public Liability Insurance.

If your car is burned or stolen you know exactly what you have lost. If you injure a child or an old person it may cost you your entire savings, after litigation and the incident expense lasting years.

Public Liability is a Service Charge more than mere Insurance. In event of an accident an attorney's fee, simply to appear in court and deny the charge, would cost you several times the amount of an annual premium for Public Liability Insurance, not to mention a possible judgment against you.

If there are four persons in the other car and you happen to be alone, right or wrong you have four chances to one to lose a suit.

We furnish the highest quality of legal service, and have Millions of Dollars back of us to defend the suit and pay the bill when it is required. What's the use of tempting fate for the few dollars that a Public Liability Policy will cost you?

See us and sleep easy tonight.

DID YOU KNOW?

—THAT from the 1927 crop there has been shipped from Littlefield alone 985—nine hundred and eighty-five—cars of grain, and nine thousand bales of cotton—and adjoining towns around Yellow House lands have also shipped hundreds of cars of grain.

—THAT Littlefield shipped 25,000 bales of cotton from the 1926 crop, and 16,152 bales of this was ginned in Littlefield.

—THAT Littlefield has a large cotton compress, which was erected in 1927, and handled 25,000 bales the first season.

—THAT contract has been let for paving the streets of Littlefield.

—THAT purchasers of Yellow House lands will have the advantage of good schools and free transportation for their children.

—THAT in competition with twenty other West Texas towns, Littlefield was selected as the most desirable location for Gunter College, which means much to the town and surrounding country.

—THAT more than eighty miles of road has been graded on Yellow House lands in the past twelve months.

—THAT the Littlefield country is in the center of one of the best diversified farming sections of Texas and offers unusual opportunity to the man who wants a real home where he can make good and give his children the advantages every father and mother wants them to have.

—THAT the Littlefield section is fast filling up with the best of citizenship where the agricultural, dairying and poultry interests are growing more rapidly than in any other portion of Texas.

"Development and Progress" is the slogan of the people. The South Plains needs you and you need it!

Our 100 per cent agricultural lands in center of development—\$30.00 and \$35.00 per acre. Combination farm and dairy tracts from \$15.00 to \$25.00 per acre. Liberal terms—six per cent interest.
